Shall Quebec Call the Tune?

Canada in the persons of those Canadians who recognize Canada as ne of the nations of the earth, ranged with the other nations in the justest cause which ever gathered a host together to oppose and conquer an armed tyranny, has subscribed much over four hundred million dollars carry the fight on to victory.

Quebec as a province has a population of at least one-fourth or onehird of the whole Dominion, but Quebec's contribution to the Victory Loan is only five per cent. of the total and it includes the subscriptions of large corporations which draw their revenues from the whole of Canada. The voluntary participation of Quebec in the war amounts to 46,777 actual enlistments up to July 15 last, as compared with 184,545 from Ontario. The percentage of enlistments for Quebec is 11.97, as compared with 31.70 for Ontario. The obvious as well as the admitted reason for the failure of Quebec to participate in the Victory Loan to a greater extent, or to show more interest in voluntary recruitment, is simply that Quebec's heart is not in the war and is careless whether Germany establishes a military tyranny over the earth or not. Denials in words do not wipe out the

Now Quebec thru her leaders sets up her claim to dominate the rest of the Dominion in respect to the military policy of the Canadian people, \$201,555,500 their stand with the other nations of the earth, the support to be given \$407,344,700 to the Canadian army, and also the right to control the spending of the ber of subscribers .. 707,113 four hundred millions, less five per cent., which the rest of Canada has G. South York Appeals.

Judge Coatsworth has set Monday next at 10.30, in court room number two at the city hall, as the time and place when he will deal with appeals from the electors of the city sections of South York whose names have not been placed on the voters' lists. Appellants must appear in person except in special cases. If an appellant finds it impossible to attend the court, a fully qualified voter can appear for him or for her as the case may be. But the judge will be most strict in such cases, and the person appearing for the appellant must know the person so intimately as to be able to enter the witness box and swear to his answers to the questions asked. In other cases where an appellant finds it impossible to attend or to get a fully qualified voter to be at the city hall, the appeals will be dealt with on their merits.

But it is imperative that appellants be at the city hall in person if at all possible. Every vote is needed in South York, and anyone who has been missed should get an appeal form and put in an appeal.

In the portions of South York not in the city enumerators are at their headquarters two hours every day for the purpose of hearing appeals. They may add names at their discretion, so that it is only in the city portions of the riding where appeals are to be heard at the city hall.

TWO BRITISH DIVISIONS BEAT TWENTY GERMAN

"Country Woman." — Lamp shades an "oddity"? They're a comm-odity—as essential to a room, nowadays, as carpets and chairs. You will have not the least difficulty in finding one in either brown or green silk—personally one would advise amber yellow. If the ready-frames are not suitable—to be had in the two most usual sizes in shirred silk edged with fringe of the same tone at \$5.75 and \$6.50—you could have one made to order. A plain round frame 16 inches from side to side at the lower edge would be \$6.50, and others in larger sizes and fancy shapes from \$8.50 to \$15.00. With the aid of a rim and a wire support such a frame can be used as well on a lamp that burns oil as on one wired for electricity. So there you are!

Miranda.—Almost as bad as our friend Mrs. Jellyby of Bleak House fame, not being able to find the kettle. But the 17th will soon be over, and you'll have time to take up your broom and duster again. As for that particular present which is so disturbing you, why not solve the problem with a book? I should think that, under the circumstances, you couldn't find anything more appropriate. What about More Letters From Billy (\$1 00), by the author of A Sunny Subaltern? Or lan Hay's All In It: K I Carries On? (\$1.25). For the more temperamental Anne one would suggest the poems of Ralph Hodgson (75c), Fairy Tales by Lord Dunsany (\$1.35), or the Collected Poems of Rupert Brooke (\$1.35):

A. M. M.—Plain sand-color walls would look well in that nice sunshiny room—with curtains of coppery brown serge or casement cloth (heavy weave) and covers of old blue repp or monk's cloth on the walnut chairs. The Oriental rug would supply all the pattern the room would require. Of course, you would have to work the scheme out with a couple of picturesque out would have to work the scheme out with a couple of picturesque lamp shades, copper and blue silk sofa pillows and some interesting bowls for your plants and ferns. Or, discarding this proposition altogether, you might have Delft blue walls, and use a black and rose thintz for covers and curtains—one of the old-fashioned bird patterns. Which appeals to you most?

Godmother.—Would it not be a good idea to start something going, like a set of Stevenson, or siling, like a set of Stevenson, or silver for her dressing table, or brass for her writing desk? You might begin now with a couple of volumes, brush and comb, or blotting pad and ink well, and then follow up with the rest on succeeding birthdays and Christmases, until the set is complete. I'm sure the "Dear" would be pleased with the arrangement.

The Austrian, like the German Government, has been secretly conniving at peace Centonstrations in order to influence the soft-headed among the allied peoples towards a settlement, to create a favorable opinion among the allies towards having pity on the enemy and ietting him off easily before inflicting a minitary defeat. This is a part of the German propaganda. Berlin, which can, if it desires thru the strict censorship established, suppress the news of any peace demonstration, actively supports the spreading of such news agroad. He was connected with the 48th Highlanders, and on one occasion while engaged in a bombing expedition had his kilt completely blown off, but was uninjured.

The inter-allied war conference at Paris has set up a supreme inter-allied naval committee. This act suggests that the allies are proposing to make more and better use of their naval superiority. The creation of a body of this sort has received support from leaders of naval affairs ever since the beginning of the war. The high command of the fleets will now work together with the high command of the armies. On the political side, the American determination to wage war against Austrian comes at an opportune moment to influence the Russian people. At a time when the puppets of Germany are dominating Petrograd and wire-puling for a separate peage, a powerful nation shows its determination to proceed with the war to a triving which stands in its way. The allied availators will drop this address of the president in Germany, and Ambassador Francis will distribute it in Russia. WEDNESDAY MORNING, DEC. 5.

The Issue of the Election.

There is nothing the Laurier opposition offers to the electors that the Union government does not offer, and there is one thing that the Laurier opposition fails to offer. That one essential thing is the support of the Canadian army at the front. Canada now stands ranked with the great and progressive nations of the world. There never was such a federation before in history. Read the list-Serbia, Russia, France, Great Britain, Canada, Australia, New Zealand, South Africa, Newfoundland and all the other colonies, Montenegro, Japan, Belgium, Italy, San Marino, Portugal, Rumania, Greece, Cuba, Arabia, Panama, Siam, Liberia, China, Brazil and the United States. The effect of the Laurier opposition policy would be to lift the name of Canada from this list of the active participants in the war on the side of liberty and justice.

There are many who protest that such would not be the case. Among these there are many who were clamoring for conscription a year or more ago, but who for purely partisan political reasons, when Sir Robert Borden announced his adhesion to the principle of compulsory service, changed front and opposed it. There is no question of the need of compulsory service. All the great nations outside the empire have it. Britain found that she must have it or yield. In Canada voluntary enlistment has been totally inadequate for the requirements of the army for nearly two years. The present reserves would not cover the wastage till spring. Without compulsory service nothing is more certain than that Canada would have to withdraw her army, or permit its remnants to be merged in other British units and lose its separate

There has been much talk about national feeling in some parts of Canada, especially in Quebec, but no deadlier blow could be struck against the self-respect, the individuality, the nationhood of Canada, than to compel our army to quit the fight in the world-war because the folks at home would not continue to reinforce it. The nation that would do this would go down in history as the most contemptible on either side of the gigantic struggle.

The issue of the election is immediate support of the army, and the Laurier opposition refuses it.

\$11 a Ton for Coal.

As far as can be learned Mr. R. W. Harris, the coal controller for Ontario, is responsible for the price of \$11 a ton charged for coal to the residents of Earlscourt. President Wilson has just authorized an inmore drastic control over exports, for improvement of call, and much better prices had court. President Wilson has just authorized an in- more drastic control over exports, for improvement of call, price of 35 cents a ton at the mines for anthracite coal to meet a rise in wages. None of this coal can have reached Toronto yet. Coal elsewhere in the city is sold at \$9.50, and fifty cents a ton is the permitted profit to the dealers.

Expense of delivery is no greater to Earlscourt at present than it was a month ago; and there does not appear to be any reason why Earlscourt, of all sections of the city, should be singled out for profiteering of this character. Had it been Rosedale we might have borne it, but the fuel controllers appear to have

As that principle was not originally applied to material things like coal or money, but to talents, it might seem that those who do not exercize their talents for fuel controlling to better advantage than they do might have taken away from them even that which they have.

It was never intended when control of the fuel situation was inaugurated that discriminations of any kind should be countenanced, and least of all in a city like Toronto, against those least able to bear it. The authorities should understand that a condition of this sort militates far more against the government than all the theoretical policies put forward in dis-

Kitchener Apologizes.

Kitchener's city council has succumbed to the pressure of public opinion, expressed its regret, and sent an apology to Sir Robert Borden for the misbehavior of its pro-German hoodlums. The aldermen had not the good grace to do this at first, but have been compelled on the representations of the merchants and manufacturers of the city to take this action. The name of the place began to stink in the nostrils of the people of the Dominion, and business men announced their refusal to deal with a community hat sanctioned such conduct either actively or tacitly.

The cry of Germans over all is a false one, as the ery that would set any race over all is a false one. In the twentieth century people who adopt this separative attitude, whether it be Prussians on the Spree, or Germans in Kitchener, or French in Quebec, are out of touch with the spirit of the age, which is deprofess sympathy with Prussian aims and Prussian measures cannot expect to possess the respect of the general citizenship of an enlightened community, and a boycott is the natural and unpremeditated result of the exhibition of such sympathy.

Kitchener is fortunate in being in an enlightened and civilized nation like Canada. There would have and civilized nation like Canada. There would have been sterner reprisals than a boycott in some of the in the year 1837. As he walked daily past the smithy and the simple comfortable home of the blacksmith, he score of nations that are fighting for the freedom of came to watch and know the kindly man. It the world. as many of the Laurier Liberal doctrines as he thinks may be disguised by the Labor banner.

The Independent Labor party has professed to be outside the control of any other party, and for the most part its candidates have been bona fide labor men, truly representing labor interests and labor principles, secure from the socialistic red flaggers, and Commissioner of Agriculture pledged to a win-the-war policy.

Mr. Roebuck has failed as a Liberal in previous elections, probably because he was not a genuine Liberal. He is pretty certain to fail in the present contest in Timiskaming because he is not a genuine Labor man. If Mr. Roebuck announced himself as a Socialist he would obtain more respect, but if he has not the courage of his opinions he cannot expect to invoke Thousands Pouring Into Godman, Ostrander; A. W. Tyson, Guelph; W. Rose, Teeswater; Mr. McNeil, J. H. Saunders, R. Oke and the courage that wins victories.

It would seem, however, that Mr. Roebuck would be quite willing to fight under any banner that offered him an opportunity to beat Hon. Frank Cochrane. It was a forlorn hope to attack the seat as a Laurier Liberal. It was a foriorner hope to attempt it as a Socialist. No local Labor man would undertake the desperate adventure, but Mr. Roebuck has raised his horny hands and rushed forward to the fray,

There is no thought or intention of subjugating the German people or pursuing them after the war with vindictive animosity.

The outrages by the German Government which drove the United States to war are declared to be odious and obvious. The war having been entered upon will not be abandoned or for a moment suspended until it is won, and to those who wish to know when the president will consider the war won he says:

"We shall regard the war only as won when the German people say to us, thru properly accredited representatives, that they are ready to agree to a settlement based upon justice and the reparation of the wrongs their rulers have done." SLASHING PLAYER-LIMIT TO EIGHTEEN

National and American Baseball Leagues Agree on the Reduction.

Chicago, Dec. 4.—Club owners of the National and American Leagues will meet here in joint session Dec. 13 to adopt a policy to pursue in connection with the war. This announcement was made tonight by August Herrmann, president of the National Basebail Commission, after a conference with President Ban Johnson of the American League. Mr. Herrmann said that the meeting was arranged so that neither of the leagues "would pull in the wrong direction." The National Leaguers will hold their annual meeting in New York on Dec. 11 and will come west to meet the American League Club owners, who are to hold their annual session here a day later.

Slashing the player limit to eighteen mean devision of the contract of the feet of the state of the stat

the American League Club owners, who are to hold their annual session here a day later.

Slashing the player limit to eighteen men, devising a plan to collect the federal war tax, limiting the training season to two or possibly three weeks, and the possible shortening of the schedules will be among the important questions for cons deration.

"Baseball faces a critical situation." Herrmann said, "and a joint meeting will produce the desired results. The only thing to do is to put the cards on the table and settle every question confronting the two leagues.

"The club owners in both organizations have different views to express in regard to the player limit, the schedule and other issues, and a joint session will, I think, iron everything out satisfactorily. We must have unity of operation if baseball is to survive."

Collecting the ten per cent. war tax, which the baseball public will be obliged to pay is one of the big problems confronting the two leagues. Chairman Herrmann estimated that the sport would contribute approximately \$500,000 to the war next season. President Johnson, basing his figures on the attendance at Cleveland last season, said that each club in the American League will turn over about \$30,000 to the government in taxes. The Cleveland Club finished second to the championship Chicago Club ir the point of attendance. Its receipts were close to \$350,000.

Mr. Herrmann sald that he would recommend a player limit of 18 men, but that he would oppose a 140-game schedule.

President John K. Tener of the National League announced to insight that he

be held tomorrow morning, and it is expected that last season's team will be intact. The men now in Montreal ready to practice are: Berlinquette, Vezina, Couture, Pitre, Laviolette, Corbeau and Newsy Lalonde, who is the playing manager.

In settling up the estate of the late Robert B. Ward, one of the leading backers of the Federal League, it is said that his baseball losses amounted to nearly \$1,500,000. Mr. Ward was induced to invest money in the outlaw venture by showing him the receipts and attendance figures in various world series. He had little or no practical knowledge of the baseball business, but he was led to believe he could make the major leagues quit by a large expenditure of cash. Mr. Ward's pride and courage kept him in the game long after he had become convinced that his investments were hopeless. His great losses proved beyond peraduenture that there was no room for the Federal League, a point that will be made clear when the new ball suit against organized baseball comes to trial.

Zone of Final Drive.

The Monte Monfenera-Montello section demands especial attention, for the indications are that this is where the enemy is placing his chief dependence upon making his final drive before the mountain snows become so heavy as to block him from further enforcements.

In the middle Plave sector, where the bridging attempt is in progress, he enemy has already constructed il-bridges to the middle ground of Grave le Papadopoli. This is not considered de Papadopoil. This is not considered a serious menace, as the island is still separated from the west bank of the river by a channel as wide as most of the main stream. Similar my attempts at bridging are in sress on the lower Piave. where ontoon structures are set up daily and shelled down by Italian land and abal batteries. Here also the bridges e not considered seriously to menand up against the Italian fire, as they lead to the inundated triangle and are fronted by the additional bar-ler of the old bed of the Plave Rivor, separating the enemy from the land lines on the west bank.

It is the pressure on the nerves by the blood rushing to the inflamed muscle or joint that makes you ache. So when Sloan's Liniment relieves the swollen blood vessels by setting up a counter-irritant on the surface, the circulation is equalized, sympa-thetic nerves all soothed, and sore-

ness or lameness disappears. Physicians prescribe many counterirritants. Sloan's Liniment is probably the counter-irritant most widely used to overcome painful inflammation in cases of neuralgia, sore muscles, wrenched joints, strains, truises, gout. For Acid Stomachs Use Magnesia

Quickly Stops Sour Burning Feeling and Makes Digestion Painless. The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles is due to the fact that it stops food fermentation and neutralizes the acid—the direct cause of nearly all stemach troubles. Of the many rates, carbonates, sulphates, etc., the most suitable and efficient, and the one prescribed by leading specialists, is bisurated magnesia, a teaspoonful of which surated magnesia, a teaspoonful of which in a little warm water immediately after eating will instantly neutralize the acid, stop fermentation and thus ensure painless normal digestion. Care should be taken to get bisurated magnesia, ag its action is infinitely more effective. It is also, by the way, usually stocked by draggists in convenient compressed tablets as well as in the ordinary powder form. Stomach sufferers and dyspeptics who follow this plan and avoid the use of peps n. charcoal, soda mints, drugs and medicines are invariably astonished to find that the stomach, relieved of the irritating acid and gas, soon regains its normal tone, and can do its work slone without the doubtful aid of artificial digestants.

He praised the Liberals and Conservatives in the cabinet and said they were working for the best interests of Canada and nothing else. He said that Sir Wil-frid Laurier could not find better men in all Canada if ever again he were called on to form a cabinet. It was Stockholm, Dec. 4.—The pro-German, press in Sweden is greatly elated over the report that Lieut.—Col. Wm. C. ALL REAL FARMERS TO GAIN EXEMPTION

General Mewburn announces the following:

All farmers coming within class A called out for military service under the provisions of the Military Service Act, who are actually employed on a farm in the production of foodstuffs for Canada and her allies, and whose services are necessary in the work of such farm, will be exempted from military service. If their claim for exemption is not allowed by a tribunal an immediate appeal should be made Arrangements are being made to extend the time for such appeals. The minister of militia further states that if a farmer so called out for military service, who is honestly employed in the production of foodstuffs, should be drafted into the army, General Mewburn feels that it will be his duty to relieve him from military service on the whose services are necessary in the work of such farm, will be exempted from military service. The Union forces are marching to victory in Manitoba with old political opponents in hearty co-operation. Hon. Arthur Meighen, minister of the interior, an old line Tory; Premier Norris, a lifelong Liberal, and Hon. T. A. Crerar, minister of agriculture, and a representative grain grower, are appearing every night on the same plat-form.

The London Advertiser, which is probably the only English-speaking paper in Ontario to oppose the Union government, carries quite a lively colgovernment, carries quite a lively col-umn of political comment. Naturally it devotes considerable space to Hon. W. J. Hanna and Sir Joseph Flavelle, but it rings in J. Wesley Allison, and seems to have a special pick at Hon. C. C. Ballantyne, who recently spoke in London with Sir Robert Borden.

The Montreal Gazette thinks Sir Wilfrid Laurier would occupy a more logical position if he frankly advo-cated the repeal of the Military Ser-vice Act, instead of harping on his referendum panacea. The Gazette

In his recent speech at Ottawa Sir wilfrid Laurier said: "I was asked by some people in the Province of Quebec, 'Will you repeal the law?' I said, 'No, I would not repeal the law.' My Pho, I would not repeal the law. My policy is to refer it to the people. That is the policy by which I stand. What has been done is law and remains law." Sir Wilfrid plays as his strong card a referendum on the subject of military service. He will not repeal the law, but submit to the people the question whether they depeople the question whether they de-sire its enforcement or a reversion to voluntary enlistment. The question may pertinently be put to Sir Wilfrid, AS ELECTION DODGE tion?" Would he vote for the repeal of the selective conscription law? Or would he urge the electors to vote for its enforcement?

Shall Those Who Will Not Fight for Canada Govern Canada?

The Canadian people have just subscribed over \$400,000,000

to keep Canada in the war, to reinforce the decimated regiments in France and to assist in defeating a brutal, arrogant and merciless foe.

Are we to turn this money over to a government dominated by Bourassa; by mobs that will not allow Canadian patriots to hold a public meeting in Quebec; that are organizing to prevent the wives, mothers and sisters of soldjers voting on December 17th; that jeer at wounded men coming home from the cruel ordeal of battle; that are in league with German emissaries and domestic traitors?

Are those who will not fight for Canada to govern Canada and to control the millions which patriote are giving for the desence of Canada?

If Sir Wilfrid Laurier gets a majority in the election, three out of every four of his supporters in the new parliament will be against the war: against sending reinforcements to France; against relief for the men who are fighting and dying for the safety of Canada and the integrity of the Empire.

Are you for the flag or for the mobs; for your boys or their foes; for party or for country?

Unless we send reinforcements there is no prospect that the Canadian soldiers who have spent months or years in the trenches can get leave to come home for a happy reunion with their wives and families.

Vote so that the veterans can come home for a holiday, for rest and relief for them after years of endurance, hardship and sacrifice.

If they are deserted and betrayed they will come home shamed and humiliated, if they care ever to set foot on Canadian soil again.

There are \$2 Constituencies in Ontario. If they unite with the Western and Atlantic Provinces in support of the Union Government, it cannot be defeated. If they do not, Quebec will exercise a dictatorship over the other Provinces; French nationalism will express the spirit and the resolve of Canada; the army will not be reinforced; the Military Service Act, which would have forced Quebec to do its duty, will be repealed; a Laurier Government, if it does not join in the pro-German demand for peace without victory, will renew the appeal for volunteers, which will be fruitless unless the other Provinces continue to give the men which Quebec will not supply voluntarily, and tens of thousands more than those Provinces would need to give under a draft enforced fairly and equally throughout the Dominion.

PRICE FIXING OF

Break in Prices Follows Reference in Address of Wilson.

Chicago, Dec. 4.—President Wilson's recommendation that immediate war be declared on Austrla-Hungary did not cause even a ripple today in the markets here. His references, however, to proposed new price fixing led to some selling of corn in the last half hour of the day. Corn closed unsettled at the same as yesterday's fin.sh to ¼ higher, with January \$1.20½ and May \$1.18%. Oats gained %c to 1%c net. Provisions underwent a setback of 27c to 65c.

At first, the corn market showed a decided upward bend, the result largely of non-fulfillment of predictions of larger receipts. An advance of oats to the highest prices yet this season counted also as a notable stimulus. Mid-day bulletins telling of the president's attitude were eagerly read, but that his views would be of a vigorous militant character seemed to have been taken as a foregone coiclusion. Accordingly, the only change in the market came late after news was received that he favored a broadening out of federal regulation of prices.

Oats bulged sharply owing to pronounce a broadening out of federal regulation of prices.
Oats bulged sharply owing to pronounced scarcity of offerings, and because of exporters having taken 1,000,000 bushels in the last two days.
Announcement of trade restrictions to meet the views of the federal government weakened provisions.

GAMBLING

In a series of daily advertisements, six, in the press everywhere, I will crystalize "Gambling"—"Stock Gambling."

I will make clear that the American people, rich, poor, the between gamble—stock gamble: That during the next year of war they will gamble as never before, and during the year following peace will break all stock gambling records.

I have spent 40 years writing, preaching, advertising, the evils of stock gambling. As well try to spank out hell's fires with a fly swatter as to red lantern the American people to the futility of stock gambling. In my time the game has grown like a belly bird until today, midst world-wide disaster, it silhouettes

"Badks," 'Shipping," 'Mills," 'Mines."
In the past year billions have been test. In the coming year more billions will be lost than were made in the first two war years. The American people have not only gambled and are gambling, but they will continue gambling.

At the height of the first two war years' gamble, I publicly in the "Leak" warned of the coming slump.

Since the "Leak"—shoe our country entered the war I have not made public utterance on assitomal affairs and have refused scores of requests for platform talks, press and magazine articles.

Since war began there has been too much talking, too much writing, to the befuddlement of the government, and the bedeviliment of obth. The records show that a large part of the war talks and writings cooled off in scum, sediment and bubbles of no value to the people or assistance to the government. One thing only is clear to the American people: We

have been floated the average interest of the whole will be at least 6 per cent, whilch will call for a tax, in addition to all other taxes, of 3 billion dediars ammually for bond interest. This means that there will be yearly added to the present high cost of living three billion dollars.

In my advertisements I will show why the first two war years made scores of stock gamibing billions, why the third year brought losses of billions, why the fourth year will bring more losses and the year following peace still more. I will show what the withdrawall of five million of our best tabor from the nation's industries and the tarning of them into expensive dependents, and the tax of three billion dollars for interest on 50 billions of wealth blown to hell, will do to the nation's stock and bond wealth during the war and after, and why in the near future there will be but two stock market gambles which will bring great profits during the war and after the war—Libenty Bonds and Silver stocks.
