DOUGHTY PROPOSED TO ABOLISH SMALL, WITNESSES SWEAR Britain Confronted With Many Serious Problems in Coming Year

JAP IMMIGRATION DOES NOT REQUIRE ANY FRESH POLICY

Britain and Her Dominions Have Special Treaty Arrangement. DIFFERENT WITH U. S.

Washington, Dec. 30.—(Reuter's).—Senator Lodge's statement, in the course of a speech delivered in Philadelphia recently, that there was reason to believe that the British dominions bordering on the Pacific would co-operate with the United States in the addition of a uniform policy of restricting Asiatic immigration, is understood to have been rather with a purpose of developing the sentiment of the people of the dominions as well as of the Californians on this subject than with any idea of causing negotiations to be initiated at this time to bring about this result.

SOVIET EMISSARY PROMOTED REVOLT

Reason Why Ludwig Maartens Must Be Deported From United States.

Washington, Dec. 30.—So long as the Russian Soviet government seeks to stir up insurrection against the government of the United States its members resident there will be subject to deportation, Secretary of Labor Wilson said in a letter made public today by Charles Recht, counsel for Ludwig A. K. Maartens, Soviet ambassador in the United States, now under sentence of deportation.

DIFFICULT PROBLEMS ARE FACING BRITAIN DURING COMING YEAR

Ireland and Unemployment Outstanding Obstacles—Government Extravagance Depreciated, But Calls for Money Insistent—Unrest in India—Many Questions to Be Cleared Up With the United States.

London, Dec. 30.—Britain's outlook for 1927 is pictured in rather sombre colors by the politicians, economists, financiers and labor leaders, who are casting their eyes forward to the new year. At home two outstanding problems—unemployment and Ireland—have baffled the government, while it is also besieged by many results of the war, including a vigorous newspaper campaign against so-called government extravagance.

WINNIPEG REPORT WAS EXAGGERATED

Find Less Than Five Hundred Unemployed in Actual Need.

Winnipeg, Dec. 30.—Immediate assistance for needy unemployed persons is to be extended by the city's social welfare commission by means of an arrangement effected by the joint committee of unemployed sitting in the city hall today. A registration office for unemployed persons seeking work is to be opened through the office of R. A. Rigg, western superintendent of employment services of Canada. A secondary office, if required, may be opened in the board of trade building.

COMMUNIST LEADER CAUSES WILD SCENE

France, and allowing revolutionary propaganda by foreigners and French members of the communist party to proceed undisturbed.

Pandemonium in Chamber.
This reference to the Tours congress brought M. Cachin, leader of the extremists of the Socialist party in France for years, and now leader of the communist party, to the speaker's tribune. M. Cachin's speech, however, seemed to be disappointing to the deputies of all shades of political opinion, as well as to the great throngs which packed the galleries because of its mildness when compared with the speeches he had made at the Tours congress.

It proved to be a eulogy of the ideas of the third internationale, of Nikolai Lenin, the Bolshevik premier, and of Clara Zetkin. The deputy closed his address by saying: "We shall take advantage of the government's protective measures as long as they are extended to us. When they cease and coercion and repressive measures are adopted, we shall continue our revolutionary propaganda everywhere, and at all times."

Pandemonium then broke loose in the chamber. Many deputies jumped to their feet and requested Raoul Peret, president of the chamber, to have M. Cachin expelled. Shouts of "shame" and "Your language is dishonorable to a Frenchman" were heard in various parts of the chamber. Then M. Steeg rose to reply to M. Cachin.

Accepts Challenge.
"Deputy Cachin," said the minister of the interior, "has thrown down a challenge to the government. We accept it. We shall repress any attempt at revolution with all possible means at our command. The government's energy will be equal to the audacity of M. Cachin's party."

M. Steeg then deposited the government's bill providing penalties varying from three to six months' imprisonment for attempts to cross the frontiers of France without passports.

The minister made no definite announcement regarding the policy the French government intended to adopt toward the new Communist party, but later many government supporters who are close to the ministers told the Associated Press that the government would wait the next move of the Communists.

"When they pass from words to acts it then will be time for the government to show its hands," said the way of one of the deputies put the situation.

Several orders of the day were presented, some of them asking that there be no expression of confidence in the government, but M. Levesque, president of the council of ministers, who had arrived in the chamber toward the end

of the debate, declined all of these, saying that the order of the day must include a vote of confidence. Thereupon Deputy Charles Danisloiu introduced the order of the day, which said:

"The chamber, confident of the ability of the government to take the measures necessary to end revolutionary propaganda and the entrance of undesirable into France, passes the order of the day."

KITCHENER RADIAL MUST REDUCE RATE

Order of Railway Board Cuts Fare in Half—May Mean No Winter Service.

Kitchener, Ont., Dec. 30.—(Special)—The decision of the railway board, which reached here today in connection with cutting the fare between Kitchener and Bridgeport on the Waterloo-Wellington Railway to five cents, has caused considerable interest here, as it may mean the closing of the line by the company during the remainder of the winter. This would mean a decided hardship for many Bridgeport residents working in Kitchener and also for the employees of the Dominion Sugar factory, who have to use the Bridgeport car to get to work.

The go-to-church movement, started in this season, is being organized for a twin-city campaign during the month of February.

Jacob Baetz, known as a community builder in this city as well as a manufacturer, passed away at his home here at an early hour this morning, following an extended illness. He was born in 1852. Many of Kitchener's foremost public buildings were constructed by Mr. Baetz.

A POINTER FOR WARD THREE VOTERS

Ex-Ald. Wanless, who is a candidate for a seat on the board of education in this ward, has had fourteen years' strenuous experience in child welfare work. During that time he came in contact with two thousand children of fourteen different nationalities and almost all grades of intelligence from the lower subnormal to the not numerous super normal.

He discovered how the city child is handicapped. He noted their physical properties, observed the evidence they gave of their mentalities, found out what he could of their ancestors, read up the history and characteristics of their nationalities and studied the different temperaments in an effort to enable them to find their right vocation.

This knowledge and experience he is willing to give to the people of his native city if sent from ward three, to assist in promoting the cause of education in Toronto.

His policy, if elected, will be to endeavor to give every child an opportunity to make good, to provide proper accommodation to relate the schools more closely to the Ontario Agricultural College and to employ a staff of highly efficient, well paid teachers, possessed of magnetic personality and imbued with a sense of the responsibility of their work.

In addition, his many-sided knowledge of finance will be placed at the disposal of the city to increase revenue, to save money on purchases, in the disposal of bonds, on the performance of, contract work and in the collection of taxes, to keep expenses within bounds.

He holds that the education of the youth of a great city is extremely important, as upon it depends largely the character of our future citizens. He will see to it that the children of labor men are afforded every facility to develop their God-given faculties.

GREAT RECEPTION TO EX-ALD. BALL

(Continued From Page 1).

hearers, and sketched Sir Adam Beck's long fight for public light, heat and power which was now about to be crowned with success. Sir Adam had been scoffed at by his enemies and the enemies of public ownership, but in spite of it all had triumphed in his fight. He had at last secured the Mackenzie interests at a price practically the same as the amount of their land issue. It was the beginning of a bright future for Toronto and the province. Hydro radicals were urgently needed if the country was to be settled by good British subjects whom Lloyd George had recently said would have to look to the Dominions for prosperity and happiness.

Has Good Record.
Next year's council must be composed of public ownership men, Mr. Ball declared. Personally, his attitude on the question was on record and well known. He was one of those who had fought against the sale of the civic abattoir when the enemies of public ownership would have disposed of it to private owners. The fact that the abattoir was now on a sound basis and paying its way was justification for the position he took.

Mr. Ball's explanation of the stand he took to prevent shacks being erected on valuable corners for the sale of gasoline, his work on behalf of assessment reform, so that the poor man would receive more equitable treatment in the matter of taxation, and his advocacy of the teaching of essentials along everything in the public schools, all seemed to find approval with his hearers.

Appeals on His Record.
Ald. Phinmore's reception was also cordial. It was a case of meeting old friends again. He gave an account of his stewardship for the past year in his city council, that was apparently quite satisfactory to his constituents. He was strong, he said, for public ownership, and his record proved it. He hoped to see the day when gas and telephones would also be under public control. He strongly advocated the establishment of a civic city council, that was not a mere advisory work in the city at present was not satisfactory in the matter of taxation, tapping and too much divided responsibility.

A. E. Hacker Speaks.
A. E. Hacker, an alderman candidate for Ward Five, was well known to his hearers, and his appeal for their support was well received. He would make no promises, he said, other than that he would, if elected, do the very best he could on behalf of his ward.

LINER USED UP OIL BUCKING HEAVY SEAS

Encountered Several Gales, But Worst Was Off Sable Island.

New York, Dec. 30.—A continuation of high gales and rough seas from Southampton to within 300 miles of the coast, and a consequential heavy drain on the supply of fuel oil, made it necessary for the steamer Kronland, arriving here today, to take a tow at quarantine to continue to her dock.

According to Captain C. Newman, master of the vessel, all but 25 tons of his 500-ton supply of oil was used in bucking the high seas. The amount remaining was so low that there was danger of clogging the oil installation with sediment had the ship's own power been used to continue to her dock.

The heaviest of the gales, he said, was encountered on Monday, when off Sable Island. To add to the trouble, the starboard engine went out of commission, and it was necessary to proceed for more than a half-day with reduced power. On this date only 125 miles was logged in 24 hours. The ship carried 325 passengers.

Fared Steamer is Sunk.
St. John's, Nfld., Dec. 30.—The coasting steamer Ephraim is reported missing since the blizzard of Tuesday, and is believed to have foundered with her crew of six men. The vessel plies between this port and Bell Island, a distance of 30 miles.

The schooner Elsie M. Corkum, bound for Europe with a cargo of fish, has been abandoned at sea, but the crew is safe, a message today said.

Twenty-Two Nations Sign World's Court Protocol.
London, Dec. 30.—Twenty-two nations have already signed the protocol of the permanent court of international justice, constituted by the League of Nations, says the Central News today.

The protocol provides that the statute of the court shall become effective as soon as a majority of the nations represented in the league assembly, namely, 22, shall have signed and ratified it in their various parliaments. Four nations, Portugal, Switzerland, Denmark and Salvador, also have signed the protocol for compulsory arbitration.

MARITIME HOUSE OPENING.
Fredericton, N.B., Dec. 30.—The New Brunswick legislature's first session since the general elections in October, will open the latter part of February. If the present plans of Premier Foster and his cabinet are followed.

MUNICIPAL BUREAU SUMS UP ASPIRANTS

Views and Qualifications of Candidates Given for the Guidance of Voters.

As the days draw nearer to that of the municipal elections, the popularity of the municipal bureau and the appreciation of the public for the educative work it is doing become more pronounced. Last evening when The World called five women and one man were all busy on different offices for the public. The phones kept their little ringing bell almost every time that for a moment they were dropped by the women who courteously answered questions from the other side of the line. Some of these interrogations required a good deal of looking up either in the directory or in the phone book. In such cases the name and address of the enquirer were taken and the information given later.

Yesterday for the first time, the questionnaire which has to be answered by candidates, was on view, filled out by those seeking office in the various wards. To give all candidates the same chance as far as the bureau is concerned, no questionnaire has been on view until all papers had been filed in. Among the questions asked of the candidate for aldermanic or other office were to state name, address, age, nationality, what service to the community, how long was such service given, how long a resident of Toronto, did you qualify as property-owner, tenant or on income, and how do you stand on the bylaws to be submitted. Replies to these give the public a certain amount of information that may help them in a decision as to the manner in which they may cast their vote.

As on previous days, a number who thought they should have a vote and that their names would be "on the list," were disappointed. Seventeen was the number recorded. This record should be useful in reviewing the voters' names for next year. A case in point brought out the information that two of the same family may be voters when they are joint tenants of a two-storey house, but not of an

apartment. The phones are Adelaide 5117 and 5118. A good deal of useful literature is ready for any who care to call at 13 West Adelaide street.

MAYOR WAS ACTIVE AGAINST HIGHER RATES

During the year, owing to the activities of Mayor Church, the city opposed, before the board of railway commissioners for Canada, the application of the various corporations for increased freight, passenger, telephone and express rates. The Ontario government would lend no help in these matters, and even the city legal department was opposed to the city interfering in the freight rates case.

The mayor insisted, however, and the board of control backed him up, that the city should take the lead and the application of the railway companies was opposed before the railway board, and when the decision was announced for 40 per cent. increase the mayor moved to take a further appeal to the governor-general-in-council. The appeal came on for hearing at Ottawa on Sept. 30. The city was represented by the mayor and the corporation counsel.

McBRIDE DOES WELL WITH HARBOR BOARD

As a lumber merchant, Sam McBride, who is a candidate for the mayoralty, has found the city's harbor commission a good customer. Following is a statement of his sales to the commission in the last four years:

While alderman, 1917, \$31,358.48; while controller, 1918, \$22,263.16; 1919, \$87,912.84; 1920, paid to date, \$104,942.22; 1920, to be paid, \$1,952.61; total, \$228,430.06.

SALARY FOR MAYOR AS CHAIRMAN WAS PROPER

Judge Morson, a member of the police commission, in an interview, was asked if the commission had recommended \$1000 as salary for the

chairman, Mayor Church. He replied: "I moved the motion, which Colonel Denison seconded. I see no reason why he should not be paid for

his services as well as the other commissioners. He is chairman, and one of the best we have had. This is one of the most important boards of the

city, and has very heavy work. There is nothing in the act to prohibit such salary, or law to prevent paying a heavy work he performs. The first salary to the chairman. What the five years he got no salary."

VICTORY YEAR FOR PUBLIC OWNERSHIP

The Fruits Of Victory

Adequate Street Railway service at cost.

An abundant supply of power and light at cost.

Increased industrial and commercial expansion, and increased individual prosperity and comfort.

CONTROLLER C. A. MAGUIRE
A Pioneer in Public Ownership.

The Work That Remains

Completion of the transfer of the Mackenzie power and radial lines to the city.

Acquisition of the Toronto Street Railway.

Construction of Hydro Radial Railways.

Development of the St. Lawrence river power resources by the Hydro Commission instead of private corporations.

Deepening of the St. Lawrence river by the Government, thus making Toronto an ocean port.

Enforcement of the order for the construction of the waterfront viaduct in Toronto by the railways.

FREEDOM FOR TORONTO FROM PRIVATE MONOPOLY

Liberation of Toronto from corporation control of its power, light and transportation facilities has been a long struggle. That struggle will be crowned with victory during the coming year. The citizens of Toronto know sufficient of the battle that has been waged to enable them to identify those who can be relied upon at all times to vigilantly protect and constantly advance their interests.

A great program is to be carried out during 1921. The Toronto Street Railway must be taken over at a fair price to the city. Any move to prevent Sir Adam Beck from acting as the city's representative on the Board of Arbitration must be defeated. The transfer of the Mackenzie power and radial lines to the city must be completed.

INSURE THE CITY'S HEARTY CO-OPERATION IN THESE PROJECTS THAT MEAN SO MUCH FOR THE FUTURE GREATNESS OF TORONTO AND THE WELFARE OF ITS CITIZENS.

The enemies of Hydro Radials must be fought to a finish, and Hydro Radial construction, from which Toronto will benefit greatly, must be proceeded with. The realization of the Hydro Radial project is threatened on all sides by hostile corporation forces that must be overcome. You, as a citizen and taxpayer, should make sure that reliable public ownership men are elected to the City Council. With victory in sight, Toronto citizens must be increasingly on their guard lest relaxation less them what they have won.

Controller Maguire has always been in the front ranks of those seeking to bring about complete public ownership of the transportation and power facilities for the benefit of all the people.

Mayor Church Put the City in a Sound Position to Finance Public Ownership Undertakings --- Surplus Every Year Since He Has Been Mayor

Elimination of deficits was one of the tasks T. L. Church undertook and accomplished when he became Mayor in 1915. Deficits and unsold debentures had been destroying the city's credit.

Mayor Church succeeded in strengthening the city's financial position to such an extent that the then Finance Commissioner, Thomas Bradshaw, last year reported that "the city's financial position is unquestionably sound."

Mayor Church's firm control of civic expenditure has resulted in a substantial surplus in the city treasury at the end of each year. This money was available for a reduction of taxation the following year. The surpluses since 1915 have been:

1915	\$ 221,678
1916	236,096
1917	1,137,236
1918	1,540,866
1919	1,756,217

The first reduction of the gross civic debt in 17 years was achieved last year.

Street railway purchase, the clean-up of the private radial and power companies, and other developments and improvements necessary for the well-being of the citizens must be financed during 1921. Careful administration and close guardianship of the city's finances will be maintained.

CHRISTMAS BUYING TURNS TO SHOPPING

Bargain Hunters Are Abroad in Last Days of the Old Year. Christmas buying has changed into old year shopping, the difference in the main being that Christmas 'meant buying at any price so that friends might receive a remembrance, whereas now the last days of the year people are buying largely because things have been reduced and the bargain-hunter is abroad.

A walk thru the shops yesterday revealed the fact that the stores were by no means empty and the question, "Is business dull?" received a quite decided negative. The reason was not far to seek. Above every counter almost was the sign "Reduced" or "Half Price," and buyers were taking advantage of the opportunity. It was somewhat interesting to note that bargain-hunters had not been given indiscriminately. At the remnant counters one had in many cases but to lift a few of the pieces to learn that they were often of such length that it would be difficult to find out just in what manner they could be used.

TENNIS U.S. AUSTRALIA 2 CROSS COUNTRY CORNELL BEATEN BY THREE POINTS

U.S. PLAYERS WIN TWO IN THE SINGLES

Tilden Beat Brookes Three to One and Johnston Won Straights From Patterson.

Auckland, N.Z., Dec. 30.—In the first round of the Davis Cup tournament, the United States tennis players succeeded in defeating the Australians in two matches today.

Tilden was plainly puzzled by the splendid volleying of Brookes today, and he opened the match with a series of errors.

The match was played in two and a quarter hours, including intervals of seven minutes between sets.

The first set was a grueling struggle, which Tilden won only after a remarkable recovery of form in the later stages.

Johnston's first serves were terrific, and an analysis of the match shows that Brookes can attribute his defeat to this fact.

FRESH UPTURNS MADE BY RAILWAY ISSUES

Erratic and Occasionally Heavy Course of Few Specialities Has Restraining Effect on General List, However—No Change in Tenor of Industrial Advices.

New York, Dec. 30.—Transportation shares were again the conspicuous feature of the irregular stock market today...

This may have been due in a measure to the erratic and occasionally heavy course of such issues as Atlantic Gulf and Credit Steel...

Several other shippings, also secondary steel and miscellaneous specialties were under intermittent pressure...

Fundamental conditions, in their application to trade and industry, were unaltered.

The Canadian stock exchanges, in company with New York, showed further bargaining yesterday.

The money market followed its recent monotonous course, call loans holding at 7 per cent., with virtually no offerings of time funds.

Prices in bonds were very extensive, approximating the largest turnover of the year.

GENERAL SIR ARTHUR CURRIE, Commander of Canadian Forces in France.

HOW CANADIAN BANKS HAVE HELPED BUSINESS

The Royal Bank in its monthly circular says:

On account of the fact that practically all the business of Canada is transacted thru its banks, the Canadian banking system enjoys a unique position compared with the systems of other countries...

Notwithstanding this effort on the part of the banks, current loans are higher by three hundred million dollars than they were a year ago.

THE CLEAN-UP BALLOT AS VOTERS WILL GET IT

A Copy of the Question to Be Put to the Voters on Saturday as to the Hydro-Electric and Radial Railway Purchase.

Owing to misrepresentation by the secessionists in North Toronto, and the fact that many people have not had an opportunity to consider the question to be put to the electors on the Hydro Electric and Radial purchase, many voters are not quite sure as to how they should vote. The World has secured a copy of the question as it will appear on the ballot paper, and prints it here, that readers may know what is asked of them. On the right hand side of the ballot paper there will be two spaces. One marked "YES" and the other "NO." The voter will place his cross in one of these. The whole ballot is one question.

- It will read as follows:
- ARE YOU IN FAVOR OF—**
- (1) The Hydro Electric Power Commission of Ontario acquiring for and on behalf of the city, the following:
 - (a) The distribution system within the city of The Toronto and Niagara Power Company, at the price of \$2,225,000.
 - (b) That part of the Metropolitan Division of the Toronto and York Radial Railway Company within the City (limited to what lies on the highway), at the price of \$65,000.
 - (c) The properties of the Toronto and York Radial Railway Company, including the Metropolitan Division (except that part on the highway within the City), the Scarborough Division, and the Mimico Division, also the properties of the Schomberg and Aurora Railway Company, at the price of \$2,575,000.
 - (2) The City's transferring to the Hydro-Electric Power Commission of Ontario, the right-of-way and physical assets acquired by the City from the Toronto and York Radial Railway Company, on that part of the Kingsford road within the City to the Woodbine, and on the Lake Shore road from Sunnyside to the Harbour.
 - (3) Paying for the properties in clauses 1 and 2 above by assuming 6 per cent. bonds charged on the property in clause 1 to the amount of about \$440,000 (of which \$30,000 becomes due every three months until 1922, when the balance matures), and issuing city 6 per cent. 20-year bonds to be dated Dec. 1, 1920, for the balance.
 - (4) The issue by the city of 6 per cent. 20-year bonds for \$2,375,000 to be deposited with the Hydro-Electric Power Commission of Ontario to secure the bonds of the commission, guaranteed by the Province of Ontario for a similar amount to be issued by the commission in payment for the property in clause 2.
 - (5) Entering into the necessary agreements with Hydro-Electric Power Commission of Ontario to carry out the foregoing, which will provide that the municipalities interested will be given an opportunity to vote under the Hydro-Electric railway act to acquire the proportionate interest of each in the property referred to in clause 2.
 - (6) Applying for legislation at the next session of the legislature, validating and confirming the said agreements with the Hydro-Electric Power Commission of Ontario, and authorizing the council of the city to pass a bylaw or bylaws for the issuing of all necessary debentures and otherwise carrying out the foregoing without the further assent of the electors?

FEWER SOLDIERS REQUIRE RELIEF

Employment Bureau Figures Show Marked Decline in Number of Veterans.

Unemployment figures yesterday showed for the first time a preponderance of civilians over returned soldiers amongst applicants for relief. Out of a total of 21 registrants, 82 were married soldiers, 58 were single soldiers, 91 were married civilians and 69 were single civilians.

The Krausman Hotel headquarters reported little change in the volume of cases passing through their hands during the day. They succeeded, through careful oversight, in reducing the number of cases in which duplication was being practiced, and they further took precautionary measures against other imposters. Workmen, consequently, who sought for meal tickets during the noon hour were disappointed.

Permanent jobs were declared by Superintendent Miller, of the government employment bureau, to be still very scarce. The volume of temporary employment was, further, he stated, at present insignificant. Practically the only openings afforded yesterday were provided by out-of-town holidays, which found themselves able to place a few men.

MEN YOU HEAR OF Seen as Their Friends Know Them

MR. FRANK J. B. RUSSELL, president of the Russell Hardware Company, and a director of the Home Bank and of the Dominion Lumber Mills, Quebec, in Toronto, he embarked upon a business career in this city after receiving an education at the De La Salle Institute. He is a member of the Canadian, Empire, York and Country Clubs and of the Ontario Motor League. His favorite sport is motoring.

RETAIL MERCHANTS HEAR CANDIDATES

Civic Aspirants Are Given Opportunity to Air Their Views.

Wholly devoid of fireworks and fairly well attended was the open meeting of the Retail Merchants' Association, held in their offices in The World building last night for the purpose of giving civic aspirants an opportunity to air their views. In the absence of the president, the chair was occupied by James Burns.

Ald. Benish, the first speaker, advanced his usual stock argument, citing the fact that he had been in the barbering business in the city of Toronto for 35 years and acquired a competence. He said The World was conducting an ungentlemanly campaign, alluded to ex-Controller Ball as a watchdog, reaffirmed his eternal friendship for public ownership, and declared that as chairman of the parties committee he had saved thousands of dollars to the city. Just how he did not make clear.

Attacks Orange Order.

Candidate Carmichael, from ward one, paid his respects to The Telegram and charged that they were championing the cause of a candidate in his ward against himself, who had never seen service. He said the Orange Order, supposed to be non-political, was actively identifying itself in this contest and that two or three members of the order might as well get together and nominate a candidate.

Citizen Money was Wasted.

A. W. Carrick, a candidate for alderman in Ward Three, criticized severely the expenditure on the roof of the city hall, charging that money had been wasted and that there was no need for the substitution of a copper roof for the old tile roof. He made a spirited attack on the proposal to effect a so-called assessment in exempting houses up to \$4,000.

Abolish the business tax.

Abolish the business tax, was another statement by the controller, who found big favor with his audience. Controller Gibbons, Ald. F. M. Johnson, Ald. Burgess, Ald. Mrs. Hamilton, G. J. Mackay, a candidate for the board of education, and Ald. Singer were among those who spoke. Ald. Singer declared that if he were elected there would be a complete investigation into the present police court methods, and that the action of the city council, on the eve of an election, in refusing to sanction the addition of 250 men to the police force, was an attempt to hinder to the elector. This attack was unheeded.

W. C. Turner, who lives at 83 DeGrasse street, informed The World that the man arrested on Wednesday night on a charge of impersonating a police officer, James Turner, gave the police a fictitious name, James Hart is his right name, and he had a flat rented of Mr. Turner at the DeGrasse street address.

THE WORLD'S SLATE FOR WARD 4

ADAM MCINTYRE.
A well known business man in Ward Four who should be elected an alderman. He may be depended upon to stand by Hydro and the clean-up, and to see that school children get a sound education in comfortable schools, even if the relief act cut out. Has lived for many years in the ward, and knows its requirements well.

WANT LABOR BUREAU FOR RETURNED MEN

G.A.U.V. Delegates Appointed to Wait Upon Provincial Government.

Delegates from the G.A.U.V. have been appointed by the Dominion board of the association to confer with the minister of the provincial government on Monday next to press for more and immediate accommodation for an employment bureau run by ex-service men for ex-service men, according to promises made at least six weeks ago. Fred Marsh, provincial secretary of the G.A.U.V., stated to The World yesterday that much unrest was resulting from the present policy of keeping ex-service men waiting outside the Church street bureau for relief and the King street bureau for employment, many of them without either overcoats or suitable under apparel.

It was believed, said Mr. Marsh, that one man could not properly handle from 60 to 80 men an hour distributing meals.

Another matter to which the provincial secretary of the G.A.U.V. drew attention was the lack of proper classification of ex-service men according to both commercial and physical ability. It was not to be doubted that unless a proper system of classification was adopted next spring, would witness again the situation in which ex-service men as road pegs were placed in square holes. In their wrong spheres, a policy which had hitherto caused employers to lose confidence in the stability of ex-service men generally, both as to ability and steadiness. This would be very regrettable, and the ex-service men's organizations would, he hoped, wage a strong fight for the needed classification.

It was believed, said Mr. Marsh, that one man could not properly handle from 60 to 80 men an hour distributing meals.

FINED FOR INSERTING LIQUOR ADVERTISEMENT

Mrs. Louisa Rogers, proprietress of Jack Canuck, was yesterday fined \$200 and costs by Magistrate Jones on a charge of publishing advertisements tending to solicit liquor orders in Ontario. At the previous hearing it was stated by the defence that these advertisements were sanctioned before publication by J. D. Flayke, chairman of the Ontario license board. They were couched in very general terms and made no mention of liquor, they merely said, "Don't delay your order."

ALDERMAN JOHN A. COWAN.
Has given six years' splendid service in the city council. A sound, all-round public ownership man. For three trying years, during the flu and amallpox outbreak, was chairman of public health board. Is able to give his entire time to the city's work, and always keeps a watchful eye on the affairs of Ward Four.

TO BETTER ENFORCE TEMPERANCE ACT

Western Ontario to Be Divided Into Fourteen Districts.

The Ontario government has decided to divide western Ontario into fourteen districts for the purpose of more strictly enforcing the temperance act. The districts will be: Essex, Kent, Lambton, Middlesex, Elgin, Huron, Perth, Waterloo, Brant, Oxford, Gray, Bruce, Wellington and Dufferin. Each district will have a division superintendent in charge of law enforcement. The proposed applicants, some of them license inspectors, and some provincial police officers, were at Queen's Park yesterday, and had a conference with the license commissioners, Deputy Attorney-General Baryl and Superintendent of Police Rogers. Nothing was done, as Hon. W. E. Roney is holidaying in the States.

MACHINE APPROACH DECLARED NOT SAFE

The jury investigating the death of Leonard Pipher, an employee of the City of Toronto, who was killed when his clothing caught in a revolving shaft on Dec. 29, inspected the machinery yesterday and returned the following verdict: "We are of the opinion that Leonard Pipher came to his death there having his overalls caught in a revolving shaft and we are of the opinion that the approach to and from the machines is not safe. We suggest that alterations be made for the safety of the workmen employed there."

MURDER VERDICT OF CORONER'S JURY

Inquest on Body of Infant Brought to Toronto on C. P. R. Car.

"We don't want any dead bodies dumped on Toronto, any more than we want live bodies here who won't work," said Coroner R. M. Eusterman last night at the inquest held on the unknown female infant found tucked away under a seat on the C.P.R. passenger train No. 23, running from Montreal to Toronto, on Christmas Day.

Conductor Alex. Dennis got the box child was wrapped in a Toronto paper, dated Dec. 4, which was placed in a shoe box marked A. W. Ains & Co., Ottawa, size 8. Dennis reported the case at Sharnot Lakes and was advised at each following station to bring the body to Toronto. He could not definitely say who had occupied the seat under which the body was found, but a lady and a boy had journeyed from Montreal in a seat nearby. There were only three people in the car when the body was found.

The post-mortem, made by Dr. J. S. Straight, 44 Fairview boulevard, revealed the following facts: The child was fully matured and had been dead about two weeks. It was partially covered with a woman's undergarment and had been kept alive. There was no sign of external violence, but the heart condition pointed strongly to suffocation. The child had not been fed.

EFFORTS OF MAYOR TO PROVIDE RELIEF

Repudiates Evening Paper Story on Steps Taken With Government.

The Star published yesterday a story to the effect that Mayor Church had taken no steps to secure from the federal government an appropriation for relief work in Toronto. To this his worship makes reply in part as follows:

"The Star is wrong. I asked the federal government several weeks ago for a relief grant, and was told by communication received on the 17th inst. that no scheme had been worked out yet, and as soon as it was worked out, I would be notified. I also communicated with the Hon. J. D. Reid and the prime minister, asking them to go on with the vinduct and the new customs house, and keep on the two hundred men they had on the harbor improvements. I further took up with them the question of going on with the two shipbuilding orders, which have been started here.

"On November 16, I moved in the board of control that the heads of departments and outside boards be instructed to find out what relief work should be undertaken this winter. I also organized the citizens' unemployment committee, and told a deputation of soldiers that we would make a large grant for the unemployed. As soon as the \$50,000 is spent, we will continue the work with another one."

"I received the letter from the citizens' unemployment committee after it was in The Star this afternoon at four o'clock. I immediately turned it over to Mr. Ross, the finance commissioner, and requested him to continue negotiations with both governments."

"On Dec. 27 the mayor wrote the minister of railways and canals in part as follows: "If the government are considering relieving the unemployment, I hope they will not overlook the needs of Toronto, if any grants are to be made to assist in this matter. There are many returned men out of work. If the government cannot assist them to employment, cannot some deferred may be given them to tide them over this bad winter?"

"The City of Toronto has voted and is spending \$80,000 in relief to aid unemployment in the city. Would the Ontario government contribute an equal amount? I have requested Mr. G. H. Ross, the city treasurer, to see you on the matter, as I was waiting for the result of your conference ten days ago, with certain organizations, but conferred with you. Please let me know if you can assist."

WOMEN WILL CARE FOR ADAMS CHILDREN

The Presbyterian Women's Social Service Association have undertaken to assist in the care of the two little Adams children, whose father met a tragic death a few days ago, and whose mother is awaiting trial. The children were taken by a widow, Mrs. Groves, who, although she has five children of her own, felt she could care for the two unfortunate little ones.
