Matter of Responsibility For Use of Armories by Visiting Soldiers—Speakers at Gathering in Imperial—Prediction of Successful Celebration

An idea of the progress which is being made by the committees handling the various branches of the celebration... The mayor explained the reason for which the meeting was called, saying that the committee in charge of the celebration were making excellent progress and there was every indication that the affair was going to be a huge success. He appealed to the general public to join in hearty co-operation with the committee in the matter of extending their hospitality to the visiting returned soldiers.

The mayor explained the reason for which the meeting was called, saying that the committee in charge of the celebration were making excellent progress and there was every indication that the affair was going to be a huge success. He appealed to the general public to join in hearty co-operation with the committee in the matter of extending their hospitality to the visiting returned soldiers.

The Armories. S. Herbert Mayes reported that he had been in touch with General Macdonnell, who had received instructions from Ottawa that the use of the accommodation at the armories and exhibition buildings for the visitors could be obtained only on General Macdonnell personally assuming responsibility for the quarters. He did not feel like doing so, and asked the committee to take the matter up with the militia department.

Route of March. In discussing the matter of the children's choruses Mayor Hayes announced that the route which would be followed by the prince's party would be from the wharf along Prince William street to King Square and then by the route which has been followed by the returned soldiers on arrival to the armory. After the reception there he would go to the Post Office to unveil the bronze tablet there and thence by Main street and Douglas avenue to the Military Hospital at Lancaster, returning to the city for lunch, which would likely be at the Union Club.

Mrs. Kuhring said in connection with the daily gathering of the children, that there were not so many present at the rehearsal as there should be. They required more of the larger children with strong voices and that every effort should be made to bring every school child into the celebration. It was suggested by Mr. Sime that the west end children should gather on the grounds of the Military Hospital in Lancaster and carry out their programme there.

Mr. Elkin said that it was the general impression that no comprehensive programme was in course of preparation.

Mr. Golding in reply said that such a programme was certainly in the making parade on Soldiers' Joy Day.

START RIOTS ALL OVER CANADA AND SEIZE POWER

Plans of Reds Last Spring As Disclosed in Letters

Calgary Convention of March Packed With Extremists—Bring Canada to Russia's State—The Split in Winnipeg

Winnipeg, July 31.—The Calgary labor convention last March, at which the one big union was given form, was packed with "Reds" as the members of the socialist party of Canada are known in labor circles. The plans of the Reds were to organize riots to start in every city, town and village of Canada at one time, with the definite object of taking over the reins of government.

R. B. Russell saw in the coming unemployment situation a "glorious opportunity to show the 'plugs' that the only solution to the question is the situation in Russia." A veritable flood of propaganda, including distribution of banned literature on Socialism and Bolshevism was distributed by R. B. Russell and other members of the Socialist party of Canada. This is the substance of letters seized by the Royal Northwest Mounted Police in Vancouver, Edmonton, Calgary and Winnipeg, and read in court yesterday afternoon at the preliminary trial of eight labor leaders for seditious conspiracy.

Winnipeg, Aug. 1.—The Trades Hall chapter of the Labor Temple, shattered the hopes of the O. B. U. leaders that they would obtain control of the temple when at a meeting on Wednesday night, they decided that unions with international organizations should have precedence in the use of the building and that it would continue to represent all bodies with international affiliation. As a result of the labor split each union directly affected must have its headquarters, one for international followers and the other for the one big union.

Washington Goes to It. Washington, Aug. 1.—A committee to conduct an investigation of the high cost of living and report to President Wilson was appointed at the conference yesterday of cabinet officers at the office of Attorney-General Palmer.

now and there was every indication that the celebration would be the greatest and most successful on record. He was in touch with the whole organization and he prepared to announce definitely in a short time the whole scheme. The public he said must not be impatient. Everything was in the hands of capable men and women and the public must have confidence in their ability and power to handle the arrangements. This was greeted with hearty bursts of applause.

Mr. Sime, in order to show what was being done by the travelers committee outlined the general scheme of their programme of entertainment for the soldiers, which showed that a great deal of work had already been accomplished. E. A. Schofield, chairman of the feeding committee, said that a canvas had been made of the local restaurants and they were found to be able to accommodate about 1,200 extra people. He made an appeal to the various organizations to help his committee by sending in a statement of the number of persons for whom they could provide meals during the two days. He said it was proposed to issue to the visitors coupons which they could be reimbursed on presentation to the committee.

The mayor thanked those who attended the meeting and said that whereas many had been appointed to various committees for specific purposes, the rest could consider themselves as being elected to the great hostesses' committee whose duty it was to make the celebration an unqualified success.

OFFICIALS SAY POLICE STRIKE IS A FAILURE

Labor Circles Declare 65,000 Are Out

Covers All England—Is Protest Against Pending Legislation—Home Secretary Says Strikers Will be Dismissed

London, Aug. 1.—The police strike in London and the English provinces called suddenly yesterday in protest against pending legislation affecting police regulations went into effect today. While labor circles declared that some 65,000 policemen and prison officials throughout the country had left their duties it was asserted by Edward Short, home secretary, in the House of Commons during the late forenoon, that the strike had been a failure both in London and in the provinces.

"Police men who are unable to give proper explanations of their absence from duty," the secretary continued, "will cease immediately to be policemen." In contrast with the home secretary's statement it was announced that an outpouring of strikers that the police would come out in a body this afternoon. The strike leaders asserted that by 8 o'clock tonight there would not be a policeman on duty in London.

London, Aug. 1.—The Daily Herald, a labor organ, says that something like 600 policemen and prison officials throughout the country have gone on strike. It declares that the London men struck with dramatic suddenness and startling unanimity, implying that the whole force responded to the call. This is contrary to all other newspaper reports that the strike will be a failure. The new minister of agriculture, in place of Hon. T. A. Cramm may be F. S. Tolmie, member of Victoria, B. C. The changes are expected to be announced tomorrow.

London, Aug. 1.—An official of one of the principal west end police stations said there were less than five per cent of absentees from the morning roll call, and that conditions were normal throughout London.

At a meeting of the striking policemen here this morning, Chairman Marston, of the union, read the following telegram from the Liverpool branch:—"Liverpool out solid; stripped docks to midnight; fire brigade as well." The announcement was received with cheer.

General Secretary Hayes, of the Police-men's Union, said:—"The situation here is highly satisfactory, greeting that the decision of the executive came as a bombshell to the mass meetings, and that the news has not yet reached the rest of the metropolis." Union officials claim the undivided support of organized labor.

"To take such a step while the house is sitting is an unlawful act," Sir Neville said. "I can tell them they will never see Downing street again." Strike leaders, however, said the men had no intention of marching to the premier's mansion.

Reference to a letter from the premier's secretary, saying that as the administration of the police was in the hands of the home secretary the union should approach Mr. Short instead of the premier as it had attempted to do, Chairman Marston of the union, said he had no intention of approaching the home secretary. "This time," he continued, "the home secretary must come to me."

DENEKINE IS SWEEPING TO NORTHWEST

Capture of Pottava a Notable Success

Quickly Follows on Taking of Kaminin — Bolsheviki Claim Advance and Says White Regiments Have Mutined and Deserted

London, Aug. 1.—News was received here today that the volunteers army of General Denekine, one of the most important of the Russian anti-Bolshevik forces, had scored another important success, capturing the city of Pottava.

With the city large quantities of supplies and war material were taken. A London despatch Thursday night announced an important victory for General Denekine in the capture of the town of Kaminin, on the Volga, with 5,000 prisoners, nine guns and great quantities of material.

The Pottava now reported captured is probably the one in the province of the name, about eighty miles southwest of Khar'kov, indicating a notable northward sweep of General Denekine's forces.

London, Aug. 1.—An official Bolshevik statement says:—"We have advanced fourteen miles northward on the Onga. The advance was preceded by a rising of white regiments, who arrested resisting officers and handed them over to our side."

The official statement bears date of July 31, and the rising reported appears to have been subsequent to the recent meeting among the Russian troops on the Archa'ngel front, reported by the British army authorities.

The message, which is from Moscow, also reports unrest in Siberia. It says that there is an insurrection extending from Tashkent in Turkistan to Nikolayevsk on the Amur. In the region of the Amur, it is declared, the insurgents annihilated a large detachment of Japanese recently. In addition, it is asserted that an important Bolshevik detachment is advancing from northern Siberia towards Tomsk.

MAKE DRASTIC CHANGE IN POLICY AND RETIRE. Alleged Intention of Premier Lenin in Russia is Reported.

Stockholm, Aug. 1.—(By the Associated Press)—The Svenska Dagbladet is informed by persons closely connected with the Russian Soviet government that Premier Lenin intends to begin a drastic change of policy and then retire. One condition of his retirement will be that Leon Trotsky, Bolshevik minister, be left in command of the red army.

At recent meetings of the Soviet commissaries, the newspaper's informants say, the question of giving power into the hands of other socialist parties was earnestly discussed, but Lenin declared that the best way to check reaction, as represented by Admiral Kolchak, head of the all-Russian government at Omsk, would be to drop power for a time in order to prove that no other party was acting in the name of the Allies, since the Ukrainian administration has not been recognized. The Ukrainians are sending a protest to Paris stating that this was their only means of communication since the Allies helped the Poles to occupy East Galicia.

SIR EDWARD HOLDEN WAS A FAMOUS BANKER. It is to your advantage to buy Freshly Roasted Coffee. GET IT AT HUMPHREY'S COFFEE STORE 14 King Street.

have been scandalized. Sir Edward Holden has what some might call audacity. The first bombshell which he exploded earlier in the year, was his outspoken challenge to his fellow-bankers on the subject of their gold reserves.

Duel With Lloyd's. Sir Edward was noted for his banking duel with Lloyd's Bank, and the growth of Lloyd's seemed to increase rather than discourage the determination of Sir Edward and his London City and Midland Bank. "During the last twenty-five years," continued the English writer, "he has absorbed twenty-four banks with deposits amounting to practically fifty millions sterling. The war of the banks in the field of absorption was quietly but grimly waged, and in their last battle sheets, while the deposits with Lloyd's were shown to amount to ninety-two millions sterling, those with the London City and Midland amounted to ninety-four millions sterling. The extent to which a bank holds the deposits of the people is, of course, a measure of its greatness, and in this respect Sir Edward held the premier position."

Approved Banking Amalgamations. Sir Edward's report to his stockholders in the fall of last year, in which he discussed preparations for the reconstruction following the war, was widely quoted and commented upon in this country. He made a strong defence of the tendency toward banking amalgamation in England. He expressed the opinion that stronger banks would be needed to take care of after-the-war reconstruction and foreign trade development and to meet German competition. He estimated that no less than \$1,500,000,000 would be required for the purposes of reconstruction, as outlined by him, and he asserted that credit in some way would have to be created to that amount. Sir Edward had a beautiful place in Surrey near Chertsey, known as the Grange, and married Miss Annie Cassie, a daughter of William Cassie of Aberdeen.

FALL TOAINS CLIMBED TO 15 AND 20 PER CENT.

New York, Aug. 1.—Stringent money conditions as indicated by yesterday's unexpected rise in call loans to 15 and 20 per cent, were mainly responsible for the uncertain tone of the stock market at the opening of today's session. Gains ranging from large fractions to two points in oils, equipments, tobaccos and other specialties, United States Steel and other iron and steel stocks were only occasionally quoted at irregular changes in the first half hour.

Noon Report

The money situation continued to weigh upon the market during the first hour, but a pronounced change for the better set in before noon, when call loans were freely made at six to seven per cent. Early declines were most severe in tobacco and motor specialties, where reactions extended from two to six points. Industrial favorites, notably United States Steel and Crucible Steel, led the rally with oils, leathers and American Writing Paper preferred. Rails and shippings registered substantial advances on the demand for southern Pacific, Texas and Pacific, Atlantic Gulf and American International.

The schooner Georgia D. Jenkins, which grounded on Big Duck Island Tuesday and which was later floated and towed to this port, is having her deck cargo discharged, after which she will be placed on the blocks for a survey.

The schooner Reporter, which sailed from here on Wednesday, bound for New York with a cargo of laths, sprung a leak while proceeding down the bay and put into Musquash where repairs were made. She is now ready to proceed to her destination.

The schooner Charles Lester came in last night for harbor. She sailed from Parrsboro, N. S., with a cargo of piling. She is bound for New York.

Is Your Indigestion Like This?

Brown's Flats, N. B., July 13. Chas. R. Wasson, Esq., St. John, N. B.

Dear Sir:—Please accept my testimonial to the value of your Stomach Tonic. For more than twenty years I have been troubled with indigestion in the following way: My food was slow to digest, after I had eaten a little while the gas would give me so much pain that it seemed like heart trouble. It did not seem to make any difference what I ate. I tried several medicines, without any good result, my appetite failed. A neighbor of mine who had used your Stomach Tonic recommended it to me. I bought a bottle at your store and before I had finished taking it, my appetite improved and I could eat anything with comfort. It has given me so much relief and has made such a complete cure for me that I cannot recommend it too highly for all stomach trouble. I hope any persons who are suffering from indigestion will be as fortunate as I have been.

Yours sincerely, MRS. ALBERTA COLE. 60c. and \$1 at Wasson's, Main St.

THE CONVENTION

Not Liberals alone, but many thousands of men tied to no particular party, await with rising interest the pronouncements of the national Liberal convention next week upon the issues of the day in this country where momentous political changes may naturally be expected in the near future.

Seed time is here in Canadian politics, and harvest not far away. As the Liberal convention flows, so will the Liberal party reap. If it sows narrow partisanship, or gives ear to faction, or quibbles and hesitates over vital issues, or chooses a captain in whose courage, sincerity, and political wisdom, few have confidence, the Liberal party may expect a wretched crop, and the country will be much poorer because the Liberal party did not rise to the level of an opportunity seldom equalled in the public life of this young country. If this convention develops men of vision and of inspiration, if the platform sounds the advance for true Liberal principles all along the line, the country will not long be in doubt about the complexion of the next House of Commons.

It would be difficult to say what the country at large expects from the Liberal convention, except on a few issues; but it is not difficult to say what the country wants from the Liberal convention in the broad sense, for undoubtedly it wants a sterling leader and a platform breathing a spirit of the times—the resolute spirit of betterment in our public life, of courageous recognition that times have changed, of outspoken decision that, in the after-the-war Canada Liberal leaders will put away the small and the narrow things in politics, that they will set their faces as flint against the familiar evils of partisan activity, and go far to justify the definition of politics as the science of government, taking as their ideal the conception that the trusted leaders of the people shall forego thoughts of personal profit and advantage and remember that "public office is a public trust," demanding faithful service and a high level of integrity and public spirit.

The people of this country will rally in overwhelming numbers, irrespective of partisan alignment, to that party which first gives proof of its determination and ability to give Canada broad-gauge and progressive policies, framed in the interest of the great mass of the people instead of designed to serve the privileged few, policies which mean what they purport to mean, and are courageously administered. Men forget it too often, and they cannot too often be reminded, that in politics of the right sort nothing pays like courage and force wedded to a standard of integrity.

The Liberal party has its critics and its enemies. To some of its critics it may well give heed. Every party needs enemies. They help to keep it up to the mark. It is for the national Liberal convention now to give this country a message and a leader worthy of a great democracy emerging triumphantly from the long and bitter test of war and turning itself afresh to the intricate problem of making Canada a greater and a better land in which to live. Let us hope that, in the minds of those who shape the Liberal destiny at Ottawa next week there will ever be present the thought of the sacrifices made by those Canadians who lie in France and Flanders. What they were and what they did should give fire and purpose and true vision to the deliberations which next week will hold so closely the attention of this country.

THE OLD U. N. B.

So many sons of the University of New Brunswick fought in the great war with distinction, so many died to save civilization, the movement now on foot to secure funds to erect a memorial building in their honor will have a strong and wide appeal. The war work of its students, its graduates and its teachers who took part in the great conflict has given the old University a stronger hold than ever upon the respect and affection of the people of the province. The time must come when the scope of its work will be very largely extended by grants more liberal than the provincial finances have yet permitted. Meantime the University Senate, after giving long thought to the question of a war memorial, has decided that a new building will constitute the most fitting form which the work can take. The new building which will be erected in 1920 if plans go well, is to contain a central audience hall of a distinctly memorial character, and there will be placed tablets to the memory of thirty-

three U. N. B. men killed in action, together with a roll inscribed with the names of all associated with the institution who served King and country in the late conflict. In addition to the central hall there will be a wing containing lecture rooms and laboratories for physics and chemistry. The proposed cost, which is modest enough, is \$75,000. It is felt with confidence that this amount should easily be secured among graduates and friends of the U. N. B., many of whom are in fortunate circumstances, and all of whom must feel a thrill of pride when they recall the record made in the war by the boys and the men from the old U. N. B.

The news of the death of Norman N. Gregory, as it spread through the city this morning, brought sorrow to many warm friends. Mr. Gregory had been long identified with the business life of St. John, particularly in shipping. He had performed a quiet, though none the less important, part in the great war, in connection with the quick despatch of vessels from this port with their precious cargoes for our troops and our Allies overseas. He was most efficient in his chosen line of work and had well maintained the fair name of the firm which has been for so many years prominent in St. John.

The high cost of living makes an aggressive drive into the news columns by a pronouncement from the Brotherhood of Locomotive Engineers in the United States. They went direct to President Wilson and said to him in effect that the government must act to force down the living cost or the men of this powerful union will have to demand another increase of wages. Whether or not this is a matter of cause and effect, Attorney-General Palmer has called the heads of government departments together to confer with him on measures to bring down prices.

That rumbling sound heard these days is not distant thunder. It is the taxpayers' way of expressing their feelings over the increase in their bills. They want money spent and they know it must be paid; but they do not always like the way in which the cost is assessed.

FORCE MURPHY OF TAMMANY TO DEFEY HEARST

Justice Newburger Rejected for Renomination to the Supreme Bench

Irwin Untermyer Named—Justice Luce Designated and Judge Allen Ignored in Face of Hearst's Threats

(New York Times.) Ignoring the demands of William R. Hearst, the executive committee of Tammany Hall yesterday designated candidates for county and city offices to go upon the primary ballot this fall. Although Leader Charles F. Murphy was against the plan, the members of the committee because of the attack his newspapers are making upon Governor Smith was so bitter that Murphy had to give way and Hearst did not get representation on the ticket.

In the selection of candidates, Murphy won a personal victory, however, for he refused a renomination to Justice Joseph E. Newburger and gave the plum to Irwin Untermyer, son of Samuel Untermyer. When Justice Newburger's friends protested to Murphy the boss bluntly told them that the Justice "had been on the bench long enough and it was time he gave way to some one else." Justice Newburger's friends were so indignant last night that they immediately laid plans to have him run independently in the Democratic primaries.

The Republicans have already designated Justice Newburger as their candidate for the supreme courts and it was predicted that if he should run in the Democratic primaries he would defeat Mr. Untermyer, or failing that, that he would defeat him at the November election. Charged at the blow Murphy gave him, Hearst announced through his political lieutenant, L. J. O'Reilly, that he would support Mr. Newburger no matter on what ticket he should run.

None of Justice Newburger's friends could say last night in his absence, if he would run on an independent ticket, or even if he would stay on the Republican ticket. Mr. Newburger is at the Hotel Champlain, at Bluff Point, N. Y., and is said to be ill.

Not in years has there been such resentment over the rejection of a candidate both among regular and independent party men. So sure were the Justice and his friends that he would be renominated by the Democratic organization that the regular petitions for his nomination by both parties were being circulated yesterday preparatory for filing to-day, the first day when such petitions under the law may be filed. Even the bulk of the Tammany district leaders who compose the executive committee did not know that young Mr. Untermyer was to be substituted for Justice Newburger until the slate was announced. It was then too late to protest and the objections came only from Mr. Newburger's friends.

MARANVILLE'S PECULIAR STYLE OF CATCHING A FLY COMES NATURAL TO HIM

Maranville's peculiar style of catching a fly ball, by which he seems to form a pocket against his body for the ball to drop into, has attracted a great deal of attention since his entrance into baseball.

Many persons think the style affected, but the famous "Rabbit," who is beginning to play again as of old, declares he cannot catch the ball any other way.

"Why, in practice only the other day," he said, "I tried to take a fly like other players and I muffed every one."

\$50,000 THOROUGHBRED KILLED BY LIGHTNING

Lexington, Ky., July 30—During a thunder storm late this afternoon lightning struck a barn on the farm of John S. Barbee and instantly killed Brummel, an imported English racing sire, valued at \$50,000.

Two stalls away was Sweep, premier sire of 1918, for which \$100,000 has been refused. Sweep was not even shocked. Brummel was owned by Barbee and Luke and Brownell Combs and was insured.

Brummel was brought here four years ago. He was nine years old, by Desmond, out of Beauty Daughter, and was the only son of Desmond in any American stud. His dam's sire, Gallinule, was the 1918 champion brood mare sire of England.

The city musicians last evening formed the first union of its kind in this city. James L. Surgen was in the chair and he and F. A. Campbell, president of the Trades and Labor Council, and James E. Tighe delivered short addresses. The following officers were appointed: President, M. C. Ewing; vice-president,

CHILD DROWNS TRYING TO SAVE HER FRIEND

Rest of Party Saved by Cottagers; Dead Child the Only Swimmer

Lake Sunapee, N. H., July 30.—One girl was drowned and five other girls and one woman, the latter the mother of one of the girls, were saved from drowning here at noon today, in one of the most tragic accidents that has occurred at this resort for several years. The girl drowned was Marion Reck, fourteen, of Watertown, Mass. She became a victim in an attempt to save the life of Dorothy Cavanaugh.

The other girls who were saved from drowning were children ranging from ten years of age to sixteen, and were members of the Ruth Fielding Child Players' Company of Somerville, Mass., who were on a summer tour playing and entertaining. They are Olive Olson of Cambridge; Catherine Corbett of Medford street, Somerville; Mary A. Scanlon of Munroe street, Somerville, and

Catherine Carroll of Watertown, Mass., who was traveling with the children.

Had it not been for the quick and heroic action of two young women who were seated on a porch of a cottage near where the party was bathing, it is probable the entire party would have been drowned. The women heard the screams of the girls and pulled all of them out, but were unable to save Marion Reck. The names of the rescuers could not be obtained, as they disappeared afterwards.

The children had been in bathing and some were coming out of the water when Dorothy Cavanaugh was heard screaming for help. Marion Reck saw the child go under, and went back to help her. She suddenly disappeared under the surface and was not seen again. Mrs. Cavanaugh rushed into the lake and reached for her daughter. She grasped her by the hair, and she herself went down. Olive Olsen raised her screams, which brought the two young women to the shore and they rushed into the lake with their clothes on and pulled Mrs. Cavanaugh and Dorothy out.

Meanwhile the rest of the party witnessing the tragedy before their eyes rushed into the lake in an effort to save Mrs. Cavanaugh, her daughter and Marion Reck, who had gone under moments after the other girls.

Drive the team at a walk.

Ride on the drag; do not walk.

Begin at one side of the road, returning up the opposite side.

Drag the road as often after every rain as possible, but not when the mud is in such condition as to stick to the drag.

Do not drag a dry road.

Drag whenever possible at all seasons of the year.

The width of travelled way to be maintained by the drag should be from 18 to 20 feet; first drag a little more than the width of a single wheel track, then gradually increase until desired width is obtained.

Always drag a little earth towards the centre of the road until it is raised from 10 to 12 inches above the edges of the traveled way.

If the drag cuts too much, shorten the hitch.

In addition to the split log drags which have been made by the road supervisors throughout the whole province, the department of public works has had several hundreds constructed and sent out to those who have not been in a position to have them made. Some three or four are being made every day at the Provincial Garage and shipped to the different counties, particularly where the roads are newly turn-piked.

JOYLESS WEDDING NOW.
Montreal Bridegroom's Brandy and Alcohol Confiscated.

Toronto, Aug. 1.—Port Credit was to be the scene of a merry little wedding but not patrol Sergeant 3-tiern intercepted Mike Casbar, of Montreal, at the Union Station as he alighted from the Montreal train here. In Casbar's possession were found a bottle of brandy and five gallons of alcohol, which the accused said he was taking to Port Credit for his wedding, which was to have been celebrated soon.

"A foolish way to start married life," said Magistrate Denison in police court, fining him \$200 and costs or three months.

"Propinquity is what brings about marriages," declared the father of three single daughters in didactic mood.

"Yes?" murmured his wife.

"It works this way. From among the men who call most frequently at a house the daughters of the house naturally select husbands."

"In that case," said the mother sadly, "I fear our girls are doomed to marry bill collectors."

ROYALTY'S BED BRINGS \$57.50

Historic Furnishings of The Revere House Sold at Auction—Valuable Pieces Go Low

(Boston Herald.)

The Revere House, its career as a hostelry ended, continued yesterday to yield its furnishings under the auctioneer's hammer, treasures made by cabinet-makers of colonial days vying with articles of modern manufacture for places in the bargain list.

A bed which had furnished repose for royalty—a massive piece of carved rosewood—went to the highest bidder for \$57.50, the purchaser being Rev. Thomas B. Hughes of the First Baptist church, Bristol, Vt. Beds of almost as massive construction, but of more recent manufacture and having less of historic association, went for sums almost as large, their utility being the chief consideration in the minds of the bidders.

The bed sold to Rev. Mr. Hughes was once occupied by the Prince of Wales, afterward King Edward VII. of England.

"What are you going to do with the royal bedstead?" he was asked.

"I shall probably sell it if I can get what it is worth," he replied. "It should bring \$800. As a piece of furniture alone it is worth \$200, and its history enhances its value twofold."

The bed is from the room that had held, during the glided days of the old Revere House, such notables—besides King Edward of England, who visited America as the Prince of Wales—as Daniel Webster, Christine Nilson, Patti, Jennie Lind, Dom Pedro and Prince Halikauan.

Other articles in the royal suite, comprising two heavily furnished rooms, were sold at ridiculously slender prices. A heavy rosewood dresser and mirror in the bed room set, brought \$22. A huge walnut parlor cabinet of a forgotten age of fashion was bestowed upon a busy buyer for \$8.

A piece of bric-a-brac that stood in one corner of the "King's" reception room, overlooking Bowdoin square, which old servants of the house reverence as the stand on which Daniel Webster placed his whiskey and gin,

brought the most spirited bidding granted any of the relics. It was sold to M. Lowenstein of 144 Boylston street for \$21.

From bedstead to cornice, including the carpets, the once-proud royal suite returned approximately \$887.

BIG ISSUES TO BE BEFORE THE NATIONAL LIBERAL CONVENTION

Tariff Holds First Place—A Plan That Many Agree To—Organization on Different Footing

Ottawa, July 31—Momentous are the issues with which the national Liberal convention has to deal next Tuesday, Wednesday and Thursday. The resolutions, recommendations and suggestions for the platform and program submitted for consideration by the convention through the regularly constituted committees show that Liberals in every part of the Dominion have been fully cognizant of the great need for wise and broad gauged statesmanship at this crisis, and have been studying and thinking out plans to help in the making of a national programme for establishing justice, conserving liberty, increasing prosperity and promoting happiness throughout the nation.

The tariff, evidently, still holds the major place in the minds of those who have been thinking out national problems, and the national Liberal committee has now before it resolutions on tariff reform passed by the national Liberal convention of 1913, every tariff resolution passed since then by provincial or district Liberal associations, and in the place of honor for consideration the Council of Agriculture's platform drawn up at a meeting of the Canadian Council of Agriculture held in Winnipeg, November 20, 1918, the unanimous resolution of the Saskatchewan Legislature and the resolutions of the Alberta United Farmers, the Manitoba Grain Growers' Association, the platform of the United Farmers of Ontario, passed on December 16, 1918, as well as memoranda by some individuals whose grasp of the subject made their ideas of almost as much importance as those expressed by groups.

Political Suggestions.

In most of these there is a surprising unanimity of opinion that, instead of unfair tariff taxes, necessary taxation should be raised mainly by the imposition of a graduated tax on capital, the exemption of moderate fortunes, and providing for a steeply graduated tax in the case of large fortunes, especially those immense fortunes made out of the misfortunes of the country during the war. The idea in each case seems to be that the war debt should in this way be lightened for the great body of Canadians whose industry made these fortunes possible, and that the principal amount of our debt should be dealt with just as quickly as the interests of the country will allow.

Naturally, many of the suggestions are local in their nature and therefore not suitable for inclusion in a national platform. Most are of wider scope, however, and run from radical proposals for a national bank state insurance and public ownership or control of all public utilities to a demand for absolute prohibition of the liquor traffic and the transfer of their natural resources to the three western provinces.

Fixing of the price of wheat is condemned in a number of resolutions. The granting of the franchise to women has been unanimously approved from all sources.

All are keen for the abolition of patronage. Very illuminating is the attention and thought evidently given by many Canadians to the question of Canada's constitutional status. The tendency in nearly every suggestion is to ask for a greater control by Canada in looking after her own foreign affairs, a continual restriction in the appeals to the Privy Council until Canada stands at last without doubt as an independent nation linked only with the other nations of the Empire by ties of sentiment, a common sovereignty and such further substantial evidences of friendship as have already been afforded by the Liberal preference policy.

Daylight saving, education, transportation, agriculture, industry, the franchise, Senate reform, proportional representation, settlement by soldiers and others, taxation of unimproved values, public health, the eight-hour day, equal wages for men and women for the same work, total abolition of child labor, a minimum wage, abolition of titles, the nationalizing of telephones, rigid supervision of corporations to prevent watering of stock, food profiteering, pensions and soldiers' needs, are also the subject of resolutions and recommendations.

New Plan of Organization.

It is intended to put the organization of the Liberal party on a different footing during the convention. The plan most favored is to elect a national president, who would also be the leader of the party, a vice-president for each province, a national council made up of six councillors from each province, and a national organizer. Provincial rights would be respected carefully, but this would give a clearing house at Ottawa by which all the provincial organizations could be brought into a working agreement by a closer co-operation and understanding.

LABOR BILLS FOR BRITISH COMMONS

Adequate Living Wages and a Limit of 48 Hours a Week Work

London, July 10—(Correspondence of The Associated Press)—To provide adequate living wages and to set a limit of forty-eight hours as a week's work is declared to be the purpose of two important bills which are being prepared for action in parliament.

These two measures are understood to be the result of an agreement among representatives of employers, of trade unions and of the minister of labor, acting as a national industrial conference. They are described as "government bills on maximum working hours and minimum time rates."

The wage bill as drawn up provides for an inquiry by a commission to decide what shall be the minimum wages for adults and for young persons, the commission to consider the cost of living. It is also provided that the minimum wage shall be adequate to meet the increased living cost.

The bill intended to make forty-eight hours constitute a week's work does not apply to domestic servants, seamen on ocean-going vessels, nor to employees in positions of trust and confidence. An inquiry is to be held regarding the working conditions of domestic servants and seamen to determine.

It is said that if the bills are approved and accepted by the workers effected by them, the trade unions will be asked to aid the government in organizing a national industrial council to be representative equally of employers and trade unionists.

Beyond Restraint (From London Ideas) After trying in vain for months to get house, Brown set out one day with a find-a-house-or-die look on his face. He wandered about all day without being successful, till at last his steps led him to the river.

"Ah!" he said in utter despair, "how tempting it looks!" He was almost inclined to plunge in and end it all. All of a sudden he heard a splash and looking round, he saw his friend Green struggling in the water. Without attempting to save him he rushed off to the local house agent.

"Quick!" he gasped. "Green has fallen in the river. Can I have his house?" "Sorry," said the house agent. "I've already let it to the man who pushed him in."

PLAN TO HOLD BIG ATHLETIC MEET FOR RETURNING SOLDIERS

Will Be One of The Greatest Athletic Carnivals in U.S. History

New York, July 30—The metropolitan district is to be the scene of one of the greatest athletic carnivals in the nation's history on Aug. 8, if the plans of Amateur Athletic Union leaders and officials of prominent clubs affiliated with the governing amateur sports body go through to success.

This date has been tentatively adopted for the welcome home athletic meet to Uncle Sam's heroic soldier-athletes who recently swept the boards clean in the intercollegiate games held in France. The returning conquerors of Europe's battlefields and the intercollegiate athlete carnival embark today from France and are due to arrive on their native soil Aug. 6. They will travel on the steamship Leviathan, and this is taken as an indication that Aug. 8 can be accepted as a definite date for the proposed athletic meet.

The scene of the games will be Brooklyn Athletic Field, where the Public Schools Athletic League has for many years past conducted its outdoor track and field championships. Every effort will be made to have the coming meet outshine anything ever before attempted on track and field in this country. The programme of events for the returning victors will provide competition in the tests at which they excelled their allied brethren in France. The events will include a 100-meter dash, 200-meter dash, 400-meter run, 800-meter run, 1,500-meter run, 100-meter hurdles, 200-meter hurdles, 3,000-meter run, running high jump, standing broad jump, running broad jump, running hop, step and jump, throwing the javelin, throwing the discus, putting the 16-pound shot, and an exhibition at throwing the 16-pound hammer.

These fifteen events will provide a variety of competition which is calculated to draw a capacity crowd to the Brooklyn Athletic Field. The leaders in local track and field athletics will be invited to compete against the returning stars and it is probable that many of the country's prominent champions and record holders, who were ineligible for the intercollegiate games, will be invited to match strides with the homecoming victors on the track or test their agility and muscle in events on the field. This, it is expected, will lend an added attractiveness to the competitions which will furnish the magnet for a record-breaking crowd.

The plans for the meet have not been definitely decided upon. Further developments are contingent on the progress of the homeward bound Leviathan. As soon as positive word is received here that the great ship will live up to her schedule, work will be started on definite plans for the games.

Blow Outs vs. Cyclones.

A game of baseball that has attracted attention for some time will take place Saturday afternoon on the grounds of W. A. Winchester at Loch Lomond. The McAvity Blow Outs from Water street foundry, will go out to meet the Loch Lomond Cyclones and "some" game is expected, as both teams show real class. The Cyclones, under the able guidance of Mgr. A. Winchester, have been cleaning up everything of late. The Blow Outs will be accompanied by their "royal rooters" under the leadership of Wm. (Doc.) Winchester, while (Big Chief) Sandy Crawford will do the honors for the natives. His Worship A. S. Profit, mayor of the village, will act as umpire, accompanied by a body guard. The following is the line-up:—

Cyclones—Smith, pitcher; Orr, catcher; W. Case, 1st; H. Case, 2nd; Cunningham, 3rd; B. Winchester, s. s.; J. Power or E. Stephenson, l. f.; owner, manager and captain, W. A. Winchester, c. f.; Wood, r. f.; T. Stephenson, sub.; (Doc.) Steele, mascot.

Blow Outs—Cunningham, pitcher; Gorman, 1st; Knox, 2nd; Cairns, 3rd; Treat, 3rd; Myers, s. s.; Cruikshanks, l. f.; Lettany, c. f.; Lavine, r. f.; sub.; Paddy Killen.

At the conclusion of hostilities the ladies of the village will serve supper in front of the grand stand, where music will be furnished by The Loch Lomond Pipe and Drum Band.

Wagner to Pilot Team.

New York, July 30—Efforts are now being made to organize a club in Akron, Ohio, which will seek a franchise in the American Association next season, and if the project is successful, Hans Wagner, it is said, will pilot the team and partly control the stock in the club.

Wagner, since his retirement from baseball, has devoted his time to chicken-raising at his home in Carnegie, Pa., but it is reported that the famous slugger longs for the stress and strife of a pennant fight and that he is eager to get back into the game.

Wagner never had any managerial experience, but he is a past master of the art of baseball in all its phases, and undoubtedly would be a good man to lead a team.

Toronto Gets Schutte.

Rochester, N. Y., July 29—The addition of Frank Schutte and Catcher Haddock to the Toronto club will not result in any immediate changes in the personnel of the Leafs, George Gibson said this evening. Although these two players will bring the team list up to eighteen men, "Mooney" figures that he is within the league limit, as neither Haddock nor Bill Purcell is in shape for work. Neither Schutte nor Haddock is with the Leafs, but both are expected to join Gibson's club when the champions return to Binghamton on Friday. Schutte, who was a free agent when he signed with Toronto, was dickering with Cincinnati and the New York Americans at the time he accepted Gibson's offer.

How To Stop Ruth.

Boston, July 30—Bob McGraw has discovered the one and only effective way of stopping Babe Ruth in his batting rampages. Last night the Killies were sitting on the verandah of the Brunswick Hotel talking of the Red Sox slugger. The various pitchers suggested ways of giving him nothing but low balls inside and others held other opinions. Finally McGraw said: "I think that Ban Johnson ought to give that guy a season's pass to first base, good on all American League parks."

Treaties Assented To.

London, July 31—Royal assent was today given to the German peace treaty and to the Anglo-French treaty, which thus becomes law.

WAR CHARGER REMAINED. When the War Beryl of the Canadian Pacific Ocean Services, sailed from Montreal for Antwerp, the war charger belonging to Major G. W. Shearer, M. C., did not take the return passage. The ship was due to have sailed on Monday, but was delayed owing to the late arrival of cattle from the west, and in the meantime Ottawa had been again conferring with the steamsnip company, with the result that the Director of Veterinary Services agreed to allow the horse to be landed and placed in quarantine. From the representations made by Dr. Torrance it looked as though the military authorities at Argyle House had acted without consulting his department in the matter. It was clear, however, that neither the C. P. O. S. nor Major Shearer were to blame as they naturally accepted the assurance of the overseas militia depart-

The Spark Plugs Tell the Tale of Motor Power

However good your motor, it cannot produce its highest power without efficient spark plugs.

The spark plug, in turn, depends on the insulator which must withstand the same hammering blows of gas explosions and the same rapid expansion as the steel cylinder in which it is placed. That is where 3,450 insulators in

Champion Dependable Spark Plugs prove their superiority. 3,450 separate experiments have produced in Champion insulators a material so much like steel in its ability to withstand the hardest punishment that it is practically indestructible.

There's a Champion Spark Plug that will make every engine, no matter what its purpose may be, produce its highest power. You'll find Champion Spark Plugs in our

GIVEN A SURPRISE.
Last evening Clinton Wetmore invited Harry Coleman to spend the evening of his eighteenth birthday with him at Gondola Point. On the way out the lady called at the home of Harry's aunt, Miss Ada Chamberlain, ostensibly to get water for the automobile. But to Harry's great surprise, his friends and relatives had gathered there to celebrate his birthday. After supper, at which an appropriate birthday cake decorated the table, Rev. R. McKim, on behalf of all presented to Harry a well filled purse, and bestowed on him congratulations and wishes for their success in his college course which he will commence in October. The young man made an appropriate reply, thanking his many friends for their kindness to him, after which the party sang "For He is a Jolly Good Fellow," and each wished him success in his undertaking.

POLICEMAN KIERSTEAD TELLS OF THE TROUBLE

Has Been in Hospital Recovering From Injuries—Busy Session of Police Court

In the police court this morning three men charged with drunkenness pleaded guilty, and were remanded.

When asked by the court how much he paid for the liquor one said: "It cost me a good deal. Your Honor. When I got drunk last night in Main street I had \$60 but when I awakened this morning I had only fifteen cents."

A case against William Sharkey, Collins and Tony Mavarkos, charged with assaulting Policeman Keirstead on the morning of July 23, was taken up. Policeman Keirstead gave evidence. He said that when he caught up to Sharkey they clinked and fell and Sharkey took him by the throat nearly breaking his neck. He said they were on the ground ten or fifteen minutes, when three other men, one of whom was Mavarkos, arrived. He said the other two men were not in court, although he knew the name of one.

The policeman said that Mavarkos when he saw what was going on used profane language. He told the policeman to be careful or he would kill Sharkey and added, "Come on boys, this is France, let's kill this fellow," meaning the policeman. The witness said Mavarkos then said to him, "I will kill you," and he took an umbrella from one of the men and started at the policeman, but the owner of the umbrella stopped him. Policeman McFarlane came along and all the men escaped.

Policeman Keirstead has been in the hospital recovering from his injuries. Policeman McFarlane gave evidence that he saw the crowd in the street, and they were singing, yelling and using profane and obscene language. He said he went up to them took Sharkey by the shoulder and told him to get home, which he said he would do, but on being released he went about fifty yards and used obscene language to him.

The policeman said he started after him, but Policeman Keirstead passed him and gave chase. Policeman McFarlane went back and went into the C. F. R. office and telephone for help, and started in the direction of the other policeman had taken. He said he met Mavarkos and told him to go home, but he said "I can stay out all night if I like."

The policeman then went to the scene and found Keirstead semi-conscious, and the assailants had just escaped. He said that Sergeant Journey, told him what had happened and they gave chase, and Sergeant Journey arrested Collins.

Sergeant Journey gave evidence to that effect.

The case was postponed until Tuesday morning at 10.30. E. S. Ritchie appeared for Mavarkos and Sharkey, and Thomas Sweeney for Collins.

Harry White, of Main street, who was charged some time ago with having a troublesome dog, was fined this morning, but the fine was allowed to stand.

A case against Paul Rantall, charged with assaulting Harolde Guilfoyle, was resumed. The magistrate said: "How would it do if I fined you both? One married couple is as bad as the other." Rantall said he was willing to drop the case as he said both of them fought as hard as they could. Guilfoyle consented to this and the magistrate said: "I can stay out all night if I like. Understand, I am putting the women under a hard penalty, they are to hold their tongues."

The case then went to a conclusion.

A case against George Rusanoff, charged with getting money under false pretences from Rosa Magill, was set over until Monday afternoon at 2.30. M. B. Innes appeared for the complainant.

Of two robes and a duster advertised as being found stolen, the articles were taken from a car. Sergeant Detective Power and Detective Biddiscombe have been on the case. Robert J. Finnegan was charged with stealing the two robes, valued at \$20. He was remanded.

NORMAN N. GREGORY DIED THIS MORNING

Stricken at Summer Residence in Millidgeville

Prominent in Business Life of The City And Performed Valuable Work Here During The War

Norman N. Gregory of the firm of H. S. Gregory & Sons died at his summer home in Millidgeville early this morning after a brief illness. He took ill yesterday morning and while his condition was serious his relatives were confident that he would rally as he had on previous occasions. During the night, however, his condition became critical and it was evident that the end was near, and it was at six o'clock this morning he passed away.

He was a son of the late Hugh S. Gregory and was born in St. Stephen in 1868. Besides his wife he is survived by two sons, Hugh C., teller in the Provincial Bank, North End branch and Charles Grant, also four brothers, Alexander C., with whom he was associated in a contracting and stevedore business, Herbert W., of Grandfords, B. C., Hugh Roy, and Willard B., of this city, also one sister, Miss Alma F. Gregory of this city. The funeral will be held on Sunday afternoon.

Mr. Gregory was one of the most prominent business men in the city and many expressions of regret were heard about the streets this morning when it was learned that he had passed away. His activities were confined chiefly to the harbor front due to his work as a stevedore and also owing to the fact that the firm owned tugs, lighters, etc. He became actively connected with the firm as a young man and after the death of his father the business was carried on by his brother and himself. During the great war, when business in the harbor was the heaviest in the history of the port, he labored indefatigably in order to keep required freights moving. His knowledge of stevedore work was above the ordinary and he was highly thought of by local steamship officials.

Mr. Gregory was a man known and respected by a wide circle of friends and acquaintances. He was conversant in many subjects and well versed in happenings of the day. He never sought preferment in civic or federal politics, but devoted all of his time to his business and as a result of his efforts, which associated with his brother, kept up the good work entrusted to him by his father. The sympathy of a host of friends will go out to the bereaved family.

OPPORTUNITIES FOR TRADE WITH ARGENTINE

B. S. Webb, Canadian Trade Commissioner in Argentine, who has been sent to the maritime provinces by the Department of Trade and Commerce to assist manufacturers in the provinces to develop the opportunities which await them in the Argentine, left this morning for St. Stephen to confer with exporters in that town. Whether it has been a lack of transportation facilities or other causes, Mr. Webb said his Buenos Ayres office had received enquiries from 200 St. John manufacturers. With the increased facilities for shipment, which Mr. Webb has been instrumental in procuring in that province, a Canadian manufacturer will make a stronger bid for business in the South American markets.

Mr. Webb visited upper Canadian cities before coming to the maritime provinces and in Hamilton alone he found sixty requests awaiting him for conferences with the manufacturers of that city. Mr. Webb will return to St. John on Saturday and will be at the disposal of St. John manufacturers, through the local Board of Trade office, all day Monday.
