RAPID PROGRESS BY THE AMERICANS IN DRIVE

Eight Mile Gain on South Side; Are Far Beyond Old Line—So Far 9,500 Prisoners and Sixty Guns Captured

London, Sept. 12.—(By the Associated Press, 1.30 p. m.)—General Pershing's forces in their attack on the southern side of the St. Mihiel salient have advanced for a distance of eight miles. The assault was made on a front of fourteen miles.

The Americans this morning were making rapid progress in the continuation of their drive.

German prisoners say the American attack was expected, but that it was delivered so rapidly that they had no time to put up a stubborn resistance when they were ordered to Panzer, which was energetically defended by the Germans, was easily captured by the Americans.

The Americans are reported to have captured Vigneulle, seven and a half miles north of Xivray, through which the former line ran.

General Pershing's troops also are said to have captured Bency, Haidcourt and the Bois de Thilcourt.

If these places really have been captured the neck of the St. Mihiel salient line has been narrowed to less than six miles, and if the two German divisions reported last night to be in the salient still are there, it is decidedly improbable that they will be able to get away.

General Pershing's troops so far have taken sixty German guns.

The Germans are blowing up the ammunition dumps at Hattoville and Dombour.

On the west side of the St. Mihiel salient, where the country is much more difficult and where the German resistance has been more determined, the Americans have made an advance of three miles on a twelve mile front.

Washington, Sept. 12.—American troops operating in the St. Mihiel sector made considerable gains yesterday said General Pershing in his communique to the war department late last night. Already 8,000 prisoners have been counted, and the movement still is in progress.

FIRST STROKE BY AMERICANS AS INDEPENDENT ARMY

London, Sept. 12.—The assault on the St. Mihiel salient dominates the news columns of the newspapers today, which feature it with the biggest head lines. The opening blow in Marshal Foch's great offensive scheme claims attention in any case, but this one has a special attraction as the first stroke of the independent American army under direct American command, and as such is American in character and as such is the opening blow in the million-ton war of the west.

U. S. WAR SECRETARY WATCHED DRIVE

With the Americans in Lorraine, Sept. 12.—(By the Associated Press.)—The Allied offensive on the western front for the first time is dominantly American, the French co-operating, and in a military sense it is regarded as a continuing phase of the battle which began last summer.

Newton D. Baker, American secretary of war, with several other notable figures, watched the beginning of the battle from the middle of the line.

The front over which the attack was made was so extended that the brilliant bands of vivid light soon stretched from eastward to westward, lighting up the clouds. Soon there began to arise star shells, signal rockets and flare bombs, and the Americans should they leave their trenches suddenly to begin an infantry attack.

To this general order scheme there was added a reddish glow as ammunition dumps exploded and buildings set on fire behind the enemy lines along the line of the attack. All along the lines could be heard the chattering of German machine guns and then suddenly the thunder commenced again when a barrage was laid down to protect the soldiers as they approached the German trenches.

SEVENTY-EIGHT MILE CORDON OF ALLIED SHIPS WAITING FOR HUN

American Congressman Says There Will Be Slaughter for Germans if Fleet Ventures Into North Sea

New York, Sept. 12.—Confident prediction that a naval battle between the German sea forces and the Allied fleets would result in "a marine slaughter" for the Teutons was made by Representative Daniel Roraback upon his return to New York yesterday after an inspection of American naval activities abroad.

"The protection that is being afforded merchant vessels and transports is improving by the hour," he asserted. "The U-boat was a peril. Now it is simply an annoyance. Very soon it will be obsolescent."

"We were pretty anxious to get some idea of the reception that has been prepared for the German navy should it happen to come out. We saw the armor plated reception committee from the deck of a destroyer and it was a sight that will live in my memory forever."

"Stretched about the point where the German fleet must emerge was a seventy-eight mile cordon of Allied warships—British, French, Italian and American—their men on their toes, steam up and guns ready. It took us seven hours to pass this huge flotilla. For us it was the most magnificent spectacle in the world. The crews that man these vessels are waiting, hoping, longing for the light that I do not think they ever will see."

CHIEF SAYS HE HAS 3 MEN FOR TODAY

Twenty-eight Policemen Dismissed—Delegation Presents Case Before Commissioners

Chief of Police Simpson, speaking this morning of the police situation, said that although he had only twenty-one members of his force left last night, yet all the beats in the city were covered. The twenty-eight policemen who were dismissed and did police duty during the night. The chief said that he so far has had offers from citizens to assist in police duty if their services were required. By this evening he said that he expected to have three of the vacancies filled. Special policemen were being sworn in and he expected by tonight that every beat would be patrolled as usual.

Before Council Committee

The case of the dismissed policemen was laid before a committee of the council at a special meeting at 10 o'clock today in city hall by Messrs. Kemp and Suggs of the Trades and Labor Council and J. A. Barry, their solicitor. Three of the former members of the force were present but took no part in the discussion. As the mayor is out of the city and Commissioner McEllen was not present, the committee did not constitute a quorum and it was explained, could take no action. Consideration of the case was postponed until the next meeting of the council, after consultation with the city solicitor. It was suggested that the case be referred to a committee of the council, which might be called for Saturday morning.

LYOYD GEORGE BETTER THIS MORNING BUT ENGAGEMENTS FOR DAY ARE CANCELLED

Manchester, Eng., Sept. 12.—Premier David Lloyd George, who became ill last night, was reported this morning to be generally, but not completely, recovered. Engagements made for him today in his tour of Lancashire, however, have been cancelled.

Last night's announcement stated that the premier was suffering from a chill and had a high temperature.

ANOTHER GERMAN SPEECH FOR PEACE

Amsterdam, Sept. 12.—The postponement of peace prospects and the likelihood of a fifth winter of war weigh equally on all belligerents and not on Germany alone in the opinion of Friedrich Von Payer, imperial vice-chancellor of Germany, in a speech at Stuttgart.

"Our state debts," the vice-chancellor said, "are everywhere reaching fantastic heights and everywhere we struggle against the encroachments on our personal liberties. All the belligerents of Europe must admit, if they are not blind, that the longer the European peoples persecute each other the more certainly will the historical and paramount position of weakened and impoverished Europe be lost in favor of cleverer and more calculating peoples."

Herz Von Payer said that for four years the middle of the line has been almost entirely on enemy territory. He admitted that the submarine war had not worked so quickly and surely as had been hoped. The enemy, he said, was still unable to compensate their losses by new construction and declared that the robbery of neutral ships almost without parallel by the Entente could not be repeated.

"The more troops the United States sends," he said, "the greater will be the need of shipping for reinforcements of munitions and provisions. The killing up of the enemy army by Americans therefore bears in itself its limitations."

He argued that the loss of shipping would become fatal to Great Britain after the war because it would lose its shipping superiority to the United States and "the hope of compensating themselves from the German fleet, which still has to be conquered, will surely be adequate comfort only for the very imaginative Britainers."

Further south, on the front opposite St. Quentin, the British have gained possession of Holmon Wood.

A German attack opposite Moeuvres, on the canal line west of Cambrai, failed completely.

British troops have captured the town of Jeancourt, in the St. Quentin sector, north of Vermand.

In Flanders the British made progress pushing ahead west of Audry, in the La Bassée region.

WIN HIGH GROUND CLOSE TO THE HINDENBURG LINE

With the British Army in France, Sept. 12.—(By the Associated Press.)—British troops stormed their way today into the shell-shattered town of Havrincourt, which lies on a dominating ridge within the forward defences of the Hindenburg line, and at latest reports were maintaining their hold on this highly important place.

A little to the south they also carried the high ground, thereby gaining a still firmer grip on the high ground dominating this region. Fighting was still proceeding this afternoon and about 800 German prisoners have been sent back to the cages.

The attack was begun this morning in the midst of rain, which had been falling intermittently for several days. Because of the elevation of this ridge, however, the ground was not in a particularly bad condition.

Commission to Hold Session in Ottawa on Matter of Quebec Soldiers' Ballots

St. John, Que., Sept. 12.—An unsuccessful attempt to prove that the non-inclusion had no right to appoint the royal commission now holding an investigation into votes cast by soldiers in St. John barracks during the last general election was made today by Bernard Rose, K. C. Montreal. He was acting for Captain Campbell, whose name appeared in the Hansard report of a speech made in the House of Commons by Joseph Archambault, M. P. for Chambly-Verchères, in which allegations of irregularities on the part of officers in connection with the voting at the barracks which favored his opponent, Hon. J. Ralston, were mentioned.

It was found that Francis Chabouff, deputy clerk of the crown in Chambly, ordered yesterday to produce card-index containing the ballots cast in Chambly barracks. He has been able to find only the names of the voters. The rejected ballots papers are essential to the inquiry it was decided to meet in Ottawa on Monday to take evidence as to their whereabouts.

ON TO BERLIN IS CRY AS N. Y. MILLION HAND IN NAMES

New York, Sept. 12.—New York's march army, nearly a million strong, marched to registration centres yesterday, vowing in all the fifty odd tongues of the general that they were willing to join General Pershing's men overseas.

HUN TREACHERY IS AGAIN SHOWN AND CHILEANS AROUSED

Buenos Aires, Sept. 12.—Press despatches from Chile indicate that as a result of a recent attempt by German crews to destroy their vessels the Chilean government will drop the negotiations for releasing German vessels from the German government. This change of policy is receiving the vigorous support of prominent newspapers which were formerly urging that these vessels be released.

The attempt by the German crews to destroy their vessels has caused profound indignation throughout Chile as an example of bad faith, as the orders to destroy the ships came while German crews were still willing to negotiate for their release.

THERE MAY BE NO BIG FOOTBALL MATCHES

Chicago, Sept. 12.—Football authorities at ten big universities were disposed today to await further information from Washington before abandoning fall gridiron schedules in accordance with a request from the war department. WHY NO MOTORING IS ASKED FOR NEXT SUNDAY

It is now officially stated from Ottawa that there is vital urgency in the appeal for economy in the use of gasoline. If that appeal is to be answered in a patriotic way, next Sunday there will be a total absence of joy-riding and unnecessary motoring.

There is another aspect of this question besides that of saving gasoline. By saving gasoline we are exercising thrift, and thrift is greatly needed in Canada at the present time. Money can be saved by saving gasoline and motor wear and tear, with the result that the surplus savings of the people may be increased against the day when they will be needed. It is conservatively estimated that \$150,000 can be saved next Sunday in Canada if motoring is reduced to absolutely necessary travel.

CHIEF SAYS HE HAS THREE MEN FOR TODAY

On behalf of the men, it was said that they had done nothing improper in forming a union or applying for affiliation, that the affiliation with the congress would not in any way interfere with their obligations as policemen, that they were willing to draw up their constitution in accordance with the ideas of the heads of the department, that they had been wrongfully dismissed and still were in the employ of the city. The council was asked to intervene and secure an adjustment of the matter. Failing this, the men would appeal to the minister of labor.

A Difference In Teeth

(C. Douglas Kissack in London Daily Mail)

One thing about the American soldiers and sailors must strike English people when they see these gallant fighters, and that is the soundness and general whiteness of their teeth.

It is all the more striking in that it is such a contrast to the teeth of the British people. The "Yank" was at one time laughed at for his hygienic theories, but most of us now realize that there is a great deal in them.

From childhood the "Yank" is taught to take care of his teeth. He has "tooth drill" thrice daily and visits his dentist at fixed periods, say, every three or four months. If by chance a tooth does decay, the rot is at once arrested by gold or platinum filling. American dentists rarely extract a tooth. No matter how badly decayed it may be, they save the molar by "crowning" it with gold.

The result of all this is that our United States cousins, besides adding to their appearance, gain in health by having good clean teeth, and when war came very few men were turned down by the American military authorities for having decayed teeth. So daily we see them, their faces tanned, smilingly exhibiting perfect sets of teeth. It is a distinctive mark of the American—as distinctive as his uniform or his slang.

Now take our own case. Daily you see young boys and girls with mouths full of decayed teeth. British parents have

neglected their children's teeth too long. Bad teeth hinder digestion, and indigestion is the curse of many a man's life. Mothers should see to it that their children use their tooth-brushes daily, after every meal if possible. Sweets will not decay teeth if the latter are thoroughly cleaned at frequent intervals. The first teeth will fall out themselves. It is with the second set that most care should be taken. Once these decay, then

ill-health and needless expense follow. The United States soldiers have set us a splendid example in this matter. They fairly shame the ordinary "Tommy" by the brilliance of their molars, but they will do so no longer if young English mothers will only wake up to the fact that bad teeth cause bad health and that doctors' and dentists' bills will be saved by the regular use of the tooth-brush.

THE KAISER HAS A PECULIAR FACULTY OF SAYING THE WRONG THING. IT MAY APPEAR TO HIM GOOD POLICY TO PAY COMPLIMENTS TO THE GERMAN PEOPLE, BUT TO BRAND THE ANGLI-SAXON RACE AS INFERIOR AND ENVIOUS WILL NOT HELP TO SHORTEN THE WAR, INDEED IT NERVES THE ANGLI-SAXON TO A MORE VIGOROUS PROSECUTION OF THE CAMPAIGN THAT HAS OF LATE PROVED SO DISASTROUS TO THE GERMAN ARMIES.

THE COAL QUESTION.

To the Editor of The Times:

Sir,—I noticed a query in your editorial columns as to why hard coal is \$16.25 in St. John and the same coal is only \$14 to \$14.50 in St. Stephen, Woodstock and Fredericton? The answer is very simple. It is owing to the fact that we have a fuel controller that is controlling nothing but the salary that is attached to the office.

As to the other queries, why barges cannot be brought to St. John and why cars are unnecessarily delayed in unloading; it is just as simple. It is because it does not suit the purpose of the parties interested, the government, the coal barons or the retailers, to import hard coal in barges or otherwise. They figure to import just enough for a certain class and to unload soft coal on the poor people.

Aside from the question of the balance of trade between the United States and Canada, it is an indisputable fact that the more coal that is consumed the more there will be mined; therefore the government will reap a larger revenue in royalties besides keeping the money in Canada and it does not require much discernment to see where the retailers will benefit by selling soft coal at hard coal prices.

I have great sympathy for the favored class that are getting robbed to the extent of \$2 a ton as it would pay their gasoline and oil bills, but I have far greater sympathy for the thousands that cannot get hard coal at any price.

Respectfully yours,
JAMES McENAMIN.

MINISTER OF LABOR IS TAKING A HAND.

That the minister of labor is doing everything in his power to prevent continuation of the Dominion Express Company's strike was the message received last evening from Hon. F. B. Carvell by John Kemp.

The teamsters held a meeting last evening and agreed not to haul a pound of goods for the company while the strike is on. They extended their entire sympathy towards the strikers.

Ask Intervention.

At a joint meeting of the city council and board of trade of Moncton, which was held last evening, a deputation was present from the Canadian Brotherhood of Railway Employees requesting the board of trade and the council to ask the government for a board of conciliation to consider the dispute between the Dominion Express Company and its employees. A resolution was passed petitioning the prime minister and minister of labor to grant a board of conciliation.

YARMOUTH WEDDING OF INTEREST

Yarmouth, N. S., Sept. 13—A very interesting event took place at 7.30 o'clock yesterday morning in Wesley church, when Miss Hazel Keith, daughter of Mrs. Etta Ryder, was married to Wilbert Vought Hoyt, cable electrician in the W. U. offices at North Sydney, and son of Mr. and Mrs. Chas. H. Hoyt of that place. Rev. W. H. Langille, pastor of Wesley church, officiated, assisted by Rev. Dr. Bambrick, rector of Holy Trinity. The church was elaborately decorated in green and white. The bride was given in marriage by her mother and was very prettily gowned in a traveling suit of blue serge with large picture hat and carried a bouquet of bridal roses. Both bride and groom were unattended. Immediately after the service Mr. and Mrs. Hoyt, with their immediate relatives and young lady friends, returned to the home of the bride, where breakfast was served, after which they left by the D. A. R. express for a wedding trip to upper Canadian cities, returning to North Sydney, where they will reside.

Mrs. Hoyt for the last eight years has been an operator in the W. U. offices in various parts of the maritime provinces and by her kindly way has made many friends who will join in wishing her many years of happiness. There was a brilliant array of presents. Out of town guests were Chas. Hoyt, the groom's father, and Mrs. Catherine Fitzhugh of Weymouth.

SOCIAL SERVICE COUNCIL FORMED

DEBS FOUND GUILTY ON THREE OF CHARGES

Cleveland, Ohio, Sept. 13.—Eugene V. Debs, charged with violating the Espionage Act, was found guilty by a federal jury today.

Talking to newspapermen after the verdict, Debs said: "It is all right. I have no complaint to make. It will come out all right in God's good time."

Of the original ten counts of the indictment, but four remained when the jury retired to consider the evidence. The verdict found him guilty of three, and not guilty of one. He was found guilty of attempting to incite insubordination, disloyalty, etc., in the military and naval forces; attempting to obstruct recruiting and uttering language tending to incite, provoke and encourage resistance to the United States, and to promote the cause of the enemy. The one on which he was adjudged innocent charged that he opposed the cause of the United States.

Judge's Charge Falls.

Counsel for both sides said that they

considered Judge Westenhaver's instructions fair. They were exhaustive and couched in simple language and delivered in a kindly manner, required one and a half hours.

ANOTHER N. B. UNIT AT THE FRONT

The legitimate grievance of New Brunswick that the number of the troops contributed by that province were not adequately represented by distinctively New Brunswick units in the field, because its drafts largely went to reinforcing western battalions, is now in process of redress, as a battalion hitherto recognized as Manitoban though with a preponderance of "Blue Noses" is now set aside for that province. All New Brunswick drafts will go there and in process of time the Manitoba members will be drafted out into other Manitoba battalions.

U. S. TROOPS GAIN GROUND IN FAMOUS ST. MIEHEL SALIENT

New York, Sept. 12.—The Associated Press tonight issues the following: The American First Army under command of General Pershing is in motion against the Germans on a twenty-mile front on the famous St. Mihiel salient in Lorraine, which had stood a sharp wedge in the French line southeast of Verdun since the commencement of the war.

In the preliminary thrust ground was gained on both sides of the triangle and at St. Mihiel and at last accounts the Americans with some French troops are brigaded, were fast sweeping across the salient in an effort to close the mouth of the big pocket before the German can get out.

Although the advance of the Americans was swift and sure and gains in excess of four miles on the southern side of the battle area were made, the cavalry far outstripped the tanks and footmen operating along the railroad near Vignelles, almost in the center of the salient and northeast of St. Mihiel and also northwest of Fort-A-Housson, through the forest and along the railway line running northward to Metz, the great German fortress, the southern outer fortifications of which are less than ten miles distant.

Thinecourt, Boulliville, Panes and several other towns in the south were captured in the initial dash. The fighting front at the commencement of the battle aggregated twenty miles. Eight miles on the western side and twelve miles on the southern side. The fighting proceeded by an extremely heavy artillery bombardment, and the troops and tanks advanced under barrage which was carried out with mathematical precision.

From the maps it would seem almost possible for the Germans to evacuate his salient, as they apparently are trying to do, although they are offering resistance with machine guns and artillery, suffering huge losses with men and material.

In the north Field Marshal Haig is still hard after the Germans in the region of Cambrai where he has advanced his front, penetrating into the old British front line, across the Canal du Nord north of Havrincourt, taking Havrincourt and another section of the Hindenburg line and thousands of German prisoners in the process. The Germans fought hard at Havrincourt to stay the British but their counter-attacks were beaten off. Further advances for the British also are reported in the region south of La Bassée Canal and northwest of Arras.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 17 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and side aching so I didn't know what to do. I read the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. BIG MEETING IN TORONTO

His Lordship Speaks of the Church and the War—Says Spirit of Materialism Has Gripped Religious Life

Toronto, Sept. 12.—Between 3,000 and 4,000 persons attended a meeting last night in connection with the Anglican synod upon the supplies of the laymen's missionary movement, to hear Right Rev. J. N. McCormick, D. D., Bishop of Western Michigan, and Right Rev. Bishop Richardson of Fredericton. They were welcomed briefly by Mr. Justice Hodgins of Toronto and Archbishop Worrell of Nova Scotia.

Bishop Richardson declared that the Canadian troops had made the name of Canada synonymous with strength, steadfastness and courage. A high British officer had said to him, "Put those chapmen in a tight corner, and they stick." "That is the characteristic of the Allies," added the bishop, "they stick."

There was nothing in the old country today the Canadian soldier could not have for the asking. Speaking of the moral conduct of the troops, he declared that while in England and France, he had seen only one case of a man showing signs of intoxication, and General Currie had told him in three years not a single Canadian soldier had been charged with a crime against a woman.

The shop declared his conviction that Germany should pay the price of her misdeeds. "I count that a Christian thing to say," he exclaimed. "We owe just as good." There is nothing "just as good" as Zanz-Buk. All druggists, 50c. box, 2 for \$1.25, or direct from Zanz-Buk Co., Toronto. Send 10c stamp for postage on free trial box.

when people cannot afford to accept anything but the very best for their money. Zanz-Buk has been proved by thousands to be the best obtainable for skin ailments. Its cures are permanent. You take no chances when you buy Zanz-Buk. Only the really good things are imitated! Proof of Zanz-Buk's superiority is provided by the great number of imitations and substitutes which have been put on the market. Don't be deceived, however, by anything represented as "just as good." recruiting among the Irish people.

An Irish Rebel's Opinion.

Almost in the spirit of prophecy John Mitchel wrote: "No family of professional burglars, burglar father training up the burglar son—has ever been so unreluctantly bent upon living on the plunder of others, and coming by that plunder through all possible and conceivable means, and without regard to the blood of the innocent." The Prussian policy is to prepare very actively in secret for some unjustifiable aggression to effect friendship with the last moment, to employ military and engineering spies on an immense scale, thereby preparing for the customary spring of Prussia.

We are either for the rights and privileges of mankind or else for the pretensions of an insolent monarchy, and aristocracy which pretend to ignore and deny all human rights whatsoever. The Prussians have no notion of any kind of rights of constitution."

John Mitchel's grandson has just died in the service of the aviation corps of the United States. When he was mayor of New York he had the city decorated with the French and British flags and declared, acting faithfully on the principles of his grandfather, that for the freedom of the world the Prussians must be defeated.

A Prominent Sinn Feiner Faces Facts. Judge Cohalan, whose activities in favor of Sinn Fein involved him in a good deal of trouble early in the war, has honestly faced the fact that Prussia must be beaten before liberty is possible anywhere. He now says: "I am for America first, last and all the time. When the United States entered the war I turned against Germany."

Can any Irishman, whatever his political opinions, refuse to "turn against Germany," and by remaining "neutral" decline to assist the cause to which all his brethren in America are committed? The peoples of the world are today in arms against what John Mitchel called the "iron spring of Prussia," and against the pretensions of the Prussian "to deny all human rights whatsoever." Are Irishmen, whatever their motives, willing to stand aside from such a contest?

At the outbreak of the war every political leader declared war against Prussia in the name of Ireland. No Irish leader has gone back on that. All Irishmen willing to assist in the work of recruiting are requested to communicate with the Irish recruiting council, and supply information and suggestions as to local organization, and the most effective method of proceeding in different districts. The office is opened at 22 St. Stephen's Green, Dublin. Lieutenant Aedan Cox has been appointed secretary to the council, and all communications should be addressed to him at above.

Next day the companion to an elderly lady was resulting to her the newspaper report of his son, who was reported to have been killed in the fire. "But how thin the poor man must have been!"—Harpers.

Rheumatism
A Home Cure Given By One Who Had It

In the spring of 1898 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know that over three years. I tried remedially after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted, and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and we will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send your price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write to-day.

HIS VISIT IN FRENCH CANADA

Francois Veulliet's Letter to Committee in Paris—Problem of War Participation Settled

La Verite is the one French paper to reproduce Francois Veulliet's letter to his committee in Paris on his Canadian wanderings. That paper declares that the reproduction is only as a document. The French clerical exponent thanks the Canadian Catholics, the Archbishop of Montreal, and all the religious orders and communities visited for their great kindness and he says: "In Canada I discovered a French and Catholic people, and by this fact alone is one of the clearest evidences of the designs of Providence on our race. But the people will ask, and in fact I posed the question myself, whether they or their successors will be able to support the burden of the St. Lawrence, if French-Canadians conserve in their hearts love for old France, how is it that the sufferings of their mother country do not awaken more interest or more vibrating echoes?"

It is true that the French-Canadians refused to participate in the war, as thousands among them volunteered during the first months of the campaign and bravely did their duty on the plains of Flanders, while today, under conscription they are rapidly rallying to the colors. Can it be said, however, that there is no truth in the events and situations which provoked criticism or created misunderstandings? It is not so. It would be false to accuse the French-Canadians of indifference or even hostility to the Allied cause, yet, as we also recognize with a loyalty that will not displace our British allies, that the Anglo-Canadians did not manifest their French sympathies as a loyalty in the war possesses causes so prejudicial to the French-Canadians that it is a lack of sympathy or courage. The French population is in great majority Catholic, and the French-Canadian families, where the father needs his sons, and where there is a considerable number of English people, the Anglo-Canadians on the contrary, have few children, and are given to industry and commerce.

Canadians in both camps who seek to bring about harmony, and I think that one day either they or their successors will succeed. I hope for a united Canada, and especially for the race whose action will count for a great deal on the future of the country. In order, however, to discuss this matter right up to the end the responsibilities of both camps must be considered. Amongst the French who represent most bitterly our Canadian brothers with a loyalty towards the old mother-land I notice those of very advanced ideas in an ecclesiastical policy and that of before the war. Do they really and sincerely believe that such a line of conduct was proper to ex-press the sympathies of a people profoundly attached to its priests and to the religion? In conclusion, says Monsieus Veulliet, the French-Canadians do not merit the reproaches with which certain people seek to cover them. If their voluntary participation in the war has been less than we would have wished, first, it was much more serious than we were led to believe; second, it was hindered and lessened by circumstances which did not permit their hearts being given to the campaign against which every Frenchman should protest with energy. The loyalty of the French-Canadians to the British crown cannot be contested, yet no less a fact is their unreluctant towards the English people. This is a point, fact, yet it is true all the same. I am with all my heart and soul with those

views are shared by many French-Canadians. My affection, however, for our Canadian brothers remains undiminished, and I have also an undiminished confidence in our future relations. The agonizing problem as to their participation in the war is now settled, and whatever judgment may be rendered on their attitude in face of volunteer enrollment, there can be no two opinions as to their loyal and courageous obedience to the law of conscription.

"Generally run down? Want a tonic?" said a chemist on being consulted by a customer. "I've the very thing for you—Thompson's Tonic. Four times a day, and in two days you'll feel like another man. Half a dollar a bottle." "No, no, no!" said the customer, energetically. "But it is the very thing for you. All the doctors are recommending it. We can't get it fast enough for our customers."

"I believe you, but I would prefer something else."
"Nonsense!" I tell you the Tonic will do more good in one day than anything else in a month. It cures everything. What's your objection?" "Only that Jim Thompson,"—Pittsburg Chronicle-Telegraph.

Shell Shocked Nerves

Shattered nerves are the source of greatest suffering to many a returned soldier. The doctor can give something to relieve physical pain, but when the nervous system breaks down and you are sleepless, nervous and mentally worried, real cure only comes when the exhausted nerve cells are nourished back to health and vigor by such restorative, unobscuring treatment as Dr. Chase's Nerve Food.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRH, DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrh, Deafness, head noises, or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are able to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your Druggist 1 ounce of Permanganate of Potassium. Take this home and add to it 1-4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. It is a most valuable remedy, becoming easy and hearing improve as the inflammation in the eustachian tubes is removed. Permanganate in this way acts directly upon the blood and mucous surfaces of the system and has a slight tonic action that facilitates absorption of the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh should give this treatment a trial.

SOCIAL REFORMS NEEDED HERE

At the meeting of the Children's Aid Society, last night, the president, A. M. Belding, spoke of social reforms which are greatly needed at the present time. He based his conclusions on revelations made in the report of the society's agent, Rev. George Scott, in cases he had dealt with during the past month. Among these the most pressing need was a vigorously enforced compulsory school law for the county of St. John and the province generally. Another is an institution for the care of the feeble minded. A third is the need of some system of mothers' pensions. This last was emphasized by two cases now being dealt with by the society, in which widows have been left with large families without adequate means to support them. In both instances the homes had to be broken up and the children placed in institutions. Another matter, he pointed out, was the need of a provincial institution where fathers who are recalcitrant to the duty of supporting their families could be placed and compelled to work, and where delinquent women could be given an opportunity of redeeming themselves and at the same time earn their living. Another matter touched upon by Mr. Belding was the recent refusal of the senate to change the age of consent from fourteen to sixteen years. He advocated a continued agitation with the object of

having the senators reconsider their decision.

A hearty vote of thanks was passed by the board to Mrs. J. W. Smith for her kindness in entertaining the children in the shelter, accompanied by the matrons, Mrs. Festina, and her assistant, Miss Pools, at her summer home in Hillendale. The party left the city in automobiles, kindly provided by Mrs. Smith, E. R. Machum and Frank L. Peters. The day was a most enjoyable one.

SOVEREIGN GRAND PRIORY IN ST. JOHN NEXT YEAR

Bellefleur, Ont., Sept. 12.—The next annual session of the Sovereign Grand Priory of Canada will be held at St. John (N. B.). This was the decision reached at the closing session today of the thirty-fifth annual session.

The following officers were elected: Grand marshal, James A. Norris, Toronto; grand registrar, Dr. W. H. Wright, Toronto; grand provincial prior (Eastern Canada), Quebec district, A. T. Cooper, Quebec City; Nova Scotia and Prince Edward Island, J. L. Alexander, New Glasgow; New Brunswick district, A. M. Rowan, St. John. Grand councilors, H. A. Porter, St. John (N. B.); A. H. E. Eckhardt, Montreal.

Hon. W. E. Foster's many friends throughout the province will regret to learn that he is at present indisposed owing to the fact that he is suffering from an ulcerated jaw. The indisposition is, happily, not serious and the premier expects to be about again in a day or so.

BALLY TO ARMY HUTS

Lieutenant-Governor Pugsley Commends Object of Next Week's Campaign to the People of New Brunswick.

St. John, N. B., Sept. 12, 1918.

To the People of New Brunswick: My attention having been called to the campaign which has been launched in this province by the Knights of Columbus for the purpose of erecting Army Huts, I deem it my duty to urge upon you as strongly as possible the desirability of giving a generous response to this appeal, which is for a most patriotic and praiseworthy object.

The campaign will close on Monday, the 23rd instant, and it is hoped that at least \$75,000 will be raised in this province.

The Knights of Columbus in the United States have proved most helpful to our great ally in this war, and their splendid work has elicited strong approval from President Wilson and members of his cabinet.

Other provinces are responding nobly to the call now being made, and I am confident that in proportion to its population and wealth, New Brunswick will not be behind the others.

I am, yours faithfully,
WILLIAM PUGSLEY,
Lieutenant-Governor.

E. N. STOCKFORD NATIONAL CHIEF

A session of National Grand Lodge, I. O. G. T., was held last evening in Thorne Lodge Hall, N. C. T., William Davis, of Montreal, presiding. Y. M. C. A. TO GET \$400,000.

Surrogate Orders Payment of Part of Butterfield Legacy.

Cold Spring Harbor, N. Y., Sept. 12.—Surrogate J. B. Southard of Putnam county has filed an order directing the executors of the estate of Julia Butterfield of Cold Spring, widow of General Butterfield, to turn \$400,000 over to the international committee of the Y. M. C. A., the residuary legatee.

The organization, which has been trying for five years to collect its legacy, says that it needs the money to carry on war relief work. The estate has been in litigation since the death of Mrs. Butterfield.

The order directs that \$100,000 in cash be turned over to the Y. M. C. A., and the rest in mortgages.

More Quality Less Money

NEVER before were our Made-to-Measure garments so obviously superior in value as they are today, when compared with custom-tailored garments and ready-made clothes at double our standard prices.

The acute wool shortage and huge Government requirements have forced woolen prices to such high levels that clothes made of even the lowest priced fabrics are already high — and will be decidedly higher next season. As the situation stands today, the manufacturers of low priced ready-made clothes cannot buy cheap cloth, and proportionately their prices are higher.

The fabrics we are showing now were made for us back in 1915 and 1916, and the fact that while the market value of our stocks of woollens have advanced 50% to 100% we have not taken advantage of the fact, but have preferred to increase our circle of customers by offering a Made-to-Measure Suit or Overcoat at \$17, a value that cannot be duplicated elsewhere at double our price.

The bridesmaid's dress was of pale blue crepe de chine and she carried a bouquet of pale pink asters and maiden hair fern. Many beautiful gifts were received.

EXTENSION OF THE STRIKE TALKED OF

Rumor of Canadian C. E. Employees Going Out This Afternoon—Supt. Branscombe Arrives

Additional interest was aroused today in the strike of the Dominion Express Company's employees as rumors were current about the city that the employees of the Canadian Express had decided to go out at three o'clock this afternoon. The employees of the company, when interviewed by a Times reporter, said that they were in sympathy with the employees of the Dominion Express and were ready to quit work so soon as notified by him in charge. Up to noon today they had not received any word that they were to go out this afternoon.

There was also a report that on Monday, if the strike was not settled satisfactorily by that time, the Brotherhood of Railway Employees would go out. This would mean a tie-up of the Canadian Government Railway in addition to many other organizations affiliated with the brotherhood.

At noon today the employees of the Dominion Express Company who are on strike assembled at Union Station and watched the incoming train. There was no demonstration of any kind.

F. W. Branscombe, superintendent of the Dominion Express for the Atlantic Division, arrived in the city on the Montreal train. When he stepped off the train he walked down as far as the express car and stood talking to some friends. To a Times reporter he said that he was here in connection with the strike and expected to remain in the city for some days. He said that the sea of trouble had shifted from Montreal to St. John, and that was the reason why he came here. He said that the company was getting along very well despite the handicap caused by the strike. He said that in Montreal the situation was well in hand and yesterday the company had forty-five trains in the streets. He said that only a small percentage of employees were on strike and he intimated that the company would fight the issue to the last.

G. D. Gibbs, president of the local branch, said that he received a telegram from Montreal this morning informing him that the entire system was still tied up and that all of the members of the union were standing out firm. He said he received similar messages from all parts of the country which their union covered. He also received the following telegram from R. L. Borden:—"Canadian Brotherhood Railway Employees:—Your telegram of the eleventh received. Notwithstanding your statement I am still informed that a board of conciliation was not unconditionally refused. Such a board may still be established if asked for, showing to represent majority employees."

This morning the members of the union were entertained by the Famous Players Film Company and the Canadian Universal Film Company in their studio in Union street. Several motion pictures were thrown on the screen and the machine was operated by one of the guests.

A fair sized quantity of goods arrived in the city this morning for distribution. This was removed from the express car by J. R. Haycock, assistant superintendent of the division. L. C. Good, city agent for the company, and a couple of employees who are taking the places of the men on strike.

Stanley E. Adams Adds To Great Family Record

Two Brothers Killed, Another Loses Leg and Himself Twice Wounded While With Gallant N. B. Battalion

Stanley E. Adams of this city, after serving with the C. E. F. in France, has enlisted and been accepted for the Canadian Siberian force.

Enlisting in 1914, the first year of the war, Private Adams went overseas with the 26th Battalion as one of the original

PTE. STANLEY E. ADAMS.

members and served at the front until 1916 until he received wounds which necessitated his being invalided home. He had been wounded previously but had recovered and returned to the firing line. He now is wearing two wound stripes.

Two of Private Adams' brothers have been killed in action at the front. Private Jerome Adams, who went over with the Scottish Black Watch battalion from Montreal, met death in the last battle of Vimy Ridge. Pte. G. B. Adams, who went over with the 140th, was killed at the same place twelve days earlier while serving with the Princess Pats to which battalion he had been transferred. A fourth brother, Philip, who enlisted with the 118th, received injuries at the front which involved the loss of one of his legs. He now is in Toronto to have an artificial limb fitted.

Not satisfied with this unusual record which he and his gallant brothers have accumulated in the pages of Canada's history, Pte. Stanley Adams again seeks active service to add another stroke in the task of humbling the Hun.

ROADS LITTERED WITH WAR MATERIAL LEFT BY FLEEING GERMANS

President Poincare Pays Visit to Ground Won Back From the Enemy

Paris, Sept. 12—President Poincare has paid a visit to the front to observe the condition of the troops in the zone newly liberated and particularly those regions where the enemy carried out systematic destruction before retiring. Accompanied by General Foyatier and Humbert he inspected Chauny, Noyon, Nesle, Guise and Ham.

The country roads were found littered with war material left behind by the enemy in his hurried retreat. All the trees bordering these roads and the fruit orchards had been cut down. The towns and villages were in ruins from houses blown up by dynamite and burned. Everywhere churches had been destroyed. The hospital at Ham and the ambulances had been burned.

The president felicitated the troops on their bravery and endurance in the recent operations.

LIQUOR CASES

George Curran was before the police magistrate this morning on a charge of supplying liquor to John Lane on July 15. Curran pleaded guilty and was fined \$200. He said that he was given a suit case by a man to be delivered at the home of Lane. He did as he was asked. The suit case, it turned out, had in it nine bottles of liquor. Lane on the following morning took a bottle with him when he left the house and after drinking for some time was arrested. It was through Inspector McAluish that the arrest of Curran was made today. The inspector has been working on the case for the last week.

W. G. Colwell was before the magistrate this morning charged with drunkenness and having liquor in his possession. He pleaded guilty and was fined \$200.

Henry Ewart was charged with drunkenness and having liquor in his possession. He was remanded. He said that the liquor he was drinking was alcohol colored with iron brew.
