## MANY N. B. TEACHERS ARE GOING TO THE WEST.

They Believe That They Can Do Better Out There and Have About Given Up Hope of Receiving Higher Salaries in This Province.

Arthur P. Stevenson, of Sheffield, Queens Co., who has during the past year been principal of the superior school at Bloomfield, Kings Co., is in the city today on his way to the west. Mr. Stevenson is to take the principalship of a large school in the new province of Saskatchewan. He expects to be accompanied on the excursion by a large number of New Brunswick teachers many of whom are going from York county. These teachers have been waiting in the city for the long talk of increase in salaries which "lures from afar but ever flees before," and when they will pack their trunks to leave for the west, where the profession holds brighter prospects for the ambitious youth.

The matter of the exodus of so many of the best teachers to the great west is becoming a matter of serious alarm to the school authorities of this province. Scores of the energetic young men and women in the teaching profession have recently given up their schools and taken position in the west where in many cases they have been able to double their salaries. Scores of others are only waiting to get a year's experience in the west, where they hope to find the success of friends out there, and some for the much-needed government money which they have been waiting for some time, and are making an extended tour of western Canada.

At the meeting of the provincial institute at Chatham Superintendent Inch read a letter from Inspector Mercereau, of Doaktown, who has been away on a year's leave of absence, and is making an extended tour of western Canada.

In the letter the inspector pointed out that a teacher's life in the west was not all it was represented to be, and he showed some of its disadvantages. These, it appears, were mainly the long hours of teaching, the isolation, the lack of social life, and the fact that the profession in any part of the west was better paid than in New Brunswick.

Dr. Inch, in a strong address, advised the teachers that they should not leave their native province and it was in New Brunswick their services were most needed. He intimated that salary grievances would soon be removed. "Just as soon as the finances of the province permit," said the superintendent, "the teachers shall have an increased government grant."

This province seemed far enough and some of the younger and more hopeful members of the institute were satisfied with it. But when they were informed that the same promises had been made at the meeting for the last 15 years, the realization seemed as far in the future now as ever before. Meanwhile the western fever continues to spread among the teachers. On the whole the New Brunswick teachers are a body of strong, healthy young men and women, and are able to cope with the adverse conditions of living in the west quite as well as the members of other professions who are thriving in the prairie lands. On the other hand they are a class of people who know the value of a dollar, and notwithstanding the respect they may have for home institutions, and the desire they have to advance their educational progress, they are not ready to leave their native province, there is no reason why a largely increased salary should not have the same allurements for them as for other individuals. One noticeable fact about the New Brunswick teachers who have gone west is that there is scarcely an instance where a young man or woman after spending a year or more in the profession there has returned to teach in the east. This is one of the strongest arguments our teachers are using in favor of taking up the profession there.

Kate Hamilton was remanded to jail this morning for not giving a satisfactory account of herself and also being a habitual frequenter of houses of ill repute.

Robert Matthew, a colored boy, has laid information in the police court against Harry Musgrave, whom he charges with striking him on the mouth and biting his shoulder.

## DOWN WENT MCCARTHY

John Got Too Free in Abusing His Wife.

Kept Her Clothes, Took Her Watch and Assaulted Her—He is Now in Jail on Remand.

John McCarthy and his wife are again in difficulties. Mrs. McCarthy went to the police court this morning to complain of her husband. John followed her and landed in jail.

Mrs. McCarthy told the court that on Monday night John took her watch from her, swore at her, called her numerous bad names, said that she was running about the streets and park with bad girls and fellows, and told her to leave the house. He quieted down after a time and gave her back the watch. Last evening when he came home he started another fight and ejected her. She walked around town until ten o'clock and then secured lodgings at the Ottawa Hotel.

This morning she was going to her husband's home on Acadia street to get her things. She was met by her husband who called her names and said that he had gold for her clothes and would turn them off her back. He then snatched her gold watch from her belt and broke the chain and put the time piece in his pocket. She went to Pond street where she claims the father of her child and caught hold of her coat. She said she had been separated from her husband for some time and only returned to him about a month ago as he had finished his valuable address he was remanded to jail.

## TAKING PRECAUTIONS AGAINST CIRCUS FAKIRS.

Detectives Write to Chief Clark Asking His Assistance in Protecting Visitors to the Show.

The Barnum & Bailey show people are putting forth every effort possible to prevent their patrons from being harried or otherwise taken in by fakirs.

This morning Chief of Police Clark received a letter from the Barnum & Bailey detective Samuel McClure, to the effect that a man in travelling dress had been seen by the show people as one of the circus advance agents. He is not anything of the kind. The detective says that the show has four advance agents, viz., Conklin, Barnum, Keeler and Guinea, and requests Chief Clark if he should come across any person other than those mentioned above to arrest him immediately and to notify the circus detective. He says the man pretending to be an agent is not only causing the show considerable trouble but is annoying the public greatly by issuing worthless tickets.

The chief is also in receipt of a letter from the Pinkerton National Detective Agency stating that they have special detectives with the big show and asking the aid of the local force in keeping order on Friday.

A very pretty wedding took place this morning at the Cathedral of the Immaculate Conception, when Sarah Flood, daughter of Jas. Flood, sr., Brimley street, was united in marriage to Wm. P. Sullivan, of Madawaska county, N. B. The ceremony was performed by Rev. A. McLean. The attendants were Miss May McCarron and Norman J. McGowan. The bride was becomingly gowned in white silk trimmed with a bouquet of pink carnations. The groom's present to the bride was a pearl necklace and to the bridesmaid a ring set with opals and pearls. Numerous beautiful presents were received, including chimes from the bride's father and brother. Breakfast was served at the home of the bride's brother, James Flood, Jr., Brimley street. Mr. and Mrs. Sullivan left by this morning's train for the honeymoon. They will reside in Boston.

Mary George Moore, Margaret Morey and Annie George were before the police court this morning having been reported for peddling about the streets without license. They were told to go to the city hall and secure licenses or be fined.

## EDUCATION COUNTS IN AFGHANISTAN.

The Ameer Criticizes the Policy of British Officials

And Announces That Henceforth the Civil Service Will be Open Only to Qualified Men.

LAHORE, Punjab, British India, July 18.—The amir of Afghanistan issued a notable pronouncement on the subject of education in his dominions. He says education is retrograding but the fault does not rest with the teachers, but with the government officials, who discourage education, dreading its leveling working on the Cresser Mystery, the high born officials that they must either change their attitude in this connection or be changed. Henceforth, he says, education will be the sole path to state service.

## WILL MAKE ANOTHER SEARCH FOR THE CREAMER CHILDREN

F. W. Sumner, of Moncton, Again Pays the Expenses of Constable Thomas—Thinks the Little Ones Will be Found.

MONCTON, N. B. July 18.—Constable Charles H. Thomas left this morning for Bayfield to spend another week working on the case of the outbreak of a revolution in Russia. Emperor Nicholas being advised of the general nature of the deliberations. It was decided in principle, the paper adds, that Germany and Austria will intervene in Poland with armed forces in case the Russian emperor finds it impossible to maintain the control of Poland, the three emperors thereafter acting in concert for the maintenance of the status quo of their respective possessions.

ST. PETERSBURG, July 18.—The political barometer is again falling. The confusion which seems to have taken possession of the upper spheres since the efforts to form a coalition ministry failed, coupled with the alarming reports from the interior and the attitude of parliament, make almost anything possible. There has been a marked revival of apprehension that the crisis may end in a coup d'etat against parliament. The assassinations of Vice-Admiral Choukhin and General Kozlov, the discovery that behind the murder of the general was a big plot to kill not only General Trepot, but Prince Putiatin and other courtiers, and the general epidemic of disorder which has terrorized not only the local authorities, but even the police, together with the conviction of the peasant by the peasantry in half a dozen provinces during the last few days have again strengthened the small part of the court, which believes in resorting to "extreme measures." The adoption by the lower house of parliament of an address to the country will, it is feared, place in the hands of the reactionists the need of a lever to move his majesty, M. Petrasskiy, who has been the lower house yesterday of the seriousness of the proposed step, but the majority of the constitutional democrats, of which party he is a prominent member, seem to be convinced that they must hold the peasants at all hazards. The members of the extreme left seemed to have been in a state of excitement, preaching open revolt from the rostrum. The Novoe Vremya, which often reflects the views of the extreme left, says today that the adoption by the lower house of an address to the country would go beyond the limits of the constitution and virtually constitute an appeal from the government to the people. The paper adds:

## CHATHAM POLICE ARRESTED WRONG MAN.

Were Advised to Look Out for a Circus Fakir and Got Hold of an Employee Instead.

CHATHAM, N. B. July 18.—At the school board meeting held last evening W. T. Denham was appointed teacher for the grammar school here. Mr. Denham belongs to St. John and is a graduate of the St. John High School and of Acadia University.

The death occurred last night of Mrs. Benson, wife of Dr. John S. Benson, of Chatham. Mrs. Benson had been in poor health for some months.

A man named Austin was arrested this morning for giving circus tickets in exchange for bill board coupons. The management had requested Chief of Police Dickinson some days before to arrest any man except four named in a telegram who claimed to sell tickets. This man was not of the number mentioned in the telegram. He was arrested at Chatham and the men there stated that he was all right and was not selling tickets but giving passes for bill board coupons issued to owners of lots. Austin was then let go but he feels pretty sore over the matter.

Arrangements Completed for Annual Shooting—Other Detachments Follow Next Week.

The first detachment of artillerymen for Petawawa will leave on this evening's train. This will consist of seven gunlayers from No. 1 company, the charge of Corporal Titus. On a week from Saturday, or on July 28th, No. 3 company will start in charge of Major Barker. Other officers who will be going along with the detachments are Capt. Harriell, Lt. McGowan and perhaps Maj. Magee, with No. 1 company; Lt. Pat- chell with No. 2 company, and Lieuts. Smith, Fowler and Vassie with No. 3. The officers of the artillery are endeavoring to make arrangements for a colonist car to run straight through to Petawawa with each detachment, and for the men to take their meals on the regular dining car.

Mr. and Mrs. A. R. Wetmore, Fredericton, are in the city.

In Case the Revolution in Russia Breaks Out.

Several European Powers are Prepared to Use Armed Force in Poland.

PARIS, July 18.—The Journal today says it is in a position to affirm that in the course of the recent interview at Schoenbrunn Palace, near Vienna, between the Emperor of Austria Hungary and the German emperor their majesties deliberated on the means to adopt in the case of the outbreak of a revolution in Russia. Adverse Comment on the Selection of Salvador's Representative to Peace Conference—He Acted Badly Before.

SAN SALVADOR, July 18.—Notwithstanding President Cabrera's agreement with the President of Mexico to cease fighting pending peace negotiations in Central America, two sharp engagements have occurred in Salvador just across the Guatemalan border. One was at Patanar and the other at Metapana. The Salvadoreans were victorious in both engagements. Within two hours Cabrera agreed to suspend hostilities his troops attacked the Salvadorean army at Patanar only to be defeated by the latter Monday morning. The fighting at Metapana occurred Monday afternoon. Both Patanar and Metapana are objective points in the march to Santa Ana, the summer capital of Salvador. Never in the history of any country has there been such a patriotic spirit shown as in Salvador at the present time. Rich and poor are served alike as was shown in the engagement yesterday. In one of the engagements Adalberto Guilaes, son of the millionaire, Angel Guilaes, lost his life. He was a graduate of West Point, and when the war broke out enlisted with thousands of his countrymen. He was about 30 years old, and worth half a million dollars in his own right. This is not the only case of rich men enlisting. There are members of almost every rich family in Salvador now at the front.

ACAJUTLA, Salvador, July 18.—The steamer Empira, owned and operated by revolutionists in Guatemala, arrived here from Comito yesterday. It was formally turned over to the Salvadoran Government. The latter will arm the vessel and use it as a gunboat in west coast operations.

WASHINGTON, July 18.—It is rumored that Senator Jose Rosa Paez, the Salvadorean minister of interior, who was appointed by President Escalon to come to the United States and present Salvador's side of the Central American dispute, may be named by Salvador to represent it at the conference to be held on the United States cruise, Marblehead. This rumor has caused much comment in diplomatic circles because of the notoriety Senator Paez attained by his conduct after the announcement of an unfavorable award in the case of the Salvadorean commercial company against Salvador.

In that case the American company sought to recover from Salvador \$200,000 for damages it suffered as the result of the seizure by the government of harbor improvements the corporation had made at one of the Salvadorean ports. After long dispute the case was submitted to arbitration in Washington with Senator Paez representing Salvador. Chief Justice Henry Strong as the neutral member of the commission, and Don M. Dickinson as the American representative.

The members of the commission met for weeks at the Arlington Hotel in this city and when the award was announced Mr. Paez bitterly charged at the two other members of the commission with treating him and his government with "gross unfairness." Mr. Henry Strong personally resented the attack on his action and a scene followed. Senator Paez storming about the hotel in great rage.

Salvador protested the decision of the cardinal principles of arbitration and delayed the payment of the award \$22,178 for a long time. The state department was compelled to make representations to Salvador respecting the full amount of the award agreed to a compromise in 1903 and the case is said to have been settled for about \$20,000.

**CRICKET**  
CRICKET AT CHATHAM.  
CHATHAM, July 17.—A return match between the Chatham and the Kentish was played on the exhibition grounds on Saturday afternoon, resulting in a victory for the home team. There was some very good play on both sides, but the most prominent feature of the game was the batting of J. H. Thompson (7 and 14), W. H. Couchman (7 and 22), F. N. Devlin (10 and 10), W. Malcolm (12), and the bowling of E. S. Pascoe (7 wickets for 7 runs), and J. B. Beveridge (5 wickets for 8 runs). In the second innings MacLeod, Couchman and R. A. Snowball also bowled well. The total scores were: Chatham, 14 and 5; Kentish, 10 and 54 for 5 wickets. After each side had four innings light refreshments were served by the M. C. C.

### THE RING

**ABOUT THE BOXERS.**  
The boxer and Herman bout which was set to take place at Terre Haute, Aug. 3, has on account of political complications been transferred to Indianapolis, Aug. 10.

Some managers of fighters evidently are not in the habit of putting on any kind of a boxer when they make the matchmaker to give Peter Maher a try-out. The club must consider him for a preliminary bout, but nothing more.

### AQUATIC

#### THE BEAVERS

The Beaver crew, who were unable to compete in the races held at Halifax recently owing to the inability of one of the men to get away from the trip, will now in Halifax on the 28th inst., as all the members of the crew have made satisfactory arrangements with their employers. Four Carleton amateur crews were out practicing last night preparing for the race which will take place on the 28th inst. at the Carleton Presbyterian picnic. In this race there will be three crews up against the Beavers, and it will then be shown how good the Beavers really are, as so far they have not had a try-out.

Another race between these crews will probably be arranged in connection with the Lincoln's day of the Assumption picnic at the Fens.

All the crews are doing well, and great interest is being taken in the sport.

#### COASTERS AFTER NICE

Win. Coates, the Neptune sculler has challenged "Bud" Nice to a race. Bishop Casey left for St. Mary's last evening to attend the dedication of St. Anthony's Church there today. This church has been completed this summer, and it is one of the most beautiful in the diocese, occupying a prominent position on the river front, directly opposite the city of Fredericton. A number of priests also passed through the city to attend the dedication. Father Ryan, the pastor of St. Anthony's parish, is receiving congratulations on the success of his efforts in building the church.

VIENNA, July 17.—Count Albert Mensdorff, now Austrian ambassador in London, is destined to replace Count Goluchowski, minister for foreign affairs, who will resign at the latest in August next.

The position of Count Goluchowski, who has recently been decorated by the German emperor for services rendered in connection with the Algeiras conference, has been shaken for a long time, and yesterday and today he was the subject of grave attacks in the Hungarian Delegation. Almost all the speakers plainly expressed distrust in his policy and summoned him to resign.

In the main the speeches made by members of the coalition were directed against Austria's relations to Germany. The latter, it was pointed out, with her daily extending interests in all parts of the world, was necessarily more liable to get involved in war than was Austria, whose interests remain in the narrow limits of this continent. Through alliance with Germany, the speakers pointed out, Austria-Hungary must carry a heavy burden of armament, and is liable to be plunged into war for interests that are not her own and with nations with whom she is friendly.

In the Austrian delegation, Dr. Krausz, representing the Slav population in Austria, has, for the same reason, demanded a revision of Austro-Hungarian relations with Germany. In China and at Algeiras Germany kept aloof from Austria and all other powers, as well as at the recent naval

## HEAT IN BOSTON CAUSES DEATH

Sixteen Cases of Prostration and Much Suffering

Slight Rain Last Night Brought Some Relief—Humidity Was Terrible—Other Temperatures

BOSTON, July 17.—One death and sixteen cases of prostration due to heat, a season's temperature record and unusually high humidity tell in brief the story of today's oppressively sultry conditions in this city. Contrary to the general laws covering hot days the temperature increased as the day advanced, and at 4 o'clock in the afternoon the mercury registered a maximum temperature of 88 degrees, as against 84 degrees registered at noon.

At 8 o'clock this morning the relative humidity was 85 and 9 o'clock brought the death of Michael McInnis, 62 years old. He was overcome on the street near his home in Charlestown and died before aid could reach him.

The hospitals in the down town section were kept busy treating cases of prostration, 16 persons receiving medical aid during the day. Most of these cases were complete prostration, while in some instances the patients were treated for injuries indirectly due to heat.

The heat was felt throughout the northern and eastern sections of New England, but in a number of places thunderstorms brought relief. At Manchester, N. H., two buildings were struck by lightning. The highest temperature of the season was reported in a number of New England cities.

AUGUSTA, Me., July 17.—Today has been the hottest of the season. The mercury indicated from 87 to 90 and the humidity was very marked.

## FACE GRAVE DANGERS

**BUT FEAR LITTLE THINGS**  
Lady Who Does the Leap of Death is Afraid of a Mouse.

The men and women of the Barnum & Bailey circus who perform dare-devil feats are intensely human. They have their moments of fear like the rest of humanity, and, strange to say, while attempting some feat of the most audacious and dangerous character, will hasten in others in which the peril, if any exists, is problematical. In fact, it is the little things that frighten fearful performers.

Those who have watched the thrilling act of Miss Isabelle Butler, who completes the daring feat of turning a somersault in an automobile, have

## NEXT MEETING IN THIS CITY

**Fair Attendance at N. B. Medical Society Meeting**

**A Delightful Trip on the River—Dr. Stewart Skinner of St. John Elected President**

FREDERICTON, N. B., July 17.—The 25th annual meeting of the New Brunswick Medical Society opened here this morning in the city council chamber. There was a fair attendance of the medical fraternity. The president, Dr. E. T. Gaudet, occupied the chair and Dr. A. A. Murray, of Sussex, acted as secretary. After the usual formalities the president read the address which was one of an excellent character. On motion of Dr. McInerney, who highly complimented the speaker, seconded by Dr. Purdy, the address was referred to a committee composed of Drs. Irvine, Purdy and Day.

Dr. W. H. McVey, of Bathurst, read a highly interesting paper on the adulteration of food products. Dr. McInerney on behalf of Dr. McLaren, stated that an effort was being made in St. John to form a branch of the British Medical Society and that arrangements were being made to have a private car at the disposal of the provincial doctors going to Toronto in August for the meeting of the British Medical Association.

The treasurer's report showed a balance of \$1,303.27.

Dr. Vanvleet read a most interesting paper by Dr. Murray, of Fredericton Junction, and followed it with a paper of his own describing a case of a man being kicked by a horse. Both papers were spoken highly of by the meeting.

The New Brunswick Medical Society concluded their session this evening. At the assembling after dinner the society elected the following officers for the ensuing year:

President—Dr. Stewart Skinner, St. John.

First vice-president—Dr. J. W. Bridges, Fredericton.

Second vice-president—Dr. C. G. Main, Edmundston.

Treasurer—Dr. G. G. Melvin, St. John.

Secretary—Dr. R. G. Day.

Corresponding secretary—Dr. J. G. Nugent.

Trustees—Doctors Purdy, Deacon and Geo. J. McNally.

The reports of the association enjoyed a delightful sail on the river for four days, and on arrival at the hotel the members of the association to Camp Idelwyl, about four miles above the city. There a most pleasant time was spent, a number of ladies from the city performing the duties of hostesses.

Early returned shortly before nine o'clock. A number of the St. John fraternity returned by the evening train. The session this evening interesting papers were read by Doctors Mullin, Irvine and Butler, and a general discussion ensued. The society decided to hold their next annual meeting at St. John.

## SHALL NOT DRINK WHISKY

**BRUCHES' COMMANDMENT**  
Archbishop Expects to Work Regeneration of the People in a Few Years.

MONTREAL, July 15.—Mgr. Bruches, who has just returned from a pastoral visit extending over thirty parishes, where his grace has been looking into the progress of the temperance crusade started six months ago, declares that if the government of the Catholic bodies will do their part, the whole people will be regenerated in a few years. Mgr. Bruches does not, however, expect to make a temperance man out of an habitual drunkard, but the archbishop will attempt what he calls the alcoholic education of the young.

Formerly, he says, the children were taught not to lie, steal or cheat, but hereafter "thou shalt not drink whisky" will be added to the formula.

"Will you permit The World to ask your grace if you ever drink strong liquor?"

"I do not," quickly replied his grace, "and no liquor has been used at our table since December last. You are aware that it was the custom formerly to serve a little brandy, especially when visitors were present, but since that time I have just mentioned, be my guests, cardinals, bishops or others, there is now no strong liquor used at my table or elsewhere by my household. I have also ordered that the same rule be applied by the parish priests in my diocese, for, altho I have no right to go into the houses of the faithful and command them to abstain at the table, yet I have the right to do with my clergy, and I exercise this right."

James Whipple met with an accident Monday while working on a building at Chapel Grove. Last evening he was brought to the city on the steamer Hampton and taken to his home in Carleton. Dr. Scammell was called in attendance and rendered the necessary medical assistance. His injuries, though not serious, will confine him to the house for some time. Mr. Whipple fell while doing some carpenter work on the building and bent some of his ribs and received a severe shaking up.

## RUSSIAN OFFICER'S BOAST.

Says His Country Will Have Terrible Revenge on Japan.

ST. PETERSBURG, July 17.—In honor of the return to St. Petersburg of General Rennenkampf, a banquet was given last night by the officers of the Seventh Siberian Corps.

General Rennenkampf, responding to a toast, said he was proud that the Car had entrusted him with the command of a Siberian corps at Irkutsk, and give him the opportunity to fight in the foremost ranks in the war that is inevitable in the near future. He added that he was confident of a splendid revenge in the Far East.

## "THE HARVARD GIRL."

Scene painters and costume designers have had much to do with bringing about such distinctly pleasing results as are forcibly manifested in the superbly grand productions which is claimed for The Harvard Girl, the new College musical comedy that will make a powerful bid for a cordial approval at the Opera House Monday next. It is to these important factors, that the management as well as the amusement public owe a profound debt of gratitude, especially as this is due to the ingenious brain that conceived the strikingly beautiful gowns worn by the pretty choruses who sing and act with such fine discretion, in this big musical comedy. Reports from absolutely reliable sources have brought it into dress display as the fashions and color blend of this extensive wardrobe denote, "The Harvard Girl" is one continuous laughing fit, a comedy, that brings laughter to people who have not laughed for years. It is not only for its singers, dancers and its comedians. It is pure, wholesome fun, without one dull moment.

**BOMB FACTORY FOUND BY ZURICH POLICE**  
Authorities Believe They Have Man Who Supplies Missiles to Anarchists of Europe.

**ZURICH, July 17.**—The finely constructed bombs recently discovered at Ancona in possession of the Anarchist League are exactly the same in size and finish as those discovered by the Swiss police yesterday when they raided the anarchist quarter of this city.  
An Austrian anarchist who made the bombs is to be tried by the Swiss Federal Tribunal. The authorities believe he has at last found the man who has supplied bombs to anarchists all over Europe.  
In the Austrian possession were also found picture-postcards dated from Ancona. As some of the sentences are incomplete and incoherent, it is surmised that the correspondence with regard to the conspiracy to kill King Victor was made in cipher on these cards.

**GIRL MAKES RECORD IN ALPINE CLIMBING**

**GENEVA, July 17.**—The first ascent of the Matterhorn this season was made by a young Swiss girl of 18, Miss Leonie Gindraux, of Zermatt. She was plainly visible on the summit, and her descent was watched with interest through telescopes from below.  
Roped between two guides, she fought her way through the deep snow with untiring energy, and negotiated the perilous rocks with great skill and courage.  
An hour after she arrived a Swiss climber and his guides also scaled the summit.

**COMMERCIAL AGENTS.**  
While Great Britain is beginning to take an interest in the development and extension of trade in Canada, this colony is making an important move towards capturing a larger share of the United States market. Canada has commercial agents in a number of countries whose services have in the past proved to be of great value to shippers here. There has never been any satisfactory system of receiving advice from the United States as to the requirements of the markets there, and the form in which goods should be manufactured and shipped, but United States producers have kept in close touch with the Canadian market and through the information forwarded by consuls and other commercial agents the exports to Canada have been steadily increased. It is thus a matter of no small importance that Canada has recently enlisted the services of the British consuls in the United States, as commercial agents, and will receive from them such information as may be gathered regarding the requirements of the markets. The British consular service is efficient, the officers are well qualified, and should prove of much value to this country. Canadians have always relied upon the services of the British representatives in questions in which government action was required, but there has been a certain natural hesitation about asking assistance in the promotion of commerce. Now that such a request has been made, and is willingly complied with, Canada should be able to make a better showing than ever in her trade with the United States. The American tariff, of course, shuts out many articles manufactured in this country, but there are other lines which ought to be pushed as much as possible, and this can only be done by keeping a finger on the pulse of the market.

**THE HUGGING QUESTION.**  
To hug or not to hug, that is the question. The police magistrate has declared that this popular use of the arms on the part of men and women in St. John must be stopped. He has ordered the police to arrest all huggers who may be observed in public places, and bring them before him. "And," Judge Ritchie goes on to say, "I will show them whether they can hug or not about the streets at night."  
Just for the sake of argument and with all due respect to the magistrate, the Star maintains that men, women and children may hug when, where and how they please, on the streets or in their homes, in the old graveyard or in yachts on the river, and that neither the magistrate for the police have any right to interfere.  
Hugging is an institution which has been honored through long generations, which has come down to us from the early lives of men of whom our grandfathers probably never heard. But no matter how originated, or what its history has been, it is now a part of the birthright of every man—and every woman if she feels like it. Hugging is an ancient custom, of world wide popularity, practiced wherever civilization has spread. It is not only tolerated, but encouraged, though of course, as an expression of affection, the delicate sensibilities of most people prefer that it should be indulged in in private, rather than that it should be put to such a use before the gaze of edited but unsympathetic crowds.

It often happens that those who desire to hug do not find the opportunity in their homes, or in the homes of the object they wish to embrace. Perhaps the man is not allowed to call. What then must he do? Shall they stand on the back door steps and allow their arms to go to waist, or will they seek a quiet and shady retreat in the old graveyard, Queen Square, or Seaside Park, and embrace to their heart's content? Assuredly the whole outdoors was made for huggers just as much as for smokers, and they have a perfect right to put the free air to this use if they so desire.  
There are, however, certain restrictions. Hugging, if indulged in to such an extent that the public are apt to congregate and create a disturbance, may be prevented. It must not be of such a nature as will disturb the privacy or interfere with the freedom of any other citizen. It must not become a nuisance. Hugging is not indecent, it is not criminal, and it is permissible not only under the British constitution but according to recent judgments of men learned in the law both in England and the United States, who do not have at times found pleasure in themselves. Only a week or two ago a policeman in New York arrested a man and woman who were mutually enjoying a reciprocal hug in one of the parks. The officer was reprimanded and the couple were dismissed to complete their performance. So huggers need have no fear. They may be arrested, fined or imprisoned, but they can still have the sublime assurance that they will be justified whenever they make an appeal to the Privy Council, and surely in the defence of this, a widespread and enjoyable occupation, such an appeal would be made at once.

**THE KING'S REGRETS.**  
King Edward finds it impossible to visit Canada. He will never know what he is missing. This country is very different from what it was when he was a boy, and his youthful recollections will be of no service in enabling him to form an idea of what the place is like now. Every Canadian will regret that the King finds it impossible to visit us. It was of course understood that there were many difficulties in the way and although it was generally hoped that he might be able to come yet all were prepared for disappointment. While this will cause widespread regret, Canada will accept the King's decision with due acknowledgment of the effort he has made to meet the wishes of the people, and will continue to assure him of her unvarying loyalty.

**THE HEART OF THE HILLS.**  
There's a wonderful country lying far off from the noisy town,  
Where the windflower swings  
And the tumbling brooks come down.  
'Tis the land of light and of laughter,  
Where peace all the woodland fills,  
'Tis the land that lies  
'Neath the summer skies,  
In the heart of the happy hills.

The road to that wonderful country leads out from the gates of care,  
And the tired feet  
In the dusty street  
Are longing to enter there.  
And a voice from that land is calling  
In the rush of a thousand rills,  
'Tis the land that lies  
'Neath the summer skies,  
In the heart of the happy hills.  
To the heart of the happy hills.

Far away in that wonderful country  
Where the clouds are always blue,  
In the shadow of the  
By the foaming pool,  
We may put on strength anew.  
We may drink from the magic fountains  
Where the wine of life distills  
And never a care  
Shall find us there,  
In the heart of the happy hills.

**A BIT OF ENGLISH HUMOR.**  
Recently the London Morning Post contained the following advertisement:  
Wanted—A nurse for night duty only; one thoroughly accustomed to bottle babies.  
This called forth the remark from the British Journal of Nursing: "To bottle babies? How is it done and for what purpose are these innocents used when bottled?"

**DISAPPOINTED IN THE BOY.**  
"I don't know what kind of figure that boy'll cut in life," said the old man, with a sigh. He's gone on shattering all my hopes."  
"Why, what's he been a-doin' of?"  
"He's been a-doin' of nothin'!" was the reply.  
"Well, what's he been a-doin' of?"  
"He's been a-doin' of nothin'!" was the reply.  
"Well, what's he been a-doin' of?"  
"He's been a-doin' of nothin'!" was the reply.

**OTHERWISE ENGAGED.**  
"Do you know, sir, that I saw you kiss my daughter just now?"  
"Really, now, I didn't know it; I was too much interested to notice anyone else."

**A GENEROUS CARDINAL.**  
Cardinal Bonaparte was a grandson of Lucien Bonaparte. He was a very charitable man. During one of his illnesses a want came to the door begging for alms. "Give him what money you will and let him go," said the cardinal. "There is no money, eminence. The silver spoons are all given away. We have nothing left but pewter spoons." "Well, bring him in and give him a good meal."

**HE MIGHT.**  
"Ah," sighed the lovers' youth, "may I not hope that you will be mine forever and forever?"  
"Yes," replied the cruel girl, with a yawn, "you may hope that long if you wish."

**A COINCIDENCE.**  
"I suppose you enjoy hearing your name called since he went to college?"  
"Yes," answered Farmer Cottoswell, "but ain't it kind of a coincidence that the many of them classical quotations begin with 'Rah, rah, rah'?"

**HIS CHARACTER.**  
A cook had been going round a station in the south of India with the following "character" and is somewhat surprised he is not engaged. "Abdul has been my cook for three months. It seems much longer. He leaves on account of ill-health—my ill health."

**GIVEN AND TAKEN AWAY.**  
A tiny bridemaid at a wedding the other day surveyed the departing bride and groom with a gloomy brow. "Oh, dear," she pouted, "sister was going to get married today and have lots of fun! And now that man's taken her away!"

**A CINCH.**  
Houston Post—"Do you think I could get your chum to marry me?"  
"She detests you, but you are acquainted with her. If you work it right."  
"Tell me how."  
"Pretend to be dead in love with me and I will pretend I am crazy about you."

**HER QUEST.**  
San Francisco Chronicle—"Speaking of Irish bulls," remarked Clerk Brownell, "my wife had a funny introduction to the last evening. She was standing on our front doorstep, when a woman with a towel pulled over her head came hesitatingly along the sidewalk. Seeing my wife the woman paused and said:  
"Pardon me, but are you acquainted with this neighborhood?"  
"I am. What can I do for you?" replied Mrs. Brownell.  
"Can you tell me where Mr. McCloud lives? I understand he just died, poor fellow."

**ENGLISH MOB CHASES WOMAN ORATORS.**  
Breaks Up Open Air Meeting of English Suffragettes.

Mrs. Mitchell Makes Good Fight, Knocking Down One of the Mob Leaders—Mrs. Parkhurst and James K. Hardie Escape.

LONDON, July 16.—Retribution has befallen the suffragettes, or, as one newspaper calls them, the fooligans, in Manchester, where their own meeting was more completely wrecked than any they have tried to break up. A huge, good natured crowd listened to the speakers for some time, but when dissentients began to roast the orators with inconvenient comments their spirit became infectious. The voices of the speakers were drowned in derisive shouts and laughter.  
Mrs. Mitchell, Kier Hardie, a Labor member of Parliament, appeared, and the animosity he lately courted by championing the Zulus against the South African colonists broke loose. The crowd soon became rowdy, and many of the audience started for the platform.  
The meeting was being held in a deep hollow in a public park, and as the crowd surged downward the position became dangerous, threatening a murderous crush at the bottom of the hollow. Women shrieked and fainting. Men on the lower slopes began to fight their way up the hill, to prevent a catastrophe. General pandemonium followed.

Realizing the danger, Mr. Hardie and his supporters organized a movement uphill, conducting the women speakers, and reached the top of the hill, where they were mobbed, being obliged to run for safety.  
Mrs. Hardie and Mrs. Parkhurst escaped by scaling high spiked railings. They were vainly pursued by their enemies.  
The other women speakers were less fortunate. They were hustled, hooted at and chivied. Eventually they took refuge in a house which was besieged by a howling mob until the police rescued them.  
Mrs. Mitchell, one of the suffragettes, made a good fight. In a scuffle she knocked down one male assailant and smashed her umbrella over the head of another.

**SPANISH ANARCHIST ARRESTED IN VAT**

Police Believe They Have Found Author of the Bomb Outrage in Paris.

**MADRID, July 17.**—The police at Ubeda, in Andalusia, have arrested an anarchist in a vat.  
He was disguised as a pilgrim, and had been going about selling images of the saints and chaplets, but aroused the suspicion of the authorities by staying at the house of a well known Carlist.  
When the police visited the house the man fled, and hid himself in the garden in a large vat. He is believed to be FARRAS AVINO, who is wanted in connection with the bomb outrage in the Blue Room, Paris, when the lives of King Alfonso and President Loubet were threatened.

**RESULT OF QUARREL.**  
Yesterday afternoon about 3 o'clock the Spindemanns had another quarrel. The husband came home about 3 o'clock intoxicated. Shortly after, he left home, went downtown and purchased a revolver.  
At 5 o'clock the husband returned, even more intoxicated. He furnished the revolver in his wife's face, but the brave woman was not cowed. The quarrel continued until after 6 o'clock, when Mrs. Spindemann, convinced that her husband meant to kill her, took three of the children and left the house. Shortly after, she returned and seated herself on a camp chair on the lawn.  
Revolver flashing in the air and uttering horrible curses, Spindemann sprang from the front door, ran to his wife, and before she had time to flee, fired a bullet into her head. With a moan on her lips, she sank to the ground, where she lay dying, while the struggle took place between her husband and her son.  
Spindemann is 57 years of age and his victim was 41. They had been married about 20 years.

**WINDSOR MAN KILLS WIFE**  
**FOR CURIOUS CAUSE**

"That Is Where I Intended to Shoot Her," After Long Lookout for Real Grievance They Manufacture One.

**WINDSOR, July 16.**—His courage bolstered up to the murder point by whiskey, Christopher Spindemann last night shot and killed his wife as she sat on a camp stool in front of their residence. Seven minutes after the bullet crashed through the woman's head she was dead, slain in the sight of four of her children. One of them, Robert, who boarded nearby, and who witnessed the crime, ran to the scene and snatched the revolver away from his frenzied father just as he was about to end his own miserable existence.  
Struggling desperately, the two men rolled about the lawn, one battling to overcome his mother's slayer, the other to place the bullet blow into his brain. Youth triumphed and the murderer was overcome and held until the arrival of Policemen Maltre.

**INTENDED TO KILL.**  
"Let me look at her once more," begged Spindemann, as the officer grasped him by the arm to take him to the police station. Believing that the man was sorry for his deed, Maltre, his heart filled with pity for the trembling, blood-stained wretch, led him back to the lawn, where the woman lay dead.  
Blood trickled from a wound just in front of her left ear.  
It is just where I intended to shoot her," said Spindemann, heartless. Then he was led away.  
The tragedy was the result of a man's life devoted to whiskey and to abuse of the woman he had sworn to love. Neighbors say that most of Spindemann's money was spent in saloons. For his wife and children he provided but poorly. The wife remonstrated many times, but Spindemann was past all reformation. Her recriminations led to bitter quarrels that grew so in frequency that Robert, the son, left home and boarded with neighbors.

**MEN DRIVEN INSANE BY INTENSE HEAT**  
Terrible Weather Conditions Responsible For Epidemic of Suicide Throughout Spain.

**MADRID, July 17.**—An epidemic of heat madness has broken out all over Spain.  
The temperature is almost unendurable, and is causing innumerable cases of suicide. The thermometer stood at 104 in the shade in Madrid today.  
Four persons who became violently insane were arrested in the streets of the capital today. There have been as many similar cases each day during the last week.  
The ambulance stations and hospitals are kept busy attending to sunstroke patients. In one institution alone over 100 persons who had succumbed to the heat were treated today.  
Famine is again threatened in the southern provinces owing to the parched state of the ground, which is rendering agricultural labor impossible. The peasants have not yet recovered from last year's terrible visitation.  
The lives of thousands of them will be sacrificed if the hot weather continues, as the government will be unable to afford the necessary relief.

Current—Five Were Saved.

FREDERICTON, N. B., July 18.—St. Anthony Roman Catholic church at St. Mary's was dedicated this morning by His Lordship Bishop Casey. The ceremony was a most impressive one.

Some twenty priests took part in the service. A large congregation filled the beautiful new edifice. The church which is one of the largest in the diocese, owes its erection to the energetic work of Father Ryan, the priest in charge at St. Mary's. Rev. Father Gannon, of Montreal, preached the dedicatory sermon which was an eloquent and powerful tribute.

The yachtsmen who have been basking in the beautiful sunshine of the Celestial this morning, make a start at 2 o'clock this afternoon. The warm water has had no effect upon their good spirits.

At noon today the thermometer registered 88 in the shade, but a good breeze makes the weather pleasant. As far as the mercury is concerned today, it will probably be a record breaker for this section.

She was pulled out before life was extinct and after the doctor had worked on her for half an hour she revived and will recover.

## A VOTE OF THANKS FOR ALD. LEWIS

For His Good Work in Handling the Jail Gang.

Circus Will Pay \$175 to the City for License Fee and Police Protection—Other Municipal Council Business.

The quarterly meeting of the municipal council was held yesterday afternoon in the court-house. Warden Long presided. The following were present: Councillors Adams, Carson, Donovan, Cochran, Connolly, Black, Lovell, Concedon, Dean, Lockhart, McClelland, Rick, Baxter, Christie, (Mayor) Sears, Lewis, Tilley, Rowan, Holder, Bullock, Syvold, Hann, Pickett and Willett. Marshal Coughlan was in attendance.

Coun. Baxter moved the acceptance of the report of the committee of finance and accounts. The report was adopted.

The committee further recommended that a discount of five per cent. be allowed on all taxes for the present year if paid on or before the fifteenth day of October.

The committee had considered the advisability of having the indexes in the registry office codified and rewritten from Vol. 1 to Vol. 76 both inclusive, and they recommended that the indexes of Vols. 27 to 52 both inclusive, consolidated and revised, such work not to be paid for until next year, and that arrangements for same be made under the direction of a committee of the council.

The committee also recommended that the payment of the fees to the registrar of births, marriages and deaths be made a standing order upon the certificate of the auditor general and the chairman of the committee on finance and accounts, and that hospital improvement debentures to the amount of four thousand five hundred dollars be transferred to the sinking fund investment account.

They also advised that the sheriff with the approval of the chairman of the committee on finance and accounts be authorized to furnish material for clothing for the jail prisoners to be manufactured in the jail by the inmates, and that a sewing machine be procured for that purpose if necessary, also that an appeal be taken to the governor general in council from the judgment of the board of railway commissioners for Canada, ordering the municipality to pay out of the cost of the watchmen at the Fairville railway crossing, such appeal to be under the direction of the chairman of the committee on finance and accounts, and Councillors Lovell, Lockhart and the mayor.

Coun. Lewis reported for the committee acting with the sheriff in regard to hard labor sentence prisoners. He gave a lengthy report of the work done by these prisoners.

Coun. Rowan felt that he had been slighted as he was a member of that committee, but he had never been noticed in the report.

Mayor Sears moved the adoption of the report, which was seconded by Coun. Donovan, and carried.

## DR. ARMITAGE CAUSES A MILD SENSATION

Tells His Congregation That His Wife Is Not to be the Servant of Everyone in the Church.

KINGSTON, Ont., July 18.—At Picton during the past week or so there has been a discussion in Anglican circles over some outspoken remarks by Rev. W. L. Armitage, vicar of St. Mary Magdalene church. On the Sunday before last Dr. Armitage announced to his flock that he was going away for a holiday and would be married in the interval. He further announced that while he was amenable to the congregation, his wife to be was amenable to him alone, and must not be considered at the beck and call of the parish.

He was married by a Methodist minister at Cobourg, his bride being a Methodist.

## THE KING CANNOT ACCEPT CANADA'S INVITATION

He Keenly Regrets His Inability to Visit the Dominion,  
But He Could Not Come Without Visiting Other  
Colonies, and His Work Forbids Long Absence.

OTTAWA, July 17.—The King will not visit Canada. A message has been received expressing the pleasure of the King in receiving the invitation and regretting his inability to accept it. The message is as follows:

Downing street, 7th July.  
My Lord—As requested in your lordship's despatch of 25th May, I have submitted to His Majesty the joint address to the King from the senate and house of commons of Canada expressing their loyalty and devotion to His Majesty and praying that His Majesty and her Majesty the Queen will be graciously pleased to visit the dominion.

His Majesty has been pleased to receive the address very graciously. I need scarcely remind your lordship of two circumstances which must not be overlooked in consideration of these proposals. In the first place the current business of the empire, which is continuous and incessant, imposes a heavy tax on the time and strength of its sovereign, and it is well known that the absence of His Majesty from this country for any length of time is difficult, if not impossible, except under very definite limitations and restrictions—even when consideration of health and need for comparative rest render it expedient.

In the second place it must be remembered that there are practically no limits within the habitable globe, to the distances which must be travelled to reach all parts of the British empire, and that it would be difficult for the King to visit one important part of his dominions and decline to visit another. It was no doubt these two facts which influenced her late majesty, Queen Victoria, with wise foresight, to determine that her eldest son should, in his youth, visit the various colonies and possessions of the empire of which he was one day to become ruler; and accordingly his majesty, while Prince of Wales, paid a visit to Canada, to

which reference is made in this address.

Following the same counsel, the present Prince of Wales and other members of the royal family have been visiting in visiting even the most distant parts of the empire, and have always been received as representatives of his majesty with the utmost tenderness and loyalty.

I am commanded by His Majesty to make mention of these considerations because he would wish his loyal subjects in Canada, and especially the senate and house of commons, to understand that he is deeply touched and gratified by the terms of their address and by the desire expressed that with Her Majesty the Queen he should again visit the dominion. His Majesty retains a vivid recollection, even after a lapse of many years, of his former visit, of the beauties and interest of the country and of the enthusiasm and loyalty which everywhere greeted him. He is well aware that it would be difficult to recognize features of Canada he then learned, to know in the great dominion, whose rapid growth in all that contributes to the development and prosperity of a nation has been so astonishing, and no greater triumph could be offered to the head of an empire than to himself witness of a progress so remarkable. In spite, however, of many and strong inducements which prompt him to gratify the loyal wishes of his Canadian subjects, I am to say that the King feels unable at present to entertain a journey to Canada. Whether difficulties suggested for early departure for the present and others which I need not particularize could be overcome, it is premature to discuss now. But his majesty desires that your lordship would make it known to all that he is prevented by necessities of his position and not by any lack of appreciation of loyalty and devotion of the people of Canada to his throne and person.

I have, etc.,  
(Signed) ELGIN.

## ROBBERY ON THE WEST SIDE

The home of Robert Craft, who lives on Princess street, west end, was entered yesterday afternoon and the sum of fifty-nine dollars stolen. Mr. Craft and his family were absent at home, and the robbery must have been committed by persons well acquainted with the house and movements of the family, as the money was in a box in an upstairs room, and the family are seldom all away at one time.

A couple of young fellows who loaf around Water street are suspected of the crime, as they were often seen about the place, doubtless being aware of the money and waiting their opportunity to get at it. Since the robbery these young men have been missing from their usual haunts, and the police are keeping a strict look out for them.

Besides the two who are chiefly under suspicion there are a number of others who are coming in for a share of attention from the officers, who expect to make an arrest very soon.

The money which was stolen belonged to Mr. Craft's daughter, who had saved it in anticipation of her wedding, which is to take place next month.

The strawberry social held at the Chipman house last evening under the auspices of the ladies' auxiliary of the Seamen's Institute was a successful affair, a large number being in attendance. Those contributing to the programme were the Misses Lynch, Miss Hogan, Miss Hamilton, Mr. Rogers, Mrs. Kisan and Miss Greaney.

## POLLARD OPERA CO. IS COMING AGAIN

Manager Armstrong, of the York, Has Secured This Clever Troupe of Children for Provinces

Manager Armstrong, of the York Theatre, announces that he has secured the Pollard Opera Co. for a return engagement at the York Theatre on or about the first of September. People who heard the diminutive prodigies when they were here last year, will learn with great pleasure that they are coming here again. At present the company is playing to crowded houses in Winnipeg, and wherever they have played return engagements have troubled their business. They are now rehearsing two new operas, which will be ready for presentation when they arrive here. The principals in the company are all of the same age, on the occasion of their former visit, but six new children which were recently brought from Australia by Manager Pollard will be in the company. The company will be booked throughout the Maritime Provinces by Manager Armstrong.

## HALIFAX MERCHANT IN MONTREAL JAIL

MONTREAL, July 17.—Max Jacques Orntstein, the Halifax merchant who was recently brought to this city on the charge of attempting to defraud his creditors, appeared for preliminary trial today, but the case was put until Tuesday next so that Judge Denys could take the case and finish it before his vacation. As Orntstein was leaving court with his friends he was served with two capias at the instance of Mathews & Tovers and H. Vincberg & Co., who took these steps so that they would not be deprived of their recourse. The warrant insisted on having real estate as security for the \$10,000 bail required, and as Orntstein's friends had not required security the accused was committed to jail.

## BUSY TIME FOR LORD STRATHCONA

LONDON, July 17.—Lord Strathcona had hardly said good-bye to the last of his thousand guests at Knobworth on Saturday, at the close of the most exacting week of Anglo-Canadian season before he himself started to travel all night to Glasgow. Arriving there Sunday morning he embarked in his own yacht for his island colony, where land and building schemes awaited his inspection. He will probably return to London tonight.

## ACTRESSES MAKE AND SELL AUTO HATS

LONDON, July 16.—The chief attraction at the bazaar in aid of the funds of the Great Northern hospital, opened by Princess Christian at the Albert hall yesterday, was the hat and tulle stall presided over by Mrs. Beorborn Tree and Mrs. George Alexander and a host of other pretty actresses, by whom most of the hats on sale were designed and made.

Miss Ellen Terry's hat had the place of honor in the centre of the stall. It was similar in shape and size to those she herself wears on the stage—a tulle, trimmed with a cream lace veil.

When Princess Christian visited the stall she was induced by Mrs. Beorborn Tree and Miss Marion Terry to purchase two hats. They were dainty creations in mauve. The Princess favored shade, and had been made by Miss Marion Terry and Miss Charlotte Granville.

Miss Viola Tree wore a tulle cap of green, trimmed with large clusters of grapes. She was trying to dispose of similar confections to an admiring circle. "Just the right thing to wear at matinees," she declared.

Miss Edith Evans had sent a tiny Dutch bonnet of needlework, with blue bows and strings, that would have been suitable for Miss Ellen Terry. There was a large sale of cotton sunbonnets contrived by Mrs. Beorborn Tree, which were bought at \$2 each.

Among those other buying or selling in the hall were Princess Victoria of Schleswig-Holstein, Lady Langcliffe, in pale green; the Countess of Lytton, in white, with a black hat; Lady de Tinton, Lady Cunant, Lady Constance Come, the Countess of Wemyss and Lady Marjorie Manners.

## EVIDENCE IN THE HARTJE DIVORCE CASE

PITTSBURGH, Pa., July 17.—Perhaps the most important development in the divorce case today was the disclosure of the testimony of Miss Ida Scott, the sister of Mrs. George Alexander, who testified that she had written two of three envelopes addressed to "Tom" Hartje, the co-defendant in the divorce case, at the request of Annie Lutz, one of the maids, and that she also had given Annie Lutz a key to the door of the house.

Thus the presence of the single envelope among all the papers, matters presented by counsel for the libellant will be reinforced by accounting for the presence in the disputed letters of the paper used by the Scott girl in the manner indicated by the maid's testimony that she gave it to the maid. Her sister Helen also often gave sheets of her paper to the servants, she testified.

Mrs. Hartje's parents, Mr. and Mrs. John F. Scott, were witnesses during the session.

The mother's testimony concerning the Wagner letter was sensational. She testified that she had seen the "Suicide" Wagner letter before it was mailed, and that there were statements in the original letter that were not in the alleged Wagner that was exhibited in court, and that the letter produced in court contained some statements that were not in the original Wagner letter.

John F. Scott, Mrs. Hartje's father, said that it was impossible for his daughter to have met Madeline or to have telephoned to him, as she was never out of the house alone, and all in the Scott home knew when the telephone was used and who used it.

JOSEPH H. DOUGLAS.  
A Springfield, King's Co., yesterday, Joseph H. Douglas, aged 15 years, died after a lingering illness. The deceased is survived by two brothers, one sister and three sons. The brothers are Warren Douglas of Springfield and Edward of Milford, N. H. The sister is Mrs. Sierper of North Chelmsford, Mass., and the sons are James A. of Lexington, Mass., Benjamin O. of Boston, Mass., and Edward H., residing at home. A large circle of friends mourn the death of deceased.

Louis Wright, of Hampton, was brought to the city yesterday afternoon from Hampton and was taken in an ambulance to the General Public Hospital. Mr. Wright is suffering from a broken leg. He was reported last night as resting comfortably.

## REFUSES SOLID FOOD. AND LIVES ON MILK

CARDIFF, July 15.—There is a boy living at Penarth, Glamorganshire, who has existed entirely on milk since his birth, six years ago.

His name is Arthur Keene. He lives with his mother and father, and he is one of four children.

He will not take anything but milk. The choicest morsels of food have been offered him, but he refuses to be coaxed away from his milk diet.

On one occasion his mother forced food down his throat, but it made him ill at once, and he asked for milk. His diet each week consists of thirty pints of milk mixed with sugar and water, which is by no means an excessive quantity for even a twelve-month-old infant.

Yet in spite of this scanty and monotonous diet, the boy is fully developed, of normal size and of good weight. He is inclined to be a bit rosy, and is rather nervous. He attends Penarth Council school, and is of a most cheerful disposition.

He has puzzled the doctors of Penarth. They have carefully examined him, and they confess that the case baffles them completely.

One doctor saw him last Sunday, and expressed the opinion that it was exceptional that the boy should be so well after living solely on milk for six years.

## GOVERNMENT DECIDES STANLEY MUST HANG

OTTAWA, Ont., July 17.—Gordon Byrnes, the 10-year old son of John Byrnes, of the trade and commerce department, was drowned in the Rideau river yesterday.

Gordon Fariseau, a 30-year resident of Hull tried to jump from the interprovincial bridge into the Ottawa river. The suicide was prevented by passersby and the man arrested.

J. L. McDougall, ex-auditor general, who was stricken with paralysis while working upon the city of Quebec accounts, was brought back to Ottawa today. He is a little better.

George Stanley, who killed Francis Harvey at Ellershouse, Hants county, N. S., on February 2, is to hang on August 1. The government has decided not to interfere to prevent the law taking its course.

## FORMER ST. JOHN MAN SHOT BY HIS SON

Capt. Reynold, the Victim of the Shooting, Lies in a Very Dangerous Condition—Graphic Story of the Painful Affair Told New York Herald by Mrs. Reynold

The New York Herald contains an account of the shooting of Capt. Samuel Reynold, formerly of this city, by his sixteen-year-old son. Captain Reynold is a native of Salmon River and is about sixty-two years of age. He was for a long time engaged on the coasting trade between Salmon River and this city, being engaged by Davidsons in their lumber trade. He was at that time living on Waterloo street. His wife is an active of Prince Edward Island.

About twenty years ago the family moved to New York, where Capt. Reynold was engaged until quite lately as a shipping broker. Capt. and Mrs. Reynold had three children. The second daughter is ill and the doctors say that she is suffering from a malady which will kill her in less than a month. The Herald's story of the tragedy reads as follows:

"In the tiny cabin of the speck-and-spark little bark Reynard, at the foot of Conover street, Brooklyn, a small, gray-haired woman sat today, crying her eyes out. Here is the story she told:

"Yes, I suppose I'm the woman you gentlemen are looking for, although my heart is too heavy for words. I am the wife of the master of this little bark. Capt. Samuel Reynold, who's at the hospital, shot in the breast. My boy George, who's run away, did the shooting, but, oh, gentlemen, it wasn't George's fault—he'd rather had his hand cut off than harm his father. It was the drink that did it all—the drink and the grieving for our older daughter, Ellen, her that's dead."

"We're in the coconut trade, and we've always been mighty happy. This boat was the only home we knew, but it suited all of us. Usually we plied between Mobile and Cuban ports, but this last trip we brought a cargo to New York. A sorry trip it was for us all, too!"

"On the way up Ellen, the oldest, took ill with spinal meningitis. I did what I could for her, with nursing and hot cloths and the like of that, but there were no medicines aboard and she suffered terribly. We were all near away."

"The wounded captain is in the Long Island College Hospital, where Dr. Harris, an ambulance surgeon, took him after the shooting. The bullet lodged in the tough muscles of Reynold's chest. He is not seriously hurt, but probably the son, who ran away, doesn't know that. Nobody has seen him since he scuttled up the side of Burton's drydock and fled into the shadows of Conover street."

"The stricken woman held up a little, battered 'typewriter, all scratched and dented. The doctors say that it was in her apron, and the reporter caught away."

"We're a God's truth she's tellin' you," said the big, freckled mate up on the snowy-clean deck of the jaunty little bark. The crew of three nodded a silent assent."

He is not seriously hurt, but probably the son, who ran away, doesn't know that. Nobody has seen him since he scuttled up the side of Burton's drydock and fled into the shadows of Conover street."

## REPORTS FROM THE G.T.P. RE-SURVEY N.B. COMING IN

Two of the Eight Parties Engaged in this Province, Have Submitted Returns—Arrangements for the Terminals at Winnipeg Nearing Completion.

OTTAWA, July 17.—Two of the eight parties engaged in the resurvey of the two routes for the National Transcontinental through New Brunswick have reported, and the others are expected to turn in the results of their field work within a few days. It will take some time for the engineers to reduce their field notes to a statement of quantities and estimates of the cost so that a choice can be made between the river route and the back route. It is expected that late in September or early in October the commissioners will be in a position to recommend to the government the letting of the contract on one of the routes. About the same time it is probable tenders will be invited for the construction on another section of the line between Winnipeg and Quebec. This will be to the north of Lake Superior, where the facilities for getting the supplies in are considered fairly good. The arrangements for the Winnipeg terminals of the national transcontinental, the Grand Trunk Pacific and the Canadian Northern are likely to be completed within a short time. Commissioner Young of the National Transcontinental commis-

sion has gone to Winnipeg and Chief Engineer Lumsden will leave for there on Friday. General Manager Morse of the Grand Trunk Pacific will start for there about the same time. The Canadian Northern will have a representative on the spot with authority to make an agreement. As these terminals will involve an outlay of several million dollars the arrangement is regarded as a most important one by all the parties. The Canadian Northern owns some land and has the lease from the Hudson Bay Company of more which it proposes to use as the site of a depot and for terminals. It offered to let the National Transcontinental and the Grand Trunk Pacific in on a union terminal arrangement. The transcontinental commissioners were not altogether satisfied with the terms offered and decidedly objected to the title of a portion of the site remaining with the Hudson Bay Company. It is hoped that these difficulties will be cleared up at the coming conference. However, before the commissioners come to a final understanding as to the recommendation they will make to the government, they will have a full meeting in Winnipeg, where they will inspect the ground.

the district, presided. After prayer by Rev. Samuel Howard, the choir sang a hymn, and Rev. Mr. Marshall then delivered an address of welcome to the new pastor on behalf of the congregation and the district.

Another hymn by the choir, preceded happy addresses by Rev. Samuel Howard and Rev. Dr. Wilson.

An exhibition of cloth singing by Miss Jennie Beville, Leonard Haines and Harry Beville, was the next feature of the programme. In this exercise the congregation of Zion are unusually proficient, and the fact that the young people acquitted themselves creditably was not surprising.

Rev. Mr. Crisp's address in reply to the cordial welcome accorded him was most appropriate and made an excellent impression. Mr. Crisp said he appreciated most highly the brotherly spirit which had been manifested towards him.

Rev. Mr. McLaughlin, the new pastor of Portland Street Methodist Church, also made a few remarks.

The ladies served the guests strawberries and cream, and the reception was terminated with the singing of the National Anthem.

TRIAL F. HALLIFAX

ELECTION PETITIONS

BEGUN YESTERDAY

...

HALLIFAX, July 17.—The trial of election petitions against Messrs. Roche and Carney, members for Hallowell, commenced yesterday morning, was opened in the supreme court today by Justice Townsend and Russell O'Mullin, the conservative candidate for Kilmalee, and G. Fred Pearson appeared for the respondents and W. B. A. Ritchie, the proceedings were examined by the respondents, J. C. McMillan, K. C., and J. A. MacKinnon for the petitioner and for R. L. Dorden and J. G. O'Mullin, the conservative candidate in the 1894 election, against whom cross petitions are pending. As a large number of subpoenas had been issued for liberals and conservatives to give evidence in both petition and cross petition cases, the proceedings were keen and the court room was crowded during the session, which was adjourned at 2 p. m. Six witnesses were examined, but the greater part of the morning session was taken up with the argument on preliminary objections taken by Attorney General Drysdale

**A PRETTY DESIGN FOR A WAIST!**  
6371—The shirt waist, deserves the crowning place in Midday's wardrobe; which every other garment quite outstripped in the race for popularity has succeeded to it. The number of designs are legion and yet new ones are always welcome the more so because the American woman's individuality must be catered to. This design is charming and simple in the extreme and would suit the slender figure especially. Of serving modistes will tell those interested that the long waist gives the pleasing effect to the proportions of the figure. The chief characteristics of the sleeve which consists of under and over portions, is the unique construction of the upper portion. The straps of the over sleeves are one with the sleeve but cut so as to allow the sleeve to be shirred and the ends of the straps overlapped. Baptiste, netting, crepe-de-chene or any of the soft silks or velvets would serve excellently for material. The medium size demands 3 1/2 yards of 26-inch material.

Let the boys and girls, and their parents as well, secure new subscribers and get season tickets free.

This offer will hold good for a short time only. Secure your tickets at once.

When the cases of Hetherington Roche and Hetherington v. Carnegie were called on for judgment, the petitioner asked to have the respondents unseated and also to have them disqualified. Judge Ritchie stated that he was in a peculiar position owing to the action of the respondents in not coming forward for judgment on motion for discovery. He also referred to several adjournments. He said that he had heard the evidence and the court claimed that parliamentary duties had prevented respondents from coming forward. The case had gone over to another date.

Liberal campaign managers stated that they had received contributions between \$2,000 and \$3,000 for election expenses, but the candidates did not contribute any of this money.

It seems to me that it would be a good plan for all firms to make a list of persons wishing to impress upon the people the fact that Monday is the only bargain day—W. D. Williams

LISBON, July 17.—A sad accident has occurred at Figueira do Foz, one of the most fashionable and crowded seaside resorts in Portugal. Two strangers—a young couple on the honeymoon—were again threatened by a shark when they were bathing by picking up sea shells, and the man in trying to get an especially pretty one, was caught by a huge wave and carried away. The woman plucked and rushed after him trying to pull him back.

Many well-known residents of the town threw themselves into the sea to rescue the struggling pair. The man was saved, but the woman was carried out to sea and never seen again.

## SET TYPE BY WIRE

**Printer Exports to Revolutionize Transmission of Messages.**

MILAN, July 16—A young printer named Cava has invented a method of setting type by telegraph, which he calls "revolving type." He copies the message to be sent on a Hughes instrument with the moonlight composing machine and instead of message being printed on a tape carrying apparatus, perforations are made in monotype paper bands. The newspapers, which have tried his experiments are said to have been completely successful. The novelty is entirely original, and the Italian government will not allow them to have private wires, without which it is impossible to make use of the Cava system.

MILN, N. July 16—A young prince named Cava has invented a method of typesetting by telegraph which he thinks will revolutionize the transmission of messages. He coupled a composing machine with the monotype, and the type is set and printed by being printed on a tape carrying apparatus, perforations made in monotype paper bands. WINDSOR, Ont., July 17.—Eluded the vigilance of a special watch placed on him, Christopher Spindler, cheated the gallows by hanging himself at Sandwich jail, early this morning. His dead body was found in a turnkey's room, who was on his morning rounds. The murderer had successfully wound a pair of shoes around his neck, tied one end to a chain which is attached to his cot, and slowly strangled himself.

The first of the circus crowd of visitors commenced to strike town this morning. Many strange faces were seen in the stores and about the streets, chiefly people from the country districts. Some of these brought produce with them, doubtless to defray the expenses of their trip. Tonight's and tomorrow's trains and boats will in all probability be crowded.

Hiram Webb, for several years a prominent electrical engineer, along with his sons, Stanley and Ellsworth, leaves today for Edmonton, Alberta, to locate. Mr. Webb does not know for sure whether or not he will follow his electrical work in the bustling city, for that field is already pretty well covered, he thinks. However, he is confident the great west has plenty for him and his boys to do.

This afternoon in the supervised playground, Centennial building, a gramophone concert is being given by the children of one of the supervisors, Mr. Hill, who has been loaned by the city to the Centennial building for the purpose. The instrument plays from a window and can be heard distantly. These concerts are a source of delight to the children, and vary the entertainment to a highly appreciable extent.

Engineer Barber has appointed E. W. Clark, who is now engineer of the water improvements at St. Stephen, to take charge of the distribution system in St. John. It is understood he will take up his duties in a few days. Mr. Clark has held several important engineering positions in the United States. He spent two or three years in Panama, where he was assistant engineer in the sanitary division. It is likely that J. E. Parker who had charge of sections 2 and 4 on the water extension will succeed Mr. Clark as resident engineer at St. Stephen. Mr. Parker is now on his honeymoon, having been married here on Friday last, and is expected back to St. Stephen the latter part of the week. On his return Mr. Clark will leave for St. John.

### MCINERNEY-MURPHY.

A wedding of much interest took place in the Cathedral this morning at 10 o'clock, when Miss Ethel Murphy, daughter of Edward Murphy, 42 City Road, was united in marriage to Fred J. McInerney, the Mill street tailor. The marriage ceremony was performed by Rev. A. W. McInerney. The bride was prettily attired in a gown of white silk, with hat to match and carried a bouquet of white carnations. Miss Mary Murphy, sister of the bride, was bridesmaid and wore a grey silk dress, a black picture hat and carried a bouquet of pink carnations. Frank Flaherty, of Boston, supported the groom. After the marriage there was a sumptuous wedding breakfast at the home of the bride's father. The dining room was handsomely decorated with palms and other plants for the occasion.

Mr. and Mrs. McInerney will leave this afternoon on the Eastern Liner Huron for a honeymoon trip to Boston and New York, and on their return will reside at 145 Mill street.

### ANOTHER POSITION.

Frank J. Donovan, son of Timothy Donovan, the well known West End grocer, has been appointed assistant-treasurer for the Stone & Webster Street Railway Syndicate and leaves for Pensacola, Florida, to take up his new duties.

Mr. Donovan is a deservedly popular young man who received his commercial training at the Currie Business University, a few years ago and who was started on his successful career through the efforts of this school's situation department. Many of his fellow-students of that time are now earning from twelve hundred to twenty-five hundred dollars per year. Truly there is nothing like systematic organized activity to secure success and no place offers such splendid opportunities as does the Currie Business University, Limited.

Chas. T. Gillespie left last evening for Toronto.

### REV. P. J. STACKHOUSE CALLED TO TRURO.

Tabernacle Pastor Invited to the Pastorate of Immanuel Church.

He Has Not Yet Come to Any Decision—Has Been in Church Work Here for About Five Years.

Rev. Perry J. Stackhouse, pastor of Tabernacle Baptist Church, Haymarket Square, has received a call to Immanuel Baptist Church at Truro. This call was agreed on at a meeting of the Truro congregation held on Thursday evening last and was communicated to Mr. Stackhouse on Saturday. Of course, he has not yet had time for consideration.

The church building is a fairly strong one. The church building is valued at twelve thousand dollars, the membership is a little over two hundred, and during the last church year something more than twenty-six hundred dollars was raised for local expenses. The call to Mr. Stackhouse was a hearty and unanimous one, and the congregation asked for an early reply.

Rev. Mr. Stackhouse has occupied the pulpit of Tabernacle church for about five years. His first pastorate was for half of this time, and he resigned to take a post graduate course in the University of Chicago. Upon completing his work there, and as the Tabernacle pulpit had again become vacant, he was once more asked to accept the pastorate. Under his guidance the church has prospered exceedingly. The work carried on is unique in St. John, as it includes not only an established congregation but a sort of mission among all classes who are in need of such assistance.

Mr. Stackhouse is an enthusiast in this line, it is the sort of work that appeals to him, and he decided to spend his life in the pulpit rather than accept a very flattering offer made to him of a professorship in Chicago. He is one of the younger generation in the Baptist ministry, and is regarded also as one of the brightest preachers in the province.

### JIMMY WALKER RAN AWAY

TO GO TO THE CIRCUS.

His Mother Is Anxious About Him and Vows Vengeance on Those Who Are Detaining Him.

James Walker, a colored lad fifteen years of age, son of Mrs. Samuel Walker, of 2 City Road, has been missing from his home since yesterday morning. His mother is quite anxious about him, but believes that he has been enticed away by some other family. She called at the police station last night to solicit the aid of the police in locating her son.

Young Walker has been subject to heart trouble and upon advice of Dr. Lunn was not allowed to take any violent or long continued exercise. He was simply to go for a short walk each day. But Jimmy wanted to see the circus, and when his mother objected that it was too long a walk he said that if she did not let him go he would find someone else to take him. So in order to get an early start he was permitted to go.

The circus will be held, with another colored boy and in a white man's carriage. The man who leaves milk at Mrs. Walker's house saw him but asked no questions. Mrs. Walker is of the opinion that another family has enticed Jimmy away from home, and if she finds this to be the case she intends taking action against them. Meanwhile Jimmy is still away and his mother and sister are searching for him. Rockwood Park and Carleton for him.

### SETTLE—EDGEcombe.

A very pretty wedding takes place in Centenary church this afternoon at four o'clock, when Miss Hester Louise Edgecombe, eldest daughter of Alfred G. Edgecombe, will be united in marriage to John Gaston Settle, of Montreal, formerly of Fredericton.

The ceremony will be performed by Rev. J. M. Campbell of Queen Square Methodist church. Only the immediate relatives and friends are among the invited guests. The altar of the church has been prettily and tastefully decorated for the occasion with potted plants.

The bride who is to be given away by her father will be married in her travelling suit, which is of green chiffon broad cloth and a green hat with black trimmings. She will carry a large bouquet of white roses. The bride will be attended by her sister, Miss Dorothy Elizabeth Edgecombe, who will wear green dresden silk and picture hat. The groom will be supported by John Neil, of Fredericton. The ushers will be F. A. Kinnear and Dr. E. R. Sewell.

The young couple are both well known throughout the province. The bride is especially well known and popular in this city having taught in the Aberdeen school for the past two years. She is also a graduate of the University of New Brunswick, having been a member in the class of 1903. During her college career she made a high standing as a student and was exceedingly popular among her classmates.

The groom's present to the bride was a substantial check and to the bridesmaid an elegant pearl brooch. To the best man he gave a scarf pin.

The newly married couple will leave by the Montreal train this evening for a trip up the St. Lawrence, and Saguenay. They will also visit leading Upper Canadian cities.
