## Hun Drive For Paris!

### GERMANS STRIKE ANOTHER BLOW BETWEEN TOWNS OF MONTDIDIER AND NOYON

**The Armies of Crown Prince Rupprecht of Bavaria Again Are Hitting the Allied Line in a New Offensive With Paris Apparently Their Objective—Between Montdidier and Noyon, Over Front of About Twenty Miles, Enemy Advances in Places To Depth of From Two To Three Miles, But Allies Have Situation Fairly Well in Hand.**

**Fighting of Extremely Sanguinary Character and German Losses Heavy—Attack Was Anticipated By Foch—Thrust If Carried As Far As St. Just May Compel Allies To Fall Back Considerably To Obliterate Dangerous Salient—Comparative Quiet Prevails in Region of the Marne.**

The armies of Crown Prince Rupprecht of Bavaria again are hitting the allied line in a new offensive with Paris apparently their objective. Between Montdidier and Noyon, over a front of about twenty miles, preceded as usual by a heavy bombardment with shells of all calibres and with noxious gasses, the enemy's initial manoeuvre evidently has in view the bending back of the allied front toward the town of St. Just, on the northern wing and toward the railroad junction of Compiègne on the southern flank, getting astride the Oise river and driving southwest toward the French capital.

The French troops are resisting the impact with their wonted valor, but the Germans on their right and in the centre, have been able to penetrate the line for distances ranging from two-thirds of a mile south of Montdidier to relatively two and a half miles at Ressens-Sur-Matz, in the centre. Thence to Noyon, however the allied line is holding strongly.

If success should rest with the enemy on the new battle front it possibly might badly affect the stability of the line of the defenders from the Oise to the Marne and compel a falling back westward from the Oise to the region of the Marne northwest of Chateau Thierry in order to straighten out the deep salient that would then project eastward with the Soisson sector as its apex.

**Not a Surprise**

The allied commanders, it is asserted, were not taken unaware by the new offensive. On the other hand they had anticipated since the failure of the army of the German Crown Prince to gain its objectives between Soissons and the Marne and thence on the southern part of the line running to Rheims, the German high command would decree another manoeuvre to the north and preparation were made to withstand the shock.

The fighting is of extremely sanguinary character and whether it will be confined to the area at present affected remains to be seen. At last accounts it had not spread north of Mont Didier to the village of Cantigny, which the Americans are holding.

**Quiet on Marne**

Comparative quiet prevails in the region of the Marne, and on that portion of the line in Flanders held by the British troops, no occurrences of interest, according to Field Marshal Haig's communication. The only attack reported in the French official communication in the region of Rheims was delivered by the Germans, where serious losses occurred, but no ground was gained.

From the Astico region to the Piave River in the Italian theatre there have been intense artillery duels, but no infantry engagements of great importance, although the British south of the Asa and the Italians south of the Brenta River carried out successful surprise attacks, inflicting considerable losses on the enemy and taking prisoners and machine guns. Similar attacks by the enemy on the Valera and Astico were repulsed.

The aggregate of deaths of Americans in the service from all issues reported up to the present is 2,227 while 4,046 have been wounded and 242 are missing.

**Heavy Gas Bombardment.**

French Army Headquarters, June 9, (Athens), via Reuter's Ottawa Agency.—The German offensive which opened this morning on a twenty-five mile front was preceded by a heavy gas shell bombardment. The enemy gains have as yet been confined to our advanced zone, which was within the

range of a destructive fire from his minenwerfer.

Our principal line of resistance is untouched, according to the latest reports. The enemy probably intends to turn to the right between Matz and the Oise by an advance between Matz and Noyon, with the object of obtaining a clear way towards Paris with the Oise protecting his right in conjunction with a later move from the Soissons-Chateau Thierry line.

**French Statement.**

The Germans began an attack in force at 4.30 o'clock this morning to the west of the front of the recent battle, striking along the sector between Montdidier and Noyon. The official report says the French are resisting valiantly and that the battle is still raging.

**On the front between the Oise and the Aisne and also south of the Oise the French made gains last night.**

Today's official announcement follows: "The Germans began at midnight a violent preparatory artillery fire from the region north of Montdidier as far as to the east of the Oise, the French batteries immediately intensifying their fire in counter-preparation. At four-thirty o'clock the German infantry made an attack on the French positions between Montdidier and Noyon. Our troops are resisting with magnificent valor in the covering zone. The battle is continuing."

**EASIER TO GET THE U-BOATS JUST NOW**

London, June 9—(Via Reuters Ltd.)—Accounts of the destruction of the three enemy submarines by British aircraft were published yesterday. It is explained that the longer hours of daylight enable seaplanes, airplanes and kite balloons to assist materially in hunting down U-boats. Summer conditions favor the submarine hunters whose incessant searchings of the seas cause the "German" submarine to seek deeper waters.

Under the direction of the balloon observer a vessel got over the track of the U-boat and dropped nine depth charges. A large quantity of oil came to the surface.

### THE MEETING OF THE BRITISH AND ENEMY DELEGATES

**Both Sides Bowed at The Hague Conference on Exchange of Prisoners, But Did Not Shake Hands.**

London, June 9—Describing the meeting between the British and German delegates held at The Hague to arrange an exchange of prisoners of war, Reuter's correspondent at The Hague says they did not shake hands but merely bowed to each other.

A moment before, Jonkheer London, the Dutch foreign minister, received the delegations separately in adjoining rooms and then brought them face to face, delivering a speech in which he wished success to their mission. Major General Friedrich replied for the Germans and Sir George Cave, home secretary, on behalf of the British. Both thanked Holland for what that country had done for prisoners.

**A LOVE-CRAZED CLERK KILLS GIRL AND SELF**

Arthur P. Rodway of Ottawa Murders Miss Myrtle Styau and Ends His Own Life.

Ottawa, June 8.—Arthur P. Rodway, thirty years of age, employed as a clerk with the British-American Rubber Company here, murdered Miss Myrtle Styau, daughter of Mrs. Mark Styau, at her home in apartment No. 2, Federal Apartments, shortly after midnight past seven last evening by cutting her throat with a razor and then turning the weapon on himself inflicting such injuries that he died a few minutes later. The tragedy is said to have been the result of the refusal of Miss Styau to accede to the request of Rodway to a marriage between them.

### Germans Gain Ground Two-and-Half Miles On a 20-Mile Front

Paris, June 9—In a new thrust directed at the sector between Montdidier and Noyon the Germans have succeeded in gaining ground along about a twenty mile front to a depth of about two and a half miles at certain points, according to the war office announcement tonight. The fighting was very heavy and the French offered a powerful resistance to the multiplied efforts of the enemy and finally succeeded in checking the advance, particularly on the two wings.

The text of the statement reads: "A new offensive begun this morning by the German army developed with sustained violence on a front of thirty-five kilometres (approximately 21.8 miles) between Montdidier and the Oise. The enemy, in great force, multiplied his efforts to drive through our lines, but our troops everywhere sustained the shock along the entire battle line. Stubborn engagements stopped or seriously retarded the enemy thrust.

"To the left the Germans did not succeed in crossing our covering zone and were strongly held by our troops on the line of Rubescourt, Le Fretoy and Mortemer, which they had reached.

"On the centre the progress of the enemy was more appreciable. After successive attacks which were murderous to their troops the Germans succeeded in taking foot in the villages of Ressens-Sur-Matz and Mareuil, where our units of the first lines continued to offer defence foot by foot.

"On the right the enemy met with resistance not less energetic, and despite his repeated efforts we held him on the front comprising Belvad, Connectancourt and Ville."

### Battles Can Be Won In End Only by Army Taking An Offensive

**General Foch Makes Significant Declaration in Important Article Contributed By Him To Weekly Journal.**

London, June 9—(Via Reuter's Ltd.)—That battles can be won in the end only by the army which takes the offensive is the significant declaration made by Gen. Foch, commander-in-chief of the Allies, in an important article contributed by him to the weekly journal, "The Field," in which he discusses the problem of the soldier and the way to victory.

"Modern warfare, to arrive at its end and to impose its will on the enemy," says General Foch, "recognizes man delegates held at The Hague to arrange an exchange of prisoners of war, Reuter's correspondent at The Hague says they did not shake hands but merely bowed to each other.

"War undertakes and prepares this destruction by battle which brings about the overthrow of the adversary, disorganizes his command, destroys his discipline, and nullifies his units as far as their fighting power is concerned.

**ANOTHER FRACAS IN QUEBEC CITY CALLS MILITARY**

Friction Between Western Soldiers and Military Police Leads To Clash and Cavalry Ordered Out—Six Arrests.

Quebec, June 9—Friction which has been smouldering here for some time between western soldiers of the new army and the military police was fanned into flame on Saturday night, when a party of soldiers under the influence of liquor attacked the military police on St. John street. A lively row ensued during which

### ANOTHER STEAMER ON THE U. S. COAST SUNK

**The Pinar de Rio Sent To Bottom By German Submarine Seventy Miles Off Coast of Maryland—One of Her Boats With Captain and Seven Men Missing.**

**Belfast Steamship Torpedoed By U-Boat While Bound From England—Three Killed By Explosion, But Vessel Afloat, Though Badly Damaged.**

Washington, June 9—The American steamer Pinar Del Rio was sunk by a German submarine seventy miles off the coast of Maryland yesterday morning. One of her boats with the captain and seventeen members of the crew is missing; another with sixteen men has landed on the Virginia coast. A brief despatch to the navy department tonight announcing the sinking did not say whether the ship was shelled or torpedoed. Hope is held that the missing boat either has been picked up by some passing vessel, or will turn up at some point along the coast.

Until tonight the raiders had not been reported as showing themselves since the Norwegian steamer Vinland was sunk off the Virginia Capes last Wednesday evening at six o'clock.

**DISSATISFACTION SENDS FARMERS TO HOMES EARLY**

**Resolution Passed Asking That Government Amend Militia Act So As To Exempt One Skilled Man For Every Hundred Acres.**

Toronto, June 9—"The farmers will hold no more meetings in Toronto of the character of the one held yesterday," Inspector of Detectives George Kennedy said on Saturday. "If I had had any idea that their meeting at Massey Hall was to have been for the purpose of denouncing the government, I would have attended and read them order-council No. 17," said the inspector. "I would not have allowed it to proceed. I would have advised them to go home and continue their work on the farms, and if they had refused I would have given them an opportunity to do some work on the Industrial Farm."

Disaffection over the lack of any tangible reason toward securing the exemption of their sons from military service prevailed among the delegates to the Ontario Farmers' Convention yesterday. Several hundred delegates left before noon.

In spite of the appeals of some delegates for drastic action, even to using coercion to prevent their sons from being drafted into military service nothing was done by the farmers as a body beyond passing a resolution asking the government to amend the act so as to exempt one skilled man for every hundred acres, and arranging for more thorough organization of the agriculturists and their interests.

**UNKNOWN VESSEL BURNED IN PACIFIC**

No Sign of Life and Name of Ship Burned Afloat.

A Pacific Port, June 9—A burning vessel was seen about 400 miles off shore on Tuesday night by a steamship which has arrived at this port today. When the steamer had arrived alongside the vessel had burned to the waters edge. There was no sign of life from the floating wreckage. The name of the ship had been burned away and no trace of lifeboats was discovered.

**PARIS BOMBARDED**

Paris, June 9—The Germans bombarded the Paris district again today with long range guns. The Martin says there were some victims of yesterday's bombardment.

**REMARKABLE STAR**

Washington, June 9—A new star, the brightest discovered in several centuries, was detected last night at Leander McCormick observatory at the University of Virginia, by C. T. Olivier, professor of astronomy. He described it as a bright blue star, of magnitude 0.5 degrees, located in the constellation Aquila.

# ANOTHER PHASE OF THE GERMAN OFFENSIVE OPENS

## THE GERMAN STRIKE ON FRONT OF ONLY ABOUT FIFTEEN MILES

### Enemy Started Another Drive Sunday Morning Between Montdidier and Noyon — Narrow Width of Attack Regarded As Indication of Diminution of Power of the Attacking Masses — No Heavy Fighting on Saturday.

Paris, June 9.—The official announcement today that another phase of the German offensive was opened this morning between Montdidier and Noyon, was interpreted by the public as having a hopeful aspect. The point was made that the latest attack is on a front of only fifteen to eighteen miles, compared with a front of fifty miles for the first offensive this year, on March 21 and of twenty-five miles for the attack along the Aisne on May 27. This is regarded as an indication of diminution of the power of the attacking masses.

(By Arthur S. Draper)  
Special Cable to The N. Y. Tribune and The St. John Standard.  
London, June 9.—Although quietude prevails, the general situation in the German Crown Prince's drive, forty-one divisions were employed. This means that a formidable army still awaits Ludendorff's order to attack. As the allies are numerically inferior they are unable to concentrate their reserves, but must disperse them so as to protect various vulnerable points, such as the Channel ports, the coal fields north of Arras, and Paris.

Foch's report today tells of raids north of Montdidier and west of Noyon, and the capture of prisoners. Undoubtedly Foch is anxious to learn what is happening at the junction between the armies of the German Crown Prince Rupprecht and Bavaria. The long front between Noyon and Chateau Thierry may be the scene of the next German effort, with Ludendorff aiming to advance down the historic valleys of the Oise and Ourc to Paris.

The situation is decidedly anxious, because, with the lengthening battle front, Foch must distribute his reserves along a wider line, thereby automatically increasing the advantage Ludendorff enjoys.

The interest lines of the enemy were never more advantageous to him than at present. Again, the allied armies have little room for manoeuvres on the Ypres plains on the Amiens front or before Paris. They can afford to allow the enemy to advance as far as the objective of the enemy, but his next attack may come from another quarter, preparing for the second phase of the battle of the Aisne.

The Italian Theatre. Meanwhile it is well to watch the Italian theatre, where the Flare has subsided and fighting in the mountains has become quite practicable again. There are no Germans on the Italian front, but the Italians have made great preparations and a battle seems imminent. The weakness of the Italian front, presenting the possibility of turning the Flare, has caused anxiety but during the spring Italian reserves have increased considerably, and the morale of the troops is infinitely better than last fall.

In the last three days there has been practically no change on the Marne front. The outstanding feature has been the clever work of the American forces, which have been operating with the French between the Ourc and southwest of Chateau Thierry the allies are in a peculiar position, or the other way about—the German line forms a salient with the Marne as one of its sides and Charlis its apex.

This is the farthest point the enemy has reached in his efforts to push westward along the Marne. Ludendorff seems reluctant to try a direct attack on Rheims, because it is a large city with miles of caves and hundreds of streets which lend themselves as strong defences. When next he strikes here the movement probably will consist of simultaneous drives from the west and northeast.

If Rheims is captured by the Germans they would undoubtedly try to repair the Rheims-Sionsow railway immediately. There is no reason for dependency and no excuse for foolish optimism. Clemenceau's recent speech emphasized the gravity of the situation, and also expressed the confidence he has in Foch and the troops under him.

London, June 8.—Field Marshal Haig's report from British Headquarters tonight follows: "We raided the enemy's trenches last night south of Damme and inflicted casualties on his garrison. "Early this morning French troops carried out a successful minor operation east of Dikensbach Lake and captured 47 prisoners."

Paris, June 8.—Heavy counter-attacks launched by the Germans around Chery and Damme to the northwest of Chateau Thierry, broke down under the French guns, according to the war office announcement tonight. The enemy suffered serious losses. The statement says: "There was quite lively artillery action in the neighbourhood of Hangend-Santerre, between the Oise and the Aisne and south of the Aisne. We continued our progress in the region of Venilly-Poterie and Buseres and penetrated the village of Eloup. The enemy tried to check the advance which we made yesterday at Chesay and Damme, launching violent counter-attacks in this region. Our troops broke down all the attacks of the enemy, who suffered heavy losses. We have maintained all our gains. "Calm prevailed everywhere else."

## GERMANS AGAIN DISCUSS PEACE

(By Arthur S. Draper)  
(Special Cable to The N. Y. Tribune and The St. John Standard).  
London, June 8.—A peace rumor is again in the air. The possibility of peace this summer is about as slim as a U-boat's chance of survival. This gigantic war the impossible has a habit of happening when least expected—witness the profound change in the military situation this spring. Von Hertling is about to make a sensational peace speech in the Reichstag. German newspapers, notably the Ultra Conservative "Kreuzzeitung," Liberal "Frankfurter Zeitung," which always considers things from the point of view of international finance and the socialist organ, "Vorwarts," are growing excited over the question of peace. Following the recent declaration of the supreme war council and the ringing speech of Clemenceau peace seems far remote, but it is necessary to chronicle the various facts and rumors as a matter of record.

Prince Lichnowsky, whose revelations gladdened the allies and it is supposed, depressed the Germans, his own country, has gone to Switzerland. A British mission is in Holland conferring with Germans over an exchange of prisoners of war. The German newspapers are expressing a desire for an understanding with the British, declaring that neither nation can afford to destroy the other.

Another Advance. From a well informed quarter comes the report that the German high command believes that the German army will be able to advance further toward Paris shortly. In the German war plans the greatest battle of the war will come between July 1st, and August 1st. The recent course of the peace discussion in Germany throws light on the way that news of military victories is received. Though they caused a depression on the allied side, there was no great elation in the central powers. They seem to have affected the people in the same way that a dinner of chocolate eclairs would fall to satisfy a hungry man, hankering after a substantial meal of corn beef and cabbage.

For the peace hungry Germans there is little substance in the victories on the Somme and Ys. I do not want to minimize the satisfaction felt among the wealthier classes which suffer fewer privations than the masses. This is especially noticeable in the Austrian press. Many papers hold the view that peace must come through negotiation, and G. N. Barnes' recent speech in which he suggested that President Wilson call a conference of the allied nations at the Hague to prepare for a league of nations seems to have created a favorable impression.

The Berlin Tagblatt says that Germany would necessarily be invited as Holland is neutral. Some of the newspapers consider that President Wilson is a so-called "hitterender" and that peace must come through negotiation, and G. N. Barnes' recent speech in which he suggested that President Wilson call a conference of the allied nations at the Hague to prepare for a league of nations seems to have created a favorable impression.

German Press Opinion. For instance, "Germania" says that President Wilson blocked peace last year. Apropos the Pope's manifesto, "Germania" says: "At that time President Wilson had been a rebel before any of his allies and the great American financiers were anxious as to the financial obligations which the entente had incurred in America. "Thus we see that because America's purse would have fared badly if general peace had been concluded last year, the bloodshed must go on. There is no need for Balfour to tell us that without American financiers there would be no war. It is as if Ludendorff is speaking this spring.

Work in Paris. The admiralty announced that at that time the cruiser submarine was destroyed, another U-boat was sighted, but she escaped by carrying. This would indicate that the super submarines were working in pairs and it is possible that the same tactics are being employed in American waters. It is reported, cruisers have been operating off the Atlantic coast in the last ten days. It is considered likely that they left Germany the first week in May, following the southern route across the ocean.

After U. S. Transports. The Germans are now out to get American transports and to interfere with the shipment of supplies. Germany during the last few months has been working in wait for English vessels. According to this authority, the submarines working in American waters are of not more than 2,000 tons. A U-boat cruiser recently sunk by the British was a 2,000 toner and it is not believed that the Germans have bigger vessels working at present.

No Supply Base. It is improbable that the campaign in American waters will be conducted in conjunction with a supply vessel or the capture of American transports from secret supply bases on the Mexican coast or elsewhere on the American continent.

The story of the submarine carried an extra captain for prizes is considered very probable here, as the Germans have done this before. The possibility also admits of carrying the parts of a seaplane to America, by assemblage and use for bombing purposes are likely to present some difficulties.

Finally authorities state that the sinkings by submarines in May are expected to run heavier, owing to the large attention being paid to convoy work while large numbers of American troops are being transported. This necessarily involves less protection for individual vessels which are more likely to be sunk.

For the same reason there has been less time in which to hunt the submarines and the sinking of these will also probably show a falling off for the month of May.

For Decision This Year. Despite their protestations to the contrary, the German militarists regard America with growing concern and they know that the only hope of a victorious peace lies in a decision this year. Von Capelle's sailors have found European war increasingly troublesome and it is only natural that they seek victims in another quarter where there are poorer defenses. The submarines would have no difficulties making the trip, the chief concern being the replenishment of fuel and ammunition. As the submarines can remain away from their base for six weeks without getting fresh supplies. If it is Von Capelle's plan to conduct an extended campaign in American waters, he must provide bases or send a convoy of ships. If the submarines have mother ships, such as the speedy rader Wolf, which had sea-plane accompaniment, the submarines can operate for months or until they or the convoys are destroyed.

As always tonnage is a potent factor in the war and it has grown steadily in the last half month. Though the Germans have won no strategic victory, they have certainly tremendously increased the allies' difficulties. Several hundred thousand French people who were largely self-sustaining are now homeless and wards of the

## GERMAN SUBMARINE CAMPAIGN OFF U. S. SURPRISES BRITISH

### That Teutons Planned To Extend Operations Had Been Known However By British Government — Thought Germany Has No Supply Base on This Side of Ocean—Hun Whole Offensive This Year on Land and Sea One of Surprise.

(By Arthur S. Draper)  
(Special Cable to The N. Y. Tribune and The St. John Standard).  
London, June 8.—Britons read with amazement the first account of the U-boat campaign off the Atlantic seaboard. American dispatches occupy the first places in the newspapers and the sinkings are the main topic of discussion in all quarters.

As Britain's chief interest lies on the seas and as she has had a long and costly experience with enemy submarines, the new campaign has an especial interest here. That Germany planned to extend her operations has been known for a long time. Announcement was made by the British admiralty of the destruction on May 11, of the first German super submarine or cruiser off the west coast of Portugal. According to German wireless reports the submarine cruiser between the first of April and the first of May sank several steamers near the Azores. There is no doubt that the U-boat campaign was the same one that was operating earlier off the Azores.

One of Surprises. Her whole campaign of 1918 has been one of surprises. The sudden appearance of the enemy's submarine craft off the coast of New Jersey coincides with the surprise attacks launched in the Aisne Valley. If the war has taught the allies anything, it is the folly of underestimating the ingenuity and resourcefulness of the enemy. It is to be remembered that Germany thought so highly of the U-boat that she accepted war with America rather than abandon her ruthless campaign at sea.

The star says: "For the next five months the French and British people will be forced to suffer and endure. The Germans will show them no mercy. They will use every weapon possible in order to cow and terrorize the nations. The attack delivered by the German submarines against American ships off the coast of New Jersey is but an evidence of German ruthlessness and resolution. It is designed to terrorize America. The Germans have made another mistake. It will not terrorize America, it will arouse America to greater efforts. The submarine raid will not retard the flow of American troops. It will hasten it."

Newspaper Comment. The Evening News in commenting on the situation says: "The Hun's very obliging brought the war to America's very doorstep and our gallant allies are looking on at the results with teeth set harder. They are saying: 'These Hun people have got to be killed. If you kick the Hun hard enough he will get it. He is a great mistake on his part to imagine the British and Americans to be similarly constituted and the sinking of passenger ship or small trading vessels is from his own viewpoint about the worst that he could play. We, who know America know that she will avenge her dead.'"

The Fall Mall Gazette says: "America's whole power in waging this war is conditioned by her ability to keep the sea passages clear for her forces and gain the upper hand over the submarine peril. The appearance of these boats off the Atlantic coast shows us that this phase of the war is still in the course of development and that its outcome is as yet an unsettled question."

"Neither in the matter of replacement, nor in the matter of repair, are we in a position to take things complacently. Our returns in British shipbuilding for the past month show a very gratifying upward tendency, but they are still markedly short of the real necessities of our present position. At the present moment the aggregate British and American new construction is only slightly above the level of current losses. That is a quite inadequate margin and we must not be content with the present until the margin is substantially increased by the exertions of our ally."

"We must see to it not only that British losses are replaced from British yards, but that our buildups make good the devastations of the past so that we shall be furnished with an adequate mercantile marine for times of peace."

## FORMER PRESIDENT THOMAS TROTTER, ACADIA, IS DEAD

### Well Known Baptist Educationalist Passes Away In Toronto.

### WAS HEAD OF ACADIA FROM 1896 TO 1906

### Was Eloquent, Forceful, Popular as a Preacher and Broad-minded.

Special to The Standard.  
Woolville, N. S., June 9.—The death is announced in Toronto of Rev. Thomas Trotter, D. D., LL. D., professor of homiletics and pastoral theology at McMaster University and for ten years president of Acadia University. Rev. Dr. Trotter had been in ill health a long time.

He was born in Leicestershire, England, Aug. 11, 1853. In 1870 he removed to Canada with his parents, Mr. and Mrs. S. Edwin Trotter. He was educated at Woodstock College, Toronto; Toronto University, McMaster University and Queen's University. McMaster and Queen's conferred the degree of Doctor of Divinity upon him and Queen's, alsohouse and Acadia the degree of Doctor of Laws.

He was pastor of the Baptist church at Woodstock, Ont., from 1885 to 1889 and of the Bloor Street Baptist church, Toronto, from 1889 to 1896. He then became professor of homiletics and pastoral theology at McMaster University. He resigned in 1895 and the following year became president of Acadia. During his ten years' incumbency here he became widely acquainted with the Baptists of the Maritime Provinces and the Eastern States.

Speaking frequently in public he was eloquent, forceful and popular as a speaker and broad-minded and sympathetic as a man. When he resigned as president of Acadia in 1906 he became pastor of the Ashland Avenue Baptist church, Toledo, O., remaining there until 1909. He then resumed his old chair at McMaster University.

In 1887 he married Miss Maud Freeman, daughter of Rev. David Freeman of Acadia. She has been principal of the Ladies' Department of Woodstock College.

President Cutler's Tribute.  
Rev. Dr. George B. Cutler, president of Acadia, says of the late Rev. Dr. Trotter: "The Baptists of the Maritime Provinces will feel keenly the death of Dr. Trotter, which occurred in Toronto. He had a very high place in the denomination, and was much beloved by his many friends. He came to Acadia at a time when it seemed that the finances of the institution were almost beyond repair, and before leaving raised sufficient funds to pay off all debts, and to increase the endowment. He was undoubtedly the man for the hour."

"I first knew him at Acadia when he came to Woolville as pastor of the Baptist church there, succeeding Rev. T. A. Higgins in 1885. He was an exceptionally good preacher, a wise administrator, and a kind pastor. The year I graduated from Acadia, Dr. Sawyer resigned, and Dr. Trotter became president in the following February, 1887. For nearly ten years he remained president of Acadia, doing a good work that can never be forgotten, and upon the foundation which he laid others have built. On account of ill health, he was forced to resign, and went to the Ashland Avenue Baptist church, Toledo, Ohio, as pastor. At that time I was made pastor at Columbus, Ohio, and frequently met him, having repeated evidences of the high regard in which he was held there. After a service of three years there, he was called to McMaster University as professor of homiletics and has remained there until the present time. His illness has been a long one but he has borne it with the same spirit as he has shown in connection with his work. Mrs. Trotter and the family will have the sympathy of many friends in Nova Scotia in their bereavement and all friends at Acadia will mourn the loss of one whom they look upon as a special deliverer."

Premier Borden's Tribute.  
London, June 8. (By The Associated Press.)—Sir Robert L. Borden, Premier of Canada, who is here to attend the Imperial Conference, today made the following statement in regard to the fighting men of the United States: "I recently had the privilege of observing the quality of the United

## THE AMERICANS GRAND FIGHTERS

### French Military Opinion Is That Men From United States Are Entirely New Type of Warriors — Premier Borden Praises U. S. Soldiers.

(Special Cable to The New York Tribune and St. John Standard).  
With the French armies in the line of the heaviest fighting of the past two days, the French and Americans about equally divided the ten mile battle of the Hautevesnes. The Allied forces in perfect liaison slowly pressed the enemy during last evening, though with a battle at night the line was still subject to fluctuation.

The French troops have taken three strongly held villages and several heights and are now maintaining themselves on the heights southeast of Hautevesnes. The enemy contested every foot giving up valuable positions only at the cost of heavy casualties. The Americans have been locked in a death struggle with the enemy attacking and counter-attacking like veterans.

States troops who are moving rapidly toward the fighting line. They are of magnificent physique and fine spirit and are strong in the determination that this war shall not be fought in vain.

"This spirit is that of the people of the United States as a whole. The wonderful power that this great sister commonwealth will be able to exert in this struggle is not yet fully realized. The enemy will yet learn this to his cost."

A large number of citizens viewed the partial eclipse of the sun Saturday evening. The eclipse was total in parts of the United States.

### You Look As YOU FEEL

You know well enough when your liver is loafing.  
Constipation is the first warning; then you begin to "feel mean all over."  
Your skin soon gets the bad news; it grows dull, yellow, muddy and unsightly.  
Violent purgatives are not what you need—just the gentle help of this old-time standard remedy.

TESTED RECIPES FOR WAR-TIME DISHES

Four Good Rules For Saving Meats and White Flour—Contributed By a Member of the Housewives' League, Mrs. Alfred Morrisey.

Vegetable Roast—Meat substitute, 1 cup cold boiled beans put through the chopper; 1 cup onions chopped very fine; 1 cup bread crumbs; 3 cup mashed potatoes; 1/4 cup butter melted; 1 egg; sage, salt and pepper. Mix all together, press in buttered deep pan and bake.

Emma's Ginger-bread. 1 cup molasses with a little brown sugar in it; 1 egg; 2 1/2 cup sour milk; 1 teaspoon ginger; 1 of cinnamon, and 1/2 oz. ground cloves; 1 1/2 teaspoons soda; flour to make soft batter. If sour cream is used instead of sour milk no butter is needed.

Steamed Brown Bread (War Rule) 1 cup graham flour; 1 cup corn meal; 1 cup rye flour; 1 1/2 cup molasses (or more); 3 cups sour milk or buttermilk; 2 teaspoons soda. Steam three hours. In pre-war time the rye flour was white.

Creamed Lobster. 1 tablespoonful of butter melted and then thickened with two tablespoonful of sifted flour, cold milk then add two teaspoons worcester sauce. Break up the cooked lobster with fork, stir into the sauce, cook ten minutes and serve very hot.

HOME EFFICIENCY CLUB'S CAMPAIGN

Food Preservation To Be Undertaken This Year in New Brunswick By Two Hundred Live Organizations of Girls—Did Red Cross Sewing During Winter Months.

During 1917 the Home Efficiency Clubs of New Brunswick were organized under the Education Department as a means of giving girls from ten to eighteen years of age an opportunity to do their bit in food preservation. Last year nearly one hundred clubs were formed, embracing seventeen hundred girls. These reported 50,000 quarts of food canned, or otherwise preserved, and doubtless much was done that was not accounted for.

At the beginning of 1918, Miss Marjorie Fiewelling was appointed supervisor of the Girls' Clubs, and she has now over two hundred live organizations of young people under her direction. During the winter months the club members devoted their energies to Red Cross sewing. During this summer they will carry on an extensive campaign in food preservation. Last year the Domestic Science teachers of the province volunteered to help in the work, and gave three weeks of their vacation to the service, free of charge.

This year these teachers will be employed by the Education Department, to serve the clubs during the latter part of July and the first part of August.

To prepare for this, they will meet at the Normal School, Fredericton, from July 8 to 13, and take a short course in methods of food preservation, food values, and club activities generally. While here, the itinerary of each teacher will be planned, and after the convention each will go directly to work among the girls in the various parts of the province.

Those in charge hope to accomplish twice as much as was done last year.

CARING FOR SOLDIERS IN THE HOSPITALS

How the Red Cross Looks After the Patients in the Military Hospitals in Montreal.

Now that the local Red Cross is taking up the care of soldiers in the military hospitals the following account of the work done in Montreal is of interest.

The drivers all wear the Red Cross badge on their arm and on their cap; several of the girls have a very smart uniform. The driving is entirely under the Army Medical Corps. The Driving Committee rings up each hospital at 5 p. m., and asks at what hour and how many cars are required for the next day, and they do their best to supply them.

The men are often taken to tea when out, and seem to enjoy their drives very much. The Army Medical Corps are using our cars now to remove men from different hospitals, and to take them to the Technical Schools, etc.

Our Visiting Committee for visiting returned men in hospital has been very successful. One visitor can take care of twenty men, write letters for them and give various comforts. We supply them with smoking, games, socks, heavy walking sticks, gloves, soap, shaving soap, razors, writing materials, stamps and many other things. We have even given an air bed and down pillows to make a dying man comfortable. We always give fruit, sweets and any necessary delicacy, for which we have a separate fund, and try to help the men in various ways.

WAR GARDEN BULLETIN. Issued by the Canada Food Board in Collaboration with Experts on the Staff of the Dominion Experimental Farm.

CELERY TRENCHES. Now that the potatoes are safely in the ground the next move to be considered is the preparation of the celery trenches. A good many amateur gardeners are at this time thinking of it too troublesome to handle but those who go in for it usually feel that the labour has been well repaid before the season is out. To prepare the trenches, set a line the length desired. Mark along this line with a spade and move the line 15 inches. Mark this also. Dig out the space between the lines to a depth of nine inches, filling the soil on either side of the trench. If more than one row is required, the space between should be not less than 3 feet. This space can be utilized for the growing of lettuce, cauliflower, radishes or other early crops that it will be possible to clear off before the celery is ready for earthing. Put some manure in the trenches and dig in. The celery trenches should be left for some days before the plants are put in. The day before planting they should be doctored with water. A very important factor in the successful culture of this popular vegetable is a plentiful supply of water. In its wild state the celery is a bog plant and it is, therefore, naturally a water lover.

SALVATION LASSIES UNDER FIRE. Salvation Army girls were in the battle of Seicheprey, under fire, intrepidly about administering to the needs of the American soldiers resting the terrific German attack. Up to that time probably many Americans did not even know that the Salvation Army was at the front, though they ought to have known it; the Salvation Army is always at the front, whether the battlefield is one of war or peace. It does not fear pain, disease, or death. It does not advertise, and there is no reward to be got for helping it, except the reward that comes from conscience.—New York Times.

N. B. AUXILIARY MONTHLY MEETING

Reports Submitted Showing Good Work Accomplished for Maritime School for the Blind.

The reports submitted at the monthly meeting of the New Brunswick Auxiliary of the Maritime School for the Blind, held last week, Mrs. E. Atherton Smith in the chair, showed that since the organization of the auxiliary in January last much good work had been accomplished.

The meeting was attended by representatives of every denomination in the city. It was reported that since the organization of the auxiliary many blind children had been discovered and sent to the school at Halifax and an effort was being made to register the adult blind with a view to starting community work a little later among them.

Nearby \$400 was reported from the churches in the city, over \$300 from the Women's Institutes of the province and \$200 from the Empire Day entertainment in St. Andrew's rink.

Mrs. Smith reported having sent a circular letter to each Women's Institute in the province and expressed the hope that before the year was out all would have been heard from.

The report from the Fredericton branch organized by Mrs. Smith in April last showed that over \$1,000 had been collected by them. The report from Moncton where the work had been undertaken by the Women's Patriotic League was most encouraging, the children had raised over \$200 and the ladies were just entering upon a campaign.

ROTHESAY WON FROM ST. JOHN HIGH IN SPORTS SATURDAY

The Final Score Was 75 to 14 Points — Rothersey Boys Proved Superior in Nearly All Events Which Were Closely Contested.

The annual inter-collegiate meet between Rothersey and St. John High School was held Saturday afternoon, on the Rothersey Campus, under ideal weather conditions.

Rothersey got away with a lead in the first event and continued winning by the score of 75 to 14 for St. John High School.

The High School boys took defeat well, and were game sports throughout the meet. Special mention must be made of the one mile race—when a St. John student came in but a few inches behind the Rothersey winner. In each case first man was given five points, second man, three.

Rothersey now holds the cup, having won three successive years. Those in charge of the meet were: A. C. Skelton, I. Gilbert, E. R. Hanson, judges.

F. MacNeill, Starter.

J. Malcolm, timer.

The following gives the events and winners:

100 yards dash, 1st heat:

J. B. Cudlip, R. 1st; L. Diago, R. 2nd; B. Wilkes, S. J. 3rd; Time 11 seconds.

2nd heat:

C. Flewelling, R. 1st; S. Russell, S. J. 2nd; D. McKean, S. J. 3rd; Time 10 4/5 seconds.

Finals—Cudlip, R. 1st; Flewelling, R. 2nd; L. Diago, R. 3rd; Time 10 4/5 seconds.

A SLUGGISH LIVER CAUSES LOTS OF TROUBLE

When the liver becomes sluggish it is an indication that the bowels are not working properly, and if they do not move regularly many complications are liable to set in.

Constipation, sick headache, biliousness, jaundice, heartburn, water brash, catarrh of the stomach, etc., all come from a disordered liver.

Milburn's Laxa-Liver Pills are a specific for all diseases or disorders arising from a slow, sluggish, lazy or torpid liver, and they have been universally used throughout Canada for over 20 years with the greatest success.

Mrs. W. A. Harrison, 7 Poplar Grove, Halifax, N.S., writes: "I take pleasure in writing you concerning the great good I have received by using Milburn's Laxa-Liver Pills for a sluggish liver. When my liver got bad I would have severe headaches, but after using a couple of vials of your pills I have not been bothered any more."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

TWO GENTLEMEN WORTHY OF COMMENT VISITING THE CITY

A. Monkhouse Was With Muniton Plant in Russia Early Last March — With John Hofer They Are Bound For the Front.

Two gentlemen worthy of comment were in the city Saturday. They remained indoors and amused each other with stories of their recent adventures. They soon became acquainted, although each came from widely distant centres. One gentleman—A. Monkhouse, born in New Zealand, had experienced much. As late as March 6th, 1918, he was in Moscow, Russia, being engaged in ammunition work. But the peace recently made by the Russians with the Huns, coupled with the Bolshevik element forced him out of the country. On beginning his travels—now an exile—he was forced to travel in what was known as fourth rate wagons, these were commonly used for conveying exiles into Siberia in pre-war days. Resisting Vladivostok they journeyed in a small transport vessel used as a Russian transport, and soon were picked up by an American vessel, and landed in France.

Here the speaker related an interesting story he had had in one of "Frisco's" hotels with a representative of the "Heart papers"—Next day he was somewhat disconcertingly surprised to read "he had made pro-German statements." In order to combat the writer he published an article in all the local papers, and also in a magazine of the British Legion in "Frisco, proving again he was not a pro-German, and is now on route overseas—joining the Royal Engineers and recommended for the Officers' Training Corps. He has a wife and one child, now in England, who escaped there, by way of Holland, to his companion and the Bolshevik movement, however.

His companion, John Hofer, comes from Philadelphia, where he was a contractor for a machinery concern, but was born in Kent, England, consequently is joining the British Officers' Training Corps. He had also travelled much. His brother is at present in the service, having enlisted in the Imperial Army.

He was delighted with the patriotic spirit shown by the citizens of St. John. He alluded to his companion and had him produce from his suit case a souvenir of Russia—"War bread"—made from the sweepings of flour. It resembled baked sawdust, but colored darker. Only two ounces were allowed each individual in Russia as a day's ration.

Both young men left this morning for Windsor, en route overseas. The former is in charge of the Jewish Legion, which came in yesterday.

90TH ANNIVERSARY WAS CELEBRATED

Special Services in Portland Methodist Church Yesterday—Oldest North End Church and Largest School in City.

The ninetieth anniversary of Portland Street Methodist Sunday School was held last night in the church and services appropriate to the occasion given by scholars. This school was organized in 1828 and has had a steady growth since that time, until today it is the largest Sunday school in the city, the present membership standing at 730. Last year the school raised for all purposes \$1,050.55 and closed the year with a balance on hand of \$60.87.

In his address Rev. Neil MacLauchlan referred to the importance of the Sunday school work to the church and said he hoped the time would come when the morning service in all churches would be given over to the children. Mayor Hayes, who for twenty-five years has been superintendent of the school, gave a short address in which he referred to the progress made during the past year and voiced the hope that the coming one would be even more successful.

Following is the programme: Hymn—"O Canada," school. God Save the King. Prayer—Rev. Neil MacLauchlan, B. A. Chorus—"The Heavens Are Telling," school. Exercise—"The Mission of Children's Day," Laura Polkins, Mildred Killam, Emma Chown, Helen Rowley, Margaret Hayes, Florence London. Scripture Reading—S. A. Kirk. Chorus—"Onward, Still Onward," school. Recitation—"Getting to Sunday School," Jean McIntosh, John Cowan. Solo—"O Forest Fair," Mary Kirkpatrick. Chorus—"The Rose of Sharon," school. Address—Rev. Neil MacLauchlan, B. A. Duet—"Ye Shepherds of Judah," Caroline Perry, Etta Strikney. Exercise—"Buttercups," Mabel Chown, Vivian Armour, Bertie Bromfield, Isalon McBeth, Margaret Holder. Duet—"Saviour of All," Doris Corbett, Lena Greig. Address—His Worship Mayor Hayes, Superintendent. Exercise—"The Flag We Honor," Mae Bell, Vicars MacLaughlin, Annie Pike, Luella Sargent. Chorus—"O Vision Golden," school. Exercise—"The Harvesters," Margaret Polkin, Jeanie Eadie, Cora Perry, Gerald Williams, Ernest Codner. Exercise—"How We Can Serve," Ralph Kirk, Kenneth Lawton, Robert Codner, Herbert Mowry, Ralph Williams, Niles Ring, Ernest Codner, Gerald Williams. Chorus—"Hear Ye the Word," school. Benediction.

MORE RECRUITS FOR THE JEWISH LEGION BOUND FOR WINDSOR

A Happy Party Left For Camp Windsor Saturday Morning—Were Guests of "Community of St. John" While in the City.

The Jewish Legion which arrived in the city Friday en route to Windsor, was entertained that evening, being the guests of the "Community of St. John" and enjoying a banquet. The committee in charge of the legion was: A. Wyse, I. Silvestein, C. J. Yachelson, H. Boldstein and Benny Witt.

Mr. Wyse, the spokesman for the legion, on rising to speak was given great applause. He said they were the Jewish Crusaders, bound on a holy mission, as a cause of righteousness, and a cause of freedom.

He spoke of the courtesy of the Y. M. C. A. and also the citizens in general, and on behalf of the legion conveyed their gratitude to citizens of St. John and the Y. M. C. A.

Others worthy of note in the number were G. Boyar, a former singer in the Metropolitan Opera, New York; Murray Hoffman, an honorably discharged American soldier who had served six years; Chas. Cretz, labelled the "Kaiser's man," commissioned to "go" the Kaiser; S. Kontrowitz. They proved a joyful crowd and spoke of the patriotic spirit existing in America. They left Saturday morning for Windsor.

This Doctor Recommends Nujol to his Patients

What remedy do you use as a precaution against occasional or chronic constipation? A distinguished southern physician gives his professional answer to this urgent question in the following letter:—

NUJOL LABORATORIES, STANDARD OIL CO. (New Jersey), BAYONNE, N. J.

Dear Sir:—

I beg to say Nujol is a wonderful product. I have quite a number of patients now using it, and all are pleased with it. You very kindly sent, at my suggestion, samples to several of my patients. So far as I know they are all now consumers of Nujol. One in particular had chronic appendicitis; now apparently relieved.

Truly yours, Paul T. Jones, M.D. 5 Kennesaw Ave., Atlanta, Ga.

A SCORE or more of serious diseases and conditions begin with constipation! Therefore, keep your bowels clear, and protect yourself from the danger of a host of bodily ailments. Use Nujol to promote regular bowel-habits, without the least harm to the system. Use Nujol because it is a drug-free remedy, positively safe for all, from infancy to old age. Nujol relieves in a natural way—without affecting digestion, without artificial stimulation, without griping or disagreeable reaction. It is pleasant to take—pure and tasteless. To be "regular as clockwork"—use Nujol.

ABSOLUTELY HARMLESS

2000 Canadian physicians have asked for samples of Nujol, and are now convinced of its merit.

### SCHOONER DISMASTED ABANDONED ON FIRE

Boothby Harbor, Me., June 9—The  
three-masted schooner James A.  
Young, Capt. Leonard, bound from  
Elizabethport, N. J., for Boothby Har-  
bor, with coal, was dismasted ten  
miles off coast-southwest of the Cape  
Elizabeth Light Friday and caught  
fire. Capt. Leonard and his three  
men put over a boat and abandoned  
the schooner. The men were rescued  
by a naval coast patrol boat.  
The Young was built at Thomaston  
in 1866 and hulled from both.

FAIR AND COOL

LEFT FOR TORONTO. Pta. M. M. Huestis was among the convalescent soldiers who left Saturday evening for Toronto for treatment.

A FRACTURED ARM. An eleven year old boy was admitted to the General Public Hospital suffering from a fracture of the arm in the son of M. Doherty, Pokok road.

VITAL STATISTICS. For last week there was reported seven marriages, sixteen births and seventeen deaths. Of the birth six were boys and ten were girls. Of the deaths pneumonia caused the greater number, seven being credited to that disease.

THE PROBATE COURT. In the estate of John McSherry, grocer, deceased, letters testamentary were granted to Elizabeth Cecilia McSherry, daughter, executrix. The estate was valued at \$10,000, real and personal. Dr. H. F. Quilley, K. C., proctor.

THE MISSING BOY. Arthur Daville, of Lenox Wharf, son of Frank Bonville, who mysteriously disappeared a short time ago, was reported last evening as yet untraced. A rumor existed last evening that he was found with some friends at Lower Cove, but this was contradicted later.

ACCEPTED POSITION. T. Maunell O'Neill of Main street has accepted a position with the Atlantic Sugar Refinery for the summer months. Mr. O'Neill is a student at Dalhousie and is working during his vacation, thus helping along in great production.

LEFT FOR OTTAWA. Clifford Price, street superintendent, left Saturday night for Ottawa to attend a meeting of the Orange Grand Lodge at that city. While in Upper Canada he will make an investigation of the methods used for street making and cleaning in the larger cities.

HEAVY FIRING IN BAY. The people of Eastport and Campobello heard the sound of heavy firing in the Bay of Fundy recently. There was considerable excitement for a time, but nothing definite could be learned. It is supposed some vessel was practicing with her guns.

DESTROYED THE NETS. H. E. Harris of Fredericton, fishery overseer, accompanied by Lee E. Ure of Tootleton, Kings county, have been on an inspection trip with a motor boat in Bellefleur Bay and the St. John river. They took a number of nets set to catch shad. The nets were destroyed.

THE POLICE COURT. Six boys appeared Saturday morning in the juvenile court on a charge of truancy. Some of the boys had remained from school for many days. His Honor gave them a severe lecture and warned the parents that they were liable to a fine of \$2 for every day their children remained from school.

KNIGHTS OF COLUMBUS. The exemplification of the first and second degrees in the Knights of Columbus was carried out yesterday afternoon and evening. Both degrees were conferred on large classes. The ceremonies were conducted by Grand Knight W. P. Broderick, assisted by M. Regan, Deputy Knight, William Ryan, Chancellor, Raymond Mooney, Warden; P. J. Fitzpatrick, Financial Secretary, and L. A. Conlon, Inquisitor.

LAUNCHING TOMORROW. The launching of the Auxiliary schooner Dorchester will take place on Tuesday about one o'clock from the yards of the Marine Construction Company of Canada, Chesley street. While the older citizens of this city have seen many launches, this one will be the first one of its kind to take to sea here, in that the vessel will go into deep water sideways, and no doubt all the points of vantage will be occupied when the schooner takes the water at high tide tomorrow.

RELIEF FUND CLOSED. Mayor Hayes has closed the Halifax Relief Fund and will forward the balance on hand, \$4,526.94, to Halifax. Following is a summary of the amount collected and that already sent forward: Collections by committees, \$31,517.21; Special donations, \$10,646.62; Disbursements, especially on purchase by committee, \$26,980.27; Shipped direct by donors, \$10,646.62; Total, \$51,650.50.

POLICE REPORTS. Several individuals were gathered up by the police during the week-end for dealing with contraband. They will occupy the "treasure bench" in the magistrate's court this morning. The police reports for yesterday show an accident at the corner of Hill and Union streets, when an automobile belonging to the Central Garage collided with a horse and wagon driven by William Gannon. The damage was slight, the wagon losing one of the front wheels.

At 2:30 yesterday afternoon Detective Donohue was called upon to shoot a dog which had been run over by a car on Charlotte street. The animal was badly lacerated. It required two shots to end its life.

MISS B. BENNETT BURLIGH WAS IN ST. JOHN SATURDAY

Noted English Lady Interviewed By Standard — Had Many Thrilling Experiences Since Start of the War — Has Travelled Much — Witnessed Crimes and Acts of Germans To Awful To Talk About.

To enter Brussels on foot, passing through the German sentries; to inspect German prison hospitals at Mons; to escape from Blakenberg in a sailboat shelled by aeroplanes and shot at from the shore; and arrested by her own people by mistake, are but a few of the stirring experiences of Miss B. Bennett Burligh, the daughter of England's greatest war correspondent, Bennett Burligh, who on Saturday evening passed through St. John en route to New York. Miss Burligh is a typical English lady. Her refined manner and distinct pronunciation leaves a permanent impression upon those with whom she converses. Interviewed by a Standard representative Miss Burligh said: "A German is a German and no other word is necessary to convey their real character. Why, the Hun is a gentleman compared with these people," emphasized Miss Bennett, with an expression of disgust upon her countenance. "There is only one way out of it, and that is in this war has got to be continued until these people are forced to surrender."

From the time of her departure from England, Miss Burligh has been an eye witness to crimes and acts of degradation, which call to Heaven for vengeance. On one occasion Belgian women who were travelling on a train following the one on which she was a passenger, were taken off the train and stripped of their clothing and thrown upon a table while German officers stood by and laughed with scorn. This sight turned the correspondent sick, and at the same time she recalled what might happen to her if she fell into their hands. "It was not the fear of them killing me, that I worried about, but it was what they would do to me before they put me to death," Miss Burligh, if captured by the Germans preferred to be shot on the spot rather than be in their hands for any length of time. In order to hasten her end in case she was detected, she always carried a camera with her, as she was sure then that death would be sudden.

Miss Burligh was the first woman war correspondent to go right into the heart of the conflict and write from scenes witnessed by her own eyes. It is doubtful if any other war correspondent has ever taken the chances to learn the truth of the facts, which involved the penalty of death if caught. Miss Burligh has been in Canada during the past two weeks lecturing to the interest of some of the patriotic societies in Nova Scotia and her style

of presenting facts has won for her a prominent place among the lecturers of the world. She visited Louvain, both before and after it was burned by the invaders, and by some miraculous fortune she was able more than once to get through the German lines. On her second time she went further afield and visited the battlefields of Mons and even penetrated into the wards of a German hospital and spoke to wounded English prisoners there. The horrors of this visit made an indelible impression upon her memory. She carried her adventure to Antwerp, which she reached probably it fell, and some idea of the roamings of the young lady will be gathered from the fact that she watched the shelling of this beautiful city from the German lines. Miss Burligh has been twice a visitor to Holland and had ample opportunity of watching the manoeuvres and methods of the German in Holland and Belgium. Referring to America's entry into the war Miss Burligh said, "The prestige of the American woman depends on the defeat of Germany. Her place in the world will never be the same if Germany is allowed to win. The backbone of the Anglo-Saxon people is respect for women; the backbone of the German is contempt for women." Miss Bennett said that when the German officers stopped a party, of which she was a member, she would let the others do the talking and she would melt off to the edge of the group so to speak. On several occasions she was obliged to make long detours to avoid sentries. "As a child I enjoyed playing hide-and-seek, and this was old game over again," smilingly remarked Miss Burligh. "I cannot stay in a room with a German," she stated the other day, with a shudder; "I cannot stand having one near me—it makes my flesh crawl."

Three of the young lady's brothers have given their lives for the cause of liberty, one of them receiving military distinction in the Royal Flying Corps before his life was taken. "I certainly did enjoy myself in Nova Scotia," she stated the other day, "and Miss Burligh, "it is hard to leave a country in which you have made so many pleasant and interesting friends, and in case she was detected, she always carried a camera with her, as she was sure then that death would be sudden. Miss Burligh was the first woman war correspondent to go right into the heart of the conflict and write from scenes witnessed by her own eyes. It is doubtful if any other war correspondent has ever taken the chances to learn the truth of the facts, which involved the penalty of death if caught. Miss Burligh has been in Canada during the past two weeks lecturing to the interest of some of the patriotic societies in Nova Scotia and her style

GR. HARRY PIKE IS IN HOSPITAL

Was Admitted on June 2—Shell Gas Burns Received —Has Had Worthy Career as Soldier.

Mrs. J. W. Pike, 213 Queen street, West St. John received a telegram from Ottawa yesterday informing her that her son Harry Pike, a military medal man had been admitted to hospital in Bologna, France on June 2nd suffering from shell gas burns. No other information was received regarding the injuries of the young soldier.

Gunner Harry Pike has been about as much as any young Canadian soldier that has left the shores of Canada. For two years during the Boer war he served his country faithfully in South Africa. While at home he was always a member of the Carleton Battery in the 3rd Regiment Canadian Artillery, all when this present war broke out and there was a call for volunteers he was one of the first to sign on with Major Magee in the heavy artillery then mobilising on Patricie Island. Coming to France with the first contingent he has been with the Heavy Brigade ever since the commencement and during all that time he has only been off duty from the front line and the rear of the big guns twice, once when he was ill in hospital for a few weeks and once last year when he had furlough about ten days in England. Gunner Pike has one brother with a slight battery and another with the infantry in France both fighting strong. His friends wish him a speedy recovery and sincerely hope that his injuries are not serious.

CAMP SUSSEX STILL UNDER QUARANTINE

Three Cases of Spinal Meningitis Developed There — Men Reporting for Duty Come to St. John—Extension to Those on Farms.

Camp Sussex is still under quarantine and all likelihood remains so for some little time, as three cases of spinal meningitis developed last week among the troops quartered there. This outbreak has made necessary a change in the quartering of the men reporting and until the quarantine is lifted all men will report here at the St. John barracks. Major McArthur and Capt. Pitt with other members of the staff have arrived in the city and Major McArthur will be in command of those who report here for duty. Orders have been sent out for all men ordered to come to the city this week to report at St. John instead of Sussex and any who may go to the latter place will be immediately sent here. In consequence of this quarantine the time of leave of those absent on the farms has been extended from June 15 until July 3.

ANOTHER CASE OF SMALLPOX IS DISCOVERED

Person Located Saturday in the West End—Taken to Isolation Hospital — Visitors Not Yet Allowed to General Hospital.

T. M. Burns, secretary of the board of health stated, that the suspected case of smallpox, reported on Saturday, turned out to be a case, and the patient was removed to the isolation hospital. The case was on the West Side but no anxiety need exist, as near all the residents of that section are vaccinated. No other cases are reported.

It was rumored last evening that the quarantine had been permanently lifted off to the General Public Hospital. Upon enquiries being made at this institution it was stated—a quarantine yet existed, but only as a precautionary measure. Doctors and nurses were allowed out as usual, but before entering they took aseptic baths as a precautionary measure also. One of the doctors at the institution added this quarantine has existed for a time, but no alarm need be felt by the citizens, as this rule was only as a precautionary measure for the inmates from visitors.
