SATURDAY EVENING, FEB. 27.

There are three candidates in the field men—men who worked for the success of the Free School ticket at the last general election. There is no Sectarian School candidate in the field, all the journalists on that side having been so hadly beaten in this constituency that none of them cares to offer again, and there is not likely to be. At present, therefore, the Free School electors of the City and County of St. John have only baggage shall be double first class and come in the severe to start of the success. On the Sthinst, two of us (both New Brunswick travellers) started from St. John by the morning express train for no provisions could be found on board. A corpse was found on its face beside a coil of rope near the galley, and like the rest it was hard as stone imbedded in a surface of icc. City and County of St. John have only one issue presented to them—that of personal preference. They have Edder, Blaksice and Clark to choose from—every one a staunch Free School man. Mr. Elder is an uncompromising Free School advocate, and the electors may confidently rely on his remaining, such as long as Free Schools are popular with the majority. Mr. Blaksice is an Orange nam, and as uncompromising a Non-Sectarian chicationist as the most earnest man in the porty could desire. Mr Clark is a man who does not make an outery against any sect, but holds firmly to the doctrine of Free Schools on a non-sectarian basis. After recess last night, Dr. Tupner made a foreible speech of several hours duration in rebuttal points made in closing the debate in financial statement. He defended the late Government's connection with Intercolonial Rallway, and condemned Brydges' objectionable tariff. He pointed out what he termed Brydges bungling in coal contract, by which the country lost \$25,000, and referred to Brydges' alleged startling discovery that the coal of heelpring Hill Mining Company was worthless, believing him (Tupper) to be a shareholder of it, but when he found that he was not a stockholder, and upon going down to \$8t, dohn discovered that Hon. Mr. Burpee was a stockholder in the Company, the scales had fallen from his eyes and he contracted for \$10,000 tons of coal which he had just before condemned. He asked on what grounds \$60,000 for the construction of a station at Halifax was charged to capital, and concluded a long speech.

Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and cruptive discretes of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoea, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life. GUTHRIE & HEVENOR, "Yes, I think so." And he was the healthlest man in the Territory.—Oakland Tribune.

The strength of the negro head has long been known, but was lately shown by a new test at Alexandria, Va., where a gentleman of color, on hearing of the passage of the Civil Rights Bill, determined to have a private celebration of the event by getting gloriously drunk. He drank three pints of raw whiskey, a pint at one draught and a quart at another. But it was no use, his head was not affected in the least. Whereupon he became despondent and gave up the attempt at a celebration.
