WILDEST STORM IN MANY YEARS

Cold Weather Gives Way to Stormy Conditions

The storm which set in Thursday night was the most severe that has struck this country for many years. In all during the week upwards of two feet have fallen. The highways were blocked for several days and even now are scarcely passable.

The railway system was demoralized. A train with a full freight tonnage left Aroostook Thursday night. They struck no snow until they reached Florenceville and became stalled on the Tompkin's grade, a few miles below. They "doubled" into Sackney and set forth again with a full train but was stalled again on the level at Peel. The train came into Hartland in four pieces with 13 cars left at Peel, protected by flagmen in the wild storm while the engine crew went to Woodstock for coal and water. Daylight had come when they finally got away from Hartland with only a small portion of their load. The express trains were hours late and all freights were cancelled both Friday and Saturday.

From all parts of the eastern points of the province the storm was reported the worst in many years.

Serious Fire

In the high wind and 20° below zero weather of Jan. 21, the farm house of Dolph Nixon, a mile below Victoria Corner, was destroyed by fire with much of its contents.

Mr. Nixon was in Hartland at the time the fire broke out and received first news of the calamity by telephone. While everything upstairs was consumed, including bedding and clothing of the family and Mr. Nixon's hired help—most of the effects of the household down stairs were saved. The loss is very heavy compared with the trifling insurance that was carried.

It has been circulated abroad that Mr. Nixon lost his crop of potatoes, but it is an error as these were stored in the barn cellar and the barn was not burned. Mr. Nixon moved his family into a house at the Corner, and is undecided as to whether he will rebuild.

Work on the Bridge

The recent storm interfered seriously with the work on the bridge. Nevertheless, Superintendent Fletcher has progressed splendidly in the six weeks that he has had a full crew on. One new span is completed while another is practically finished. There remain three more spans, the entire work of one which may be done independent of the ice. It is expected that the whole structure will be completed to such a point that teams will be able to cross by the time the ice bridge breaks up.

Practically the whole of the lumber and other material was purchased locally and all other wage earners are local men. If the bridge had been constructed of steel all the cost of material and workmen would have gone outside of the province.

FARMERS ANNUAL CONVENTION

T. W. Caldwell, M. P., Again President—Full Report to Follow

In recognition both of the place they occupy in the work of the farm and their new status as enfranchised citizens, the United Farmers of New Brunswick, in their third annual convention at Woodstock last week extended to the women equal rights in their organization. This was accomplished by an amendment to the constitution, which also provided for the formation of special women's section to deal with their particular problems.

Recommendations for the designation of a farmers' Sunday during the summer and the formation of a legal department for the benefit of members were presented by the secretary. The secretary's report showed that the provincial organization had grown within a year from forty-eight branches with 2,800 members to one hundred branches with a total of 7,000 members.

A message expressive of their desire for co-operation in the attainment of their mutual aims was presented to the farmers by a representative of organized labor in Nova Scotia, and western agricultural representatives brought reports of the growth of the movement in their part of the country.

Somerville School

Somerville school has only ten enrolled but one important feature is that a hot drink is served the children who are obliged to bring their dinners. Vegetables are readily wanted. This is far better than a cold dinner and the expense is very small. The January exams were held as usual and the results were good averages were as follows:

Grade IV—Marjorie Neales 93.6
Grade III—Thelma Orser 94.3, Evelyn Orser 91.2, Ethel Thornton 73.7, Fern Hovey 71.8.
Grade II—Lloyd Seely 95.5, Hubert Hartley 86.1.
Grade I—Helen Seely 96.3, Idella F. Moisaac, teacher

FARMERS' TELEPHONE NEEDS MORE FUNDS

Will Sell to N. B. Co. if More Stock is Not Subscribed

At the annual meeting of the Farmers' Telephone Co. held here last week Clyde E. Rideout was elected president and H. H. Hatfield vice president, while Miss Annie Drake continues in office as secretary treasurer and G. O. Britton manager.

No dividend was declared as the extraordinary advance in the cost of supplies and operating expenses, without corresponding increase in rentals and tolls, made such a juggling of finance impossible. If the line is to be kept in the hands of the people of Carleton county and give a real service at least \$20,000 additional capital must be at once forthcoming. This is direct from the Board of Directors and therefore authentic. It is urged that if every present shareholder and every subscriber will take three shares each the money will be at once in hand.

The funds are needed to erect new lines, put in three new switch-boards, maintain service men at Hartland, Woodstock, and Florenceville, install 300 more phones, and to standardize the line so that long distance connection can be secured through the N. B. lines and beyond at any time. Rentals will be increased in accordance with the increase of everything else, but all subscribers will have use of the three exchanges without charge for tolls. If a subscriber wishes to talk to St. John or elsewhere he may do so by asking for connection with the N. B. and paying the usual toll, plus 5 cents switch fee.

The Farmers' line has been one of great benefit to Carleton county and a most successful venture. It would be a pity to see it pass to its big competitor, when its independence may be so readily maintained and at once give the desired service with the outside world.

It is encouraging to know that already a large part of the new capital is subscribed in lots of \$500 to \$1000.

ST. JOHN MAN HAS GAINED 28 POUNDS

H. F. Rollings Is Surprised By Rapid Improvement - Troubles End

"The best proof I can give that Tanlac is the right thing for me is the way it is building me up." Said H. F. Rollings, of 62 Flower Hill, St. John's, Newfoundland, recently. Mr. Rollings has been employed as carpenter by Reeds Newfoundland Railway Company for ten years.

"At the time I began taking Tanlac," he continued, "I only weighed one hundred and twenty pounds, but now I weigh one hundred and fifty pounds - have actually gained twenty-eight pounds - and am picking up, both in weight and strength."

"I had been in the worst kind of a fix for some time and could get nothing to do me much good, if any. My appetite went back on me and my stomach was in such a bad fix that I could not eat meats or any of the more substantial foods at all. I had severe headaches and was so run down and weak that I couldn't do justice to my work. I would get weak, faint and dizzy that I was actually afraid to mount the scaffolds. I was very nervous and nearly all my strength just seemed to be gone. One day while crossing the railroad track I felt one of those dizzy spells coming on me. I managed to call for help, but I fainted dead away, and the next thing I knew I was home. I could never get a good night's sleep and that tired, worn out feeling was with me all the time."

"My improvement since I began using Tanlac has certainly surprised me. My appetite returned after the first few doses and by the time my first bottle was gone I could eat and digest anything. Then I commenced to pick up my lost weight and strength and get rid of that tired, worn out feeling. The headaches, dizziness and nervousness have all left me and I sleep so soundly that I have to be woken up in the mornings. My appetite is so big that I can hardly get enough to eat and I never have the least trouble with my stomach any more, and when it comes to work I can keep up my end with the best of them. I am convinced that Tanlac will help anyone who tries it and I am glad to make this statement for what it may be worth to others. Tanlac is sold in Hartland by Estey & Curtis Co., in Bristol by Dr. G. W. Somerville, in Centreville by Stevens Bros., in Woodstock by E. W. Mair, in Benton by W. E. Porter, in River de Chute by Daniel B. Baird, and in Florenceville by A. B. Lovely and in Bath by Bath Drug Co., H. M. Foster, Mount Pleasant, John McIntosh, Glassville, Chas. L. Bent, Plaster Rock.

Mrs. John Stewart and family of Centreville wish to thank their neighbors and friends for their kindness during the illness and death of their husband and father, and also the Centreville choir and those that contributed flowers.

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE
8928 Union St., Vancouver, B.C.
"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused. Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 148 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

Oil Cheaper Than Coal.
The high price of coal and the prospects of it becoming dearer still has resulted in a big demand for oil fuel. It is now cheaper to use oil fuel in ships and factories than it is to use coal. Perhaps before long we shall be using it in our homes, too.

The great coal strikes of 1911 and 1912 made hundreds of big farms turn towards oil, and it is a remarkable fact that once oil fuel has been used coal is abandoned forever. Oil is not only cheaper than coal, but it is cleaner and less trouble. It is ever so much easier to transport and to supply to engines. A few feet of tubing and a main line express engine, for example, can take in 600 gallons of oil fuel in from four to five minutes. Oil, too, has the advantage that there are so many big deposits of it in various parts of the world that it is not affected by strikes so much as coal.

When proper oil-burning machines are used, there is no smoke attached to it at all, and factories using oil have no tall chimneys, no piles of ashes, no tedious shovelling of coal into the furnace. Just a few pipes, that's all. A few taps regulate the oil supply to the boiler furnace, and, in fact, with oil the grimy coal stokers can be replaced by girls in spotless white caps and aprons.

Two Explorers.
Martin Killin and Adelbert Gumaer, the last two members of Vilhjalmur Stefansson's Canadian Arctic Expedition to leave the Arctic, are reported aboard the trading schooner Anna Aiga, which is working its way toward Nome. Killin and Gumaer were not members of Stefansson's original party. They were members of a party Storker Storkerson, Stefansson's lieutenant, led on to an ice-free last year in the hope that the Arctic drifts would carry the ice westward to Siberia. After spending eight months on the ice the men found themselves about fifty miles from their starting point. They all came ashore and Storkerson and one other member headed overland for the outside world. Killin and Gumaer boarded the Olga and started for Nome. Storkerson's trip outlasted his was his first in eleven years. He has been an explorer, trader and trapper along the northern rim of the continent ever since 1908. He expects to associate himself with Stefansson in handling the Canadian Government's proposal to stock the northern tundra plains with reindeer.

Rideout-Hitchcock
A pretty wedding took place at the Baptist church at Grand Falls on Wednesday morning at ten o'clock, when Miss Mary Olivia Hitchcock, daughter of Walker Hitchcock, of Ortonville, was united in marriage to Frank Henry Rideout, youngest son of Mr. and Mrs. Samuel Rideout, of Grand Falls Portage. The ceremony was performed by Rev. W. J. Hurlow, pastor of the Baptist church at Tracy's Mills, Carleton County, and formerly pastor of the Baptist church here, the double ring service being used. While the bridal party entered the church, Miss Helen Hallett played the bridal chorus from Lohengrin. The bride who was given in marriage by her father, looked very charming in a bridal gown of white satin and georgette, with pearl trimmings. She wore a veil and wreath of lilies of the valley,

and carried a beautiful bouquet of white roses and carnations. The bridesmaid was Miss Gladys Northrup, of Cole's Island, who silver lace and carried a bouquet of pink carnations. Little Miss Marion McLaughlin, niece of the groom, was flower girl. She wore white silk with blue trimmings and carried a basket of carnations. Leon P. Ludgate, of Woodstock, a nephew of the groom, acted as groom's man. The ushers were Allan E. Merritt and Ervine Hitchcock, cousins of the bride. After the ceremony, the bridal party and invited guests drove to the home of Mr. and Mrs. Samuel Rideout, where a reception was held. The decorations in the house were pink and white carnations and evergreen. Mr. and Mrs. Rideout left on the C. P. R. express for Wicklow, where they will make their home. The bride's going away dress was of brown tricotine with hat to match and black furs. Many beautiful presents of silver and cut glass were received, and a substantial cheque from the groom's father. The groom's present to the bride was a cabinet phonograph; to the bridesmaid a pearl and amethyst pendant; to the ushers, tie pins and to the organist, Miss Hallett, a pearl and amethyst brooch. Both the young people have many friends in the vicinity who wish them every happiness. The bride attended the high school here, and was afterwards a successful teacher. The groom served overseas with the signallers, returning home last summer. The out of town people here for the wedding were Mrs. Edmund Ludgate and Leon Ludgate, of Woodstock, and Rev. W. J. Hurlow, of Tracy's Mills.

Concerning McLaughlin and Cadillac Motor Cars

When making out 1920 contracts we thought we were making amply provision to take care of the demand for McLaughlin cars this season. But we had no idea then that the farmers in this section of the province would realize the high prices for their produce now prevailing. Neither did we figure on the recent steel and coal strikes which have caused the factory to cut down our allotment just about half. Although the McLaughlin factory will produce more cars this year than ever, on account of the increasing demand which is universal in every Province, County, City and Parish in Canada, we will not be able to obtain more than 25 per cent of the McLaughlin cars we could sell. If you have decided to buy a new car this year, we will be pleased to demonstrate the new models, and take your order, which will be filled in rotation. But do not delay placing your order if you wish to get a McLaughlin car during the spring or early summer months.

What might have proved a serious accident, took place on Tuesday after-

noon when two of our popular young ladies, Miss Cassie Bishop and Miss Mary McPhail, were out tobogganing. In some manner they lost control of their vehicle which carried them over a steep embankment about 15 feet. Both lay buried in the snow for some time, Miss McPhail being the first to regain her composure. She hastened to her companion fearing the worst, but on reaching her, found she was still living and no fractured bones. She gave "first aid" treatment and some time later, they wended their way sorrowfully and painfully homeward leading the remainder of the taxi behind them. They have both fully recovered from the shock.

Has anybody seen anything of my pet cat? She strayed away from the premises on Friday afternoon. Good mottled.

The World's
Greatest Phonograph Value

EDISON'S NEW DIAMOND AMBEROLA

Quick! Read this through and grasp this extraordinary opportunity today! This remarkable offer is the result of Mr. Edison's expressed wish to see a phonograph in every home in Canada.

He has given his consent to this Free Trial of the Amberola in your home. There are absolutely no "strings" to this offer. You do not have to pay or promise to pay one cent in connection with this Free Trial. You are not placed under the slightest obligation.

Come to our store today or tomorrow, pick out your Amberola and a dozen Amberol Records. We will deliver them promptly to your home. Let the Amberola entertain you for

three days—ample time for careful judgment and comparison. At the end of the three days' Free Trial if you do not want the Amberola we will call for it—and thank you for giving the Amberola this trial. If you do want it, we will arrange terms of payment to suit you.

How can Amberola dealers afford to give these Free Trials? Because in the overwhelming majority of these Free Trials, people never want to part with the Amberola! Edison's great inventive brain has made the Amberola so superior to ordinary phonographs and "talking machines" that in those three days of Free Trial it sings its way into peoples' hearts and homes forever!

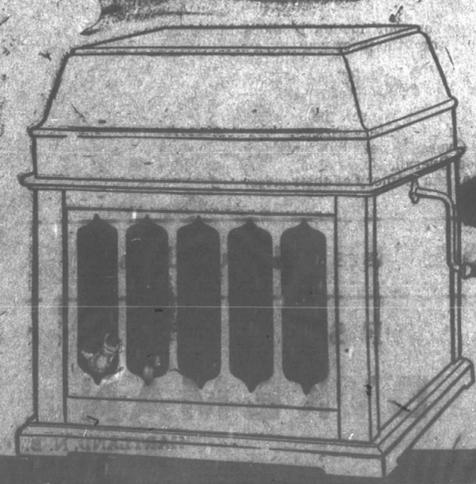

Numbers of people will instantly avail themselves of this Free Trial offer. If you do not act at once we may have to put you on a waiting list. So let us hear from you right away!

HARTLAND, N. B., FEB. 12, 1920

The Storm at Aroostook Junction

A heavy snowstorm which commenced about midnight, with high wind, completely paralyzed railway traffic.

The Presque Isle, freight train left at 2 a. m., when there was about two feet of snow, but up to noon had not reached Presque Isle, and is at present lost somewhere near Caribou.

Train 156, for McAdam, which carries passengers, at 6:30 a. m. was cancelled; also the way freight train for Woodstock.

Train 151, express due at 3:15 p. m. had not left McAdam at noon, and the down express, with a snow plow ahead, was 50 minutes late at Green River, near Edmundston.

This is the heaviest storm this winter, the weather being mostly very cold and fine, and on two occasions has reached 46 degrees below zero, but there being no wind men could pursue their usual outdoor work but on Friday, January 30, a very heavy gale of wind arose with the temperature, 25 degrees below, and heavy snow which was almost unbearable, several railway men having their faces frozen. Train 151, express, from McAdam, stalled a few miles this side of Edmundston, and the train crew were two hours dragging the train through one coach at a time, the cold all the time being intense.

Miss Mary V. McNally was taken to the hospital at Fort Fairfield on February 4 to undergo an operation for appendicitis, and is progressing favorably.

D. S. Boone, C. P. R. car foreman, took his son George Boone, to the Woodstock Hospital on February 4th for the same cause. He was operated on successfully and is doing nicely.

There has been no rainfall since last November, and wells are drying up, and the water situation in this district is serious. Lumbermen in the woods are carrying water four and five miles, and several wells at Aroostook are dry.

Lewis True, of the B. R. T., has just returned from Montreal, where he had been on committee business.

Miss D. Langly is home from Fort Fairfield on a short vacation.

Offer 12.50 for dry Pulp wood and can handle your green too. Special prices to any having large lots as jobbers. Terms 60 per cent spot cash when loaded—balance as soon as returns are received from the mill. Sent to reliable mills who give good returns. Write, wire or phone at once. S. W. Smith.

Ralph Jones, reported ill of typhoid at his home on the Rockland road, died on Tuesday. His disease was latterly diagnosed as spinal meningitis. He leaves his parents, Mr. and Mrs. Wesley Jones, and several brothers and sisters. He was about 18 years of age.

Friends of Dr. Polchez, a respectable and intelligent Indian, who lived at the west end of the bridge for several years will regret to learn of his death at the Reservation below Woodstock. He was a man of considerable talent and his wood carving was remarkable for a man quite illiterate. In his young days he won the championship as a skater at Fredericton.

Last week, Kate, the 12-year-old daughter of Rice Watson of Mount Pleasant, was taken to Fisher Memorial Hospital suffering intensely with appendicitis and the operation was performed at once. A few days later, Miss Velma Henderson, daughter of Armand Henderson of Armand, was taken to the same hospital for treatment of the same disease.

A great deal of matter is crowded out of this issue on account of the crush of advertising—which is "what makes the mare go", and enables the paper to weather the storm of H. C. of L. Arrangements are being attempted for having a great portion of the paper machine-set in a smaller type than that now used, so that one column will contain as much as two in the present type used.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Finkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and a very month would have to stay in bed most of the time. Treatment would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Finkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Finkham's Vegetable Compound has done for me."—NORMAN B. BRANTHAM, 508 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this time-honored, Lydia E. Finkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

expected in town Friday to spend the week-end with his family and Mr. and Mrs. James Tibbitts.

How to Cure Billiousness

Doctors warn against remedies containing powerful drugs and alcohol. "The Extract of Roots, long known as Mother Sigel's Curative Syrup, has no drugs or strong ingredients. It cures indigestion, biliousness and constipation. Can be had at any drug store. Get the genuine. 50c. and \$1.00 Bottles."

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers.

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corn, callus and "hard skin" on bottom of feet, then lift them off. When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

The "HAPPY FARMER" Tractor burns kerosene economically without carbon or smoke, opposition admits that it has a real kerosene motor that will give more power on a given amount of kerosene than any other on the market. The Happy Farmer Tractor turns in its own length, has foot break on each large wheel, has automatic, force-feed oiler, Atwater-Kent Ignition System, and is in every detail designed to go ahead and give Service, real service, under hard conditions. Eighty-eight per cent of the weight of the Happy Farmer is on the rear wheels (imagine the amount of gasoline oil-burners burn pitting the heavy forward end through soft ground). Be careful; do not buy a tractor the same size as would an ordinary small piece of farm machinery. The tractor should be selected after careful study. A VALUABLE INDUSTRY

BALDWIN'S, LIMITED, WILL LOCATE IN CANADA.

None of the Firm is One to Conjure with in the Old Country, Whose They Employ an Army of 14,000 Workers, and a Large Branch Will Shortly Commence Operations in Toronto.

THE real facts in the story of the coming of a branch of the great Baldwins, Limited, the largest steel manufacturers of Great Britain, to the former site of the British Forgings Company, on the reclaimed land of Ashbridge's Bay, Toronto, are far more arresting than the sometimes weird rumors that have been circulating for some weeks past in the press of Canada. Some idea of the immense importance of this industry and what benefits may accrue to Toronto and the country from its foundation there was obtained in an interview with the representatives of this great firm, Roger Beck and J. C. Davies, the managing-director, who are making arrangements for the installation of the industry, the first buildings of which have already been started on the sandy land of the new manufacturing district.

Baldwins, Limited, is a name to conjure with in the Old Country and wherever there is a demand for steel. It has an authorized capital of £7,000,000 sterling, with £5,000,000 called up. Its 13,000 to 14,000 workmen form an army larger than that which established the British Empire in India and other parts of the world. Its ramifications and property extend to every part of the British Isles, where it is entirely self-contained. "We have our own peat, our own coal, which is mined in South Wales, our own iron-ore mines in Oxfordshire, and other foreign countries," said Mr. Beck.

"We have large deposits of silica, out of which heat-resisting bricks and material is made, and so on," said Mr. Davies. This magnificence expressed in terms of products that would be astounding Baldwins turn out 1,000,000 tons of steel ingots, and raise 1,250,000 tons of coal every year. They make ship plates, boiler plates, rails, black and galvanized sheets, and tin plates, which are rolled in their mills. Around the Baldwin plant there spring up a host of complementary and necessary industries, such as coal, bricks, fire-clay, sulphuric acid, tin smelters, and a hundred other firms.

There, in brief outline, is the great firm of Baldwins. The problem of some men of imagination and patience was how to show that it was needed in Canada, a fact the company clearly recognized, and how, especially, to have it located in Toronto. That feat was accomplished principally, Mr. Davies acknowledges, by Mr. Home-Smith and by E. J. Cousins of the Harbor Trust. "If it hadn't been for the determined effort of these two gentlemen," said Mr. Davies, "it would be very doubtful whether we should have embarked on this venture in Toronto. I should like to mention the names of these two gentlemen in particular. I should like to say, too, how well we have been received by the people of Toronto; how all the information possible has been placed before us; and how we have been assisted in every way."

"The whole project was opened up by our firm," said Mr. A. M. Russell, of the firm of Hugh Russell & Sons, Montreal. "We are agents in Canada for Baldwins, Ltd. and for a number of years, we have been advising them to locate out here, or it would be only a matter of time before the business they had established in Canada would be a thing of the past. We suggested that they should acquire the site of the British Forgings plant in Toronto, and establish a tin-plate and sheet industry, and manufacture there, thus recovering the business that was lost to the American manufacturers. Mr. Davies came out to Canada in April, and, in due course, the British Forgings plant was acquired." The final decision, Mr. Davies explained, was reached through two factors; the first, by the efforts of Mr. Cousins and Mr. Home-Smith in the purchase of the property; and the second, through the sympathy of Sir Adam Beck. "Although we have not been able altogether to have Sir Adam meet our desire," said Mr. Beck, "namesake of the Hydro-plant, still in our conference, we have been shown every consideration, and hope for the result."

"The attraction to us as a company to locate in Toronto," said Mr. Davies, "was this: Before the war we did a very considerable business in Canada, and, finding that the whole of this was being captured by the United States, it was natural that we should make an effort to restore it. What we're out for, in a few words, is to meet the needs of the whole of Canada in tin barge plates, lead-coated plates, and galvanized and black sheets. "You can quite see the enormity of this plant, when you consider that the imports of these articles before the war into Canada were 50,000 tons of tin plates and 125,000 tons of black and galvanized sheets. To build that plant, you can see, will take a long time, but by next May we hope to be starting production." The foundations of the three shops, each 800 feet long, have already been begun; and, soon, there will be 3,000 men employed at a start.

"The first unit we have commenced upon," continued Mr. Davies, "will require 100,000 tons of steel per annum. Another industry that we find that Canada is lacking in is heavy steel castings. As we are very desirous that these heavy castings, which we shall require for the plant, we are already contemplating putting down, we are making arrangements to operate some of the electric steel furnaces to make these castings; otherwise we should have to go to the United States or to the Old Country for them."

Applied After Shaving

Keeps the Skin Soft and Smooth

LOCAL AND PERSONAL ITEMS

Our first storm in February proved a very severe one and our usual Saturday night clamor and bustle were altogether lacking. The impassable roads for Sunday materially reduced the numbers attending the several services in town, but with the advent of Monday the road commissioner with a few ruddy cheeked aids, soon made them better than before. Our rain, long hoped for, is still deferred and many long faces are pulled when the owners thereof are obliged to melt snow to obtain the necessary. What a great opportunity is afforded the shirker who is averse to frequent baths.

The dance pulled off here in the Opera House on Wednesday evening by the younger bloods was a most successful and pleasant function. Knowles' orchestra from Fort Fairfield had been retained for the occasion and furnished the sort of music "that has charms to soothe the savage breast." During an intermission the committee in charge furnished a most delightful light lunch.

Plans are now on foot for an elaborate "At Home" to be given by the members of the Masonic fraternity in the near future. This will include their comports whether it be their best or worst halves. The affair will be staged at Centreville and for which the date hasn't been definitely chosen.

Miss Laura Burpee was called to Avondale last week on account of the illness of her father, Geo. F. Burpee. Friends of Mr. Burpee will regret to hear of his serious illness and join in wishing him an early and speedy convalescence.

Mrs. E. L. West returned on Tuesday from Presque Isle where she had been spending a fortnight.

Mrs. S. W. Burt and Mrs. M. A. Burt spent a couple of days last week visiting Mr. and Mrs. Wilmot Burt at their home in Jacksontown.

George Wilkinson of Minto spent Saturday and Sunday with his family here.

Mrs. L. L. Clark is visiting her sister, Mrs. F. D. Tweedie, at Woodstock.

Mrs. J. C. Stevens entertained the members of the "Merry Widow Club" most pleasantly on Thursday evening at her home here, while their husbands were indulging their gregarious instincts at their Lodge home at East Florenceville.

Mr. Thurrott of Windsor Hall, Fredericton, spent Wednesday and Thursday in town on business.

S. W. Niles left on Thursday for New York with a consignment of high priced spuds, for a local dealer.

James DeLong and Miss Georgia DeLong of Brookville were guests of Mr. and Mrs. Norris DeLong on Tuesday.

Probably the oldest resident of the county died at the home of her son, Ludlow B. Clark, at Centreville, on Saturday, in the person of Mrs. James Clark, in the 100th year of her age. A very complete sketch of her long life is received too late for insertion this week.

Friends of George F. Burpee of Avondale will regret to hear that he has been seriously ill at his home.

MUCH SUFFERING DUE TO THIN BLOOD

Rich Red Blood Necessary to
Health and Strength

If more people knew how many ills and pains are caused by thin, watery blood a great deal of suffering would be avoided. Men and women often suffer for long periods from stomach trouble, headache, palpitation of the heart, and nervous complaints such as neuralgia, without suspecting that anaemia or bloodlessness is the cause.

The blood goes to practically every part of the body, carrying oxygen and nourishment. The efficient action of every organ is directly dependent upon the quality of the nourishment it gets from the blood. If the blood is thin it becomes weak in nourishment and health fails. The best

way to keep the blood rich and red and thus enjoy good health is through the use of Dr. Williams' Pink Pills. At the first sign of weakness these pills should be taken and good robust health will soon follow. The statement of Mrs. J. J. Murray, Corbetton, Ont., shows the value of Dr. Williams' Pink Pills in cases of this kind. She says: "A few years ago my daughter, Lillie, was in a very badly run down condition. She was pale, thin and scarcely able to go about. The least exertion made her heart palpitate so violently that we were actually afraid one of these spells might carry her off. She slept so badly that often she would lay awake until morning. Treatment did not seem to help her and we were almost in despair when a friend advised the use of Dr. Williams' Pink Pills. A few weeks use of this medicine showed a decided improvement, and a further use of the pills fully restored her to

health, and she has since been a strong healthy girl. Sometime later I was taken ill myself, being badly run-down from household care. A doctor was called in but his medicine did not seem to bring back my strength, and remembering what Dr. Williams' Pink Pills had done for my daughter, I decided to drop the doctor's medicine and try them. The results that followed were like those in my daughter's case, and through the use of the pills I was soon a well woman. I am glad to give my experience in the hope that some other sufferer may find the way to health.

You can procure Dr. Williams' Pink Pills through any dealer in medicine, or they will be sent to you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to the Dr. Williams' Medicine Co., Brookville Ont.
