

Chignecto Post.

SACKVILLE, N. B., AUG. 24, 1876.

Mr. Brydges' Visit.

After a tornado out west has swept over the country leaving a pathway of destruction, the people venture forth to gaze with mournful interest on the ruins. In like manner, his High Mightiness Moloch Brydges having made one of his periodical tours through the Maritime Provinces, it is fitting that the people should now venture to mark his course and count the damage done. In this estimate it is unnecessary to take notice of such items as Brydges' Palace Car, Brush, defecation, or a smash up or two in his High Mightiness' career, and a man or two killed, because such things are mere units in the thousands that this man Brydges has cost the country. Why should a paltry \$20,000 Car be made a bone of contention by the press, when interests involving millions are being sacrificed and ruined? Why should a little \$16,000 robbery be allowed to divert the public mind, from a more high-handed and whole-sale robbery of their rights? Why should the press waver over such insignificant matters, when infinitely weightier ones involving the prosperity of the Maritime Provinces demand the earnest consideration of the public?

Mr. Brydges has been specifying to the business men of St. John and Halifax, and has been endeavoring to flatter both places with the idea, that by means of the I. C. R. they were destined to receive the impetus of a great trade, that would at once promote their growth and development. It was a pity that when Mr. Brydges had finished informing the people of St. John and Halifax of the wonderful prosperity the I. C. R. was to pour into their laps, that one independent man was not found to show the falseness of Mr. Brydges' statements, and willingness of his determination to mislead. Has his policy been to build up St. John and Halifax trade? Has not his through rate tariff opened up all our local markets to the manufacturers of Hamilton and Ottawa, and the importers of Toronto and Montreal? Have not the bunnies from the Upper Cities been able to beat St. John and Halifax merchants out of every town and village in the Maritime Provinces, simply because of nominal through rates on I. C. R. With our country stores filled by Mr. Brydges' connivance with wares from Ontario, how dare Mr. Brydges claim to be solicitous for the prosperity of St. John and Halifax? After doing his best to destroy the trade of these places, he next turns about and insults them by professions that he has their interests at heart!

Low rates would not be a matter of complaint, if they were made general, but when partiality is exhibited; when it is shown that the I. C. R. is run in the interests of the traders of Ontario; when our own people are discriminated against, it is time they woke up and shook themselves clear of this incubus. Some days ago, a St. John merchant ordered a car load of goods from Toronto, per I. C. R. After ordering, being pressed for time, he enquired and found he could obtain them at Halifax, but imagine his surprise, when he learned the I. C. R. freight on them from Halifax to St. John was actually fifty per cent. above that from Toronto to Halifax! Thus does Mr. Brydges sever the connection between all our local centres of trade, and Montreal prospects at the expense of our own cities.

Mr. Brydges however did not refer to the country trade that is lost to St. John and Halifax as one of the influences that is to build them up and increase their prosperity. They were to be the great depots of Western Canada for the shipment of grain! He did not think the want of elevators would prevent the shipment of grain from Halifax, but he apprehended (!) a greater difficulty, viz.: Halifax was the most distant port from the producing centres. He mentioned that Baltimore and Philadelphia were nearer the Western States, and Portland 545 miles nearer Montreal than Halifax, and yet he got same men in Halifax to listen to his landing the "advantageous position of Halifax" as a grain-shipping port! Carriage by water is cheaper than by land, and except in some strange and abnormal condition of things, grain cannot be carried 545 miles extra by Railway for the purpose of delivering it at Halifax instead of Portland. Grain will find its shortest and cheapest outlet, and it is safe to say that place is neither St. John nor Halifax. Mr. Brydges knows he cannot divert the grain trade from its national channels. The Montreal Witness a staunch Government paper said the other day:

"If grain of any kind can be shipped from Ontario to Europe by way of St. John and Halifax, there must be some wild rates of freight going on the Grand Trunk and Intercolonial Railway." Mr. Brydges claims that other railways give through rates, and the same anomalies between local and through tariffs exist with them. Granted. But they are not Government Railways, and the difference between Company and Government Railways is this: the former are run for the benefit of the stockholders, the latter for the benefit of the people—the whole people. The principle on which Company railways are run is this: where competition exists, they reduce the rates to gain the trade,

where no competition exists they make the most out of their traffic. Such a principle in connection with I. C. R. is manifestly unfair. It was built by the people, with the people's money, with the intention of being run in the interest of the whole people. To run it in the interest of a section, to make it the means of oppression, to levy unreasonable exactions and to make it peculiarly burdensome to the people of the Maritime Provinces while the Upper Province people use it at absurdly low and "wild rates," is a wrong that our people will not long tolerate.

Acceptance of the Law.

As previously noted in our columns the Catholic districts in this County have decided to elect the benefits of our School system, reserving to themselves the right to fight out their battles by other methods. This is decidedly a move in the right direction, and we trust that no effort will be spared by the Board of Education to render the law as acceptable as possible and to extend all the aid possible to the poorer districts.

There are thirty French districts in this County. Of these eleven have taken preliminary steps to secure schools, voted money etc. Others have requested the Inspector to call meetings. The prospect seems good that the whole French population of this County will next year be enjoying the benefits of the School Act.

The following is a list of the districts that have taken decided action since May last.

No. 15, Dorchester Union Free Stone Quarries.

No. 17, Dorchester, Bellevue.

No. 19, Dorchester, Dover Road.

No. 3, Moncton, Fox Creek.

No. 4, Moncton, Chertiers.

No. 8, Shediac, Dupuis' Corner.

No. —, Shediac, Aboussagane.

No. 20, Botsford, Cape Bald Chapel.

No. 17, Botsford Portage.

No. 21, Botsford Chapel.

The St. John Globe, is we are afraid degenerating from its bold and independent stand, into a "runner" for Mr. McKenzie's Government. Its latest effort to magnify its employers (shall we say?), is to claim Hon. Mr. Pope's defeat in the late Election in P. E. Island as a triumph for Minister Laird, and of course slues the popularity of the Government in the tight little Island. Can the Globe be ignorant of the fact that the man who with Mr. Davies struck down Messrs. Pope and Brecken, viz: Mr. DeBlois is an out and out supporter of Sir John A. MacDonald? If the Globe can derive comfort from his election it is of a decidedly sanguine temperament.

The Globe thinks that the late Election is "ample proof of the soundness of the position long maintained by that journal," that "this question should be lifted out of the arena of party politics," etc. The Globe's ideas on this school matter are more vapory and misty than ever, which is saying much, for it has never advanced any practical idea tending to solve this troublesome question.

Baptist Convention.

The convention commences its sittings on 26th inst., at 10 a. m., at the Second Baptist Church (Bethel). The list of Delegates and their residences here will be found on our fourth page.

The proceedings of the Convention will be watched with much interest, as it decides the question whether Acadia College will affiliate with the University at Halifax. The Messenger favors the idea, and also Mr. King, President of the Alumni Association. The Visitor is opposed to it; also the venerable and Rev. Dr. Cramp, and some other of the Professors of Acadia, while some of them take a different view.

The following is a supplementary list of appointments:

Prof. Higgins, at Prof. Inch's.

Mr. Triggs, Esq., and wife at Alex. Fleming's, M. D.

Rev. Jas. Spencer, A. D. W. Barnes, M. D., at Mr. Bedford Barnes's.

Canadian Beef in London.

The London correspondent of the Toronto Globe calls attention to the prices obtained for the first consignment of Canadian cattle that reached the great Metropolitan market at Camden Town. They "realized an average of 6s 2d sterling per stone of 14 lbs. to sink the offal, or the same prices as the best Aberdeen beef in the market." The first appearance of these "interesting strangers," we are told created quite an excitement in the market.

The London Times, in its market article, alluding to the Canadian cattle sale, remarks:

"The most noticeable feature of our trade to-day has been the arrival of about 100 Canadian oxen, which, after a sea transit of 15 days, have come to hand in excellent condition. As a natural consequence, the 'new arrival' commanded much attention, and from their condition and quality, found ready buyers at about 5s 10d per stone. The consignors were Messrs. Barbour and Co., of London, consigned to James Hall & Son, and sold here by Messrs. Bisset & Son and Thomas Barrell. Their average weight, about 115 stones, both buyers and sellers, their quality was highly commendable. Future consignments will follow."

The quarantine regulations are said to be very vexatious. On the vessel reaches port, she is subject to twelve hours delay.

The Liverpool Post urges very strongly the propriety of removing Canadian cattle from the foreign category. There is some selfishness at the bottom of the restraints upon the trade, and British cattle breeders are not sorry to see quarantine rules rigorously enforced. But the Government has a deep interest in consulting the wants of the great body of the people, to whom the price of meat is a first consideration, and representations made by the Canadian Government will doubtless receive due attention. At Liverpool, too, lairage and better landing accommodation are much wanted, but these appliances so enterprising a municipality is not likely to be long in supplying.

Meanwhile Canadian cattle breeders and feeders should be especially careful not to allow their reputation to be injured by any lack of diligence on their part in keeping up the quality of the article they export. A prejudice is soon created, especially in regard to meat, and it is most encouraging to know that the first impressions have been so favourable.

"A LITTLE UNPLEASANTNESS."—Rumor is rife with a coolness that is said to exist between the Minister of Marine and the Napoleon of Railways. It is said to have originated out of Mr. Brydges' completely ignoring Mr. Smith's candidature for the Cashiership. Rumor also says that last week Mr. Smith and Mr. Brydges went to St. John together in the same train; Mr. Smith riding in a Pullman Car and Mr. Brydges riding alone in his Palace Car. Whether Mr. Brydges did not invite Mr. Smith into his car or whether the latter declined the honor, is not known. Rumor also says that the Hon. Minister has determined that either Mr. Brydges or himself shall "step down and out."

The Elections in P. E. Island have resulted with just about the majority for the unsectarian School Party, that is gratifying that this question has been fairly brought out and determined at the polls, and we hope ended. Hon. Mr. Pope's fate seems a hard one, but he is not the first politician who has come to grief by attempting to "run Protestants and Catholics together in a free school term."

POLITICAL.—The Local Government intends to cut with spirit. It refused to appoint Messrs. Jones and Leighton's nominees in Carleton County. The Government at their last session maintained their reputation stand on the Kent Railway subsidy matter. The News which was supposed to have rebelled against this decision accepts it meekly.

The Female Ixikitive.

To the Editor of the Post.

Sir:—You'll be pleased to hear better accounts from Mr. Brydges the railroad official. The females are working a grate reformation in him, bless their dear souls. Yell recollect under the dispensation of Messrs. McKenzie & Co., he set at naught the powers at Ottawa—didn't himself a palace car, shipped it on the railroad, schnappi his finger in the face of the bist iv'im, bid livery owl whither express, special or working train, to have the track win he came 'round. Then he made a tart for to please himself at the Grand Trunk and sit Messrs. McKenzie & Co. a tarin' mad because he wouldn't do as he was told after he had got the \$8,000 a year. He told the Govt. as much, as he would do as he pleased, 'n' they might ride in a second class if they pleased; but thin to clear the track win he was round in the grate vialake, on a fishing or a coorting expedition.

But Mr. Brydges is repenting in his evil days. I like to say it—'tis repenting, 'n' ye have the widdy to thank for it. I mane the widdy an' her ixikitive. They'll reinstate the moral intelligence in Mr. Brydges—train him down to an equality wid the Govt. in the country, save the Intercolonial from immediate an' sure destruction.

It was Pat Ragan iv York Point was tillin' me the plizin' intelligence in his reformation. Ye recollect Pat's in favor wid the widdy 'n' the grate widdys around the shore and York Point. Siz Pat, siz he to meself. Do ye mind the money they spat for a dape wather terminus, and which afterwards slid into the sea, before the widdy took her iv'm. Mr. Brydges, in favor wid the widdy, and there was a dale iv money wasted for ye, Mr. McKenzie for a hid. Thru for ye, siz Pat, and Mr. McKenzie is about to redame the wrong, as his conscience divvelops itself, by paying \$40,000 for a way thro' the North Shore district, by Courtney Bay to a dape wather terminus beyond the barracks; this is a grate reformation intirely, ye pervague, for until the female widdys took the matter up, he told Mr. McKenzie he'd never pay \$20,000 for the road, and the money they had spent might go to the d—!

Murther, but it's a grate invitation—the female ixikitive!—but do you think they will keep him to it? siz I. Faith they will, so long as the widdy has howl iv him. He's never allowed iv any Scotchman or other countryman in America ixcept just families and it's him that taches him to kape a dale conscience, and I'd never be murthered. But I must say that Mr. Smith would get lave, before long, to take a sate in the vialake along wid himself. Ye pervague the widdys along the back shore are very plizin' and agreeable, and always are willing to give a point for the sake of peace, while the money is in it.

Till me, siz I, sure there must be a dale iv female population there, and barring the ixikitive. Oh, in course there's a power iv thin engaged in ixikitive explorations, and Brydges intinds grate covenance by great covenance and to do the business on commercial principles intirely. Do you mane to say he intinds to run the females on commercial principles? siz I. Sure, it was the road I was speaking about, siz Pat, 'n' while it's mane iv female, I'll mane a quid pro quo wid every article (I dare say that that is Dutch but you'll know what I mane). Sure the intirely iv the females iv the back shore would make protection a dale iv nothin' to it, to git him to hold onto the Intercolonial road, while the Grits are once sint about their business at the bid iv their term. He must kape friends wid the Grand Trunk, even at the ixpine iv his reputation befre thin, or the vialake will be gone from under him.

Yur Obadent Sarvant,
MICK FINNEN.

THE County Court Judges of Nova Scotia, whose appointments are expected in the Saturday's Gazette, in district No. 5 (Cumberland and Pictou) the following are the terms: Pictou—Second Tuesday of January and first Tuesday of August.

New Glasgow—Second Tuesday of February and fourth Tuesday of August.

Amherst—Second Tuesday of March and second Tuesday of September.

Presat—First Tuesday of November.

An order in Council has been passed, appointing the following gentlemen judges of the new County Courts in Nova Scotia: James Johnson, M. B. DeBussy, A. W. Savary, Geo. A. Blanchard, W. B. P. Morse, Stewart Campbell, and B. E. Tremaine.

Two vacancies are made by these appointments. Victoria Co. for the Clerk of the Peace, and Lunenburg the Assembly. The two governments are pretty sure of carrying both seats or they would not have opened these constituencies.

Dr. J. R. McLEAN has arrived, and may be consulted professionally at his office, as advertised. The following from a paper in the town which he resides is a high tribute to his skill:—

"Blind Reuben, the colored drayman is blind no more. Through the exquisite skill of Dr. McLean, the eye and ear surgeon, Reuben will entirely regain his eye-sight and be able once more to resume his old occupation. As a consequence Reuben is the happiest man in the county and everywhere rejoices in his good fortune. Dr. McLean is certainly entitled to great credit for his skillful success, and we doubt not Reuben will always regard him as his greatest benefactor."

AMASA KILLAM, Esq., has purchased Mr. MacDonald's interest in and become sole contractor of the Albert Railway.

THE Westmorland Cheese Factory will make about 15 tons of cheese this season. Over 350 cheeses are now in their drying rooms.

DROWNED.—Yesterday morning at St. John while going on board the ship "Empress of India," a young man named Florence McCarthy.

A young man named McKenna, died at Bathurst on Wednesday last, from drinking at and dipping his head in a brook while overhauled.

DR. ANDERSON, DENTIST, has returned, and can be seen at home for two weeks. He expects to visit Bala Verre again about the 5th of September.—2in

TEMPERANCE.—Mr. Carwell lectured last evening to a full house at Lingley Hall. The lecture was argumentative, pathetic and humorous, abounding in passages of eloquence, and altogether was very effective.

DEAL TRADE.—The Brig "Hattie," Dow, master, sailed from here for Queenstown on 15th inst. with 130 standard deals, by Messrs. Morice & Chase.—The Brig "Riberia," Barnes, master, cleared on 17th for Queenstown, loaded with 140 standard deals by Morice & Chase.

THE N. B. Rifle Matches commenced at Sussex on Tuesday. Kings, St. John, York, Carleton, Northumberland and Charlotte, are represented. The association Silver Cup was won by Corp. Longstroth, and the second prize, \$15 by Lieut. Hart.

ST. JOHN COUNTRY MARKET.—On Tuesday, beef was 7 cents per lb.; Veal, 4 to 8 cents; lamb, 7 to 11 cents; pork, 6 to 7 cents; butter, in firkins, 19 to 21 cents per lb.; butter, roll, 21 to 23 cents per lb.; cheese, 11 to 13 cents; eggs, per dozen, 17 to 18 cents; new potatoes, 40 to 60 cents per bushel.

A HAPPY EVENT took place last week at Hopewell and is chronicled in that part of our columns which is set apart to the ladies. Mr. Turner has done well. He has now established his right to claim the confidence of his fellow electors. Where is Dr. Lewis?

THE remains of Capt. Wm. Parker, of Annapolis, were found in the river near the town on Tuesday. A piece of chain weighing 50 pounds was wound round his body. His pockets were full of stones, and a rope was tied round his waist. The coroner's jury returned a verdict of suicide by drowning.

THE THIEF nature of Sackville audiences was severely, if not justly criticised by Mr. Carwell last evening, when he remarked casually that his free house was so much larger than his ten cent amusement one. Too many people here are ready to flock to free entertainments, but if at the thousandth there happens to be a few cents to pay, the state of their minds is shown by a beggarly account of empty benches.

THE CATCH of shad caught in our Bay this summer is very small—smaller than for years. The Windsor Mail in remarking on the failure in the shad catch in the Basin of Minas, states that the young shad caught in weirs in August are carted on the land, and recommends that weirs and seines be filled with netting to allow the young shad to escape. If we mistake not, the law already makes provision in this respect, but we do not know whether it is enforced or not.

Our shad fisheries have in the past been an important item in our industry, and the present scarcity of them in our waters is well worthy of enquiry in order that proper means may be taken to prevent their destruction and to improve if possible the stock.

The Turf.

"KING WILLIAM" BEATS "DOM PEDRO."—THE GREATEST TIME YET!—INTENSE EXCITEMENT.

Spotting matters which of late have been dull, received an impulse on Tuesday morning last, when the rumor became current in sporting circles that a match was on between two of our Sackville "flyers," to-wit b. g. "Dom Pedro" owned by J. Hamille Brockie, Esq., the popular manager of the Anglo-Am. Co., and b. g. "King William" owned by David Dickson, Esq., the enterprising Merchant. After dinner groups might be seen discussing the merits of the horses and the probabilities of the contest. No pool selling took place openly. Bets to a large amount more or less were made. A thrill of excitement ran through the excited crowd when at 5.30 p. m., Mr. Dickson driving the "King," and accompanied by Mr. Boral, C. E., Judge and Mr. Dickson, Barrister final stakeholder drove out from the stables of Mr. D., and a few seconds later as Mr. Prescott driving the "Dom Pedro" accompanied by Mr. Rennie, the manager of the W. U. T. Co., Distance Judge, moved to make the track chosen, the excitement of the crowd developed into cheers! No time was lost in bringing the "Dom Pedro" and "King" to the word "go" was given and a good "send off" made, "Dom" leading to the end of the first quarter. The second quarter was sharply contested each horse alternately taking the lead. On the third quarter the horses came in view from behind the Hotel de Gilles, "King" was leading by a neck. It then became evident to the initiated that the superior training of the "King" must win him the race, and he gradually widened the distance from the "Dom" at the end of the third quarter. He came in under the wire four lengths ahead amid the cheers of the multitude. No official time was taken, which is deeply regretted. Stakes—one bushel of oats.

A HORRIBLE story of crime committed on the high seas has come to light. An American sea captain named J. S. Grindle has been accused of perpetrating a series of most brutal outrages on the persons of several of his crew, in three instances murdering the men he assaulted. He sailed on March 1st from Liverpool for Coimbo, with a crew of 21 men, 11 of whom were "green" hands. After they had been out a few days, the captain, two mates and boatswain began the outrages complained of. Two sailors were beaten to death and their bodies thrown overboard, while another was strangled to death and his body thrown into the sea. The captain, two mates and boatswain were also accused of murdering the men he assaulted. He came in under the wire four lengths ahead amid the cheers of the multitude. No official time was taken, which is deeply regretted. Stakes—one bushel of oats.

LAST week Miss Chapman, of Brooklyn, Hants Co., took poison, and died in a short time. He called in a doctor, and told what he had done, and settled some business before he expired. He had kept a diary for months, in which he accused his wife of unfaithfulness, and contemplated suicide from that cause only.

JOHN LAURANCE was drowned on the 7th, while bathing in Five Mile River, Hants Co.

THE GREAT BROOKSHIRE REMEDY is an Indian vegetable compound, composed of a variety of remarkable medicinal plants and herbs; the various properties of these different ingredients, when combined, are so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys, Digestive Organs, Nervous System, &c., restoring their functions to healthy action, and being purely vegetable, is as harmless as Nature's own beverage. This medicine is a decided tonic in all, and a permanent cure in a large majority of diseases of the blood, such as Scrophula, Erysipelas, Salt Rheum, Cancer, Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands in marked and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to-day as popular as ever. As a permanent restorative it stands unrivalled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to bilious Colic, Dysentery, Indigestion, &c., should take the "Brookshire Remedy." Price 25 cents a box. For sale at the Sackville Drug Store.

If you have Dyspepsia, Headache, Diarrhoea, Constipation, Piles, Oppression after Eating, Sour Stomach, or any Indigestion or Biliousness, if you do not thank us after using "Brookshire's" Purgative Lozenges, we will forfeit the price of the box. Sold at 1 Tremont Temple Boston, and everywhere.

We should not hesitate to recommend to any friend of ours, "Brookshire's" Purgative Lozenges, as they are scientifically prepared, and are adapted to all the purposes of a good purgative medicine.

The East.

LONDON, Aug. 22.

A Router telegram from Semlin says 40,000 Turks, Kerim commanding, met the Servians between Suprat and Alexinatz on Sunday. The battle lasted during Sunday and was renewed on Monday. The result is unknown, but conceded that if the Turks were victorious, Kerim Pasha would have the highway open to Belgrade. General Tchernyshev has 79,000 men, but Kerim Pasha's already large army has been reinforced by 40,000 men.

The Turkish official despatch from Missa reports that the Ottoman forces defeated the Servians at Alexinatz, and occupied their positions, adding that the Servian losses were considerable.

A Vienna special asserts that the Prince Milan, in spite of the exertions of the war party to the contrary, is personally inclined to apply for mediation.

Mr. Disraeli has issued his farewell address to the electors of Buckinghamshire, by whom he has been returned to the House of Commons continuously since 1847.

PUGHASH ITEMS, Aug. 21.—A meeting of the Amherst Rural Deaneary was held here on Wednesday, 16th inst. Divine Service was held in St. George's Church on the evening of the 15th and morning and evening of the 16th. The clergy present were the Rural Dean, Canon Townshend, the Revs. D. C. Moore, J. A. Kaulback, F. J. H. Axford, E. A. Ball, R. J. Unisack, and — Dowling.—The ladies of St. George's Church intend holding a tea-meeting also fancy and refreshment table on 20th September next.

LONDON, Aug. 18.—The correspondent of the Daily News writes from Philadelphia, on the 10th inst., that three thousand men, women and children were killed by the Turks. At Otukuk, children were carried about on litters, and human beings burned alive; and one thousand persons were killed at Bazarjik. A bagful of human heads was emptied before the house of the Italian Consul, at Janbuli, and left there to be eaten by dogs.

LOSS OF APPETITE IN HORSES.—Horses lose their appetite from various causes, but most frequently by the approach of disease. This circumstance ought to be overlooked by those who own horses, but should be immediately attended to as by so doing the disease may be checked, and the life of the horse saved. To do which we are positive there is nothing equal to Darley's Condition Powders and Arabian Horse Remedy; it purifies the blood, corrects all derangements of the digestive organs, and as a necessary consequence the appetite is restored, the skin becomes soft, and the coat assumes a soft and shining appearance. Remember the name, and see that the signature of Hard & Co. is on each package. Northrop & Layman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Is health worth having? If it is protect it—it is a jewel as easily lost as virtue, and in many cases as difficult to recover. In this climate, and more particularly at the season of the year, people are very apt to take cold and suffer from sore throat, coughs, spitting of blood and pulmonary complaints generally, which if not checked immediately lead to serious consequences. The question arises—Which is the quickest and most effective remedy? Bryan's Pulmonic Wafers have been before the public for twenty years, and have always given perfect satisfaction, and invariably effect permanent cures when taken in season. Sold by all medicine dealers and country stores generally throughout the Province, at 25cts per box.

THE WAKEFIELD EAST CLOSET, the advertisement of which will be found in another column, is without doubt, the most ingeniously constructed contrivance for the most of Dry Goods yet offered to the public. Every family in the land should have an East Closet. Besides the comfort and convenience which they afford, they are a continual source of profit to every cultivator of the soil. It is impossible to describe here the peculiarities of the above closet, but to every one interested in the subject, the perusal of their elegantly illustrated pamphlet, on application. Be sure and write to them.—The Wakefield Journal.

Decomposition the best remedy that has ever been discovered for rheumatism, swollen or stiff joints, flesh wounds, sprains, bruises, cuts and burns, is Johnson's Anodyne Liniment. We use it and always recommend it to our friends.

READ THIS TWICE.—Five to thirty drops

of THOMAS' ELECTRIC OIL cures common sore throat. In severe cases it cures in five to ten minutes. It cures in twenty-four to forty-eight hours. One bottle has cured Bronchitis of eight years standing; recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application in all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lame Back or Crick in the Back. For diseases of the Spine and Contractions of the Muscles it is unequalled. In Rheumatic or any other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and altogether the best and cheapest medicine ever offered to the people—the cheapest, because it takes so little to do you good. It is composed of six of the best oils known, and nothing but oils. It is worth its weight in gold. Why not try it to-day?—A. B. Des Roches, Assistant Postmaster, Amherst, Sackville, P. Q., writes:—Thirteen years ago I was seized by a severe attack of rheumatism in the head, from which I have never been constantly suffered. After having used "Thomas' Electric Oil" for nine days, bathing the forehead, I have been completely cured, and have only used half a bottle. This I can certify under oath if you wish.—Rev. J. Malloy, of Wyoming, N. Y., writes:—I used Thomas' Electric Oil cured me of Bronchitis in one week. Dealers all over the country say, "We have never sold a medicine that has given such complete satisfaction as this." Sold by all medicine dealers. Price, 25 cents.

Electric—Selected and Electrified. For sale at the Sackville Drug Store.

Harrison's Painless Lozenges, a positive cure for Constipation, Dyspepsia, Piles, Oppression after eating, Headache, Diarrhoea, or any Indigestion or Biliousness. This preparation differs from the usual remedies for these complaints, not only in form, but in their operation and effect, in that they are a mild, laxative, and tonic, and never weaken the stomach like all other purgatives. Agreeable to the palate, cause no pain, prompt in operation, and never weaken the stomach like all other purgatives. Travellers find the Lozenges the most convenient remedy to have by them, as they are so compact and inodorous that they may be carried in the vest pocket. For sale at the Sackville Drug Store.
