LESS THAN HALF SUBSCRIBED

Must Get a Move on If Restigouche Will Reach Half Million.

While more than half the time for the Victory Loan drive is passed, the amount subscribed for up to last evening was only \$210,700 or less than half the quota set for Restigouche. Unless things are speeded up during the remainder of the drive there is little hope of Restigouche winning the German field gun.

However, do not be down hearted. Restigouche has always a way of her own of coming in successful on the home stretch.

The subscriptions from each district so far are as follows:

Town of Campbellton	\$172,400
Parish of Durham	9,000
Parish of Colbourne	9,100
Parish of Addington	450
Town of Dalhousie	19,500
Total	\$210,700

BRIAND TELLS DIFFERENT STORY

Says He Did Not Beat Foreigner Only Struck Him One Blow.

Briand the Douglastown, P. Q. resident who was shot four times by a foreigner, a storekeeper, at Douglastown was discharged from the Hotel Dieu hospital Tuesday and to a Graphic reporter related the particulars of what led up to the shooting as published in the Graphic last week.

Briand said that he went into the store to buy a heavy mackinaw coat. He looked at one and asked the price and was told \$18.75. He said he would not pay that price, that the storekeeper was robbing the poor fishermen by asking such a price.

The storekeeper took offence at being called a robber, and ordered Briand out and he said he would go. The foreigner followed him towards the door and Briand fearing an attack wheeled around and gave him a back-handed blow in the face, knocking him sitting down on the floor. He did not offer to hit or kick him, but started towards the door when he heard a shot, quickly followed by four others. The first two hit him in the right and left shoulders, the next hit him on the side of the head, while just as he was running out the door the fourth hit him on the arm, breaking it. When the fifth shot came he was well outside.

The man who did the shooting has been arrested and awaits trial.

top of Fairview Mountain, that the baby's name was Frances Virginia, and that the mother some day would call for the child.

DIVIDE PROVINCE INTO AREAS

Chief Inspector Wilson Suggests Appointments of Assistant Chiefs.

In order to do away with a great deal of overlapping in the administration of the prohibition act in the province and to make the act more easily and more satisfactorily carried out, Rev. W. D. Wilson, chief inspector, has suggested to the provincial government that the province be divided into sub-districts, each under an assistant chief inspector who would be directly responsible to the chief inspector. Each of these assistants would look after the various inspectors in his own district, allotting to each the area in which he would function and generally supervising the work.

At the present time all the inspectors, even in the most outlying and inaccessible districts, are directly responsible to the chief and he is called upon at times to visit these places when necessary demands. The new plan suggested is intended to have the assistants carry out this work, except where the presence of the chief inspector is desirable.

USE OF THE NAVAL FLAG.

An order under date of Oct. 2nd has been issued by the Lords of the Admiralty, London, prohibiting the use of the White Ensign or Naval Flag by any private person either ashore or afloat, and that this flag shall be flown only by His Majesty's ships, naval establishments or naval barracks; therefore any one now flying this flag does so unlawfully and is liable to a penalty, as it is and has always been a naval flag only. The Union Jack, of course, can always be used by any person ashore, but cannot be flown by any vessel except His Majesty's ships.

YOUNG-ADAMS CO. COMING

Will Play Here Next Week commencing Monday—Warmly Welcomed.

Coming to Campbellton for three nights, commencing Monday, Nov. 10th, with a change of programme each night, the H. Wilmet Young & Marjorie Adams Co., with a strong company of players will produce with correct scenic equipment three of the latest and best New York City successes.

It has been sometime since this favorite company has appeared here, and many pleasant memories linger in our theatre going public minds of the excellent performances that Young & Adams were wont to produce.

This season bigger, better than ever their repertoire consists of "Secret Service," a splendid romantic drama of the present day, with plenty of exciting climaxes and thrills, "A Butterfly on the Wheel," a society drama dealing with the Eternal Triangle. "All of a Sudden Peggy" and you will all love "Peggy" with the merry comedy that enthralls. Miss Adams is the title part. Every production is correctly staged and costumed and High Class Vaudeville between the acts, changes each night are features.

Young & Adams will be here for three nights only, commencing, Monday, Nov. 10th, and this opportunity should not be missed for it will be a treat.

MILK SCARCE IN CAMPBELLTON

Children Actually Suffering for Want of This Necessary Food.

Whether the unusual dry spell has anything to do with this matter, there is certainly a great shortage of milk in Campbellton at the present time. Something should be done to relieve the situation. It does not seem right that the well-to-do can buy all the cream they want, that ice cream is being sold in abundance, but citizens, particularly young children cannot get a sufficient supply of milk even though they are willing to pay the price, 14 cents per quart for same.

We do not know what steps are necessary to correct this matter, but something should be done at once.

MUST PAY FOR SINKING INTERMED FLUET.

According to a Paris despatch, The Supreme Council has decided to force Germany to sign a protocol guaranteeing she will carry out the terms of the armistice. This will be attached to the original treaty as soon as it can be executed. The council also asked inter-Alleed naval experts to prepare a plan by which Germany shall reimburse the Allies for sinking the intermed German fleet at Scapa Flow.

BANK SAVINGS \$150 PER HEAD

Canada in Position to Lend Four Times More Than Victory Loan Objective.

The success of the Victory Loan should be overwhelming. With savings bank deposits, amounting to \$30,000,000 and the co-operation of depositors and bankers Victory Loan workers have good material upon which to work.

The figures are taken from the official statement of the Canadian chartered banks issued at Ottawa. They show another good increase in savings bank deposits, amounting to \$30,000,000 over September 1918.

The savings of the people are quite apart from the commercial balances. They represent the thrift and economy which Canadians are practising in view of the Loan campaign, and it is eminently satisfactory to find that they work out at over \$150 for every Canadian man, woman and child or over \$75 per family.

As indices to prosperity and industry \$1,227,000,000 in savings bank deposits are eloquent, indeed.

ARE CONGRATULATIONS IN ORDER?

Has the genial Lieutenant Governor of New Brunswick been knighted without the fact becoming known in his native province? This question is asked because the Montreal Gazette, a most reliable newspaper, on Monday published the following item in a despatch from Ottawa:

"Sir William Pugsley has arrived in town from St. John, N. B."

On the same day, the Ottawa Citizen, also a very reliable paper, published the following item in its personal column:

"Sir William Pugsley, the lieutenant-governor of New Brunswick, is here for a week and with Mrs. Pugsley, is staying at the Chateau Laurier."—St. John Globe.

DISOBEYED HIS INSTRUCTIONS

Did Not Run at Full Speed As Ordered by Admiralty Board.

London, No. 4.—A parliamentary paper made public to-day, containing secret evidence in the inquiry into the sinking of the Cunard liner Lusitania, shows that Captain W. T. Turner, of the Lusitania, admitted that he disobeyed the instructions of the Admiralty in steaming only at the rate of 18 knots an hour.

The captain testified, however, that had he gone faster the Lusitania would have reached the bar at Liverpool before the vessel could cross it, owing to tidal conditions.

Captain Turner also testified that he had not steered a zig-zag course at full speed as the Admiralty had ordered because he thought this order applied only when a submarine had been sighted.

It was contended by Captain Turner that, although he had been warned by the Admiralty to avoid the shoals, he was justified in coming within ten miles of Old Head of Kinsale, near where the Lusitania was torpedoed, in order to find this position. If he had remained longer out of sight of land, he declared, the weather might have become foggy, and he would have been worse off.

Captain Turner claimed that the course he steered was far enough from land, if he was not exactly in mid-channel. He was trying his best, he said, to follow the Admiralty's instructions, but his aim was to find land. Had he run into a fog without doing this, he asserted, he might have run ashore.

HALLOWEEN DESTROYED.

REVENUE
Ringing the church bells Halloween seems to be one of the usual pranks, and that in itself is not so bad, but when the noise is increased when the street is light to fall to the street and break, costing from \$25 to \$50 to repair, the police should take a hand in the matter. This is the second year that this is light in front of the Baptist Church has been destroyed.

THE PRINCE AT MONTREAL CITY

Speaks to Large Gathering of
Prominent Citizens—Toasts
by Hon. Chas. Marcell.

The Prince of Wales spent the
week beginning 27th October in the
City of Montreal where he was the
leading figure in many large gather-
ings of a military and social nature.
Among the latter the luncheon ten-
dered at Place Viger Hotel by the City
of Montreal was one of the most strik-
ing and successful in the history of
the city. Over five hundred guests
in all the leading walks of life were
present and the greatest enthusiasm
was manifested. It is admitted that
the Prince's speech on that occasion
was one of the most important that
he has delivered since he came to Can-
ada.

Mayor Martin presided at the lun-
cheon, and on his right sat the Prince
of Wales, while on his left was Ad-
miral Sir Lionel Halsey. Next to the
Prince on the right sat the Right Rev.
Bishop Parfith, then the Hon. C. J.
Doherty, Minister of Justice; Lord
Atholstan, Sir Alexandre Lacoste,
Senator J. P. E. Casgrain, and the
Hon. G. G. Foster. On the left of
Admiral Halsey sat Bishop Gauthier,
Chief Justice Lamont, Lord Shaugh-
nessy, Sir Louis Taché, P.C., Brigs-
Gen. Armstrong and Senator J. M.
Wilson.

After the toast of His Majesty the
King had been honored with the Na-
tional Anthem, the Mayor made a brief
introductory speech. He said:
"Your Royal Highness,"
"All Montreal is rejoicing in having
you for their guest. Last Septem-
ber you honored us with a short visit
to our city, a visit which unusually
allowed us to await more intimately
the visit which you are paying us to-
day."

"We are profoundly grateful to Your
Royal Highness for the opportunity
which you have given us to become
closely acquainted with the heir to the
British throne, so illustrious through
your noble ancestors."

"I beg the Honorable Mr. Charles
Marcell, municipal commissioner, to
propose the health of our Royal visit-
or."

Health of Prince is Proposed.
The Hon. Charles Marcell, P.C., M.B.
for Bonaventure County, member of
the Administrative Commission, in
proposing the toast of His Royal
Highness said:

"May it please Your Royal Highness:
"I must thank His Worship the
Mayor for the very great honor he
has conferred upon me in asking me to
offer a toast to Your Royal Highness
in this auspicious occasion. I do so
with all the more pleasure that I am
convinced that in no place in Canada
has Your Royal Highness met with
more loyal and enthusiastic welcome
than here, in this great city, on the
occasion of your first and second visit.
Numerous as have been the salutes
upon your time, you have graciously
with a second visit which we greatly
appreciate. You have done so to be-
come better acquainted with the peo-
ple of this Metropolitan City and all
that it stands for in the life of Canada."

"You have returned from a triumph-
ant tour in Eastern, Western and Cen-
tral Canada impressed, no doubt, with
the greatness of this young country,
its immense possibilities and its great
future. Canada will find in you here-
after an admirer and a friend. Sur-
rounding you at this festive board to-
day are the representatives of the two
great races which have vied with each
other in making Canada what it is—
the fairest of the sister nations of the
empire."

"Your visit to Canada, as it emerges
from the world struggle for democra-
tic rule, has enabled you to see this
country in its reconstructive period.
The spirit which animates all our peo-
ple now is the same which stimulated
the energies, devotion and sacrifice of
the men and women of Canada whom
you have had many opportunities of
seeing at work beyond the seas doing
their share to achieve the great vic-
tory which came to Canada and the
Allies. The memory of your visit
will remain graven in the annals of
this city as are those of your grand-
father and father."

"We have honored in you the per-
sonification of all that is noble and in-
spiring. We pray Divine Providence
to vouchsafe to you a long and happy
life to enable you to carry out to its
full fruition the great mission en-
trusted to you."

"Mr. Mayor and gentlemen, I now
invite you to give your glasses and
drinks to the toast of His Royal Highness
the Prince of Wales."

The Prince's Address.
His Royal Highness expressed his
thanks for the luncheon at which he
had been entertained and for the cor-
dial way in which his health had been
drunk.

Continuing, in English, he said:

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's
Vegetable Compound.

Winona, Minn.—"I suffered for more
than a year from nervousness, and was
so bad I could not
rest at night—
would lie awake and
get so nervous I
would have to get
up and walk around
and in the morning
would be all tired
out. I read about
Lydia E. Pinkham's
Vegetable Compound
and thought I
would try it. My
nervousness soon
left me. I sleep
well and feel fine in the morning and
able to do my work. I gladly recom-
mend Lydia E. Pinkham's Vegetable
Compound to make weak nerves
strong."—Mrs. ANNE SUTZ, 608
Olmstead St., Winona, Minn.

How often do we hear the expression
among women, "I am so nervous, I can-
not sleep," or "it seems as though I
should fly." Such women should profit
by Mrs. Sutz's experience and give
the best root and herb remedy,
Lydia E. Pinkham's Vegetable Com-
pound, a trial.

For forty years it has been overcom-
ing such serious conditions as displac-
ement, inflammation, ulceration, irreg-
ularities, periodic pains, backache, dis-
eases, and nervous prostration of
women, and is now considered the stan-
dard remedy for such ailments.

"I should like to say, Mr. Mayor,
that I was particularly touched by one
passage in the address with which you
welcomed me to Montreal yesterday—
I mean the passage in which you re-
ferred to the mutual understanding be-
tween the English-speaking and French-
speaking sections of the Canadian
people as a matter which I had very
much at heart. You described very
truly my feelings in that respect. I
had it much at heart when I landed
and I have it still, even more at
heart now that I have traversed Can-
ada from coast to coast. The union of
the two races in Canada was never a
matter of mere political convenience.
On the contrary, it was, and will al-
ways remain, of the highest political
importance, for which the empire owes
an incalculable debt to Cartier, Macdonald
and the other statesmen of both races
who brought it about."

"Much has been written and said
about the success of the British Em-
pire in establishing political union be-
tween peoples of different race, lan-
guage and history. But when you come
to think of it, the political union es-
tablished in Canada and South Africa,
were only later examples of the polit-
ical union between England and Scot-
land which brought Great Britain it-
self into existence as a political union
two centuries ago. Till that time Eng-
land and Scotland had been constantly
and bitterly at war; since that time
they have grown so close that we have
all forgotten they were ever separate
peoples."

"The union of England and Scotland
has been in existence for two cen-
turies; the union of British and French
Canada has been in existence for little
more than half a century—but who
can doubt that the union in Canada
will produce as great, as powerful,
and as united a nation as the British
nation itself? No one can read Cana-
dian history—much less can anyone
travel in Canada as I have done in the
last three months—without realizing
that the spirit and genius of both
races is closely interwoven through-
out the great Dominion, not only in
the East but in the West, where both
races share in honors of the early ex-
plorers and pioneers."

"That which is the secret of British
policy in this respect? I can say that
the secret in Canada is just the same
as in Great Britain. It lies in freedom
of speech, freedom of language, and
mutual respect. Montreal, gentlemen,
have many claims to admiration as the
largest centre of business and popula-
tion in Canada. I am deeply impressed
by all I have seen here, and I have
been touched to the heart by the won-
derful welcome Montreal has given me.
But what I valued most in that wel-
come is that it has been given with
equal warmth by citizens of both the
great races which are united in Mont-
real. Your city has the great distinc-
tion of being in this respect typical
of the union of races in the Dominion
as a whole. I therefore value its wel-
come in a very special sense, and I
thank all its citizens, British and
French, rich and poor, young and old,
from the bottom of my heart."

He concluded by repeating in the
French language the closing sentences
of his address.

HUNT KANGAROO WITH AUTOMOBILE

Australian Ranchers Can Now
Protect their Crops
With Ease.

Three sturdy automobiles, each
bearing several men armed with
heavy rifles, sped through the Aus-
tralian landscape. They came from
Adelaide, South Australia, and head
northward toward the heart of the
plain which extends in unbroken
dreariness for hundreds of miles in
that direction. The lookout in the
leading car scans the horizon with a
field glass.

"There they are!" he calls out,
pointing to a slight rise. The heads
of a few kangaroos are plainly vis-
ible above the salt brush, which grows
beyond Barra Barra, the jumping-off
place of civilization.

The whirr of the engines must reach
the animals' sensitive ears; for they
take to flight with tremendous
bounds. At a distance 300 yards they
stop.

The automobiles continue in their
wild rush over the rough ground, and
now the hunters let their rifles speak.

One of the animals is wounded. The
remainder of the herd, keeping well
together, leap away in one direction,
while the wounded animal hops with
terrific speed in the opposite direction.

The nearest car takes up the pursuit,
and for three miles continues in its
course, parallel to that taken by the
wounded kangaroo. The brush be-
comes thinner and the hunters head
their car in a straight line for the an-
imal, which shifts its course to an
angle that brings it directly across
the path of the oncoming car. A well
aimed shot ends the flight.

Now back to the pursuit of the rest
of the herd. After a drive of a few
miles the animals are sighted. At a
distance of fifty or sixty yards the
hunters open fire, killing four of the
animals. The fifth, a young kangaroo,
takes to the open country. The
hunters have decided to catch it al-
ive. As they approach their prey,
one of the hunters creeps forward on
the runningboard, seizes the kangaroo
by the tail, and manages to hold on
to both car and animal until the
car is stopped.

Each year, during the prolonged
drought in the Australian bush sec-
tions, the kangaroo becomes a pest in
the farming sections, great numbers
invading the ranches and destroying
the crops. Before automobiles were
pressed into service, kangaroo hunt-
ing was almost a hopeless job.

for years. Although she dieted she
was so bloated her clothes would not
fit. ONE SPASMODIC back-
bark, glycerine, etc. as mixed in Ad-
ler-ika relieved her INSTANTLY.

NOT THE SAME BIRD.
"You do not speak as you did of
the gentle dove of peace."
"No," said Senator Sorghum. "I
no longer refer to it as gentle. After
what the dove of peace has gone
through I regard it as a pretty tough
little bird."

Purred Tongue, Bad Taste, Indiges-

bage in a swell barrel. That's the first
step to all sorts of misery—indigestion, foul
gases, bad breath, yellow skin, mental
fears, everything that is horrible and
nauseating. A Cascaret tonight will
give you constipated bowels a thorough
cleansing and straighten you out by
morning. They work while you sleep—
a 10-cent box from your druggist will
keep you feeling good for months.

**BECAME SO THIN
SHE WAS AFRAID**

"FRUIT-A-TIVES" Made Her Well,
Strong and Vigorous

MADAME ARTHUR BEAUCHER

"I suffered terribly from
Constipation and Dyspepsia for many years.
I felt pains after eating and had gas,
constant headache, and was unable
to sleep at night. I was getting so
thin that I was frightened and saw
several physicians who, however, did
not seem able to help me.

At last a friend advised me to take
"Fruit-a-tives". I did so and soon
felt some relief. I continued with
"Fruit-a-tives" and in a short time,
the Constipation was banished. I felt
no more pains or headache or other
disagreeable sensations that follow
dyspepsia. Now I am well, strong and
vigorous."

**END STOMACH TROUBLE.
GASES OR DYSPEPSIA**

"Pape's Diapensin" makes sick, sour,
gassy stomachs surely feel fine" in
five minutes.

If what you just ate is souring on
your stomach or lies like a lump of
lead, or you belch gas and eructate
sour, undigested food, or have a feeling
of dizziness, heartburn, fullness, nausea,
bad taste in mouth and stomach-head-
ache, you can get relief in five minutes
by neutralizing acidity. Put at end to
such stomach distress now by getting a
large bottle of Pape's Diapensin from
any drug store. You realize in
five minutes how needless it is to suffer
from indigestion, dyspepsia or any stom-
ach disorder caused by food fermentation
due to excessive acid in stomach.

PEPS

When a child starts
coughing mother's
duty is to give the
little sufferer a Peps
tablet, and thus pre-
vent any weakening
of the lungs. As the
tablet dissolves in the child's
mouth, the soothing medi-
cinal fumes given off pass
through the tender breath-
ing passages straight to the
lungs and bring immediate
comfort and relief.

Peps contain no opium or
other harmful drugs, and
can be given to a child either
whole or crumbled to powder
with the assurance of absolute
benefit.

One little Peps at night will
clear the breathing passages and
let the little one's sleep be un-
broken by coughing fits. A Peps
before starting for school in bad
weather is also an invaluable safe-
guard for the children's throats and
 chests. All dealers, 50c. box.

OPPOSITION CONVENTION.
The big opposition convention for the county of Restigouche, advertised by large posters up and down the country was not able to create enough interest in a dead cause to bring more than a half dozen stalwarts to the Murray Hall Monday evening, and even the few who did attend were summoned by phone by Sir David to save the situation. NOVA SCOTIA MAN
GAINS 25 POUNDS

"I Simply Feel Like a New Man,"
 He Says After Taking

"I have often seen the time I would have gladly given everything I possessed for the belief a few bottles of Tanlac has given me," said Robert McAloney, a well known contractor, living at 33 York Street, Halifax, in a statement while in Kinley's recent.

"Four bottles of Tanlac has not only relieved me entirely of a case of stomach trouble that had made life miserable for me for more than five years," he continued, "but I have actually gained twenty-five pounds in weight, besides. I am not exaggerating a bit when I say I am feeling better now than I have in twenty years. Why, I was telling one of my friends the other day that I am feeling like a sixteen year old boy again. The way I have been built up and strengthened has really astonished me."

"I had been suffering, as I said, from stomach trouble and a run down condition for more than five years and till Tanlac came along was never able to find anything to help me. My stomach just seemed to be upset all the time. Nothing tasted or agreed with me and I simply had to force down what little I did eat. My stomach would get as sour as vinegar after meals and I would bloat up with gas and feel miserable for hours. There were sharp, cramping pains all through my stomach, and the gas would press on my heart so at times I could hardly breathe."

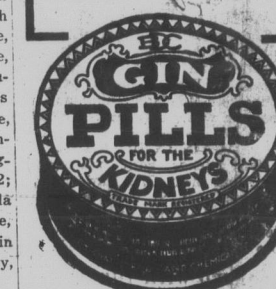

"After going to bed at night this gas would bother me, so I couldn't rest. Many a night I have gotten out of bed and walked the floor never getting a wink of sleep. I have had to lay off from my work getting for weeks at a time just suffering agony with my stomach, and had lost all of thirty pounds in weight. I would wake up in the mornings feeling so tired and no account that it was an effort for me to get out of bed. I was habitually constipated and had a dull, nagging headache nearly all the time. I had suffered so much and so long that I had about reached the point where I didn't care whether I lived or not."

"But I feel altogether different since Tanlac has straightened me out and built me up so wonderfully. Before I had finished my first bottle there was a decided improvement in my condition. I am eating three good, square meals a day and my stomach never gives me the least trouble. I don't believe I have ever enjoyed my meals more and I can eat anything set before me. I have been relieved of constipation and headache and that tired, worn out feeling has left me, too. I can sleep, like a log every night and get up in the mornings ready for a hearty breakfast and a good day's work. I tell you I simply feel like a new man and I am glad to give this statement to be used in letting others know what it is that restored my health. TANLAC is sold in Campbellton by Thomas Wray, Druggist."

The New Motor Car

The Greatest Improvement In Riding Comfort Since the Introduction of Pneumatic Tires

HERE is a brand new type of car, built in Canada by Canadians, for Canadians. It solves the problem which has baffled automotive engineers—how to combine riding comfort with light weight and economy.

Our new Three-Point Cantilever Springs make this possible.

These are the first springs of their kind and they are made of chrome vanadium steel. They are exclusive with Overland.

Because of these springs, Overland 4 combines the riding qualities of large, heavy, expensive, long wheelbase cars, together with the advantages and economy of small, light cars.

With 100-inch wheelbase, Overland 4 has the luxurious riding ease of 130-inch Springbase.

The exclusive, Three-Point Cantilever Springs cushion the car so that it rides well on all roads; they reduce choppy rebounds and side swaying, protect the car from road shocks and

prolong its life, minimize twisting or racking of frame and body, enable the car to hold the road better.

The car and passengers ride smoothly as though floating, free from road shocks.

But this new riding comfort, possible only with these Three-Point Cantilever Springs, is but one of the advantages of Overland 4.

Its light weight makes possible great economy of gasoline and tires.

High quality materials insure durability. All vital parts of the front axle and steering gear and all highly stressed driving gears and shafts are made of alloy steel.

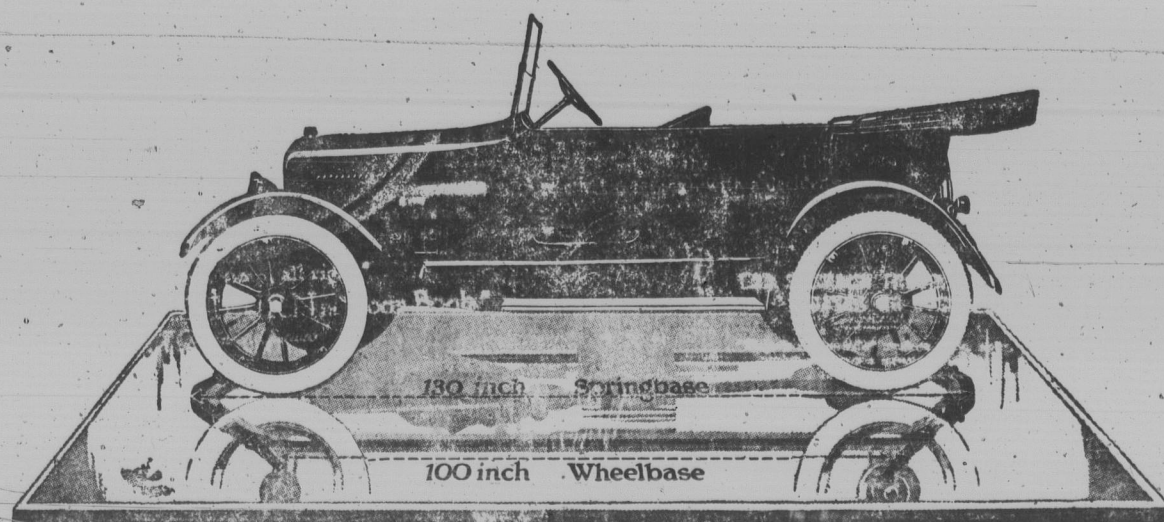

The equipment list of Overland 4 is like that of expensive cars: Auto-Lite Starting and Lighting System, Electric Horn—Specially Resilient Upholstery Springs—Demountable Rims—Three Speed Transmission—Slanting Rain Vision Windshield—Tillotson Carburetor, and many other high quality conveniences.

In every respect Overland 4 is a quality car. The body is all steel, all enamel, the brightest, hardest, most lasting finish.

Overland 4 has been tested for two years and more than 250,000 miles over the Rocky Mountains, prairies, through deep mud and scorching deserts—through quick sharp climatic changes. As a result of these tests we were able to judge the car's performance under every condition and to perfect it before offering it to the public.

There is no previous car of any size or price to adequately compare with the character of service Overland 4 introduces.

The farther you ride in it the more you will appreciate it. Come in and get a Booklet. The demand for Overland 4 will be greater than the supply for some time. Overland 4 Touring, \$1195; Roadster, \$1195; Coupe, \$1845; Sedan, \$1995. Prices f. o. b. Toronto, War Tax included.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Dandruff.

If you care for heavy hair that glitters with beauty and is radiant with life, has an incomparable softness and is fluffy and shining, try Dandruff.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; the hair falls out fast. Surely get a small bottle of Dandruff's Dandruff from any drug store and just try it.

'IT SAVED MY HAND'

"I am a blacksmith. I contracted a sore finger, which led to blood-poisoning. After three months of doctoring, the finger had to be cut off."

It was too late! The poison had spread to my hand and arm. My hand was opened and the bone scraped. No use! Doctors said hand would have to be taken off. I refused, and began to use Zam-Buk. I used it regularly and freely for a few weeks. It subdued the blood-poisoning and by the time I had used 7 boxes of Zam-Buk my hand was quite healed.

Zam-Buk surely saved my hand, and I firmly believe it would have saved my finger too had I used it at first.

The following is a statement by Mr. John Evans of a sawmill at Halifax, N.S., before Supreme Court Commissioner O'Hearn, dated Nov. 1, 1914.

"I was once a blacksmith, but my hand was so badly injured by a fall from a horse, that I was unable to work. I used Zam-Buk and in a few weeks my hand was healed and I was able to resume my work."

Atlantic Flight

Wonderful Example of the Value of OXO

Interesting letter from Captain Sir J. Alcock, K.B.E., D.S.C.

"You will be interested to learn that OXO was a great help to us during our Trans-Atlantic Flight; it sustained us wonderfully during our 16 hours' journey."

"We had found out what a good thing it is when flying in France, and so decided to carry it with us on this occasion, and we can assure you that hot OXO is most acceptable under such cold and arduous conditions."

"OXO was the only article of its kind which we carried."

J. ALCOCK, Capt., D.S.C.

OXO steadies the nerves—keeps the brain alert—gives extra warmth to resist cold and exposure—extra strength to fortify against fatigue, and yields an abundance of energy out of all proportion to the amount taken.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes, and the body is immediately carried on, and sickness of some kind follows.

Free digestion and assimilation means failure to derive full nourishment from food and that in turn means loss of vitality, blood, weakness, anaemia, etc.

Free elimination means an accumulation of waste for the body, lowers vitality, depresses the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as

rheumatic poison is allowed to remain in the body?

Think of this! It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are cured of Rheumatism every day and getting relief. Why pay five or ten times as much for uncertain relief?

A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

And Nature's Remedy is not only for the relief of Rheumatism, it improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently move out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Demonstration farms in different parts of the province, are to be established and put in operation next summer by the Federal Government, according to an announcement. A man will be selected to take charge of the work in the province and the warden of the animals will be during the close season. The accused was brought before the Police Magistrate. The case is still pending. Two barrels and two sacks of hides, shipped to Quebec by Mr. Arlinsky, are held by the Quebec warden for investigation. It is reported that the warden has a case against another local hayer of hides and that proceedings will be commenced in a few days.—Chatham Gazette.

SEIZURE OF HIDES.

Warden Joseph Grogan, of Chatham, made a seizure on Friday of moose and deer hides at M. Arlinsky's. It is claimed by the warden that the animals were killed during the close season. The accused was brought before the Police Magistrate. The case is still pending. Two barrels and two sacks of hides, shipped to Quebec by Mr. Arlinsky, are held by the Quebec warden for investigation. It is reported that the warden has a case against another local hayer of hides and that proceedings will be commenced in a few days.—Chatham Gazette.

BLACK CAPE.

It is with feelings of deep regret we learn that Rev. E. J. Rattee has resigned his pastoral charge of this congregation and has accepted the call which has been extended to him from the congregation of Longueville, Que., and is leaving in a few weeks to take up his charge in his new field of labor.

Mr. Angus N. Campbell attended the meeting of Presbytery which was held in Campbellton on Friday evening.

The many friends of Mr. Scott Fair-service will regret to learn that he is confined to the house through illness but we trust that he may soon be around again.

We are also glad to learn that Mr. William Fair-service who has been quite ill at his home here is now improving.

A Halloween party was given at the home of Mr. and Mrs. Angus N. Campbell on Friday evening. Among

those present were Misses Eunice Pritchard, Lottie Steele, Queenie Steele, May Drake, Margaret Burton, Dorothy Coull, (Grand Cascapedia), Mamie Campbell, Miss Hamilton (New Carlisle) and Bernice Campbell, and Messrs. Hastwell Pritchard, Clement Fair-service, George Burke, Ernest Steele, George Campbell, George Steele and Herbert Campbell. A very enjoyable time was spent by all present.

Dalhousie, N. B.

To the Editor of the Graphic.—The ratpayers of town of Dalhousie were somewhat surprised on an evening last week when one of the aldermen and chief constable of the town of Dalhousie was seen parading the main street, heading a procession leading a poor lamb proceeded by a party with chickens and geese which was won by gambling.

They passed the chief of police who seems to have his hands tied behind his back, wonder why. "What is this town coming to?" I understand that he and his colleagues held a banquet the following evening. His flattery young gentlemen with a few of his chosen assistants is trying to pave the way to popularity. His flattery young gentlemen with a few of his chosen assistants is trying to pave the way to popularity.

Let's hope this young gentleman makes a better man at his profession than leading sheep around our town. JOSEPH CAMERON.

Editor of the Graphic.—

Dear Sir:—As you are at all times willing to give space and support to any undertaking that is in the interest of the public and your readers, perhaps you and many others can do me the great necessity of a bridge from Campbellton to Cross Point.

It will be remembered that at a meeting of our Board of Trade, a motion was passed that the Secretary write some of the leading men of Bonaventure County, P. Q., asking them if a joint meeting could be arranged to talk over the best means to proceed.

It has been suggested (after this has been done) a public meeting could be called at which we could have the Hon. John Kelly and a number of public men from both counties give addresses. Petitions, I have no doubt would be largely signed. These could be presented to both Ottawa and Local Government, the several members

would at once see that our needed undertaking should be done next year, there are so many things that need a united effort, but perhaps this bridging of the Restigouche River at this point is the most important.

I trust that the business men and others will move and assist. Thanking you for space, I am, Yours truly, W. H. WALLACE.
