MR. LAURIER ON THE RESULT.

MONTREAL, Jan. 12.—Hon. Wilfrid Laurier arrived in town last night. He left to-day for Kingston, where he will address the electors. When he learned of the success of the Liberal candidate in Richelieu he said the election is important in itself, and it is more important in what it signifies.

THE TOPIC OF THE DAY.

The election in Richelieu county took up political attention, even to the exclusion of the redistribution of portfolios and the appointment of the Quebec commission. The county was held by Capt. Labelle from 1882 till his death. He was succeeded by Mr. Massue, who died last April, and at the last election Sir Hector Langevin carried the county by 308 votes. This being the case, the Conservatives had reasonable ground for confidence. Further, Mr. E. A. Morgan, their candidate, was a native of the county; he spoke French, his wife was French, and all his interest was there, yet he was beaten by Mr. A. A. Bruneau, an untried man.

VARYING RETURNS.

The Liberals claim a majority of 120 in Richelieu, while the Conservatives place the majority at 108. The Great Northwestern Company's returns make Mr. Bruneau's majority 114.

AN EXTRAORDINARY HUNT.

Seven Men Injured and Nine Dogs Killed by Pumas.

LEIPSIC, Ohio, Jan. 12.—The greatest hunt ever undertaken in the State took place near here Saturday, when 700 men and 50 hounds turned out to run down two pumas, which for two weeks have been preying on live stock in the neighborhood. The beasts were encountered early in the afternoon, much to the sorrow of both hunters and hounds.

The fight was kept up until dark, with the result that seven of the hunters are dangerously injured, at least two fatally, and nine of the hounds are dead. The pumas are now surrounded in a swamp and the fight will be renewed.

Yellow Jack at Work.

NEW YORK, Jan. 12.—The steamship Moorish Prince, from Santos and Rio was detained on arriving in Quarantine yesterday morning, four of the crew having died of yellow fever. The men were Chief Officer John Hughes, Second Engineer Carmlove, Assistant Engineer Robert Richardson and Samuel Tarbot. The men were taken sick after leaving Santos and were sent to a hospital on arriving at Rio Janeiro, where they died. The vessel is detained for fumigation.

The Egyptian Question.

ST. PETERSBURG, Jan. 12.—The Novosti, commenting upon the excitement displayed by the French press in regard to the death of the Khedive and the continued occupation of Egypt by the British, condemns the demand made by the French newspapers for the immediate evacuation of that country by the British. The Novosti adds: "France at present ought not to provoke international conflicts. She should rather temporize, with the aim of eventually obliging the British to evacuate Egypt of their own accord."

Singular Scene in Court.

HAMILTON, Jan. 12.—In the course of the Assizes here on Saturday Alfred Green sued for $1,500 damages for injuries to his head received at the Incline Railway by a falling derrick on Jan. 27, 1891. Green said that since the accident whenever he shuts his eyes he becomes dizzy and falls down. The defense had an idea that Green was shamming, and it was decided to test the man in the presence of the jury. Green had said that when he shut his eyes that usually in 30 seconds or less he would become so dizzy that he would fall to the ground. Mr. Carscallen drew a stop watch and proceeded to try the experiment. The judge told Green to step back three paces, then walk forward three paces, stop and then close his eyes. The judge meanwhile left the bench and stood at the top of the steps near the witness-box looking down at the man. Every eye in the court was fastened on Green as he came deliberately forward, stopped and shut his eyes. In a moment he changed color, reeled back, and, clutching the rail of the witness-box, swung round and fell in a heap on the floor at Judge MacMahon's feet. The scene was too real to doubt the genuine character of the man's affliction, and several constables carried him from the court room.

The Inter-State Commerce Commission

Ex-Congressman and Inter-State Commerce Commissioner William R. Morrison, whom President Harrison has just reappointed to his place on the commission, was born in Monroe county, Illinois, Sept. 14, 1825; is a lawyer by profession; was clerk of the Circuit Court; was four terms a member and one term a Speaker of the Illinois House of Representatives: was elected to the 38th, 43rd, 44th, 45th, 46th, 47th and 48th Congresses, and was re-elected to the 49th Congress as a Democrat. In 1886 he was defeated for re-election to the 50th Congress by John Baker, of Belleville, Ill., the Republican candidate. Subsequently the ex-Congressman was appointed Inter-State Commissioner by President Cleveland.

Dr. Talmage Tells His Experience on a Fast Train.

Increase in the Grand Trunk Railway Earnings from Numerous Points.

The Michigan Central Railroad Company will erect a brick freight depot at Grand Rapids this season.

The Michigan Central handled an enormous amount of freight last week, averaging 50 trains per day.

Traffic earnings of the G. T. R for the week ending Jan. 2, 1892, were $323,633; for 1891, $316,439; increase for 1892, $12,194.

The rush of freight over the main line of the Michigan Central Railroad still continues and all of the crews are working double time.

The Michigan Central Railway freighted 1,447 cars over the river at Detroit on Thursday, the greatest number in the history of the road.

A miniature model of the town of Pullman, 30 by 80 feet, will be a part of the exhibit made by the Pullman Palace-car Company at the World's Fair.

General Traffic Manager Emerson, of the Rome, Watertown and Ogdensburg, intends to resign to accept the position of general traffic manager of the Vermont Central.

The oldest railroad mechanic in the United States is William H. Scholtz, now living in New York. He is 87 years old, a native of Bremen, and immigrated to this country when he was 27 years old—60 years ago.

In an interview Mr. M. E. Ingalls, of the Big Four, said that the new year, viewed from a railway standpoint, would open with the best business outlook in his experience. As it is nineteen years since he began his successful railway career, his views have some weight.

Dr. Talmage said these things in his Friday evening talk: "The Empire State express, the fastest train in all the world, pulled out from the Grand Central Station for Buffalo yesterday morning, and I was on it. It was the third trip. The possibility of going from New York to Buffalo between 9 a.m. and 5:40 p.m. had been demonstrated. There was an unwonted flutter of excitement around the depot, and every person who owned a watch was examining it to see whether the train would start on the exact moment promised. At 9 o'clock to the second the locomotive, with four cars, started. The lights and shadows of the tunnel played with unusual swiftness, and out and on and up like some monster, half by foot and half by wing, the train evoked the velocity. The villages seemed to pass us more than we to pass them. They flew to the rear. Yonkers and Peekskill and Poughkeepsie seemed on their way to New York. The first halt was Albany, and we were three minutes ahead and had time to spare. The wheels were hastily tested and we resumed our flight, and Utica, and Syracuse, and Rochester went by, and four minutes before the time announced for the arrival of the train we dismounted at Buffalo astounded at the miracles of modern railroad locomotion. I had been on trains in Great Britain and in the United States called by such names as the cannibal, the thunderbolt, the Yorkshire devil, the flying Scotchman, but this eclipsed everything. Part of the time we went at a rate of 75 miles an hour. Taken all in all, it was the best combination of speed and safety that I ever experienced. Nothing much better than that will travel on the land ever accomplish. Enough for the nineteenth century to have transported passengers 440 miles in 8 hours and 36 minutes."

Population of Rome.

ROME, Jan. 12.—Notwithstanding the hard times that have prevailed in Italy, and especially in Rome, the authorities state officially that the population of Rome increased during 1891 by nearly 2,000. The city contains about 435,000 people.

Found Dead in Bed.

TILBURY CENTER, Ont., Jan. 12.—Benjamin Dupuis, aged about 72 years, a prominent and respected resident of Tilbury Center, was found dead in bed on Sunday morning. The doctors pronounced it heart disease. Deceased settled here 46 years ago, being elected to the first village council.

Preferred Death to Dependence.

NEW YORK, Jan. 12.—Samuel Sickel, 43 years of age, committed suicide at the St. Cloud Hotel by firing a revolver bullet into his right temple. Sickel has been a traveling salesman for twenty years. He was in the employ of Fred Butterfield & Co., importers. Six months ago his eyesight became affected, and then he became blind. The firm pensioned him. Since then he has been very despondent at times. His parents are wealthy and live in Germany.

Disastrous Railway Runoff

A Train Pitches Down a Fifty-Foot Embankment.

Scarcely a Passenger on Board Escapes Injury.

Two Persons Killed Outright and a Large Number Seriously Hurt.

CRAWFORDSVILLE, Ind., Jan. 12.—Yesterday afternoon the north-bound Monon train ran off the track about two miles north of here, at Nicholson Crossing. The accident occurred on a 50-foot embankment, down which four cars rolled, the engine and one baggage car keeping the track. The first passenger coach rolled over three times. It was full of passengers, and caught fire from the stove, but all the occupants escaped alive. The baggage and express car went over, but no one in it was seriously hurt. The ladies' coach was literally torn to pieces, as was also the parlor car. There was hardly a passenger on the train who escaped injury. Help was soon at hand, and in a few moments the roadway was full of the maimed on the way to the town. They were theatrical troupes on board, one of which was the City Club Burlesque Company, which was completely broken up, nearly every member sustaining serious injuries.

THE KILLED.

The killed are: Ben. Hamburg, Cincinnati, a traveling man; Madame Elna Van Rokey, of the City Club Company.

THE INJURED.

The injured of the City Club Company are: Mack Rogers, badly hurt in the legs and back; Gus Rogers, back injured; Stella Clifton, legs and back injured; Helen Love, internally injured; Cora White, Syracuse, N. Y., slightly injured about the head; Fanny Everett, St. Louis, internally injured; Olla Lewis, bruised about the head; Harry C. Bryant, Philadelphia, back sprained and head hurt; Madge Larner, Pittsburg, Pa., head bruised; M. Ruttledge, porter, chair car, face smashed; C. W. Cronwell, road-master, internal injuries; John Winchester, Louisville, baggagemaster, injured about shoulder and back; George Cutter, express messenger, Louisville, internal injuries; Wm. Snyder, newsboy, Chicago, shoulder broken; Wm. Bishop, brakeman, severely burned; John Dills, conductor, hurt internally; Nellie Hanley, crushed, will die; Ezra Hibbs, left arm broken and right hand cut off; Mrs. Ann Hibbs, face smashed; Dr. E. White, sides and spine seriously fractured; Dave Maltsby, Romney, eye gouged out and leg and arm broken; C. N. Cheek, Greencastle, Ind., right leg cut off below the knee; Fox, New Albany, head cut and leg smashed; Paul Allen, head crushed; Thos. Monaco, of the opera troupe, hurt internally; C. F. Hoyt, side and back and head injured; C. W. Loevden, Salem, leg badly crushed; Eva Marshall, Elliottsville, side and face crushed; J. J. Enright, Chicago, knee and head hurt; Melvin McKee, Chicago, head, hip and back injured, but not fatal.

MANY OF THE INJURED WILL DIE.

A number of those hurt live here in the city, and several will probably die. It was one of the most terrible catastrophes that has ever occurred on the road. The postal car went over, but the clerks, Fox and Clark, while badly cut, are not badly hurt. Rescuers are now searching for the body of a little girl supposed to be buried in the debris.

Earthquake in Turkey.

ATHENS, Jan. 12.—The town of Larissa and the surrounding country were shaken by an earthquake yesterday. Almost simultaneously hot springs appeared on Mount Ossa.

New Type of Bayonet and Cartridge.

ROME, Jan. 12.—The new repeating rifle adopted by Italy will be provided with a new type of bayonet, much shorter than the one now in use. A lieutenant of artillery has invented a new cartridge. The powder adopted will develop progressively the effects of the gas arising from its combustion, increasing to an extraordinary degree the initial velocity of the ball. It is also reported that the weight of the equipments of the Italian soldiers will soon be reduced sufficiently to allow them to carry in the field 150 rounds of the small carbine cartridge.

The French Journalist Recently Expelled from Bulgaria.

There is at length a prospect of an amicable settlement of the Franco-Bulgarian complication growing out of the expulsion from the principality of the French journalist, M. Gaston Chadouine, by the Bulgarian Premier, M. Stambouloff. The offense charged against him was the writing after official admonition of abusive articles against the Sofia Government. The cable announces that the powers now support the demands of M. Ribot, the French Minister of Foreign Affairs, who merely desired to insure respect for the capitulations and to prevent a recurrence of the affair. The dispute, it is further declared, lacks the gravity which has been attributed to it by the foreign press, and a speedy and satisfactory settlement of the difficulty between France and Bulgaria is confidently expected.

BRAVE CONVICT WOMEN

Rewarded by the Indian Government for Their Heroism.

LONDON, Jan. 12.—It will be remembered that during a cyclone which passed over the Andaman Islands on Nov. 2 the steamer Enterprise, which was lying off Port Blair, became a total wreck. The Andaman Islands are the East Indian penal settlement, and the Enterprise was used for conveying prisoners and provisions and supplies to the islands. The Enterprise was caught by the cyclone with her anchors down and no steam on. She had a crew of 83 officers and men, and all were swept into the sea. There were no life-saving appliances at Port Blair, and it looked to be impossible to save the unfortunates from the wreck. Among those who were watching were a number of female convicts who had huddled under the lee of their prison walls to escape the fury of the gale. While the men stood silently by watching the struggles of the drowning men one of the women proposed to form a human life line from the beach out into the sea. The seas were thundering upon the rocky shore with a violence that seemed to shake the earth, but nothing daunted the female convicts reached the shore, linked hands, and their leader, following by her equally brave sisters, plunged into the sea to save a man who could be seen struggling helplessly in the water. The women were dashed from their feet at their first attempt and hurled violently upon the shore. Again they clasped each other's hand, again they sprang undauntedly into the raging waters, and the leader grasped the drowning man, who was carried safely to the shore. In this way they rescued six men. The remainder of the crew perished.

The officials at Fort Blair made a report of the affair to the Indian Government, and as a result it is announced that the leader of the gallant band will be released, and that the term for which the others had been sentenced will be very materially shortened.

IN LABOR'S FIELD.

Too Many Types in New York—Engineers May Strike.

A convention of Waiters' Unions will be held in New York on Jan. 18.

The Ottawa molders went out Monday morning, and joined the strike of the iron workers.

The Imperial Government of Germany has confiscated the treasury of the National Printers' Union of Germany.

The Cigarmaker's Unions of New Jersey have formed a State organization. Delegate Kuhn, of Union No. 6, is secretary.

The Indianapolis street car strike is still on, with no prospects of settlement. Over 1,000 strikers are guarding the various stables and power houses to see that no cars are started.

A crowded meeting of members of Typographical Union No. 6 was held on Sunday in New York. It was resolved that in view of the fact that over 400 stanch union men were walking the streets idle, all typos upon the city morning papers should, for one month, work only five nights a week instead of six in order that work might be afforded to the unemployed. Another resolution was adopted donating $10 toward the expenses of any member of the union who left for another city in search of work. It was decided that for the present no more outside cards should be received.

The disagreement between the directors of the Consolidated Railroads and the Brotherhood of Locomotive Engineers may result in serious friction. The trouble has arisen upon the Northampton division of the line that starts from New Haven, and it may extend to New York. It would appear that the men working upon the Northampton division object to being paid $4 a day for a 200-mile run, four trips in the week. These trips occupied six days of their time, and they asked to be paid mileage—4 cents a mile for large engines and 3½ cents for small ones. These are the rates, it is claimed, that are paid upon the New York Central and Hudson River road.

The express messengers' strike at Nashville, Tenn., is on again and with greater force than ever.

MILBROOK, Ont., Jan. 12.—The 6-year-old daughter of R. STRUCK BLIND ON A TRAIN.

Sad Experience of a Woman in Search of a Recreant Bridegroom.

SHAMOKIN, Pa., Jan. 12.—The sympathies of the passengers on the train arriving here from Olean, N. Y., Sunday evening, were directed to a young lady who had the peculiar misfortune to be stricken blind en route. When the conductor came around to punch her ticket she was unaware of his presence. She wore a bridal dress and was evidently going on a journey to be married. On the train reaching here she told the conductor that she had come from Mauch Chunk. The conductor escorted her down the steps and into the waiting-room.

Here the young woman told her story to a crowd of interested bystanders. She said her name was Miss Custer, and that she had come from Olean, where she was to have been married to John Hampton, a young farmer of Norfolk county. On the eve of the wedding he failed to appear, and the friends who had gathered were shocked to learn that he had gone off on a spree and spent $300 of the $1,000 he had saved for the marriage in gambling. Miss Custer said she was on the way to join her recreant lover at Norfolk, Va., where he had gone. On the train her pocket had been picked of $24, and she had temporarily lost her sight through excitement. The passengers subscribed for the amount of her fare to her destination, and she continued the journey.

CLARKSVILLE, Mo., Jan. 12.—Yesterday fire started in the drygoods house of Glaze Bros., spread rapidly and destroyed the Elgin House, the "K" line depot, the Sentinel office and other buildings. Loss $50,000.

WINNIPEG, Jan. 12.—Brandon had an extensive conflagration Saturday evening, caused by the explosion of a lamp in the premises of J. S. The buildings were owned by W. H. Anderson, Kempville, Ont., J. W. Howe, Vancouver, and F. Hughes, Winnipeg.

MONTREAL, Q., Jan. 12.—A big fire is now raging here. Shortly before 11 o'clock this morning fire was discovered in the Academy of St. Louis De Gonsoque, a large stone building on Sherbrooke street, near St. Denis street. The academy is conducted by the Providence nuns, and there are over 300 children in the institution. The flames spread with great rapidity, and all the lower portion of the building was soon in flames. The nuns had great difficulty to prevent a panic, but ultimately the nuns and pupils escaped in safety. Several firemen were overcome by the smoke, and had to be removed to the hospital.

Famine Lotteries Instituted in St. Petersburg—Alarming Increase of Typhus.

LONDON, Jan. 12.—A St. Petersburg correspondent says it is stated that the first famine lottery will be drawn on Jan. 27 and that a second will be issued. This method of raising money is condemned on all sides, in view of the millions which the Government always has dispensed for charity.

Medical reports from the famine districts show an alarming increase of typhus. The migration of peasants in search of work is likely to spread this disease over the whole country.

Shot Him Dead.

ASHLAND, Wis., Jan. 12.—At Brice, a small station on the Omaha Road, Oscar Johnson jokingly pretended he was trying to make off with a knife belonging to John Blazer, at whose house he had lunched. The Hastings Disaster—Criminal Carelessness.

ALBANY, N. Y., Jan. 12.—In the matter of the Hastings accident on the Central road the State Board of Railroad Commissioners finds that the immediate cause of the accident was the criminal failure of Herrick to signal the St. Louis express. Other employes connected with the accident are censured by the commissioners. The board approves of the determination to equip the road with the block system.

Comment on the Cabinet Changes—Principal Grant Has Nothing to Say.

Mr. Mercier expresses confidence in the result of the Quebec elections being favorable to his party.

Montreal political circles are greatly surprised at the recent readjustment of Ministerial portfolios. Mr. Chapleau's friends say that the appointment of Mr. Haggart to the converted Railway Department leaves the Secretary of State no alternate but to resign or eat the leek.

A Kingston special says: "There was considerable speculation at Ottawa as to what Principal Grant would think of the appointment of Hon. Mr. Haggart as Minister of Railways. Various telegrams were received from the capital on the subject. The Whig waited upon the principal for an answer, and he said: "I have not anything to say at present respecting the appointment."

The appeal is taken under 53 Vic., ch. 30, sec. 8, which provides that where any dispute arises in regard to any question of fees under the Registry Act, the registrar shall submit the same to the inspector; and also provides for an appeal from the inspector's decision, which appeal shall be in like manner and subject to the same rules of practice, as nearly as may be, as an appeal from a master in chambers or a local master. Middleton, for the registrar, objected that the appeal was late. "August Flower"

What is It For?

This is the query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is AUGUST FLOWER FOR?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. We believe August Flower cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia.

THE HORSEMAN.

John Splan says he thinks there will be a 2-minute trotter befor the close of 1893.

Sunol is in New York and has been driven double a couple of times by Mr. Bonfer.

An offer of $60,000 for Alcantara, was refused last month. It was made by Joseph Outhwaite, of Cleveland.

Nutwood stands at the head of all living sires with 77 2:30 performances and seventeen that have trotted or paced in 2:20 or better.

Beautiful Bells is the only mare that has ever produced a yearling, 2-year-old, 3-year-old and 4-year-old trotter with records of 2:30 or better.

The Canadian Circuit races open at Montreal, Feb. 8. They will be trotted under the rules of the National Trotting Association, so that "ringers" had better beware.

It is said that Charles Backman has instructed Cope Stinson to enter the Stonyford horses in his string in every stake possible and get them ready to contest for the money.

The French law subjects every stallion used for breeding purposes to a close examination as to soundness and ability, and issues a certificate good for one year, with the proviso that, during that time, the stallion will not have the liberty to be entered in any race. Such stallions as seem worthy are endowed with a pension of from $100 to $250 per year by the Government, but the owner is not allowed to charge over $20 for the service of the animal.

We are glad to see the breeders become broader in their views and less prone to become married to any particular family to the exclusion of all others. Theories are not much account when they are not supported by the facts presented on every hand. Writers may theorize from one year's end to another, but the old man with the hour glass is a competent judge, and measures accurately the speed capacity of the horse, and presents plain facts to the observing mind.—[Rushville (Ind.) Graphic.

"Winter hoss racin' is gettin' mighty popular, Tom, ain't it?" "I should say so. I see they're going to have a go at the game up in Northern Alaska. They've raised the scale of weights some. The horses will be covered with walrus skins, the jockeys are compelled to carry 40 pounds of fur, the grandstand is modeled after the St. Paul ice palace, with snow-cushioned seats, while the timers have stop-clocks with fireplaces in them and fires to keep them from freezing up. The track will always be good and hard there, and they will have the advantage over Guttenberg in that they'll never have to run in the slush and mud."

Mr. Robert Bonner has finally made public the circumstances under which he bought Sunol. The letter he wrote to Senator Stanford and which caused the mare to become his property was as follows: "As you are probably aware I paid Mr. Vanderbilt $40,000 for Maud S. I will give you $41,600 for Sunol, and take her just as she is. If you accept this offer I will send you a check for the amount as soon as I hear from you, and after I pay for her I will agree to let her remain in your hands for one year so as to give Marvin an opportunity to lower her record if you should so desire, or I will have her brought on here at once as you may prefer. I am fully aware that the money itself that you might receive for the horse is no object to you, but I think that any breeder may take a laudable pride in selling a mare of his own raising for the highest sum ever paid for a mare."

The cruelty of making a colt endure the strain of long drawn out races demands a merciful rule that will terminate the contests at a point well within the limits of the powers of the youngsters. This can only be brought about by changing the rules that decide the winner only after he has won a certain number of heats. This could be easily remedied by changing the rules so that the money should be divided according to the positions at the end of a certain number of heats. This number should be limited according to the age of contestants and should never be greater than five for colts of nearly adult age, and a less number for younger animals. This plan would answer a double purpose, that of saving the innocents and of preventing to a certain extent the pernicious practice, that of laying up heats to rob the public by manipulating the pool box.—[American Trotter.

Charles Marvin, the celebrator driver, formerly at Palo Alto, but now with Miller & Sibley, at Franklin, Pa., is noted for his improved methods of training, developing and caring for a horse. His new ideas are innumerable and breeders and trainers who are electrified at his success follow his methods as nearly as they can. At Miller & Sibley's a good many Palo Alto, or Marvin ideas are already in vogue. The most marked one is the attempt to strengthen the legs of 1 and 2-year-old colts and fillies by painting them with tincture of iodine. This is one of Marvin's inventions, and, it is said, is his custom when he takes up a yearling to begin "painting him," as it is called. The iodine is put on a cloth and applied to the leg, which is then vigorously rubbed. Naturally it produces a blister and the colt is very sore, but he soon gets used to that and a callous forms on the leg. After the soreness disappears and another application does not bring back the soreness, iodine is applied every day until the colt enters his 2-year-old form. It is said Marvin has great faith in iodine and confidently believes it strengthens the legs.

A woman's strength is most potent when robed in gentleness.—[Lamartine.

"The Advertiser" is an organ of news and of thoroughly independent opinion. The ADVERTISER alone is responsible for opinions expressed in these columns.

"The Advertiser" advocates Continental Free Trade, and as early as possible after, free trade with the whole world.

"The Advertiser" looks forward with hope to Canada's future as that of an Independent Canadian Nationality, in equally friendly alliance with the United States and with Great Britain, believing that such a status would be best for Canada, best for Great Britain, and promotive of the best attainable relations with the United States. As to Imperial Federation, sometimes spoken of, the ADVERTISER as yet has seen nothing proposed that bears any stamp of practicability, and in any case infinitely prefers the grander and more really hopeful scheme of a federation of the English-speaking peoples of the world.

"The Advertiser" advocates prohibition of the manufacture and sale of intoxicating liquor; and all expedient general legislation and persuasion in the meantime.

"The Advertiser" is an advocate of equal rights for women, whether as regards the franchise, or equal wages for equal work.

"The Advertiser" is a believer in Christian Union, and considers the time has come when the various Christian denominations should come closer together. Those bodies which are now nearest should unite first. Under the present system there is an unjustifiable waste of men, means and effort. The ADVERTISER will endeavor to promote the movement for Christian union not alone by direct appeal and argument, but by seeking to present the best rather than the worst side of each denomination.

"The Advertiser" advocates Obligatory Voting as both necessary and practicable. Nothing would so much purify electoral contests. Nothing would so much enforce the idea that the franchise is a duty, not a chattel.

God's in His heaven,
All's right with the world.
—[BROWNING.

London, Tuesday, Jan. 12.

WINNIPEG corporation men have struck against a reduction in wages. These are N. P. times.

ONLY the writs for Kingston city and Halton county were issued yesterday. The elections take place on Jan. 28. The East Middlesex writ is kept back.

EVEN Patti has the grip. The defeated trade restrictionist candidate in Richelieu affirms that the grip is not what he has, but nevertheless his affliction cannot be measured.

THE London Free Press to-day has learned articles on the dehorning of cattle, on butter exports, and on the manufacture of slabs, but it really has no space for reference to the great victory for trade freedom in Richelieu yesterday.

THE best that the Toronto News (Conservative) can say for the recent Dominion Cabinet shuffle is that "it is possible the Premier made the best choice out of a rather bad lot." No wonder respectable Conservatives in every constituency are beginning to work and to vote for a complete change.

JAMES BYAN, of the Lucknow Sentinel, formerly of this office, who has again been returned as reeve of that town, is spoken of as the coming Warden of Bruce, and a most efficient Chief Magistrate he would make, too. Among the other newspaper men elected as reeves are J. A. Auld, of the Amherstburg Echo, and M. Y. McLean, of the Seaforth Expositor.

ONE of the best liked members of the Liberal delegation to Parliament is Mr. Gilmour, M.P. for Charlotte, N. B. So unpopular was the proposition to petition against his election that a resident of Red Beach, Me., had to be impressed into the service of the bosses for that purpose. Great is the non-resident voter in the eyes of the upholders of the Dominion Franchise Act!

A GREAT TURN-OVER.

The first blood in the bye-elections has been drawn by the Liberal party.

In the Dominion contest in Richelieu, Que., they elected their candidate yesterday by a substantial majority, thereby placing on the Liberal side a seat that was carried by Sir Hector Langevin in March last by 308 votes.

The significance of the change is increased when the fact is taken into account that Richelieu has hitherto been regarded as a safe Conservative riding. With but one exception it has returned a Conservative at every general election and at every bye-election since Confederation. The exception was in 1874, when the tidal political wave took place that swept the Liberals into power.

As an independent journal, the ADVERTISER considers the phenomenal political change in this old constituency as indicative that the Abbott Government has lost its grip. There are many other symptoms of decay, as for example the advancement of John Haggart to a chief seat in the Cabinet, but all else pale beside an upheaval in the electorate such as has undoubtedly taken place in the constituency till recently represented by Sir Hector Langevin.

To the ever-increasing number in the country who are in favor of the removal of the depressing trade restrictions that have done so much to retard the progress of Canada, and which have kept the people poor, it will be satisfactory to know that the victorious candidate took his stand firmly on the platform of those who favor the greatest possible freedom to trade with our neighbors in the States. His opponent, as a matter of course, was forced to indorse the declared policy of the present Government at Ottawa, which is to stand by the combines at all hazards. It is to be hoped that the friends of trade freedom and reduced taxation in other constituencies where bye-elections are yet to take place will hold the defenders of the blunderers and plunderers as strictly to account for their shortcomings as has been done in the representative St. Lawrence River constituency.

The people are ripe for a change that will permit them to make the most of their earnings, which is impossible while they are made to pay tribute to the millionaires of Toronto and Montreal, who leave no expedient untried that shall have for its effect the centralization of the country's industries in those two places. Only evil can come to the farmers and to the people of other cities and towns from the continuance of such a system.

A Canadian Sugar Millionaire—Canon Farrar on Auricular Confession—Hon. Mr. Mowat's Letter—Gladstone's Portrait by a Young Canadian—Wonders of Electricity—A New and Simple Cure for La Grippe—The Coming General Election—Prospects of the Parties.

LONDON, Dec. 22, 1891.

To the London, Canada, ADVERTISER:

At Chislehurst, not far from my home in the suburbs of London, resides Mr. Peter Redpath, a gentleman well known and highly respected for his munificence. I am glad to learn that he has recently given a library building to McGill College, Montreal. It is to be capable of containing 200,000 books and is to cost $100,000. This, following the gift of a museum to the university, is a generous example worthy of imitation in all the great towns of Canada. In education and religion are the best foundations laid for a glorious future.

It is reported here that there is some probability that the Archbishop of Canterbury may visit Canada next summer. If he were to do so, you will find him to be an out-and-out cleric in appearance, but in reality a man of considerable breadth of intellect and of sympathy. The fact is that Canada is becoming vastly better known in England, and attracting far greater interest than I have ever known it. Archdeacon Farrar has just been settling (?) a little religious difficulty for the Anglicans in Prince Edward Island. They were in trouble about auricular confession—right or wrong? The able but wily archdeacon tells them in reply to their appeal to him that "the Church of England in no sense acknowledges 'auricular' or 'sacramental' confession, nor has any system of habitual confession to a priest ever been recognized by her. But it permits and encourages any to confess whose consciences are troubled or whose minds are perplexed if they voluntarily desire to do so, etc." This answer is equivalent to the drill sergeant's "As you were," or the printers' "stet."

Mr. Mowat's letter has given great satisfaction on this side, especially his noble and loyal words: "We love our own nation better than any other nation, and our own interests better than the interests of any other country. We are prepared to sacrifice something if necessary in order to retain the allegiance of this great Dominion to the sovereign we love, instead of suffering it to be transferred to another nation which may any day be at war with our own nation, the nation of our fathers."

Mr. Gladstone's portrait, which has been painted for the National Liberal Club by Mr. John Colin Forbes, R.C.A., as a gift from the Liberals of Canada, has just been completed. It is a full length portrait of the right honorable gentleman as he is seen in delivering one of his great speeches. A week ago Mr. and Mrs. Gladstone went to view the picture as completed. Both were highly gratified, and pronounced the picture an unqualified success. This must have been very pleasing to Mr. Forbes, for it is well known that the understanding upon which Mr. Gladstone originally agreed to give sittings was that the artist should be Sir John Millais. In art circles, there has been some controversy, as one might expect, over minor details, particularly that the Canadian artist has painted in a finger which Mr. Gladstone has lost, and therefore the painting is historically untrue. Mr. Gladstone wears a small glove-piece fastened by an elastic band, over the place of the lost finger. This is missing. Mr. Forbes said this could not be inserted, for it would make the portrait unsuitable for reproduction by photogravure.

Is it possible to transmit a photograph by electricity? Yes, replied Mr. Arstutz, of Cleveland. The design must be first photographed on a gelatine bichromate of potassium film, after which it is washed in warm water to remove the softer parts, leaving the portions hardened by the action of light as a relief, high or low, according to the depth of tone in the original. A stylus is then made to travel all over the surface of this dissected photograph and made to rise and fall according to the relief, and by means of a multiplying lever is made to depress a number of keys, by which an electric current is admitted into the line. The number of keys thus closed is in proportion to the rise and fall of the stylus, and so the strength of current in the line is varied according to the intensity of light and shade in the design. The next process is to send it through an electro-magnet bearing on a graving tool, which travels over a surface of wax in a path corresponding to that traced by the stylus on the gelatine bichromate of potassium film. The result is a copy of the relief made from the latter, which by stereotyping, etc., can be made into a printing surface. In this way portraits have been transmitted over twenty miles of wire. This method follows successfully in the line of the discoveries made by Mr. Townley, Mr. Shelford Bidwell, and Messrs. Ayrton and Perry.

Turning from the fine arts to the healing art, I may just mention that influenza—or, as it is, perhaps, better known in Canada, la grippe—is raging in Scotland, Ireland, and in Cornwall, England. There are sporadic cases in London and other English towns, but it has not become epidemic yet. It has often been said that the doctors are apparently nonplussed by this mysterious malady, which has spread so widely and wrought such havoc the last few years, but a certain Dr. Crerar (in this month's Lancet) tells us of a simple remedy which he pronounces infallible, viz., 30 grains of bicarbonate of potash in a teacupful of milk every two or three hours. He asserts that he has not had a case in which this medicine did not kill the disease at the second dose. It sometimes weakens the action of the heart, but a simple remedy will rectify that. If the influenza comes your way again, let your readers try it, Mr. Editor. We hope it may be efficacious.

Influenza may come and influenza may go, but politics go on for ever. Well, there is nothing very startling in the European political world just now. France, with the connivance of Russia, is trying to make a little political capital, if not a casus belli (a contingency which Russia is anxiously waiting for to justify belligerent movements in the spring) out of the expulsion of a French reporter in the consular service out of Bulgaria. The man deserved expulsion. He manufactured lies to discredit the Bulgarian Government, and was continually stirring up disaffection to Prince Ferdinand. Official complaint was made of this offense, but because the Bulgarian Foreign Minister did not put his complaint in writing, but after repeated warnings to the reporter, who became more insolent with every warning, expelled him, France professes to be greatly aggrieved, and Russia backs her up. France has distinctly lowered herself by taking this undignified position and becoming the cat's paw of the Czar, Germany has, for much lighter occasion, expelled French reporters and France kept silence, but now she picks a quarrel with little Bulgaria—a great Republic doing the dirty work of a vast despotism by bullying a small but growing free State. There is much political tension thereby. The themometer is very sensitive. Most people believe that with such an atmosphere war cannot be far off. Little sparks cause great conflagrations.

As to home politics, the general talk is about dissolution of Parliament—is it imminent? If so, when? Will it be in January or Lent, or June? At the general election will the Tories win or will the Liberals get another inning? My answer—very humbly, because I have not had a whisper from Lord Salisbury, who might do many a worse thing than consult me—is that the present Government will, if practicable, hold on until late in 1892, and the election will take place on the present register. In the meantime Mr. Balfour will try to pass his Local Goverment Bill for Ireland, and will endeavor to frame and English policy consisting of many popular items with which to appeal to the electors. In the meantime, it is very noticeable how Mr. Chamberlain is bestirring himself by a Scotch campaign in the interest (1) of himself as a candidate for political leadership, a position which he lost by his overweening ambition and disloyalty to his old and venerable chief, and (2) of Liberal Unionism which is Toryism in modern disguise. The Duke of Devonshire is lying seriously ill, in fact gradually sinking, and so his son and heir will soon be transferred to the House of Lords. Then Sir Henry James or Mr. Chamberlain will become leader of the Dissentient Liberals. The phenomenal activity of Mr. Chamberlain is an indication that the Tory Government which, since his defection from the Liberal ranks, he has supported, is "setting its house in order," for it is conscious that "it must die, and cannot live" many months longer. What, then, are the party prospects? The real Liberal party, led by Mr. Gladstone, is very hopeful. The Tory party is running a race against Mr. Gladstone's life. The Dissentient Liberals are not a numerous party in England, but they can divide the Liberal ranks. Scotland is the Gladstonian stronghold. Therefore, says Mr. Chamberlain, we will bring all our artillery to bear against the northern fortress. This is an astute policy, nevertheless, so far as I can judge of the national tendency, it is in favor of Mr. Gladstone. But should a European war break out in the spring the Tories would probably win the election, for Lord Salisbury is universally popular as Foreign Minister, and is greatly respected abroad.

Rev. C. H. Spurgeon is convalescent though weak, yet he insists upon it that God will raise him up again to preach. Rev. John McNeill has resigned the pastorate of Regent Square Presbyterian Church, and undertakes for one year evangelistic work in Scotland under the Moody and Sankey Committee—a great mistake, I think, on his part. PHILO.

HAGGART'S PECULIAR QUALITIES.

[Hamilton Spectator.]

Mr. Haggart, we may add, is popular in Parliament. He is not well liked by his political friends, but is on the best of terms personally with his political opponents.

Necessary for Man and Woman.

Sound sleep is necessary when the strength and spirits are exhausted by hard labor or severe mental efforts. To the sleepless we would say, use Dr. Once Paine's Celery Compound, which will give quiet and rest to the overtaxed, nervous system.

Curlers Getting Ready for the Ontario Tankard Contest — General Sporting News.

THE WHEEL.

THE BICYCLE BOYS.

The Forest City Bicycle Club held its annual meeting in their rooms on Carling street last evening, a fair number of the club being present. Officers for 1892 were elected as follows: President, R. Burns; first vice-president, James Lamb; second vice-president, Alex. Milne; captain, J. A. Tune; first lieutenant, James Knowles; second lieutenant, Corbin Weld; bugler, W. Parkinson; standard bearer, Charles Brown; secretary, James Milne. The finances are in a satisfactory condition, and next season the club will have some vigorous sport. Bengough, Grip's cartoonist, has been secured again for the annual entertainment.

NOTES.

Welsh, of Germantown, Pa., rode 12,552 miles last year, which is a larger mileage than some clubs show.

Bill Nye says that after Washington has been visited by wheelmen from other sections of the country, and they see the advantage of good, paved streets, on their return they may have as good pavements in time.

CURLING.

The representatives from the curling clubs of St. Marys, Guelph, Galt, Preston, Bright, Brantford, meet in Brantford to-day (Tuesday), to arrange for the January competition for the Ontario tankard. The president and vice-president's match will be played there to-night.

SKATING.

W. J. Hammell, of Hamilton, and R. J. Palmer, of Palmerston, are matched to skate a five mile race on Listowel ice rink for $100 a side, Hammell giving Palmer two laps the start of him. The race will be skated on Friday, Jan. 15, at 9 p.m.

THE TRIGGER.

On Friday Messrs. Robt. Saunders and Fred Farncourt, of Exeter, started out after dinner and succeeded in bagging three fine foxes.

DRAUGHTS.

LATEST SCOTTISH GOSSIP.

The death is announced of Major Gipps, formerly adjutant of Paisley Volunteers.

George MacDonald, the author, was born in 1824 in an old-fashioned house, 2 Church street, Huntly, where his boyhood was spent.

"Help," the famous collie that collected over £1,000 for the Home for Orphan Children of Railway Servants, died the other day at Newhaven.

The directors of Edinburgh House of Refuge have again decided to give free dinners daily during the winter months to 100 poor children attending Milton House Public School in Canongate.

Arrangements are being made at Huntly to celebrate the coming of age of Lord Settrington, the eldest son of the Earl of March, who is the eldest son and heir of the Duke of Richmond and Gordon.

"What Scottish people dreaded," said Mr. Moody, the evangelist, here recently, "was sensational preaching, but that was what was needed in the present day, as there were more sensational scenes in the slums of Glasgow in one night than in Presbyterian churches for 100 years."

At Mr. Moody's meeting in Cawdor Church, near Nairn, on the 16th ult., he had a somewhat novel experience as he was entering the church. He asked the church officer if there was a stove inside. "No," replied the beadle, "but you are expected to put a fire in the pulpit." Mr. Moody related the incident, and said he had chosen for his subject that afternoon "God is Love," as being the best theme for setting their hearts on fire.

Rev. Dr. Young, of Perth, used to be annoyed by a couple coming to church, sitting away in the gallery, "ssh-ssh" as they talked in lovers' language all through the service. He could stand it no longer, so one Sunday he stopped in the middle of his sermon, looked up to the gallery, and said, "If that couple in the right hand gallery there will come to me on Monday I will marry them for nothing, if they will stop that "ssh-ssh!"

Not Too Late.—You can still secure a bamboo easel, table, cabinet, music rack, paper rack or umbrella stand at wholesale prices. Quantity is limited, and after present stock is cleared you will not be able to buy any of above goods at such low prices. E. N. Hunt, 190 Dundas street. ywt

The City Council of 1891 Holds Its Last Meeting.

The Huckster Bylaw May Be Repealed —Numerous Appeals Against Assessment.

The City Council of 1891 held its last regular meeting last evening. There were present: The retiring mayor, Mayor-elect Spencer, Aldermen Connor, Wyatt, Taylor, O'Meara, Ivey, Winnett, Skinner, Gartshore, James Fitzgerald, F. J. Fitzgerald, Bartlett, Wilkey, Thomas Judd, Shaw and City Clerk Kingston.

COMMUNICATIONS

were received and disposed of as follows:

A. F. Richards asked for remission of Phillip Richards' taxes. C. of R.

The city engineer notified the Council that some radical improvement in the lighting of the city must be made at once. During November the lights were out over 4,400 hours, and during December, 2,313 hours. The one on the corner of Dundas and Maitland streets was out six out of seven nights. No. 3.

John Coote asked for remission of part of the taxes on part of his property, as it had been vacant a great part of the year. C. of R.

C. J. Beal asked for remission of taxes on the late E. W. Hyman's vacant factory on Carling street. C. of R.

Chas. Lilley asked for reduction of taxes on 392 Adelaide street, as it had been vacant nearly two years. C. of R.

John S. Scragg, late caretaker of Queen's Park, asked to have his salary paid up to the end of the year. Granted.

Ellen Morris asked for remission of taxes on 71 Central avenue. Granted.

W. J. Brazier asked for remuneration for extra services in constructing the fire alarm line in the city. No. 3.

THE BYLAW CAUSES TROUBLE.

The retiring mayor submitted a communication for the consideration of the Council. It recommended the repeal of the bylaw that prohibited hucksters from purchasing on the market.

Ald. Taylor said he had opposed the bylaw when it was first submitted to the Council.

Ald. Bartlett moved that the bylaw be rescinded. The farmers experienced a feeling of danger on entering the market. Ald. Connor seconded.

Ald. O'Meara thought it should be rescinded.

Ald. Wilkey said that when the bylaw was passed a number of the Council were new and had a mistaken idea regarding it. It was not beneficial to the city.

Ald. Judd agreed with Ald. Taylor. He thought that as it could not be properly enforced it should be rescinded.

Ald. Ivey thought the interests of the city should be guarded in preference to those of the farmers.

Ald. Thomas objected to the bylaw being repealed. He was frequently on the market and had never heard the farmers objecting to it. He objected to giving way to a few men who wished to run the city.

The matter was referred to No. 3 Committee.

NUMBER THREE COMMITTEE.

By Ald. F. J. Fitzgerald, chairman: 1. Submitting accounts for action of Council. 2. Submitting a report of attendance of members during the year. The report was adopted with the exception of an account of James Greenaway.

MOTIONS.

Ald. Judd moved that Assessment Commissioner Grant be henceforth relieved from attending the meetings of the Council in the capacity of sergeant-at-arms. Carried.

Ald. Judd moved without prejudice to his right to vote against the motion, and Ald. Taylor seconded, that the communication of Contractor Howie, regarding claim for more payment for Dundas street pavement, be reconsidered. The motion was lost.

At the close of the Council proceedings Ald. Ivey moved a vote of thanks to the retiring mayor for his efficient services during the past year. In doing so he spoke strongly of Mayor Taylor's admirable conduct as president of the Council. The mayor had ruled firmly but impartially on all points raised before him. The labors of the Council had been made a pleasure rather than a drudge through his constant supervision and co-operation. In retiring from the position of mayor, which he had occupied during the last three years, Ald. Ivey said he was sure Mr. Taylor carried with him the best wishes of the entire Board.

Mayor-elect Spencer seconded the resolution. He cordially approved of its terms. He was led to believe on entering the Council that there would be much wrangling and trouble, but under the firm administration of Mayor Taylor the business had been conducted so that it was a pleasure to act as an alderman rather than a trouble.

The motion passed unanimously after being put by Ald. Winnett, who was in the chair.

Mayor Taylor replied, thanking the aldermen for their generous appreciation of his services. He had but one object in view, and that was the interests of the city. If he had made any errors in his rulings, it was not intentional. It was indeed pleasant to part with the aldermen carrying with him so many kind wishes. The Council then adjourned.

FARMER'S INSTITUTES.

Sound Suggestions for Officers and Farmers.

The Hon. John Dryden in a special bulletin recently issued, gives many good practical suggestions both to the officers and farmers of Ontario, regarding the coming meetings of the Farmer's Institutes, which are as follows:

1. It is your personal advantage to be a member of the Farmers' Institute, and to have every farmer in your township interested. The success of failure of your neighbor affects the value of your own farm and products. The interests of all farmers in any locality are inseparable.

2. Arrange all business engagements and your work at home so that you and your sons and families can attend these meetings. Be punctual and remain until the meeting adjourns.

3. Advertise the meetings thoroughly. Secure the assistance of the local press. Invite the reporter to your meetings. Do not be satisfied with a few dodgers, but put up posters, scatter hand bills, insert locals, and use the mails and public schools. Talk up your meetings wherever you get a favorable opportunity.

4. For officers select men of energy and enthusiasm, who are well known, reliable and have made a success of their work. The president and secretary can make or break an institute.

5. For speakers choose first the best men among yourselves who carry weight and who have had extensive experience. Do not think that only men from a distance or ready speakers can instruct you. Develop home talent. Be willing to learn from anyone. Information, not oratory, is desired at these meetings.

6. Draw out in discussion as many as possible of those present. Call upon them personally and insist upon their speaking. Frequently those best qualified are least inclined to do so. Do not allow one or two to monopolize discussion but make all feel that they have a part in the proceedings.

7. Concise, suggestive papers are far preferable to exhaustive treaties. As a rule the discussions are more helpful than the papers or speeches on which they are based. Do not prolong the discussion to a wearying length.

8. Do not cater too much to the popular desire to be amused. These institutes are for business first—then pleasure. Variety of subjects will save from monotony, and a limited number of subjects will secure better attention.

9. From time to time secure the services of practical farmers from other counties, and also of men from the agricultural college and elsewhere, who have had special training in the sciences bearing on agriculture.

10. Take hold of the enterprise and help to carry it on successfully with at least as much determination as the various professional, and working classes in our towns, and cities show in connection with their several organizations.

American Markets.

CHICAGO, Jan. 11.

Wheat took another tumble in price to-day, closing 1c lower than it left off on Saturday. The chief factor in the depression was the snow fall, which was reported covering practically the entire winter wheat belt, and which dissipated the growing fears for the effect of the cold weather on the plant, which had already been tried rather severely by alternate freezing and thawing.

British Grain Trade.

LONDON, Jan. 11.—The Mark Lane Express, in its weekly review of the British grain trade, says: The prices of English wheats are in buyers' favor at an average decline of 6d; foreign wheats are dull, owing to the immense stock and continuous deliveries. The holdings at the twelve leading British ports on Jan. 1, 1892, amounted to a total of 2,000,000 quarters of wheat and 850,000 sacks of flour, against 1,400,000 quarters of wheat and 620,000 sacks of flour on Jan. 1, 1891. Corn declined 1s, but an improved inquiry set in on the decline and prices became firmer. Fine malting barley is well held; grinding barleys are neglected. Oats are very quiet. At to-day's market English wheats were in small supply and prices steady. Foreign wheats are slow of sale and prices declined. American fell 6d and Indian 9d. English and American flours dropped 6d. Oats in large supply and prices down 6d. Corn 6d dearer, new American ranging from 27s for immediate delivery to 21s for delivery within a month.

Live Stock Markets.

TORONTO.

TORONTO, Jan. 9.—Trade was active at the Western cattle market to-day, and prices all round had a firmer tendency.

In cattle the trade is active, and quotations somewhat firmer. The range was from 2¾c to 3¼c per lb, with a fraction higher in a few cases. Not many feeders are being taken. Bulls sold down to 2¼c per lb, and good heifers and steers brought top figures.

Sheep and Lambs—There is a marked firmness in this trade. Good lambs are being bought freely for shipment to the United States markets, chiefly Buffalo, at from $3 75 to $5 per head, according to condition. Sheep sell fairly well at from $3 75 to $4 50 per cwt., chiefly for local trade.

Milch Cows and Springers—Dairymen are taking up a few to keep up their supply of milk; and there is a fair demand for springers. Prices range about the same at from $30 to $50, or a little better for some extra choice animals. One dealer bought two fair cows for $36—$47 and $49.

Calves—There is a stronger tone to this market. Some poor animals sold for $3 per head; good choice veals brought $9 00; and the general range was from $5 to $8.

Hogs—Receipts of hogs were better, but the market remains firm. There is no demand for stores and light fat worth talking about. A few were sold at $3 75 to $4 per cwt. weighed off cars. Good straight fat hogs bring from $3 90 to $4 15, with as high as $4 20 to $4 25 being given in a few cases. Heavy roughs bring $4, with light demand.

EAST BUFFALO.

EAST BUFFALO, N. Y., Jan. 11.—Cattle—210 cars on sale; the offerings mostly medium and good quality steers for shippers, which were lower from 10c to 15c per cwt; on fair butchers' mixed and cows values were irregular, in some cases 10c to 15c higher, and in other cases lower. Export cattle of some 14 cwt sold slower at $4 90 to $5 25; lighter grades, of about 1,100 lbs, $3 85 to $4 65; good to choice fat, light butchers' steers, $3 40 to $3 75; fat cows and heifers, $2 65 to $3 35; bulls steady at $2 25 to $2 75; good feeders, $3 25 to $3 65; stockers, $2 40 to $3; choice cows and springers, $2 to $3 higher; some choice sold at $50. Veal calves higher, good to choice, $7 75 to $8; fair, $6 to $7 50.

Sheep and Lambs—The strong prices of last week caused a rush of stock; receipts, 140 cars; 25 cars Canada lambs, 25 cars native sheep, and the balance native lambs. Prices 15c to 25c lower than last week on lambs; 10c lower on common sheep; prime sheep rated av. last week's closing figures; Canada lambs, $6 75 to $6 90 for good to choice; one or two extra lots, $7 to $7 10; bulk of the sales, $6 85 to $6 90; most of Canadas have been disposed of.

Hogs—30,000 head on sale; most of good hogs and choice pigs sold at $4 30 to $4 40; roughs, $3 25 to $3 50; good, heavy ends, $3 75 to $4; stags, $2 85 to $3.

MONTREAL.

MONTREAL, Jan. 11.—About 500 head of butchers' cattle, 2 sheep and 3 small calves offered at the East End abattoir to-day. Trade was fair and prices were better than on Thursday, but common stock did not sell quite so well as on Monday last. Good shipping cattle sold at 4¼c to 4½c per lb; pretty good stock, about 4c per lb; common dry cows, $18 to $30 each, or 2½c to 3c per lb, while some of the leaner beasts went 2c. For mutton cattle prices are higher. A carload of good lambs from Kingston cost about 4½c per lb. Hogs in small supply and poor demand at 4½c to 4¾c per lb; dressed hogs are from 5½c to 6c per lb.

Petrolea Oil Market.

—There was a large attendance at the annual sale of periodicals and papers at the Mechanics' Institute last evening, and a number of ladies were present—a hitherto unenjoyable pleasure at these sales. H. O. Brunton was the auctioneer. This year $75 75 was realized; last year $69 25. The prices paid were higher than ever before.

The New Superintendent.

Captain John Kerr arrived from Brantford to-day to assume his new position as superintendent of the G. T. R. carshops, this city. The late manager, Mr. J. D. McIlwain, leaves on Thursday to enter into his duties at Chicago as manager of the Harvey Steel Car Works. Mrs. McIlwain and the family will follow about the end of February.

Death at the Hospital.

Miss Margaret Hopkins, daughter of the late James Hopkins, of Glanworth, and brother of John Hopkins, county constable, of St. Thomas, died at the hospital in this city on Saturday from the effects of an operation to remove a tumor, which had been performed a few days previously. The deceased was about 40 years of age. The remains were taken to the residence of her brother, Charles, townline, near Glanworth, and the funeral took place this afternoon.

"Bouchal-Bawn" at the Grand.

An occasion of rare enjoyment will be presented at the Grand Opera House Friday and Saturday nights next, with a Saturday matinee, in the appearance of the popular Irish comedian, J. S. Murphy, producing his new romantic Irish comedy-drama, "Bouchal-Bawn." Following the initial performance of this play in St. John, N.B., the Daily News, of this city, says: "A charming story of Irish life based on actual fact, with characters molded true to nature. Mr. Murphy's reputation as a talented and perfect delineator of Irish character was fully sustained, and a large and delighted audience fully testified complete satisfaction."

Evidently Nothing in It.

The arrest of Joseph O'Rourke in this city on Saturday by a Hamilton officer seems to have arisen from a misunderstanding. It appears that the lady with whom O'Rourke boarded in Hamilton had loaned him the money just before he came home for a visit, and as he stopped in London longer than he had expected the owner of the money thought he was about to go to the States, hence the arrest. The young man has always borne a good character heretofore, and his father, C. P. R. watchman, on hearing of the arrest, immediately sent a check to Hamilton for the amount claimed. Mr. O'Rourke's friends never believed for a moment that there was any real ground for the charge made against him, and they will be pleased at the establishment of his innocence.

What Will He Do.

"I shall hold the city bound to said agreement and liable for the contract price set forth, and I hereby forbid you or any of you to entertain any other contract for the said work." Thus wrote Mr. S. H. Craig to-day to the City Council, which last night accepted the tender of Ben. Johnson, of this city, for the work on the Victoria Bridge breakwater and threw out Mr. Craig's which No. 2 Committee recommended. Mr. Johnson's contract price is $4,500; Mr. Craig's, $4,850. Mr. Johnson agrees to do the work at $33 per lineal foot; Mr. Craig at $38 65. The reasons why the Board of Works did not accept the lower—Mr. Johnson's—were because it contained no sureties and stipulated that the construction would be completed at a given time, "wind and weather permitting," whereas the tender requires it to be finished before a specific date.

Political Notes.

There are dissensions among the Conservatives in Gaspe. Hon. Mr. Flynn's friends insist that he shall accept the nomination for two counties, including Gaspe, but there is a strong demand for a local man.

An Ottawa Conservative paper has the following on the Cabinet changes: "Unless material strength is added to the Cabinet by appointments yet to be made the public will hardly be satisfied. These two selections do not change the case for the better so far as Ontario is concerned, and Ontario is not properly represented at present. The Province, which contains more than half the wealth and nearly half of the population of the Dominion, should give more energy, if not more brains, to the Cabinet than it now does." Le Canada, in commenting on the appointment dwells on the dominating influence of the C. P. R.

Fate of Sir Hugh.

"Oh, Mona, lying deep in your quiet grave, where they carried you so soon, it was not I, but the demon who possessed me!

* * * * * *

"He was very white now. He took hold of my hands and held them firmly.

"'How dare you, Crystal,' he said, sternly; 'how dare you speak of a lady, of Mrs. Grey in that way. Ah, Heavenly Father, forgive this unhappy child, she can not know what she says.'

"I answered with a mocking laugh that seemed forced from my lips, and then, as though my unhappy fate were sealed, Mrs. Grey entered.

"She thought that it was a hysterical attack, and came at once to Raby's help.

"'Do not be alarmed, Mr. Ferrers,' she said, gently, 'it is only hysteria;' and she held out a glass of cold water to him. The action provoked me. I tore myself from Raby's grasp, dashing the glass aside. I longed to break something. There was a bottle beside me, some chemical acid that Hugh Redmond had carelessly left that very morning. I snatched up the vial, for I wanted to crush it into a million atoms, and rush from the room; but she called out in affright, 'Oh, Crystal, don't touch it, it is—' and then she never finished.

"I saw her white hands trembling, her blue eyes dilated with horror; and then my demon was upon me. I knew what it was, and I hurled it at her, and Raby sprung between—he sprung between us, oh, Raby, Raby!—and then, with a shriek that rang through my brain for months afterward, he fell to the ground in convulsions of agony.

* * * * * *

"I cannot go on. I cannot!

"Was not Cain's punishment greater than he could bear?

"When they came to me as I lay in my despair across the threshold of his door, and told me that the light of those beautiful eyes was quenched forever; that I should never meet their loving glance again, that he was blind—blind—and that it was my hand that had done it; then it was that in my agony I breathed the vow that I would remove their curse from them, that I would wander forth, Cain-like, into the great world, until my punishment was in some degree commensurate with my sin. Fern, I have never faltered in my purpose. I have never repented of my resolve, though their love has sought to recall me, and I know that in their hearts they have forgiven me. I have worked, and wept, and prayed, and my expiation has not been in vain.

"In the Crystal you know, you will hardly find a trace of the high-spirited girl that Raby loved, nay, that he loves still. Ah, I know it all now; how he seeks for his darling, and makes it his life purpose to find her, and bring her back to peace. I know how even in his intolerable anguish he prayed them to have mercy upon me, and to spare me the awful truth. I have seen his face, that changed blind face of his. I have ministered to him with these hands, I have heard his dear voice, and yet I have not betrayed myself."

"Crystal," sobbed Fern, and indeed she could scarcely speak for her tears, she was so moved by this pitiful story, "if I were you I would go back to-morrow; how can you, how can you leave him, when he needs you so?"

"I go back to him?" repeated the other girl, mournfully. "Who have blighted his life and darkened his days; who have made his existence a long night? I who have robbed him of the glory of his priesthood, and made him what he is, a wreck of his former self?"

"Yes," was the steady answer. "I would go back to him and be his eyes, though his goodness humbled me in the dust. Ah, Crystal you are worse than she out of whom the Saviour cast seven devils, and who loved much because much had been forgiven her."

"Hush, hush! you do not know, Fern!"

"My darling, I do know," persisted Fern, gently; "and I tell you that it is your duty to go back to Raby, who loves you so. Nay," she continued, as a deep blush rose to Crystal's olive cheek, "he never cared for this Mona—your own words have proved that. Go back to him, and be the light of his eyes, and take his darkness from him, for I see plainly that he will never leave off seeking you, and you only."

CHAPTER XXVI.

THE TALL YOUNG LADY IN BROWN.

Not enjoyment and not sorrow
Is our destined end or way;
But to act that each to-morrow
Finds us further than to-day.

In the world's broad field of battle
In the bivouac of life
Be not like dumb driven cattle,
Be a hero in the strife.

—Longfellow.

As Fern finished her little speech, Crystal hid her face in her hands, but there was no answer—only the sound of a deep-drawn sob was distinctly audible. A few minutes afterward she raised it, and in the moonlight Fern could see it was streaming with tears.

"Do not say any more," she implored; "do you think my own heart does not tell me all that, but I will not go back yet; the flaming sword of conscience still bars my way to my Paradise. Fern, do you know why I have told you my story? It is because I am going away, and I want you to promise me something, and there is no no one else I can ask; no, not your mother," as Fern looked surprised at this, "she has enough to trouble her."

"What is it?" asked Fern, rather timidly.

"I am going away," returned Crystal, "and one never knows what may happen. I am young, but life is uncertain. If I never come back, if anything befalls me, will you with your own hands give this to Raby," and as she spoke, she drew from her bosom a thick, white envelope sealed and directed, and placed it in Fern's lap. As it lay there Fern could read the inscription: "To be given to the Rev. Raby Ferrers, after my death."

"Oh, Crystal," she exclaimed, with a shiver, "what could happen to you. You are young—not one-and-twenty yet—and your health is good, and—" but Crystal interrupted her with a strange smile.

"Yes, it is true; but the young and the strong have to die sometimes; when the call comes we must go. Do not look so frightened, Fern, I will not die if I can help it; but if it should be so, will you with your own hands give that to Raby; it will tell him what I have suffered, and—and it will comfort him a little."

"Yes, dear, I will do it;" and Fern leaned forward and kissed her softly. The moon was shining brightly now, and in the clear, white light Fern noticed for the first time how thin and pale Crystal looked; how her cheek, and even her slight, supple figure, had lost their roundness. There were deep hollows in the temples, dark lines under the dark eyes, in spite of her beauty she was fearfully wan. The grief that preyed upon her would soon ravage her good looks. For the first time Fern felt a vague fear oppressing her, but she had no opportunity to say more, for at that moment Crystal rose quickly from her eat.

"You have promised," she said, gratefully; "thank you for that. It is a great trust, Fern, but I know I can rely on you. Now I can talk no more. If your mother comes in, will you tell her about Miss Campion. I think she will be glad for many reasons. Now I will try and sleep, for there is much to be done to-morrow. Good-night, my dear;" and the next moment Fern found herself alone in the moonlight.

When Mrs. Trafford returned, she heard the news very quietly.

"It will be better—much better," she said, quickly. "You must not fret about it, my sunbeam. Crystal is beginning to look ill; change and movement will do her good. Our life is very quiet. She has too much time to feed upon herself. She will be obliged to rouse herself among strangers." And when Fern told her tearfully of the promise she had made, Mrs. Trafford only listened with a grave smile.

"Put it away safely, my dear; you will never have to give it, I hope; only it is a relief to the poor child to know you have it. Hers is a strange, morbid nature. She is not yet humbled sufficiently. When she is, she will go back, like the Prodigal, and take the forgiveness that is waiting for her. Now, my darling, all this sad talk has made you look pale. You must try and forget it, and go to sleep." But for the first time in her healthy girlhood, sleep refused to come at Fern's bidding; and she lay restless and anxious, thinking of her friend's tragical story until the gray dawn ushered in the new day.

The little household in Beulah Place were very busy during the next few days. The girls went out shopping together to replenish Crystal's modest wardrobe, and then sat working until nearly midnight to complete the new traveling dress. Fern was putting the final stitches on the last afternoon while Crystal went to bid good-bye to her pupils. The black trunk in the girl's room was already packed, for she was to start early in the morning.

Percy had not yet heard the news; he had been away from town the last week, to Crystal's great relief. She had begged Mrs. Trafford and Fern to say nothing about her movements. He might appear at any moment, and Crystal dreaded a scene if he heard of her approaching departure.

"It will be much better for him not to know until the sea is between us," she had said to Mrs. Trafford. "When he hears I have gone without bidding him good-bye, he will see then that I mean what I say—that my life has nothing to do with his;" and Mrs. Trafford had agreed to this.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and conver the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

FUN, FACTS AND FICTION.

A carpet tacking party is the latest Missouri invention for evening festivities.

Mr. Job Scales, of Toronto, writes: "A short time ago I was suffering from Kidney Complaint and Dyspepsia, sour stomach and lame back; in fact, I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."

A dog who lives in Northampton, England, is a sworn enemy to all rats except one, and has made a good record for ridding his master's premises of them. His favorite, however, is permitted to feed around the kennel; and when the master attempted to kill this rat a decided demonstration on the dog's part warned him to stop.

Carter's Little Liver Pills must not be confounded with common Cathartic or Purgative Pills, as they are entirely unlike them in every respect. One trial will prove their superiority

A writer on animals says that dogs greatly fear any strange object that appears at night. The Southern darkies think they fear ghosts.

The great lung healer is found in the excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

A man's wife should always be the same especially to her husband; but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they will make her "feel like a different person," at least so they all say, and their husbands say so, too.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. A Pleasant Herb Drink.
The best cure we know of for Constipation and Headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1. ywt

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

—An alleged correspondent in a contemporary thinks the ADVERTISER hardly consistent in holding views favorable to prohibition, and at the same time admitting advertisements of a contrary tendency. Exactly where to draw the line in such matters has never yet been clearly discovered by any class of society. If people did business only with those with whose views they were in every point agreed, there would have to be made a pretty big hole in present business intercourse. All the same, the ADVERTISER is solid every time for prohibition, whenever and wherever it can be got, and it proposes to hew to the line, knowing well that a law of compensation runs through everything, and that any loss sustained by upholding a right view is certain to be more than counterbalanced.

How Is This?

Their Golden Wedding.

After a residence in this city of about 30 years Mr. and Mrs. Edward McGarvey recorded their golden wedding anniversary on Sunday. Mr. McGarvey enjoys good health, but his wife has been an invalid for over five years. He was at one time in the grain and produce business here in connection with the late Henry Fysh, and also on his own account. He was a general merchant at Wyoming for over twenty years, and also dealt in petroleum and pot and pearl ashes on a large scale. They have five sons and two daughters. Three of the eldest sons are in Europe, engaged in the production and refining of petroleum oil, and own a large territory in the Province of Galicia, in Austria. They own about 200 producing wells and a refinery which cost $100,000 three years ago, and turns out 400 barrels of refined oil daily. In Alsace-Lorraine they have also another oil territory, and at each place have a gang of drillers from Petrolea working for them. The names of the sons abroad are William, Henry, James and Albert, and Edward W. and Thos. A. are engaged in buying and shipping ashes in Massachusetts. The daughters of the aged couple are Mrs. Dr. Westland, of this city, and Mrs. A. S. Vanalstyne, of Winnipeg. A cablegram from their sons in Europe has been received congratulating father and mother on attaining 50 years of married life, with hearty good wishes for many more.

Tiernan and J. D. LeBel; No. 5 ward, Jeremiah O'Loughlin and F. McNeil; No. 6 ward, Wm Regan and J. S. Moore. Rev. M. J. Tiernan was elected chairman, and Samuel R. Brown secretary-treasurer. The committees are made up as follows: No. 1 Committee, Messrs. Pocock, Boyle, Forrestal, LeBel, Moore and O'Loughlin; No. 2 Committee, Messrs. Brown, Wilson, Mulkern, McNeil, Regan and Rev. M. J. Tiernan. Mr. J. B. Vining was elected high school trustee for 1892. The Board decided to hold its regular meetings on the first Monday in each month at 8 p.m. During 1891 there were 732 children registered in the separate schools of this city, with an average daily attendance of 471.

Rose Coghlan at the Grand.

The splendid audience at the Grand last night was a treat, after the small patronage accorded recent good attractions. Theater-goers here are very conservative in this respect, and unless a company has been in the city before and they know its character, they are loth to turn out. Rose Coghlan is an old favorite, however, and in last night's performance never appeared to better advantage. "Dorothy's Dilemma" is a high-class farcical comedy of the brightest and breeziest kind. Its plot is very cleverly constructed, and the development creates a whirl of ludicrous complications that keeps the audience in a continual roar of laughter. Miss Coghlan has ample scope for a display of her versatility, and she carries out her difficult role to perfection. The scene in the second act, when, while in male attire, she is surprised by a visit from her lover, who came to the place with the intention of spending the night and to whom she is forced to disclose her sex, affords an exquisite bit of comedy acting. There are nine members in the company and each is a star. Wm. Redmund, John T. Sullivan and Thomas Whiffen are actors of continental reputation. John S. Marble and Edward Piper were the other male characters and no fault could be found with their work. Miss Helen Russell as Mrs. Pattersby gave a charming interpretation of a jealous, piqued, yet loving wife. Miss Beatrice Moreland and Miss Adele Palma were also excellent. The audience was very appreciative and twice Miss Coghlan was recalled by enthusiastic demand.

An Old Friend in the Northwest.

Wm. Thompson, formerly agricultural editor of the ADVERTISER, takes very kindly to his new position in Manitoba and the Northwest. Since he went to Winnipeg he has been over a good deal of ground, and has been able to look a little into its resources and possibilities. Writing to a member of the ADVERTISER staff, he says: "Winnipeg people talk of running out to Brandon much as a Londoner would speak of going to Ingersoll, and yet Brandon is 133 miles distant. In fact, one of the chief troubles of the country is its size. Its first needs are more people and continued branch and railway extension, though wonders have been accomplished in the direction of providing railway facilities." As to the population, Mr. Thompson thinks that the big crops of this year will stimulate immigration from other countries. The aggregate wheat yield this year will scarcely be less than 24,000,000 bushels—an average of 26 to 27 bushels an acre. One can understand what the yield means, says Mr. Thompson, when he remembers that it represents an average of over 1,300 bushels for every farmer in the Province, besides vast quantities of oats, and in some cases barley as well! It would paralyze the average Ontario farmer if he had 1,300 bushels of wheat to handle in addition to coarse grains. It is estimated that 40 or 50 per cent. of the wheat was more or less touched with frost, but Mr. Thompson argues, with the characteristic of a Northwestern philosopher, that frost is not an unmixed evil. Were it not for some such check wheat growing would become like the old California gold fever, and people might lose their heads. The manager of the great Lake of the Woods Milling Company told Mr. Thompson that they expect to keep right on buying wheat till August next. There are millions of bushels yet in stock, and the threshing machines will be kept busy running all winter; and if there are not some stacks left after next seeding it will be a wonder. The weather has, until recently, been phenomenally mild in Manitoba this winter, and threshing has not been interrupted. Prices have ranged from 75 cents per bushel downwards, according to grades. Mr. Thompson's first experience of a blizzard was for 36 hours, during which the storm was fierce and the snowfall constant, affording first-class sleighing around Winnipeg, while west of Brandon the wheels continued in use. He says the Farmers' Institutes are doing good work, and the Patrons of Industry are spreading rapidly. The next Winnipeg Industrial Exhibition will be held in the summer—probably in July—summer fairs being apparently better adapted for Manitoba than those held in autumn. Mr. Thompson looks for a Provincial general election some time this year. Hard work and hustling, he says, will generally bring good results to Northwest farmers.

Why It Is Popular.

Because it has proven its absolute merit over and over again, because it has an unequaled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day. z

LATEST FROM IRELAND.

Belfast is the greatest tea-drinking city of the United Kingdom.

The unusual mortality in Belfast continues, and is due to influenza.

The Very Rev. Thomas MacHale, D.D., nephew of the late Archbishop of Tuam, died at the Irish College, Paris, recently.

Great regret is felt at the death of Dr. C. A. Harvey, Dublin, which took place at his residence, Camden Quay, last month.

Mr. Henry Brougham-Leech, LL.D., Regius Professor of Law in the University of Dublin, has been sworn in as Chief Registrar of Deeds in Ireland.

Mr. William Bernard McCabe, whose death happened a few days since at Donnybrook, near Dublin, in his 91st year, was one of the oldest journalists in the kingdom.

In Louth extensive flooding was caused by recent heavy rains. People were forced to leave their houses, which were flooded to a depth of one or two feet in several cases.

The strike of the Belfast linen lappers is assuming a serious aspect. Merchants and trades-unionists appear determined to hold out, and a suspension of work is feared.

POWELL'S

The cutting and slashing of all prices of winter goods will startle buyers of Drygoods, Millinery and Mantles. We can't afford to hold our stock one day longer than we can push the goods out. Let it be remembered that we can afford to sell awfully cheap because we are always buying and clearing lines of goods from wholesale houses at desperately low prices; and buying bankrupt stocks when we can get a good stock at a right price, this enables us to undersell houses who buy their goods in the regular way. Don't forget, please, that January will be the month you will get all lines of winter Drygoods from cost to half the cost of hundreds of many desirable lines of goods. We could not sell at half price if we did not buy bankrupt stock and clear out job lots.

Everybody please remember that we shall clear out the following lines of goods at from cost price to half price, viz.:

Ladies' Mantles, Jackets, Dolmans and Ulsters, Girls' Reefers and Ulsters, Mantle Cloths, Sealette for Mantles, Black Henriettas, Colored Henriettas, Grey Flannel, Silk Pongees, Black Satin Mervellieux, Dress Goods, Fancy Goods, Blankets, Comforters, Lace Curtains, Ladies' Hats and Bonnets, Ladies' Cashmere Hosiery, Girls' and Boys' Ribbed Hosiery, special job lots.
