LAURIER'S ONTARIO TOUR WILL START AT CORNWALL TONIGHT

Ottawa, Sept. 30 .- Sir Wilfrid Laurier and Hon. Messrs. Fisher, Graham, Murphy and King, leave the capital this afternoon for Cornwall, where the opening meeting of Sir Wilfrid's tour of the older part of the province will be held tonight.

Hon, Sydney Fisher has joined the other ex-ministers for this week's series of meetings, and will speak especially

matters of interest to the agriculturists of Canada, Hon. Geo, P. Graham will have more to say in regard to the really startling disclosures as to the present Government's manipulation of the National Transcontinental Railway and the grade increases and deviations from original plans east of Cochrane now under way. Apparently the Government, to serve temporary political ends and private railway interests, is deliberately departing from the real interests of the country, and is nullifying the original plans to make the National Transcontinental an unrivalled through route for export grain and other commodities between Winnipeg and the seaboard.

It is worthy of note that no official denial has yet been made by the Government to the charges already made by Hon. Messrs. Graham and Murphy. When Parliament meets a thorough investigation of these charges will be insisted upon by the Opposition, and some sensational developments may be

October Fashion Show Tuesday and Following Days

THE LAST WORD FROM PARIS

Early in August the feminine world was wondering what the coming fashions were to be. Early in September Smallman & Ingram, upon the return of their buyers from Europe, made their pronouncement on what was to be and demonstrated the same in their preliminary Fall Opening, and practically simultaneously with the opening of the great Paris courtiers the fashion secrets were announced to the people of this city through these columns.

Since then every fashion letter from Paris, and every returning connossieur of fashion, has confirmed our first announcement. So we have today from Paris, garments showing the new developments of Orientalism, together with our own adaptations from Paris models, each chosen for its worthiness to represent the standard of the Smallman & Ingram store.

October Millinery Display

The last word from Paris, presenting to thousands of women to whom our word is final, the accepted millinery mode of Europe and America, the chosen and favored creations of the best houses in Paris, the accepted of the most critical dressers—American women. Here women find qualities that belong to the highest cast in Millinery. Here they recognize individuality, exclusiveness, tone, the elusive "something" that makes a work a masterpiece.

These Hats have been collected as one collects rare jewels—the choicest of the choicest only being considered—and the chosen of these will be found in our October Millinery display this week. Also in this display will be found a specially prepared showing of popular priced models, adaptations of Paris models from our workrooms. prices ranging from \$4 to \$10.

Among the Gowns and Wraps To Be Viewed This Week

are Evening and Afternoon Gowns from Paris designs, Evening Wraps, adaptations from Poiret and others of equal note, charming Gowns for debutantes, Tailored Suits, adaptations from Poiret, Francis, Amy Linker, etc.

Cortese Orchestra Tuesday Afternoon

LONDON, MONDAY, SEPT. 30.

MR. NEELY'S NOMINATION.

Mr. Neely has recaptured the party nemination in East Middlesex. It is a reward for perseverance, but for what else? Many influential Conservatives voted against Mr. Neely last December; they voted against him at the nominating convention on Saturday last, and they will vote against him at the polls again. Since the vacation of the seat by Mr. Sutherland's death; they have worked hard to try to make Mr. Neely see the advantages of private life. When it was realized that he had his back up and would not back down, Mr. Hanna was asked to come to the convention to pour oil on the troubled water, Mr. Hanna being in the oil business, anyway, and the Government's chief expert at lubricating the party ma-But even Mr. Hanna's oleaginous arts failed to produce a calm. Thirty-one out of 81 delegates refused to vote for Mr. Neely and some of them said so in plain English. If no one openly objected to the resolution to make the choice unanimous after the balloting, it is no proof that the revolt against Mr. Neely ended then and there. He was distasteful to many Conservatives before the election, and his actions since then have not tended to heal the breach. They are not likely to forget accusations of corruption made against them, and repeated after the election petition had been withdrawn.

Just why Mr. Neely considers himself indispensable at Toronto is apparent in his record as a statesman, which has been unequal even to the task of winning the entire goodwill of his own party in his own riding. However, as Mr. Neely has chosen to put his private ambition. above the interests of his party, it is not for Liberals to complain. In the present circumstances they will again have the support of Conservaves in East Middlesex who do not nk the Conservative party needs Neely.

THE ENGLISH SETTLERS IN KENT.

The report of Arthur Hawkes, special immigration commissioner of the Dominion Government, on the condition of affairs existing among the English settlers at Jeannette's Creek, Kent County, may be taken as an official and unprejudiced resume of the situation and should bring the Ontario Government to a realization of the dangers of such a glaring colon-Ization miscarriage. It is typical of the department presided over by the Hon. James Duff, that, so far as the public or the settlers themselves know, nothing in the way of alleviating the misfortunes of these old country people has been done.

The company which induced the settlers to come out bought 4,000 acres of land about twelve miles from Chatham, at a price varying from \$30 to \$50 an acre. It was sold at \$300 an acre in ten-acre lots, and a house of a sort was thrown in. The plan was to grow vegetables and market them, on a cooperative system, and the company was to provide instruction and said in the marketing. Though the soil is of a productive character, it has failed to produce crops that would return a living, and the reason, according to Mr. Hawkes, is that the land was not worked for two or three years with a view to converting it into garden land." He further charges that the company has failed to give the "green" settler the instruction promised, and that it dld not concern itself with the marketing problem.

The enterprise was promoted with the approval of the Ontario Department of Agriculture, and Mr. Hawkes charges the provincial authorities that upon them, with the company, must rest responsibility for existing grievances. He regrets that the company saw fit to take the attitude of not caring what the settlers or the public thought of the bargain, and that there seems small chance of the colony being ultimately successful unless the company and the Government give them considerable assistance.

Unless the Government takes immediate action, the settlement at Jeannette's will prove to be one of the most serious setbacks the province has had in its efforts to attract British set- I be doing?"

The marvellous increase in the wealth and trade of the United Kingdom is registered in a blue book just issued by the British Government, In the month of August last exports and imports touched the highest figures of clothes. ever recorded, but a better illustration is afforded by a review of a period of years, Foreign trade has advanced as follows:

HOW MUCH SLEEP [Chicago Record-Herald.] To complete an invention Thomas Edison recently worked 144 hours-six full days-with brief snatches of sleep and interment was made at Mount that aggregated only twenty-two hours. He is said to be able to go to sleep and conducted by Rev. Mr. Hart, of Hill to wake at any time he wills. envied by those who wish to accomplish much and regret the loss of time given to rest. Not all of us can be Edisons, of course, even by much endeavor. But can we, should we, do with less sleep? Mr. Edison himself regards sleep as a waste or time and an inherited habit that originated in primitive man's lack of artificial light. But it is a habit that has back of it thousands of years of practice, so that it has become essential to the human race. To generalize on the experience of Mr. Edison, or of any other one individual, would be dangerous and unscientific. Many noted men have slept little, but who shall say whether they might not have done better work if they had slept more?

[New York World.] Pennsylvania's restriction the speed of all trains to seventy miles an hour, taken in conjunction with this road's agreement with the Central to lengthen the 18-hour Chicago schedule of both lines to 20 hours, indicates a tendency away from the old speed ideals of American railway management. It is significant that the new policy is adopted at a time when in improved roadbeds, stronger bridges, steel equipment, and in everything but tougher rails, the roads are in a better position to run fast trains with safety than when most of the "limiteds" and "flyers" were instituted.

Most speed records on American railroads, in fact, were made under less secure operating conditions than glad to hear even the slightest word now exist. A Lehigh Valley train in 1897 covered 44 miles at the rate of 80 miles an hour; a Burtington train in 1902 ran 15 miles at a 98-mile gait, and a train on the Plant system in encyclopaedia, "A dissolute, fanatic 1901 accomplished the remarkable feat of running 5 miles at the rate of 120 miles an hour. As far back as 1848, the Great Western of England ran a train 53 miles at a speed of 68 miles

an hour. Seventy miles an hour is the maximum speed allowed on French railways. It is more a theory than a condition as respects trains on regular schedule in any country. The Pennsylvania's and the Central's Chicago flyers average under 60 miles an hour. The fastest German train, running between Berlin and Hamburg, maintains a speed of only 55 miles an hour, and faster.

Some day chairs will be established in theological seminaries to awaken the ministerial mind to the possibilities that lie before the preacher in the use of English literature. The lives of poets and their works constitute an amazingly rich quarry from which the well-read minister can extract splendid material for his discourses. Once in a while we run across a dilettante minister who is forever quoting Browning, but, as a rule, our preachers of today are not alive to the use of literary illustrations. The Rev. David Christie, pastor of the beautiful new Westminster Church of Winnipeg, is, however, a keen student of the masters new pair of shoes and fears the of song and story, and, while he is eagle-eyed shoeman will discover the careful not to everdo it, he delights his large congregations with the literary material in his sermons. chanced to hear him the other evening on this interesting theme, "Edgar Allen Poe's Four Essentials of Happinot a happy man himself, but Mr. put the wind in Windsor and the one ness." The author of "The Raven" was Christie believed that the poet's advice was even more powerful in its appeal because of his own wrecked life. The preacher then quoted Poe as having declared that the man who desires happiness should (1) take care of his body, (2) know the love of woman, mother, sister or wife, (3) master selfish ambition, and (4) pursue ceaselessly some object in life, and the more spiritual the object the nearer he will attain perfect happiness. In enlarging upon these four points Mr. Christie built up a sane and exceedingly impressive sermon.

So much has been said in dispraise of Edgar Allen Poe, that I am always of sympathy for that great and lonely genius. The general conception of Poe's stock. life is that contained in an American writer, who died at Baltimore, in consequence of fits of intoxication." Griswold, Poe's first biographer, attacked his character with malevolent zeal for the deliberate purpose of taking rerevenge on the dead poet for some personal slight that he had received from him. The brutal misrepresentations of that first biography have never yet inquisitive people were rewarded on been eliminated from the public mind, locking into the box by seeing although Ingram and other scholars have exposed the slanders against the name of a man more sinned against than sinning. His love for his wife was a sort of rapturous worship of the spirit of beauty, which he felt was fading before his eyes. I have seen him hovering around her when she was ill, with all the fond fear and tender anxiety of a mother for her first-born-her slightest cough causing in him a shudder and heart-chill that was visible. Referee's Decisions and Fluke Touch down Deprived London of Game -A Good Exhibition.

The Rugby season was ushered in in versity team by the score of 13 to 10 series starts—the advantage of confia lucky one for Woodstock, a freak touchdown and some poor decisions by Referee Russeil, of Woodstock, depriving the locals of a victory. Shortly after play started in the second half of the game, Ardiel made a nice run and went over the Woodstock goal line for a touchdown. After the play had been made, Referee Russell would not allow it, as he claimed Ardiel was offside when he got the ball. The decision raised a storm of protest from the Med. team, and had the game been a scheduled district one, it would be protested on the decision.

A Freek Scare in an exhibition game. The win was

decision.

A Freak Score.

Woodstock scored two touchdowns shortly before half-time was called, the second one being more of a fluke than a plece of good playing. After Woodstock had failed to convert the first try, and London had kicked off, the ball was kicked back into London territory. Both Judd and McKay went after it, but the pigskin took a bad bound and got away from both players. Both made a grab for it, but one of the Woodstock halves beat them to it, and fell over the line for another try. This time Woodstock converted, making their first eleven points in less than four minutes.

London's first score came just before

London's First Score.

London's first score came just before
the first quarter ended. On a scrimmage

Woodstock team fumbled the ball and Wor istock team fumbled the ball and Berton, of London, fell on it and carried it over the line for the first touchdown of the game. The attempt to convert it failed, and the first quarter ended a minute later with the score 5 to 0 in London's favor. London's favor.

London could not score again before half time, while Woodstock ran up eleven points, the half-time score being 11 to 5.

The Second Half. and Hogg and Ardiel were put in. Hogg in the scrimmage in places the latter going to insid wing. Ardiel was put at the middle wing, and Chatto was moved to outside

The change worked for the better, and the locals played a much better game in the second balf than in the first. About five minutes after play began, McQueen bucked over the Woodstock line and scored London's second touchdown. London failed to convert, however, and Woodstock still held the lead by the score of 11 to 10. London was playing a strong game at this stage, and a few minutes later Ardiel secured the ball near the Woodstock 25-yard line, and after a nice break through the wing, carried the ball over for a try. However, Referee Russell destroyed that Ardiel was offside and the declared that Ardiel was offside, and

ouchdown did not count.

Two More for Woodstock.

The third quarter ended with the score still 11 to 19, but in the last quarter Woodstock forced London to rouge a couple of times, and made the score 13 to 10. The game ended before London could overcome the lead. The game was a comparatively clean one, although a couple of the players en-gaged in blows during the heat of the struggle. However, no ill-feeling existed between the teams, and the players made an effort to play the game at all stages. Meds Look Good.

Considering the few practices and the condition of some of the players, many of whom were playing their first game of football, the London team made a good showing, and when the squad is strengthened by Captain Stevens and his band of Meds, the Western University Rugby Club should be a big factor in the junior O. R. F. U. championship this season. Saturday Judd, McKay, Chatto, J. and B. Little, McQueen and Smithson played a good game for London. The London back division is a good one, but the forward division is not yet up to the mark. Time and again the Woodstock wings broke through the line and blo-ked a London kick. However, a little more practice should strengthen this weakness. and when the O. R. F. U. opens the med team should give a good account of itself, For Woodstock, Firstbrook, Brecken-ridge and Sutheraind played a good game. The game was free from injuries, R. Yohn being the only player who was forced to retire. He was kicked in the head in the second balf, and his place vas taken by George Little.

The second game will undoubtedly be a battle between the southpaws-Marquard of the Giants and Collins of the Red Sox. These men, going right, are nearly equal. Marquard has received more publicity than Collins and his picture has appeared more times in the papers. AUSTRALIANS NEED 127 RUNS TO WIN OUT

Have Eight Wickets Still To Go in Match at Philadelphia.

[Canadian Press.]
Philadelphia, Sept. 30.—The international cricket match between the Australians and the gentlemen of Philadelphia, begun last Friday and will be resumed at 2 o'clock this afternoon, is in an interesting stage. If the bowling of the Philadelphians is anywhere near as good as on Saturday, the Australians may find it hard to win. The visitors have eight wickets left and need 127 runs to win. American Athletes Are Winners at Canadian Meet at Montreal.

ENTRY LIST WAS SMALL

Many of Toronto's Best Athletes Were Not Present at Meet-The Results.

Montreal, Sept. 29. — Under ideal weather conditions on Saturday the Americans carried away a large share of the national championships. One track event brought out a new record, that of the mile run, which was won in masterly fashion by A. R. Kiviat, of the Irish-Americans, on a track that was far from fast, owing to the recent heavy rains. Perhaps the greatest disappointment of the afternoon was the defeat of Marc S. Wright, who holds the world's record for pole vaulting. He showed none of his much talked-of ability, and from the start of the competition vaulted poorly and failed at eleven feet. When the pole was placed at twelve feet Hapenny cleared it on his second try, while Bricker, of Toronto, and Babcock both failed. This gave the championship to the local worlder. Only three competed in the throwing of

the discus and the sixteen-pound shot, the latter being won by D. J. Cable and the former by J. Duncan, Duncan's throw was ten inches below the mark, while Cable's distance was more than ten feet The Boston athletes, who had done so

Connie Mack's Team Will Give Pointers About McGraw's Men to Boston.

Philadelphia, Sept. 30.-When the Boston Red Sox come here this week to close the baseball season, the home team expects to put the new pennant-winners through a course of practice that will aid greatly in fitting them for the world's series. Connie Mack's men having been series. Connie Mack's men having been through the fire of two world's series, one of them with the New York Giants, the local Americans expect to give Jake Stahl's men many pointers. This they will do partly through their loyalty to their own league and partly because James McAleer, president of the Boston Americans, managed the two teams of star players that kept the Athletics on edge for their series against Chicago and New York. New York.

Bender and Coombs will give Wood and the other right-handed pitchers of the Red Sox the benefit of their experience against the Giants and Plank will do the same for Ray Collins, a left-hander.

Chance Well and Expects to play; Murphy Is Firm

Chicago, Sept. 29.—Frank L. Chance, manager of the Chicago National League baseball team, said here today that he had received no official notification that
he had been deposed from that
position by President Murphy
of the club. Chance said that the operation he recently underwent in New York for removal of a in New York for removal of a blood clot in his spinal canal was a complete success, and that he expected to play ball all next season.

Chance and Murphy did not meet today. Murphy was positive in, his assertion that there was no likelihood of Chance being retained

as manager.

"My stand with regard to drinking by the Cubs, and the announcement that Chance will not be manager next year, stand just as they were first expressed," said Murphy.

The McCaffrey Family, of Toronto, Lost Lives Near Omemee-Nothing Known of Tragedy Until Sinking Canoe Was Found-All Bodies Have Been Recovered.

Toronto, Sept. 9 .- In the placid wat- to his expectation, Charles McCaffrey ers of Pigeon Creek, which winds its father of the drowned man, became way into Sturgeon Lake, near Peterboro, 70 miles east of Toronto, five people lost their lives yesterday afternoon, when a 16-foot canoe capsized. An entire family was wiped out: William J. McCaffery, his wife, son and daughter, of 16 South Drive, Rosedale, Toronto, and his mother, Mrs. Charles McCaffrey, of Omemee, a village near which the tragedy occurred. No one witnessed what must have been a terrible struggle for life. An overturned canoe, gradually sinking, found in the middle the creek, where the water was about 10 feet deep, revealed the almost unbelievable truth. A few hours later the body of William McCaffrey was located and a fishing line, which was wound about his wrist, was being erked by a 14-pound lunge, showing that the direct cause of the fatality was the "strike" of the fish on the troll, which evidently excited the party of canoeists. All the bodies were re-covered Sunday after they had been grappled for for many hours by a number of villagers. The bodies of Mrs. McCaffrey and her daughter were angled in the line. The following is the death toll:

William J. McCaffrey, aged 39 years, ssistant manager of the supply deartment of the Canadian General Electric Company, whose home is 16 outh Drive, Rosedale.

Mrs. Charles McCaffrey, his mother, ged about 65 years, of Omemee, near eterboro, Ont. Mrs. William McCaffrey, his wife, aged 38 years.

Maxine McCaffrey, his daughter

Howard McCaffrey, his son, aged A Holiday Outing. KALLY DAY PKUYED A BIG SUCCESS

Event Was Observed in the Churches of London on Sunday Afternoon.

A SPECIAL SERVICE DAY

Every Edifice Filled With Congrega tions of the Future Hope of Church and Nation.

Parents and children of the Presby-Baptist and Methodist terian. Churches, where rally day was observed yesterday, combined in their efforts to make it a success and succeeded beyond their most sanguing hopes. Favorable weather, coupled with bright services, brought hosts of the little folks, while a large crowd of parents are also attracted in behalf of the juniors' special day. several of the churches the work being continued throughout the coming week, and the interest shown in Sunday's services will undoubtedly be maintained in these also,

In the First Methodist Church mov ing pictures occupied the greater part of the service in the afternoon, and this feature in itself was a magnet to William McCaffrey was an expert a great many children. The pictures depicted the life of the Chinese, and swimming. It is not known whether the work of the missionary among the the other members of the party could heathen in that far-away land, and were explained by Dr. Wallace Craw ford, a missionary, who has recently returned from the field. In the evening a song service by a very large choir attracted many churchgoers.

> Dundas Centre was filled with hundreds of the little folks for the Sunday school services. The attendance some years past, Messrs, F. W. C. Mc-Cutcheon, Mr. Frank Curran, Rev. Dr. Manning gave brief and entertaining addresses to the children and some fine sacred music was contributed by the Sunday School Orchestra.

Three splendid services were held King Street Presbyterian Church on Sunday. In the morning, the pastor, Rev. W. R. McIntosh preached a sermon on "Important Points in the Religious Education of the Young." He drew the attention of parents to the fact that the great responsibility placed upon their shoulders in educating their children morally was oftentimes slighted. In the afternoon there was a Sunday school rally, which was featured by an address by Rev. H. A. Graham, entitled, "Reaping and Sowng.' A unique feature of the service flower procession, in which all th hildren, carrying flowers, took part. the evening service was in behan of the younger element of the congrega tion, when the pastor based his ad-

iress on "Efficiency," teiling them that in this competitive age the slipshod methods practiced by many would not do, and urged them to greater efficiency in all things. The rally services are to be continued throughou week. Tonight an 'At Home is being given by the young people. On Wednesday the prayer meeting will be held, and on Friday the adolescent boys will make social arrangements for the coming winter. At Knox Church a harvest home ser

vice was combined with rally day. The evening service was addressed by Mr. H. Campbell, of Saskatchewan, who spoke on the needs of the western provinces in regard to ministers of the gospel, stating that there was room for fifty ministers at the present time in his province alone.

Many parents as well as children attended the special services in St. drew's Presbyterian Church. The rally efforts will continue the rest of the week. Mr. W. H. Lladicoatt gave a most interesting address to the children of the congregation. In the morning the pastor, Dr. Ross, spoke to the adults of the congregation, and to the children in the evening.

A special program was given by the school orchestra, in addition to bright addresses at the rally in Hyatt Avenue Methodist. The addresses were by Rev. A. V. Walden and Mr. F.

Here is a case which seemed as bad and as hopeless as yours can possibly be. This is the experience of Mr. H. J. Brown, 384 Bathurst St., Toronto, in his own words:

"Gentlemen-I have much pleasure in mentioning to you the benefits received from your Na-Dru-Co Dyspepsia Tablets and can cheerfully recommend them. I simply had confirmed dyspepsia with all its wretched symptoms, and tried about all the advertised cures with no success. You have in Na-Dru-Co Dyspepsia Tablets the best curative agent I could find. It is now such a pleasure to enjoy meals with their consequent nourishment that I want to mention this for the benefit of others."

The fact that a lot of prescriptions or so-called "cures" have failed to help you is no sign that you have got to go on suffering. Try Na-Dru-Co Dyspepsia Tablets and see how quickly this sterling remedy will give you relief and start your stomach working properly. RAINFALL IS DOUBLE THAT OF YEAR AGO

Phenomenal Amound of Water Fell in the Past Three Months.

According to the figures compiled by the local observatory in South London, the rainfall during the past three months, July, August and September, has been phenomenal. The figures this year are nearly double those of last year. During the three months of 1912 the total rainfall was 15.13 inches compared to 8.94 inches for the same months last year. More rain fell in August of this year than July and August together, last year. Also, more rain fell in any of the three months this year than in the months of July and September of a year ago. TRAVELLERS WERE **VERY VERY ANGRY**

Didn't Know of Change in Time Table and Missed Train.

Ther was some excitement on the Grand Trunk depot platform this morning about 7.39 o'clock, and for a time it looked as though somebody was going to "start something." The excitement issued in large and vociferous packages from a crowd of thirty or more travellers who were gazing with an air of much wrath at the rear end of a departing train going at the rear end of a departing train going east. It was a case of "too late for the train," and these thirty or more knights of the grip, who had been catching that train every Monday morning for years and years could not understand it. It looked as though the Grand Trunk was grant train to "but something over on them." Imperial Bank, 24 at 224½; Bank of Toronto, 35 at 209; Bank of Hamilton, 1 at 206; La Rose 100

A pretty home wedding was solemnized at the residence of Mr. and Mrs. John Symes, of 238 Burwell street, when their third daughter, Miss Sara Myrtle, was married to Mr. John Stanley Williams, of this city. The ceremony was performed by Rev. Frank C. Harper, B. A., B. D., minister of Chalmers Presbyterian Church, the presence of only the immed-te relatives. Mr. and Mrs. Williams ft after the wedding breakfast on a short honeymoon trip, but will depart this week to make their residence in Los Angeles, Cal.

CITY WILL INQUIRE INTO SEWER CHARGES

Contractor Leathorne Will Be Present to Give His Side of Case.

The special committee named to ST. MARYS PARISH investigate the Rymill charges will meet this (Monday) evening to inquire into the sewer laid on Elias street. Both City Engineer Wright and Mr. Chris. Leathorne, the contractor, will be present, and will be examined by the committee.

Some doubt has been expressed today regarding the ability of the council to compel Contractor Anthistle to relay the sidewalks on the main streets, provided the aldermen find that they are not up to specifications.
In conversation with a leading lawyer of the city this morning, it was stated that according to the agreement all the council can compel Mr. ment all the council can compel Mr.
Anthistle to do is to keep the walks
in repair for five years. He was
emphatic in saying that if the case
ever went to the courts it would be
impossible for the city to collect damages in view of the fact that the work
was done under the inspection of the was done under the inspection of the city's representatives, and 85 per cent of the money due on the contract has

been paid over.

The city representatives claim, however, that Mr. Anthistle signed an agreement to lay the sidewalks acording to certain specifications. If e did not live up to those specifications the city can compel him to do , or secure damages from his ondsmen.

"We are sufficiently protected," de-clared City Engineer Wright.

Hon. G. R. Wendling closed his series of lectures in London on Saturday night, when he gave a lecture on Robert E. Lee, one of the commanders of the Confederate army during the civil war in the United States. Mr. Wendling stated that Lee is regarded as one of the greatest heroes in American history, particularly in the South. The speaker followed Lee's career from the time that he entered school until his death, and stated that his success was due to his character entirely. A vote of thanks was tenered to Mr. Wendling by the audience, and the hope that he would return for another series of lectures soon return for another series of lectures soon was expressed by all.
