HOTELMEN OF CITY AGREE TO RESTRICTIONS

Will Sell Only Malted Liquor After 5 O'clock in the Afternoon.

APPLIES TO EVERYONE

Request of Militia Authorities Responded To by License Holders.

INTO EFFECT AT ONCE

Beer, Ale, Porter and Soft Drinks Only Obtainable in Bars Now.

No more "hard stuff" or wine will be sold in London bars after 6 o'clock, city time, in future. This was decided at a meeting of the hotelkeepers, held at the Tecumseh House today, at which all but two or three were present.

The action has been taken now upon the request of the military authorities, but was suggested some time ago by the hotelmen, who expressed their willingness to observe such a rule if it were considered beneficial. After some delay, the military authorities sent out the request based on this offer.

In order that there may be no hard feeling, the rule will apply to all purchasers, not merely to soldiers. Even wine will be barred, so that the possession of a certain amount of money will not enable anyone to obtain the headier kinds of liquid. Beer, ales and porter, along with soft drinks, furnish the choice for all.

It is anticipated that this will assist materially in preventing drunkenness.

High Officials at U. S. Capital Expect a War With Mexico -Carranza Gathering Huge Supplies of Ammunition -American Refugees From Capital on Way to Vera

[Canadian Press.] Eagle Pass, Tex., June 21.-Consul J. R. Silliman arrived in the city early today from Saitillo, coming by way of Monclova, owing to the cessation of railroad traffic between Monterey and Nuevo Laredo. He expects to remain here for several days. Mr. Silliman is the last Amer-

ican consul to leave Mexico. General Murgia, a Carranza commander, arrived at Piedras Negras, the Mexican town opposite here, today, with a detachment of 2,000 Yaquis, reinforcing the garrison there. A large part of the civilian population of Piedras Negras has already moved south.

[Canadlan Press.]

Washington, June 21 .- The United States today anxiously awaited word from Mexico City regarding General Carranza's attitude toward the American note sent him yesterday, for on him depended the question of war between the two republics.

High officials here admitted privately they look for war, although care was taken to avoid any formal expressions or acts which might appear forerunners of a declaration of war. The only answer required from General Carranza is action suppress

Preparing to Act. The war department today was preparing to act on Gen. Funston's request for immediate dispatch of a number of National Guard units to the border. Several days may elapse before any great number of militia units can be mustered into the federal service. Reports of great enthusiasm and rapid recruiting throughout the States continued

Great interest was expressed in the probable course to be followed in case Mexicans attack the American column. It was regarded as probable that a general rapid advance would be ordered from the border to a line perhaps 100 or more miles south of the border. This line then would be fortified and held until volunteer reinforcements become available. Thus fighting would thrown into the enemy's territory and the border protected against further bandit attacks by thorough policing of the country behind the main line.

A special train bearing several hundred American refugees from Mexico City to Vera Cruz was to leave Mexico City today, according to word from Special Agent Rodgers at the Mexican capital.

Petrograd today. When the Austrians

their hope was to have time to hold

the Russians on the fortified line run-

rivers Mikhodra and Sereth. But de-

spite the delay caused by the prolong-

ed defence of Czernowitz Gen. Letch-

heels of the retreating Austrians at

such speed that he succeeded in reach-

The result was that Gen. Pflanzer's forces were cut in half midway be-

tween Kuty and Sereth at Stroginet.

Dominion Government Has Not Yet Acted to Secure Proper Inspection.

The Canadian Society of Domestic Heating and Sanitary Engineers which opened its 37th annual convention here yesterday discussed at this morning's session questions which should be of vital interest to the public at large.

The society has been for several years attempting to induce the Dominion Government to enact legislation that would authorize a uniform code for the installation of plumbing and supplies Dufferin avenue, to cost \$2,500. The society went on record to the effect that efforts would now be made in the near future to enlist the aid of assurance, insurance, fraternal societies and manufacturers of plumbing supplies, to amalgamate with one end in view, so that greater and more in-fluential pressure might be brought to bear on the Dominion Government The argument advanced by the so Farmers, having despaired of getting ciety, and the reason given why the

This, the society believes, could eliminated to a great extent by the Dominion Government passing legislation which would authorize uniformity in all oranches of the trade. With this object in view, the society efforts will now be headed toward amalgamation of the above-named lines of business for the one purpose only, and

AFFLICTED WITH LAME BACK

Could Not Sweep the Floor.

Women are coming to understand that weak, lame and aching backs from which they suffer so much excruciating pain and agony are due to wrong action

of the kidneys.

The kidneys are overtaxed - given more work than they can do, and when the back aches and pains it is hard for a woman to look after her household duties, for no woman can be strong and well when the kidneys are out of order. On the first sign of any weakness in the back Doan's Kidney Pills should be taken. They go right to the seat of the trouble, cure the weak, aching back, and prevent any serious

kidney trouble liable to follow. Mrs. L. Gonshaw, 683 Manning avenue, Toronto, Ont., writes: "I take great pleasure in writing you, stating the benefit I have received by using Doan's Kidney Pills. There was a fair aton Sunday, according to other reports to tendance and several addresses were delivered. The chair was occupied by the president, Dr. F. D. Canfield of Ingersoll. Donald Sutherland, M. P. for he riding, delivered an address in which he emphasized the work done

by the Borden Government, especially since the outbreak of the war. V. A. Sinclair, M.P.P. for South Oxford, spoke principally of the work done by the Legislature during the past year, particularly in patriotic affairs.

A spirited address was given by Hon. H. Howard Ferguson, minister of lands, nines and forests. He discussed educational matters as pertaining to the French population. In the course of his address he made the statement that to be a Liberal-Conservative tolay was to be an Imperialist." The bilingual question, he said, hould never have been brought up at

-is due to the fact that it wasn't afraid to discard obsolete ships, methods—and men.

When Lord Fisher started to revolutionize the British Navy-not only did he scrap useless ships which could neither fight nor run away-but he also scrapped useless men. It is this courage to wipe out ultimate waste by the "scrapping" of obsolete methods and machinery-that stamps "efficiency" on the man of to-day.

But there are thousands of business men who strive for 100 per cent. efficiency in the factory or office who are still content with 40 or 50 per cent. in the morning toilet.

The Efficiency

The demand for more speed, less mess, less of the tedium of re-lathering, rubbing-in, and slow difficult shaving, and less smart, bite and irritation, has caused many men to discard successively the mug, the stick and the powder as they would discard a wasteful, antiquated machine in the factory.

Mennen's Shaving Cream overcomes every objection to mugs, sticks and powders. It wipes out waste, "rubbing-in," and re-lathering. It is sanitary. It actually softens the beard. It leaves the skin soft, cool and refreshed. There is not a bite or a smart in a tube of it. Mennen's Shaving Cream costs but little more than bar or stick and lasts longer than powder. A 25-cent tube, if used according to directions, will deliver a shave a day for months. It is without free caustic; its healing, soothing properties make lotions unnecessary.

Most thin people stay thin because their powers of assimilation are defec-Most thin people stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay there in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood's carrying power.

A TRIBUTE TO DR. CLARK.

T HE Winnipeg papers are loud in praise of Rev. W. J. Clark for the part he played in favor of church union. His speech was one of the greatest contributions to the subject ever made. In London his friends are legion, and he is remembered by all as the beloved pastor of First Presbyterian Church for many years.

The Manitoba Free Press said of his contribution to the debate: "Dr. Clark's speech came as near genuine oratory as the Assembly is likely to get. Wives Sometimes Object To Life Assurance But__ Widows Never Do

Many a man has failed to insure because of his wife's noble but misguided scruples. She didn't want even to think of her husband being taken from her. The thought of money forcing itself into such a tragedy filled her with horror.

Such a woman overlooks the awful plight of a family left destitute. It's a husband's duty to protect his family from want and suffering after his death. A wife who opposes her husband in performing this duty is unfair to him, to herself and to her little ones.

All Wheat

Ready to Eat

MADE IN CANADA

The New Whole Wheat Food with the Delicious Flavor originated by the Kellogg Toasted Corn Flake Co.

HE youngsters of today are far luckier than father and mother when they

were young. For breakfast it used to be mush and milk and then milk and mush. Today the young sters ask for KRUMBLES-and get it, too.

This new whole Wheat food with its delicious flavor is just what active minds and bodies need-rich in protein, the food that builds brain and muscle-rich in starch, the great energy-food—rich in phosphates and mineral salts-rich in bran, with its valuable laxative properties.

All the wheat, cooked, "krumbled," and delicately toasted by the Kellogg special process that brings out the full, rich flavor of the wheat.

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa.—Do you wear glasses? Are you a victim of eyestrain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses, and my eyes blind might have been saved if they had cared for their eyes in time.

For this urpose he strongly recommends the lan now generally adopted throughout urope of taking a teaspoonful of ormany bisurated magnesia in a little dinary bisurated magnesia in a little water immediately after eating or whenever pain is felt. This immediate neutralizes the acid, stops the fermentation, and permits the stomach to do its work in a normal manner, and thus by removing the cause, enables nature to quickly restore the inflamed stomach loning to a perfectly healthy, natural condition. For the convenience of travelers it may be noted that most druggists are now able to supply bisurated magnesia in 5-gain tablets, two or three of which will almost instantly relieve the most violent attacks of indiges.

The yearly revenue derived from the investments of the order now constitute a very substantial amount of the annual income. Interest earned on investments of insurance funds during 1915 amounted to \$251,435.51, and paid 42.45 per cent of the total death claims on the Order.

His letter. written from a war hospital in London, England, follows: "I guess you have heard of my

little misfortune, or perhaps it was more luck than anything else, as I got off far better than my chum and

some of the other boys.
"You have read of Ypres In the papers. It was one of the largest cities of Belgium, but it is nothing but rulns now. There isn't a solid building left, only frames. It is an awful sight. Our company was in the front-line trenches for six days, and the enemy shelled us like hallstones every day. We could do nothing but stick to the parapets and say our prayers.

"On the last day we were in the trenches they shelled us more than ever. They knew we were going out so they were giving it to us for all they were worth, because they hate the Canadlans. We lost a terrible lot of men. My chum had his head blown off as he was sitting close to me on the firing board.

"There were three more boys sitting beside us, and two of them were killed. The third was seriously wounded. I got off with being knocked over when the parapet fell in, carrying me down with it. Sand bags hit me on the head and the back, leaving me with concussion, and as you see, I am back in Eng-

replete with startling incidents is a letter describing part of the last great German Shell Threw Coil on Arm of Pte. Charles Little, Whose Home is Here.

> Reading between the lines of the press reports that have chronicled the ravery of the Canadians at the great battle of Ypres in the early part of the present month, the gallantry and dash of the boys of the Maple Leaf has been most apparent. The terrific toll that this bravery exacted has been indicated in the heavy casualty lists that have appeared daily in the Canadian papers, but letters now coming from London boys who went through the hell fire at Ypres give the intimate side of the great battle.

Pte. Bruce Little, son of J. A. Little, 132! King street, was one of the Londoner's whose name appeared in th casualty list that followed Ypres. His father has had a letter from him that gives some idea of the price paid for the Canuck stand. Pte. Little enlisted in Regina with a reinforcing company to a famous Canadian regiment When his company was in Montreal rior to going overseas, he sent home a picture of Regina boys. As he says in his letter many of these have fallen. The "George" referred to in the folowing letter that describes how one ompany of Canadians held a trench or 17 hours against fearful odds, was chum and comrade who enlisted with im. He is Pte. George Rowan, who omes from Regina.

Pte. Little was originally reported as aving been wounded in the arm by hrapnel, but his letter corrects that report. By a peculiar trick of fate a German "sausage shell" threw a coil barb wire on his arm. Pte. Little's orother, Trooper Bruce of the Royal Canadian Dragoons, who enlisted at Weyburn, Sask., was wounded in the arm some months ago, and is home in the west now on furlough from the

The letter, dated June 6, follows in

"Well George and I both came through the fracas at Ypres marvellously well, although George had a nasty flesh wound in the side from shrapnel, which is not at all serious, but should get him to England. "The hall of steel which lasted

"Fritz had broken through farther up and was on three sides of us, and our piece of trench was cut off at both ends, but we stuck there for 17 hours until ordered to fall back, as the position was useless.

"We retired under a heavy fire and it was then that George was hit. I went with him to the dressing station, and the doctor sent me down the line also, my arm being very swollen. Tomorrow I am going to a convalescent camp, close by, for two or three weeks, and then will be sent to our base camp until the next draft for the battalion leaves, which will not be long, as they are badly needed. "The Germans have a very effective and thorough method of trench attack, and our boys did splendidly, but infantry alone is helpless against modern artillery. My ears haven't stopped ringing yet. George and I both made sure of shooting some Huns."
