FRANCE RECOGNIZES WRANGEL AS HEAD OF SOUTHERN RUSSIA GOVT.; RENDER HIM MILITARY

Decision Is Made by French A uthorities Following Promise of Wrangel To Assume All Obligations of Former Russian Administration and Give His Country a Democratic Government-Great Brita in Is Notified of Latest Move.

Paris, Aug. 11.—The French Government has decided to recognize Gen. Baron Peter Wrangel as head of the de facto Government of South Russia. In making this announcement, the ministry of foreign affairs said this recognition implied rendering Wrangel all possible military assistance.

France will send a high commissioner to Sebastopol immediately, the foreign office stated.

Two reasons were given by the foreign office for recognizing Gen. Wrangel. The first was his promise to assume all the obligations of the former Russian Government. The second was his promise to give Russia a democratic government.

France notified Mr. Lloyd George yesterday of her action to this effect, it was stated. The French Government likewise is notifying its commercial attache in London to have no dealings with Leonid, Krassin and Leokameneff, the Soviet emissaries in the British capital.

The French foreign office regards the Soviet terms to Poland, which the British premier read in the House of Commons last night, as only preliminary, and was convinced that the Soviet later would expect much harsher peace terms.

In announcing the recognition of the South Russian Government, the ministry of foreign affairs said the soviet government's anxiety with regard to Gen. Wrangel's success was due to its knowledge that he was the most competent anti-Bolsheviki leader who had yet appeared.

The French believe Gen. Wrangel shows more promise of overturning the Bolshevik regime than did the Poles, Gen. Deni- Appeals For Food Come From kine or Admiral Kolchak, in their operations against the soviet. Gen. Wrangel, the French point out, is meeting with great success in turning all the Cossack tribes against the Bolsheviki.

Everywhere in all his trip from one end of Russia to the other, the cry for food and clothing was heard. It was voiced by the old Russian peasantry at the Chinese frontier. It was heard again through the heart of Russia, where the crews of locomotives were clad in ragged garments with sandal-like shoes, braided from the bark of trees. As they stoked their engines they begged for black bread from the little group of foreign refugees who were passengers on the train being sent from Moscow to the Finnish frontier.

ROYAL BLACK KNIGHTS GOING TO BRANTFORD

Four Preceptories To Attend Big Gathering in Telephone City.

Plans have been completed by the London and district preceptories of the Royal Black Knights of Ireland for their trip to Brantford tomorrow. Four preceptories from London and a few from Lucan, Dorchester, Purple Hill and the Duke of York (Southgate) preceptories will leave by a special train on the G. T. R. at 8:10 a.m. tomorrow. The local preceptories are: Covenant, No. 346; Inniskilling, No. 834; King Solomon and Langemark. Covenant Preceptory, No. 366, will head the procession with Hackett L. O. L., No. 805, fife and drum bandpleying the music. Inniskilling Preceptory will have the McDonald Pipe Band to supply music, and each of the others will have fife and drum bands.

The Sir Knights will gather in the market lane, and proceed to the station via Dundas and Richmond streets. Twelve cars will comprise the special train for the men of London, who will be joined on the way down by the preceptories of Woodstock and Ingersoll. Cars will be added to the train at these stations.

The chief speaker of the day will be H.C. Hocken, M.P., Toronto. Several other prominent speakers including Mayor McBride of Brantford, will also address the Sir Knights.

The special train leaves Brantford at 8 o'clock, and the party is expected to arrive home about 10 o'clock.

The celebration of the Royal Black Knights will be held in London next year.

BUILDING MAY BREAK RECORD

Permits Coming In Steadily

To Be Issued Later.

Building this month is keeping well up to the average established earlier in the year, but unless the unexpected happens, there is no hope of it reaching the total attained in August last year. Two new theatres and other large buildings placed the figures for that month well above half a million dollars. This year the building each month has kept consistently ahead of the total of the corresponding month last year. This will help in overcoming the long lead given by the extensive building program last August.

The Ideal Woman

The great Napoleon once said: "My ideal woman is not the beautiful-featured society belle, whose physician tries in vain to keep her in repair, but the matron who reaches middle age in complete preservation—that woman is rendered beautiful by perfect health." To attain such health in middle life a woman must guard against those ills which drag her down and produce nervousness, headache, backaches, sleeplessness and "the blues." The standard remedy for such conditions is Lydia E. Plakham's Vegetable Compound, which for forty-five years has been restoring women to health and strength.

Statistics of the Children's Aid Shelter show a record of ten children admitted during the month and twelve placed out in foster homes. As there were 30 children in the shelter at the beginning of last month this makes a total of 28 there at present. The records show an average of 20½ days' care for each child in the shelter.

The number placed in foster homes during the month constitutes an exceptional record. Six boys and six girls were taken to be cared for in private homes. This seems to indicate an increased interest by the citizens of London in the great work of the Children's Aid, and an appreciation of the fact that the proper raising of the children of a country constitutes one of its safeguards.

Mr. Kelly has just about completed the work of visiting the foster homes in the city and country where children have been placed, and reports that conditions on the whole are very satisfactory.

PERU WILL BURN ENTIRE TOWN TO DRIVE RATS OUT

New York, Aug. 11.—Tens of thousands of rats which infest the town of Paita, Peru, have caused the Peruvian Government to order the town destroyed and rebuilt in a rat-proof manner, according to William Moss, a passenger on the steamship Tennyson arriving here today.

Yellow fever is raging in districts of Peru, Mess reported. The town of Paita, with 5,000 population, has been particularly hard hit, scarcely a family escaping the ravages of the disease. The advent of swarms of rats caused fear that bubonic plague also would develop and the Government ordered the town evacuated, the people going to the outskirts and living in tents.

All the buildings will be burned, the rats exterminated and new sanitary romes constructed, he said.

Hamilton, Aug. 11.—President Emery
B. Hamilton of London is in the chair
at the annual convention of the Canadian Horticultural Association now in dian Hortcultural Association how in session here.

Greetings from the Hamilton and District Gardeners' and Florists' Association were brought by W. H. Gray, president of the organization.

The feature of the morning session was the excellent address of President Hamilton, who briefly reviewed the year's work and made a number of recommendations to the association.

Mr. Hamilton expressed keen gratiassociation.

Mr. Hamilton expressed keen gratification at the success of the membership drive, which had exceeded all expectations by more than doubling the membership, which now included members from Vancouver to Halifax.

Reference was made to the fact that the matter of having extended the season for inspection and fumigation was now in the hands of Prof. Arthur Gibson, acting Dominion entomologist. This question had been raised by British Columbia, owing to the impossibility under present regulations of getting European imports through without freezing, on account of climatic conditions in the Rockies.

The president expressed the hope

The president expressed the hope that the formation of a Canadian council of horticulture would shortly zen of Des Moines, Iowa. Mr. Brandes zen of Des Moines, Iowa. become an actuality.

Five interesting recommendations were made by President Hamilton: That a directory of the members of the association be published yearly; that the association take up co-operative advertising; that the association take up co-operative advertising; that the association take out a Dominion charter and apply for a Government grant; that the association consider the advisability, in the near future, of taking the convention to some province outside Ontario or Quebec; that the good work of the plant registration committee be continued.

Zen of Des Moines, Iowa. Mr. Brandes has been looking after the plumbing work of the Des Moines public schools for the past nineteen years.

"And many of the teachers and scholars can tell you how different I look since I began taking Tanlac," he said. "I suffered from indigestion of the worst kind for the past year or more and was often so weak and dizzy I couldn't stand up, let alone walk. Nothing helped me. It has long been felt by aldermen of Windsor that this city is being dealt with unfairly in the matter of the enforcement of the O. T. A.. The local police force has a great deal of its time taken up with these outside cases the city is called upon to provide quarters for the prisoners, and all the revenue collected in fines goes to the province, which is called upon to bear none of the expense with the exception of the salaries of the provincial officers.

Alderman Sam Keyser is investigating the matter and will submit a report at the next regular meeting of the city council, wherein he will recommend the best course of procedure to be taken. It is understood that he favors the appointment of a magistrate for the city only, and will suggest that action be taken to have O. T. BETTER DELIVERIES OF MACHINE TOOLS

In its summary of the iron, steel, metal and machinery markets Canadian Machinery and Manufacturing News. Toronto, makes the following comment:

There is but little stirring in the local markets, and while there have been so far no changes in prices, this is, perhaps, due to the fact that there is so little business being done. In some lines of machine tools deliveries are better, but in most conditions are the same as for some time past. There has been a slight reduction in the production of pig iron and in finished steel in the United States mills. A number of mills are keeping their product in a semi-finished state, and finishing just enough to keep the cars available filled. Transportation facilities are said to be improving lately.

The dullness of the markets in the metal business is exciting no comment in the United States. It is pointed out

The duliness of the markets in the metal business is exciting no comment in the United States. It is pointed out that the two midsummer months are always dull, and that the first two weeks of August are the dullest of a slack period. The settlement of the railroad rate case will result in a better outlook for the steel trade, not necessarily for the amount of business to be got from the roads, but because the roads will be put into better physical condition. They will thus be able to keep the wheels of industry in general going more smoothly, which will in turn react to the benefit of the steel industry.

In connection with this increase in the rates on United States roads, it is felt that it will be very soon followed by increases on Canadian roads. Then, again, a betterment of transportation facilities will help the production of plate, and this in turn will mean more cars being built. Some authorities think that it will be fairly late next year before the car situation is normal.

CALLED FOR FRIDAY VOICE OF THE PEOPLE

Debenture Bylaws Will Be Given Third Reading by the Council.

Mayor Little today called a special meeting of the city council for Friday night to give third readings to debenture bylaws for waterworks and electrical extensions. It is probable that it will be preceded by a meeting of No. 1 committee, which had to postpone its regular meeting today because it could not get a quorum.

An endeavor to call a special meeting of the council today was unsuancessful for the same reason. Two-thirds of the council today was unsuancessful for the same reason. Two-thirds of the council must give their assent in order that the bylaws may pass. An attendance of this number of aldermen even for Friday night less by no means assured. Aldermen Harley and Wheatcroft are certain to be the way of music, literature, etc., for adding, without any burdensome outlays, to the charm and attractiveness of home living as at the present time. As a rule, the domestic recreations are wholesome and comparatively inexpensive. There is safety for the city also in making it one of homes. People should be enceuraged by reasonable civic policies to own and beautify their homes and to live in them.

INCREASE INSURANCE ON CITY SCHOOLS

Montreal, Aug. 11.—The clinical congress of the American Collège of Surgeons, to be held in Montreal October 11 to 15. promises to be the largest medical convention ever held in Canada. It will differ from other medical association meetings in that the program is largely clinical, and held at the hospitals throughout the city. Because of this, the attendance of the members of the college is strictly controlled and limited by registration, and admission to all sessions will be by ticket. Advance reservations show that many of those who will attend will bring with them their wives and other members of their families.

LIQUOR TRADER GETS SIX MONTHS IN JAIL

GUELPH. Aug. 10.—Determined to put a stop to the "blind pig" business in Guelph. Magistrate Watt adopted a new plan at today's session of the police court when he sentenced Pago Emilio, an Italian resident of St. Patrick's ward, to six months in jail after he had been convicted of a second offence of unlawfully selling intoxicating liquors. This is the first jail term that has been handed out to an offender on such a charge, and in passing sentence the magistrate stated that in the future if the practice of selling liquor continues the guilty parties will be given a similar sentence. Acting Crown-Attorney Jeffrey conducted the prosecution, while L. W. Goetz appeared for the seat of the trouble. To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanity irregularities their merit is well-known.

Regard With Satisfaction.

"To summarize the position of this Government. I would say, therefore, that it would regard with satisfaction, a declaration by the allied and associated powers that the territorial integrity and true boundaries of Russia shall be respected. These boundaries should properly include the whole of the former Russian Empire, with the exception of Finland proper, ethnic Poland and such territory as may by agreement form a part of the Armenian state. The aspiration of these nations for independence are legitimate. Each was forcibly annexed and their liberation from oppressive alien rule involves no aggressions against Russia's territorial rights, and has received the sanction of the public opinion of all free peoples. sanction of the public opinion of

Withdrawal of Troops. "Such a declaration presupposes the withdrawal of all foreign troops from

withdrawal of all foreign troops from the territory embraced by these boundaries, and in the opinion of this Government should be accompanied by the announcement that no transgression by Poland, Finland or any other power of the line so drawn and proclaimed will be permitted.

"Thus only can the Bolshevik regime be deprived of its false but effective appeal to Russians' nationalism and be compelled to meet the inevitable challenge of reason and self-respect which the Russian people, secure from invasion and territorial violation, are sure to address to a social philosophy that degrades them and a tyranny that oppresses them.

"The policy herein outlined will command the support of this Government."

The note is signed by Bainbridge Colby, secretary of state.

ALLIES TO APPEAL TO UNITED STATES.

SAYS LLOYD GEORGE LONDON, Aug. 10.-Outlining in the House of Commons today the action the Allies had decided to take in the Russo-Polish crisis if necessary, Premier Lloyd George said no action

Russo-Polish crisis if necessary, Premier Lloyd George said no action would be taken except to support the struggle for Poland's existence and independence. No allied troops would be sent to Poland, he declared. It would not be necessary, he said, if the Polish resources were thoroughly organized and well directed.

The next action, continued the premier, would be to put economic pressure upon Soviet Russia, either by national action or international action. Substantial stores, he said, were available in that quarter of the world which the Allies would feel obliged to send to Poland.

Replying to an interjection as to what the position of the United States would be, Mr. Lloyd George said:

Appeal to United States.

"We certainly are going to appeal to the United States. There is, of course, the difficulty there that up to the present she has not ratified the treaty and that the treaty is the subject of conflict between the two great parties. It is not in our power to say what view the United States executive would take. I am only judging from the attitude of the United States at the peace conference. She was a strong, protagonist of Polish independence. No man could have taken a more determined and zealous part in setting up Polish independence than President Wilson, and I am certain that whatever differences of opinion there may be in the United States with regard to the League of Nations, there would be no difference of opinion in their general attitude towards Polish independence."

Was Taking No Steps.

The premier declared that up to the present Great Britain was taking no steps to assist in any attack on Soviet Russia inside her own terrirtory, since the British Government's changed policy was announced.

The premier declared that if the nesotiations with Soviet Russia had broken down because of the Bolsheviki's attitude and the allies should cut Russia inside her outside world there would be an end to any trade neotiations.

"If they want peace," he said, "they can get it, and the London conference

"If they want peace," he said, "they can get it, and the London conference proposal was intended to establish peace."

Replying to the contention of the labor deputation that the Soviet Government was being attacked merely because it was a revolutionary government, the premier pointed out that the first three governments following the downfall of the imperial regime had been recognized, and that the Allies had only broken with the Moscow Government because it violated the allied bond by making a separate peace.

THE POLES AND THE JEWS.

The Poles are conspicuous these days in connection with their "heroic struggle for freedom and liberty," but their idea of freedom and liberty would appear not to include some of the races that are subject to their jurisdiction There was recently presented to the British Parliament the report of Sir Stuart Samuel commissioned by the British Government to investigate the massacres and ill-treatment of Jews in Poland. An attempt has been made to becloud the massacres by the statement coming from Polish authorities that the victims were really Bolsheviks who were plotting against the country, and that the outrages were not pogroms in the commonly accepted meaning of that word. Sir Stuart Samuel declares frankly in his report that the outrages which he investigated at Lemberg, Lida and Vilna were really pogroms, that is that they were outrages organized or countenanced by the Government, while the massacre at Pinsk he describes as a "military murder." It is rather interesting to know what a "military murder" is. Sworn testimony was given as follows:

"There was no trial. Soldiers came back from the Kommandatur, and they (Jews) were taken to the market place. Each was placed against the wall. It was extremely dark and soldiers came with a motor bearing a search-light. An officer came and looked into everyne's face and some were removed, including the women. The remainder were then informed that their last moment had come, and they could say their prayers. . . . The officer then commanded the soldiers to shoot. The figures against the wall fell, after which the soldiers came and shot those who moved on the ground."

The British commissioner found that thirtyfive Jews were victims of this massacre. The attendant circumstances were revolting. Prisoners, among whom were women, were stripped, beaten by soldiers and then forced to run the gauntlet of a ribald soldiery through prison corridors. Houses were entered and robbed reported that last year, and for previous years throughout the Jewish quarter, the authorities making little, if any effort to check the attacks Nor have the Jews since been able to get any satisfaction or reparation, the commissioner finds, their complaints being ignored.

We are likely to have a lot of propaganda let loose in the coming weeks on behalf of the Foles. PUBLIC OWNERSHIP OF RAILWAYS.

Public ownership of railways, and public wnership generally, is one of the most important questions in Canada today. The late Sir Wilfrid Laurier believed in public control, but not public ownership. It looks as if this view would be the one that will prevail in Great Britain.

ial, which we give below. Evidently "nationalization" is not as popular as it was. It says:

"It was proved to be Aylmore's property," answered Rathbury. "It was a South American curio that he had in his rooms in Fountain Court." The Edinburgh Scotsman publishes an editor-Since then the nationalization campaign has steadily lost its force, and the subsequent action of the Government in permitting increase both of fares and freight charges gave the first inkling of the policy that was to come-not nationalization, but the restoration and reorganization of the railway system on a commercial and self-supporting basis."

The Scotsman says, among other things:

The grouping system by which the various lines serving similar parts of the country are to be merged and worked together is designed to promote substantial economy in working expenditure. A tribunal is to be set up to fix and control all fares and all rates, and the main aim in fixing them is to be that every group shall be able to earn on the basis fixed a net revenue equal to the net revenue earned before the war by all the companies composing each particular group. for instance, four companies are grouped together, which in 1913 were between them earning a net revenue of five millions sterling, then it will be the duty of the tribunal to fix such levels of rates and fares as will bring the net revenue of the group up to £5,000,000. To regard this as equivalent of a perpetual government guarantee of pre-war net revenue is perhaps going too far, for the reason that it may possibly prove impracticable in some cases impose rates and fares sufficiently high to produce this result. But, on the other hand, seems to be generally considered that, taking the railway system of the country as a whole, this object is capable of achievement, though the stages towards it may have to be

It looks, then, at present as if railway stockholders may read in the government proposals something at least approaching a guarantee of pre-war net revenue. Beyond that they are able to base hope upon the economies in working expenditure which the grouping system is designed to promote, ought to be substantial. Thus it appears on paper that if all goes well with the scheme according to the aims of its promoters, stocka net revenue in coming years sufficient to permit some slight addition to pre-war divi-Those who have money invested in railways in the United Kingdom have had an anxious time of waiting and watching. ON CHINESE GARDENING. [From The Spectator.]
Writers, who have given us an account of China, tell us the inhabitants of that country laugh at the plantations of our Europeans, which are laid out

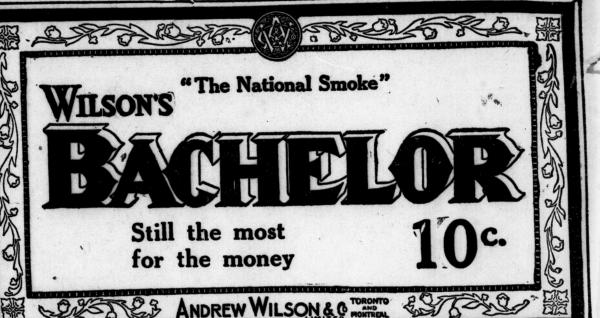

by the rule and line, because, they say, anyone may plant trees in equal rows and uniform figures. They choose in the row of the rather to show a genius in work of this nature, and therefore always conceal the art by which they direct themselves. They have a word, it seems, in their language by which they express the particular beauty of a plantation that thus strikes the imagination at first sight, without discovering what it is that has so agreeable an effect. Our British gardeners, on the contrary, instead of humoring nature, love to deviate from it as much as possible. Our trees rise in cones, globes and pyramids. We see the marks of the scissors upon every plant and bush. I do not know whether I am singular in my opinion, but for my own part, I would rather look upon a tree in all its luxuriancy and diffusion of boughs and branches, than when it is thus cut and trimmed into a mathematical figure,

365 Days a Year Service

ALL motorists, especially those who use their cars for business purposes, must have steady service. They soon learn that correct lubrication is vitally important to uninterrupted service and that Imperial Polarine gives adequate thorough lubrication.

Imperial Polarine keeps the engine running smoothly and quietly by establishing and maintaining a perfect piston-to-cylinder seal, which holds all the power of the fuel charge behind the piston.

Imperial Polarine thoroughly lubricates and cushions every rubbing

surface with a wear-resisting oil film. When used exclusively breakdowns are infrequent, depreciation is low, fuel costs reduced. One of the three grades described below is specially suited to your

motor. Look for the Imperial Polarine Chart of Recommendations where you buy your oil and learn which grade to use.

Imperial Polarine is sold in one and four-gallon sealed cans, steel 121/2gallon kegs, steel half-barrels and barrels, by dealers everywhere.

If with a fair allowance made for these elements of price, the garment is still excessively dear, the woman who buys it pays for her own laziness, not for anything she is getting.

Many women buy ready-made clothes without at all considering them in relation to themselves. In color and design they should suit, not the sales-woman who shows them off so jauntily, but the woman who has to wear them. If a garment is not becoming to the wearer, the fact that it is exquisitely becoming to somebody else is of no value whatever.

becoming to somebody else is of no value whatever.

But it is in the quality of cloth that most ready-made clothing catches the unwary purchaser. The filmsiest stuffs in pretty lines and attractive colors command appalling prices, because of the ignorance of the buying public. If a woman does not know about materials she is not fit to be trusted with money to buy clothes. Those who spend are in duty bound to learn how to spend wisely. If a woman really wants to know, she can learn a great deal by observation, by asking those who do know and by spending a little thought on her own experience, so that she profits by her mistakes. Good salesmen are always ready to help awoman who really wishes to learn the truth about cloth. In good shops there is honest advice to be had. It is the careless who help to make certain merchants dishonest.

former won the verdict from a 5-5 start by a score of 8 to 5.

Devinney, the new Boston Red Sox hurler, decorated the hill for the Tecs to start off with, and while the Tribe gathered three runs off Petie Behan's delivery in the first, the Hams came right back strong with five runs in the third, Carmen relieving the major leaguer when two were on the bases, and they both scored on a sacrifice fly and a wild throw by Carmen himself. The Tribesmen got right on Behan's trail for two more runs in their third and that gave Behan the hook and the locals a tie.

LONDON, Aug. 10.—The Polish crisis is approaching a climax. As viewed in London, Warsaw seems likely to fall before the negotiations at Minsk between the Bolsheviki and Polish representatives are concluded.

Leo Kameneff, one of the Soviet emissaries in London, has submitted to the premier the Russian armistice terms, and at the same time issued them to the British press with the evident object, it is said in some quarters, of strengthening the hands of the British Labor party.

A point left unmentioned by M. Kameneff's communication is the future government of Poland. It has been made plain that the Allies would regard an attempt to impose a soviet regime on Poland as bringing into force the economic pressure and other assistance agreed upon at Hythe to save Poland. This question, it is considered, will only be cleared up in the negotia-Poland. This question, it is considered, will only be cleared up in the negotiations beginning at Minsk tomorrow.

The Labor party is actively pursuing its anti-war campaign.

LONDON, Aug. 10.—Mr. Lloyd George late tonight read to the House of Commons the Russian armistice terms as communicated to him by M. Kameneff. He added that M. Kameneff had made the reservation that the terms might be supplemented by details of a secondary character.

The premier said that immediately after consulting with his colleagues he had communicated the terms to Poland, France and Italy. He did not think it quite fair, he added, when the delegates of both sides were to meet, perhaps tomorrow for him to express an opinion concerning the terms which might embarrass the discussions. There were certain things of which he did not know the meaning, and the Polish delegates would certainly ask for explanations, said Mr. Lloyd George. Thursday.

Belief is expressed in Warsaw, says the Havas message, that Gen. Weygand will accept the command under conditions that troops in eastern Galicia and the Lublin region be evacuated to concentrate all available forces for a big offensive. Polish circles, however, it is added, do not view this manoeuvre with favor.

If it was absolutely necessary to advance the rate on coal, Mr. Daly asked that the increase be confined to soft coal. The Government had recognized that the increase be confined to soft coal. The Government had recognized that anthracite coal was an essential commodity by refusing to place a tax on it, even though soft coal was taxed.

Chief Commissioner Carvell asked Mr. Daly how he would advise the railways to raise the money they required. Supposing, he said it is proven that the roads need more money, and that the commission agrees there should be not increase in the rate on coal. How would you suggest that they get the money?

Mr. Daly replied that this was a hard question for him to answer.

"But that is the question we have to decide, and we would like your help," said Mr. Carvell.

How Dealers Helped.

"But you are supposed to decide questions like this," said Mr. Daly. "That is the reason that you are up there and I am here."

"What was the price of anthracite coal before the war?" asked F. H. Phippen, counsel for the railways. It was brought out that the price was about \$7.50 per ton.

"And now it is selling around \$15 or \$16." said Mr. Phippen. "What have the coal dealers done to help the public in the years that the price has been advancing?"

Mr. Daly explained that the dealers had helped the public by booking their orders early and then giving coal at the promit shimment.

lic in the years done to help the public in the years that the price has been advancing?"

Mr. Daly explained that the dealers had helped the public by booking their orders early and then giving coal at the price prevailing when the order was booked. even though the price advanced by the time of delivery.

P. M. Doolittle, president of the Canada Crushed Stone Company of Dundas placed before the board the disabilities under which his company would be placed if the increased rates asked for were granted. He showed that if they were granted, it would mean an increase of \$15 per mile in the cost of road construction. The witness complained that although the railroads had only asked for 50 per cent increase since 1914, yef owing to the short-haul rates the rate charged in certain instances.

1914, yet owing to the short-haul rates, the rate charged in certain instances amounted to an increase of 100 per cent. Mr. Stewart, representing the Sussex Terminal Railway, a switching concern, asked the board to order the companies, in the event of the application being granted, to pay over to his company its share of the increased states.

Chicago, Aug. 11.—General demand, with but limited offerings, led to higher prices today in the wheat market. Houses with eastern connections were conspicuous in the buying. Later, however, selling increased in volume and the market had a reaction. Initial quotations, which varied from ½c decline to 3½c advance, were followed by moderate upturns all around, a setback liter to slightly below yesterday's finish, and then fresh gains.

Corn sympathized with the strength of wheat. After opening 1½c to 1½c higher, the market underwent material decline, but showed power to rally.

Oats were firmer as a result of the action of corn and wheat. The market opened %c to %c up, fell back temporarily, and subsequently tended to harden.

TORONTO STOCK EXCHANGE.
Toronto, Aug. 11.—With more favorable reports of the European situation to hand, and Lloyd George's optimistic declaration, trade on the Toronto exchange was featured by sharp recoveries declaration, trade on the Toronto exchange was featured by sharp recoveries in practically all stocks that have been under the hammer during the past week. Spanish River led the upward movement, selling up to 108 after a strong opening at 107½. The noon closing figure showed a gain from last night of 4½ points. The preferred stock advanced 4 points to 114. Atlantic Sugar preferred came on the market after seven vanced 4 points to 114. Attantic Sugar preferred came on the market after several days, selling at 165½. There was no trading in the common stock. Brazillan moved up % to 39, and Steamships common and preferred were firm.

Mr. Stewart, representing the Sussex Terminal Railway, a switching content, asked the board to order the companies, in the event of the application being granted, to pay over to his company its share of the increased rates.

Public Will Pay.

J. B. McLaren, general auditor of the Grand Trunk Railway, examined by W. C. Chisholm, counsel for the road, stated that the net corporate loss to the G. T. R. for the first six months of 1920 was \$4.404,711. The new United States labor award would, he said, cost his company approximately \$9,636,000 per annum.

Gordon Waldron, representing the United Farmers of Ontario, asked whether the increases requested would see the Grand Trunk out of the woods. Mr. McLaren replied that if the increases went into effect in Septembern next, the Grand Trunk would still be two millions shost at the end of the present year.

"What about 1921." asked Mr. Waldron make an astimate, and Mr. Valdron remarked that he supposed the public would have to pay any deficits.

In connection with a discussion between Mr. Waldron and Mr. Phippen as to the prosperity of the country, Mr. Carvell asked whether the farmer had ever been so prosperous as he was tell ask. "Has he ever been able to buys so many automobiles?" he asked.

Mr. Waldron made no definite reply.

MONTREAL STOCK EXCHANGE.

Montreal, Aug. 11.—Reflecting the more cheerful tone of the European news dispatches, the local stock exchange this morning emerged in no uncertain fashion from the rut into which it had fallen during the last few days, and recoveries of from 1 to 5 points were scored all along the line in the early trading. Short covering in Breweries and Atlantic Sugar, in both of which are said to be extensive short interests, sent those stocks up rapidly. Sugar, in the early trading, scored a 4-point advance, moving up past 138. Breweries, a feature of activity, moved quickly through the 60 mark and was sold up to 62, a gain of nearly 3 points. IN MEMORIAM.

BAKER—In loving memory of Albert
Baker, of Francis street, died one
year ago today, August 11, 1919. It's just one long year ago today, Since my dear husband passed awa I saw him suffer, heard his sighs, With aching heart and weeping eyes, I saw him sinking hour by hour, Yet could not stay death's awful power,
But now he calmly sleeps at last,
All pains, all aches, all sufferings

passed.
—Wife, Daughter and Son.
b DUFTON—In loving memory of our dear mother, Mrs. Wm. Dufton, who died at Wellburn, August 11, 1918:
Two years have passed since that sad day,
God called the one we loved away;

Friends may think that we forget her, When at times they see us smile, But they little know the sorrow FEMALE HELP WANTED WANTED-FOUR WOMEN TO SELL best house-to-house selling article, big moncy. See Mr. Bedford, Richmond Hotel, Thursday, between 10 and 12

IRISH REPUBLICANS RECEIVE MESSAGES THREATENING DEATH

Mysterious Missives Are Sent **During Police Boycott.**

BOYLE, County Roscommon, Ireland Aug. 10.—This town, which has been in the throes of a police boycott for the past fortnight, is greatly alarmed over the receipt from a mysterious source by leading Sinn Feiners and republicans who refused to serve in the con-stabulary of threatening messages. A typical specimen of these messages follows: CHAMBERLAIN WEATHER STRIP— Fuel-saving, draft-proof. Charles A. Smith. Phone 1504. stabulary of threatening messages. A typical specimen of these messages follows;

"You were warned before to prepare for death, but, considering your wife and helpless children, we have decided to give you a chance. Remember, if the boycott is not off by the twelfth your end will be sure and swift. Any injury to the police and their friends will be avenged tenfold.

Anyone Now Can Have Pretty Curls and Waves

Hair tortured with the hot curing iron is bound to become dry, harsh and brittle, as so many know from sad experience. It's far more sensible to use the simple silmerine method, which can do no harm and which produces a curlido no harm and which produces a curliness much prettier and more natural in appearance. And the effect lasts much longer, particularly in hot, moist or windy weather. Silmerine is also a fine dressing for the hair, preserving its texture and health, keeping it delightfully soft and glossy.

Liquid Silmerine is not sticky or greasy and it won't stain or streak hair or scalp. Get a few ounces from the druggist, pour a little into a saucer and with a clean tooth brush apply evenly to the hair just before doing it up. The added glory to your "crowning glory" will be quite remarkable.—Advt.

RED RIVER VETERANS PLAN CELEBRATION

WINNIPEG, Man., Aug. 10.-Fifty rears ago on Aug. 24, an army from years ago on Aug. 24, an army from Toronto and Western Ontario marched upon Winnipeg, crept along the bank of the Red River and arrived at Fort Garry just in time to eat the breakfast left cooling by Louis Riel and his Indian followers.

Sir Hugh John Macdonald, son of former premier Sir John, was with the victorious force.

They will calabrate the applications.

They will celebrate the anniversary with a banquet to be held. Fifty men, sole survivors, will attend from Ontarlo cities and Vancouver. The event was known as the Red River Expedition of

Former Wife of Motor Manufacturer Identified At Detroit.

DETROIT, Aug. 10 .- The body of an ear Wyandotte, a suburb, and was dentified today as that of Mrs. Margaret Caille, former wife of a Detroit motor manufacturer.

Except for information that Mrs. Caille went automobile riding Sunday with two women, police were without vidence as to now she came to her death.

The body was indentified by the women's divorced husband, and by a son. That it was placed in the water after death is indicated by the fact that there was no water in the lungs, police say. Diamond rings valued at \$2,500 were found on the fingers. Authorities are searching women with whom Mrs. C riding believing they might throw some

An Analysis of the "Road Speed"

AXWEL

is a tribute to its special steels Men driving larger cars have often wondered at the "road

speed" of a Maxwell. True, in an open, straight stretch they have run away from a Maxwell.

But in any "piece of going" (and we have many such roads in Canada) in which hills, turns, curves or rough roads enter into the general average, they do not

outrun a Maxwell. The reason for this is the special steels in a Maxwell. They are made to Maxwell's own formulae, and make possible construction combining great strength with

light weight. The lightness of the weight enables a Maxwell to take a turn

(Copyright, 1920, hy H. C. Fisher, T rademark registered in Canada.)

with more ease and less slowing up, come down a hill under better control, ascend a hill as well, and make more time over a rough piece of roadway.

The strength of its steels enables a Maxwell to stand equally as well, or better, side strains, road unevenness, etc.

In other words, a Maxwell makes speed when a larger car cannot, and thus evens up to a high average its "road speed" without breaking the speed laws.

This ability in a Maxwell is one of many that is winning new friendships daily. Nearly 400,000 of them to date; in another year 500,000.

Boyle Woolfolk, producer of musical comedies of the better sort will present his favorite metropolitan success, "Vanity Fair of 1920" as the feature attraction for the opening of the 1920-21 season at the popular Grand Opera House next Monday, Tuesday and Wednesday, with popular Wednesday matinee. A cast of super-excellence and a chorus of twenty selected beauties from Broad way has been engaged and so far as the stage presentation is concerned, "Vanity Fair" will be seen here exactly as it was presented to New Yorkers. "Vanity Fair" is a brilliant musical comedy. Tich in humor, resplendent with scintillating dialogue, catchy, tinkling, haunting, jazzy tunes and swift dancing to the extreme. Other than to disclose it as a strictly modern musical play, bubbling over with action would be to deprive the audience of much of the pleasure in store for them. Grand patrons will do well to mark the date of opening and the presentation of "Vanity Fair," the first big real musical comedy of the season. Seats go on sale tomorrow morning at 9 a.m. Mail orders if accompanied by check, express or postal order will be filled in order of receipt. All mail reservations should include war tax.

"Coolest Spot in London."

Five fathoms deep they sunk in a submarine to hunt for the lost treasure in the ocean bed. The Spaniard armed and desperate was ahead of them. It meant a fight. What did Lord Glenayr dog What was the outcome? Learn all about this most thrilling of all dramatic situations by seeing "The Best of Luck," the great Metro picturization of Drury Lane's most stupendous melodrama now being featured at Loew's, as the best thriller of the year. You will gasp and tingle with the excitement of the thousand thrills. A dandy bill of vaudeyille, a rip, roarious comedy, and the Loew pictorial of world topics completes the program shown for the last time today. Anita Stewart, in "The Yellow Typhoon" heads the bill for the balance of the week. "Coolest Spot in London."

Never has there been such wild enthusiasm shown as the immense audiences are showing during each performance of "The Revenge of Tarzan," which is showing at the Allen for the last time today. During his two thrilling battles with the king of beasts, the great Nubian lion—when he is tossing men about in the slums of Parls, or when he meets a mob in Algiers and fights for the life of his sweetheart against terrible odds—cheers and whistles, thunderous applause and the greatest demonstration ever shown a picture are given by the audience. Carrying on the atmosphere of the picture the orchestra present as an overture, the "Three African Dances" by Montagu Ring, while comedies, news and scenics complete the program. and scenics complete the program.

AT THE PATRICIA. "The Brand of Lopez," which figures in the photoplay of the same name in which Sessue Hayakawa is closing today at the Patricia Theatre, is put on a pretty woman of the story in an unusual way. Angered at the Spanish beauty with whom he is in love, Vasco Lopez, the matador, burns her on the arm with his cigarette. In later years he points to this mark while preparing her for a still greater suffering.

The Conditions Rival Windsor Says Alderman-Council Insists On Immediate Choice.

CITIZENS TERRIFIED

Afraid to Use Highbury Avenue After Nightfall-Alderman Arms Himself.

With no permanent chief at the head of the police force conditions in London are fast beginning to rival those in Windsor, Ald. F. E. Watkinson declared at a meeting of No. 2 committee of the city council last night. Highbury avenue and the Asylum sideroad are infested with footpads, thieves and bootleggers, he deglared. Several hold-ups have occurred recently and residents of the vicinity are afraid to use the street after nightfall.

"The police are not doing their duty."

ups have occurred recently and residents of the vicinity are afraid to use the street after nightfall.

"The police are not dorng their duty," Ald Watkinson asserted. "Since there has been no chief this street has not been patrolled. There are only a few lights and sidewalks and some of the lights and sidewalks and some of the lights have been broken for months. One man out there has lost 75 chicken ens since the first of the year.

"I think that conditions could be remedied considerably if the city engineer would have the long weeds and the remedied considerably if the city engineer would have the long weeds and the police of the police force. On the Qui Vive.

"I keep a revolver loaded to the teeth on my desk all the time," he declared to the followed up this statement by introducing a motion seconded by Ald. Moorhead: "That whereas a vacancy has occurred for the office of police by the resignation of Chief Williams and in the event of the police commission failing to fill the office, be it resolved that a joint request of the council take steps to have a chief appointed forthwith."

The motion was passed without dissension, although Mayor Little, who is also a member of the police commission, was present. It will be sent on to No. I committee for consideration. George Hodder appeared as representative of north-end residents to protest against smoke nuissance from a factory in that vicinity. He said that the condition could be remedied if the

FEW MILK DEALERS SAID TO HAVE USED

Health Board—Action **Promised If Reports** True.

The question was asked at the monthly meeting of the board of health vesterday afternoon as to whether a ew milkmen in the city were using the United States quart or the imperial quart. Some complaints have been received by the board to the effect that customers are not getting the same amount of milk that an imperial quart neasure contains. The milkmen charged the same price for the United States quart as for an imperial quart, it was alleged. If any cases of this are found heavy fines will be imposed, the board

New all-steel compartment observa-tion library cars are now operated from Toronto to Winnipeg on the "Nation-al," leaving Toronto 11.00 p.m. daily for Winnipeg and Pacific Coast points, via North Bay and Cochrane. These are new cars just received from the buildsentative of north-end residents to protest against smoke nuisance from a factory in that vicinity. He said that the condition could be remedied if the building bylaw was enforced compelling the company to build the chimney of its plant to the proper height. The committee will ask Building Inspector Piper to investigate the matter. Ald. Watkinson advised against putting too many restrictions on factories, as they might be driven away from the city.

Day Labor.

The committee decided to build the Knollwood sewer system by day labor, instead of by contract, as it was believed that it would be cheaper. W. R. Regular Prices To Those Purchasing On the Club Plan During the Month of August

HIS is somewhat of an innovation—to give a discount on the stock in general to Club Plan Purchasers—yet such is the case during this August sale. The endeavor is to carry out Thomas idea of backing up what is said. We could not well use the word "sale" without giving bona-fide reduction. The regular price of the above Daveno is \$82.50.

Particularly opportune is this sale, just prior to fair time, when so many extra bedrooms are needed. Dishes, too, are in demand, and sets of 97 pieces, in white with gold band, selling regularly at \$27
