

FIFTY THOUSAND PERISH IN CHINESE FLOODS

Parole For Harold Shillington Sought By His Relatives

WELLINGTON PAVING JOB WILL BEGIN TOMORROW

Engineer Near States Every-
thing in Shape For
Operations.

SURFACE IS BAD

Construction on This Thor-
oughfare Has Been Sought
For Years.

The city engineer's department, to-
gether with the gangs of the Lon-
don street railway will start on the
paving of Wellington street tomor-
row, according to City Engineer
Near today.

Leonard Tait, secretary-treasurer
of the company, told the board of
works last night that the company
was ready to begin the work, and
after one or two small details in con-
nection with the construction side of
the work have been settled between
his department and the city engineer
the work will go ahead.

This is a street on which the sur-
face is particularly bad, and in which
some action by the company has been
sought by both residents and alder-
men for some years.

Alderman Towns was insistent at
the meeting yesterday of the board
of works that this work should be
undertaken by the company strictly
in accordance with the terms of the
railway franchise, and that the whole
expense of the work should rest with
the company. He and Alderman
Harry Bottrell asked the mayor to
get the agreement of the board of
works in writing, and his
wishes agreed to this and to have
the written statement of the com-
pany at the next meeting of the
council.

While the mayor has always in-
sisted that this work would be done
by the company, the council has
always some doubt on the part of
other members of the council if this
could be done. Richard Ivey, vice-
president of the company, told the
mayor in May that, providing the
receipts of the company showed the
necessary increase, the work would
be undertaken this year, and now he
has made good his promise. The re-
quest for a written agreement from
the company was backed also by
many members of the finance com-
mittee, not only in regard to this
paving, but in all agreements of any
kind as being a businesslike way of
handling the matter.

ELECT A. F. WHITE HEAD OF STANDARD BANK

President Appointed Today
Succeeds Late Wellington
Francis, K. C.

Canadian Press Despatch.
Toronto, Aug. 13.—Arthur F. White
of Toronto has been appointed
president of the Standard Bank of
Canada, in succession to the late
Wellington Francis, K. C. Mr. White
was first elected to the board of di-
rectors of the bank in 1913, and
was made vice-president last
October. Announcement of his ap-
pointment to the head of the bank
was made today.

He began his financial career in
1900, when he joined the staff of the
Standard Bank. In 1911 he severed
this connection to become associated
with the Dominion Securities, of
which he is now a director and
executive officer. He is likewise a
director of the Toronto Mortgage
Corporation.

ARGENTINE FLIER SUFFERS SETBACK AS TIRE BURSTS

Associated Press Despatch.
Calcutta, Aug. 13.—Major Pedro
Zanni, the Argentine aviator, who had
intended hopping off this morning in
continuation of his attempted world
flight, met with another setback just
as he was about to start, when one of
the tires on the undercarriage of his
machine burst. It was his last spare,
and if another cannot be obtained here,
one must be obtained from Lahore,
which will cause a further delay of a
day or so.

DAVIS SAYS HE WILL FIGHT "WITHOUT GLOVES"

Associated Press Despatch.
New York, Aug. 13.—John W. Dav-
is, Democratic presidential candi-
date, returned to New York today to
prepare for an intensive campaign
which he has told leaders of his party
he intends to conduct without gloves.
His drive to carry his message to
the country will be inaugurated with
his trip to Columbus, Ohio, to address
the Democratic convention August
25.

BRITAIN ORDERS SHIPS TO PORT SAID, EGYPT

PRINCE ARTHUR OF
CONNAUGHT,
former governor-general of South
Africa, who is mentioned to succeed
Lord Reading as viceroy of India.
Lord Reading's term as viceroy ex-
pires in a few months.

THOUSANDS LEAVE FOR IRISH PICNIC

Biggest Outing of Season Now
in Full Swing at Port
Stanley.

Despite leaden skies that threat-
ened downpours of rain, London
Irishmen and their families and
friends made an early start for the
picnic grounds at Port Stanley this
morning.

With a clearing of skies toward
noon there was much activity at the
Port Stanley station. All trains to
the lakeside will be doubled today.
Many picnickers who would have
gone early this morning hesitated on
account of the weather, which made
the morning and afternoon crowds will
be handled. Several thousand are
expected to go down this afternoon
on the special trains.

The baby show, ball games, Irish
jigs and Irish music are drawing
people from all over Western Ontario
today. The 12th picnic promises to
be one of the outstanding events of
the Port Stanley season.

King Will Speak In Guelph Aug. 30

Woodstock To Hear Premier
On August 20.

U. S. OBJECTS TO PACT MADE AT MEXICO CITY

Will Not Abide by Convention
of Inter-American Elec-
trical Conference.

Associated Press Despatch.
Washington, Aug. 13.—The United
States has refused to adhere to the
convention signed by most of the
Central and South American states
at the Inter-American electrical com-
munications conference at Mexico
City.

The convention, however, does not
become effective until July 1, 1925,
and the state department, in an-
nouncing the decision of the Ameri-
can delegation against signing the
treaty, expressed hope that in the
meantime a world conference may
be held to establish regulations cov-
ering radio communication in the
light of developments made since the
London agreement was reached in
1912.

A number of objections to the
Mexico City convention, which was
negotiated last month under a resolu-
tion of the fifth Pan-American con-
ference, are held by the United States
government. It was drafted, says
the department, "to apply to gov-
ernment-owned systems of communi-
cations, and did not adequately safe-
guard the legitimate interests of
private concerns engaged in the
operation of communication facilities."

Admiralty Takes Steps To Prevent Further Trouble in Egypt.

PRESS EXCITED

Attributes Disturbances to Con-
spiracy Aiming To Oust
British From Sudan.

Associated Press Despatch.
London, Aug. 13.—In connection
with the trouble in the Sudan the
admiralty has ordered the battleship
Marborough to leave Zanzibar, Dalmatia,
for Alexandria. The light cruiser,
Weymouth, en route for Colombo,
Ceylon, was ordered to Port Said,
where she arrived yesterday and the
sloop Chama is on her way for the
same port.

An agency despatch from Cairo to-
day says that according to the local
press the Egyptian government has
decided to recall to Egypt the railway
battalion "which caused the distur-
bance at Atbara."

MUCH DAMAGE DONE.

Alexandria, Egypt, Aug. 13.—An
official communiqué issued today re-
garding the Atbara affair says the
soldiers of the Egyptian railway
battalion committed a considerable
amount of sabotage within the rail-
way works, destroying automobiles
and machinery with long iron bars
and also setting fire to the railway
offices. They refused to respond to
the moderating counsels of their
commanding officers and the senior
officials of the Sudan Railways, it is
declared. A court of inquiry has been
established by order of the sirdar.
It appears, according to the com-
munique, that the order to fire was
given by a lieutenant of the Sudan-
ese Arab mounted rifles who in-
structed a sergeant to make the men
fire over the heads of the Egyptian
soldiers who were attacking them.

ALL CALM IN THE SUDAN.

Associated Press Despatch.
Cairo, Egypt, Aug. 13.—A demon-
stration took place this afternoon in
the Ezbekiya gardens in sympathy
with the Egyptian railway soldiers.
Complete calm now prevails
throughout the Sudan.

TERMED A CONSPIRACY.

Associated Press Despatch.
London, Aug. 13.—The London
newspapers this morning make a big
display of the disturbances in the
Sudan, which they attribute to a
conspiracy by interested persons in
Egypt, aiming to oust the British
from the Sudan and establish Egypt-
ian rule over it. As a result of some
months, the main organizers being, it
is said, the White Flag Society of
Cairo. It is recalled that the Egypt-
ian premier Zaki Pasha, told the
chamber in June that Egypt would
insist upon complete evacuation of
the Sudan, and that the British, after-
ward, the British ministers an-
nounced in parliament that the British
on no account, would renounce
their responsibilities to the Sudan
and the Sudanese.

The editorial writers, while not
believing that the present trouble will
necessarily have serious consequences,
foresee a possible regrettable delay
in settling the Egyptian problem
and even a conceivable cancellation
of the impending negotiations with
Zaki Pasha. Editorial opinion
strongly supports the government in
its Sudanese policy.

The Times says: "Either to admit
the Egyptian pretensions to the
Sudan or to leave the Sudan to the
Sudanese would be an inconceivable
fool and inactivity."

The latest despatches from Khartoum
and Cairo state that the actual
casualties in the clash at Atbara
were four killed and fifteen wounded.
The British troops were also
killed and wounded. The British
troops and aeroplanes are reported
to have left Cairo yesterday to
reinforce the garrison at Khartoum.

Italian Follows U. S. Airmen

Attempts To Cross Atlantic in
Wake of Americans.

Associated Press Despatch.
Indian Harbor, Labrador, Aug. 13.—
A wireless message from Lieut.
Clayton L. Bissell, of the army air
service, aboard the United States
steamer, in Green Lake, in Green
waters, directs that preparation be
made here for the coming of Lieut.
Locatelli, the Italian flier, who is at-
tempting to cross the Atlantic in the
wake of the American army aviators.

COMMISSION CONFIRMS COMPLAINT OF BULGARIANS

Associated Press Despatch.
Sofia, Bulgaria, Aug. 13.—The mixed
commission investigating the
alleged massacre of nineteen Bul-
garians by Greeks in Macedonia re-
cently, is said semi-officially at the
foreign office to have confirmed the
Bulgarian version given by the sur-
vivors to the effect that the Bulgari-
ans were bound and then shot down
by Greek troops.

BESSIE BROWN,
eleven-year-old daughter of Mr. and
Mrs. Gordon Brown, Bridgen, who has
been awarded a Toronto Conservatory
medal for obtaining the highest num-
ber of marks of any candidate in
Canada in the 1924 elementary school
violin examinations.

TAKE BEER SHIP NEAR CHATHAM

Estimate Nine Hundred Cases
Aboard Cruiser When
Seizure Is Made.

Special to The Advertiser.

Chatham, Aug. 13.—A 30-ton sail
and gasoline cruiser, the Onaway of
Port Huron, with a cargo of 9 per
cent beer, was seized at Mitchell's
Bay by county police revenue offi-
cers yesterday.

Ownership of the vessel has not
been learned by the authorities, but
the beer cargo was claimed by Harry
Fuller Detroit. He was placed under
arrest, with Bartio and Frank Fannu-
lano, Italians of Detroit. The three
faced charges of violating the Ontario
liquor laws in county police court
this morning and pleaded not guilty.
They are to be released on bail of
\$500 each, to appear for trial later.
The Onaway was anchored in the
channel off Mitchell's Bay, when
seized. Papers were found which in-
dicated that the vessel cleared at
Wallaceburg with a thousand cases
of beer for Detroit.

County police allege that beer was
sold from the Onaway to Dover
Township farmers at \$4 a case, and
that many gasoline boats were seen
leaving the vessel, which was in-
vestigated by the police. They esti-
mate that 500 cases of beer were
aboard the vessel when they
made the seizure.

SECOND BEER CAPTURE.

Canadian Press Despatch.
St. Catharines, Aug. 13.—The sec-
ond big capture of strong beer within
24 hours was made early this morn-
ing when police found a truck from
Hamilton standing on St. Paul street.
At the sight of the police the truck
moved towards Niagara Falls but
was caught by the police car. Sam
Salvatore, of Hamilton, the driver,
admitted he was transporting the
beer from Hamilton to the Falls, but
claimed that he had hired the truck
for the trip.

He was charged with having liquor
for sale without a license and was
remanded until Tuesday. He was also
charged with carrying liquor in a
Serbo Antonio, M. Tratter and
Raphael Hortican, passengers on the
truck, who were charged with vag-
rancy. The truck carried 121 dozen
pints of beer in cartons.

Italian Follows U. S. Airmen

Attempts To Cross Atlantic in
Wake of Americans.

Associated Press Despatch.
Indian Harbor, Labrador, Aug. 13.—
A wireless message from Lieut.
Clayton L. Bissell, of the army air
service, aboard the United States
steamer, in Green Lake, in Green
waters, directs that preparation be
made here for the coming of Lieut.
Locatelli, the Italian flier, who is at-
tempting to cross the Atlantic in the
wake of the American army aviators.

COMMISSION CONFIRMS COMPLAINT OF BULGARIANS

Associated Press Despatch.
Sofia, Bulgaria, Aug. 13.—The mixed
commission investigating the
alleged massacre of nineteen Bul-
garians by Greeks in Macedonia re-
cently, is said semi-officially at the
foreign office to have confirmed the
Bulgarian version given by the sur-
vivors to the effect that the Bulgari-
ans were bound and then shot down
by Greek troops.

REFUGEES FLEE FROM FLOODED DISTRICTS

Fifty Thousand Meet Death
in Devastating Chinese
Floods.

MILLIONS HOMELESS
Thousands of Villages Sub-
merged Over Widespread
Area.

Associated Press Despatch.

Shanghai, Aug. 13.—Millions
have been rendered homeless and
at least 50,000 persons have been
drowned in devastating floods
which are sweeping widespread
areas of China, submerging tens
of thousands of villages. Thou-
sands of refugees are pouring into
Peking. It is impossible to get
even an approximate estimate of
the fatalities, but 50,000 is said
to be a conservative estimate.

EARTHQUAKES IN JAPAN.

Associated Press Despatch.
Tokyo, Aug. 13.—Earthquakes de-
scribed as "fairly severe," were re-
ported in the Kobe, Osaka and Na-
goya districts today. Reports from
Nagoya say that the water mains
there were broken by the tremors,
cutting off the water supply and
flooding the streets. No casualties
have been reported. The disturbances
are alarming the citizenry.

PRINCE OF WALES TO DINE WITH PIPING ROCK CLUB

Associated Press Despatch.
Leamington, N.Y., Aug. 13.—The
Prince of Wales, who is soon to make
a short visit to the United States,
will be the guest of the Piping Rock
club at a dinner on Sept. 3, it was learned
today. The officers and board of gov-
ernors of the club will be hosts to 150
men, the guests to include members of
the British embassy and the polo team
which is to play for the international
cup.

HENRY FORD WITHDRAWS NAME IN SENATORIAL RACE

Associated Press Despatch.
Lansing, Mich., Aug. 13.—In a tele-
gram from South Boston, Mass., which
was verified yesterday by Charles
Deland, secretary of state, Henry Ford
withdrew his name from the Republican
senatorial primary race in Michigan.

INSULIN EXHIBIT CREATING GREAT INTEREST AT WEMBLEY

Canada's Efforts in Field of
Medical Research Are
Emphasized.

PROCESS SHOWN

Portraits of Drs. Banting and
Best Appear on Each
Side of Display.

What is the most interesting ex-

hibit at Wembley?
According to several Londoners
just returned from England, the
curiously enough, very little pub-
licity has been given this particular
display, yet it attracts more wide-
spread attention than any other fea-
ture of the exhibition with the pos-
sible exception of the "Prince of
Wales" figure in butter.

The insulin booth is in the center
of the Canadian building, and ad-
joining the department given over to
reproductions of famous Canadian
poems. The exhibit shows samples
of beef pancreas in the natural state
and explains the various processes
used by Dr. Banting before the dis-
tillated material was discovered. Por-
traits of Dr. Banting and his assist-
ant, Dr. Best, have been placed on
either side of the booth.

The interesting feature of the in-
sulin display is that it shows the
layman almost every important de-
tail in the making of the fluid. It
also advertises Canada as a nation
that has forged to the front in the
field of medical research.

New Springbank River Road Would Aid Unemployment And Cut Danger, Is Claim

Utilities Manager Urges
Greater Safety For Persons
Visiting Zoo.

WORTHY SCHEME

"Give Pedestrians More Room
in Park." Is Plea of
E. V. Buchanan.

E. V. Buchanan, general manager
of the public utilities commission,
says that Springbank Park would be
greatly improved by the building of
a new lower road along the river
side. He states that this would allow
greater safety for persons viewing
the zoo at the park, and that in view
of the search being made in the city
for work for the unemployed this
fall and winter that it might serve
as an object worthy of considera-
tion.

"As things are now in the park,"
he said, "people looking over the
animals in the zoo have a difficult
time on account of the motor cars
parked and driven past the front of
the cages. If there was a lower road
running along the river bank and
branching off the main road at the
spot where the zoo begins, it would
help matters. Then the park would
be made much easier to drive through
and more comfortable for users if a
one way rule for all traffic was en-
forced."

"That is, traffic would approach
the zoo along the present road from
the north, and take the low river
road round the end of the park,
coming back along the road now in
use. It would give us the necessary
free space in front of the zoo. Give
the pedestrians more space in the
park and it will be good advertising
for our civic collection of birds and
animals."

Preserving Books Now In Demand

Public Library Reports Greater
Circulation of Canning
Literature.

The canning and preserving season
affects the public library. At the
present time housewives who were
reading fiction a month ago are call-
ing for books on methods of putting
down luscious Canadian fruits for
winter use.

One of the books just returned gives
evidence of a busy mother during
the preserving season. It bore the
sticky markings of baby fingers that
had clutched a pen and a shov-
el those cross-cross pictures that baby
delighted in while mother watched
the syrup boil.

Popular books on preserving are:
"Every Step in Canning" by Grace
Vial Gray; "French Cooking for
English Homes," by Thornton But-
terworth; "Canning and Preserving,"
by Mrs. S. T. Borer and the "Can-
adian Cook Book," by Lillie Lyle Pat-
terson.

LOOK FOR ELECTION OF SIR ALFRED MOND

Balloting Tomorrow Follows
One of Keenest Political
Fights in Britain.

Associated Press Despatch.
London, Aug. 13.—After one of the
keenest political fights in the United
Kingdom since the last general election,
the constituency of West Carmarthen,
Wales, will tomorrow elect a successor
to Sir E. Griffith, late Liberal mem-
ber, who recently resigned the seat in
order to give Sir Alfred Mond, former
minister of health, an opportunity of
returning to parliament. Sir Alfred was
defeated in the general election in West
Swansea. It is a three-cornered contest
that is being waged in West Carmar-
then.

Sir Alfred Stephens is the Conserva-
tive candidate, and Rev. E. T. Owen is
the Labor party's nominee. Neither of
these heretofore have been much in the
public eye, and while they have been
putting up a strenuous fight, it is gen-
erally believed that Sir Alfred Mond will
win, and thus retain the seat for the
Liberal party, though with a consid-
erably reduced majority.

H. A. CURARD CUMMINGS,
former British charge d'affaires at
Mexico City, who has now reached
England and who has submitted to
the government a report upon the
events which preceded the slaying of
Mrs. Rosalie Evans by Mexican In-
dian bandits.

FORBIDS SOVIET CITIZENS TO ENTER SWISS REPUBLIC

Associated Press Despatch.
London, Aug. 13.—The Swiss govern-
ment, it is announced by the legation
here, has issued an order forbidding
citizens of the Russian soviet to enter
the Swiss republic.

MAJ.-GEN. JOHN L. HINES,
Noted U. S. army officer, who will
succeed General Pershing as head of
the American army upon the latter's
retirement in September. Gen.
Hines was decorated twice for valor
during the great war. Announcement
of his elevation came from the
war office today.

CHARGES POLICE ABUSED PRISONER

Claims George Clarke Was
Struck Over Head With
Heavy Flashlight.

Canadian Press Despatch.

Windsor, Ont., Aug. 13.—Alderman
A. W. Strong today asked for an offi-
cial investigation into charges that
two Windsor policemen had abused a
prisoner whom they arrested for
drunkenness last Friday evening.

Alderman Strong bases his request
on evidence of residents living near
the scene of the arrest. They stated
that they saw the man, Charles
Clarke, struck over the head with a
heavy police flashlight and otherwise
abused when the police were placing
him in the patrol wagon.

Alderman Strong was out of the
city at the time of the arrest, but on
his return later that night he was
told by Clarke's wife that he had
been released on bail. He went to
police headquarters, he said, but was
unable to arrange for bail, as the police
told him the man was being held
on a charge of assaulting an officer.

One of the officers attempted to
show him evidence of the assault on
his person, but the alderman declared
that the policemen could not show
any marks of having been abused.
He was doubtful of the charge, he
said, when he compared the size of
the prisoner and the officers. Clarke
is a short man and is lame.

People living near the scene denied
that the officers were assaulted by
Clarke. They say that Clarke was
somewhat unruly and it was difficult
for the officers to get him into the
patrol wagon, but he did not become
violent before he was struck.

EFFORTS ARE RENEWED TO GET PAROLE FOR YOUTH

Harold Shillington's Family Is
Confident of Release in
Near Future.

SERVED TWO YEARS

Former Accountant Sentenced
For Seven Years For
Stealing Securities.

An attempt to obtain a parole for
Harold Shillington, the young Lon-
doner found guilty more than two
years ago of the theft of \$70,000 in
securities from the London and
Western Trusts Company, has been
instituted by the Shillington family
here. The Advertiser was advised
today that the young man's mother,
Mrs. R. J. Shillington, Briscoe street,
Ottawa, last month for a parole.

Although the department refused
to consider the application at the
time, Mr. Shillington's family hope
that another attempt to be launched
in a few months will bring the de-
sired result. Mrs. Shillington is
seeking an influence from among
certain prominent citizens in this
connection.

Harold Shillington, sentenced to
seven years imprisonment at King-
ston in 1922, has now completed his
second year in the penitentiary. He
disappeared from the London and
Western Trusts Company, of which
he was accountant, with \$70,000 in
negotiable securities. He was traced
to Montreal and finally apprehended
in England. Retention of his parole
of practically all the stolen bonds and
cash.

Mrs. Shillington appeals for her
son at this time on grounds that
he was his first offense, because
Harold is urgently needed to help
support his parents. The work the
young man could do under the fami-
ly's supervision would be of greater
value than that allotted to him at
Kingston, it is claimed.

PUTNAM BANK SHORT \$225,000 OF FUNDS

Make Discovery After Institu-
tion Closes Its Doors—
Cashier Attempts Suicide.

Associated Press Despatch.

Putnam, Conn., Aug. 13.—After the
closing of the doors of the First
National Bank of Putnam yester-
day, it was learned that shortages
of upwards of \$225,000 of the bank's funds
have been discovered. The losses are
sorely in negotiable securities given to
the bank for safe-keeping. It was said
by an official of the institution.

These discoveries were made after the
finding of other irregularities had been
followed by the attempt at suicide last
Thursday of G. Harold Gilpatrick, the
cashier of the bank, who is also state
treasurer.

The Weather

FORECASTS.

Moderate north-
west winds, clear-
ing today, fair and
cool tonight and
Thursday.
Pressure is high
to the west and
north of the Great
Lakes and rela-
tively low along
the Atlantic
Coast. Local
showers have occurred in Ontario and
Northern Saskatchewan and heavy rains
have been general in the Maritime
Provinces.

Temperatures.

The highest and lowest temperatures
previous to 8 a.m. today were:
Station Low High Weather
Victoria 65 80 Clear
Calgary 68 80 Clear
Winnipeg 64 80 Fair
Port Arthur 62 74 Cloudy
Perry Sound 72 80 Clear
Toronto 72 86 Rain
Kitchener 72 88 Fair
Ottawa 72 88 Fair
Montreal 76 88 Clear
Quebec 72 80 Cloudy
Father Point 68 84 Clear
Fort John 64 84 Cloudy
Halifax 64 82 Cloudy

LOCAL TEMPERATURES.

The highest and lowest tempera-
tures recorded in London during the
24 hours previous to 8 o'clock last
night were: Highest, 70; lowest, 52.
The official temperatures for the
12 hours previous to 8 a.m. today
were: Highest, 65; lowest, 56.
Barometric Readings.
Tuesday—2 p.m.—29.24.
Today—8 a.m.—29.26.

Scientists Bending Energies Toward More Practical Methods of Education

STUDY CHILDREN'S MENTAL MAKE-UP

Scientists Expend Energy On Working Out New Schemes For Education.

DEGREES CONFERRED

Canadian Press Despatch.
Toronto, Aug. 13.—Perhaps the outstanding fact brought out by the series of addresses given today in the Domain of Anthropology in connection with the meeting of the British Association for the Advancement of Science is that methods of education—at least modern education—are following in this department lines altogether new. Similar systems may have been known to be of Solons of old but to the present generation the measurements and tabulation of all that is physical and mental in the human being from infancy to the advanced stage is altogether an innovation in the curriculum.

Practical minds listening to the recital of research among the children of home and foreign lands, asked why all this tremendous energy expended unless it can be applied with practical benefit to the child. The beneficial and practical results are anticipated was gleaned from one of the speakers who stated that conclusions drawn from such investigation, as was presented by the papers of this section, were to be applied in future to a readjustment of the studies best suited to the physical and mental makeup of boys and those best adapted to qualities in the girl. All of which anticipates a revision of the system of education which for the most part provides the same program of studies for both, and a return in greater measure at least than is at present in force to different courses of studies for boys and girls in all grades of school life.

DEGREES CONFERRED

Associated Press Despatch.
Toronto, Aug. 13.—In order to bring their sessions to a close today the members of the British Association for the Advancement of Science shortly after noon completed the heaviest half-day program set for them since the opening of the annual gathering one week ago. This strenuous wind-up of business was necessary, in order that the sessions should not clash with the conferment of the degree of doctor of science, honors causa, by the University of Toronto, and the noted visitors, four British scientists were included in the number. They are: Major-General Sir David Bruce, chairman of the committee on the discovery of the cause of malaria fever and sleeping sickness; Sir Charles A. Parsons, the inventor of the turbine engine and a past president of the association; Sir John E. Russell, director of the Rutherford experimental station in England and one of the world's most famous experts on agriculture; Sir Ernest Rutherford of New Zealand, immediate past president of the association, the world's most famous physicist and greatest authority living on atomic structure.

Degrees Conferred.

Famous scientists of Europe upon whom the degree was also conferred were: Monsieur Ch. de la Vallée Poussin, of the University of Louvain; Signor P. Sestini, of the University of Rome; Monsieur Gabriel Koenigs, of de l'Académie des Sciences de l'Institut de France, and general secretary of the International Mathematical Union, and Dr. W. S. Stekloff of Leningrad, and the Russian Academy of Sciences.

Following the conferment the scientists were entertained at a garden party given by the senate of the university.

The plans of the engineer and his work in the interests of public health held the attention of the engineering section in the closing session, and J. D. Watson, who related the part that bio-physiology may play in the disposal of sewage. Before the physicist, A. S. Eddington of London, England, recognized as second only to Einstein in matters of relativity, made known his theory of the outflow of radiation from a star. J. Jackson described the photographic proper motion of stars.

Origin of Mars.

The zoologists were quite interested in the matter laid before them by Professor W. K. Gregory and M. Hellman on the question of cryptophagus and the origin of man, and Dr. Nellie Eales on the anatomy of a fossil elephant. The welfare of primitive peoples occupied the attention of the anthropologists, as described by H. Balfour, processes of growth in infants by Dr. A. Low, influences on the human mind by Dr. S. L. Silberman spoke on the determination of the curvature radius of space time.

Closing the sessions.

Miss I. Gordon presented a paper to the anthropologists on the cultural stability among the mountain whites of Tennessee, and Professor C. F. Sestini described a pseudo-mongolian type in Central Africa. The engineers closing address was by E. K. Scott on the future of power from fuel, and that of the physicists on the methods and results of spectroscopic absolute magnitude determinations.

1,106 DEAD AFTER STRIFE IN SAO PAULO, BRAZIL

Associated Press Despatch.
Rio Janeiro, Aug. 13.—According to official figures obtained by the municipality the death list at Sao Paulo during the recent outbreak there aggregated 1,106.

The police of Sao Paulo yesterday discovered twelve dynamite hand-grenades hidden in a house. The owner of the house was arrested.

Associated Press Despatch.

Buenos Aires, Aug. 13.—Official advice concerning the campaign against the Brazilian rebels in the State of Sao Paulo report that a column of Brazilian federal troops entered the city of Mundry, 160 miles west of Sao Paulo City, and is proceeding for Chavanes, near the Parana-Panama River.

ALLEGED VAGRANT DRIVES MOTOR CAR

Takes Policeman To Station After Arrest Is Made.

Special to The Advertiser.
Chatham, Aug. 12.—Henry Moore drove to city police headquarters in his own car this morning after his arrest by Sergeant Dodson on a charge preferred by his wife that he is a vagrant, being able to work and thereby maintain himself and family, but wilfully refuses to do so. He will appear tomorrow.

Mrs. A. E. Pliton, who has been in the Public General Hospital since July 18 with a broken back, sustained in a motor accident, was removed to her home in New York tonight. She was carried to the train on a specially-constructed stretcher.

Assault Alleged.

Mrs. Mabel Greene, colored, lodged a complaint which alleged that she was the victim of an assault by her husband, Rev. T. J. C. Greene. He will appear before Magistrate Arnold in city police court tomorrow.

City Manager C. H. R. Fuller has purchased a supply of life belts which are to be located at convenient points along the River Thames embankment.

Members of a special committee of the county council inspected the piers and abutments for the new steel lift bridge at Prairie Sliding which was completed today.

REALTORS ASK MEMBER ON REVISION BOARD

Decision To Lay Matter Before Council Reached Last Night.

The president, Harry Simon, presided at the regular monthly meeting of the London Real Estate Board, held in his office last night.

Business was reported by the members present to be good and improving. The board has adopted the slogan: "Business is good and getting better."

After Consideration.

The president was instructed to approach the city council with a view to securing representation on the court of revision of taxation in the appointment of one of the duly accredited members of the board to that body.

The board also took the state of closer co-operation with the Chamber of Commerce in the securing and locating of industries, the feeling expressed being that the members of the board were in a position to give the chamber advice with regard to city property that would be of value in connection with the planning of industries. A representative committee of the board is to take up the matter with the Chamber of Commerce in the near future.

The members of the board constituted themselves a committee on membership with a view to securing a number of new members for the board, with the object of bringing the membership up to a total of fifty.

WINDSOR AVE. PAVING TO BE FINISHED TODAY

Today the paving on Windsor avenue will be finished and the whole program for London South will be done. The city engineer's paving gang will move tomorrow to Huron street and will finish the paving on that street by the end of the week. This will finish the whole paving program for the year and is about a month ahead of the same work in 1923. As the Wellington street work will start tomorrow the city engineer's gangs will probably be busy till the snow flies.

WORKS DEPARTMENT PLANNING PICNIC

A meeting will be held tomorrow night in the office of the city engineer to make plans for the works department picnic. Committees will be appointed, and the date of the picnic set. Last year over 1,400 men and women attended this social event of the department and Mr. Near stated that everyone turns out at the same ratio there will be about two thousand this time. Springbank is the site of this annual outing.

SANSONE TO UNDERGO OPERATION IN FEW DAYS

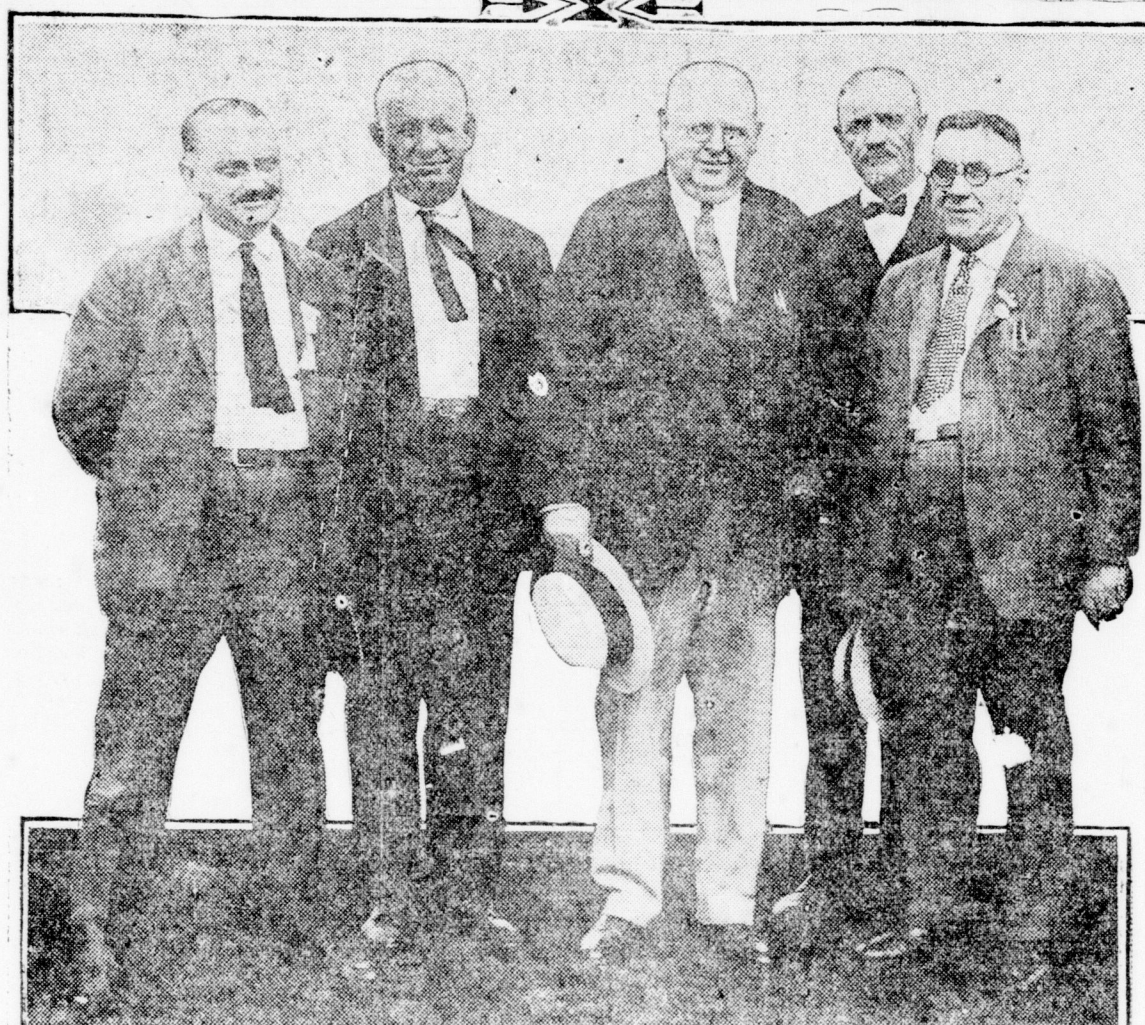

Sylvadore Sansone, confined in the county jail, awaiting trial at the fall assizes on a charge of indecent assault, will be operated on in a day or two by J. J. Wilson, Dr. James D. Wilson.

Dr. Wilson informed The Advertiser this morning that Sansone had injured himself while climbing over a fence to escape detectives on the night of his arrest.

The operation is not of a serious nature the jail physician declares.

TRAFFIC VIOLATORS FINED

Six highway traffic offenders paid a total of \$60 and costs into police court this morning.

DELEGATES AND GUESTS OF I. T. U. MAKE MERRY AT SUNNYSIDE.

Upper right, John M. Duggan, well-known baseball commissioner of Cincinnati and three popular ladies at the convention; they are, from left to right, Miss Clara West, Miss Florence West, sisters, and at the right of Mr. Duggan, Miss Alice M. Bowers, secretary to Librarian Hodges of Cincinnati. They are all from Cincinnati. Upper right side are President C. F. Howard and his wife, Betty, left to right: President Charles Smith, of the International Mailers' Union; Delegate George W. Paltz, of Elmira, N. Y.; James Lynch, president-elect of the I. T. U.; Deputy J. J. Cassidy, Teneke, Kan., and John C. Daley, superintendent of the Union Printers' Home at Colorado Springs, Col.

CELEBRATES NEW ERA WITH MUCH SPEED

E. C. Depotie Fined \$10 When He Appears in Court Today.

E. C. Depotie, who purchased a motor car owned by L. Davey of Lambeth, celebrated the acquisition by speeding on Aug. 6. He was fined \$10 and costs by Magistrate Graydon today.

Depotie, through counsel, Mr. Cousins, pleaded not guilty to a similar charge on Aug. 2. At the request of Chief Burrows, the case was adjourned a week owing to the fact that a necessary witness was out of town.

Mr. Davey was summoned last week on both charges, but stated he did not own the car at that time. "Davey should have had his car properly listed. It was not our fault the car was summoned instead of Mr. Depotie," declared Chief Burrows.

POLICE HAVE NO RECORD OF GEORGE HENRY MASON

Local police officials stated today that they had no record of a Fred Leggett, alias George Henry Mason, by speeding on Aug. 6. He was fined \$10 and costs by Magistrate Graydon today.

Leggett is being held by Detroit police, and is alleged to have been detained in a postoffice holdup in Galilee, Sask., four years ago.

GOVERNOR OF SERGIPE RETURNS TO OFFICE

Rio Janeiro, Aug. 12.—The governor of the State of Sergipe has notified the government of his return to office in consequence of the defeat of the rebels by the federal troops sent to Aracaju.

It is estimated that more than 250,000 inhabitants of Sao Paulo fled from the city aboard 210 refugee trains in consequence of the threatened bombardment at the time of the rebel occupation. It is considered that nearly all the inhabitants have returned.

GUELPH PIONEER WOMAN DIES AFTER SHORT ILLNESS

Canadian Press Despatch.
Guelph, Aug. 12.—One of Guelph's pioneer women, Mrs. John Gribble, aged 94, died at her home last night, after a short illness. The deceased lady was born in Guelph in 1830, and with the exception of eleven years had resided here all that time. Though but a child, she had vivid recollections of the rebellion of 1837, and of walking about the place where some soldiers had gathered. Up to within a few weeks of her death, Mrs. Gribble displayed a wonderful vitality and memory. Six children survive.

DOOLITTLE FINISHES TRIP.

Canadian Press Despatch.
Vancouver, Aug. 12.—Dr. P. E. Doolittle, president of the Canadian Automobile Association, arrived in Vancouver this afternoon, having completed an automobile trip from the Atlantic to the Pacific in the interests of a national highway. He left Halifax on July 1.

Bandits Raid Dice Players

Associated Press Despatch.
Pittsburg, Pa., Aug. 13.—A posse searched nearby hills throughout last night for trace of bandits who yesterday raided a dice game at Millville, near here, bound and robbed approximately 50 men, and shot to death one who tried to escape. The dice game was being conducted outdoors and the bandits all of whom were masked, suddenly appeared from behind a surrounding brush and robbed the players at the point of pistols.

REPORTS SAY WHEAT SPROUTING IN STOOK

More Heavy Rains in Ontario Today Renew Difficulties of Farmers.

Canadian Press Despatch.
Toronto, Aug. 13.—Heavy rains in many parts of Ontario today renewed the difficulties of the farmers of this province, many of whom have been unable to get ahead with their harvesting owing to the unusual precipitation during the past few days. Large acreages of over-ripe wheat are still standing and in some districts the farmers have not been able to get in their complete hay crops. Reports have come in from some districts of wheat in stook sprouting.

For growth and fullness the grain crops of Ontario in many localities have never better and the agriculturalists are praying to be permitted to reap them.

On the other hand, the dairy and root crop branches in Ontario are in excellent condition as the result of the rains. Small fruits have been plentiful, although the prices are low. Prospects for apples are excellent in most districts.

LONDON ENGINEERS WILL INSPECT HYDRO PLANTS

The Welland Canal and the Chippawa power plant will be inspected by the London branch of the Engineering Institute of Canada on Saturday, August 23. The members of the branch will meet at half past eight in front of the Public Utilities Building on Dundas street. The members will lunch in St. Catharines at half past one and go over the canal in the afternoon.

The party will stay over in the Welland House on Saturday evening and will inspect the Chippawa plant on Sunday morning, returning home in the evening. While the party is limited to members of the branch, there is still room for anyone interested in the Welland Canal and the Chippawa plant. The canal is one of the greatest engineering undertakings in the world, and this is a special opportunity to see the works under expert supervision.

UTILITIES EMPLOYEES TO PICNIC TOMORROW

Tomorrow at half past one the employees of the public utilities commission journey down to Port Stanley to enjoy their annual picnic. Five or six hundred members will probably go down to the heights and the usual picnic sports will take place. Dancing in the pavilion will wind up the annual day at the lakeside for the P. U. C. Most of the commissioners are out of town, but those at home will take part in the outing.

WELCOME TEACHERS.

Canadian Press Despatch.
Victoria, B. C., Aug. 13.—Official welcome was extended on behalf of the British Columbia government to the members of the Canadian Teachers' Federation, who open their 1924 convention here today, by Hon. Dr. McLean, provincial minister of education, at the meeting last night of visiting teachers and local teachers and educationists.

U. S. FLIGHT IS NOW POSTPONED

Aviators Will Not Hop Off For Greenland Until Further Investigation.

Associated Press Despatch.
Reykjavik, Iceland, Aug. 13.—After plans had been completed here for the United States army world flight to hop off for Greenland tomorrow, weather permitting, a disquieting report today from Naval Flight Commander Bruce G. Leighton, on board the cruiser Raleigh off the Greenland coast, caused a sudden change in the schedule.

Canadian Press Despatch.
Victoria, B. C., Aug. 13.—Official welcome was extended on behalf of the British Columbia government to the members of the Canadian Teachers' Federation, who open their 1924 convention here today, by Hon. Dr. McLean, provincial minister of education, at the meeting last night of visiting teachers and local teachers and educationists.

CITY ODDFELLOWS RECEIVE HONORS

Londoners Return From the Ontario Grand Encampment in Belleville.

At the I. O. O. F. Grand Encampment for Ontario, held at Belleville Monday and Tuesday, London encampments were represented by Geo. E. Shaw, department commander, and W. S. Cosby and John Kirkpatrick of Harmony Encampment, No. 3. The encampment was attended by about 100 delegates, together with visitors from Michigan, Massachusetts, New York and Maine.

Three members of the order were honored on Monday evening at a meeting in the city hall, in having conferred upon them the decoration of chivalry for meritorious service on behalf of the order. They were Capt. William S. Cosby, London; Lieut. Grant Way, Belleville, and Chevalier Gerrard, Toronto. The decorations were conferred by Commander Shaw, assisted by Canton Toronto, No. 2, Toronto, and Canton Belleville, No. 8, Belleville. The degree staffs of Fort-ress Toronto, No. 3, Toronto, and Fort-ress Belleville, No. 3, Belleville, appeared in full uniform.

The degree ceremony for the ladies' auxiliaries attending the encampment was won by Toronto Fort-ress No. 2, Toronto, second place going to Quinte Fort-ress, No. 2, Belleville, Canton Toronto, No. 7, Toronto, took first honors in the drill competition. Capt. Thomas Gibbs, Toronto, and Chevalier Martin, Toronto, were the winners of the officers' proficiency contest and individual sword competition, respectively.

While attending the encampment the delegates were entertained to a motor trip to the Sand Banks of the St. Lawrence River and also to a theatre party at the Bell Theatre.

Road To Bridge Is Ironed Out

Yesterday the road repairing gangs of the city engineer adjourned to the city street bridge and attended to those pot holes on the east side which have been troubling motorists for some time. Then they cleared them all out to a safe landing place for the fliers, and with the most approved filing. The result is that all that the most exacting driver could wish for and the bridge is once more passable and approachable.

WILL DEFINE POSTAL EMPLOYEES' STATUS

Officials Hold Conference Regarding Post-Strike Methods and Conditions.

Canadian Press Despatch.
Ottawa, Aug. 12.—Equalization of post-strike methods and conditions in all cities affected by the recent strike of postal workers is the object of a conference now proceeding in Ottawa between the deputy postmaster-general, L. J. Gaboury, and the postmasters of Montreal, Toronto, Hamilton and Windsor. The exact status of employees old and new, will be defined for the guidance of the postmasters, and care will be taken to prevent any discrepancies as between the various cities in wages and working conditions. It is understood that the conference has failed to disclose any present discrepancies, although complaint had been made that such existed.

It is purely an inter-departmental talk," said Mr. Gaboury tonight. "There is really nothing new to be said about the strike."

POLICE COURT DOCKET IS DEVOID OF GUESTS

For the first time in several weeks the prison box in the local police court was devoid of guests today.

Five citizens appeared before court and paid fines totalling \$50 for breaches of the highway traffic act, while another found guilty in court, also paid \$10 and costs.

SEES NO EVIDENCE OF MIND DISEASE

Chicago Neurologist Says Everyone at Times More or Less Depressed.

Associated Press Despatch.

Chicago, Aug. 13.—Dr. Hugh T. Patrick, Chicago neurologist, "saw" the witness stand again this morning to testify in furtherance of the state's effort to have Judge John R. Caverly sentence Nathan F. Leopold, Jun., and Richard Loeb, to the death penalty rather than prison terms for kidnapping and murdering young Dr. Patrick remarked: "This thing of having phantasies for 30 minutes before going to sleep is not a pathological condition at all."

"I saw nothing in my contact with the witness stand and of the questions that might be asked me," "I apprehend that there is no one who does not have phantasies regarding the thing he is interested in," said Dr. Patrick. "Every one at times is more or less depressed."

"I apprehend that there is no one who does not have phantasies regarding the thing he is interested in," said Dr. Patrick. "Every one at times is more or less depressed."

Loeb and Leopold sat with stolid, unchanging faces as they heard the witness proclaim them sane. Occasionally as has been their habit, throughout the hearing, they held whispered converse.

Evidence Sufficient.

His Honor held that the evidence of Florence Dickinson, who stated that she had been sent to get the dress from a Mrs. McConnell after a conversation with the prisoner, and had purchased it for \$10, was sufficient to convict the accused, coupled with the evidence of Wm. E. Maxwell, buyer for Gray's, who identified the dress as one being missing from the store.

The case was marked by a number of verbal tilts between the judge and Mr. Cluff, as well as pointed remarks which were hurled by Crown Attorney Judd at Mr. Cluff and which were reciprocated in like vein by counsel for defence.

REPRIMAND BY COURT.

Mr. Cluff told Miss Dickinson to tell the truth, and was sharply taken to task by the court.

"You have no right to say such a thing," declared his honor. "You'll tell me whether she is perjuring herself."

DETECTIVES DOWN AND BOLTON TOLD OF ARRESTING MRS. JOHNSON AT A HOUSE ON ELIZABETH STREET ON JULY 10.

They stated that the prisoner identified eight dresses at the jail as ones she had taken from London stores.

Mr. Cluff objected to the line of questioning adopted by the crown attorney in his cross examination of Mrs. Johnson. He interrupted four times during each time was over-ruled by the judge.

"You think that no one else has a right to say anything, including the judge on the bench," Mr. Cluff declared the court. "This has got to stop when I'm on the bench."

IMMIGRANTS PLACED.

A number of farm immigrants arriving from Great Britain during the week have been placed on farms by John Farrell of the immigration department.

PROVERBIAL SERIES

'LAY BY SOMETHING FOR A RAINY DAY.'
"The man who looks out for a rainy day generally makes a sunny one for his heirs."

But you say you would sooner enjoy your money than leave it for someone else to spend.

Yes! Yet you would not wish to see your wife, your children, your mother, struggling to meet expenses merely because you squandered your earnings.

If your salary is suddenly taken from your home, your dependents are generally less able to stem the current of life.

Then, too, look ahead! You will not always have your present earning facilities. Start now and save!

CANADIAN STORK BECOMING LAZY

Federal Statistics Show Birth Rate Lowest in Several Years.

ONTARIO IS HIGH

The Canadian stork is lying down on the job. Statistics released by Ottawa today show that the birth rate in Canada, exclusive of Quebec, is slightly lower than it has been for several years. London, in fact, is about the only city that has managed to maintain its birth rate.

But consolation is found in the number of deaths, which were less than the first few months of this year than in any other time in history. The infant mortality rate is also substantially lower, so all in all, the vital statistics report will be hailed with general satisfaction.

Brussels, which has always had a high birth rate, still leads every other province with an average of 25.6 per 1,000 population. This is less than the average of the past three years, but it is still miles ahead of Manitoba and Saskatchewan which come next with 23.3 and 23.1 respectively. British Columbia and Prince Edward Island are far behind the other provinces, the former registering a loss of more than 30 per cent.

Has Most Twins.

Ontario leads in the number of twins with 6, which is nearly half the total for the whole country. Only one set of triplets came into being during January, the month for which the report is based. These were born in Manitoba. The infant death rate in British Columbia touches the low water mark of 53.7 per 1,000 births. Ontario comes next with 73.3, and Nova Scotia is highest with 107. The average for all Canada is 84.5 which is the lowest in history.

Public health propaganda, which this year reaches a new and unknown proportion, is apparently having a good effect. The death rate in Canada is decreasing rapidly, the tuberculosis mortality figures having been reduced by 20 per cent. Cancer is still the most prolific scourge, an average of 400 people dying from this affliction every week. The incidence of deaths by about 500 per cent, and only 47 persons died of the disease in January of this year.

More Boys Die.

The ancient belief that boys are harder to rear than girls, is vindicated by the report. There were more babies of the male sex, nearly one-third as many more died before the first year. Infant males seem to be more susceptible to all manner of ailments than the female sex. The incidence of deaths in the first year of life was 100 per cent, and this tendency is reflected in the steadily declining number of weddings.

SPARKS FAMOUS CIRCUS COMING HERE AUG. 27

Novel Wild Animal Show Will Feature "Big Top" Performance.

Circus day will soon be here. The No. 1 advertising car, a charge, J. M. Randolph, arrived in the city this morning and his crew of 26 bidders immediately started to work putting up the flaring posters and bills that set forth the wonders innumerable of the big performance to be given here Wednesday, Aug. 27.

Are there clowns? It shows, say so. A young army of them, each and every one guaranteed to produce more laughs in a minute than all of the Doc, Coe or King. That jokers could produce in a century. They are as full of funny capers as Germany is of unruly soldiers and just to add good measure to the circus, an additional number of huge 70-foot cars have been added to the trains to carry the recent consignment of trained wild animals received from the foreign trainers in Stellingen, Germany.

The Sparks circus bears the distinction of being one of the oldest, largest and best of their season's program includes lions, tigers, leopards, polar and grizzly bears, llamas, seals and even trained ostriches vying in acrobatics with human stars. It's going to be one thrill after another from the opening spectacle, "An Egyptian Fantasy," to the great Sparks group of fighting lions, and many gasps of wonderment will be evidenced in the two hours program rendered under the "big top" of this famous circus.

Seats can be secured circus day at Strong's drug store, 181 Dundas street, for the same prices as at the show grounds; children under 9 years of age, 30c; adults, 75c. Exhibition grounds, S. W. section Fair Grounds.

PRINCE ARTHUR MENTIONED AS NEXT VICEROY OF INDIA

Associated Press Despatch. London, Aug. 12.—Prince Arthur of Connaught is spoken of as the next viceroy of India, it was learned here today. Lord Reading, the present incumbent, will probably finish his term of office, twelve months of which have not expired.

FIRE DRIVES FAMILIES FROM OTTAWA PARMENT

Ottawa, Aug. 12.—Fire, thought to have been started by incendiaries, drove 24 families from their apartments over the store of the Ottawa Manufacturing Company, Rideau street, at 10 o'clock this morning. Damage to the store and contents is estimated at \$30,000. Five men were seen running from the building five minutes before the fire broke out.

PRESSING FOR VIADUCT.

Toronto, Aug. 12.—The unemployment committee of Toronto city council is pressing the Hon. James Murdock, minister of labor, and the Dominion government to commence the Toronto viaduct in time to relieve unemployment this fall.

Two Little Girls Hanged By Mother Who Attempts To End Own Life But Fails

Children Die When Suspended Over Plank by Rope From Sacks.

FOUND BY FATHER

Woman Slashes Own Throat, But Will Recover—Seemed Normal.

Canadian Press Despatch. Lindsay, Aug. 12.—Scene and Lois Fanning, aged 7 and 8 years respectively, were found dead by their father, George Fanning, on his return from the village about 11 o'clock this morning. They were evidently hanged on a crude scaffold erected in the cellar of the house, afterwards dressed and laid out on the bed by the mother, who was found locked in an adjoining room with her throat cut. She was rushed to the hospital and it is expected that she will recover.

Mr. Fanning, who is a well-known farmer of Ops Township, living about nine miles south of here, was home about 8 o'clock, leaving his wife and two children much as usual. On his return his curiosity was at first aroused when he saw no signs of his children, who usually ran out to greet him. On entering the rear door, Mr. Fanning noticed some blood on the floor. Passing hurriedly into the living-room, he found a rope hanging from the ceiling, and that the breakfast dishes were still on the table. He called and received no answer. The man noticed one of the bedroom doors closed, and on trying to find his young wife sitting on the bed, he discovered that it was locked. He forced it open and was horrified to find his young wife sitting on the bed, with a knife wound in her throat.

"Where are the children?" Fanning inquired. "They are dead," was the cold, emotionless answer received. Fanning rushed into the room where the two children slept, and found them apparently asleep, but on closer examination found that they were dead, with a short piece of rope, made from sugar bags, knotted around their little white throats. The children had evidently been suspended, one on either side of a rough plank strung from the top of a cement cistern to a potato bin. They were taken down, carried upstairs and dressed by the mother before she attempted to take her own life.

"I don't know why she did it," said the distraught father, "because she was always so kind to them and she always loved them."

Neighbors say the little girls were deeply loved by their mother. They never noticed any trace of insanity in the mother. She was a very quiet woman, and not fond of company. She was always seemed quiet, contented, and was enjoying good health. She is 28 years of age, and has been married about ten years. The woman will recover.

Coroner Dr. Logan and R. V. Mark, representing the crown, conducted an inquest into the deaths of the girls, the remains adjourned until Friday, August 15, at 7:30 p.m.

WARRANT IS SERVED ON OSHAWA EMPLOYEE

Charged With Criminal Neglect For Placing Air Hose Against Man's Back.

Canadian Press Despatch. Toronto, Aug. 12.—Verdict of the coroner's jury in Oshawa last night that attached no blame for the death of Bert Clifford, employee of the General Motors, who died as a result of being "blown up" by the foolish prank of it is alleged, Oliver Sari, a fellow employee, is not satisfactory to the attorney-general. As a result of further investigation carried out by Deputy Attorney-General Bayly this morning a warrant charging Sari with criminal negligence, will be served this afternoon.

Sari, it is stated, placed an air hose against Clifford's back and brought about his subsequent death from inflation.

Pioneer Keeps Fit Cutting Hay

Man Is As Old As He Feels, Says C. C. Fitzgerald.

Cutting hay and raking it, is the occupation that keeps Charles G. Fitzgerald, of Thorndale, fit. Mr. Fitzgerald, who is 80 years of age, was one of the pioneers of Western Ontario.

This summer he has worked alongside the boys and is in firm belief that a man is just as old as he feels. Although he will be 90 years of age in February next, he is able to step off the mower and attend the Sunday school picnics in the vicinity of his home, and is a keen baseball fan.

CHILDREN'S HOSPITAL HAS 110 PATIENTS

The Children's Memorial Hospital has at the present time 110 patients. The hospital has been kept full all through the summer, and the usual summer let up has not been noticed this year. With the new laundry equipment in full swing the work at the hospital is going along without a hitch.

MISS CUNNINGHAM WILL ACT AS SUPERINTENDENT

Miss M. Cunningham will be acting superintendent of nurses at Victoria Hospital until October 1, when Miss Fairley will arrive to take over her duties as superintendent of nurses and principal of the training school. She will not be able to leave the Hamilton General Hospital until October 30, so it was necessary for the hospital trust to appoint someone until Miss Fairley arrived, and this was done at last night's meeting.

Prince Declines Visit To London

The Prince of Wales will not visit London in the fall, according to a letter received yesterday by the mayor from Mr. Lascelles, assistant private secretary to the prince.

The letter, which comes from St. James Palace, states that the prince is coming to Canada for a purely personal and informal visit, and that he will not visit any cities in the Dominion.

He will stay on his Alberta ranch for some time, and will visit some of the American cities in the middle west. As he has to be back in the Old Country by October, he will not have time to visit in any of the Eastern Canadian cities.

T. H. RACE OF MITCHELL IS ILL BUT FEW HOURS

Former Publisher Succumbs To Heart Attack—Was Widely Known.

Mitchell, Aug. 12.—T. H. Race, one of the most highly-respected residents of Mitchell, and a man who was well known all over Ontario, was suddenly stricken at his home on Water street on Tuesday morning. On Monday he was apparently in the best of health, and spent part of the day working in his garden. Early on Tuesday morning he was taken ill and passed away in a few hours from acute indigestion and heart trouble.

The late Mr. Race, who was about 78 years of age, was born in Port Hope, and was educated in the public and high schools in that town. He served in the American Civil War, and on his return to Canada went into grocery business with his brother-in-law, Mr. Ballantyne, in Arthur, Ontario.

Forty-nine years ago he established the Mitchell Recorder, a Liberal paper, and in 1905 he sold the paper to Harry Davey. Mr. Race was a fearless editorial writer, and always came out boldly with what he had to say. For a number of years he acted as a license commissioner, and was also police magistrate for a term. He was a member of the Order of the Sons of England, and the Sons of the Empire. Mrs. Race, nee Margaret Ballantyne, died twenty years ago, and two sons and two daughters survive: W. B. Race, principal of the Institute for the Blind, Brantford; Charles F. Race, publisher, Editor of the "Northwestern," Brantford; and Miss W. B. Race, at home, and Kathleen Race of the Bank of Commerce, Mitchell.

Obituary

JOHN BRADLEY.

The death occurred this morning of John Bradley at his residence, 161 Dreaney avenue, following a short illness. Mr. Bradley had lived in this city for the past twelve years, during which time he had been employed by John Labatt & Co., Limited.

The survivors are his widow, Mary, four daughters, Mrs. Emma O'Neil of Hamilton, Mrs. Robert Neal, Miss May and Miss Manna, all of Detroit, and three sons, Roy, Noble and Henry, all living in Detroit.

The funeral will be held from his residence at 2 p.m. Friday afternoon. Services to be held in All Saints' Church at 2:30 p.m. The Rev. A. A. Smith will have charge. Interment will be made in Woodland Cemetery.

FORD PICNIC BEING HELD AT GRAND BEND TODAY

The Ford picnic will be held at Grand Bend today. The picnic was scheduled for July 30, but due to inclement weather conditions it was postponed. There will be a large program of sports and the feature of the day will be a six-round boxing bout between two well-known Ontario boxers.

HOSPITAL ADMITTANCES AND DISCHARGES EQUAL

The number of patients admitted to Victoria Hospital last month is the same as the number discharged. It is seldom that the same number are sent home from the hospital as are admitted, or vice versa, but this month the total of both is 361.

The number of births at the hospital was 26, as compared to nine deaths.

There were 415 patients received treatment at the free dispensary, making a larger total of free treatments than has been given for months.

TILLSONBURG FAIR GROUNDS IMPROVEMENTS INSPECTED

Tillsonburg, Aug. 12.—The fair directors met last evening for an inspection of the many improvements made at the grounds during the past few weeks. The old palace has been removed, and three new exhibition buildings erected near the old north entrance. The cattle sheds have been moved to the west fence and the seating accommodation of the stands has been enlarged.

Mayor Rennie will issue a proclamation asking the citizens to decorate their homes and places of business in honor of the visit of the illustrious and anti-governor of Ontario. Rehearsals for the big pageant are now under way at the Opera House.

G. W. V. A. BATTLES FOR C. N. SHOPMEN

Sends Letter to Premier and Thornton, Protesting Staff Reduction.

PLAN SUGGESTED

A resolution was passed at an executive meeting of the G. W. V. A. on Monday night to send a letter of protest to Hon. Lyon Mackenzie King and Sir Henry Thornton regarding the 135 men laid off permanently at the C. N. R. carshops on July 31.

Following is the letter:

Hon. Wm. Lyon Mackenzie King, Premier of Canada, House of Commons, Ottawa, Ont.

Re layoff of men at C. N. R. Shops.

Dear Sir—Yours and Sir Henry Thornton's replies to my letter on the above subjects were submitted to our executive committee and to the general membership of our Command. We find that our membership are by no means satisfied with these reductions, and that there are many other ways of making necessary savings without continually practically placing the whole of the burden on the men who are the least able to stand the cut in their earnings. We find that the employees are taking more and more of the burden of the railway, and are watching carefully its business and finances, and they feel that as employees and citizens they are entitled to have a say in the successful operation of the road, and think at the present time they are not being treated fairly.

Scores of Complaints.

Our organization has received scores of complaints, and also suggestions, and we would be neglecting our duty as citizens of the country, and as an organization of Canada, if we failed to advise you of the same. We believe there is much to be gained from the suggestions offered, and we are submitting the following to you:

It appears to the G. W. V. A. that it is the actual producers who have to bear the brunt of the reduction in expenses every time, and that the overhead expenses go on with very little change.

We understand that the carloadings on the Canadian railways have during 1924 been 9.4 per cent greater than during the same period 1923. That June 1 to June 21, 1924, the earnings of the C. N. R. are only \$814,000 less for the same period of 1923, being less than half of a decrease, and that the business done in 1923 was a record for all times, yet in the face of this employees of the railway are being reduced to 600,000 during the next few months.

We fail to understand this, and cannot reason out why or how these thousands of miles of railways, which were built primarily for development purposes, can reasonably be expected to be brought to a profit-making basis in so short a period. Nevertheless the men are willing and anxious to make the railway a success under public ownership, but think that cutting off the producers cannot attain this end.

We understand that the New York Central Railway is spending \$5,000,000 on locomotives, which are not needed at the present, but ultimately will be required. The same policy is in effect on other railways in the States in order to find steady employment for the men during the present temporary depression.

Our association considers the C. N. R. management is setting a very bad example to private employers by throwing so many men out of employment or excessively reducing the working hours at this time, all of which is seriously injuring the business in an attempt to reduce the wages.

Plan Offered.

We will maintain that with very little expense in the way of additions and improvements to the C. N. R. shops that locomotives and cars can be built economically and more satisfactorily in these shops than by private owned shops; also that practically all the materials and supplies now purchased from private concerns can be manufactured in the C. N. R. shops to advantage. It has also been pointed out to us that the thousands of cars now waiting for repairs should be proceeded with, instead of allowing them to accumulate until a rush of business developed, and then found necessary to send the cars to private shops. We fully believe that it would be in the interests of the company and the country to proceed with all possible work and equipment in the company's own shops. The local Command of the G. W. V. A. wish to assure you that the above is respectfully submitted for your serious consideration, with the object in mind of co-operation with the management, and we fully believe that if these suggestions are accepted in the spirit that they are intended.

ESCAPED BULLS GORE CHILD IN MAD DASH THROUGH CITY

Special to The Advertiser. Detroit, Aug. 12.—Eight escaped bulls charged into a group of children today at Beechwood and Milford streets, seriously injuring George Lowe, 10, of 5654 Woodrow avenue. The reserve squad of the Vinewood police station, after a half-hour chase through city streets, backyards and alleys, succeeded at noon in capturing six of them. The bulls escaped from the Star Beef Company, Twentieth street and Michigan avenue.

As the bulls clomped down a runway into the street, they stampeded down Michigan avenue for a block before turning down a side street, where Lowe and half a dozen companions were playing in the street.

Prize Offered For Prettiest Unshorn Girl

Special to The Advertiser. Sarnia, Aug. 12.—By way of encouraging the modest and conservative young ladies who prefer to keep their feminine locks, even at the risk of being dubbed old-fashioned, George P. France, manager of the chamber of commerce, and Mr. P. McKay have combined to put up a cash prize for the prettiest unshorn girl, 18 or under, at the unshorn merchants' picnic tomorrow at Lake Huron Park. This event, which this year evolved from the former growers' picnic, is expected to be the largest summer outing here for years.

BOARD ORDERS PLANT FOR SEWAGE DISPOSAL

Kitchener Council Receives Provincial Body Instructions.

Special to The Advertiser. Kitchener, Aug. 12.—Mayor Breithaupt stated today that an order has been issued by the provincial board of health requiring the city to construct the proposed sewage disposal plant in the Spring street basin. The mayor stated that the city has already made application to the Ontario Railway and Municipal Board for permission to construct the plant in a section of Waterloo township. This application will be heard on September 3, and it is expected that there is no objection from the township the permission will be granted. This means that construction work will be started early in the fall, and the city will continue into the winter to give employment.

FOREST POLICE CHIEF GUARDS COUNCIL DOOR

Town Fathers Hold Meeting Behind Closed Doors—Electorals Incensed.

Special to The Advertiser. Forestburg, Aug. 12.—Following last night's special and private meeting of the council at which regular business was transacted, the adjourned meeting was resumed this evening with the chief of police at the door. Admittance was refused a large number of ratepayers and the press representatives. The engineers of the proposed municipal waterworks, James A. Bell & Son of St. Thomas, were present at tonight's meeting.

It is reported that the council is going to fight the injunction suit, which has been brought against the corporation by several ratepayers to stop the work of the municipal waterworks. It was stated tonight that steps will be taken to prevent ratepayers, to have the council meetings opened to the citizens.

GALT MAGISTRATE LENIENT WITH TWO HAMILTON BOYS

Special to The Advertiser. Galt, Aug. 12.—Despite the fact that they had records in Hamilton, Magistrate Black did not feel like sending ten fifteen-year-old Hamilton boys, who had pleaded guilty to stealing tobacco and chocolates from a local store, to jail, so gave them another chance, suspending sentence on condition that they report regularly to the Children's Aid Society officer in Hamilton. They willingly agreed to this.

AUTO TAKES FIRE

An auto belonging to H. McCandless of St. Thomas caught fire at the corner of Bathurst and York streets last night. The damage was slight and the car was able to proceed on its way. An overheated engine was found to have been the cause of the fire.

much benefit will accrue both to the company and the men.

We wish to assure you that the G. W. V. A. is a non-political organization and stands four-square for constitutional methods, but I am sure you will fully realize the difficult position of myself and our executive in matters of this kind, when men are fighting for a living.

It has also been brought to our attention that some of the ephors in various parts of Canada are working three weeks a month and no reduction in help. If the management still insists on the reduction of expenses may we suggest that the London shops be placed on the same basis, i.e., three weeks a month and no reduction in staff.

Thanking you in anticipation of your co-operation in this matter, I remain, Yours very sincerely,

GEORGE TURNER, Secretary G. W. V. A.

SIXTEEN-YEAR-OLD GIRL HELD ON ALIEN SMUGGLING CHARGE

Elizabeth Johnson, Arrested in Detroit, Admits Transporting Fifty Persons.

HOME IN DETROIT

Canadian Officers To Assist by Arresting Husband of Girl.

Special to The Advertiser. Detroit, Aug. 12.—A 16-year-old girl, who admits smuggling into this country at least 50 aliens, and probably many more, was held today in \$3,000 bond under U. S. Commissioner J. Stanley Hurd.

She is Elizabeth Johnson, who says she was married two weeks ago to a man named Tony Johnson, with whom she lives at 927 Marian avenue, Windsor.

She was arrested Saturday night in the company of three aliens, who got off a boat at Bob-Lou Park with her.

Each told immigration officials that he had agreed to give her \$30 a piece if they made entry successfully.

The aliens are: Louis Nagey, John Pachuta and Joseph Kuptus. The latter said he knew of at least 15 other persons who had paid either the girl or her husband to get them into the United States.

All these are held for violating the passport and immigration laws.

The girl was sent to the juvenile detention home. She will be given an examination Aug. 19.

Canadian officers were to co-operate by taking Tony Johnson into custody.

Officials said the girl bought quantities of Bob-Lou tickets in Detroit, and then went to the park by way of the ferry at Amherstburg. There she would meet her customers and pass to them the return trip ticket necessary to get them on the boat for Detroit.

PROVIDE VOTERS' LISTS FOR PLEBISCITE CANVASS

Numerous Requests From Both Sides Leads To Action of Officials.

Canadian Press Despatch. Toronto, Aug. 12.—Acting on numerous requests received from representatives of the Moderation League and the Prohibitionists, Chief Election Officer A. M. Dymond has sent instructions to clerks of the peace and clerks of municipalities, that they are to retain in their hands a sufficient number of copies of the voters' lists to supply each side so that they can make a canvass in connection with the plebiscite.

The usual revision of the lists, which precede voting, will take place in September or early in October.

Deliciously Sweet and Crisp

APPETITE just a little jaded these warm days? Try these delightful corn flakes—thin, sweet, crisp—all the wonderful flavor of finest sugar corn toasted just right—and yet nourishing food value, too. Your grocer has them in the wax-wrapped package.

Sugar-Crisp CORN FLAKES

RIVER FRONTAGE VALUES INCREASE

Michigan Residents Securing Summer Homes Near Port Lambton.

CITY IS SUED

Special to The Advertiser. Sarnia, Aug. 12.—That the Canadian side of the St. Clair River is rapidly becoming a most popular summer resort center for residents of Detroit was the statement of Robert Alexander of Mooretown today, who declared that river frontage property at Port Lambton and Sarnia was increasing in value and that at the former village the frontage now runs as high as eighty dollars a foot. By comparison the most select property at Sarnia beach, Lake Huron, is less than half that value. Some claim that if the anti-temperance forces are successful in the forthcoming plebiscite, summer property along Lake Huron and Lake St. Clair River will be more in demand by Michigan residents.

Suit Against City.

A writ has been issued in supreme court here by E. Stanley Smith against the corporation of the city of Sarnia asking unstated damages for alleged illegal seizure of his household effects at 251 Front street for arrears of taxes. It is claimed arrears were owing by the previous owner.

Victim of Accident.

The death occurred at Sarnia General Hospital today of Bloss Barnes, aged 28, from injuries received when he fell from a bicycle two weeks ago. He had resided in Sarnia for about ten years, and is survived by his father, William Barnes of Crossville, Mich., a sister, Mrs. Walter Carpath, 120 Savoy street, Sarnia, and two brothers, William and Ephraim, both of Port Huron. The funeral will be held Thursday at Hillsdale Cemetery, Port Huron.

TORONTO BANKER IN LINE FOR POST OF INSPECTOR

Ottawa, Aug. 12.—Grant S. McIntyre of Toronto, superintendent of agencies of the Bank of Nova Scotia, is in view for the post of inspector-general of banking, it is understood by the Evening Citizen. A salary of \$25,000 a year has been authorized by parliament.

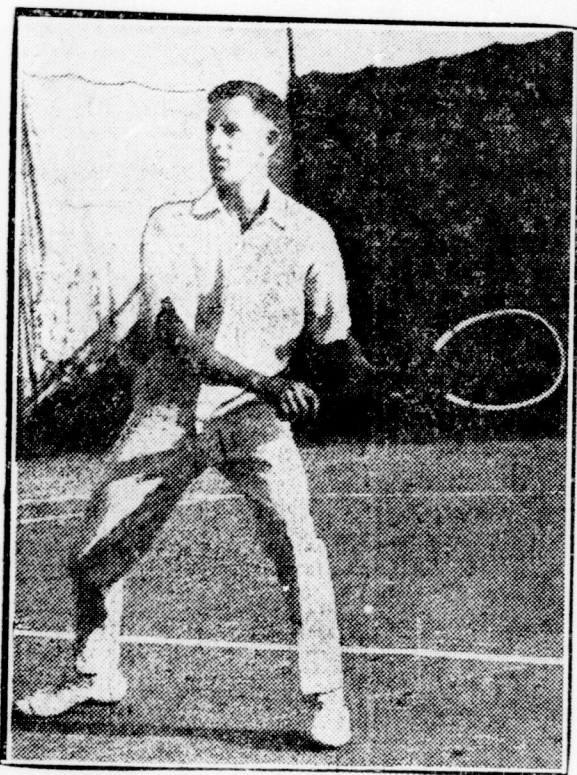

PREMIER IS AT RONDEAU ON TUESDAY, AUGUST 19

A recent edition of The Advertiser carried the date of the visit of Premier King at Rondeau as Tuesday, August 18. This was an error, the correct date being Tuesday, August 19.

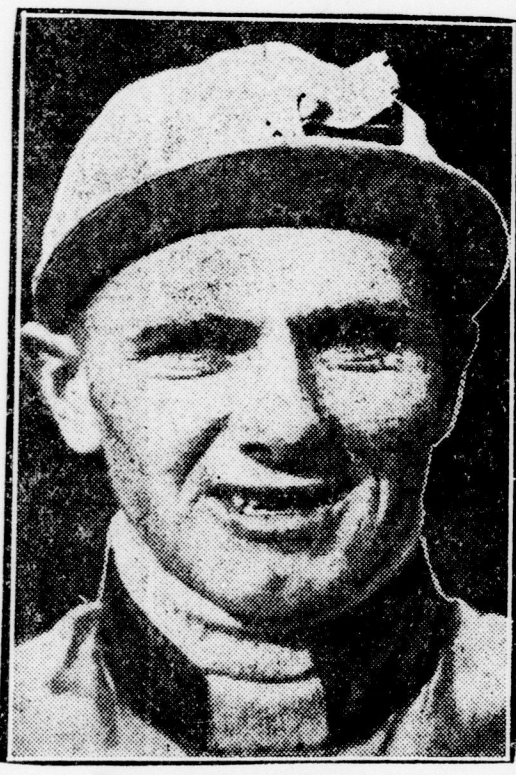

RESCUED FROM CANAL

Ottawa, Aug. 12.—Seeing seven-year-old Oscar Champagne fall into the Rideau canal basin at the foot of Albert street here this afternoon, Cecil Pollock, a boatman, dived in from there was any chance of infection from the wound caused by the boy's head striking the bottom of the canal.

Britain's Fighting Line; His Last Race; A Famous B.C. Bear

Harvey Snodgrass of California is only a youngster as yet, but a few days ago he showed his worth by defeating Norman Brookes, the 48-year-old Australian veteran, who was winning sets when Brookes was in swaddling clothes

Famous as a jockey for several years now, Earle Sande has ridden his last race. He was badly shattered when four horses went down in the recent Saratoga meet, and it is improbable that he will ever ride again

Seadogs all! The Prince of Wales, the Duke of Connaught and another high naval officer are watching the grand fleet pass in review

A cumbersome sort of a pet to have around the house, no doubt, but Baroness Wentworth doesn't think so. She owns the famous Arabian stud, Crabbet Park, and breeds pure Arabian steeds on her estate

Frau Magda Asse, recently elected mayor of Schniedmuhlin, Prussia, is the first woman in Germany to be elected mayor of a town

When Mickey Walker slips under the ropes with Benny Leonard on August 20 he will be in better condition than he has ever been before. He is shown sparring with Jimmy Drew at his Summit, N.J., training quarters

Miss Lillian Scharman of Brooklyn is a member of the U.S. Olympic tennis team, but in between sets she has managed to grab off enough time to marry William Van Andem Hester, Jr.

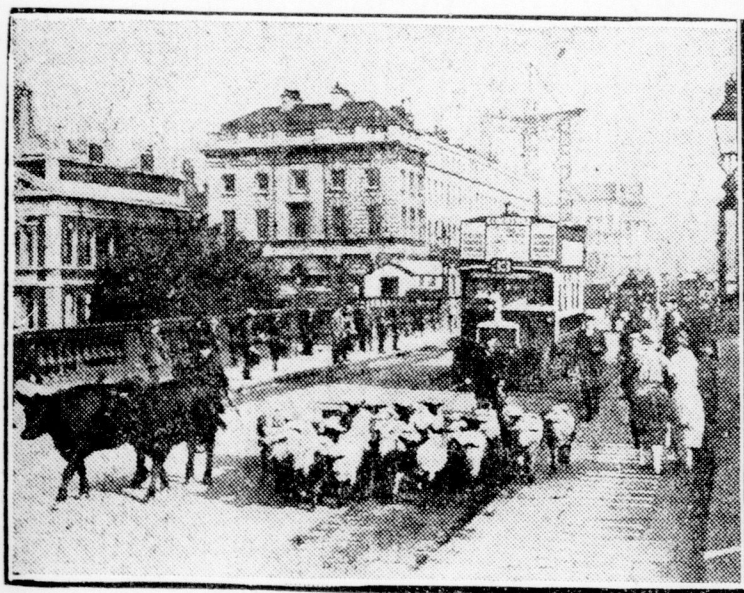

Alleging failure to carry out his promise to star her on the screen, Ann Luther Gallagher has started suit for \$100,000 against J. F. White, wealthy film producer. A sensational trial is expected

For the purpose of gathering autographs, Joseph Frank Wikulea has started out to circle the globe. His book will hold 100,000 signatures

In a plane which Lieut. Victor E. Bertrandias will take to Nova Scotia, Lieut. Wade will rejoin Lieut. Smith and Lieut. Nelson and complete the 'round-the-world' flight with them

After being closed for repairs for six weeks, Waterloo bridge in London is open again. A farmer, with his cows and sheep, was the first to cross

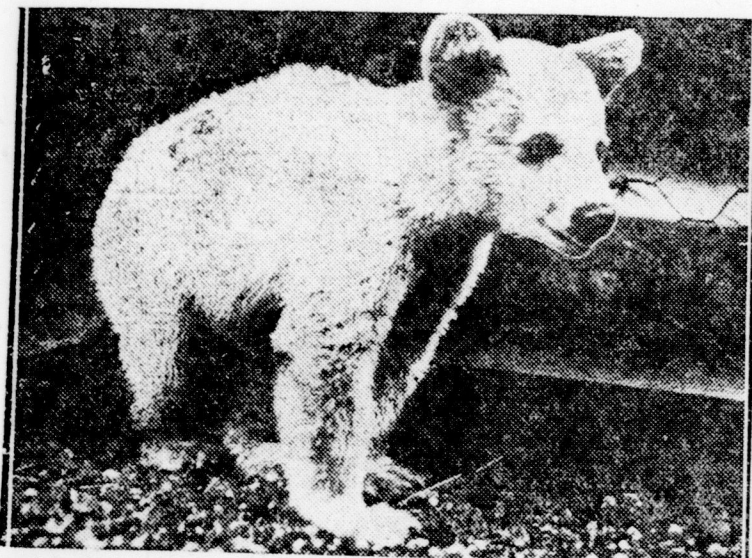

This dazzling French beauty, Mlle. Balco, won the title "Queen of Asparagus" at a recent contest held at Argenteuil, near Paris, which is the centre of the asparagus growing industry in France. She is a motion picture star

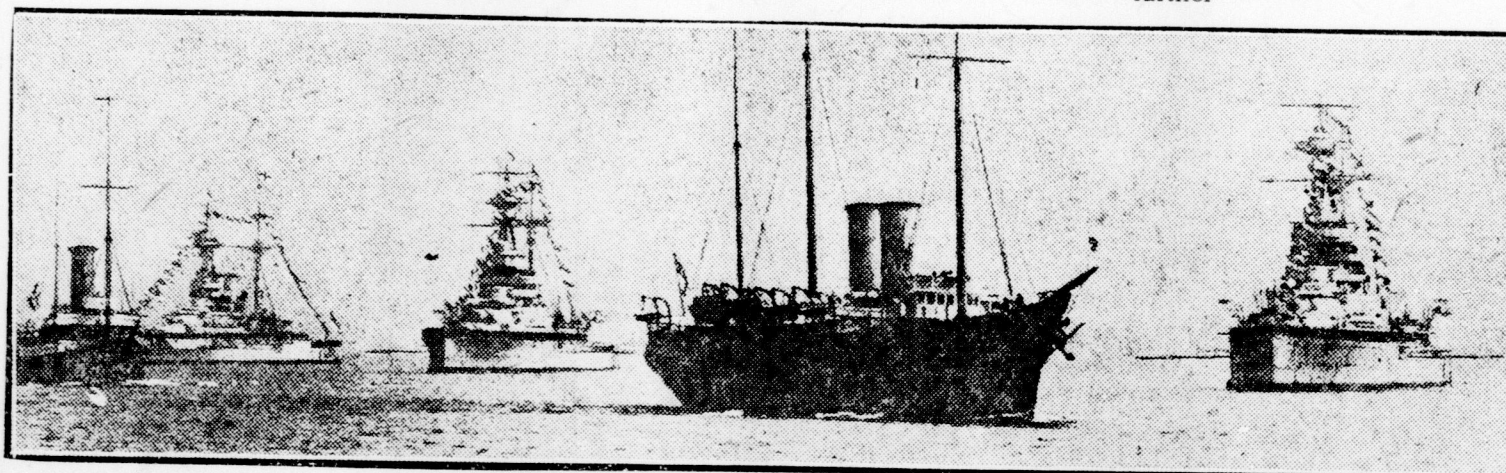

Miss Emma Crain of Washington is getting into training for the annual beauty classic at Atlantic City. The least she expects is the title Miss Washington, but her backers say she will go much farther

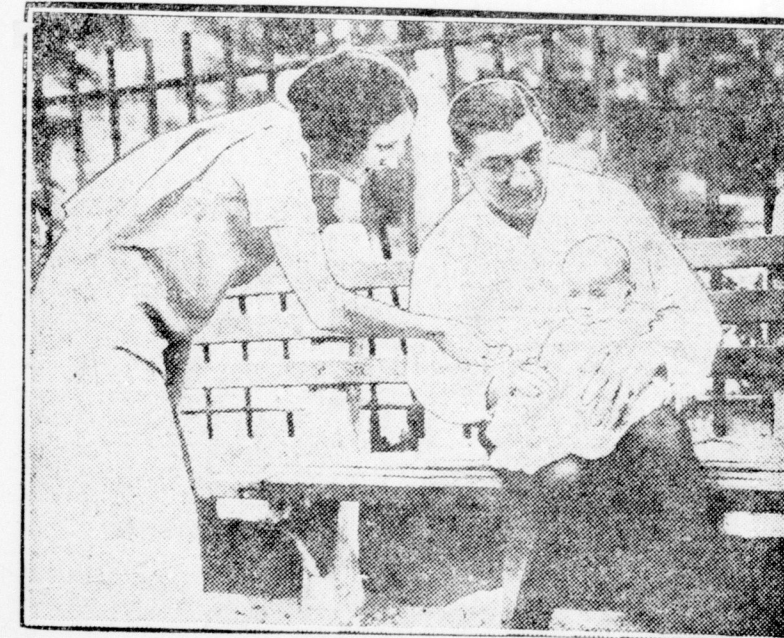

Imogene Wilson wept bitter tears when Frank Tinney, famous blackface comedian, recently sailed to fill engagements in London. He was just a little too late to dodge papers for a separation suit

Ursus Kermodei of Victoria, B.C. is the only bear of his kind in captivity. He was captured recently on Princess Royal Island, northern British Columbia, by Indians, and carried by them into civilization. He is pure white in color, but differs from the Polar bear

King George recently reviewed the greatest and most notable array of fighting ships that has been assembled since the Great War. The royal yacht Victoria and Albert and the admiralty yacht Enchantress are seen passing by the Queen Elizabeth, Resolution and Royal Sovereign

Titles are all right in their way, but when it comes to comparing them with daughters, they don't weight much—so says Johnny Wilson, former middleweight champion

WEDNESDAY, AUGUST 13, 1924.

The Adventure of Research.

Men whose souls are filled with apprehension as to the progress of civilization and the future happiness of mankind would do well to read the press despatches covering the meeting of world scientists at Toronto. For days the best scientific brains of this generation have been assembled, and their findings and discussions are charged with drama and inspiration, which even the layman cannot fail to grasp.

On Monday, Prof. Stormer of Norway, fascinated his contemporaries with a masterly analysis of the once mysterious Aurora Borealis, whose rays throw a shroud of flickering beauty over the northern hemisphere. This man from the land of the midnight sun has furnished science with a theory regarding the source and structure of the Aurora Borealis that will have a profound effect on future scientific observation of the northern lights.

Yet Prof. Stormer's discovery is only one of many no less significant achievements. The pronouncement of Herbert M. Evans, of the University of California, that he had isolated the obscure "life force" from which all reproductive processes spring, is another matter of supreme scientific interest. Then there is the assertion of Prof. V. Bjerknes, another Norwegian, that revolving cylinders will supplant wings of the modern elliptical type in aircraft construction. Prof. Bjerknes gave an extraordinary demonstration of his theory with a piece of ribbon and an iron rod.

On top of this is the hope held out by Prof. Julian Huxley of Oxford, that human life will shortly be "perpetuated"; the explanation of a new and revolutionary method of disease prevention by Sir David Bruce; the valuable advice on foods, vitamins and diets submitted by Prof. E. Maltby.

All of these scientific findings are designed to bring a fuller measure of happiness to mankind. They challenge one with speculation as to what wonders the mystery of nature may yet hold in store for conquest by man's boldness and ingenuity. Science is an adventure into the unknown; it is such adventure that gives zest and stimulus to man's life on earth.

Good News For the Farmer.

Better news from the farm districts! Despite crop damage in the prairie provinces, the yield per acre of fall wheat for Canada is estimated at 19,245,000 bushels, or just a fraction less than the yield last year.

This is heartening. Although fall wheat acreage is less than in 1923, a satisfactory average will be maintained. The situation in the west is not uniformly good, but Ontario has more than plugged up the gap. The average of 26.9 bushels on a large acreage is just about the best this province has experienced.

In the west, particularly in Alberta, many voices of disappointment that yields in all grains will be at least 30 per cent lower than last year. But this, while regrettable in some respects, will have the effect of boosting prices, and that is what the farmer needs. Good prices may relieve him of the financial burden under which he has been laboring owing to over-production.

With the exception of flax, yields of all grains have been curtailed throughout the west. Oats, barley and rye have fallen off, and the potato crop is slightly under that of last year. Notwithstanding widespread injury in certain localities, however, travellers from the west are quite optimistic.

It will be interesting to learn just what effect reduced yields will have on agricultural prosperity. Record crops are much to be desired in normal times, but with the export situation as it is, the theory that small production and high prices is better than large production and low prices may be vindicated.

Prevention Better Than Cure.

"Medicine in the future," asserts Major-General Sir David Bruce, president of the British Association for the Advancement of Science, "must change its strategy and, instead of awaiting attack, must assume the offensive." The old conception of dealing with disease, he adds, was that of treating its victims, but hereafter science must invade the enemy's country, destroying lines of communication, munition factories and poison gas centers.

The analogy is a useful one. Individual prevention is better than individual cure, but social prevention is better than either. It is this which science can provide. Modern governmental health authorities have not yet made impossible the spread of such epidemics as influenza, but it is not likely that the civilized world will again see such a series of plagues as that which swept over it in the fourteenth to seventeenth centuries, beginning with the Black Death, which wiped out one-quarter of the population of Europe.

Governmental health men, however, merely apply what science has already discovered. Further research and discovery of the causes and prevention of infection and contagion is no less urgently needed than the application by public health officials of existing knowledge.

But here a great question of economical import is involved. Disease has been fought in the past after manifesting itself on its victims. This was not alone because of ignorance, but also because of economic reasons. The

man who already has a disease is willing to pay for a cure. But the individual who has no disease, but is likely to get one, will not, as a rule, contribute financially to the work of prevention, as outlined by Sir David Bruce. That is why the province must shoulder the burden exclusively.

In the field of original research the world has been obliged to depend for its epochal discoveries either on private enterprise of scientists of independent means or on endowed institutions, such as the Rockefeller Foundation. It is on these that reliance for new discoveries is likely to be placed for some time to come. But there are signs that in time the province will go further in this respect than it has in the past. The action of the federal government in granting an annuity to Dr. Banting, discoverer of insulin, to enable him to carry on his researches, is an instance of this tendency.

Britain Looks To Canada.

Canadian crop reports, which are usually hidden away in the market columns of English newspapers, have suddenly been promoted to the front page. The British public finds itself mightily concerned about Canadian weather between now and harvest. The reason is the sky-rocketing in the price of wheat and flour and the increased price of the four-pound loaf, which comes home literally to every householder in Britain. The newspapers are giving the advice, "Eat Less Bread," as a means of frightening the market manipulators, who are blamed for raising prices.

People are most resentful of troubles if they think other people are profiting by them, and the London newspapers have published stories that "the Chicago wheat farmer of the Middle West is sitting on the top of the world with a crop far in excess of last year's, and with a reported threatened world-shortage of foodstuffs that may send wheat up two dollars a bushel." It has been freely alleged that the Canadian crop is only going to be half last year's. The British government has energetically denied these alarmist reports, and affirmed its view that the wheat shortage is only temporary and that supplies will be ample in the autumn.

A Garden For the Prince.

Last year it was the C. P. R., but this year the Cunard Company, which has the honor of carrying the Prince of Wales across the Atlantic. The company is exerting itself to show what it can do, and the prince's state rooms on the Berengaria will be a bower of flowers. Great pots of pink and white heather will decorate the veranda lounge; six silver vases of pale pink carnations, and six vases of roses will adorn the private sitting-room and the dining-room. Last year the prince had no private dining-room, but sat in an alcove in the public saloon. The ship's gardener for the Berengaria has 3,000 plants to attend to during the voyage, exclusive of cut flowers, of which 500 vases have to be arranged by him daily. He says that carnations and chrysanthemums are the best sailors among flowers, and roses are the next best. A great many plants are subject to seasickness, especially geraniums, heliotropes and fuchsias. Palms last very well. There is one palm on the Berengaria which has been four years in use.

A Liberal Theory of Empire.

Sir Edward Grigg, M.P., who is making himself the spokesman for the Liberal party on empire questions, has given an address on "Liberalism in the Empire" at the Liberal Summer School at Oxford. He said that the diplomatic unity of the empire is not a matter of machinery, but of imaginative grip in grasping a new principle and developing a new movement. Unity can be attained only by clearly recognizing four facts. These four facts, which have been printed in heavy type in the Liberal newspapers are as follows:

1. Great Britain cannot go to war without the consent of all the other British democracies.
2. Great Britain can, therefore, undertake no treaty obligation involving a possible recourse to war unless the other brother democracies share that obligation with her.
3. The control demanded by the mother parliament over the incurring of such obligations must be conceded to Dominion parliaments on the same terms.
4. The dominions must be represented by their own plenipotentiaries at all negotiations concerning those obligations.

Note and Comment.

The Old Boys have made Ingersoll young.

It has been almost cool enough for the girls to put away their summer furs.

The soft slouch hats of the Knights of Pythias were all right. But where were their plumes?

As the result of a wager a Dutchman named Takkenberg is turning somersaults from Holland to Marseilles, a distance of 15,000 kilometres. He is accompanied by his fiancée and a doctor. But where is the gentleman's keeper?

The colored people of London have organized for the definite purpose of self-development. It is a refreshing and a healthy sign in an age when too many people devote their energies to self-amusement. The address of J. F. Jenkins could be read with profit by all citizens.

The attorney-general and the provincial police department beg to report they know nothing more about Charles Matthews. In the language of the weatherman, this is merely "no change," but it may be "warmer" at the Parliament Buildings after a while.

Lawrence Johnson of Avon, was 103 years old on Monday. The world has passed through amazing developments during this one man's span of life, and his memory must be crowded with curious contrasts. Western Ontario congratulates him.

Rarebits By Rex

A DIFFERENCE.

When I played golf ten years ago I'd give the ball a vicious blow And make 200 yards or so On every drive.

When other golfers watched me clout, In admiration they would shout; Their average length was just about One-sixty-five.

But since I gave up golf for cards, I've learned from former golfing pards That men now do 300 yards Without surprise.

"The game is different," they allow, But I, who watch them, think somehow The difference is that golfers now Tell bigger lies.

Dear Sir: I am going to take up golf. Will you kindly explain how I can make a success of the game? MR. DUMB.

Dear Mr. Dumb: Never having played golf myself, I am only too glad to give you the desired information. First, to be a success, you must be equipped with a set of clubs, an utter disregard for the truth and an evil disposition.

You must also possess a choice selection of expletives. We can furnish you with all the fashionable swear words at low prices. Catalogue sent on request.

For example, when you fuzzle your drive, expletive number 63 is the proper one to use. If the ball goes into the river, it is customary to use expletives 68, 34, 13 and 40 in rapid succession.

For missing a six-inch putt we recommend swear words 16, 18, 14 and 21. If you are playing with a lady, it would be better not to use 21. Of course if you are playing with your wife it doesn't matter.

If your legs are like telegraph poles and your figure closely analogous to that of a hippopotamus, you should wear knickerbockers (plus furs). It is stylish for all golfers with 68-inch corporations and elephant legs to wear knickerbockers.

On the other hand, if you have a beautiful, symmetrical figure, ordinary blue flannels are the thing.

Before driving keep your legs 46 inches apart, do not raise your shoulders, keep your chin in, tongue out, nose tilted, ears back and Adam's apple partly peeled.

It is also best to remove your teeth and keep your eye on the ball. If a pretty girl passes, keep one eye on the ball and one on her.

Remember, if your eye is on the ball when the club strikes it, the club is also likely to strike the eye. Therefore, do not keep your eye on the ball too long.

If you wish to make a score that will impress your lady friends, count the number of strokes for 18 holes and divide by three.

To get in a hole quickly and efficiently, join an expensive club and lose about 20 balls a day. This method is guaranteed to put you in a hole very rapidly.

Should your wife be fat and wish to reduce, tell her to play golf. We assure you it will reduce her to tears.

You have probably been told that golf is a Scotch game. But when you get your bill for free you will understand why no real Scotchman has ever been known to play it.

Dr. Frank Crane

GOD

God is so old. He knows such a tremendous lot by experience.

He has been through so many things that disturb us and found that they do not matter. Generations of men come and go, like waves beating upon the shore, but God is like the boundless ocean which remains forever the same.

God seems to be a necessity of thought. It is silly for people to speculate or dispute whether or not there is a God. If there is not a God there is something else equivalent, the nature of which we do not know.

But the most remarkable thing about God is not that he is so old, but that he is so eternally young.

Whatever God has he must have life, and there is no other name for life but Eternal Youth. As one grows older he is amazed every year to see the young grass growing, the flowers preening and the young lambs hopping.

There is something in all this that corresponds to the nature of God.

He must have a sense of humor, consequent upon his spiritual removal from the earth. He does not have a sense of tragedy, for tragedy is simply brief life trying to be eternal or force fluttering against its limitations.

With God there can be no limitations. He does whatever he wills.

But the most amazing thing about God is not that he is so great, but that he is so small. He sees beyond the confines of the greatest microscope. He is at home among the electrons and the protons.

To him all the visible phenomena are but rearrangements of those atoms which we cannot see, atoms which now are man, now are beast, and now are the rocks that strew the field.

God is not only the most subtle thing in his universe, but he is constantly moving.

He is the secret of force. He moves in electricity, in gravitation, in chemical unions, which are names we give to the infinitely small things that we do not understand.

It is as easy for him to juggle the stars, or guide them in their vast courses, as it is to juggle the atoms. One is as mysterious as the other.

The human mind has its limitations. God has no limitations.

God is the name we give to our human faculties when they are projected beyond all human powers.

He is the nature of things. And he who has found out the nature of things, and has conformed himself to them, has found God.

Canadians who laugh at the legal technicalities in the Chicago murder trial should not overlook the trial of the Home Bank directors.—Peterboro Examiner.

On the whole, it is satisfactory that the weather in Western Canada cannot be controlled and regulated by the Chicago wheat pit.—Hamilton Herald.

The Fun Shop

DEAR MR. FUN SHOP EDITOR—Two hard men say they quite adore Girls dressed and shoe So when I venture on the street, A modest frock wear I.

I've heard men say their ideal girl Is one who loves to cook. So countless hours I spend with range And culinary book.

I've heard men laud the seemingly maid Who scorns a naughty drink So, shuddering from horrid hoots And cackles I shrink.

But... somewhere there's a catch. I'm sure. Else can you tell me why The other girls have men galore. While not a one have I!

Outclassed.

Duncan—"Why did Jenks give up the study of law—become discouraged?"

Jimson—"Yes. He lost out so often when he argued with his wife that he figured he'd make a darn poor lawyer."

An Accurate Report.

She—"How do you like my dress, dear?"

He—"Second to none."

If Popular Marches Were Illustrated.

Hands Across the Sea.

A Failure.

Nancy—"Did you enjoy your vacation at that mountain resort, dear?"

Peggy—"Heavens, no! I had a most wretched time. All the good-looking fellows strolling there were either engaged or married."

Unpublished Letters of Famous Men.

Dr. Robert Roberts.

Born, Switzerland.

Dear Doctor—I thought I would write you about my eyes. They are in very bad shape and, in fact, I am almost blind. You may not believe it, sir, but when I shot an apple from my son's head recently, at a hundred yards I missed the core a six-

teenth of an inch. The other day I shot at a dime at fifty paces and nearly missed it, hitting the coin near the edge. Please send me something for my eyes before it is too late and I am totally blind. Thanking you in advance, I am, Very truly, WILLIAM TEL.

Dear Hans Bramble: Of course you have heard about my long sleep in the mountains, but I doubt if you'll know me when you see me. When I came home again after twenty years, Hans, the only people who recognized me were those I owed money to when I left.

That brings me to the subject of this letter, old fellow. Do you remember that flint-lock gun I sold you, before I left? Well, Hans, you didn't pay me. I was a keen the whole time so I don't think it would be hardy fair to outlaw the debt. So please send me the money at once. It was \$6, and two plums of chewing tobacco.

Hoping to receive an early reply, I am, as ever, RIP VAN WINKLE. P.S.—I'll make it \$4 and the chewing tobacco.

Dear King Arthur:

I am enjoying my vacation very much. Please send me a couple of suits of armor, and three pairs of tempered steel underwear by return of this letter, old fellow.

I met a swell girl here the other day. She's just the sort of girl to keep house for me and weld my socks. Her father, unfortunately, doesn't like me. He almost fractured his leg last night, when he attempted to kick me down stairs. Armor comes in handy at other times than on a battlefield, eh, Art? One disadvantage, though, she hates to sit on my lap!

Well, my regards to all the boys at the round table. As ever, SIR LANCELOT.

Very Secret.

Bill—"Do you belong to any secret orders?"

Phil—"Yes, to the order of long-suffering husbands."

A young lady of our acquaintance says she doesn't know what a "stap" is, but she insists that a smoker is a two-legged animal with a burning cigar in his mouth.

A Maid of Her Word!

Mrs. Heller (to new maid)—"Nora, did you clean the gold fish as I told you to do?"

Nora—"That I did, Mum, and scraped all the scales off av thim. Sure tis likent to be able to have fresh fish likt that whiniver yez wants thim."

Readers are requested to contribute (or humorous mottoes), jokes, anecdotes, poetry, burlesques, satires and bright sayings of children, must be original and unpublished. Accepted material will be paid for. All manuscripts must be written on one side of the paper only, and should be addressed to: The Fun Shop, The London Advertiser. No manuscripts can be returned. The rates are \$1 to \$10 for accepted material, and 25 cents to \$1 a line for poetry.

HAY FEVER

Summer Asthma

May spoil your summer, and make you a nuisance to your friends. Take RAZ-MAH to-day. You'll sleep to-night, free from coughing, choking, sneezing, perhaps feel better from the first dose, (in capsules easy to swallow.) Absolutely harmless. Druggist will refund your \$1 if first box doesn't bring relief. Send to TEMPLETONS, Toronto, for generous sample.

RAZ-MAH

OUR NOBLE PIONEERS.

Doon in oor herts we honor haud For ilka humble pioneer.

Wha daily wrought an' nobly won 'Gainst frequent trials maist severe, Oor fathers, tho' a sturdy race, Had tenants lang in Scotia been; Yet, for a house tae ca' their ain, They had a fondly cherished dream.

They bade farewell tae soll they lo'd, Tae heathered hills, tae glens o' fame;

They braved Atlantic's briny waves In quest o' a Canadian home.

Unbroken as a Gaelic guard, Unconquered forests firmly stood, Tae deal defeat tae a' who dared, Molest their native solitude.

Yon trackless wilds ne'er yet had ken; They'd scorned tae yield Canadian soll.

For ne'er had they met Scottish men. In visions aft yon trees I see, As in gigantic form they stood, Tae measure wi' oor forebears braw Their strength, their faith, their

men.

FASTEST HARVESTERS' TRAINS WILL BE BY CANADIAN NATIONAL RAILWAYS

The special harvesters' trains of the Canadian National Railways from all Ontario points as advertised, will make the fastest time to Winnipeg operating via the new Longlac cut-off, the shortest route between Eastern and Western Canada. Harvesters travelling by this route will, as a consequence, be first in the field. The first train leaves Toronto one minute after midnight of August 21, (12:01 a.m. August 22). The fare is a flat rate of \$15 to Winnipeg and half a cent a mile beyond. Returning, the fare is half a cent per mile into Winnipeg and \$20 back to starting point.

Comfortable, roomy, convertible (berth) Colonist cars of latest design and lunch counter cars serving refreshments at reasonable prices will be attached to trains. Special cars will be provided for women. Purchase your tickets to Winnipeg via Canadian National Railways, no matter whether your final destination is a point on the Canadian National or not. Consult with your nearest agent for train service, etc.—Adv.

GENERAL ASPHALT BUYING IS GOOD

Market Moves Upward at Noon Under Leadership of Leathers and Rails.

Associated Press Despatch.
New York, Aug. 13.—The readiness of the rank and file of speculators to trail along when buying orders appeared in volume in any quarter caused advances of 1 to 2 points in the asphalt, chemical, tobacco, public utility, Texas-Gulf Sulphur, Railway Steel Spring and International Business Machine shares in the early afternoon. Omaha, Pennsylvania and Ontario, and Western were also quite strong, while Crucible Steel, Gulf States Steel, Foundation Company and Nickel Plate dropped 1 to 2 points.

Associated Press Despatch.
New York, Aug. 13.—Profit-taking sales forced recessions of 1 to 2 points in Union Pacific, Southern Railway, Chesapeake and Ohio, preferred, General Electric, Western Union and American waterworks, but when these had been absorbed, the market started to move upward again around noon under the leadership of leathers and rails, and to 3 points.

Good buying also was noted in General Asphalt, Famous Players, American Can and Baldwin, the last named reaching 121. Call money again receded at 2 per cent.

FRUITS COMMAND GREATER PRICES

Tomatoes Bring From 30 to 45 Cents Wholesale in Toronto.

Canadian Press Despatch.
Toronto, Aug. 13.—Fruits commanded a slightly higher range of prices on the local fruit market this morning. The following wholesale quotations of fruit and vegetables are quoted by White & Company at noon:

Plums, 6s 40c to 75c; raspberries 15c to 22c; cherries, 15c to 40c; 65c; 6s 30c to 50c; red currants 60c to 75c for sizes; lemons 1s to 1.25; black currants 6s 15c to 1.50; 11s 25c to 2.50; blueberries 1.50 to 2.00; gooseberries 1.50 to 2.00; 15c to 20c a dozen; tomatoes 30c to 45c; potatoes 1s to 1.10 per bushel; cucumbers, lemons 50c; onions 45c per bag; celery 50c to 1s.

Exchange

Associated Press Despatch.
London, Aug. 13.—Bar silver, 34-1/2 per ounce.

Associated Press Despatch.
Paris, Aug. 13.—Prices were steady on the bourse today.

Associated Press Despatch.
Exchange on London, 82 francs 50 centimes.

Five per cent loan, 66 francs 95 centimes.

The United States dollar was quoted at 13 francs 15 centimes.

Associated Press Despatch.
New York, Aug. 13.—Bar silver, 68 1/2 per ounce.

Associated Press Despatch.
New York, Aug. 13.—Sterling exchange firm demand rates (in cents): Great Britain, 25 1/2; France, 27; Italy, 45 1/2; Germany (per trillion), 25 1/2; Canadian dollars, 52-1/2 of 1 per cent discount.

DETROIT DISCOUNT RATE

Special to The Advertiser.
Detroit, Aug. 13.—Detroit clearing-house banks' uniform rate of exchange on Canadian currency for Wednesday will be at a discount of 25c per \$100.

LINSEED

Duluth, Aug. 12.—Close: Linseed, Sept., \$2.33; Oct., \$2.26; Nov., \$2.26; Dec., \$2.19.

For Disorders of the Blood

NETTLE rash, prickly heat, pimples, sallow or unhealthy complexion, and similar skin troubles, are due to impurities in the blood-stream produced by irregular or ineffective elimination of waste products from the large intestine. The daily use of ENO'S "Fruit Salt" cleanses the blood in a perfectly natural manner and thus promotes a clear, healthy skin. You should never be without ENO'S—your druggist sells it.

BEING INVESTIGATED**

Brotherhood of Locomotive
Engineers' Executive Hears
Evidence of Members.

Canadian Press Despatch.
Ottawa, Aug. 12.—The executive of
the Brotherhood of the Locomotive
Engineers were in session here to-
day, taking evidence from local mem-
bers of their union in continuance
of their inquiry into the seniority
problem brought about by the mer-
ger of different railways now con-
trolled by the Dominion govern-
ment.

Following the hearing here, the
members of the executive left for
Toronto, and from there they will
proceed to Winnipeg and to the
Pacific coast to continue their in-
vestigation. President Warren S.
Stone of the brotherhood, has re-
turned to Cleveland, Ohio.

**BEAVERBROOK PLEASURE
FISHING.**

Beaverbrook, who arrived at his old
home, Newcastle, today, will spend
some days fishing on the Mirlin
River. He says that he is in the
province on pleasure only.

NO ONE TO BLAME IN JOHNSTON DEATH

Coroner's Jury Finds Death
Due To Injuries Received
in Accident.

SEVERAL WITNESSES

No blame was attached to any per-
son by a coroner's jury in con-
nection with the auto accident on the
Hamilton road at Brick street on
August 2, where Henry Johnston of
London was killed when the auto he
was riding in skidded into the ditch.
The inquest, called by Coroner Dr.
J. G. Collins of Lambeth, was held at
the court house last night, and after
hearing the evidence of several wit-
nesses, who were all questioned by
Crown Attorney Albert M. Judd, the
jury rendered the following verdict:
"That H. G. S. Johnston met his
death in an automobile accident on
the morning of August 2, 1924, the
cause of the first concession of West-
minster Township and the Hamilton road.
"We, the jury, strongly recommend
that some means of protection be
provided at this point to avoid future
accidents of a like nature."

Walter Bolton, 38 York street, was
foreman of the jury. Roy Johnston,
123 Fullarton street, the first witness
and brother of the late Henry Johnston,
said he and his brother, accompanied by
Edward Earl, left London at 10:45 p.m.
on the night of August 1, and arrived in
Ingersoll an hour later. Earl owned
and drove the car in which they were
travelling. The car was going at 20
miles an hour, and did not see the
turn. Earl made part of the turn
and the car crashed. Witness was
still in the back seat after the crash.
His brother was under the front por-
tion of the car which rested on his
chest. He and Earl tried to remove
the car but could not, and went for
help. It was a foggy night, witness
stated, and he didn't think they were
speeding.

Edward Earl, Oxford street, gave
evidence of a similar nature. He put
on the foot brake at the fatal corner,
he stated, and could not really say
what caused the accident. Witness
was thrown into the swamp nearby.
He stated the car brakes were work-
ing properly.

High Constable Wharton told of
visiting the scene of the accident. He
declared that in his opinion no one
could be held responsible, owing to
the fog banks, and he declared that
the accident was unavoidable.

MURDER SUSPECT COMMITTS SUICIDE

Body Found Near Chatham Is
Identified As Detroit
Belgian.

Special To The Advertiser.

Chatham, Aug. 12.—The body of a
Belgian, who hanged himself in Mc-
Garvin's bush, Harwich Township,
five miles from here, was this after-
noon identified as that of Arthur
Raamout, 354 St. Jean street, De-
troit, who Sunday murdered his wife
by slashing her throat with a razor.
The identification was made by Leo
Deporter, 5553 Lamine avenue, De-
troit, who chanced to be in the city
this afternoon and heard of the
suicide. He instantly recognized the
body in Burrows' morgue, and told
the authorities that he was a neigh-
bor of the suicide. Detroit police are
expected to complete the identifica-
tion.

Suspicions were entertained by the
authorities that the dead man was
being sought by Detroit police for
the murder, when it was observed
that the suicide was cross-eyed, and
that his appearance answered the
description of the wanted man. It is
alleged that Raamout, who was a
grocery store near his home and
attacked her with a razor. She was
dead when picked up. The Detroit
police suspected that the Belgian fled
to Canada.

Raamout's body was discovered last
night by three Indian boys during a
ramble in the McGarvin bush.

SECOND FIERY CROSS IS BURNED AT ERIEAU

Suspicion of Intimidation Held
by Some—Authorities
Issue Warning.

Special To The Advertiser.

Chatham, Aug. 12.—For the second
time within a week, a fiery cross
was seen in the Ku Klux Klan, was
seen last night at Eriean, this time
at the rear of the property owned
by Miss Crawford. It was of large
proportions.

The authorities are satisfied that
it was not started by children. Sus-
picions are entertained that the cross
was intended to intimidate persons
who had furnished bail for Hardey
Scratch of Eriean, who is accused of
a serious offence. Miss Crawford is
one of the number. Scratch was to
have been tried today, but the case
was enlarged.

The authorities are investigating,
and have given warning that any
further similar movements will re-
sult in arrests and prosecutions.
The first burning emblem of the
Ku Klux Klan was seen late Wed-
nesday night at the end of the gov-
ernment pier at Eriean. It was re-
garded as a joke by the residents.

**T. G. MASON, PRESIDENT
OF MASON & RISCH, DIES**

Canadian Press Despatch.

Toronto, Aug. 12.—Thomas G.
Mason, president and one of the
founders of Mason & Risch, Limited,
piano manufacturers, died today at
the summer home of his nephew,
Henry H. Mason, on Lake Simcoe,
according to word reaching here to-
day.

STREET RAILWAY AGREES TO START WORK AT ONCE

Construction To Be Under-
taken by Company Accord-
ing To Franchise.

VOTE UNANIMOUS

Settlement On Wellington
Pavement Made After
Long Controversy.

City Engineer Near was authorized
yesterday by the board of works to
start work on the Wellington street
pavement as soon as he and the rep-
resentatives of the London Street
Railway could get going. Mr. Near
stated that he was ready, and Leonard
Tait, secretary-treasurer of the com-
pany, said the same thing for his
men. The work is expected to be be-
gun this morning.

Mayor's decision made the motion
that the work should be proceeded
with immediately, and after Mr. Tait
had told the committee, in reply to
Add. Tovey, that the work would be
undertaken by his company in strict
accordance with the terms of the
franchise, the motion was carried
unanimously. This was the work
which the company officials three
months ago promised to do this year
should their revenue increase and
their funds permit it.

Improve Park Roads.
It was decided that the planing of
the roadways at Queen's Park for
the Western Fair, and the collection
of garbage during the fair week
should be done by the city engineer's
department and charged up to the
Western Fair Board as in other
years.

The committee will visit the new
registry office some night and choose
the type of electric light fittings to
be installed. Prices for these fittings
varied all the way from \$215 to \$300,
and the committee decided to see for
itself what were the best lights for
the rooms.

A recommendation of the city en-
gineer to paint and paper rooms in
the city hall occupied by the ser-
geant-at-arms at a cost of \$54 was
turned down at the instance of the
mayor, who objected to the expense.
Papering is now going on in the
hallways and engineers' offices.

Double Rates for Sewers.
Double rates for the use of the city
sewer system will in future be
charged for use by households living
without the city limits. The en-
gineer asked for a ruling on this
matter, as there was no precedent
for him to follow in making a charge.

A bylaw to permit the construction
of a sanitary sewer on Oxford street
east was ordered to be drawn up by
the city clerk. The directors of the
Western Fair in a letter explained
that they had approved of a plan of
the mayor's to improve the ground in
front of the grandstand at Queen's
Park in order to have a permanent
athletic field in the city, and the city
engineer was instructed to inspect
the land and see what could be done
to carry out the wishes of the
directors. The mayor suggested that
a collapsible railing between the
track and the land inside was part
of the scheme.

UNSEAT DELEGATE AT CONFERENCE

Typographical Union President
Rules Out Canadian at
Session.

Canadian Press Despatch.

Toronto, Aug. 12.—By a ruling of
President C. E. Howard, at the In-
ternational Typographical Union
convention in Massey Hall today, a
Canadian delegate was unseated be-
cause he was not elected on the day
provided by the constitution.

William Glocking, of Toronto, first
vice-president of the International
Book Binders, addressed the conven-
tion this morning.

A sad note crept into the proceed-
ings today. President Howard asked
if a representative of the Interna-
tional Stereotypers was present to
address the convention. There was
no response. He then told the con-
vention that J. J. Freil, general
president of that organization, had
died some days ago. Mr. Freil is
well-known in Toronto and among
the labor forces in Canada and the
United States, and great regret is ex-
pressed at his death. He presided at
the convention of his organization
two weeks ago.

The committee on laws reports un-
favorably on two resolutions pre-
sented by Canadian locals to the I.
T. U. convention. One resolution is
from the Calgary local, seeking to
amend the constitution so that no
officer shall be eligible as a candi-
date for a third successive term.
The Montreal union wants to amend
the constitution to provide that the
position of second vice-president of
the International Union must be a
member of one of the Canadian
unions.

WARM WEATHER AND RAIN IMPROVE WESTERN CROPS

Canadian Press Despatch.

Lethbridge, Alta., Aug. 12.—Warm
weather following heavy rains the
latter part of last week, has brought
the grain along rapidly, with the re-
sult that cutting is under way in
many parts of Southern Alberta,
but along the Western sections of the
district it will take another two weeks
of fine weather to bring the
crops to maturity. Southwestern Al-
berta will this year harvest 60 per
cent or better of the 1923 bumper
crop.

PROBE DEATH OF VICTIMS OF BOILER EXPLOSION

Canadian Press Despatch.

Brockville, Ont., Aug. 12.—Dr. W. E.
Storey of Kemptville today opened
an inquest upon Stanley H. Watts,
Frederick Murray and George Mor-
rison, killed this morning in the ex-
plosion of a boiler in the Wat-
chman factory at Bishop's Mills, and
adjourned it to meet again in
Kemptville on Thursday evening.
Sewant Thompson of Bishop's Mills,
who was seriously injured, is ex-
pected to recover.

108 YEARS OLD.

Lawrence Johnson, of Avon, cele-
brated his 108th birthday on Monday.
He is hale and hearty, and his hap-
piest hours are those he spends in
his garden, which is one of the best
in a number of excellent gardens in
the community. His proud boast is
that he does not use a cane as he
walks about the hamlet calling on
friends.

HARTSELL ADMITS CHICKEN THEFTS

Prisoner Implicates Two Others
in Written Confession—
Describes Raids.

A written confession made by Fred
Hartsell, held by the provincial police
on a charge of chicken-thefting along
with Fred Lowe and Earl McCormick,
charges that the three had
stolen 123 chickens and 40 pounds of
honey during the past five months.

The prisoner's confession came as a
result of a tour throughout the coun-
try with High Constable Wharton.
During the ride they visited St.
Mary's, Springfield, Lambeth and
Tatobville.

When brought back to the city,
Hartsell broke down and confessed to
being implicated in the thefts, and
listed the amount of money made
by the three and the places visited.

On the night of August 5 they
visited the farm of Thomas Parker
and took away 15 fowl, which they
disposed of immediately in the city.
On August 10 they stole 40 pounds of
honey from the apothary of Ron-
ald Edwards, second concession, W.
Nisour, and on July 9 twelve
chickens were taken from a farm on
the ninth concession, London Town-
ship, on which there is a vacant
house. On July 11 they paid their
respects to Herbert Hicks and Wil-
liam Wallace of Tatobville, and left
with from 20 to 40 fowl. The largest
haul was at Ingersoll, when the three
got away with 60 chickens from a
farm in that district.

Yesterday Hartsell pleaded not
guilty, but it is expected that he will
change his plea to guilty as a result
of his confession. Lowe and McCor-
mick will likely follow his example.

Brantford authorities arrived yester-
day to take Hartsell to Brantford
to answer a charge of wife de-
sertion, but Crown Attorney Judd
ordered that he be kept in the city
jail here to answer the charges laid
against him by the provincial police.
Ed. Guest, county constable, wit-
nessed the confession.

CITY RELIEF INSPECTOR HANDS IN RESIGNATION

J. W. McCallum Has Served
in Department Over Twenty-
Three Years.

City Relief Inspector J. W. Mc-
Callum last night tendered his
resignation to the mayor, giving as
his reason ill-health.

Mr. McCallum, who has served the
city in this department for over 23
years, was seriously ill in the begin-
ning of the year, his medical advisers
believing at times that he would not
recover. He threw off this sickness,
however, and took over his old duties
a week ago.

He found later that he had over-
rated his strength, and accordingly
tendered his resignation so that the
department might have the services of
some man more fitted physically to
carry on the work.

Obituary

WILLIAM SMITH
The funeral of late William Smith
was held on Wednesday from his late
residence, concession 11, East Nis-
sour, Rev. Galtich, pastor of the
Presbyterian Church, Thamesford,
conducted the service, which was
under the direction of the Masonic
Order.

Mr. Smith was born in 1855. He is
survived by the widow, one son,
Oliver, and one sister, Maggie, on the
homestead.
Mr. Smith was an old member of
King Solomon's Lodge, 334, A. F. and
A. M., Oxford Royal Arch No. 18,
Woodstock, and of St. Andrew's
Church, Thamesford. Interment took
place in 7th line cemetery.

HOSPITAL TRUST ACCEPTS TENDERS

Bids For Milk, Bread, Meat
and Coal Supplies At-
tended To.

HEARD GETS BONUS

Tenders for the milk, bread, meat
and coal supply of Victoria Hospital
for the year were accepted by the
hospital trust meeting last night.

After much discussion, C. S. Laid-
law was given the milk contract over
McFarlane, who has been supplying
the hospital for the past three years.
Mr. Laidlaw's tender was consider-
ably lower than that submitted by
Mr. McFarlane, and at \$1000 the con-
tract, Mr. Laidlaw agreed to sell the
hospital milk at \$2.25 per cwt., and
65 cents per quart for cream. Mr.
McFarlane's price was \$2.50 per cwt.
for milk and \$2.80 per gallon for
cream.

The tender for the milk supply of
the hospital was received by the trust
before the hospital trust meeting. The
question was brought up last night
in order to receive the ratification of
the trust. James Smith, a member
of the trust, pointed out that a
matter which involved a \$10,000
expenditure should have been brought
before the attention of the trust at
an earlier date, and that the tender
should have been let only with the
consent of the members of the trust.

Low Coal Contract.
Woodlart's tender for the coal con-
tract for the year, their tender of
\$5.28 per ton in 28 carload
lots being the lowest one submitted.
James Smith will supply Victoria
Hospital in meat for the year. His
tender was the only one received.

The bread contract was let to the
Dean Baking Company, who are now
supplying St. Joseph's Hospital and
Westminster Hospital. The Dean
Baking Company agreed to sell bread
to the hospital at \$3.00 per cwt. This
price was considerably cheaper than
two other tenders presented.

The appointment of Miss G. M.
Fairley, who has been superintending
nurses at the Hamilton General
Hospital for the past six years, was
ratified by the trust, and she will
commence her duties at Victoria on
October 1. Miss M. E. Dennison will
take the position of assistant superin-
tendent. She also has been employed
at the Hamilton General Hospital.

Gets Retiring Sum.

Although No. 1 committee of the
city council rejected the proposal that
T. H. Heard, former superintendent
of the hospital, be paid a retiring
sum on the grounds that the money
would be used for general appropria-
tion and that in the hospital es-
timates for the year this item was
not contained, it was decided by the
trust that T. H. Heard receive
\$2,500, which shall be paid from the
general purpose fund of the hospital.

Miss M. E. Eakins, inspector of
nurses training schools in New York,
has been in the city recently, and has
inspected the local nurses' home.
Colonel W. M. Gartsch presented
her report to the trustees last night,
and pointed out that while the re-
port of the school was most favor-
able, she recommended that more
accommodation be secured. The
trust agreed to a home, which has ac-
commodation for only 30 nurses, is
housing some 132. Colonel Gartsch
suggested that the little Colborne
street school be purchased as a home
for nurses. This would greatly re-
lieve the situation, he said, and it
would provide an ideal dormitory for
the day-time without being dis-
turbed, he said.

The matter it was decided, should
be brought up before the board of
education for further consideration.

PAUL WHITEMAN VISITS LONDON OCTOBER 4TH

World-Famous Orchestra Pre-
pares To Make Transcon-
tinental Concert Tour.

Paul Whiteman, the world's most
famous conductor of popular music,
will make a transcontinental
concert tour with his orchestra of
twenty-five artists, starting in Sep-
tember and visiting London on Sat-
urday, October 4th. He is busy re-
hearsing his new programs at his summer
home in Hewlett, Long Island.

Mr. Whiteman has located several
new acts and a number of sur-
prises are promised. Mr. Whiteman's
orchestra will travel with a brand
new band stand and cyclorama, three
grand pianos and special lighting de-
vices. The virtuosity of his organi-
zation is indicated by the fact that
his twenty-five men play over sixty
instruments; one man playing four-
teen and practically every member
playing two or more instruments.

High Taxes Hit English Marquis

Financial Position of Marquis
Cholmondeley Is Desperate.

Associated Press Despatch.
London, Aug. 12.—Marquis Chol-
mondeley's land agent announced that
owing to high taxation his lordship's
financial position is desperate. The
marquis owns 34,000 acres of land
with a castle, Cheshire Hall, in Nor-
folk, and a big house in Kensington.
Tonight's Star, radical, wonders
what his lordship would describe
himself if he were an average income
tax payer who, with the marquis,
"belongs to the great brotherhood of
hard-ups."

**GIRL THROWN FROM HORSE
HAS ELBOW DISLOCATED**

Leah Deihl, eleven years of age,
of Mason, Mich., suffered a dis-
located elbow and double fracture
when she was thrown from a horse
yesterday afternoon while visiting
friends at the home of Edward Men-
nill, sixth concession, Westminster,
near Belmont.

Leah A. Beatty of Belmont was
called, and had the little girl rushed
to Victoria Hospital, where she is
being attended to by Dr. A. H. Laid-
law. At a late hour last night the
hospital authorities reported that she
was resting quietly.

Exquisite Hand-Woven LINENS!

From time immemorial "Made
by Hand" has always been
synonymous with the best. It
is still used, and rightly, to
signify the finest obtainable
products. In linens the hand-
woven products stand su-
preme. The lustrous appear-
ance and durability of Ireland
Bros. Fleur de Lis Irish Linen
Damasks attest the skill and
artistry of the weaver with his
hand loom.

Woven of the finest yarns, in exquisite designs, which faithfully repro-
duce the beauties of art and of nature. Their zeal in creating such
delightful patterns is securely anchored in their watchword, *Quality
Merchandise at Popular Prices.* Our pride and your delight at prices so
moderate are reflected in the volume of business that makes possible the
new lower prices.

Irish Linen Sets \$23.50

Tablecloths and One Dozen
Napkins

The adjustments in the linen industry
have been drastic in the past few se-
asons. But the fact that hand loom
Damasks can be offered at such a figure
shatters the thought that linens are too
high to purchase. Get acquainted with
the new prices which prevail now! Old
Willow, Watteau, Chrysanthemum and
Plain Satin Band are four charming
numbers that are now priced at—

\$23.50 set of 2x2 Cloth and doz. Napkins
\$25.00 set of 2x2½ Cloth, doz. Napkins

Adam style, American Beauty rose on
band, Regency, Antique Moire, King
Tut, Conventional Scroll, Shirley Poppy
are all shown in hand loom sets, and
cover a splendid range of sizes from 2x2
yards up to 2½x3 yards. Priced from
..... \$27.50 up

Besides the above hand loom are the fol-
lowing delightful numbers in the Fleur
de Lis makers' range—Lily, Shamrock,
Satin Stripe, Sheraton, French, Lilas,

DUNWICH FARMER COMMITTS SUICIDE

Act Attributed To Bad Invest-
ments, and Inquest Not
Called.

Special To The Advertiser.

Dutton, Aug. 12.—Douglass Grain,
aged 55, and a life-long resident of
Dunwich township, committed suicide
at his farm, two miles east of Wal
