THE Advantages offered to the Public by this Institution are MANY and iMPORTANT, and the Rutes of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—

The paculiar Benefits secured to the Assured by the principle of the LOAN Department.

One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the des'h of the Assured.

CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Comment transacting husbass in Canada. Ratie of Premiss than those of any other Assurance Company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREMT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America, without affecting their Interest in heir respective Policies. heir respective Policies.

The Retresshment Committee.

The unreasured contempt which some Members of the Retrenchment Committee have, by their votes, expressed for public opinion, must ultimately recoil up on the wrongdoers. The crime of falsehood to pledges and promises sallies beyond redemption the reputation of a public mab—he sets the seal te his own degradation, and society will revenge itself for the healt by enduring reproaches. It has required some years of achooling to infuse into the masses a just appear ciation of their eights, and train them to regard their representatives as their servants, not their masters. This Session has already become memorable for the inbulshing impudence of tearn coulism, and the abandanment of all principle, by some who vasuated their particular, but, unless we are misled by the indications of discontent, another election will lessen the chances of sach violations of propriety. The Press has an important duty to discharge towards the country. It is the medium through which such flagrant wrongs should be chronicled, and the recreants stignatized as faithless and numbry defenders of the cause of Canada. Before the last Session of the cause of Canada. Before the last Session of the Parliament terminates, every constituency in the Colony should decide upon its future representative, and no man should be selected who declines to pledge himself to refrain from asking or awa out any office for himself, his friends, or propriety.

MONTREAL HIGH SCHOOL. On Monday the 10th instant, the annual distribution of Prizes took place at the High School of Montreal, before a numerous and respectable audience in the Hull of the Institution. Soon after one o'clock according

to previous arrangement, the chair was taken by His Honor Judge McCont; and he was supported on either side by the Rector, the Rev. Mr. Wilkes, Professor Andrew, and, on the part of the Directors, by Doctor Crawford and Messrs. Davidson, Day & Ramsay. We were pleased also at observing several other clerical and influential ntlemen present.

The chairman opened the business of the day by briefly alluding to the occasion of the meeting, and by explaining the order of the proceedings. He expressed himself gratified at seeing so many present; it was a est was excited in all than interessed interthe Public with regard to the efficiency and access of the High School, as well as to the important subject of Education in general. Mr Howe then made a few observations on some changes which had been thought advisable in the management of the French classes : that more attention had been given to English Reading, Arithmetic and Book-keeping, and there was reason to be satisfied with the result. He concluded his instructive address (which we regret we cannot give at greater length) by advocating the advantages of making the classic languages the basis of education, in which opinion he was strengthened by yearly experience. He ilustrated their value even in the most ordinary reading and occupations by some famihar examples. He thanked the Directors for the liberal manner is which they had always sapported him, and his fellow laborers for their zealous co-operation.

TURKISH BLACK SALVE. UNDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY

THIS SALVE, prepared from the original Receipt procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the asonishing Cures performed by it in both these count ies, has lately been introduced into Montreal. As might be expected, its popularity has real. As might be expected, its popularity has followed it, and its use is becoming general among all clauses. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them.

The contracted limits of an advertisement necessarily procludes their entering into any adequate the parts of the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily practudes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Burns, Fever Sores, Scrofalous Sores, Sore Nipples, Carbuncles, Scald Hond, Gunesiot Wennels, Brusses, Boils, Prostbites, Wens, Chilblains, Ulcerated and Common Sore, Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings ariging from a blow on the Breast, Ring Worms, Pains in the Back, Rhemastism, Gout, Pains, in arising from a blow on the Breast, Ring Worm,
Pains in the Back, Rhematism, Gout, Pains, in
the Chest, Palpitation of the Heart, Complaints in
the Liver, Spine, Heart and Hip, Rushing of Blood
to the Head, Swellet Face and Toothache. In
fact, it is impossible to enumerate half the complaints that have been cared by the application of
this Salve. It is very portable—will keep in any
climate, and requires little or no care in its application, as it may be agreed with a kinfe on any

Da. G. W. HALSEY:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Droppy, Files, and Asthoma. - Ally Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this deafful, situation, your Forest Wine and Pills were procured for one, and before I had finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were leastly sodies, he came semilably reduced. Hopes of my recovery begin now to review, and after continuing the use of your medicines for about a mouth, the Fileanand Asthoma. Were completely cured. The Dropsy, with which might was placed in such great danger, was also mearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect fieldly access I did in my lefe, although Fam mare shan-sixty years of age. I assiste my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also weld them with similar success in obstinate complaints, and I can cheerfully recommend-them to the public.

I have recovered my heath, notwinkstanding all who knew me thought my case incorable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my fisends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundre in who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by nagrinaripled men, in faming advertuements. But, what a pity it is that the deception used by others should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Mcdicines, to the grunt surprise of all my friends, I was entirely eured, and had increased fifteen pounds in weight, having taken one box of the Pills and two bottles having taken one box of the Pills and two bottles of the wise. POINT DU JOUR, PARISH OF L'ASSOMPTION.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; injuriously the health of the person using them; inpuriously the health of the person using them in upon the contrary; they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

The following Certificate, from Dr. Winshop Levels, one of
the most eminent Physicians of Boston, well show the
extimation in which it is held by the scientific and
tearned, being one only of many similar one.

Blosson, Peb. 18, 1847.

Bosron, Peb. 16, 1847.

Mr. W.M. Bogle,—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference ever all other compositions of the kind. It invagorates and beautifes the hair, and clears the skin of all impurities, without producing any ultimate deleterions effects, which are so frequently the result of many well-known patented compounds.

jounds. WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandraff and sear. For children, it lays the foundation of a good lioad of hair.

BOGLE'S AMOLE, BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet insented for shaving. The base of it is derived from the Aniole, or "scap plant," of California, an article used by the nativeer of that country for washing; and thus the use of strong alkali, so hurful to the skin, is avoided. As vegetable and detergent properties have the purest and most nourishing effects on the akin,—it soothes all allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided tuxury to be shaved with this incomparable scap. It is done up in etegrant style, calculated either for the drassing case of the "rough and ready" teaveller, or the toilet of the most fastidious connoiseeur.

fastidious connoisseur.

BALDNESS CURED.

The following is from Summer F. Barrett, Sarataga Street, East Beston:

Mr. William Begle,—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the, head, about six or seven inches in circumference.

After repeated failures of other an-ealied emedicie, and by the advice of friends, she was induced to use your Hyperion as a week, for the purpose of restoring her lost-hair, and I am happy to say that is effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the growth of the hair would have been seed sections.
