At the recent meeting of the D. M. Major-General Herbert defended some aspersions which have been made against the new rifle adopted for the Canadian Militia and as usual fortified his views with ascertait ed facts. He said he had a series of experiments made at the various stations of the permanent force, with a view especially to ascertaining the relative merits of the Martini-Metford and the Martini-Henry rifle in the heads of an inexperienced shot. The fugitive, plainly hearing every word, shuddered, but he had no idea how many times that old house had been searched in vain for hunted souls or he would not have feared. Harry knew the secret of the long unused cellar, but never dreamed that his mother and sister could know anything of the hunted tramp-murderer, and so had no idea that he could be in the house. It has been several years since potatoes were in such demand at so satisfactory prices this early in the season. While this is partly owing to the short crop elsewhere, doubtless the improved trade relations we now enjoy with the Spanish West Indies have also had much to do in bringing it about, as our potatoes are now admitted into those islands on as favorable terms as those from the United States, which was not the case while the reciprocity treaties negotiated by Mr. Blaine were in operation. The same is true of our fish.

The plum yield has simply astonished everybody this year, beating the record by long odds. This has had the effect of bringing prices down with a jump. A few years ago one dollar per peck, or even higher, was the ordinary price of plums. Last week they were selling at about one-fourth of that. This reduction is mainly owing to the increase in acreage of our plum orchards. Of late years our fruit growers have seemed to entertain the idea that there was "milliment in the idea that the idea that there was "milliment in the idea that the idea that there was "milliment in the idea that the i to entertain the idea that there was "millions in it " in raising plums, and a great lions in it "in raising plums, and a great many of them went into plum culture quite extensively. As this is a fruit which will not admit of being shipped to the English market, with presentshipping facilities, there seems every probability that the thing has been over done. A factory or two, however, at different parts of the valley, where plums can be preserved or canned would readily solve this difficulty, and even though they brought no more than a dollar a bushel, it would still pay well to raise them at that. About 10.30 a. m., teams from all parts of the country began to arrive, and soon an immense crowd were testing the unlimited supply of viands and delicacies set before them on the tables spread beneath an awning of canvas and green birches. The rapidity with which the good things disappeared fully attested to their merits, and the renown of the good cooking of the Port George ladies was more than sustained. The tables were all arranged to a degree of nicety for the comfort and convenience of all, and their arrangement well merited the praise which they received. Perhaps the table most worthy of notice was the meat table set and furnished by Mrs. A. Elliott and superintended by her daughter, Bessie. The sum realized was \$212.50.

ceptionally fine, which had the effect of in-ducing an unusually large attendance, many coming from a long distance to be present. The tables were bountifully laden with subcoming from a tong discussed laden with sub-stantial and dainty eatables and presented an attractive appearance. The well-filled table of useful and fancy articles and the fishpond attracted a large patronage, as did also the refreshment table, where ice-cream, cake and fruit were to be had in abundance. The very satisfactory som of \$111.55 was realized by the proceeds from the tea and fancy sale, which was supplemented by a generous gift from T. D. Ruggles, Esq., making the hand-some sum total of \$136.55.

A Valuable Gift.

The members of the Baptist church and congregation, Granville Centre, were agreeably surprised, Sunday affernoon last, when their pastor, Rev. F. M. Young, announced that the pulpit furniture for the new church would be his gift. They desire thus publicly to express their appreciation of their pastor's kindness.

A mammoth tea meeting is to be held in the house, which is now plastered, on Tuesday 25th for the puryose of raising funds for finishing. We hope they may have a successful gathering.

while the government of Sir William White-way was all-powerful in the legislature and country. To-day the opposition holds power and every prominent member of Sir William's party has been unseated and disqualified, being politically dead, till the end of the present term of the legislature. Where was ever such a game of politics seen played before in a country enjoying representative institutions and responsible government?

The cause of it all is of course well known—the lavishly extravagant and corupt expenditure of road soney just previous to the last general election, made for the sole purpose of influencing the elections. It is not very often that political dishonesty of that sort meets with such swift and effectual punishment. There are public men outside of Newfoundland, not all of them on one side of politics either, who might well take to heart the lesson which the experience of Sir William Whiteway and his associates teaches.

So far as can now be judged, the present season's operations seem likely to prove fairly profitable and satisfactory to our farming interests. —The Raptist Sunday-school of this place enjoyed a picnic to Hampton on Saturday last. A large number of scholars, teachers and parents availed themselves of the opportunity to enjoy a pleasant outing, and although the weather was slightly threatening, no rain fell, and nothing occurred to mar the unalloyed pleasure of the day.

The Haward Services held in St. James market, with presentabipping facilities, there seems every probability that the thing has been over done. A factory or two, however, at different parts of the valley, where plums can be preserved or canned would readily solve this difficulty, and even though they brought no more than a dollar a bushel, it would still pay well to raise them at that. Perhaps some of our leading fruit growers who are interested in plum culture will take hold of the question.

Cranherrics are reported largely a failure in the United States, with prices ruling up as high as eight dollars a barrel by the car load. We do not know to what extent the recent frosts have injured the crop in this province, but those who are fortunate enough to have any, are likely to realize good results from them.

Altogether, therefore, as we have already stated, the year gives every promise of being a good one for our farmers.

Dear Sirs.—I have used Yellow Oil for two or three years, and think it has no equal for croup. Mrs. J. S. O'Brien, Huntsville, Ont. Handsome Decorations.

There are several in Annapolis county who have had the pleasure, during the last few years, of celebrating the fiftieth anniversary of their marriage. It is very doubtful if any were as hearty and youthful looking as Mr. and Mrs. Gilbert Willett, of Granville Centre, who celebrated their anniversary on Wednesday evening. Mr. Willett was seventy two years of age on August 11th, and Mrs. Willett will be 66 if spared to see the 17th of December. On Sept. 12th, 1844, they were married at Lower Granville and there are not a great number in Granville who can remember that day.

A celebration was talked of some time ago but was given up. A few days ago two friends of the family, Mr. Corr, of Boston, and I. D. Short, Esq., of St. John, came to Granville, and they would not consent to such a think as giving up the anniversary. Accordingly, on Tuesday evening and Wednesday morning invitations were sent out to relatives and friends to meet at the old homestead on Wednesday evening.

A sumptuous repast was served to all the guests and many a good joke was cracked over the table. After that pleasant part of evening's entertainment was over, everyone went in for a good time. Reminiscences of bye-gone days were brought up and the conversation never lagged. Some played whist while others tripped the light fantastic. A motion was all of a sudden made that Hon. W. B. Troop take the chair. The honorable gentleman did so, and proposed toasts to the Queen, followed by one to the host and hostess. Mr. Willett and son Rupert replied in very feeling terms. Other toasts were given by several of the guests. In the wee sma' hours of the morn this delightful evening's entertainment came to a close.—

GATES SUPERSEDES ALL PILLS INVIGORATING The est CATHARTIC SYRUP. Home Testimony from Actual Ex-

perience is always the same, Read the following:-

"It is a pleasure as well as a duty to speak well of remedies that have done for us all that is claimed for them. I therefore take pleasure in recommending the excellent pre-parations of Dr. Gates, and especially the INVIGORATING SYRUP. As a gentle laxative I regard it in every way superior to harsh and griping physics so commonly used, in that it performs the three-fold functions

of a physic, an appetizer and a tonic. E. E. LOCKE, Pastor Baptist Church Lower Middleton, April 12th, 1894.

tom of indigestion. As a rule it is a spas-modic and passes off without need of treatnent. At times the attack is serious, being

distressing to the individual and annoying to his associates, and should be promptly treated.

One source of relief is a swallow of cold water. A fit of hiccough can be cured by prinkling water on the face; dashing a handful in the face is not a pleasant surprise from a devoted friend or mother, but it is a sure cure, due perhaps, as much as to the sudden revulsion of feeling as to the water.
