Bridgetown Citizens in British Columbia

E. G. Langley and L. D. Shafner Have Purchased Timber land at Coquitlam--Will put up Portable Mill

Mr. L. D. Shafner and Mr. Elias G. Langley, of Bridgetown, Nova Scotia, who were in Vancouver last week, have returned home, but not without having formulated a plan which will mean a good profit to them and a benefit to others. The two easterners bought various parcels of land at Coquitlam to the extent of about \$30,000 and will soon move out west again to carry their plans to completion.

Realizing that the timber taken off the lands around the new terminals of the Canadian Pacific Railway at Westminster Junction could be better utilized than by sending it up in smoke, it is the intention of these two men to put it to better advantage. The two have joined forces and will start work with a portable mill, will sell lumber to those desiring to build, and will themselves erect a large number of houses on property they have acquired.

Bought a Double Corner. Mr. Shafner bought a double corner in the business district for \$2,500 and several small building lots. The subdivisions at St. Mary's Heights, James Park and Shaughnessy have been selected as the

scene of operations. Mr. Langley bought property to the extent of \$15,000. The deals were negotiated by the Coquitlam Terminal Company.

The same scheme is also under view by Messrs. Brown and McKay. This firm has already bought ground in Parkview and will have a mill to employ fifty men. This will mean that builders will be enabled to purchase lumber on the spot without having to pay the necessary freight rates from the Vancouver mills.

Steel manufacturers are also taking their hats off to Coquitlam. The Schwabe Machine Company of New Westminster, a concern employing one hundred and fifty men, sold out their business recently and have purchased a site with trackage facilities at the point where the C. P. R. bridge crosses the Pitt River. They will begin the construction of a factory to employ the same number of men as were at work in the Royal City. Money is also being raised in the east by Messrs. Brown and McKay towards the formation of a \$100,000 steel corporation. Vancouver Sun.

Canada Foremost Region of Globe

Great Future Seen by Archbishop of Canterbury--His Grace and Earl Grey Speak in Aid of Fund for Church in West.

(Canadian Press.)

London, Feb. 24--A well attended meeting was held in Queen's Hall last night, in aid of the Archbishop of Canterbury's Western Canada Fund. The principal speakers were Earl Grey and the Archbishop of Canterbury.

The late governor-general reminded his audience that the needs of Canada were created by the wonderful state of things that resulted from the unprecedentedly swift and widespread peopling of one of the world's vastest and richest areas. During his experience in Canada, three-quarters of a million citizens of Great Britain and Ireland alone, had created homes for themselves in that country, and eighty per cent of them belonged to the church. He emphasized that fact because he wished to bring home to them the problem of how the church was going to meet the spiritual requirements of this large and rapidly increasing population.

Not only was it a business aim for the church to meet the spiritual requirements of British emigration, but it must inductinate with Christian ideals vast numbers of aliens who flocked into Canada from foreign countries.

Western Canada today wanted men would make the church the centre of social, artistic and industrial life. They did not want frills or formalities, and they wanted churches to be free from the British way of condescending or patronising superiority.

The Archbishop of Canterbury said that Canada's progress and development was most remarkable. She was destined to be the foremost region of the face of the globe. No changes in the face of the world's surface were comparable with the rapidity and magnitude of the changes that were taking place on the vast plains of western Canada. Therefore, all the greater opportunity was offered to the people of England to identify themselves with and help forward the work of civilization and progress and Christianity in this great young country, and help mould it while still plastic. (Applaud.)

"We shall be turning to Canada before many generations are passed, asking them to come over and help us," declared the archbishop. "We should not leave it open to Canadians in the future to retort that at the time Canada had most need of England's help in spiritual work, we had failed her." (Hear, hear.)

Two years ago, the Archbishop of New York and himself, he said, had initiated the movement, which today resulted in \$7,000 being raised. If he were a young man now, he could not conceive of any power that would restrain him from going out there himself.

Brakeman Killed at Nictaux

Middleton, Feb. 24--A fatal accident occurred this morning at Nictaux, on the incoming train of the Halifax and South Western when a young man named Lennox, of Pubnico, who was a brakeman on the train, got caught between the foot board of a car and the station platform, and was badly crushed. He was brought to Middleton, and physicians summoned at once, who did everything possible to relieve his suffering, but nothing availed, and he died about 1.45 o'clock, this afternoon. The body will be forwarded to his home for interment.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions and expectoration; and restores the system to a healthy condition. For sale by druggists and dealers.

SOUTH RENFREW ELECTS HON. GEORGE P. GRAHAM.

The much talked of election for the House of Commons, in South Renfrew, Ontario, was held last Thursday, 22nd inst and resulted in the return of Hon. George P. Graham, ex-Minister of Railways in the Laurier administration, by a majority of about four hundred.

The Nova Scotia Clay Works, Ltd.

A NEW COMPANY TO CONSOLIDATE THE BRICK MAKING PLANTS OF THE PROVINCE.

(Middleton Outlook)

"The Nova Scotia Clay Works, Limited," with authorized capital of \$600,000 is soon to appear in the list of large industrial concerns of the province. It is being organized by E. B. McCurdy & Co. J. R. McLeod of that firm taking the business especially in hand. The promoter is F. S. Coombs also of Halifax.

The new company will purchase the clay works at Pugwash, Shubenacadie, Elmsdale, Avonport, Middleton, Bridgetown and Annapolis Royal and possibly others also. The manager of the new company is to be R. Macdonald, of Pugwash, a very successful railway contractor and brick maker, who has an up-to-date clay working plant at Pugwash fitted with steam dryers and continuous kilns. L. E. Shaw, of Middleton, will be the manager for the Valley and the secretary treasurer will be F. S. Coombs.

The amalgamation is the culmination of an agitation going on for half a dozen years past among the brick-makers of the province. Four or five years ago, H. H. Sutherland, of Sydney made an attempt to consolidate the brick plants of the province, but he struck a bad time in the money market and the attempt failed. One of the earliest and most persistent advocates of amalgamation has been L. E. Shaw, but his idea was to consolidate the plants of the Valley into one large industry. It was through this argument that Mr. Coombs, who was acting as sales agent in Halifax, for the old Middleton Clay Working Co., was induced to take up the scheme two years ago, but on a larger scale. Mr. Coombs has worked at it with commendable persistence until now it is assured.

Several of the compelling forces which have brought about this concentration of capital and energy are: the necessity of meeting the new and aggressive cement merger, the advantages of single management, the demand for a better and more uniform brick than can be made in the open air kilns, the increasing cost of labor, the enhanced price of wood which has been used chiefly in burning and the desire to utilize the improved methods and machinery which during the last dozen years have revolutionized the clay working industry.

In other countries the small brick yards have been giving place to a few large ones. It is in the drying, burning and in the elimination of hand work that the large have the advantage over the small plants.

Today in the most approved plants the bricks are not touched by hand from the mould to the completion of the process of manufacture. Digging machines are used in the clay pits. The drying is done by steam independent of weather conditions. And still more important, instead of the heat being dissipated in the air and only a small fraction of it used the heat is now conserved in continuous kilns.

These improvements can only be taken advantage of in large plants. Accordingly the intention is to build one up-to-date plant in place of the three now operating in the Valley. This plant will employ 50 to 60 hands for nine months of the year, will have an annual capacity of ten millions of brick and will cost \$50,000. Draining tile, hollow blocks, and other clay products are also to be made.

The location of the proposed large plant is a matter of concern to the three places under consideration. Annapolis Royal is taking prompt action and is considering a proposition to offer inducements in the way of light, water and taxation privileges.

BABY'S VITALITY.

(From the Calgary Herald) A Calgary baby fell out of a four-storey window recently and escaped without a scratch. Falling out of a window is one of the things a baby does better than an acrobat, a circus girl or a prize fighter. A cat has nine lives, but a baby has twenty-seven.

Killed by Train While Coasting

Leonard Wade, Aged Twelve Years, Victim of Distressing Accident at Digby.

Digby, Feb. 24--Fletcher Wade, the twelve-year-old son of Leonard Wade, while coasting down Maiden Lane, was struck by the suburban train at 10.25 this morning, and instantly killed, the little fellow's head being almost completely cut off.

The body was removed to Rice's undertaking rooms, where Coroner Daly held an inquest on Saturday afternoon. He is survived by his parents and several brothers and sisters. The family recently moved to Digby from Springfield, N.S., Mr. Wade being in charge of the coeprage department of the Maritime Fish Corporation.

Beside the engineer, conductor and brakeman on the train, Owen Riley, a truckman, and Oscar Moran, jeweller, eye witnesses of the terrible accident, and the little year old brother of the deceased who was also on the sled, but who escaped injury, were examined at the inquest.

The jury was addressed by H. L. Dennison, and F.W. Nichols. They returned the following verdict:

"We, your jury impaneled to inquire into the cause of death of the deceased Fletcher B. Wade, have carefully considered the evidence placed before us, and have decided that the said Fletcher F. Wade was killed on Maiden Lane crossing about half-past ten this morning while coasting on a sled which ran under a moving shunting train on the Dominion Atlantic Railway line extending from the railway station to the wharf, and that no blame can be attached to the employees on the said train. We would recommend however that the town authorities ask the Railway Company to place gates at the Birch street and Malten Lane crossings to avoid further accidents."

The coroner thanked the jury, and said that he concurred in their verdict.

A pathetic incident during the inquest occurred during the examination of Truckman Riley, who is more than eighty years of age. The sad affair brought on an attack of heart trouble, and in the midst of his evidence he had to be removed from the court room and taken to his home.

Mother to be Tried for Murder of Child

MURDER OF CHILD

A fortnight ago the month-old baby of Mrs. McCarron, of Gerish street, Halifax, was mysteriously missing from its cradle, the mother claiming it had been stolen while she was absent from the room. Under the pressure of Detective Hanrahan she confessed ten days later that she had burned her baby alive in a hot blast stove which she had heated for the purpose. At the preliminary examination neighbors testified that they had considered her peculiar, but that she was apparently fond of her two children, two years and seven years old. They were inclined to the belief that she was demented when she committed the act. Dr. Hattie, Superintendant of the Hospital for the Insane, testified that her father, Michael Keating had been an inmate of the hospital for three years. Mrs. Keating and Mr. McCarron testified to the same effect.

At the close of the preliminary examination the defendant was committed for trial on the charge of murder. Stipendiary Fielding said he had looked into the objection raised by the Counsel as to the proof of death of the child, and he considered that this was supplied by the evidence of the prisoner's confession. He considered that the prisoner would have to stand her trial for murder. "Some of the newspapers," continued Mr. Fielding, "have intimated that I was considering the question of the prisoner's sanity. This is a mistake. I have nothing to do with her sanity. I only took the evidence in respect to the accused's mental condition because I was obliged to do so, when counsel offered it."

OPEN AT BOTH ENDS.

A mild December, six weeks of zero weather, and now a thaw. It has been an open winter only in the sense of being open at both ends. The middle was closed tight.

Town of Bridgetown

Annual Report of the Mayor of Bridgetown for the Year Past--Town Assets and Liabilities

To the Ratepayers of the Town of Bridgetown:

LADIES AND GENTLEMEN,--In submitting the annual report for the past year it is not my intention to make any extended remarks.

I think you will agree with me that the year 1911 has been a fairly successful one in all departments of the civic services, and in examining the annexed reports of the affairs of the town you will find them in a very healthy condition, and our town has prospered in all lines of business.

When I came into office in February 1911 the important question of permanent street improvement was a live one with the majority of the ratepayers, and I at once took the matter up with the present Council.

We found that the sum of \$4000.00 as you are already aware, had been voted by you in the year 1909 for this purpose, and in the same year an act was passed by the legislature authorizing the Town Council to issue debentures for the amount, but in the meantime nothing had been done by the late Council towards this very important public service.

I at once took this matter up with the Council, and subsequently with the street committee, composed of Councillors Pratt, Anderson and Tupper.

After some unavoidable delay, a stone crusher, and plant with engine and boiler were purchased and installed near the old Park road, on land leased from Thomas H. Foster.

Of course you will understand that some delay necessarily occurred in having the plant shipped and delivered.

We advertised for stone and in the months of June and July a large quantity of stone were hauled to the crusher by the farmers. These stone were purchased at 50 cents per cubic yard and we considered we were getting good value for the money, possibly more stone were hauled than we required at the time, however we still have a quantity on hand, as will appear by the auditors' report, for work next spring and they are all paid for.

Possibly some mistakes may have occurred in the installation of the plant and in the inception of this new and important undertaking, as they are bound to occur when an undertaking of this kind is started by persons not skilled in the business, but I respectfully submit that taking into consideration the fact that we only had the sum of \$3,646.36 to expend, the Committee have done remarkably well to lay down the quantity of stone on hand paid for, with about \$400.00 in cash, and a valuable plant.

My opinion is that with the annual appropriation for streets together with the cash on hand, we are in a position to complete Granville Street in 1912, and with the annual appropriation every year the rest of the streets can be completed without borrowing any more money.

The system adopted by us has been tried in other places for some years and has proved successful in every way and I do not understand how it can prove otherwise here. We employed W. L. Bishop, of Dartmouth, Superintendent of streets there, who has had years of experience with this method of road-making who superintended the work at the commencement and gave us valuable assistance. Mr. Bishop told us that we had a first class plant and material.

We hope to be able in future to supply this road making material to the various districts in the surrounding country at a moderate cost, thus receiving a revenue from our plant, and we have already had a number of applications. If this scheme should materialize, our plant will prove a paying investment.

The auditors' report annexed hereto speaks for itself but I would call your attention to the present financial condition of the town as disclosed therein.

It will be seen that had it not been for several large items of unprovided for expenditures during the past year, which had to be provided for out of current account there would have been quite a surplus in the Bank instead of a small deficit.

The various Committees appointed by me have faithfully performed the duties assigned to them, and the whole Council with the various town officials have worked harmoniously together for the general good.

All of which is respectfully submitted.

D. G. HARLOW,
Mayor.

REPORT OF THE MAYOR OF THE TOWN OF BRIDGETOWN, N. S., for the Municipal year ending December 31st, 1911, under Section 135 of the Towns' Incorporation Act as amended by Chapter 26 of the Acts of 1909, and Order-in-Council dated 14th December, 1909.

Filed with the Provincial Secretary

1.	Number of ratepayers:--

A Steel Range for \$35.00

This is a good, heavy range, well made of polished sheet steel plates, and has good, smooth castings, nicely trimmed with nickel, and has oven 18 in. x 19 in. x 12 in. Each one is guaranteed to cook and bake perfectly, and to be economical on fuel. We will be very pleased to mail a full descriptive circular to any address on receipt of request.

By reason of a special arrangement which we have made with the manufacturers for the purchase of a certain quantity of these ranges, we are able to offer them while they last at a very low price, and we will have this range shipped freight paid to any address in this Province, fitted with both wood and coal linings, and with a good heavy copper reservoir, and high closet with teapot stands and rolling door, for the sum of \$35.00, or if required to burn wood only, for which purpose the firebox is 25 in. long, the price is \$33.75. In order to secure these special prices CASH MUST ACCOMPANY ORDER. Send your order early as the quantity is limited. Bridgetown Foundry Co., Ltd.

A WOMAN'S WAY TO GET RELIEF

TAKE GIN PILLS FOR LAME BACK. "I received your sample of Gin Pills and after using them, I felt so much better that I got a box at my druggist's and now I am taking the third box. The pain across my back and kidneys has almost entirely gone and I am better than I have been for years. I strongly advise all women who suffer from Pains in the Back and Weak Kidneys, to try Gin Pills." Mrs. T. HARRIS.

Gin Pills contain the well known medicinal properties of Gin as well as other curative agents—but do not contain alcohol. Gin Pills are guaranteed by the largest wholesale drug house in the British Empire to give complete satisfaction or money refunded. 50c. box, 6 for \$2.50—sample free if you write National Drug and Chemical Co. of Canada, Limited, Dept. N.S. Toronto. If the bowels are constipated take National Lazy Liver Pills, 25c. box. 53

NA-DRU-CO Ruby Rose Cold Cream

A toilet delight, with the exquisite fragrance of fresh roses. Makes chapped hands smooth and soft and keeps them so. Preserves the most delicate complexion against exposure to the severest weather. Try it—you'll certainly appreciate it. In 25c. opal jars, at your druggist's. NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED. 164

MINISTER CORROBORATES

The Rev. W. B. M. Parker, of Caledonia, Miss. Dolliver's minister, writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half, and her cure effected by Zam-Buk is remarkable." Wherever there is ulceration, blood-poison, sores, cold-cracks, abscesses, cuts, burns, bruises, or any skin injury or disease, there Zam-Buk should be applied. It is also a sure cure for piles. All druggists and stores sell at 50c. per box, or post free from Zam-Buk Co., Toronto, for price. Refuse cheap and harmful imitations and substitutes.

VIOLET EDMANDS IN NERVE HOSPITAL.

(Canadian Press Despatch) Portsmouth, N. H., Feb. 8.—Violet Edmands, former fiancee of Rev. C. X. T. Richeson, who will go to the electric chair at Charlestown, Mass., for killing Avis Linnell, is a patient at a private hospital here conducted by Dr. Boris Sidis, the eminent Harvard University alienist. The hospital is a retreat for nervous invalids.

Eye Strain and its Dangers. "Never allow children to read or do any form of eye work unless there is a bright, steady light, says a medical journal. Working by firelight or in the dusk causes such a strain on young eyes that they never quite recover, and weak or defective vision is the result. Notice whether a child holds books and work very close to the eyes, and if so consult an oculist, so that the child may be fitted with suitable spectacles."

DEFIES THE BLOWPIPE.

New Material For Safes That Proves Invulnerable. An experiment of interest to safe manufacturers recently took place at Birmingham, England. It was a test of a material designed to make it impossible for the oxy-acetylene blowpipe to be successfully used by burglars for opening safes.

The passage of a beam of light through a darkened room is only visible on the dust in the air, and the cone of light seen when the sun shines through a small hole in a shutter is not visible, but only light reflected from the notes in the beam. This can be easily and simply demonstrated by placing in the beam a glass vessel from which the dust has been carefully removed.

Light is only visible when it strikes on the retina of the eye, and it can only do so when it reaches it in a direct line or is turned by a reflection or refraction into a direct line. Just as the bullets from a gun do a straight course toward its target, so light is without effect unless it is aimed or turned toward the retina.—Pearson's Weekly.

DUMAS AND HIS BARBER. Origin of the Practice of Speculating in Theater Tickets.

The practice of speculating in theater tickets, strange as it may appear, was started by the elder Dumas. He patronized a Paris barber named Porcher, and one day this worthy while shaving the novelist asked him why he did not sell the tickets given him by the managers of the theaters where his plays were produced.

"To whom could I sell them?" asked the author of the "Three Musketeers." "Why, to me, if you like," replied Porcher. "And what would you do with them?" asked Dumas. "That's my business," replied the barber, continuing to lather the bronzed face of the famous story teller.

"But I give you tickets whenever you ask for them," said Dumas. "Ah! One or two are not sufficient for my purpose," responded Porcher. "I must have all your tickets, and every day too." "And you will pay for them?" said the dramatist. "Cash," was the simple yet practical reply.

Dumas at that moment was very badly in need of money, so he at once concluded to bargain. Porcher, who shortly after this gave up shaving and cutting hair, made similar bargains with other authors and quickly became rich.

The Spread of Species. One of the problems that confront the naturalist is that of accounting for the distribution of identical forms of life through widely separated localities.

Investigation frequently shows that this has been accomplished in many ways that appear quite simple when once discovered, although one would hardly have thought of them. Some interesting facts have been gleaned concerning the dispersion of fresh water mollusks, accounting for their appearance in remote and isolated ponds.

Waterfowl play an important part in this work. Ducks have been known to carry mussels attached to their feet a hundred miles or more. Sizable mollusks not infrequently cling to the toes of wading birds and are thus transported for considerable distances. Even aquatic insects have been known to carry small fresh water mollusks attached to their legs.—Harper's Weekly.

A Wonderful Instructor. Over a door leading to one of the smaller lecture halls in the Sorbonne at Paris a notice was posted recently, which read: "Here the instructor does not pause when feet are shuffled, does not smile when he is applauded, and does not single out the one who knows the least for the hardest comes too late or too early, and one may say unparliamentary things without fear of offending. This wonderful instructor never sleeps, eats or drinks and, being absolutely bloodless and brainless and blind, must be carried to the rostrum from which the voice reaches the student. The door leads to a room where French officers receive instruction in the German language by means of a talking machine."

Eye Strain and its Dangers. "Never allow children to read or do any form of eye work unless there is a bright, steady light, says a medical journal. Working by firelight or in the dusk causes such a strain on young eyes that they never quite recover, and weak or defective vision is the result. Notice whether a child holds books and work very close to the eyes, and if so consult an oculist, so that the child may be fitted with suitable spectacles."

INVISIBLE LIGHT.

Only When It Strikes the Retina of the Eye Can It Be Seen. What is the simplest demonstration of the fact that light is invisible? The blackness of a midnight sky demonstrates this fact most readily. We may see the planets brilliantly illuminated by the sun's rays, but the surrounding space is dark, although we know that light must be passing there.

The passage of a beam of light through a darkened room is only visible on the dust in the air, and the cone of light seen when the sun shines through a small hole in a shutter is not visible, but only light reflected from the notes in the beam. This can be easily and simply demonstrated by placing in the beam a glass vessel from which the dust has been carefully removed.

GROWING XMAS HOLLY

VANCOUVER ISLAND IS HOME OF CANADA'S SUPPLY. The Festive Branches With Their Glossy Leaves and Red Berries Are a Profitable Crop and Thrive Well in the Mild Moisture-Laden Climate of the Pacific Coast—Mistletoe Next to Grow There.

"I wish I had known how things stood when I came here ten years ago. If I had, I should have planted my ranch in holly instead of in fruit. It would have paid twice as well or better."

The speaker was a successful fruit grower with a well-established ranch not far from the city of Victoria on Vancouver Island. What he said expresses the minds of scores of Vancouver Island growers to-day, says C. L. Armstrong in the Toronto Globe.

Beginning in a small way, the trade in holly for Christmas has developed into a trade that is limited only by the scarcity of the supply. That this trade will soon be remedied is attested by the number of holly ranches that have been and are being laid out recently around the southern portion of Vancouver Island—for it is only in this limited and favored district that the holly Aquilium attains to its rich splendor of green and red. The price is high this year—the growers having agreed on that because an early frost interfered with the profuse berrying.

Victoria and the city's environs are probably the only places in all Canada where the real Ilex Aquilium, the common English holly with the red berries and the prickly leaves; grows naturally. Victoria also has another attraction in the form of the holly in the beautiful English broom and gorse flourish and flower on every hillside and border the avenues and lanes, and the flowers of brilliant yellow bloom over the autumnal landscape. But the holly, the jolly holly, emblematic of all that is best in the spirit of Christmas, is the piece de resistance. It joins with the holly rose in doing honor to the great day. Victoria has been described as a bit of England, and in many respects the description is faithful. Perhaps the holly contributes to create any other characteristic of this impression. Now that British Columbia authorities intend to bring numbers of English robins to be released from Victoria, it remains only to induce the mistletoe to climb the western scrub oaks to complete the conventional English Christmas card picture familiar since yesteryear.

It has never been clearly demonstrated just how the holly came to Vancouver Island, although there is no doubt at all that it was brought out by one of the early English adventurers with the English Christmas tugging at his heart and the sore homesickness making his ears tingle. The holly, however, for many years it has grown luxuriantly in the gardens of Victoria homes, stilling the wide green lawns, reaching the old-established estates, and more. It is characteristic of the holly that the more it is pruned—judiciously and expertly, of course—the better it flourishes. Perhaps, originally, the holly had much to do with its selection as a Christmas decoration. It was this necessity for pruning and the established worth of the holly as a decoration that founded what promises to be a most important Vancouver Island industry. Victoria residents were wont to ship large boxes of cuttings from their ledgers to friends to the south and to the east. The name of the Victoria holly thus was spread, and its reputation as the holly of the west was established. In the south, friends in Victoria wanted some of the holly and were willing to pay good prices for it. Gradually the demand became so large that the agents for the holly were sent to the west to secure a supply of the holly for the holiday season. These agents went from house to house and for all the holly they could get, they offered a handsome price. In many instances well-to-do residents turned the agents away rather curtly, but they made sufficient deals to establish the trade in a small way, and year by year the supply of holly, wealthy and less wealthy, sell the prunings of their trees, and charge the profits against the garden's expenses. The holly cuttings from the magnificent thirty-foot trees in Lieut. Governor Patterson's private garden are sold annually in this way.

The demand exceeds the supply as tons to pounds, and the price paid on the tree has risen steadily. Last year most of the Victoria holly brought forty cents a pound as it stood on the tree; this year it brought forty-two to forty-five cents and retailed at from seventy-five cents to one dollar. One Victoria resident last season had his holly hedge pruned by experts for nothing, and was credited with one ton of sprigs, which brought him \$300. Others made more and the majority less.

The buyers who come to Victoria each year from the east and the south are experts and are able to judge within a few pounds of what each tree will spare. They come in November and make their contracts for the season, and the cutting is begun early in December.

Within the past year or two the supply of holly shipped from Victoria has been augmented by the first of the ranches planted some years ago with imported trees. A number of ranches have been laid out, and will be in bearing in a short time. The crops will net their owners handsome incomes, for the demand is not likely to abate for many years to come, and that without any effort on the part of growers to create a market.

Minard's Liniment cures Burns, etc.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the severs of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always give satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

TOWN COUNCIL

The first meeting of the Town Council of the Town of Bridgetown, after the annual election for the year 1912 was held on Tuesday, 6th day of February, The meeting was called by the Mayor elect D. G. Harlow and held pursuant to notice sent to each Councillor, in the Council Chamber on Tuesday evening, February 20th, at half-past seven o'clock. Mayor Harlow was in the chair and the following councillors present:—

A. L. Anderson, S. F. Pratt, A. E. MacKenzie, J. W. Salter, W. E. Peadar and J. Kenneth Craig.

Ordered that the following bills be paid:— A. D. Brown, Registrar of Births and Deaths, \$3.50; James Jodrey, labor on streets omitted from last month's street account, .75; Murdo L. McLeod, fire department, .50; William McLeod, steward of Fire Department for year 1911, \$5.00.

Councillors McKenzie, Salter and Anderson were appointed a committee to nominate standing committee for the year 1912.

Upon the report of the committee being presented to the Council and after some discussion thereon, the following standing committees were appointed for the year 1912.

Committee on Finance, Public Property and tenders.—Craig, Reed and McKenzie.

Public Property, Streets and Lighting.—Anderson, Salter and Pratt. Police and Licenses.—McKenzie, Anderson and Craig.

Poor, Insane, Temperance and Public Health.—Salter, Craig and Anderson.

Water Works and Sewers.—Salter, Anderson and McKenzie.

Arbitration Committee.—Reed, Craig, and Salter.

Assessment Court of Appeal.—MacKenzie, Craig and Anderson.

Revisors of Jury Lists.—Pratt and Reed.

Board of School Commissioners.—Mayor, Pratt and Salter.

Resolved that Councillor Anderson be President Councillor for the ensuing year.

The following citizens were appointed to the respective town offices for the ensuing year:—

Deputy Stipendiary Magistrate.—Fred R. Fay, Esquire.

Medical Health Officer.—Dr. L. G. De Blois.

Town Physician.—Dr. L. G. DeBlois.

Inspector under the O. T. A.—Elias Messenger.

Sanitary Inspector.—The policeman.

Fire Wards.—J. Harry Hicks, R. A. Crowe and Karl Freeman.

Fire Constables.—A. L. Beeler, Karl Freeman and N. E. Chute.

Town Constables.—Jas. R. DeWitt and Murdo L. McLeod.

Fence Viewers.—Major Slocumb and Lansdals Piggott.

Measurer and Weigher.—Karl Freeman.

Barrel Inspector.—Abram Young.

Surveyors and Inspectors of Lumber and Wood.—C. L. Piggott, A. L. Beeler, L. D. Shafner, J. W. Peters, E. A. Hicks and Louis Brooks.

Pound Keepers.—Murray Chute and J. H. Tupper.

Auditors.—H. L. Bustin and A. L. Woodrow.

A petition signed by Fred R. Fay and a large number of the rate payers of the town addressed to His Worship and Town Council requesting that the street now known as School street be extended westwardly to Queen street, was read by the Mayor.

Resolved that the matter be left with the present street committee together with Councillors McKenzie, Craig and the Mayor, and that this Committee report at a subsequent meeting of the Council.

The following is the petition:—

To His Worship the Mayor and Town Council of the Town of Bridgetown:—

"We, the undersigned rate payers of the Town of Bridgetown, respectfully request that the street

Obituary

JOHN F. STEVENS.

On Saturday morning last an aged resident of Tupperville, John F. Stevens, passed away suddenly from heavy failure. He had been in ill health, incidental to his advanced age, eighty-eight years, for the past two weeks and his son was sleeping on a cot in the room near him, though his condition was not considered critical. Awakening at half-past four in the morning the son looked at his father and spoke to him. At once he discovered that he was in the sleep of death, having apparently passed away without a struggle.

Mr. Stevens came here from New Brunswick and settled in Tupperville, marrying Mrs. Bishop, a widow with a number of children, J. Ford Stevens, the son, who resided with him on the homestead, and two daughters, Mrs. Farrell, of Boston, and Mrs. J. B. Whitman, of Halifax were children by the second marriage. Among the step-children are Mrs. Watson Kinney, of Bridgetown and W. L. Bishop of Shelburne.

Mr. Stevens was one of Annapolis County's industrious and prosperous farmers and was highly esteemed. His wife predeceased him a few years ago. The funeral took place on Tuesday, Rev. N. A. McNeill conducting the service.

\$20,000 RAILWAY STATION FOR TRURO.

Contractor Wilson, of this town, received word that he had secured the contract to build the handsome new I. C. R. passenger station for Truro. The contract figures are \$14,000, which with the laying of the sewer and drainage pipes the full length of the railway esplanade, grading, etc., will make the sum probably amount to \$20,000.—Truro News.

"now known as School street in the Town of Bridgetown be extended so as to connect with Queen street at a point to the south of land now owned by Chas. Parker."

(Signed) FRED R. FAY, and thirty-six others.

Resolved that the contract for printing the town reports be given to the Bridgetown Monitor, and that the Finance Committee make the best terms possible as to costs.

Resolved that Harry Murtha be and he is hereby appointed a fireman for Town of Bridgetown.

F. E. Bath appeared before the Council and asked for instructions on behalf of the Fire Company as to the right of the company to use the fire apparatus belonging to the town to attend fires outside the town limits.

Mr. Bath also stated that one or two fire alarm boxes should be moved to the dwellings of the new firemen, and that the Company required some more coats and a wrench.

Resolved that the various matters referred to by Mr. Bath be referred to the newly appointed fire-wards for their recommendation and report and that the fire-wards be requested to change the fire-alarms as requested at once.

Minutes read and approved and Council adjourned.

Obituary

MRS. H. HARDING MORSE

On the morning of Ash Wednesday 21st inst. the death occurred suddenly of Mrs. Margaret E. Morse, of West Paradise, widow of the late H. Harding Morse and mother of J. Eugene Morse, with whom she resided on the old homestead.

Mrs. Morse, who had reached the ripe age of seventy-six years, had been in her usual health until within a few days of her death, which occurred from heart failure. On the evening previous to her death she had an attack of heart trouble while at the tea-table and fell from her chair in a faint. She was soon revived and the family physician summoned. By midnight she was feeling well and the members of the family retired. Three hours later she was attended by her daughter-in-law and medicine was administered and Mrs. Morse still claimed she was "feeling quite comfortable. At half-past six she was again visited by a member of the family, but in the interval the angel of death had visited the chamber and gently released the spirit of the beloved mother. So peaceful was the departure that it was hard to realize that the sleeping form had rested in the embrace of death.

Mrs. Morse was formerly Miss Margaret Morse of Nictaux and is survived by two brothers, John M. Morse of Nictaux, School Inspector L. S. Morse of Digby, and one sister, Mrs. Wm. Bishop, of Williamston. In her girlhood she was baptized by the Rev. I. E. Bill into the membership of the Baptist church and her entire life was adorned by her Christian virtues enhancing a native loveliness of character. None knew her but to admire and esteem, and her children may truly "rise up and call her blessed."

Mrs. Morse was predeceased by her husband, who was one of the progressive and intelligent farmers of Annapolis Co., thirty years ago. She is survived by three sons and four daughters, Arthur T. and J. Eugene, of West Paradise; Rev. A. H. C. of Brooklyn, N.Y.; Mrs. I. M. Loughley, of Paradise; Mrs. J. D. Spurr, Colonial Arms; Mrs. Hugh Fowler, Wolfville; Mrs. (Dr.) Crawford, New York City. A son, Dr. L. H. Morse, of Digby, died last year, and a daughter, Mrs. Twining Lyons, of Waterville, passed away a few years ago.

The funeral took place on Friday afternoon, at half-past two and was conducted by Rev. N. A. McNeill, with interment in the Paradise cemetery.

TO EXPLOIT CANADA.

British Syndicate Formed With Heavy Capitalization.

London, Feb. 19.—The Financial News understands that the prospectus of a new land company is being issued its principal objects being the purchase and sale of Canadian land, the financing of profitable enterprises, including railway construction and development, and industrial undertakings. The company, which is to be under the direction of a strong board and executive thoroughly conversant with Canadian business, will have a capital of £200,000, and will appoint agents in practically every important centre of commercial activity throughout the Dominion.

Pastoral Letter

(To be read in all the Congregations of the Church.)

To the Clergy and Laity of the Church of England in the Diocese of Nova Scotia and Prince Edward Island.

My Dear Brethren:—

What will Lent be to you this year? It might be as well to stop for a moment and ask what was the purpose of institution, and so be better able to determine how far that purpose can be filled.

First let it be remembered, Lent was an established rule of the Church long before the corruptions of the medieval ages, and it still bears the authority of the Church. Second, be it remembered that its first intention was to commemorate the forty hours of sorrow which intervened between the Crucifixion and the Resurrection. Then the cause of the Crucifixion was considered, and Christians were urged not only to sorrow for the death of Christ, but to grieve for the sin which had made it necessary. Then the practical benefit of careful self-examination was recognized, and Lent became a period of effort to face and fight against sin, to uplift the spiritual life and bring souls near to Christ. To make this effective Lent was and is a time of fasting or self-denial, without which spiritual progress cannot be made.

The first Homily teaches that the purposes of fasting are:—

- (1) To chastise the flesh that it be not too wanton, but tamed and brought in subjection to the spirit.
(2) That the spirit may be more fervent and earnest in prayer.
(3) That our fast be a testimony and witness with us before God of our humble submission to His High Majesty.

And the collect for the first Sunday in Lent bids us pray the Lord to "give us grace to use such abstinence that our flesh being subdued to the spirit, we may ever obey His godly notions in righteousness and true holiness."

In accordance, therefore, with the Church's intention and direction, I call the Diocese in an earnest observance of Lent this year. Never in the history of the Church was there greater need for striving to fulfil its purpose. One of the leading financiers of Canada recently said: "we have passed from a country noticeably moderate to one of feverish speculation and extravagant expenditure. This is almost as destructive to the fibre of a nation as crime." And he is right. The luxury of our time, the pursuit of pleasure, the extravagance of living, the struggle for wealth, the low spirituality in religion, the indifference of many and the irreligious life of others are all signs of the times, and they are not the most hopeful. But there is no reason to despair, or to weakly declare things must be so. They need not be so, and all have a responsibility which can only be discharged by a personal endeavor to make the Church's methods effective, and her life a heaven of righteousness in the community. If this season were made a real and genuine time of prayer and a sincere effort made to draw nearer to God, making our Church life stronger and more real, who can say what might be the result.

I pray you ponder these things well and resolve to make Lent such a one as has not been known for many a year. The world is with you to this extent at least, that the season is recognized, and it is a person's own fault if he allows himself to disregard the call. What at other times might be the subject of unfavorable comment, is in Lent regarded as the right thing. Take advantage of what seems to be an opening of the way. Make use of the opportunities afforded and give the Church a fair trial.

Do you ask how? The answer is plain. Be very much in your churches. Make it a point not to let a service pass, if without neglecting other duties, it is possible to attend it. Give some time to devotional reading. Try to make yourselves of use in the work of the Parish and the Diocese. Seek for the reality of your religion and you will find its power. Be sincere in your prayer and you will know its strength. Prayers in your efforts and you will know the joy of working together with Him.

Lent is no mistake unless you make a mistake about it. A great spiritual fast let it be. A great spiritual uplift it may be. A great spiritual joy it can be.

The honor of the Church and of Him who is the Church's Head, depends upon you. Wherefore should they say among the people, "Here is their God." We then, as workers together with Him, beseech you that you receive not the grace of God in vain. Praying that God's richest blessing may be yours,

I remain, Yours very truly, CLARE L. NOVA SCOTIA Halifax, Feby. 15th, 1912

LOCAL AND SPECIAL

Local legislature convened last week.

Leap Year Night at the Rink Thursday night, Feby. 29th.

Trotting on the river speed-way has been indulged in by a number of horse men during the past week.

J. V. B. Foster, of Karsdals, probably the oldest man in Annapolis County, passed his 101st birthday a few days since.

Owing to the uncertain condition of the weather the Championship Race at the Bridgetown Skating Rink, will be postponed until Friday night, March 1st.

Rain, thaw, frost, snow and thaw have been experienced during the past week, still runners are used for travelling over the somewhat uneven surface of the roads.

The afternoon express yesterday did not arrive in Bridgetown until about five o'clock, owing to snow upon the track. The express from Halifax arrived at the usual time.

The Quarterly Official Board of the Methodist church will meet at the Parsonage Friday evening, when the officials of the church will record their votes for or against Church Union.

On the recommendation of Judge Pelton, Daniel Baxter, of Youngs Cove, recently tried for house breaking, was examined by Drs. Peters and Withers of Annapolis and being adjudged insane was placed in the County Hospital here.

A cable announces the death at Woolrich, England, of Major Garnett, of the Royal Artillery, from pneumonia. He leaves a widow and two children, his wife being a daughter of the late F. B. Wade, K.C.

The Colonial Stock Company played at the Court House three nights last week. The company is superior to the ordinary travelling troupe and their performances were highly appreciated. They may be sure of a good patronage when they return.

A few of our town subscribers whose Monitors are regularly delivered at their houses, were overlooked last week owing to the illness of our regular newsboy, a part of the papers being distributed by a substitute and some others being forwarded by mail.

A Board of Officers composed of Major A.P. Rumsey, Capt. E.E. Palmer and Lieut. H. J. Starratt, 14 I.R.C., H., was held at the Armoury, Middleton, on Wednesday, 21st, for the purpose of examining in equitation. Lieut. E. S. Shaffer, Adjutant of the 69th Regt.—Outlook.

Skating has been the favorite pastime during the past few days. Besides the rink numbers of fields have presented extended and tempting surfaces. Mr. Neily's field on Rectory St. has been the most popular, owing to the extent of its surface. The snow storm put an end to the fun.

The death of Senator Miller makes the third vacancy in Nova Scotia representation of the Senate. Many names are mentioned for the Upper Chamber but the most prominent are those of John Stanfield, M.P., chief Conservative whip, J. A. Gillies, ex-M.P. and Adam Crosby, ex-M.P.

A conference of apple men from the Valley and representatives of the Halifax City Council, Halifax Board of Trade and the I.R.C. and D.A.R. was held in Halifax to start a movement toward securing proper facilities for the protection of apples while detained at the loading piers at Halifax.

Outlook:—At a joint meeting of the Town Council and the council of the Board of Trade on Wednesday, the question of new industries for Middleton was discussed. As the larger scheme launched several months ago has not succeeded, the council of the Board of Trade was appointed a committee to attempt to raise \$19,000 in subscriptions for the purpose of establishing an evaporator.

Lawrencetown, one of the most attractive of the smaller towns of the Valley is coming to the front. Its latest acquisition is a modern iron bridge to replace its old covered wooden structure, and now a movement is being inaugurated by her citizens with some prospect of success to secure Hall's Island, a well-known beauty spot in the Annapolis River, as a public park. "The Island" with its grove of noble and ancient oaks, has long been the envy of some of the neighboring towns and is a popular resort for pleasure gatherings from all over the Valley. Success to Lawrencetown's ambitious citizens.

PERSONAL

Mr. and Mrs. Edgar McCormick of Annapolis were in town on Saturday.

Mrs. Perkins, of the "Hillsdale," Annapolis, is visiting her sister, Mrs. Bauceman.

Miss Mary Phelps, who has been visiting in Boston for several weeks, returned home on Monday.

Mr. Hugh Calder, of Edmonton, Alberta, is visiting his father, Mr. W. Calder, and other relatives.

The Misses Laura Foster and Gladys Whitman, of Round Hill, are visiting Miss Madeline Spurr.

Mrs. Harris Bent, of Granville spent the week end visiting Mr. and Mrs. Spurr, "Elmhurst," Clarance.

Mrs. W. B. Fay and family of Halifax, have been the guests of Mr. and Mrs. F. R. Fay during the past week.

Miss McGregor, of Round Hill was the guest of her sister, Mrs. Duxton, at the Presbyterian Mans, last week.

Miss Jane Piper, who has been spending several months with relatives in Dartmouth, returned home on Thursday last.

Miss Carrie Hall, who has been for some time past, nursing at Provincial Sanatorium, Kentville, returned to her home in Lawrencetown, on Saturday, 17th inst. After a brief visit at home, she will go to New York, to further qualify in the care and treatment of tuberculosis patients.

Mr. C. E. Jubien, manager of the Royal Bank at Middleton, has been transferred to Moncton. On Saturday evening, Feb. 17th a large number of the citizens of Middleton banquetted him at the "American House," in that town. Mayor Goucher acted as toast-master and many expressions of regret at the news of Mr. Jubien's departure were made.

The annual meeting of the Bridgetown Board of Trade was held in the Town Hall, on Monday evening, 23rd inst. There was a very fair attendance, some twenty-five members being present, including the following officers:—J. E. Lloyd, president; J. W. Salter, Vice-president; and H. B. Hicks, Secretary. The following new members were added:—A. B. McKenzie, C. S. Silver, A.S. Williams, M. W. Graves.

The minutes of the last meeting were read and adopted. A report was read by the Secretary re a memorial to the Dominion government, in which it was stated that a memorial asking for grant for a public building for Bridgetown, and asking also that Bridgetown should be made a chief port of entry for customs, had been forwarded as directed by the Board and that a favorable reply thereto had been received.

The matter of a Driving Park was discussed. A committee, viz.—C. S. Silver, A. B. McKenzie, E.A. Hicks and A. S. Williams was appointed to thoroughly investigate the subject and report all information possible at next meeting of the Board.

A committee was appointed to draft letter to Mr. Davidson, M.P., urging him to secure a grant for a public building for Bridgetown, viz.—H. Ruggles, A.B. McKenzie and C. B. Longmire.

A committee was appointed to work with the Town Council committee re the holding of Horticultural Exhibition in Bridgetown this coming summer, as follows:—Dr. M. E. Armstrong, J. Harry Hicks, W. D. Lockett and Henry B. Hicks.

A resolution was passed, authorizing the Secretary to confer with the Annapolis Board of Trade, asking them to join the Board in sending a delegation to Kentville to interview the representatives of the D.A.R. in an effort to have the "Owl" train run through to Annapolis. J. E. Lloyd and Henry B. Hicks were appointed as delegates.

The election of officers for 1912 was as follows:— President—J. E. Lloyd Vice-Pres.—M.E. Armstrong Secretary—Henry B. Hicks Council—W. R. Longmire, F. M. Bath, J. K. Craig, E.A. Hicks, Karl Freeman, Harry Ruggles, W. D. Lockett, S.N. Wear.

**"The Liver Pills act
So Naturally and
Easily."**

Such a statement, coming from
the cashier of a bank, shows what
confidence responsible people have
in these pills. Mr. A. L. Wilson
after trying them wrote:

"I have used Dr. Miles' Nerve
and Liver Pills and also your
Anti-Pain Pills, on myself, with
good results. The Liver Pills
act so naturally and so easily
that I scarcely know that I
have taken a pill. Frequently
being troubled with headache I
take an Anti-Pain Pill and get
immediate relief in every case."
A. L. Wilson, Sparta, Ill.

Mr. Wilson was for a number
of years cashier of the First
National Bank of Sparta.

**Dr. Miles'
Nerve and Liver Pills**

are different from others. Many
kinds of liver pills are "impossible"
after one trial on account of their
harshness. Dr. Miles' Nerve and
Liver Pills do not act by sheer force
but in an easy, natural way, with-
out gripping or undue irritation.
They are not habit forming.

If the first bottle fails to benefit, your
druggist will return the price. Ask him.
MILES MEDICAL CO., Toronto, Can.

**HOTBEDS AND HOW THE FAR-
MER SHOULD HANDLE
THEM.**

Time of Year When This Kind of
Work Must be Done, Draw-
ing Near—From a Com-
mercial Standpoint—
The Question of
Frames!

We are now approaching that magic
time of year when hot beds are much
in evidence. There is a certain satisfac-
tion in working with hot beds. The
farmer has been "frozen up"—more
or less dormant during the winter.
The hot bed offers to him the first
opportunity of working off some of
this surplus energy. Greater than all
else is the advantage which the gar-
dener secures in time; for, by the hot
bed, he is enabled to secure a crop in
advance of its normal season. To this
problem the farmer is obliged to
bend his every effort, for the price
which he obtains for most produce
depends upon the season in which it
is put on the market. On many
markets string beans bring \$2.50 per
bushel at the first of the season and
thirty cents at the end, if they bring
anything at all. This condition pre-
vails with most market garden crops
to a greater or lesser extent. The
hotbed offers great advantages, but
the initial expense in putting these
up is so great that we hesitate to re-
commend them; but to the man who
can afford neither hotbed or glass-
house the hot bed solves the problem,
and offers advantages which he can
not afford to neglect.

The hot bed consists of an enclos-
ure covered with sash and supplied
with some form of heat. This heat
may be supplied by means of hot
air furnaces, lanterns, exhaust steam
or fermenting manure. Hot manure
is the common method of heating the
bed and is one of the best. The
idea is not new for it is said that the
Egyptians used heating manure for the
forcing of vegetables, in peculiarly
constructed pits covered with tiles.

The hot bed used in commercial
work measures six by twelve feet and
is spoken of as a "frame." Such a
frame is covered with four sash each
measuring three by six feet. These
frames are usually placed end to end
in continuous rows with walks be-
tween. The walks vary in width.
We believe that a seven foot
passage is quite sufficient, although
some growers allow ten feet with a
seven foot walk about two hundred
and eighty frames may be used to
the acre. The cost will depend upon
prices of lumber and the price of labor.
If the grower is handy with tools he
may cut down the expense of start-
ing very much.

The frames may be placed on a
manure pile but it is preferable to

have a pit beneath the frame in which
the manure is placed. The pit should
be somewhat wider upon either side
than the width of the frame and
should be about two feet deep. It
may be walled, with stone or brick.
Drainage must be provided for. On
the ground is placed a layer of coarse
material such as gravel to keep the
manure from the ground. The man-
ure is placed directly on this. The
amount will vary depending upon the
kind of manure, the time of year,
and the degree of heat you are obli-
ged to maintain. If a large amount of
manure is needed it will be necessary
to obtain it from the livery stables,
for manure which has burned is of no
value for the hotbed. Alternate fork-
ing over and compacting for two
days is advisable so that every part
will be heating uniformly, or the bed
will burn out in spots while the re-
mainder is cold. Put in the manure in
layers and tramp it down before an-
other layer is put on. Twelve inches
of manure is enough in the spring
time but it may be necessary to use
twice that much at some seasons. A-
bove the manure a layer of leaf mold
is often placed which acts as a distribu-
tor of heat. Of this, five inches of rich
garden loam in which the seeds are
planted is thrown in and carefully
levelled. The sashes are placed in po-
sition but the seeds are not sown at
once. During the first day the heat
goes up to ninety degrees, but it is
not safe to sow the seed until the
mercury drops below eighty, and
much below that for such cool crops
as lettuce and radish. Baking the
bed with manure or soil is advisable
if run during cold weather, and cov-
ering the bed at night with burlap
or like material is essential during
the early season. Various hotbed
mattings are sold by dealers in gar-
deners' supplies.

There is no branch of farm work
which needs greater attention than
that of handling hotbeds. An hour's
delay, when the plants need water, or
ventilation, or heat, or shade, or the
thousand and one other little opera-
tions which go to make up the daily
routine of the market gardener's life,
is usually fatal.

He must see to it that he has suffi-
cient heat and that he will be able to
maintain it so long as required. The
water supply must be abundant and
constant; the sash must move easily
to facilitate watering and ventila-
tion. A wind break such as a hedge or
board fence between the beds and the
prevailing wind, is a great conservator
of heat. Lastly they must be near
the house. This saves time and energy
and should not be neglected.

The frames are usually made ir-
sighten inches high on the back and
twelve inches on the front. They are
always placed so that the glass is
sloping toward the south. The six in-
ches of face provides for this. The
frames may be made by the farmer
but, as a rule, the sash can be pur-
chased cheaper than they can be
made locally, and are on sale by seed-
men and dealers in garden supplies.
White pine or cypress is commonly
used in the construction. Cypress
will cost more than the pine but is
more durable.

Cold frames are exactly the same
as hotbeds except that they are not
provided with bottom heat. The heat
of the sun is quite sufficient at this
time for the purpose. Plants are tak-
en from the hotbed to cold frame and
are thus hardened before going to the
open field.

The question of double glass has re-
ceived some attention of late years.
It has been claimed that if sash are
used with glass on either side and an
inch air space between, that air cover-
may be dispensed with. Our own ex-
periments with double glass would
show that too much has been said in
favor of these. The double glass has
the advantage of about two degrees
and not more. The sash cost more,
are heavier and the advantage of
two degrees is more than offset by
these disadvantages. True, two de-
grees of heat are often of great im-
portance, but we think that it may
be obtained much more easily by a
burlap cover, and with less expense.

Hotbeds are certainly worth the
trial. They are interesting and thou-
sands of gardeners will testify that
they pay.—E. M. Straight, Macdon-
ald College.

Obituary

MR. FREDERICK LEAVITT
Annapolis has lost one of her oldest
and most respected residents in
the person of Mr. Frederick Leavitt, for-
merly Registrar of Probate and
Stipendiary Magistrate for Annapolis
County. He also held other important
offices in the town, was prominent in
Masonic circles and was a kindly
gentleman of the old school.

He was eighty-one years of age and,
his health being impaired of late,
his death was not unexpected. He is
survived by a widow, three sons,
Kenneth of New York; John, mana-
ger of the Royal Bank at Kingston,
Jamaica, and Ronald, of the Bank
Agency at Trinidad, and two daugh-
ters, Margaret of Halifax, and
Ethel, of Montreal. All of their chil-
dren visited their parents during the
past summer, and Kenneth and
Ethel came home to attend the fune-
ral, which took place on the 13th
inst.

The funeral services were conducted
by Rev. C.W. Porter-Shirley, Metho-
dist, assisted by Rev. Mr. Wain-
wright, of the Church of England,
after which the Masonic rites were
gone through with. Interment was in
Woodlawn Cemetery.

Fairville, Sept. 30, '02
Dear Sires:—We wish to inform you
that we consider your MINARD'S
LINIMENT a very superior article,
and we use it as a sure relief for sore
throat and chest. When I tell you I
would not be without it if the price
was one dollar a bottle, I mean it.
Yours truly,
CHAS. F. TILTON.

At an inquest at Gillingham, Kent,
G. B., evidence was given that a lit-
tle girl, Ivy Violet Knight, aged ten,
had exclaimed just before falling dead
"Look, mama, look; it is over
there," pointing to a corner of the
room. The mother asked "What is
over there?" and the child replied,
"My beautiful home." The jury
found that the child's death was
caused by bronchial pneumonia.

**Would Build School for
Outdoor Training**

If I had a billion dollars I would
establish the University of Outdoors.
There would be no buildings to
speak of; it is not for them I would
need the money, but to hammer my
idea into the heads of my countrymen.
Somewhere on one of the great
lakes I would set up my school, consist-
ing of twenty miles of water front,
plenty of virgin forest, and many lit-
tle lakes, hills, rocks, streams, mead-
ows and sandbanks.

The health and training of the body
would not be an elective hour or two
a week in a stuffy gymnasium, after
the manner of our extant hotbeds
kind drying educational infirmities,
but the first and unremitting effort
would be to perfect the house of the
mind.

Whether my children should fill
their noggin's or not, their nervs,
blood and sinew should be stuffed full
of fresh air, they should be graduat-
ed as splendid, supple animals, as
healthy and physically joyous as
dogs or deer.

The school term should begin with
the spring and end with autumn.
Every minute, day and night, the
pupils should be outdoors, rising
tents or sleeping in bad weather.
They should learn how to be cold
and hot, wet and dry, without tak-
ing sick.

Girls as well as boys should learn
to swim, to sail a boat, to ride and
to run and to throw (for when their
grandchildren would build me a monu-
ment.)

Boys should also learn to dance, to
sing, to sew and to cook.

There would be no clothing ques-
tion, certain uniforms being prescrib-
ed for all.

No human being before the age of
twenty-one should waste one thought
upon clothes.—Elbert Hubbard.

**SMOKE
SHAMROCK
PLUG
TOBACCO**

Finest Quality.

THE HOME

HOUSEHOLD HINTS.

A cloth dipped in ammonia will often remove the stains from the collar of an overcoat.

Whip cream in a pitcher instead of a bowl, to do it in half the time and without splattering.

Potato balls which are sauteed with butter after being boiled are delicious. They should be served with a generous sprinkling of mixed parsley.

A bare broom splinters matting easily. If you have no long-handled soft brush, make a gray cotton flannel covering for the top of the broom.

Grease on a kitchen floor can be softened by pouring kerosene over it and letting it remain for ten or fifteen minutes, then scrub with soda water.

Cold bluefish or almost any cold fish, except coarse fish, like salt cod fish, may be utilized for salad. Season with plenty of salad dressing, tiny slices of young onions and minced parsley. Serve on a bed of lettuce.

Old velvet should be saved for polishing cloths. It will serve the purpose of wash cloths for plate cleaning and save buying anything fresh. Wash the velvets in soapy water as often as needed and lay out to dry.

An excellent way to finish armholes in a fine lingerie waist is to sew the sleeves in by machine; then button hole around the edges with either a coarse thread or soft floss.

Fold a piece of emery paper in the center and draw the knife rapidly back and forth several times, turning it from side to side. This is an excellent sharpener for paring knives.

Paste labels on the inside of glass jars used to hold food supplies, such as rice, tapioca, spices, etc. Thus labeled, the jar can be washed without soiling the label or pulling it off.

If you wish to iron an article immediately after sprinkling it, try dampening it with boiling hot water. Roll it tightly for a moment or two, shake it out and iron it with a hot iron.

When washing oilcloth, a tablespoonful of painter's size added to a pailful of water will give it a glossy surface and make it wear much better than when washed in the ordinary way.

When boiling your cabbage or cauliflower drop a piece of bread-crust in the saucepan. This will counteract the odor to a great extent and will prevent it from being diffused through the house.

Embroidery frounces on petticoats will wear much longer if a narrow lace edging is stretched underneath the frounce. This protects the points of the embroidery and gives a pretty finish, too.

SKIN FOOD, AND LOTIONS.

The "beauty budget" of the New York Tribune gives the following recipes for creams and lotions to use on the face and hands, to keep them in good condition in the winter and spring. One formula will be found most suitable by one person, another will suit another person better. Each can decide for herself.

Orange Flower Skin Food.—White wax, one-half ounce; spermaceti, one-half ounce; cocconut, one ounce; lanoline, one ounce; oil of sweet almonds two ounces; tincture of benzoin, three drops. If made at home, melt ingredients one, two, three, five and six, in a porcelain-lined dish over hot water, adding four and seven when the others are melted. Beat briskly with an egg beater. Wash the face well with warm water and any pure soap and rinse thoroughly before applying the skin food, and apply at bed time only.

Oatmeal water.—Boil one cupful of oatmeal in a gallon of water for one hour. Strain and bottle and use for washing face and hands. It is a fine whitener.

The Famous Lait Virginal.—Orange flower water of rosewater, one pint; simple tincture of benzoin, one-half ounce; tincture of myrrh, ten drops; glycerine, fifteen drops.

The woman who lives at home and has the necessary leisure may enjoy becoming her own chemist. The best woman can give the prescription to a reliable druggist, who will do it for her.

NA-DRU-CO LAXATIVES

contain the best evacuant known to modern medicine. Though most effective, they never cause discomfort. 25c a box at all druggists.

National Drug & Chemical Co. of Canada, Limited

FASHIONS AND FADS.

The fancy fabric bag promises to remain in favor throughout the spring months.

Underskirt frounces this spring are daintier and more frivolous than in many a year.

Hair ornaments may be as elaborate as desired, and yet follow the lines of simplicity.

A double collar with scalloped edges distinguishes dainty navy blue waists.

There is a return of the yoke rut in one with the stock and bond of the collar to the ears.

Fascinating new collars have straight stocks and wide trills joining the edge of the collar.

Separate blouses of navy blue or a de chine are relieved by revers and collars of white satin.

Norfolk suits are likely to be more popular next spring for all ages and sizes than they have been for years.

The black velvet coat over the white gown is one of the characteristic belongings, one might say, to this particular season.

The blanket coat is a novelty. This is made of material resembling felt blankets. It is reversible, and comes in all shades and tints.

Latest advices from abroad proclaim the extreme modishness of pearly shades, from the lightest to the dark, rich purples and a hint of ruby.

Smart little tailored costumes in snowy white whipcords, beautifully braided, or white serges, also braided, are ready for the southern season.

HOME-MADE MACAROONS.

Beat the whites of three eggs stiff with a heaping cup of powdered sugar and a half pound of almond paste chopped fine. If not stiff enough to handle, add more powdered sugar. Make with the fingers into balls the size of a large hickory nut and lay them on waxed paper far enough apart to keep them from running into one another when they melt and spread. Lay the paper in pans before putting the macaroons on it. Bake in a moderate oven to a delicate brown, take from the oven and do not touch the cakes until they are entirely cold. They are brittle while warm. Remove them from the paper after they cool and keep them in a tin box. They are better the second or third day than the first.

These are delicious cakes, easily made and a great deal cheaper than any good macaroons which can be purchased.

SUNDAY-SCHOOL FINANCE.

The Sunday School workers of this County have always showed their appreciation of its value by giving it a generous support especially where the organized work has been faithfully tried. As the provincial work develops more money is needed and Annapolis County is asked for two hundred dollars for the current year, being an average of two dollars and one-half for the eighty schools in the county. Not a large amount, as many people spend more than that on one evening's pleasure. We have been in the habit of putting off our contributions until near the end of the year. This compels the Executive Committee to carry a heavy overdraft in the bank and pay a large amount of interest. Many of our schools can pay in the whole or part of their contribution just now as well as six months later. A word to the wise is sufficient. Let us try and get fifty dollars for the County Secretary-Treasurer to forward to Halifax by March first. Who will be first?

C. F. ARMSTRONG,
Vice-Pres. Annapolis
Co. S.S. Association.
(County papers please copy)

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is sold by druggists and dealers.

AVOID HARSH DRUGS

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt soothing, and most effective in action. They are made of a recent botanical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, twelve tablets, 10 cents; thirty-six tablets, 25 cents; eighty tablets, 50 cents. Remember you can obtain them only at our store—The Rexall Store, Royal Pharmacy, W. A. Warren.

GOOD SALARY CHASES ABILITY.

When a young man is always thinking of the salary he is receiving, or the salary he ought to get, he gives pretty good indication that he is not of a very superior make.

The right sort of man does not everlastingly concern himself about salary. Ability commands income. A young man must start with ability, not with salary. Ability takes care of its own.

Things in this world do not just happen. Luck seldom perches on the shoulders of the undeserving.

Some men say, "I wish," while the man who does it says, "I will."

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by druggists and dealers.

The American Presbyterian Church has under consideration a plan to raise a fund of \$10,000,000 for the support of its aged ministers.

Sallow Complexion

Indicates indigestion, constipation or liver trouble. FIG PILLS will regulate your system and build up the nerve forces so that you can sleep and enjoy life. At all dealers 25 and 50 cents or The Fig Pill Co., St. Thomas, Ont.

"I once heard it said of a grumbling unthankful person—He would have made an uncommonly fine sour apple if he had happened to be born in that station of life."

TERRIBLE HEADACHES

Trenton Merchant Driven To Despair By The Pain.

"FRUIT-A-TIVES" CURED HIM

TRENTON, Ont., Jan. 29th, 1909.

"I was a dreadful sufferer for many years from Stomach and Liver Trouble—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto, consulted specialists and wore glasses, but nothing did me any good and the headaches became intolerable.

I was then induced to try "Fruit-a-tives" and from the beginning, I was better, and in a short time I was quite well again—no more headaches—and I threw my glasses away.

"Fruit-a-tives" not only cured my headaches, but completely cured me of all indigestion, and restored me to perfect health again." W. J. McCOMB.

"Fruit-a-tives" is the greatest cure for headaches in the world and is the only medicine made of fruit juices.

"Fruit-a-tives" will always cure Headaches, Indigestion and all Stomach and Bowel Troubles. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

YERBA MATE TEA.

Favorite Beverage of the People of Paraguay.

Yerba mate or Paraguay tea is the daily household beverage of the masses of Paraguay, and it is consumed to a great extent also in Brazil and Argentina. It has been introduced into Europe, where its use is increasing.

The tea is the product of a plant belonging to the species flex of the family of flaccaceae, related to the flex aquifolium, an evergreen shrub or small tree well known in western Europe. The leaves of this plant are carefully toasted near the place where they are gathered, all the skill required in producing the tea being applied in the process of toasting. This is necessary in order to dry the leaves thoroughly and evenly without scorching or affecting their flavor by smoke. After toasting the leaves are sent to the mill, where they are ground to fine powder and packed solidly into bags for market. There is no sorting, grading, cleaning, nor are any means taken to rid the product of impurities or foreign matter.

The tea is prepared for drinking in the same manner as ordinary tea and may be taken with sugar, cream, lemon or brandy. The universal custom of drinking it is by sucking it through bombilla from mate cups. A bombilla is a tube, which may be of the simplicity of a mere pipestem or an elaborately decorated silver or silver mounted work of art. Mate cups vary in style from a simple little gourd to interesting specimens of local craftsmanship in silver. It is the custom to use a single mate cup, with its one bombilla, for an entire household, including all the visitors who may happen to be present, among whom it is passed like a pipe of peace. To refuse to partake would be a breach of etiquette. The tea is said to be disagreeable at first, but it is readily adopted as a habit when the taste is once acquired.—Consular Report.

Deadly War Missiles.

Two deadly missiles for use with the new British short service rifle are shown herewith. They are the shrapnel grenade, which is fixed to this rifle more easily than a bayonet, and the rifle shell, which can be sent a quarter of a mile carrying an explosive charge.

The shrapnel grenade (shown in the top picture) weighs 1 pound 6 1/2 ounces. It is more easily fixed to the rifle than is a bayonet. A pull of forty pounds is necessary to release the grip of the

grenade, so it cannot fall away from the rifle. The rifle shell (shown in the lower picture) weighs 1 pound 10 1/2 ounces and, except for its shape, resembles the shrapnel grenade. Either projectile can be fired from fifty yards to a quarter of a mile, the distance being regulated by the elevation of the rifle, and either can be thrown by hand for close quarter fighting. From the top of the projectile to the end of the portion of rifle shown is twelve inches.

In a recent test by the British war office with the rifle shell the force of the explosion drove the pieces through five inches of deal board. On another occasion the explosion of a rifle shell lifted a half ton iron plate placed over the pit a foot in the air. The explosive charge weighs four ounces.

English Slag Paving Blocks. Scoria bricks, or slag paving blocks, have been manufactured in the Middleborough district of England for many years. They are manufactured from molten slag from the blast furnaces. The slag is drawn from the furnace into iron cauldrons lined with fire brick. These are mounted on bogies for transmission to the brick plant. The slag is poured from these cauldrons into iron molds. These molds are made with a hinged bottom and are mounted on the circumference of a circular iron framework. This revolves and allows the molds to be filled separately. As the bricks solidify they are removed and placed in a beehive oven, where the residual heat anneals the whole of the brick.

Fast Time on the Rail.

A new type of locomotive used by the Pennsylvania railroad, designed to reduce running time of express trains between Camden and Atlantic City to fifty minutes, recently covered four and one-half miles in two and one-half minutes between Egg Harbor and Absecon, a rate of 108 miles an hour. The train it hauled was made up of twelve heavy steel cars. The new engine appears to be bearing out the claims of traffic managers that the fifty-seven miles from Camden to the shore can be made in fifty minutes instead of fifty-six minutes in perfect safety.

Huge Russian Forests.

Four adjoining governments of European Russia, of a combined area about seventeen times the size of the state of Ohio, are almost completely covered with timber, the greatest portion of which never has been explored by civilized man.

A CHARITY CONCERT.

Gayarre Sang and Schurmann Passed the Hat in the Street.

The famous Spanish tenor, Gayarre, was once at Barletona in company with the impresario Schurmann. They were strolling down the Rambla and met two street mendicants, one of whom was singing while the other begged. Gayarre was touched at their wretched appearance and suggested giving them a couple of louis, but changed his mind and said that he might do better still.

"I will sing and you shall go round to collect the money. Nobody will ever have heard me sing so cheaply, and the contributions will be a charity. Let us begin at once."

No sooner said than done. The celebrated tenor asked the poor singer for his repertoire and then attacked the grand air of "La Traviata." Scarcely had the first notes been heard before a crowd began to assemble, and a whisper went round: "It is he! It is Gayarre."

The applause was tremendous, and as an encore he sang "Il Barbiere di Siviglia," finishing up with a popular Spanish song. The enthusiasm then broke all bounds, and Schurmann, having filled his own hat, had to borrow Gayarre's. The contents, amounting to a little over \$185, were then poured into the hands of the astonished and grateful musicians, and the two improvised street performers had the greatest difficulty in forcing their way back to the hotel, where Gayarre remarked:

MODELS OF BREVITY.

Gems of Correspondence in Which There Were No Words Wasted.

A couple of Quakers hold the record for brief letters. One of them, wishing to learn if a correspondent in a distant town had any news to communicate, posted to him a sheet of paper on which only a note of interrogation was written. The reply came in the form of a blank sheet, indicating that there was nothing at all to communicate.

Actors seem to carry off the palm for brevity in letter writing. Quin had a misunderstanding with Rich, the manager of Covent Garden, which resulted in Quin's leaving in an unceremonious manner. He soon regretted the hasty action and wrote to the manager, "I am at Bath.—Quin." Rich did not think this a sufficient apology and accordingly replied, "Stay there and be hanged."

Everybody remembers the letters that passed between Samuel Foote and his mother. "Dear Sam," wrote the lady, "I am in prison for debt.—Your loving mother." Foote's answer was even shorter: "Dear Mother—So am I."

March 19, 1790, was a notably dark day in Boston. A certain lady was induced thereby to write the following note to the famous Dr. Byles: "Dear Doctor—How do you account for this darkness?" To which the doctor simply replied, "Dear Madam—I am as much in the dark as you are."—Pearson's Weekly.

The Difference.

Late one afternoon a western senator chanced to run across his colleague, who sat musing idly in a committee room.

"Hello, Tom," said the second senator. "What are you doing here?"

"I was merely reflecting upon the peculiar difference oratory has upon different people," said the other statesman.

"And what induced that train of thought?" asked the first senator, much amused, by reason of the fact, well known to him and to others, that his colleague was anything but an "oratorical" personage.

"My speech of this afternoon," explained the senator. "Do you know that speech kept me awake for four nights, and today it put all who heard it asleep?"—New York Press.

Queered by Sulfide.

"What do you think of \$20 in one week for new razors?" said the boss barber. "That's what we spent this week. We got an entirely new set. Had to do it or lose our trade."

"A man cut his throat with one of our razors last Saturday. Other customers heard about it, and they got afraid they might be shaved with the fatal razor. The only way we could convince them there was no danger was to swear that we had thrown all the old razors away and show them a bill for the new lot."

"That has happened to us twice before. A sulfide with a barber shop razor will force the proprietor to lay in a new supply every time."—New York Times.

Foreseeing a Possible Danger.

Confidential Lawyer.—In this investigation you purpose carrying on, as to what your enemies have got up their sleeves, you will need a competent detective, I presume. Trust Maguire—Yes, but not too competent. I don't want one that will go prying into our own private affairs.—Chicago Tribune.

An Admiral's Warning.

Admiral de Vironne while crossing the Rhine at Tolhuys noticed his horse stumbling when in midstream. "Would you drown an admiral in fresh water?" he shouted to his steed.

To complain of destiny is only to expose our own feebleness of soul.—Maeterlinck.

Stray Mail Bag Found

(Special to the Monitor-Sentinel) Hampton, Feby. 27th.—It was reported a few days ago that a bag of mail matter was found on the Bay of Fundy shore near Young's Cove by John B. Young of that place. Amongst the mail was a package of letters addressed to different parts of the Province, also to some firms in St. John, N.B. Some valuable bank checks were in the lot, the letters bearing date of Jan. 3rd, 1912. Indications would suggest that the mail started from New Salem, Cumberland Co., but the query is how did they get into the Bay of Fundy? The post office inspector at Halifax has been notified.

Round Hill

Round Hill, Feby. 26th.—Mr. Geo. Tupper, of Bear River spent Sunday with friends and relatives here. Miss Helen McGregor spent last week in Bridgetown with relatives. Mr. Allison FitzRandolph, of Bridgetown was in Round Hill over night on Wednesday. Mr. and Mrs. James H. Tupper, of Bridgetown spent the week end here with relatives. Mr. Hugh Calder, of Edmonton, Alberta, is spending a few days with his sister, Mrs. F.M. Armstrong. Miss Cecil Calder was in Bridgetown a few days of last week. Minard's Liniment cures Distemper.

Lawrencetown

Lawrencetown, Feby. 27th.—Mrs. F. Settle of Dartmouth is visiting her parents, Mr. and Mrs. Hamilton Young. We are sorry to learn that Mr. F. O. Foster's little son, Howard, is very ill of scarlet fever in the Deaf and Dumb Institution, Halifax. Mrs. Foster went to Halifax on Monday. Mrs. Helen Phinney is recovering from her recent illness. Mrs. F.M. Whitman has been spending a week with her parents, Mr. and Mrs. Osmond Balcom. Mr. B. S. Banks, accompanied by her son, L. H. Banks, of Monitor Office, Bridgetown, spent Sunday with friends in Middleton. The citizens of Lawrencetown have applied to the Provincial Government for a grant of Hall's Island for a park. C. P. Armstrong, Provincial Land Surveyor, has been making survey and plan of the island and surroundings for the Crown Land Department this week. Mrs. H.W. Phinney was "at home" to a number of young friends on Thursday evening last. Dr. and Mrs. A. D. Durling of Middleton were the guests of Mr. and Mrs. C. S. Balcom on Sunday. Mrs. (Dr.) F. H. Young spent a few days with friends at Clementsport last week. The old wooden bridge across the river has been replaced by an iron structure and is a great improvement to the town. Mr. Wm. Crisp, of Hampton, spent the week end with his father, Mr. Charles Crisp and sister, Miss Mary Crisp. The Literary Club will meet at the home of Mr. and Mrs. Wm. McKeown on Wednesday evening. Services for Sunday, March 3rd.—Baptist, 11 a.m.; Episcopal, 3 p.m.; Methodist, 7.30. Christian Endeavor Tuesday evening. Leader, Miss Carrie Banks. Conference Friday evening. Bishop Worrell will hold a Confirmation service in the Church of England, on Tuesday, March 5th at 3 p.m.

Hampton

Hampton, Feby. 26th.—Mr. Frank Brown, of Chelsea, Mass., has returned to his home in that city after spending two weeks with his mother, Mrs. Byron Brown. Mr. and Mrs. Clarence Foster have returned to St. John, after spending the winter with their grandparents, Mr. and Mrs. Israel Munroe. Joseph I. Snow, of Cliffdale, Mass., is spending a few days with his mother, Mrs. I. B. Snow. Mrs. Joseph H. Graves has returned to her home in Saskatoon, after spending some weeks with her mother Mrs. Elias Brinton. Mr. Judson Foster has been visiting his father, J. V. B. Foster at Karsdale on the occasion of his one hundred and first birthday. The S.S. Ruby L. will make her first trip of the season from here about March the fourth. MINARD'S LINIMENT Cures DISTEMPER.

Granville Centre

Granville Centre.—Miss A. Estella and Gladys Eaton spent a few days of last week with relatives in Tupperville. Mr. J. Rupert Willett, who spent last week with relatives here, has returned to St. John. The W.M.A.S. for the month of March will meet at the home of Mrs. Harry Goodwin Thursday afternoon, March 7th. If not fine Thursday, meeting will be Friday afternoon. Mr. and Mrs. Frank R. Troop entertained a large company of young people on the evening of Feb. 15th in honor of the birthday of their daughter, Miss Susie Troop. Miss Belle Longmire of Annapolis is home for a few days. Miss Christina Willitt is visiting friends in St. John. Mr. James Hutchinson of South Easton, recently visited old friends here. Mr. Albert Withers, who has been seriously sick of late, is improving. Mrs. Henry Calnek and Mrs. Fincoe Willett have also been on the sick list. Mr. and Mrs. Harry Goodwin were "at home" to a number of their friends on Friday evening of last week.

Obituary

MISS GRACE BRUCE. The funeral took place at Granville Centre Thursday afternoon, Feby. 15, of Miss Grace Bruce, who passed away in the Massachusetts General Hospital, after a short illness of pleura-pneumonia, at the age of twenty-seven years. The remains were brought from Boston on Wednesday, accompanied by her brother, Mr. Joseph Bruce of Boston and taken to the home of her sister, Mrs. Edward Palmer, Granville Centre. Funeral service was conducted by Rev. G.P. Raymond, pastor of the Baptist church who spoke beautiful words of comfort to the sorrowing relatives. The two favorite hymns of the deceased were sung, "Jesus Lover of My Soul," and "Rock of Ages." Interment was in Wadeville cemetery. Much sympathy is felt for the aged father and several sisters and brothers, who remain and especially for Mrs. Palmer, at whose home deceased always spent her summer vacations. She has many friends in the community, and regret to hear of her early death.

Port Wade

Port Wade, Feby. 27th.—The Port Wade Glee Club held its annual sleighing party on Friday night, 23rd going to Karsdale and spending the evening at the home of our popular all driver, A. W. Chisholm. The team was nicely fitted for the occasion with canvas canopy and colored lights, horns were also in evidence, and was driven by A. Thorne, getting home in the "wee wee" hours of the morning. Miss Runnels, daughter of Mr. Harry Runnels, arrived here Friday at the home of Miss Lizzie Chute, and will attend the public school here. A surprise party was held Friday evening at the home of Mrs. Alec Nelson for her daughter, Edith. The young people report a good time. Miss Alice Burns of St. John is visiting Mrs. Helen Ryder and other friends here. A "Hop" was held here at the H. & S. W. Ry. station on Tuesday evening of last week. A general good time was reported. On the 12th there came a little daughter at the home of Mr. and Mrs. Ralph Hayden—congratulations. Mr. James Johns, junr., had a serious time with a blistered hand, in which he caught cold and caused abscess, laying him up for two weeks. Women folk want to keep away from Port Wade at present, as the "mat fever" is on—Contagious!

LET HIM SLUMBER.

Breathes there a man with soul so dead, Who never to himself hath said, "My trade of late is getting bad, I'll try another better ad." If such there be, go mark him well; For him no bank account shall swell No angel watch the golden stair, To welcome home a millionaire, The man who never asks for trade, By local signs and oft displayed, Cares more for rest than worldly gain, And patronage but gives him pain, Tread lightly, friends, let no rude sound Disturb his solitude profound: Here let him lie in calm repose Unthought, except by men he owes.

Shiloh's Cure quickly stops coughs, cures colds, hoarseness, croup, whooping cough, etc. 25 cents.

Paradise

Paradise, Feby. 27th.—Mrs. B. C. Nitch is visiting her brother, Mr. John Bunt, of Granville. Mr. H.H. Morse is spending a few days in Halifax. He leaves on Saturday for his annual visit with his brothers in the United States. Mrs. Chas. Durling was obliged to go to Halifax again for further medical treatment. The service on Wednesday evening will take the form of a missionary meeting. At the close a social time will be spent and refreshments served. The young people are taking advantage of the abundance of ice, skating is the order of the day. Mr. Harry R. Longley and wife of Winniegary visiting their parents, Mr. and Mrs. Rott Longley. The Literary Society met with Miss B. Starratt on Monday the 18th. An interesting programme was given bearing on the life and work of Dickens, which was as follows: Music—Mrs. Logan. Roll Call—Paper—Life of Dickens, H.A. Longley. Reading—"A trip to Dickens Town."—Mrs. H. J. Starratt. Reading—"Dickens boys."—F. W. Bishop. Music—Miss Eleanor Fritz. Reading—"Mr. Winkle ears on the skate."—H. J. Starratt. Reading—"Death of Little Nell."—Mrs. R.S. Leonard. Paper—"The Literature of Dickens."—Dr. Goodspeed. Reading—"Sarey Gamp"—Mrs. G. L. Pearson.

A GREAT DISCOVERY

Certain Ingredients That Really Promote Hair Growth When Properly Combined. Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Peta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs. Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp. These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles. We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable. We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will return your question or quibble return every cent paid for it. We print this guarantee on every bottle. It has effected a positive cure in ninety-three per cent of cases where put to a practical test. "Rexall '93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Bridgetown only at our store, The Rexall Store Royal Pharmacy, W.A. Warren.

DECISION IN THE FAMILIAR NE TEMERE CASE.

Justice Charbonneau this morning rendered his judgment in the famous Herbert Marriage Case. He declares the annulment of marriage by the Roman Catholic church to be null and void, and that the Ne Temere decree is of no force as far as the civil law of Quebec with reference to marriage is concerned. Justice Charbonneau's judgment in no way affects the Church's attitudes and as far as it is concerned the parties are free to marry again. The home of Oscar Elliott and family at Beaver River was recently completely destroyed by fire. The family had recently removed to Beaver River from Spa Springs occupying a house which had been vacated for a considerable time and it is supposed the fire was defective. The furniture and some other things were saved. The neighbors very kindly offered them shelter and also a generous donation towards making up their loss.

Fragrance

WHEN you open a tin of Red Rose Coffee, you will surely be pleased with its unusual fragrance, and you will note particularly the small, even grains, free of the yellow flake or chaff which you have always been accustomed to see in the ground coffee you have used. This is the result of our new crushing process. The small grains settle quickly, so the coffee is never muddy, but always bright and clear. You will be convinced before you taste it, that it is a coffee of unusual quality.

Mount Rose

Mount Rose, Feby. 24th.—We are glad to report the health of Mrs. Willard Whitman to be somewhat improved, after an illness of three months. Miss Brown, who has been visiting Mrs. Harry Hines, has returned to Middleton. Mrs. David W. Marshall, who has been ill with pneumonia, has recovered. Parties are now the order of the day. Some of our young people spent an enjoyable evening at Paradise a short time ago. Mr. and Mrs. Allister Banks received word of the home coming of their eldest son, Herman, who has been absent for a number of years. His departure, however, was prevented by illness. He is now in a hospital in Saskatchewan. The second daughter of Mr. Edward Marshall is quite ill, but it is hoped not seriously. Our teacher, Miss Dargie, will hold a pie social in the school house, on Friday evening, March 1st, beginning at seven-thirty. If stormy, it will be held on Saturday evening. Proceeds for school purposes. All are cordially invited. Mr. Joseph Stark was kicked by a horse on the leg Thursday last. Although not as serious as it might have been, it is feared Mr. Stark will not be able to walk for some time. The death occurred on Wednesday, Feby. 21st of Mrs. Melissa Pearson, eldest daughter of Mr. and Mrs. Willet Eason, after a short illness of three days of pneumonia. The funeral service was held at the house on Thursday. Interment in Port Lorne cemetery.

Deep Brook

Deep Brook, Feby. 19.—The heaviest snow storm for years occurred last Friday night. Saturday morning dawned with twenty-four inches of "the beautiful." Mr. Manning Nichols, who has been working in the United States, arrived home last Saturday week. The members of the Dorcas Society gave a valentine party on the evening of the 14th, which was a success both socially and financially, the sum of forty dollars being realized. Quite a number of friends from Bear River took advantage of the good sleighing to be present. Mrs. F.W. Rice is paying a visit to her mother-in-law, Mrs. C. Rice, in Bear River. Miss Mary Purdy, who has been for some time visiting her grandparents in Bear River, has come back to Deep Brook and is staying with Mr. and Mrs. J.C.W. Ditmars.

Deep Brook, Feby. 26th.—Very fine winter weather prevailing now. We notice lately that saints as well as sinners stand on slippery places and many are prone to fall. Our young people are planning a sleighing party to one of the lumber camps back of Bear River. They anticipate a happy time. We are sorry to note that Mr. Daniel McClelland continues very ill. Owing to the continued good sleighing the farmers' wood-piles are assuming huge proportions and we expect soon to hear the hum and rattle of the gasoline saw mill. W.W. Payson, our postmaster, went to Halifax on Tuesday, 20th to assume his usual duties of Chief Messenger in the House of Assembly. Arny Adams supplies as postmaster in his place.

We will continue to sell all lines of Winter Goods

at the very Low Prices advertised in our January Sale

We have OPENED our Wall Papers and will take great pleasure in showing the same to early buyers, JOHN LOCKETT & SON

40 30 10¢ IF you have been using a 30c. tea and decide to buy a pound of Morse's 40c. as a test, don't regard the extra 10c. as an extravagance. You get a tea of better flavor and one that will make more cups to the pound.
