CANADA LUMBERMAN

PUBLISHED BY
The G. H. Mortimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade is not as lively as it was a few weeks ago, but there promises to be renewed buying for stocking-up purposes within a short time. No stocks of any consequence are accumulating at the mills, and we would not be surprised to witness a further advance in the price of white pine. Lower prices are usually caused either by a general depression in business or by an overstocked market.

Neither of these conditions may be expected to exist within the next year, so that the stability of the market seems assured for some time to come. Wages in the woods during the coming winter will be high, probably \$28 to \$30 per month for first-class loggers, \$27 to \$28 for teamsters, and \$20 to \$23 for road-makers. This factor will have a tendency to further enhance the value of white pine lumber. Mill culls are now held at from \$9 to \$10 at the mill, and in no instance is stock being sacrificed to effect a sale, as American buyers are willing to purchase wherever any quantity can be secured.

Hardwoods are in the ascendancy, and it is generally believed that they will sell materially higher when the shortage in stocks becomes more generally known. Implement and furniture factories report that millmen are running short in their contracts, the reason being that they were unable to secure sufficient logs last winter to keep their mills in operation.

QUEBEC AND NEW BRUNSWICK.

The scarcity of clapboards is still commented upon. The demand from the Eastern States has absorbed almost the entire supply of dry stock, and prices have receded but little from the high point reached last spring. Spruce lath is also in good request at firm prices. The cedar shingle market is, if anything, a trifle easier, although the large manufacturers are still holding their extras at \$3.60 for Boston delivery.

Square and waxy pine timber is steadily seeking a high level. A few sales are reported to have been made at prices higher than those recently quoted, but the stock was in most instances of exceptionally good quality. Birch timber shows a tendency to appreciate.

MANITOBA AND BRITISH COLUMBIA.

Lumber is going actively into consumption throughout Manitoba and the Territories. The requirement at the present time is chiefly for building operations, which are being carried on extensively. The country demand will develop after the crops are harvested and will doubtless be of large proportions, as an abundant yield of grain is promised. Laborers are greatly in demand, it being almost impossible to secure a sufficient number of loggers to keep the camps in British Columbia in operation. Manufacturers there have large orders for lumber on their books and will be kept busy throughout the season. Five vessels are expected to arrive at Chemainus this week to load lumber for South America.

UNITED STATES.

The prospects for a very large yield of wheat and corn are having an effect upon the lumber market. When harvesting is over, there will no doubt be a heavy demand for lumber of all kinds and particularly for the class called for in the agricultural districts. Although white pine prices are high, influences are at work to bring about a further advance of about one dollar per thousand, as it is believed by many persons that such an advance could be put into effect without having any restrictive influence upon the demand. It is contended that the output of white pine this season will be inadequate to meet the demand, and that this is shown by the fact that up to the present time the mills have been unable to accumulate the usual quantity of stock. Our Buffalo list this week shows an advance in the price of 12 inch No. 1 barn boards. Chicago dealers last week put into effect an advance on several items of fifty cents and one dollar. Dealers state that they are finding a normal demand and are able to do business without as much effort as is customary. Albany advices state that good lumber is exceptionally firm, 3 and 4-inch uppers bringing from \$78 to \$80. There is more inquiry for hardwoods than at any previous time this season. An expansion in the demand for white ash has taken place, implement factories being reported as large buyers. Basswood continues scarce and birch is none too plentiful. Hemlock has advanced in the Chicago and Boston markets. In the former city it is selling on the basis of \$14 for 2x4, 2x6, 2x8 and 2x10, 12 to 16-foot, which is the highest price ever obtained for hemlock in that market. At Buffalo and Tonawanda the base price is still \$14. There is no change in the shingle situation, but a heavy movement is looked for during the fall months, with possibly a rise in values.

GREAT BRITAIN.

While there has been some improvement in the tone of the British timber trade, the outlook for the future is still surrounded by uncertainty. The pessimist is predicting that prices have now reached the point where they are likely to react unless there should be an increased demand. On the other hand, the import this year is considerably behind that for the same period of last year. This has permitted stocks to become reduced in many instances. Building operations, which suffered from wet weather, are now more active and are assisting consumption. Importers seem to be surprised that shippers hold stocks so firmly and refuse to accept orders except at their own prices. It must be said that the foundation of the lumber business is on a better footing than it has been for some time. There have been no important failures and little tendency towards risky speculation. At recent auction sales prices were well maintained, fourth quality Quebec spruce bringing £8 10s. The London market is slightly overstocked with the common grades of red pine, but as the import this season will be light, the situation is likely to improve.

At Liverpool the stock of good spruce is comparatively low. Prices have shown an upward tendency, based upon £7 7s 6d to £7 10s per standard, according to specification, with about 60 per cent. of 7 and 8 inch. Other New Brunswick spruce, with a good proportion of 3x9 and 3x11, is being sold at extreme prices.

STOCKS AND PRICES

M. Hyatt, of Revelstoke, is getting out 3,000,000 feet of logs, which will be used for bridges on the Canadian Northern Railway.

The steamer Kong Haaken is completing a cargo of deals at Montreal for the United Kingdom. The steamer Avona is expected to arrive in Montreal this week to load a cargo of deals for the U. K.

E. T. Carrington, Secretary of the Spanish River Boom Company, states that there are 185,000,000 feet of logs to be hauled by the Spanish River Boom Company this season, of which over 80,000,000 feet has been rafted.

White pine shingles are being offered in Chicago by rail at \$3.20 for extras, \$2.60 for standards and \$1.50 for No. 1. Lath are in good request and bring \$3.70 to \$3.75 for No. 1 mixed by rail and about \$3.50 by water. No. 2 lath are quoted at \$3 by rail.

A report from Boston, Mass., says that the predominant feature of the hardwood market is the difficulty of securing the class of quartered oak needed, and this, of course, limits actual business. For the very highest grade quartered oak as high as \$70 is asked.

J. & T. Charlton, of Collingwood, Ont., last week loaded the barge Carpenter and her consort the Tyson with lumber, consigned to Bradley, Miller & Company, of Bay City, Mich. The combined cargoes contained over 1,000,000 feet, entirely of this year's cut.

The lumber receipts at the Saginaw river during the week ending July 19th were as follows: Schooner J. B. Donaldson, from Midland, Ont., 440,547 feet, consigned to Mershon, Schuette, Parker & Company; schooner A. W. Wright, from Midland, 674,366 feet, same consignees; steamer Benton, from Spanish River, Ont., 307,117 feet to E. B. Foss & Company; schooner David Ferguson, from Spanish River, 47,785 feet lumber and 779,450 pieces lath, to Foss & Company; schooner C. J. Filmore, from Spanish River, 548,948 feet lumber and 68,000 pieces lath, to Foss & Company.

A Liverpool report says: The Quebec and Montreal season is now in full swing, but imports are chiefly by the liners. The chief exporters of pine goods are filling their contracts to other ports and are not sending here at present any larger quantity than they can help, except under their considerations for their positive engagements. For instance, Robert Cox & Co. have by the "Parisian" only 170 standards of deals and boards, and by the "Lake Ontario" only 15 standards of pine sidings; whilst Watson & Todd's importations per "New England" and "Roman" are only 200 standards of third pine deals, red pine deals, pine sidings, strips, etc.

THE SITUATION ON THE UPPER LAKES.

MINNEAPOLIS, MINN., July 23.—In local lumber circles there is already a sentiment in favor of making further advances in the list prices on white pine in the near future. It is improbable that these advances will occur before the meeting of the Mississippi Valley Lumbermen's Association, which is to be held August 20, but so firm are some of the local firms in their views that they want the advance to go into effect at that time and are beginning the agitation in favor of higher prices for the purpose of bringing it about at that time.

There are elements in the white pine situation which make it look much stronger than it has before this season. Owing to the favorable crop conditions in the spring wheat belt and in the states to the southwest, demand has kept up remarkably well during July thus far and has showed some gains over June. It was anticipated that the volume of business this month would be about normal on the June basis. An increased demand was therefore unexpected and is a source of surprise and is giving the market a firmer tone. And judging by the business that has been transacted the past three weeks and the outlook for the future August will also show a heavy consumption of white pine. At that time the crop movement in the winter wheat states will be on in full force and southern lumber manufacturers will have more difficulty in securing cars than they have at present. Harvest will be commencing in this section, but the crop movement will not have begun and northern manufacturers will therefore be in a position to supply the demand. They will have plenty of cars until well into September and their business will show a large increase. This will help the situation and will make prices stronger than ever.

Another feature which is contributing to a strong market is the continued shortage of assortments. White pine manufacturers are producing at the maximum of their ability, but apparently they are unable to accumulate stocks for next fall and winter after the sawing season will close, and this is causing a strong feeling. Manufacturers would prefer carrying over sufficient stocks so that they can take care of their customers in good shape next season to selling it out at the present time.

Whether those who are in favor of advancing prices will be able to accomplish this at the August meeting remains to be seen. It is known that they will use all of their influence in this direction. On the other hand, many of the large manufacturers, conservative in their views, are inclined rather to favor a list which is too low than one which is too strong, in the belief that prices on a steady and satisfactory basis are better than where they are irregular and where the list is not observed by all of the factors. It is certain, however, that the price list will be revised to some extent at that time and in all probability there will be advances on some items.—American Lumberman.

Messrs. Charles Quereggesser and John Bennewis, of Broadhagen, Ont., have purchased from Burton Bros., of Barrie, a valuable timber limit in the township of Chapman, Parry Sound district. The limit comprises 4½ square miles and is well covered with pine, birch, hemlock and other commercial woods.

BRITISH COLUMBIA LETTER.

Owing to a continuance of fine weather during the last few weeks a large number of logs have been placed in the water, consequently the scarcity which prevailed during May and June has been relieved to a large extent. The mills are running full time and the trade is somewhat brisk, but it is thought that all orders coming in will be filled within a reasonable time. Prices on all grades of lumber and shingles are firm, and there is every reason to think that they will remain so for the next three months.

Owing to the high prices of logs, the millmen have decided to discount, in future, all payments for same 2 per cent.

A large number of orders for heavy donkey engines for logging have been placed with the foundries and the day of the hand-logger and man of small capital is nearing its end. The smaller class of donkey engines are being largely discarded for a heavier type, which are found to be more economical.

The rush to secure timber limits has practically subsided, although there are a few cruisers still in the field. Very few sales have taken place, although a number of United States millmen have been here looking over the ground.

The fight between the millmen and loggers re the prohibition of the export of logs to the United States still continues, but nothing is likely to be done with the law until the next sitting of the Legislature.

THE BOSTON MARKET.

Spruce lumber is only fairly steady, with a quiet demand. Still, the arrivals of small randoms are pretty free, and these have to be sold under the market. Nominally quotations are unchanged: Ten and 12 inch dimensions, \$20 to \$22; 9-inch and under, \$19 to \$20; 10 and 12 inch, random lengths, 10 feet and up, \$20.50, 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9-inch and under, 10 feet and up, \$16.50 to \$18; 5-inch and up, merchantable boards, \$17; matched boards, \$19 to \$20; out spruce boards, \$13.50 to \$14; bundle furring, \$17 to \$18.

Hemlock is in quiet demand at full prices: Boards, 12, 14 and 16 feet stock, \$15 to \$15.50 for good eastern; Pennsylvania, No. 1, \$16 to \$17.50; No. 2, \$15 to \$15.50.

White pine does not lose one iota of the firmness noted all along, although trade is quiet. Uppers, 1-in., \$75 to \$80; 2 1/2 to 3 in.

\$80 to \$85; 4-in. \$85 to \$88; selects, 1 to 1 1/2 in. \$68; 2-in. \$69 to \$70; 2 1/2 to 3 in. \$74 to \$76; 4-in. \$79 to \$80; fine common, 1-in. \$60 to \$63; 1 1/4 to 1 1/2 in. \$64 to \$66; 2-in. \$68 to \$70; 2 1/2 and 3 in. \$69 to \$71; 4-in. \$80; barn boards, \$23 to \$33; coffin boards, \$27 to \$32.

Hardwood lumber is in a firm position, with the demand fair. Quartered oak, \$6 to \$66; plain oak, \$41 to \$45; common rejects, \$20 to \$25; whitewood, \$42 to \$43; sap and common, \$30 to \$35; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple \$28 to \$30; end-dried white maple, \$38 to \$42; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; elm, \$29 to \$31.

Shingles are unchanged, with some unfilled orders: Extra cedar, \$3.60; clear, \$3; second clear, \$2.50; extra No. 1, \$1.90 to \$2; British Columbia red cedar, 10-inch, five butts to 2 inches, \$3.75 to \$3.80; 18-inch, \$4.25 to \$4.50.

Clapboards continue scarce and firm. A few new are coming in, with the posi-

tion very firm at: Clear, \$38 to \$40; second clear, \$35 to \$37; extra No. 1, \$25 to \$30.

Laths are about steady at \$3.10 to \$3.15 for 1 1/8-inch 1 1/2 inch, \$2.95 to \$3.

Henry Hunter, general store and lumber, Westchester Station, N. S., is advertising his property for sale.

The steamer Treasury sailed last week from West Bay, N. S., for Manchester, Eng., with 1,299 standard of deals.
