

SPECTACULAR DAY IN CITY COUNCIL

Controller Church Must Bear Responsibility of the Fire Investigation.

METROPOLITAN AREA

Ald. Wickett's Scheme Will Be Discussed, and Humber Boulevard.

When the city council deals today with the report of the board of fire control, there is likely to be a hot time over the recommendation that Judge Denon investigate the charges by Ald. Burgess of inefficient fire protection.

Here is the situation: Mayor Hocken and Controller O'Neill and McCarthy have declared that the board of control is responsible for the efficiency of fire protection, and should, therefore, investigate the charges made by Ald. Burgess. If any inefficiency is proved, then the board should provide instant remedy.

Controller Foster declared for a coroner's inquest.

Controller Church had started an investigation by the board while he was acting mayor during the absence of Mayor Hocken in Newfoundland.

Controller Church demanded a judicial investigation and Controller O'Neill had to agree to a coroner's inquest.

Controller O'Neill then declared that Controller Church's demand for a judicial investigation compelled the board to acquiesce in the demand otherwise there would be only majority action upon a very serious matter.

At a later meeting of the board Ald. Burgess urged the widening of the judicial investigation to include the widest possible judicial investigation, and he will have to defend his position today in the city council.

Controller McCarthy, who is out of the city on a business trip, has had to assume the leadership of the board of control in the sessions of the city council ever since Controller Church refused to carry out the instructions of the council, and was promptly deposed by the council.

Controller McCarthy's absence leaves Controller Church with no escape from carrying out the recommendation of the board of fire control.

Metropolitan Area. Ald. Wickett's metropolitan area policy may receive more attention from those who do not grasp its completeness, but as the board's recommendation is only for a conference of representatives of the interested municipalities, the recommendation will be approved.

Commissioner Black's appointment to the civic hydro commission, and Commissioner Ellis's resignation, especially by Controllers Church and Foster, but it is likely that the board will show no opposition to the appointments.

MORE COPPER MINE STRIKERS ARRESTED

CALUMET, Mich., Sept. 14.—More arrests marked today's demonstration by copper mine strikers and their women sympathizers.

Several hundred paraded and some of the more obstreperous failed to heed orders of mounted militiamen to keep certain streets clear.

Wild cheering by the union men and excited yells by the crowd gave the affair a riotous aspect, but no serious disorders occurred.

HORRORS AND GALLANTRY OF WAR DEPICTED AT SCARBORO BEACH

ANNUAL INSPECTION OF ST. JOHN'S CADETS

Three hundred men, representing five divisions of the St. John's Ambulance Corps, and fifty nurses were inspected by Sir Henry Pellatt on Saturday afternoon at Scarborough Beach. Two companies of the St. John's Cadet Brigade offered themselves as killed and wounded for the ambulance men to work on, and the Scarborough Athletic field had a very gruesome appearance at the conclusion of the exercises, when the lads were mowed away in ambulance carts, all dressed with bandages and impromptu splints.

Gold Rush in B.C.

VANCOUVER, B.C., Sept. 14.—The discovery of the recent gold strike on Saybala Creek, near Telkwa, B.C., has been brought to the attention of prospectors here. Bedrock has not yet been reached. Panning in the creek shows coarse gold in many places. The discovery is a big rush for Aldermere and Telkwa.

ment he held at the time of his arrest today. Fatal Infatuation. The confession which the police say Schmidt signed, follows: "I met Anna Amuller two years ago at the parish house of St. Boniface Church. She was employed as a servant there. I was attracted by her beauty. I became infatuated with her. I loved her. I killed her because I loved her so much. She was so beautiful, so good. I could not let her live without me. I had made up my mind that she and I could not live together. I was a priest and must remain with my church, when she wanted to leave me. So I opened the door of the flat. I awakened her. I told her I had come to fulfill my duty. I drew the knife across her throat. I cut the body into six pieces. I made trips to the Fort Lee ferry, each time with a part of her precious body in a bundle. When the ferry boat reached the middle of the stream I would throw a piece into the water and when the boat reached the other side of the river I would return and go back to the flat. Marriage Ceremony Absolute. "After I had disposed of the body I wanted to destroy all evidence of the crime. I took the mattress on which I had her and carried it to a vacant lot at 14th street and Seventh avenue and there I burned it. "I am guilty, that is all I can say. I must pay the penalty. There is nothing else for me to do. But I loved Anna Amuller. "She wanted me to marry her and I procured a marriage license. She trusted me. "I am a priest and ordained to perform the marriage ceremony, so when she insisted upon a ceremony I married myself to her. There was no need of any other priest, doing it. It was just as absolute as if I had called in another person with authority to perform a marriage ceremony. She was my wife. Priest's Career. The priest, according to his story of his life, was born in Aachen, Germany, in 1881. He attended the public school in that city until 12 years of age and then went to Mainz, Germany, where he attended college. At the age of 18, Schmidt enrolled in St. Augustine's Seminary in Mainz, and on Dec. 28, 1904, was ordained by Bishop Kestner, connected with that institution. He was assigned to St. Elizabeth Church in Darmstadt, Germany, where he remained for six months, and was next taken to a village church at Burg, Germany. He spent a year at Burg and came to America because of poor health. After remaining in New York City for a short time he was assigned to a church at Louisville, Ky., in 1909 he went to Trenton, N. J., and in December, 1910, he came assistant to Father Braun, rector of St. Boniface's Church, where he met the Amuller girl. While not denying that the Rev. Hans Schmidt had been ordained and had been permitted to officiate at services in this city, an authoritative statement issued today after his arrest from the head of the New York diocese characterized him as a "wanderer" and not a priest of the diocese, and was not so recognized, altho he was assigned to assist the rector of his churches. FIGHT WITH SMUGGLERS SAN ANTONIO, TEXAS, Sept. 13.—In a fight between United States soldiers and Mexican smugglers at Carrizo Springs, Texas, today, one Mexican was killed, six Mexicans wounded, and 14 captured. Training for the Ontario tournament will commence tonight at the Riverdale A.C. 58 Strang street. Trainer J. Green will have control of the boxes, and will welcome any new boys.

NEW YORK MURDER MYSTERY SOLVED

(Continued From Page 1.) bed to the bath room, and placing it in the tub, began immediately the task of cutting it up. With the keen knife and the saw, he cut off the head, arms and legs. Still fearful of detection, he then cut the body in two. Five bundles wrapped in bedclothes and papers were made of the six parts. Five times Schmidt left the apartment house with a bundle to cross the Hudson River to the Jersey shore. Five times he leaned over the ferryboat in midstream and gently gave the river his burden. Then he returned to his church. The stains of the girl's blood still discolored the bathtub when detectives searched the Bradhurst avenue apartment today. Schmidt told the police he had taken the mattress, on which she lay when dealt the death blow under cover of darkness, to a vacant lot nearby and burned it. Found Marriage License. Police found in the apartment, among other things, a marriage license issued in New York last February and bearing the names of the priest and the murdered woman. The license had been used. According to Schmidt's confession he went thru a marriage ceremony with the girl. In this ceremony Schmidt was both priest and bridegroom; there were no witnesses. A gaily colored pillow of unusual pattern led to Schmidt's arrest. This pillow, stained with blood,

ARREST FOLLOWS "TURN" IN THEATRE

Colored Comedians Held at Hamilton in Connection With Ottawa Murder.

MUST GIVE EVIDENCE

Stevens and Cook Deny All Knowledge of Rubenstein's Death.

HAMILTON, Monday, Sept. 15.—At the conclusion of their act at the Temple Theatre on Saturday night, the colored comedians, James Stevens and B. Cook, were arrested in connection with the mysterious death of the bookmaker's clerk, Abe Rubenstein, at Ottawa on Sept. 25. The local police received a telegram from Chief A. M. Ross at the capital, asking for their immediate apprehension as material witnesses. Detectives Sayers, Smith and Goodman arrested Cook at his boarding-house on Moberly street, and Stevens was secured at the theatre. The men did not resist the officers, and said they were willing to go along, as they knew nothing whatever of the case. They added, however, that they had met one of the women at present under arrest at Ottawa, while making an engagement there during the week of Rubenstein's death. They said she roomed at their boarding-house. The prisoners are familiar figures in Hamilton having presented their act of "The Chinaman and Bill Johnson" every season for years back. They were booked to play at Erie, Pa., this week, but the engagement was cancelled last night. An official of the Ottawa police department left for Hamilton yesterday, and is expected to arrive this morning to take charge of the prisoners.

VICTIM A BALTIMORE MAN

BALTIMORE, Sept. 14.—(Can. Press)—That the body found in a trunk in a vacant house in Ottawa, Ont., last Tuesday is that of Charles Robinson, 35 years old, formerly of Baltimore, was believed expressed tonight by his wife, whom he had been separated for more than a year. Mrs. Robinson, who is now known under her maiden name of Adela Richardson, said she had received a letter from her husband ten months ago, saying he intended to leave Chicago for Brooklyn, N.Y., where the couple at one time lived. She said Robinson was a racketeer follower who went under the name of Robinson, and that his father had been killed here 20 years ago in a fight between members of a syndicate of which the older Robinsons was the rabbi.

SIBERIAN BUTTER ARRIVES IN STATES

Thousands of Pounds Are in Bond Awaiting Passing of Tariff Bill.

NEW YORK, Sept. 13.—Butter from Siberia and Australia is here in bond waiting to make its debut into the American market along with Argentine beef, which is soon expected. A full thousand firkins of the Siberian product—firkins weighing about 144 pounds each—are stored in warehouses waiting the passage of the new tariff bill, which would reduce the present six cents tariff on butter to 2 1/2 cents. Delivered into the refrigerator, the Siberian butter has cost 20 1/2 cents a pound and adding the tax under the proposed tariff it would come to the dealer at 23 1/8 cents, said to be about 5 cents under the prevailing prices for butter of similar grade from domestic dairies. Some of the experts declare that the Siberian product is as good as the best grades of domestic butter. A smaller quantity of Australian butter, and also a little from Canada, is also here in bond awaiting the opening of the gate into the American market.

NOTED PREACHER AT ST. ANDREW'S

Rev. George Duncan of St. Cuthbert's Heard by Large Audiences.

LIFE AND ITS VALUE

St. Cuthbert's Minister Possesses a Picturesque Presence and Strong Voice.

Ornate pulpit oratory flooded St. Andrew's Church, West King street, yesterday. St. Cuthbert's most distinguished pulpit was the preacher. Recognized on both sides of the Atlantic for his scholarship and culture, the visit of Rev. George Duncan, minister at Edinburgh's most historic Presbyterian church, was a rare event. An appropriate full choral service was arranged for both morning and evening by Dr. Norman Anderson, organist. Large congregations heard the eloquent discourses of the eminent Scotch divine.

Dr. Duncan preached before King Edward VII. and Queen Alexandra at St. Giles' Cathedral, and on several occasions before King George and Queen Mary. His voice, clear, strong, and full, with a deep, sonorous voice; impassioned, dramatic, and, withal, loquacious, St. Cuthbert's minister possesses a picturesque presence and impressive personality.

Yesterday's sermon dealt with life and its values. Preaching last night from St. John's metaphorical text, in Revelation, "Behold, I stand at the door and knock," Dr. Duncan pointed out that the truth involved was the reversal of the conventional view of the spiritual problem. Mankind labored under the misconception that men and women had to knock at the door of holiness in order to attain sanctification. On the contrary, the Holy Spirit was constantly seeking an entrance to the human heart. In that transcendent fact was revealed the solution of the problem of attainment of the higher life.

HUGE BRIEF IN DYNAMITE CASE

Over Seven Hundred Page Brief Filed by United States Attorney.

INDIANAPOLIS, Ind., Sept. 13.—United States Attorney Charles W. Miller today added a huge volume to the immense record of the dynamite conspiracy trial, when he forwarded 725 pages constituting the government's brief in the appeal of the case by the complete dynamite conspirators to the United States Court of Appeals at Chicago.

A remarkably brief document in relation to other records in the case, the evidence of the dynamite conspirators, when he forwarded 725 pages constituting the government's brief in the appeal of the case by the complete dynamite conspirators to the United States Court of Appeals at Chicago.

The government's brief is more than half devoted to a complete re-statement of the dynamite conspiracy, and the part each of the thirty-one convicted defendants played in the conspiracy. It then gives the government's argument against the error alleged by the defence in the consolidation of the cases against the thirty-three defendants, sets out the government's refutation of the objection to admission of testimony by Curtis E. McKeen and Edward Clarke, whom the defence would have excluded as co-conspirators, and supports the instructions by Judge Anderson to the jury as having been faultless.

Of the nearly fifty men involved in the indictments returned last year, thirty-three were found guilty and thirty-one were sentenced to terms in Leavenworth Prison, two being released on parole by the court.

The bill of exceptions was filed in Chicago by Curtis E. McKeen, one of the defendants, and the government's brief, the court of appeals will meet in Indianapolis on Tuesday, October 14, when the date of the oral arguments in the appeal of the dynamite cases will be set. Only thirty of the thirty-one convicted men are involved in the appeal. Heretofore, twenty-one were sentenced to terms in the Federal Reformatory for Women at Alderson, while Edward E. Phillips and Charles Wadeweller were released on parole.

HE'S NOT IN A MONASTERY.

AUBURN, Ill.—Frank Robbins, an heir of the estate of the late John Robbins, wealthy Plainfield banker and realtor, long believed hidden from the world in a Roman Catholic monastery, has been located at West Melbourne, Australia.

FOUR HUNDRED AT SATURDAY OUTING

First of Series of Lawn Meetings a Great Success.

The four hundred seats which the board of education provided for the series of social service and missionary lawn meetings at Miss Jeanette McNabb's home, 222 Dundas street, were all occupied Saturday afternoon when Rev. John McNeill of Cooke's Church delivered a splendid address.

A very representative audience was present, and people came from all parts of the city. Everybody enjoyed themselves and many new friends were made. The first meeting was very successful, and with the perfect weather the meeting was well worth while.

Mr. McNeill made a strong appeal for Christians to live a pure and upright life. He dwelt largely on the so-called "one coin" in God's sight, but the Christians in the city were very responsive to his desire. "Let us all live as bright and joyous lives as we can," he said.

The meetings will be continued every Saturday and Sunday afternoon at 8 p.m. Dundas street. Those attending the meetings will reach there by taking a St. Clair avenue car, getting off at Ossington avenue.

GENERAL PROGRESS AROUND COCHRANE

Town, However, is Apparently Waiting for Thru N. T. R. Service.

ROADMAKERS ACTIVE

Farms Are Looking Prosperous and Considerable Building Now Going On.

COCHRANE, Sept. 13.—(Special).—After a year's absence one is able to judge of the progress of the country around here. In the Frederick House district there is a positive now, and developing has been going on very satisfactorily. The store is open and things are moving. The mill that was at the crossing has been sold to a French company, which, it is said, will spend \$20,000 in the lumber and mill business. The interest in this business is believed to be held by the Quebec Pulp Company, and the only thing that has prevented their commencing at once is the fact that the government wants a rather stiff royalty on all lumber, but this matter is expected to be attended to in the interest of the settlers.

North of Cobalt. The country north of Cobalt has come along wonderfully, buildings going up in all the towns along the T. & N.O., especially in New Liskeard and Halleyburg. The farms north of Cobalt are very prosperous, and all have fine crops of grain and some of potatoes. The T. & N.O. and T. & N.O. have discontinued running their thru train to Cobalt, and the result is that it does not pay, with which a number of settlers disagree. Nevertheless, a wait of five hours more in Englishman does not impress one with the possibilities of the country. They are remaining. Englishman burst out that all that is moving in that town.

Cochrane is waiting. Cochrane is slow just now, they ran the first thru train from Winnipeg last week. The regular service has not, of course, begun running yet. According to a statement of the minister, the thru service from Quebec to Prince Rupert will not commence till next year at this time. Cochrane is evidently waiting for that occasion to begin its boom.

Progress in Roadmaking. The road work around Cochrane has been going along very favorably. The settlers have only one complaint, it is the slowness in payment of contract work, contractors having sometimes to wait five weeks for their money, and as money is very scarce here it puts the settlers away back to get laborers to push the work as it should be. Mr. Whitson, in well thought of by people of both parties, Conservative and Liberal. He has 4000 men under him, and the roads are the subject of a future comment.

Frost and the Crops. Some crops grown around Frederick House, but they have hardly been a success, owing to the frost. Mr. Harrison, whose lot is on the river, where it is not subject to frost, has grown some very fine potatoes, showing the possibilities of the country as it is cleared.

WEST WANTS MORE ENGLISH WOMEN

Immigration Commission State That Canada Wants More Old Country Supplies.

WINNIPEG, Man., Sept. 13.—Canada has not enough of the right kind of women and the old country's supplies are not coming fast enough. That is the conclusion arrived at by J. Bruce Walker, commissioner of immigration.

Walker says that this is a most extraordinary fact when one takes into consideration that women get better wages here, have better homes, and owing to their scarcity for domestic service, receive more consideration than in the old country. Scotland at least does her best to remedy the defect.

By far the greater number of women immigrants are Scottish. However, added Mr. Walker, "nationality has nothing whatever to do with the question. It is character that counts."

The second largest supply of single women for Canada comes from England. Ireland is third, but she sends very few thru to the west. Most of the Irish women go to the United States, where so many of their blood are settled.

Mr. Walker makes the emphatic statement that 20 per cent of emigrants here, and others fall simply because they will not adapt themselves to our conditions here, and to some extent because they do not get a decent start on their arrival.

It is stipulated by and between the two that should it be decided after Dec. 3 of this year to file a divorce action no person concerned shall be named as a respondent. No letters or communications of any sort shall pass between Mr. and Mrs. Van Alstyne during the probationary period.

Arson Squad Renew Operations by Destroying Kenton Railway Station.

LONDON, Sept. 13.—The station buildings at Kenton, near Newcastle, with all their contents, were destroyed yesterday by the arson squad of the militant suffragette organization.

Placards were left on the scene of the latest outrage bearing the words: "Premier Asquith is responsible for militancy. Apply to him for damages."

Now it takes some time to grow roots. A great many people think that it is merely a question of putting the bulbs in the ground, and everything else will happen just as nature intended it should happen.

You simply must have proper bulbs, proper situations, proper soil, proper drainage, proper exposure and proper care. Then things commence to happen.

You should know what are the various capabilities of the various plants; you should know the various requirements of these plants, you should know the exact time of flowering, and the length of the flowering period, so that you may arrange the planting of the bulbs whose blooming time will follow closely upon each other.

Then again, there is another thing, much very important, to be considered, and that is the soil. Certain bulbs require to be left absolutely undisturbed in possession of their own beds, year after year, in which case they will flourish.

BOY-GIRL EXPRESSES PITY FOR CONSTABLE

Benedictine Wiseman is Handed Over to the Care of a Matron.

Benedictine Wiseman, the little five-year-old girl who was arrested Friday night in boys' clothing, was turned over to a sympathizing matron of her own race in the woman's court Saturday morning.

At three o'clock and only on account of the case in which the little girl-boy was confined to be cared for by an institution.

Releasing out of the door she encountered the grinning policeman who arrested her. "I am sorry for you so sorry," she said, "and I wish you disappeared and Constable McBurney visibly lost two inches of his five foot eleven."

The "Quaker Girl," one of the big musical comedy successes, will be the attraction at the Princess Theatre next week, with the usual Wednesday and Saturday matinees. The same notable cast, which includes that popular comedian, Victor Morley, will again be seen in the delightful musical play.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL

DOMESTIC SCIENCE LECTURER

Sweet Potatoes. A VOICE just came over the telephone wire saying, "Please, Miss Grauel, write some recipes for sweet potatoes."

It is a pleasure to do this, for they are plentiful at this season and more wholesome than Irish potatoes or almost any other vegetable.

It is no credit to you to cook these lowly vegetables well, but it is a disgrace to serve them moist and soggy, so insist on having the orange-hearted Jersey sweets. Pare them or scrape them as thinly as you can and boil quickly in water containing a sprinkle of salt and a good dash of sugar.

When tender enough to pierce with a fork, drain, and cook. Slice in a wire rack like a toaster over a dripping pan in a very hot oven. As soon as the slices are brown, serve on a hot platter.

Mexico has presented some excellent new dishes. One of these is Mexican sweet potato fritters: mash the boiled sweet potatoes, add two eggs, a half a cup of flour, a pinch of salt, a dash of pepper, two tablespoons of sugar and enough rich milk to make a batter that will drop from a spoon. Fry on a buttered griddle and eat with syrup.

Another Mexican recipe that is different from anything in the American cuisine, and yet very appetizing, is steamed sweet potato. This dish, if made exactly as directed here, will have a flavor very much like fried spring chicken.

Take a tablespoon of bacon dripping and one of butter, mix in half as much flour. Stir this in a baking dish over a low fire until it begins to brown, add a quart of diced, pared sweet potatoes. Pour on enough boiling water to almost cover, put a well fitting lid on the dish and cook in the oven until the water is evaporated or absorbed. Serve in the dish they were baked in with plenty of butter.

Plantation Potting is somewhat similar to the above. Slice pared sweet potatoes into a deep dish, add salt, pepper and butter, or syrup and butter as you prefer, pour on a little cream, hardly enough to show between the slices. Bake in a moderate oven until the potatoes are very brown and tender.

In Siam and East India, this vegetable is regarded as a sweet and is preserved in a rich sugar syrup to be used as a tid-bit after a feast, but whether you bake them a la Marion, that is in hot ashes, out of doors, or augment their rich sweetness with sugar or honey, makes them savory with plenty of butter.

This is because they contain so large a quantity of iron and are cooked in an iron kettle and then subjected to the action of the air. It may be prevented if you do not pare them until after boiling. Merely scrub with a vegetable brush, cut out any imperfections with a silver knife, and cook in a porcelain pan with enough water to cover as well as a lid.

YORK COUNTY ...AND... SUBURBS

MORE TROUBLE RE YONGE STREET

Repairs Charged as Local Improvement After City Agreed to Pay.

There is evidently some mistake with regard to the assessment papers issued in North Toronto charging the repairs on Yonge street as a local improvement.

But for the swift action of the firemen yesterday at 12:30 o'clock, the damage to the bridge and the street would have been much greater.

The new high school will soon be ready for occupation. Three rooms are now being rapidly worked up.

Over 100 brethren attended, and the service, which began at 7:30 p.m., was a hearty one.

The choir, which consisted of twelve members, rendered a very fine performance.

WHITBY COUNCIL DISCUSS SEWERAGE

Committee Has Visited Other Towns and Will Report Tonight.

Tonight's meeting of the Whitby town council will likely mark a new epoch in the history of the municipality, since the advisability of installing a sewage disposal system will be the main subject for discussion.

The question of installing a sewage disposal system in Oakville, Weston and North Toronto and are reported to be favorably impressed with the proposition.

Unless Jerome has some powder concealed somewhere, Thaw will be taken to Littleton on Tuesday morning.

The habeas corpus argument is set for 11 o'clock tomorrow, and the question of denying Earle's writ is the wish of the committee that all members will wear their regalia.

It is a great relief to those who are interested in the matter and it is likely that a number of citizens will be present at the meeting.

FACTIONS WARM UP

Jerome Hotly Attacks Methods of Prisoner's Counsel—Thaw Under Cover.

He made this plain with a smile, and said later that his real reason for not taking Thaw out was that Colebrook had been upset enough, and ready for the fugitive and he thought it best not to parade him on the quiet to the Saboth.

SARNIA CITIZENS LIKE HUNDREDDOLLARS' WORTH DURING PAST WEEK

That Sarnia people are willing to invest in local debentures has been abundantly manifested, as A. E. Ames & Co. of Toronto have disposed of \$100,000 during the past few days.

Some time ago the citizens wanted the bonds to be sold here direct, but this would not be done by the count.

MONDAY MORNING, SEPT. 15. AN UNSAFE GUIDE.

Without offence, and we hope not without edification to those we sought to instruct, The World has essayed the role of moderator in the debate upon the currency question between our good neighbors, The Toronto Globe and The Toronto News. It was to be expected, and we are not surprised to find The Globe charging us with sharing the vagaries of The News, while The News is no less convinced that we are siding with The Globe.

The truth is that we have merely endeavored to correct mis-statements by both journals respecting elementary facts, to the effect that they might be induced to read the statutes regulating banking and currency, about whose meaning they so loudly dispute.

Many inaccurate statements might be quoted from The Globe; let one suffice. In its issue of Saturday last, we are told: "The World and The News further confuse confusion by calling the large note 'bank legal tenders'."

Of course The Globe is entirely wrong, as it can learn by enquiring of any bank clerk or civil servant in the finance department. A Dominion one dollar bill or one hundred dollar bill is legal tender between individuals and will be redeemed in gold by the government when presented by the holder for redemption.

"SOMETHING ATTEMPTED, SOMETHING DONE." A great deal will depend upon the state of mind of the aldermen when they reassemble in council today, after their holiday. In previous years much good work that had been brought to the point of fulfillment was nullified or blighted by the foolish fears of some of the aldermen.

Whatever a policy of doing nothing has been done this year, and only a little consideration is necessary to give it permanent form and secure great advantages to the citizens from the de-liberations of this year's council.

It was freely stated that as a result of the policies of which Controllers Church and Foster have been the surviving supporters, the tax rate this year should have been 23 or 24 mills. By strict economy the rate was held down to 19 1/2.

WHO SAID "BARNACLES"? The Globe seems tickled to find in The World something that looked as

tho it could be cast against the Whitney Government and quotes with unctious and black type a statement which has been made in one form or another several times about the department of agriculture.

These partisan attacks do not interest people as they used to do. Honest pointed criticism does, and helps the government also.

The Globe wants to know why Sir James keeps Hon. James in the cabinet. When The Globe had a chance to encourage Hon. Nelson Meville in the same position what did it do?

And now it isn't satisfied with Hon. James. We can imagine the grief and woe that will pervade The Globe office if Sir James does bring in the Cochrane or a Hearst or a Hanna to be the farmer's joy.

THOUGHTS OF CHRISTMAS. So little time for preparation before it's Christmas Day! Henceforth avant-proclamation! I now must straight essay to start to work like all tarnation at things to give away.

Last year I made a record splendid, but this must beat the last. Now hubby's socks must go unended till this excitement's past while I knit curious things intended to keep the wintry blast from feet of cousins and amusee unto the tenth degree; I can't afford to give them chances to get ahead of me—to swap these things the joy enhances of consanguinity; And I must do an even hundred of dollies for my friends who dwell, by land and water sundered at earth's remotest ends; the postman doubtless off has wondered who all these dollies ends. Then five and twenty cent-pieces I must embroiderize to give to all my loving pieces, and handkerchiefs and ties; and so until my labor ceases, I cannot swat the flies; I cannot cook or do the baking or keep the house O, K., for forty thousand things would mean a give away. It is a perilous undertaking, this keeping Christmas Day!

FORESTERS HELD CHURCH PARADE

Eight Hundred Members Marched to Service at St. George's Church.

The annual church parade and service of the Ancient Order of Foresters was held yesterday afternoon. Eight hundred members met at University and College streets at 3 p.m. and marched to St. George's Anglican Church, John street, where Rev. E. J. Moore, the pastor, spoke to the large audience.

In the course of his remarks, he said that the obligation of the order didn't mean that they should only look upon it as a fraternity, but that they should go out into the world and help to redeem humanity in this way, he said, the order would be a service to God, as well as to man.

EVERYBODY ISN'T BULLISH ON C. P. R.

No Use Trying to Bunco Americans, Says Letter of Mysterious Origin.

Apparently the quick rise in C. P. R., which ended the week with a net gain of twelve points, has not aroused universal enthusiasm. An anonymous letter sent out broadcast from New York seemingly expresses the views of the bear contingent. It reads as follows:

"An international banker says: The Canadian Pacific manipulators can pump water uphill while they work at it. When they rest it comes down again. Thirty millions of stock, issued at 125; twenty millions at 150, and sixty millions to be sold to the American people at 220.

"Canadian Pacific schemers should only try to bunco the English and Germans. Americans won't pay \$22,000 for a hundred-share certificate that costs Canadian promoters ten cents to print."

PANAMA AND THE IN PICTURE and PROSE

This book first takes you in through the front door of Panama—through the islands along the way, describing the natives in picture and prose; then you are taken to the isthmus and are shown the wonders of that unknown country—the people, their strange customs and more strange costumes, their religious and politics, their peculiar characteristics; how they live—how certain natives eat lizards and hugely enjoy them—how they fish and hunt; their sports and pastimes; marketing bananas, shooting alligators, burning charcoal, ALL there is to know about these queer people, and MORE than has ever been told of the great waterway—from the whys and wherefores of its inception to the ins and outs of its construction—and on through to its completion—in all a beautiful human interest story that will charm the reader to the very last page.

LOOK FOR REVIVAL IN INDUSTRY WITH TARIFF DELAY AT AN END

Wall Street Swings Around to the View That Wilson Administration is Not Destructive, But Constructive in Methods—Process of Readjustment Not Causing Unrest Feared.

Special Written by S. S. Fontaine for New York World and Toronto World.

NEW YORK, Sept. 14.—It is eight years since the stock market went through the experience of the last week—the passage of a Democratic bill in the stock market's course was popular and nation-wide, if not world-wide. Persons who never buy or sell securities were as much interested as Wall Street to see whether business would respond at once to a knocking off of the brakes on the wheels of industry.

Financial and commercial interests have been waiting with increasing impatience for the passage of the bill. They expected the first relief from the halting influence of uncertainty with the passage of the bill; and the past week was not in this respect a disappointment.

Old Deadlock Recalled. The last time a Democratic tariff bill passed the senate and went to conference the two houses were almost hopelessly at odds. The Wilson bill was passed by the senate on July 2, 1904, and the conference deadlock lasted until Aug. 15, after which the bill passed to the fate of the bill continued thru the constitutional period in which President Cleveland might sign or veto it. On Aug. 27, 1904, the Wilson bill became effective, with President Cleveland's memorandum withdrawing his signature and denouncing the "treachery" of the senate in not living up to Democratic pledges.

Confidence in Wilson. The general tone of optimism in the financial district springs from the certainty as to the water has been squeezed out of the country.

Price Changes Few and Far Between at Week-End—A Few Firm Spots. The Cobalt and Porcupine mining issues were quiet and comparatively steady at the week-end, the Saturday session of the local market being remarkable only for its limited volume, and with nothing in sight to inspire any initiative in the dealers, prices naturally fluctuated within very narrow limits.

The cheaper Cobalts were more conspicuous than any other section of the list. Beaver scored another rise of a point to 34, its highest in three months, on rumors of an early dividend declaration, and Peterson Lake was fractionally improved at 22. This issue has retained its dullness of late, but is holding up in splendid style, influenced by the excellent showing of the Seneca Superior.

Further selling of Chambers' Standard came into effect, carrying the shares down half a point to 15 1/2, a new low record for the year. The share holders are pretty much in the dark concerning the affairs of the company, which explains the present section of Crown Reserve was the feature of the big issue, gaining another six points to 115, the recent liquidation which carried the stock back to \$1.50 having apparently dried up. McKinley-Daragh was weaker, dropping four cents to \$1.44 on belated selling due to dividend appointment over the cut in the dividend.

In the "peninsula" price changes were few and far between. Pearl Lake held very firm around 31 under a sustained demand, and Higgins maintained its recent rise to 16. Swastica sold at 3 1/2, duplicating the recent low level.
