BRITISH TROOPS WIN BRILLIANT VICTORY

GERMANS DECISIVELY BEATEN AND NEUVE CHAPPELLE CAPTURED

RUSSIANS Drive the Germans From the Niemen River and Take Enormous Quantities of Supplies

U.S. TO DEMAND EXPLANATION OF SINKING OF SHIP

News of Prinz Eitel Friedrich's Exploit Stirs Washington.
SITUATION IS SERIOUS
German Captain's Course Inexcusable as No Contraband Was Aboard.

Special to The Toronto World.
WASHINGTON, March 10.—Im-
mediate repatriation from Germany will
be demanded for the destruction in open
sea of the American cargo ship, Wil-
helm F. Eysler, on Jan. 27 last by the
German auxiliary cruiser, Prinz Eitel
Friedrich. Tonight the neutrality
board selected by Secretary of the
New York and including in its
membership Counsellor Lansing of the
state department, Dr. James Brown
Scott, head of the Carnegie Peace
Foundation, and Captains Knapp and
Other, U.S.N., met at the residence of
the board to consider the views of the
United States on this incident, as well
as to define the rights of the Prinz
Eitel Friedrich.

RUSSIA CONSENTS TO EXCHANGE PRISONERS

Canadian Press Despatch.
BERLIN, March 10 (By Wireless to
Toronto).—Russia has agreed to ex-
change prisoners of war with the Ger-
mans, it was announced today by an
official Russian communication.

Knife Clattering and Dish Rattling

And so the big Russian and all these
little men are jumping into the fight
and clattering their knives and rattling
their dishes to be heard above the
noise of the fighting. "By
Jingo, let us at them," say the little
and noisy men with their plates and their
cannikins, their knives and their mus-
kets.

Tragedy and Comedy

The greatest tragedy or comedy of
Europe, which you will, is the partition-
ing of the Mediterranean sea, and shores,
and the Kaiser and all Germany shut out.
That is one thing that was never fore-
told. And may he have as little to say
when they make the new lines between
Denmark, Holland, Belgium and France
and Germany a little later on in the year.
The Kaiser and all Germany shut out.
That is one thing that was never fore-
told. And may he have as little to say
when they make the new lines between
Denmark, Holland, Belgium and France
and Germany a little later on in the year.

What the Mediterranean Means

And if you seek a quick grasp of the
Mediterranean—"the great sea" of the
Hebrews—and all it means, think of some
of these: of Moses and Job, of Solomon,
of Paul, of Alexander, of Homer, of
Socrates and Alcibiades, of Aristophanes,
of Plato, of Pericles and Phidias, of
Julius Caesar and Cicero, of Virgil and
Horace, of Sappho and Cleopatra, of Han-
nibal and Napoleon, of Michaelangelo,
Raphael and Dante, of Garibaldi, and
for us, Columbus, for he was a navigator
there. There is little history outside of
the great sea but our own. And think
of the English-born who grew in stature
because of a sojourn on its coast: Chaucer,
Spenser, Sidney, Milton, Shelley,
Byron, Keats, Browning. (William would
get into this glorious company). And
when you think of its peoples, its cities
and its men you must also grasp its mar-
itime character: sea within sea; gulf and
archipelago; jutting cape and promontory;
of strait and unfathomable depths. All
that Odysseus saw of cities, men and
manners, and all his adventures were
within its shores. Two thousand miles at
its greatest length, half that at its great-
est breadth, and land in sight from most
of it. And yet both the cradle and the home
of history. It is this prehistoric world
is coming into a new and broader life,
based on its traditions and on its history;
by all odds the finest part of this green
earth; to be a new centre of a greater
civilization and art, and let us hope of
song and laughter, of mind and religion;
but not the Kaiser, not the German, but
the Briton will be the dominating factor
of this greater transformation, and our
ideas of liberty and political equality and
the right of smaller peoples to full
nationality will prevail. Hellenic culture
interpreted by Britons will never be sup-
planted by German Kultur and Prussian
autocracy. So let the carving begin!

SUBMARINE U 12 SUNK BY IRISH EIGHTEEN PERISH

Only Ten of Crew Rescued
When Destroyer Ram-
med Craft.

Canadian Press Despatch.
LONDON, March 10.—The British
admiralty announced today that the
German submarine which was rammed
and sunk today by the British torpedo
boat destroyer Ariel was the U 12, in-
stead of the U 20, as previously stated.
The admiralty statement said:
"Later and more detailed reports
have now been received which estab-
lish the fact that the German sub-
marine which was rammed and sunk
by H. M. S. Ariel was the U 12, and
that out of her crew of 38, the number
saved was 10."

CANADIAN GUNNERS FASTED FOR HOURS

Transport With Provisions
Lost Way and Wandered
About All Day.

Canadian Associated Press Cable.
LONDON, March 10.—According to
the latest reliable news the Canadian
artillery went into the firing line for
the first time after being in at the last
bullet twenty days. The first day they
moved into action they were under a
disadvantage, having lost a transport
wagon containing their rations. How-
ever, this turned up safely after twelve
hours delay. The driver had lost his
way and wandered all over the country.
He was pulled up by the last line sent-
ries when he was about to drive
straight into the trenches. It was
dark at the time, but German star-
lights were bursting all round. Ger-
man shells also began buzzing round
the unhappy transport drivers, who
were quick to act. They whipped up
their horses and reached the rear un-
damaged. Very soon after they man-
aged to reach the Canadian artillery
and gave them their long-delayed meal
of bully beef and biscuit. The Cana-
dian artillery on the way to the firing
line passed thru a lot of villages, out-
lets which the Germans had been trying
to destroy. It was noticed that the buildings most
hardly hit were the churches, many
of which had been blown up and burn-
ed to the ground. Some churches were
partially destroyed earlier by the
British, as it was found that the
enemy had mounted machine guns in
the towers, but in every case the Ger-
mans had completed their destruction
by setting fire to the place before
leaving it.

GERMANS LED LEAVING BULK OF TRANSPORT

Immense Quantity of Supplies
Captured From Gen. Eich-
horn's Army on Niemen.

BY FREDERICK RENNET.
Special Cable to The Toronto World.
PETROGRAD, March 10.—All the
factors by which the Germans have
been trying during the past week to
avoid a general battle across the bor-
der country in north Poland are fail-
ing. Von Hindenburg's fan-shaped
advance from East Prussia has been
effectively crushed, especially the
northern curve. Hard frost now helps
the Russians as the attacking side.
In the centre General Richthofen's army
is retreating as a better force from
the Poznan. German partially placed
Monday by the Russian cavalry some-
what south in the region between
Mirampol and Augustowo. Besides a
great quantity of transport captured
during the disorderly German hurry
westward, the Russians found scores of
laden wagons deserted on the plain.
The Germans had taken all their avail-
able horses and motors from the sup-
ply column to help the artillery to get
away quicker. There are no Germans
now near the Niemen. Their foremost
position is held by a single corps of
Von Buelow's army, which is guarding
such guns as are still exchanging fire
with the Ossowetz fortress.

sented Before.

GERMANY NEEDS BIG WAR CREDIT

Reichstag Asked for Two and
One-Half Billion
Dollars.

Special to The Toronto World.
LONDON, March 10.—A Reuters
despatch from Berlin says Dr. Karl
Hefflerich, secretary of the imperial
treasury, in his speech presenting the
budget in the reichstag today said he
would not deal with the financial pro-
gram of the future but would only
outline the budget, which balances at
18,000,000,000 marks (\$2,250,000,000),
which was four times greater than
any estimates ever presented.
This budget, he added, was only in-
tended to make legal provision for the
coming financial year. For the army,
navy and colonies a more detailed pro-
gram would be presented.

GERMANS TRY NEW ATTACK

(Continued From Page 1.) The sinking of an American sailing ship in the South Atlantic on Jan. 25 last, lipped into this port today and anchored for supplies and repairs.

Protests Were Futile. H. H. Kibbins, of Baltimore, master of the American ship, after the receipt of a letter from the collector of customs, told a dramatic story of his experience.

They are now trying to establish themselves in the regions of Osowetsa and the southern entrance of the Cottingham street and Marlborough avenue.

OBJECT TO CUT IN PARK ESTIMATES

Special Meeting Held Yesterday With View to Having Items Reinserted.

REDUCTION IN RATES

Toronto Electric Light Adopts New Schedule, But Hydro is Cheaper.

When the board of control came to deal with the parks estimates it made a cut of \$124,000 from the total of \$1,000,000. As a result of this heavy cut, the parks committee held a special meeting yesterday with a view to having some of the items reinserted. A considerable portion of the cut was for labor only, and it was felt the board should be asked to reinsert at least a portion of the amount cut out for labor. The committee also proposed that items totaling \$25,380 be reinserted, the motion being carried.

Electricity current in charges for another current is to be made by the Toronto Electric Light Company, and another attraction added in the way of giving 60 watt tungsten lamps free to all customers. A 60 watt lamp has evidently been adopted as the standard, as it is larger than those used by the average householder, and will make for a greater use of current, and it is difficult to say whether the reduction of the monthly bill any less, although the consumer may get greater efficiency.

The new rates are as follows: First class, 4 cwh, at 10c, second 4 at 3c and any over at 14c, less the usual discount of 10 per cent. This new rate is about the same as the old rate, but the floor space charge added.

Says Privilege Abused.

Dr. C. K. Claxton, superintendent of the General Hospital, says there is much abuse of the hospital orders which the city issues free of charge. He says that many patients at the hospital and only \$1.16 is contributed by the city and government, the hospital having to make up the difference.

Smith's Value Less.

The arbitration regarding the Watson property on the east side of the Official Arbitrator P. H. Drayton yesterday. F. H. Smith, a witness for the city, valued the property at \$50,000. His valuation is much less than that of some of the others and is based on the value of adjacent properties.

Death Rate Higher.

Toronto's death rate for February climbed up to 12.3 per thousand, as against 10.7 per thousand for the same month last year. This is a good record, however, as last year the death rate in February was the lowest in many years, and this year is lower than any other year. The deaths during the month totalled 472.

SUSPEND FOR YEAR GRANT TO FIREMEN

Investigation Being Held May Be Responsible for Action of Government.

CLAUDE THROWN OUT

Commissioner Loses Right to Cut Trees Without Owners' Consent.

The fast of the firehall investigation may be blamed for the suspension for the year of the special city grant to the superannuation fund. This was the point on which the private bills committee of the legislature balked yesterday when the city was seeking the right to contribute \$4000 per year for 35 years to the firemen's fund.

Corporation Counsel Geary argued that this help would prevent threatened bankruptcy, but Hon. L. B. Lucas claimed that he had a petition from some who were not included. George Gooderham thought that the subscribers did not pay enough, and after some bickering the whole clause was held over for the year.

Almost an Accident.

Almost by accident the clause giving the city parks commissioner the right to remove trees on boulevards without the owner's or resident's consent was lost. It was explained that they had the city's aesthetic interests at heart, but members felt that the next commissioner might not be so discreet. Provincial instances were quoted to show it unwise. A last show of hands threw the clause out after the city thought it was won.

The clause allowing the city to inspect all water taps to prevent leakage waste, charging a small fee therefor, was passed without contention. The clause allowing the city to practice as a barrister after certain examinations were taken. The clause was passed as exceptional, although the Law Society was unwilling.

SIGNALERS BUSY AT VARIOUS POINTS

Weather Perfect for Good Heliographic Work and Good Practice Resulted.

WILL TAKE COMMAND

Major McCordick to Assume Charge of Thirty-Fifth Battalion.

Exhibition camp was visited yesterday by 1950 men of the third contingent. They form the 25th Battalion of the new regiment. On reaching the grounds, the men were inspected by Lieut.-Col. Elliott, Major McCordick, at present second in command of the 19th Battalion, will take over command of the regiment.

Yesterday was a busy day for the signalers. From early morning until late at night they were at work sending messages from various parts of the city. The weather was perfect for the heliographic and some excellent work was done. During the afternoon messages were sent from the Ontario Hotel to the Royal Bank Buildings and from there to the camp and to Long Branch, a distance of about 40 miles. Capt. Dunn, D.S.O., was in charge. No. 3 Company, 19th Battalion, marched to the O.R.A. ranges at Long Branch, to replace the company which went on Tuesday.

Long Distance Rides.

The Divisional Cyclist Corps has been engaged in a number of long distance road rides. Yesterday 300 rode out to Islington and thru the downtown section of the city. This corps are particularly useful on account of the quiet manner in which they get from place to place.

Considerable satisfaction is being felt among the medical men of the contingent at the seeming wiping out of meningitis. It is now ten days since the last case was reported, and from late reports most of those at present in the hospital are progressing very favorably, although Private Lockhart's condition is still considered serious.

It is expected that a large number of the men who have been hospitalized at the old General Hospital will be returned to the camp very shortly. Over 200 men were examined during the week and no further cases or suspects located.

Military Funeral.

With full military honors the body of Private Frank McKinnon was taken from the General Hospital to the Union Station yesterday morning. The remains were taken to Brantford, where interment will be made.

Two aliens with the second contingent have made application to be naturalized. These are not come before the court of general sessions before May, unless some special action is taken. The two men are Vincent Ross, 20th Battalion, "Company," and Joseph B. Shutz, 4th Canadian Rifles.

Mrs. Currie, wife of Lieut.-Col. J. A. Currie, has forwarded another message from her husband, saying "I'm well." The cable was despatched from a place near Calais.

THE J. H. PORTER SHOE STORES
(LATE SHOE BUYER AND MANAGER FOR THE ROBERT SIMPSON CO.)

meet at 8 p.m. on Tuesday, at the L.A. East York is and a deputation to the township, in the Deputy Reeve Councilor Graham, R. L. Starr, town-

FINANCES OF FRANCE STEADILY IMPROVE

February Budget Materially Better Than That for January.

Canadian Press Despatch.

PARIS, March 10, 10:55 p.m.—The official journal will publish tomorrow details of government revenues received from indirect taxes and monopolies, which show a reduction for February, 1915, compared with February, 1914, of 48,000,000 francs (\$12,500,000), which is an improvement over January, 1915, when the reduction was 97,000,000 francs (\$24,400,000), as compared with January, 1914.

The largest reductions were in property registration fees, stamp taxes, customs, posts, telegrams and telephone. The minister of finance observes in the statement that there has been a steady improvement month by month since the war began in government revenues.

PREMIER RECEIVED HYDRO DEPUTATION

Government Not in Position to Legislate for Radial Railways.

By a Staff Reporter.

OTTAWA, March 10.—Premier Borden and Hon. Frank Cochrane received the Ontario Hydro-Electric Union deputation, introduced by A. C. Macdonell, Sir Adam Beck, Mayor Church and J. W. Lyon, presented the request of the deputation for a federal subsidy and appealed for fair play for the municipalities.

Sir Adam said that the people were heartily sympathetic with the hydro-radial project. He thought it was a sound principle that the municipalities should pay the loss, if any. The cost of steam railway feeders was a day of the past and no one would admit that a steam branch would pay. They took into consideration the general scheme of a radial system for the province.

They did not wish to validate the hydro-electric radial bylaws passed by the people and they did not wish to spend a large amount of money in preparing specifications. If the subsidies were not obtained it was likely to cause a great deal of dissatisfaction.

The premier stated that so far as any legislation for the purpose set forth at the present session was concerned, conditions would not permit the government to bring it on. He warmly toward the project they might feel. The government was asked to make a declaration of its future policy. So far as that was concerned he would submit to his colleagues what had been urged.

FRENCH CIVILIANS ARE EXPELLED BY GERMANS

Thirty Thousand Old People and Children Being Driven Out.

Canadian Press Despatch.

GENEVA, via Paris, March 10, 3 p.m.—Thirty thousand civilian inhabitants of French territory occupied by the German hordes are being expelled from Switzerland in lots of 4000 to 5000.

The first thousand passed thru Geneva yesterday. They were chiefly from the hills and mountains and consisted of very old people and children under ten years. Some of the French children were seen in the streets near the fighting line to get food. The Swiss went across the French frontier by the Swiss authorities.

W. ONTARIO ORANGE LODGE CONVENTION

Methodist Church at North Bay Crowded When Session Opened.

BLINGUAL QUESTION

English Language Only Must Be Taught in Schools, Says Grand Master.

By a Staff Reporter.

NORTH BAY, Ont., March 10.—The Methodist Church was filled today when Grand Master Dr. J. J. Williams of Listowel called the 8th session of the Grand Orange Lodge of Ontario West to order for business. The master gave a stirring address, which covered the year's work and the bilingual school question.

"We accept the charge," he said, "that we are openly opposed to bilingual schools and we intend to continue our opposition with renewed determination."

MEXICAN SITUATION IS LESS DISTURBING

U.S. Note Has Partially Cleared Air—No More Warships Sent.

Canadian Press Despatch.

WASHINGTON, March 10.—Secretary Bryan announced tonight that the food situation in Mexico City was still very serious and that the forces of General Obregon appeared not to have evacuated the city as yet, but this was expected at any moment.

Sir Cecil Spring Rice, the British ambassador, brought to the department a copy of a telegram received from Thomas Hohler, charge d'affaires of the British Legation in Mexico City, declaring that the American note, a copy of which had been presented to General Obregon simultaneously with its delivery to General Carranza, had produced a good effect on the situation. The charge pointed out, however, the necessity at all times of keeping a line of railway and telegraphic communication open between Mexico City and Vera Cruz.

No more warships were ordered to Mexican waters today and none will be sent pending further developments in the situation.

COMMUNICATION LINES AN IMPORTANT BRANCH

Lt.-Col. Galloway Tells of Bearing on Success or Failure of an Army.

An interesting talk on "Lines of Communication" and their great bearing on the failure and success of an army, was delivered by Lieut.-Col. Galloway before the Toronto Military Training Association at Jarvis Street Collegiate Institute last night.

Col. Galloway has had considerable experience in this class of work. A large number of members of the association were present and a keen interest taken in the speaker's remarks.

The association has arranged for several other addresses from prominent military men.

that the city of Toronto be authorized to supply water and grant to built-up sub-urban areas of the city's fringe.

the important clause late building so as conditions hereon to one small lot in crowded with uses, to the detriment of the property and the L.A. East York is and a deputation to the township, in the Deputy Reeve Councilor Graham, R. L. Starr, town-

DEATH WAS RESULT OF NATURAL CAUSES

Seven Month Old Josephine Cole Received Scant Attention When Ill With Cold.

That "seven months old Josephine Cole came to her death March 2, at 315 Richmond street from natural causes" was the verdict of the jury under Coroner W. H. Butts at the morgue last night.

Evidence showed that the child had been suffering from a severe cold for three weeks. No doctor had been called and the only medicine given had been a bottle of cough mixture.

STATEMENTS ARE NOT BORNE OUT BY FACTS

Dr. Hastings, M.O.H., Replies to Complaint Regarding Pasteurized Milk at Board Meeting.

At a meeting of the board of health Dr. Hastings was asked to prepare his report for the board of control regarding the complaint made by Dr. J. B. Fraser that pasteurized milk was responsible for double the number of deaths among babies in Toronto.

Dr. Hastings said that Dr. Fraser has sent a pamphlet to dairymen, doctors and the newspapers, and tried to get a sub-committee of the board of trade to take up his complaints. "In each case you have done me the courtesy to communicate with me," he said, "and I have been able to show them that his statements were not borne out by facts."

He also said that the bulletin issued last July gave a complete reply to Dr. Fraser's statements.

SESSION OF HOUSE CONTINUE UNTIL MAY

Hopes of Prorogation at Easter Have Been Chilled.

By a Staff Reporter.

OTTAWA, March 10.—There is absolutely no chance of the house session ending at Easter, as some had expected. An arrangement was made to "between the party whips today whereby the vote on the amendment to the budget, proposed by Sir Wilfrid Laurier, will be taken on Tuesday next. It was regarded as hardly possible now that parliament will prorogue before May.

Walker, Toronto; grand lecturer, E. N. Ellis, Toronto; lecturer, Joseph Murray, London, and W. J. Armstrong, New Liskeard.

VILLA IS BELLICOSE IN ATTITUDE TO U.S.

Bandit Chief Says He Will Join Carranza Against Invaders.

Canadian Press Despatch.

EL PASO, March 10.—General Villa in a statement received today from Terreon to the Associated Press, declared that in event of intervention of foreign troops to subdue the Carranza forces he and all other Mexicans would unite against the invaders.

He denied recent interviews in American newspapers, which he said had just been called to his attention, in which he was quoted as saying that he would not oppose armed intervention on the part of several powers to reduce Carranza to orders provided that he would be made commander of such a move.

THURSDAY MORNING, MARCH 11

What is the Hydro-Radial Plan?

Sir Adam Beck was in Ottawa yesterday, supported by a deputation from the city and other municipalities for the purpose of asking the government for the subsidy usually given to the radial railways which are contemplated under the Ontario Hydro-Electric Commission. The people of the country will have only one mind on the subject, but the corporations may not view the matter in the same light. It is only from the corporations that opposition to the proposal will come. Perhaps it is not too much to say that the action of the government in the reply to the deputation, will indicate the dominating influence to be recognized—that of the people or that of the corporations.

The people see in the hydro radial system an opportunity to control their own in the matter of transportation both of freight and passengers, and also for the handling of light express traffic. They see a chance to develop the rural districts of the province so that they will be as attractive for residence purposes as the city. They see the means whereby healthy outdoor life and agricultural occupations will be rendered not incompatible with the necessities of refined and comfortable life, without running into the extravagance which city life promotes. The hydro radial railways in fact mean a higher standard of civilization, and the revival of the country life, which is the strength and pride of long settled countries like Great Britain.

With the radials will go telephones and other conveniences. The postal services will be improved where the radials run, and more a feature of the national life. The people who live in the city will be brought nearer to the country, while those who dwell in the country will not have continually thrust upon them the impression of their city cousins that they are merely the "goats" of society, condemned to raise food for the rest of the community without any corresponding advantages.

The radials also mean, with this closer intercommunication between town and country, an entire reorganization of the city street car services. They must be combined with or combined with the new hydro radial lines so as to get the greatest possible amount of profit and convenience out of them. There are differences of opinion as to which is the best way to accomplish this consolidation. We have no hesitation in saying that the people of the rural districts will own their own lines, and that a satisfactory co-operation be attained. Purchase of the city lines is still a question over-laid with pre-conceptions arising out of the anti-trust negotiations. It will take some time to sweep away prejudices thus engendered, and some minds are so constituted that they never lose them. But the fact remains that there are rights held by radial railway companies which cannot be extinguished in any other way, and these rights are frequently so interlinked with other terminable rights that no measure short of confiscation, except some form of purchase, will ever solve the problem.

Sir Adam Beck has nothing to learn of the facts of the situation, and for all we know he may have the settlement of the problems all under his hat. We believe it would be possible to advance the whole hydro radial problem if the public were informed what it is intended to do to bring the existing street railways into line with the new project. The people as a whole are all firm believers in the principle of public ownership. The report of the Gasby Railway, just issued, shows how successful a publicly owned enterprise of the kind may be. But the public like to be taken into confidence, and there would be no harm in letting cities like Toronto know what they are to expect under the new system.

There is an impression abroad in some quarters that the hydro radials

would dominate the local railway interests, even when owned by the city, and that Toronto would have as little to say in the management of her street railway as some friends of the hydro-electric system would permit to the city in managing that enterprise. These things are being made the most of by enemies of public ownership, and the best antidote is a clear statement of the policy to be expected, and to which the people are to be asked to pledge their support.

German State Railroads.

In nothing has the exhaustive German preparation for aggressive war been more in evidence than in the adjustment and equipment of the empire's railroads for strategic purposes. Not that the commercial needs of the nation failed to be supplied. That was done with equal efficiency, but in the creation and extension of the roads, the requirements of military operations were no less kept steadily in view. The result is seen in the rapidity with which the German war staff has been able to mobilize the army to concentrate at the desired front and to move troops from point to point on each battle front (back or between east and west). This has been of enormous advantage, more especially since the geographical conditions enable the Germans to operate on interior lines.

Germany's greatest asset both strategically and financially is her state-owned and operated railway systems, the largest of these is the Prussian, exceeding in mileage the railroads of the British Isles. Then there are imperial railroads in Alsace, Lorraine and the state railroads of Bavaria, Saxony, Wurtemberg, Baden and six smaller states. In 1911 the interest on the indebtedness of the German Empire and its component states was roughly \$193,000,000; the net income from the railways and other state properties, such as forests, domains, mines, smelting works, breweries and manufacturing was roughly \$271,000,000, leaving a surplus of less than \$80,000,000. State ownership of railroads and production properties has therefore been inestimable service to Germany.

Many British and American observers who have examined the conduct of the German state railways, have testified to the methods by which they are utilized to further the development of the country's industries. Manufacturers carrying on business at inland points have been placed on the same plane as those situated on or near the coast, so far as external trade is concerned. Cheap rates have also been employed to establish a hold on neighboring continental markets. Government assistance in the way of cheap transportation has been one of the leading factors in the extension of German trade, and it has been recognized to do this only because the railroads are the property of the state.

South Africa's Natural Resources

Two bulky volumes are required to present the views of the Dominions Royal Commission, which spent the greater part of last year in the investigation of the natural resources and trade conditions of the Union of South Africa. Voluminous as is the report, the commission has been chiefly concerned with the importance of the subjects discussed from the imperial viewpoint, and with the collection of expert testimony likely to be of service to the members of the imperial conference, for whose benefit the enquiry was made. Apart from the suggestions made by chambers of commerce and other representative bodies regarding the future relationship of the mother country and the dominions and among the dominions themselves, the most interesting feature is the information recorded concerning the natural resources of the union, both mineral and agricultural.

Not much is known of South Africa in the sister dominions, whose attention has been mostly centred on its political history. But the union has vast potentialities independent altogether of its position as the leading gold producer of the world. The gold figures are indeed colossal. On the Rand alone the total weight of ore crushed up to the end of 1913 was 230,000 tons, yielding 90,000,000 fine ounces of gold, totaling in value no less than \$1,900,000,000. In one district this industry has paid \$480,000,000 in dividends. Contrary to the general impression the government mining engineer and other experts assured the commission the future of the Rand would be even more impressive. Estimates showed that the prospective yield from the existing mines and from new areas ran from 550,000,000 to 587,000,000 tons, valued at sixty-five billion dollars. These estimates were made independently.

Of its agricultural prospects an

USE OF ROADS BY TOURING AUTOISTS

Attention of Legislature Given to Taxation and Reciprocity of Licenses.

ARE NOT EARMARKED

Most of Revenue, However, Goes into Good Road Work.

The interests of Ontario motorists obtained some attention in the legislature yesterday and the matters of taxation and reciprocity of licenses were general discussion. Without definitely opposing the latter suggestion, Hon. W. J. Hanna expressed his opinion that there were some disagreeable features in connection with the use of provincial roads by strangers. Opposite speakers lined up in favor of returning to the municipalities a large percentage of the license taxes. This local highway would be used in improving

H. C. O. L.

Editor World: I have read with considerable interest your editorial in today's issue, on "Living Conditions in Toronto." I have been struck for a long time with the high price of bread in Toronto, as compared with the cities in the States, and wondered if there was a brand trust in our midst. It strikes me our city fathers could employ their time more profitably in investigating the high cost of wheat, if there was any all ready interested, than in trying to doze out how a few firemen spend their idle moments.

ATTACK ON ASTURIAS CLEARLY NO MISTAKE

German Submarine Crew Could Easily Discern Distinctive Marks.

Canadian Press Despatch. LONDON, March 10.—Replying to a question in the house of commons today as to whether there was any validity in Germany's excuse that the submarine which tried to torpedo the British hospital ship, Asturias, was unable to discern the distinctive marks on that vessel because of darkness, Dr. Thomas J. MacNanara, parliamentary secretary to the admiralty, said: "The master of the Asturias reports that it was at 5.15 p.m. on a clear day and light, leaving no possibility of the identity of the ship being mistaken."

The French ministry of marine announced on Feb. 2 that a German submarine on the day before had made an unsuccessful attempt to torpedo the British hospital ship Asturias, "thus violating the formal clause of the Hague convention of 1907 regarding the attacking of hospital vessels." The attack on the Asturias was made near the French seaport of Havre.

STRATHROY BANK CLERK IS SOUGHT BY POLICE

Canadian Press Despatch. LONDON, March 10.—A warrant is out for the arrest of Fred Billings, a clerk in the employ of Rowland & Co., private bankers of Strathroy, who, it is alleged, decamped yesterday with \$1000, the proceeds of a cheque he cashed here for his employers. The police believe the man has crossed the line into the United States.

RETURN TRUE BILL

True bills were brought in by the grand jury in the sessions at the city hall yesterday against James Franchini, assault occasioning actual bodily harm; Ernest R. Fowler, Gordon Lennox, seduction; Thomas Mountford, shopbreaking; and Harry Nollie, receiving.

MILLION DOLLAR ACTION IN COURT

Lillian White Enters Suit at Osgoode Hall for Large Amount.

JUDGMENT UPHELD

General Animals Insurance Co. Lost Appeal From County Judge.

At Osgoode Hall yesterday the second appellate court dismissed the appeal of the General Animals Insurance Company against the verdict of Judge Sider of Wentworth County, awarding Patrick Dowdy of Hamilton \$200 under a policy on a bay gelding. The company alleged misrepresentation in the application for insurance, but as it had been made out by the company's agent and as Dowdy was not aware of the statements made on his behalf, the court is of the opinion that the company is liable and affirms the judgment of the county judge. Chancellor Boyd dismissed the suit of E. M. McEwen against James A. Good and Mrs. Good for specific performance. It was stated that the plaintiff wanted the property, 359 College street, for \$5,000 and that an option to purchase for \$5,000 was given. The plaintiff desired to buy the property, but it was found to be in the name of Mrs. Good. The chancellor held that as the property was owned by Mrs. Good, an option to purchase could not be given by the husband. Claims Millien Bell against Edward D. White against R. J. Henderson, to recover commission alleged to be due on the sale of a secret process steel, which it is alleged was sold to Mackenzie, Mann & Co. for \$10,000. Commission at the rate of 10 per cent is claimed under an agreement of January 25, 1911.

PROTEST AGAINST ASSESSMENT LEVIED

Protesting against the assessment levied against them for the extension of Brunswick avenue northerly from Wells street, a deputation of residents before the court of revision at the city hall yesterday.

SPLIT IN RANKS OF GERMAN SOCIALISTS

Canadian Press Despatch. LONDON, March 10.—The Berlin Vorwaerts, as quoted by the Copenhagen correspondent of the Exchange Living, says that division among the socialists in Germany has led to a split in their party. On one side are the socialists of the old school and in other the national reformists.

DIVISIONAL MANAGER NOW.

K. J. Dunstan, manager of the Bell Telephone Company of Toronto, was yesterday appointed divisional manager in charge of the Ontario division. Kennedy, chief clerk to Mr. Dunstan, was also promoted to assistant manager of the Toronto exchange. These changes were announced by President L. B. McFarlane of the Bell Telephone Company.

CHINA AND JAPAN MAY GO TO WAR

Opinion of Sun Lin, Speaker of Senate of Republican Government of China.

That there may be war between China and Japan within two months was the statement made yesterday by Sun Lin, speaker of the senate in the Republican government of China. Speaker Lin is a visitor in Toronto and will remain for a week or so. His opinion is that Japan intends to try to control China and will strike now because the other countries of the world are too much occupied with the European war to interfere. He states that "China is looking for war and will fight it. All parties are united to resist the efforts of the Japanese." He thought his country would win in a "defensive" war with Japan. He speaks at Victoria Hall on Sunday.

BRITISH PRISONERS TO GET BETTER TREATMENT

Britain Expects Good Offices of United States Will Bring Results.

Canadian Press Despatch. LONDON, March 10, 10.01 p.m.—The parliamentary under secretary of foreign affairs, Neil Primrose, speaking in the house of commons today on the treatment of British prisoners in Germany, said that no reply had yet been received from the German government to the proposal made five weeks ago that the American quarter-master-general's department, working under the American ambassador at Berlin, should keep in touch with the prisoners' camps and distribute money and supplies sent to the prisoners from England. He added, however, that owing to the good offices of the American government he had reason to believe that the proposal would be accepted.

REFUSE APPLICATION OF INTERNED ALIEN

George Koschuck, Austrian, who is interned at Stanley Barracks, has refused application at the office of the registrar of aliens for release thru his lawyer, J. W. Brown, who failed to register as an alien, and his excuse for not doing so was that he thought he would be sent back to Austria to serve in the army.

UNABLE TO SUPPLY FARMERS WITH MEN

Strong Demand for Help in Rural Sections is Not Being Met.

There is a strong demand for farm help on account of the let-up in immigration caused by the war, and as a consequence a number of farmers are employing Russians. They are being sent out from the Dominion Government Immigration Office at the Union Station.

TOURIST TRAFFIC TO LEAD TOWARDS CANADA

A good indication that the prophecy that American tourists will on account of the war come to Canada this summer instead of going to Europe is furnished by a report just received from two hotels at Beaumaris, Muskoka Lakes district. Both hotels are already booked up for the summer with American tourists.

NEW OFFICERS OF 100TH.

Regimental orders of the 100th Regiment announce the appointment of the following lieutenants: James Devonshire, captain of the Beaches Rifle Association; John Campbell and G. H. Catton, George Macdonald, Dick and Joseph Greg Clark have been appointed provisional lieutenants.

ESTATE OF LATE J. M. HUNTER.

John H. Hunter, barrister, who died Aug. 24, left an estate valued at \$13,551. Probate was granted yesterday by the surrogate court to a sister, Miss Annie Hunter of Humber Bay.

Mrs. Wiseneighbour Says:--

"I should have told you the other day, when I was speaking of 'Eddy's' Washboards, that it is just as necessary to have an Indurated Fibreware Tub to hold your clothes if you want to make a success of washday."

Mrs. Newlywed Says:--

"I've heard of Eddy's Indurated Fibreware. What's the difference between fibre and woodenware?" "Fibreware is made from compressed fibre, baked at extreme heat. All in one solid piece, it cannot warp or fall apart. No chance of splinters. Wears much longer, looks better, and is light to carry. The latter point you should always take into consideration," concludes Mrs. Wiseneighbour.

ORILLIA EARNED THE CHAMPIONSHIP WIARTON WON BY ONLY TWO GOALS

Home Players Were Out-generated on Heavy Ice Visitors Played Safety Game Thruout - Some Brilliant Hockey.

WIARTON, March 10. (Special). - Orillia was strong enough to hold Wiarnton to a 1 victory here tonight and won the intermediate championship of the Ontario Hockey Association.

It was brilliant hockey when the condition of the ice is considered. When the teams started play two inches of water covered the ice and the players slithered thru this for an hour.

Orillia deserved the championship. They are a much more finished organization than Wiarnton. The play in the first half of the game was brilliant.

Wiarnton scored the prettiest piece of work of the night to score their second goal. Miers and MacNab were the scorers.

Wiarnton... 3 Goals, Johnston; defence, Simms; right wing, W. Ashley; left wing, A. Ashley.

RECORD ENTRY FOR KENTUCKY DERBY

List of Sixty-Eight Includes Name of Unbeaten Last Coin and Other Notables.

LOUISVILLE, Ky., March 10.—Ninth

entry for the 1915 Kentucky Derby, probably the largest field in the history of this event will face the barrier at Churchill Downs May 3.

The entries were announced today at the offices of the New Louisville Jockey Club and include the champion two-year-old of the past year, horses that showed promising performance on the Kentucky and western circuits, as well as a number that have run good races in three-year-olds this year at Juares, New Orleans and Havana.

With \$10,000 added money, the race, it is said, probably will be the richest run on the American turf this year. It is for three-year-olds at a mile and a quarter.

Among the probable starters are the champion Last Coin, from the stable of James Butler, with Killenny Boy and Harry P. Whitton, who entered Prince Harry, Spain Glass and Robert, J. E. Madden has five entries for the derby.

Other entries are Garbage, E. B. Cassatt, Double Magic, James E. Johnson, the Massachusetts, Hal Part, and Felix, John W. Whalen, Jefferson Livingston of Chicago has two English-bred colts for the derby, John W. Scherer, Emerson Cochran and Phil Jr., the entry of E. L. Baker, is Kentucky's favorite for the derby.

Chick, winner of the Chippendale Handicap at Juares this year, is regarded as the most promising filly entered. A filly never has won the derby.

The derby last year was won by Old Rosebud, a gelding, in the track record time of 2:03 2/5.

The Marlboro B.C.C. will hold a meeting at 8 P.M. on Wednesday, March 10 at 8 p.m. All members are requested to attend.

Library or Billiard Table Give your children a chance to play at home and enjoy themselves. Buy a billiard table and they will spend all their spare time in the household.

Samuel May & Company The Canadian Firm. 245

The World's Selections

RIVERDALE C. C.

READY FOR SEASON

E. Raven Again Captain—Batting and Bowling Averages for the Year.

At the annual meeting of the Riverdale Cricket Club, Mr. P. O. W. Wagner, president, presided over the business.

The league team played 17 games which resulted as follows: 9 won, 4 lost and 4 drawn.

Riverdale's E. team played 16 games with 10 wins and 6 losses.

Two thousand miles of joy riding, with a couple of exhibition games in Winnipeg as a way of diversion, appears to be the result of the trip of the Toronto Victoria O.H.A. champions to western Canada.

The baby-like protests of the O.H.A. executives, and the Toronto Victoria O.H.A. champions, to western Canada.

Buffalo, March 10.—The baseball fans of Jersey City may cease rejoicing. It is almost a foregone conclusion that the Toronto Victoria O.H.A. champions will not desert them after all.

President Ed. Barrow, on his return to New York from Buffalo, announced he has a plan under way which a group of prominent in Jersey City will be organized to play the game.

TO SETTLE BASEBALL SUIT

CHICAGO, March 10.—Possibility that the Federal League franchise which was removed from Kansas City and sold to H. C. Sinclair and Pat Powers to be located at Newark, N.J., may be returned to the western city, loomed up this afternoon when Federal League lawyers asked that the injunction case be suspended until Saturday, to permit opposing counsel to settle the suit out of court.

THE PRESIDENT IS LIKELY TO SAY ANYTHING WHICH WARMED UP AT A BANQUET

From Rochester Union and Advertiser. Jim McCaffery, part owner of the Toronto Baseball Club, said at a banquet here recently that the Toronto club lost \$30,000 last season.

FOR BUSINESS MEN'S LUNCH

You will find Sullivan's lunch counter, 83 King st., up-to-date in every particular. The upstairs dining room has been re-opened and the service and cuisine are unexcelled.
