ALLIES IN STATE OF WAR WITH BULGARIA AFTER UNSATISFACTORY REPLY TO RUSSIA

Balkan Peninsula Becomes Chief War Zone—French Troops Pressing on to Serbian Frontier—Former Premier Zaimis to Head Greek Coalition Ministry—French Take a Thousand Prisoners, Capture Town and Hill of Tahure in Champagne—Russians Make Gains South of Dvinsk.

ALLIES' ADVANCE TOWARD SERBIA IS NOT DELAYED

Cabinet Crisis at Athens Has
No Effect on Troops'
Movement.

LANDING NOT OPPOSED

King and Venizelos Believed
to Differ on Fixed
Policy.

PARIS, Oct. 6.—The landing of French troops at Saloniki and their prompt despatch northward across Greek territory to the Serbian frontier, will proceed without regard to the cabinet crisis at Athens. The downfall of the Venizelos cabinet is considered here as relating to formalities rather than to determined opposition to the landing of French troops. Statements evidently based on official information received by the French minister at Athens after the landing of French troops had begun, and made no mention of the incident, or suggestion of a protest. It is, therefore, held here that the king has not taken a stand against the landing, but merely differs with Venizelos in regard to the fixed policy of Greece in supporting the quadruple entente.

WINNIPEG WHEAT ADVANCED SHARPLY

Rumors of Heavy Foreign
Orders Accompanied Spec-
tacular Rise Yesterday.

WEATHER A FACTOR

Wheat Injured by Rain in the
West—Shrinkage in
Receipts.

WINNIPEG, Oct. 6.—The wheat market supplied sensations today. Winnipeg October opened at 91 1/2c, or 1/2c over the previous close, and sold to 97 1/2c, closing at 97c, or a gain of 6 1/2c for the day. May again sold over the dollar mark, closing 1 1/2c higher than Tuesday.

MAGNIFICENT FUR DISPLAY.

All day yesterday crowds stood in front of the windows of the Dineen store and marveled at the magnificent display of fascinating furs. Beautiful fur coats in Hudson seal trimmed with fox and other contrasting furs; Persian lamb coats of all lengths. Fox sets in tempting colors claimed the attention of the young ladies. An array of fur and cloth overcoats brought exclamations of approval from men of all ages. The approach of Thanksgiving hastens preparations for the trip over the week-end. The Dineen store is completely stocked with every requisite in fur, millinery, men's hats and overcoats and traveling requisites of all kinds. W. & D. Dineen Company, Limited, 140 Yonge street.

The Great Move in the War

The landing of the forces of the allies at the Greek port of Saloniki looks to us like the big event so far of the war; and evidently it is only a beginning. It would seem further that the real theatre of the war is to be in the Balkan States, or, more likely, in Turkey; and will turn on driving the Turks out of Europe, breaking thru the Dardanelles and opening up the Black Sea to Russia.

If this is the likely outcome, Germany and Austria will have to rush large reinforcements to Bulgaria and Turkey; and as soon as that takes place the Russians will begin to concentrate in the same direction, and the allies now in Greece will be strengthened by additional armies from England, France, Italy, probably from India, and perhaps Japan. And, further, if this is to be the theatre of war, Germany and Austria will find themselves not first in the field, but a bad second; and a greater army in front of them and fully equipped with supplies and munitions. In fact, the German and Turkish forces will have no advantage as to preparedness or as to being first on the ground; and will be more or less in danger of being cut off from their bases in Hungary and Austria.

Looks Better for Our Wheat Farmers

Wheat went up to a bushel in Winnipeg yesterday and this is good news for the Canadian farmer. Hon. Robert Rogers also announced yesterday that there will be lots of vessels to take the Canadian wheat over to the British market, although there is no information as yet that there will be any reduction in the ocean freight rates. But inasmuch as the Canadian Government is prepared to give the farmers substantial advances on account of wheat in the elevators; and inasmuch as wheat may continue to increase in price; and inasmuch as it is likely that later on more vessels will come forward, it might be a wise thing on the part of Canadian farmers not to be in a hurry to sell unless they wish to. If the price of wheat can improve under these circumstances, it means a great improvement in Canadian business generally; in fact, nothing will go so far to make good times as a rise in the price of wheat, a reduction in ocean freights and the ability of the farmer to hold his wheat until the right time to sell.

GERMANS AGAIN MOVING TROOPS TO SERB FRONT

Unconfirmed Reports Give
Various Estimates of
Numbers Sent.

RUSSIANS STRONGER

Already Gain Initiative in
Some Sectors and Hold Up
Von Hindenburg.

LONDON, Oct. 6.—Reports, which remain unconfirmed, are to the effect that pro-German forces, variously estimated at from 100,000 to 500,000 men, with 3000 guns, are proceeding thru southern Hungary to attack Serbia. Military observers here, however, assert that it is probable that a figure between these estimates would be nearer the truth, declaring that there is no evidence of any very heavy withdrawals of German troops from the Russian front, and that the western front every day is demanding new drafts.

These observers say that the Germans are not in a position to withdraw many troops from the Russian side, and the armies of Emperor Nicholas are making a desperate effort to assume the initiative in the fighting.

Drive Held Up Weeks. On some sectors Petrograd reports that the Russians already have succeeded in doing this. Besides, it is asserted, they have now held up Field Marshal Von Hindenburg's drive against Dvinsk for several weeks and inflicted very serious losses on him. Von Hindenburg is now reported to be receiving reinforcements with a view to making another attempt to force his way thru the outer defenses of the city.

In the west the big guns are booming, seemingly preparing a way for a co-operation of the offensive of the allies. In Champagne the French have captured the village of Tahure and the summit of the hill of Tahure, which are situated in the German second line of defense.

The Italians record another advance today, and it is now reported that many times been reported as evacuated by the Austrians.

SEAT IN HOCHELAGA MAY BE CONTESTED

Liberals Consider Naming a
Candidate to Oppose
Patenaude.

FEELING IS AROUSED

Breaking of Party Truce
Would Create Interesting
Situation.

By a Staff Reporter. OTTAWA, Oct. 6.—It is reported here that there is a strong prospect of the Liberals placing a candidate in the field in the by-election in Hochelaga. The vacancy has been caused by the retirement of Hon. Louis Coderre. Hon. E. L. Patenaude will, of course be the Conservative candidate. Nominations take place on Oct. 15. It is stated that, if the expected Liberal candidate materializes, the choice will be between S. Letourneau, M.L.A., and L. A. Rivet, former M.P. for the constituency of the same name. The report that there is a possibility of an opposition candidate has caused a stir in political circles. Since war broke out there has been no contest at any by-election, which policy was agreed upon between the two parties. If this understanding is broken in the Hochelaga election the political situation will be interesting.

MINISTERS ASK FOR PASSPORTS ALLIES AT WAR WITH BULGARIA

BULGARIA'S REPLY IS UNSATISFACTORY

Russian Minister Notifies Premier of Bulgaria of a Rupture
of Diplomatic Relations between the Two Countries.

LONDON, Oct. 7.—(12.20 a.m.)—A despatch to Reuter's Telegram Company from Sofia, sent by way of Petrograd, says: "Bulgaria's reply to the Russian ultimatum is unsatisfactory. The Russian minister has notified Premier Radoslavoff of a rupture of diplomatic relations between the two countries. "Russian interests in Bulgaria have been confided to the Dutch charge d'affaires. "Bulgaria's reply was delivered at 2.40 o'clock on the afternoon of Oct. 5 (Tuesday.)"

ATHENS, Oct. 6.—(Via Paris, midnight)—King Constantine has asked Alexander Zaimis, a former premier, to form a cabinet. "King Constantine today conferred with former Premier Rhallis and Zaimis and requested their assistance. After a discussion of the situation, it was decided in principle to form a coalition government, without M. Venizelos, under the premiership of M. Zaimis. The constitution of the cabinet is expected to be completed tonight. "The British minister had a long audience with the king today."

TAHURE TOWN AND HILL TAKEN BY ASSAULT IN CHAMPAGNE

French Infantry and Artillery Score Notable Success,
Advancing Mile, Capturing 1000 Germans—Progress
Made in Environs of Navarin Farm to West

PARIS, Oct. 6.—French infantry whose advance was preceded by a violent artillery bombardment, captured Tahure and Tahure Hill, to the north of the town, today, thereby carrying a supporting point of the second German line. Tahure is on a metalled road running from Souain to Cernay and from it forks off another highway which connects with Sommel-By on the Grand Pre Railway. The hill, which was taken, is about a mile south of the railway line behind the second position of the Germans, and its height is given as 192 metres, or about 600 feet. This gain represents an advance of about a mile since last week.

The French official statement follows: "Our action in Champagne obtained today new results. Our infantry troops, after strong artillery preparation, captured by assault the village of Tahure, and reached the summit of the small hill of the same name constituting a point of support in the second line of the enemy resistance. We likewise made progress in the environs of the Navarin farm. The number of prisoners taken exceeded 1000. "On the rest of the front only artillery engagements are reported. These were especially intense in Artois, in the region of the Givenchy wood, and Hill No. 119; in the Artois, to the north from La Harazee to La Pretre wood; in Lorraine, near Leintrey, Reillon and Badonviller, as well as in the Vosges, on the Metzeral ridge."

SOPIA, Wednesday, via Paris, Oct. 5.—The Serbian minister today asked for his passports.

LONDON, Oct. 7, 2 a.m.—The "Times" Saloniki correspondent in a despatch, dated last Tuesday, says: "The landing of allied troops began this morning and still continues. It is reported that the Bulgarian authorities for strategic reasons have ordered the evacuation by the civil populations of all towns and villages on the coast of Thrace. "Three thousand German officers, it is stated, have arrived in Bulgaria. All received commands in the active army. "The project for the transfer of the Ottoman capital to Brusa has caused a dispute between the German staff and the Turkish crown prince, Yusoff Izzedin, who opposed the idea."

THREE PLANTS BOUGHT BY MIDVALE CONCERN

Big Merger Effected in States Rivaling U. S. Steel Corporation.

NEW YORK, Oct. 6.—Announcement was made tonight that the Midvale Steel and Ordnance Co., a \$100,000,000 corporation recently organized by Wm. E. Corey, had in addition to purchasing the Midvale Steel Co., acquired three other concerns and had secured an option on 300,000,000 tons of iron ore.

These concerns are the West Virginia Co. of Coatesville, Pa., manufacturers chiefly of steel plates; the Coatesville Rolling Mill Co., which was allied with the West Bros., and the Remington Arms Co. of Delaware.

A concern recently organized to manufacture arms and ammunition at Edgemoor, Pa. The latter company, which has leased properties of the Baldwin Locomotive Works and is building another plant, is a separate organization, it is understood, from the Remington Arms and Ammunition Co. of Ilion, N. Y.

With the exception of the United States Steel Corporation, the new Midvale Company becomes the largest steel concern in point of capitalization in the country.

MORE SHIPPING FOR DOMINION'S TRADE

Number of Vessels Brought Up to Twenty in Canadian Service.

THREE OTHERS COMING

Imperial Authorities, As Far As Possible, Will Assist in Transportation.

OTTAWA, Oct. 6.—Hon. Robert Rogers, chairman of the committee on the shipping conditions at American ports, has given out the following statement with particular reference to provisions already made by the British admiralty for the transportation of Canadian products:

Increased Purchases. As a result of representations by the Canadian Government, an expert from the war office is at present in Canada to arrange for increased purchases of grain and flour for the transportation of the supplies thus purchased.

In addition to the above ships, a fleet for the transportation of horses and hay has been provided, seven of such remount ships having sailed from Montreal within the past two weeks. These ships carry products of Canadian farms.

With regard to provisions for the general commercial trade, the imperial authorities have, subject to military necessity, been prepared to do everything possible. In the first place, they have during the past two months refrained from requisitioning any ships on the Canadian route, taking all the new ships required from other routes so that the increases made in the transportation service to Canada are not additions to the transportation facilities for Canadian products. Further, the imperial government, when possible, is releasing, temporarily at least, Canadian liners already requisitioned. The Mount Temple of the C. P. R. line in this way re-enters the commercial trade during the present week.

Advices have also been received that the Kawack, Helgoland and Bar-

enters, ships not previously in the Canadian service, are being released to enter this service immediately. Military necessity must govern every movement made, and it will be obvious that plans cannot be made public; but the imperial authorities will assist as far as possible, and the matter is receiving the continuous attention of the committee of the Canadian Government.

With regard to the shipping conditions at New York, Mr. Rogers said that while rates were extraordinarily high, some ships were in the market. One list issued on Saturday last, for example, contained the names of ten tramp steamers asking for bids from North Atlantic ports to Europe, and he was given to understand ships could be chartered as readily by Canadian exporters as by Americans.

ART EXHIBITION OPEN AT LIBRARY

E. F. B. Johnston, K.C., Gave Opening Address in Absence of Sir E. Oeler.

LAYING A FOUNDATION

Productions of Big Men Doing Big Work Hang on the Walls.

With the presence of Sir John S. Hendry, lieutenant-governor of Ontario, and Lady Hendry, and the singing of the National Anthem, the eighth annual exhibition of the Art Museum of Ontario, officially opened in the Art Museum of the Reference Library, College and St. George streets, last night. E. F. B. Johnston, K.C., who gave the opening address in the absence of the hon. president, Sir Edmund Oeler, said that while the membership of the club was exclusive, the exhibition was open to all marvellous works of high standard. "I was very gratified to know that, while we had temporary interference with art and its production in Europe, Canadians are able to carry on unimpaired one of the greatest educational institutions of the world."

"We in Canada," he said, "are laying a foundation for that which is considered a national treasure in other countries. Our artists may not be as great as some of the leaders of art in other countries, but what we have here on the walls is the production of big men doing big work. They must be judged by the test of universal art. To speak of it as Canadian art is a misnomer."

"Art is cosmopolitan, and the same test must be applied to the man who paints in an obscure country village as applies to the works of the great painters of Paris, London or other centres."

Mr. Johnston referred to the great loss which the club had sustained thru the death of the late D. S. Wilkie, who was with the club from the beginning, and whose generous assistance and criticism were always welcomed. The club owed very much to him and to the late Senator Jeffrey, who in a smaller way was also a strong friend, who took a personal interest in exhibitions of this kind.

dignity of the scenery. The tents lie in a line, which makes them look like a vast river flowing over the plain. Even the firing squad looks at home in this strange spot.

Hand of a Master. Curtis Williamson has two portraits. One is a study of a woman, recognized by friends of the recently bereaved head of the Greek Temple on North street. It is a portrait of an old age, wonderfully done, with the texture of old age transcribed with every ounce of manhood aggressively out-thrusting.

A magnificent bit of landscape work is Horatio Walker's "Lime Burners at Night" (94). An element of the unreal, rather than the immortal, life, it is into the realm of Keats. The forest with its gloom and the deepening blue of the sky with the crescent moon and the glow of the kiln are wrought into exquisite unity. Mr. Walker has another painting, "Autumn Pastoral."

Archibald Browne has one of the very finest things he has ever done in "Sun-down" (32). This is a view five miles up the Don, looking into the valley from the east. The scene is a study in light and shadow, guard either side of this sunset portrait. Mr. Browne has had a long and wretchedly in half-light effects. A striking treatment of Toronto harbor is given by Mr. Browne in (35) "Lake Ontario Stonehookers," with late mist effects. In "A Symphony" (34), he is equally successful in depicting a moonlight view behind trees on the lake shore. Among the other specimens of Mr. Browne's work are "After Rain" (37), with its sun-shafts over the valley and the glowing blue sky, it is most charming.

New Color Wizard. E. Lawson is one of the new color wizards. He is a colorist, but he honestly tries to paint, and whatever can be done with mere pigment in conveying the living fire of light and color he strives after and with notable success. The "Intelligence" in (102) "Book in Maine" must be studied to understand the sense of psychic transparency which he draws out of these spring emeralds and verdures with a vivid life which can only be realized in the spring woods. The same opalescence leaps to life in (107) "Shadow of the Bridge," where the city lights and the verdant banks of the river shine with the inner fire. George Russell writes what Mr. Lawson paints in these studies, except that Mr. Russell perceives consciousness where Mr. Lawson only reveals life.

The jewel sense of color in ordinary stones and boulders, tinted with sunlight or lichen and mosses, is very strong in this picture, and also in (104) "Sea Gulls," where an effort has been made to convey the curious rainbow radiance of a running stream. It gleams and shines, but what is clear to the artist's eye still lingers dimly in the brush.

Franklin Brownell has a fine winter piece in (23) "Habitants Watering Cows." The sparkle and shimmer of winter life is well suggested. We must reserve other pictures for a later notice.

RECRUITING LEAGUE WILL HOLD TAG DAY.

Mayor Church's proposal to raise \$50,000 to distribute between the commanding officers of the city regiments and to assist the officers in command at Niagara in defraying expenses incurred in the organizing of their units was yesterday adopted by the Toronto Recruiting League. It is proposed to hold a tag day, and the city and province will be asked to contribute. The central recruiting depot will also be assisted.

IDEAL QUARTERS HOUSE BEAUTIES

New Premises of Dunlop, the Florist, Are Charming to a Degree.

AN EXQUISITE SETTING

Plants and Flowers Shown to Greatest Advantage at Big Store.

Charming quarters, in keeping with the beautiful products of nature they are intended to house, are the new premises of Dunlop the Florist, just opened at 8 West Adelaide street. Spacious and inviting, up-to-date in every particular, they exhibit the very latest and best along the lines of wholesale and retail horticulture, the plant as a whole being unsurpassed by any similar concern on the American continent.

Giving promise of the beauty of the interior is the beautifully arranged window, in which the bloom of the season is shown in the most exquisite setting and with the coat of arms of the house adorning its side panel. "Viva Arte" is the motto read on the crest and surely life and art are nowhere more gloriously represented than at the widely renowned firm of Dunlop.

Finished in ivory, the lower floor is finished in ivory, the walls being most artistically designed, having great stretches of mirror that reflect and duplicate the brilliant flora and foliage which form the stock of this department. The showcases, filled just now with a wonderful variety of roses, are the best of their kind, the expert lighting with which they are supplied showing every flower to its best advantage. This year's developments in roses are all on view and include the very floweriest pink; the Sunburst, coming from pale yellow to vivid flash; the dainty Mignonette, or Sweetheart; the beautiful, the Sunburst, heart, the Russell, Hadley, Lady Alice Stanley, Shawyer and others.

On this floor is a full line of rare and attractive baskets and pottery in a variety of shapes and designs, suitable for table or general decorating, and all calculated to enhance the charms of the flowers to which they will cater.

A Waiting Room. A feature introduced into their store by this live firm is a waiting room near the entrance where women shoppers may meet their friends or rest for a while in the lovely environment which is always dear to the feminine heart. Telephone and writing material will be at the service of the ladies.

RESIGNATION OF CABINET ACCEPTED

King Constantine of Greece Allows Venizelos to Step Out.

NO REASON IS GIVEN

But Public Has No Doubt as to Cause of Crisis.

LONDON, Oct. 6.—Word has been received from Athens that King Constantine has accepted the resignation of the Venizelos cabinet, which was unable to agree with the king concerning the country's next step in the fast-approaching Balkan crisis. Official telegrams from Athens to the Greek legation here today stated that Premier Venizelos relinquished his office at 9.30 o'clock last night. No reasons were given, the former clash of opinions between the king and the premier, resulting in the latter's temporary retirement from office, left little doubt that the present instance involves the now familiar issue raised by Mr. Venizelos' insistence that Greece strike quickly in behalf of Serbia and the entente powers.

Roumania's Feverish Activity. Reuter's Athens correspondent states that Roumania is hurriedly despatching troops to the Bulgarian frontier, and otherwise taking extraordinary military measures.

The Roumanians are feverishly fortifying Giurgevo on the Danube, forty miles south of Bucharest, across the river from Bulgaria, according to advices reaching Athens. Roumanian officers of Bulgarian origin are being transferred to interior posts. Young reserve officers have been called up, and reserves who were to have been disbanded are being kept with the colors.

THIS ONE WAS CAUGHT Special to The Toronto World. KINGSTON, Oct. 6.—The military authorities today found that Pte. Van Moog of the 5th Battalion was a German, and he is now a prisoner in Fort Henry. He enlisted at Barriefield Camp.

HON. COL. JOSEPH OLIVER. Joseph Oliver, president of the Canadian National Exhibition, has been made an honorary colonel of the Canadian militia as a recognition of the part played by the Exhibition in the work of recruiting.

DECISION FAVORS RAILWAY COMPANY

T. S. R. Entitled to Operate Cars on North Yonge Street.

SCHOOL CASE UP AGAIN

Separate School Board Will Move to Set Aside Injunction.

According to a decision handed down yesterday at Osgoode Hall by the second appellate court, the Toronto Street Railway Company is entitled to operate its cars on that part of Yonge street between the C. P. R. tracks and Farnham avenue, that is if the privy council does not interfere. The judge held that they are bound by the decision of the judges of the old court of appeal, who decided that the railway company was entitled to operate on Queen street, west of Dufferin, on the expiry of the Mimico line franchise.

When the railway agreement was made in 1891 Queen street west of Dufferin and Yonge street, north of the C. P. R. tracks, the within the city, were covered by franchises to other lines, and the portions of these streets granted to other companies were expected from streets of the city on which running rights were given to the Toronto railway.

"We are expressing no opinion of our own," declared Mr. Justice Riddell, in delivering the judgment, "but we feel bound by the decision of the privy council to dismiss the appeal and we do so with costs." The privy council decision referred to was that which confirmed the judgment of the court of appeal of 1908, when the city sought to restrain the railway from constructing a line over a certain portion of Queen street.

The judgment adds that the result is that the restriction effected by the franchise of the Metropolitan Company being removed during the period of thirty years, the city cannot withhold from the company exclusive right to operate upon that part of Yonge street from the C. P. R. tracks to Farnham avenue in the same manner as upon other streets of the city.

The appeal of the G. T. R. from the decision of the county court, awarding \$210 damages in favor of J. D. McGillivray, proprietor of the Commercial House, Glen road, for damages sustained when a rig belonging to the plaintiff was struck by a train on a level crossing near Dalhousie, has been dismissed by the second appellate court. The lower court found that the necessary warning had not been given.

An application made before Mr. Justice Riddell for the transfer of the action for damages brought by Ernest Desrochers against the Herman Heister Lumber Company from the Carleton county court was refused. Plaintiff discovered after a medical examination that he was suffering from tuberculosis of the lungs, and he thought it was caused by exposure while in a weak state of health at the company's camp at Field, Ont. land an expedition at Saloniki in order to back up the position of Greece. The Temps says M. Gounaris will probably be called to form a ministry. It is generally believed the ministers of France, Great Britain, Italy, and Russia has already left Sofia as a result of Bulgaria's unyielding attitude in the face of the ultimatum calling for a definite announcement of her intentions, such a step would involve the severance of diplomatic relations.

No information is available here concerning the withdrawal of the Bulgarian legion, also it is expected that the representatives of Bulgaria would be recalled if a diplomatic rupture should occur at Sofia.

Attack on Serbia Near. The statement is made by the Temps that King Ferdinand of Bulgaria has decided to attack Serbia before the end of the present week. This newspaper urges the government to increase largely the number of troops at Saloniki, in order that there may be ready a strike force for the protection of Serbia and for holding back the expected Austro-German advance from the north. Despatches from Saloniki estimate the number of Austrian and German troops concentrated along the Danube at 250,000.

TRUTH WINS OUT IN LIQUOR CASE

St. Catharines Dealers Given Suspended Sentence by Commissioners.

DECISION EXPLAINED

Lengthy Report Handed Out by Chairman Gives Reason for Acquittal.

The candid confession of the three St. Catharines hotelmen that they did sell liquor after hours on one or two occasions influenced Chairman Flavell and the board of license commissioners to suspend sentence. The men are Samuel Powers, William Gordie and Curtis Copeland, and on Tuesday they appeared before the commission to answer charges of selling liquor on Sundays and after hours. Each confessed and practically threw himself on the mercy of the board.

The decision is explained in a lengthy report handed out by Chairman Flavell and Commissioner Dane, as follows: "The charges made in these cases against the parties above named that they were in the habit of selling liquor during prohibited hours, especially Saturday nights and Sundays, led to an investigation which showed that they were substantially true, and being called upon to answer them the aforesaid parties admitted that they had broken the law as alleged.

"Owing to these admissions, which rendered unnecessary the taking of evidence which would have involved considerable expense and delay, and the fact that the new policy of the board in reference to the punishment for offences against the license law has not become generally known, the board has decided to treat these offenders leniently and to give them another opportunity to conduct their business in accordance with the law in other words to practically suspend the sentences which under other circumstances the offences would warrant.

"In taking this course the board desires it to be understood, not only by the aforesaid parties, but by all license holders in the province, that the present action is intended as a warning, and any further violation of the law will be more severely dealt with by the board, having regard to the gravity of the offence.

"Will Exercise Powers. "Attention is called to the fact that these cases might have been prosecuted before a magistrate and a money penalty imposed, but the board intends in certain cases instead of taking this course to exercise the powers conferred upon it by section 13 of the Act of 1915, under which licenses issued under the Liquor License Act may be cancelled or suspended for any cause which the board may think expedient. This provision of the act will not remain a dead letter, which all persons interested had better bear in mind before violating the law."

AT THE WORLD 40 West Richmond St., Toronto or 15 East Main St., Hamilton

As a result of an explosion of a gas tank at the Canadian Ornamental Iron Works yesterday, Charles Taylor of 13 Hunter street was killed and Mark Smith of 370 Wilton avenue seriously injured. The dead man was blown clean thru the roof of the building and fell back thru another part of it. Two other men who were standing near the tank were blown against the wall.

The cause of the accident has not been ascertained, but it is thought that fault was made in the welding of the tank and that over pressure caused the accident.

E. J. Lea, the manager of the works, said that the tank had been in use for about a month.

The police are investigating and an inquest will be held.

POSTMASTER-GENERAL OPPOSES CONSCRIPTION

Casgrain Believes, However, Soldiers Should Form Privileged Class.

OTTAWA, Oct. 6.—Hon. T. Chase Casgrain, postmaster-general, is out against conscription. Mr. Casgrain said at a recent meeting: "I am not in favor of conscription. Those who wish to go to the war should go without being forced to do so, nevertheless, those who defend the country ought to form a privileged class in Canada. The pension accorded to the wounded and families of victims is greater than that of any other country. In my department I will give a preference to any man incapacitated by the war and unable to follow his ordinary pursuits and this without enquiring as to his politics."

AUSTRIAN EMPEROR ILL. Crown Prince Has Been Called to Vienna.

ROME, Oct. 6, via Paris, 4:55 p.m.—It is said on good authority here that Emperor Francis Joseph of Austria is dangerously ill, and that the Austrian Crown Prince has been called to Vienna.

In addition to the heir to the throne, it is said that Baron von Burian, the Austro-Hungarian foreign minister and Count Tizzeo, the Hungarian premier, also have been called to the capital.

The news, it is stated, has been kept secret up to this time, for fear of the influence it might have upon the international situation.

KING OF ITALY HAD A NARROW ESCAPE

His Horse Was Wounded by Fragment of Austrian Shell.

UDINE, Italy, Oct. 6, via Paris.—King Victor Emmanuel recently had a narrow escape from death or serious injury by shell fire while close to the firing line at the front. His horse was wounded by splinters of shrapnel, but the king was unhurt.

The king, desiring to assist in the direction of operations, was proceeding toward the front on horseback, having left his automobile because of the lack of a road. He rode in among his troops, altho he had been warned that the Austrian projectiles were claiming a number of victims.

As he passed a certain point, which now has become noted because of the incident, a shell exploded so near to him that splinters of shrapnel struck and injured the king's horse. The king's composure was not disturbed, and when his suite urged him to retire he called for another horse, exclaiming: "Here we must win or all die."

Then he rode in again among the troops, who with shouts of "Savoy," took the Austrian position by storm. The spot is now called the "King's spur."

Municipal Reform in Ontario

Another supporter of the bureau of municipal research methods has turned up in the commission of conservation, which commends the idea in the current issue of Conservation, the organ of the commission.

"Canada has reached the stage," says the article, "when municipalities should have available a bureau of municipal research as a part of a department of local government in each province. The need of such a source of information is urgent. Municipal government and municipal engineering are being conducted in too haphazard a manner for the general and permanent public good."

The article deals especially with engineering shortcomings in the municipalities, but the principle is the same in all civic departments. Without accurate and timely information it is impossible to get things done right. Important information can rarely be secured when a city council has taken sides on a question of policy. An outside body, independent of local issues, alone is capable of securing the necessary unbiased presentation of facts.

The World has taken the view on several occasions that the provincial government should take a more active part in formulating methods of government for the municipalities. Especially should there be some latitude permitted, in which municipalities may vary as widely as from ten thousand to half a million in population, might approach their problems from the very different angles which their dimensions require. What is all right for Markham is not all right for Toronto or Hamilton, or at all. In practice it does not suit the larger towns and cities to be compelled to adopt the same courses as the villages.

Sir James Whitney used to say he was opposed to a patch-work system, but there are times when opposition to patch-work so-called actually creates patch-work on the conditions present. The taxation practice of the province is a patch-work, whatever the law may say. Only a bureau of research could establish that, and only one with provincial authority could secure the data.

It is intolerable that a city with a revenue much larger than the province's must submit itself to regulations which are only designed for rural villages. The provincial secretary is supposed to have the Municipal Act in charge, but it will require the whole cabinet to wake up to what is one of the burning questions of Ontario. Large cities are springing up in the province. Hamilton, Ottawa, London and others will soon have problems as urgent as those of Toronto.

Action must be taken and taken on intelligent grounds. The matter has been postponed again and again on the usual political pretext that unless the country is turned upside down there is no demand for reform. Could Mr. Hearst, Mr. Lucas, Mr. Hanna and Mr. McGarry not undertake to do something to help the cities of the province to a more sensible plan of handling their business?

A Suggestion

The government is doing good work in connection with our big wheat crop. The subcommittee of the cabinet, headed by Hon. Robert Rogers, has secured a great deal of ocean space for the shippers at Montreal, and our wheat will go across to England more rapidly than could have been hoped for a short time ago. A great deal of what will, of course, have to be carried over, but the farmer will be financed by the government unless the banks are willing to carry the burden. And the banks need not fear to shoulder the burden, because they can recoup the farmers' paper secured by wheat in storage and national currency.

So the government is to be commended. But the Calgary News-Telegram believes that there is something more that might be done. The ships at Montreal will carry the Canadian wheat, but at the extortionate rate of 38 cents a bushel. Moreover, the News-Telegram figures out that the wheat which sells at Calgary for 80 cents brings \$1.64 in Liverpool. The shipping ring not only get a big pull, but some other middleman is getting a rake-off of at least 20 cents a bushel.

The News-Telegram therefore sug-

Making a Virtue of a Necessity

To hear Ambassador Von Bernstorff declaiming about the nobility of the German Government in yielding to the wishes of the Washington executive and his praise of the Kaiser's action in believing an affidavit made by officers of the Arabic that they had no intention of ramming the submarine, one might think that there had never been in history such an act of clemency.

This is the usual fudge of the German diplomatist. Von Bernstorff seems to think that people have not eyes to see and brains to think for themselves.

The submarine commander who lay in wait behind another vessel until he had a chance to torpedo the Arabic may have disobeyed orders, but he was under no illusions as to what he was doing.

The German Government would have had quite another message for Secretary Lansing if the British navy had not been successful in rounding up the Kaiser's now gratuitously states he will confine to their legitimate business.

Dr. Eakin's Choice

In the induction of Rev. Thomas Eakin, Ph.D., to the charge of St. Andrew's Church, it may be conjectured that something new in the church world of Toronto has been conceived. It is known that Dr. Eakin hesitated long before he decided to take up the burden of his new pastoral work. He had almost definitely retired from pastoral work, and had completed his studies in law with the object of entering that profession.

The call to which he has responded undoubtedly offers less attractions for the merely ambitious man than the often obscure and never too liberally rewarded labors of the pulpit and pew. When a man with the oppor-

portunity to take the more inviting professional path voluntarily turns away to the higher calling it may be anticipated that the results will be definite and valuable, whether apparent on the surface or not.

Dr. Eakin has consecrated not only his ambitions, but a splendid scholarship to the cause he has espoused, and with a fearless soul and a faithful heart he may be able to erect a standard for the "down-town" church, to which, in the words of Washington, "the wise and the honest may repair."

The event, as Washington added, is in the hands of God.

PRaise FOR TORONTO POLICE.

Boston Christian Science Monitor, Oct. 5: "A visitor to Toronto, in Canada, finds much to admire in that city's handling of its downtown police force. The police force has maintained on thoroughfare as crowded as Broadway and Fifth Avenue. The notion that any policeman can do the vigilant, and something like order of an arm, means a traffic squad man as it needs to be done. More often, a group of men doing this especially difficult duty must have something like a common code of signals to give drivers of cars and pedestrians. The best of these men are crowded and receive intense admiration for their mastery of the road. As elsewhere, here is a certain motion of a hand or an arm, means one thing and one thing only, it better. Recognized and obeyed today with some assistance because of its quasi-authority, the signal officer in due time will be unwittingly, automatically obeyed by free men."

HIGH POST IS GIVEN TO MAJ.-GEN. MURRAY

He Has Been Appointed Chief of the Imperial General Staff.

LONDON, Oct. 6.—Major-Gen. Sir Archibald James Murray has been appointed chief of the imperial general staff at army headquarters in London, according to The Times.

Major-Gen. Murray was succeeded as chief of the general staff in March last by Major-Gen. Sir William R. Robertson. He had already established a reputation for gallantry in the present field Marshal French in official reports. He was inspector of infantry from 1912 to 1914.

BUSINESS PICKING UP ACCORDING TO FIGURES

Four Days' Receipts at Toronto Customs House Show Increase Over Year Ago.

Business is picking up and a more cheerful feeling exists among city merchants, especially those in the retail business.

Perhaps one of the best evidences of the turn in commercial affairs is the receipts of the Toronto customs house, which for the first five days of this month were \$110,000, or fifty per cent. above those of the same four days a year ago.

The unemployment situation in the city has also greatly improved by reason of the \$6,000 men who have entered the front.

NEW UNION STATION PLANS SUBMITTED

Cost Exceeds the Three Millions Provided in First Estimate.

PERMIT APPLIED FOR

Building Will Be More Than Big Enough to Cope With Present Conditions.

Plans for the new Union Station were submitted to the city architect yesterday by the Toronto Terminal Co., with a request for a permit to go on with the work. The expenditure provided for \$3,340,000, although the original estimate was only \$2,000,000.

The Dominion Railway Board has approved of the plans, which provide for a station larger than that called for by present conditions, and of sufficient capacity to adequately care for the traffic at holiday seasons. The ticket lobby will be 90 feet wide and 250 feet long. It will contain an information bureau and 20 ticket offices, while at one end will be a restaurant, and at the other a waiting room. Access from the ticket offices will be by a 40-foot entrance to the train waiting room, beneath the tracks, which will be 100 by 200 feet. The trains will be reached by stairs on either side. Immigrants will be able to pass thru the station without using the public portion of the building. In outward appearance the building will be plain, but will be designed along the lines of Roman architecture. The viaduct and approaches are estimated to cost approximately \$12,000,000.

Will Press Appeal.

At a private session yesterday the board of control discussed the street railway situation on North Yonge street. Aid. Ball was present to urge the adoption of his resolution, presented at the last council meeting, proposing that the city lay down tracks from the C. P. R. crossing to Farham avenue, and lease the same to the Toronto Railway Co. The board, however, did not think that it would be good business to do this at the present time, and the council meeting decision to carry the matter to the city council. Every effort will be made to pass the appeal brought on in November, so that there will be a little delay as possible.

The question of caring for feeble-minded children was also considered, but no announcement was made as to the board's decision.

Following a conference between Aid. Maguire, City Solicitor Johnston and the city architect yesterday, it was decided to send a recommendation to the property committees that applications for permits for garages, stables and manure pits be sanctioned by the committees before permit is issued.

Building Is Active.

Application for building permits average about 25 daily. The amount of money involved in most cases is not large, but if they keep coming at this rate, the month's business will be satisfactory.

It is the intention of the city to go on with the Mount Pleasant roadway, the money for it having been paid into court.

During September the civic labor bureau placed 1145 men. The bureau was notified of 363 vacancies, and of the total 415 men were sent out of the city.

Aid. Gibbons, who has just returned from the labor convention in Vancouver, says that he is still of the opinion that a fireman should be head of the fire department. There was a rumor while the alderman was away that he might support Col. Langton, but his statement of yesterday puts the quietus on this.

The hearing of ward three assessments will commence on Monday.

Property of the Toronto Electric Light Co. in ward three is valued at \$1,656,250 in the 1916 assessment, against which an appeal has been entered against an assessment of \$15,000 on Commerce against \$88,000 assessment of William J. McCartney, accountant in the works department at the city hall, Tuesday, after having been 22 years in the service of the city. He was a member of the Bond Street Congregational Church, a member of the Sons of England and of A.M. The funeral will take place on Friday.

Returned soldiers to the number of 33 have registered with the city clerk. Of these, Property Commissioner

LATE GEORGE GOULLOCK BURIED.

The funeral of the late George Goullock, who died at his residence, 145 Jameson avenue, last Monday, took place yesterday. Following a short service at the house, the remains were taken to St. Mark's Church, Cowan avenue, where the funeral service was read by Archbishop Inglis, assisted by Rev. W. L. Armitage. The interment took place at the Forest Lawn Mausoleum.

THREE SENTENCED FOR MONTH.

Ralph Kaufman, Percy Danby and David Coib sent down.

Quite a thrill went thru the court room following the sentencing of Ralph Kaufman, Percy Danby and David Coib to one month's imprisonment. In the sessions yesterday, by Judge Winchester, Coib's mother, who had been seated at the rear of the court room, rushed forward and pleaded pathetically for her son, who with Danby, was charged with receiving stolen whiskey from Kaufman. The three were employees at the Hotel Beck, from where the whiskey was taken.

NO BILLS FOUND.

In the sessions yesterday no bills were returned in the case of Jacob Greiter, charged with fraudulently obtaining \$120 from Charles Gilber and Sydney Hook, who was charged with obtaining two planes and other property valued at \$6000 from Martin Wine.

POSTPONED SENTENCE.

Judge Winchester in the sessions yesterday postponed sentence on James Hacking to give him the opportunity to make restitution of \$50 obtained as a result from a fellow workman. Sentence of finding the man a position. For sealing a bag of oats Michael Heffren was sent down for ten days.

RIDDELL AND GORDON WILL HANDLE ROSEDALE OPENER

Montreal Men for Argonaut-Tiger Game—T.R. & A.A. Pick Team for Hamilton—Tigers Make Some Changes—Rugby News and Gossip.

Tommy Ridgell and Hammy Gordon of Montreal have been appointed to handle the Argonaut-Tiger game at Rosedale on Saturday.

The Argos had their biggest and probably the best practice of the season last evening at Rosedale field.

The Argonauts should have the best intermediate team they have had in years.

The Argonaut members and those who have been on the list of season ticket holders in past seasons are requested to call and secure their tickets at the office of the secretary, J. J. Dolan.

Hamilton Herald: Hamilton Rowing Club's attempt to get the game with T.R. & A.A. on Saturday has failed.

Eddie O'Leary, an inside wing from Ottawa College, turned out with T.R. & A.A. last night and will play against the Argos on Saturday.

Hamilton Herald: Tigers have changed their plans. They had intended to play Harry Glasford's team at Rosedale.

There will be no special train from Hamilton to Toronto for the Argos game as in past years, but there will be a P. R. train.

AN ADVANTAGE That Your Grandfather Never Had

When he was young the matter of new clothes meant a limited choice in materials---a period of waiting and an utter dependence on the tailors for fit and style. NOW-A-DAYS you have an unlimited choice of fabrics and the satisfaction of seeing yourself "IN YOUR CLOTHES BEFORE YOU BUY THEM."

PRICES compare more than favorably with those that your grandfather paid for his clothes. Today has been planned for Men and Boys to help them in preparation for Thanksgiving holidays.

WE ARE PREPARED TO SERVE YOU BETTER THAN EVER BEFORE
