Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

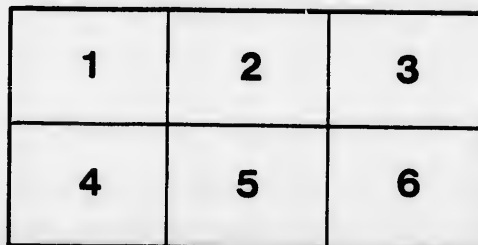

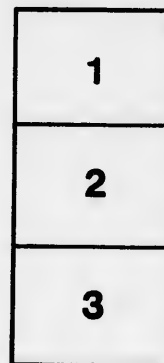

Législature du Québec
Québec

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Législature du Québec
Québec

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TARIFF.

*FOR DISTRIBUTION ONLY IN SECTION 1, ONTARIO AND
QUEBEC, AND NOT FOR THE GUIDANCE OF OFFICES.*

MAY 2ND, 1898.

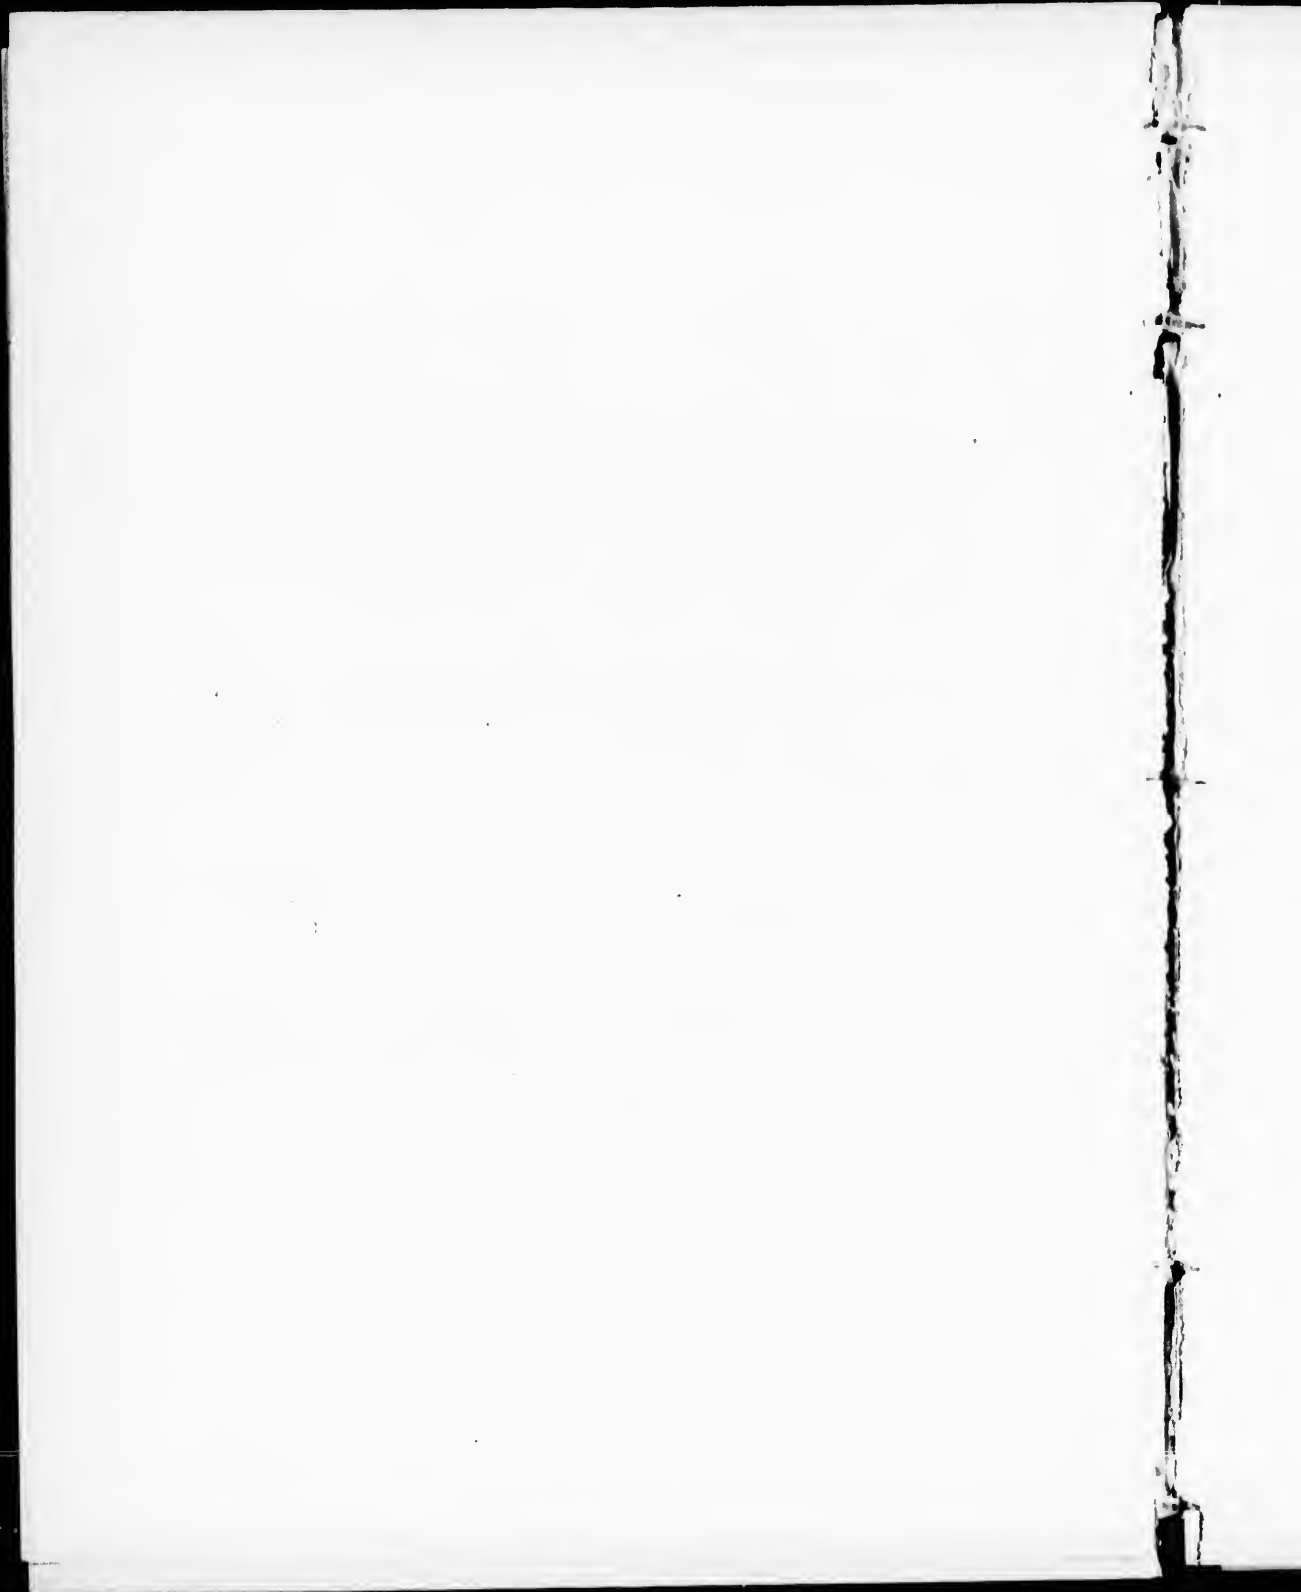

THE CANADIAN PACIFIC RAILWAY COMPANY'S TELEGRAPH, through the POSTAL TELEGRAPH CABLE COMPANY, has DIRECT CONNECTION with all points in the UNITED STATES. A list of offices in the United States is not given as it would make this pamphlet too bulky. Rates will be found on pages 25 and 26.

BY DIRECT COMMUNICATION with the deep sea cables of The COMMERCIAL CABLE COMPANY at Oanso, N.S., the BEST and QUIKKEST SERVICE is given to Cablegrams for all parts of the World. For Cable Rates see pages 27 to 34.

Connection is made at Halifax with the BERMUDA Cable, for BERMUDA and the WEST INDIES and at NEW YORK with the UNITED STATES & HAITI Cables.

Points at which there is no Telegraph Office, but can be reached by Telephone, are included in the following list. The rate given includes the Telephone charges from the nearest Telegraph Office.

RATES FOR CABLEGRAMS.

Rules and Regulations.

Cablegrams may be written in *plain* language, *code* language, or *cipher* language.

Abbreviated and misspelled words, illegitimate compound words, words combined in a manner contrary to the usage of a language, groups of letters (not trade marks or marks of commerce) are forbidden.

Words joined by a hyphen or separated by an apostrophe are counted as so many separate words.

Plain language is that which offers an intelligible sense in one or several of the languages authorized for international telegraphic correspondence.

By cablegrams in plain language is understood those which are written entirely in plain language.

In cablegrams written entirely in plain language, the maximum length of a chargeable word is fixed at *fifteen characters*. Words of more than fifteen characters are charged at the rate of one word for every fifteen characters or fraction thereof.

Code telegrams must contain only words of ten characters at most, taken from standard dictionaries of the English, French, German, Italian, Dutch, Portuguese, Spanish and Latin languages, or from the Official Vocabulary.

Each telegram may contain words taken from all the above-mentioned sources.

In messages going via "Eastern," "Great Northern," "Indo" or "Direct Spanish," code words of more than ten letters must be counted and charged at cipher rate, viz.: five letters to a word and mentioned in the check.

Proper names of persons and places in the text or body of code cablegrams will be counted and charged for as cipher words, when not used in their natural sense.

Cipher language is composed of figures or of figures and words. Letters or groups of letters other than trade marks and marks of commerce are prohibited, except in Government cablegrams.

Count the figures in each uninterrupted series, at the rate of five, or fraction of five, as one word.

Letters employed as commercial signs or trade marks, are charged at the rate of one word for every group of five letters or fraction thereof.

In commercial signs and trade marks formed of letters and figures, the letters and figures must be counted separately. Example: A5C counts three words.

In cablegrams written in plain language and cipher language, the words in the passages in plain language are charged at the rate of one word for every fifteen characters or fraction thereof; and the groups in the passages in cipher language at the rate of one word for every five figures or fraction thereof.

In cablegrams written in plain language, code language and cipher language, the words in the passages in plain language and code language are charged at the rate of one word for every ten characters or fraction thereof; and the groups in the passages in cipher language at the rate of one word for every five figures or fraction thereof.

Every *separate* figure, letter, initial or underline must be counted and charged for as one word.

Numbers expressed in words, written so that each number or group of numbers forms one continuous word, may be counted and charged for at the rate of ten or fifteen letters, or fraction of ten or fifteen letters to a word.

Signs of punctuation, hyphens and fresh paragraphs are not counted or sent.

Parenthesis, the two signs thereof, are counted as one word. Inverted commas or quotation marks, the signs before and after a word or phrase, are counted together as one word.

The reply to a message can be prepaid, but the prepayment cannot exceed the tariff of an ordinary telegram of thirty words. The amount deposited for the reply is paid out to the addressee.

Every message exchanged between two stations at the request of the receiver or sender, to rectify or complete a message already transmitted, or in course of transmission, will be charged at full rates.

Charges collected for *Rectifying* Telegrams will be refunded if it be found that the Telegraph service has been at fault.

No claims for rectifications obtained direct between sender and receiver will be entertained.

All important telegrams should be repeated. One-quarter of the regular rate is charged for the repetition.

The terms and conditions upon which messages are accepted by the Company should be carefully read by the sender or his representative.
