

Fully styled cloths are an apology to your friends. They make you look like a failure whether or not you are one. They keep you out of society in which smart cloths would gain you the entry.

HICKEY & PASCOE

Clothes For Young Gentlemen

have a purpose in life. It is to start you in the right path and steer you to success. Say what you will, perfect-fitting cloths, tailored with extreme care and styled a minute ahead, will gain you recognition and enable you to reach the goal of your desire.

FALL SUITS \$10 to \$25
OVERCOATS \$10 to \$35

"UNKNOWN CAUSES"

Jury's Verdict in Case of Woman Killed by a Fall.

That Mrs. Katharine Dymont, the woman who died after a fall from a window of the Franklin Bros. Factory, Eastern avenue, died "from unknown causes," was the verdict returned by a jury under Coroner Glendon at the morgue last night. Mrs. Mary Hobbs and Miss Katharine Sherwood saw the woman on an adjoining roof outside the window, which was being cleaned, a short time before she was found lying injured on the ground. According to the post mortem examination, death was due to a fracture of the skull and shock.

CHARGED WITH THEFT.

Daniel Moulton, a checker employed by the Inland Lake Co., was arrested last night by Detective Mitchell for alleged theft of various articles belonging to the Inland Lake Co. He was in one of their offices at the Bay front and is said to have taken articles from employees.

Aldermen Gling to Jobs.
KINGSTON, Sept. 24.—(Special).—The city council voted down, by a vote of 11 to 9, a motion to cut down the number of members of council from 21 to 14 and the term of aldermen from three to two years. The council will co-operate with the board of trade in an endeavor to have the Canadian Pacific Canadian Northern and Grand Trunk erect a union station in the city.

ANOTHER FOR JOE PATCHEN II

Captures Rich Stake at Columbus — Braden Direct Also a Winner.

COLUMBUS, O., Sept. 24.—Joe Patchen II. and Braden Direct came up to public expectations this afternoon when they won the racing stakes that were the richest events on the program at Columbus Grand Circuit meeting. Over a spongy track each went a third heat in 1:09 1/2.

Joe Patchen II. captured the Hotel Hartman Stake, his share being \$300, away from Wydrad, a four-year-old that is owned in Columbus. At no time was the winner in trouble. Wydrad made a bad break in the middle heat and finished last. He and Grand Opera took Joe Patchen to the half of the final heat in 1:09 1/2.

Back of Braden Direct, winner of the board of trade, with two heats better than 2:05, there was a sharp contest for the place. Longworth B. landed it, while Knight Owardo, by finishing second in the third heat, was the winning reinman in the 2:05 trot. Echomore was considered as having a better chance, but never showed. When the 2:05 pacers, fourteen of them, came out, the largest field of the Grand Circuit season, was together. Bessie Bee, was the favorite. The two heats raced before sundown went to Carna G., with Bessie Bee second in the last one. Summaries:

Board of Trade Stake, 2:05 pace, 3 in 5.
Joe Patchen II., b.h. (Egan)..... 1 1 1

TUESDAY MORNING, SEPT. 24, 1912

THE TEN PER CENT. CLAUSE

We have frequently spoken in praise of the great fight put up by The Winnipeg Free Press against extortionate and discriminatory freight rates in Western Canada. The Free Press feels instinctively that the question of the C. P. R. is inextricably entwined with the question of freight rates and has presented many reasons why the government should not license the proposed melon cutting, and why the great land holdings of the railway company, held in trust for railway purposes, should not be reserved as a melon patch for the private profit of the stockholders, but it has echoed with approval the dictum of Sir Thomas Shaughnessy that the "10 per cent. clause is obsolete."

Now this 10 per cent. clause in the contract between the Government of Canada and the Canadian Pacific Railway Company practically gives over to the disposition of parliament all net earnings of the company from all sources in excess of 10 p.m. That is to say, there is a partnership between Canada and the Canadian Pacific toward which partnership it may be observed in passing, that Canada contributed about all the capital, including some 25,000,000 acres of land. The company would now be glad to consider the bargain obsolete, even tho it had to submit its rates to regulation by the railway commission. Such regulation to date has not accomplished a great deal in the way of rate reduction. The commission has had its time largely engrossed with cases between different railways and between railways and municipalities, and cases involving the operation of the railways, rate regulation on a big scale has not been suggested except in the present enquiry into western freight rates.

Parliament should keep its grip on the Canadian Pacific Railway Company; the rates of that company should be fixed in the light of the 10 per cent. clause. The railway commission is hardly in a position to deal completely with the C. P. R., and in any event the railway commission can only pass upon the reasonableness of rates as measured by the value of the service rendered and can not enquire into the capital invested or profits made except as collateral to the main question of the value of the service.

In short, for parliament to waive its rights under the contract merely because the railway company is willing to submit its tariff of tolls to the railway commission would be a shortsighted betrayal of the public interest. Parliament today has not only the power thru the railway commission or otherwise to require that the Canadian Pacific Railway Company, in common with all other carriers, refrain from discrimination and extortion, but it has the contractual right to supervise the affairs of that company, and to claim a share in its profits; indeed to claim all profits over 10 per cent.—by requiring that the service of the company to the people shall be better and cheaper. And this too, without any regard to what policy may be pursued in the case of other railway companies. May we hear no more of this 10 per cent. clause being obsolete.

DEVELOPMENTS OF THE TRIPLE ENTENTE.

Notwithstanding the dislike loudly expressed by the Radical wing of the Liberal party to the Russo-British entente, it is evident that the Asquith government has no intention of disturbing it. The recent naval convention between France and Russia and the very large appropriation to be devoted to the reconstruction of the Russian navy, has been followed by the concentration of French naval power in the Mediterranean. This has been everywhere accepted as evidence that the British, French and Russian Governments have confirmed their understanding with regard to a united world policy.

The appearance of a powerful Russian fleet in the Baltic will necessitate a division of the German fleet between that sea and the German Ocean and correspondingly increase the superiority of the British North Sea fleet. On the other hand the acceptance by France of responsibility for the security of the Mediterranean route enables the United Kingdom to concentrate its naval strength within the home seas. The new alignment opens the way for the overseas dominions to render effective assistance to the motherland.

EQUITABLE ASSESSMENT.

The Telegram will need a new pair of spectacles to discover anywhere in The World its alleged quotation about

a dollar in the clothes of the citizen not being so valuable as a dollar in the pocket of the tax collector. The World said that some people think one dollar of theirs is worth two dollars of another man's, and they like to have the other man pay his dollar. The tax rate would be lower if all the taxpayers were paying according to their ability. When the small man is paying on a valuation ranging from 50 to 125 per cent, and the big man on a valuation of from 40 to 50 per cent, whose dollar is worth the most? And whose dollar should be in his clothes or in the city's coffers?

We are all in favor of a low tax rate. To get it, we need an equitable assessment, and efficient city hall government. We have neither the one thing nor the other. The Telegram can hardly hold The World accountable, and in any case it does no good to misrepresent.

There is some hope of seeing a slightly more equitable assessment this year, raising the valuation of central property to a point where the revenue will be substantially increased. But the increase will not be drawn from those who already are paying their full share of taxation.

NAVAL AND OTHER ISSUES

"The shouting and the tumult die, the captain and the king's apparel"—and Canada's naval policy is to be announced to parliament in November. The World would have had it announced to parliament in a special session or fall session. Further drawbacks may therefore be delayed until then!

But what comes out so far is that the British feelings of the Canadian people have been pent up for years, now, because, first, of the equivocal policy of the Laurier government and the opposition; and next, the party squabbles over Canada's action to be taken. It is in the hope of getting something done by Canada that the people have started shouting and acclaiming Mr. Borden on his return from his conference in England in regard to naval defence. The political leaders and followers on both sides are being carried into a patriotic program by their people. It is not the conference in England or the debates past or to come that will make the policy—it will come from the hearts of the masses.

We have spent too much time, now, on this question: many domestic issues of great concern are pressing for attention, and these are the real politics of Canada.

RADIAL FRANCHISES

In the changes that have been going on at the city hall in the legal department, at least one important matter was found to have been overlooked. We trust that no reminder is necessary to maintain the official vigilance necessary to secure the city rights in the expiring franchises of the various radial roads within the city limits.

The Kingston road franchisees are all on the point of expiry, the Township of York portion, which is renewable, having expired on Aug. 18. The county franchise, the East Toronto franchise and the Scarborough franchise expire on Nov. 18. Not a foot of the Township of York franchise is being used except the 400 feet from Oak avenue to Munro Park. The World has several times pointed out the necessity of looking sharp after these franchises. Those which are merely being held in abeyance should be canceled or redeemed, and whatever rights the city may have should be recovered or protected in the other cases.

GLEN STEWART IDEAL PARK.

It is to be hoped that Senator Cox may be able to meet the wishes of the city in the matter of devoting Glen Stewart to park purposes. There is understood to be a difference of \$100,000 in the values respectively put upon the property by the senator and the city, but we trust this may be bridged over. The senator can afford to be generous to his fellow-citizens, and while it is not expected that he should follow the example of the late Hon. G. W. Allan, or the late Mr. Howard, he might perhaps be able to accept some compromise in price.

And the city should be able to get Senator Cox to accept the city bonds for whatever price may be arranged. The senator is not in need of ready money, and Toronto bonds are just as good to him as cash. The best end would be a park and there can be no mistake in acquiring the Glen Stewart property.

Some proposals have been made about purchasing the Munro Park ravines, but this should not be encouraged by anyone at the city hall, if it means the abandonment of the Glen Stewart proposal. So far as the east end is concerned, Glen Stewart is the ideal location, and will afford a fine large area such as is needed, and the city owes the east end such an addition to the park and boulevard system which is being laid out around Toronto.

If the British Parliament refuses to recognize the citizenship of men naturalized in Canada, Australia or South Africa, how would it be to refuse the rights of citizenship to British immigrants to these countries?

Dr. George M. Niles has invented a new form of insanity which he calls strophobia. If you shy at any form of diet you are suffering from a mild form of delusion, the result of "a digestive phantasm." If you object to eat dog or horse or leeks, or stick at buttermilk or bay water, consult Dr. Niles.

CAN HE "CAN" THE WATCH DOG?

G.T.R. MAY REVIVE LAKE FRONT ENTRANCE

Line Along Shore at Beaches and Below Bluffs Talked of—Broad Boulevard and Sea Wall Would Be Built—Radial May Be Buying Up Property.

In connection with the discussion of railway activity down the way of the Beaches and the east end of the city, it is rumored that the York Radial is trying to buy a right of way into the city to take the place of the Kingston road entrance, the franchise of which expires within a few weeks.

The talk is also revived that the Grand Trunk may be moved to avoid its Scarborough grade and get out of Toronto under the Scarborough bluffs by a line along the waterfront and behind a big breakwater right up to Port Union, where the track level is twenty feet above Lake Ontario.

Such an improvement, it made by the Grand Trunk would save 15 minutes in the time of every express between Toronto and Montreal, and would be a great saving in coal as well, and would be right on a line with the elevated tracks on the Esplanade. But to make this improvement would cost at least two million dollars, and it would greatly irritate the public who have settled at the beaches east of the Woodbine track.

An engineer of eminent ability, however, has said that it would be possible to build a breakwater and a sea wall along the beaches and along the bluffs that would greatly enhance the value of the cottages and give a driveway and sea wall as attractive as anything that could be made out of the Humber Bay by a similar sea wall.

This is a matter of adjustment between the various parties and the net result would be an enormous increase in the value of the property and the creation of a great public driveway and pleasure promenade.

RUSSELL SUIT REOPENS

Undue Activity by Pinkertons, is Alleged by Counsel.

MONTREAL, Sept. 24.—(Can. Press).—That counsel for David Russell, in the famous case against the Pinkertons, base their case to a great extent on the discrediting of evidence submitted by Manager McNamara of the local agency, as well as on the contention that the Pinkertons actively interested themselves in the fate of David Russell long after the latter had dismissed them, was shown in the course of the hearing, which opened in the court of appeals today. Donald McMaster, K.C., for the appellant, and Alme Geoffrey, K.C., for the respondent, agency, took up the whole of the afternoon session in the presentation of their arguments.

The hearing will be continued tomorrow.

SILVER SCISSORS

We have them for manufacture, buttonhole, paper and embroidery. They have fine steel blades and handsome silver handles. Prices run from \$1 to \$5.

WANLESS & CO.

Toronto's Oldest Jewellers
402 Yonge St. - Toronto

Got Permission for Spur

Cy. Warman of the Grand Trunk Railway, yesterday wired The World from Montreal, stating that the despatch from Whittby, in which it was said that the Grand Trunk Railway Company was building a spur without the permission of the railway board, was incorrect. The railway company, the wire stated, received permission to build the spur from the Dominion Railway Board on Sept. 12 last.

RAILWAY LINES THRU SCARBORO

Electric Road May Come Along Kingston Road—C. P. and C. N. R. to Joint Eastern Tracks.

The latest reports point to the Toronto and Eastern (Bowmanville-Toronto trolley) keeping on alongside the south side of the Kingston road from Pickering to West Hill in Scarborough, where it could join the York and Scarborough radial and over that line to the city. It is also said that the Canadian Northern are inclined to join their Montreal-Toronto line with the C. P. R. from Cherrywood (lake front line) to Agincourt, making the two single tracks now built or building into one joint double track system; and also to join from Agincourt to Leaside by double tracks over the present C. P. R. single line from Agincourt to Leaside. These two lines would be joint from Cherrywood to West Toronto via Leaside and thru the new Union Station on Yonge street.

EXPENSIVE ECONOMIZING.

Montreal Star: Toronto is willing to pay \$15,000 a year to get the right kind of a lawyer to act as corporation counsel. Up to the present none of the lawyers on the city's list have been willing to accept for less than \$25,000. The matter rests with the probability that, if it comes down to a plain issue of paying more money or being satisfied with a lawyer whose ability to fill the position is not fairly assured, the salary will be increased.

A. J. as a matter-of-fact, common-sense business, neither Toronto nor Montreal can any more afford to economize by putting it in the hands of a second-rate lawyer at a second-rate salary than any of the great corporations could who are perpetually fighting with both of these cities for franchise rights and special privileges, and usually getting the better of the bargain. There are plenty of men in Toronto who would jump at the chance to take over the responsibilities of the position of corporation counsel for a salary of \$15,000. There are just as many here in Montreal who are willing to act as this city's chief legal adviser for five or six thousand dollars a year. What we need to bear in mind even more seriously than the people of Toronto is that Montreal needs now, and is going to continue to need, urgently and imperatively, not the advice of a lawyer who is worth a \$6000 salary, but that of one who can match his wits with a fair chance of success against the shrewdest and cleverest lawyers of Canada. It is not very brilliant financing to pay eight or ten thousand dollars a year in legal fees at the price of being outwitted out of hundreds of times this amount of our civic assets.

LINDSAY ENCOURAGES INDUSTRY

LINDSAY, Sept. 24.—(Special).—Lindsay taxpayers today, by a majority of 511, voted to loan \$12,000 to the Fitzsimmon Automobile Co., to grant a free site and exemption from taxes.

YES, IT WILL BE TEDDY!

Vancouver News-Advertiser: There is one Canadian journal which has steadily declared that Col. Roosevelt will be the next President of the United States. W. M. McLean's Toronto World is still confident in Progressive success.

NORTH ROSEDALE NEEDS NEW BRIDGES

Old Belt Line and Reservoir Ravines Cut Off Connection With Yonge Street—Double-Deck Bridges Built by Railways and City Would Be Solution of Problems.

The Civic Guild in a general way and the residents of Rosedale north of the tracks in particular are trying to find the solution of the problem of bridging the Reservoir and Belt Line ravines, both of which interfere with the movement of traffic and prevent any outlet north of the tracks and east of Yonge street.

The fact that the Canadian Northern and the Canadian Pacific are elevating their tracks as far east as St. Andrew's College and are arranging for a joint system with new bridges over both of these ravines, and that they are now drawing their plans to this end, has brought forth a number of propositions of co-operation as between the city and the railways. One proposition is to bridge both ravines immediately alongside and south of the two railway bridges, but what seems a better proposal in some respects is to induce the railways to build double-deck viaducts over both ravines and to give the lower deck to public traffic, but will also prevent—and this is the greatest object in view—vehicles and passengers having to cross the tracks (and being therefore subject to ever-lasting danger of accident) when once over.

One of the troubles of a double-deck character is to apportion the expense, but there ought to be a way of reaching a settlement in this respect. It will certainly be in the interests of the railways if they can get rid of the danger of four crossings on the level.

The Belt Line span would be a long one, but it would be a level one, but will serve the greatest number of people and will make living connection with the New Rosedale that is to be on the hill and the one now built up underneath it; it will also lead out to the great northern diagonal that is to run from the head of Bayview avenue to Leaside.

CATES FOUND GUILTY

Secured \$200 From Toronto People by False Pretences.

George B. Cates was found guilty by a jury in the sessions yesterday, of the charge of securing money under false pretences. Cates had interested Mr. and Mrs. George B. Thomas in a "get rich quick" scheme, which took the form of a business to be carried on under the name of Artificial Ice and Distilled Water Company. Cates had talked of purchasing the machinery from the A. R. Williams Co. of Toronto, and eventually had got Mr. and Mrs. Thomas to invest in \$200 worth of stock. It turned out, however, that the company had no property on the lake shore and neither had any order for machinery been placed with the Williams Company. Consequently the charge was laid.

ULSTER REVOLT JUST BUNKUM

London Chronicle's Correspondent Goes to Limit of Satire in Describing "Unionist Circus."

NEW YORK, Sept. 24.—(Can. Press).—A special cable from London this morning says: "The Daily Chronicle's special correspondent, who is accompanying the Unionist leaders in their anti-home rule campaign in Ulster, thus refers to the 'performance of the Unionist circus'."

"The performances, of course, are not meant for the benefit of the Irish people. They are organized for the purpose of intimidating the government and misleading the British electorate. Not a single vote in Ulster has been turned or would be turned if the performances went on until Christmas."

"There will be no fighting. Khaki uniforms and dummy rifles have frightened nobody. These God-fearing loyalists never fight unless they are at least five to one and the enemy are unarmed. All these threats about resistance, all this talk about 'dying in the last ditch in defence of our liberties,' are the sheerest bunkum."

"The astute lawyers who are running this movement have no more intention of injuring their finger-ends by picking oakum in his majesty's jails than they have of exposing their bodies to the bayonets of his majesty's soldiers."

Belleville Jail Didn't Hold Him

Young Texan, Given Five Years' Sentence for Burglary, Makes Good His Escape.

BELLEVILLE, Sept. 24.—(Special).—Frank Smith, who was an inmate of the county jail here, made good his escape this morning by the aid of a long bench and a rope made of his bed-clothing. He succeeded in getting over the 18 foot wall which surrounds the jail building whilst alone in the yard for a few minutes.

On Saturday last Smith was sentenced to five years in the penitentiary for burglarizing a music store in this city, and was to have been taken to Kingston today. He is a young man and claims Texas as his home.

No trace of the fugitive has been found.

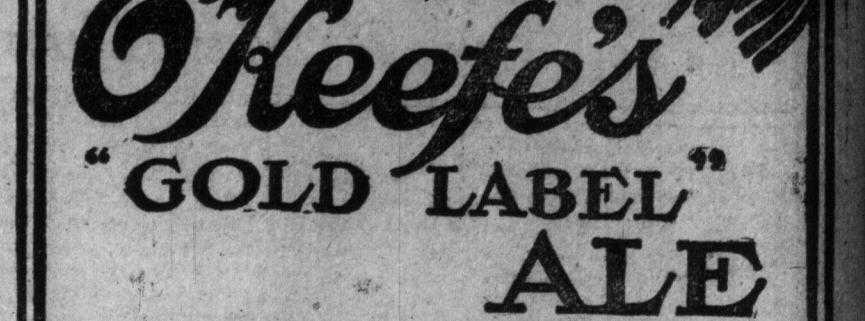

War With Turkey Would Be Futile

Great Britain, France and Russia Trying to Discourage Serbia's Warlike Designs.

BELGRADE, Serbia, Sept. 24.—(Can. Press).—No benefit could be obtained by the Balkan nations thru a war with Turkey, according to a declaration made to have been made by the diplomatic representatives of Great Britain, France and Russia during a call at the Serbian foreign office today. The statement is the authority for the report of the foreign diplomat's action, and it adds that the three powers at the same time expressed their intention of inducing Turkey to introduce early reforms in Macedonia.

In spite of official denials that there is any prospect of hostilities, the Serbian war office continues to purchase large quantities of food supplies.

POWERS UNITE TO PREVENT WAR.

VIENNA, Sept. 24.—(Can. Press.)—The Balkan situation has aroused the deepest interests in Austria. Emperor Francis Joseph has suggested an exchange of views between the powers on the important questions now at issue with respect to these states, and Count Leopold von Berchtold, the Austrian foreign minister in a statement to the foreign affairs committee of the Hungarian delegation today made reference to the suggestion he has submitted to the powers for this exchange. He said that the result was the unanimous co-operation of the powers and a pledge for the prevention of a violent solution of the Balkan crisis. The minister added:

"It would, however, be a serious mistake if by pledge we regarded the danger of the present trouble as being averted."

BURGLARY

Follett & Cox's Jewelry Store
Near Yonge and Bloor
Broken Into and Quantity of Jewelry Taken.

Shortly after two o'clock this morning, constables on the Yonge street beat, near Bloor, discovered that the jewelry store at 778 Yonge street, owned by Follett & Cox, had been burglarized, and a large quantity of watches, rings and other jewelry stolen. The burglars gained entrance thru a rear window, and ransacked the store. The police at No. 2 station, in which division the burglary was committed, refused to give any information to The World at half-past two this morning.

Two men committed the burglary. Shortly after 12 o'clock driver No. 21 of the taxicab company, was standing near the corner of Yonge and Bloor with his machine, when two men asked him if his machine was for hire. He replied that it was not, and advised the men to telephone the main office. As they were walking away, they told the driver to come back about 2 o'clock and he would hear of a burglary.

The men came to the corner again about 2 o'clock, and were seen by several people walking on Yonge street. They entered the back door of the store, walked thru and took watches, necklaces and rings from the Yonge street window.

Detectives were on the scene a few minutes after the burglary was discovered, but up to half-past three this morning no arrests had been made.

THE WEATHER

OBSERVATORY, TORONTO, Sept. 24, 1912. A widespread rain area which yesterday covered the Middle Atlantic States has since spread into Ontario and Western Quebec. In the maritime provinces the weather has been fine, with moderate temperatures, while in the west it has been fair and cool, with heavy frosts in most places. Minimum and maximum temperatures: Kamloops, 45-61; Calgary, 44-50; Banff, 32-44; Moose Jaw, 27-41; Regina, 24-44; Winnipeg, 24-44; Port Arthur, 48-60; Sarny Sound, 44-60; London, 53-64; Toronto, 53-60; Kingston, 58-64; Ottawa, 58-64; Montreal, 58-64; Quebec, 54-56; St. John, 45-52; Halifax, 53-61.

—Probabilities—
Lower Lakes and Georgian Bay—Moderate to fresh easterly winds; partly fair, but some local showers; not much change in temperature.

CANADA'S TRADE WILL REACH BILLION MARK

Continued From Page 1.

past season, have convinced me that that tradition is true, and that the present legislative assembly is its direct descendant trimmed and dressed to suit modern conditions.

When referring to the assistance given by the Toronto press the finance minister stated that he received special attention from The Toronto Globe. "Its editors tell me what I am going to do with the Bank Act," he declared, "and what I am going to do before I know myself. It tends me advice daily as to what provisions I should insert into the act. I would appreciate the advice if it were tendered to me on two consecutive days, but on the whole, with regard to the editorial advice of the press, I would advise that it be bottled and shaken before taking a substantial dose every morning."

In Capital's Eye.

"I do not think it is saying too much to assert that there is no other nation receiving the attention of the world than Canada is today," declared Mr. White, assuming a more serious vein. "It is in the eye of capital and of the home seeker. I do not know of any other country in the world in which there are more opportunities for capital and the home seekers than in this Dominion of ours. We have only just begun to realize its possibilities."

"The fisheries of Canada are a wonderful asset," he continued, when specifically dwelling upon each individual source of food supply and industry of the Dominion. "They are so valuable that we have had disputes with our American friends, and yet we are only at the fringe of their development."

Passed the Test.

"Vast tracts of agricultural land have been tried and passed the test. Agriculture is the specific industry of

our country, and it is the farmer whom we rely upon for our national prosperity. While dwelling upon this subject, I am sorry to notice that the rural populations are gravitating towards the urban areas, it is not at all a desirable condition of affairs, and there is no question which has a greater right to the attention of the authorities than measures which will help to stay this migration to the city, and the only way to stay it, is to carry the conveniences of city life to the farm."

"Agriculture has first claim upon the finances of the country," he confessed, when speaking on appropriations, "and I have conveyed this opinion to Hon. Mr. Martin Burrell. We must have good roads, and in passing, I might add, that in this regard I am still hopeful of the rene."

He spoke of his visit to the maritime provinces, and of the wonderful agricultural resources there that remained untapped. The people are alive to the possibilities and it needs a return of the migration, which has depleted its rural population.

What Canada Needs.

"What Canada needs is vast sums to be spent on its transportation facilities," he declared, "not only to assist the farmer to ship his products, but to procure ample returns for the entire price of our business men, whose efforts have caused Canada to rank high in the world of commerce."

"We are past the experimental stage and the time has come for us to be up and doing and to continue to increase the number of railways, shipping companies, open up canals, etc., in order to cope with the increasing output. Great harbors must be improved, both on the Atlantic and Pacific coasts."

"Canada has the best stand between the ocean and orient in the world, and you will see in our time the further advancement of Japan and the awakening of China, which will have a tremendous effect upon our commercial facilities and trade will receive an enormous impetus."

Trade Increase.

"The trade of the Dominion has increased 200 per cent. within the past two years, and will in all probability

reach the billion mark this year. The revenues are buoyant, and I am happy to state that there is corn in Egypt in so far as the Dominion treasury is concerned."

He was also pleased to notice that Canadians were not all narrowing their sphere of activities to self-aggrandizement and the acquisition of great wealth only, that the instinct of the people had turned to a higher educational standing, with the result that Canada is now giving more attention to the needs of the mind.

Continuous Audit.

He believed in a continuous audit of a set of books, and that fraud was hardly possible when a first-class auditor was continually engaged by a firm. "A good audit would have saved the Toronto Bank," he declared, amidst applause, "and a good auditor would have prevented the Farmers' Bank frauds." He brought his address to a close by adjuring the accountants to be fair and broad-minded, because a narrow auditor disturbs business and a too much laxity would encourage bookkeepers to let things go. He also complimented the association on its high standard of efficiency.

Several delegates from other districts gave reports of progress in their respective districts. Hon. W. J. Hanna was also present and responded to a toast.

POLICEMAN ASSAULTED

Michael Finugan Taken Into Custody for the Offence.

Michael Finugan of 143 Pears street, for assaulting Constable Ritchie last night, when he was arresting John Wyman of 15 Regent street, was taken into custody at the corner of Queen and Leslie streets by Constable Elliott of No. 1 station. Finugan was standing nearby when Elliott was about to call No. 1 station to have the wagon come to take Wyman to the station, and, in fact, he was about to be taken to the station.

WALK 2000 MILES IN VAIN

Adventurers Win Bet, But Find Loser Is Dead.

NEW ORLEANS, Sept. 24.—After walking two thousand miles to win a bet, R. Clair Cann and Hawthorne Ellis have arrived in New Orleans, only to experience the disappointment of having the man who took the other end of the game die.

Held up as tramps, train robbers and detectives in disguise, Cann and Ellis have had their fill of thrilling experiences during the last three months. On July 2 they left Toledo, having wagered a neat sum that they could walk from Toledo to New Orleans inside of three months. They have won the bet, but the Ohioan with whom they made it died since they left Toledo, and there is little chance that they will be able to collect the amount from his estate.

Cann and Ellis followed the railroad tracks thru Ohio, Kentucky and Tennessee to Decatur, Ala. From Decatur they took the roads.

PARALYSIS COMPLETELY CURED

"FRUIT-A-LIVES" PERFORMS ANOTHER MIRACLE

BOSTON, N. B., July 25, 1911.—I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. I then took "Fruit-a-lives" for the Constipation and it not only cured me of this terrible trouble, but gradually the fruit medicine toned up the nerves and actually cured the Paralysis. By the use of "Fruit-a-lives" I grew stronger and stronger until all the Paralysis and weakness left me. I am now well again and stand up every day. I say "Thank God for Fruit-a-lives."

ALVA PHILLIPS.
"Fruit-a-lives" not only cured the Constipation, but so toned up the nervous system and the general health as to completely overcome the paralysis. "Fruit-a-lives" is a wonderful medicine.

We box, 6 for \$2.50, trial size, 25c. at dealers or sent direct for price of Fruit-a-lives Limited, Ottawa.

BUSINESS MEN PEACE-MAKERS

Establishment of Close Commercial Relations Means War's Abolition, Sentiment at Trades Congress.

BOSTON, Sept. 24.—(Can. Press.)—Peace as an essential in perfecting international trade relations and peace was dwelt upon today by members of Commerce and Labor Chamber of Commerce, in an address of welcome to visiting delegates to the Fifth International Congress of Chambers of Commerce. "What we want to establish," said Mr. Nagel, "is such a relationship, so intimate commercially, and so intimate socially, that no country party to your congress will permit controversy, because it cannot afford to have it."

In my judgment, results of such congresses as these are far more important than agreements arrived at as a result of diplomatic negotiations. They represent legitimate self-interest. They represent the questions of the world, and are largely industrial. Contraventions that arise will originate from the interest and if you succeed in establishing "rules of the game" that will obtain in your dealings, the main cause of friction and controversy will have been removed."

Calendar Reform.
The international movement to reform the calendar is making excellent progress, said Louis Cannon-LeGrand, who is president of the committee, at the opening of the Fifth International Congress of Chambers of Commerce. M. Cannon-LeGrand, who is president of the committee, is also the head of its permanent committee, made up of the chambers of commerce of Mons, Belgium, and president of the Federation of commercial and industrial associations of that country.

The principal purpose of the new calendar movement, he asserted, was to bring the months more nearly into line with the seasons. He pointed out the need of such a reform from a bank and commercial standpoint.

HERE IS THE CURE FOR YOU

COME TO ME AND YOU WILL GET IT
YOU NEED HELP? Do Not Let False Pride or Modesty Prevent You From Obtaining Relief at Once.

To be strong and manly is the aim of every man, and yet how many we find who are wasting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous, manly young fellows that nature intended them to be, they find themselves broken down and despondent—no ambition to do anything. They struggle aimlessly along, sooner or later to become victims of disease, their finer sensibilities blunted and their nerves shattered. You can talk with the men and women who have been cured by my efforts, and that's worth considering. I might preach for years in my efforts to induce converts to my way of curing disease, and nobody would pay any attention to my arguments. But when I tell you I have cured your neighbor, Mr. Walker, or your old friend, Mr. Williams, and that you can go and ask them, I have given you proof and you know that I can do all that I claim.

Dr. McLaughlin's Electric Belt Cures

Varicose, Rheumatism, Kidney Troubles, Lambs Back, Sciatica, Stomach Troubles, Nervous Debility, Lost Vitality and every indication that you are breaking down physically.

O'Sullivan's Corners, Ont., Aug. 20, 1912.
Dear Sir:—I have worn your Belt for nearly three months for indigestion, and will say that I am well satisfied with the results, as I have not felt it since the first month. I can eat better and I feel better in every way. I do not think I will have any further trouble with it. I feel very grateful for what your Belt has done for me. Wishing you every success, I remain, Yours truly, W. H. HEADLEY.

ENOUGH STORES ON QUEEN ROAD

Property Holders Interested Object to Removing Restrictions on West Side of Street and Present Petition to Board of Control—Fair Wage Officer Appointed.

Protesting against the proposal to remove the residential restrictions from the west side of Avenue Road between Cottenham street and Macpherson avenue, a deputation of interested property holders waited upon the board of control yesterday morning. A petition containing the names of 77 people was presented, which urged that no action be taken by the city as the district was already sufficiently well served with stores. Mayor Geary, however, explained that a report had already been ordered on the situation and hence no action was taken by the board.

In urging that the west side of the street be retained for residential purposes, the deputation claimed that there were plenty of stores south of the C. P. R. tracks now to serve the whole of the district. It was claimed that the residences on the west side of the street were of a first-class character and to alter them in order to convert them into stores would have a detrimental effect on the properties adjoining to the rear, since it would be necessary to erect stables and storehouses at the back of the lots. The activity of the residents on the all in connection with the restrictions was deplored, and the deputation claimed it was most unreasonable to ask that their property should be depreciated in value for the benefit of those residing further north.

North Toronto Annexation.
City Solicitor Johnston stated in a letter to the board that the officials of North Toronto had requested a conference with the city officials to consider the details of the proposed order of annexation. "I presume," stated Mr. Johnston, "the resolution of expediency passed by the city council some months ago still stands as the basis of the city's assent to the annexation to be made unconditionally." The board informed him that his assumption was correct.

Fair Wage Officer.
The city solicitor notified the board that he had appointed Francis A. Edgell as his own department as fair wage officer. Mr. Johnston takes the stand that the new official should not be a man connected with organized labor in order to do justice to his position. A deputation from the District Labor Council, however, took the opposite view of the case and urged the board to appoint a labor man to insure justice regarding the wages paid by the contractors engaged by the city. "There has been the greatest indecision on the part of the board of control in making this appointment," said L. H. Gibbons.

"There has been no indecision at all," replied the mayor, "the matter is out of our hands."

The board maintained their attitude and decided that only the council could make a change.
Apartment House.
J. A. Montgomery headed a deputation of residents near the vicinity of Grenadier road and Keele street, who protested against the city permitting an apartment house to be erected at that corner. This district is residential, according to the bylaw, but the builder received his permit before the bylaw was passed and hence the mayor explained, he was permitted to build according to the decision of the courts. It was decided, however, to get reports from the city architect and

Cured of Shingles and Eczema

Mr. J. H. Kingston

By Cuticura Soap and Ointment. Chest Raw, Bleeding and Itchy.

"I just want to say a good word for Cuticura Soap and Ointment. In November, 1910, I had what the doctors call shingles and eczema. My chest was raw and bleeding and itchy. I was that way all winter. It was not until the summer, in September, it got worse. I had the best doctors treating me, but did me no good, and I was all run down in health. In November, 1910, I got a box of Cuticura Soap. You sent it to me and I got a box of Cuticura Ointment. I have used two boxes and on the third one I have cured me of shingles and eczema. I am delighted with them and do feel pleased to think I have something I have confidence in. Should anyone be suffering as I did, I hope that they will do as I did, and get an cure of the results. I am recommending them from experience." Signed, J. H. Kingston, 7 Ann St., Kingston, Ont., May, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the speediest and most economical treatment for itching, burning, scaly and bleeding skin and scalp troubles of young and old. It is often sufficient. Cuticura Soap and Ointment have cured those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each with full booklet on the skin will be mailed free, on application. Address: The J. C. F. Corp., 26 Columbus Ave., Boston, U. S. A.

the solicitor in order to ascertain whether there was any possibility of preventing the structure being erected.

No More Shooting.
The board decided to introduce a bylaw to stop shooting in Ashbridge's Bay. Numerous complaints have been received of late, and in some cases windows have been broken by stray shots. The chief of police urged that such action be taken, and the board were of the opinion that to prevent the shooting altogether was the only way to stop the nuisance.

Barbers' Bylaw.
According to the city solicitor there was a movement on foot to amend the city's bylaw providing for the early closing of barber shops, and the recommended that the onus of defending the bylaw should be placed upon the barbers themselves. The board, however, believed that the city should uphold its own legislation and gave instructions to the effect.

NORWICH MAN ADMITS ARSON

William Huggins, Who Set Fire to Valuable Marns, Given Twenty-One Months' Sentence.

WOODSTOCK, Sept. 24.—(Special.)—Twenty-one months in the Central Prison was the sentence meted out to William Huggins of Norwich, who was found guilty at the assizes, now in session here before Chief Justice Mulock, of setting fire to the valuable barns of Chauncey Turner of Norwich in July last.

The chief witness for the prosecution was Provincial Detective Miller, who produced a signed confession by the accused.

W. S. Brewster, K.C., of Brantford, who defended Huggins, attempted to offset the evidence by producing witnesses, who swore that the accused was mentally weak and not capable of understanding what he was signing. However, the jury found him guilty, but in doing so presented a strong plea for mercy. This was taken into consideration by the judge in passing sentence.

APPLE PACKING AS AN ART

GALT, Sept. 25.—(Special.)—Waterloo County, holding first place for size and extent of farmers' institutes, signified again the practical character of its work by holding an apple packing demonstration at E. B. Hallman's farm, New Dundee, Friday. It is the first demonstration of the kind. Apples will be packed in barrels and boxes, graded and marked, and the business of marketing discussed. Leslie Smith of Wellington, an expert packer, will give an address.

WATERLOO CROPS RUINED

GALT, Sept. 24.—(Special.)—Continued heavy weather has practically ruined the root crops, potatoes, carrots, celeriac and celery in various sections of the Waterloo district, where a specialty is made of such crops. A vegetable famine is being feared. Oats, barley and hay are also extensively damaged.

Horse Thief Has a Record

GALT, Sept. 24.—(Special.)—Alexander Hammer, alias Arthur Johnston, Chicago, now in the toils at London for the theft of a second-hand dollar team, is well known to the police of Galt, and especially Chief Gorman, who arrested him here in 1904 for sheep and cattle stealing.

Hammer, alias Jones, was sent down by Magistrate Black for seven years since his release Chief Gorman has been waiting for Hammer to come back and make good his threat to have his heart's blood when he got out.

Sixty-Five Cents to Oakville and Return

Sept. 25 to 27. From Toronto.
The Grand Trunk Railway will issue round trip tickets at rate of 65 cents, good going p. m. trains September 25, and all trains September 26 and 27, account of Oakville Fall, September 26, and 27. All tickets are valid returning Saturday, September 28. Secure tickets at city ticket office, northwest corner King and Yonge streets. Phone Main 4208.

Thorlakhavn, the best natural harbor on the south coast of Iceland, has been acquired by a French company, along with neighboring water-front, yielding about 200,000 horsepower, and a plant will be erected at this place for manufacturing artificial saltpeter by the utilization of atmospheric nitrogen, according to the Birkeland-Eyde process.

Heavy Buying Orders for Swastika Mining Market Sags

BAD WEATHER IN WEST WHEAT UP A FRACTION

Increase in Local Stocks, Liberal Receipts and Amount of Low Grade Grain Selling at Low Prices Discouraging Features For Buyers.

CHICAGO, Sept. 24.—Wheatings that threatening northwest would be seriously delayed by stormy weather brought about a support for wheat today, but no enthusiasm. The market closed nervous at an advance of 1/4 to 1/2 cent. Late, trading left corn varying from 1/4 off to 1/2 up, oats with a gain of 1/4 to 1/2 cent, and provisions ranging from last night's level to 1/2 cent above.

Show, rain and cold in the spring crop belt, a troublesome outlook for the wheat harvest, even the primary receipts were on a huge scale, and notwithstanding a decided expansion of the world's available supply total. The slowness of cash demand, however, and especially the absence of any export, kept non-professional speculators from exhibiting confidence in a material advance.

Shipments Exceeded Receipts.

A sustaining influence was that shipments of wheat and flour from Minneapolis and Duluth were larger than the receipts of wheat. On the other hand, free selling from commission houses could be noticed on all the grain spots.

Predictions of continued cold, with rain or snow, made corn firm for the active market. Considerable attention, too, was given to reports that Northwest Missouri, usually a banner district, was promising only an average crop. Cash grades were steady.

Oats developed strength, owing to the bullish influence of corn. The volume of business was light.

In provisions the main factor was the weakness of hog receipts here and west.

Primaries.

Wheat—	Sept. 24	Sept. 23	Sept. 22	Sept. 21	Sept. 20
Hard	2.17 1/2	2.16 1/2	2.15 1/2	2.14 1/2	2.13 1/2

TOR. RAILS UP PAPER LISTED MARKET FIRM

Rio and Sao Paulo Holders Slow
in Taking Profits From Mer-
ger—Brazilians Sold Point
Higher—Parent Securities
Quiet—Belated Harvesting
Eases Money Situation.

There was a generally all round firm
movement to the Toronto Stock Market
yesterday, and where the demand was
strongly in evidence, the weights
were assumed a buoyant attitude.
The Brazilians sold a point higher, while
the prices of the parent securities
remained quiet and the market was
eased by the late harvesting.
The conversion of the Rio and Sao Paulo
Brazilians into a new company, the
Brazilians, was a point higher, while
the prices of the parent securities
remained quiet and the market was
eased by the late harvesting.
The conversion of the Rio and Sao Paulo
Brazilians into a new company, the
Brazilians, was a point higher, while
the prices of the parent securities
remained quiet and the market was
eased by the late harvesting.

POWER FEATURE OF MONTREAL'S ACTIVE MARKET

Makes Four Point Gain Over-
Night, But Profit-Takers
Greatly Reduce Advance—
Laurentide Again Climbs—
Many Stocks Establish Gains
and Tone Was Strong.

MONTREAL, Sept. 24.—Heavy trading
in Montreal Power was the out-
standing feature of a market in which
dealings were on a very large scale,
namely, 15,000 shares, and the tone de-
cidedly strong. Gains were fairly gen-
eral throughout the active stocks, and they
extended to as much as 2 1/2 points in
the case of Laurentide. The few de-
clines were confined to smothering fractions.
The close was again as on Monday, at
or near the best prices of the day.

The movement in Power was remark-
able in several respects. After the
four point rise of the previous after-
noon, bidding was carried up to 24 1/2,
and the afternoon, and the last sale
an over-night gain of 3 1/2 points be-
fore a share of the stock came out this
morning. The eight point rise in little
over half an hour of actual trading was
too much even for Power, and the
opening price proved the best of the
day. Heavy profit taking on the ad-
vance forced the price back to 23 1/2,
with a rally back to 24 before the
close of the morning. The market was
quiet and firm between 23 1/2 and 24 1/2
in the afternoon, and the last sale
at the former price showed a net gain
of 1 1/2 on the day. Throughout the day
the price was held at all times
over the high of the previous day.

Other strong stocks today were
Laurentide, which rose to a new high
record of 22 1/2 ex-dividend, closing at
the top with a net gain of 3 1/2, Canadian
Pacific up to 27 1/2, or a net gain of
1 1/4. Textile Cotton, which closed
with a gain of 1/2, Canadian Cottons
common up to a new record of 32 1/2,
or a 2 1/4 over the previous high mark.
Toronto Railway, which rose 1 1/2 to
14 5/8. Total business, 14,376 shares,
\$900,000 and debentures.

By Force of Circumstance The Chinaware Sale Begins Tomorrow

Our stock rooms, large as they are, have been absolutely swamped by the arriving chinawares for the October sale. To ease the pressure we have decided upon a series of preliminary days that will eclipse every previous sale in the department.

Many thousands of dollars have gone across the Atlantic to secure the rare bargains we are offering. Beautiful English china, perfect in mould and glaze, handsome in decoration and design; delicate Continental wares and exquisite bric-a-brac, vases, statuary, and a hundred thousand unlistable pieces besides—all must be sold as fast as they arrive!

A Sale of Women's \$5.00, \$5.50 and \$6.00 American Boots, in all Styles and Leathers, Thursday, \$2.49

Women's High-Grade American Boots, on all the newest fall and winter lasts, in button, Blucher, and lace Balmoral styles; new short and medium vamps; high or receding toes. The leathers are black suede, patent colt with black cloth, dull kid, velvet and suede tops, tan Russia calf, in light and dark shades, chocolate kid, gunmetal, dull and glaze kid, also black satin and velvet; light, medium and heavy soles. Some have extra high tops; all are beautifully finished; and the daintiest lot of high-grade shoes ever put on sale at such a bargain price.

Sizes are 1½ to 8, in all widths. The regular prices for this exclusive footwear would be \$5.00, \$5.50 and \$6.00.

On Sale Thursday, \$2.49

The **SIMPSON** Company Limited

New Fall Clothing for Men

Our stock of Men's Overcoats for Fall and Winter wear is most extensive, and includes the best productions of the leading manufacturers of this continent. We are confident we can satisfy every purse and every taste.

At \$12.50—The material in this lightweight Fall Overcoat is light gray English tweed, showing a very small pattern. It is cut single-breasted Chesterfield style. It is well tailored throughout.

At \$15.00—A plain black English cheviot cloth, made in a conservative style. Single-breasted fly-front style. It has fine mohair linings, and shows the best of workmanship throughout.

At \$18.00—A very neat, fall weight Overcoat, made from a black and gray diagonal weave overcoating; single-breasted style; very choice tailoring and linings.

At \$20.00—The English Raglan style Fall Overcoat is much in vogue with young men. It is made from a light gray English tweed, single-breasted, buttons through with leather buttons; silk linings in sleeves.

At \$28.00—Durward's Fall Weight Overcoat, made from a plain Oxford gray English cloth; cut in a popular style originating from this famous English maker; silk sleeve linings, and tailored by experts.
