# FINE BASEBALL EXHIBITION

Manager Gardner's Champions Beat Doc Sheppard's Crescents by 3 to 1.

## CAPITALS PLAY TORONTO TO-DAY

Enthusiastic Crowd of Enthusiasts Filled Opening Game at Baseball Park.

A pretty exhibition of baseball, lacking only the strenuous features of the championship game, was witnessed Good Friday afternoon at the Toronto grounds. Doc Sheppard's Crescents opposed Manager Gardner's Eastern League champions, the result being a victory for the professionals by 3 to 1. The game was played in the rain, the Crescents intended using Bates and Elliott behind the bat, but as the former was under the weather and the latter did not arrive from Kingston, Brownell and Ryan alternated behind the bat on both sides.

# WEAKNESS IS ALWAYS DANGEROUS

Invites Disease—Its Dangers May Be Averted.

With the increasing strain of modern life the power and vigor which characterized our forefathers is growing less and less the heritage of each succeeding generation. The strenuous life then expresses the wear of overwork, and is simply a sin against one's own body, as it is a sin against the family and the community. ##### Undivided Surplus of U. S. Steel Corporation and Subsidiary Companies:

Capital Surplus provided in organization of U. S. Steel Corporation	\$25,000,000.00
Surplus accumulated by all companies since organization of U. S. Steel Corporation	52,874,597.05
	<u>\$77,874,597.05</u>

**\$77,874,597.05**

**Total Liabilities \$1,546,544,234.65**

\*NOTE.—In preliminary Report submitted to stockholders at the First Annual Meeting, February 17, 1902, the accumulated surplus of all subsidiary companies to November 30, 1901, was shown as \$174,344,229.32. This total, however, included the surplus of the subsidiary companies at time of the original acquisition of their stocks by United States Steel Corporation in 1901, which surplus in this balance sheet is stated in diminution of Property Account.

#### INCOME ACCOUNT FOR THE YEAR.

The total net earnings of all properties after deducting expenditures for ordinary repairs and maintenance (approximately \$21,000,000*), also interest on Bonds and fixed charges of the subsidiary companies, amounted to	\$133,308,763.72
Less appropriations for the following purposes, viz.:	
Sinking Funds on Bonds of Subsidiary Companies	\$624,064.43
Depreciation and Extinguishment Funds (regular provisions for the year)	4,834,710.28
Extraordinary Replacement Funds (regular provisions for the year)	9,215,614.76
Special Fund for Depreciation and Improvements	10,000,000.00
	<u>24,774,389.47</u>

Balance of Net Earnings for the year **\$108,534,374.25**

Deduct:	
Interest on U. S. Steel Corporation Bonds for the year	\$15,187,850.00
Sinking Fund on U. S. Steel Corporation Bonds for the year	3,040,000.00
	<u>18,227,850.00</u>
Balance	<b>\$90,306,524.25</b>
Dividends for the year on U. S. Steel Corporation Stocks, viz.:	
Preferred, 7 per cent	\$35,720,177.50
Common, 4 per cent	20,332,690.00
	<u>56,052,867.50</u>

Undivided Profits or Surplus for the year **\$34,253,656.75**  
\*The actual expenditures for ordinary repairs and maintenance were \$21,230,218.13. It cannot be stated, however, that this specific sum was taken out of the net earnings for the year, because in the manufacturing and producing properties the expenses for repairs and maintenance enter into and form a part of production cost. And as the net earnings of such properties are stated on the basis of gross receipts for product shipped, less the production cost thereof, the income for the year is charged with outlays for repairs and maintenance only to the extent that the production during such period was actually shipped. But as the shipments in 1902 equalled practically the year's production, approximately the entire amount of the expenditures in question has been deducted before stating the net earnings as above.

#### ORDERS ON HAND.

The tonnage of unfilled orders on the books at the close of 1902 equalled 5,347,253 tons of all kinds of manufactured products. At the corresponding date in preceding years the orders booked equalled 4,497,749 tons. In many of the classes of heavier products, like rails, plates and structural material, practically the entire capacity of the mills is sold up until nearly the end of the year 1902.

#### PURCHASE MONEY OBLIGATIONS, BILLS PAYABLE AND SPECIAL DEPOSITS.

The unsecured liabilities of the Subsidiary Companies of the above character were reduced during the fiscal year of 1902, and also during the period from April 1, 1901 (date of organization of U. S. Steel Corporation), to December 31, 1902, by the following respective amounts, viz.:

	Paid Off Between April 1, 1901, and Dec. 31, 1901.	Paid Off During Year of 1902.	Total Reduction April 1, 1901, to Dec. 31, 1902.
Purchase Money Obligations and Bills Payable	\$8,678,336.01	\$12,884,558.85	\$21,562,894.86
Special Deposits	2,569,134.56	707,809.08	\$3,276,943.64
Total	\$11,047,470.57	\$13,592,367.94	\$24,740,338.51

The funds for the payment of the above liabilities were provided entirely from the surplus created in lieu thereof, although practically all of such payments might properly be funded, as the liabilities were those of the Subsidiary Companies prior to or at the time of organization of U. S. Steel Corporation for the acquisition of additional property or for moneys borrowed, which were in turn used for purchase of property and construction expenditures. As shown by the General Balance Sheet, the amount of these liabilities outstanding on December 31, 1902, is as follows:

Purchase Money Obligations	\$6,689,418.53
Bills Payable	6,202,502.44
Special Deposits	4,485,546.58
Total	<b>\$17,377,467.55</b>

#### PROPERTY ACCOUNT.

The expenditures made during the year by all the properties and charged to Property Account equalled, less credits for property sold, the total sum of \$16,586,531.77. These outlays were made for the completion of construction work at manufacturing properties under way when the U. S. Steel Corporation was organized, also for necessary additions and extensions authorized since its organization, for the acquisition of additional ore and coal property, the opening and development of new mines and plants, for additional equipment and facilities, demanded by the growing requirements of the business of the transportation properties, to secure material reduction in cost of manufacture, transportation of raw and unfinished materials, and distribution of finished products, etc.

The outlays as above are classified by properties as follows:

Expended by	Number.
United States Steel Corporation, on account of acquisition of stocks of subsidiary companies	258,473.31
Manufacturing Properties	9,743,125.75
Ore Properties	1,671,542.08
Coal and Coke Properties	2,944,168.61
Transportation Properties	2,741,652.91
Miscellaneous Properties	171,430.59
Total	<b>\$16,586,531.77</b>

#### EMPLOYES AND PAY-ROLLS.

The average number of employees in the service of all properties during the entire year was 168,127.

The aggregate amount paid during the year for salaries and wages of employees was \$120,528,343.

The following shows the classification of the number of employees and pay rolls between the several departments named:	Number.
Manufacturing Properties	125,326
Coal and Coke Properties	16,519
Iron Mining Properties	13,465
Transportation Properties	11,160
Miscellaneous Properties	1,657
Total	<b>168,127</b>

#### NUMBER OF STOCKHOLDERS.

The following shows the number of stockholders in the United States Steel Corporation in March, 1903, in comparison with the number at corresponding date in preceding year:

	1902.	1903.	Increase.
Preferred	25,296	31,799	6,503
Common	17,723	26,830	9,107
Total	43,019	58,629	15,610

The foregoing does not include the subscriptions for preferred stock by 27,379 employees under plan offered them under date of December 31, 1902.

Complete copies of the detailed Annual report in pamphlet form will be mailed stockholders on and after April 13th. Copies may also be obtained after that date at the office of the Secretary, 71 Broadway, New York.

## YORK COUNTY AND SUBURBS

Hundreds of Visitors From City Marvel at the Junction's Progress.

## THE GUN CLUB'S SUCCESSFUL SHOOT

Fire Brigade Had a Run—C.P.R. Footballers Win—County Notes.

Toronto Junction, April 10.—To-day being Good Friday services were held in the churches. In the afternoon the town had quite a holiday appearance. Hundreds of city people visited the new golf links of the Lambton Golf and Country Club, and the suburban electric cars were well patronized all day. The parks had many visitors and carriages with pleasure-pickers were in evidence during the afternoon. The growth of Toronto Junction during the winter months is naturally a surprise to the visitors who take an interest in viewing the new buildings of the Union Stock, Cattle, and Horse Markets, the new factory, the turnkey round, the additions to the Lambton & Co.'s factory and many other improvements. A walk gave us a day when the people from the city drive out in numbers.

The C. P. R. Football Club was victorious in the first match of the season this morning, defeating the Gore Varsity by a goal to 0. The fire brigade had a run this morning to the store of Mr. Atkins, at the corner of Hoskins and Dundas streets, where they found the stovepipes red and the chimney on fire. No damage.

The Toronto Junction Gun Club met this morning on their new grounds at the corner of Bloor and Keele streets and erected a club-house. In the afternoon a club shoot was held, at which the following scores were made: At 25 birds, D. Bies 19, C. Kemp 18, P. Wakefield 16, Turp 14, D. Walton 11, J. Hardy 10, Taylor 7, Herbert 4. At 10 birds, P. Wakefield 8, C. Kemp 7, D. Bies 6, Turp 5.

At 15 birds, D. Bies 13, P. Wakefield 12, C. Kemp 11, Taylor 4.

**Woodbridge.** A concert under the auspices of the Sunday-school of the Methodist Church will be held on Tuesday evening. The Weston Presbyterian Church choir will furnish the program. At Elder's Mills on Good Friday a sacred concert was given, the program of which was furnished by the Bloor-street Baptist Church choir.

At 10 birds, D. Bies 13, P. Wakefield 12, C. Kemp 11, Taylor 4.

**East Toronto.** A meeting of the Women's Auxiliary of St. John's Church, Norway, took place on Thursday night, when Mrs. Ruttan, the president, presented (on behalf of the members) to Mrs. Waters a satchel as a slight appreciation of her services as secretary-treasurer. The members intend holding a social on Wednesday evening next, inviting the congregation, when work will be shown before being sent to Archdeacon Innes of Calgary, N.W.T.

The ratemakers' meeting will be held to night at the schoolhouse, Norway, called by the trustees for the purpose of enlarging the present building. The trustees hope for a large turnout of those that are interested in school matters.

An amateur sportsman with a gun visiting the Woodbine beach yesterday shot Norman Burton's (the wine clerk at the Woodbine) game goose. As he recognized Mr. Burton for his error, no proceedings will be taken. Thousands of people visited Munro Park, Kew Beach, and spent the afternoon with their families. They swam all over the beach and the woods. The street railway service during the afternoon was not what it should have been to cater for the crowd.

**Fairbank.** The members of the Fairbank Literary Society gave an elegant oyster supper last Thursday to their many friends, this being their closing meeting for the season. The tables were very pretty, and the hall was decorated with evergreens and burning. After the tea was served the Polter brothers furnished music for the evening, which was appreciated by all present. The president then gave an address and closed, every one feeling much delighted.

The society will reopen next November. They are always glad to receive new members. Every one welcome. Lots of fun.

**Conclude Successful Season.** J. K. McEwen, live stock dealer and auctioneer, who is well known by the farmers of West York, upon the cattle market this week. Mr. McEwen reports having had a successful season, he was assisted by all present. He conducted 125 auction sales. From now Mr. McEwen will attend the cattle market as usual. Farmers wishing to secure young cattle for feeding purposes, much cows or springers, will do well to communicate with Mr. McEwen, whose address is Weston P. O.

## A Case of Truth--

Did it ever occur to you that your shoes get hard and crack when they are comparatively new? The fault is in many cases is through people's feet, which are often damp and emit an acid that dries up the leather and causes it to crack. If you use "2 in 1," which is an oil polish, it will keep the leather soft and prolong the life of a pair of shoes. It will give new life to any leather whether it be fine or coarse, and is very convenient to use. 100 shillings in a box. Give your shoes a polish twice a week and a brush up every morning and it keeps them with a beautiful gloss and lustre like patent leather, and will not rub off. Don't forget the price, 10c and 25c, and the name is "2 in 1," the greatest oil paste for shoes ever invented. Sold everywhere.

## FORGERY OF EGGS.

An egg-forgery has been discovered and exposed in Paris. Eggs are about the last thing that one would expect to be forged, but it should be remembered that there are many collectors of birds' eggs who are willing to pay a high price for rare birds' eggs. A collector saw this clever forger making a penguin egg which could not be distinguished from the real one that served him for a model. He made the egg of plaster of paris, parts of which he burnt and glazed. The egg was intended for a man who furnished eggs for a foreign scientific collection. It is not very difficult to impose on even experienced collectors, for among the real eggs of most species there are so many varieties that even the most practical expert could not readily distinguish all of them. The eggs of the common fly-catcher are very cheap, and by chemical treatment they acquire a bluish-green, shiny color, and are then sold at a high price as the eggs of the skylark. From common ducks' eggs are fabricated eggs of a falcon, being given a silver-green color for the purpose. The pigeon and wood pigeon eggs are also transformed into rarer products of birds. Nightingales' eggs are difficult to procure, and therefore rare. They are successfully imitated by coloring larks' eggs brown. For a long time the egg forger was an assistant in a natural history museum in the provinces. There have been other cases of forgery of very rare birds' eggs, but these were made of excessively rare eggs, and their manufacture did not constitute a permanent means of livelihood.

**Telephoning in Germany.** One of the dangers of the telephone where the service is in the hands of the government has been curiously illustrated in Germany. An association, of which a well-known German "captain of industry" is a member, recently found it necessary to ask him by telegram if he was satisfied with certain resolutions passed by the society, says The New York Evening Post. The telegram was forwarded to Cologne by means of the telephone, and on its way the word resolution became resolution, and the captain of industry, who was the captain of the Cologne central turn over the despatch to the secret police. The telegram was forwarded to the latter saw in the message plain proof of a widespread anarchist conspiracy to overturn the government, particularly as it was signed by an organized body. Forthwith two detectives rushed to the house of the captain of industry on sight. Since the latter's name is known through Germany, he found it easy to prove his innocence and to explain the message. But what would have become of him had he been a foreigner, or a subject of a far-off village, is something about which the knowing prefer to remain silent and look wise.

When the Queen of Roumania was in England, some years ago, she was anxious to know how to play the game of cards. She should have a play which she had written. Accordingly, a meeting was arranged, and for over two hours the Queen post-playright declaimed blank verse, while the actor and actress sat and listened with polite attention. The reading finished, the Queen inquired anxiously of her audience, "Well, what do you think of it?" Whereupon Sir Henry, his hand upon his heart, and with his most graceful bow, replied, "Madame, such a play requires an Other-Amateur audience." And as the Queen said "Yes," thoughtfully, she looked as if she would really like to know what he meant.
