UNITED STATES PREPARING FOR FIGHTING ROLE

BIG LOAN TO ALLIES

Five Billion Dollar Issue is Being Discussed at Washington.

Washington, March 23.—The American Government has decided upon sweeping measures to be put into effect following the expected declaration by congress soon after it meets, April 2, that a state of war exists between the U. S. and Germany.

Broad questions involved were discussed today at a long cabinet meeting to which heads of departments carried reports on preparations already made and others contemplated.

As outlined after today's cabinet meeting the preparations of the government are not to be for a short war or a war marked by half-way measures.

The exact nature of the American participation in the war is not expected to be revealed until after the president addresses congress, and until public sentiment crystallizes.

Whether an army will be sent abroad is one of the questions to be left to the future. It would take many months to train an army for such service, and many things may happen in that period.

The British steadily increased their pressure against the ten-mile section of the German flank between Beaurains and Etrepillers, southeast of Arras.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

WHILE the British army was mainly pausing before making another advance in northwestern France, the French forces, fighting in the zone to the south, made important progress towards the isolation of St. Quentin and La Fere yesterday.

The British steadily increased their pressure against the ten-mile section of the German flank between Beaurains and Etrepillers, southeast of Arras.

The French drive and the continual flank attacks of the British have apparently by their object the compelling of a German retreat eastward toward Luxembourg, instead of into Belgium.

Allied Onset Drives Germans Back on Wide Front as Much as Two Miles and a Half From St. Quentin Canal

German Flood Oise Valley and City of La Fere—British Operations Gain Further Ground in the Region of Croisilles

London, March 23.—Along the entire battlefield between the Scarpe and the Aisne in France the allies and German troops came to grips today. At some places the battle, waged by infantry, cavalry and artillery, attained the biggest proportions of any engagement this year.

The French forces operating to the northeast of the St. Quentin Canal have pushed back the Germans between one and a quarter and two and a half miles and also have gained additional ground on the heights northeast of Tergnier overlooking the Oise valley, according to the French official communication issued tonight.

Two German attacks near Thil, northwest of Rheims, were repulsed. The communication says: "Between the Somme and the Oise in the course of the day our troops carried out with precision a spirited offensive which was completely successful."

"To the northeast of Tergnier our detachments have pushed ahead on the heights immediately overlooking the Oise valley. In this region the Germans have resorted to inundations. The City of La Fere is under water."

"To the south of the Oise we have continued our crossing of the Ailette River. In the region to the north of Soissons our troops fought for and realized considerable progress toward Margival."

"To the northwest of Rheims the Germans carried out against our trenches before Thil two attacks, which failed under the curtain fire of our machine guns. The losses of the enemy have been serious, judging from the bodies of men abandoned by him within our wire entanglements."

"Along the rest of the front the day has been comparatively quiet. "Aviation: Today our anti-aircraft guns brought down a German aeroplane, which fell within our lines near Bieulouard."

"Belgian communication: In the region to the north of Dixmude the day has been characterized by reciprocal bombardments of varying intensity."

Some observers here see in the developments of the last two days signs that Hindenburg intends to fight a decisive battle over the despoiled and desolated country stretching from the Somme to the Aisne and from St. Quentin to La Fere. If such a battle should develop it will probably be the greatest struggle in every way that has been fought in this war, not excepting the battle of the Marne. And with it Hindenburg will reveal his strategy and the prime reason for the great German withdrawal.

DESPERATE ENCOUNTERS

The most desperate encounters of the day took place along the French front south of St. Quentin, where less than two and a half miles separates Nivelles' troops from the enemy's defensive system. One struggle surged around St. Simon, along both sides of the Somme-Croizat Canal and slightly north, near the villages of Artemps and Seraucourt-le-Grand. Here the Germans delivered a violent counter-blow that almost sent the French off their feet.

Shortly afterwards the French launched a wide offensive in this same region and, in the face of stubborn resistance, pressed the Germans back to the northeast of the St. Quentin Canal to a depth varying from one and a quarter to two and a half miles.

TWO MIGHTY BATTLES

North of Soissons and along the Ailette River line two other mighty engagements were fought. In the former sector, to the west and south of Margival, the line swayed backward and forward as first the French and then the Germans scored successes. In some sections of the long, fluid line the Germans hurled entire regiments at the French ranks. The German artillery, operating at every turn, picked out squadrons of French troops and mowed them down on the move. Two companies of French chasseurs became isolated from the main army, but succeeded in cutting their way back and bringing with them a number of prisoners. Despite the ferocity of the opposition, the French advanced on

this front at several important points, moving considerably nearer Margival.

Along the Ailette front, on both sides of the Oise, the forces of Nivelles pushed ahead also, continuing their crossing of the Ailette and advancing on the heights of the Oise to the northeast of Tergnier.

FOE FLOODS LA FERRE.

The French soldiers in this sector report that the Germans have inundated the entire countryside, including the stronghold of La Fere, to impede the allied advance.

The British forces on the front southeast of Arras struck up against even more powerful opposition than the French, despite the fact that they are several miles farther from the Germans' reserve line than their allies.

At three points, near Auzoucourt-le-Bas, Baumez-lez-Cambrai and Vraucourt, the enemy counter-attacked in force, delaying the whole British forward movement.

There is little question that the Germans intend to make their stand along the Cambrai-Laon line and protect the railroad communications at all costs.

As to the ability of the Germans to hold their new line for any appreciable length of time, there is some dispute in military circles here.

The Hindenburg line is powerful, but not so much as was the line recently abandoned by the Germans, with Bapaume, Peronne and Chaunies as the bastions.

TORONTO'S PASSING SHOW IS BIG MUSICAL SUCCESS

Amateur Production at Massey Hall Under Auspices of Ninth Mississauga Horse.

The Passing Show of Toronto, presented at Massey Hall last night by the 9th Mississauga Horse, proved a great success, the catchy character of the music, the many local hits and the voices, which were exceptional for an amateur chorus, all tending to make things go with a swing that called forth the repeated applause of the audience.

Among the songs that called forth repeated recalls were: "We Sing Grand Opera, My Closets," by Miss Helen Woodland and chorus; "The Gossip Log," by the reporters; and "So Long, Good-bye, Ma Cherie," by Miss Doherty.

The opera billed as "A musical cartoon of our fair city" is a skit on suffrage movement for women. The part of the leader of the suffragists is taken by Miss Mabel Doherty, and entering into the cast she has a large company of attractive associates, who draw a company of newspaper reporters and various others of the masculine persuasion.

London, March 23.—Private messages have reached The Hague that Emperor Wilhelm is suffering from a severe nervous breakdown, an Exchange Telegraph dispatch from The Hague reports. The emperor's physicians are said to have ordered him to take the cure at Homburg.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

Until the submarines do their fell work with the British mercantile marine, which also report that the enemy is retreating to postpone the British offensive and to avoid it, an advance all that Von Hindenburg is withdrawing to lure the allies into a trap, as he did at Tannenberg.

Similarly other despatches saying that the Germans are retreating to delay the decision of the war have probably either an enemy or a European pacifist and therefore tainted origin. By retreating the enemy confesses allies. He therefore takes to the open field, making the fighting a war of mobility.

Concerning operations in the Balkans, the French report that they have managed to hold Hill 1248, north of Monastir, which they captured the other day. The German several bands of Bulgarians fought violent actions for the possession of this vantage point.

Although the Turks are rapidly losing territory in Persia, they are not yielding ground to the Russians without offering stubborn and fierce opposition. The Russians defeated them in a 16-hour battle in the region of Kerind, 45 miles from the border, and threw them back a distance of three miles or so, only to fight another action at the very gates of Kerind.

LIBERALS FORM NEW ASSOCIATION

Party Leaders Give Blessing and Tell Women How to Vote.

A very representative audience was present at the inauguration meeting of the North East Toronto Liberal Association (Provincial) held at the Elms' Hall, College street, last night, and of the five hundred or more present, more than half were women.

At the conclusion of his remarks a resolution was passed voicing the deep sense of loss the party felt at the death of the late Charles M. Moss and Myles Langstaff. In an eloquent address Mrs. Prenter ably voiced the aspirations of new womanhood.

Samuel Carter, M.L.A. for Wellington, stated that it took a lot of courage to form a Liberal association in Toronto in view of the many other unsuccessful attempts. He was of the opinion that Reformers were shortly to have their dreams of the future realized, as already legislation was pointing that way.

The following officers were elected for the new association for the ensuing year: President, Mark Bredin; vice-presidents, J. M. Ferguson, Ald. George Ramsden, Mrs. George Dugas; secretary, C. W. Levingstone; associate secretary, Mrs. A. Dilworth; treasurer, H. L. Stark; representative to federal parliament, D. H. McCreech; executive committee, Mrs. D. Urquhart, Mrs. P. G. Kirby, Mrs. Ward Wright, L. E. Annis, F. M. Chapman, J. S. McKinnon, George Wilkie, J. J. Gibson, W. Spence, R. E. Gavin, Dr. Gee, W. Conon and R. Knowles.

ALL C.E.F. UNITS TO GO EAST IN A MONTH

Three More Battalions Have Received Warning From Ottawa For Overseas.

Official "warning for overseas" is expected today for three more units of the Toronto district. They are the 230th York Battalion, Lt.-Col. B. H. Brown; 234th Peel Battalion, Lt.-Col. W. O. Morris; and the 215th Brant Battalion, Lt.-Col. H. E. Snider.

Ottawa's intention is to send east within the next 30 days all the available C.E.F. troops from Toronto and this military district, thus forming a reserve force for some months ahead. This plan will affect not only the infantry units, but also the artillery, cavalry and all other branches of the service.

Ninety-three Toronto men came forward for enlistment yesterday. Only 24 were found eligible for military service. The accepted recruits were credited as follows: 25th Q.O.R. Battalion, 8; 24th Battalion, C. C. University Training Company, 6th Battery, each 2; Forestry Draft, 10th Draft, skilled railway, C.M.R.L. cyclists, 20th Battalion, signifiers and Medical Corps, each one.

Under command of Lieut.-Col. C. W. Darling, the 4th Highlanders of the Royal Flying Corps in Toronto held a short route parade. There were 450 members on parade.

Ottawa has sent word that owing to some lines of having advanced as much as 200 per cent, the economy should be practiced in the use of it by all military units. For a third time officers commanding are reminded by Ottawa, this correspondence relating to the enlistment of Russian subjects should be forwarded only to the imperial Russian consul-general, Montreal.

Forecast Enormous Loan.

Just how much money will be asked of congress has not been revealed. A movement is well under way for furnishing the entire allies with an enormous loan, either in the form of credits or money. It also is understood that the supply of munitions for the allies will be augmented rather than diminished. Suggestions placed before the president today included the possibility of floating a loan of \$5,000,000,000 for the allied nations. The proposal made by Gov. Harding, of the federal reserve board, in a recent speech at New York, that the government lend the allies \$1,000,000,000, was thought to be inadequate by some of the president's advisers.

Everybody Will Be Wanting New Gloves-That's Certain

As Surely as the Days Get Balm and Bright, Men and Women, Boys and Girls Will Be Throwing Aside Their Old Gloves and Buying Themselves New. Hence These Suggestions Below to Help in the Choosing— Suggestions From the Splendid Showing of Smart Gloves Which Our Buyers Have Gathered Together From the Foremost Makers of France, England, Canada, Italy and United States.

Men's Dress Gloves For Wear With Spring Overcoat or Morning Coat

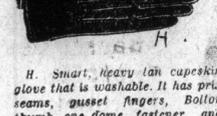

A. Grey suede glove, with pique seams, self-attached back, gusset fingers and thumb. Price, \$2.00 a pair.

B. French suede glove in deep wood tan shades, with heavy black silk stitching on back—pique seams, Bolton thumb and a pearl button or dome fastener at wrist. \$2.00 a pair.

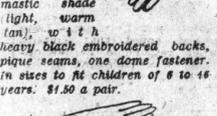

C. A washable glove in fine French suede, in tan and moose shades—one pearl dome fastener, pique seams, self-attached imperial backs. \$2.50 a pair.

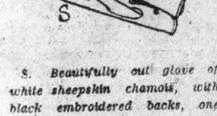

Women's Dress Gloves—for Tailor-made or More Elaborate Costume

D. Just arrived from Grenoble—a superb French kid glove with pique seams, Paris stitched backs, gusset fingers, 2 dome fasteners; to be had in white, tan, grey, cham-pagne, brown, green, navy, violet and black. Price, \$2.50.

Men's Gloves for Business and Knockabout Wearing

E. A glove that combines elegance of appearance and durability with the practical quality of being washable. A glove in washable chevrette, made with pique seams, two-tone embroidered backs, two dome fasteners and black band at wrist. Featured in "Neuport," sand and canary—\$2.50 a pair.

Wore Shopping

"Paddy."—Sure you may have a gold color hat, Paddy. How does your nose tilt? Would it look best under a mushroom, a sailor or a turban? All three and sundry other fashionable designs, large and small, can be had in this new yellow shade, in both fine and heavy styles, at prices ranging from \$5.00 up. The so-called "trimmings" show that nice evidence of restraint which marks the modish bonnet of this season, consisting of a bead ornament, stichings of heavy silk or wool, a cockade of ribbon or a Chinese ring or tassel. One dare not describe any particular model for you, for in all likelihood it would be gone before your letter came back. But if you will state the style that suits you best, the Shopping Service will send you a hat you will surely like.

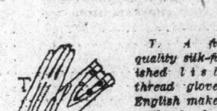

"M.A.P."—Mainly about "Purchases"—is that the idea? Well, it seems to me that the smartest costume available for \$15.00 would be a navy blue serge dress. At that price they are chiefly of the one-piece, straight-line order, however. Would you not venture if the pleats were belted trimly? Otherwise one might suggest a nice new model in navy blue crepe de chine—likewise at \$15.00—which has a plain gathered skirt, and bodice with sleeves of navy blue nixon and becoming little collar and vestee of white Georgette crepe. Later on, of course, there will be "beach" cloth suits, such as you describe.

"Oliver Twist."—Back for more? But you won't go hungry this time, Oliver. Advice is always about the easiest thing to get in the world, isn't it? However, let the facts speak for themselves: there is a most attractive fibre silk sweater coat, showing 1/2-inch stripes of melon pink and white, or Paddy green and white, with plaid, white wash and sailor collar. This is \$7.50. A coat in plain melon pink has a rash and small collar of "self," and is priced \$9.00. At \$9.00, too, is still another coat in emerald green, with collar, cuffs and wash of white. And at \$15.00 in emerald green or rose pink, is a beauty with sailor collar and cuffs of white, and a graceful sheen.

"Ann."—If you have never heard Dr. Jowett there is a treat in store for you some time when you go down to New York. In the meantime two of his books of daily readings are to be had—"Yes Another Day" at \$5.00, and "Daily Altar," at 25c. "The Three Things" and "The Perfect Tribute," by Mary Shipman Andrews, are 50c each. And "The House Boat on the Six" (You aren't expecting theology in this, are you?) is by Kendrick Bangs, and priced \$11.10.

"Raymond": or, Life and Death

The Much Discussed Book by Sir Oliver Lodge, Reviewed for us by Mr. A. E. S. Smythe

FOR thirty years Sir Oliver Lodge has been investigating the problem of life after death, as his book, "The Survival of Man," published in 1899, demonstrates. His conclusions, he now says, can be associated with a private experience of his own, instead of with the private experience of others. Several of his disincarnate friends, like Sidgwick, Myers, Gurney and Hodgson, has united to establish communication across the "chasm," as he announced in his address to the British Association when President in 1913. Myers had sent a warning through an American channel on August 8, 1915. Raymond, Sir Oliver's son, was killed on September 1 following. The first message was received from him on September 25—"Tell father I have met some friends of the

Sir Oliver writes with the weight and authority of an eminent man of science, president of a university, and with the understanding of a devout Christian. His work is done to help the world. Soldiers, hurried out of their bodies in war, need help. "Poor chaps," Raymond says. "You see, no one has told them before they come over, and it is so hard for them when they see us and they feel alive, and their people keep on sobbing." Three months after Raymond's death his father asked him: "Have you been let to see Christ?" His reply: "Father, I shall see Him presently. It is not time yet. I am not ready. But I know He lives, and I know He comes here. All the sad ones see Him if no one else can help them." How he saw and what he told later, Sir Oliver himself in a short but conspicuous chapter, "Outlook on the Universe," suggests that a better era is at hand. "Those who think that the day of that Messiah is over are strangely mistaken; it has hardly begun."

This is a book as scientific as the author's "Ether of Space," as religious as any volume published for centuries. It remains to be seen what the world of thought will gain from its engrossing pages. Price, \$2.00. Book Department, Main Floor, James and Albert Streets.

GERMAN PRESS ACCEPTS STORY

Berlin, March 23, via Staville.—All the official news is still lacking in regard to press reports that China has broken off relations with Germany. It is now accepted by the German press that a rupture has come. Regret is expressed generally that China has yielded to pressure believed to have been exerted by the entente. Great Apprehension Existed in German Lines During Somme Battle.

London, March 23.—(From British headquarters in France.)—Altho the Germans have told the people of the evacuated towns countless stories to demonstrate their invincibility, they had a pretty good general knowledge of the true state of affairs in the world beyond the German lines. The correspondent continues: "The people say the German soldiers had been talking a good deal, especially of late, and that notwithstanding all efforts to conceal the truth from them it was surprising how much they appeared to know. It was almost possible to judge the progress of the Somme battle by changes in the demeanor of the Germans. They did not attempt to conceal their apprehensions at the prospect of facing another great British offensive this year, and one of the possible reasons for their retreat may well be the doubt of the German high command whether they could get their men to face the possible continuation of such an attack."

Foe Extends Ruthlessness Zone Near Norwegian Waters

London, March 23.—A Reuter despatch from Christiania says the German minister has communicated to the Norwegian Government an order from his government that in future the part of the Arctic Sea lying east of 24 degrees east longitude and south of 75 degrees north latitude, excepting Norwegian territory, is to be regarded dangerous for all navigation. Ships will be met with all weapons. Neutral vessels entering those waters must do so at their own risk. Neutral ships already on the way for or returning from ports in this zone will not be attacked without warning until April 6.

RUSSIANS KEEP UP PERSIAN ADVANCE

Defeat Turks in Three Encounters Near Border and Lake Van.

FIGHT SIXTEEN HOURS

Turks Lose Strong Positions in Vicinity of Kerind.

Petrograd, March 23.—Russian troops pushing west from Kermanshah, in Persia, have reached a point less than 50 miles from the Mesopotamian border. The war office announced today that after a Turkish army had been beaten in a sixteen-hour battle outside of Kerind, the Turks had retreated to the vicinity of Kerind and had made another stand there. Another Russian column has attacked the Turks along the Shirwan River, a tributary of the Diale, about midway between Kermanshah and Sakiz, from which last point another Russian army has been pushing southwestward into Mesopotamia. The Russians also have won a new success near Lake Van, in Southern Turkish Armenia, capturing men and material on the southwestern shore of the lake. The official statement reads: "Caucasus front: During the night of Wednesday, a body of our scouts penetrated unnoticed into the enemy's trenches near Hatvan, on the southwest shore of Lake Van, and by a daring attack captured, without firing a shot, a machine gun section consisting of three officers, 18 Askaris and two machine guns, together with an ammunition, an instrument for measuring altitudes, and a telephone. "In the direction of Pendjivn our troops joined in combat with the Turks occupying the southern shore

WINTRY WEATHER RETARDS ADVANCE

British Reach Point Within Three Miles of St. Quentin.

REBUILD ROADS FAST

Construction Units Speedily Repair Damage—Troops Move Forward.

London, March 23.—For the last 24 hours the weather on the front in France has been of the worst possible kind. Operations have been brought almost to a standstill. Reuter's correspondent at British headquarters wires that more definite resistance is being offered by the German rear-guards as they are pressed back by the British advanced troops. This is particularly noticeable along the irregular line running in a northern and northwestern direction from De Sivy wood, which lies about three miles west of St. Quentin. In the most "bartherly" sector affected by the retreat the Germans continue to maintain strong covering patrols and cavalry guards, and also have posted many machine guns at chosen vantage points, indicating that they intend to prevent the British from continuing to progress as rapidly as they have done heretofore. Altho some cavalry skirmishes were reported, as well as small clashes of reconnoitering parties, there was no appreciable change in the situation today, except the tendency of the Germans to offer greater resistance. Behind all the newly-acquired British front the greatest activity continues, both in the way of troop movement and in the construction and repair of roads and railways. Thus far

Seven Americans Among Twenty Healdton Victims

The Hague, March 23.—A second boat from the Healdton has been brought to Terschelling by a Dutch torpedo boat with eight men, including one badly injured. One Dutchman had jumped overboard, losing his life. The third boat, containing 19 men, was overturned when the sinking situation was discovered, including seven Americans.

GERMAN BREAD RATION REDUCED

(Continued from Page 1).

GRAVE DIFFICULTIES

Copenhagen, via London, March 23.—The announcement of reductions in the bread ration in Germany and an increase in the meat ration, as received here, is indicative of Germany's present food difficulties, to which the Prussian food commissioner, Dr. Georg Michaelis, referred in a recent speech in the Prussian Diet. The grain stocks, which even with the supplies received from Rumania were barely sufficient to carry thru the population until the harvest at the old ration, had been drawn upon to compensate for the potato crisis in the winter, when for weeks the supplies to the cities were interrupted owing to the intensely cold weather. "The restoration" of the potato ration to five pounds is really a reduction, when it is considered that the original ration in the autumn was seven pounds. Then for weeks the actual ration of three pounds was unobtainable by a large part of the population, Hamburg, for instance, serving it out only at occasional intervals. The meat ration, on the other hand, can be increased owing to the comparatively large stocks of cattle which have accumulated, and which must be slaughtered owing to the shortage in fodder.

Full Recognition By Allies Of Russia's New Government

London, March 23.—Full recognition was accorded the new Russian Government by action of all the allies today. It was announced here on behalf of all the allies that all entente diplomatic envoys in Petrograd had been instructed previously to accord full recognition when, in their discretion, the time had arrived for such action.

DEPOSED CZAR AND CONSORT ARE INTERNED IN PALACE

Tsarskoe Selo, Russia, March 22, via London, March 23.—On his arrival here today in the custody of four members of the duma, Nicholas Romanoff, the deposed emperor, was turned over immediately to the Tsarskoe Selo commander and taken to the Alexandrovsky Palace, where the former Empress Alexandra already was interned. The special train carrying the former emperor arrived at 1.30 o'clock on the branch line outside Alexandrovsky Palace. On leaving the train Nicholas entered an automobile accompanied by his adjutant, Prince Dolgoroukoff, the only courier of first rank who accompanied him, and by the four duma commissioners. They were driven to the palace.

FOOD SITUATION IN BRITAIN SHOULD NOT CREATE A PANIC

London, March 23.—Speaking in the house of commons in behalf of the food controller this afternoon, Charles Bathurst, member of parliament for the Wilton division, Wiltshire, said: "While the food situation and the outlook for the future are not wholly satisfactory, the poorer classes in this country are suffering less than those of any other belligerent. In the greatest danger at the present is in arousing unnecessary panic." Admitting a shortage of potatoes, the speaker urged all patriots to use a substitute for this food article during the next two or three months.

High-Class Estate Sale

The Greatest of Modern Times

—An Opportunity Extraordinary

We have taken the gentlemen of Toronto absolutely into our confidence when we state that the object of the Sale is to turn the entire stock of high-class British woollens in suitings, coatings, overcoatings, trousers, and waistcoats into cash to meet obligations to the estate of the late R. J. Score. And with woolen values where they are today, and likely to become still more greatly enhanced before this old world gets back to normal peace conditions again, the success of the Sale so far is but meeting our expectation and proving the appreciation of men who recognize merit and will patronize it. Especially so when there's such a genuineness in the Sale in the money-saving way.

NEW INDIAN LIST UNDER AMENDMENT

Provincial Secretary Brings Down Changes to the Ontario Temperance Act.

A new "Indian list" is to be established by the government, under the provisions of the amendments to the Ontario Temperance Act brought down in the house yesterday by Hon. W. D. McPherson. Other important clauses provide that express companies must keep records of deliveries and place them at the disposal of the inspectors of the department, and that the exemption from business taxes under the act for standard hotels, breweries and distilleries, shall continue for three years.

"No" was the reply of the government to H. H. Dewar's question. "The amendments do not provide for the abolition of the license board."

Premier Hearst replied to N. W. Rowell that no change would be made in the Ontario list with regard to deliveries in Ontario, or with regard to advertising.

The Indian list provisions are that the inspectors may designate persons whom they take to be addicted to the too frequent use of liquor. It is forbidden that persons so designated shall have liquor in their houses, and severe penalties are provided for persons who deliver liquor to them or give them a drink.

City May Add Interest On Bulk Uncollected Taxes

The legal committee of the legislature sat for half an hour yesterday. During that time it rejected one clause in the Toronto bill, to amend the assessment act, and passed the others.

One clause carried provides that where personal property liable for taxes has been seized for other debts, the tax collector has only to notify the officer in charge of the goods to assure that his claim shall have preference.

In cities over 200,000 in population the treasurer may add six per cent. to the balance of taxes on land uncollected at May 1st, and may charge this interest against the owners, according to another approved clause.

A clause to make the right of distress for taxes against goods and chattels permissible and not compulsory was voted out.

ON WOUNDING CHARGE.

OPPOSE BILL URGING LIGHTS FOR VEHICLES

Thirty Municipal Committee Members Regard Gooderham Bill as Huge Joke.

G. M. Gooderham's bill to compel all vehicles, motor driven or horse drawn, to carry a light visible from front and rear, received the supporting votes of just two members of the municipal committee yesterday. Representatives of farming constituencies were rabid in their denunciation of it. It was taxing the farmer for the sake of the motorist. It was drastic and tyrannical. It was the sort of bill that would come from Toronto, where they did not know that the sun shone east of Scarborough Bluffs.

Mr. Gooderham, trying to make himself heard above the hubbub, was heard to say that the provision was to benefit the farmers; that motorists really could not see wagons and democrats at night. It was done in Europe. Ontario should lead this country. Someone asked him if the act was meant to apply to baby carriages. Thirty voted vociferously against what they regarded as a joke, put in for educational purposes, perhaps.

The committee, when it understood what was meant, passed the clause giving the man on the right at intersections, the right of way.

DEWART'S BILLS DEFEATED

The government dealt unkindly with two of H. H. Dewar's bills yesterday. Both were defeated on division. One was to give members of the house the same right to examine books and papers of the T. and N. O. railway as the commissioners, and the other was to prohibit members of the house from taking contracts from commissions, placing them in the same position in this regard as the government.

G. H. Gooderham withdrew his bill to make the county judge the last court of appeal in assessment matters. Hon. I. B. Lucas frowned upon the measure.

DIED OF ALCOHOLIC POISONING.

That Walter Parker came to his death on Sunday, March 18, in the Reception Hospital, from alcoholic poisoning was the verdict returned by the jury at the morgue last night. The inquest was conducted by Coroner J. A. C. Evans, and evidence showed that Parker was a heavy drinker and had been removed to the hospital the night before he died in an intoxicated condition. He was unmarried and boarded at 27 Carlton street.

Sentenced For Desertion Despite His Verified Excuse

When he appeared in the police court a few days ago, Fred W. Corby, an absentee from a local battalion, claimed that he was unable to continue military work because of blood poisoning in his left leg. He stated as reason for his absence from his unit, that the medical officer at the camp persistently refused to treat him, and Col. Danison had him examined by the jail doctor. Yesterday, three doctors concurred in the opinion that Corby had a bad sore on his left shin which was liable to relapse. Capt. Home, who was one of the board that originally passed him, acknowledged under oath that Corby was not fit to be in the army. As a penalty for deserting, he was sent down for 20 days.

APPEAL NOT GRANTED.

Justice Clute at Osgoode Hall yesterday afternoon dismissed the motion of appeal of D. Onofrio against the decision of Judge Heald in the county court of Waterloo, who awarded the Berlin Brewery Company judgment for \$608.20 against Onofrio. Onofrio was a wholesale dealer and suggested to the brewery that they change their labels bearing the word "pilsener," which it was thought indicated German origin might injure the company's sales of the beer. The company refused to discard the labels, but offered to have a number printed for Onofrio at a special rate. The brewery claimed \$311.40 for the printing of the labels and \$196.80 in respect of empty bottles and cases not returned.

TRAVELOGUES NEXT WEEK.

French Red Cross Arrange Meetings in Guild Hall to Raise Needed Funds.

The executive of the local Secours National (French Red Cross) have arranged for a most interesting series of travelogues in the Y.W.C.A. Guild Hall next week. The first one starts Tuesday evening at 8.15, subject "The Holy Land," and will be of special interest to church people. Wednesday evening, "Holland and Belgium," Thursday "England," Friday "France," Saturday evening "The Story of Toronto." An admission of 15c will be charged.

CONTINUE AUXILIARY.

The women's auxiliary of the 160th Sportsmen's Battalion met at 310 Yonge street yesterday afternoon, to decide whether the members would go over to the 123rd or continue as a separate body. After some discussion it was moved that the auxiliary would continue along its old lines. The Sportsmen's Patriotic Association have promised the auxiliary a "smoker," the proceeds of which will be devoted to buying wool. Every woman who has relatives overseas in the battalion will be given two pairs of socks for every three pairs she knits, and in this way encouraged to keep up the supply.

This Ointment Possesses Power to Heal the Skin

Two Cases Which Prove the Extraordinary Healing Power of Dr. Chase's Ointment.

Peterboro, Ont., Feb. 22.—The use of Dr. Chase's Ointment is wonderfully satisfactory because you can actually see the results accomplished. It is surprising what changes can be brought about in a single night by this great healing ointment.

Mr. George Beavie, 119 James street, Peterboro, Ont., writes: "As a healing ointment, I consider Dr. Chase's the best obtainable. I had a large running sore on my leg, and although I had tried all the prescriptions of two doctors I was unable to get any relief from the pain or to get the sore healed. One day my druggist handed me a sample box of Dr. Chase's Ointment, and I used it with such good results that I decided to give the ointment a fair trial. Altogether I used four boxes, and am glad to be able to say that the sore on my leg is entirely healed up. Since this experience with Dr. Chase's Ointment I have recommended it to many people."

Mr. W. W. Oliver, Fort George, Annapolis Co., N. S., writes: "I am going to tell you my experience with Dr. Chase's Ointment. There was a spot came on my face something like a mole, but it kept getting worse, and several doctors whom I consulted said it was skin cancer, and that it would have to be cut or burned out. I intended having this done, but changed my mind when my brother recommended Dr. Chase's Ointment. Before I had finished one box of the ointment this skin trouble had gone, and has not bothered me since. I cannot praise Dr. Chase's Ointment too much, and you are at liberty to publish this letter."

If you have never used Dr. Chase's Ointment, send a two-cent stamp for a sample box, and mention this paper. Price sixty cents a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

SEVENTEEN NAMES IN CASUALTY LIST

Five Toronto Men Are Dead and One Believed Killed, is Safe.

Seventeen new names of soldiers known or related to Toronto people appear in the latest casualty list, and of these one is reported killed, one previously reported missing is now reported killed, one died of wounds, one illness, and one is presumed dead. Still another is missing, two are seriously ill, three are dangerously ill, five reported wounded, and one previously reported wounded and missing is now found to be safe with his unit.

Pte. H. Mills, 59 Logan avenue, reported killed in action, was a native of Ipswich, England, and had been in Canada four years. He was 27 years old and a steamfitter by trade.

Pte. W. J. Hall, first reported missing, is now reported killed. His sister lives at 72 Gilbert avenue. He was born in England, 27 years ago, and came to Toronto in 1912. He was employed by the city. His wife is at present in England.

Pte. Lindsey Deneys, missing since the battle of Zillebeke, is now presumed to be dead. He was born in Guelph, and is 23 years old. He enlisted with a C.M.R. unit, and survived by his parents at 1051 Dundas street, and three brothers.

Pte. Wilfred W. Switzer, nephew of Mrs. Hagan, 32 Strathcona avenue, has died of pneumonia. He was born in Toronto 28 years ago. He joined a Highland battalion at Kenora, where he had been working in the hardware business.

Gunner Jack Armstrong died of wounds March 15. He was a son of Samuel Armstrong, Mount Dennis, and was 21 years old. He was born in Scotland, and had been working in the Hamiltonian Company in the West Toronto factory.

Signaller G. R. Crisp, 81 Hounslow Heath road, has been missing since March 1. He is a son of Mr. and Mrs. Robert Crisp of the above address.

Three Dangerously Ill. Sergt. S. Chapman reported dangerously ill, was wounded last September. He enlisted from his home in Uxbridge with a Toronto battalion.

Pte. Samuel James McGill, whose wife lives at 138 Gladstone avenue, is reported dangerously ill of pneumonia. He was born in Ireland and came to Canada about four years ago.

Pte. P. Stevens, reported dangerously ill, lived at 1031 Danforth avenue. He trained at Niagara camp. Either one of two John Camerons who are at the front with a Toronto battalion is seriously ill. The address given in the casualty list is 44 McMillan street, but the number is that of Pte. Cameron of 356 Oakwood avenue, the latter's father and three brothers are all overseas.

Pte. C. R. Carter, reported seriously ill, formerly lived at Woodbine Beach, Toronto. He was born in England, 27 years ago, and is unmarried. His relatives are living in England.

Pte. E. J. Chappell, 110 Rhodes avenue, is reported wounded. He is 20 years of age and had been with the Somerset before coming to Canada two years ago.

Pte. W. J. Lord, reported wounded, formerly roomed at 23 Seaton street. He is an Englishman and is 32 years of age.

Pte. J. Butler, reported wounded, has been at 22 Alpine avenue. He came from England four years ago and worked in the C.P.R. offices at the Union Station.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddler, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the jammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not irritate the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

WELCOME MORE MEN BACK FROM OVERSEAS

Forty-Six Veterans Returned Yesterday and Were Given Enthusiastic Reception.

Forty-six more soldiers were welcomed back from overseas service yesterday. The party included 18 Toronto men, the remainder having enlisted in other central Ontario points. The war veterans received a double welcome, one being the regular official reception by representatives of the city and province in the auditorium of the Spadina Military Convalescent Home, and the other an impromptu ovation by the hundreds of pupils of Lansdowne public school, the soldiers being taken past the school playground just as the children were at morning recess. Many of the children broke bounds and gathered about the Spadina home entrance to witness the war heroes' entry.

During the formal reception at the home speeches of welcome were tendered by Hon. W. D. McPherson, provincial secretary; Arthur Hewitt, of the board of trade; Ald. Ramsden and Rydman, Rev. C. S. Applegath, representing the Toronto Ministerial Association; Sergt. W. H. Turley, representing the Great War Veterans' Association, and E. H. Scammell of Ottawa, for the Military Hospitals Commission.

Two soldiers returning yesterday who excited special interest were Lance-Corp. John Graham, who carries 40 scars from the war, and Pte. G. H. Wilson, who, although only 16 years of age, is a veteran of the battle of the Somme, bearing marks of shrapnel wounds in the side and back. Lance-Corp. Graham received all his wounds at one time when a high explosive shell burst near him. This also occurred at the Somme. His home is in Toronto. Pte. Wilson left Toronto with the 75th Battalion, but was later transferred to another unit. His home is at 1173 Dovercourt road.

MAKE RICH HAUL. Over Hundred Motor Cars Stolen in Toronto Since New Year.

From the first of the year to the present date no fewer than 121 motor cars have been stolen in the city. This is an average of one a day, but in view of the excellent work of the police every car has been recovered. While many of the thieves have been apprehended while in charge of the cars, the majority of the machines have been found abandoned for various causes. In no less than three instances damage to the amount of \$600, \$700 and \$800, respectively, has been done by these joy-riders.

IN NEW YORK HOSPITAL.

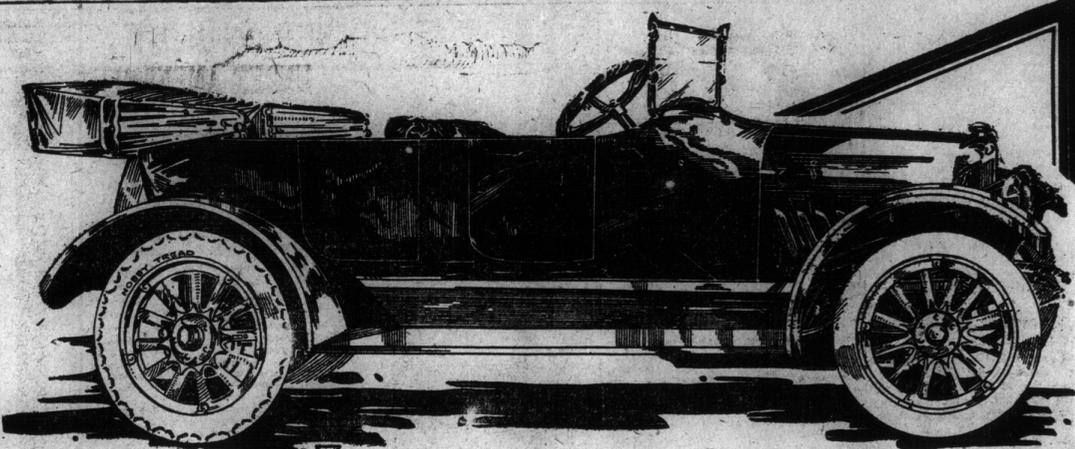

Informed Thursday night that her son, Vincent, had been injured in a street accident in New York, Mrs. Humphreys, 504 Manning avenue, and her daughter, left immediately for the metropolis. Yesterday morning, the mother telegraphed the other members of the family that her son had a fractured skull and was still in a critical condition in the Polyclinic Hospital.

TWENTY-FIVE MILL TAX RATE.

A 25 mill tax rate for Toronto is prophesied for this year. Mayor Church has ordered every department to make a list of items to be cut, and once more to prune them severely, but every commissioner says that unless salaries are cut they can make no substantial reduction. There are several items of capital expenditure, tho, that the board of control will cut when they go over the estimates.

ACTION DISMISSED.

The case of Benj. D. Davies against the C. P. R. for \$1000 damages for malicious prosecution, was dismissed with costs by Judge Derzon in the non-jury county court yesterday. The action arose out of the arrest of Davies while traveling in charge of cattle, and his honor held that there was no malice in the action of C. P. R. detectives.

WESTERN SOLDIERS FAVOR LAND PLAN

Believe Some Scheme is Necessary to Meet Conditions After the War.

INVESTIGATION CLOSES

Col. Marlow Will Protest Unless Details of Dispute Are Recorded.

The parliamentary committee closed its investigation at the city hall last evening after hearing further complaints regarding the treatment of returned men and many valuable suggestions for the reconstruction period from witnesses from western Canada. Sir Herbert Ames, chairman of the committee, expressed satisfaction with the nature of the evidence adduced, and declared that it would be found of great help to the government in adjusting conditions.

Advocated Land Scheme.

Sergt.-Major Guilfoyle, Pte. G. Wells and Pte. H. Hodgson, representing the European War Veterans' Association of Calgary, spoke of the conditions among returned men in their district, and had several complaints to make. They stated that the men of their association were very keen to work on the land and would welcome a scheme proposed by the government. They believed that a land scheme was absolutely necessary for present and after-war conditions. All Canadians who had joined British regiments or those of the allies should be entitled to the privileges of any land scheme.

Should Disfranchise Aliens.

He declared that the government should disfranchise all alien enemies and all those who had been naturalized within the last five years. They were in the majority in some districts of the west, and he was certain that their vote would be detrimental to returned soldiers.

Should Disfranchise Aliens.

It would be a good plan if the government took over military tailoring, shoemaking and saddlery, and employed only returned soldiers. This would be one of the ways to meet the unemployment situation in the reconstruction period, and would also give employment to men who were partially disabled.

LLOYD GEORGE'S MOUNTAIN.

Ottawa, March 23.—"Lloyd George" is the new name of a mountain and glacier at the head of the Kwadacha River, in British Columbia, so called by the geographic board after the British prime minister.

complaints of delay in payment of pensions and allowances. Men who had received injuries under twenty per cent, should be given a pension, and not a gratuity, which, he said, was inadequate and unfair. He thought that the family of a man who had been discharged and who died from injuries received on active service should be paid a pension. The committee thought the suggestion was worthy of consideration.

While the suggestion was not made because of treatment of returned men, the witness was of the opinion that a state asylum for the care of demented soldiers should be established, so that they would not have to mingle with criminal lunatics. It was not fair that men who had become insane in the service of their country should have to associate with insane and immoral alien enemies.

There also should be an orphanage for the children of soldiers. The children would then be protected against the evil environment of undesirable guardians.

Mr. Drinnan, speaking on pensions, declared it was unfair that officers who had not served under the same conditions as a private at the front should receive the gratuity and pension of their rank after returning to Canada. Men who had had no previous military experience were given command of battalions and took them overseas.

"But they never get to France," said Mr. Ross. "I should hope not," replied the witness.

Dr. Brown, representing the Y. M. C. A., told of the work being done for returned soldiers in convalescence and vocational training.

G. Harmon Jones, Regina Soldiers' Aid, said the veterans expected a definite land scheme from the government, and the outlined three plans by which the soldiers could be attracted to farming.

The Week in Business.

The week in business has been featureless. Wholesale dry goods houses report a seasonable trade, with woolens hard to obtain and uncertain as regards value. Linens and cottons firmly held, with an upward tendency. Linen sheetings are practically out of the market.

Military and fancy goods houses report business better than at the corresponding period last year. With seasonable weather retailers expect a marked improvement.

Hardware, oils, leather and drugs report a fair demand with prices firm. Collections are still slow, but an improvement marked the close of the week.

Toronto buyers returning from New York this week state that large stocks of leather goods, novelties and certain lines of neckwear are being offered at prices below the cost of production, but owing to changes in style a quick turnover is essential to make a purchase profitable in this market.

In the produce market the features of this week has been the decline in the price of potatoes and eggs, and a further drop is predicted.

POTATOES SHORT WEIGHT.

Convicted on the testimony of two men who had turned crown's evidence, John Strickland, a pedlar, was yesterday in the police court sentenced to thirty days imprisonment for selling short weight potatoes. The two witnesses, John Galvin and John Longo, were themselves committed last week to ten days in jail for a similar offence. On that occasion there was no conviction against Strickland. On the evidence they gave they were pardoned, while Strickland was convicted.

FOUNDED 1827. A morning newspaper published every day in the year by The Toronto World Newspaper Company of Toronto, Limited. Editor, J. J. Maclean, Managing Director.

SATURDAY MORNING, MARCH 24

A Non-Partisan Effort.

An organization which induces public men of all parties, irrespective of affiliations, to work together in earnest and active co-operation, which forwards the efficiency of the nation in the presence of its war obligations, and which cultivates a broader and more practical national spirit, is something to applaud and support.

This is what the "Organization of Resources Committee" has set out to be, under the non-political auspices of the Ontario Government and opposition, and was made evident at a private gathering of representative men, members of the committee, and editorial writers, yesterday.

The committee has recognized the necessity for the creation of public opinion in this campaign, as in so many others, without a realization of the need, the energy of society can never be awakened.

Mr. Rundle pointed out that the farmers needed more help to get on with their work. Two plans were being evolved and eagerly approved by the farmers in this connection. One was a movement to get high school lads to spend their summer in the country helping on the farms.

Mr. McGarry pleaded the backing of the government, financially and otherwise, in all that the committee determined, and he acknowledged the unreserved assistance the government had had from Mr. Rowell and the opposition generally. Mr. Rowell endorsed the policy of co-operation.

This is the beginning of highly important work in the city, and, as the committee unfolds its plans, it will become the duty of the press to arouse and stimulate the interest of the public generally in a movement which so nearly concerns the welfare and prosperity of the nation.

Only One Way to Clean Up. We are not going to get anywhere by such letters or speeches as may follow the utterances of Sir Adam Beck and Sir William Mackenzie. It would be in the least degree undesirable that the hydro-electric or hydro radial movement should become involved in personalities.

It appears doubtful whether the city is really in earnest about obtaining the utilities, and the company shows no disposition to do so. In an impasse of this description, only the intervention of a superior authority could effect anything.

Germany Must Be Unkaisered! From The Toronto World, March 2: The Kaiser is a scoundrel. So, all of his brood, The Hohenzollerns' divine right must give place to a people's government.

rise. In that case the slaughter will be worse even than in Belgium. But that is what menaces the German people for their blind obedience to the war.

The Hotel Problem. Under the above caption The Ottawa Journal Press calls attention to the fact that one large hotel in Toronto is closed and that others have threatened to close on account of prohibition.

The result was that the small hotel-keeper came to look upon the traveler as a necessary nuisance, to be tolerated only because he denied him accommodation would be to suppress the liquor license.

Quite naturally the innkeeper, from time immemorial, has served drink as well as most to his guest. Our blunder in Ontario has been the emphasis we placed on the liquor and the business.

Mr. McGarry proposed the backing of the government, financially and otherwise, in all that the committee determined, and he acknowledged the unreserved assistance the government had had from Mr. Rowell and the opposition generally.

Of course, a city or town without a good hotel is standing in its own light, and, therefore, we may be asked: "Is the province or municipality to enter the business or subsidize the business of hotel-keeping?"

So far as Toronto is concerned, it is ridiculous to say that a hotel cannot make its way without a monopolistic license to sell liquor. The Mills hotels in New York, the primarily built for philanthropic purposes, earn dividends.

Now that the great struggle approaches its climax the optimists are not yet above the horizon. The strata of class distinction persists. There has been a great increase in the number of wounded in hospitals and the bringing together of many thousands of women of all ranks in connection with the war.

Conflict of Sexes. The danger now is that this conflict of the sexes may be renewed, not in relation to political affairs, but in connection with the enforced intrusion of women into our occupations.

BAD BILL GETS GAY WITH THE SHERIFF OF NEUTRALITY COUNTY

OLD CASTE SYSTEM STILL CONTINUES

War Has Not Broken Down All British Class Distinctions.

PERSISTS IN ARMY

Exclusiveness Still Remains Among Old Regular Officers of Service.

London, March 24.—Will a far-reaching measure of social reconstruction follow the war?

Have the newly-discovered voices of ex-patience and compassion, and understanding and national solidarity, power to burst thru the stratified crust of the English social system and cover up caste and class prejudice?

In the first year of the war many people declared that things never would be the same that great, far-reaching changes would result from the calling up of the nation's manhood for service in the field and the spinning of the threads of the war.

Now that the great struggle approaches its climax the optimists are not yet above the horizon. The strata of class distinction persists. There has been a great increase in the number of wounded in hospitals and the bringing together of many thousands of women of all ranks in connection with the war.

Conflict of Sexes. The danger now is that this conflict of the sexes may be renewed, not in relation to political affairs, but in connection with the enforced intrusion of women into our occupations.

Germany Must Be Unkaisered! From The Toronto World, March 2: The Kaiser is a scoundrel. So, all of his brood, The Hohenzollerns' divine right must give place to a people's government.

Officers Furnish Problem. At the other pole of the class system the insistence on the doctrine that a man should remain in that station of life in which birth and the accident of environment have placed him is illustrated by the protest of A. MacCallum Scott, M.P., against the alleged action of the officers of the regular army in holding for themselves the positions of greatest power and emolument—in the vast military machine created since the war began.

Mr. Scott, here we go to find out station of life in which birth and the accident of environment have placed him is illustrated by the protest of A. MacCallum Scott, M.P., against the alleged action of the officers of the regular army in holding for themselves the positions of greatest power and emolument—in the vast military machine created since the war began.

That it is admittedly not solved after two and a half years of war is due in no small degree to the fact that the officers of the regular army before the war constituted one of the most exclusive of the castes, having their own clubs and means of recreation, and did not mingle with the masses.

Beneficial Changes. In one important respect the outlook for the future is bright and becoming brighter daily. The reorganization of industrial processes is almost certain to add greatly to the national wealth and comfort.

Gains New Ideas. Britain, urgently needing shipping, has turned to the standard vessels and will be able to produce plates, engines, and spare parts in the event of submarine damage or injury by collision, which can be used in any one of the vessels of the standard class.

DOG OWNERS FINED FOR LOSS OF SHEEP... Markham farmers are exasperated over the damage inflicted by dogs running among their flocks and killing sheep. Magistrate Brunton dealt with a case that has excited a great deal of interest throughout the township, and held the retention of a big crowd of farmers in Markham Village all day. Fred Silverthorne, a farmer living on the 4th Con. of Markham, brought action against Fred Reid and David Boyd, neighboring farmers, to recover the value of sheep killed by their dogs. Silverthorne's sheep alleged to have been worried by dogs belonging to Reid and Boyd. The dogs were traced from Silverthorne's buildings to their respective owners, and they disclaimed ownership. Reid and Boyd swore that their dogs were chained up all night in their own barns, judgment was given against Reid and Boyd for the damage to \$270 in all, of which Reid was ordered to pay \$130 and Boyd \$140. Another case determined by the magistrate was that of Nell Brown, former tenant of the Tremont House, who was charged by the landlord, James Pitts, with having sold several of the dogs belonging to the land and house. Brown was committed for trial at the county assizes, and was granted bail of \$500.

ACCEPTS WESTON CALL... Rev. Mr. Stewart of Owen Sound has accepted a call to the Methodist Church, Weston, as pastor for the coming term. Goes to Barrie. Weston has lost a very energetic and active citizen in the person of A. G. MacLellan, who has been promoted to the position of manager of the Bank of Nova Scotia at Barrie, Ont. Aitho only a resident of Weston for a short time, Mr. MacLellan was identified with all the progressive movements, being treasurer of the local Red Cross, a member of the board of trade, and a director of Weston, York and Etobicoke Fair. Shipments for Belgium. The local Belgian committee are busy preparing another shipment for the first of the month. A number of the members accepted the hospitality of Mrs. Ward to meet and carry ahead the work. SETTLEMENT IMPROBABLE. Markham Agricultural Hall Trouble Will Involve Further Litigation. When E. S. Neville, official referee at Onondago Hall, after dining the lien registered against the new Agricultural Hall in Markham Village, adjourned further investigation until the 29th of the Markham Fair Board, and John Miller, the contractor, could get together and effected an amicable settlement. He offered an equitable offer to Mr. Miller, but all hopes of a settlement are now said to have been abandoned. Owing to alterations in the plans, Mr. Miller is said to have been put to largely increased expense. Feeling through the county is strongly in support of some compensation. In the event of no settlement, the referee adjourned the suit until April 10.

LOSES TWO SONS IN WEEK... Robert Switzer, 116 Glendale avenue, has received word that his youngest son, Norman, has been killed in action. He has now lost two sons, word of the death of his eldest boy while fighting, being received earlier in the week. Mr. Switzer is confined to his home as the result of a motor car accident recently.

New Method of Reducing Fat... A news item from abroad informs us that the American method of producing a slim trim figure is meeting with astonishing success. This system, which has made such a wonderful impression over there, must be a wonderful improvement on the old one. Anything that will reduce the excess flesh two, three or four pounds a week, without hurting the stomach, the causing of wrinkles, the help of exercising or dieting or interference with one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of these necessities, however, follows in these pleasant, harmless and economical little fat reducers. We say pleasant, because the Marmola Prescription Tablets made in accordance with the prescription can be obtained from the drug store, or the Marmola Co., 84 Woodward Ave., Detroit, Mich. For decidedly economical price considering the number of tablets each case contains. They are harmless.

FORM AGRICULTURAL SOCIETY... The Farmers' Club of Pickering Township is one of the latest associations to be formed in the interest of agriculture, and at the organization meeting, held yesterday, with Fred Richardson in the chair, the following officers were elected: W. E. Westwood, president; A. J. Crawford, vice-president; and A. Johnson, secretary-treasurer. More than 50

Work County and Suburbs EXPRESS CAMPAIGN IS STILL ACTIVE Earls Court Citizens Pass Resolution Calling for Changes in Railway Act.

"Free Boze and No Food" was the subject of discussion at a mass meeting held in the Oakwood Collegiate Institute, Oakwood avenue, last evening, under the auspices of the Citizens' Express and Freight Campaign Committee, the members of which have been fighting for the last twelve months to compel the express companies to deliver food free with their charges, but so far without success. The committee, however, are determined to deliver food free everywhere. The following resolutions were adopted: (a) That the minister of railways be petitioned to amend the Railway Act, requiring that where any application comes before the Dominion Railway Board for relief under the act, judgment shall be delivered within a period not exceeding three months from the date of the receipt of such application, and that in default of judgment being given within the period of three months, a new application may be forthwith re-entitled by the applicant, and the evidence adduced in the previous application, or any additional evidence may be submitted in support of such further application. (b) That the express companies be petitioned to deliver food free with their charges, but so far without success. The committee, however, are determined to deliver food free everywhere. The following resolutions were adopted: (a) That the minister of railways be petitioned to amend the Railway Act, requiring that where any application comes before the Dominion Railway Board for relief under the act, judgment shall be delivered within a period not exceeding three months from the date of the receipt of such application, and that in default of judgment being given within the period of three months, a new application may be forthwith re-entitled by the applicant, and the evidence adduced in the previous application, or any additional evidence may be submitted in support of such further application. WHEN FIGHT IS OVER WILL PLAY DEFENCE

Ottawa, March 23.—Harry Broadbent, right winger of the championship Ottawa hockey team of 1915, writes from France that he has a new ambition. "Punch," who has been made a sergeant for his good work, recently enjoyed a furlough in London. He took in all the sights along Piccadilly and the Strand, after which he had his photo taken. Harry took a lot of Ottawa boys there, sent his best regards over via those who were homeward-bound, and then crossed the channel back into shell-shocked France to participate in the big allied drive, which is now in progress.

ANOTHER WORLD'S RECORD.

Grand Rapids, Mich., March 23.—The sixth world's record to be made at the American Bowling Congress here was established today by J. P. Garrett of Kokomo, Ind., who rolled 721 in the doubles. Mediocre work by his team-mates, Knave, gave them only 1214 for their three games. Garrett's scores were: 248, 268 and 215. He did not have an open frame on his sheet.

LAST MINUTE RUSH TO BUY WAR BONDS

Large Number of Small Investors Buy Bonds on Closing Day.

So numerous were the last minute subscriptions to the third Canadian war loan that brokers in Toronto were very busy getting the business placed, and the banks had to keep their books open in order that the brokers might have sufficient time to complete their work, all of which had been put thru yesterday.

While the large corporations and companies have done even better than was expected of them all the brokers unite in giving great credit to the individual buyers, who for the first time have entered the bond market, mainly because they regarded it as their patriotic duty.

The following subscriptions were among those announced yesterday: Sidney Spitzer & Co., of Toledo, \$100,000; Royal Templars of Temperance, \$10,000; Commercial Travelers Association of Toronto, \$75,000; Phoenix Assurance, \$150,000; J. F. Steedman, \$100,000; Dominick and Dominick, New York brokers, \$100,000; Provincial Paper and City of Westmount, P.Q., \$60,000; Swift Canadian, \$50,000; John McMartin, of Cornwall, \$50,000; Senator Curry, \$25,000; Mrs. K. R. Bognard, \$25,000; North British and Mercantile, \$25,000; David Lawson, \$25,000; Commercial Travelers Association, \$75,000; and Lieut.-Col. R. W. Leonard, St. Catharines, \$200,000.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "Fruit-a-tives."

ALBERT VARNER.

Buckingham, Que., May 3rd, 1916. For seven years, I suffered terribly from severe headaches and indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth a few seconds, while at times I had nausea and vomiting, and had chronic constipation. I went to several doctors and wrote to a specialist in Boston, but without benefit.

W. L. McKinnon and Company, a local bond firm, stated that about ten per cent of the subscriptions placed thru them had come from U. S. investors. The firm applied personally for \$100,000 of the loan.

ORSINI SUIT DISMISSED

Mr. Justice Britton yesterday dismissed without costs the suit of Emilus Orsini against Frank Bott for \$1,403, alleged balance due for work done and material supplied in the erection of an apartment house at the corner of Gerrard and Morley avenues, and of a warehouse on Laplante avenue.

THE FORMAN MYSTERY

By GEORGE HUGHES.

(Continued From Yesterday).

"Mother has gone down town," Miss Forman explained, as Warrenner followed her into the room, and helped her to her chair. He seated himself on the couch opposite. "I felt a little better today, so mother and Nora decided to take a little airing."

"That is all right as long as you don't over-exert yourself." They conversed on various topics for a time, without either referring to the events of the last interview. Conversation lagged for a space, each a prey to their own thoughts.

Presently Miss Forman resumed. "I hope you will forgive me for the un ladylike manner in which I acted the other day, doctor," she appealed. "I behaved like a spoiled child."

Ever impulsive and generous, Warrenner hastened to assure her that she was forgiven.

"Probably I went a little too far at the time," he conceded. "But I had been more diplomatic in approaching you on the matter, but when one is nearly dead with suspense and anxiety it is not easy to choose nice words and delicate phrases. However, it does not matter now. The whole affair is out of my hands and in those of the police."

"What do you mean?" Miss Forman sprang to her feet as she put the query. Into her eyes had leaped a terror that Warrenner had never seen there before. Her breath came quickly, and her voice was tremulous.

Warrenner briefly related the story of the detectives' visit to his home. "It was none of my fault that they became possessed of the information," he went on. "Unfortunately the boy from whom I purchased the weapon was the son of a policeman. He told his father of the occurrence, and the father felt in duty bound to inform the authorities. When the detectives explained, I could do no other than give it up."

It was a long time before she answered him. She had slipped back into her chair, her dark head buried deep into the pillow, on her face that brooding look which betokens melancholy meditation.

At last she broke the silence. Looking up into his face, she said, her voice subdued: "I don't blame you in the least, doctor." She blushed furiously at the slip, while Jack's heart skipped a beat and his soul leaped to the pinnacle of delight.

"What has happened was last I have studied things over, and have come to the conclusion that an explanation is in order. But I must first investigate and see if what I assume is true."

"But can't you give—" Warrenner's utterance was abruptly terminated by the sound of the doorbell, and he swore under his breath at the interruption. Miss Forman started from her chair with the evident intention of opening the door, but Warrenner was before her. He scowled his door and faced Mrs. Forman and Nora.

His expression changed as he greeted them. Ten minutes later, he left the house and the attractive personality of Edith Forman, a prey to the dread that had preceded his visit there.

Business the next day called Warrenner to the medical health department. The day was dull and lowering, eloquent promise of the storm to come, and the heat was stifling. He descended from his car at the John street entrance to the city hall, entered the building, and speedily completed his business. Having time to spare, he decided to stroll in the direction of the detective office and enquire if there were any fresh developments in the Forman case.

He mounted the wide steps from basement to main floor, emerging opposite the doorway leading to the detective department. As he approached he saw three men coming along the main corridor in the direction of the department. Two of them were tall and broad, while the third man was short and slim, a strong contrast in physical proportions.

They rounded the banisters which encompassed the well of the staircase, and he recognized them as Barton and Waller and the stranger. The recognition was mutual. The detectives halted, and greeted Warrenner, but their companion, without either glancing to right or left, hurried onwards into the office.

"Anything new?" Warrenner queried, opening the conversation. His eyes followed the cloth-clad back of the stranger meanwhile.

"Not yet—but there may be," was Barton's cryptic reply. Warrenner's heart stopped in its beat. A cold terror seized upon him, and his whole body shivered with apprehension.

"Have you learned anything fresh?" He tried to steel his voice, but it carried a ready note and ended in a quaver. He wondered if the detectives noticed it.

"But if so, they did not mention it. Instead, Barton answered: "We're on the track of something which may pan out big, or it may end in a fizzle. It's just a toss-up."

And with that they separated, they to the office, he to the corridor, thence to the street.

To City, Town and Village Dwellers in Ontario

"Many mickles make a muckle"

All our public men and leaders agree with increasing strength of conviction that, in the fateful days which lie before us in this sternest year of the war, the food supply is going to be a vital factor in the final decision.

The hour has arrived when the efforts of every man, woman and boy who can help to increase production will count in the scale of victory. The helpful possibilities of back yard gardening are immense. For instance, the Medical Health Officer of Toronto states that there are 2000 acres of available back yard garden space in that city. This space would be sufficient to grow enough vegetables to supply the whole community.

Towns and villages have, as a rule, much larger garden spaces than the crowded and congested large city. Think of the effect upon the high cost of living if every one would grow vegetables! Think of the money saved that would otherwise be spent for vegetables, the labor that would be released for vital war work and the increase of the urgently needed surplus of food for export. Let the slogan for 1917 be,

"A vegetable garden for every home"

The Ontario Department of Agriculture emphasizes the importance of vegetable growing to every one who has even a few square feet of ground. Do not think that your small effort will not be worth while. Every garden, however small, is worth while and will count in this critical year of world wide shortage of food.

ating interest by forming organizations to offer prizes for best vegetable gardens. Every possible assistance will be given any organization encouraging vegetable production on vacant lots. Write for free literature giving instructions about implements necessary and methods of preparing the ground and cultivating the crop. A plan of a vegetable garden indicating suitable crop to grow, best varieties and their arrangement in the garden will be sent free of charge to any address.

Write for Poultry Bulletin which tells how to keep hens—the waste from the table in an average home is sufficient to feed them. They are not expensive to keep and you will be highly repaid in fresh eggs.

AGNES ST. EXTENSION IS REPORTED AGAINST

The works committee yesterday asked Commissioner Harris for a report on the advisability of asking the Toronto Street Railway Co. to link up the Dundas car line with Wilton Avenue, by an extension of the tracks on Agnes St. to Yonge, and on Wilton from Yonge to Victoria. In view of the adverse reports of the civic officials the idea of an extended Agnes street, at a cost of \$250,000 has been abandoned. It is suggested that the new thru car line could connect up with the new Pappe avenue line.

OVERCROWDING CASE AGAIN.

Mayor Church yesterday stated that the city bill to seek relief from overcrowding street cars will be reintroduced in the private bills committee of the legislature on Tuesday next.

Flattering to the Original

But Imitations Only Disappoint There are many imitations of this great treatment for coughs, colds, croup, bronchitis and whooping cough. They usually have some sale on the merits of the original, but it should be remembered that they are like it in name only.

TEMPERANCE MEN SAY SUCH TALK IS FOOLISH

Deny That Canada Would Withdraw Soldiers if British Liquor Laws Are Not Amended.

"Absolute nonsense" was the emphatic statement of J. A. Austin, Dominion councillor of the Royal Templars of Temperance when asked by a reporter from The World regarding a despatch from a London correspondent that appeared in an evening paper yesterday, stating that The British Weekly printed messages from the Royal Templars from Toronto, and the Social Service Committee of Halifax. The latter body according to the despatch, declares that if Britain dallies much longer with liquor, she may expect a growing Canadian sentiment for withdrawing support in the war and the calling of the men home.

Dr. Austin said there was not a prohibitionist or temperance man in Canada who held such opinions. He characterized the statement as "buncombe." Mr. Austin has had a son at the front since the first contingent went over and stated that he let his son go over knowing the temptations to which he would be subjected and if he had a dozen sons they would follow their brother.

W. M. McMillan, the grand secretary of the order, characterized the statement as sheer nonsense so far as the Royal Templars were concerned. At the meeting of the Ontario branches of the order in Toronto, in February, a petition had been sent to Lloyd George, thru the premier, concerning in the petition of two millions of people of the United Kingdom asking for prohibition during the war and stating that the meeting regretted the rum ration and the environment of liquor in which the Canadians trained in England.

HONORABLY ACQUITTED.

Archibald B. Jarvis, superintendent of the Canadian Carbonate Company, Limited, was honorably acquitted when he came up in the police court yesterday by the withdrawal of the charge of criminal negligence. The case arose out of an accident that happened on Dundas street recently when an acetylene gas tank, loaded on a lorry, rolled to the pavement and exploded, doing damage to the extent of \$1000 to adjacent property.

Patrols Are Increasingly Vigilant and Artillery Shows New Vigor.

Canadian Headquarters in France, March 23.—As his retreat in the valley of the Somme slackens, the enemy has wakened up again on the Canadian front. His patrols are increasingly vigilant, and his artillery, which for a time has been so quiet, is to induce doubt as to whether he meant to fight or withdraw, is now returning the fire of the Canadian batteries with new vigor.

Aerial operations are now better, and keep our flying men and Archies busy. Men along the front are greatly heartened by the news that the enemy is at last heading for home, the such wanton destruction as cutting down fruit trees angers them almost as much as if Germans were ravaging Niagara peninsula.

The way in which all British troops begin to regard the soil of France in defence of which so many of their lives, bravest have been sacrificed, is a clear indication that the alliance of France and the British Empire will last long and become even more intimate, especially if Russia, France's other ally, becomes a constitutional monarchy or a republic, and is modernized industrially. These matters are far more discussed at the front than even the progress of the war.

Find Canadians Ready.

Evidence was supplied this morning by the enemy on the Canadian front that the general retirement south of Arras has not yet extended to the region held by the Canadians.

The German guns, which have been returning a sporadic fire to the increasing volume of our fire, suddenly opened up with great vigour yesterday. After artillery preparation, a raiding attack was made in the early dawn on the Canadians, who took a number of prisoners in the raid the previous evening. The Canadians were ready for the enemy, and a heavy fire was at once directed on the attacking force, which sustained considerable losses without at any point penetrating our line.

The nature of the enemy's barrage is considered evidence that his artillery is still in position along this part of the front.

Prisoners recently taken profess entire ignorance of any measures looking to a withdrawal.

The great events transpiring south of Arras have made the news here optimistic, and once more the cry is heard, "Christmas in Canada!"

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, aching stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid combined of grape and lemon juice, combined with lithia, and is harmless to flue-clogged kidneys and stimulate them to normal activity, it also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

BE PREPARED! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, grayed or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray is disappearing and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur is the only preparation for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Finishing a Telephone Talk. It is a good practice to close a telephone talk by saying "good-bye." If you hang up without doing so the party to whom you are talking may continue to talk or remain at the telephone wasting his time and keeping the line "busy." "Good-bye" or "Thank You" at the end of a telephone talk is a signal to hang up without delay—it terminates the talk graciously and effectively. The Bell Telephone Co. of Canada. Physicians Explain Why Women Need More Iron in Their Blood Today Than 20 Years Ago Say Anaemia—Lack of Iron is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

Dr. Howard James, late of the United States Public Health Service, says physicians should prescribe more organic iron—Nuxated Iron—to correct the great drain nature has placed upon women at certain periods and to supply the iron deficiency resulting from a demineralized diet now being served in thousands of homes. Opinions of Dr. Ferdinand King, New York Medical Author, and other physicians who have thoroughly tested the value of Nuxated Iron.

Any woman who tires easily, is nervous or irritable, looks pale, haggard and worn should at once have her blood examined for iron deficiency—administration of simple Nuxated Iron will often increase the strength and endurance of weak, nervous, careworn women 100 per cent. in two weeks' time.

There can be no strong, healthy, beautiful, rosy-cheeked woman without iron, says Dr. Ferdinand King, New York physician and author. "In my recent talks to physicians on iron deficiency in the blood of American women, I have strongly emphasized that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby, the muscles lack tone, the brain fags, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks."

"In the most common foods of America—the starches, sugars, table syrups, candies, polished rice, white bread, crackers, biscuits, macaroni, spaghetti, saploca, sago, farina, demerolized cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and the methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, if you wish to preserve your youthful vim and vigor to the end of life you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Howard James, late of the United States Public Health Service, says: "In my opinion, organic iron is beyond question the greatest of all strength-givers. If people would only take Nuxated Iron when they feel weak or run down instead of dosing themselves with purgative, cathartic, stimulant and alcoholic beverages, I am convinced that in this way they could ward off disease, and escape a host of ailments and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, influenza, kidney, liver, heart trouble and other dangerous maladies. The real cause which started their disease was iron deficiency. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You can't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient recently remarked to me (after having been on a six weeks' course of Nuxated Iron), 'Say, Doctor, that stuff is like magic. It's proven to me—Nuxated Iron—'"

THE CHILDS APPEAL: WHAT IS YOUR ANSWER?

Mother, why don't you take NUXATED IRON and be strong and well and have nice rosy cheeks instead of being so nervous and irritable all the time and looking so haggard and old? The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks years younger and feels just fine.

You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeked women full of Life, Vim and Vitality—while those who lack iron are often cross, nervous, irritable, weak, tired, complaining creatures whom nobody wants to have around.

of many years' experience in this country and who has been given many honorary titles in England, says: "I do not make a practice of recommending advertised medicinal products, but I have found Nuxated Iron so potent in nervous, run-down conditions, that I believe all should know of it. The men and women of today need more iron in their blood than was the case twenty or thirty years ago. This is because of the demineralized diet now being served daily in thousands of homes and also because of the demand for greater resistance to offset the great number of health hazards to be met at every turn."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in the most varied cases of iron deficiency, is well known to druggists and whose constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such confidence in nuxated iron, that they offer to forfeit \$100,000 if the great number of health hazards to be met at every turn.

Dr. E. Sauer, a Boston physician, who has studied both in this country and in Europe, says: "I am a great believer in Nuxated Iron, it often acts almost like magic on a man who has lost his vitality and vigor. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. At 30, he said, he was taking iron—nuxated iron had filled him with renewed life. At 35, he was in bad health; at 46 he was careworn and nearly all in—now at 50, after taking nuxated iron, he is a man of vitality and his face beams with the buoyancy of youth." Dr. T. Alphonso Wallace, a physician

Coleman, the Liquidator herein, 15 Wellington Street West, Toronto, at the hour of 12 o'clock noon, on Wednesday, the 11th day of April, 1917, the interest of the liquidator and of the Official Referee in the said estate of J. J. Coleman, consisting of the following mining location: The northeast quarter of the south half of lot No. 2, in the conditions of the Township of Lorraine, containing forty acres more or less held under Land Titles Certificate No. 123, in the District of Lorraine, in the County of Lorraine, in the Province of Ontario.

The above property stands in the name of the said J. J. Coleman, Limited, but a claim has been filed with the liquidator on behalf of the Official Referee, claiming that the said company is the beneficial owner of the said property and that the said J. J. Coleman, Limited, is a mere trustee of the said property for the benefit of the said Official Referee.

By the order of the Official Referee, the liquidator will give no covenant and will sell only such interest as he may actually have in the said property, and he will not be bound by the validity or condition of the title or any encumbrances of whatever nature.

Dated at Toronto this 23rd day of March, 1917. WILLIAM ROBERT SMYTH, 111 C.P.R. Building, Toronto, Solicitor for the Above Named Liquidator.

New Toronto

The Great Manufacturing Centre

STOP 21, LAKE SHORE ROAD.

There have been more sites sold for new factories in this district, in the last year than in any other section in and around Toronto. Land is increasing in value. We are offering some very choice lots on 5th, 6th, 7th, 8th, 9th, 10th and 11th streets, also on the Lake Shore road. These lots can be purchased on very reasonable terms, and at the right price. Don't overlook the fact that lots on the Lake Shore road are greatly increasing in value. Improvements in the shape of sidewalk, sewer, light, are going in, and the new Toronto-Hamilton boulevard will soon be completed. It is impossible to get houses in this district, buy a few lots and build or buy for investment. We recommend lots in this district as recommended purchase at the prices we are asking today.

TODAY AT SIMPSON'S

The Chief Point About Our Boys' Clothing is Their Reliable Quality

When we buy Boys' Clothing the quality of the materials is our first consideration—when we have obtained the right qualities we begin to concern ourselves about styles and prices. The following items prove that we lead in styles as well as in quality at each of these prices:—

Three Big Specials for Today

78 Boys' Tweed Norfolk Suits offered for 8.30 selling this morning. Coats are single-breasted models in two styles. Pleated back and front to sewn belt; others plain front, pleated back and loose belt. Bloomers are lined and have belt loops and expanding knee bands. Grey and brown stripes, checks and plain weaves. Sizes for boys 7 to 14 years. **4.95 Special**

150 Fancy Yoke Norfolk Suits for boys 7 to 16 years of age, beautifully tailored from imported tweeds and worsteds in fashionable grey and brown check patterns and blue grey mixtures. Coats are single-breasted with pleats down each side of back and front to stitched belt. Patch pockets. Today **6.95**

Boys' Pinch-back Suits, the most popular suit of the season. Tailored from medium weight tweeds in seasonable grey and brown mixed check patterns. Single-breasted models with peak-shaped lapels, side and breast patch pockets and pinch-back. Bloomers are lined throughout and have belt loops and strap and button knee. For boys 7 to 18 years. Today, special **5.95**

Other Splendid Values in Boys' Better Class Clothing

We are featuring a very smart Norfolk Suit with extra bloomers. Imported homespun material in a seasonable grey mixture. Coat is single-breasted with smart lapels, knife pleats down each side of back and front, and three-piece all-around belt sewn across back only. Patch pockets. Sizes 7 to 17 years. With extra bloomers **11.00**

Boys' Blue Serge Reefers in the popular double-breasted box back model. A dandy little coat, tailored from an imported navy blue cheviot with black velvet collar. Brass C. R. buttons. Sizes 20 1/2 to 28. Price, **\$6.50**; sizes 29 to 34, price, **\$7.50**.

Another fashionable suit is shown in the new pinch-back effect. Smartly tailored from a grey check cassimere finished tweed suiting. Single-breasted with medium width lapels, patch pockets and three-piece all-around belt. Sizes 25 to 30, price, **\$11.00**; sizes 31 to 34, price, **\$12.00**.
