Allied Conference is In Session in Paris

Will Deal With The Recent Action In Berlin

JOINT STATEMENT LIKELY

Let Out True Situation, Particularly For Doped People of Russia and of Austria-Hungary

Lloyd George and Balfour Attend

Paris, July 25.—The labors of the Allied conference will not be limited to the Balkans. For one thing it is important to clear the air after the Reichstag last week. Although Premier Lloyd George has already replied to a certain extent to the speech of Chancellor Michaelis, it is desirable, says the Matin, that a joint statement on what happened at Berlin so that Germany's peace overtures may everywhere be checked and reasons given why they are rejected which the Allies cannot accept the Reichstag resolution as a basis for peace negotiations.

This explanation, adds the Matin, is the impression that the Allies should issue a joint statement on what happened at Berlin so that Germany's peace overtures may everywhere be checked and reasons given why they are rejected which the Allies cannot accept the Reichstag resolution as a basis for peace negotiations.

At the same time the Austro-Hungarian press, evidently acting under orders from the foreign office, is trying to create the impression that the Allies are ready to regard as dictated by a spirit of conciliation. It is necessary to remove all doubts on this subject and how the people of Austro-Hungary are complete and final would be their obedience to German-Magyar domination if peace were now made on a basis of no annexations and no indemnities.

The French premier, M. Ribot, Minister of War Painleve and Albert Thomas, minister of munitions, had a conference yesterday afternoon with Premier Lloyd George, Foreign Minister Balfour, and Baron Sonnino, Italian minister of foreign affairs. After meeting M. Ribot went to the Elysee palace and saw President Poincaré. French representatives at the conference are Messieurs Ribot and Painleve, Admiral Lacaze, minister of marine, Leon Bourgeois, minister of labor, Albert Thomas, general Foch, Senator Cornu, entente high commissioner in Greece, Jules Cambon, general in army to the ministry of foreign affairs, and M. de Dartelle, director of political affairs in the foreign office, who acts as secretary.

More Trouble in China

The manifesto also declares illegal the present Peking government and all its mandates. It has issued since the dissolution of parliament.

Chen Pih-Kuan and Premier Li Yuan-kang Shao Yi on board the cruiser Hai-Chi are proceeding to Canton. It is expected that the entire cruiser squadron will take sides in the controversy with Chen Pih-Kuan.

London, July 25.—A despatch to the Morning Post from Shanghai says the Chinese navy has refused to recognize the government of Tuan Chi-Jui. The despatch adds that fourteen cruisers have left Wooning for Canton to support the southern provinces.

It was announced on Monday that Rear Admiral Verdevski, commander of the Baltic fleet, had been arrested for communicating a secret government telegram to socialist committees.

SEAMY SIDE OF THE CAMPAIGN OF SUBMARINES

Frank Article By a German Correspondent

EFFECT MISCALCULATED

Thought England Would Be Felt Ere This—Once Again the Condition 'If We Can Hold Out'

Copenhagen, July 26.—A remarkably frank article by the Berlin correspondent of the National Tidenden, passed by the foreign office censorship, discusses the seamy side of the submarine campaign and the effect it has upon neutrals. It is generally recognized, together with the thought of many neutrals, that the longer the campaign continues, the fewer friends Germany will have left.

The correspondent says now it is generally admitted that the effect of the campaign has been miscalculated, not regarding the amount of tonnage destroyed, but as to the time required to make its effects felt in England. The German people are still convinced that it will succeed ultimately if given time, and they themselves are able to hold out.

Disregarding Gallian happenings as accidental, the correspondent says there can be no question of a big offensive, owing to a lack of men, as Field Marshal Von Hindenburg, frankly admitted, but there is no doubt that the Germans will continue to hold out.

The correspondent gives as two of the most striking impressions upon his return to Berlin the appearance of children in thousands, and the appearance of a new type of the disappearance of weight, many more than thirty, but they are healthy and usually improved. Another feature is the disappearance of grocers displaying only lemons and onions.

LUMBER MILLS IN WASHINGTON AND OREGON SHUT DOWN

Strikes Called by Industrial Workers of World Given as Cause

San Francisco, July 25.—One-half the lumber mills in Oregon and Washington have been forced to close, due to strikes called by the Industrial Workers of the World, according to a statement today issued by A. Baxter, manager of the Douglas Fir and Exploitation Export Company.

The mills are closing down rapidly, says Mr. Baxter. It will not be long before all of them are closed, if the I. W. W. agitation lasts. Lumber for business construction will be cut off entirely unless some definite action is taken by the government.

FRANCE TO BE THE GUARDIAN OF THOSE ORPHANED BY WAR

Paris, July 25.—The Chamber of Deputies, by a unanimous vote yesterday, adopted a bill which had already passed the senate, known as the "Wards of the Nation." The bill, which is drawn upon broad-minded lines, provides that the state shall assume the position of legal guardian of all French war orphans.

The bill, when under the discussion of parliament, gave rise to much debate along clerical and anti-clerical lines, but the evident effort to solve the difficult question on broad lines won an unanimous vote for the measure.

What this act will cost the state has not yet been definitely determined, but it is estimated the amount will reach \$1,000,000,000 a year.

This new change is to take place on July 30.

MAY LOSE ALL THEY GAINED IN GREAT DRIVE

Russians Likely Forced Back To Original Line

STERNER DISCIPLINE

Deserters and Mutinous Soldiers Are to Be Shot—Women's Battalion in Its First Battle, Wins Success

Petrograd, July 26.—The present line of the southwestern front is approximately that occupied by General Brusiloff's drive last summer, except before Tarnopol, where the enemy succeeded in pushing farther into Russian territory. The fate of the latter town was virtually decided with the Germans holding the suburb just across the Sereth River, within easy gun range.

The Germans chose the junction point of the seventh and eleventh armies for beginning their offensive, the first blow being struck between Zboroff and Pobjednik, on a twenty mile front. Without any aid from the southwest front, the Russian official communications, they pursued their advance to the line of the Zereth. This uncovering of the Russian positions south of Tarnopol forced a retirement all along the diagonal line southwestward, cutting the Styrpa and Zlota Lipa to Haliex and the Lomnica. The Russians have been obliged to retire to the right bank of the river and Haliex is seriously threatened, with a prospect of a Russian retreat to the original Russian positions east of Stanislaw, occupied before General Brusiloff's advance.

One of the first results has been a general agitation for a restoration of the death penalty for insubordination in the army and for treasonable conduct on the part of agitators. General Korniloff, commander on the southwest front, has issued orders to all subordinate commanders to open fire on deserters and troops refusing to obey orders.

Women in Battle.—The Russian women's battalion raised by a twice wounded girl officer, Vera Butcherkoff, was in action on the southwest front, where it has been successful, although the battalion suffered some casualties. The Novoe Vremya's correspondent at the front reports that the women behaved in an exemplary manner and gained the respect of the men soldiers.

German Report.—Copenhagen, July 26.—A German semi-official report describes as a strategic retreat the retreat of the Russian armies in Galicia.

Retiring columns stretching to the horizon were plainly observed from various vantage points. The retreat occasionally degenerates into a full rout, particularly the influence of the Austro-German field guns, which are abreast the infantry vanguards and dash forward to demolish fire into the masses crowded in the rear. Additional quantities of munitions, provisions and heavy guns were captured.

Another report says that airplanes heavily bombed the station at Monasterzyska and the new road for the Russian troops south of the point from which retreat communication has been severed.

Berlin, July 26.—The war German forces in eastern Galicia continues uninterrupted. The Germans are reported to have captured Stanislaw and Nadworna. Heavy artillery fighting is reported to be in progress on the front. Field Marshal Von Mackensen, Emperor William watched the Germans repulse a Russian attack from the plain of the Sereth between Tarnopol and Trembowla.

WAR'S EFFECT ON THE VALUE OF MONEY

Geneva, July 24.—The Lusanne Gazette in a financial article published today says:

"Not since the war of secession has there been such a fall in the value of money as now. The American dollar fallen so low. It was quoted here today at four francs forty-six centimes, while before the war it stood at \$12. One hundred francs, which were worth 266 francs before the war, are now quoted at ninety-nine francs. For the first time in history the Italian lire is worth more than the mark. The steady decline in the value of money began a month ago and is continuing."

AT THE HOSPITAL.

Late word from the General Public Hospital this afternoon was that young Edith Clark was in a conscious but still in serious condition. There are some hopes for her recovery.

The condition of William Imis, who was crushed between two cars in the yard of the Atlantic Square Lethery is reported to be unchanged this afternoon.

Robert Duffley, whose wrist was broken and who received a general shaking up when a government truck left the city at 10.30 o'clock every night, with the exception of Saturday, when it will leave at 11 o'clock. This new change is to take place on July 30.

Say Lloyd George Was Right

From German Sources Comes Corroboration of Premier's View of Double Meaning in Michaelis' Speech

Copenhagen, July 26.—Premier Lloyd George's skepticism regarding Chancellor Michaelis' good faith, his doubts regarding the chancellor's reply to the Reichstag resolution really means what it pretends to mean, his belief that the reference of peace-professing statements to the security of frontiers, capable of being extended at will to cover the retention of Belgium and many other desired annexations, received unexpected justification and corroboration from German sources in the growing frankness of criticism which the defect Zukunt might carry.

It was declared yesterday that Chancellor Michaelis' speech was ambiguous and open to two interpretations which Lloyd George mentioned. It was added that the policy of silence of political aims inaugurated by ex-Chancellor Von Bethmann-Hollweg and continued by Herr Michaelis had laid the German policy open to that dubious reputation which Lloyd George criticized. His picture of the German parliamentarianism under the formula of Herr Michaelis may be distorted, so it was declared, but it contains enough truth to serve as a warning to the German people.

The Berlin Tageblatt seizes the full text of Lloyd George's reply to the German chancellor, explaining that this is advisable because remarkable errors of distortion and omission in the sense declared by the government crept into summaries of earlier declarations from the opponent camp which were supplied by the semi-official Wolff News Bureau.

WINE TRAGEDY IN CAPE BRETON

Explosion at New Waterford Today and Serious Loss of Life is Feared

Sydney, N.S., July 17.—A little while after the day shift at No. 22 mine in New Waterford went down to work this morning an explosion occurred and it is feared that there will be a serious loss of life. The company de-fuses to give information but outsiders estimate that between forty and seventy-five men are engaged on the day shift.

When the explosion occurred automobiles and the company's modern Dresser lift saving apparatus were rushed to the pit and some of the entombed miners were rescued.

GERMANS FAIL ONCE MORE IN ATTACK ON FRENCH

Paris, July 26.—The Germans attacked this morning on the Alsine front at the Calvarie plateau in an effort to recapture the positions from which they were driven out yesterday. The war of attrition activity last night east of Montchy-Le-Preux and in the neighborhood of Lombardey.

After a short, but violent bombardment, the Germans at five o'clock this morning attacked the positions near Calvarie plateau. This attack was repulsed completely. Our gains of yesterday were maintained and consolidated.

"Surprise attacks of the enemy north of Hurbetbisle in an effort to recapture the positions in Alsace, north of Aspach-Le-Haut, were broken up. We took prisoners."

On the left bank of the Meuse (Verdun front), there was great activity of the artillery, with no infantry engagements.

SEVEN JURORS WERE SECURED THIS MORNING

Panel of Twenty More For Tomorrow in Order to Complete Jury in Arson Case

After a three hours' session in the supreme court this morning only seven men were secured to serve on the jury who are to try Joseph O'Brien and John Hughes, who are under arrest on suspicion of setting fire to the summer cottage of William J. Crawford on the Loch Lennox road. There were forty men available, but after deducting those who were over age, etc., only twenty-four were left. Of this number some were found by trials to be unfit to act as they were not indifferent as between the king and the prisoners, while others were preemptorily challenged. Those chosen were Harry S. Dryden, George K. Betson, George W. Colwell, George A. Stephenson, Joshua Corkery, Wellington Green and Arthur S. Goddard. As five more are required to complete the jury an additional panel of twenty men will be summoned tomorrow morning and the case will be resumed at ten o'clock.

When Chief Justice McKeown opened court, Daniel Mullin, K. C., acting on behalf of the defendants, moved to quash the whole panel, owing to reasons set forth in sections one, two and eight, which were presented in court at yesterday's session. He gave several reasons for doing so and asked that the matter be placed on the original panel should be exhausted before an additional one was summoned. After arguments by Mr. Mullin and General Byrne the jurors were summoned in turn.

Some of those challenged expressed various opinions regarding their attitude, but all said that they would consider the evidence fairly. Harold J. Wilson, when challenged by the attorney-general, acknowledged that he would not want to see any man convicted on circumstantial evidence. At this point His Honor pointed out that there was two kinds of evidence direct and circumstantial and that both must be considered. The two jurors who were acting as triers agreed that Mr. Wilson was not indifferent and he was excused.

Isaac Webber was also challenged by the attorney-general and he was asked if he had not made a bet that the two prisoners would be acquitted. He denied having done so, and Dudley S. Bohlhard was summoned to give testimony. The latter said that he and Webber had agreed to bet \$2 on the outcome of the trial. During his testimony Mr. Webber created considerable amusement when he explained about his occupation in life and his regard for the truth.

Before the court adjourned His Honor Chief Justice McKeown spoke to the seven jurors, emphasizing the importance of the case and the care they should exercise in refraining from indulging in any conversation regarding it. He said he would not order them to remain together during the trial, as he felt that they would discourage any attempt on the part of any persons to discuss it with them. He then ordered adjournment until tomorrow morning at ten o'clock.

HUNGARY'S PREMIER ON THE AIMS OF WAR

Copenhagen, July 25.—Advices from Budapest give the outline of an address by the Hungarian premier, Count Morits Esterhazy, before parliament concerning the war. "We are waging the war," he said, "for a defensive war and our goal at the conclusion of peace will not be for conquest. We have, in addition, our peace manifesto, expressed readiness for an honorable peace and accord with the allies."

The premier said the speech of the German chancellor, Dr. Michaelis, before the Reichstag, showed that Austria-Hungary and Germany were conducting the war without aspirations for conquest.

EDWARD E. McDADE AND MISS BOHANN MARRIED

A wedding of interest was solemnized in St. Dunstan's church, Frederickton, this morning at seven o'clock, when Rev. E. L. Carney united in marriage Dorothy "Dorothy" McDeade of St. John and Edward E. McDeade of Moncton, formerly of St. John. Miss Mary Doohan, sister of the bride, acted as bridesmaid, while the groom was supported by his brother, Robert B. McDeade of St. John. The bride, who was given away by her father, was beautifully gowned in a dress of white silk with Juliet cap and she carried a shower bouquet of bridal roses. The bridesmaid was prettily attired in pink silk with picture hat to match and a handsome bouquet of pink roses. Nuptial mass was celebrated by Rev. Father Carney, who also congratulated the bride and groom and wished them every happiness in their wedded state. He made fitting reference to the Holy Scriptures in the welfare of the parish of St. Dunstan's. After the ceremony the bridal party drove to the home of the bride's parents where a wedding breakfast was served. The many handsome gifts received were testamentary to the esteem in which they both were held.

The bride and groom left on a honeymoon trip to upper Canada and on their return will reside in Moncton where the groom is a popular member of the "Safety First" department of the C. G. H. Among the out of town guests at the wedding were Miss Molly McDeade, Mrs. E. H. McDeade of St. John, and Mr. and Mrs. Harry Grey of Franklin, Maine, uncle and aunt of the bride.

WOULD NOT SELL TO EGYPT
London, July 25.—Another interesting incident respecting Standard Oil operations came to light at a meeting of the Anglo-Egyptian Oil Fields Company, when Sir Marcus Samuel, chairman of the Shell Company and also of the Anglo-Egyptian Company, said: "The Vacuum Oil Company, owned by the Standard Oil group, simply mutilated and refused to sell more oil in Egypt unless the Egyptian government acceded to their terms, allowing them to charge what appeared to the government as very inflated prices. In these circumstances the Egyptian government came and asked us to relieve them from a position which was bad for the country and humiliating to the government. We did it, and the Anglo-Saxon company took upon themselves the burden of supplying the Egyptian consumers with kerosene at prices approved by the government. Up to the present time the whole ans of supplying the country lies with us. The Standard Oil groups have refused to ship any oil to Egypt."

LYRIC ANNOUNCES CHANGE IN PRESENT PROGRAMME POLICY

Vaudeville Will Give Way to Special Paramount Features on Certain Days of Week
In order to feel the pulse of the public and endeavor to ascertain the wishes of Lyric patrons the management announces a slight change in the present programme policy. An opportunity presented itself some days ago to book several of the better subjects in the Paramount or Famous Players Service. These features have been acknowledged by critics to be representative of the highest ideals and accomplishments in the art of photo play and stage production and the cost of presenting them is much greater than the ordinary fare. During the showing of these plays the usual vaudeville act will of a necessity at the present time be inclined to favor the policy it is more likely that it will be established as a permanent one.
As a beginning, however, the programme embracing superior Paramount or Masterplay productions will be the rule. The Wednesday, Friday and Saturday serials with other subjects and vaudeville will be the rule.
Tomorrow's outstanding feature therefore will be the Morocco Paramount picture, "Out of the Wreck" a vivid drama of a woman's past and her fight to retain honor and love after having fought the battles of life under adverse circumstances. The star of the production is beautiful Kathryn Williams. The sixth chapter of "The Mystery of the highest seas" will also be shown. Next Monday and Tuesday, Marguerite Clark will be presented in her latest success, "The Valentine Girl" and other superior plays to follow include Mary Miles Minter in "Periwinkle," House Peters and Louise Huff in "The Lonesome Chap," Fannie Ward in "The School for Husbands," and others.

HAY CROP PRESENTS PROBLEM TO FARMERS OF HOULTON

Houlton, July 25.—Whether Houlton farmers are to harvest all of their hay this season is a question. Many farmers still have their barns well filled with last year's cut which they have been unable to dispose of and, considering the scarcity of hay, many farmers plan to plough under much of their hay crop rather than waste their time in cutting. The crop is an extra heavy one and if the outlook was good no doubt farmers would plan in some way to harvest their crop, but with their barns already nearly filled and having many more acres of food stuff to care for, the question is an important one regarding help.
The weather of the last month has not been ideal hay weather and potato growers wish to devote all their time

French Tank Swifter Than British Device

London, July 25.—(via Reuter's Ottawa agency)—Describing the part played by the French tanks in the Aisne-Champagne offensive, Reuter's correspondent at French headquarters says they received their baptism of fire on the plain below Craonne, in front of Javincourt. They shared in the successful attack on Laffaux and won the enthusiastic praise of the assaulting infantry for the way they broke up the German machine gun shelters and shot the Germans out of their trenches.
The French tank is lighter than the British and somewhat swifter. From its shape it has a better claim to the name

MORNING WAR NOTES

Last night's official statements say that the Russians have yielded Stanislau and are still retreating eastward from the Dniester. The Germans have crossed the Sereth river in the region of Mikulic.
Premier Kerensky has completed the constitution of the new provisional government at Petrograd. He has formed a new cabinet which is a coalition, limited to ten members. The other offices of the state will be directed not by ministers but by unpolitical directors of departments who are not members of the cabinet.
Andrew Bonar Law, the British chancellor of the exchequer, announced in the house of commons yesterday that for 112 days the average British expenditure was \$85,000,000 daily. The total advance made by Britain to her Allies and the dominions in addition was \$5,000,000,000.

ROY NORTON NOT KILLED

The report from Los Angeles that Roy Norton, author, had been killed in an automobile accident on July 15 is denied by the New York office of Curtis Brown, the literary representative. A. W. Barnby, manager of the New York office, said that he had received a cablegram from Mr. Norton in London, saying that Mr. Norton was alive and well and engaged in literary work in London. Many inquiries have been received as to the truth of the report from Mr. Norton's friends and admirers. Mr. Barnby thought that probably another several newspaper had been mistaken for the author.
Mr. Norton was born in Illinois, but has lived at various times in Iowa, Utah, California, Alaska, Cuba, Oregon, New Jersey, New York, France and England. He is a graduate lawyer and mining engineer and has practiced law, managed mines, and founded and edited several newspapers. Since 1907 he has been engaged in writing fiction.

NEW CIGAR STORE IN FINANCIAL DISTRICT OF CITY

deForest & Co. Open One of Finest in the East—Has Many Features—Smoking Room in Rear—I'll Meet You at deForest's—a New Local Phrase
What is undoubtedly the finest cigar store in Eastern Canada, will open its doors to the tobacco smoking public tomorrow at 110 Prince William street, under the ownership and management of deForest & Co.
For the last few weeks the store has been in the hands of carpenters, painters and interior decorators and the result is highly creditable to the craft.
So far as scientific arrangement is concerned the store is ideal. The stock is at the finger tips of the salesman, the store rooms are large and sanitary and everything open for sale is well protected from dust by an ample supply of show cases and humidors.
The color scheme of the walls is bouzou, and the panel arrangement of the wainscoting carries a touch of red on each alternate panel, which is decidedly refreshing to the eye.
The furnishings throughout are of oak, silent salesmen, cases and the large heater at the right of the room.
At the rear is, perhaps, the most novel feature ever introduced into a store of this kind, and that is a rest and reading room. Here in a large, airy and well lighted room the tired business man may sit in quiet in an easy chair and scan the papers or latest magazines.
Here also the business man may make an appointment, thus creating a new local phrase, "I'll meet you at deForest's."
Taken all through, the store is a welcome addition in appointment, features and especially in location right in the financial district, where there is constant traffic.
In addition to all lines of popular smokes, deForest & Co. carry a large supply of their own exclusive brands, The Diplomat, a domestic cigar, and the Florida, an imported one, each of which is a repeater of high calibre.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful that you use... Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.
The best thing to use is just plain mild castor oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.
Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

THE WAR SITUATION

Greater activity on the part of the Allies on the western front, to relieve to some extent the pressure on the Russian front is now predicted, and will doubtless come to pass. Berlin says that the artillery battle in Flanders is raging day and night on an unprecedented scale, and that thrusts against the German lines are increasing in intensity.

The Russian situation is bad, but Premier Kerensky has been given unlimited powers, and it is announced that the new provisional government will show no mercy to traitors and German spies. In other words, the policy of blood and iron will be invoked to meet the crisis which threatens the very life of the new democracy. It has been proved that German intrigue and German gold are behind the agitators and anarchists, and the government will be justified in taking the most severe measures. The Germans are still advancing in Galicia, but the Russians are fighting as they retire, and may be rallied on a new front to resume the offensive when the internal affairs of the country are in a more stable condition. At the moment, however, the Russians are demoralized.

The significant news comes from Washington that instead of half a million men a million will be mobilized at once for service overseas. It is recognized that there is great need of more men on the western front, and the American government will meet the situation with the promptness and energy it has shown in every direction since it declared war. There is here a hint for Canada, since a great new offensive such as is now hinted at would greatly increase the casualties on the Italian front, where the Austrians are at present attacking with vigor. The general situation on all fronts is exceedingly interesting, and in view of the critical state of affairs on the Russian front the news of the next few weeks will be followed with an unusually eager interest.

THE CONSCRIPTION BILL

The conscription bill has passed its third reading in the House of Commons with a majority of fifty-eight, which would have been larger had all the members been present. The bill will pass the Senate without prolonged debate, and become the law of the land. Realizing their own inability to enforce the law effectively, the Conservatives continue their efforts to get Liberal support and to form a union government. They profess to be actuated by lofty patriotism, and it is to be regretted that it took them three years to discover this quality in themselves. Some indication of their sentiments will be revealed by the promptness or otherwise with which they enforce the new law, and the extent to which they apply the principle of conscription to other than the mere getting of men. If they had been as eager to win the war during these three years past as they now profess to be, there would be no threat of disunion today in Canada. However, the present issue is clear, and is thus stated by the Toronto Globe:

"The military service bill is a fresh dedication of Canada to the cause of liberty, sanctified by the bravest blood of free nations. It is a pledge of her resolution to sustain her gallant sons who are in the fiery furnace of war, and to summon all her remaining power for the crucial phase of the world struggle. The act must be enforced without fear or favor. It should have the support of every Canadian, Liberal or Conservative, whose mind can rise above party or sectional or selfish considerations to the height of the great argument between freedom and despotism, between civilization and barbarism. The laurels won by the valor of her children on the battlefield must not be snatched from the brow of Canada by her own hand on the very eve of victory."

It is by no means clear that a union government can be formed before the elections are held. The present government ought to be defeated, because it alone is responsible for the present crisis. It is desirable that the Liberal leaders authoritatively define as soon as possible their position, in view of the fact that the conscription bill has passed and the country waits to choose between parties or groups. A St. John soldier who today is facing the Germans at Lens, writing home and asking what attitude the people will adopt, makes this observation:

"This is the time to show that the party spirit is not stronger than the call of the blood."

Canada must throw her whole strength into the war. Parliament has declared by a large majority how it believes the case best be done. The people are to be asked to give their verdict. Will the party spirit be stronger than the call of the blood? That is the question every

man must ask himself. At the same time he must avoid being caught in the net of the schemers who cry patriotism for party purposes. We do not want disunion in Canada, if it can be avoided without sacrificing the honor of the nation. Those who appeal to prejudice and passion will do themselves no credit, and will make it harder to get the whole strength of the country thrown into the war. There are agitators who may have to be suppressed, but there are also honest differences of opinion which ought to be respected. These relate to the best method of getting whole-hearted support in the prosecution of the war, which is Canada's war, and must be fought to a finish. The element opposed to further war effort is so small as to be worthy of no consideration, and the Conservatives will commit a fatal blunder if they charge the Liberal party or any section of it with a desire to withdraw Canada from the war. In the meantime, while leaders are deliberating in regard to the coming election campaign, the course of the government in regard to the enforcement of its conscription bill, and its attitude toward conscription of wealth, will be a matter of universal interest.

SCHOOL TRUSTEES

Referring to some remarks by the Chatham World on the appointment of school trustees, the Moncton Transcript says:—"Does the Chatham World really expect that the Liberals, who were excluded from the school boards systematically by the late government, are going to sit down and permit themselves to be excluded perpetually or just so long as Conservative school trustees live. The late provincial government filled every vacancy by a Conservative and sometimes they did not even wait for their terms of office to be legally up, but sought to bring pressure to bear to displace trustees long before the term had expired. Does the World really think that the Liberals of Moncton propose to remain disfranchised on the Moncton school board. There is only one Liberal on the board and he is still in the war, and the city council a year or so ago. All the other members of the board are Conservatives or Independents."

As a matter of fact, politics should not figure at all in the appointment of school trustees. They should be chosen solely on the ground of exceptional fitness for so important an office.

The Halifax Chronicle says:—"Discussing the conscription of wealth in the Imperial Parliament, Mr. Bonaer Law said that 'as long as money is in the country we will take it for the war one way or another.' This reply was given in answer to a resolution unanimously adopted by the Industrial Triple Alliance, representing the millers, the railmen, and transport workers of the country, urging that conscription of wealth should have preceded conscription of human life, and calling on the government for their immediate preparation of a register of wealth and property in order to prepare for real equality of sacrifice, and to show what steps the government proposed to take in this matter."

Sir Wilfrid Laurier, in his speech in parliament yesterday said: "I am in this war to a finish." Let him be given credit for honest convictions in his attitude toward conscription, even by those who hold directly opposite views. His remark that Australia voted against conscription and is still in the war is an answer to the charge that to oppose conscription is to try to get out of the war.

New Brunswick Conservatives in caucus yesterday in this city declared in favor of "the formation of a government not based on existing political divisions." Will Sir Robert Borden resign and clear the way for a non-partisan leader?

A number of eminent patriots on whom the people of this province recently pronounced judgment were at the Conservative caucus yesterday. They did not make it any more impressive.

The Standard describes the Conservatives as the "win-the-war party." That is a complacent assumption which will not help the cause of coalition very much.

Oh! So.
A learned counsel on the defendant's side lost his temper, as well as his case, and remarked rudely to the opposing lawyer: "Why do you so often use the words 'also' and 'likewise'?" They both mean exactly the same as far as I can see.
"By no means," said the other. "I'll show you the difference by example. Our learned friend, the Judge, is a clever lawyer; you are a lawyer, also, but not likewise."

What He Was Out For.
The boy was sitting by a very shallow stream, over which passed a small bridge, and he was evidently fishing. A policeman passed by. "What are you doing there?" he asked.
"Fishing," said the boy, intently watching the officer.
"There's no fish there," ventured the officer.
"I know it."
"What are you fishing for, then?"
"People that ask questions," said the boy; "and I've ketch'd a dozen in the last hour."

LIBERALS AND BORDEN

(Halifax Recorder).
The Tory press has from first to last foisted its readers in regard to the parliamentary situation touching conscription. A large number of Liberals, who were always in favor of equal service or the mobilization of all the nation's resources to win the war, supported loyally the government conscription bill, the act being the outcome of conscientious convictions. The Tory Journals represented this to their readers as a vote of confidence in Sir Robert Borden's leadership and in the policy of the government generally. Hence the ludicrous air of disappointment now obtaining among the befuddled ones.

his leadership. The entire population of Canada without an exception have a burning desire to win the war, but the population have no burning desire and are moved by no invincible determination to retain Sir Robert Borden and his party in office. The two things are quite different, quite different indeed. That the government's desire to hold office at any cost is greater than their desire to see the fight to the finish was clearly shown by the fact that Sir Robert tried to push through his bill for the extension of the parliamentary term before the conscription measure had even been presented to the senate. MCLAUGHLIN

McLaughlin again wins Reliability Test

THE GRAND PRIZE OF THE OTTAWA-PRESCOTT HIGHWAY RELIABILITY TOUR GOES TO DR. R. E. VALIN AND HIS MCLAUGHLIN D-SIX-45

Sixty-five motorists driving cars of all makes started on June 28th in the Reliability Tour from Ottawa to Alexandria Bay via Prescott and Gouverneur, N. Y.

The McLaughlin D-Six-45, driven by Dr. R. E. Valin, emerged with a perfect score of 1000 points from the gruelling tests to which all were subjected. So keen was the competition for highest honors that Referee Edenburn had to devise special tests in which the McLaughlin proved its superiority.

McLaughlin supremacy in points of Power, Easy Control, Efficiency and Economy has again been established by this Tour.

The results of the tour reflect credit on Dr. Valin as well as on Canada's Standard Car.

The Reliability Tour was not a road race nor a speed test. No professional chauffeurs took part. Owners drove their own cars and the tests brought out the best both in car and driver.

Canadians who want the joys of motoring, without the annoyance of mechanical trouble, will heed the lesson brought out by this tour and make their new car a McLaughlin.

Sheriff Is Exonerated

The afternoon session of the trial of Joseph O'Brien and John Hughes yesterday afternoon was marked by the verdict acquitting the high sheriff of the partiality charge in his selection of the jury panel, which was laid by Daniel Mullin, K.C., yesterday morning. The session was resumed at 2:30 o'clock. His Honor Chief Justice McKeown, on the grounds alleged by Mr. Mullin of partiality on the part of the high sheriff and his deputy Armstrong Clifford, put the issue to trial. William Baxter and Arthur Melick were appointed triers to decide the issue.

Mr. Mullin, in his address to the triers, said that the high sheriff had showed partiality in selecting jurors as nearly all were Protestants and few Catholics were chosen.

Sheriff Wilson was called. He said that he did not know how many were Protestants and how many were Catholics. He had never looked upon the selection of jurors from the standpoint of religion, he said.

Mr. Byrne objected to this line of examination and the objection was allowed. He claimed that religion, in all his

experience at the bar, had never entered into the selection of jurors.

The deputy sheriff's evidence threw little light on the matter. The triers, following the address of the jury, retired and brought in a verdict exonerating the sheriff.

Army Doesn't Waste Food

British Headquarters in France, June 30 (Correspondence of the Associated Press)—The British army in the field is consuming about 15 per cent less of foodstuffs per capita than it did eighteen months ago.

This is not due to any studied diminution of rations, but to a more careful distribution and the prevention of waste. The British soldier is still the best fed soldier in Europe, but the supply departments are gradually rescuing him from the stigma of being at the same time the most wasteful. Stocks of meat and bread are closely watched, and un-

used allowances must be held over and added to the store for the next meal, or the next day.

The private soldier takes more kindly to the don't-waste-food campaign than was expected, for at heart the British Tommy has an aversion to seeing good food going into the waste box—he never did it at home, and it looks like bad business to be doing it in France.

The Y. W. P. A.

At a meeting of the Y. W. P. A. executive yesterday arrangements in connection with the August 4 observance were started. Letters were read from Lieut.-Col. Corbet, of the 16th Field Ambulance, thanking the Y. W. P. A. for socks and the Loyalist Chapter, I. O. O. F., for assistance in newspaper selling. Dr. Corbet wrote that his Field ambulance would go to France as a unit with the 8th Division.

Story of Crime and Chivalry

Young Lieutenant Served Prison Term to Protect His Wife—Wins Honor on Battlefield

London, July 2.—(Correspondence)—Announcement that King George has granted free pardon to Lieut. Cecil Aylmer Cameron recalls a story of chivalry that can hardly be matched in modern life, and it deserves recognition for distinguished patriotic service. Cameron served a prison term of three years for a crime of which he was innocent, having disdained to clear himself when he might have done so by impugning the character of his wife. His sentence stripped him of his military rank and caused his dismissal from the army. He accepted the disgrace sturdily and finished his term rather than pay the price which would avert the complete ruin of his career.

There was a long time between the expiration of his term. He had come of a soldier family, his father having won the Victoria Cross for gallantry in the great Indian mutiny, and his grandfather having been wounded at Waterloo. The young man's military friends had never believed him guilty, and when he tendered his services as a volunteer Lord Kitchener appointed him to a staff position in which his acquaintance with continental languages could be utilized. He acquitted himself so well in the western war zone that the French government rewarded him with medals for valorous service. The British pardon clears his name of taint and restores all the honors which were lost with his conviction. Before his trial he was with the Royal Field Artillery. His services for the last three years has been with the Royal Engineers.

The crime of which he was convicted was committed in 1911 when he joined his wife in a suit to recover \$62,500 from an insurance company for the value of a pearl necklace of which Mrs. Cameron declared she had been robbed. It appeared at the trial that she did not possess the necklace at the time of the alleged robbery, and that she had instigated Cameron to join in the suit by lying to him as she had done to others. He refused to become a witness in his own behalf lest he might betray that he had been a victim of her deception. The court recognized this showed a clear case of fraud against both husband and wife, and the penalty was imprisonment for three years for each of them.

Mrs. Cameron contracted a disease that threatened her life and she was released from prison in about four months. While believing herself to be dying she made a written confession which exonerated Cameron and acknowledged herself as the sole culprit.

In the confession she said she had wished to make a similar statement at the beginning of her prison term, but her counsel had advised her against it on the ground that a petition was already in circulation for Cameron's reprieve and Cameron was as strongly against involving her in his behalf as he had been at the time of her impending death, as she supposed, led her to override his objections when she became free, and the confession she then wrote was made part of one of the most remarkable petitions ever addressed to the British throne.

There were 4,000 signers, led by Cameron of Lochiel, head of the clan; five dukes, including the Duke of Norfolk, premier peer of England; Lord Lansdowne and five other marquises, Lord Roberts, Lord Grey, Lord Cromer and Lord Selborne; 126 army generals, nine judges, two archbishops, seventeen bishops, thirty-six artillery colonels, and a long list of men eminent in the professions.

Eczema on Hands

ECZEMA is usually aggravated by the application of water, and more particularly in the fall and winter, when the water is cold, many suffer keenly from itching, stinging eczema on the hands.

Dr. Chase's Ointment has proven itself the most effective treatment obtainable for eczema, and on this account has enormous sales. It affords relief from the itching and burning almost as soon as applied, and with persistent use heals and cures.

Mrs. W. G. Dowden, Greenspond, Bonavista Bay, Nfld., writes:—"I suffered with eczema on my hands, and for eighteen months was so bad that I could not use a needle to sew or do anything. I could scarcely dress myself. Though I had lots of salves from doctors, I could never get much benefit from them. Then I sent for a sample of Dr. Chase's Ointment, and found it very different in action. It was not long before my hands began to heal, and four 60c boxes made them well. I cannot praise Dr. Chase's Ointment too highly, and frequently give some to others to get them using it, for I know that it will cure."

Commissioners At Odds Over Use of Horses

A protest was made at the meeting of the common council yesterday afternoon by Commissioner Fisher to the effect that the public safety department was not permitting the use of fire horses for street watering, and he moved a resolution that the fire chief be asked to investigate and be given a free hand. Commissioner McLellan demurred that there was no obligation on the part of his department to furnish horses and that he would not give any member of his department a free hand. The matter was left over for a full meeting, Commissioner Wigmore being absent at the Conservative caucus.

Mayor Hayes reported that the Dominion fuel controller is in Washington to arrange a supply of hard coal for St. John. The proposal to establish a city wood yard was again discussed but no action taken.

A renewal lease for a lot in Lancaster was recommended for William A. Reed. The bill of W. E. Emerson for repairs to No. 5 shed, W.E., was ordered paid.

The controller was authorized to allow an overdraft of \$15,309 for the

ferry department, until the end of the year.

A communication was received from E. J. Terry complaining of a large pool of water in Goodrich street, which overflowed occasionally and did damage to his property. E. A. Schofield drew attention, in a letter, to the fact that if it is intended to utilize vacant lands for planting next year, now is the time to start to plow and prepare the land. A complaint was received from the Fernhill Cemetery Company that one of the avenues in the cemetery had been dug and left open by the water and sewerage department. Notice was received from the office of the board of school trustees that the term of Commissioner J. V. Russell as trustee expired. A request was received from Miss E. St. John Wileman for a grant of \$50 that she may be able to go to Washington and interview the president in her scheme for the establishment of a national labor bureau system. The council accepted the invitation from Rev. Canon Armstrong to attend a memorial service to be held in Trinity church on his anniversary day, Aug. 4.

Reprisals are an extreme measure, because in most cases they inflict suffering upon innocent individuals. In this, however, their coercive force exists, and they are indispensable as a last resource."

Your "Get-Away Power" in Summer is a matter of fuel-food for the human engine. Food that is hard to digest and low in nutritive value does not supply energy for the day's work. It uses up needed power by overtaxing the digestive organs. Shredded Wheat Biscuit is all food. It is 100 per cent. whole wheat and is prepared in a digestible form. Changing from meat and potatoes to Shredded Wheat brings a mental buoyancy and physical alertness that makes one eager for the day's task. Eat it for any meal with sliced bananas, berries, or other fruits.

REPRISALS JUSTIFIED BY MILITARY LAW IN EXTREME CASES

The Manual of Military Law says regarding reprisals: "Reprisals between belligerents are retaliation for illegitimate acts of warfare, for the purpose of making the enemy comply in future with the recognized laws of war. They are not a means of punishment, or of arbitrary vengeance, but of coercion."

CANADIANS AT BELFAST

Sir Edward Carson Addresses Irish-Canadian Contingent

London, July 25 - Addressing a contingent of Irish-Canadians at Belfast, Sir Edward Carson said: "There is a great deal in common between Ulster and Canada. Many Ulstermen have gone to help build up Canada, but we know, from letters received, that their hearts are with the old Ulster home. The Ulsterman and the Canadian thank God for the same liberties and are determined to maintain them."

"When the empire became involved in a war which meant the losing of our ideals of freedom, you did not hesitate to cross the seas in thousands and rally round the Union Jack. Canada in this war has made a great history for herself and when the history of the war has been written and read by your children, they will be glad to think that you and we drove back the invader of liberty."

It is not necessary to comment on the prime minister's expressed fear that the "intrusion" of what he calls "party politics" on our soldiers in Europe, would by them be regarded as an insult. The idea seems to be an original one, that men who have volunteered to fight for their country might feel "insulted" if asked to vote for its good government.

A "Palmsist" who is evidently no friend of Lord Davenport, the British food controller, sings: "Come let us sing unto the Lord, Devonport, whose ways are queer, Bless him for the huge golden horse he sent the proffiter."

SAY PRICE OF BREAD IS MUCH TOO HIGH

(Ottawa Journal-Press.)
Montreal, July 18.—Local millers,
members of the Montreal corn ex-
change, and representatives of the Mon-
treal Trades and Labor Council, con-
ferred with the Dominion Grain Com-
mission this morning on war measures
for the handling of Canadian grain par-
ticularly Canadian wheat. The millers,
represented by Brigadier General A. E.
Labelle, W. A. Black and W. W. Hutch-
inson, contended there must be either
trading in options or fixed prices.
Either method would give the millers
protection in financing and in selling. If
trading in options were continued, specu-
lators should be restricted to recog-
nized grain dealers and no business
should be taken from such speculators
as young men and women clerks, as it
was reported and been done on the
Winnipeg Grain Exchange. If there
were to be fixed prices, there should be
either a flat price for each grade, or
minimum and maximum prices for each
grade, the same prices to prevail by
agreement both in the United States and
Canada. Should the maximum and min-
imum system be adopted, there should
not be more than five cents a bushel
difference between the two. Mr. Black
suggested that a fair maximum for No. 1
Northern would be \$1.75 a bushel,
the Minneapolis, Duluth and Win-
nipeg.
In Open Market.
Members of the Montreal Corn Ex-
change, through Jos. Quintal, intimated
that they would prefer to buy their
coarse grains in the open market in
Winnipeg, if cars could be guaranteed,
but if a commission wished all buying
to be done through a bureau appointed
by itself, the Corn Exchange members
would work harmoniously with the com-
mission, the commission to give a guar-
antee to them. Trading in options was
most desirable, but should be restricted
to bona fide grain merchants, the terms
to be allowed to sell in the option
market only their own crops.
Price of Bread.
The Montreal Trades and Labor
Council, represented by J. T. Foster,
Gustave France and Pierre Chevassu,
while acknowledging that the war was
partly responsible for the increases in
prices, said the price of bread in Mon-
treal had advanced beyond all reason.
Though one brand of bread sold at
twelve cents a pound and a half loaf
that advanced seven cents, the other
pound loaf, they were really made from
the same dough. The price of bread
had advanced seventy per cent. The
bread that is in Europe where it was
imported.
Mr. Foster said bread had dropped a
cent a loaf that day. It was peculiar
that it should happen the day the com-
mission arrived.
Pierre Chevassu, another labor rep-
resentative, said that the price of bread
operative bakery had reduced the price
two cents a loaf.

MISS BIRD WILL SPEAK

In the practical and timely series
of lectures on "Phases of War-Time Social
Work," now being given at the Uni-
versity of Chicago the next address,
July 24, will be on the subject of "Can-
ada's Care for the Soldier's Family."
The speaker will be Miss Bird Bir-
d, former secretary of the Bureau of Social
Service in Halifax, Nova Scotia. On
July 31 Dr. Charles F. Emerson, Dean
of the Indiana University School of
Medicine, will discuss "Medical Agency
in Relation to Social Service." On
August 7 Miss Elvira E. Thomson, su-
perintendent of the Illinois Society for
Mental Hygiene, will be the speaker,
her subject being "Education of the
Handicapped Soldier," and on August
14 Miss Myra B. Van Nostrand, district
superintendent of the United Charities
of Chicago, will speak on "Lessons from
Mexican Mobilization."

The young lady across the way says
she saw in the paper that the railroads
are giving a great deal of attention to
physical valuation and she doesn't sup-
pose there's any business where it's
more important to have the employees in
good health.—Cartoons Magazine.

CANNING FRUIT WITHOUT SUGAR

There are many stories of the fruits
and vegetables that rot on the ground
for want of a market. Happenings of
that sort this summer will be nothing
short of treachery—a clear case of giv-
ing comfort and aid to the enemy for
food is one of the most important ma-
nufactures of war.
Every woman who stacks up cans and
jars full of food is doing just as
good as work as the girls in the
munitions factories, and she is working
on the constructive side—the side that
helps to preserve life—not destroy it.
Place the containers in a sterilizing
water bath for the purpose.
Place the product thoroughly in glass
jars or tin cans until they are full;
then pour over the top a tablespoon of
sterilizing liquid.
Four over the fruit boiling water
from a kettle, place rubbers and caps
in position, partially seal if using glass
jars, seal completely if using tin cans.
Pack the containers in a sterilizing
water bath, such as a wash boiler with
false bottom, or other receptacle improv-
ed for the purpose.
If using a hot water bath outfit
process for thirty minutes; count time
after the water has reached the boiling
point; the water must cover the highest
jar in the container.
After sterilizing, remove packs, seal
glass jars, wrap in paper to prevent
bleaching, and store in a dry, cool place.
If you are canning in tin cans it will
improve the product to plunge the cans
into cold water immediately after
sterilization.
When using a steam pressure canner
instead of the hot water bath, sterilize
for ten minutes with five pounds of
steam pressure. Never allow the pres-
sure to go over ten pounds.
MAINE SMALLPOX SITUATION
The Bangor Commercial says that
practically the whole of the northeast-
ern section of the State of Maine is in
quarantine. In Vanceboro alone there are
fewer than fifteen cases. Since June 21
there have been twenty-one cases re-
ported, but no deaths. In all cases the dis-
ease has hit those who have never been
vaccinated. A custom has prevailed in
St. Croix of the people going from the
Canadian side of the line over to Van-
ceboro by the dam bridge. This practice
has to cease now and the residents of St.
Croix will have to do their shopping at
McAdam or else stay in Vanceboro.
The situation has become so grave
that the train authorities have placed the
station at Vanceboro in quarantine, and
no train will be allowed to stop at
Vanceboro until the quarantine has been
lifted. All the employees of the C. P. R.
from McAdam to West Croix, have been
vaccinated and the C. P. R. officials have
given every assistance in their power to
secure medical authorities in having the dis-
ease stopped and vaccinations made.
The disease was brought into Van-
ceboro from the pulpwood camps, and at
Fort Kent and Frenchville there are sev-
eral cases of a most dangerous and in-
fectious nature.

MORNING NEWS OVER THE WINDS

An American army of 1,000,000 men
for service overseas instead of 500,000
contemplated for the first draft, is fore-
shadowed by the government's request
for an additional \$5,000,000,000. The
whole of the American army is to be
reorganized. The reorganization will af-
fect every company, regiment and divi-
sion.
It is expected in Ottawa that the an-
titorpedo vessels will be filled immedi-
ately in order to ensure the safe
passage of the military service bill
through the upper house. It is report-
ed that the Conservative M.P.'s may
be given the positions. They are Messrs.
Blain of Peel; Bennett of East Simcoe;
Fisher of Brant; Claude Macdonnell
of South Toronto, and Carrick of Italy
River. The Manitoba vacancy is to
go to L. McMeekin, K.C. of Winni-
peg.
A proclamation has been issued by
Lieutenant-Governor George W. Gagnon
to the effect that as August 4 next is
the third anniversary of the celebra-
tion of the war by Great Britain and
public meetings should be held through-
out the province.

SIR CLIFFORD SIFTON

(Monoton Transcript.)
There are those like Sir Clifford Sif-
ton, who claim that to hold a general
election in Canada is a crime and an
evidence of disloyalty on the part of
those who wish it, but Australia held a
general election and no one talked about
the disloyalty of Australia, either during
the election or since. Sir Clifford Sif-
ton is shocked that anyone should pro-
fess the disloyalty of Australia, and has
remained passive when Tory partisans
in this country sold wide horses painted
black for the use of our soldiers. He was
mum when the use of the Tory manufac-
turers forced the mother country of mil-
lions of money in excessive prices for
munitions. He was silent when the Al-
lians and the others were trading or
trading with Yankee manufacturers and
at the same time producing undue pres-

MORNING NEWS OVER THE WINDS

An American army of 1,000,000 men
for service overseas instead of 500,000
contemplated for the first draft, is fore-
shadowed by the government's request
for an additional \$5,000,000,000. The
whole of the American army is to be
reorganized. The reorganization will af-
fect every company, regiment and divi-
sion.
It is expected in Ottawa that the an-
titorpedo vessels will be filled immedi-
ately in order to ensure the safe
passage of the military service bill
through the upper house. It is report-
ed that the Conservative M.P.'s may
be given the positions. They are Messrs.
Blain of Peel; Bennett of East Simcoe;
Fisher of Brant; Claude Macdonnell
of South Toronto, and Carrick of Italy
River. The Manitoba vacancy is to
go to L. McMeekin, K.C. of Winni-
peg.
A proclamation has been issued by
Lieutenant-Governor George W. Gagnon
to the effect that as August 4 next is
the third anniversary of the celebra-
tion of the war by Great Britain and
public meetings should be held through-
out the province.

SIR CLIFFORD SIFTON

(Monoton Transcript.)
There are those like Sir Clifford Sif-
ton, who claim that to hold a general
election in Canada is a crime and an
evidence of disloyalty on the part of
those who wish it, but Australia held a
general election and no one talked about
the disloyalty of Australia, either during
the election or since. Sir Clifford Sif-
ton is shocked that anyone should pro-
fess the disloyalty of Australia, and has
remained passive when Tory partisans
in this country sold wide horses painted
black for the use of our soldiers. He was
mum when the use of the Tory manufac-
turers forced the mother country of mil-
lions of money in excessive prices for
munitions. He was silent when the Al-
lians and the others were trading or
trading with Yankee manufacturers and
at the same time producing undue pres-
sure on the expense of the business of the
empire. He was silent when the govern-
ment of Canada sent our brave boys
forth to the front practically unarmed so
far as machine guns were concerned.

AN OPERATION VERTED

Philadelphia, Pa.—"One year ago I
was very sick and I suffered with pains
in my side and back until I nearly went
crazy. I went to
different doctors and
they all said I had
female trouble and
would not get any
relief until I would
be operated on. I
had suffered for four
years before this
time, but I kept get-
ting worse the more
medicine I took. Every month since I
was a young girl I had suffered with
cramps in my sides at periods and was
never regular. I saw your advertise-
ment in the newspaper and the picture
of a woman who had been saved from
an operation and this picture was im-
pressed on my mind. The doctor had
given me only two more days to make
up my mind so I sent my husband to the
drug store at once for a bottle of Lydia
E. Pinkham's Vegetable Compound, and
believe me, I soon noticed a change and
when I had finished the third bottle I
was cured and never felt better. I grant
you the privilege to publish my letter
and an only too glad to let other women
know of my cure."—Mrs. Thos. McGow-
katz, 3432 Hartville Street, Phila., Pa.

OBJECTS OF WIN-THE-WAR CONVENTION IN TORONTO

Toronto, Ont., July 25.—A call for a win-the-war convention, issued last night, bears the signatures of more than 125 of Ontario's most prominent citizens. In a foot note the executive explains that owing to the need for haste many persons could not be reached, especially in the more distant parts of the province. The note adds: "We can count on their help and support."

The objects of the organization, as will be laid before the convention when it meets on August 2 and 3, are: That Canada shall dedicate all her resources of men and means to winning the war; that conscriptive measures be immediately adopted and enforced; that a national non-partisan government be established for the vigorous prosecution of the war; that all patriotic elements in the country which place winning the war above all other considerations be united.

The Man In The Street

A little too warm would be just warm enough.

This refers to the weather and not to the atmosphere of the common council meetings.

It might be more appropriate if the commissioners get hot over the fuel question than over such a cooling subject as the street-watering problem.

The mayor's remark that he sees no reason why the city departments should not work in harmony hardly does justice to the worthy's discernment. There's a reason—or two.

Why?

The physician who does not take his own medicine has a rival in the citizen who locks his shop at noon time, and beneath his sign "Lunches and Beer," hangs a card bearing the frank admission, "Gone to lunch."

Borden government is importing a food investigator from the United States; apparently we have experts who can produce the high cost of living but we have to look across the line to find some one to furnish the remedy.

International Poker

The United States decided to raise a million men; Germany says she will see them and raise them a million. Who stays?

A problem for the class in mathematics: If Germany can raise two million men, how long will the war last?

Russian leaders have decided that the only way to secure freedom for their own people is by shooting up a few of them.

That Caucus

In the absence of an official announcement those who are interested enough to speculate on the subject are entitled to find their own reasons for the Conservative caucus which opened yesterday.

Of course there is a serious situation at Ottawa and it is quite possible that, after giving the Borden government the once-over, that the loyal Tories of New Brunswick decided that the government could go no further without their advice. Hence their haste to pass resolutions telling the government what to do, with the added proviso that they will stand by the government no matter what it does.

This is an especially valuable contribution to the situation in view of the fact that an election is approaching.

Doubtless, the next subject for consideration was what Mr. Hazen is going to do or what the party is going to do with Mr. Hazen. If he does not get that judgeship, he may want to run again. But at this point, the party is liable to pause and wonder whether they could elect him if he does run.

There is another little matter which might engage their attention. In his evidence, Mr. Tennant made some reference to a note found for political purposes which was not paid and which he did not intend to pay. Possibly the caucus is holding an inquest on that note.

In addition to the little note, there might be some discussion in the caucus on the subject of the sums of \$100,000 and \$200,000, which were paid when the Valley Railway contracts were signed. Mr. Tennant still has the money, he says, and in that case his political friends may be in secret session for the purpose of trying to discover how they can separate him from it painlessly and without too much danger of unpleasant later developments.

Then, again, there is the question of jobs. Mr. Hazen is hoping for a seat on the bench but there are others who might like to find equally soft seats before the party's grip on the spoils of office loosens. It is a safe bet that there is not a job in the city which possibly they are busy matching copiers to see who will be the lucky ones.

NO BANQUET FOR THE VETERANS, AT THEIR REQUEST

Public Presentation of Certificates in King Square to be Chief Feature of War Anniversary—Afternoon Suggested as Time For Intercessory Services

The plan to entertain the returned soldiers and their relatives at a banquet on the evening of August 4, was eliminated at the request of the veterans, at a meeting of the committee this morning. The committee met in the mayor's office with the mayor presiding and R. E. Armstrong acting as secretary.

Representatives of the veterans who were present asked that the banquet plan be abandoned, as they felt that it would not be the most appropriate method of observing the anniversary of the declaration of war. They suggested that, if the city wished to use the money, they would be quite willing to accept it as a contribution towards their building fund. It was explained that their plans are for a building to cost about \$200,000 to be erected as soon as possible and that they are now engaged in securing money for the purpose.

Under the circumstances, the committee agreed to drop the idea of holding the banquet.

As it now stands, the arrangements for the celebration of the day are represented by the intercessory services which are to be held in the churches by the public presentation of certificates, testifying to the city's appreciation of their services, to the returned men.

For the presentation, it was suggested that the men assemble in King square at 8.30 o'clock on the afternoon of that day and that the occasion be marked by appropriate speeches. If the weather proves unsuitable for an outdoor gathering, the management of the Imperial Theatre have generously offered the use of the theatre from four to six o'clock for the purpose.

As the mayor and city commissioners have accepted an invitation to be present at the service in the churches on that day, it was decided to make that service the official one and the soldiers will parade to Trinity.

It was suggested that the services should be held in the afternoon, instead of at noon, so that the veterans and citizens could proceed directly from the churches to King square for the presentation ceremonies.

SALMON NET FISHERMEN WIN REQUEST

Fredrickton, N. B., July 25.—The request of the net fishermen of York county that the season for the netting of fish be made continuous until the close of the season on August 15, has been granted by the department of fisheries.

This morning, Fisheries Inspector H. E. Harrison, and the secretary-treasurer of the municipality of York, both were notified that the season had been made continuous from tomorrow.

The municipal council had petitioned that such action be taken. The official reply from Ottawa was as follows:

"Ottawa, July 24, Secretary Municipality of York, Fredrickton, N. B.—Continuous salmon net fishing permitted in the St. John River from Thursday, 29th inst., until the close of season. Inspector instructed to advise fisheries officials."

G. J. DESBARATS.

The proposal of the fisheries department officials along the St. John River that the season be extended to September 1 instead of having it continuous, so that the Tobique Salmon Club and others interested in the salmon fishing on the Tobique might be given a chance to get some fish, has been turned down by the department. The decision announced from Ottawa will permit the net fishermen to have sixteen clear days of fishing before the close of the season on August 15.

GOES TO PRISON FOR TWO YEARS

Danish Merchant's Scheme Gets Him Term Behind the Bars

Copenhagen, July 25.—Philip Beck, a Danish wholesale merchant and exporter, was sentenced to two years imprisonment yesterday, thus disposing of a celebrated case for violation of the Danish export regulations.

Beck was arrested in August, 1916, after a German cruiser had captured the Danish steamer Ydun while bound from Frederikshavn, Jutland, for Copenhagen with 500 cases of lard on board consigned largely to Beck. It was suspected that the captain was arranged with Beck's connivance to simplify the problem of delivery of the lard to Germany.

The Ydun, on which there were about 180 children, returning after a holiday in Jutland, was taken by the cruiser into Swinemunde, which occasioned great indignation in Denmark.

LOCAL CHAUFFEURS MAY ORGANIZE UNION

Plan to Raise Standard of Efficiency and Grade Members According to Ability and Experience—First Meeting Last Evening

A movement to organize a union of the chauffeurs of the city and county of St. John was discussed at a meeting of the men last evening in the rooms of the War Veterans' Association in Union street. The proposal was discussed in view of the fact that the chauffeurs, when they later meet, when a large and more representative attendance is expected, will be in a position to make a more uniform movement with regard to wages, hours and the class of work expected, and one of the chief aims would be to raise the standard of efficiency.

Qualified chauffeurs urge that no licenses should be issued except to those who have demonstrated their efficiency, and they would accept as members of their union only men who have passed reasonable tests. Provision would be made for the instruction of applicants who were not qualified, and it is probable that the union members would be divided into two or three classes, according to their proficiency. In this way a union would be a certificate of a member's ability.

The formation of a mechanical section, to include the mechanics employed in garages, has been suggested also, but no steps in this direction have so far been taken.

THE MAN IN THE STREET
