KING'S FUTURE IN THE BALANCE

Trouble in Greece is Just Beginning

BIG ISSUE BEFORE THE PEOPLE

If Venizelos Wins in Coming Elections King's Power Will be Curtailed and Greece May Enter War

Athens, July 30.—(Correspondence)—"The trouble in Greece is just beginning," is the opinion of a neutral diplomat here.

"King Constantine cannot logically accept the result of the coming election calmly, for they seem almost certain to mean the return of Venizelos to power, and Venizelos is determined at any cost to make it impossible for a Greek revolution ever again to occur."

"Still worse, from the King's point of view, is that Venizelos, returning to power, is expected to bring Greece into the European war on the side of the allies. They say that Venizelos and his followers are already placing orders for the necessary munitions and armament for the Greek army in that event."

From outward indications, the King, as leader of one of the two political parties, still has good hopes of defeating Venizelos in the election, but even should this hope fail, he may risk his crown on a last attempt to override the election itself.

Tunnelled Mountains To Capture Gorizia

Italians Landed Artillery Beyond Austrian Lines and Took Them From Rear

Only Two Forts Uncaptured and They are Isolated—A Post Mortem Tribute From Kitchener—Austrians Fought Every Foot of the Way—Italian Success Important Factor in the War

London, Aug. 11.—(Toronto Globe Cable)—A despatch from Rome to the Daily Telegraph says: The Italian offensive continues. Two forts alone of the eastern defense of Gorizia remain in possession of the Austrians, namely, Monte Santo and San Gabriele, but they are isolated beyond possibility of recovery, reinforcements and provisions being cut off.

The fact that the Italians had tunnelled through mountains, so that they debouched their artillery beyond the Austrian lines, the Austrians thus being caught between two fires, was the determining factor in their success.

The Italian advance in the Pleso, Tolmino and Montefalco sectors continues and there is renewed activity in the Trentino.

The number of prisoners is steadily increasing. The number so far officially given is much less than the real total. It will take several days to make an inventory of the booty. The Austrians were unable to save the contents of the Gorizia depots, which were among the most important in the empire.

An estimate of the Austrian losses in the Gorizia engagement is furnished by the correspondent of the Daily Telegraph at Milan who writes:—These losses were enormous. Not many of the defending army had time to retreat. A Swiss correspondent on the Austrian side says:—

"I saw on Podgora, on Sabotino and on Monte Santo lines upon lines of Austrian corpses, exposed as if for a review of the dead."

"The work of the Italian artillery was systematic. Every inch of the Austrian trenches and secret lanes was mapped out and each battery had its work assigned. The Italian infantry accomplished the remainder by a series of brilliant assaults. They approached the Austrians from one quarter through subterranean galleries to within forty yards and in another fronted and swam the Ionzo in the face of a hail of shells and rifle fire."

"At a third point the engineers threw bridges across the stream to hurry reinforcements. Detachments of the Casale and Pavia brigades received orders to cross. Into the river troops plunged, wading waist deep, holding their rifles high, while others carried hand grenades high in the air. All crossed within half an hour and entered the town."

ADD GLOWING CHAPTER TO WAR HISTORY

London, Aug. 11.—(New York Times cable)—A Daily Chronicle despatch from Milan says: "The army that succeeded in battering down the defenses of the Ionzo will be justly able to boast itself the first army in the world."

This judgment attributed to the late Lord Kitchener during his visit to the Italian front, is cited with proud satisfaction in the Italian press today.

Accounts of the battle still filtering through are necessarily of a fragmentary character, but suffice to reveal what a glowing chapter will be contributed to the history of the great war when the story of the fall of Gorizia can be fully told.

REV. A. P. HODGES IS IN THE RANKS

The No. 8 Field Ambulance Corps had this morning of adding to its muster roll the name of Rev. Arthur Parker Hodges, pastor of the Coburg street Christian church.

Rev. Mr. Hodges walked into the army and offered his services as a private and, after passing the medical examinations, he was accepted and was equipped in the King's uniform.

Much credit is due Mr. Hodges and his many friends in this city and elsewhere undoubtedly will be pleased to hear of the step taken by him.

BY-LAW VIOLATIONS

Today in the police court there were a number of citizens before the magistrate for by-law violations. In nearly all the cases satisfactory explanations were given and the court allowed them to go.

R. W. Tilton was reported for exceeding the speed limit in rounding the corner of Douglas avenue and Main street last Saturday night. Policeman Hogg said he was going at the rate of about eight or nine miles an hour.

W. E. A. Lawton was reported for the same offence. Policeman Hogg made the report. Mr. Lawton had some suggestions which he freely handed out to the policeman, and said he was ready to take an oath that he never exceeded the speed limit, not only on this occasion, but on any other. Both these cases stand until next Wednesday.

Wm. Steoper, reported for not having the front number plate on his car, was allowed to go, as he now has it on and only had it off to repair it.

Murray Northrup was before the court for driving on the wrong side of King street. He said the demonstrator of the car was operating it at the time and thus he was let out.

Louis Fader, who was reported for not having a sign in front of his house according to the requirement of the city by-law, was allowed to go in view of his complying with the city regulation immediately.

F. L. O'Regan was reported for exceeding the speed limit around the corner of Mill and Main streets. Mr. O'Regan intimated that his car was not out to his memory, on that occasion. The case rests until Wednesday.

GOOD WORK BY CANADIANS

Ottawa, Ont., Aug. 11—Canadian field headquarters, Aug. 10—(Via London, Aug. 11)—During the past week the weather was particularly fine. Good progress was made in the improvement and consolidation of our defenses. Our artillery maintained its activity and carried out frequent systematic shoots upon selected sections of the German front line. Enemy trench mortar and machine gun emplacements were bombarded and hostile batteries engaged with marked success. On more than one occasion the German guns were silenced by our fire. Numerous enemy working parties were dispersed by our field and machine guns.

Indirect fire by our machine guns was also constantly employed upon points in rear of the German position. One machine gun company in one night fired over seven thousand rounds in this manner. The enemy exposed themselves more than usually, and our snipers accounted for a considerable number. Hostile retaliation for our bombardment and other activities was weak. An aerial combat took place over our lines. The British plane drove the German to the ground behind the German trenches, following it down to within four hundred feet of the earth.

BRITISH DRIVE LIKE CLOCKWORK

Preparations Had Been Extraordinarily Thorough

NOTHING LEFT UNDONE

Correspondent Tells of Visit to British Front Before and During the Great Drive

On the British Southern Front, July 26—(Correspondence of the A. P.)—One of the most striking features of the great British drive north of the Somme was the extraordinarily thorough preparation before the offensive was begun. Long before the attack was launched the British staff was busy building up a vast organization which should be complete to the most minute detail. Military experts declare that the degree of preparation achieved was unprecedented. Seemingly nothing that could be done was left undone, and when a representative of the Associated Press visited this section of the British front to see the captured territory and watch the assault proceed, the various activities were being conducted with such coordination that they appeared to be done by clock-work.

The collection of huge stores of ammunition, the assembling of artillery and the concentration of troops were but one phase of the preparation. Bases for various supplies were prepared where they would be most easily accessible when the advance began. Emergency hospitals were constructed and enclosures were built for the reception of prisoners. Great numbers of extra motor lorries were provided for transport work over roads which were continually being improved by myriads of workmen, and Red Cross motor ambulances were made ready for the speedy handling of large numbers of wounded, both British and German.

But it was not only for work in the British-occupied territory that plans were laid. Provisions were made for the troops when once they had forced their way into German ground. The Royal Engineers worked out an elaborate scheme whereby water for the use of the men should follow them into the German trenches all along the line. It is not permitted to say how this was accomplished, but it is stated that it has been done successfully.

Gun emplacements back of the German front lines were worked out in advance, and routes of least resistance for reaching these points were decided upon. Plans for the consolidation of captured territory were elaborately considered and provision was made for the immediate clearing away of the great quantity of debris of every description that always attends a battle field. In fact every scheme possible was applied in order that there should be no loss of time or energy when once the offensive had begun.

Now that the attack is under way there is less need for methodical activity for miles behind the front. Motor lorries flow in steady streams back and forth along the roads, bringing supplies to the front. The wounded are being moved swiftly but with great care to the base hospitals many miles away after treatment in the emergency stations. And all along the line scores of thousands of soldiers are busy handling supplies, making provision for calls from the extreme front and clearing and consolidating the ground taken.

STADILY IMPROVING  
Claudius Perry, assistant engineer on board the tug Champion, who was so severely burned last Tuesday when a gasoline blow torch exploded in his hands, is progressing very favorably in the General Public Hospital and is steadily improving.

AUSTRIANS TRYING TO JUSTIFY THEIR RECENT SUBMARINE PIRACY

Amsterdam, Holland, Aug. 11—(Via London)—A semi-official account of the sinking by a submarine recently of the Italian mail steamship Lathuro, received here today from Vienna, says the Italians fired on the submarine with two guns, and that there were troops on board.

"After the submarine had fired a warning shot at a distance of 5,000 metres," the statement says, "the vessel opened fire from two guns at the stern and attempted to escape by zig-zagging. The submarine pursued the steamship, replying to the fire without hitting the vessel which had shown no flag. Later boats were lowered from the steamer. After ascertaining that no one remained on board, the steamship was sunk by the submarine."

DELTA OF THE NIGER RIVER

The Niger is the third greatest river in Africa and the eleventh in rank in the world. How did it happen that for generations no one knew the place and the manner of its junction with the Atlantic? The problem was really a hard nut to crack, though with our present methods of African exploration and our knowledge of how to live in the deadly climate of the delta, the mystery would probably have been solved in a few months. The Niger delta, one of the largest in the world, stretches 250 miles along the coast. Most of its streams are small; and, skirting the coast, one can hardly observe them, so completely are they hidden in the dense region of mangrove swamps. Explorers soon found that they might struggle for weeks up a stream only to prove it a blind alley; by a peculiarity of the Niger is that not a few independent rivers form between the delta branches and have no connection with the Niger itself. Most of the delta is a network, difficult to enter or to retreat from.

All nature is hideous there. The broom waters, lacy coating; the exfoliations of the slime and ooze; the repulsive animal life from crocodiles to pythons, lurking in the shadow for their prey; and a choice collection of insect plagues including the anopheles mosquito and its poisonous sting, and the terrible conditions, persisting for about forty miles inland, are then succeeded by solid earth, noble trees and sweet air; but the swamp region of the lower delta is one of the most forbidding parts of Africa—From "Mystery of the Niger River" by Cyrus C. Adams, in the American Review of Reviews for August, 1916.

**LIQUOR ADVERTISEMENTS**

There are 840 daily papers in the United States, with a circulation of nearly 6,000,000, which absolutely refuse liquor advertising, and the States of Alabama, Washington, Oklahoma, Oregon, Virginia, North Dakota, Colorado, Maine, Georgia, South Carolina, Virginia and Mississippi all have laws forbidding liquor advertising in the state, but the law has not yet come into effect in the last four states.

The New Bedford Mercury in announcing the reasons why it will no longer publish liquor advertisements after a certain date says: "Many newspapers and most of the leading magazines adopted this policy some time ago. When any advertiser or group of advertisers attempt to dictate the policy of a newspaper, or to influence the presentation of the news in the newspapers they employ, on the strength of their patronage, there is no choice for self-respecting publishers but to cast out their business." The chief stock in trade of a successful newspaper is public confidence. People have various judgments and tastes and it is not easy to satisfy everybody. But there is one requirement which will hold the confidence of the public and achieve its respect. That is the quality of sincerity. A newspaper that will insist upon before a newspaper can achieve its respect. That is the quality of sincerity. A newspaper that will insist upon before a newspaper can achieve its respect. That is the quality of sincerity.

Up California's Tamapahs runs the crookedest railroad in the world. Of the eight miles of track the longest tangent is but 418 feet. In one notable instance the road makes five complete loops and then two complete bow knots to attain an elevation of thirty feet. The end of the line is about half a mile higher than the starting point, and there is not one particularly steep grade in the entire system.

**PORTABLE 'PHONES FOR THE FOREST RANGERS**  
Spokane, Wash., Aug. 11—A portable telephone that weighs only two and a half pounds is part of the equipment of every forest ranger in the Spokane country this year. The field set was invented by R. B. Adams of Missoula, Mont., forest officer, and replaces a set that weighs ten pounds. The new instrument, with a few feet of wire, can be carried easily by the ranger, and makes it possible for him to get in touch instantly with a supervisor or district ranger over many miles of forest. Service wires throughout the national forests. To talk over the lines the ranger merely throws his emergency wire over the telephone line and connects the two ends with the portable instrument, and the instrument is then connected with the ground wire, the end of which must be thrust in damp earth or water. Instead of ringing a bell in the receiving station, the connection causes a screeching sound from a small megaphone shaped apparatus known as the "Howler." The portable telephones are valuable in all emergencies, especially in reporting fire.

The Evening Times and Star

ST. JOHN, N. B., AUGUST 11, 1916. The St. John Evening Times is printed at 27 and 29 Canterbury Street over evening Sunday excepted by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

NINETY-FOUR DAYS

This is the ninety-fourth day since Hon. P. G. Mahoney was appointed Minister of Public Works. He is still Minister of Public Works—the big spending department—though rejected by the people. How much longer will Lieut. Gov. Wood permit this gross violation of the principles of responsible government to continue?

THE WAR NEWS

So long as Russia continues to advance and to put large numbers of the enemy out of action, the fact that Allied gains on the western front are not great or rapid is not to be regarded as discouraging. Every blow, whether struck that inflicts loss upon German or Austrian armies reduces their effectiveness because the men killed, wounded or captured cannot be as effectively replaced as in the earlier stages of the war.

THE TORONTO STAR TELLS

The Toronto Star tells of great quantities of military equipment sent from Canada which is merely so much junk in England, because it was not standardized and was not of any use at the front. An enormous amount of money has thus been wasted. Sir Sam Hughes has proved a very expensive luxury.

THE CENTRAL POWERS

Austria is the weaker member of the Teutonic alliance. But for the aid of Germany she would have been crushed months ago. The time has now arrived when Germany has need of practically all of her own men, and therefore the situation of Austria grows more and more precarious.

BAND'S FINE RECORD

To the Editor of the Times-Star: Sir,—Comparatively few of the thousands who enjoyed the sweet music of the Temple Band last evening are aware of the fact that there have enlisted for overseas twenty-seven from the membership of this band, including their leader, Fred McNichol.

TRANSFERRED TO KILTIES

Pte. George Rutter of Fredericton, has been transferred from the 104th Battalion to the 286th Highlanders. He was seriously ill with pneumonia when the 104th left Fredericton, and has been here ever since.

WOOD WILL GO DOWN IN HISTORY

Wood will go down in history as the man who let him do it. St. John is not so poor, nor its outlook so dark, that it cannot afford proper schools and hospital accommodation for its people.

HOME SERVICE APPEARS TO BE THE MOST POPULAR FORM OF SERVICE

Home service appears to be the most popular form of service with many young men—although they are not falling over each other to prove it.

THE OTTAWA JOURNAL, CONSERVATIVE OFFERS A FEW OBSERVATIONS

The Ottawa Journal, Conservative, offers a few observations which should interest Sir Robert Borden. It says: "During the month of July less than 8,000 Canadians were enlisted for overseas service. Canada has still to provide 146,000 men in order to fulfil Sir Robert Borden's New Year's pledge of half a million."

THE WEES OF THE TORONTO IN ALL PROVINCES

The woes of the Tories in all provinces are finding expression in mutterings of discontent. Here is what a disgruntled Conservative says to the Toronto Telegram about the state of affairs in Ontario: "I have heard that Hartley Dewar (Liberal) is coming out in Southwest Toronto, and I would not be the least surprised to see him elected."

BIOGRAPHICAL SKETCH OF MAX D. CORMIER

Following is a biographical sketch of Max D. Cormier, who was nominated for the vacancy on the Supreme Court Bench at a meeting of French Canadians on Tuesday. Master Supreme Court and Judge of Probate. Born at Beresford, Westmorland County, N. B., Dec. 21, 1878, son of Dominique B. Cormier and Susanne Gaudet. Educated at public school and University of St. Joseph's College, Memramcook, N. B. (B. A., 1901). School teacher, Edmundston, 1903; read law with Fred LaFors, called to the New Brunswick Bar, 1908; partner Michael & Cormier, 1909-11; clerk of the peace, clerk circuit court, clerk county court, Madawaska; unsuccessful candidate for parliament in 1911; town clerk and town treasurer, Edmundston, 1909-1912; captain of G. Company, 67th Regiment, Maritime Force, 1914; St. Flavie, Que., Nov. 21, 1911, Conservative and Catholic.

YOUNG MAN—GET YOUR NAME ON THE VOTERS' LIST

The Union of New Brunswick Municipalities is an important body, capable of doing good service for the province. St. John should be well represented at the St. Stephen convention next week.

Windsor Table Salt THE CANADIAN SALT CO. LIMITED

LIGHTER VEIN

Lord Hardinge, the new Permanent Under-Secretary of State, tells a somewhat gruesome and yet distinctly humorous story about an epitaph he once noticed in a cemetery in one of the hill stations of India.

HE HAD TWENTY-FIVE MEN WORKING UNDER HIM

"I want it understood," said Danny, with the look of a lion, "that I can lick any man on the job." Another Irishman, straightened up and said: "What's that? Ye think ye can lick any one of us?" "Certainly, I can lick any man that works under me."

THE READING CLASS WAS IN SESSION

The reading class was in session and the word "furlough" occurred. Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of an American soldier riding a mule, under which was the caption: "Going home on his furlough."

**PRESSING NEEDS OF THE HOSPITAL**

New Power House — Improved Laundry — Municipal Ambulance — Administration Building Among the Suggestions

A special meeting of the municipal council is to be called in the near future for the purpose of considering plans for the erection of a new power house for the hospital. Speaking of the meeting and its object, J. King Kelley, county secretary, said today that, at present, there is a high pressure boiler situated under the hospital, in addition to two other boilers. As insurance companies have intimated that they would not insure the boiler in its present condition, it is necessary that a new one be procured. As it is a risk to have it under the building it is to be decided whether or not it would be more advisable to have it placed under a temporary building or to erect a power house.

The laundry, he said, is in close proximity to the main building and, in addition to being in a poor location for sanitation, was taxed beyond its capacity, and that additional machinery would have to be provided.

Commissioner McLellan, he said, proposed to have, in addition to a city ambulance, one for the municipality with a doctor going with it on calls.

Personally, he said, he was strongly in favor of having a maternity hospital, where women could have proper care. He said he felt that one would improve social conditions. He thought that a part of the present building could be utilized for that purpose, if a new building is erected.

Regarding the location of the present institution he said Mr. Stevens, of the firm of Stevens & Lee of Toronto, who from experience in the erection of hospitals in the States, is emphatically qualified to speak on such subjects, was of the opinion that it would be folly to abandon the present site. He thought the present one used for an annex.

He also suggested the erection of an administration building in White street at an estimated cost of \$80,000.

Speaking of the new County Hospital, Mr. Kelley said that when it was erected, it was felt that it would meet requirements for the next ten years, but it has turned out that at the present time it is filled to capacity. He said this is evidence that people are beginning to look for treatment in hospitals.

the opening of the meeting, but subsequently resigned the chair in favor of Mr. Allan. Mr. Stevens and Mr. Tighe were heard regarding suggestions for the proposed celebration, which was originally planned at the last meeting of the Trades and Labor Council. They felt that there should be a patriotic field day and that by the united effort of all the societies a great deal more could be accomplished than if one body attempted to carry the plan through. An organization was effected with ex-Mayor Fisk as chairman, C. H. Stevens as secretary, and Mrs. J. Boyle Travers as treasurer.

It was suggested by the delegates from the Veterans' Association that 75 per cent of the proceeds be devoted to the patriotic fund and the remainder to the returned veterans. The present committee was empowered to appoint for additional officers regiments of the various I. O. O. F. chapters, presidents of the Canadian clubs, officers of the Soldiers' Wives League and president of the St. Monica's Catholic Ladies Benefit Society.

The field day sports will be held on Baracks square. There will be a full programme of games, sports and races. One of the features will be the long talked of tug-of-war between the city policemen and the employees of the St. John Railway Company.

**Damage by Fires**

The beautiful residence of James Manchester in the Manawagush road was badly damaged by fire yesterday afternoon and, but for the timely and persistent efforts of the Patriotic volunteer firemen, the property would undoubtedly have been completely destroyed. They had a difficult task but managed to confine the flames to the front portion of the house, limiting the loss to \$4,000 or thereabouts.

Damage to the extent of at least \$4,000 was caused yesterday afternoon by a fire which broke out in the barn of Thomas Hastings' property in Victoria street and communicated itself to the adjoining building owned by A. K. Trevelyan. Neither property owner was able to put an exact estimate on his loss but Mr. Hastings said that he doubted if his insurance of \$6,000 would be sufficient.

Policeman McFarlane sent in a still alarm last night, shortly after 9 o'clock, as fire had again broken out. The seat of the trouble was in the walls in the woodhouse where smoke was issuing. The ladder truck responded and the wall was pulled down.

**Patriotic Plans For Labor Day**

Labor Day will be observed in St. John as a grand patriotic field day. Elaborate plans for holding one of the largest events of its kind ever seen in this city were tentatively made yesterday afternoon at the office of the mayor at a conference of the officials of the Trades and Labor Council, the Canadian Club, the Patriotic Fund, the Veterans' Association and the various ladies' patriotic societies.

The labor organizations were represented by J. E. Tighe and E. E. Stevens, the Canadian Club by A. H. Wetmore, the Veterans' Association by J. G. Dryden, J. J. Donohue and W. J. Coburn, and the Patriotic Fund by C. E. Allen. The patriotic organizations of ladies in the city were represented by Mrs. John McAuliffe, Mrs. W. W. White, Mrs. F. J. Harding, Mrs. J. Dever, Mrs. J. B. Travers, Mrs. Travers and Miss Edith Skinner.

Government Finds Excuse For Not Proceeding With Marsh Road Work; No Action on Requests of Delegations

There were interesting developments in local government circles here yesterday. The shunting ministry had a meeting, primarily, it was said, to deal with the tenders for repairing the Rothesay road. It was predicted that the tenders were all found to be too high, and that a consultation was going on as to the propriety, or impropriety, of letting the job by day's work, in which case there would be a rich harvest for the real inner circle of the faithful.

To Lydia E. Finkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered from female troubles, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Finkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Finkham remedies."

Allies Still Press Forward

Petrograd, via London, Aug. 10.—The town of Stanislaw, in Galicia, is already within the range of the Russian guns. The Russian General Letchitzky, losing no time to follow up his victory at Tymienitsa, has pushed westward along the railroad and northward along the wagon road, and in the latter direction has approached to within six miles of Stanislaw. Simultaneously he has commenced a drive across the Koropice river and the formation of a new line of advance north of the Dniester.

Rome, Aug. 10.—Today's official war office statement says: "In the Gorizia area our troops continue to cross the Isonzo on the newly-repaired bridges. Our cavalry and cyclists pressed forward to the east of the town at several points, under heavy fire. The presence of hostile forces is reported on the heights northeast of the town, on the hills of Rosenthal, and at several points along the Verbitza line. Our cavalry charged the enemy with standards flying, inflicting heavy losses and taking several hundred prisoners. On the Carso, after very hot fighting, our troops succeeded in piercing the strong entrenchments northeast of Monte San Michele and near the village of San Martino and occupied Boscini.

London, Aug. 10.—The official communication issued this evening says: "The position is unchanged along the whole of the British front. Some parts of the enemy advancing against our line southward of Martenopolis were effectively dealt with by our trench mortars and machine guns, and no hostile track developed. Our aeroplanes continued bombing operations against enemy billets and other points of military importance. In the course of many aerial combats yesterday several enemy machines were driven down in hostile territory. Three of our machines have not returned."

Paris, Aug. 10.—The official communication issued by the war office tonight says: "Except for a somewhat spirited cannonade north of the Somme and in the region of the Thaumouot Wood, the day was calm along the whole front. "Bad weather continues to interfere with the operations."

London, Aug. 10.—General Alexei Kuropatkin has been appointed governor-general of Turkestan, a Central News despatch from Petrograd today states.

SCORES OF LIVES LOST IN VIRGINIA CLOUDBURST

Charleston, W. Va., Aug. 10.—A cloudburst swept the Cabin Creek and Coal River valleys yesterday, spreading devastation throughout the district. Advice tonight were meager owing to interrupted wire and rail communication, but various reports estimated the loss of life at more than 100, and possibly 150, and fully 5,000 persons are homeless. The property damage was placed at not less than \$1,000,000.

HOLDING MIRROR TO THE GERMANS

How the People Were Taught to Look Upon War as Necessary and Peace Shameful

(Toronto News) Maximilian Harden now admits that Germany was responsible for the war, and his newspaper has been suppressed for saying what nearly all the rest of the world already knew. An article in the Hilberts Journal on "The self-revelation of the German war party before the war" summarizes the methods by which the militarists educated a whole nation up to the state of mind which the present conflict was undertaken. The propagandists were alert and persistent, neglecting no opportunity of stimulating hate and distrust of other nations and of inculcating the "Germany-overall" idea.

In January, 1912, wide publication was given to an article in which an eminent German writer asked: "What men stand out most prominently in the history of the nation? Whom does the beating heart of Germany clasp with the most passionate affection? Is it Goethe, Schiller, Wagner, Marx? Oh, no! But Barbarossa, the great Frederick, Blucher, Moltke, Bismarck, the hard men of blood." In the same article we read that the defensive attitude of the nation and that peace denotes not only shame but ruin.

There are quotations from a German weekly published by the League of Young Germany for the youth of Germany. In the issue of January, 1913, that journal said:

"Honor and duty teach even us Germans and Christians that the souls of the dead and the living are without rest until a contest has ended with the victory and triumph of our arms. Therefore war is the sublimest and the most sacred expression of human action." The writer said that war bestows eternal life on the brave, and added that "deep instilled in the German heart there must live joy in war and a longing for war, because we have enemies enough and victory comes only to a nation that with music and song goes to war as a festival."

Again we read: "We may at the call seize our weapons with light and glad hearts and rejoice in the war. The heroes of the ball of clouds are seated here, Frederick, hero Blucher, the men of the iron fist, the heroes of the iron homes, who want to make us dislike war. The great Kaiser, his Moltke, his Blucher, his Bismarck, the heroes who when the battle is fought on the earth with German weapons and the faithful steel of the Kaiser's army lance-corps from Potsdam call out the guard. Old Fritz calls from the station at Dugny, 40 at Appilly, 38 shells, thrown down up a battery in action in the region of Noyon, 15 upon the railroad station at Bazemourt, 92 upon the stations of Spincourt and Damvillers, and an surrounding bivouacs, a total of 413 projectiles."

London, Aug. 10.—General Alexei Kuropatkin has been appointed governor-general of Turkestan, a Central News despatch from Petrograd today states.

SIR H. TUPPER JOINS IN APPEAL

Asks Soldiers to Aid in Defeating the Men Who Are Discrediting British Columbia

(Vancouver Sun) For the first time in Canada's history a manifesto has been sent by a political leader to Canadian soldiers and sailors serving in the defence of the Empire. Sir H. Tupper, a manifesto in tone, simple and direct in appeal and carrying conviction in every line of the need for a clean government and able administrators to handle the many difficult problems that will arise in the province both during the continuance of the present world-strife and afterwards when peace follows the allies' victory.

Message to British Columbia Soldiers and Sailors from H. C. Brewster, Liberal leader, and Sir C. H. Tupper: Representing as we believe the public sentiment of the province, we extend this message to you, given the opportunity of offering your manhood in the defence of our country and the preservation of its institutions and its ideals. To us at home falls the duty of maintaining those institutions and ideals in a way worthy of your splendid sacrifices. In the performance of this duty we believe a united effort should be made by the lovers of clean government and efficient administration, both Liberals and Conservatives.

Industry is active, the buying power of the general public is larger than ever before, and trade is in excess of any previous midsummer period. Exceptions to this are found only in parts of the south-east, where storm damage has not yet been recovered from, and in parts of the northwest, where disappointment at the spring-wheat crops results has caused some small measure of cancellations. Generally the outlook is fairly satisfactory, though still lacking definite form as to the crop and labor outlook. The foreign trade situation has improved, iron and steel leading, and less is heard about the ending of war-order demands. Prospective European demand with the only moderate crop yields indicated here have already caused sharply higher prices for cereals and cotton. Consumption of both at home, of course, has been increased. Already there is talk of scarcity of cars, an acute shortage is predicted when crop moving actually begins, and much interstate movement of wheat from favored sections to places where shortages are manifest renders it likely that eastern centres may find cars scarce. The labor situation is not satisfactory. A projected New York strike on passenger cars carries a threat of trade interruption. In addition, the steam railroad men are said to favor a strike, but the near approach of a national election will, no doubt, see special efforts made to avoid an actual break. Lumber buying has improved after a rather quiet period, and the ocean freight situation is not so strained as a year ago. Stock market activity is still purely professional, and fluctuations follow closely announcements of alternately bullish and bearish import. Sharp declines have occurred in motor stocks, following evidence of increased competition in low-priced pleasure vehicles. Money tends to grow firmer as the season of actual crop movement advances. All measures of trade movement point to a record-breaking volume of business for a midsummer period. Failures are on a descending scale and liabilities are light. Collections are good as a whole. The season of buyers' excursions has begun at the southwest, and the next few weeks should see fairly definite developments in crop, trade and labor conditions.

Hughes Starts On His Campaign

Ten Strenuous Hours of Hand-Shaking and Speaking in Detroit

Detroit, Mich., Aug. 11.—Chas. E. Hughes, Republican candidate for President, arrived in Detroit at 8:35 o'clock this morning. In the next ten hours he met thousands of voters, shook the hands of children, patted babies on the head, and said kind words to mothers, and made half a dozen speeches. As a climax he speeded by auto through crowded streets to the baseball park and the mounting the concrete roof of the players' bench, shook hands with the members of the Detroit and Philadelphia clubs. The big crowd in the grand stand and bleachers found it difficult to believe that the man on top of the covered bench who was bending over to reach the hands of the ball players was the former dignitary of the Supreme Court of the United States. The moving picture men did not lose a moment, and when Mr. Hughes laughingly consented to have his picture taken shaking hands with Ty Cobb, the famous center fielder, they ground the crank with renewed enthusiasm, while a great outburst of applause came from the crowd.

From the station to the Pontchartrain Hotel, the automobiles of the Hughes party passed through crowded streets. Mr. Hughes was kept busy waving his big panama hat and bowing. It was estimated that fully 50,000 persons were in the streets to greet him. At the hotel a series of receptions and conferences began, from which the nominee emerged laughing and in high good humor. He had only a cup of coffee on the train for breakfast, but his spirits seemed unflagging. For an hour with Mrs. Hughes by his side, he stood in a parlor or the hotel and shook hands with all comers, his visitors being estimated at 1,500 in number. He visited two automobile factories and made addresses. He wound up his day with a speech at the automobile factory, in which he endeavored to tear to shreds the administration's Mexican policy and rally round him all factions of the Republicans and Progressives in a mighty drive to overthrow President Wilson.

A DISCHARGED FARM HAND IS SUSPECTED

Grudge of Long Standing Said to Have Been Motive For Shooting at Corinna

Dexter, Me., Aug. 10.—Deputy sheriffs are searching for a motive in the mysterious shooting of Weyland Philbrook of Corinna, Monday night. Mr. Philbrook, it is understood, has very little to say to the authorities as to his ideas as to the identity of the assailant. His mother, Mrs. Achshah Philbrook with whom he lives, was questioned as to her theories in regard to the case. In Mrs. Philbrook's mind the affair is shrouded in mystery. At the same time Mrs. Philbrook stated that she had her suspicion in the case. She mentioned the fact that two farm hands, who had been employed at the Philbrook farm, had been discharged and that one of them, at least, she knew to have a grudge of long standing against her son. She also stated that some time ago she had been warned concerning this man and his intention by the late Deputy Sheriff E. R. Dow of Newport. She also stated that the man in question had served several terms in Bangor jail for various offenses. She refused at this time to give his name.

COMING FROM ALABAMA

A. Sterling Johnson, president of the Mobile Bay Citrus Growers' Association and Mrs. Johnson of South Ochee, Ala., left Tuesday for a visit to Mr. Johnson's mother at Charlottetown, N. B. Mr. and Mrs. Johnson will spend some time with friends in Ontario, Quebec and New Brunswick, as well as Prince Edward Island. They will stop off in Chicago for a short stay. Mrs. Johnson was formerly Miss Lemont of Fredericton and will visit Ald. J. M. Lemont.

YOUR SOLDIER

friend—whether in training, or already at the front—needs Zam-Buk. It cannot be equalled for the many small injuries and ailments incidental to a soldier's life. "For healing cuts, sores, blisters, etc., Zam-Buk cannot be beaten." Corp. Franklin of the 15th Field Ambulance, writing from France, says: "We find Zam-Buk splendid for injuries and ailments, but we haven't enough of it." Every soldier should carry a box of Zam-Buk, as nothing ends pain and stops bleeding so quickly. It also prevents blood-poisoning. 60c. all druggists, or Zam-Buk Co., Toronto.

Five Recruits on Thursday

Members of Y. W. P. A. Hear Lecture by Retired Medical Officer; News of the Soldiers

Five recruits were secured at the recruiting office yesterday: Harry Gray, St. Stephen; Harry Grimmer, St. Stephen; Percy Drayson, British Guiana; Charles Taylor and George Albert, city. Harry Grimmer, who enlisted in the Siege Battery is a son of Mayor Parker Grimmer, of St. Stephen, and the third of that family to don the khaki. Percy Drayson of British Guiana, who also enlisted in that unit, is a real soldier of fortune. He has seen eleven years of service in many parts of the world, and is also a well known big game hunter. He served as a frontiersman, also in the British Guiana Rifles. He fought in Africa and he was in India, as well. Of splendid physique, widely experienced, and an apparent adept in siege work, he will, no doubt, prove a splendid asset to the battery.

Will Serve Lunches Seventy-five members of the Young Women's Patriotic Association met last evening in the Moose rooms and listened to a very interesting talk on the war by Major George, formerly medical officer with the 10th Battalion, but now with the 280th.

Miss Ermeline Climo told of the results of the smoker given by the young ladies two weeks ago for the Construction Battalion, and the part that the society played in taking up the collection in King square on Aug. 4 was related by Miss Hannah. The report of the treasurer showed a balance of \$44.47, and with the amounts received this week, the society was able to vote two appropriations of \$25, one for the British Soldiers' Relief Fund and the other for the Mrs. Philip Warren fund for the St. Dunstan's Home for the Blind.

In compliance with a request from the young ladies are to prepare twenty lunches for that many of the No. 2 Construction Corps who are to leave the Colinet. A further report was given by one of the members, and dealt chiefly with the aid that the society had given the Red Cross workers. Miss Laine Mills was elected convener for the Imperial Theatre for September.

Private F. Carten Wounded. Letters received on Wednesday from Private Gerald Carten, who is at the front with the 1st Field Ambulance Corps, contain the information that his brother, Private Fred Carten, was wounded in the left arm, his elbow being shattered.

Call for Officers. Camp Borden, Ont., Aug. 10.—Headquarters has received authority from the militia department to seek fifty officers and supernumerary officers overseas. There are about one hundred officers of this class or more in camp.

Salvors Wanted. Ottawa, Aug. 10.—The British war office has asked the militia department here to supply the Imperial Medical Corps with 100 men from the Dominion. The need for medical men has been accentuated by the hospital requirements raised by the big offensive and all Canadian spare men may be utilized.

For K of K Memorial. The Canadian government will contribute towards the memorial to be erected by the empire in honor of Lord Kitchener. Canada's share in the tribute toward the man whose army is now forcing the Germans back will be \$25,000. The Imperial authorities have been notified to this effect.

In Switzerland. Private John Murphy, who went to the front with the first contingent from Fredericton was wounded early in the war and sent to Switzerland some time ago with a party of Canadian prisoners of war. Writing to his brother he says that he will not have the use of his leg again.

Capt. McPeake Welcomed. When Captain J. P. McPeake of Fredericton arrived in Fredericton last evening he was met by a crowd of several hundred persons, including several returned soldiers. A procession was formed and headed by the Fredericton brass band, marched to the officer's home where the mayor of the city gave an address of welcome.

Pioneer Joseph Sanipass of Rexton is the only New Brunswick man mentioned in the midnight casualty list. He was wounded.

In a letter received recently from Captain M. A. Scott, who is a prisoner of war in Germany, he says that he is being treated much better than he expected that he would be. He is allowed out on parole for a few hours a day.

Official word was received yesterday by James B. Armstrong at West St. John that his son, Sergeant-Major Roy Armstrong, who was previously reported missing, is a wounded prisoner of war.

Dredging Harbor Berths. As soon as the big steamers, now docked here, are loaded and clear, Commissioner Russell will begin preparations at once for the dredging of berths. This practically means that operations will begin about September 1 and continue up through to the middle of November. It is estimated that it will require about six weeks to complete all the necessary dredging and have the harbor in condition for the winter shipping.

## SOLDIERS MAY BE HERE BEFORE LONG FROM WAR ZONE

Preparations at Military Barracks Believed to Point to Early Arrival of Outside Units

Captain J. R. Gago, assistant paymaster, D. O. M. P. at Halifax, is in the city on business in connection with the buildings that are now occupied and to be occupied by the troops this coming winter.

There has been a report current to the effect that St. John is to have more than two thousand troops stationed here. No official word has been received yet, but the getting of the various military buildings in readiness for the occupation of troops, certainly means something, and it is believed that possibly in the near future, St. John will have as guests several hundred soldiers.

**Paymaster's Inspection.**

Lieut. G. H. Saunders, Canadian army pay corps, who is assistant paymaster at Halifax, at present engaged as camp paymaster at Aldershot camp, passed through the city today on inspection trip, in connection with paymasters of the 4th Pioneer Battalion at St. Andrews.

**At Partridge Island.**

Lieut.-Col. Guthrie, O. C. troops N. B., accompanied by Major C. G. Giggley, medical officer of the 20th, Major C. J. Morgan and Lieutenant Groves, proceeded yesterday afternoon to Partridge Island, where an inspection of the buildings at that place took place. The O. C. was much pleased with the fine appearance of the buildings and took into consideration matters requiring his attention.

**Are Organized.**

The 62nd detachment under Major Frost, now has a total strength of fifty-eight men. Most of whom are medically unfit to go overseas—but are willing to do their bit by relieving those of the guards who are fit, in order that the latter may proceed to Valcartier and there get the necessary training for their trench duties.

The guard is in charge of Major Frost, assisted by Lieutenant Penley, as acting adjutant, and Lieutenant Coonan as acting quartermaster.

The following promotions have taken place. Corporals Fitzpatrick and Coonan have been promoted to sergeants and Privates Leaver, Quirk, Thibodeau and Sauer have been promoted to lance-corporals.

John McMillin, returned soldier, has been given the rank of acting color-sergeant. Sergeant McMullin has had a wide military experience and the drill under him are rapidly being whipped into shape.

## LOCAL NEWS

**A NOVELTY SHOWER.**

Miss Gertrude Casey was pleasantly surprised last evening by the home of Miss Genevieve Creary, Chesley street, when the members of the M. R. A. retail military department, presented her with a novelty shower in honor of her approaching event.

**FOR FIRST CONTINGENT MEN**

A centre piece, donated by Mrs. Frank Baxter, 27 Gilbert street, and lettered off by Miss Rebecca Williams, was drawn last Saturday and was won by Mrs. A. Keith, Marsh street. The proceeds were used to procure comforts for members of the first Canadian contingent.

**PRESENTATION TO SOLDIER**

Private Martin Day of the 180th Battalion, now encamped at Valcartier, who has been in the city visiting his wife, Mrs. Day, of Victoria street, was tendered a surprise on Tuesday evening when several of his former friends called at his home and made him the recipient of a signet ring. Private Day will leave tonight to rejoin his unit.

**TO MISSIONARY SCHOOL.**

Yesterday afternoon Rev. Gilbert Earle Patville, left by train for Fredericton, P. E. I., where he is to be on the staff of the missionary school to be held there under canvas for the next ten days.

Miss Edna Shaw, representing the Mission Band and Sunday school of the Fairville Methodist Sunday school, as delegates to the school, accompanied him.

**JUVENILE TEMPLARS.**

Thorne Lodge, Juvenile Temple, No. 28, I. O. G. T. met in Thorne Lodge hall last evening. Miss Lizzie Young, superintendent of juvenile work, installed officers for the coming quarter, as follows:—Chief Templar, Vera Gardner; Vice Templar, Marjorie Lattimer; Past Chief Templar, Menola Almond; Chaplain, Vella Gardner; Treasurer, Mrs. Stockford; Financial Secretary, Grace Keirstead; Secty., Freda Keirstead; Asst. Secty., Phyllis Masters; Marshal, Roy Barton; Deputy Marshal, Donald Johnson; Guard, Blanche Keirstead; Sentinel, Ethel Keirstead; Organist, Ada Lemon; Asst. Organist, Ethel Tilley; Messenger, Greta Finley. Mabel Northrup and George Hoop acted as installing marshals. Lizzie Young was elected delegate to go in grand lodge, which meets at Hampton in August.

## PUBLIC WORKS DEPT.

The cave-in, which occurred on Prince William street Wednesday, has been filled in with waste material secured from the Public Works plant at the foot of Broad street. Commissioner Fisher said this morning that at first he feared he had a gigantic task on his hands as the hole at first appeared to be very large, but the work had been much easier than anticipated.

Work on the retaining wall in Camden street is progressing. A large crew of men are engaged erecting the form to hold the concrete, while others are excavating. The form is an exceptionally strong structure, made in such a way that the concrete will be worked into the form of a foot at the bottom so as to take the pressure of the earth, and not fall out.

When this is completed, work will be commenced on a retaining wall which is to be erected in Chesley street.

## INVALIDED HOME FROM WAR ZONE

Private H. Wagg of West St. John Arrived This Morning—Private H. Smith of Fredericton Returns Minus a Leg

A St. John man and two Fredericton men who have returned from the front, via Halifax, arrived in the city this morning. There was no band and no delegation of citizens to welcome them, but the men were just as glad to be back as if the whole city had been there to meet them.

Private H. Wagg, whose home is at Guilford street, West St. John, went overseas with the 26th Battalion and saw plenty of excitement with this famous New Brunswick unit until he was wounded early last month. At the time he received his wound he was out between the lines in "No Man's Land" on patrol duty, when a German sniper got him, with a bullet through the hand. He returned minus a finger. One of his first questions on reaching home was about his former commanding officer, Lieutenant-Colonel J. L. McAvity, who is home on sick leave, and the way in which he spoke of the colonel shows how strong is the feeling of affection and respect among the men for their former commander. Private Wagg also spoke with considerable feeling of the number of men the battalion has lost, saying that when he left the trenches the number of original members was small and steadily dwindling.

**Lost a Leg.**

Private Harry Smith, of Fredericton, walks with a slight limp, but otherwise one would not know that he has given a leg in the service of the Empire. An artificial limb enables him to get along smartly. He enlisted at the capital and went overseas with a draft for the 18th Battalion. He has been overseas for fifteen months. His leg was amputated as the result of injuries caused by shell wounds.

**Private Ashford**

Private Albert Ashford of Fredericton is another member of the 26th to be invalided home. At the end of the year his ankle was broken, as the result of an accident, and he was sent to the hospital. In his anxiety to get back to the firing line he returned in February, before his ankle was strong enough to stand heavy usage, and as a result he was again laid up. He still uses crutches.

## PROPOSED CHANGES IN CLASSIFICATION OF MUCH IMPORTANCE

General Revision of Railway Rules, Minimum Carload Weights, Ratings and Shipping Conditions

The attention of the Board of Trade has been drawn by a local company to the fact that the proposed new freight classification, to be known as No. 17, provides for a general revision of the rules governing minimum carload weights, ratings and shipping conditions. Owners are required to load and unload all freight in accordance with the "classification lists" and "distinctive headings" are abolished and shipments of mixed carloads of carload rates are only allowed on articles taking the same class rate and at the highest minimum carload weight. In addition, there are numerous advances in the class ratings, besides other radical changes in which St. John dealers are interested.

The Board of Railway Commissioners recently advised the board of trade that the period for filing objections to the proposed changes had been extended from thirty days to three months.

The board of railway commissioners, in this connection, has issued an order that the railway companies subject to the jurisdiction of the board, must furnish a statement showing all the changes made in the rules of the proposed Canadian Freight Classification No. 17, the grounds on which they are sought to be justified, and the results such changes would make on traffic in eastern and western Canada, respectively.

The chief commissioner, in signing this order, said that "not only do the changes in the classification ratings appear to be radical, but substantial changes are also made in the rules."

"Owing to the fact that the new classification contemplates a uniform classification for the whole country, and that different conditions have in the past obtained, the effect of the changes, both in the classification and rules, differ in the different districts, with the result that what would be a restriction of the mixing privileges in one, means a more extended right to mix carload lots in another."

"It is extremely difficult as the matter now stands for the board, and it would seem to be impossible for the shippers properly to consider the effect of the new rules and the new classification without definite information as to all the changes sought, the injustice or difficulty suffered under the former regulations, and, speaking generally, the effect of the changes. This information the railways either have or should have."

The Board of Trade has a proof copy of the proposed classification, which may be consulted by business firms interested.

## SOLDIERS HELP TO FIGHT FIRE

About 9:30 o'clock this morning the firemen were called to extinguish a blaze in the Consumers' Stock Supply Company building, situated at the southern end of Sydney street. The fire was soon under control, but however, before considerable damage was done to the stock and also to the building.

The fire started in the far corner of the building from Sydney street and was first noticed by the foreman. An alarm was immediately sent from box 47 and the fire department made a quick response.

The fire did much damage to the stock and buildings, causing about \$1,000 damage. The owners of the firm are a Montreal concern and it is thought it is covered by insurance.

Sgt.-Major Westall of the Field Ambulance organized forty men, and was on the scene of the fire in three minutes after the alarm was sent and rendered invaluable service to the firemen.
