St. John Port Makes Best Grain Shipments' Showing MILLION DOLLAR PLAN STRIKE

DECREASE IN GRAIN TRADE AT PORTLAND

St. John Makes Better Showing Than Other North Atlantic Ports.

MUCH WHEAT HERE C.P.R. Have Large Amount in West Side Elevators—More Coming.

That St. John was making a better showing this season in grain shipments than any other North Atlantic port, was the cheering statement made this morning by Commissioner Bullock. He said that from enquiries which had been made it had been discovered that all the Atlantic ports were shipping a great deal less grain this year than last and at Galveston there was practically no grain being shipped at all.

He gave the following figures showing the percentage of decrease from last year at the following ports: St. John, 17 1/2 per cent.; Portland, Me., 35 1/2 per cent.; Boston, Philadelphia and Baltimore, 40 per cent.; New York, 30 per cent.; Galveston, 90 per cent.

This will be good news to the citizens who have been inclined to think that the falling off in this year's shipment of grain meant that St. John was losing its position as one of the great grain shipping ports of the Dominion. It shows that rather than this being the fact, the port was bettering its position in this respect and was still to be considered in the running.

SCORES LIQUOR LAW Speaker at Quebec Alliance Meeting Refers to Control of "Distilled Damnation."

Montreal, Feb. 15.—Declaring that Government control of "distilled damnation" in British Columbia had not only failed to lessen taxation, but had debauched and demoralized the people and was creating bad feeling on the Pacific coast with the U. S., Rev. Dr. Maguire, recently of Vancouver, speaking at a meeting of the Quebec branch, Dominion Alliance here, said the people of British Columbia had "fallen for the lying arguments of the modernists who advocated government control in order to lighten their taxes."

He said that the liquor question was "not any more a political question than thou shalt not steal." It was a question of morals, and belonged to the ten commandments, he said.

Hourly Test makes Quaker Best

The superior baking quality of Quaker Flour is due to the selection of the wheat and the scientific manner in which it is milled. Even more important is its uniformity. Flour must maintain an unvarying quality to produce the best baking results. Quaker Flour is subjected to severe tests every hour during the milling process. That is why Quaker Flour never varies in quality. Every sack is milled the same. That is why it always bakes the same.

THE EVENING TIMES-STAR, ST. JOHN, N. B., FRIDAY, FEBRUARY 15, 1924

The Evening Times-Star

ST. JOHN, N. B., FEBRUARY 15, 1924

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., D. McKenna, President. Telephone—Private exchange connecting all departments, Main 2417. The Times has the largest evening circulation of any paper in the Maritime Provinces.

PORT REQUIREMENTS

While a St. John delegation prepares to proceed to Ottawa to urge that long overdue and promised improvements to terminal facilities here be carried out, Vancouver is preparing to send a delegation to ask for an expenditure of \$18,000,000 at that port on the Pacific. It has already gained something, as we learn from the following Ottawa despatch—

"Vancouver Harbor commissioners have been authorized by the departments of finance and marine and fisheries to issue debentures to purchase and put into operating condition without delay the site and uncompleted structure of the Woodward grain elevator on Burrard Inlet. The Harbor commission will have the power to issue at once harbor debentures for \$6,000,000, which sum, it is stated, will permit the commissioners to procure title to the property and put it into operating condition immediately."

"Deputy ministers of both departments and Hon. T. A. Low, minister of trade and commerce, have devoted practically their whole time in the past two days to the problems of Vancouver and its grain trade."

St. John must be as insistent and as wide-awake as Vancouver. That city is demanding the establishment of a grain survey board at Vancouver, and it has the assurance of the Board of Grain Commissioners that they will do all in their power to direct the flow of Canadian grain through Canadian ports, and to aid Vancouver in that regard. Mr. E. Leslie Boyd, K. C., chief commissioner, said in Vancouver last week that it was the intention of the Commission to direct Canadian grain through an all-Canadian all-year port. "When Mr. Serles and I visited the United Kingdom last summer we heard one, and practically only one, question, and that was, 'Why can't you ship your grain over an all-Canadian route,'" he added. One of the all-Canadian routes leads to St. John. Only a portion of the grain of the great west, a goodly portion no doubt, will go through Vancouver. The rest comes east. Will the Grain Commission board be as faithful to Canadian interests in its case as in that of Vancouver? The Government at Ottawa has not yet been impressed even to the extent of constructing some grain conveyors at this port.

The question is sometimes asked whether we should ask for anything at a time when there is a great clamor for economy, but in a country that must have trade in order to improve its position it is not economy to refuse to provide the facilities for handling trade. The seaports are the points through which the grain must flow out to the overseas trade be conducted. To deny them the useful terminals either on the Atlantic or Pacific coast, is to injure the trade of the country. The whole country benefits when the ports grow and are prosperous. To refuse to meet their needs in this matter of terminal facilities is to build up foreign ports to the injury of the country.

CANADA AND OTHERS

The insistent demand from all parts of Canada for retrenchment and reduced taxation lends a deep interest to the statement of what the United States has accomplished in the last three years. President Coolidge told the story in his speech in New York this week. He said—

"Out of an income of about \$60,000,000 the people of this country pay nearly \$7,500,000,000 in taxes, which is over \$800 for every inhabitant of the land. Of this amount the national government collects about \$3,200,000,000, and the State and local governments about \$4,300,000,000. As a direct burden this is a stupendous sum, but when it is realized that in the course of our economic life it is greatly augmented when it reaches the consumer in the form of the high cost of living, its real significance begins to be appreciated. The national and local governments ought to be unremitting in their efforts to reduce expenditures and pay their debts. This the national Government is earnestly seeking to do. The war cost of more than \$40,000,000,000 is already nearly half paid. Amid the disorders of currency of the war years, the next fiscal year has an estimated surplus revenue of over \$300,000,000. This represents a great financial achievement in the last three years. In the first place, it was necessary to provide for more than \$7,000,000,000 of short term maturities. These have all either been paid or refunded, so that they will become in the future at orderly intervals when they can be retired or further extended. When it is realized that such large loans were made in a way that not only left business undisturbed but was scarcely perceptible to the public the skill with which Secretary Mellon managed them

can well be appreciated. Coincident with this was the even greater task of reducing national expenditures. Through legislative enactment and executive effort this has gone steadily forward, and is now proceeding from day to day. Under the watchful care of the Budget Bureau every department is constantly striving to eliminate all waste and discard every unnecessary expense."

Even more striking, because of her infinitely more difficult position after the war, has been the example set by Great Britain in reducing expenditures, balancing the budget and reducing the debt. The Government at Ottawa, approaching its own problem has these two great examples set before it. What will be the result?

COOLIDGE'S TRIBUTE

In his speech in New York on Tuesday, referring to the action of Great Britain in the matter of the liquidation of international debts, and the agreement reached regarding the \$4,000,000,000 which Britain owes the United States, President Coolidge paid this high tribute to the Mother Country—

"The funding of the British debt was one of the greatest of international financial transactions. It had its effect on business confidence, which was world wide. It demonstrated the determination of a great Empire faithfully to discharge its international obligations. In this respect it was much more than a financial transaction. It was an exhibition of the highest type of international honor. It showed that the moral standards of the world were going to be maintained."

What a pity the country whose President can speak thus of the British Empire cannot see its way clear to work in restoring world confidence and securing world peace. True, it is moving slowly in that direction, despite the clamor of the politicians, but what the world needs is prompt and decisive action, such as the British Empire and the United States could take together without any fear of sacrificing the interests of either. Europe would be found eagerly responsive to a joint appeal from these two great powers, whose interests would not be selfish, or aimed at the destruction of any other power.

Premier MacDonald believes Russia will be prepared to discuss her former obligations and not repudiate them, although that was not made a condition of recognition by the British Government. With regard to armaments, his hope is that such international agreements may be made as will overcome the necessity for increased expenditure for national defence. His party has abandoned for the present the scheme of a capital levy. The chief difficulty at present confronting the Government is the Liberal attitude in regard to the Poplar doles question.

The Senate committee at Washington, probing the oil lands scandal, is now interested in a million dollar "slush" fund said to have been sent to the capital to influence men in high places. The existence of such a fund where promoters were playing for big stakes would not be an unusual thing in the game of politics as it is played in the United States.

The Quebec Legislature will devote half a million dollars, covering a period of four years, to a fight against tuberculosis and infant mortality. There has been great need of action along this line in that province. The province is also to adopt a more effective system of forest protection, to prevent the very heavy losses by fire.

While there has been delay in the resumption of work in the Nova Scotia mines, those in Cape Breton are expected to be in operation on Monday, and some of them tomorrow. The resumption will give an immediate impetus to business generally, and will be welcomed throughout the province.

The reports regarding the health of Premier Ramsey MacDonald are disappointing, but a cable today says his condition is not as yet in any way serious. His party never needed him as much as now.

The rebellion in Mexico has been crushed. The rebel forces have not all given up the fight, but Obregon is master of the situation. Complete victory is only a matter of dealing with scattered bands of insurgents.

Hon. W. S. Fielding's health is improving slowly, but there is as yet no indication that he will be able to take an active part in Parliament at the coming session.

The Labor Government in England will introduce legislation to give effect to the Washington Convention for the eight hour day

INVESTING IN TREES.

(Toronto Globe.) In voting to purchase 400 acres of land in Whitechurch township for reforestation, the York County Council has shown itself progressive and far-sighted. The price is only \$5,250 and there is no risk in predicting that the product of the forest will pay back the expenditure many times over. The example ought to be followed all over Ontario. There is plenty of land which, not being suitable for tillage, could be obtained at moderate prices. The market for lumber and firewood is good and is sure to become better with the growth of population.

Forests also serve a useful purpose in retaining moisture, and so preventing floods and drought and keeping streams at an even flow. The addition to the scenic beauty of the province is not the least important advantage of the movement. Much money is spent upon so-called ornaments which cannot compare in beauty with a tree. Efforts should be made to interest children in the plan, which is the most direct and effective, of fostering the constructive impulse. There are few better investments than tree planting.

Canada's standing army. (Vancouver Sun.) Canada's standing army of 41,255 civil servants is to be cut down, says Premier King. That cutting is long overdue. The civil service of this Dominion, counting out the many hundreds of able and devoted employees whose work is worth more than they get, is one of the most ridiculous extravaganzas ever maintained by any government.

For salaries to civil servants alone, every man, woman and child in Canada pays out \$6,390 a year. There is one civil servant for every 160 people in the country. Working hours in the civil service average less than six and a half hours a day. Not only are thousands of dollars being maintained at public expense, but legitimate industry, starved for willing labor, is deprived of their services.

Premier King's house-cleaning movement does not come too soon. When more than one hundred and sixtieth of the entire population of the country works for the government, Canada is in a fair way to become all government and no governed.

A few years ago when certain excited gentlemen at Ottawa endeavored to inflict a standing army on the Dominion, or rather "sitting" army, known as the civil service, it is infinitely more costly and almost as useless than the kind of army the jingoes wanted to have. The sooner it is reduced to the minimum the better.

THE TOLL OF INDUSTRY. (Toronto Globe.) Are we a reckless people industrially, or is the serious loss of life by industrial accidents due largely to the fact that much of the constructive work in progress in Ontario is carried on under difficult conditions that involve of necessity the risking of life and limb?

The question seems to be warranted by the report of the Ontario Workmen's Compensation Board for January. During the month 4,890 accidents were reported, 85 of which were fatal. All in the number of accidents and in the fatalities there was a marked increase as compared with January, 1923, when the accidents totalled 4,326 and the fatalities 25. The money cost of accidents in industry, though not to be classed with the toll of valuable lives, is a serious drain on business. The Board during January awarded \$469,522 for compensation, and \$95,168 for medical aid. This by no means represents the total money loss resulting from accidents, for in many cases the productive power of persons maimed by moving in a manner which is practically destroyed, and which involves not only a serious loss of wages to the individual during the balance of his life, but also the loss to society of his productive capacity, which might run up as high as two or three thousand dollars a year.

The figures once more emphasize the vital importance to the people of Ontario of the work done by the Safety League. There are many other places besides railway crossings where it is a matter of life or death to Stop, Look and Listen.

THE PRAYER OF A LITTLE HOUSE

I, a little house, have prayed to God One wistful, shining prayer my whole life long. I have not asked that children's feet go shod

With softness through my echoing halls, white snow Mounts small and gentle to my battered panes, I have not asked for sun, warm, sweet,

To glimmer always through my leaded panes, Or begged for these my eaves delivered from a sleet.

But I have prayed the dear Lord God of earth, Who watches over little roofs and halls Through dark and light, through waking and through sleep.

In sun and storm, in agony and mirth, That always, always He should let me keep Much love within the circle of my walls!

CHILDREN'S AID MEETS. The monthly meeting of the Children's Aid Society was held last night in their home, 68 Garden street, with A. M. Beiding, the president, in the chair. The report of Rev. Do You Envy The Health of Others? Read these remarkable statements of what one simple food can do

There is nothing mysterious about the action of Fleischmann's Yeast. It is not a "cure-all"—not a medicine in any sense. But when the body is choked with the poisons of constipation—or when its vitality is low so that skin, stomach, and general health are affected—this simple natural food achieves literally amazing results.

Concentrated in every cake of Fleischmann's Yeast are millions of tiny yeast-plants, alive and active. At once they go to work—in-igorating the whole system, clearing the skin, aiding digestion and assimilation, strengthening the intestinal muscles and making them healthy and active. Health is yours once more.

Up to a couple of years ago I never had regular intestinal action. I worked on this defect in many ways—abdominal exercises, vegetarianism, occasional medicine, Dr. Coué. Fleischmann's Yeast has been the only agent that, with me, ever produced normal movement continuously. And as a natural consequence, I now feel finer in other ways—enjoy everything more; food, work, play. Even my pipe seems to smoke better!" (A letter from Mr. Henry J. Carroll of St. Louis)

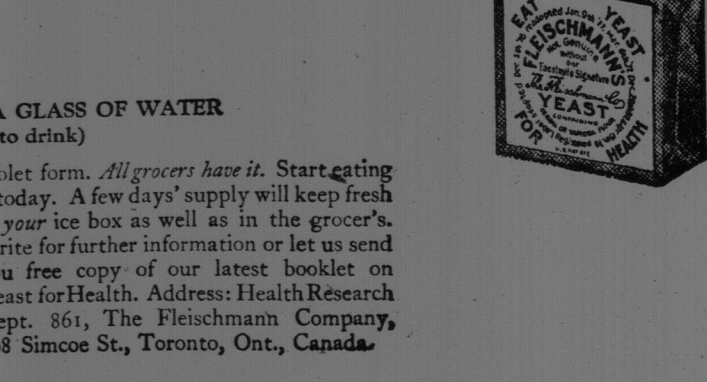

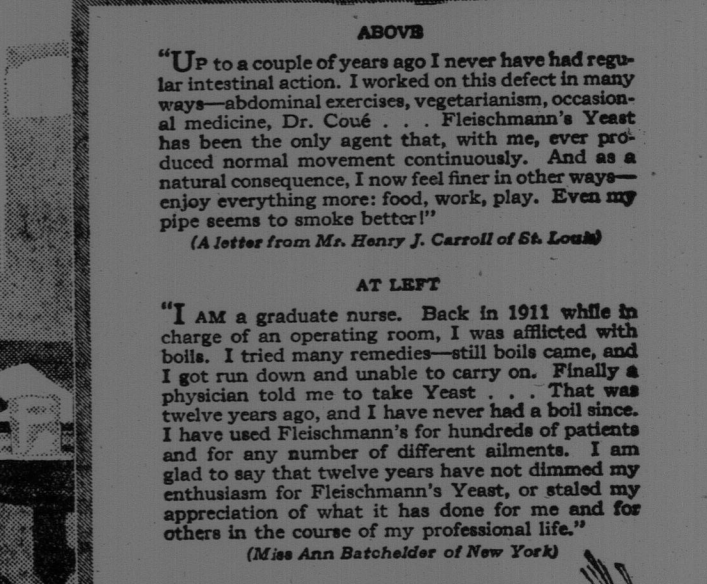

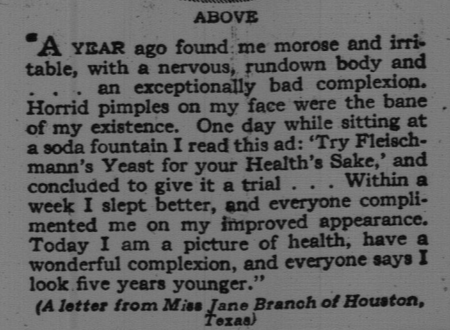

I AM a graduate nurse. Back in 1911 while in charge of an operating room, I was afflicted with boils. I tried many remedies—still boils came, and I got run down and unable to carry on. Finally a physician told me to take Yeast. . . That was twelve years ago, and I have never had a boil since. I have used Fleischmann's for hundreds of patients and for any number of different ailments. I am glad to say that twelve years have not dimmed my enthusiasm for Fleischmann's Yeast, or staled my appreciation of what it has done for me and for others in the course of my professional life." (Mrs Ann Batchelder of New York)

"A YEAR ago found me morose and irritable, with a nervous, rundown body and an exceptionally bad complexion. Horrid pimples on my face were the bane of my existence. One day while sitting at a soda fountain I read this: 'Try Fleischmann's Yeast for your Health's Sake,' and concluded to give it a trial. . . Within a week I slept better, and everyone complimented me on my improved appearance. Today I am a picture of health, have a wonderful complexion, and everyone says I look five years younger." (A letter from Miss Jane Branch of Houston, Texas)

"Run-down and ill from overwork, I had local neuritis, stomach acidity and insomnia—formidable array of enemies for the brave little yeast cake to tackle! Yet in two weeks friends began to take notice. . . In a month my complexion was clear and lovely, stomach in perfect condition, nerves untroubled, and the 'All worn out' feeling, and I was able to sleep like a top." (Extract from letter of a Chicago business girl, Miss Dorothy Deane)

"IRREGULAR hours, eating in snatches, desperate hurry. . . nervous, little or no appetite, slept poorly and worst of all suffered from constipation. Then I tried Fleischmann's Yeast. . . Almost at once 'evacuation was easier, no stomach pains, no heartburn. . . Today—practically complete elimination of bowel trouble, clearer skin, sounder sleep, better health." (Extract from letter of a New York reporter, Mr. A. Kandel)

TWO TROUSER SUITS
The Best Investment For Boy Wear
New Spring Models Now Showing

It seems rather unwise to buy a boy's suit with only one pair of trousers when for very little extra expenditure you can have another pair to go along with it.

Unquestionably a boy can always wear out two pairs and if he has them when the suit is new, the added wear he will get will more than make up for the little more you paid for the suit in the first place.

New Spring Models are showing here now in a fine variety of specially selected fabrics. Some suits have two pairs of bloomers; other have a pair of golf trousers and a pair of bloomers. Sizes for boys 8 to 18 years.

Blackheads Go Quick By This Simple Method

Blackheads—big ones or little ones—sting ones or hard ones—on any part of the body go quick by a simple method that just dissolves them. To do this get about two ounces of peroxide powder from your druggist—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly. It will loosen them and wash off. You'll wonder where the blackheads have gone. Pinching and squeezing blackheads only open the pores of the skin and leave them large and unsightly. This simple application of peroxide powder and the water dissolves them right out, leaving the skin soft and the pores in their natural condition.

POTATOES ARE BURNED.

A carload of potatoes was lost last night in the C. N. R. yard when the car in which they were placed took fire and was partially destroyed. It is thought the fire started from a heater in the car. The city fire department were called out about 9.30 and quickly subdued the blaze.

THE BEAUTY OF HEALTH.

Newspapers and magazines are devoting columns to magic or overnight beautifiers. There is a beauty in health that is far more attractive to men than mere regularity of features or a made-up complexion. Health should be the first essential of women who want to win and hold admiration, respect and love. At the first indication of ill-health as indicated by dark circles under the eyes, a sallow complexion, headaches, backache, pain in the side, nervousness, irritability and melancholia, women should take Lydia E. Pinkham's Vegetable Compound, the standard remedy for woman's ills, which has been proven to help 98 out of every 100 women who try it.

HAVE TOBOGGANING PARTY.

The Y. P. A. of the Church of the Good Shepherd, Fairville, held an enjoyable tobogganing party on Hatheway's Hill, Manawagonish road, last evening. Afterwards at the church hall the party was served delicious refreshments. Those who assisted in serving were the Misses Elsie Byers, Evelyn Stears and Dorothy Armstrong.

CHANGES IN C. P. R. STAFF ARE MADE

St. John Has Interest in the Announcement of Several Appointments.

Important changes in transportation circles are just announced at the headquarters of the C. P. R. to affect five well-known traffic officials. E. F. L. Sturdee, general agent at Seattle, has left to take the post of acting general passenger agent in the Orient. As a junior clerk he became an employee of the company in his native city, St. John, in 1869. His thirty-one years of service have made friends for him all over the North American continent, and his appointment to the important post meets with general appreciation. After being general agent at Boston for some years Mr. Sturdee was transferred to Seattle in the same capacity.

Interesting Career Of Margaret Anglin

Miss Margaret Anglin, who opens an engagement at the Blackstone tonight, says the Chicago Journal of Commerce of Monday last, was born in Ottawa, Canada, her father being Speaker of the House of Commons. She was educated in a French convent school, and having met with success as an amateur reader, when she was 17 years old, against the wishes of her parents, she went to New York City and entered Nelson Wheatcroft's Dramatic School. Her first professional engagement was with Charles Frohman in the part of Madeline West in "Shenandoah," at the Academy of Music, New York, in the fall of 1894. After a year on the road, Miss Anglin became a member of James O'Neill's company, 1897-7, playing Ophelia in "Hamlet," Virginia in "The Virginian," Julia de Mortimer in "Richelieu," and Mercedes in "Monte Carlo."

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

A BOOST FOR THE
ENDOWED THEATRE

Equity Players Get Encouragement from J. D. Rockefeller, Jr.

With \$100,000 guaranteed as the annual capital for its season, the Equity Players would seem to fit into the artistic niche which has been empty in this city ever since the New Theatre retired from the task of uplifting dramatic art, says the New York Herald. The Equity Players grew from the actors' society of the same name. For two years they have appeared at the Forty-eighth Street Theatre without the material prosperity which was expected to crown their efforts.

Among the enthusiastic players were Mine Cowl, Laurette Taylor and a number of the best known among the American actors, who took their chances of getting some share of the ever profit there might be as a result of their efforts. That profit could not under any conditions be as great as their compensation in the commercial theatre. Their loyalty to the cause of their organization brought them the most agreeable artistic results in "The Rivals" and in "Victoria".

Two previous seasons have been conducted under the generous annual income of \$100,000, which the present guarantee has agreed to supply in the future. John D. Rockefeller, Jr., is the latest of the committee which is to put this sum at the disposal of the Equity Players, not with the idea that all of it will be needed, but with the hope of allowing the company the fullest opportunity for the trial of the plan. Since they promise not only to present plays of the best obtainable artistic quality but also to preserve a high standard of cleanliness, the success of their scheme will be as much of a boon to the theatre-going public as to the association.

There are musical organizations in New York which have grown to great efficiency and usefulness with the invention granted to them by wealthy sympathizers. Foreign as the idea of a subvention is to American institutions there is nothing to interfere with the liberality of private citizens who feel the desire to encourage artistic enterprise.

Hitherto, such support as applied to the drama, however, has not met with results that might encourage the supporters to expect returns from their contributions. The New Theatre had more than \$100,000 every season to apply to its purpose, but even under the able direction of Winthrop Ames it was not possible to accomplish in two seasons enough to make the directors see their way clear to ultimate prosperity.

There were material obstacles in the way of any dramatic enterprise dependent for their success on the vast interior of the New Theatre. It was an experiment on a much larger scale and different from the undertaking of the Equity Players, who will have the support of all lovers of the drama—even of those who have a deeply rooted prejudice in favor of the theatre that pays its way.

FIRPO'S OFFERS
TOTAL \$1,110,000

Report That Syndicate Offered That Sum was a Mistake.

Buenos Aires, Feb. 15.—(Associated Press)—The recent announcement that Luis Angel Firpo, the Argentine heavyweight, had been offered \$1,100,000 by a New York syndicate for his exclusive services in the United States for one year was the result of a misconception, Hugh Gartland, Firpo's business representative, has declared. The figure mentioned, he said, represented the total of all the offers Firpo has recently received for boxing matches and vaudeville and motion picture work during the coming year.

Two months of hearty diet on his beloved "puncher"—the Argentine equivalent for a New England boiled dinner—combined with a sedentary life in his newly established automobile agency, put enough flesh on Firpo to make him appear almost roly-poly when he began public training for his forthcoming 15-round matches with Farmer Lodge, an American, and Erenio Spalla, the European heavyweight champion.

Firpo is not worried about Lodge, whom he is scheduled to fight next Saturday, nor is there any public uneasiness about the Argentine's ability to dispose of the American in any round he pleases. Spalla, however, is regarded as a formidable antagonist here and Firpo is being warned not to

The two matches will be held in a football field which the French promoter, Ferdinand Lanckman, has equipped to handle a crowd of 60,000. The ringside section will hold 20,000, while 40,000 more may be accommodated on either side of the field and on the sloping turf at the ends.

SOCIETY FOLK TO
ACT FOR MOVIE

One Reel Film Will be Completed and Shown Same Night.

New York, Feb. 15.—A distinct novelty in entertainment form as the result of co-operation between society and the professional stage is to be the Motion Picture Carnival at the Plaza Hotel for the benefit of the Dugout, the Free Home for Girls, the Othopedic Ward of the Post-Graduate Hospital, the Travelers' Aid Society and the National Hospital for Speech Defects.

One of the many features of a long and varied programme is to be a one-reel amateur motion picture, with a cast composed entirely of young society men and women of society filmed in the presence of the audience. The film then will be rushed off for development and shown at the carnival about 2 o'clock the next morning. This innovation will be made with the co-operation of the Famous Players-Lasky Company, under the supervision of Mr. Albert Parker of the Distinctive Pictures Corporation.

Mrs. George Peabody will give a dinner at her home, 830 Park avenue, for film folks and society preceding the carnival.

about the theatre until it opened, and asked for my company. The elderly servant who expected them, and sweeping the passage on the stage, scratched his head and said: 'I dunno!' and that was the note of the day. No one knew, I never learned whether anyone ever did know. They never turned up that day. 'The Brigand' was stranded in another town, and 'Sally I pawned my watch,' said the actor, 'also the chain and my dress suit—the new suit designed to enable me to live up to the advertisement and dress well on and off.' I never lived up to the terms of the contract 'on,' but 'off' was a significant word. Gloomily, I roared 'off' to town the same night, and arriving in the morning—to go to the Strand, an out-of-work actor who had never been employed."

The Crow of Croup
A Warning
To All Mothers

Croup starts with a dry cough and rattling in the throat; after which the croupy crow gives warning of the disease. The child, after tossing restlessly about, will start up with a flushed face, protruding eyeballs, and a distressing look of terror and anxiety. There is a struggle for breath, and the expectation of the mucous matter is so difficult to get rid of that the effort appears to threaten strangulation.

On the first sign of the "croupy crow" mothers should administer Dr. Wood's Norway Pine Syrup, and thus give the child prompt and permanent relief, and perhaps the life saved by taking this precaution.

Mrs. H. A. Langhorn, Hamilton, Ont., writes: "My little boy was very bad with the croup and I could not get anything to relieve him until I tried Dr. Wood's Norway Pine Syrup. I cannot praise it too highly for the relief it gave him."

Price 50c a bottle; the large family size 80c; put up only by The T. Millburn Co., Limited, Toronto, Ont.

FINDS HIS FUTURE
BRIDE IN NEW YORK

Metropolitan Singer From Bulgaria Engaged to Wed Designer.

New York, Feb. 15.—Armand Tokatyan, one of the new and young tenors of the Metropolitan Opera, at last, to more than one phase of his laudable ambition when he came to New York to extend his operatic career. He has found a future American bride. His engagement to Miss Marie Antonette Abbey has been announced by her mother, Mrs. Clario Abbey, Seventy-second street. They will be married here in April, when the Metropolitan singers have finished their supplementary season at Atlantic after the season here.

Miss Abbey's father, the late Meyer Abbey, was a Russian who practiced law in New York. She studied for her voice with the hope of finding a career upon either the concert or operatic stage, but this ambition she set aside for a business career. She perfected herself as an artist and a dress designer of gowns for a novel making concern.

Mr. Tokatyan was born in Bulgaria of Armenian parents. He studied under Nino Catrone in Italy and made a number of successful operatic appearances there before coming to the United States to join Antonio Scotti's touring opera company. His next step was to the Metropolitan last year. He is a lyric tenor and twice within two weeks has sung the role of Romeo first to the Juliet of Miss Queen Marie and second, last Monday night to that of Mme. Amelita Galli-Curci. He has, however, a wide range of role aside from that part.

GIVE PATIENTS CONCERT.

St. Mary's Band gave a concert programme in the Home for Incurables last night that greatly delighted its audience. Nearly all of the patients were able to assemble in the hall downstairs to enjoy the music. Refreshments were served to the patients, bandmen and the visitors present. The programme was as follows:—
March—Bavalia; selection—Gems from the Overtures; gavotte—Bells of St. Malo; waltz—Sunset on the St. Lawrence; piccolo solo—Sunrise in the Forest; selection—Dixie Land; march—Viscount Nelson; God Save the King.

The Piccolo of Milan "congratulates" Italian artists on their successes at the New York Metropolitan Opera House. The Italian paper remarked that the one modern French opera on the roster of this famous theatre, "Samson et Dalila," is interpreted chiefly by Italian singers; that Leon Rothier "is a Belgian," and Jean Gordon an American. It is comforting to find, thinks the Piccolo, that the greatest theatre in North America "needs the Italian element when giving French opera."

The Fable of The Man Who Guessed Wrong For Once in His Life

(With the Kind Indulgence of Friend Ade.)

Once upon a Time there was a clever Guy who was wont to brag that he was the best Little Forecaster who ever stepped Down The Pike. He could always tell in advance just what Dame Fortune Intended to do to All and Sundry. He had a gilt-edge First Mortgage on the Gift of Perception, and he was no Dub at Telling the World just where everyone and everything was going to Get Off at.

Now, it happened that a bunch of Citizens in a certain well known Sport Town got together and decided to Put Over a big Skating Meet. The Clever Guy bore the reputation of being an Interested Sport Fan, and when he was told that if he wanted to Get In on his share of the big meet he would have to Step Lively and secure his Pastebards while the Getting Was Good.

But he had the thing all Dosed Out; the Dear Public was not likely to Fall All Over itself in a Mad Rush for admission. No, Sir, he should Worry—he'd be able to Meander to the rink on the Nights In Question and Grab Off the best in the House without a Bit of Fuss.

So the days Humped Along until the First Session of the big meet was at Zero Hour. The Clever Guy smiled Cynically when his Bossom Pals asked him, "Didjagystyrticketstet?" He strolled in Low Gear to the Scene of Battle as the first Bunch of Speed Artists crouched at the Starting Line. He wondered what the Big Mob was that Clattered to the starting line to the loss of Ade. He tried to elbow his way through the Surging Throng. He was Pummelled, cursed at, tramped upon and generally Given the Raza. After half an hour of Useless Effort he was loaded into the Red Cross wagon and Carried Off to the Hospital. Three weeks later he was reported as Resting Easily.

MORAL—A word to The Wise keeps the Doctor away.

2 MORE STEAMERS GO INTO DRY DOCK

Canadian Inventor and Canadian Mariner to be Overhauled Here.

Two more vessels of the Canadian Merchant Marine are due to be placed on the blocks of the St. John Dry Dock & Shipbuilding Company's dock during the present month. It was announced this morning that the steamer Canadian Inventor was now on her way from New York and would be put immediately into the big basin for general overhaul and repairs. A start will be made on the Canadian Mariner, which will receive the same treatment, on February 24.

The schooner Cashier, which has been in the dock for some days undergoing extensive repairs was floated out yesterday and work on the schooner Ononette, which was being overhauled on the marine slip way, has also been completed.

F. M. Ross, general manager of the Dry Dock Company, returned to the city yesterday after a trip to Upper Canada.

FIGHT ON A WHARF BRINGS 2 TO COURT

Third Also Said to Have Been in North End Fracas.

The peaceful repose of residents of Long Wharf was rudely disturbed early yesterday morning when three men started in to settle some differences. When the battle was at its height Plainclothesman McBride and Policeman Macaulay hove in eight and the contestants apparently agreed to a truce and left the field of battle on the double. As a result their superior speed and dexterity saved them from spending the remainder of the night in a cell. However, they had been recognized and this morning two charged as combatants appeared before Magistrate Henderson.

Fred Gallant was charged with fighting in a public place and using abusive and insulting language to Helen Friars on February 11 and also assaulting Kenneth Friars on the same date. William Moore was charged with fighting.

As they were arrested at 1:30 o'clock this morning there was no opportunity to notify witnesses to be present so the case was over until 9:30 o'clock this afternoon. E. J. Henneberry appeared for Gallant.

OPIUM CASE THIS AFTERNOON.

That there is no intention of the Dominion authorities dropping the case against two Chinese, Charles Lam and Wee Get, who were taken into custody recently on a charge of having opium in their possession in April, 1923, was evident in the police court this morning when a member of the narcotic department appeared to prosecute. He was accompanied by Dr. W. B. Wallace, K. C. As there was a misunderstanding as to the time the case was to be heard the defendants or their attorney, William M. Ryan, did not appear. As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I spent a little time yesterday viewing 'The work of a great artist.'"

"I didn't know you ever had time to think about 'such things,'" said Hiram.

"The artist," said the reporter, "has all out-doors for a studio. I did not have to climb a stair or go out of my way to behold his works."

"That's his 'curious,'" said Hiram. "What's the feller's name?"

"Old Sol," said the reporter. "It was at work with his needles on the snow at noon yesterday, and the crystals he fashioned with such marvellous ease surpassed in beauty anything discovered in the tomb of Tutankhamen."

"Oh," said Hiram—"well—I guess you're about right. Old Sol is in a class by himself. He kin paint a flower—or a cloud—or a gal's neck an' arms. But when he begins to make them there snow crystals you kin call 'em winter's pooty well over. I heard some birds sayin' they thought so yesterday. I'm glad you aint so tied up to the tread-mill but what you kin look around once in a while an see what a fine old world this is, after all. Yes, sir—I am so."
