LIQUOR SEIZED ON BRITISH LINERS

Premier of Great Britain Says No Ground for Protest

Much Comment in London Over Situation Created by Test of the U. S. Ruling Against Vessels Having Liquor Under Seal for Return Voyage.

(Canadian Press.)

New York, June 25.—U. S. officers yesterday smashed the British Government seals placed on the liquor stocks which the Baltic and Berengaria brought into this port on Friday to test the Treasury Department ruling that no ocean liner may cross the United States three-mile line with bar supplies for the east-bound voyage.

The first seizures occurred under spectacular circumstances, the seizures being halted twice by mysterious telephone calls. This is what happened yesterday.

1.—Deputy surveyor Sanders marched aboard the Baltic shortly after 9.30 a.m. The British seals were smashed. Captain John Roberts protested, and Federal Prohibition Director Canfield began taking an inventory of the wine goods.

2.—Proceedings were suddenly halted by a telephone call from the custom house, while Washington waited. Collector of the port Elting later explained that this halt was called because Dr. Sprague had not yet issued permits for medicinal liquor supplies.

3.—Early in the afternoon federal agents who spent the day on the Baltic's pier resumed their working of seizing her liquor.

4.—This work was halted by a telephone call from Dr. Sprague, after assistant secretary treasurer, Moss, of Washington, sent him drastic orders and it was reported that Dr. Sprague had granted a permit for all the Berengaria's stock, listing it for medicinal purposes.

5.—Dr. Sprague issued permits for a certain amount of medicinal liquor—considerably in excess of what the Maritime, a larger vessel carried on her outward voyage.

O. K. Says Baldwin.

London, June 25.—Stanley Baldwin, the Premier, said in the House of Commons today that there was no ground for protest if British customs seals were broken within U. S. territorial waters by officials of the U. S. customs service. His statement was in answer to a question whether Great Britain recognized the right of the U. S. to break the seal on liquor aboard ships.

Mr. Baldwin said it was the practice for the British customs authorities to fix their seals as a matter of routine on dutiable ship stores taken from England in bond to prevent consumption of the stores in territorial waters. The seals must not be broken in British territorial waters, but otherwise they were in no way inviolable. Foreign customs seals, he added, were habitually broken when necessity arose in British territorial waters.

London Opinion.

London, June 25.—(Canadian Press.)—The seizure of liquor on British liners in New York continues to be the outstanding feature in the press. In several of the editorials there is a decided note of anxiety lest the controversy lead to serious ill feeling between Great Britain and the U. S. These newspapers express the hope that people here will refrain from intemperate and uninformed criticism of what is held to be a purely legal question.

The Daily Telegraph, one of the most moderate commentators, says that the issue is not merely one between the U. S. and Great Britain, but that several other countries are also involved. The newspaper urges, as the best immediate solution, "recourse to arbitration and suspension of the new regulations pending the decision of a chosen tribunal." The Telegraph suggests the Hague tribunal as the permanent court of international justice as a medium. This solution is also advocated by the Graphic.

The Daily Chronicle, endorsing Lloyd George's attitude toward the situation, urges the British to avoid attempting to take a hand in the contest of wits and darts in America. "If the prohibition law in the U. S. fails," says the newspaper, "the worst possible thing would be that that failure should be capable of being ascribed to British interference."

The Chronicle also seriously regrets the smuggling of liquor into the U. S. from ships flying the British flag and the same point is made by several other commentators who disapprove of helping U. S. citizens to break their own law.

Says Too Many Tests.

The Daily News contends that the problem is in no wise a simple one because of the real conflict of rights involved. This publication condemns the procedure whereby many ships are making the test, contending that one could have raised all the issues successfully.

SAULT STE. MARIE'S MYSTERY OF THE IRON HAND

On Victoria Day the curious iron hand shown in the picture was discovered at Sault Ste. Marie under the foundations of an old house which has been demolished. It is believed to be a relic of the first attempt to mine and work iron in the Lake Superior region in 1769. Proof of its age is in the fact that a huge birch tree was cut down over the spot in 1888. The hand must have been made a century before that. It will be one of the exhibits during Discovery Week in August. The larger picture shows a glimpse of one of the ore yards today, in the Steel City, in contrast to the early iron work.

SAD END OF A BIRTHDAY CUTTING

Sweetsburg, Que., June 25.—A child the eight year old son of Mr. and Mrs. William Brock of Sweetsburg, is dead; Molly, seven year old daughter, is in critical condition suffering from concussion of the brain, and Mr. and Mrs. Brock suffered severe cuts and bruises as a result of a runaway accident near here on Saturday. One child escaped uninjured. They were on their way to a fishing party in celebration of Mr. Brock's birthday. On a steep hill the horse became frightened and bolted, turning the buggy over and throwing the occupants out.

Arthur S. Connor of the Western Union staff returned on Saturday from St. Louis, Mo., where he attended the fifth General Assembly of the Western Union Employees. There were thirty-five delegates from coast to coast in attendance. Mr. Connor was the only Canadian in the Assembly. He reports a very successful meeting.

FELL INTO LAKE

Three young ladies had a rather unpleasant experience yesterday afternoon at Lily Lake. It was their evident intention to go boating and, while it does not appear that they intended to go swimming as well, their minds on this score were made up for them. As they stepped into the boat it capsized and they had an enforced ducking. They were able to get back on terra firma safely and were taken into the pavilion and given an opportunity to dry out. They seemed none the worse for their experience.

BOARD OF TRADE NOTES

The Board of Trade has been advised that J. S. McKinnon, director of the Canadian department of the British Empire Exhibition, expects to be in St. John on his return from the western provinces, when he will go into details of the exhibition. A business house in Jamaica has asked the board for a detailed statement of the chief imports at St. John for the last three years. This information has been supplied.

BURIED TODAY

The funeral of Patrick H. Gorman, who died suddenly in Montreal, was held this morning at nine o'clock from his late residence, 115 Princess street, to the Cathedral of the Immaculate Conception where high mass of requiem was sung by Rev. R. Nugent, with Rev. Domagala as concelebrant. Rev. Reynolds as sub-deacon, and Rev. William Duke, of master of ceremonies. His Lordship Bishop LaBrosse was in the sanctuary. Interment was in the new Catholic cemetery. Many spiritual bouquets were received.

MORE DAIRYING.

Woodstock, June 25.—The organizing of a cream route starting from Woodstock going north by road to Centerville, calling at nearly every house up as far as McKeegan road, thence through to Charleton, then continuing south to Wilmet. St. Thomas, Simonds back by way of Waterville to Woodstock, was canvassed this week by Aid. H. M. Dewitt, of Woodstock, for the local creamery. He found on the route about an average of four cans to the farm. Many of the farmers feel greatly encouraged over the idea of having a creamery. Matter to be Referred to C. N. R. Engineers to Take Up With City Engineer—Question of \$10,000 Hydro Bill—East St. John Union.

Project for Harbor Work

A suggested new plan of development at Red's Point, which would mean the addition of one deep water berth to the plan now under consideration by the C. N. R., was submitted to the Common Council this morning by H. C. Schofield and R. E. Armstrong, representing the transportation committee of the Board of Trade, for approval. After discussing the proposal it was decided to refer the matter to the C. N. R. engineers to take up with the city engineer in an effort to determine which scheme might be the more advantageous.

CREW MUTINOUS, SAY THE POLICE

Captain Says All Quiet in Story About Rum Ship at Halifax.

Halifax, N. S., June 25.—Captain Wilson of the steamship Strandhill, who sent out a hurried call on Saturday afternoon for police to protect him from a crew angry by a three months booze smuggling expedition for which they had received no pay and shortened rations, came ashore this morning and registered at the customs house, entering his ship as "from sea in ballast." In spite of the story reported by the police yesterday, the captain said today that all was quiet aboard ship and that he did not know where there were any policemen about or not. On the other hand, the police department report that a squad of four officers are on constant guard on the Strandhill at the request of the captain who declared that his life was in danger, from a mutinous crew.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbloom, "you never know what is in the consciousness of people you meet every day in the street." "We'd have to be mind-readers to do that," said Hiram. "I learned in conversation that he has one child ill at home and another ill in a distant part of the country—too ill to be brought home. He would be with both, but cannot. He must go about his daily tasks, always with the thought of his children in his mind. Now if you could get his story from every feller that sets on a bench on King Square of an afternoon you'd have a cross-section of human life that 'ud make mighty interesting reading.' Ever think of that? Isn't it the most interesting study they is—human life—yes, sir."

TWELVE DROWN AS THEY SEEK RELIEF FROM SWELTERING HEAT.

Detroit, June 25.—Seeking relief from the sweltering Sunday heat, 12 persons were drowned in the rivers and lakes of Michigan yesterday. He died within two hours.

SAYS HE MAKES ARTIFICIAL WOOD

Christiana, June 25.—By using a mixture of fifty per cent sawdust with chalk and chemicals and subjecting these to very heavy pressure, a scientist of the Kullebund says he has succeeded in making "artificial wood" possessing all the qualities of genuine lumber. A specific gravity is the same as wood, its hardness the same as oak. It can be planed, sawed, bored, nailed, painted, stained or polished and substituted in every process of carpentry or manufacture to which real wood is subjected. It will not deteriorate in water, and on account of the chemicals it contains it is impervious to rot. It burns only at a temperature very much higher than that at which real timber ignites.

RECORD OUTPUT OF AUTOS IN MAY

Washington, June 25.—The U. S. automobile industry set a new production record in May by turning out 350,190 passenger cars and 42,983 trucks. The April production was 344,474 passenger cars and 37,527 trucks. The production of passenger cars in May, 1922, totaled 232,431, and of trucks only 23,778.

LONGER DAYS TO GET THROUGH WITH DELORME CASE

Montreal, June 25.—Commencing today the Delorme case hearing will be speeded. The sessions will continue each day until seven or possibly eight o'clock in the evening.

Mr. Calder, K. C., counsel for the prosecution hopes to complete the case for the crown by Wednesday, and this will be greatly facilitated by the production in court today of a four foot high model of the house at 190 St. Hubert street, occupied by Abbe Delorme at the time of the murder of Raoul, and in which he and his sisters and his car were found.

The annexes and surroundings of the house will also be shown in miniature and the garage in which the abbe stored his car will be among the model exhibits. The cellar in which he is alleged to have been attending to the furnace will be shown.

Sister Sainte Eleuthere of the Gray Nuns, Ottawa, was the first witness called today. She fixed the date upon which the furnace was operated upon for appendicitis as Feb. 7, 1921.

Pierre Lalime, a neighbor of the Delorme family, told of having heard the motor in Father Delorme's garage running some time between 10:45 and 11 o'clock on the night of January 6, 1922. Later in the same night, about 1 a. m., he said he heard the Delorme furnace being shaken. He did not hear the car leave the garage. He heard the motor running in third speed and never in high which to him meant the car did not leave the garage on the night of January 6, 1922.

Mr. Holder had fenced off his property, shutting off access to the civic subdivision, except through an extension of Somerset street, which was passable for only light vehicles. The opening up of the road will require the cutting away of a large piece of rock, while the putting in order of the Somerset street extension would cost less.

Authority was given to Commissioner Bullock to consolidate the harbor bulks.

COUNCIL HEARS NEW WHARF PLAN  
(Continued from page 1.)  
Commissioner Wigmore said that he felt his department would be much better off without the Compensation Board.  
The resolution carried, only the Mayor dissenting.  
Sub-Station Approach.  
Commissioner Frink reported that Mr. Holder had fenced off his property, shutting off access to the civic subdivision, except through an extension of Somerset street, which was passable for only light vehicles. The opening up of the road will require the cutting away of a large piece of rock, while the putting in order of the Somerset street extension would cost less.

Hydro Tenders Accepted.  
Recommendations from the Civic Hydro Commission were approved as follows:—That tenders of the Northern Electric Co. for 1,000 hoods for street lights, \$4,340, be accepted; that tender of E. Leonard & Sons, for 1,000 brackets, \$1,370, and other equipment, \$48,485, be accepted.  
Regarding the bill from the N. B. Electric Power Commission, the Mayor read the opinion of the city solicitor in which he said that bill was rendered prematurely, as, according to the agreement, the account was to be based on the meter readings of the previous month. In a letter, dated June 22, however, he said that it was not unreasonable that the commission should bill for one-twelfth of the yearly amount for the month of May. The Mayor read a reply he received to a telegram from Hon. Dr. E. A. Smith, chairman of the commission, in which he said that the amount which he had graded, and sold under this arrangement while it is expected that the total amount which will be graded this year will be in excess of 30,000 pounds. Wool prices, which have shown a steady upward trend during the season, are still remaining firm.

GRADING THE WOOL.  
Frederick Gleaner.—The grading of wool which has been collected here by the Provincial Department of Agriculture from throughout the province under the co-operative grading and marketing arrangement which has been carried on during the past few years, is expected to be commenced during the first week in July. Last season 22,000 pounds of wool were graded and sold under this arrangement while it is expected that the total amount which will be graded this year will be in excess of 30,000 pounds. Wool prices, which have shown a steady upward trend during the season, are still remaining firm.

ON TRIAL FOR MURDER OF FREDERICK MAN  
Frederick, N. B., June 25.—Chief of Police Nathaniel Jones has returned from Windsor, Ont., where he attended the annual meeting of the Chief Constables Association of Canada. He visited Detroit and saw several Frederick men. In Windsor he saw Mr. and Mrs. Arthur Finmore of Frederick. Mr. Finmore is with the entomological survey.  
Chief Jones was informed while in Detroit that the negro who shot Chester Monahan of this city in Detroit on May 23, was standing trial for murder.

ONTARIO VERY HOT.  
Toronto, June 25.—New heat records for the year were reported from various parts of Ontario yesterday. London topped the list with a maximum of 96. Toronto was second with 95. Farther east the temperature was not so bad, Ottawa getting off with a high of 82 and Kingston 80.

TRAVEL HEAVY.  
Both the Montreal and Boston trains were late reaching the city today. The Boston had one of the heaviest trains arriving here this season and was brought from McAdam by a P. one time of engine. As this could not come to the city owing to its weight, an engine was sent to Fairville to bring the train to the Union Station. The train had fourteen cars and the majority of the passengers were for points east.

SECOND BODY IS FOUND.  
Mrs. Matilda James, Main street, has received a letter from her son, Dr. William F. James, announcing that the body of Thomas Lawlor who, with Everett Dolan, of Nelson, N. Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Malifield coconut oil shampoo, which is pure and greaseless, and is better than anything else you can use. Two or three teaspoonfuls of Malifield is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy, wavy and easy to manage.

You can get Malifield coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure and ask for Malifield. Beware of imitations. Look for the name Watkins on the package.

Mrs. Harold Lawrence and Miss Jessie Lawson, Junior Red Cross supervisors, returned to the city recently after a tour through Charlotte and Carleton counties. While away they presented flags won by schools which made the best showing in Junior Red Cross work. In Carleton county the flag was won by Hartland and in Charlotte by Moore's Mills. They also presented first aid boxes to children who had written the best letters telling of what the Junior Red Cross meant to them.

The increasing cost of fuel has led to the development of a heating stove that will burn saw dust.

Syrup Pepsin Loved By Hosts of Babies

Half a teaspoonful will make a fretful youngster happy and satisfied.

The mother has her choice of many remedies for her baby's minor ills, but she should be careful which remedy she selects. Tell her she do the child harm.

What might be safe for herself may do injury to an infant. You will find that if the little one cries and does not want to play that its bowels are constipated. First look carefully to the diet and give the child one-half teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin. You will then see results in a few hours. You will not have to force it on babies or children; they actually seek it, it is so pleasant-tasting and free from gripping.

Dr. Caldwell's Laxative Syrup Pepsin is a compound of Egyptian senna and pepsin with agreeable aromatics. The ingredients are stated on the package. It is a mild, gentle vegetable laxative that cures colic, biliousness, flatulency, and headache, and to break up fevers and colds.

CROPS AND OTHER THINGS

The last report issued by the agricultural department in Fredericton shows that the province is suffering from drought. It has affected the pastures and the hay crop, retarded vegetation generally to some extent, unless broken by a rainfall general throughout the province, will mean light crops.

THE STORY OF NEW DENMARK

Fifty years ago the Scotch settlement of Kincardine in Victoria County was established. The event is to be celebrated by a great reunion this summer. The wilderness of half a century ago has given place to a thriving settlement whose people are intelligent and progressive, and have made a notable contribution to the life of the province.

On Tuesday of this week, June 19, the annual celebration in commemoration of the coming of the first settlers to New Denmark, was held at that place, and attracted, as it always does, a large number of visitors from all over the country.

A CANADIAN QUOTATION.

(Bliss Carman in "Remembrance.") Here in lovely New England, When summer is come, a sea-turn Flutters a page of remembrance In the volume of long ago.

Soft is the wind over Grand Pre, Stirring the heads of the grasses, Sweet is the breath of the orchards White with their apple-blow.

There at their infinite business Of measuring time forever, Musing on tides of the sea, The great tides come and go.

Over the dykes and the uplands Wander the great cloud shadows, Strange as the passing of sorrow, Beautiful, solemn, and slow.

For, spreading her old enchantment Of tender, ineffable wonder, Summer is there in the Northland How should my heart be no more?

IN LIGHTER VEIN.

Fate. "Father, what is fate?" "It's crossing a busy street three times a day for three years, and then being run over by a farm wagon in the country."

Wide Range to Choose From. Blind Beggar (who has been advised to go to work)—And what would you have me work at—me being blind from birth?

First City Man—"My son is up at Cambridge this year. Second Ditto—"Oh, really. What sport is he studying for?"

The Arm of the Law. "County Policeman—Halt! You're under arrest!" "Motorist—What for?" "Never ye mind, I ain't goin' to give you any chance to think of excuses!"

Here's One for Father. "The proud father beamed upon the assembled company as his daughter finished the aria, to prove her voice."

With a shriek of approval, the whole crowd yelled: "We're in favor of it!"

HOW TO RUN A RAILROAD.

(Forbes Magazine, N. Y.) The story is told of a certain ambitious young man went to the president of a certain university and said: "Sir, I desire a course of training which will fit me to become the superintendent of a great railroad system. How much will such a course cost, and how long will it take?"

"Young man," replied the president, "such a course would cost you twenty thousand dollars and might require twenty years of your time. But, on the other hand, by spending perhaps three hundred dollars of your money and three months of your time you may be elected to Congress. Once there, young man, you will feel yourself quite competent to direct not only one, but all the great railroad systems of our country."

PROHIBITION FOR BHOPAL.

The news that the Begum of Bhopal has declared prohibition in her State is an agreeable surprise to all the friends of temperance reform in India. The dispatch from Bhopal is as follows: "Among the reforms introduced recently by Her Highness, the Begum of Bhopal, is a total prohibition in her State. Hereto the State derived a revenue of Rs. 4,000,000 to Rs. 5,000,000 per annum from liquor contracts, but the income has been sacrificed for the sake of a corresponding improvement in the material condition of the subjects of the State."

FEW CHOSEN.

(Montreal Gazette.) Of 424 candidates for matrimony who presented themselves in one month at the newly established municipal department in Vienna for advice on matters of matrimony, the physician in attendance granted certificates to only thirty-six per cent. of the applicants. So that this is what comes of taking matrimony seriously.

UNIQUE JUBILEE.

(Halifax Chronicle) The worthy honor which was paid to Sir Charles Frederick Fraser by the Directors and graduates of the School for the Blind, on the occasion of his Golden Jubilee as Superintendent of that institution, is a mark of recognition in which all Nova Scotians who value royal and distinguished service will be glad to join. Sir Frederick Fraser's career of fifty years is one of which his fellow-citizens are justly proud. It is a career of remarkable success and high distinction in a field which he has made peculiarly his own.

Sir Frederick Fraser has been not only a teacher and an educational leader; he has shown exceptional ability in organization and in an executive capacity. The splendid institution which he has founded, the School for the Blind is a monument to his ability, to his enthusiasm, and to his unflinching devotion to a worthy cause. It is an inspiring example of growth from a very small and modest beginning to a large and important institution which ranks in efficiency and in the quality of its work with any similar school for the education of the blind in the world.

When Sir Frederick Fraser became Superintendent of the School for the Blind there were only nine pupils, the school was small, the support was meagre; and for a decade the young Superintendent, handicapped himself by the loss of sight due to an accident, encountered great difficulties in carrying on the work. But he had an indomitable will, great energy of purpose, genuine vision, and keen and sustained enthusiasm for the enterprise, which forbade discouragement and recognized no defeat.

From the outset Superintendent Fraser set before him two objectives, namely, that the blind and the "blind provinces" were entitled to the benefit of free education, not as a matter of favor, but of right; secondly, it was not the commission of random acts that he should see to it that the blind should be so enlarged and widened that they would be afforded ample opportunity for employment and for earning a livelihood so as to maintain themselves as self-respecting and independent citizens. With these objectives in mind he set to work, and he secured the support of governments, not only of Nova Scotia, but of New Brunswick, Prince Edward Island and Newfoundland.

It is an achievement for which his fellow-citizens gladly do him honor. Dalhousie and King's recognized his services, and in 1912, the Legislature of Nova Scotia paid him the signal honor of summoning him to the Bar of the House of Assembly to publicly thank him for his great and distinguished service during forty years on behalf of the education of those who are deprived of sight.

Two years later, on the occasion of the King's birthday, and upon the recommendation of His Royal Highness the Duke of Devonshire, the order of the Order of St. Michael and St. George, on June 3rd, 1915, and this honor was made the occasion for a widespread congratulatory and appreciative outburst.

Since then Sir Frederick Fraser has continued to do his noble and arduous work with the same energy and devotion. He has seen the school grow from a small institution to one of the foremost institutions for the education of the blind in the world. He has seen the Dominion its graduates are upholding the traditions and the ideals which Sir Frederick Fraser has set before them.

It is a unique and distinguished honor which has been conferred upon the School and upon Sir Frederick Fraser, and Nova Scotians, who are proud of Sir Frederick Fraser's achievement, are glad to see him honored in this manner. The distinguished jubilation on his half century of public service and in wishing him many years of happiness and contentment.

TO SAVE H. M. S. RALEIGH.

Quebec Salvage Company Communicates With Admiralty. Quebec, June 25—Instructions are being sent by local salvage and wrecking company from the Admiralty, as a result of which an attempt will be made to save H. M. S. Raleigh, which was stranded last summer off Fortunate Bay, on a most hazardous coast, in Belle Isle Strait. It is understood that offers have been made to the Imperial authorities to float the cruiser, and a memorandum has been presented. The position of the stranded vessel is said to have been greatly improved and the enterprise may be quite easily executed.

In this connection it is reported that the company which is to make the attempt was only recently incorporated by letters patented and possesses sufficient capital to allow the operations to be successfully carried out. An announcement regarding the decision of the Admiralty is expected in Quebec within a few days.

SMUTS FEARS ANOTHER WAR.

Cape Town, South Africa, May 19.—(A. P. By Mail)—General Smuts speaking recently at the Union of South Africa government, defined the British Empire as a grouping of free states held together by their common allegiance on terms of freedom and equality.

The famous South African leader said it was quite possible that another world war might arise, and he therefore urged that the position of the British Empire be defined. The European war, he said, arose from the fact that the position of some of the great powers was not clearly defined.

A surprise party was held on Friday evening at the home of Mrs. William Fox, Fairville, for Jack Gunter, a High School student, who will leave soon for Quebec, where he will join his father, W. E. Gunter, formerly of this city.

THURSDAY'S CONFERENCE.

(St. John Globe) The attitude of Commissioner Thornton toward the hydro development presents itself as one of the inexplicable problems of civic politics. Largely, if not altogether, because of his course the city found itself unprepared to take delivery of hydro at the time specified for the cost of perhaps a natural under the circumstances that he should assume the role of leader in the effort to save the city the outlay which yields not return, but the method adopted is heavily calculated to promote friendly relations between the city and the province.

Neither does it suggest, whatever may be the reason, a determination to credit both the provincial enterprise and provincial good faith. That is not the attitude of the people of St. John. They declared their opposition in several elections; they declared it by forcing the contract for the power, and again by compelling the Council to reject Power Company proposals, and they have clinched their declarations of faith signing many hundreds of contracts to transfer their business from the private to the public utility.

The good faith of St. John is not a matter of doubt. It is therefore a matter of regret that in business the Council should seem to put the city in the humiliating position of challenging either the enterprise which the Government has developed or the good faith declared in the contract signed on behalf of the Government by its hydro commission. Chagrin every citizen must feel over features of Thursday's conference. Happily, there is to be found in the declaration of the Council and Hon. Dr. Smith, chairman of the provincial commission, a compensating dose sufficiently inspiring to overcome the ill effects of anything that may have been said by any city commissioner. The positive declaration of the Premier and the chairman of the Council, that the Government is able to carry out its bargain and prepared, should doing so force the necessity, to go to the length of expropriating the labor of the province, the New Brunswick Power Company system, must remove from every mind every last lingering vestige of doubt about St. John's right to the service for which it has contracted. That declaration knocks down and utterly destroys every house of cards built up by the Premier and the Council, and it provides a steady stand-by without the necessity of civic purchase of a steam stand-by. It guarantees the service at the price arranged for. Government insistence that St. John live up to its bargain is itself a Government declaration that it will do so.

With this assurance, engineers' doubts and business men's anxieties become vapory shadows, and all can rejoice together in the knowledge that the power, which the Government is not a doubtful or uncertain product, but a reality guaranteed by a dual sense, is delivered without additional cost to the city.

THE COLLAPSE AT PEKIN.

(Toronto Globe) The so-called Government at Pekin has become a sham, a simulacrum. Its impotence is revealed anew by its compromise with the bandits who held up the Shanghai-Pekin express and took passengers for ransom. Hundreds of the brigands have been bribed to enter the Government service and give some show of strength to the Peking army. Ramon says that President Li Yuan Hung has fled, and that Pekin is in peril of being overrun by the marauders. It may be that the city is preparing the way for Sun Yat Sen, who has emerged from his recent eclipse.

Li Yuan Hung is a bureaucrat of the old school, living according to inveterate custom, untouched by Western standards, except under the pressure of necessity. He represents the ancient order by contrast with Sun, who has assimilated Western culture and has sought personal contact with foreign countries and foreign influences. The wives of the two men also illustrate the old and the new. Mrs. Hung is a conventional Chinese woman, a housewife, drudges unlettered with no vision or interest beyond the walls of her house. Mrs. Sun is the product of two generations of foreign training. In the American army, she was a member of the Thompson Seton, wife of the Canadian author-naturalist, records an interview with her, and describes her as a young woman, well educated and highly intelligent, speaking English and French. She is an inspiration to her husband, and she has been a great help to her father, who was educated in a United States university and her mother in a foreign mission school in Shanghai. Mrs. Sun, who was born in Shanghai, was sent to a private school in New Jersey when fifteen years of age, and graduated at the Wesleyan College, Macon, Georgia.

She was married in 1915 at Tokio, where her husband was then a refugee. "My chief ambition," she told Mrs. Seton, "is to see China free from the grasping powers and emerge as a real democracy, with all the chances and fronts returned to her." Her favorite motto is "Sartor Sartus," which she carries always, and the works of Havelock Ellis and Edward Carpenter.

Sun Yat Sen may not be the Moses or the Joshua of his race, though the time is ripe for one, but he typifies the new spirit of progress which is the only hope of building up a united Chinese Empire on solid foundations. The movement derives much of its impetus from Christian teaching and missionary effort. Many of its leaders normally adhere to the old superstitions, but the new wine is breaking the old bottles.

BEST JOKE IN BRITISH HISTORY

(Manchester Guardian) It is one of the undignified facts of our history no doubt very properly suppressed in our school and text books, that the Habeas Corpus Act, that palladium of our liberties recently invoked in the case of the Irish deportees, came upon the statute book by way of a jest. Not even Macaulay mentioned its origin. It was made read in a foot-note of Bishop Burnet, but his brilliant grandpère, Mr. G. M. Trevelyan, has too unerring an eye for the picturesque to let it slip.

At a critical moment the bill only just passed the House of Lords because the peers, as a jest, had counted a certain fat lord who voted for the bill as 10 votes, and in their mirth over this excellent witticism had failed to rectify their figures until it was too late. A fitting origin for the one good measure of the Merry Monarch's reign!

"It was," says Trevelyan, "the best joke ever made in England. The fat lord's vote secured that even James II. could not imprison his subjects at pleasure."

THE TWO IRELANDS. (Boston Herald) Peace prevails in both the Irish Free State and the six counties which are designated northern Ireland. And there is peace between them. That is the most pleasing news that Ireland could send to America. Since the Valence destruction in the south and west there has been hardly anything, except the vandalism outrage at Drogheda, to indicate a possibility of insurrection. The feeling of the vast majority of the Irish people toward the discomfited leader is probably hinted very fairly in the Punch cartoon where he is compelled by circumstances to leave you awers wearily. "Well, make it as long as you can," Ireland's true hearts are tired of strife, and it is in freedom from strife that they find their opportunity to grow strong and prosperous.

State is a troublesome business, and its obligation by reciprocity or free trade is not in sight. There has yet to be a settlement of the boundary line between the north and the south, and the appointment of the boundary commission provided for in the Anglo-Irish treaty. In a widely different respect the north has marked a difference between itself and the south, by the prohibition of alcoholic beverages. This is an experiment which we in America may watch with intense interest, and it need not injuriously affect northern relations with the Free State, though the thirteenth operation of the Governments, parliaments and peoples of the two divisions of Ireland is surely within reach of the "resources of civilization."

RECENT DEATHS

Mrs. Susan C. Clinch. Many friends in the maritime provinces will learn with deep regret of the death of Mrs. Susan C. Clinch, wife of D. C. Clinch, which occurred on Saturday morning at the General Public Hospital following an illness of four months. Mrs. Clinch was a daughter of the late Archibald McCallum, of Matilda, N. S., a prominent ship-builder and owner. She came to St. John as a bride and had made her home in the city since that time. She had a wide circle of friends and was very highly regarded and esteemed. An active worker in charitable organizations she was tireless in her efforts for the welfare of those in distress. The funeral will be held on Tuesday afternoon at 2:30 (day-light time) from St. John's (Stone) church of which she was a devoted member. Interment will be made in Fernhill cemetery. Besides her husband, she is survived by two sons, Douglas W., of Chicago, and Archibald, at home. Two brothers and two sisters also survive.

Mrs. M. J. Corbett.

The death of Mrs. Maria Jane Corbett, widow of John Corbett, occurred on Saturday last at her residence, 34 Brook street. She was a daughter of Mrs. Margaret Woods and the late John Woods, Manawagonish Road. She is survived by her mother, two sons, Stephen and Charles, at home; two daughters, Mrs. Walter McKay

Mrs. E. W. Wilmore. The death of Elizabeth W., widow of the late Robert D. Wilmore, who sat in parliament for several years as representative of Queens-Sunbury, occurred in Fredericton on Saturday. She was seventy-seven years of age, a daughter of the late Benjamin Black of Halifax. One daughter, Mrs. Agnes M. Park of Montreal, and one son, Allen B. Wilmore, of Fredericton, Dominion emigrants, survive; also three sisters, Lady Barker of St. John, Mrs. Shuttleworth of Tunbridge Wells, England, and Mrs. Davis of Liverpool, England.

Sussex Boy Loses Life By Drowning

George Manning, fifteen years of age, son of Harry Manning of Sussex, was drowned yesterday while bathing in the Kennebecas River. Accompanied by George Whittle and Ernest Alward, he had gone to bathe. Neither he nor Whittle could swim. Manning asked Alward to take him across the river on his back, and while standing on a rock at the edge of the river ready to make a start both slipped and fell into twelve feet of water. Alward tried to save Manning but was unable to. The body was recovered about an hour later. Coroner F. W. Wallace gave permission for the removal of the aged and infirm ministers' fund, issue the following statement:

Four Children Drown

Springfield, June 25—Adella and William Nahlio, aged 10 and 8 years, respectively, children of Mr. and Mrs. John Nahlio, were drowned in Loon pond, where they had gone with their parents for relief from the heat. At Easthampton two grammar school boys lost their lives, one in the waters of Lower Williston pond and the other at the Ox-Bow at Mt. Tom. They were Russell Phillips, 10, son of Mr. and Mrs. George B. Phillips, and Chester Popalski, 8, son of Mr. and Mrs. Frank Popalski. The double drowning at Loon pond happened as the father of the two children waded out into the water with them and lost his footing. Spectators failed to realize the danger until too late. The Phillips boy at Easthampton drowned when he fell from a log. His body was recovered by his father. The other Easthampton boy, Chester Popalski, was swimming with other boys when he stepped into a hole where the water was over his head. He was able to swim a little and it is thought he became entangled in weeds. His cousin, George, nearly lost his own life in efforts to save him.

Geraldine Farrar Wins Her Divorce

New York, June 25—Geraldine Farrar has won her suit for divorce against Lou Tellegen. It was announced last night by Samuel Untermyer, counsel for Miss Farrar. A referee's report recommending a divorce has been filed. Action by Miss Farrar was begun two years ago and in her complaint she charged her actor husband with infidelity with three women.

Echo of Presbyterian Union Decision

Toronto, June 25—Rev. D. R. Drummond, D. D., chairman of the General Board of the Presbyterian Church, Rev. W. S. Sedgewick, D. D., convenor of home missions and social service, Rev. D. T. L. McKerrill, B. A., chairman of the special pension fund committee; C. S. McDonald, chairman of the deacons board and Thomas McMillan, joint convenor of the aged and infirm ministers' fund, issue the following statement: "To avoid misunderstanding and in fairness to ourselves, we desire it to be understood that our acceptance of the convenership of the committees on which we serve is without prejudice to any attitude or action we may feel constrained to take in reference to the decision of the General Assembly to seek to consummate union with the Congregational and the Methodist Churches as per the proposed draft bills."

KILLS DAUGHTER AND CHUM; WOUNDS THREE OTHERS

Zinsmeister on Rampage at Kentucky Picnic; Suicides When Capture Near. Louisville, Ky., June 25—Wm. Zinsmeister, regarded as a desperate character, created havoc among nearly half a hundred persons enjoying themselves at a picnic given by a church club on the banks of the Ohio River, near here yesterday, by killing his fifteen-year-old daughter, a girl companion, 16 years of age, and wounding another girl and two youths. A few minutes later, when on the point of being captured, he turned a pistol on himself and sent a bullet through his head. Friends of the dead man say he objected very much about his daughter going with young men and say that this might have been the motive for the slaying. TWO HOUSES BURNED. Truro, N. S., June 24—Fire at Belmont, Saturday, near here, destroyed the residence of Watson Baird. The Orange Hall nearby was slightly scorched. New Glasgow, N. S., June 24—The residence of Daniel Baillie, at West River Station, on the Canadian National Railways, was destroyed by fire on Saturday.

**Mayor Works Without Pay To Clear City Debt**

Jacksonville, Ill., June 25.—(Associated Press)—A few years ago the city of Jacksonville was "broke." It was so crippled financially its credit wasn't good for a 60-cent telegram. Its then chief executive attempted to send today it has a credit of many times 60 cents.

The change has been brought about, it is said, by an efficient business administration given by a mayor and a city commission who do not draw a cent of salary for their work for the city.

Elected three times without giving away so much as a nickel cigar or making a single public political speech.

Mayor Edward Crabtree is now in the midst of his third term with the aim to make Jacksonville one of the best business cities in the state. Mr. Crabtree says he never gave a dollar to a campaign fund and never asked for a single vote.

When he returned to Jacksonville after two years of work in liberty bond drives during the war, the citizens of the city urged him to run for mayor. He promised to do so on the sole condition that he be paid no salary and that several of those boosting him for the position run with him for council positions on the same platform.

Jacksonville has a population of 16,000 and a total taxable property worth of \$12,000,000. It was the first city in Illinois to go "bone dry" and was one of the first to adopt the commission form of city government.

**Angry Laborite Shouts "Mind Your Manners!" To Lady Astor After Speech**

Lady Astor, M.P.  
LADY ASTOR, M. P., AND HER NEW SISTER MEMBER, MRS. HILTON PHILIPSON: LABORITE ARTHUR HAYDAN.

LONDON—"Mind your manners!" shouted Arthur Haydan, Laborite member of Parliament to Lady Astor when the member from Virginia welcomed her new sister M. P., Mrs. Hilton Philipson, by saying: "If she does not know much she need not be afraid, for she will find that some of her fellow M. P.'s know less."

The Laborite member, evidently hit by the lady's shaft, jumped to his feet and cautioned her that if she would "cultivate her temperance and her manner" she would do better.

**THIS MOTHER FIRES EGGS BROADCAST, 250 TO A SHOT**

Giant Stick Insect Injures Progeny by a General Distribution.

London, June 6.—(By mail).—In Regent's Park there is a lonely giantess who will soon shoot 250 of her offspring into the world with a gun, says "L. G. M." writing in The London Daily Mail.

She is a magnificent green Giant Stick Insect and has just been installed in special quarters at the London Zoo. She comes from Java, and this is the first time that her particular species has been represented in this country.

Her family has been known to boast of members who are over thirteen inches long in the body alone. This applies only to the females, for the male giant is a dwarf compared with his mate.

In the tail of the female is an amazing spring-pistol with which her 250 hard, round eggs are shot to a distance of about twenty-five feet. Nature orders her not to keep all her eggs in one basket lest some animal gobble them up at a mouthful, so she fires them all round the compass.

**TRAWLER SNIPE IS TOTAL LOSS**

Yarmouth, N. S., June 24.—The beam trawler Snipe which went aground on Seal Island several days ago was condemned as a total loss after a survey had been made by Captain R. M. Ferguson and Captain David Morrill, of Yarmouth. Upon the return of the tug from the scene yesterday a large amount of gear and fittings were taken off the trawler and brought to Yarmouth.

Miss Blanche Gertrude Robbins, of Toronto, arrived in the city on Sunday en route to Yarmouth, accompanying the body of her mother, Mrs. Sarah Holmes Robbins, formerly of Hantsport, N. B., who died in Toronto on June 21. Interment will take place at Chebogue, N. S.

**Muncie To Show New Finger Surgery For Deaf Abroad**

Brooklyn Specialist Sailing for European Clinics and May Treat Son of King Alfonso.

Demonstrations of his new method of finger surgery for the cure of deafness will be made by Dr. Curtis H. Muncie, of Brooklyn, next month in London, Paris and Glasgow on invitation of leading European bodies of physicians. It will be the first time that an operation of this kind will have been held abroad.

Dr. Muncie sailed on Saturday for London. His first demonstrations will be made before the Great Britain Otopathic Association and the International Association and the International Society of Otolological Research from July 1 to 4, when operations on five deaf persons will be conducted. Dr. Muncie will then subject his methods to test before the Otolological Research Society of Paris, following which he will lecture before the Society of Aurists at Glasgow and will conduct an open clinic for a week in behalf of the deaf poor of that city.

The operation, which Dr. Muncie calls reconstruction of the Eustachian tube, that which leads from the nose to the ear, has been performed here in 4,000 cases involving all degrees of deafness. He will take as subjects in his operations abroad only first degree cases of deafness for which after treatment is not necessary. He hopes to show the foreign medical men that persons whose deafness is due to nervous disorder, catarrh or otosclerosis can rise from the operation practically cured.

It is reported in connection with Dr. Muncie's departure that he is to perform an operation on the son of King Alfonso of Spain, the prince having been deaf from birth. Dr. Muncie would neither affirm nor deny this yesterday. He said that an operation to restore the hearing of a prominent foreigner, whose name could not be mentioned in keeping with the ethics of the profession, was, however, one of the principal objects of his trip.

The Muncie operation, which is accomplished by the fingers alone with a view to correcting the deformity or derangement of the Eustachian tubes, was performed upon the late William Rockefeller and resulted in the relief of his deafness.

**Committeeman With President Killed; Car Over a Cliff**

(Canadian Press.)

Denver, Col., June 24.—Summer Curtis, representative of the Republican national committee accompanying President Harding's party on its western tour, was reported killed and two other men were reported probably fatally injured late today when the automobile in which they were making a mountain tour went over a 100-foot embankment in Bear Creek canyon, twenty miles west of Denver, was also killed.

The injured are Donald Craig, manager of the Washington bureau of the New York Herald, and Thomas Dawson, Colorado state historian and veteran Washington newspaperman. French died on the way to a hospital. Curtis was almost instantly killed.

**THREW AWAY \$250.**

New York, June 25.—(By Canadian Press)—Finding a string of pearls in the gutter outside the Biltmore Hotel, two young men tossed them to the door attendant, thinking they were "only dirty beads." John Hussey, the attendant, however, kept the necklace and watched the papers. A few days later an advertisement appeared offering a reward for the return of a lost string of pearls, and today Hussey is richer by \$250.

See the extra thick coating

How generously rich and thick it is! How smooth! How fine!

Do you know that the chocolate coating is the most expensive thing about a chocolate and the most difficult to make? In order to achieve excellence Moirs make their own chocolate coatings, importing for this purpose the world's finest cocoa beans. The blending and roasting of the Cocoa beans is done by a secret process. Afterwards the chocolate is whipped up for days by powerful machinery and the result is that satiny smooth texture that distinguishes all Moir's Chocolates.

Is it any wonder that Moir's are the standard by which expert candy makers judge other chocolates?

Moir's are made for those who love fine chocolates. If you have never tried them you have a new and satisfying pleasure in store.

**NON-SKID traction with PLAIN-TREAD steering ease**

The problem of non-skid traction for your rear wheels with plain-tread steering ease on the front wheels is solved by the tread on Dominion Royal Cord Tires.

The advantage of interchanging rear tires to the front wheels and vice-versa, thus obtaining longer mileage for the set, is a very real one.

It is therefore important that the treads give you a maximum of traction on the rear wheels and no steering trouble on the front wheels.

Dominion Royal Cord Tires give you this advantage without the drawback of steering trouble caused by "climbing" on crowned roads or ruts.

This is another Dominion Tire extra in value which costs nothing extra in the price.

**ST. JOHN'S DAY IN CITY CHURCHES**

Special observances were held in the local churches yesterday on the anniversary of St. John the Baptist Day. Rev. Canon R. A. Armstrong in Trinity church in the morning spoke of the discovery of the St. John River on St. John the Baptist Day, 1604. Commemorative services were held in the Mission Church of St. John the Baptist. Rev. C. Gordon Lawrence was the preacher and the evening service was conducted by the priest in charge, Rev. J. V. Young. Rev. J. J. McPhermott, the priest in charge of St. John the Baptist church, called attention to the day and its meaning. At the Hampton Baptist church a special church service was held by Corinthian Lodge, F. and A. M., which attended in a body. Rev. Mr. Prime was in charge and Rev. F. S. Porter preached the sermon.

The members of Carleton Union Lodge, A. F. and A. M., accompanied by the Carleton Cornet Band paraded to St. John's Church yesterday afternoon where a very eloquent sermon was preached to them by the pastor, Rev. J. H. A. Holmes. He took as his text St. Luke 9, 12: "Master what shall we do." The lesson was read by the lodge chaplain, E. R. W. Ingram. The singing was furnished by the lodge choir, with Leonard M. Wilson at the organ. A quartette composed of Rev. J. H. A. Holmes and H. Laney, J. Percy Cookbank and H. Langley sang the anthem "Remember now thy Creator."

Rev. G. B. MacDonald, formerly of St. John, and now of the West End church, Halifax, has accepted a call to the Victoria street Baptist church. The services are at present being conducted by Rev. H. H. Titus, who took charge when Rev. G. D. Hudson removed to his new charge.

**New Chimes Heard.**  
The new chimes in the organ of St. John's (Stone) church were heard with great delight by the congregation yesterday. They were the gift of L. P. D. Tilley and were to commemorate his mother, Lady Tilley, who was an ardent member of the church. The organ which was installed previously by Mr. Tilley was unsatisfactory and Mr. Tilley very generously had change made and the fine cathedral chimes installed.

Rev. C. R. Freeman preached a very powerful sermon yesterday morning in the Charlotte street Baptist church on "Baptists and Church Union." He pointed out the practical impossibility of organic union as far as his denomination was concerned unless there was first a spiritual union.

There was a 100 per cent attendance of the children at the afternoon session yesterday in the Coldbrook Anglican church and they had a large part in the evening service. A great number of bouquets were brought for the special music numbers were greatly enjoyed. After the service in the Carleton street church the singing went on to St. Philip's church, in the absence of the pastor, Rev. E. E. Styles, who is visiting Rev. Hugh Miller in Centerville, the service in the Carleton street church was conducted by Rev. Edgar Calvert, returned missionary from the Dutch West Indies. Mr. Calvert is leaving for England soon and will sail on Thursday from Montreal to the Canada.

An interchange of pulpits was observed by some of the ministers in the city yesterday morning. Rev. J. M. Rice, of Fairville, exchanged with Rev. H. E. Thomas, of Exmouth street church. Rev. Edgar Calvert, mission-

ary from the Dutch West Indies, was the preacher in the evening occupied the pulpit of the Carmarthen street church, where Rev. R. G. Fulton conducted the morning service. Rev. J. A. Swetnam, of the Waterloo street Baptist church, exchanged with Rev. W. A. Robbins, of the Ludlow street Baptist church.

The Portland Methodist church was thronged last night when the pastor, Rev. H. B. Clarke, preached his farewell sermon. Mr. and Mrs. Clarke will leave on Thursday morning on the Digby boat for Halifax and on the first Sunday in August Mr. Clarke will return on his new duties as pastor of the Roble street church in Halifax. They will spend the month of July at the home of Mrs. Clarke's mother, Mrs. Charles Williston, Halifax. They will be very greatly missed in St. John not only among the members of their congregation but in the community at large.

**PROMINENT PASSENGERS ON S. S. EMPRESS OF FRANCE**

Amongst those sailing from Quebec on the S. S. Empress of France on June 28 were the Marquess and Marchioness of Sligo, who are returning to their London home after an extended tour of America. The Marquess belongs to a distinguished Irish family and bears the titles of Baron Mount Eagle, Viscount Westport, and Lord of Mount. The creation of the title dating back to 1760. Others in the lists are Hon. Sir Charles Davidson, formerly Chief Justice of Quebec; Mr. and Mrs. Potter-Palmer of Chicago, financial and social figures of the U. S.; Dr. Benting of Toronto, discoverer of the famous insulin treatment of diabetes, who has been invited to address a physiological conference which will be held in Edinburgh on July 24; Rev. J. Alfred Langlois, director of Le Grand Seminaire de Quebec, accompanying a religious and historical Canadian pilgrimage to France, Italy, Switzerland, Belgium and England; R. Cloutier and Mr. Alphonse Deslites, both en route to France to represent Canadian interests on the Franco-Canadian exposition train, touring France this summer, etc.

**BRAZIL TO REVEAL LABOR LAWS**

Rio De Janeiro, May 24.—(A. P. By Mail)—A stride toward the general improvement of labor conditions in Brazil was taken by the federal government recently when President Bernardes signed the decree creating a National Labor Council.

The purpose of the council is to study all matters touching labor interests, to suggest and outline labor legislation, and to visualize and superintend the application of labor laws. The council will be composed of 12 members appointed by the President of the Republic, two of whom will be chosen from among actual workers, two employers, two high officials of the Ministry of Agriculture, Industry and Commerce, and six other persons of recognized authority in social questions.

**WET OR DRY, BIG QUESTION FOR THE NEXT CONGRESS**

Washington, June 25.—(By Canadian Press).—Signs multiply that Congress will be greatly embarrassed by the wet and dry issue next session, to say nothing of the fact that this issue is now embarrassing the administration, various state Governments and the party chieftains.

The recent expression of Senator Borah in which he indicated apprehension lest the wet and dry question become the overshadowing one when Congress meets again and in the political situation, is symptomatic of the feeling here among many public men.

Thus far, it is utterly impossible to see the end of the ship liquor complications. This is true regardless of the fact that the administration is talking of asking Congress to change the law so as to admit ship liquor on foreign vessels under seal and Secretary Hughes is talking of making treaties with foreign powers which will permit ship liquor to come into this country under seal provided the three-mile limit is extended to twelve miles.

But the recent Supreme Court decision in which it interpreted the eighteenth amendment in one particular and another, Congress can be so rigid that many good laws here do not believe it can be made more lenient by treaty or by legislation.

It is, of course, true that by failing to legislate for the enforcement of the eighteenth amendment in one particular and another, Congress can by inaction nullify it. But will the drys permit that? Moreover, the administration has raised objections to the non-enforcement policy of Governor Al Smith of New York State. For the Federal Government to advocate what amounts to non-enforcement of the provisions of the eighteenth amendment under such circumstances is not easy. It might become highly embarrassing to the administration if the drys in Congress should condemn any shading down of the law or non-enforcement of any feature of the dry amendment.

Many believe the wet and dry question will be up next session in numerous ways and that it will consume many months of argument and discussion in both houses as seriously to interfere with other subjects that need attention, such as the railroad and transportation problem.

An enjoyable concert was given in the Seaman's Institute Saturday evening by the Peeries Concert Party. Those taking part in the entertainment were Mrs. A. J. Price, Miss Grace M. Thompson, Miss Regina Briscoe, Jerry C. Anderson, Howard S. Morris, R. Lester Sullivan and R. Sidney Morris. The concert was given under the auspices of the men's class of Carmarthen Street Methodist Church.

**MORNING NEWS OVER THE WIRES**

The schooner Bowdoin bearing Captain Donald B. MacMillan and his party on their way to resume scientific work and explorations in the Arctic, sailed from Wiscasset, Maine, yesterday.

Rev. James Hill and Rev. William Wallace, both of Chatham, were ordained to the priesthood yesterday morning in Chatham by Bishop Chaisson. The sermon was delivered by Rt. Rev. Mgr. O'Keefe.

Fire in Sussex yesterday morning destroyed part of a house owned by the estate of Mrs. Ellen Mullanland and occupied by Mrs. D. Berry and Mrs. Charles Radcliffe. The damage will amount to about \$1,000 with insurance to cover the loss.

A new forest fire was reported yesterday from Durham, York county, on the Nashwaak river. It is said not to be extensive.

King Albert of Belgium suffered a broken wrist bone on Saturday when he fell from his horse in Brussels. The horse had caught his foot in a hole while travelling fast.

Ritchie E. Weatherbee of Wallace Bridge, near Amherst, was sentenced on Saturday by Judge Paterson at Amherst to serve ten months in jail, the sentence to date from February 5, the time of his imprisonment. He was charged with arson, theft and conspiracy in connection with the burning of his store on December 5.

**WHAT MOTHER WILL DO.**

Cleveland, O., June 25.—Martha Belle Miller, who has been blind all her life, graduated at the East High School here recently, the happiest girl in the class.

She completed the four-year high school course in three years.

The principal has rewarded her by permission to make the only address at the exercises and also awarded her the prize for the best general average turned in by any of the graduates.

"Most of the credit belongs to mother," she said. "She read my lessons to me and helped me prepare my recitations."

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

MISSION WORK IN MINTO DISTRICT

Miss Murphy Tells of Kindergarten, Sunday School and Other Features.

(Moncton Transcript.) The St. John Presbyterian which closed a successful Convention in St. John's church on Friday morning was very successful and the delegates who came from many sections of the province heard many very interesting and helpful discussions and addresses.

At Thursday evening's session an interesting address descriptive of settlement work among the miners of Minto and district was given by Miss Murphy who is the representative of the Presbyterian church there. Miss Murphy pointed out that settlement work in the Minto district was much more difficult than in many places because of the people being widely scattered and also because of the floating population which moved back and forth and were hard to keep in touch. Not all of the work being carried on in the Minto district was on an organized basis, a great deal of it being taken care of just as it came up from day to day.

Miss Murphy said she had in operation in the Minto district a kindergarten school with thirty pupils from the age of three up to twelve years. The pupils were all very intelligent and instructed accordingly. She emphasized the fact that if it were not for this school the pupils there would not in all likelihood receive a bit of education. They were largely foreign born and had very little opportunity for education. In addition to being taught reading, writing and arithmetic, the children were also learned portions of the Bible and the catechism.

Previous to the opening of the school the children were very indifferent to the claims of education but it was wonderful to see how they took hold and endeavored to learn when they once got started. The holding of Sunday schools was also one of the features of the work and last year an average attendance of 100 had been kept up. The pupils of the Sunday schools were greatly interested in the work and looked after same as those as used in the larger getting of supplies which were these institutions had been a hard up schools. The work of establishing these institutions had been a hard up hill climb. The children had to be coaxed, and in some cases, forced to attend but in the end a great deal of good had been accomplished. The work of the Women's Missionary Society in her settlement, Miss Murphy said, was only small but it was greater than the report to Freshy very indicated. In addition to raising the sum sent in they had, during the year, raised \$180 for the relief of the poor living in the district. Their work was not confined to what was done in the meeting but to everything that they saw to be done from day to day.

The last year, also, there had been started a teen age, girls club, the members of which had taken upon themselves the task of clothing a young girl who was a member of a large family in poor circumstances. In addition, Miss Murphy said, there had been prayer meetings held from time to time and last rally had here had been twenty-two baptisms. Six united with the church by profession of faith and one by certificate.

EXPORT HOUSES BARRED IN ISLAND AFTER AUGUST 30

(Canadian Press) Ottawa, June 24.—Exportation of intoxicating liquors from P. E. Island, or holding it in that province for export, except by brewers and distillers duly licensed by the Government of Canada, is prohibited as from Aug. 31 next by order-in-council now published in the Canada Gazette. Wireless control of a cotton goods loom was featured in a fashion show held in Baltimore.

WERE MIXED AT MARKET OPENING

Selling Pressure in Wall St.—Dull in Montreal, But Tendency Upward.

New York, June 25.—Price changes were decidedly mixed at the opening of today's market. Selling pressure was directed against some of the so-called pivotal stocks, U. S. Steel dropping a point, and Studebaker, American Can, Crucible, California Petroleum and United States Rubber yielding fractionally. Gains of a point each were recorded by Bethlehem Steel and Stewart Warner Spenderster.

Noon Report. New York, June 25.—(noon)—Heavy selling of the motor shares, apparently based on the belief that the peak of motor car production and sales had been reached for this year, turned the whole list heavy before noon. Chandler was pushed down four points to a new low, and Studebaker dropped 3/4, also to a new minimum. Trading in railroad shares was sluggish, with some of the active issues yielding in sympathy with the industrials. Some of the largest losses were reported by Dupont, Mack Truck, Stewart Warner, Pan-American, Stromberg, Maxwell Motors A, Houston and West Penn. Power off 2 to 4 1/2 points.

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans)

New York, June 25.—Evans: Liquidation seems to have ceased. There is a good sized short interest still uncovered and the market should do better. General business conditions are good except for the fact that best informed people are looking forward to a long drawn out decline in commodity prices, which of course will make it more difficult for business men to make profits. Block Maloney: "The market will be a trading affair for some time to come, with probably extreme dullness." Hornblower and Weeks: "We are justified in believing that the market should resume their upward movement and should go materially higher." Clark Childs: "The talk about banking support for the market, with tales of the definite number of shares that were bought are the fruit of vivid imagination." Housman & Co.: "Oil shares are showing the reflection of an over-sold condition." Hutton & Co.: "We feel that by the middle of July the fundamental credit conditions in trade and business will justify a gradually improving stock market."

STEEL OF CANADA.

(McDougall & Cowans)

Montreal, June 25.—One new high was established. Steel of Canada Pfd selling up to 103 1/2, on Saturday. This stock has been steadily picked up by investors recently at firming prices, which would seem to reflect its improved status in the investment market as a result of the year's business. The funded debt of the company is being brought down at a rapid rate. In fact it is at a level now where revenue from investments (mostly government bonds) falls not far short of paying its interest. This naturally enhances the position of the preferred stock and, in turn, the common, which participated in the improvement on Saturday, advancing a point to 74.

Declares Tanlac Entirely Overcame Indigestion, Palpitations, Dizziness and Weakness.

"Mother certainly did me a good turn when she had me try Tanlac for the treatment restored me to perfect health again," recently said Miss Cecile Therrien, popular young lady visiting at 230 Joliette St., Montreal. "It was about three years ago I suffered for a whole year with indigestion, palpitation of the heart and general debility. I became terribly thin and underweight, and felt weak and dizzy all the time. "Well, mother got me started on Tanlac and the treatment made my digestion good and ended that palpitation and weak dizzy feeling, altogether. I gained about fifteen pounds and recovered my health so completely that I haven't had any trouble since, but have been feeling better than I ever have before. I think Tanlac is just wonderful." Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

OBJECT TO TIEING UP MONEY IN TAX ON RAW MATERIALS

(Canadian Press)

Ottawa, June 24.—A deputation representative of at least nine different kinds of industry in Canada, clothing, leather, rubber, furniture and implement manufacturers, waited upon Hon. W. S. Fielding, Minister of Finance, yesterday with regard to the collection of the sales tax, and they were promised the usual consideration. The principal subject of representation was that of the sales tax on raw products imported for manufacture, a rebate to be paid when such raw goods are manufactured. The criticism of the tieing up of considerable capital invested in these raw goods until they were manufactured. Other provisions in the resolutions regarding the collection of the sales tax as it affects manufacturers were also considered.

CANADA OWNS 85 PER CENT. OF TIMBER LANDS

In United States, Nation Owns Only Twenty-five Per Cent.—Eighty Million Acres of Burnt-over Forest Country Absolutely Idle.

Ottawa, June 24.—An indication of the situation that will be faced by Canada in a very short time, if the destruction of forests by fire continues in such widespread fashion as during the last few years, is seen in a report by Dr. Richard T. Ely, professor of the University of Wisconsin, on the "Forest Crisis" in the United States. Dr. Ely has made a recommendation for Government ownership of all forest lands in the United States and the area so that administration and fire protection would be economically conducted. In this connection, it is pointed out that whereas the American people own just twenty-five per cent. of their forest estate, eighty-five per cent. of all the timber lands in Canada belong to the people of the Dominion, which means that every time there is a forest fire in the Dominion the whole nation suffers—not just the lumber companies. Industrial, economic and employment conditions are also directly affected by a timber conflagration. Dr. Ely, in his statement, refers to the fact that there are 80,000,000 acres of burnt-over forest country in the United States which are lying absolutely idle. He also stresses the economic value of maintaining and protecting natural forest beauty for recreational purposes. "The Great Lakes section will lose seventy-five per cent. of its charm when the forests are gone," he said. "Recreation means an actual money income to the state. It is estimated that Michigan profits to the extent of \$75,000,000 a year from the people who visit that state for recreational purposes."

SUMMARY

- 1. THE COMPANY—Belgo Canadian Paper Company, Limited, is being incorporated under the laws of the Province of Quebec to acquire the properties and business of The Belgo Paper Company, Limited, which is one of the largest and lowest-cost producers of newsprint paper in Canada, owning and operating at Shawinigan Falls, P.Q., a modern newsprint paper mill with a capacity of over 90,000 tons of newsprint per annum, now being increased to 115,000 tons per annum. The business has been in successful operation during the past twenty years. 2. PROPERTIES—The plant is one of the most efficiently equipped newsprint mills on the continent, being a complete and self-contained unit, including groundwood and sulphite pulp and newsprint mills, with the necessary auxiliary equipment. The Company's limits consist of 15,000 acres of freehold timber land and 1,800 square miles of leasehold timber limits in the Province of Quebec, located on the St. Maurice River and tributaries, estimated to contain 6,000,000 cords of pulpwood, sufficient without benefit of regrowth or reforestation for forty years' operations at the increased capacity. The location of the mills at Shawinigan Falls is most advantageous with relation to supplies of raw materials and markets for finished products. 3. MANAGEMENT—The management of the Company will remain in the hands of those responsible for the attainment of its present outstanding position. The President, Mr. Robert Biermann, has been the active head of the business since its inception. 4. ASSETS—Net fixed assets (after deduction of First Mortgage Bonds, etc.) \$1,025,879. Net current assets (after deducting all current liabilities) 2,974,121. Deferred charges to operation 1,000,000. Total Net Assets (after deducting all liabilities) \$5,000,000. Which is equal to over \$118 per share of Preferred Stock. No Bank Loans. 5. EARNINGS—Net earnings, as certified by Messrs. P. S. Ross & Sons, Chartered Accountants, Montreal (after deducting maintenance, repairs and allowance for bond interest and sinking fund on \$5,000,000 First Mortgage Bonds), available for depreciation, income taxes and preferred dividends, have been as follows: Period: Yearly Output, Average Yearly Preferred Stock, Average % on Preferred, Dividends Earned. Four fiscal years ended August 31st, 1922: 65,203 tons, \$1,102,570, 27.5%, nearly 4 times. Eight months of current fiscal year (September, 1922, to April, 1923, inclusive): 50,000 tons, 1,248,054, 3.7%, over 4 1/2 times to April, 1923, inclusive. The additional equipment increasing capacity to 90,000 tons per annum began operation on March 1st, net earnings for the first two months following such increase amounted to \$344,000, equal to 11.6% on the Preferred Shares, or over 7 1/2 times two months' preferred dividend requirements. Commencing November 1st next, the completion of another newsprint unit, now being installed, will increase production to 115,000 tons of newsprint annually. 6. PREFERRED STOCK—(a) Preferred shares are preferred both as to assets and dividends. (b) Dividends on Preferred Stock are cumulative. (c) During the life of the Twenty-Year First Mortgage Bonds now outstanding the Company will not make any capital expenditures, except for necessary renewals and replacements, nor pay any dividends on its common shares, which would reduce current assets below 150% of current liabilities, or net current assets below 25% of outstanding Bonds. (d) Dividends accrue from July 1st, 1923, the first dividend being payable on October 1st, 1923. If after the above stock is, as and when issued and received by us, subject to legal details being approved by E.G. Lang, K.C.

PRICE: \$96.50 per share, yielding 7 1/4%

Payable July 3rd, 1923.

We recommend these shares for investment

New York, June 25.—Louise Groody, actress-wife of William F. McGee, indicted with his partner, E. M. Fuller, for "bucketing," is perfectly calm over her husband's projected incarceration in the city bastille.

Fuller, who last week was incarcerated, ostensibly suffering from "nervous exhaustion," later recovered and offered to reveal the names of the "higher-ups" who backed him and McGee in their bucket-shop operations.

Paris, June 25.—Several thousand communists and workers gathered in the Place de l'Opera on Saturday night for an announced demonstration against Fascism and the Royalists, but the heavy forces of police and mounted Republican guards sent to the scene, together with the great number of spectators, made the programme impossible of fulfillment.

Our Portrait is of Mr. E. F. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes:

"About two years ago I had a nasty wound break out in my big toe. I had it attended to for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, as it did not get any better. I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Red Legs, Abscesses, Ulcers, Eczema, Boils, Pimples, Eruptions, Rheumatism, Itch, should realize that lotions and ointments can but give temporary relief—to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that in many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

GIANTS AGAIN  
SAFE IN LEAD

New York, June 25.—The New York Giants today have a safe margin in first place. They are making hay while the Bostonese sun shines and licking their chops at the prospects of the near advent of the Philadelphia Quakers, while Pittsburgh, Cincinnati, Chicago and St. Louis mull up each other. The Giants won their sixth consecutive game yesterday, 6 to 3, making it three straight from the Braves. Previously they had won three straight from St. Louis.

Pittsburg also won over St. Louis, 6 to 4, but it seems as though the Pirates are getting further from the Reds rather than keeping after the champions.

Chicago's steady playing is less normal like. The Cubs got near to the Reds by giving Luque, the Havana pitcher, his second defeat of the season in eleven starts and broke his winning streak of seven games. Grover Alexander opposed him and allowed only three hits. The score was 2 to 0.

Brooklyn fattened on Philadelphia, 9 to 4, making six runs in the first inning and getting only one hit. The Quakers just hand over their games without being asked.

While the Yankees were idle, Philadelphia passed up another chance to shorten the distance to the leadership by presenting to Washington an 8 to 0 victory.

Sherry Smith, former Brooklyn slab artist, kept "coming back" for Cleveland, beating St. Louis 8 to 2, while another veteran, George Daus of Detroit, blew up in the ninth after he had his game won, let in six runs and lost to Chicago, 9 to 8.

Webster, of Shediac and Mr. and Mrs. F. S. Hooper of Upper Kent, N. S.

Speaker Again Makes  
Batting Order Shift

Cleveland, June 24.—(Canadian Press)—Manager Tris Speaker, of the American Leaguers, has again resorted to the shift in his batting order that he used when he won the pennant and world's championship in 1920. The shift, which is not uncommon in baseball, had been discarded this year by Speaker. It is the changing of players to meet right or left handed pitchers.

When a pitcher is working the right arm, Frank Brower, acquired in a trade with Washington, will be on the initial sack. Myatt will catch and Homer Summa will pitch right field. When Uble is pitching, however, O'Neill will catch regardless of whether the opposing slabman is right or left handed. Speaker considers Uble more effective when O'Neill is catching.

With a right handed pitcher working against the Indians, Speaker will be able to send eight left handed hitters to the plate, providing Shante, Edwards or Smith is pitching for Cleveland.

Blue-jay  
The simplest way to end a corn is Blue-jay. Stops the pain instantly. Then the corn loosens and comes out. Made in clear liquid and in thin plasters. The action is the same.

PICTURED FOR THE GREATER PART IN THE  
HAWAIIAN ISLANDS, and in every respect one of the  
most delightful photoplays in which she has ever appeared, Betty  
Compson's latest Paramount stellar vehicle, "The White Flower,"  
is a screen attraction of superior value. It presents for the first  
time in a motion picture story Hawaiian scenes with which  
tourists alone are familiar, but, in addition to this, the theme is  
one of signal drama. Written, adapted and directed by Mrs.  
Julia Crawford Ivers, a distinguished photo playwright, is a  
cinema attraction vented with the weird charm of the tropics  
whose magic spell few are able to resist. Abounding in dramatic  
and thrilling episodes, finely directed, superbly photographed and  
admirably acted, "The White Flower" should prove one of the  
most entertaining pictures of the current season.

NEW SIGNS TO GUIDE MOTORISTS

Point Out Danger Spots—Excellent Reports on Condition of N. B. Roads.

Motorists are expressing great satisfaction over the progressive and timely action of the New Brunswick Automobile Association in erecting signs pointing out danger spots on the highways of the province. Several have been placed between the city and Hampton and, to one who does not know the road well, they are a great help. There are several dangerous curves in that road and some of them are indicated by black and white sign boards.

A motor league has been formed in Prince Edward Island within the last month and is known as the P. E. I. Motor League. Hon. A. E. Arsenault is the honorary president and J. A. Webster of Charlottetown is president. In a letter to J. C. Berrie, secretary of the New Brunswick Automobile Association, the secretary makes mention of facilities at Cape Tormentine and expresses the intention of the league to take up with the Government the matter of improving things there. An automobile cannot be driven on board the boat, but must be loaded on a flat car at the head of the pier, about a mile from the boat and taken to the ferry that way. The same procedure must be followed on the island side at Port Borden to unload. The charge is not excessive, but the majority of motorists would much rather not have to go through the performance at present necessary.

Inquiries are coming in daily to the office of the secretary here as to the conditions of the roads in New Brunswick. They come from all parts of the United States and Canada, and many New Brunswick motorists write to the secretary for information about the roads around the province. The road from the city to Sussex is good now, having been greatly improved from Rothesay toward Hampton in the last week. From St. John to Fredericton there are a few rough spots, but on the whole the road is good. From Perth to Edmundston the road is good as well as from Perth to Woodstock. From St. Stephen to Andrews the road is exceptionally good, and from St. Andrews to the city it is also good. The road around which it was necessary last summer to make a detour from Musquash to Lepreau is good this year, and the road along the Penfield ridge always is good. The system of road patrol recently inaugurated in the province is showing results already and great satisfaction has been expressed by tourists and local automobilists.

William Arthur Stanton, son of Mr. and Mrs. Joseph Stanton of Albert street, will be ordained to the priesthood next Friday in Holy Heart Seminary, Bathurst. He will celebrate his first solemn high mass in St. Peter's Church on next Sunday morning at 10:00 o'clock. He is the son of Peter Costello, C. S. R., novice master at St. Peter's rectory, will preach the sermon for this occasion.

THE LATE GEORGE S. GAMBLIN. George S. Gamblin, a former resident of Collins, Kings county, who died suddenly in Toronto, Ontario, on Friday morning, succumbed to heart trouble. For some time he had been living in Thorold. He leaves to mourn his wife, formerly Miss Lawson of Pearsonville, Kings county; six daughters and three sons. The daughters are Mrs. Joseph Jette of California, Mrs. Smith in Vermont, Mrs. G. Pearson of Fredericton, Mrs. Roy Kierstead of Collins, Miss Jennie Gamblin, superintendent of the Presque Isle, Maine Sanatorium; and Miss Margaret, a nurse in the St. Stephen hospital. The sons are Samuel and George in Seattle, and Harry in Vermont. The funeral will be held from his late residence in Collins on Tuesday afternoon at two o'clock, standard time.

A BIRTHDAY PARTY. There was a very pleasant gathering at the home of Mr. and Mrs. J. Frederick Stilwell, Torryburn, on Saturday afternoon in honor of Mr. Stilwell's mother, Mrs. Charles E. Stilwell of Fredericton, on the occasion of her sixty-seventh anniversary of her birth. Mrs. Stilwell is the mother of ten sons, nine of whom are living and one deceased. Her life overseas. They are Alfred E., John C. and William A. of St. John, Thomas C. of Fredericton, Leslie S. of Houlton, Me., Whitford, Blair E. and Stanley B. of Waterborough, J. Frederick of Torryburn, and Gordon Oby, who gave his life in the Great War, being fatally wounded in the Battle of Vimy Ridge. The afternoon and evening were spent very pleasantly with games, dancing and refreshments. Mrs. Stilwell received many pretty and useful gifts and the best wishes from all present for many happy returns of the day.

AT ST. PETER'S. A new concrete walk has been placed from the entrance of St. Peter's church grounds, off Douglas avenue, to the church. It is well constructed and is an added attraction to the beautifully laid off fields and their wealth of floral beauty.

TO BE STATIONED HERE. Rev. Harry McGuire, C. S. R., who should be at his priestly duties at his first solemn high mass, which was celebrated yesterday in the Cathedral of the Immaculate Conception, will be stationed at St. Peter's church. Father McGuire recently completed his second novitiate at Mount St. Alphonsus at Esopus on the Hudson.

GOLDEN JUBILEE. Chatham World: The Venerable Archdeacon Forsyth will complete fifty years' service in the rectory of St. Peter's church on July 10. Arrangements are being made to commemorate the event by a service in St. Mary's Church and social gathering afterward in the rectory. It is expected that the Lord Bishop of the Diocese will be present.

SALMON AND SEALS. Chatham World: The salmon fishermen are suffering loss by the presence of seals. In one salmon net the seals destroyed all the salmon. Something must be done to exterminate this evil. Salmon are now selling at 80c. at the nets. Due to the poor prices obtaining at the American markets it is not a profitable business for the shippers, while the price paid to the fishermen has also taken a drop.

ORDINATION FRIDAY. William Arthur Stanton, son of Mr. and Mrs. Joseph Stanton of Albert street, will be ordained to the priesthood next Friday in Holy Heart Seminary, Bathurst. He will celebrate his first solemn high mass in St. Peter's Church on next Sunday morning at 10:00 o'clock. He is the son of Peter Costello, C. S. R., novice master at St. Peter's rectory, will preach the sermon for this occasion.

THE LATE GEORGE S. GAMBLIN. George S. Gamblin, a former resident of Collins, Kings county, who died suddenly in Toronto, Ontario, on Friday morning, succumbed to heart trouble. For some time he had been living in Thorold. He leaves to mourn his wife, formerly Miss Lawson of Pearsonville, Kings county; six daughters and three sons. The daughters are Mrs. Joseph Jette of California, Mrs. Smith in Vermont, Mrs. G. Pearson of Fredericton, Mrs. Roy Kierstead of Collins, Miss Jennie Gamblin, superintendent of the Presque Isle, Maine Sanatorium; and Miss Margaret, a nurse in the St. Stephen hospital. The sons are Samuel and George in Seattle, and Harry in Vermont. The funeral will be held from his late residence in Collins on Tuesday afternoon at two o'clock, standard time.

A BIRTHDAY PARTY. There was a very pleasant gathering at the home of Mr. and Mrs. J. Frederick Stilwell, Torryburn, on Saturday afternoon in honor of Mr. Stilwell's mother, Mrs. Charles E. Stilwell of Fredericton, on the occasion of her sixty-seventh anniversary of her birth. Mrs. Stilwell is the mother of ten sons, nine of whom are living and one deceased. Her life overseas. They are Alfred E., John C. and William A. of St. John, Thomas C. of Fredericton, Leslie S. of Houlton, Me., Whitford, Blair E. and Stanley B. of Waterborough, J. Frederick of Torryburn, and Gordon Oby, who gave his life in the Great War, being fatally wounded in the Battle of Vimy Ridge. The afternoon and evening were spent very pleasantly with games, dancing and refreshments. Mrs. Stilwell received many pretty and useful gifts and the best wishes from all present for many happy returns of the day.

JUBILIARIANS ARE HONORED

Silver Anniversary of Bishop Chiasson, Bishop LeBlanc and Rev. Desire Comeau Celebrated at Church Pt.

On last Tuesday the college of St. Anne at Church Point, N. S., closed for the summer vacation. Preceding the closing exercises, there took place in the college chapel the celebration of the silver jubilee of Bishop Chiasson, Bishop LeBlanc and Rev. Desire Comeau, three honored graduates of the college. Pontifical high mass of thanksgiving was said by Mgr. Chiasson, assisted by Rev. D. C. Melanson, descan, and J. D. Comeau, sub-deacon. The three jubilarians have spent twenty-five years in the service of God. The students of the college received Holy Communion in a body for the intentions of the jubilarians. It was genuinely regretted that Bishop LeBlanc, was, on account of stress of work, unable to be present. Rev. Desire Comeau of Eel Brook was assistant priest at the mass. The sermon was delivered by Rev. Father Shillet, superior of the college. He felicitated the jubilarians on their silver anniversary in the priesthood and extended best wishes for many years of continued service.

A banquet was tendered Mgr. Chiasson, visiting clergy and friends of St. Ann's in the college dining room at noon. Those present at the banquet were Mgr. Chiasson, Mgr. Cote, Metzger, Revs. H. D. Cormier, Moncton; Godbout, Chatham, sec to Bishop Chiasson; Hamelin, Ammirault, Hill, Bourneuf, East publicist; Doucette, Quinan; Young, Yarmouth; D. H. Comeau, Eel Brook; Mallet, Salmon River; Elle and Maxime LeBlanc, the recently ordained priests; LeQuemener, Saubierville; D. C. Melanson, St. Bernard's; J. D. Comeau, Weymouth, and P. C. Thibault, Plympton; Doctors A. H. Melanson, Eel Brook; Emile LeBlanc, West Pubnico; Belliveau, Metzger; Thibault, Little Brook; H. J. Pothier and J. W. Cormier, Weymouth; A. F. Richard, Moncton; Geo. Deveau, Arichat, and Messrs. A. F. Hache; Louis D'Entremont and Herbert Melanson.

DOMINION DAY CELEBRATION IS DISCUSSED

Common Council Consulted by Delegation—Observance in King Square and in School.

A committee representative of many of the organizations of the city, waited upon the Common Council this morning and asked the council to cooperate in formulating the proper observance of Dominion Day. The committee was headed by Judge H. O. McInerney, and included A. I. Machum, Capt. A. J. Mulcahy, Rev. Canon Armstrong, H. Mont Jones, W. E. Scully, M. P. P., Rev. A. E. Gabriel, R. E. Armstrong, J. E. Quinn, Dr. W. P. Broderick, E. H. Galt and A. M. Gregg. The organizations represented included the Rotary Club, Y. M. C. Y., Gyro Club, G. W. V. A., Board of Trade and Navy League. Judge McInerney was unable to remain and the principal address was delivered by A. I. Machum, secretary of the G. W. V. A. Captain Mulcahy and Dr. W. P. Broderick and R. E. Armstrong also spoke briefly.

The delegation asked that the Mayor head the committee; that invitations be sent to speakers for the flag-raising ceremony and that arrangements be made with the military for the supplying of a military band, guard of honor and salute of guns. Mr. Machum asked the Common Council to take charge of the programme for the proper observance of the holiday. He said the schools had been communicating with the Mayor to make mention of the observance of the day of the school closing. It had also been suggested to carry out a formal ceremony of flag-raising with a military band and military guard of honor and representatives of various societies present. Patriotic speeches by the Lieutenant Governor and Chief Justice of New Brunswick had also been suggested. It was requested also that the city provide a band concert in King Square on Monday.

The Mayor said that no doubt the Council would do all it could in connection with the day. He said he was endeavoring to arrange for the programme for the summer but so far had been able to communicate with only two of the bands. R. E. Armstrong said that not only Dominion Day, but other holidays, such as Loyalist Day and Empire Day should receive the same attention. Mr. Gale said that in order to carry out a proper flag-raising ceremony a central flag pole would be required in King Square and he thought the city should put one in there. Commissioner Frink suggested that the pole at No. 2 Engine House, which faced King Square, might be used for the purpose.

Commissioner Thornton agreed, saying that he would see that a flag was provided for the ceremony. Commissioner Bullock suggested the grass plot at the foot of King street as a proper location for a civic flag pole. Commissioner Frink suggested an appropriation for the observance of public holidays. Commissioner Bullock moved that the Mayor be authorized to act on committee to arrange for the observance of Dominion Day. Carried. On the request of the Mayor, Mr. Machum consented to act as secretary. It was decided to meet in the committee room tomorrow at noon.

CARS COLLIDE ON ACAMAC ROAD

James W. Brittain's Boy Thrown Out by Impact—Coil of Wire Prevents a Worse Result.

A heavy coil of wire near the side of the main road at Acamac was the probable means of saving at least one life this morning when two motor cars collided near that point and a young boy was thrown out of the side of a car. James W. Brittain, with his wife and two children, was driving along the road towards town and was just passing the crossing where the road from Acamac Beach joins the main highway when H. C. Rankine turned the sharp curve. Three lines both roads and it was impossible for the driver of either car to see the other until the collision had become inevitable. Mr. Rankine had with him two young ladies who were in a hurry to reach the station before the train for the city left. Mr. Brittain's little boy was thrown clear of the car into the ditch just as his father's automobile was brought to a stop by the heavy coil of wire at the side of the road. To the presence of this wire, Mr. Brittain attributes the fact that the accident was not more serious. The little girl received a considerable jolt and was forced back against the rear of the car, striking with such force that it was feared for a time her arm was broken. A doctor set the parents' minds at rest with the assurance that nothing worse than a strain had been sustained. The little boy, although partially stunned for a few minutes, picked himself up quickly and seemed to be all right.

The wire ripped the mudguard and the running board off Mr. Brittain's car and the force of the collision broke the front axle of Mr. Rankine's car, both wheels coming off. A rather unusual thing about the accident was that the young ladies, without waiting to enquire of their benefactor whether or not he was hurt, made a runner for the train. The train stopped and the train crew offered their aid in any way Mr. Brittain was able to reach Fairville unaided and left his car there for repairs.
