GERMAN GOVERNMENT FALLS; BELIEVED THIS ASSURES THE SIGNING OF PEACE TREATY

Premier Scheidemann Was Regarded as Chief Opponent to Acceptance of Terms Noske Named as Successor and Weimar Report Says New Cabinet Will Agree to Terms "On Conditions" That Will Not Mean a Great Deal

Weimar, June 20, via Amsterdam to London, June 20.—The German cabinet headed by Philip Scheidemann has resigned. Paris, June 20.—It is understood here that the fall of the Scheidemann government entails the fall also of President Ebert. The national assembly will probably take measures to select a successor to Herr Ebert. French official advices carry the impression that the national assembly is favorable to the signing of the treaty.

Paris, June 20.—It was learned here today that the Scheidemann government in Germany has fallen. News of the event, reported during the morning, was confirmed later by military advices through Coblenz from both Weimar and Berlin.

The downfall of the Scheidemann government was made known to the peace conference. It is believed to assure the signing of the peace treaty by Germany, as Philip Scheidemann, premier, was understood to be the chief opponent to acceptance of the revised peace terms. Count von Brockdorff-Rantau, German foreign minister, is understood to have supported Scheidemann.

The cabinet, although it has resigned, will continue in office temporarily until President Ebert has been able to form a new one. Cologne, June 20.—(By the Associated Press)—Gustav Noske, the minister of defence, will succeed Philip Scheidemann as head of the German ministry, according to a Weimar dispatch received here today. The message adds that Matthias Erberger of the German armistice commission will succeed Count von Brockdorff-Rantau as head of the German peace delegation.

Paris, June 20.—The Council of Three, composed of Premiers Lloyd George and Clemenceau and President Wilson, met this afternoon, and it is understood, discussed the German situation and the Italian cabinet crisis. The council also was expected to take up the uncompleted sections of the Austrian peace treaty.

Mr. Lloyd George (to Count Rantau)—"You must sign pretty quickly."

In the police court this morning one man was charged with drunkenness and a juvenile was charged with lying and marking at too late an hour at night. They were both remanded to jail. The case of John Hayes, charged with assaulting Sheriff Wilson, was resumed. Francis McBratney, one of the constables in charge at the court on that day, gave evidence.

Deputy Sheriff Armstrong Clifford gave corroborative evidence. The case of John Hayes, charged with assaulting Sheriff Wilson, was resumed. Francis McBratney, one of the constables in charge at the court on that day, gave evidence.

Bail For Some Of Winnipeg Prisoners HAYES IS SENT UP FOR TRIAL

Six Released On \$2,000 Sureties STRIKE ABOUT AT END? One in Close Touch With Affairs Says it Will be Called Off Tomorrow, if Not Today

Winnipeg, June 20.—The six English-speaking strike leaders are to be released from Stony Mountain on bail of \$2,000 each, and will probably be enjoying their freedom today. They are: R. B. Russell, Wm. Evans, Alderman John Quenn and A. A. Heaps, George W. Armstrong and R. E. Bray. A statement issued over the signature of A. J. Andrews, K. C., representative of the department of justice at Ottawa, says: "As representing the department of justice, in order that no citizens should have any cause to complain that the government was disposed to deny the following persons, namely: R. B. Russell, W. Evans, John Quenn, A. A. Heaps, George Armstrong and R. E. Bray, a fair trial by jury if they so desired, I have decided to postpone any proceedings for their detention until the charges against them have been heard. Having so decided, and as each of these persons has undertaken to refrain from taking any part, directly or indirectly in the strike now in progress, and in view of the fact that there is a strong possibility in view of the statement as to collective bargaining, issued by the metal trades employers, of the sympathetic strike being immediately called off, I see no reason why the accused until they are tried, should be detained in custody, and accordingly, I am considering their being admitted to bail, on securities of \$2,000 each.

"It is understood by these persons quite definitely that if they fall in their undertakings they will be immediately re-arrested and placed in custody. The six men who are being let out on bail will be tried in the civil courts at Winnipeg. The date for the trial will probably be June 26.

In the case of the five men of alien birth who are being detained at Stony Mountain, they will likely come before an immigration board of inquiry at Winnipeg. Likely Car Strike in Toronto Toronto, June 19.—Apparently nothing can prevent a strike of the street railway cars here on next Monday morning. Even if the government-appointed board of conciliation it could not avert the strike, so the men's leaders say. Nothing less than the granting of the men's demands for fifty-five cents an hour and an eight-hour day will prevent a strike, according to Joseph Gibbons, a business agent of the street railway men's union. A strike vote will be taken at the meeting called for midnight on Saturday.

General Manager Fleming of the Toronto Street Railway Company contends that the company cannot meet the demands of the men and apparently is not making any move towards averting the threatened tie-up of the cars. He says the company's finances will not permit of any increase in pay or a shortening of the hours of work.

Statement by T. & L. Secretary Winnipeg, June 20.—Alderman Ernest Robinson, secretary of the Trades and Labor Congress, issued the following statement yesterday afternoon: "A statement re collective bargaining appeared in Monday morning newspapers. The statement was signed by the managers of the railway companies, six members of the mediation board and Senator Robertson. "We desire publicly to announce that until this (Thursday) morning, we have never received such a proposition from any of the parties signing this document. We are at a loss to understand the motive behind this publication and can only assume that it is another attempt to make the public believe that the strike committee is not anxious to find a settlement for the dispute. Any avenue that promises a road for a settlement has never been neglected by the committee. The above proposition is at the present time under the consideration of the strike committee." Four Out on Bail.

LARGEST NUMBER YET ON ONE SHIP COME TO HALIFAX ON AQUATANIA

Big Transport In With 5,744 Canadian Troops CANADA'S TRADE MINISTER Sir George E. Foster Hurries Away to Ottawa—His Address to the Troops—The Khaki University—Donald MacMaster and Sir Joseph Flavelle Aboard

Halifax, June 20.—The transport Aquatania from England with 5,744 Canadian troops, said to be the largest number of men on one ship, arrived in port at 9:45 this morning and docked at Pier No. 2 at seven o'clock. Among the officers on board were: Halifax, Capt. D. G. Campbell; Summerside, Col. R. H. McDonald; Fredericton, Major E. A. Porter; St. John, Lieut. J. A. LeBlanc; Lieut. B. M. Babitt; Windsor, Lieut. V. K. Forsyth.

There were no units aboard the Aquatania, the list being made up of details from Seaforth, Ripon and Kinross camps. The senior officer aboard was Brig-General C. J. Armstrong, C. B., C. M. D., of Montreal, who is returning to the Canadian Army Corps. He was forced to give up the appointment upon being notified that he had been appointed chief engineer of the Seventh Army Corps.

Sir George E. Foster, minister of trade and commerce, who gave up his work at the peace conference because of the outbreak of influenza, leaving at 8 o'clock, by a narrow margin. He said he had no guess to make as to whether or not the Germans would sign the peace treaty and no comment to make on the work of the peace conference. He thought that people in Canada knew quite as much concerning the peace conference at Paris as those responsible for the direction of those affairs.

The peace-makers had been overwhelmed with a mass of details concerning the proceedings as a whole. Sir George told the men that their work for the entire year had been in vain, although the reconstruction period had forced to the front.

Donald MacMaster, K. C., M. P., of Montreal, said over the breakfast table that he would discuss nothing, public or private. Fellow passengers of Mr. MacMaster said he assumed a markedly detached attitude throughout the voyage.

ONE REPORT SAYS TREATY ACCEPTED; ANOTHER MORE TIME IS ASKED

London, June 20.—The German national assembly at Weimar has accepted the peace treaty, according to an Exchange Telegraph dispatch from Paris.

If the national assembly at Weimar has taken the action reported it has done so earlier than the latest advices from Germany had indicated. Despatches from Berlin received last night stated that the assembly was expected to make its final decision on Saturday. It was added that all probability the national assembly would decide to demand that a plebiscite be taken.

Paris, June 20.—It is reported here that the Germans have asked for a further extension of the time limit within which to act on the peace treaty.

Zurich, June 20.—Professor T. G. Masaryk, president of Czecho-Slovakia, has replied to a message from Boris Kian, foreign minister of the Austrian Soviet government, pointing out that Hungarian troops repeatedly took the arms of the Czecho-Slovak forces will cease hostilities.

Last reports show that the Hungarians attacked the Czecho-Slovaks as recently as June 17, having made an assault upon the right wing of the Czecho-Slovak army, which put up a stubborn resistance.

TURNED THE TIDE AGAINST ORLANDO

Call To Remain Faithful To Allies Upset Government Italians in Parliament Aroused to Anger and Tumult—"Allies Have Never Been Faithful to Us" Was Cry

Rome, June 20.—Remain faithful to our duties toward the Allies," was a passage in an address of Premier Orlando yesterday which turned the tide against the premier and resulted in the resignation of the Orlando cabinet.

The premier's words aroused the anger and hostility of the deputies, several shouting across the chamber at the government bench from which the premier was speaking. There was a great tumult and cries of "the Allies have never been faithful to us. Why should we be faithful to them?"

Signor Orlando's fateful utterance so stirred the deputies that the remainder of his speech received but little attention. The intransigent Socialists, led by Deputy Modigliani, were especially violent, while the discontent of the others was voiced by Francesco Nitti, former minister of the treasury.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JUNE 20, 1919

DEFINITE THAT HARBOR FIGURE IS TWO MILLIONS
News Received From Ottawa By Times; Mayor Leaves Capital for Toronto but Will Return for Further Conference; Meeting at City Hall

Confirmation was received today from Ottawa of the announcement that \$2,000,000 was the figure fixed by the federal cabinet as the amount to be paid to the city of St. John in compensation for the harbor facilities which will be taken over by the Dominion Government when the port is nationalized.

When this announcement was made in the Times and the Times yesterday, the figure was questioned, as it had been understood that an amount of \$2,000,000 had been agreed upon, but this information received today from Ottawa leaves no doubt regarding the figures.

In view of the report that the amount was less than had been anticipated there was an informal conference in the city mayor's office this morning when the commissioners and several other citizens discussed the situation. Commissioner Bullock presided, in the absence of Mayor Hayes and there were present Commissioners Fisher, Jones and Thomson, R. B. Emerson, president of the Board of Trade, J. R. Trink, former mayor, W. E. Smylie, P. B. Ellis and J. M. Robinson.

It was brought out that the city's original proposal was for \$2,500,000, but that when Mayor Hayes and Commissioner Bullock were in Ottawa negotiating with the government, they agreed that the city would accept \$2,000,000, rather than stand in the way of the nationalization plans. It was understood that this figure had been accepted and nothing to the contrary had been intimated to the council, it was felt that further representations should be made in the matter.

It was agreed that telegrams should be sent to Hon. P. B. Carvell, S. E. Elkin, M. P., and R. W. Wigmore, M. P., drawing their attention to the amount which had been agreed upon and informing them that the city felt that the government should abide by the original understanding.

It is understood that Mr. Elkin will return to St. John tomorrow and if so may have some further light to throw upon the matter.

LORD BEAVERBROOK HAS CORDIAL GREETING FOR FRIENDS OF ST. JOHN DAYS
Holds Informal Reception in Royal Lobby—Leaving Tomorrow On Auto Trip To Nova Scotia

Lord Beaverbrook, who arrived in the city last evening and who will remain here until Saturday, held an informal reception in the lobby of the Royal Hotel this morning, as one after another of his former friends dropped in to see him. It is health is the cause of the trip to Canada, and as he has not entirely recovered, although much improved, Lord Beaverbrook asked to be excused from giving a formal interview to the Times representative. He is going to Rothsay this afternoon as the guest of Brigadier-General McLean and tomorrow will leave for Nova Scotia. After a tour to the Bras D'Or Lakes he will return to Newcastle, his birthplace, and then to the Dominion Steel Company, and also of the Bank of Nova Scotia, and Hubert Sinclair of Newcastle.

It is fifteen years or more since Lord Beaverbrook—then plain Max Aitken—was located in St. John, and since then he has travelled far; but he has not forgotten the friends he made while he was a resident of St. John, and this morning he had a cheery smile and a hearty handshake for everyone who called, and there were few names or faces that he did not recall.

It was rather hard to realize that this slight, rather boyish-looking figure, was the man who had retired from the financial field, satisfied with his conquests, more than ten years ago; who had become a political power in Great Britain; who had been the champion of the man who had made possible the coalition government for carrying on the affairs of the empire at the most critical period of its history, and who had served with distinction as a member of the imperial cabinet.

Lord Beaverbrook's career is so familiar to the people of this province who have watched his progress with keen interest that it is not necessary to recall it here; there are few natives of this province who have won such distinction and who have achieved such an international reputation as has Lord Beaverbrook.

For one who has achieved such honors and who has become the friend of the greatest men of the empire, sharing with them the responsibilities of state, Lord Beaverbrook is singularly unassuming in manner, and those citizens who met him today for the first time and who he welcomed even a stranger, saw something of the charm of manner which has been one of the chief assets in his public career.

MISSING SOLDIER
Another case of a missing soldier is mentioned in the Halifax Recorder which states that the arrival of Mrs. Hallie of Dalhousie, N. B., in that city to meet her son, Claude, who had telephoned her of his arrival, was ascertained by the police. He had telephoned from a pay station in Halifax, after which he had disappeared. He was last seen in Racine, Wis., for his health, leaving there for home early in May. He was wearing a brown coat, weighing 140 pounds, with dark brown eyes and nearly black hair, with a large mustache.

NOT DOG DAY YET.
This was to have been dog day in the police court, of due excuses and fines for failure to secure the license demanded. However, no reports against delinquent owners have yet been made. Our canine friends kept away from the vicinity today for as a Times reporter was walking up the street this morning to the court there was not a dog in sight.

FUNERAL THIS MORNING
The funeral of Mrs. Mary Elizabeth MacDonald, wife of J. MacDonald, took place at 9.15 o'clock this morning from her late residence, 58 Douglas avenue, to St. Peter's church, where solemn requiem high mass was sung. Rev. J. Cloran, C. S. R., officiated, and was assisted by Rev. P. Daly, C. S. R., as deacon. Following the ceremony the body was taken to the new Catholic cemetery and laid to rest in the family lot. The pall-bearers were—Angus A. Chalmers, James Macdonald, Michael Beahan, Gilbert Morgan, John Burke and William Kelly. Magnificent floral tributes and numerous spiritual messages received gave testimony of the esteem in which Mrs. MacDonald was held by a wide circle of friends.

PROMISES GOOD RACE
From present indications the race to be held at Seaside Park on July 1, at their annual outing to Belyea's Point, will be the best ever held in lower Canada. The feature event promises to be a speed boat contest when any boat in the province will be admitted without handicap. It is said that there are some fast boats along the Miramichi, some in Fredericton and others in Charlotte county, which are to be entered in addition to speedy ones belonging to the Power Club. Commodore Chesley is putting up a magnificent silk flag suitably enshrined for the fastest boat.

THE MILK QUESTION
To the Editor of The Times-Star.
Dear Sir:—The recently published report of the Board of Health as submitted to the city council, emphasizes the need of protection for the inhabitants of St. John. When it is freshly admitted that a farmer is furnishing milk that is undoubtedly being fed to infants, that is proven to be twenty-seven times as contaminated as the law allows, it is high time the law was enforced. Why is Saint John so far behind in every thing? Surely there are enough energetic, progressive citizens in this city to place it on a par with scientifically managed cities in the States and upper Canada, considering a hygienic and sanitary viewpoint. One day per year the city teams generously collect waste matter if placed conveniently on the side of the street while on the other three hundred and sixty-four garbage and refuse trucks and the rollers in the alleys and back yards. The writer was once informed that the farmer who was furnished him milk, had a cow in his herd infected with tuberculosis. A sample of the milk was taken to the milk inspector in the provision for a farmer to keep a tubercularly infected cow and also declared that unless the disease were declared that the milk would not be lactationally affected. He agreed, however, to submit the sample to the pathologist for analysis, but no telephone calls produced no information regarding the condition of the sample. I most certainly think that the consumers of milk in St. John are entitled to know the names of the dealers whose milk falls to comply with the standard of cleanliness and purity demanded by an unenforced law. There is little doubt that unclean and careless

HARRY DAVIS TO SUCCEED CONNIE MACG
Philadelphia, June 19.—The resignation of the managerial ranks of Connell McMillan, known to the baseball world as Connie Mack, is foreshadowed in the return to baseball of Harry Davis the lieutenant of "Crafty Connie." Mack has tired of the task of managing and is to devote his attention to the business end of the game. Davis is to succeed Mack as boss of the Athletics on the field.
Davis, who is slated to succeed Mac as leader of the Athletics, was Connie's regular first baseman from the time Mack became manager of the Philadelphia team until 1911, when "Stuffy" Meekin won the place. In 1912 Davis became manager of the Cleveland team, but gave it up in mid-season and returned to Philadelphia, where he was named as the Athletics' lieutenant until the close of the 1917 season, when he announced his retirement from the game.

THE STRIKE SITUATION.

There are some interesting further developments in the strike situation. Four of the leaders arrested in Winnipeg have been released on bail, on their undertaking not to take any further part in the strike. The American Federation of Labor has adopted a resolution to co-operate with Canadian unions and "call attention to the influences which are working in Canada to split up organized labor." This is clearly a reference to the One Big Union, to which the A. F. L. is utterly opposed. Protests have been sent to Ottawa from Montreal, Sydney, Moncton and Victoria, by labor unions against the arrest of the strike leaders in Winnipeg. A strike is now on in New Westminster, and a strike of street railway men in Toronto is imminent. Sir Robert Borden has replied to a Toronto protest against the arrests in Winnipeg that "the government intends to maintain the law and to prevent and punish any attempt to subvert the authority of the people as established by their representatives in parliament." It will now be the duty of the government to bring the Winnipeg strike leaders promptly to trial and give the country the facts upon which its action was based. To delay would have a bad effect. The sooner the cards are laid on the table the better for the peace of Canada.

THE PADRE AT THE FRONT.

Following Major Hooper's intensely interesting account at a former luncheon of the chaplain's work among the wounded soldiers, the Canadian Club last evening heard from Capt. Lechay an even more absorbing story of what a chaplain saw with the fighting men at the front. His hearers carried away with them a vivid impression of the soldier's experience at the front, and a stronger feeling of pride in the manner in which all Canadians bear themselves in actual warfare. Here and there in the address a terse sentence revealed something of the horrors of the conflict, but the speaker refrained from going into details, aiming rather to give a comprehensive view of the achievements of the Canadian divisions. It was difficult to realize that this youthful clergyman, talking so quietly, had been through all that horror, had himself been gassed, and for conspicuous gallantry had twice been mentioned in despatches. He was himself of the same dauntless quality as those whose courage and resourcefulness he praised so highly, and whose dangers he shared. He added his testimony to that of others who have told us that when there was a particularly hard bit of work to do the Canadians were not only ready, but their peculiar fitness for daring work was recognized by those in command. Nor did they lack the inspiration and example of such comrades as this quiet padre who made no distinction wherever his services could be of value to a soldier in distress.

ROBINS ON BOLSHEVISM.

The Canadian people have no sympathy with Bolshivism. It flourishes only where there is intense ignorance as well as great social discontent. There are intellectual Bolshivists, of the prior type, but one dose of the real medicine would be enough for them. They see wrongs to be righted, but do not think through the subject far enough to see that to replace one form of authority by a less intelligent and more brutal one is not the real remedy. Mr. Raymond Robins, who will be remembered as one of the most eloquent speakers on social reconstruction St. John audiences have heard, and who has an intense sympathy for all victims of social injustice, spent a considerable time in Russia during the period of the revolution and the rise of Bolshivism. He opposed military intervention in Russia, and at one time at least favored dealing with the Bolshivist leaders. He was for three months with Kerensky and six months with Lenin and Trotsky. He saw the theories of the two last named in practice, and this is what he says of Bolshivism:

"There is a menace in it so much greater, so much deeper than the people with seven per cent brains have seen and told, so much worse than any mere program that I feel we should use every power of civilization to understand and combat it. There has been an attempt made to establish a government based on class hatred. It is economically impossible and morally wrong. The leaders have had in Russia a most extraordinary laboratory for the carrying on of this vast experiment and it has failed. Lenin said to me that it probably would fail in Russia, but he declared they would keep the flame burning there until the world blazed up."

And to fan the blaze in Canada the Bolshivists of Mr. Robins' own city of Chicago sent \$25,000 to Winnipeg. It was a waste of money. Canada will not blaze up.

The cables today brought news of the first importance. The German government has fallen as a result of a disagreement over signing the peace treaty, and a new cabinet is being formed which is expected to meet the demands of the Allies. The news causes a feeling of intense relief, since the keeping of an army of occupation in Germany for a long period could not be contemplated with satisfaction. The cabinet crisis in Italy had also complicated matters, and the news from Germany is the more welcome.

SOLDIERS AND FARMERS.

The Frederick Mall quotes an article from the Times-Star relative to the sale of farms to returned soldiers, and adds this comment:

"Although the farmers are alleged to be making money fast these days, a goodly number of them are apparently very anxious to pass the buck to the returned soldier. Many farms are being listed with real estate agents at inflated prices, and they are not the best farms to be found in the country at that. As the Times points out, the proper plan for the farmers to pursue is to list their farms with the Soldiers' Settlement Board. If this is done and the farms are found to be of such a nature that it will be possible for a man to earn a living on them, they will be taken over at a fair valuation and the agent's commission will be saved. The returned soldier who contemplates settling on a farm is entitled to a square deal, but he will not get it unless he keeps his weather eye open. This is a matter which calls for eternal vigilance on the part of the Great War Veterans' Association."

AN ONTARIO EXAMPLE.

While St. John is solemnly deliberating about a small expenditure to make a beginning in the matter of vocational training, chiefly at present for working boys and girls, the city of Windsor, Ontario, is considering the creation of a technical school at a cost of \$250,000. The public and separate school boards and industrial committee of the board of education are to prepare the plans and five municipalities will be asked to assist. A recent despatch from Windsor says:

"The new training school will be given a grant from the Ontario government as soon as the councils of the five municipalities signify their willingness to pay half the bill. The school, which the boards hope to provide by next January, will offer technical training not only to children of the public and separate schools, but also to boys and girls employed by manufacturers. Classes will be given at unusual hours for the special benefit of employed children."

Such an institution will be of the greatest value to Windsor and the district around the city. Ontario is a great province because its people are progressive and not afraid to provide facilities for training, developing and employing the younger citizens.

San Francisco has auto laundries where cars are washed, and rest rooms where customers may wait. The places are not connected with repair shops or garages.

Alexander Paromet of the French Academy of Sciences estimates that the temperature of the center of the sun is 17,000 degrees Centigrade, or 30,632 degrees Fahrenheit.

Christian Science Monitor: "Signs of the times indicate that more Americans are coming to understand that the government of the United States is a government of the people as well as by and for the people. And this applies particularly to those who waited without acting to see how serious the officials were in collecting certain taxes. One Boston firm has agreed to pay \$1,500,000 if a jail sentence can be avoided. A New York man is reported to have tried unsuccessfully to evade an income tax estimated at \$600,000. The tax collector of Boston has issued warrants for the arrest of some 500 alleged evaders of the poll tax who face terms in jail. Probably it begins to be plain to these people that it is best to pay what is due the government, for it is evident that the assessments can be collected if the officials simply enforce the law."

Moncton Transcript: "How many days will it be before the St. John Standard will tell an expectant world that it never thought much of the Hon. Frank Carvell anyway? When it announced the appointment of Mr. Carvell to the Dominion government, it used small type, but when it announces his prospective resignation, it requires the blackest and the largest type it can find."

The Methodist Conference and the National Council of Women have denounced the action of the senate on the prohibition bill. It is safe to say that future political platforms will have a senate reform plank.

In Halifax at least half the cost of permanent paving is charged to the owners of abutting property. Until St. John makes that rule effective here it will have poor streets.

The National Council of Women asks the federal government to create a child welfare department of the federal department of health. It is a necessary forward step in national development.

Cabinet re-organization at Ottawa is now an interesting cause of speculation, also the question whether the bolters on the budget will withdraw or be shut out of the union caucus.

If this morning's rain was general throughout the province it would be of enormous benefit to the crops, for it is greatly needed.

If Italy makes trouble for her Allies at this stage they should go the limit to bring her to terms.

Germany may snarl, but if there is any hitting to be done keep your eye on Foch.

One budget debate is not yet over. It is that relating to the family budget.

 Fredericton, June 18.—Friends in this city have been notified of the marriage of S. M. Daniels, formerly accountant in the Royal Bank of Canada, in this city, to Miss Isabel McKarcher of Picton (N.S.) on Thursday June 12. Mr. Daniels is manager of a branch of the Royal Bank at Mount Stewart (P.E.I.).

Furlong-Commins.
 In the Catholic church at Bath, N. B., yesterday, Rev. Father Walker united in marriage Miss Maud E. Commins and C. P. Furlong of Woodstock, Ont., manager of the Bank of Nova Scotia at East Florenceville. This was the first marriage ever performed at the church at Bath.

RECENT DEATHS

Widow of Bishop Greer.
 Mrs. Caroline A. Keith Greer, widow of the Rt. Rev. David Hammel Greer, who was Bishop of the Protestant Episcopal Diocese of New York, died on last Tuesday at the Bishop's House, Amsterdam avenue and 110th street, after an illness of some months, in her seventy-fourth year. Surviving are four children, William A. Greer, Lawrence Greer, Mrs. Thomas McLane, and Miss Jean Greer, all of this city.

Mrs. Greer was seriously ill at the time of the death of Bishop Greer on May 19 last, and on account of her weakened condition she was not told of his death until the day of the funeral. Bishop Greer and Mrs. Greer were married in Covington, Ky., on June 28, 1868. Mrs. Greer was daughter of Quincy Adams Keith of Covington.

Bishop Greer gave to his wife the credit for having been his greatest help and inspiration in his achievements. Speaking at a service in St. Bartholomew's church in January, 1914, in commemoration of the tenth anniversary of his consecration, and after several speakers had paid personal tribute to him and told of his labors and achievements, Bishop Greer, who was visibly affected by the praise, referred to Mrs. Greer, who was present, as "the best suffragan in the world."

"You don't know, and I don't know," he continued, speaking to the clergy of his diocese, "how much she has meant to you through me. Only God knows that."

The death of W. Robert Chesley occurred yesterday morning at Cumberland Bay, Queens county. He was a traveler for Siders Ltd., and had been spending the summer at Cumberland Bay. He leaves his mother, one son, Lloyd; one sister, Mrs. F. R. Mitchell, of Boston, and one brother, Orlando, who is employed with Waterbury & Rising in this city.

Moncton, June 19.—James Flanagan, aged seventy-three, one of the pioneer dry goods merchants of Moncton, died this morning following a paralytic stroke about a fortnight since. He was born at Laketon, Kent county, and came to Moncton when twenty-three years of age. He was a member of the city council, also the school board for many years.

MORNING NEWS OVER THE WIRES

At the annual meeting of the shareholders of the Atlantic Sugar Refining Co., Ltd., in Montreal, reports will be presented showing the total business of the company for the year to have been \$1,000,000, an increase of five per cent over the last year. A surplus of \$875,832 is shown, providing for a dividend of slightly more than fifteen per cent on the preferred stock of the enterprise.

The English-speaking labor leaders arrested in Winnipeg are to be tried in the civil courts there.

Distinction Need Not Involve Excessive Cost

The furnishing of the home warrants more care, more time, more thoughtful consideration than the average citizen is inclined to devote to this important responsibility. Distinctive, attractive furnishings contribute to the magnetism of the home and what traits of human nature is more worthy of encouragement than the love of home? To achieve distinction in the home, need not involve excessive cost. Distinction is the reflection of taste, judgment, artistic conception, rather than of lavish expenditure—and as such it need not be denied those of modest means. This store is widely known for the exclusive character of its offerings, and yet, by actual comparison of values is not a high-priced store. The most distinctive home furnishings can invariably be purchased here at no greater cost than you are ordinarily asked to pay for the more commonplace, and frequently you will find our prices even lower.

INDIGNANT AT SENATE ACTION RE PROHIBITION

National Council of Women Call On Premier to Act THE VOTE UNANIMOUS Strong Support for Resolution in Interests of Children - Child Welfare Branch of Department of Health is Asked For

Regina, Sask., June 20.—The National Council of Women, which opened its annual meeting here yesterday, passed a resolution expressing its unequalled indignation at the action of the senate in defeating the will of the people of Canada as expressed by their elected representatives in the House of Commons, in the matter of prohibition. The resolution reads: "Not for the first time is the senate showing its contempt for the people of Canada. But now in its decision on prohibition it has done so in a way injurious to the highest interest of our country. This council believes in government of the people by the people for the people and calls upon the premier of Canada to secure proper recognition of the will of the majority of the men and women, citizens of Canada. Every woman in the house rose to vote in favor of it, and again rose to vote in favor of copies of the resolution being wired to Premier Borden and to the senate of Canada. Next in point of enthusiasm came a resolution brought in by Mrs. Smilie of Ottawa as chairman of the N. C. W. committee on public health. The resolution follows: (1)—That the National Council of Women, realizing that dominion-wide concerted action is needed to decrease the amount of infant mortality, ask the dominion government to organize a national baby welfare week. (2)—That the National Council of Women ask the dominion government to create a child welfare department of the federal department of health, speedily, and that this child welfare department be staffed by competent women, this request to be wired to the dominion government. (3)—That the National Council of Women reaffirm the request sent some time ago to the dominion authorities that national transcontinental trains should be equipped with first aid apparatus. AT THE RED TRIANGLE A delightful entertainment was rendered last evening in the Red Triangle Club, Charlotte street, under the auspices of the Red Triangle entertainment committee, with Mrs. H. B. Peck as convener. The programme included: Vocal solo, Mrs. A. Pierce Crockett; violin solo, Mrs. T. J. Gunn, and instrumental solo, Mrs. J. M. Barnes. The numbers were encored several times, which was evidence of the appreciation of the audience. After the concert was concluded refreshments of cake and coffee were served.

NEW PROVISIONS OF THE TREATY

Assurance of Coal and Minerals For German Industry DANZIG AS A FREE CITY

Reduction of German Armaments - Polish Frontier - Arrangements For Plebiscite in Silesia - Changes Add Five Pages to Draft

Paris, June 20.—(By the Associated Press)—The alterations (and amendments) incorporated by the Council of Four in the revised treaty make it a somewhat longer document than the draft originally submitted to the Germans and published abroad. It now comprises 214 pages, five more than the original, and even this is effected by closest paging. At various points the drafting committee sought to adhere as far as possible to the original numbering of the articles and continued to make up for insertions or omissions by combining or splitting articles. As at first things the new instrument still contains the original fourteen parts and 440 articles. Silesian Coal and Minerals The article securing Silesian coal and minerals to German industry now reads: "Poland undertakes to permit for a period of fifteen years the exportation to Germany of the products of mines in any part of Upper Silesia transferred to Poland in connection with the present treaty, without export duties or restrictions, and permit Germans to purchase these products on the same terms as the Poles." In the revised draft, the principal Allied and associated powers undertake to establish Danzig as a free city. This language, in which the responsibility of the five great powers for the creation of the new city and state is definitely assumed, is substituted for the original phraseology declaring merely that "Danzig is established as a free city." The new article which replaces the original provision for the disarmament of Germany, providing for reduction to a specified point within two months, now reads in the English version: "Up to the time at which Germany is admitted as a member of the League of Nations, the German army shall not possess armaments greater than that fixed in the table submitted in this treaty," and continues: "Germany agrees that after she has become a member of the League, the armaments fixed by the table shall remain in force until modified by the League. Furthermore, she hereby agrees strictly to observe the decisions of the council in this respect. New Frontiers The bulkier, as well as the most important, changes revealed by a comparison of the old and new drafts are those relative to the new Polish frontiers and the Silesian plebiscite. The frontier changes correspond generally with those outlined in recent despatches but bring the Polish frontier nearer to Belian, on the east, than was at first contemplated and give Poland a new section of the Prussian province of Pomerania in exchange for the coast strip of the same province returned to Germany, although the Council of Four planned for a time to make all Pomerania German on historic grounds. "Some of the changes in the treaty can be indicated only by reference to maps of the largest scales." The provisions for a plebiscite in the Silesian regions show that the vote will be taken in virtually all Upper Silesia except small areas in the southwestern and northern corners, which were awarded unconditionally to Czecho-Slovakia and

WHAT LED TO THE TROUBLE AT EPSOM

Feeling Between Canadians and Demobilized Imperials

ATTACKS UPON OUR MEN

Canadian Soldier, Walking With Wife, Assaulted and Then Comrades Took Action—The Fight at the Police Station

London, June 20.—(By C. A. P.)—Canadian general headquarters have given the Canadian Press the following official statement regarding the Epsom disturbances: "The incident preceding the disturbances at Epsom, which is deeply deplored by the Canadian authorities, appears to have been due to the feeling of hostility which has been steadily growing between Canadians and demobilized imperial soldiers, which recently came to a head at Guildford. Since civilians were fined as a consequence of that affair, Canadians have complained that whenever they go out alone or in small parties they have been attacked by gangs of civilians. "It has not yet been possible to ascertain the reason for last night's occurrence, but according to some, a Canadian soldier, walking with his wife, was assaulted by a gang of civilians. A disturbance ensued, several Canadians being placed in the police station. Several more Canadians returned to camp with this news, and a large number, resenting this treatment of their comrades, went to Epsom with the idea of securing the release of the prisoners. "The officer of the day having failed to prevent the men from leaving the camp went to town with them in the hope of averting disturbances. He entered the police station to make inquiries, and as he did not reappear for some time the Canadian soldiers, being under the impression he also had been arrested, rushed to the police station. Con-

considerable damage was done the premises, one policeman being so seriously hurt that he succumbed subsequently to his injuries. Several other policemen were injured, together with five or six Canadians, one severely. "Afterwards the men returned in small groups to camp quietly and went to bed. Complete order prevails at the camp, but the Canadian authorities have taken the most drastic measures to prevent a recurrence of any disturbances. An immediate inquiry will be made by Colonel Guest, the camp commandant. The Canadian Associated Press learns that the dead policeman was a sergeant who leaves an invalid widow and two daughters. "The whole business at the police station lasted exactly an hour. It is admitted that the police made the most possible use of truncheons, the women being, to many spectators, the canaille, among the soldiers were really trifling, as it is alleged both sides lost control of themselves completely.

LENINE AND TROTSKY SCHEMED TO HAVE AMERICAN LABOR TAKE FULL CONTROL

Appeals From Them Found in Correspondence Seized at Russian Soviet Bureau in New York

New York, June 20.—Pamphlets written by Nikolai Lenin and Leon Trotsky in which direct appeals were made to American workers "to rise up and take things in their own hands," were included in a mass of documents and papers seized at the Russian Soviet bureau here, and which were introduced as evidence yesterday at the hearing of the Lusk legislative committee which is investigating Bolshevism in this state. The names of many prominent American radicals figured in the correspondence, which was read into the testimony by Archibald E. Stevenson, assistant counsel to the committee who conducted the raid on the bureau offices. One of the documents seized and made public was a mailing list of 400 names which included Leonard Abbott, Dr. George W. Kiersey, Pola LaFollette, Scott Nearing, Col. Raymond Robins, Paul V. Kollogg and Louis Lochner. After the committee had adjourned for the day a statement was issued by the Soviet bureau in which it said that the mailing list "mostly represented publications and public men, who had made inquiries about conditions in Russia."

Says Greed Responsible For Conditions In West

Sydney, June 19—Rev. D. M. MacAdam, pastor of one of the largest English-speaking parishes in Canada, in an address to the graduating class at the convent of the Holy Angels here urged the young ladies to right the wrongs of their sex. Now they have the vote he hoped they would influence affairs so as to secure better working conditions for their own sex. No one seemed to consider the working woman. While he did not agree with Bolshevism as practiced in Russia now take his stand with the strikers of western Canada, nevertheless he did not think it strange, he said, that when a government did not protect its people the people should take the law into their own hands.

He pointed out that greed was responsible for the conditions prevailing, greed of the powerful over the weak, greed of the wealthy classes preying on the poor, in this connection he made special reference to the telegraph companies which, he stated, employed young girls to take messages at the rate of two and a half cents a message. To rectify just such conditions was where women fitted into politics. The thing then was to educate the women. But education alone, continued Father MacAdam, was not always constructive. Sometimes it can be destructive. There must be a safe ideal. Education without religion can never raise the world.

British government to promote the agricultural interests of the Motherland, provided the principles of imperial preference are incorporated in any measure involving taxation of imports, and that His Majesty's government be recommended to remove wheat control as soon as adequate supplies and tonnage are available.

TEXAS OIL PAYING MILLIONS IN DIVIDENDS TO INVESTORS. NATIONS AROUSED TO IMPORTANCE OF OIL RESOURCES. DEMAND INCREASING FASTER THAN SUPPLY.

U. S. Government report to Congress says serious action necessary to conserve petroleum resources. Demand increasing faster than supply. Great Britain creating oil ministry and acquiring oil properties far afield. French Government seeking oil properties in Algeria and Roumania. Dr. J. D. Young, Director Bradley Oil interests, says: "New York investors seem as wild over oil investments as the people right in sight of a new gusher." Eastern capitalists are flocking to the oil fields by the hundreds. At last oil has come into its own. Oil won the war against Prussianism and it is daily winning the victory for commerce and progress. "Without oil no machinery would be possible, and not a wheel would turn," says Government report.

Seventy-two different oil companies paid dividends averaging 200 per cent. in 8 months only. Burk Waggoner Company paid \$88 for every \$1. Fowler Company paid \$75,000 for every \$500 invested. Vancleave paid 868 per cent. Marine Company paid 1600 per cent. Article Sunday New York Sun says Texas-Pacific Company jumped from \$125 to \$2150 a share. Property value increased \$6,000,000 to \$108,000,000. Texas statistics show 247 wells drilled in April, with only 39 dry holes against 208 oil products. 127 wells drilled in Burkburnett field alone, with only 4 dry holes. Out of nearly 25,000 wells drilled in the U. S. in 1918 approximately 80 p. c. produced oil in paying quantities. Oil in storage 1918 decreased one million barrels monthly.

Altex shares at \$1.50 represent, in our opinion, the most unusual investment in the entire mid-continent oil fields.

This stock now paying dividends of 1 per cent. monthly, or 12 per cent. per annum. Increase may be expected in 60 days, according to management. Company's future now assured. All stock owned by organizers deposited in escrow for five years, or until every contract with the company is completed. No dividends accrue to officers or directors until 20 per cent. has been paid on all outstanding stock. You profit first. Texas bank to act as trustee. This is Altex policy of "Protection and Fair Dealing."

Wise investors know that now is the time—the one and only time to buy oil securities to the limit and they will be quick to appreciate the unusual safeguards that constitute the Altex policy.

Avail yourself now—today—of this opportunity to learn more of this very attractive investment offering.

A few hundred dollars invested in the right oil stock at the right time has frequently made a fortune for the investor. Altex looks to us like a "buy."

WE PREDICT THAT ALTEX WILL PAY 25 P. C. DIVIDENDS AND SELL AT \$3.00 A SHARE BEFORE JANUARY 1st. WE HAVE REASON FOR THIS ESTIMATE.

CHASE & SANBORN MONTREAL

BUDGET PASSES COMMITTEE STAGE

Ottawa, June 19.—Committee stage on the budget resolutions was completed tonight and the finance bills based thereon were given first reading. There was one division and it came over the duties on agricultural implements. Mr. Maharg moved that the duty on plows should be reduced by two and a half per cent to make it correspond with the duty on harrows. His motion was lost by a vote of 53 to 40. In the course of the discussion Sir Thomas White promised to meet two points raised. One was that the income tax resolution be so amended as to provide that pensions awarded to soldiers or to widows of soldiers should be free from taxation. Another was that there should be an increase in the age of a child for which an exemption of two hundred dollars is allowed. In the resolution the age stands at sixteen. The age, it was urged, should be eighteen. Thus a man, with a child not over eighteen years of age would have \$200 added to the exempted portion of his income. The finance minister agreed to this course.

SENATE FIRM ON PROHIBITION STAND
Ottawa, June 19.—The position of the senate on the prohibition measure was re-affirmed today. The government leader, Sir James Loughheed, moved that the amendment of yesterday cutting off the provision that the measure shall continue for twelve months after the termination of the war, should not be concurred in. This was defeated by 38 to 26. The bill amended was read the third time and will go to the commons that they may consider it in the amendment.

Wool and Cotton Representatives Give Evidence

Ottawa, June 19.—The operations of the Canadian Co-operative Wool Growers were under review at this morning's meeting of the cost of living committee. T. R. Arkell, representing the co-operative wool growers, said they represented selling agency for wool growers from British Columbia to Prince Edward Island. The total business last year was \$8,103,981. The net profits of \$88,755 brought down were divided among the patrons after six per cent dividend had been paid to shareholders. Shortly before adjournment examination was opened of officials of Canadian Cottons Limited. A. C. Dawson, managing director of the company, was questioned as to the arrangements which led to the formation of the company. He said that there was a total of \$6,500,000 invested capital in the company. The present capitalization was \$6,376,000 with \$4,600,000 in bonds.

CO-OPERATION IN INDUSTRIES

Secretary Redfield, in an Address in Cleveland, Ohio, Forecasts Closer Fellowship

In an address delivered in Cleveland, Ohio, before the Cleveland Advertising Club, William C. Redfield, secretary of commerce of the United States, discussing problems of reconstruction, said in part: "The problems with which the United States has to deal differ, both in kind and degree, from those which troubled Europe. The great industrial districts of Belgium and northern France were destroyed; in larger part the equipment was not overruled, but ravaged. In some cases the industrial buildings were destroyed; in complete degree the materials and finished products were taken away."

SCHOOL LUNCHES AS FACTOR IN CHILD'S HEALTH AND WELFARE

The school lunch as a factor in the child's physical condition is being emphasized by the Child Health Organization of the City of New York, as stated by Dr. W. A. L. Styles, who has just returned from the National Conference of Social Workers at Atlantic City. The United States, Dr. Styles said, has been roused by the revelations of physical unfitness as made in the examinations of the selective draft for the army. The health of children of school age is now receiving special attention. The Board of School Superintendents in New York has asked the Board of Education to take over the existing system of school lunches now under the auspices of two private organizations, and to add twenty more schools, making a total of seventy schools in which school lunches will be served.

ARE MAKING PAPER FROM COTTON LINTERS

New York, June 20.—The department of agriculture has been distributing samples of a good quality of paper made from cotton linters by its forest products laboratory at Madison, Wis., and claims it can be commercially produced in large quantities. Speaking of the possibilities, it says: "Second-cut cotton linters, the short fibers which are obtained from cotton seed after ginning and removal of the lint suitable for cotton mattress stuffing, can be made into high-grade book, writing, blotting and tissue papers. This possibility will probably reduce the price of all kinds of paper. Second-cut linters can be removed fairly easily from the seed, but this is not the present practice. The shorter fibers are left on, although they interfere with economical oil extraction and have to food waste when mixed with the ground cotton seed meal."

ACIDS IN STOMACH CAUSE INDIGESTION. Create Gas, Sourness and Pain How to Treat. Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

The Path to Health For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructer which acts directly and favorably upon the feminine organization and is a specific for that purpose. Women in All Countries Depend Upon Lydia E. Pinkham's Vegetable Compound

FR. LOCKERY AT CANADIAN CLUB

Thrilling Story of Fighting on the Western Front Told by Chaplain

The Canadian Club held a special meeting and supper at Bond's restaurant last evening, the guest of the evening being Capt. (Rev.) F. M. Lockery, who delivered a very interesting lecture entitled With the Canadians on the Western Front.

which he was attached had been renewed nine times, more than 8,000 men passing through it during the war. He said that Captain Lockery had organized a Holy Name Society in his battalion, which had a membership of 650 men, both Protestants and Catholics, who pledged themselves to keep from profanity.

As I shall perhaps have to meet the varied viewpoint of the father or relative," said Father Lockery, "and the viewpoint of the impersonal seeker for knowledge, I will speak on the intimate life of the soldier and pass on to the different campaigns that I have witnessed.

"The life is one of discomfort, bloodshed and death. Sometimes in quiet sectors a battalion will stay in the line for eight days without a casualty, but in time of battle all is changed and a battle under trench warfare system is one of the most exciting and spectacular scenes ever staged.

He spoke of the different campaigns he had been through, Vimy Ridge as the most creditable of the Canadian victor-

is because of the almost insurmountable obstacles which had to be overcome, and he said that had the roads been in decent condition on that memorable Easter Monday morning, so that the cavalry and guns could have been brought up, the Canadians would have reached Donal that day.

Lockery. He said that the greatest compliment that was ever paid the Canadians was at Passchendaele, where the Imperials and Australians were held up at Ypres and the only troops who could be counted on to take the heights of Passchendaele were the Canadians, who were switched from their own sector at a critical moment and lived up to their reputation by capturing those heights which had held up the other units of the British forces.

He paid a very high tribute to the Canadian soldier, saying that there was only one standard and that was the best, and that the Canadian never once counted the possibility of failure.

In closing Father Lockery spoke of the many they had left behind and recited "In Plunder's Fields." "They died for the principle of right, but they have transferred it to you as a birthright, and members of the Canadian Club and Canadian citizens, it is yours to guard and to fight for.

Mr. Belling thanked the speaker on behalf of the Canadian Club and said that he felt the message in the speaker's closing words did not come in vain to the people of Canada.

GOVERNMENT WILL MAINTAIN LAW

Will Prevent and Punish Any Attempt to Subvert Authority of the People—Premier Borden's Answer

Ottawa, June 19—In reply to a telegram from Secretary Hamilton of the Toronto Metal Trades Council with regard to the arrests of the Winnipeg strikers, Premier Borden sent the following message: "The persons arrested in Winnipeg have been charged with acts which under the laws of this country are serious offences. The government intends to maintain the law and to prevent and punish any attempt to subvert the authority of the people as established by their representatives in parliament."

Indignation to the minister of labor, Ottawa, with reference to the arrest of the Winnipeg strike leaders. The telegram reads: Hon. G. D. Robertson, Minister of Labor, Ottawa.

The arrest of Winnipeg labor is a case of making criminals by act of parliament. This union protests against this sneaky method of arresting men. We pledge ourselves to do all we can to bring about a general strike all over Canada.

IN PRESSIVE MASONIC SERVICE

The Lord Mayor Uavel's War Memorial Window

(London Paper)

Last Sunday afternoon took place one of the most impressive services ever held in Wesley's chapel. It was a gathering organized by the now famous Epworth Lodge of Methodist Freemasons to unveil a beautiful war memorial window erected by them on the south side of the chapel, to the memory of "all Methodists throughout the empire who, at sea, on land, or in the air, surrendered their lives for king and country in the great war, 1914-1918." At the invitation of the Epworth Lodge a great company of Freemasons, including many members of Grand Lodge and of a large number of other lodges, attended the service in full regalia, and presented an imposing appearance. The gallery was crowded with non-Masonic visitors, though admittance was only by ticket. The music was under the able direction of Dr. R. Dunstan of Westminster and Southlands Colleges, who had written a magnificent anthem for the occasion, which was charmingly rendered by a choir of about sixty voices, composed of Southlands students and brethren of the Westminster and Epworth lodges. Miss Carrie Tubby, after the window had been unveiled, sang with wonderful effect Handel's "I Know That My Redeemer Liveth." The order of service included five hymns, besides the anthem and solo. The prayer was read by the Rev. Joseph Johnson, the newly installed master of the Epworth Lodge, and the Rev. J. H. Batson (brigadier-general), chaplain of the lodge. The lesson (Haggai 1, 1-9) was read by the Rev. W. J. Gregory Bestall, and the address was given by the Rev. J. Alfred Sharp. It referred to the history and teaching of Masonry, and towards the close of the address spoke eloquently of the heroism of those whom the window commemorated. The Rt. Hon. the Lord Mayor, Sir Horace Brooks Marshall, himself a distinguished Mason drew the curtain which covered the memorial window and expressed his sense of the honor done him in permitting him to unveil so beautiful a memorial to the men to whom we all owe so much. Brief but touching and appropriate words of tribute were uttered also by J. Arthur Jutson, the first master of the Epworth Lodge, and Colonel the Rev. A. T. Holden, past master of the Grand Lodge of Victoria. The Memorial Window Described. The memorial window, designed by Frank O. Salisbury, is thus described: Christ, the central figure, strong, tender, loving, and compassionate, comes to the aid in his need upon the stricken battlefield. In the everlasting arms he finds rest and peace. Christ carries the boy's pack upon his back, and on a crystal scroll which forms a cross behind the two figures suggesting the dual sacrifice, are seen the words, "Surely He hath borne our griefs, and carried our sorrows." The streaks of golden dawn break over the dark battlefield, while above the opening heavens there shines a bright light radiating towards the Christ. The angelic figures give the triumphant note "Greater love hath no man than this," and at the same time suggest the unwritten words, "This is My only beloved Son, in whom I am well pleased." The design shows Christ standing upon the world, round which is coiled the serpent. Christ tramples it under foot. At the base of the design a scroll is held by two angels, one looking down sorrowful, the other looking up to Christ radiant with the hope of the resurrection morn and immortal life. Upon the scroll are embossed the arms of the colonies, Canada, Australia, New Zealand, Newfoundland, South Africa, and India, while in the centre, encircled in a wreath of laurel, and the British oak surmounted by the imperial crown, is St. George, the symbol of chivalry, of the triumph of the soul over matter, and of our righteous cause. In the border are the masonic emblems and initials of John Wesley, the whole encircled by the cable-tow symbolical of unity, love and brotherhood.

"Tiz" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.

Paris, June 18—Messrs. SWIMMING POOLS FOR NEW SCHOOLS.

(Toronto Globe.)

Much discussion was provided at the property committee of the board of education yesterday afternoon, when Chairman Noble was advocating a swimming pool to be placed in each school where

an addition was to be erected this year. "But we haven't the money," interjected Trustee Rawlinson, "to spend on swimming pools." On the motion of Trustee McRae, it was decided to ask the architects on the new Parkdale Collegiate and Malvern school, to estimate the cost for the installation of swimming pools.

IN DARKEST MONTREAL.

(Montreal Herald.)

Sixty-one women and fifty men were taken from seven houses in the red light district. The women and men were conveyed in three patrol wagons which had to make several trips. In some instances

the women objected to go to headquarters in this way and were allowed to proceed in taxicabs on condition that they pay their own fares. The raid took place between midnight and 2:30 this morning. Optimism. "That bald-headed man who just went

out is the greatest optimist I ever met," said the druggist. "That so," asked the customer. "Yes," replied the druggist. "When I guaranteed my brand of hair-restorer he bought a bottle and then bought a comb and brush because he figured he'd need them in a few days."

Profiteering Isn't Necessary --Any Man Who Wears 'Ready-Made' Clothes Never Stops Paying For Them

—And Every Time He Wears Them and Meets a Man Wearing Tailored-to-Measure Clothes He Feels That He is Paying a Penalty

THE MINISTER OF LABOR appears to be fully alive to the injustice that is being done to the people of Canada by profiteers. In a recent speech in Parliament, he said:—

"With reference to the cost of living. . . . I point out that the unrest that exists in Canada today is not only real, but is inevitable by reason of the abnormal conditions which prevail, and by reason of the fact that the purchasing power of the average workman's earnings is today much less than it was four years ago. . . . the searchlight of truth must be turned upon these matters, otherwise we shall continue to drift in the direction in which we have been going and conditions will grow worse instead of better."

"Ready-Made" Clothes are being charged to the consumer 100% to 150% increase above the manufacturers' price, according to statements made by the Minister of Labor, himself. And, as he asserts, matters are steadily growing worse. Senator Turriff in the Senate on Monday also drew attention to the abnormal profit being made by certain concerns. He said:—"As long as such profiteering is permitted there will be unrest."

WORLD'S OPINION OF HOLLANDERS

They Seem To Believe They Are "In Dutch"

A LENGTHY EXPLANATION

Official Document Tells Why They Were Neutral and Asks For Favorable Opinion of the Allied Peoples

(Toronto Mail.) It is somewhat late in the day, but Holland, through an unofficial source, has prepared and circulated a defence of her attitude of neutrality during the war, and has explained her reasons for receiving the Kaiser. That in Allied nations Holland incurred general contempt is not to be denied. This is perhaps due to the fact that Holland was once a powerful country, a gallant resister of the Spanish inquisition, mistress at one time of the seas, and that the Dutch have generally been thought among the most stubborn, independent

and hardy of European races. Without this reputation it is possible that there would have been less astonishment and contempt expressed when Holland remained a cowardly and proffering speculator of the agony of the world, when she had a chance by declaring for the Allies, of shortening the struggle. No matter how many statements and excuses may be issued and offered, in the mind of the average citizen of an Allied country, Dutch stock has sunk very low, and it will be long before it can make a recovery. Holland's Position.

"Is Your Opinion About Holland Reasonable?" is the title of the document under discussion and to help you arrive at a proper answer in the negative you are informed that Holland is a country extending over twelve and a half thousand square miles, with a population of slightly less than 6,000,000, her entire land boundaries touching either Germany or Belgium. On the sea she was shut off, or her citizens navigated at their peril, and thus remained a sort of isolated fortress of neutrality while the war raged. She maintained this position to the last, which was a feat worthy of remark, for many times she was tempted. That she in any degree departed from neutrality is vigorously denied by the pamphlet. It refutes the easy charge that Holland permitted Germany to march her soldiers through the Dutch territory of Limburg to shorten his march to the front. In this we can acquiesce. Had Holland taken this course there can be no doubt that the Allies would have declared war upon her. On this count she is not guilty.

Let Others Fight For Her. Holland explains her ability to remain neutral and defend her territory on the ground that she was armed. Her army was mobilized on August 1, 1914, and remained mobilized throughout the war. Germany, she believes, did not dare to attack her. There is something patently comical in this assertion. Can there be in Holland, outside of an insane asylum, any one who believes that if Germany had won this war she would not have swallowed Holland in one gulp? Does anyone suppose that she would need to have fired a gun to accomplish it? This, we believe, is at the basis of the unfavorable opinion of Holland that the allied peoples entertain. They know that if they had lost, Holland was lost, too. Holland must have known it. Yet Holland stood covering behind her fence and dared not strike a blow in her own behalf. The fact that her neighbor, Belgium, was invaded, and was treated as a conquered country by the Germans, must have opened any but pro-German eyes in Holland. The pamphlet says that Belgium fought, not for the abstract rights of small and neutral nations, but because she was invaded, and that given the same provocation, Holland would have fought.

Holland's Rights Ignored. But Holland's liberties were definitely abridged by Germany, and yet she made no protest. Her rights on the sea were trampled under foot as ruthlessly as were the rights of Belgium on land. Holland does not deny this, and the pamphlet, indeed, mentions the fact as though it were something to be proud of. The author does so in order to prove

that while Holland was neutral in the war she did not escape without suffering. She, too, paid a price, and, therefore, deserves sympathy. There were 2,102 incoming ships reaching Amsterdam in 1916, as compared with only 418 in 1917, while in 1918 there were practically no ships. How many Dutch ships, Dutch cargoes, Dutch seamen were destroyed by the U-boat pirates are not set forth, and as a result of this savage campaign many of her industries became stagnant. There was no work for

saloon or fishermen, the dock laborers were unemployed. Factories had to close down for lack of raw materials, and a great part of her live stock had to be slaughtered. Indeed, there were tough times in Holland while the war lasted. Harboring the Hohenzollerns. Yet here we find Holland receiving and even welcoming the prime cause of all her troubles, the ex-Kaiser of Germany, and we hear Dutch officials, and most of the Dutch newspapers, asserting that their guest at Amerongen shall not

be given up to the Allies. One would think that William Hohenzollern was their benefactor instead of their cruel enemy. One would suppose that Wilhelm would have been lynched, but on the contrary we find the Dutch inclined to bristle when it is suggested that this murderer or maniac be given up. The pamphlet defends the reception of the Kaiser on international grounds, and is able to quote any number of authorities to prove that a political refugee is entitled to sanctuary when he reaches a

foreign country. The writer of the Dutch defence believes that when passions cool the course of the Dutch government will be approved. In this case one might suggest that the pamphlet has appeared about a generation too soon. "How long have they been married?" "About five years." "Did she make him a good wife?" "No, but she made him an awfully good husband."—Stray Stories.
