

BOSTON LETTER

A Liberal M. P. from Canada Meets Host of Boer Friends.

The Export Business at Portland Continues Light - Lumber and Fish Markets - Divorce Court Proceedings - General News.

(From Our Own Correspondent.) BOSTON, Jan. 9.—Another installment of wintry weather reached here this week, and again furnished an opportunity for the use of runners. The change was a decidedly welcome one, although the snowfall was not heavy.

One of the Canadians visiting New England cities this week is Henri Bourassa, M. P., "the deputy from La Belle Que." as some of the newspapers designate him.

The export business at Portland continues light. In fact, there was only one ocean steamer in port Tuesday. During the year 1921, when traffic was brisk, 19,107 American cattle, 44,964 American sheep and 86 American horses were shipped from Portland to Europe.

The dry, pickled and cured fish trade is quiet just now. The position of codfish is firm. The splitters report that they are getting little from the fresh fish trade on account of the high prices.

At a recent annual meeting of the Maritime Provincial Club of Boston was held last night. The election of officers had the following result: President, W. D. Macdonald; vice-president, D. A. Macdonald; treasurer, A. P. O'Hanley; secretary, D. B. Macdonald; recording secretary, Michael Heenan; corresponding secretary, Ronald S. Macdonald; warden, Martin O'Shaughnessy; trustee, A. G. Macdonald; auditor, Angus Gillis.

A scene was created at the wedding of Peter Guthrie and Miss Elizabeth Eryling in Newark last week. A woman calling herself Mrs. Anne Guthrie of Boston protested against the marriage claiming that she was the wife of Guthrie in North Sydney, C. B., sixteen years ago.

A hearing will be held in the Suffolk county probate court here Jan. 23 on an application of the executor to dispose of certain property in this state held by the late Elizabeth A. Odell of Halifax.

The following deaths of former provincials are announced: In Portland, Jan. 2, Robert Lloyd, young son of John L. and Mary G. Sweet, parents formerly of St. John in Exbury, Jan. 4, Mrs. Mary Donovan, aged 80 years, formerly of St. John; in Roxbury, Jan. 5, Richard S. Cox, aged 75, native of Cornwallis, N. S.; in this city, Jan. 3, Charles E. McKinnon, aged 37 years, formerly of P. E. I.

Eggs are a very scarce commodity just now, and prices are at 30 cents per dozen and above. A despatch from Chicago today says: "Continued heavy buying of eggs and consequent high prices on the produce exchange gave rise today to the belief that the egg market is being cornered."

Among provincials in the city this week were the following named: J. McLaughlin, D. Mullis, J. E. Harding, St. John; Kilgour, Shivas, Campbell; J. P. Archibald, Truro; A. Thompson, Antigonish; G. W. Johnson, Yarmouth; T. B. Baker, Halifax.

The St. John mails are still delayed, due probably to the fumigation process at Bangor. Some of the mail

FOOD FOR A YEAR.

Meats..... 300 lbs. Milk..... 240 qts. Butter..... 100 lbs. Eggs..... 27 doz. Vegetables..... 500 lbs.

This represents a fair ration for one man for one year.

But some people eat and eat and yet grow thinner. This means a defective digestion and unsuitable food. To the notice of such persons we present Scott's Emulsion, famous for its tissue building. Your physician can tell you how it does it.

We'll send you a little to try if you like. SCOTT & BOWNE, Chemists, Toronto.

This week has been from one to two days behind time. The spruce situation in Boston continues firm, although trade is limited. Prices have changed little, if any, since last fall.

Extras are held at \$3.20 to \$3.50; clear, \$2.85 to 2.95; second clear, \$2.35 to 2.40; sap, \$2.10 to 2.20, and extra No. 1, \$1.75 to 1.80.

TRADE WITH WEST INDIES.

Its Hindrances and Possibilities. A By Discussed by Judge Forbes.

His Honor Just Returned from the West Indies Tells of Trade Conditions There - He Scores the Present Steamboat Service and Suggests Remedies.

A little over two months ago His Honor Judge Forbes, accompanied by his daughter, Miss Jessie Gordon Forbes, left for Trinidad. At Barbados they were met by Rev. H. H. Morton, to whom Miss Forbes was wedded in the famous street Methodist church at that place.

In connection with the difficulties in the way of extending our trade, his honor read to the reporter a letter from a business man in Trinidad, who is doing much to further Canadian trade in that island. It was dated Dec. 26, and stated that goods for Christmas due there by the Orinoco Dec. 18 had not yet arrived.

On his return voyage Judge Forbes again visited Trinidad, and came back with a report that the American fruit line of Boston, making the trip from Jamaica in five days in a finely fitted boat, provided with every facility for passengers.

Continuing, he told of their visit to the historic island of St. Kitts, where tradition claims that Columbus first landed; to the Isle of Nevis, where on the register of the noble ravens record of Lord Nelson's marriage to Miss Nisbett; through the glorious tropical sunshine to Antigua, and thence to Montserrat, famous for its wines; to Dominica, that old St. Vincent, the seat of our maritime history, where everything today is sleepily conducted in the same old Spanish fashion of a century ago.

The department will not issue any further estimates of the total production of any product of the soil nor of the number of farm animals until it has made such adjustments of its estimates for the last two years as may seem to be required by the report of the census based on an actual farm to farm visitation now in course of publication.

Under the auspices of the agricultural societies very successful Farmers' Institute meetings were held at Blissfield and Blackville respectively on the 7th and 8th inst.

The Blissfield meeting was held in Moran school house, John Moran, the vice-president, occupying the chair. The school house was well filled in fact beyond its seating capacity—and one pleasant feature of the meeting was the presence of a fair sprinkling of ladies in the audience.

TRADE WITH JAMAICA

The direct steamship service about to be established between St. John and Jamaica is an important beginning. If proper arrangements are made, Canada will yet have a great trade with the British possessions south of us.

In the meantime we have now one more steamship service. It should be patronized even though some risk were involved in making shipments and imports.

Mr. Bourassa is not a man to be taken too seriously in this country, but even such a person as he is able to do a good deal of harm by going about the world speaking with the authority of a member of the Canadian house of commons.

In the general election of 1900 Mr. Bourassa was again a pro-Boer candidate. He was also again a government candidate in other counties, and his sign was given that the government disliked his candidature.

On the question of an imperial preferential trade policy, he stood with the Canadian conservatives, with whom in the event of another change of government he might once more have found himself able to co-operate.

BRITAIN AND GERMANY.

The British ministers, the British public, and the British press have borne with wonderful self-restraint a continuous storm of malicious or ignorant continental misrepresentation and calumny.

Yet Mr. Chamberlain, who more than any other public man speaks for the British people on this occasion, does not storm or threaten. He does not even ask his European neighbors to desist. He simply repeats the announcement that the policy of the British Empire has been and will be dictated by the British people and not by foreign nations.

At this moment the German government has its trouble in Fosen. It grows out of a scheme of national education which is offensive to the native people. Children who do not learn the things which the law requires of them, but which their parents, their church, and their national spirit oppose, are publicly beaten.

WOODSTOCK, Jan. 9.—The banquet under the auspices of the officers of the 6th Batt., the 10th Field Battery and the Brighton Engineers, held at the Carlisle hotel last evening, was a very pleasant and successful affair indeed. The combined of the three clubs, in holding the dinner was a happy idea, and the result entirely justified those who carried the idea into execution.

Col. Boyer president, with Capt. Carvell of the Battery and Lieut. Melville of the Engineers in the vice-presidents. Other guests were: Col. Baird, Vince, Hartley, Maj. Harding, Capt. Raymond, Bull, W. G. Kirkpatrick, Kennedy, Lieut. Margeson, Gray, Melville, Adams, Stephenson, C. P. Ross, Good, Rideout, McLean, Carr, E. A. Kirkpatrick, Wetmore, Fields; while the invited guests included: Col. Cronkhitte, warden of the county; W. B. Belyea, mayor of the town; Mr. Alken of the Royal Batt. staff; Messrs. Appleby, representing the Despatch, N. Thorne, the Sentinel, and T. C. Ketchum, the Press and Sun.

After the excellent report was over, letters of regret, that they could not be present, were read from Major Tompkins, Col. Dunbar, Col. Dibblee and Major Baller.

The usual loyal toast was duly honored, all present joining in the national anthem.

Col. Hartley proposed the toast The Mayor and Town Council, of Woodstock, which was happily responded to by his worship Mayor Belyea.

Capt. Carvell proposed The Warden and Municipality of Carlisle, referring in a complimentary way to the Mayor and Town Council, which was also happily responded to by his worship Mayor Belyea.

Adjutant Raymond next gave The Officers on the Retired List, coupled with the names of Col. Baird, Vince, both of whom acknowledged the honor.

The Returned Heroes from South Africa, proposed by T. C. L. Ketchum, brought forth most interesting speeches from Major Good and Mr. Alken. Everyone knows and is proud of the fact that Mr. Alken is also well known in the county. He enlisted at Fredericton with the first contingent, and was present at all the engagements of that famous corps. Both warriors were most loudly cheered. The Press was next honored, and brought forth the names of Messrs. Ketchum, Appleby and N. J. Thorne, the latter gentleman representing the Sentinel for the occasion.

Col. Vince gave the 10th Field Battery, referring to it as one of the oldest corps by lineal descent in the province. To this toast Major Good and Capt. Carvell responded, and the latter read a telegram from "Col." Dysart, the first man to enlist when the call to go to the front came, and who regretted he could not be present at the supper. "Col." Dysart was up in the woods, heard there was likely to be a contingent from this section, left his job, and was, as he stated, the first man to sign the roll. He mentioned this as one instance of the alacrity with which men of the battery enlisted when danger was ahead.

The Ladies, proposed by Lieut. Melville, brought two stalwart young sons of Mars to their feet in Capt. Bull and Lieut. Carr, and the venerable warden came also to the rescue of the fair sex. The Brighton Engineers was duly honored, and Lieut. Melville and Carr did credit in replying to the corps which they so satisfactorily represented.

It was now well on towards the early hours, and after joining in Auld Lang Syne, and again singing more lustily after being fortified with a good supper, the national anthem, a most enjoyable event was at an end.

At the annual meeting of the officers of the 67th, preceding the banquet, the same officers and committees of last year were re-elected, there having been no camp last summer.

His worship proposed the health of the staff, responded to by Cols. Boyer and Hartley.

Cold Affects the Liver.

Severe Headaches, Constipation and Kidney Disorders the Result—Dr. Chase's Kidney-Liver Pills Correct the Action of Filtering and Excretory Organs.

The liver is very easily affected by change of temperature, nervous strain and over-eating, and is the cause of more pain and ache than any other organ of the body. It is the duty of the liver to filter from the blood the poisonous bile, which it passes into the intestines to act as nature's cathartic. One of the first results of a sluggish, congested liver is constipation, alternating with looseness of the bowels and what is commonly called biliousness.

Bitter taste in the mouth, sallow complexion, a coated tongue, severe headaches, pain under shoulder blades, fullness in right side, dizziness, ill-temper, peevishness and depression of spirits are indications of an ailing liver. The remarkable effectiveness of Dr. Chase's Kidney-Liver Pills in regulating the action of the liver, kidneys and bowels is easily placed first as a treatment for derangements of these organs. There are few people who are not more or less subject to biliousness in the winter season, when more or less confined to the house, and so rendered sensitive to change of temperature. Measly diet and the artificial foods of winter also tend to make the liver sluggish, the kidneys inactive and the bowels constipated.

The promptness with which Dr. Chase's Kidney-Liver Pills correct the action of the liver, kidneys and bowels is due to the fact that the pills are composed of natural and artificial substances, which are not more or less subject to biliousness in the winter season, when more or less confined to the house, and so rendered sensitive to change of temperature. Measly diet and the artificial foods of winter also tend to make the liver sluggish, the kidneys inactive and the bowels constipated.

Do not imagine that you are experimenting when you begin to use Dr. Chase's Kidney-Liver Pills. If your liver, kidney or bowels are deranged, this preparation will set them right. It does not seem wise to suffer from biliousness, kidney disease, constipation or similar ailments, when you may so well keep your health in perfect order with this tried and tested remedy. PENIAN RAID VETERANS. There was considerable business transacted at the meeting of the Veterans Association Thursday night, and a good attendance. The election of officers for the ensuing year resulted in the unanimous election of the following: J. I. Nobles, president; Major R. McDonald, vice-president; E. J. Eagles, secretary-treasurer. Managing committee: W. Knowles, A. Emery, Thos. Nixon, Thos. Darnley, Geo. Gorham.

A notice of motion was made that this matter would be taken up at the next monthly meeting, at which arrangements will be made for holding the annual dinner on the anniversary of the calling out of the militia in March, 1864.

Unpaid fines.....\$1,050 00 On hand.....\$ 728 40 The report was adopted.

The following communication was read: To the Hon. the Mayor and Town Council of Woodstock:

Gentlemen—We, the members of the Ministerial Union of the town of Woodstock would respectfully call your attention to the indecent posters, which we are surprised you should allow to remain upon and disgrace the walls of our town. Judging the show by these posters, we feel sure not a man among you would take his wife or daughter to witness such a performance. We therefore trust that you will see it in the interest of the morals of the youth of this community to prevent any display of feminine impurity or suggestive lewd acting. Let us add that at the assembled gathering of the Christian people last evening, representing various shades of religious thought, the unanimous rising vote of these people confirmed our view of the wishes of the best citizens of our town.

We remain, yours on behalf of the M. U. of Woodstock. JOHN C. BERRIE, chairman. F. ALLISON CURRIER, secretary.

Coun. Lindsay moved the following resolution, which was seconded by Coun. R. B. Jones, and unanimously carried: Resolved, that this council express its unqualified disapproval of the exhibition made on the bill board, and that in the future they will do all they can to prevent a repetition of the same.
