

# THE CHRONICLE

SATURDAY, MARCH 5, 1852.

## LATEST INTELLIGENCE.

The Royal Mail steamer *America*, arrived at Halifax on Wednesday evening last. The intelligence by this arrival is highly important. The resignation of the War Ministry, and the accession to power of such a statesman as the Earl of Derby, will be hailed with delight by

every man of the British Colonies. It is well known and admitted, that the policy of the Conservatives is to uphold and maintain British interests and power, all over the British dominions, whilst conservative Free trade, without reciprocity—reciprocity—protecting and tampering, are the marked characteristics of Whig dominion. The aspect of the times, it cannot be denied, is of a warlike character. The decided blow secured by the British Constitution to the subject, as well as to the denizen, who seeks asylum from tyranny and oppression prevailing in his own country, arouses the jealousy of the Continental tyrants, and hence the supposition that Louis Napoleon may be stimulated to an invasion of the "Sea Girl Isle," when doubtless, he will meet with a hot and striking reception.

(By Telegraph to the New York.)

ARRIVAL OF THE STEAMSHIP FRANKLIN.  
RECESSION OF THE ENGLISH AMBASSY FROM PARIS.—WALKER ATTITUDE OF FRANCE!—DEFENSIVE PREPARATION ENGLAND!  
The steamship *Franklin*, with five days interval from England, arrived at New York last Tuesday morning. The London Times hints that some great move may be expected on the 22d Feb., and that orders had been given to the various Generals to prepare. The alarm created by the threatening attitude of France was becoming very great.

Recruiting was going on throughout Great Britain.

In the House of Commons on the 15th ult., Lord John Russell brought forward his measure to provide for the national defences. It was proposed to add to the Army above as many men as possible, and to increase the number of men for the Militia to bring the numbers of all the men in Great Britain between the ages of 20 and 23. They are to be liable to only 14 to 18 days service in the first year, and 14 days in the three following years. Extra recruits for invasion they cannot be called to serve beyond the limits of their respective countries. In large towns the Police are to be armed and organized for defence. The proposed measure is not to apply to Ireland.

Lord Palmerston supported the measure, while Mr. Home, however, voted against it, to oppose without strong opposition and no debate.

The Government have commenced prosecuting the Irish Press for publishing wicked and malicious libels against the Government.

The Queen's Messenger with dates from Hong Kong to Decatur, 2nd ult., sailed on the 17th instant, reached on the 15th Feby. The Burnside has descended to the demands of the British Government. About 600 houses in Hong Kong have been destroyed by fire, and the British have done considerably more damage than any received by the Chinese.

Accounts from the Australian gold diggings to Nov. 1st had been received, and state that the excitement had very much increased. The yield impeded.

The French are in Paris in a most determined condition, and the situation is rapidly swelling. The order from M. President to the various Presidents required to act at the approaching election is a document altogether of which a Russian Czar or a Chinese Emperor would be equally qualified.

The State of France has been divided into departments beyond all precedent.

The tumultuous and turbulent mass of legislation which has been passed by the Government of the Empire is now understood to be caused by Russia. It is however asserted that preparations are making for the coup d'etat, and that is fixed for the 22d. The initiation it is said will be taken by the troops at Lyons. The Marquis of Normandy and the French President on 19th ult. has received a letter from the Emperor.

Gien, Arment, is about to place himself at the head of the army of Africa. It is still affirmed that the designs of Napoleon has designs on Belgium, and has made numerous demands on Switzerland, against which the Swiss have claimed the intervention of Great Britain.

The French Ministry had demanded the suppression of all Clubs and all political Associations, and a strict surveillance over all Newspapers.—The Great Council had determined to stand on the defensive.

Political.—The British experimental Squadron, under Commodore Martin, has left the Tagus, having been recalled by the Home Government. These ships will form part of a powerful fleet which will enter the Channel.

TWO DAYS LETTER FROM ENGLAND:  
(By the American at Nantes)

Cornwall had been in active demand and prices had advanced 18-penny. The sales of the week reached 4,300 bales.

The Corn Market was very flat and prices quite low.

Flour and all Breakfasts were expensive and low.

State of Trade.—The Manchester Market for Goods and Yarns, but particularly the latter, has much improved. The stocks on hand are small, and spinners well supplied with orders.

Fashions remain unchanged. Passengers more numerous than usual.

Mount Morris.—The English Stock Market has been active at an improvement on last week's price. It is stated that Congress granted to the State of Michigan 40,000 acres of land for the endowment of a University. Up to 20th Nov., 1845, they were 21-2 per cent. whereby private Banks are discounting at 2-1-8th. Consols closed on 20th at 97-1-4 to 97-5-8ths. Both for money and account.

Canada Scraps was worth 4 per cent. premium.

The greatest political event of the week was the passing of the bill of the Russell Ministry, on the Local Militia Bill.

Lord Palmerston moved that the local laws should be taken out of the Bill, and that the force should not be permanently continued to England, but should be maintained only, to be sent to any part of the United Kingdom as it might be required.

On this proposal of Lord Palmerston, Ministers joined issue, and on the division, agreed to expel the Halifax and Quebec line, and the remnant in his report published on the 31st August, 1848.

Suspense has sometimes been expressed, that out of so many who have landed in the Province, so many pass on, and become settled in the United States. To the poor man, his labor is his capital, and he must transmute himself to the place where he can best earn his living.

The proposed railway would engage thousands in its construction; while the stimulus and new spirit it would infuse into the whole community, now cowed and confined as it were to their own boundaries, would give rise to building railways, and other works which would employ additional thousand.

The proceedings in Parliament during the week, had been otherwise unimportant.

A speech dated House of Commons, Friday last, to the Liverpool Journal of Saturday, says—That the present state of the English Colonies, the greatest embarrassment was felt in India. The Indian being ill in the dock, one was prepared for what has so uniformly taken place. All is bustle and commotion, the sale of the India, our powerful British State, which supported by the other mother country, may bid defiance to all the United States of America.

The reason to the end—the first great step to be accomplished—in the construction of the Halifax and Quebec Railway.

From the same source—Lord Palmerston, in moving the resolution, said that the country was in a situation to sustain the burden of war, and that we must be prepared to meet the emergency, if it did not come from the United States. What he wanted was a little more preparedness, and a little more vigilance, and a little more energy.

The East Man.—The military survivor of the Royal Guards is now living at St George's, Gloucester. His income is £100 per annum, and he is entitled to a pension of £100 per annum, and his only support is from the Poor rate.

EXCITEMENT FOR PARIS ORPHEUM.—The Election for Officers to serve the ensuing term for the Parisian Legion, will take place in the School House, Montrouge, on Monday next. Sir Augustus

Stevens tenants. If we could not trust the option to defend itself, we had better give up the field of defense (tremendous effort) and send for Russian or Austrian soldiers. He was confident that the Government would make a proper appeal on the part of Her Majesty in this petty Province. The prime minister of the President of the United States does not, and other public functionaries proportional salaries.

The Post Master General of the Republic enjoys an income of £7500, the Chief Justice, £1000.

The above paragraph originating with a Halifax

## CULPABILITY OF REPUBLICANISM.

"It is evident that the adoption of the principles of Republicanism, and the consequent rebellion, was not the result of a proper appeal on the part of the Government, and that the rebellion was purely a popular uprising, and that the world that we were prepared for before would therefore preserve to ourselves the blessings of peace."

The以上段落起源于Halifax

re-publication in one of our City journals. Unfortunately, however, it does not contain one word of truth. We quote from the "American Almanac and Repository of useful knowledge," a work of sound authority, the following scale of salaries, namely—President of the United States \$25,000 per annum; &c. As to the "prime minister," this must be a newly created office, possibly owing its birth to the fortification of the author of the above paragraph. There is no office in the Federal government even analogous to that of Premier or Prime Minister in England. The Secretary of State, whom the writer possibly means, holds no seat either in the Senate or House of Representatives; enjoys, as far as the other Secretaries, \$5,000 per annum (not £1,000), and the other "public functionaries" of a similar grade, do not receive proportionably, but exactly the same salaries.

I have always looked upon the European and North American line as one which sooner or later, will be the most important communication with Canada, could only feasibly be afforded by the present contemplated scheme. By it, we secure a union of some of the most important cities, besides nearly the whole of the Province, and the distance between the Atlantic and the Pacific is reduced to a minimum.

As to the "prime minister," this must be

an office created by the

Government.

Mr. Edward—It is said that delays are dangerous, and this, as a general aphorism, I am quite prepared to admit; but I think the whole Province will be much the gainer by the delay that has occurred in the consideration of any of the recent bills, unless it be the bill for establishing the Islands of Grand Manan and West Isles as a Free Port. —Mr. Haywood in the Chamber of Deputies said, that the bill will

CONTINUED. Continuation Letter, Gazette

GREAT BRITAIN.—We have received the following information from our German correspondent, on whose accuracy we can most thoroughly depend. We invite especial attention to his purpose, as his views and powers of prophecy on this subject continue to prove more than usual interest.

PHENOMENAL STOCK.

AS IT IS TO BE KNOWN.

TO THE READERS OF THIS PAPER.

WE have received the information of the Court of the Celestial Empire to the General commanding their armies has never, we believe, been published in this country.—Take notice of this in particular; you have to deal with people who wear their caps on the wrong side, and when you do, they cannot tell the difference up again. Your first endeavour must be to throw them down. Paint your faces as fantastically as you can, and when you approach the enemy, shout out and make the noise of a thousand voices, which will be difficult to distinguish. This is the way that the dis-  
cusses will excite great curiosity and interest among the learned in those matters.—(Observer.)

THE SIGNIFICANT RAID OF ERIN.

Having received the New Boilers, and being otherwise well supplied with Fuel and OYS-  
TOLS, from the English, who are in full force at an English station.—Served in the best style at One Sailing Cocked, and Ninepence per plate Raw. Sold Wholesale at 2s. 6d. per pack.

W. DAVIS, Waterford.

PHENOMENAL STOCK.

TO LET.—A choice lot of

Furniture will be sold very cheap.—Apply to the Office of this Paper.

Feb. 6.

ALL ALIVE.

AT the Oyster Saloon in Water Street, will be

held a grand ball on Saturday evening, with

an English attraction.—Served in the best style

at One Sailing Cocked, and Ninepence per plate

Raw. Sold Wholesale at 2s. 6d. per pack.

W. DAVIS, Waterford.

PHENOMENAL STOCK.

TO LET.—From the first of May next, a

good Office in the 2nd floor of the Subscribers

Brick Building, in Prince William Street; terms moderate. Feb. 13. L. H. DEVEVER & SON.

TO LET.

THE Upper Flat of that commodious and

pleasantly situated HOUSE, in Great

George Street, containing Parlor, Sitting room,

Bed room, &c., also a fine yard, and good

well of water, the house is new, and in every

respect a model residence for a family.

It is to be let for a term of one year.

JOHN BRUNDAGE.

or H. S. STAPLES, at Gilchrist & Inches,

King Street.

Office to Let.

TO be Let with immediate possession—One of

those desirable OFFICES in the Brick Building

in Prince William Street, occupied by the sub-  
scribers. For particulars apply to

RANNEY, STURDEE & CO.

STORE to Let.

TO LET, the STORE known as the Port's

House, in the Subscribers' Brick Building

King Street. Enquire at the Furniture Ware-  
house—second story. Feb. 6. 1832.

52 CHANCERY LANE OFFICES FOR SALE.

JOHN LINDSAY.

NOTICE.

NOTICE it is hereby given to the Public, that the

temporary Partnership arrangement, between

John Brundage and Christopher Wm. Newell,

is now dissolved.

John Brundage

will now act as

sole agent for the

Manufacture of

Woolen Goods.

JOSEPH IRVING.

NOTICE.

8. A number of my friends have requested me

to re-open my BOARDING-HOUSE, I have

therefore concluded to do so, and will be most

happy to accommodate any of my old friends, or

any new ones, and do pledge myself to give them

as good food, and as comfortable a home as

ever I could afford.

No officious calls, no noise, no visitors, no

noise, no disturbance, no

disturbance, no noise,

no disturbance, no

noise, no disturbance,

no disturbance

## POETRY.

[FOR THE ENTHUSIASTS.]  
Mr. FORTIN.—The following lines immediately sprang into existence, upon recently hearing of "the final decree," in a Chancery cause, the claim of his debt, which his defendant, "was most essentially sued up;" not because, he lost the property in contention, but by his having to pay the injured solicitors on both sides, all the costs they claimed.

## IMPROMPTU.

They sell you shirt-skins—your hat,  
You now are lean w'out your head—  
You stand'd the meads—the haws—t'ye vale,  
Who now are snugly eag'd, in jail.

Thus Chancery ends! though fate began  
The world some long years ago,  
And what between its costs and fees,  
John's lot was better, with all his boils,

March, 1852. RICHARD FEN.

## Song of the Rail-Cat.

## BY C. T. WOLF.

Through the mould and through the clay,  
Through the corn and through the lake,  
O'er the river, through the brake,  
O'er the black and dreary moor,  
On we fly with screeching roar!

Crash!—dashing!  
Over ridges,  
Gullies bridges!  
By the babbling rill,  
And hill.  
High ways,  
By-ways,  
Hollow hill—  
Jumping—bumping—  
Like 40,000 dogs snoring.  
By the lonely hut and mansion,  
By the ocean's wide expanse,  
Where the fusty chimney smokes,  
Where the fowndry bellows croaks—  
Dash about!

Splash along!

On! on! with a jump,  
And a thump,  
And a fall,  
Bites the fire fowl on to its destined goal!

Over the aqueduct and bog,  
We fly with screeching roar!

Every instant something new!  
Now a tavern—now a steep—  
Now a crowd of gaping people—  
Now a hollow—now a ridge—  
Now a cross-way—now a bridge.

## Flight alone!
