### GREAT LIBRARY PURCHASED

Madrid, Oct. 27.—Prof. Walter Liebenstein, librarian of the North-western University, Evanston, Ill., today purchased for Harvard University the extensive library of Marquis Olvier, which is considered to be the finest collection of works on international law in the world. The purchase was arranged through Gustave Schulz, Secretary of the American Legation here.

### They Found A Friend.

The Misses Kenney who lost their pocketbook containing their tickets to a city in Connecticut and \$50 in the Union Depot, Thursday afternoon, were enabled to proceed to their destination yesterday afternoon. They did not receive money from their home, but Miss Smith, the daughter of the I. C. R. policeman, advanced the amount to enable the young women to proceed.

### BORN

HAMILTON—On the 23rd inst. to Mr. and Mrs. A. F. Hamilton, a daughter.

### PETITIONS FOR THE PEACE OF THE WORLD

To the Editor of The Standard.  
Sir:—Some weeks ago a "World petition to prevent war between nations," as the heading runs, was circulated in this city for signatures.

The petition is addressed "To the governments represented at the third Hague conference" (which will meet probably in 1913) and reads:  
"We, the undersigned, citizens of the different nations, believing that the adjustment of all international interests by convention and treaties containing an arbitral clause will lead to the abolition of war, minimize the necessity of armaments, and effect their gradual reduction, hereby voice our gratitude for the official step already taken toward this end, and, desiring to support further concerted action, respectfully petition that at the third Hague conference, a convention be agreed upon by which the nations shall mutually pledge themselves, surmounting each other's integrity and just development, to refer to arbitration all differences not settled by diplomatic negotiations."

The petition is signed by a number of the different nations, and the adjustment of all international interests by convention and treaties containing an arbitral clause will lead to the abolition of war, minimize the necessity of armaments, and effect their gradual reduction, hereby voice our gratitude for the official step already taken toward this end, and, desiring to support further concerted action, respectfully petition that at the third Hague conference, a convention be agreed upon by which the nations shall mutually pledge themselves, surmounting each other's integrity and just development, to refer to arbitration all differences not settled by diplomatic negotiations."

The copy of the petition already circulated through immediate responses from such a large number of interested signers, that it seems a waste of time to go around soliciting names, therefore the undersigned lists into whose hands the work has fallen, have decided to place in and about the city, several copies which are to be forwarded to Boston as soon as filled. All persons of age, men and women, are hereby requested to sign as promptly as possible.

MARY E. McAVITY, (Mrs. John A.)  
ELLA B. M. HATHEWAY, (Mrs. W. Frank)

Copies of the World Petition for Peace, are to be found at the following stores:  
Hazen J. Dick, 144 Charlotte street.  
Gray and Ritchie, 59 King street.  
G. A. Moore, 106 Brussels street.  
S. H. Hawker, 172 Mill street.  
E. R. W. Ingraham, 127 Union street, W. F. St. John, N. B., October 26th.

### C. P. R. WILL HAVE NEW TRAINS THIS WINTER.

Montreal, Oct. 27.—No better evidence of the increased western traffic of the Canadian Pacific Railway is needed than the statement that services which in former winters have always been dropped are this year being retained and in some cases added to.  
Yesterday afternoon a leading Windsor Station official, pointed out that this year the Canadian Pacific Railway intends to run its St. Paul Seattle through trains all winter. It has always been dropped during the winter months, but the traffic on these trains has gradually increased to such an extent that it has been found necessary to continue the service.

### TRIED TO DYNAMITE A PASSENGER TRAIN

San Francisco, Cal., Oct. 27.—Southern Pacific Railroad officials here were notified today of the finding of thirty-six sticks of dynamite in a frog on the track at Ellwood, California, a few moments after train No. 18, a southbound passenger, had passed the switch.

Part of the dynamite was pulverized, evidently having been ground by the car wheels. The dynamite was found within a few miles of the bridge where a similar cache was planted when President Taft's train passed on October 17.

### LATE SHIPPING

### Shooting Pains in Side, Arms, Back

Prove the Presence of Rheumatic Virus, which is Cured Quickest by Nerviline—Rub It In.  
Pains in the muscles, in the sides, the back, the neck or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful, but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because it is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember, that there is an anchor of health in every household. Refuse anything that may be offered you instead of Nerviline, which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and pains.

### NERVILINE CURES RHEUMATISM

Large size bottle, 50c or sample, 25c, at all dealers, or The Catarthosene Company, Kingston, Ont.

### UNDERWOOD PRESIDENTIAL BOOM STARTS IN NEW YORK.

OSCAR W. UNDERWOOD  
Mr. Oscar Underwood's Presidential boom is now in full swing in New York. Judge Joseph J. Willett, of Alabama, famous in the South as a manufacturer of Presidential booms, is in charge of Mr. Underwood's campaign.

### STEEL CASE TO BE GREAT LEGAL FIGHT

Continued from page 1.  
"I think it would be improper for me at this time to make any comments concerning the suit which has been brought by the government against the United States Steel Corporation, except to say I regret exceedingly that the department of justice felt called upon to institute proceedings. If any harm results, it will fall upon the stockholders and employees, aggregating a very large number, and any loss to them must be deplored. It is a time for everyone to keep cool, with a disposition to patiently await results, knowing that in the end justice will be done to all interests."  
"I believe a disclosure of all the facts applicable to the allegations contained in the government's bill to complain as a ground for relief, will show that the suit ought to be decided in favor of the corporation and that the following facts will be established:  
"1.—That in the organization of the corporation those in charge had no intention of creating a monopoly or of restraining trade.  
"2.—That the corporation never has had, or attempted to exercise, a monopoly or to restrain trade.  
"3.—That the conduct of the affairs of the corporation has clearly and positively negated any effort or intention to violate any provision of the Sherman Law.  
"4.—That the existence of the corporation has been of benefit and not of injury to its employees, its customers, its competitors, and the general public.  
"5.—That no representation was made to the President relative to the Tennessee Coal and Iron properties and that the motive of those connected with the purchase was to prevent a threatened financial disaster which would adversely affect the corporation as well as others."

### STILL WORKING ON THE McNAMARA JURY

Los Angeles, Cal., Oct. 27.—Nineteen new veniremen were secured out of a theatre in a small town where the McNamara murder trial. Eleven others were excused at a preliminary hearing held before Judge Bordwell, and then were not served with summons because they were out of the county. Sheriff Hammel and his deputies worked all night summoning men whose names were called yesterday.  
Attorney Darrow, chief counsel for the defense, in the McNamara murder trial, announced late today that he would refuse to proceed with the case until the defense's two challenges now pending were ruled upon by the court.  
Quite Ready.  
The manager of a well-known touring company wired to the proprietor of a theatre in a small town where his company was to appear: "Would like to hold a rehearsal at your theatre at three o'clock tomorrow afternoon. Have your stage manager, stage carpenter, assistant stage carpenter, property man, chief electrician, and all stage hands present promptly at that hour."  
Three hours later he received the following reply: "All right. He will be there."

### The Solved Mystery of the Veiled Lady

For many weeks a lady resident of Woonsocket, R. I., never left the house without a thick black veil over her face, because of an unsightly skin disease on her forehead. The trouble disappeared as soon as Poslam was applied, just as the skin diseases yield to the marvelous healing powers of this perfect remedy. Worst cases of eczema are cured in two weeks. Itching stops with first application. Inflamed skin and red noses clear overnight. Pimples, acne, rashes, scalp scale, dandruff, barbers' and all other forms of itchy eruptions are eradicated with astonishing readiness. No poisonous or harmful ingredients are contained in Poslam; it is acknowledged "perfection" by thousands of grateful users. Skin diseases should not be endured while Poslam is so easily obtainable. Sold by Chas. R. Wasson, Clinton Brown, F. W. Monroe, and all druggists for 50 cents. Free sample write to the Emergency Laboratories, 32 West 25th Street, New York City.  
Poslam Soap is medicated with Poslam, and is delightful for every toilet purpose, besides being antiseptic and a preventive of disease. At druggists, 25 cents.

### THE TEMPLE FAIR TO OPEN TONIGHT

Popular Annual Entertainment Promises to be More Popular This Year than Ever—Attractive Booths.

The fair to be held under the auspices of the Alexandra Temple of Honor will be opened in the Temple Hall on Main street, North End, at eight o'clock this evening, and will be continued for a week. Mayor Fryk will be present to perform the opening ceremonies. An orchestra will be in attendance and there will be the usual features and games. The door prize this evening will be a barrel of flour. On Monday evening a special Thanksgiving supper will be served. Members of the committee have been working day and night for months in an endeavor to make the fair a decided success. From every standpoint. On the roof of the building a large electric sign ten feet high has been erected, that when illuminated can be seen over nearly the whole city. On the front of the building is a novel electric device. A large sign has been so erected that an electric spark will shoot from one wire to another and gradually light it up. The front of the building will also be beautifully decorated.

will have a rare display of fancy and useful articles for sale. Alongside of this is situated the handicraft table. This will be looked after by Mesdames Prime, P. Miller, W. Miller and H. K. Olstead. The ice cream parlor is at the end of the hall on an elevated platform. Here the following committee, Mesdames J. W. McAlary, H. Estabrooks, R. Estabrooks and Miss J. McAlary, will endeavor to attend to the usual large number of patrons.

At the end of the ice cream parlor there will be a gypsy booth. The apron table follows, Mesdames R. A. Christie, F. F. Flewelling, H. Case, J. Letteney and S. Webb, in charge.

Next comes the miscellaneous booth where a fine variety of goods will be sold by Mesdames J. A. Gallop, F. Granville, C. Gallop, H. Whitney and C. Todd.

All the booths are very prettily designed in lattice work and will be well lighted up by numerous electric lights. In the upper apartments will be the dining room, under a committee composed of the following: Mesdames T. A. Black, J. W. Williams, S. Hamm, Fred Gallop, Z. A. Wilson, C. Wheaton, R. Brookins, M. Bart, John Robinson, Robert Burke, A. Todd, Patricia W. Flowers, McKinnon, C. Gallop, and Downey J. Letteney, J. Williams, Briggs, McAlary, Brookins, F. F. Flewelling, R. Estabrooks, W. McCain, S. Williams, R. A. Christie, E. Miller, W. P. Roberts, N. Prime, Olmstead, H. Case, C. Black and W. H. Whitney. During the evening lunches will be served. On Thanksgiving Day a turkey supper will be the main feature of the day. During the hours of 6 and 8 a vaudeville performance will be given. The amusements consist of a bowling alley, shooting gallery, ladies' and gents' bean boards, tossing the plate and the weighted scales. Valuable prizes worth over \$200 will be given to the lucky winners. The following are the prizes: A load of coal, a ham, box of soap and a chest of tea.

James C. Bond who is managing the fair, deserves great credit for the able manner in which he is conducting the arrangements.

LONG LIVED ARTIST.  
(From the London Chronicle.)  
The longevity of artists is almost proverbial, and the case of Thomas Robert Macquoid, who at the age of 91 is still painting, is remarkable, but not unparalleled.

T. S. Cooper, R. A., exhibited at the Royal Academy for several years after passing his ninetieth birthday; John Massey Wright, a water color artist, born in 1773, was fully occupied in and active work up to the time of his death at the age of 85. Most notable, however, was Titian, who, born in 1477, lived just one year short of a century and continued to paint pictures until the very last.

Close by is the refreshment booth, where orange and lemonade will be sold by S. J. Holder.

Next in order is a neatly equipped office, which will be in charge of Mesdames S. Williams, H. E. McCain, R. Corbett and F. Priest. This booth will be filled with dolls of all sizes, all of which will be beautifully constructed.

Close by is a large fancy table, where Mesdames Robert Burke, H. Roberts, W. H. White and C. Black

**MANNISH GIRLS NO LONGER FASHIONABLE--MUCH TRIMMING ON NEW SUITS FOR LATE FALL WEAR**

Black velvet, with sash and embroidery.

Dark blue satin, with many buttons.

Violet Costume of the new permo fabric.

Before fur coats or long heavy cloth ones, are donned many pretty street suits are seen. The day of the strictly tailored suits with its mannish severity, seems to be over. A few girls and matrons will stick to extremely plain street suits but the feminine element is felt on every side. Nowhere is it more visible than in the coat or jacket. These outer garments are much trimmed and are elaborate with silk, velvet, sashes and fringe. This trimming extends even where the coat itself is of cloth.

Black velvet trimmings and an East Indian sash and motifs of colored embroidery are the strong features of a handsome tailored suit of black cloth. The underskirt is of black velvet about eight inches of this rich fabric showing. A tuck two inches deep in-

ishes the black cloth overskirt. The velvet appears in a deep collar which comes to the waistline of the coat and this collar in turn is trimmed with an inch width of the cloth.

Velvet and cloth cuffs are upon the sleeves. A black satin suit is finished with heavy fringe and the motifs of colored embroidery decorate the front of the coat.

Buttons are used elaborately as trimmings upon a handsome dark blue satin costume. A graceful sash in the back of the satin is edged on both sides with the buttons and finished with fringe. The sash is double in effect. The blouse has a tunic effect and ends at the hips. It is trimmed with a wide white collar and cuffs. The bands of satin appear twice on the jacket's edge and also on the belt. A broad muslin collar is inside of the coat and the undersleeves are of the same soft material.

This material is one of the new ones of the autumn and is making a strong bid for popularity. It is a simple mixture of wool and mohair threads.

The street costume of violet shows the fringe trimming of the early Victorian day and the other feature of that time is the bell-sleeve over a wide undersleeve, the diagonal overskirt and the shortwaisted corded jacket.

The diagonal overskirt is edged with two lines of narrow violet fringe, this being headed with narrow bias bands. The sash is made of the same material and appears twice on the jacket's edge and also on the belt. A broad muslin collar is inside of the coat and the undersleeves are of the same soft material.

Conforms to the high standard of Gillett's goods. Useful for five hundred purposes.

**GILLETT'S PERFUMED RAZOR**

Made in Canada

**For Sale**

By Tender.

**Machine Shop**

Being part of the Estate of the late W. W. Howell and now in operation and running under the firm name of

**W.W. HOWELL & CO**

This is an old established business. In a new shop, situated on the water front, Halifax, N. S., directly opposite and facing the big new pier being built by the Dominion Government.

The shop is equipped for heavy and light machine work and forge work, and capable of handling very large repair jobs.

The executor asks offers for the machine shop and full equipment, together with all patterns and records, and the goodwill of the business. The estate does not bind itself to accept the highest or any tender.

Tenders to be in by the FIRST DAY OF NOVEMBER, 1911.

**Second Sale of CITY LOTS**

On West Side BY AUCTION

Manufacturers' attention is particularly called to the First Block, as it is bounded on the north and south by Sutton and Suffolk streets, on the west by Lancaster street, on the east by the Canadian Pacific Railway, and lying very closely to our Winter Port of Canada, making cheap transportation. Also Lots 519, corner St. James and Lancaster, and 405, 406, St. George Street.

AT CHURCH'S CORNER ON SATURDAY MORNING, Oct. 28th, at 12 o'clock, noon, I will sell by Public Auction a number of lots on western side of the City of St. John. These lots while being suitable for manufacturing purposes, are also splendidly situated for the building of private residences, commanding as they do a magnificent view of the harbor and City of St. John, giving one city, country and sea enjoyment. Land-boom has started in West St. John, and those wishing to purchase sites for homes should not let this opportunity go by. For further particulars, plans, etc., see Director of Public Safety, City Hall.

F. L. POTTS, Auctioneer.

**ONE MORE ADDED TO THE GREAT ARMY**

WHO ARE SHOUTING THE PRAISES OF DODD'S KIDNEY PILLS.

Chiswick man's Kidney Trouble developed into Rheumatism, and finally into Diabetes—Story of his complete cure.

Chiswick, Ont., Oct. 27.—(Special)—Rheumatism, which developed into Diabetes had made life a burden to Octave Labracque of this place. Dodd's Kidney Pills cured him and he is added to that great army of Canadians who glory in telling their neighbors that Dodd's Kidney Pills are the one sure remedy for all kidney ills.

"My limbs would swell and I had a dragging sensation across the loins," Mr. Labracque says, in giving his experience. "I could not attend to my work properly as I had to keep resting and I was troubled with rheumatism, and my troubles finally developed into Diabetes."

"I tried different medicines and doctors but got little relief till I began to use Dodd's Kidney Pills. Then my limbs would swell and I had a dragging sensation across the loins."

All Mr. Labracque's troubles came from diseased kidneys. They speedily ceased when he commenced to use the one sure cure for diseased kidneys—Dodd's Kidney Pills.

## MARITIME REPRESENTATION AT OTTAWA.

Hon. J. K. Fleming has done well to suggest to the other Premiers of Canada the necessity for some changes in the British North America Act regarding the number of representatives each Province shall have at Ottawa. As the Act is at present interpreted the Maritime Provinces must continue to lose two or three representatives after every decennial census, the number depending on the rapidity of the growth of the West and the increase in population in Quebec. Under the British North America Act Quebec is always to have 65 members and to each of the other Provinces is assigned such a number of its population as will bear the same proportion to the number of its population as the number 65 bears to the number of the population of Quebec.

The first House of Commons after Confederation consisted of 181 members, of which Ontario returned 82, Quebec 65, Nova Scotia 19, and New Brunswick 15. After the census of 1871 British Columbia, Prince Edward Island and Manitoba were added to the family. In 1875 the House of Commons consisted of 206 members, Ontario returning 88, Quebec 65, Nova Scotia 21, New Brunswick 25, British Columbia 6 and Manitoba 4.

The census of 1881 caused a further increase in the membership of the House to 211 members, an increase of 5, of which Ontario received 4 and Manitoba 1. The census of 1891 added two more members to the House. In the changes which took place Nova Scotia lost 1 member, Prince Edward Island 1 and New Brunswick 2. Manitoba gained 2 and the North West Territories 4.

The total membership of the House after the census of 1901 was 214. Ontario lost 6, Nova Scotia 2, New Brunswick 1, and Prince Edward Island 2. Manitoba gained 3, the North West Territories 6, British Columbia 1 and the Yukon Territory with one representative was added. During the session of 1906 the Saskatchewan and Alberta. The former was given a representation in the House to 21 members.

Prince Edward Island was not a part of the Confederation in 1867. This Province came in with six representatives. The representation of Ontario was increased by the census of 1871 and 1881, but in 1901 this Province lost six of the seats gained, leaving a net gain since Confederation of four seats. Nova Scotia and New Brunswick also made gains under the census of 1871, the representation of Nova Scotia being increased to 21 and that of New Brunswick to 16. These with Prince Edward Island gave the Maritime Provinces 47 seats in a Parliament of 211.

By the census of 1891 Nova Scotia, New Brunswick and Prince Edward Island each lost one member and the same thing happened after the census of 1901. Nova Scotia therefore has now the same representation it had at Confederation, New Brunswick one less and Prince Edward Island two less, or a total of 36 in a Parliament of 221. As there are no possibilities of extending the boundaries of the Maritime Provinces as has been done in both Ontario and Quebec, every decennial census will cause a further cut in the representation of the Maritime Provinces. It should not be forgotten that when the Provinces of Upper and Lower Canada, Nova Scotia and New Brunswick were formed into the Dominion of Canada there was no North West Territory, the addition of which has so completely changed the aspect of affairs so far as representation at Ottawa is concerned. With the exception of Prince Edward Island, all of the new Provinces, including British Columbia, entering Confederation had a minimum representation fixed for them which is not affected by the flow of population. The older members of the family have no minimum. The older members of the family do not make a vigorous effort to have the law changed their representation at Ottawa will become so small as to be a negligible quantity altogether.

## GERMANY AND THE MONROE DOCTRINE.

German enterprise in Central and South America never fails to excite the curiosity and suspicion of the United States, partly for the reason that the Kaiser's Government has never yet seen fit to recognize the Monroe Doctrine. Though not actually denying its existence it has been the policy of German statesmen to quietly ignore the declaration, and just as quietly, yet steadily, to pursue a course that would weaken it.

One of the latest rumors of German interest in affairs of this hemisphere, according to the London Free Press, has to do with a project to build a second canal across the Isthmus of Panama. The route chosen by de Lesseps and continued by the United States Government is by no means the only feasible route, the German plan being announced is a latitudinal line through the course of the Tapoa River in Costa Rica through Salinas Bay, which opens on the Gulf of Papagayo, in the Pacific Ocean. It is stated that negotiations have already been opened with Costa Rica, and that there will be no difficulty in Nicaragua.

This plan, while in straight competition with the United States, does not seem to offer ground for opposition unless by working through the petty governments of Central America. But it is not difficult to see that with such an important business interest on this side of the ocean as a canal joining two oceans, Germany's position in the affairs of this continent is vastly changed. Her voice would necessarily have to be heard in the affairs of the Latin republics, heretofore considered as the sole concern of the United States. What does the Monroe Doctrine amount to under such circumstances? No more than it has ever amounted to in Germany's opinion.

There may yet come a day when the naval ambitions of Germany will be understood as having quite other ends in view than those generally attributed to her. The great undeveloped country of the future, outside of the dominions of the British Empire, lies in South America. There is the logical field for German enterprise and German expansion, and there have been many indications that it is to secure the necessary foothold in Brazil or some other Latin republic that German statesmanship is bending all its efforts. The great test of strength may come, not in the North Sea, but in the Caribbean Sea, not for the decision between Great Britain and Germany as to first place among the powers of Europe, but between the United States and Germany with the Monroe Doctrine as a casus belli and half a continent as the prize to be gained.

## MR. HAZEN ELECTED.

Hon. J. D. Hazen, Minister of Marine and Fisheries, was declared elected by acclamation yesterday for the City and County of St. John. The Liberal party offered no opposition to Mr. Hazen's return. A few persons, who are credited with Socialistic leanings, endeavored to place a candidate in nomination, but as they did not even state the name of the constituency correctly, and for other reasons, the nomination paper was not accepted by the Returning Officer. The constituency may congratulate itself on the blunder of the so-called "Socialists," as it has been saved the annoyance of an unnecessary election. Mr. Hazen now goes to Ottawa as the representative of all the people, and he goes there with a good record of past achievement.

Mr. Hazen is a comparatively young man and has a long period of usefulness ahead. The position to which he has been called involves great responsibilities, but judging from what he has accomplished in the past, he will be equal to any emergency that may arise. He is a loyal citizen of St. John and as the representative of the most important constituency in the Province of New Brunswick, he may be trusted to keep the interests of this community and the Province always to the front, and to continue the policy of developing the winter port trade to the fullest extent.

Parliament is to be called together in a few days, and while it is not likely that any general business except the passing of the estimates and a few other important measures that should have been disposed of before Parliament prorogued, will be taken up, the session will be long enough to get the new Government thoroughly in harness for the real work which will begin with the second session, which will follow very closely on the one opening next month.

## THE MANCHU DYNASTY.

Much of the unrest and political dissatisfaction in China in recent years has been due to the underlying current of race hatred which the native Chinese have for the Manchu dynasty and its Empire-wide network of officials. Although the Manchus swept down from the north and took possession of the throne nearly 300 years ago, there has been little mixing of their blood with that of the native Chinese, and the two peoples have existed side by side, continually clashing elements.

The Manchus were originally called in to assist in suppressing internal troubles which threatened to overthrow the Ming dynasty. Their work done, they refused to withdraw and proceeded to conquer the country for themselves. In 1644 they proclaimed the son of their own ruler the first Emperor of a new dynasty, the tenth Emperor, of which now reigns. The Manchus have ruled China on Chinese lines of policy, and in recent years have made many efforts to conciliate the natives. A few years ago it was said that of the 114 officials then forming the Government of the Empire only 32 were Manchus. In the provincial administrations the proportion of Manchus chosen in the last five years has not been more than one-fifth of the whole number.

## Current Comment

(Ottawa Journal.) During the first seven months of 1911, Canadians bought 3,724 automobiles from the United States. While the average price has declined from \$2,000, three years ago to less than \$1,100 at the present time, still these figures mean a business of about \$4,000,000 lost to our own manufacturers in little over a half year. The protection given the Canadian manufacturer is 35 per cent. This should be ample. Indeed the presumption is that the Canadian can do much better by buying at home than by paying an additional one-third of a custom's tax.

(London Free Press.) The American Medical Journal has a current article upon the disposal of garbage, a question of deep concern to many Canadian cities and towns at the present time. The relative advantages of incinerator and reduction plants are discussed and both are declared effective. The reduction system has been found a source of profit to many municipalities, the Medical Journal quoting Columbus, Ohio, as an instance, where a new plant established in July, 1910, netted \$2,000 a month for the first six months.

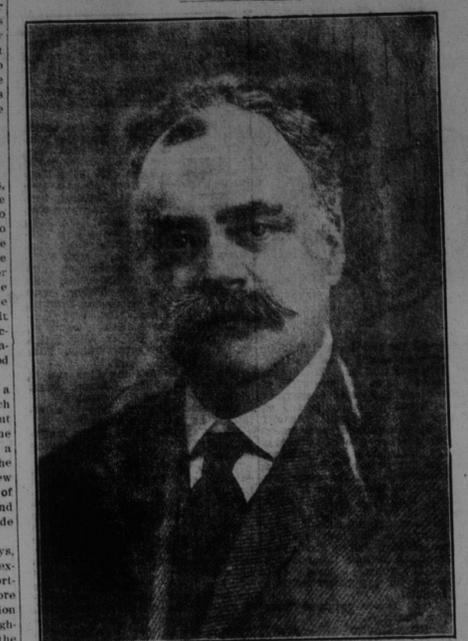

(The Argonaut.) The Church of St. Nicolas, in the city of Rheims, is surrounded by pillars. When a certain bell in the tower is rung the top of one pillar always stays in the extent of seven inches on each side, although the base is immovable and the stones are so firmly cemented as to seem like a solid piece of masonry. Notwithstanding that each of the four bells is about the same distance from the trembling pillar, none of the other bells has the slightest effect on it.

(Ottawa Journal.) That lady who asked the Ottawa Publicity Bureau for a divorce mistook the object of the organization. The only divorce efforts the bureau engages in are to divorce promising industries disatisfied with present home surroundings from their home ties and transfer them to industrial happiness in this city. The bureau has one divorce per month of this nature to its credit.

(Pittsburg Gazette Times.) Italy is going to send an airship to Tripoli to help fight the Turks, and to make sure that it will get there it is to go as freight.

# HON. J. D. HAZEN WAS ELECTED BY ACCLAMATION YESTERDAY

### An Attempt was Made by Socialists to Nominate F. Hyatt, but His Papers were Not Properly Executed and the Returning Officer Rejected Them.

HON. J. D. HAZEN. Elected yesterday by acclamation.

Yesterday Hon. J. D. Hazen, minister of marine and fisheries, was declared elected by acclamation to represent the city and county of St. John, in the federal parliament. An attempt was made to nominate Fred Hyatt, socialist, but the returning officer Sheriff S. S. deForest, refused to accept his nomination papers as they were not made out in proper form.

At noon the returning officer read the official proclamation, and declared the court open for the reception of nominations. J. E. M. Baxter, K. C., was present in his official capacity to advise the returning officer, and B. R. Armstrong was present as official agent of Mr. Hazen, ready to file his nomination papers. Nothing happened till 1:30 o'clock when Fred Hyatt and J. W. Eastwood rushed in. Mr. Hyatt, who was somewhat excited, declared that they had been trying to get into the front door for about a quarter of an hour, and had to come in through the registry office. He said it was a plot. Mr. Eastwood then produced a document and handed it to the returning officer who looked it over carefully. The papers were in handwriting on tablet paper.

The returning officer refused to accept them on the ground that they were not made out in proper form. The electoral district was written, "Electoral district of St. John City and County," instead of the "Electoral District of the City and County of St. John." The important irregularity, however, was that there was nothing in the papers showing the consent of the candidate, no affidavit attesting the signatures of the witnesses, and other irregularities. "It's purely and simply a plot," said Mr. Eastwood. "It's a dirty dog's job and don't know anything about laws, but any man with common sense can see that it means the same thing." Mr. Baxter pointed out that if a form is required it must be lived up to, instancing his point in the case of the judge refusing to uphold an order for a recount, a few days ago, because the order had not been signed while the judge was just across the line. "We're only a bunch of workmen and don't know anything about laws, but any man with common sense can see that it means the same thing."

## HAPPENINGS OF THE WEEK

Continued from page three. Mackay, assisted by the Rev. C. Philip Woolcomb. Owing to the recent death of the bride's mother, the wedding was very quiet, there being neither attendants nor guests, though a great many relatives and friends of both the bride and bridegroom were present in the church. The bride, who was given away by her brother, Mr. J. A. Ritchie, was gown in white meteor crepe, made in purple effect, and trimmed with fringe, and wore a large black velvet hat with black feathers, and a corsage bouquet of gardenias. Immediately after the ceremony Mr. and Mrs. Rowley left by private car for Montreal and New York. On the bridegroom's presents to the bride were a diamond and sapphire bracelet, a gold watch bracelet and a handsome fur coat. The Earl and Countess Grey sent a diamond pendant, and from the Manufacturers' Association of Canada, of which Mr. Rowley was president, a Crown Derby dinner set.

Among those present at the wedding were Mr. and Mrs. James Ritchie, Mr. and Mrs. William Hodgins and Miss Betty Hodgins, London; Mrs. Frank Ritchie and her three children, Miss Grace and Masters Frank and Archie Ritchie, Miss Laura Kaine, Mrs. Rowley and Miss Helen Rowley, mother and sister of the bridegroom; Mr. and Mrs. O. Rowley, of Montreal; Mr. and Mrs. Harry Rowley, Mr. and Mrs. Vernon Nicholson, Miss Nicholson, Mrs. Henry Blackney, Mrs. McKeil and two special little friends of the bride, Miss Rosamond Macoun, and Miss Margot Fleming, daughter of Mr. and Mrs. S. H. Fleming.

Mr. Thomas Bell was in Halifax this week. The Grenfell sale and tea will be held on November 2nd. An afternoon tea and sale will be held at the residence of Mrs. John McAvilly on Tuesday next by the ladies' society of St. Andrew's church. Judge Forbes was in Halifax this week.

### Crasvenette

is the ideal wet weather cloth. You know the discomfort of the average waterproof—it makes you feel hot, stuffy and uncomfortable. "Crasvenette" Res. Shower-proof coats and cloaks are quite different—they keep you perfectly dry, but the air circulates freely. You can wear a "Crasvenette" Res. shower-proof coat any day, wet or fine, and it will look drowsy and becoming. Be sure that you get "Crasvenette" Res.—you will see the registered trademark stamped on every genuine "Crasvenette" Res. garment, made in all styles for men, women and children. If you prefer it you can buy the "Crasvenette" Res. cloth and get your own tailor to make it up for you. In case of difficulty, write The Crasvenette Company, Limited, 30 Wall Street, Bradford, England.

FINANCIAL WORLD

SUDDEN DROP IN NEW YORK STOCK MARKET

THE J.S. STEEL ISSUES

New York, Oct. 27.—U. S. Steel Common fell 8 1/2 points to 50 on the stock exchange today. The movement was the most striking effect upon the securities market of the government's dissolution suit against the United States Steel Corporation. Owners of United States Steel securities in all parts of the country and in foreign lands, alarmed at the news, threw their holdings upon the market. And trading in these securities ran to enormous proportions. During the day 80,000 shares of United States Steel were sold. The general list developed pronounced weakness on account of this movement, but there was no demoralization except in the market for United States Steel itself. Violent as were the fluctuations the effect of the suit upon the market was undoubtedly lessened generally by the wholesale liquidation of steel stocks which culminated in the upheaval of last night. The market as a whole was less turbulent than during the height of last month's disturbance, which was prompted by the fear that such a suit has now been filed and brought, or that the Steel Corporation would deem it wise to avoid such action by voluntarily dissolving. The drop in the price of United States Steel itself, however, was greater than on any day of the previous decline and its low price of 50 today was 1 1/2 below the bottom of the September drop. Following last month's dissent the price climbed to 62 1/2 and today's low figure represented a loss of 10 points from yesterday's high. London's prices gave notice before the market opened here of what was to be expected. Speculation abroad had been influenced by heavy selling orders placed through the New York by New York. The rush to sell was so great that the market was thrown into confusion and sales at prices ranging all the way from 55 to 33 1/2 were made all the same time. The opening was a block of 28,000 at these figures. Prices of all the standard issues gave way. Before the end of the first hour the decline was checked on strong support, but the market soon became weak again and prices fell lower before. Throughout the morning prices rose and fell in a feverish manner. Shortly after noon United States Steel touched 50, the lowest price recorded since 1909. Declines elsewhere among the active issues ranged from 2 to 5 points. Both the standard railroad stocks and the industrials suffered. Determined efforts were made to prevent United States Steel from breaking through 50. They were successful and in the early afternoon the market rose slowly. Trading became much quieter, and by the close substantial recoveries had been made. United States Steel ended the day at 52 1/2, a net loss of 6 1/2. The preferred stock closed at 103 1/2, a net loss of 5 points. The 5 per cent sinking fund bonds closed at 100 1/2, a loss of 1/2 after having sold at 101 1/2. In spite of the recovery in the steel market, it is doubtful whether the government's action has greatly increased the unrest which has been prevalent in Wall street for some time. It was generally expected that the suit would be brought sooner or later, and the feeling more generally expressed today was one of relief that the uncertainty on this score was ended. The government's statement in its petition that the steel corporation's inability to earn dividends was a result of "a fictitious basis resting on an unlawful competition" perhaps served to accentuate alarm on the part of security holders in general. In Wall street, however, the value behind the various issues of United States Steel securities has been well known in a general way. It is pointed out, moreover that during the period of its existence the corporation has been expending an average of about \$400,000 a year upon improvements. In fact, it is estimated that nearly \$45,000,000 have been expended in this manner, which acts as a substantial offset to the \$600,000,000 of inflated value alleged by the government. Chairman Gary's statement, issued at the close of the market, was essentially a reiteration of views known to have been held by the heads of the corporation. Wall street gave its undivided attention today to the affairs of the steel corporation and even the favorable September reports of the Harri-man roads received little attention. These reports showed that these roads had actually reduced their operating expenses. Although both Union Pacific and Southern Pacific reported heavy decreases in gross returns, the roads reduced expenses substantially and net earnings were larger. Extreme weakness was manifested by many of the speculative bonds. Blocks of from \$100,000 to \$300,000 of American Tobacco fours were sold, driving them down to 1 1/2 to 90 1/2, a rally to 91. The sixes were weakened to about the same extent and remained heavy. Losses in other issues reported a point or more in many cases. Total sales par value, \$5,370,000. U. S. bonds were unchanged on call.

M'INTOSH'S WEEKLY REVIEW

St. John, Oct. 26.—The local market showed considerable activity. There was, however, a good deal of irregularity about different movements but in a general way the market seems to be broadening out to a considerable extent as evidenced by the general character of the trading. Instead of attention being given to only a few specialties, there seems to be a few all-around demand which results in considerable trading in the greater part of the standard issues. The general trend has continued upward with the exception of Detroit and Richelieu and Ontario. Money continues very plentiful on the local street and the manner in which it has been offered during the past few days by floor brokers would seem to indicate that a number of the institutions really have more than they can get rid of. Such a condition is likely to occasion additional activity in the market. Settlement of Detroit United Trouble. After a great many years of continuing fighting between the Detroit, St. Clair and the City of Detroit, a compromise settlement has been effected. The Detroit United undertakes to establish three cent fares on all its city lines, and obtains a grant as to all its franchises within the city limits. In anticipation of the settlement Detroit United stock made a sharp gain, but after the announcement of the terms was made, there was a good deal of uneasiness of opinion as to whether the basis adopted was a bull argument in favor of the stock or not. Ontario. Money continues very plentiful on the local street and the manner in which it has been offered during the past few days by floor brokers would seem to indicate that a number of the institutions really have more than they can get rid of. Such a condition is likely to occasion additional activity in the market. Settlement of Detroit United Trouble. Public Utilities. Sherbrooke Railway & Power Company Bonds

The history of the Public Utility Corporations in Canada has conclusively shown that if bought and held as investment will yield better returns than any other securities that can be purchased. In the case of the Sherbrooke Railway & Power Co., already this year their earnings are 33-1/3 per cent. more than last year for the same period showing the rapid advance the premier town of the Eastern Townships is making. We are offering a limited quantity of SHERBROOKE RAILWAY & POWER CO. bonds at 95 per cent. and interest with a bonus of 40 per cent. common stock.

FROTHINGHAM, HARVARD FULLBACK, AS HE BEFORE T

BUDGET OF SPORT NEWS FROM THE OL

West Bromwich Albion and Bolton Wanderers, the two new clubs in the first league, are still to the forefront of the league, but not by such a lead as that their ultimate success is secure. Bradford City, the cup winners of last year, are pressing hard behind, and with one game less played, they are only one point less. The Spurs had a hard day and went down by four goals to love before the Sheffield Wednesday, who were thought incapable of a win this year. It was a great day for the Liverpool team, and while Everton conquered Newcastle by two to nil, the other great team of the north, Sunderland, went down to Liverpool by the old goal in three. Aston Villa, despite their losses at the start of the season, are now coming to their own, and have the greatest security list on the league, and drew in their last game with West Bromwich Albion.

International Games. The season is yours yet for international games, yet the Southern league have already been twice in the field and come out with a win and a loss. At Belfast the English league, and a great game is expected, as both sides have strong eleven in the field. The following were the selection of the British in charge of the game: Southern League—Shaw (Queen's Park Rangers), goal; Britain (Northampton) and Robertson (Sonthampton) backs; Frost (Millwall), Bradley (Coventry) and Randall, (West Ham), halfbacks; Jefferson (Swindon) Fleming (Swindon), (Coventry) and Bradshaw (Northampton), and Preham (Northampton), forwards.

English League—Irremonger (Notts County), goal; Hutton (Manchester United) and Pennington (West Bromwich) backs; Duckworth, (Manchester United) Roberts (Manchester United), Simson (Blackburn Rovers) Halse (Manchester United), Hampton (Villa), Buck (West Bromwich) and Shearman (West Bromwich) forwards.

Scottish Games. Glasgow teams still lead the Scottish league with the Rangers a long way in advance. The Celtic team had a humiliating experience against the Hearts and went down by the odd goal in three. Playing on his top form, and one reads with joy of the success which continues to follow the hero of more international than any other player in the game. Queen's Park still occupy the lowly position at the foot of the table, and do not look like rising, as they have not yet a single win to their credit.

The Carrying Game. The rugby game is just opening in Scotland, and the big teams had light encounters on for the first day. Watsonians had an easy thing with the Greenock Wanderers, and the West of Scotland had the unusual experience of a draw.

BUDGET OF SPORT NEWS FROM THE OLD COUNTRY

West Bromwich Albion and Bolton Wanderers, the two new clubs in the first league, are still to the forefront of the league, but not by such a lead that their ultimate success is secure. Bradford City, the cup winners of last year, are pressing hard behind, and with one game less played, they are only one point less. The Spurs had a hard day and went down by four goals to love before the Sheffield Wednesday, who were thought incapable of a win this year. It was a great day for the Liverpool team, and while Everton conquered Newcastle by two to nil, the other great team of the north, Sunderland, they easily conquered the pick of the Irish league by four goals to one in three. Aston Villa, despite their losses at the start of the season, are now coming to their own, and have the greatest scoring list on the league, and drew in their last game with West Bromwich Albion.

Colonials Have Many Wins.

The Australian Rugby Northern Union team have been successful in every game of their tour so far, but often by the narrowest of margins. They have not been able to keep their lines intact and in every game that they have played they have had their opponents rattle up quite a number of points against them. Cable news of the week credits them with a victory in the first test match of the programme. The victory of the colonials will be regarded with considerable disappointment by the followers of the north country game. The success of the previous teams from New Zealand and South Africa is still fresh in the minds of those who follow the rugby code and they are still looked on as a stigma on the name of British rugby, which ought to be wiped out at the earliest possible date.

Jimmie Braid Again.

The final of the £400 tournament for professional golfers presented by the News of the World provided one of the finest games ever witnessed on the greens. The two finalists were James Braid, who was playing on his home ground of Walton Heath, and Edward Ray of Ganton, who has on many occasions shown his brilliance but has always been unfortunate in the end of the tournament. Once again his was the same luck as before. He was defeated by only one hole. For the first round the figures were: Braid, 37 and 38; Ray, 38 and 37. In the second and concluding round the Scotchman had 38 and 39, while his opponent had 41 and 44. At the turn of the second round Braid was six up, but Ray came away gamely and took the ex-champion to the final hole before he could claim the victory as his own. On the day preceding in the semi-final, Ray preceded him in beating the open champion, Harry Vardon.

Victor at Eighty-four.

J. Classey is in his eighty-fourth year. Yet he won the Phillips swim in the Serpentine Lake, Hyde Park, though he had but a start of 95 seconds. That surely is a record for any form of sport. The total age of the first swimmers in the race was 333 years, and we are told that when the winner emerged victor by a few inches, he ran home over the bridge like a youngster of sixteen.

The Carrying Game.

The rugby game is just opening in Scotland, and the big teams have light encounters on for the first day. Watsonians had an easy thing with the Greenock Wanderers, and the West of Scotland had the unusual experi-

Speaking of Pitchers, Old Cy Young is Daddy of 'Em All

"CY" YOUNG ON THE BALL FIELD AND ON HIS HOME FARM IN OHIO.

In the spring of 1902, Denton Teemush Young, then a pitcher for the Boston team of the American league, was sitting in front of a hotel in Cleveland, one evening. He had won from Cleveland that day.

A friend of Young's who had been talking with some of the other ball players turned to "Cy" and jokingly asked: "How long are you going to keep on pitching, anyway, Cy?"

"That was Young's thirteenth year as a pitcher in the major league. He had made a record for length of service which was then unequalled. "Cy" looked at his questioner from under the broad brim of his felt hat, pushed up his under lip defiantly and replied, in a sort of an off-hand manner: "Oh, I don't know. I guess I'll keep on pitching as long as I feel like it. Unless somebody gets out an injunction to stop me, I think I'm good for 10 years yet, anyway."

The questioner laughed, and slapped Young's shoulder. The other ball player smiled. They all enjoyed "Cy's" joke. He was then 25 years old, and it is not likely that a man who heard his remark thought Cy Young would be pitching major league ball more than three or four seasons more.

But when Cy Young finishes his present season he will have made good on his prediction. He will have pitched for 22 consecutive years. He has travelled over 300,000 miles, and has earned close to \$1,000,000 on the diamond.

No one imagines this record will ever be equalled in baseball. When the man who has made it finally does get through playing ball, which will probably be this year, he will retire to a big, well-kept farm at Peoli, Mo. He will live for the rest of his life on his home place, and will go into retirement in perfect physical health and without leaving an enemy among ball players, umpires or fans.

How has he done it? Let him tell it.

MARVELOUS RECORD OF CY YOUNG MADE.

Table with columns: Years, Won, Lost, Per Cent. Rows list years from 1890 to 1911 with corresponding statistics.

Grand average of pennant winners, 1900 to 1910 inclusive, 34.9.

(By Denton T. Young.)

How have I kept on pitching for 22 years? I haven't any great system. I just mind my own business, behave myself and refuse to worry.

Then I work hard. That counts for a lot. I always remember, when I am out in the lot, that I am working for some one who is paying me a salary, and it's up to me to earn it, and not to try to teach the umpires their business, or to do anything except pitch as good ball as I can.

Of course, I take good care of my arm. I don't care for a lot of heavy massage, but I always have a light massage with alcohol, after every game I work. I know just what I want, and I always get it.

Another thing to which I attribute my long stay in the box is that I do not pitch wide curve balls. Big curves put a strain on the arm that is bound to tell in a few years. I pitch short curves that put no sudden strain

on my arm. And I use a lot of straight balls, just inside or outside the plate, that need nothing but strength—no strain at all.

In the winter I don't lie around and get fat. I keep my muscles supple by chopping wood and doing other work on my farm. Then, it's no great task for me to get into pitching condition in the spring.

You want me to give some good advice to young ball players? Well, if a fellow's got good, common sense, and keeps his eyes open, he doesn't need much advice from me, or anybody else. But here are a few maxims that look good to me, from my own experience:

Be earnest. Cut out dissipation. Form regular habits. Keep in condition all the year round. Remember that your mind has got to be on your work if you are to succeed.

Never let the important fact escape you that you are in the game to play ball, not to help with umpiring. Let the umpires earn their salaries and you earn yours.

Bear in mind that you will probably live some years after you quit pitching ball, and save your money. Big Facts in Cy's Career. Born March 29, 1867. First baseball salary, \$50 a month for Red Cloud, Nev., 1887.

Pitching for Canton, O., against McKeesport, Pa., 1890, recorded his first no-hit game, striking out 18.

Bought from Canton by Cleveland, 1890, for \$250. Pitched first major league game for Cleveland against Chicago, Aug. 6, 1890, and won it.

Pitching for Boston Americans, May 1904, did not allow a player of the Philadelphia Athletics to reach first base.

Won his 500th victory pitching for Cleveland, against Washington, July 18, 1910.

Has pitched to date 811 major league games, winning 64 of them. The high spots in his career are his no-hit game—made to reach—first game against the Athletics in 1904 and his 204-inning duel with Waddell which the great left-hander won.

STAR LINEMEN OF YALE AND HARVARD ARE GOOD AT BOOTING THE PIGSKIN

SCULLY OF YALE, KICKING, AND FISHER, CAPTAIN OF HARVARD.

IS KID M'COY GOOD ENOUGH FOR THE SO-CALLED "HOPES"

There is no reason why Kid McCoy cannot hold his own with any of the present day white hopes," said James J. Corbett, "McCoy is only 33 years old, 7 years younger than myself, and casual observation shows that he is in magnificent health. McCoy never cared much for wild dissipation because he always was a fox, and though he used to stay up late in the bright light district, he took good care to have plenty of sleep. I saw McCoy the other day, and really, I was astonished. He has been training for more than six months according to his own ideas, and I don't believe there's a stronger man physically in the ring today.

"When McCoy boxed me in 1900 he weighed not more than 170 pounds, but he is 20 pounds heavier now, with out a bit of superfluous flesh. He's as hard as a rock, his frame is more powerful and he can hit harder than ever. Of course, training doesn't show a man's fighting ability like actual ring work, and while McCoy may look like the real article, he may prove a failure against a good heavyweight.

But in my opinion he ought to whip a lot of these white men who think they are fighters, but are really counterfeits."

Still Has The Punch.

McCoy has knocked out two antagonists in a couple of punches inside of a month. He dropped Bob Day, a Canadian, in Toronto, so quickly that the latter didn't have time to clinch. Day weighed 225 pounds and was "mentioned" as a possible opponent for Jack Johnson in Ireland before a big negro decided not to appear there. McCoy's quick defeat of Kid Elle, a Newark heavy, at Brown's gymnasium Friday night wasn't much of his wis; but McCoy clearly showed that he had the strength and the punch necessary to win glove contests.

He was in far better trim than when he boxed Jim Stewart at the National A. C. two years ago, for on that occasion McCoy was a mere shadow and

gave a pitiful exhibition. McCoy has trained faithfully and has adopted radical methods. He has cut out road work because, he says, that it only drags a man down and lessens his strength. He has built himself up by dieting and hard gymnastic exercises coupled with strenuous bag-punching and boxing. In discussing his attempt to come back, McCoy said the other day:

"I am not trying to come back all of a sudden, because that would be foolhardy. I've gradually conditioned myself so that I've got renewed strength and can hit. My weak point is inability to think as quickly as I used to and a failure to see openings in time to act. But I am plugging along steadily, and just as soon as I can fight, I'm going to surprise people. I am making a study of boxing all over again, and I know I can improve as I go along.

All I want is a chance to show what I can do. I've got the weight and the stamina, never fear, and I can recover much of the old speed. I'm not an old man and I never enjoyed such health. Just as soon as I think I'm ready I am going after such men as Barry, Ross and Flynn and I'll nail it made me envious, for I believe I could have whipped either of them that night."

Not Too Old Says Fitz.

Fitzsimmons, like Corbett, believes McCoy can still fight. The Cornishman is forty-nine years old and retired only two years ago, when he was stopped by Billy Lang in Australia. He was thirty-five when he knocked Corbett in Carson City, and thirty-seven when Jeffries put him away at Coney Island. A year later Fitz knocked out Ruhlen and Sharkey in New York inside of two weeks, and was in splendid trim. Two years after that, Jeff stopped him again in California. Fitz, therefore, insists that McCoy in his present condition, is not too old to scrap, and when he saw the Kid put Elle to sleep he was waxed enthusiastic. McCoy will receive another chance to prove his worth in the near future.

MOUNT ALLISON OUTPLAYED U.N.B. IN YESTERDAY'S GAME

Special to The Standard. Fredericton, Oct. 27.—Outplayed in every department of the game, except their ability to push in the scrimmage, U. N. B. lost the intercollegiate football league game of the season here today to Mount A., by score of 12 to 0.

The game was played in a drizzle of light snow and lacked all spectacular features of English Rugby when properly played under favorable conditions. Protracted and numerous delays caused by players being knocked out one after another held up the game every few minutes and made it a long drawn out and tiresome affair, it being almost dark when the game finally ended.

Mount A's victory was never doubted after the tussle had been playing five minutes. While the U. N. B. forwards had it on their opponents in the ball, they fumbled time and time in tight places and under ordinary easy conditions. The Mount A. quarters on the other hand fed their halves well and were able to get around the scrimmage for good gains.

The Mount A. halves played a heady game, but conditions were not right for them to show much speed. Barker did some beautiful kicking for the Mount A. team while McGillibon was the best kicker in the U. N. B. back division and did some effective work.

The best player on the field was Buckley, the Mount Allison captain, who played a beautiful game and scintillated at all times, almost toying with U. N. B.'s two freshmen quarters, who were unassisted and

worked under trying conditions. He scored the first try in the second half on a run around a scrimmage on U. N. B.'s five yard line, and scored the second try in the second half for Mt. A., getting his last try after a 75 yard run. Woodman scored the first try of the game, getting the ball over the U. N. B.'s line seven minutes after play started.

E. McKay Forbes, of Dalhousie University, acted as referee, and was not very strict. U. N. B. were disappointed in his work and claimed that Mt. A. were not entitled to the first try in the first half and the last try in the second half to teach the umpires their business, or to do anything except pitch as good ball as I can.

The teams lined up as follows: U. N. B. Fullback, Mt. A. Barry. Halves, Barker, Balkam, Murray, Godfrey, McGillibon, Gram, Willis. Quarters, Milford, McFalden, Dickenson, Malman. (Capt.) Buckley. Forwards, Thompson, Dixon (Capt.), Toombs, Parker, Durant, Patterson, Woodman, Dugany, Jewett, Mercer, Melrose.

O'Halloran. U. N. B. substitute forwards—Vavason, Parker, Latves, Murphy and Askew; fullback, Laughlin. Mt. Allison substitutes, McAllister and Windsor. The Mt. Allison team are being entertained at a reception at U. N. B. this evening and will leave tomorrow morning for Charlottetown to play the Abegweits, champions of Prince Edward Island. They are accompanied on the trip by a large band of rooters.

TWO GAMES OF FOOTBALL HERE TODAY

Owing to the Provincial Normal School plinkin chasers being unable to come here today, the double header in football this afternoon will be slightly changed as the All Star Carleton team will take their place. The Moncton Harrier game will take place as advertised.

On receiving the telegram from the P. N. S., last evening the management of the Harriers determined that the public would not be disappointed in their desire to see good football and at once got into communication with the Carleton boys, with the result that the people who will attend the games this afternoon will see as fast football as if the Provincial Normal School boys had kept their contract. The Carleton-High School game will start at 2:30 and the senior game at 3:30.

The Harriers and the High School have had a strenuous week of practice and that victory will perch on their banners is assumed. The Harriers will play in Moncton Thanksgiving Day. The rooters list is now open at the Y. M. C. A.

Philadelphia, Oct. 27.—The official batting and fielding average of the Athletic and New York players in the world's series, compiled by Francis C. Richter of this city and J. G. Taylor Spink of St. Louis, the official scorers, appointed by the National Commission, were made public last night.

For the world's champions, Baker leads at the bat with an average on the six games of .375. Barry is second with .268, and Murphy third, with a percentage of .204. The team batting average for the championship is .249. Lord and Davis are the only Philadelphia players who took part in the six games, who have a fielding average of 1.000.

BAKER BEST CLOUTER IN THE SERIES

Philadelphia, Oct. 27.—The official batting and fielding average of the Athletic and New York players in the world's series, compiled by Francis C. Richter of this city and J. G. Taylor Spink of St. Louis, the official scorers, appointed by the National Commission, were made public last night.

For the world's champions, Baker leads at the bat with an average on the six games of .375. Barry is second with .268, and Murphy third, with a percentage of .204. The team batting average for the championship is .249.

Lord and Davis are the only Philadelphia players who took part in the six games, who have a fielding average of 1.000.

Crandall leads the Giants at the bat with an average of .500, but he only took part in three games. Of the players who took part in the six games, Capt. Doyle leads with a percentage of .264. Meyer is second with .200, and Herzog third with .190. Mathewson has an average of .286, but he was in but three games. The team batting average is .375.

Snodgrass and Meyers each have a fielding average of 1.000 in the six games. Murray made the poorest showing of any of the Giants. He did not make a hit during the series, and his fielding is rated at .825. The Athletics excelled in every department of the game, except base-stealing, and they tied with their opponents at four in that branch.

ST. MICHAEL'S BOWLERS WIN FROM C.M.B.A.

On the St. Peter's Y. M. A. alleys last evening the St. Michael's bowling team defeated the Knights of Columbus by three points to one. The score:

# ANOTHER POTATO CORNER BUSTED WIDE OPEN BY MAYOR WITH NERVE TO BUY SPUDS AND SELL 'EM TO PEOPLE AT FAIR PRICES

### Market Breaks from 60 Cents a Peck to 65 Cents a Bushel in Des Moines, When Chief Executive Gets Busy.

Des Moines, Ia., Oct. 25.—When Mayor James Hanna opened the city market place four months ago, potatoes sold at 60 cents a bushel. Today patrons of the market bought all they wanted of the best quality at 60 cents a bushel.

The potato "trust" is broken. Mayor Hanna broke it. One carload of potatoes which he shipped into Des Moines and sold at 60 cents a bushel brought prices tumbling. Now the growers themselves are advertising potatoes at 65 and 75 cents. At the city market a half dozen men are offering spuds for 60 cents.

One week ago grocers and bucksters who controlled the potato market held firm on a price of \$2.20. Through four months of the market potato prices had been hammered down from \$2.40 a bushel to that figure. No further it didn't seem they would go.

Then Mayor Hanna sent Edward Lytton, his secretary, on a trip through Iowa potato districts to find out what the farmers were getting.

Lytton found that within thirty miles of Des Moines farmers were selling potatoes for 40 and 45 cents. The commission men were snapping up the tubers, shipping them to Des Moines and reselling at 100 per cent profit.

Mayor Hanna heard Lytton's report and got busy. He contracted for a car of potatoes to be shipped from Durant, for the lowest cost possible, and were of the best quality. Estimating freight charges, shrinkage and cost of handling at 100 per cent, Mayor Hanna decided on a price of 65

The roar of the commission men was long and loud. They accused the mayor of wasting the city's funds to further his own ambitions. The mayor showed he had not used a cent and declared he was going to keep right on selling cheap potatoes until the market was broken.

Today the market is broken. Two cars of potatoes were brought to Des Moines by individuals and sold on the market place at 65 cents. The commission men have begun to cut prices and potatoes promise to drop to 50 cents.

## TRIED EVERYTHING WITHOUT RELIEF

### Until I Tried "Fruit-a-lives"

Sarnia, Feb. 5th, 1910.

"I have been a sufferer for the past 25 years with constipation. Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever. Finally read an advertisement of 'Fruit-a-lives.' I decided to try 'Fruit-a-lives' a trial and found they did exactly what was claimed for them.

I have now taken 'Fruit-a-lives' for some months and find that they are the only remedy that does me good. I have recommended 'Fruit-a-lives' to a great many of my friends and I cannot praise these fruit tablets too highly."

PAUL J. JONES.

"Fruit-a-lives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tones. Hundreds of people have been cured, as if by a miracle, by taking 'Fruit-a-lives,' the famous fruit medicine.

### ROGERS BROS.

This brand, known as "Silver Plated Ware" is the best in quality and has been first for over 60 years. Made in the heaviest grade of plate.

## CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's Vegetable Compound.

Granville, Vt.—"I was passing through the Change of Life and suffering from nervousness and other annoying symptoms, and I was advised to take Lydia E. Pinkham's Vegetable Compound. It has done for me what no other medicine has done. I never felt so well in my life. I never felt so strong. I never felt so happy. I never felt so healthy. I never felt so young. I never felt so beautiful. I never felt so good. I never felt so well. I never felt so strong. I never felt so happy. I never felt so healthy. I never felt so young. I never felt so beautiful. I never felt so good."

## Woman Owns and Operates a Chain of

A Chicago woman, accustomed to years of leisure that wealth makes possible, has slipped into emergency opening and proven her ability to handle big business interests. Mrs. Caroline Kohl the business woman known as the widow of Charles E. Kohl, by many considered one of the greatest theatrical managers of recent years.

In August last Mrs. Kohl purchased the head of Chicago theatricals and became the leading woman theatrical manager in the country, which no doubt means the world.

When Mr. Kohl died a year ago his legacy to his family included an interest in five Chicago theatres. He had realized his greatest ambition—the establishment of a theatre house which for smartness and style and up-to-date equipment might be the equal of any legitimate theatre in the country. This was his reason for building the Majestic.

## WOMEN'S AILMENTS CAUSED BY NEGLECT

### Are Quickly Cured and Robust, Sound Health Restored by Dr. Hamilton's Pills.

Women are on the whole more sickly than men. One reason is that their system is more complicated; another is that they are more neglected. The practical fellow with ideas. An hour later the last 500 bushels had been sold and hundreds of people who had been unable to get within approaching distance of the wagon were disappointed.

## A BUSH-RANGER IN POLITICS

Forty years ago and more, when northern Ontario was little more than an uninhabited wilderness, a lad was entrusted with an important mission in the public schools of that province in midwinter through wild, unsettled country. For two days and nights he trudged through a terrible running fight with timber wolves, his only rest in the boughs of trees, with a gun in his hand. On the morning of the third day, sleepless but indomitable, he reached the post and delivered his message.

Frank Cochrane was born in Quebec, in a little village named Clarenceville, 59 years ago, and got his education in the public schools of that province through a Methodist. For a time he worked as clerk in a hardware store at Pembroke, but early in life he went to Sudbury when Sudbury wasn't much to look at. There he made his headquarters, but he lived most of the time in the open, and developed muscle, acquired that clear grey-blue eye, and learned that habit of carrying his head up when he walks.

A man either is or isn't. In that great north country of pioneers and trail-breakers, there is no middle ground. From sunrise to sunset he was soon got things so that others were winging it for him and in a comparatively short time he had become a thoroughly competent bush-ranger. Then he reverted again to the hardware idea, and established his store at Sudbury. Here his business rapidly developed, and soon there wasn't anything you could possibly want in a lumber or mining camp which could not be procured at his store. Then the store was the best, too.

Some years ago a man swung himself to the platform as a "rising star" in Ontario in the recent election, when they took 72 out of 85 seats.

## LETTER FROM BOSTON GIRL

Boston, Oct. 20.—Boston may be slow, but at least the school board shows signs of waking up to national opportunities. The system of school savings banks recently opened by the state bank commissioner and outlined in chapter 28 of the Revised Laws of 1911, will soon be in use in many of the city schools. The board has passed an order permitting principals to establish these savings systems or to recommend to the public that they patronize the postal savings banks recently opened by the government. It is ordered, also, that any systems other than these which may have previously been inaugurated at the schools shall be discontinued. Thus it is assured that the next generation will be trained and encouraged in the habit of saving, and this under competent and safe-guarded methods—a branch of education which the parents and grandparents too often were sadly deficient in. Massachusetts has long done many things for encouragement of thrift, yet much more unquestionable needs to be done.

The glooms retreated in high dudgeon and the joys dispersed themselves in mad hilarity when the related returns from California brought the news that instead of being beaten by some thousands of votes, the suffragists had won out by a good margin. A jollification jubilee took place, with the assistance of a large band of music. The girls' eyes looked about her in a bewildered manner, then she turned to her state of affairs. The result is as you would expect. The suffragists were victorious and the boys were defeated. The girls' eyes looked about her in a bewildered manner, then she turned to her state of affairs. The result is as you would expect. The suffragists were victorious and the boys were defeated.

## Every Woman

is interested in what she can do for her health. The most important thing she can do is to keep her system pure and healthy. This is done by taking Dr. Hamilton's Pills. These pills are made of natural ingredients and are gentle on the stomach. They are the best medicine for women's ailments.

MRS. BLANCHE WAYNE.

The police in central and Western cities have been notified to keep strict watch for a criminal who is said to be responsible for at least fourteen murders, extending from Colorado Springs to Monmouth, Ill. He is variously described as "Jack the Axeman" and the "Loving Maniac." Five murders ascribed to the maniac occurred in Colorado Springs on September 17. The victims were Mrs. A. J. Burnham and two children and J. C. Wayne, his wife and child.

### Woman Owns and Manages a Chain of American Theatres

A Chicago woman, accustomed to years of leisure that wealth makes possible, has slipped into emergency's opening and proven her ability to handle big business interests. Mrs. Caroline Kohl, the business world knows her, widow of Charles E. Kohl, by many considered one of the greatest theatrical managers of recent years.

In August last Mrs. Kohl purchased the buildings of George Middleton and George Castle, her husband's partners. She placed the name of Kohl at the head of Chicago theatres—the establishment of a vaudeville house which for smartness and style and up-to-date equipment might be the equal of any legitimate house in the country. That was his reason for building the Majestic.

But there were two other ambitions in this theatrical man's life. One was the desire to lift the vaudeville act to a plane of refinement where the old-time stur of disrespect might be taken from the name. This ambition he saw well on toward its goal. The third ambition was the full ownership of the five theatres in which he had an interest, that the name of Kohl might be kept at the head of Chicago theatres. It was the last ambition that killed him before it was realized for the constant work at his desk had so drained his system of vitality that he was unable to resist an attack of pneumonia.

Mr. and Mrs. Kohl were great pals. When the day's work was done it was to Mrs. Kohl that he turned to talk over all that had transpired. Her ideas on his various projects were heeded and while she took no public part in the family business she was the silent partner, the direct force in his life. When he died she knew all his hopes and desires. These she shared and in his death memory and sentiment added their impetus to her efforts in the completion of the work which he had laid down.

In Mrs. Kohl's business relations the word manager is used advisedly. She is a retiring, modest, almost timid woman, where publicity is concerned. No thing is as far from her desires as appearing before the public in any capacity. She is a devoted mother to her two boys and two girls, now grown.

Her son, Charles E. Kohl, Jr., has stepped into his father's place as the active head of the family's theatrical interests. But the big plans of the concern to be talked over with his mother before real action is taken.

MRS. CHARLES E. KOHL, FROM A PHOTOGRAPH IN FANCY COSTUME TAKEN AT A CHARITY BAZAAR.

The management of the chain of theatres, too, Mrs. Kohl has a chain of managers, but each one looks to her as his leader and respects her opinions. Mrs. Kohl does not come from a theatrical family, although her sister, the present Mrs. Cheney, of Boston, is to be remembered by the theatregoers of a decade ago as the beautiful Julia Arthur.

# THERE IS A MINT OF MONEY IN WATROUS

More money can be made in one day by a wise investment in Real Estate than the Canadian Mint can make in a month. The mint turns out money in Nickels, Dimes and Quarters. A good Real Estate investment turns it out by hundreds of dollars.

**YOU MAKE NO MISTAKE BY BUYING LOTS IN WATROUS**  
You follow the example of hundreds of the wisest and richest investors. Are you wise? Then Reason must appeal to you. Reason tells you that by saving you are only doing what others can do. To get ahead of the game you must do something more than others are doing. That's how the wise investors succeed. That's how they pass others by in the race for riches. They are not satisfied with saving—they invest.

- ### HERE ARE THE REASONS FOR INVESTING IN WATROUS
1. Watrous is the Central Prairie Divisional Point on the Grand Trunk Pacific Railway.
  2. Watrous is only three years old and now has a population of almost 2,000. It is therefore a young town, well established, and has a great future before it.
  3. Watrous has unique natural advantages, being only three miles from the world-famous little Manitow Lake, the water of which has magic mineral and curative properties.
  4. Watrous is the centre of a great farming district.
  5. Watrous is the distributing point for a great commercial area in Central Saskatchewan.
  6. Watrous is one of the most progressive and public-spirited towns in Canada, having its own electric light system, and electric car line to the lake has been voted on and bylaw passed.
  7. Prices are now low and this is the time to buy.
  8. Our property is entirely within the town limits and on the direct line between the station and the lake in the direction in which the town is growing.

All regular lots are 30x120 to 20 ft. lane, and are guaranteed exceptionally high, dry and level. The prices range from

**\$40, \$50, \$60, \$75 and \$100 each with \$25 extra for corners**

Except when purchaser takes four lots, with no extra charge is made for corner. The terms are ONE-FIFTH CASH, balance in 20 monthly instalments, with interest at 6 per cent, or we will allow 10 per cent discount for all cash. NO TAXES TILL 1912.

### HOW MANY LOTS DO YOU WANT?

### Your Eyes and How to Care for Them---Another Beauty Talk

Beauty is the right of every woman. Mrs. Anita Norris is an authority on beauty and she is anxious to help you. She will gladly reply to any questions you may put to her. Address your letter care of The Standard and accompany it with a stamped envelope. There is no charge for consulting this department and communications are regarded as strictly confidential.

Do not be disappointed if the answer doesn't come by first mail. Mrs. Norris' mail is often very heavy and it may take a week or more to reach your letter.

(By Mrs. Anita Norris.)  
It will please you to know that your eyes can become bright and clear if they are cared for properly. I know of girls who have taken such intelligent care of their eyes that from being the reverse of beautiful, they have gradually become as pretty as woman's heart could wish.

If you are willing to begin codding your eyes, maids and matrons all, I will divulge various eye secrets that will show you what you can do toward making your eyes beautiful.

**Eye Don'ts.**  
Don't cry, because it is only one woman out of ten who can have a good weep and look presentable afterward.  
Don't blink your eyes too much, as this causes them to become red and watery. Ten blinks to the minute is the normal allowance. Many and many a woman blinks her eyes a hundred times in sixty seconds.  
Don't sew or read or write facing light.  
Don't cover your pretty face with dotted veiling, as the eyes are strained in their endeavor to avoid the thickly scattered spots.  
Don't forget to rest the eyes.  
Don't rock and read at the same time.

Have you ever given your eyes a bath? If not, then you have a great pleasure in store. You should treat your eyes to a bath every morning and evening of their lives as they require cleansing as much as the face.

Before you can bathe the eyes, however, it is necessary for you to purchase an eye cup, which is a dainty glass receptacle, costing but a few cents.

Once you have this piece of beauty furniture, fill it half or three-quarters full with a three per cent. solution of borax acid. The head is now lowered and the cup is fitted securely into the socket of the eye. Holding it firmly in position the beauty patient tosses back her head and winks her eye in the borax solution until it feels decidedly refreshed. The head is now lowered and the tiny cup removed.

The same treatment is then given to the other eye. Starlike orbs follow in the train of this simple beauty treatment.

Hot, weary eyes frequently fall to the lot of woman, so you would do well to be interested in hearing how the sparkling belles in Russia cure their beauty defect.

Filling up a china bowl with fragrant green tea, they hold a folded strip of cotton cloth in the steaming liquid until it is thoroughly saturated. Wringing it out with their dainty hands, they place the compress over the eyes, holding to the ends. For ten minutes they press their tea-soaked bandage in place, being extremely careful to keep the eyelids tightly closed, because a tea eyeball bath would be anything but pleasant.

When the ten minutes have elapsed, the bandage is removed and the closed eyelids gently smoothed with satiny fingers.

After three or four of these treatments the eyes lose their weak, irritated appearance.

### WEDDINGS

**Wiswell-MacAlpine.**  
A very pretty wedding which aroused much local interest took place at the residence of Mr. and Mrs. Frank E. MacAlpine, Upper Hampton, N. B., at 9 a. m. on October 26th, when Miss Ella Beatrice MacAlpine was united in marriage to Mr. James T. Wiswell, of Boston. The nuptial knot was tied by the Rev. G. G. Pincombe, pastor at Jensen, in the presence of about sixty guests. The house had been handsomely decorated for the occasion. As the bridal party entered, the wedding march was played by Miss Pearl MacAlpine. The bride was becomingly attired in a gown of white netting on a foundation of silk, and carried a shower bouquet of flowers. Mr. Leslie was acted as best man, and Mrs. F. E. MacAlpine, as matron of honor. Immediately after the ceremony, the bridal party and also the guests were photographed, and then partook of a sumptuous wedding breakfast, during which toasts to the newly married pair, and also the best wishes, were proposed in felicitous terms by the Rev. G. G. Pincombe, and duly responded to. The presents, also many cheques from a distance, were numerous, valuable and useful, included a set of mink furs, from the bridegroom, the bride, and also Mrs. C. E. Belyea, Mrs. Hilton Belyea, Mrs. Belyea, and Miss Elele, and Roy Belyea, of St. John; Mr. and Mrs. S. L. Peters, of Peteraville, and Mr. and Mrs. A. L. Ginter, of White's Cove. The happy pair were escorted to the S. E. Express by the guests and heartily cheered as they left for St. John, en route to their home in Boston. The bride travelling in a costume of blue broadcloth edged with white silk cord, with hat to match.

**Hannigan-Shannon.**  
The marriage of James M. Hannigan and Miss Annie M. Shannon was celebrated with nuptial mass at St. Stephen's church in Milltown, N. B., on Wednesday, Rev. William P. Hannigan, brother of the groom, being the officiating priest. The ceremony was witnessed by a large assemblage of friends of the bride and groom. Mr. and Mrs. Hannigan left on the C. P. R. morning express for a wedding trip which will include visits in Fredericton and other cities. A host of friends on both sides of the line extend congratulations to the happy couple who are well known and highly esteemed. The bride was the recipient of many useful and valuable wedding gifts.

**Hornbrook-Thompson.**  
At the rectory, Sussex, on Wednesday, Oct. 25, George E. Hornbrook of Middleton, and Miss Lucy A., eldest daughter of Wm. Thompson, Keltstead Mountain, were united in marriage by Rev. Scovil Sealas. The bride was attired in a travelling suit of blue broadcloth with hat to match. The couple were attended, many beautiful and costly gifts were received. The groom's gift to the bride was a gold watch and chain. Mr. and Mrs. Hornbrook will reside in Mt. Middleton.

**CODY'S NEWS.**  
Cody's, N. B., Oct. 25.—The farmers of this place have mostly all finished gathering in their crops and all report a fairly good harvest.

### WEDDINGS

Mr. and Mrs. Underwood, and family, of Boston, have purchased a residence at Cody's and intend making this their future home.

Mrs. G. A. Gamblin left on Monday for Campbellton, where she intends spending a few weeks with her daughter, Mrs. Vallis.

Mr. and Mrs. J. W. Patterson, who have been spending a few weeks with Mrs. J. E. Keys, have moved to Belyea's Cove, where Mr. Patterson has purchased a saw mill.

Miss Ethel Barnard of Salmadale, the guest of her sister, Mrs. Charles Cody.

Mrs. J. L. Starkey spent last week in St. John.

The many friends of Fred Leonard are glad to know that he is steadily recovering from his recent illness.

A new cement pier is being built under the Washademoak Railway bridge.

Mrs. Andrew Richardson intends spending Thanksgiving with her mother in St. John.

Mrs. Warren Cody and Miss George V. Cody, spent Sunday at Chipman, the guests of Mr. and Mrs. W. D. Cody.

Mrs. Fritz Severson is receiving congratulations on the arrival of a son.

Miss Pansy Chamberlain of this place, is slowly recovering from her recent illness.

**BOWLING FOR A TURKEY.**  
There promises to be some lively rolling on the Victoria Alleys today and this evening when the person who rolls the highest string, will receive a prize of a large Thanksgiving turkey.

### PROMINENT RAILROAD MAN

**STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS.**

"I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder, but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did, with the result that the pains I did entirely.

**PILLS FOR THE KIDNEYS.** Buffalo, N. Y. 50c. a box, 6 for \$2.50. Sample free. Write National Drug and Chemical Co. of Canada, Limited, Dept. R. S., Toronto.

If you suffer with Constipation or need a gentle laxative, take NATIONAL LAZY LAYER PILLS. 50c. a box.

Suburban Train for Thanksgiving Day  
On Monday, October 29th the C. P. R. will run special suburban train St. John to Lingley and return, making all suburban stops. Train will leave St. John at 9:20 a. m. and on the return will leave Lingley at 7:30 p. m. Single fare for the round trip.

### How Day Ladies Cure Their Corn-pinned Toes

Miss M. Luker, of Zena Ave., Dayton, Ohio, writes:—"Before using Putnam's Painless Corn Extractor, I was quite laid up with corns, and could not even stand with pleasure could not even stand the pressure of a loosely buttoned shoe. I applied Putnam's Extractor, and in a miraculous short time I was completely cured. I take great pleasure in recommending your valuable remedy to my friends." Putnam's Corn Extractor is 25c. bottles, sold by all druggists.

Putnam's Painless Corn Extractor is a miraculous remedy for corns, calluses, and other foot ailments. It is applied directly to the affected area and provides instant relief. The product is available in 25-cent bottles at all druggists.

# PURSUIT OF A MOVING PICTURE JOB

## Experience of An Art Student Who Heard of An Easy Way to Earn \$5 a Day.

A girl art student was riding in a Broadway car when she overheard a plump woman who sat beside her say enthusiastically:

"It's \$5 a day, and all you have to do is run. If I were out of work I'd try it myself."

"Five dollars a day for almost any kind of not doing work sounded good to the art student just then. She did not have to listen hard to catch most of the information which the plump woman proceeded to pour forth to the young woman who sat on her other side and the consequence was that in a few minutes she had determined to act for moving pictures for one month and earn \$120 before the autumn course began.

Two blocks before she reached her corner she screwed up courage to ask the plump woman where such work might be obtained.

"I couldn't help overhearing a part of what you've been saying," she explained, "and \$5 a day for this next month would mean so much toward my studies."

The plump woman was cordial to the point of enthusiasm.

"Your studies? Oh, you're an art student. I love to hear of girls who are striving for the great things of life being willing to turn an honest penny any way they can. Now this piece of high mightiness, indicating her friend, "thinks it's beneath her to earn \$5 a day in a way that's as easy as rolling off a log; she'd rather starve. And I went to the trouble of procuring these addresses for her. You're welcome to copy them if you want to."

The art student did so, thanked the plump woman warmly, and alighted seven blocks beyond her stopping place, filled with hope and determination.

"Why not?" she said in response to her chum's horrified exclamation that evening.

"Think of having your picture shown in cheap theatres all over the city," raved the chum.

"You don't suppose I would be recognizable?" she retorted. "At college I was noted for my make-up; my own mother couldn't have recognized me in some of the comic ones. And of course I shall ask for character work."

The next morning, selecting the address nearest to her, the art student made her way there. In the outside office a clerk inscribed her name and address in a large book.

"Experience?" he inquired.

"I have never acted for moving pictures before."

"I mean your theatrical experience," he returned patiently, pen still poised.

"I am an art student, not an actress," she began.

The clerk promptly drew a line through her name and put down his pen.

"We use none but professionals," he said in a tone of finality.

"But I have acted in college theatricals, always in important parts," she protested.

The clerk smiled and turned back through the pages of the book, so that she could see that they were filled with names, addresses and descriptions.

"So many dozens of professionals out of work register with us that it would scarcely pay us to try amateurs," he said.

The art student was not to be discouraged by one setback.

"All companies cannot be so particular," she argued to herself, "or the plump woman would have known."

One of the addresses on her list was so far from the centre of things that she had to consult both guide book and map to locate it. It was not likely they could get real actors away from there, she thought hopefully, and that afternoon she boarded an elevated train for the long trip.

The girl in the office told her that the manager was out on a run, and invited her to wait in his return, so she went into the hall and took a seat beside a smartly dressed young woman with light hair worn in an elaborate chignon, who was also waiting. The latter at once entered into a friendly conversation and the art student learned with interest that this elegant creature was on the same errand as herself, to ask for work at \$5 a day.

"You don't look a bit like an actress," the light haired one remarked, as she glanced at the student's modest attire.

"Not. Do they require professional dress away out here?" the art student asked in despairing tones.

The other regarded her with amazement, and explained that this was one of the most important concerns of the kind in the city, that the studio was located far out because it had a great deal of outside work, and the country around afforded appropriate scenery.

"I might as well go home at once for I'm only an art student without a scrap of experience," said the girl, starting to rise.

"Oh, don't give up so easily; face some experience," laughed the fair haired woman. "Say you have been with Williams and Kelly of Chicago; they keep a number of stock companies travelling in the middle West. And say you took such arts as—"

"I'll tell you what. Let me talk for you this time, and I'll show you how to sling it off."

The art student expressed her gratitude and the actress offered her information that she had been with Williams and Kelly herself, that this was her first trip east, that she was going to work for the pictures while securing her first Broadway booking, and that she had put on her glad rags for the interview, as moving picture actors had to supply their own costumes, and it went far with a manager if a woman looked as though she possessed a lot of pretty clothes.

"The heart of the art student sank. Nothing in her wardrobe could describe the title of glad rags when compared with the smart attire of her companion. When the manager arrived she sat silent while the actress talked, generously introducing her as a friend and giving an account of her histrionic abilities that made the art student nervous.

"And she has a lot of glad rags at home though she's not sensible to them on elevated trains," the actress added.

The manager glanced at the art student and nodded assent.

"Come tomorrow morning at 8.30 o'clock sharp," he said, "and wear the bluestidest rags you have."

Then he looked regretfully at the smart appearing little actress.

"It's a big lawn party scene we have on; you'll be splendidly if you were only dark," he remarked.

"Would one more blonde spoil your picture?" she asked.

"One more? Oh, my dear lady, we never use a blonde. I'm sorry you did not understand that. Blonde don't photograph well enough for our work. I'm afraid you will be able to get employment in this line anywhere."

The actress learned an important point in moving picture work which her friends had failed to mention, and the art student found her self accepted, while the woman who had seemed to outshine her was discarded as hopeless.

That evening she and her chum worked feverishly trying to fashion something resembling glad rags out of the best of their joint wardrobes afforded, and she was rather proud of her appearance when she reached the studio the next morning carrying her makeup materials in a silver chateaufort bag. A large auto coach stood before the door and the manager called to her from a window to climb right in. The coach was already half filled with passengers—all of them dark, she noted—who greeted her cordially. Other dark haired men and women in gala array arrived and a little before the appointed hour the coach rolled away with the manager in the front seat.

On the lawn of an old fashioned estate which the firm had hired for the day the art student found herself forming one of the ensemble of a lawn fete scene.

"Remember to keep talking," the manager called to them, "and when you shake hands with a friend say something appropriate. Don't say, 'I'm tired to death; I wonder if we'll have to rehearse all morning.' What you say shows in the pictures more than you might imagine."

The art student marvelled at the ease with which the actors invented light talk among themselves and repeated trivials with renewed sprightliness as the rehearsal was repeated time and again. Finally the scene was acted twice over while the films were exposed, and before noon the coach was rolling back to the studio where each received a full day's pay for the morning's work.

"If you have anything which resembles today's finery but which will stand a bit of rough usage wear it tomorrow," the manager said. "The lawn party gets into a chase and, I believe, splashes through a stream."

The art student went home excited, "What was your makeup?" asked her chum.

The art student stood aghast.

"I forgot all about it," she confessed. "Why, none of them were made up," she added as she thought the matter over.

"Perhaps they consider it an honor to have their pictures shown all over the city," her chum remarked, "but if I were you I'd disguise myself a bit for that chase tomorrow."

The art student kept the matter in mind. When she met one of the other women on the elevated train the next morning she spoke to her about it at once.

"Make up? Where did you ever make up for picture work?" exclaimed the other.

"I have never done this work before," the student began.

"I guess you haven't, if you talk of making up," returned the other. "Why child, just consider how hard the lines of the face take in any photograph, and these moving pictures are magnified 500 times when thrown up on the screen. Any makeup on the face would stand out in lumps and patches. It couldn't be put on skillfully enough to hide it."

"But how do they get their character parts?" asked the student.

"By using persons that look the parts; an old man for picture work must be a real old man, a fat woman a real fat woman. Oh, there are lots to choose from." She added with a sigh.

Evidently one must pocket one's pride if one would pocket \$5 a day. The art student did so. That morning she ran madly down a quiet country road, climbed over a stone wall

might as well run around every morning early," she added. "There's always a chance that they will have a big scene on and be able to use you."

The art student lingered with the subtleties to watch the rehearsal, and learned that this firm devoted itself principally to reproducing scenes from popular musical comedies and spectacular plays, and provided all its own costumes. For the first time she saw the ghastly green light in which moving pictures are taken and she realized what the manager of the stock company meant when he spoke of the difficulty of rising to emotional heights on the moving picture stage.

"Nothing today. Come tomorrow, early," the manager said in the same cordial tone when she appeared the next morning at 8.30.

After she had heard it every morning for a week she grew to expect nothing else. It was a shock to her when one day the manager eyed her critically as though he saw her for the first time, and said he would give her a trial. His tone suggested something important, and for the next half hour she had seen visions of herself in some emotional role winning approval by her newly acquired wealth and facial expression. The dream increased in realism while she donned an old time garb in the women's dressing room.

In the end she found herself one of a street mob in a scene of the French Revolution, and after hours of careful drilling she ran and shouted, part of a throng made ghastly by the green light.

In the meantime she had phoned regularly to the studio where she was first employed, and had travelled as far as Brooklyn to visit other studios. She had watched performances on seven occasions where the scenery was painted in black and white and acquired a speaking acquaintance with many of the women who sought to "fit in" pictures.

"It's about the same as getting or the real stage," one of them told her. "If your type strikes the manager stage where your voice needs for a certain part and you make good in it you'll become one of his standbys and when you have made a hit in one set of pictures other managers will want to engage you. But until such a good time comes you have to be content with a little extra work you can pick up."

By the end of the month, when the art class was about to open, the student had earned \$29 as a return for all her exertions.

"And there were my carfares," she counted up, "and I spoiled one pair of shoes practising that wretched facial expression," her chum added.

The art student went to the mirror and made a critical survey.

"I suppose it will take at least the remainder of the \$20 to purchase enough cold cream and massage to take them out, she sighed finally. "But what I should like to know is where did that plump woman get her information?"

might as well run around every morning early," she added. "There's always a chance that they will have a big scene on and be able to use you."

# WINTER ECZEMA CURED BY ZAM-BUK.

Mrs. P. W. Drummond, of Theford Mines, Que., writes: "Every fall, as soon as cold weather set in, my little daughter's face and hands would be covered with rough watery patches which bore long turned into scabby sores. These would itch and smart terribly, and would remain on her face from fall until spring. This happened for three years, and we could get nothing which did her any good, until a short time ago I started using Zam-Buk, and now, after using half a box of same the sores have entirely disappeared, leaving her skin as smooth and clear as it could possibly be."

Zam-Buk is also a sure cure for rickets, abscesses, ringworm, blood-poison, scalp sores, chapped hands, cold sores, and all skin diseases and injuries. 50c. a box, all stores.

and splashed through a stream with the rest of the company while the photographer, his machine mounted upon an auto, kept abreast of them and immortalized the event.

"What shall we wear tomorrow?" she asked as, dishevelled but happy she accepted another \$5 bill.

"There won't be any more group work this week," the manager replied. "We have only indoor scenes for two or three persons on. But phone on Saturday and we'll let you know about next week."

She rode home with some of the other women and heard a great deal about the uncertainty of extra work. In the first office at which the girl applied the next morning a tall handsome woman was protesting almost tearfully to a mild mannered man who looked more like an artist than a manager.

"I have always been considered a very fine emotional actress," she said.

"But my dear madam can't you see?" he replied. "That was on the green light. Just wear the right colors and music all help out with the effect. It is quite another thing to supply their own costumes. You have not even the help of a sympathetic audience but must act in an utterly unresponsive machine."

When she had gone he turned to the girl with a weary smile.

"Just as though we were not searching everywhere for a fine emotional actress" he said. "Have you ever taken strong emotional parts? To that extent and the manager showed his disappointment at her reply.

"Character work? Oh, the market is overrun in that line. Every vaudeville actor out of a job wants to do a funny stunt. The great demand is for good emotional actors, and you can make their faces express anything and everything in the gamut of human joy and tragedy. Now the woman that should rely on her great deal on her voice in producing effects on the stage, so she failed utterly with us."

The manager explained that this was a stock company and there was no vacancy except for a leading lady with the expressive face.

"Last month the woman who has been taking our strong parts for two years married," he said. "There's \$85 a week for one who can fill her place."

Eighty-five dollars a week! The art student decided to devote her evening to practising facial expression before her mirror.

That afternoon she walked a long distance to reach the studio, where the door she met one of the women of the garden party, and was led by her past the clerks in the office, through a little gate and up broad stairs at the rear of the building. In a room on one floor they beheld a group of women singing in a phonograph, making records and one flight further up they came to the door of a large bare hall with a stage at one end. The scenery, represented a woodland, was all in black and white, and a dozen black haired girls in fancy costumes were dancing and singing to the strains of another phonograph.

"A song and dance act," groaned the actress. "Nothing doing for us, apparently."

She led the way past the group of girls of the soubrette type who stood in the hall to a little office. "Come tomorrow, early," the manager said pleasantly, before she could speak.

"Me too?" laughed the student.

"Sure," he replied gleefully. "Eighty-three sharp."

"That's work for tomorrow, anyhow," the student said happily as they turned away.

"You're innocent, dearie," replied her companion, "I heard that yesterday, and this morning he even told me to come this afternoon. But if you have nothing else to do you

might as well run around every morning early," she added. "There's always a chance that they will have a big scene on and be able to use you."

"I suppose it will take at least the remainder of the \$20 to purchase enough cold cream and massage to take them out, she sighed finally. "But what I should like to know is where did that plump woman get her information?"

might as well run around every morning early," she added. "There's always a chance that they will have a big scene on and be able to use you."

The art student lingered with the subtleties to watch the rehearsal, and learned that this firm devoted itself principally to reproducing scenes from popular musical comedies and spectacular plays, and provided all its own costumes. For the first time she saw the ghastly green light in which moving pictures are taken and she realized what the manager of the stock company meant when he spoke of the difficulty of rising to emotional heights on the moving picture stage.

"Nothing today. Come tomorrow, early," the manager said in the same cordial tone when she appeared the next morning at 8.30.

After she had heard it every morning for a week she grew to expect nothing else. It was a shock to her when one day the manager eyed her critically as though he saw her for the first time, and said he would give her a trial. His tone suggested something important, and for the next half hour she had seen visions of herself in some emotional role winning approval by her newly acquired wealth and facial expression. The dream increased in realism while she donned an old time garb in the women's dressing room.

In the end she found herself one of a street mob in a scene of the French Revolution, and after hours of careful drilling she ran and shouted, part of a throng made ghastly by the green light.

In the meantime she had phoned regularly to the studio where she was first employed, and had travelled as far as Brooklyn to visit other studios. She had watched performances on seven occasions where the scenery was painted in black and white and acquired a speaking acquaintance with many of the women who sought to "fit in" pictures.

"It's about the same as getting or the real stage," one of them told her. "If your type strikes the manager stage where your voice needs for a certain part and you make good in it you'll become one of his standbys and when you have made a hit in one set of pictures other managers will want to engage you. But until such a good time comes you have to be content with a little extra work you can pick up."

By the end of the month, when the art class was about to open, the student had earned \$29 as a return for all her exertions.

"And there were my carfares," she counted up, "and I spoiled one pair of shoes practising that wretched facial expression," her chum added.

The art student went to the mirror and made a critical survey.

"I suppose it will take at least the remainder of the \$20 to purchase enough cold cream and massage to take them out, she sighed finally. "But what I should like to know is where did that plump woman get her information?"

might as well run around every morning early," she added. "There's always a chance that they will have a big scene on and be able to use you."

# For the INDUSTRIOUS NEEDLEWOMAN

By ADELAIDE BYRD

## OVAL CENTERPIECE IN FRENCH KNOTS

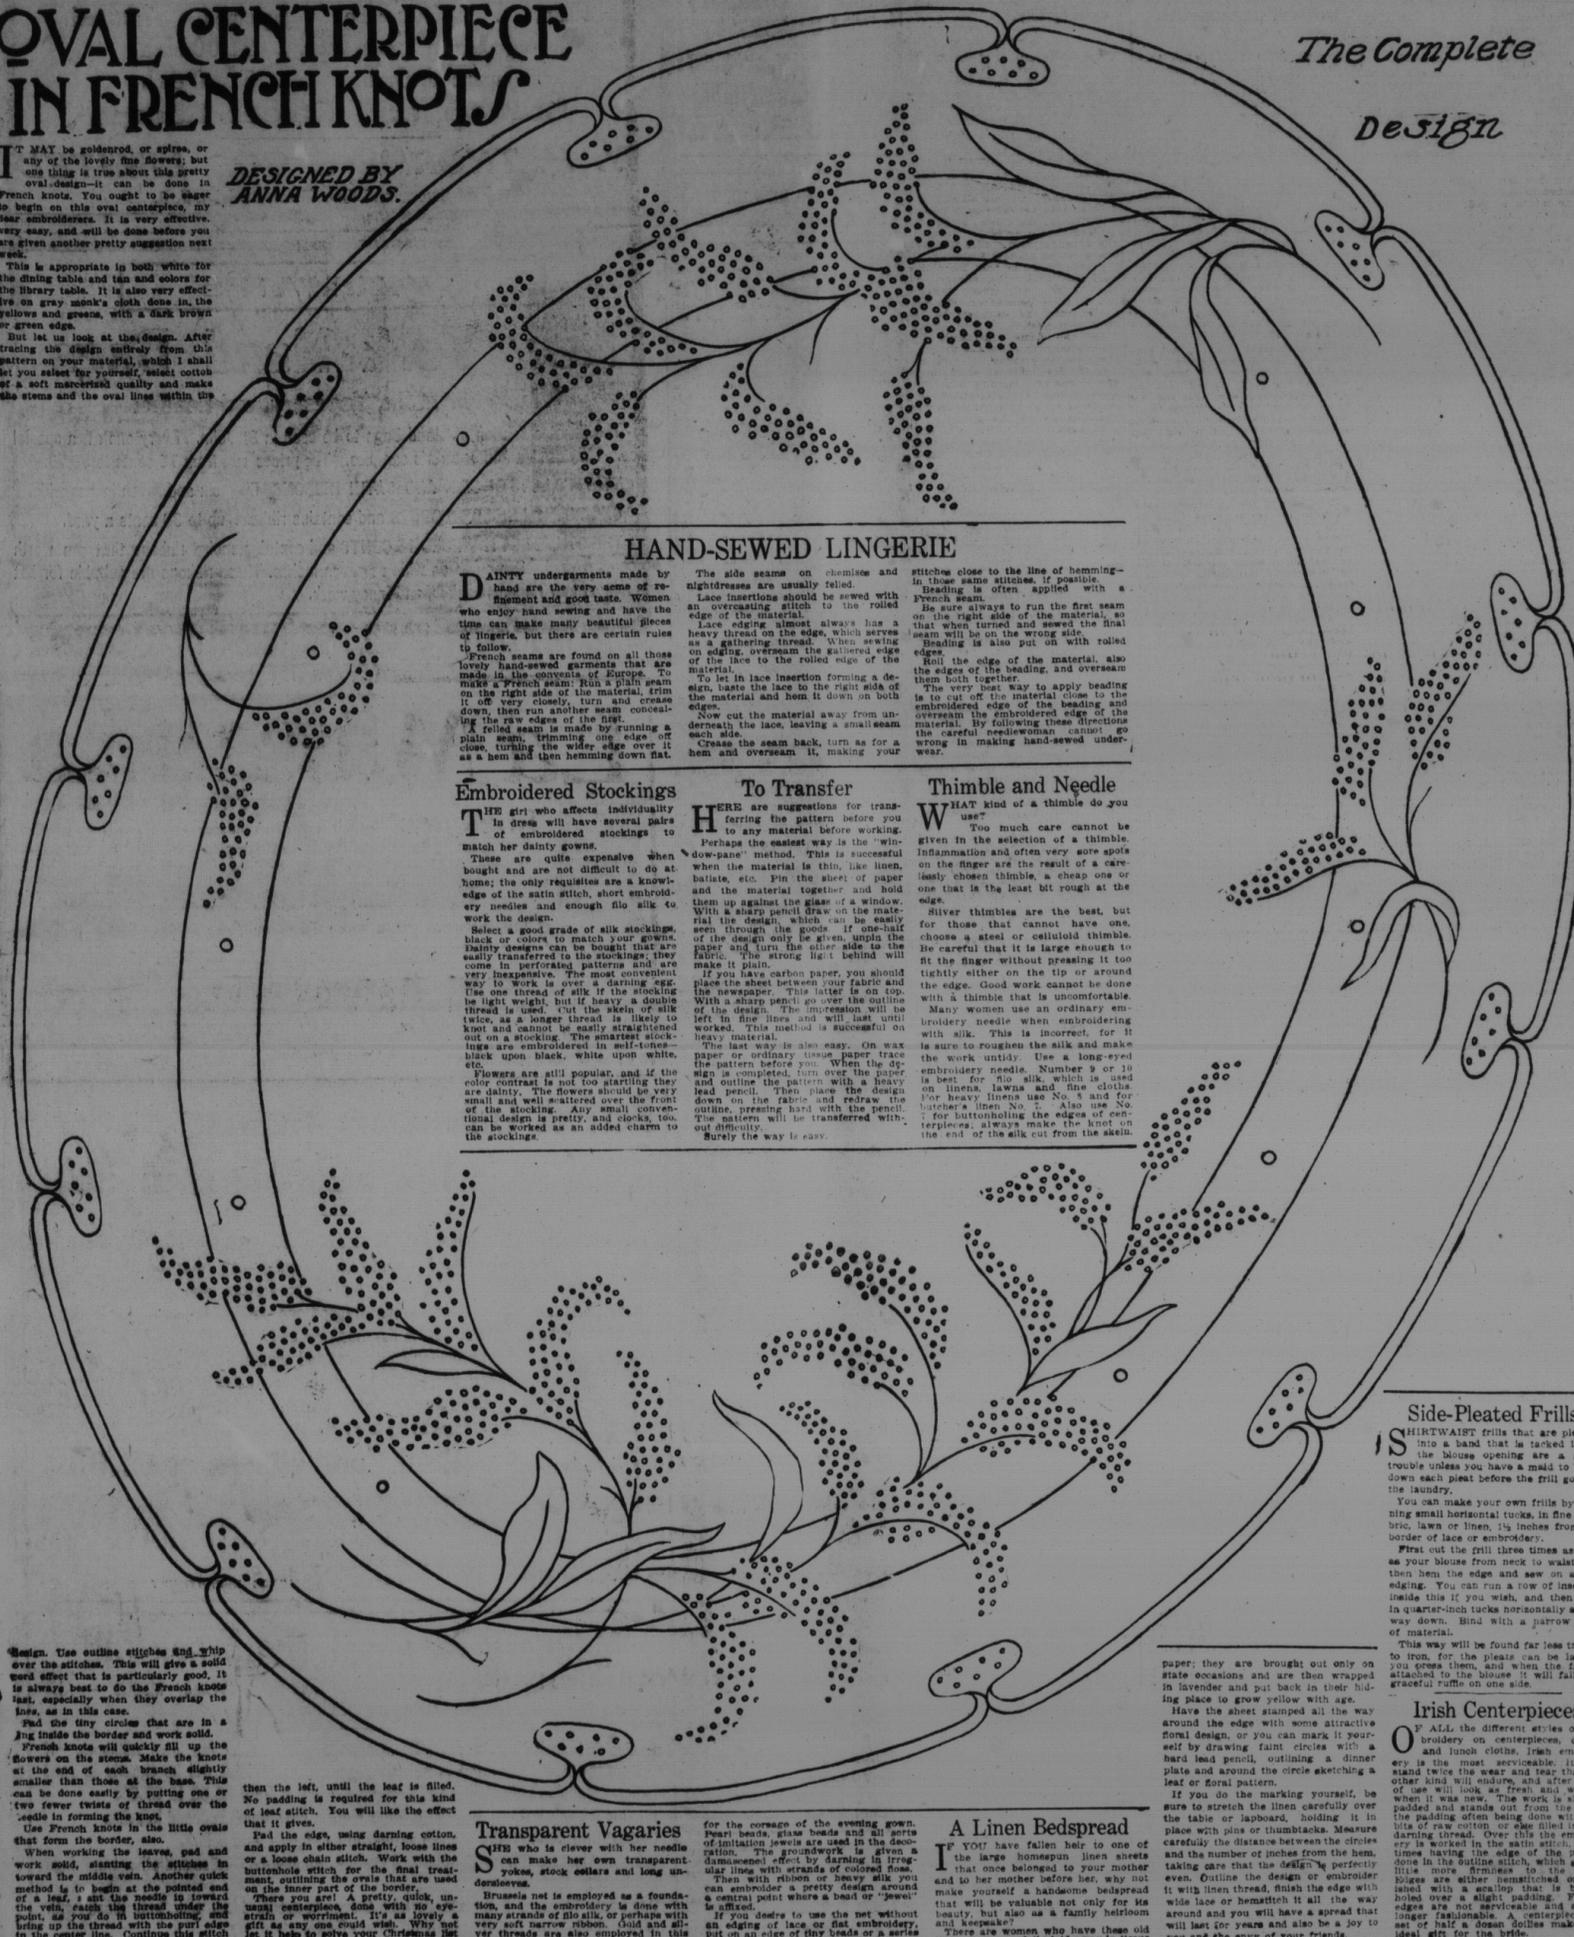

DESIGNED BY ANNA WOODS.

IT MAY be goldenrod, or aster, or any of the lovely fall flowers; but one thing is true about this pretty oval design—it can be done in French knots. You ought to be eager to begin on this oval centerpiece, my dear embroiderers. It is very effective, very easy, and will be done before you are given another pretty suggestion next week.

This is appropriate in both white for the dining table and tan and colors for the library table. It is also very effective on gray monk's cloth done in the yellows and greens, with a dark brown or green edge.

But let us look at the design. After tracing the design entirely from this pattern on your material, which I shall let you select for yourself, select cottons of a soft mercerized quality and make the stems and the oval lines within the

The Complete Design

### HAND-SEWED LINGERIE

**D**AINTY undergarments made by hand are the very acme of refinement and good taste. Women who enjoy hand sewing and have the time can make many beautiful pieces of lingerie, but there are certain rules to follow.

French seams are found on all those lovely hand-sewed garments that are made in the convents of Europe. To make a French seam: Run a plain seam on the right side of the material, trim it off very closely, turn and crease down, then run another seam concealing the raw edges of the first.

A rolled seam is made by running a plain seam, trimming one edge or close, turning the wider edge over it as a hem and then hemming down flat.

The side seams on chemises and nightdresses are usually telled. Lace insertions should be sewed with an overcasting stitch to the rolled edge of the material.

Lace edging almost always has a heavy thread on the edge, which serves as a gathering thread. When sewing on edging, overseam the gathered edge of the lace to the rolled edge of the material.

To let in lace insertion forming a design, haste the lace to the right side of the material and hem it down on both edges.

Now cut the material away from underneath the lace, leaving a small seam each side.

Crease the seam back, turn as for a hem and overseam it, making your

stitches close to the line of hemming—in those same situations, if possible.

Beading is often applied with a French seam.

Be sure always to run the first seam on the right side of the material, so that when turned and sewed the final seam will be on the wrong side.

The very best way to apply beading is to cut off the material close to the embroidered edge of the beading, and overseam the embroidered edge of the material. By following these directions the careful needlewoman cannot go wrong in making hand-sewed underwear.

### Embroidered Stockings

**T**HE girl who affects individuality in dress will have several pairs of embroidered stockings to match her dainty gowns.

These are quite expensive when bought and are not difficult to do at home; the only requisites are a knowledge of the satin stitch, short embroidery needles and enough fine silk to work the design.

Select a good grade of silk stockings, black or colors to match your gown. Dainty designs can be bought that are easily transferred to the stockings; they come in perforated patterns and are very inexpensive. The most convenient way to work is over a darning egg. Use one thread of silk. If the stocking is light weight, but if heavy, a double thread is used. Cut the skein of silk twice, as a longer thread is likely to knot and cannot be easily straightened out on a stocking. The smartest stockings are embroidered in self-tones—black upon black, white upon white, etc.

Flowers are still popular, and if the color contrast is not too startling they are dainty. The embroiderer should work small and well scattered over the front of the stocking. Any small conventional design is pretty, and clover, too, can be worked as an added charm to the stockings.

### To Transfer

**H**ERE are suggestions for transferring the pattern before you start to any material before working.

Perhaps the easiest way is the "window-pane" method. This is successful when the material is thin, like linen, batiste, etc. Pin the sheet of paper and the material together and hold them up against the glass of a window. With a sharp pencil draw on the material the design, which can be easily seen through the goods. If one-half of the design only is given, unpin the paper and turn the other side to the fabric. The strong light behind will make it plain.

If you have carbon paper, you should place the sheet between your fabric and the newspaper. This latter is on top. With a sharp pencil go over the outline of the design. The impression will be left in fine lines and will last until worked. This method is successful on heavy material.

The last way is also easy. On wax paper or ordinary tissue paper trace the pattern before you. When the design is traced, place the paper over the fabric and outline the pattern with a heavy lead pencil. Then press the design down on the fabric and redraw the outline, pressing hard with the pencil. The pattern will be transferred, without difficulty.

Surely the way is easy.

### Thimble and Needle

**W**HAT kind of a thimble do you use?

Too much care cannot be given in the selection of a thimble. Inflammation and often very sore spots on the finger are the result of a carelessly chosen thimble, a cheap one or one that is the least bit rough at the edge.

Silver thimbles are the best, but for those that cannot have one, choose a steel or celluloid thimble. Be careful that it is large enough to fit the finger without pressing it too tightly either on the tip or around the edge. Good work cannot be done with a thimble that is uncomfortable.

Many women use an ordinary embroidery needle when embroidering with silk. This is incorrect, for it is sure to roughen the silk and make the work untidy. Use a long-eyed embroidery needle. Number 9 or 10 is best for fine silk which is used on linens, lawns and fine cloths. For heavy linens use No. 5 and for buttonholes No. 7. Also use No. 7 for buttonholing the edges of centerpieces, always make the knot on the end of the thread cut from the skein.

### Side-Pleated Frills

**S**HIRTWAIST frills that are pleated into a band that is tacked inside the blouse opening are a great trouble unless you have a maid to baste down each pleat before the frill goes to the laundry.

You can make your own frills by running small horizontal tucks, in fine cambric, lawn or linen, 1 1/2 inches from the border of lace or embroidery.

First cut the frill three times as long as your blouse from neck to waist line, then hem the edge and sew on a lace edging. You can run a row of insertion inside this if you wish, and then tuck in quarter-inch tucks horizontally all the way down. Bind with a narrow piece of material.

This way will be found far less trouble to iron, for the pleats can be laid as you cross them, and when the frill is attached to the blouse it will fall in a graceful ruffle on one side.

### Irish Centerpieces

**O**F ALL the different styles of embroidery on centerpieces, dollies and lunch cloths, Irish embroidery is the most serviceable. It will stand twice the wear and tear that any other kind will endure, and after years of use will look as fresh and well as when it was new. The work is slightly padded and stands out from the linen, sometimes having the edge of the pattern done in the outline stitch, which gives a little more firmness to the work. Edges are either hemstitched or finished with a scalloped edge that is button-holed over a slight padding. Tringed edges are not serviceable and are no longer fashionable. A centerpiece and set of half a dozen dollies makes an ideal gift for the bride.

### Transparent Vagaries

**S**HE who is clever with her needle can make her own transparent-look, stock collars and long undersleeves.

Brussels net is employed as a foundation, and the embroidery is done with many strands of fine silk, or perhaps with very soft narrow ribbon. Gold and silver threads are also employed in this work, making most effective trimming

### A Linen Bedsread

**I**F YOU have fallen heir to one of the large homespun linen sheets that once belonged to your mother and to her mother before her, why not make yourself a handsome bedspread that will be valuable not only for its beauty, but also as a family heirloom and keepsake?

There are women who have these old linen sheets carefully laid away in trunks

Design. Use outline stitches and whip over the stitches. This will give a solid wood effect that is particularly good. It is always best to do the French knots last, especially when they overlap the lace, as in this case.

Pad the tiny circles that are in a ring inside the border and work solid.

French knots will quickly fill up the flowers on the stems. Make the knots at the end of each branch slightly smaller than those at the base. This can be done easily by putting one or two fewer twists of thread over the needle in forming the knot.

Use French knots in the little ovals that form the border, also.

When working the leaves, pad and work solid, starting the stitches in toward the middle vein. Another quick method is to begin at the pointed end of a leaf, and the needle is toward the vein, push the thread under the point, as you do in buttonholing, and bring up the thread with the point edge in the center line. Continue this stitch on the left side, then the right side, then the left, until the leaf is filled. No padding is required for this kind of leaf stitch. You will like the effect that it gives.

Pad the edge, using darning cotton, and apply in either straight, loose lines or a loose chain stitch. Work with the buttonhole stitch for the final treatment, outlining the ovals that are used on the inner part of the border.

There you are! A pretty, quick, unusual centerpiece, done with no eye-strain or worryment. It's as lovely a gift as any one could wish. Why not let it help to solve your Christmas list for you?

### AROUND THE CITY

#### Dog Owners Pay Up.

Nearly fifty citizens took out licenses for dogs yesterday.

#### Is Rapidly Recovering.

Thomas Connors, the Nova Scotian who attempted suicide in the jail last Sunday morning, was reported last night to be rapidly recovering, and is expected to be around in a short time.

#### Trades and Labor Council.

A meeting of the Trades and Labor Council was held last evening, at which it was understood that political matters were discussed. The officials declined to divulge what transpired at the meeting.

#### Archdeacon Renison in St. Paul's.

Last evening there was a good attendance in the school room of St. Paul's church when Archdeacon Renison, of the diocese of Moosejaw, gave an interesting and interesting talk on the mission work among the Eskimos.

#### Home for the Holiday.

A large number of students from the different colleges arrived in the city yesterday afternoon and night, and remained in the city and others passed through to their homes along the line to spend the Thanksgiving holiday.

#### Passed Grant to Fruit Show.

A meeting of the local government was held in the city yesterday afternoon, at which provision was made for the necessary grant to the Fruit Show, which will be held in the St. Andrew's rink next week. Some minor appointments were made, and a number of routine matters were dealt with.

#### The Opening of the Fruit Show.

Hon. Dr. Landry, commissioner of agriculture, was in the city yesterday to attend a meeting of the local government. The commissioner will be in the city on Monday evening, and will take part in the ceremonies in connection with the opening of the Fruit Show in St. Andrew's rink. It was hoped Premier Fleming would be present at the official opening of the show, but it is understood he will be unable to attend Monday evening.

#### Lancaster Conservative Club.

The Conservative Club, Lancaster No. 1, which was organized at Fairville a week ago, held another meeting last evening in the Orange hall, Fairville, and adopted a constitution and by-laws, based on those of the Borden Club. It was decided to hold the next meeting on the first Friday in November and invite the members of the Borden Club to attend. A committee was appointed to secure speakers to address this meeting. The club has a number of members ready, and its energetic officers are confident that this number will be greatly added to before the next meeting.

#### V. M. C. A. NOTES.

The educational department of the V. M. C. A. will open the latter part of next week. The studies taken up will consist of two courses. The first will be the nature of a night school, the subjects will be reading, writing and arithmetic, and will be taught by G. R. Turner. The second course is a study of mechanical drawing and will be taught by Roy A. King. The fee will be reasonable and the classes will be held two nights a week. The membership contest is drawing to a close. The standing now is: Reds, 250 points; Blues, 167 points. One senior member secured adds 10 points to the standing of the team that gets him. A junior or intermediate member adds five points and a renewal adds 50 per cent.

#### Successful Entertainment.

There was a large attendance at the tea and entertainment held at the home of Mrs. James Jack's, Paddock street, yesterday afternoon under the auspices of the flower committee of the Church of England Institute. The entertainment was a great success. Tea was served and among those who assisted in the musical entertainment were Misses Winifred Barker, Elsie McLean, Lou Irvine, Louise Knight and Mrs. J. M. Barnes. Madame Paluina was in the fortune booth and told many fortunes. Misses Nancy Kingdon and Portia McKenzie had charge of the sale of candy. Mrs. G. F. Smith and Mrs. C. H. Hanson poured coffee. The tea and entertainment lasted from 4 to 6 o'clock, and the proceeds are for the purchase of flowers to be sent to the General Public Hospital.

#### After the Durant Site.

A committee of the council with the Mayor and the Recorder held a meeting yesterday afternoon for the purpose of considering ways of obtaining possession of the property near the ballast wharf, turned over to the government in lieu of the site granted by the government to Mr. Durant for a sugar refinery nearly two years ago. It is understood the committee decided to take the matter up with the Minister of Marine and Fisheries and ask him to bring the city's position to the attention of the proper authorities at Ottawa. Since Mr. Durant sent a man here last spring to bore a few holes at the site of the proposed refinery, no word has been received from him, and as he has closed up his office at Montreal, it is taken for granted that his project to erect a refinery has fallen through. The McAvity Company have approached the city authorities with a view to securing the site as they wish to extend their plant.

#### North End Conservative Club.

President J. C. Chesley, presided at the large and successful Conservative Club meeting in the club's temporary room on Simonds street, last evening. The club's popularity is attested by the fact that from the forty-two charter members of the first meeting there are now over two hundred, and President Chesley predicts that the membership will be five hundred by the evening of the 15th of November next. On that date the club will hold a smoker, a committee being chosen to secure the Temple of Honor hall on Main street for that purpose. A resolution was unanimously passed congratulating Hon. J. D. Hazen, Minister of Marine and Fisheries, on his election and three hearty cheers and a tiger were given him. The speakers of the evening were: J. C. Chesley, Philip Granban, Al. Elliott, and others. A committee was appointed to receive transient headquarters for the club.

### IMPRESSED WITH WORK OF THE PRISON FARMS

#### Councillor Cochrane and County Secretary Kelley Back from Inspection Trip to Ontario and Massachusetts.

Councillor F. M. Cochrane and County Secretary J. King Kelley, returned yesterday from a trip to Ontario and Massachusetts in the establishment of a prison farm near St. John. They inspected the Ontario prison farm at Guelph, Ont., and then proceeded to Boston going from thence to Concord where they inspected the reformatory for boys, and to Bridgewater where they inspected the big state farm. "At the latter place," said Coun. Cochrane, "there are 2,300 men and about 300 women, all actively employed. None of the prisoners there are kept under lock and key and all are on their good behavior. Both in Ontario and Massachusetts the authorities are well pleased with the way the prison farm idea has worked out and are already of the opinion that every community can take it up with advantage. It's a big idea, and a great improvement on the old way of treating prisoners."

"We will prepare an extended report on the results of our observations, and I feel certain that the movement to establish a prison farm here will be pushed to a successful conclusion. Our problem is to work out the Ontario idea on a smaller scale."

### EXCHEQUER COURT HAD LONG DAY YESTERDAY

#### Evening Session was Necessary to Dispose of Business—Several Important Cases Were Taken Up.

His Lordship Mr. Justice Casola had a decidedly busy day in the exchequer court yesterday. Three sittings of the court were held and it did not rise until half past ten last night. The court will meet again this morning at half of nine o'clock. His lordship suggested nine o'clock, but this was rather early for the St. John lawyers.

The case of the King vs. the Moncton Land Company was including argument of counsel, concluded yesterday. The arguments of Mr. Nesbitt and Mr. Powell in this important case involving a large sum of money, will likely go on record as the shortest in the history of legal trials.

In the morning Thomas Williams, chairman of the Moncton board of assessors, George P. Jardine building inspector for Moncton, Gesner R. Taylor, county secretary for Westmorland Co. and John Winter, testified.

In the afternoon John Edgington, city engineer for Moncton, Andrew H. Jones a Moncton broker and George A. Harris gave evidence. This concluded the evidence. Mr. Nesbitt for the company presented an argument of eight minutes duration, and Mr. Powell for the Crown, argued for five minutes.

His lordship said he would reserve judgment, taking into consideration the question of consequential damages to the land.

H. A. Powell, K. C., and James Friel, of Dorchester, appeared for the Crown, and Wallace Nesbitt, K. C., of Toronto; M. G. Teed, K. C., of this city, and Hon. C. W. Robinson and George L. Harris, of Moncton, for the company. Argument in the case of Schaefer vs. the King was then presented.

R. A. Lawlor, K. C., appeared for the Crown and Dr. W. B. Wallace, K. C. and Robert Murray, K. C., of Chatham for the applicant. Judgment was reserved.

### THINKS COUNCIL ERRED IN LEASING WAREHOUSE

#### Havana Potato Dealer, in City, Thinks Frost Proof Potato Warehouse Should be Managed by City.

I Nelson Robertson, of the firm of Smith & Robertson, of Havana, Cuba, who is in the city in the opinion of the common council should not have leased the frost proof warehouse on the West Side to a private company.

"It is going to cause a good many barrels of potatoes consigned to the Cuban market to be shipped through American ports," he said. "The leasing company say they are willing to give accommodation to all shippers, but that is not as satisfactory as if the city managed the warehouse on its own account."

"There is always a good market for potatoes in Cuba," added Mr. Robertson. "But I don't suppose the quantity of New Brunswick potatoes to be shipped there this winter will be large. I believe there is a big demand for New Brunswick potatoes in Ontario and the West at good prices, and that the quantity available for shipment to Cuba will not be large."

"I was much surprised to read an article in The Standard copied from a Colon paper, saying that when the Panama Canal was completed steamers would be able to go from Europe to China in 15 days," he added. "There must be a mistake in that calculation. Ordinary steamers take 22 to 25 days to steam from England to Cuba."

### CAREFUL MANAGEMENT IN PROVINCIAL HOSPITAL

#### Commissioners Find that Despite Larger Demands on Funds, Institution will be Run Within the Estimates.

At a meeting of the Commissioners of the Provincial Hospital held in the local government rooms on Church street, yesterday afternoon, Premier Fleming was elected chairman in place of Hon. J. D. Hazen.

The reports submitted to the meeting were of a very satisfactory nature. They showed that the receipts of the hospital this year were in excess of the estimated revenues, and that, though the number of patients had slightly increased and the cost of supplies had advanced, careful management will enable the superintendent to meet all expenses for the year and be within the estimated expenditure.

Hon. Robert Maxwell on behalf of the committee on supplies reported that contracts for supplies had been let to the lowest tenderers. Considerable routine business was transacted.

### BOY SCOUTS HELD A SUPPER AND DEBATE

#### Members of St. James Church Patrol Organized Debating Club Last Evening—Will Put on a Play.

Over thirty Boy Scouts of the St. James church patrol met in a school room of the church last evening, and after partaking of a bountiful supper, held a debate on the subject: Resolved, that steam is of more value to mankind than electricity.

Jack Fitzmaurice appeared for the affirmative, and Guy Scott for the negative. Both boys handled their side of the argument in an interesting manner and the debate was much enjoyed. Rev. H. A. Cody, the rector of St. James', acted as chairman, and after the debaters had exhausted their eloquence, a vote of those present was taken and a verdict returned in favor of steam.

### Painless Dentistry

Tenth filed or extracted free of pain by the celebrated "PALE METHOD."

All branches of dental work done in the most skillful manner.

#### BOSTON DENTAL PARLORS

527 Main Street. Tel. 953  
DR. J. D. MAHER, Proprietor.

### NEW BRUNSWICK'S GREATEST SHOE HOUSE

## Some Shoe Bargains

#### King Street Store

### Waterbury & Rising, Ltd.

King St. Union St. Mill St.

### The Best Quality at a Reasonable Price

## Wisdom

Suggests the propriety of caring for your eyes before they become permanently defective, for if given prompt attention at the first symptoms of trouble the vision may be preserved, while delays frequently result in poor sight which is never regained.

In nothing is the old adage, "a stitch in time, saves nine," more appropriate than in regard to the care of the eyes.

Come in and let us tell you just what your eyes need, whether glasses will help you, or whether they are not necessary.

### L. L. Sharpe & Son

Jewelers and Opticians.  
21 KING STREET, ST. JOHN, N. B.
