

ICE MELTING FAST
SAYS MARINE AGENT

River Still Solid at Sorel, But Cannot Now be Crossed.

Montreal, March 29.—R. A. Whillard, agent of the Marine and Fisheries Department, when asked yesterday as to conditions in the river, said that it was too soon to prophesy in regard to when navigation would be opened and it would be the middle of next week before speculation on the point could be indulged in with any safety. "The ice is thick, but melting fast," he said, "and the rate that is evidently on the way will help, but conditions generally are normal and there is nothing to indicate that the opening of navigation will be any earlier or any later than the middle of April."

The ice at Sorel is solid, but the river cannot be crossed at that point owing to the water at the sides. Asked whether the raising of the water in the St. Lawrence had any influence on the flooding at Sorel, Mr. Whillard said that there was absolutely no connection between the two. The St. Lawrence floods are caused purely by the overflowing of the lake St. Pierre River, which occurs every year, some years being worse than others, but the state of the St. Lawrence has nothing to do with the situation.

The emptying of the Lachine Canal was commenced at midday on Thursday, and for the safety of the structure, in view of the strength of the ice, the water is being allowed to take its own course and will disappear gradually in a couple of days more. Superintendent O'Brien will then make a general examination of the bottoms of the locks and be able to say what condition the winter has left them in.

St. Monica's Society Meeting Yesterday

Several Excellent Reports Were Received—Expressed Itself in Favor of Mothers' Pensions—Other Matters Dealt With.

Several excellent reports were given at a meeting of the St. Monica's Society held yesterday afternoon in the Knights of Columbus rooms. Mrs. D. P. Chisholm presided. Miss M. Hogan, treasurer, reported a bank balance of \$260.54. For the charity committee, Mrs. W. E. Scully told of provisions given in Holy Trinity parish, boots for school boys, and three warm garments made for a young woman who was going to East St. John.

Mrs. John Owens for the immigration committee gave the total expenses of that work, and described the splendid efforts of the committee at the West Side where the moral and physical needs of many newcomers to this land are looked after. The ladies are ably assisted by Mrs. Cairns. A distinguishing badge of purple and white is worn by St. Monica's members.

Mrs. A. J. Mulcahy gave the report for the Home for Incurables, telling of cake, candy, ice cream and jelly being supplied to the inmates.

The society expressed itself as being in favor of Mother's Pensions and a copy of the resolution will be forwarded to Hon. Dr. Robson.

Preliminary arrangements for luncheon for the delegates to the National Council of Women in June were made.

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhoea infecting germs cause many ill. Medical science has proven this. Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhoea germs that breed in pockets about the teeth. Rheumatism, anemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhoea infection.

THE WINNIPEG STRIKE REPORT

Winnipeg, Man., March 29.—The Commission finds that the great mass of workers, intelligent and loyal to British institutions, did not acquiesce in all that was said and done, and it was not clear to the latter that the move of the radicals was not that of obtaining the right to a mode of collective bargaining for a group of workers, but that their purpose was to elevate labor into a state of dictatorship.

The report also states that the commission finds that the character of the Western News, from its inception in August, 1918, was toward radicalism, rather than craft unionism, and that the circulation of this paper had a large part in stirring up discontent and bringing it to a head. It is pointed out that had the Industrial Conditions Act been enforced, the strike would have been averted, and recommends the setting up of a court in lieu of the act as soon as possible.

An excerpt from the report reads: "It is found that these Socialist leaders made the utmost use of the strike to advance their own plans and to convert the general strike into a practically Socialist movement and to thrust themselves into its leadership."

THE FINANCIAL POSITION OF FRANCE

Paris, March 29.—Frederic Francois-Marshall, Minister of Finance, speaking in the Chamber of Deputies today on the financial position of the country said:

"The daily expenditure of France was forty million francs in 1914; sixty-eight million francs in 1916; 104 million francs in 1917; 127 million francs in 1918 and 133 million francs in 1919."

A member of the Chamber remarked that the question of exchange was financially and economically vital to the country. In reply, M. Francois-Marshall declared the member should also have said it was an international question.

The Deputies listened breathlessly as the Minister dealt with the formidable figures giving the total expenses for 1920 as 50,052,000,000 francs of which 22,000,000,000 were recoverable from Germany. This year's deficit was 8,000,000,000 francs. The treasury's disposable amount at the Bank of France was 700,000,000 francs.

Foreign transactions were discussed and we cannot consider the possibility of raising an important loan abroad.

LAXATIVE BROMO QUININE Tablets relieve the headache by curing the cold. A tonic laxative and germ destroyer. Look for signature E. W. GHUYE on box. 30c.

PARLIAMENT DISCUSSED FISHERIES

(Continued From Page One)

In Canada had risen from \$35,956,433 in 1910 to \$22,123,944 in 1917, and said that this was chiefly due to the enhanced prices through the European demand. There was a great future ahead of the fishing industry if it was properly developed, and government aid should be readily given.

The wide-open door policy in regard to immigration which has been followed, in past years, has not been qualified success, Hon. Arthur Meighen, Minister of the Interior, admitted to the Commons during the debate on the education of aliens. A country, declared Mr. Meighen, can only assimilate a certain percentage of aliens within her people, in other words, the body politic can only digest a certain amount of foreigners. The importation of teaching the alien real Canadian citizenship had not been overlooked by the government, but education was a matter left in the hands of the provinces, and it would be better to leave this institution entirely in their hands.

Dr. Michael Steele (South Perth) was the father of the resolution. In introducing his measure he said Canada was receiving yearly thousands of immigrants of every race and tongue, and these people were growing up without any proper conception of Canadianism. Canada had welcomed more than three million immigrants in the last twenty years, and if our population in the next twenty years was to be twenty million people, it was important that the number of undesirable should be reduced to the minimum. In the prairie provinces 8.3 per cent. of the population could not speak English, and 7.12 per cent could not read or write. The census of 1911 revealed 147,228 illiterates in Ontario alone.

The increase in our alien population would become a menace to Canada, and a unified Dominion was impossible if these people were not given proper education.

F. R. Stacey (New Westminster) declared that while Orientals had performed essential labor in certain British Columbia industries, Oriental immigration in the future must be placed on a basis of national requirements and settlements must be dropped.

A. R. McMaster (Brome) made a plea for the friendly co-operation of all classes and parties in Canada for the canalizing of the foreign population within the Dominion.

Mr. Steele's motion was adopted.

MINERS TO GET 27 P. C. INCREASE

This Will Mean a Total Increase in Wage Costs of \$200,000,000.

New York, March 29.—The Senate Committee of the bituminous operators and mine workers, in a joint conference here this afternoon, agreed to make the monetary provisions contained in the award of the Bituminous Coal Commission, as affirmed by the President, become effective on April 1, and that the mines continue in operation pending the working out of a new agreement.

The award provided for a wage increase of 27 per cent. The increase in wages to the miners under today's agreement amounts to approximately 27 per cent, including the 14 per cent average increase granted by the Administrator. As the miners are now receiving the 14 per cent, the net increase under the new contract will be 13 per cent. Figured in dollars, the increase is approximately \$96,000,000 more than the advance allowed by Administrator Grant, according to the report of the Coal Commission. The total increase in wage cost is given at \$200,000,000.

HOME RULE BILL UP YESTERDAY

(Continued from page 1)

London, March 29.—John R. Clyne, Labor member for Manchester North East and who for a member of the parliamentary group which early in the year visited Ireland to investigate conditions there, in moving a rejection of the bill in the House of Commons today, declared that he was an American relations of the present system of government in Ireland of imprisonment and deportation without trial.

Mr. Clyne declares that the bill had been accepted by few and approved by none of the Labor party. He objected to what he termed the "undemocratic" bill displayed toward Ulster and the proposal to partition Ireland on religious basis.

Lord Robert Cecil, former Assistant Secretary of State for Foreign Affairs, agreed that it was a very bad bill, without an atom of Irish opinion behind it and lacking in Irish approval. He said he failed to see how it would conciliate American opinion if the American government was to be behind it and lacking in Irish approval.

It is believed that these affairs, which are being handled in a very planned and carried out, are the work of men regularly employed in various businesses, who merely take a few hours leave when a conspiracy is being put into execution, and then quietly return from the crime to their jobs. In this way it is pointed out, the government is being deceived, and the people are being deceived.

WHARFAGE RATES TO BE INCREASED

Montreal, March 29.—Today the first of a series of conferences between the Board of Trade, the Chambers of Commerce, the Shipping Federation, with representatives of the railways and steamship interests, met at the Harbor Commissioners in regard to the proposed increase in wharfage rates to be charged on import and export traffic, and the meeting was marked by protests were made against the rates. It was argued that instead of a 20 per cent. increase the jump in some cases would be nearer 100 per cent, while the average would run higher than 50 per cent.

ADDRESS TO THE FIRST AID CLASSES

Last evening Col. Birdwhistle, of Ottawa, addressed the members of the First Aid Classes of the Ambulance Association, and a large number of others interested, at the Red Cross Depot, Hazen avenue.

MURDER AND SUICIDE BY OLD MAN OF 70

Corwall, Ont., March 29.—William Clime, 70 years old this morning shot and killed Gordon Fetterley, 28 years, of Williamsburg, with a rifle and later took his own life with a revolver. A charge had been laid against Clime of threatening to kill Mrs. Fetterley on March 2nd, and he had been summoned to answer the charge before Police Magistrate Danis tomorrow. It is thought that Clime when he received the summons became temporarily deranged and shot and killed Fetterley. Realizing what he had done, he then resolved to end his own life.

Domestic differences are said to have been the cause of the double tragedy.

"Doctor, my wife is on the verge of nervousness from dallying with the curved needle. Would you send me a few prescriptions for a case of this kind?"

"A change of board."

"You mean die?"

"I mean washboard."

SITUATION IN IRELAND GETS WORSE

Assassinations Becoming of Daily Occurrence and No One Appears to be Safe.

HUNGER STRIKER NOT ALLOWED TO DIE
Sections of British Press Blame Government for Mishandling the Irish Situation, and Declare it Should Give Way to Others.

London, March 29.—Another murder was added to Ireland's tragic trial today. James McCarthy, banker of Thurles, where the military recently got out of hand and shot up the town, was awakened early this morning, called to the door of his house, and shot dead by a masked marauder.

Several masked men, who surrounded the house at the time of the murder, refused them permission of entering the house, and accused them of committing the murder.

When the police arrived to view the body, a member of the dead man refused them permission of entering the house, and accused them of committing the murder.

From several reports it is apparent that this latest outrage was committed by the same band or one similar to that implicated in the murder last week of Thomas McMurphy, Lord Mayor of Cork, for McCarthy, like McMurphy, was a Sinn Feiner of good standing in the community. In the case of the Sinn Feiners was struck in the arrest today by military and police of Laurence Ginnell, a member of Parliament of Republican sympathy. He served a term in Dublin prison in 1907 for a contempt of court.

A Dublin coroner's jury investigated the murder of James McCarthy, a resident magistrate who was dragged from a street car and shot, returned a formal verdict today that death was due to wounds and despite a military investigation of suspected Sinn Fein hiding places, where murderers might be concealed and the presence of several scores of imported detectives who were assigned to the case, no persons have been implicated in the crime. It was pointed out that by daylight and there were several witnesses.

It is believed that these affairs, which are being handled in a very planned and carried out, are the work of men regularly employed in various businesses, who merely take a few hours leave when a conspiracy is being put into execution, and then quietly return from the crime to their jobs. In this way it is pointed out, the government is being deceived, and the people are being deceived.

CASTORIA

For Infants and Children
In Use For Over 30 Years
Always bears the Signature of Dr. H. H. Stittchen

The name "Bayer" on Aspirin is of "Bayer Tablets of Aspirin" which like 14 Karat gold. It positively contains proper directions for Colds, influenza, the only genuine Aspirin. Headache, Toothache, Earache, Neuralgia, Joint Pains, Rheumatism, Neuritis, Lumbago, Rheumatism, Neuralgia, Joint Pains, and Pain generally, for over nineteen years and now in Tin boxes of 12 tablets each but always by an unbroken package a few cents. Larger "Bayer" packages.

THE POSTAL CLERKS' CONVENTION CLOSED

T. F. Walsh of St. John Was Elected Vice-President for New Brunswick at Convention Held in Ottawa.

Ottawa, March 29.—William J. Cantwell of Ottawa was re-elected president of the Dominion Postal Clerks' Association on Saturday afternoon and the following officers were named: Vice-president, Robert Gray, Hamilton; past president, A. Jacques, Montreal; secretary-treasurer, W. E. B. Mann, Ottawa; vice-presidents: For Ontario, A. Corbridge, London; Quebec, A. St. Cyr, Sherbrooke; Nova Scotia, J. N. Meagher, Halifax; New Brunswick, T. F. Walsh, St. John; and for the Maritime Provinces, J. B. Christie and N. H. Woodcock, Toronto.

DULUTH EARNINGS

Montreal, March 29.—Gross passenger earnings of the Duluth Superior Traction Co. for the week of March 22, 1920, amounted to \$28,654, as compared with \$26,461, an increase of \$2,193 or 8.3 per cent. over the corresponding period of a year ago. For the month to date, gross earnings were \$134,665, as compared with \$126,544, an increase of \$8,121 or 6.4 per cent.

For the year to date the gross passenger earnings totalled \$428,846, as against \$377,819, an increase of \$51,027, or 13.5 per cent. over the corresponding period of 1919.

Waste not, want not, gave the old master; and bear in mind that by not wasting you also lessen the chance of someone else wanting.

THE WONDERFUL FRUIT MEDICINE

Every Home in Canada Needs "FRUIT-A-TIVES"

To those suffering with indigestion, Torpid Liver, Constipation, Sick or Nervous Headaches, Neuralgia, Kidney Trouble, Rheumatism, Pain in the Back, Bronchitis, and other ailments, "Fruit-a-tives" give prompt relief and assure a speedy recovery when the treatment is faithfully followed.

"Fruit-a-tives" is the only medicine made from Fruit—containing the medicinal principles of apples, oranges, figs and prunes, combined with valuable tonics and antiseptics. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

BORN.
SMITH—On March 29th, to the wife of W. Grant Smith, 133 Princess street, a daughter.

DIED.
MEANS—At the home of her mother, 85 Paradise Row, on Sunday evening at 9 o'clock, Mrs. Emma Heas, leaving to mourn her mother, three brothers and three sisters. No funeral today (Tuesday) at 2.30. O'NEIL—At 37 Dufferin Row on the 27th inst. Rev. Andrew J. O'Neill, pastor of the Church of the Assumption.

Funeral Tuesday morning with Pontifical High Mass of Requiem at ten o'clock.

WILSON—At her residence, 111 Paradise Row, on March 29th, 1920, Louis E. Wilson, widow of Amos S. Wilson, and daughter of the late James Harris.

Funeral from her late residence Wednesday afternoon. Service at 2.30.

ST. MAURICE PAPER CO.

Montreal, March 29.—The statement is now made on good authority that the stock distribution in St. Maurice Paper Co. Ltd. will be much more favorable to shareholders than heretofore believed.

Instead of a 10 per cent. distribution, it will be a 30 per cent. distribution. The capitalization would consequently work out as follows:

Present capitalization \$5,043,000 add 30 per cent. distribution, \$1,512,900. Increased capitalization \$6,555,900. The distribution will take place to shareholders of record of April 2nd and will be made on April 5th.

Almost everything worth while has sold labor, and to waste what labor has produced is to nullify so much human effort of somebody's labor. And time is the stuff of which life is made.

The Daily Mail: "The Daily Express and Times all refer to 'The reign of terror' in Ireland and point out how the murder yesterday of Alan Bell, a resident magistrate of Dublin, shows the extent to which the law is being broken and the slightest move to prevent any outrage, approach murder or place a knowledge of facts at the disposal of the police."

Winnipeg Falcons Are The Champions

Defeated University of Toronto to Last Night, 3 to 2—Will Represent Dominion at Antwerp Next Month.

Toronto, March 29.—The Falcons of Winnipeg, are amateur hockey champions of Canada, and will represent the Dominion at Antwerp next month. Tonight they defeated the University of Toronto by 3 goals to 2, which gave them a lead on the two-game series of 11 to 5.

The Falcons leave here Wednesday, to sail from St. John, N. B., on the steamship Melita. The collegians tonight showed to much better advantage than on Saturday, but while they came out with a close score, there was no doubt about the superiority of the Westerners.

Those who have seen the Falcons in action are confident that they will defeat all entrants at the Olympiad and bring the World's Championship to Canada.

THE UNITED STATES AND HER SUBMARINES

It Took Over Two Years to Get the U. S. Navy Dept. to Recognize the Importance of This Branch.

Washington, March 29.—The United States Navy's submarine equipment during the war was entirely inadequate, Admiral A. W. Grant, formerly in command of the Atlantic Fleet's submarine force, testified today before the Senate Committee, investigating the navy's part in the war.

Among the skeletons which Admiral Grant let out of the United States were about two hundred submarines. That the United States submarines were "too small, of widely different types, of small radius of action, inadequate armament and poorly equipped as to engines."

That "it took nearly two years of propaganda to get the United States Navy Department to realize the importance of building submarines capable of combating the 800-ton German U-boats."

That "if fifteen United States submarines, which he had been instructed to send abroad, ever reached the Azores Islands they would have to be held up for repairs practically all of the time, as they had been ever since they were commissioned."

That when these four submarines finally reached the Azores they were entirely disabled, one was available for limited service, and "slightly better off," and only one ready for duty.

The Admiral said he began recommending the building of huge types of submarines in 1915 but received no support from the government.

Committee Meeting Of Common Council

Delegation Asked for Fixed Valuation of \$8,000 for Portland Rolling Mills for Five Years—Corona Co. and Early Closing.

At a committee meeting of the city commissioners yesterday, Harry Garwood, St. John's, and George Akerly, St. John's, asked that the valuation on the property of the Portland Rolling Mills be fixed at \$8,000 for five years. They said the mills had been operated on the mill's and employ 100 men.

W. K. Ganong and C. F. Sanford asked that the valuation of the real and personal property of the Corona Candy Co., Ltd., be fixed at \$40,000 for 20 years. The company has contracted to spend \$100,000 for improvements here, but has an offer from a western city. Both propositions were recommended to council.

The matter will be dealt with today. P. A. Campbell, A. C. Davidson and George Akerly were given a hearing concerning the rates of pay of employees of the water and sewerage department. They contended that some of the employees were getting less than the schedule called for, so an opted by the council. It was pointed out that the increases granted were subject to attention of the commissioners of the department concerned. Commissioner Jones stated that if the names and amounts referred to were put in writing he would report to council the matter will be dealt with today.

THE UNITED STATES AND HER SUBMARINES

It Took Over Two Years to Get the U. S. Navy Dept. to Recognize the Importance of This Branch.

Washington, March 29.—The United States Navy's submarine equipment during the war was entirely inadequate, Admiral A. W. Grant, formerly in command of the Atlantic Fleet's submarine force, testified today before the Senate Committee investigating the navy's part in the war.

Among the skeletons which Admiral Grant let out of the United States were these: "The United States submarines were too small, of widely different types, of small radius of action, inadequately armed, and poorly designed as to engines."

That "it took nearly two years of propaganda to get the United States Navy Department to realize the importance of building submarines capable of combating the 300-ton German U-boats."

That if fifteen United States submarines, which he had been instructed to send abroad, ever reached the Azores Islands they would have to be held up for repairs practically all of the time, as they had been ever since they were commissioned.

That when four submarines of the "K" type finally started overseas, one of them had to be towed, "because neither engine would run."

That when these four submarines finally reached the Azores one was entirely disabled, one was available for limited service, one "slightly better off," and only one ready for duty.

The Admiral said he began recommending the building of large types of submarines in 1915 but received no support from the government.

Committee Meeting Of Common Council

Delegation Asked for Fixed Valuation of \$6,000 on Portland Rolling Mills for Five Years — Corona Co. and Early Closing.

At a committee meeting of the city commissioners yesterday, Harry Garson, H. Garson, Jr., and Geo. W. Day asked that the valuation on the property of the Portland Rolling Mills be fixed at \$6,000 for five years. They said they propose to build a mill and employ 100 men.

W. K. Ganong and C. F. Stanford asked that the valuation of the real and personal property of the Corona Candy Co., Ltd., be fixed at \$40,000 for 20 years. The company has contracted to spend \$100,000 for improvements here, but has an offer from a western city. Both propositions were recommended to council.

In regard to closing the city solicitor reported that the council could not discriminate between persons and occupations, and could not restore the license of business of any particular trade unless a petition were presented signed by two-thirds of the persons engaged in such business.

The matter will be dealt with today.

F. A. Campbell, A. C. Davidson and George Akery were given a hearing concerning the rates of pay of employees of the water and sewerage department. They contended that some of the employees were getting less than the schedule called for, as adopted by the council. It was pointed out that the increases granted were subject to discretion of the commissioner of the department concerned. Commissioner Jones stated that if the names and amounts referred to were put in writing he would report to council in the matter Tuesday. The union men accordingly submitted a list, showing rates of 25, 30 and 50 cents per day less than the scale.

THE POSTAL CLERKS' CONVENTION CLOSED

T. F. Walsh of St. John Was Elected Vice-President for New Brunswick at Convention Held in Ottawa.

Ottawa, March 29.—William J. Castwell of Ottawa was re-elected president of the Dominion Postal Clerks' Association on Saturday afternoon and the following officers were named: Vice-president, Robert Gray, Hamilton; past president, A. Jacques, Montreal; secretary-treasurer, W. E. B. Mann, Ottawa; vice-president, For Ontario, A. Corry, London, Quebec; A. St. Cyr, Sherbrooke; Nova Scotia, J. N. Meagher, Halifax; New Brunswick, T. F. Walsh, St. John; auditors, J. R. Christie and N. R. Woodcock, Toronto.

It was left with the executive to fill the office of vice president for P. E. Island. The next convention will be held in Quebec City.

DULUTH EARNINGS

Montreal, March 29.—Gross passenger earnings of the Duluth Superior Traction Co., for the third week of March amounted to \$26,654 as compared with \$26,461, an increase of \$193 or 6 per cent. over the corresponding period of a year ago. For the month to date, gross earnings were \$114,545, as compared with \$106,544, an increase of \$8,000 or 7.5 per cent.

For the year to date the gross passenger earnings totalled \$428,846 as against \$397,000, an increase of \$31,746, or 7.9 per cent. over the corresponding period of 1919.

Waste not, want not, says the old maxim; and bear in mind that by not wasting you also lessen the chance of someone else wanting.

BIG PROGRAMME FOR GOOD ROADS CONVENTION

Prominent Speakers to Discuss Various Phases of Road Construction.

Montreal, March 28.—An invitation has been forwarded by the Canadian Good Roads Association to the Lieutenant-Governor of Manitoba, Sir James A. M. Aikins K.C., to formally open the Seventh annual Canadian Good Roads Convention which will take place on June 1, 2 and 3 at the Royal Alexandra Hotel, Winnipeg. Invitations are also being sent to the Prime Ministers of all the provinces of the Dominion and the Ministers of Highways and their deputies to attend the Convention, and from the communications received by the secretary there is no doubt that this first convention of its kind in the West will be a great success. It may seem early days to write in this vein, but so widespread is the interest already taken in this convention that the assertion is fully justified.

From the extreme East to the limits of the West, good roads and automobile organizations have informed George A. McNamee, that they are sending delegates to the convention. The Good Roads League of British Columbia is full of enthusiasm and will send delegates from Vancouver, New Westminster, Victoria and other centres. The New Brunswick Automobile Association is organizing quite a delegation through its president, P. P. Rees, while the Halifax Good Roads Association are also sending a delegation. From Quebec city will come members of the Provincial Government as well as many prominent citizens, while from Montreal there will be officers of the Association and of the Automobile Club of Canada. The Eastern Ontario Good Roads Association are making arrangements for a special Pullman starting from Ottawa for their delegates, while the Ontario Good Roads Association, headed by the new President, Lucius E. Allen, will send a very large delegation who will occupy two or three Pullman cars on the outward journey and are trying to make arrangements to return by boat from Port Arthur part of the way. Many of the delegates from the East, have never visited the West, and so the railway passenger agents are getting together to map out some side trips from Winnipeg so as to provide entertainment for the visitors.

The Central Canada Colonization and Highways Association of Port William, the Commercial Club of Duluth, the Port William Board of Trade are all sending delegates, the former body being keenly interested in a highway from Port William to Winnipeg. Niagara Falls will also be represented as will the Pacific Highway Association of Maryhill, Washington, interested in the highway from Vancouver to Mexico on which will be erected the first portals of peace. Delegates east of Montreal will assemble at the latter city where special Pullmans will be provided, and Pullmans will also be joined on at Ottawa and other points, so that by the time the delegates reach Winnipeg they will be together in one or two special trains.

The programme committee has been hard at work selecting the speakers, and the tentative programme has been submitted to various organizations for approval.

The annual meeting of the Canadian Automobile Association will, as usual, be held during the convention, motorists attending from all the recognized automobile organizations in the Dominion.

The Government roads models of Ontario are being lent by W. A. McLean, deputy minister of Highways for Ontario, as well as a selection of moving picture films showing different methods of road building.

DENT'S GLOVES

Police Court Cases Yesterday

Eleven Drunks Were Remanded — Kenneth Morris and Cornelius Flynn Were Charged With Stealing Oats — Thomas Gallagher Was Charged With Stealing Flour.

In the police court yesterday sixteen prisoners, gathered in Saturday and Sunday appeared before the Magistrate. Eleven drunks were remanded.

Preliminary hearing was commenced on a case where Kenneth Morris and Cornelius Flynn are charged with breaking into the warehouse of Gordon Bell, Br. Main Street, Saturday night and stealing nine bags of oats, valued at \$36.85. Policemen Garnett and McParlane who made the arrests told of tracing the road of the thieves by oats strewn along the way. They found oats scattered in Mr. Bell's eleven off Somerset Street. They visited John Kelly's barn and found a large quantity of oats and Kelly's horse was wet. From information they received they went to Morris' house and arrested him. Morris admitted taking the oats but attributed it to his being drunk. Flynn was in Mr. Kelly's employ and they saw the two men coming from Kelly's barn at two o'clock in the morning. The prisoners were remanded.

Thomas Gallagher was charged with stealing a bag of flour the property of the Canadian Government Marine on Saturday night. C. P. H. Constable Winter told of finding Gallagher alongside the bag which was near the cap of the Long wharf with a rope round it and a row boat moored along side the wharf. C. N. R. Constable Jeffrey said the lights were out about an hour Saturday night and during that time the flour was taken from the shed. The prisoner was remanded.

James Savage and Pearl Smith for not giving a satisfactory account of themselves late Sunday night were remanded. Edward Landry charged with assaulting his wife was also remanded.

A MESSAGE FROM "ALICE"

St. John, N. B., Mar. 29th, 1920.

Dear Mary:—

Since writing you last, I have secured a position with the New Brunswick Telephone Company as an Operator.

I am going to tell you about some of the things we do here.

In the first place, we employ a large number of girls. They like their work and that is a big advantage for them. They are contented and happy.

We are taking on new girls all the time and right now we are looking for a lot. We want them whether they know anything about our business or not, and we will undertake to teach them something useful, and give them a job worth while.

The work is interesting and agreeable, and is the kind that makes you feel as though you had accomplished something when the day is done.

We have a lot of things that some places are just beginning to put in. I know we are one of the first Companies here to give our employees a Life Insurance Policy. Each of us get an Anniversary Bonus at the termination of each year's employment.

Did you ever hear of the beautiful Rest Room we have here, all furnished in wicker furniture with pretty cretonne curtains in the windows. There are books to read and—of course—a Matron to look after us if we are ill.

I could write you a lot more, but come in and see the Chief Operator of the New Brunswick Telephone Company at 22 Prince Wm. Street. She can tell you more about the good chances we have. There are a lot of them, and they pay good money.

Your friend,
Alice.

P. S. Read my fourth paragraph again.

Prevent Idle Machines and Employees

Efficient transmission equipment and labor are two inseparable factors in keeping down manufacturing costs. Each repair you have to make to your belting equipment means idle machines, idle operators and loss of production—the total cost of this in itself is often greater than you would pay for better belting.

Dominion Friction Surface Belting

is built for "service first." Through its long life and continuous performance it practically eliminates the necessity for repairs and replacements. It keeps machines from standing idle and eliminates needless waste of time.

At your convenience, our belting experts will be glad to analyze your transmission equipment and prove to you that you can put in the profit column most of the losses created through idle machines and employees, and other transmission troubles.

All you need to do, is 'phone, wire or write our nearest service branch.

CLASSIFICATION OF CIVIL SERVICE

Postal Clerks Complain That Requirements Have Not Been Met.

(By Canadian Press) Ottawa, March 29.—Mr. W. J. Campbell, Ottawa, president of the Dominion postal clerks, in his annual report to the convention meeting in the city, yesterday, dealt at length with the classification of the postal service.

Petrolia

Mrs. John Smith, Box 258, Petrolia, Ont., writes:

"It is 27 years since I first made use of Dr. Chase's Nerve Food. At that time I was all run down and went away from home for a week."

Meaford

Mrs. Chas. Lyons, Margaret St., Meaford, Ont., writes:

"About three years ago I suffered from nervous indigestion, my system became run down, and I could not sleep. I tried almost every potent medicine I knew of, and doctored with doctors both here and in Toronto, but could not obtain relief."

Perth

Mr. W. J. Wilson, Grocer, Perth, Ont., writes:

"In fitting up this building for a grocery business, I worked very hard, and after putting in my stock I continued plugging away good and hard too. I commenced to feel myself going down—my weight went from 180 pounds down to 154 pounds."

Trenton

Mrs. Chas. Lafferty, King St., Trenton, Ont., writes:

"For some time I was troubled with nervousness, could not sleep well, and was in a generally run down condition. I used to take dizzy spells and sometimes was so bad that I was afraid to walk on the street."

Was All Run-Down

When you say you are "run-down," you are likening yourself to a clock which, from lack of winding, is losing power and grows weaker and weaker in action until it stops.

Dr. Chase's Nerve Food is a tonic for extreme weakness, and it quickly restored me to health. I used it again when suffering from nervous prostration, and it brought back my health and strength.

But where there is life, there is hope. And if you go about it properly, you can restore the wasted nerves and bring back vigor to the human system.

THE STANDARD'S SPORTING SECTION

Kennel Show Review By Judge Wm. Lasky

Commends the Fanciers Upon the Excellent Manner in Which the Dogs Were Put Down — His Remarks on the Exhibits.

Judge Wm. W. Lasky, of Fredericton, N. B., gives the following review on the New Brunswick Kennel Club show:

"The final night of the New Brunswick Kennel Club Breeding Dog Show proved to be the most successful of the winter. The fanciers are to be commended upon the excellent manner in which the dogs were put down; most of the classes were closely contested. Some of the breeds left over from the previous evenings shows on hand were:

"Pointers—Three decent ones. First award of these went to Fred Cunningham's good bitch, 'Viny Ridge' who is nicely put up winning here on condition and good front.

"Reserve and best of the two dogs was Jas. Leinster's 'Laddie' a hunting dog with type and substance, has an advantage in body being shorter in the back and on a better appearance, can go higher next time. Third here a big dog of Thomas Durrstok's is a bit plain and not in form.

"Boston Terriers showed a couple of new ones including the winner of the special being W. S. Fairweather's 'Sussex Lass' of Sussex, N. B. She is a nice bodied bitch, not finished yet in head, uncropped, is a lightweight. Reserve was that good dog of Harold H. Evans 'Evergreen Pippina' over twenty-two pounds, a typical real British compact dog, placed behind here on his misbehavior.

"Retrievers, only one 'Trix' owned by Chas. Perry, just fair, shown over-weight.

"One lone White Spitz appeared, but was too young to show.

"Another lonely was a Schipperke owned by Scott E. Morrill, a black, one of the cobby sort, somewhat plain in head yet a perky dog.

"First of the variety classes was for best puppy any breed which introduced a likely array of youngsters, terriers predominating and coming out on top. The special for this went to that flabby smooth fox terrier 'Master Ted' owned by Walter B. Smith. He is a black and white dog with tan head markings, sound on all fours, short in back, good legs, feet and front with a strong, shapely head. Reserve to him, LeBaron Wilson's 'Northern Britling' a good type of wire dog to win but placed second here on size and condition. Both puppies are local bred ones.

"Best of Sporting Dogs brought out on top for the special the parli cocker 'Champion Sir Nangis' a dog fearlessly shown since our last winter show and won his well merited honor of champion. He looked better here than his last exhibition a few months ago. Reserve to the cooler, the well known 'Tristram' of G. B. Taylor's 'Barney II.' a good sound dog shown in good weight, less to the cooler in expression and action behind; also believe the cooler more typical representative of his breed.

"In Non-Sporting Variety Class the winner was Geo. Parker's real Frenchy 'Doncella', a sturdy dark brindle bitch that is low, best of shoulders and grand body, well ribbed, good front and headpiece, looking fit and moved well. Next to this one was Mrs. J. W. Cameron's rough collie 'Ormskirk Squire' always around for first money. This collie a bit more on the leg and improved in ear can trouble the best of them.

"Best Terrier, any variety, was awarded to Barry Wilson's wire fox terrier 'Crisp Corporal' well known here. A balanced senior sound at both ends though not shown here in his best form, has naturally a good coat. Reserve to him Robert Magee's Irish terrier 'Maritime Michael' big enough lower here in head. He is a nice colored red, good legs and feet and a real shower. Did not have his right coat with him.

"Best Local Bred, any variety, was another win for the smooth 'Master Ted' owned by Walter B. Smith, reviewed before. Second here, running close was that good red setter of G. B. Taylor's, lower here to the smooth on condition, the terrier also stands truer in front and moving better behind.

"Best Dog in the Show brought several close together for highest honors with the cooler spued 'Ch. Sir Nangis' the wire fox terrier 'Crisp Corporal' and the Frenchman 'Doncella' placed as written. The cooler is just as well balanced and typical as the cooler but scores over him in eye and condition. The French bulldog a close third win for best of opposite sex to the cooler dog proving her best bitch in the show.

"This ends the season's evening shows and such doggy events are a useful help to maintain interest among club members and fanciers in general. They are occasions now looked forward to keeping alive the interest in dogdom from one annual show to another, gives an early opportunity to show new dogs and see puppies get experience with their friendly rivals. It gets new members for the club, sales are made and the exhibitors concern themselves with what it is possible to do to improve the next show and if possible their dogs.

"Honor has it another good entry of dogs are to try again for honors in Montreal at their spring show. May they not only repeat but do more than their last showing in that city."

OLYMPIC HOCKEY TEAM

Pittsburgh, Pa., March 29—Eleven players will make up the American Olympic Hockey Team which will sail from New York April 7 for Antwerp to take part in the hockey Olympic championship April 20 to April 30, according to an official announcement made here today.

Local Bowling

SENIOR BOWLING LEAGUE.

In the Y. M. C. A. Senior Bowling League last night the Business Men took all four points from their opponents, the Seniors. The points scored were:

Business Men.	Seniors.

The Ford Motors and Ames Holden roll in the Commercial League, the Tigers and Rose in the City League on Black's Alley tonight.

McAVITY ROLL OFF.

The Vulcan and King Street wholesale bowling teams in the McAvity League, the winners of the first and second series, started in on the Victoria Alleys last night to play off for the Championship. Total pins taken. There was plenty of excitement last evening as there were many rosters for both sides present. The game was won by the Vulcan team, the score being 1351 to 1274 giving the winners a majority of 77 pins. The games will be continued tonight and Wednesday night.

The King Street wholesale has held the Championship Cup for a few years but now with one game to the good the Vulcan team is fighting hard to land the honors. The individual scores last night follows:

Vulcan.
Garnet ... 92 112 112 233 107.2-3
Parlee ... 69 68 93 230 76.2-3
Bickerstaff ... 71 81 83 241 80.1-3

East End League Special Meeting

Large Attendance of Members in Thorne Lodge Hall Last Evening — By-laws Were Passed and Other Important Matters Discussed.

There was a well attended special meeting of the East End League held in Thorne Lodge Hall last evening with President D. A. Ramsey in the chair. The by-laws were discussed, of some length and finally passed, a copy will be given each member when printed. The different organizations in that section of the city were represented and it proved the best meeting yet held. Base ball and other athletic events for the coming season were given attention and will be further discussed at a meeting of the central body at a later date.

The league has procured adjoining grounds to the present one and has been promised 150 loads of shales to help fill in and work will be commenced in a short time. It is the intention to have the new grounds for the intermediates to play on and not interfere with the seniors. All present at the meeting were enthusiastic in making the coming season the best ever.

EXHIBITION GAMES

Jacksonville, Fla., March 29—Exhibition. Brooklyn Nationals ... 3 0 0 Washington Americans ... 0 3 0 (Ten innings, darkness).

Batteries—Smith, Cadore and Miller Krueger; Johnson, Erickson and Pichol, Garrity.

Mobile, Ala., March 29—Exhibition. New York Nationals ... 6 7 3 Boston Americans ... 0 2 3 Batteries—Barnes, Hogan and Gonzales; Snyder; Flaherty, Fortune and Walters, Livingstone.

Ashville, N. C., March 29—Exhibition. Detroit Americans ... 13 12 3 Boston Nationals ... 2 4 3 Batteries—Lova, Glasier, Almsmith and Woodall; Oeschger, Scott, Morgan and O'Neill.

Jacksonville, Fla., March 29—Exhibition. New York Americans ... 8 16 4 Cincinnati Nationals ... 7 10 3 Batteries—McGrigg, Mays and Ruetter; Lova and Wingo.

Arthur (bitingly)—I suppose you consider it a triumph to make a fool of me?
John (sweetly)—Oh, no! A triumph means accomplishing something that was very difficult.

Biggest Sporting Week-End Since War

(Copyright by Strode-Jackson.)
London, March 29.—This has been the biggest sporting week-end since the war. Friday saw tens of thousands watching the Grand National steeplechase, while on Saturday two semi-finals of English football cup contests were played in the presence of enormous crowds. Aston Villa defeated Chelsea, 3 to 1 and Huddersfield defeated Bristol City, 2 to 1. King George watched another football match at Manchester.

Cambridge crew won over Oxford under the eyes of a million enthusiasts who lined the banks of the Thames, but an hour earlier, Oxford won in athletic sports, capturing five events to Cambridge's four.

COACH OF CORNELL LACROSSE TEAM

Ithaca, N. Y., March 29—Nicholas Shawet, of Toronto, newly appointed coach of the Cornell Lacrosse team, who was refused admittance to the United States on the ground that he was a "contract laborer" reached here today and assumed his duties. Negotiations by graduate manager Romagna Berry resulted in the border barrier being raised.

Intermediates And Seniors To Play

Final Basketball Match of the Season to be Played Thursday Night—Y.W.C.A. and Fairville Girls to Play.

Keen interest is being aroused in Y. M. C. A. circles over the coming basketball game between the Seniors and Intermediates in the final match of the season. The interest is fully justified in view of the reputation for speed and team work which both teams have acquired in the different games in which they featured throughout the winter, and moreover as the result of the game will in all probability be in doubt up to the very end of the last period.

The preliminary match will be a good one too, when the Y. W. C. A. meet the Fairville girls in a return match. The "Y" girls are determined to break even with their fair opponents from across the bridge, as the "Contract laborer" reached here today and assumed his duties. Negotiations by graduate manager Romagna Berry resulted in the border barrier being raised.

Zbyszko Threw Olin of Finland

New York, March 29.—Stanislaus Zbyszko, Polish heavy-weight wrestler, threw John Olin, of Finland, in a catch-as-catch-can contest here tonight in 53 minutes and 27 seconds with a combination body and toe-hold. The bout preceded one between Jim Londos, the Greek title holder, and William Demersal, challenger, who lost to Londos recently.

Zbyszko made his first appearance in Manhattan since his return from Russia, where he had been detained during the war. He showed his old-time skill and weakened his opponent who was of equal weight, with a toe-hold. Olin used the head lock frequently.

TO PREVENT FIGHT.

Windsor, Ont., March 29.—The border cities' Ministerial Association announced today that an effort will be made to prevent the Wilde-Young Zulu Kid fight, scheduled to take place here on April 12, upon the grounds that it is a prize-fight and as such is demoralizing.

Produce more—that is the need of the time; but only second in importance is the economical use of what is produced. And economical use means wise use without waste.

St. John Headed Canadian Teams

In Y. M. C. A. Hexathlon Series All Over Continent Local Team Lead All Other Canadian Teams in Its Class —A Record to be Proud of.

News which should prove most gratifying to the boys of St. John Y. M. C. A. reached the city yesterday announcing the fact that in the Hexathlon, a series of athletic events in which Y. M. C. A. teams all over the continent competed, St. John headed the teams in its class for all Canada, leading Westmont, the nearest competitor, by forty-nine points.

This speaks well for the work of the boys, and volumes for their popular and hustling physical instructor, T. C. Armour. In addition to St. John's proud record, another N. B. team, that of Moncton, came third. As the returns for Class C are not all in it could not be determined just how St. John's record stood with the team in the same class across the border. The returns are in for Class A, however, and two Toronto teams lead the whole continent finishing

Y.M.C.A. PROVINCIAL SWIMMING CHAMPS

Now that the Circus is over, stress is being put on the Y. M. C. A. Provincial Swimming Championships that are to be held on Thursday, April 8th in the Y. Swimming Tank and from all indications a good entry is expected. The various swimmers of the city are reminded that these Championships are open to all athletes holding Amateur Cards, and they do not necessarily have to belong to the Y. M. C. A. Entry lists and program of events may be had by applying to Physical Director of the Y. M. C. A.

Money wanted may be replaced; but wasted time is gone beyond recall, and wasted energy of mind or body are drafts upon the best of possessions that each waster will, some day regret he has made.

First and second in the international competition.
The Canadian results follow:
Class A—Toronto Central, 6429 points; Toronto West End, 5186 pts.; Montreal Central, 2540 points.
Class B—London, 2701 points; Ottawa, 2472 points; Hamilton, 2009 points.
Class C—St. John, 2429 points; Westmont, 2280 points; Moncton, 2304 points; Victoria, 2211 points; Montreal, North Br., 1839 points.

CANADIAN IRON ORE.

Some years ago the Provincial Government made a number of important concessions to the Drummond Mines, Ltd., with the new of establishing and developing the iron mines in the County of Gloucester. Bonds were guaranteed to aid in the construction of a railway from the mines to the main line of the Intercolonial and other assistance given to enable the company to make a start. After a time some mining was done, and the ore was shipped away by steamer to some smelting works in the States, but it was found that the ore was of so low a grade that, after a short period, operations ceased altogether, as it was found to be too costly to continue working.

Conditions such as were found to exist in Gloucester are to be found in most, if not all, other places in Canada. Canada contains a vast quantity of iron ore—hundreds of millions of tons are known to be available. But none of it is used. Canadian iron and steel works use United States ore altogether—two million tons of it a year. This is partly because the American ore is of better grade, partly because large capital is necessary to develop iron mines, and Canadian capital will not go into the business with a certainty of heavy initial loss.

But a bounty of 75 cents a ton on Canadian production, it is estimated, would offset both American ore advantage and American capital advantage. It would enable profitable development of Canadian iron mines. And if the whole importation of American ore were to be shut off—the whole two million tons of ore at present used by Canadian blast furnaces were to come from Canadian mines instead of from foreign mines—the total cost in bounty to Canada could be only a million and a half dollars per year, for a limited period.

In return, not only would Canadian iron mines develop, but their development would promote further iron and steel works in Canada. What this would mean is illustrated by the fact that last year, our imports of manufactures of iron and steel from the United States came to the tremendous sum of \$186,000,000—more than one-half of the entire excess of American imports to Canada in our exports. This is a very significant thing, at a time when the adverse balance of trade and exchange hurts us so.

Iron and steel enter into every activity of human life, to a greater extent by far than any other product. Canada is a great agricultural country; but every well-to-do farmer in Canada uses from \$1,000 to \$5,000 of iron and steel on his farm. It is to the interest of the farmers beyond that of any other class that Canada should develop the greatest possible iron and steel industry, for eventually that will mean cheaper iron and steel than she gets now, or would get from foreign industry.

The question of the advisability of a Canadian bounty on the production of Canadian iron ore will come up in the Dominion Parliament shortly, and it would be as well that those who will be called upon to deal with the question should make themselves conversant with the subject.

INCOME TAX RETURNS.

Many people may need reminding that it is at this time of year income tax returns are to be made to the Department of Finance. The newspaper advertisements and the posters in red and black type that are put up in post offices and other conspicuous places, may escape the notice of some persons who are eligible for assessment on income. In order, therefore, to assist such of the public as are required to make a return, the Mail and Empire gives the following reminder to the various classes concerned:

Returns falling under Class 1 are not in many cases likely to be behind time, for that class has to do with people whose methods are supposed to be strictly business-like. It includes trustees, executors, administrators, agents and assignees; it includes employers who are to make a return of the names and amounts paid to all directors, officials, agents or other employees; and it includes joint stock companies, who are required to make a return of all dividends and bonuses paid to shareholders and members during 1919. For Class 1 the forms must be filed in and sent in not later than tomorrow, the 31st.

Class 2 is the one particularly required to stand at attention now. It takes in all individuals, farmers and ranchers, and corporations and joint stock companies. The returns for Class 2 must be filed on or before the 30th of April. The individual's memory sometimes needs to be jogged. It is a serious matter for any person who is liable to taxation to fail to make his return within the time limited. The person who neglects to make the return in due time is subject to a penalty of 25 per cent. of the amount of the tax payable, and any person, whether taxable or otherwise, who fails to make a return or provide information duly required under the provisions of the Act shall be liable on

summary conviction to a penalty of \$100 for each day during which the default continues. The penalty for making a false statement in any return is not to exceed a fine of \$10,000 or a term of six months in prison, or both. And the Act does not require the Government or the Commissioner of Taxation to issue any notice or demand. People are expected to keep mindful of their annual duty in this respect, and the newspaper advertisements and the posters are expected to keep them from forgetting.

Every unmarried person, every widow and every widower without dependents, as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more must make a return. All other individuals who during the calendar year 1919 received or earned \$2,000 or more must make a return. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919 must make a return. Each person knows his own affairs, and is expected to send in a return if his receipts for the year 1919 come up to the amounts specified. The unmarried person, the unencumbered widow or widower who received the gross sum of \$1,000 in the calendar year 1919 must obtain a form, fill it in and file it on or before the 30th of next month. All other individuals who in that year received or earned \$2,000 or more do likewise. People who never had occasion to make income returns before are in danger of being inattentive to that duty when their income rises to the taxable limit. It is the new additions to the taxable class who are particularly in need of reminding that they are in that class and will be required to contribute to the Federal Revenue.

The first thing to be done is to obtain a form. That can be had from the local Postmaster or from the Inspectors or Assistant Inspectors of Taxation. When the form is obtained it is to be read carefully and its blanks filled in. The country is divided into Taxation Districts, over each of which there is an Inspector. To him applications for forms and for information can be sent. Inquiries and applications will receive prompt attention. The all-important thing is to have the return filed before the end of next month. The sooner that business is attended to the sooner it will be off the citizen's mind. The return is the basis on which the person making it will be taxed.

THE HIGH COST OF LIVING.
If the Problem of What Caused the High Cost of Living is still unsolved, it is not because of the lack of number and variety in opinions offered in respect thereto. The manufacturer and the workingman, the farmer and the idle rich, and all those who come in between bear their share of criticism, so extended is the ground covered by the critics in their endeavor to pin the real culprit to the ground. And the worst of it is that all these critics are right, speaking broadly. Everybody is to blame, more or less. There never has been in the history of the world an era approaching the present extravagance. Money never before was so abundant and in so many hands, and the consequence is that there are ten free spenders to day where formerly there was but one. The war created a shortage of goods and materials. But also the war increased the supply of money. It is authoritatively stated that the money in circulation in the world today is seven times greater than was the case before the war. But the supply of gold is not greater. Thus the war operated disadvantageously in two directions. It created a shortage of supplies and increased the purchasing power of the people. For example, though the cost of silk stockings is quality considered, even five times greater than before, the consumption of these goods is enormously greater.

The output of automobiles this year will strain the last resource of the steel mills. Why? Because the need for these vehicles is so pressing? Not at all. It is because Tom, Dick and Harry have the money, and they intend to have as good a time as their neighbors. Our extravagances might be enumerated at length, as thousands are consuming labor and materials that otherwise would find their way to pressing public and private needs—homes, food, clothing, footwear. The law of supply and demand will not be denied. The more insistent the demand the higher the price. Hence, why seek the High Cost of Living culprit, when the responsibility is so general and widespread?

WHAT OTHERS SAY
A New Result of Prohibition. Buffalo Express: Intoxication cases have dropped off in the Niagara Falls police court since July 1, but domestic relation cases have increased, according to Police Superintendent Curry. Police Judge Piper also noted the increase in domestic relation cases.

Prohibition, they say, has evidently turned men's thoughts to other channels than drink. Quarrelling at home, for instance? Is it a change for the better?

Mixed.
London Free Press: A "jam stripe" dancing the fox trot with a "cubist check" will soon provide our golden youth with all the sensations of a jag without any of the after inconvenience.

No Offence Intended.
Punch: We understand that the vicar who recently said to a member of the local council, "You might be a cabinet minister yourself one day," has consented to apologize.

Pipe Dreams.
Vancouver Province: A far paper says this is the season of the year when the city man sits in an easy chair and figures what fun it would be to rotate the big vegetables shown in the seed catalogues.

Sir Conan's Contentions.
Columbia Record: Sir Oliver Lodge says that some spirits talk "rubbish." That seems to support Sir Conan Doyle's contention that there is alcohol in the next world.

Still at War.
Detroit Free Press: A German vessel is denied admission to Newport News until the State Department can make up its mind whether we are still at war with Germany.

Bolshevism has accomplished many startling changes in Russia, but no change that would justify remaining the country "Dopia."

"Jacob's coat was never in it for colors," advertises the Printing Ink Co. Why do they always speak on Jacob?

Everybody Happy.
Much to his annoyance, they were late for the game, arriving at the sixth inning.

"What's the score, Fred?" he asked a fan.
"Nothing to nothing."
"Oh, splendid!" he exclaimed radiantly. "We haven't missed a thing."

Oh, Sugar!
Mrs. Newed—What kind of sugar is this?
Grocer—Best beet, lady, very refined.
Mrs. Newed—But haven't you the proper kind to use on sliced tomatoes?

She Warned Him.
Wife—Well, dear, I shall have to do the cooking now. Cook left without warning this afternoon.
Husband—Not exactly without warning. She told me this morning I had better bring some indigestion pills.

A BIT OF VERSE
THE THINGS HE FOUGHT FOR.
When Hiram Dud, M. P., came home, His neighbors pressed him sore, They changed him with a lot of swank, And laid some graft around his door; But Hiram is a cunning man, And wise in his meanders, He bellowed: "Would ye bring to naught the things for which our kinsmen fought, Upon the fields of Flanders?"

When Wheedle Jones went selling stocks To the people of his town, He found, despite his list of talk, They very often turned him down; But Wheedle, too, was up-to-date— A prince of order leaders—naught.

The things for which our soldiers fought, Upon the fields of Flanders?"
When Wheedle Jones went selling stocks To the people of his town, He found, despite his list of talk, They very often turned him down; But Wheedle, too, was up-to-date— A prince of order leaders—naught.

Miss Sady Shriek took up a "cause"— "Twas dearer than her life— She travelled through the countryside And rattled up a lot of strife, Her message to the yeoman was, To change his breed of ganders; They mocked her till, oh happy thought, She shrieked, "and would ye bring to naught the things for which our soldiers fought, Upon the fields of Flanders?"

Now every day the veteran wakes New wonders greet his ears; At many things he hears; But daily grows that artful crew Of gulleit slobber handers, Who echo, "Would ye bring to naught the things for which our kinsmen fought, Upon the fields of Flanders?"

Montreal, March 22.

THE LAUGH LINE
Nicely Caught.
They were sitting at a dance. He: "Here comes the young parson, I wonder if he means to join us?"
She (frigidly): "Wouldn't it be advisable for you to propose first?"

The Unpopular Atheist!
"I sneezed a sneeze into the air, It fell to earth I knew not where; But hard and cold were the looks of those, In whose vicinity I sneeze."

Proving it.
Doctor—There is absolutely nothing the matter with you, my dear lady, Let's—Nothing the matter with me, Suzanne, cough for the doctor the way I coughed last night.

Knew By Experience.
"So our dentist friend has purchased a mining prospect."
"Well, he ought to win out. That fellow can hit a pay streak with the least drilling of anybody I know."

The One Who Suffered.
"So," said old Kloseman, "you must give up smoking; it affects the heart."
"Don't worry, father; my heart's all right."
"That may be, but it gives me palpitation every time I see you light one of those cigarette cigars."

Benny's Note Book

BY LEE PAPE
We was having language in school yesterday, and Miss Kitty asked if anybody knew the meaning of the definition of intimate, which nobody sed they did, and Miss Kitty sed, Intimate means very friendly, very familiar, for instance, if you have known people all your life you address them by their first names, in other words you are intimate with them.
Me thinking, Gosh, I've know ma and pop all my life, why cant I call them by their first names?
And after supper pop was reading the sporting page in the setting room and ma was looking at the jokes without laughing, and ma sed, Will you, its nearly 8 o'clock, wed better be starting if we want to see the hole picture.
Rite away, half a minute, sed pop keeping on reading.
Are you and Will you going to the movies, Pawleent? I sed.
Wat, wat? sed ma. And she looked at me and looked at pop, and pop looked at me and looked at her, saying, Wat was that you sed, Benny?
I asked her if you and her was going to the movies, are you, Will you? I sed.
Did you hear the same thing I herd, mother? sed pop. I must of sed ma.
Benny, is your brains working rite this evening? sed pop. Yes sir, Miss Kitty told us if we have known people all our life we are intimate with them and can call them by their first name, and I've know you and ma all my life, aint I? I sed.
The things not absootly illogical, sed pop.
Its perfectly redickless, sed ma, and pop sed, Benny, your mother duzent seem to see our point of view in this matter, please sed you and your mother constitute a majority in this house, please dont spring anything like that agin, or you'll get into trouble. Wich I wont, once being ed I wanted to spring it enyways.

Organized General Assessment League

A large meeting of the property owners and tax payers opposed to the proposed taxation of abutters for street paving, was held in the Dearborn building, Prince William street, last night, where they organized as the General Assessment League and adopted the Dearborn Building as their headquarters in the coming campaign which they propose carrying on against the bill now before the city council. It was announced at the meeting that three of the city commissioners had decided to present the bill as Frederick and the meeting thereupon formulated plans to follow the bill to the capital and employ legal advice as an aid in their fight against its adoption. Some very bitter and caustic remarks were made during the meeting concerning the "smack" which the mayor of St. John had received when one of the delegates of the meeting had asked him to support the legislation to a resolution opposing the Abutters Tax. For the benefit of all present the resolution which was signed by three of the commissioners, but which nevertheless was considered a direct affront by his worship was read. "Whereas the St. John paving programme for the present year is being seriously delayed and interfered with by the division in the council on the question raised since the receipt of February 23rd of tenders from contractors for the paving by levying local taxes on abutting property, "Therefore we the undersigned as members of the common council desire to place on record our position on the question. We are opposed to legislation taxing abutting properties for any portion of the cost of paving business an thorough traffic streets. Signed, G. FRED FISHER, Commissioner of Public Works JOHN B. JONES, Com. of Water and Sewerage JOHN THORNTON, Com. of Public Safety. It was further stated that Commissioner Bullock had also been waived.

Isn't It Wonderful?

THIS tin of Klim, pasteurized separated milk in powder form, represents the modern development in the use of such milk. Just as the flour mills make better flour than the old-time grind-stone method, so is Klim purer, less expensive, less wasteful and easier to keep than the same milk in liquid form. Get Klim from your grocer. Use from the tin as needed. Will not freeze nor turn sour. No bottles to wash, no tickets to buy. Write for "The Wonderful Story of Klim," an interesting recipe book.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.
Made in Canada.

Paving Bill Was Finally Adopted

Plebiscite to be Taken at Primary Election Next Month to See if Abutters Will Pay One-Third.

The City Council finally adopted the paving bill yesterday, and ordered it to be sent to Fredericton. A plebiscite on whether abutters will pay one-third of the cost of permanent paving will be taken at the primary election next month. Apart from changes already reported, the Commissioners only one slight change yesterday. It was said that under the present local improvement act abutters pay interest on the whole of their share of the cost for the whole period of payment, no deductions being made for the portions paid off from year to year. Chairman of Assessors Olive, called in, said abutters were now assessed for interest on the full amount for the whole time. He did not think this was right, but they had been given the figures by the engineer. It was decided to put in the new bill a clause providing for equal annual payments on the basis of amortization, so abutters would not be compelled to pay interest on capital amounts paid off. Com. Fisher said he did not approve of the bill. Besides it was delaying the programme of permanent paving. Mayor—it hastening the program. Com. Fisher said there was a universal feeling against the bill. Moreover, it would destroy a good feature of the old act which permitted side-walks to be dealt with apart from the streets.

ARRANGEMENTS FOR PRIEST'S FUNERAL

Last evening the remains of Rev. A. J. O'Neill were taken by a guard of honor, composed of members of the congregation, accompanied by clergymen from his residence to the Church of Assumption where a committee of the laymen remained during the night. Solemn Pontifical mass of requiem will be celebrated at ten o'clock this morning by His Lordship Bishop LeBlanc. The funeral oration will be delivered by Rev. A. W. Meahan, D.D., rector of St. John the Baptist church. Interment will be at the new Catholic cemetery. Rev. Joseph McLaughlin, C. S. S. R., Toronto, is expected to reach here today, and no doubt there will be a large attendance of the priests from the outside districts. Very Rev. Dean Charles Collins, P. P. Fairville, has charge of the funeral arrangements. Rev. J. J. McDermott, Sussex; Rev. J. J. Ryan, Milltown, and Rev. Harold Coughlan, St. Martins, reached the city yesterday to attend the funeral. Father Ryan is the guest of Rev. C. P. Carleton, Silver Falls.

Large Meeting In St. Andrew's Church

Dr. John Pringle, Moderator of General Assembly of Presbyterian Church Touched on Many Interesting Matters in Address Last Evening

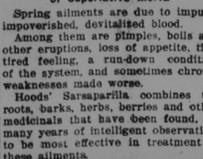

Dr. John Pringle, Moderator of the General Assembly of the Presbyterian Church, said he was not afraid of the higher critics or the results of the higher criticism, in his address before a large meeting in St. Andrew's church last evening. He thought students in college should be taught all there was to know; intelligence about the enemy was valuable. He was afraid, however, that there might be a tendency to turn out ministers knowing more about the casket than the treasure within the Bible. The preacher said that the church had often failed, but it was not altogether a failure. It could not fall in the long run because God was the head of the church. At the same time God was slow because He had poor laborers to assist Him. The spread of the church in Canada had been marvellous, or marvellous, and it was now the biggest business in the country. As evidence of its activity and resource and its hold on the people he cited the success of the Forward Movement, which was mainly due to the business men of the country. He was of opinion, however, that collecting money was not all that was needed. The church had to prove its worth by helping to solve old and new problems. As regards Bible teaching in the schools Dr. Pringle said that with the

Another Gold Shipment

New York, March 29.—Announcement was made of another small shipment of gold from London unrelated to the recent movement from the Bank of England, and a small shipment of the metal was made to Cuba, presumably for account of raw sugar.

LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

Magic! Just drop a little Freezone on that touchy corn. Instantly it stops aching, then you lift the corn off with the fingers. Truly! No humbug! Try Freezone! Freezone is the discovery of a noted Cincinnati genius.

FUNERALS

The funeral of Miss Mary Ellen Robinson was held yesterday afternoon at 2:30 o'clock from her late residence, 57 Union street. The Rev. S. S. Poole conducted the service and interment was in Fernhill cemetery.

OBITUARY

Mrs. A. S. Wilson. The death of Mrs. Louisa E. Wilson took place early yesterday morning after a short illness at her home, 111 Paradise Row. Mrs. Wilson was the widow of Amos S. Wilson, barrister, of Dorchester, N. B., and daughter of the late James Harris, who will be remembered as proprietor of the Harris car works in this city some years ago. Four sisters survive, Mrs. Wm. Esson, New York; Mrs. John Thornton, New York; Mrs. Jas. Robertson, Swerby, Penn.; Mrs. James Mowat, Enderby, B. C.

Common Council Meeting Yesterday

Com. Jones Suggests That the North Side of King Street be Torn up to Put in a Main — Improvements for the Market.

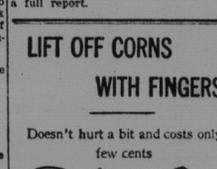

That the North side of King street may be torn up this year to put in a 16-inch water main was suggested by Commissioner Jones at the meeting of the City Commissioners yesterday. Commissioner Thornton brought up the matter of installing a new scale and overhead track system in City Market at an estimated cost of \$1,000. He said he did not think it worth while to call for tenders; there would be no competition. Commissioner Jones could not see any need of the overhead track system. It was no improvement over present arrangements, and no benefit to marketmen. More men would be required to handle the meat. Commissioner Thornton — "Where did you get your information?" Commissioner Jones — "Mr. McGrath." Commissioner Thornton — "He is not interested. Ask some of the men who have the system—it facilitates handling of beef." Commissioner Thornton said they should have up-to-date systems. Moreover, they would have to pay out \$4,000 or so for painting and repairs. Commissioner Jones — "When Mr. McAllan took hold he said everything was run down, and he would have to spend \$8,000 or \$9,000." Commissioner Thornton — "The market is not up-to-date yet." Commissioner Jones — "The present system has obtained for a long time." Commissioner Thornton — "That is no argument. It is time for improvements." The Mayor said the market was paying its way, and a little bit over, and the surplus should be put in improvements. It was decided to install the scales and overhead tracks; cost of both, \$1,000. Commissioner Thornton moved that a disabled horse in the fire department be sold to Thos. Hayes for \$175. Commissioner Fisher — "Why didn't you call another veterinary in consultation?" Commissioner Thornton — "If the veterinary employed by the city is not good enough we ought to sack him." Commissioner Fisher — "But two doctors are better than one." Commissioner Thornton's motion was adopted. Commissioner Fisher — "I'd like to know what Commissioner Thornton means when he says the public works department has too many engineers?" Commissioner Thornton — "I mean too many heads, not too many engineers. I believe one man should have general authority." Commissioner Fisher — "The question of the authority of the city engineer and the road engineer has been debated before."

Common Council Meeting Yesterday

Commissioner Jones said Moses, Tobias & Ferris wanted an extra 40 cents per yard for excavating a trench on the North Side of King street. This would make the figure \$150 per yard, adding a total of \$380. The water pipe on the North Side of King street was 32 years old. The proposed to put in a new 16-inch main. Mayor — "Could this work be done before exhibition?" Commissioner Jones said the work would take a month. He will bring in a full report.

STANLEY C. WEBB, Manager.

EMPERESS OF FRANCE

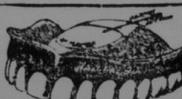

The C. P. O. S. Liner Empress of France sailed from Liverpool yesterday for St. John with passengers, mails and general cargo.

Brotherly Kindness

Mrs. Newlyrich, by virtue of her husband's wealth, had obtained an invitation to a big dinner party and as who was being phoned from drawing room to dining room she noticed a marble bust on one of the pillars in the hall.

"Do you know who that is?" she inquired of her escort. "That is Marcus Aurelius," was the answer.

"Oh, is it now?" ejaculated the woman. "But can you tell me," she added promptly, "whether it is the present or the late marquis? I do go so mixed up."

TRADING LIGHT ON WALL ST. MONDAY

And Business Generally Was Rather Unsatisfactory.

(Furnished by McDougall & Cowans.)

New York, March 29.—The afternoon market was an unsatisfactory affair to all except those willing to bet upon the actions of a few pools.

The efforts of professional traders to depress the market did not make much headway during the forenoon or early afternoon; the only price changes of moment occurred in a few specialties where a large short interest was said to be more or less locked in.

In the latter part of the day the volume of trading was light, which fact was partly due to interruption of wire service by storms in the Middle West.

Most of the day the volume of trading was light, which fact was partly due to interruption of wire service by storms in the Middle West.

PROVINCIAL NEWS

FROM OUR CORRESPONDENTS

Woodstock

Woodstock, March 24.—Mrs. W. P. Jones who has been the guest of her daughter, Mrs. Fred C. Morrell, at Newmarket, returned home on Saturday.

Harold Deming who has been visiting in town for the last few weeks returned to Campbellton on Wednesday.

Messrs. C. Gordon Sharpe, G. Stirling Penbody and Charles Peabody, returned on Thursday from Fredericton, where they were attending a meeting of the Purmors and Dairyman's Association.

Dr. Stanley C. Neales, of Lawrence, Mass., who has been spending the past week with friends returned to his home on Friday.

The marriage of Miss Lillian Myrtle, eldest daughter of Mr. Cyrus Vanway, of Woodstock, to Mr. James Anderson Harris, of Woodstock, took place on Friday, 17th. The Rev. Frank Beard officiated.

Miss Hume, of Sherbrooke, P. Q., is the guest of Mrs. E. A. Raymond, Mrs. (Dr.) Britton, of Montreal, is spending a month with her mother, Mrs. G. W. Upham.

Mrs. A. D. Holyoke entertained at bridge on Friday evening in honor of Mr. and Mrs. C. O. Macdonald.

Mr. W. Donald Rankin Jr., is in town for a few days, in the interest of the National Ship Building Corporation, Three Rivers, P. Q.

Miss Marjorie Rankin entertained a few friends at bridge on Friday evening in honor of Mrs. Hume, Sherbrooke, P. Q., who is the guest of Mrs. E. A. Raymond.

Mrs. A. H. Prescott gave a small bridge on Thursday evening in honor of her guest, Mrs. Roy Ferris, of Paris.

Mrs. T. M. Jones entertained at a small bridge on Friday evening in honor of Miss Jean Sprague. The prize was won by Mrs. H. H. Ritchie.

Mr. W. P. Jones returned home from Fredericton on Saturday.

Mr. and Mrs. Charles P. Rogers and children who have spent the winter at Kilmarnock, returned to Woodstock last week.

Mrs. F. W. Kelly, who has been spending the past month in town, left for Boston on Wednesday, where she will be the guest of Mr. and Mrs. Norman Leves. Later she will be joined by Dr. Kelly and will accompany him to Baltimore, where Dr. Kelly will take a post graduate course in the Baltimore Dental College.

Mr. and Mrs. Roy Ferris spent the weekend in Fredericton.

On Sunday morning a very impressive service was held in St. Luke's Church, when the Bishop of Fredericton instituted Rev. H. P. Rigby into the care of the Anglican Churches in this parish. In the evening the Bishop preached to a large congregation on the duties of the people as the result of the forward movement. The music on both occasions was exceptionally good.

Mr. and Mrs. Carl Rhodes Douglas will have general sympathy in the death of their little son, John, which took place at the home of Mr. and Mrs. S. L. Lyonn, on Saturday morning. Mrs. Douglas arrived here from Halliwell last week with her little son, thinking a change would benefit his health which had not been very good, and although every thing was done in the way of medical aid and tender care he passed away. The remains were taken to Halliwell for burial.

A quiet wedding took place at the home of Mrs. William Glidden on Wednesday, when Rev. Mr. Auckland united in marriage Mrs. Myrtle Carpenter and Mr. Henry Carpenter, of Union Corner. The bride was attired in her travelling suit of brown cloth with black hat. Mr. and Mrs. Carpenter left on the afternoon express for Fredericton.

Mr. Edward Deming who spent the winter in Campbellton, returned to Woodstock last week.

The Mission Study class of the W. M. S. of the Methodist Church was entertained at the home of Mrs. R. E. Holyoke on Tuesday evening. The lesson for the evening was the medical mission work in Korea. The evening finished with an hour of social and friendly conversational duty refreshments were served.

The Senior Branch of the Women's Auxiliary of St. Luke's Church, at the annual meeting recently held, elected the following officers: Pres., Mrs. W. B. Belyea; 1st. Vice Pres. Mrs. H. A. Seely; 2nd. Vice Pres. Mrs. W. G. Glidden; Rec. Sec. and Treas., Mrs. B. H. Smith; Cor. Secy., Mrs. Phillip Saunders; Dor. Secy., Mrs. George Gabel; Babys Branch, Mrs. McKinnon.

Andover

Andover, March 23.—Mr. McMonagle, of Grand Falls, spent part of the week here, Monday being his day.

Mrs. John Wright, of Gillespie, is the guest of her son, Mr. George Wright, and Mrs. Wright.

Mr. Fred. C. Squires, Woodstock, was here last week.

Mrs. R. W. W. Earle entertained the Afternoon Auction Club very pleasantly on Tuesday afternoon, and also invited several other ladies in for the game, including Mrs. Harry Tibbitt, Mrs. Harry Hopkins, Mrs. J. W. McPhail and Mrs. L. Hutchings.

Mr. Ernest Hoyt left on Tuesday for Montreal to undergo treatment for his eyes. He was accompanied as far as Moncton by his brother, Mr. William Hoyt.

The Women's Institute met with Mrs. Walter Gillett on Tuesday afternoon.

Mrs. L. E. Fenwick, of Jacksonville, is visiting for a few weeks at the home of her father, Mr. James Stewart.

Mrs. William Sadler, of Maple View, and Mrs. Norman Wright, of Pleasant Rock, were guests of Mrs. Frank Sadler last Monday en route to Boston.

Mr. Howard Porter, of St. John, spent the week-end with his parents, Mr. and Mrs. Joseph Porter.

Mr. Abram Day, of St. John, was the guest of Mr. and Mrs. Herbert Baird during the week. On Thursday evening Mrs. Baird entertained at dinner in his honor.

On Thursday afternoon Mrs. A. P. Macintosh was a pleasant hostess in honor of Mrs. J. A. Gray. Other guests were Mrs. N. J. Wootton, Mrs. Pringle Kelly, Mrs. Herbert Baird, Mrs. Nelson Hanson, Mrs. Guy Porter, Misses Janet Curry and Pearl Waite. Mrs. Porter assisted Mrs. Macintosh in serving.

Mr. M. L. Hayward, of Hardland, spent part of the week here.

Mrs. J. W. P. Dickson and daughter, Alice, spent part of the week with Mrs. Robert Kelly.

Mr. and Mrs. George Larlee, of Edmondston, spent the weekend with Mrs. Harriet Larlee.

Mr. O. J. Fraser, Superintendent of the N. B. Telephone Co., and Mr. Roy Smith, General Line Manager, both of St. John, were here to attend the funeral of Mr. B. W. Moore.

Miss Mildred Atwater, of Fort Fairfield, Me., has been visiting at Mr. Marshall Wright's.

On her return home she was accompanied by Miss Emma Wright.

Mrs. Thomas, of Norton, and Mrs. Malone, of St. John, were guests of Mrs. B. W. Moore this week, having come to attend the funeral of Mr. Moore.

Mr. B. Perkins, of Port Kent, visited Mrs. Benjamin Beveridge this week.

Mr. Dyon Wallace, Woodstock, was a week-end visitor of Dr. and Mrs. A. P. Macintosh.

The Baptist Sewing Circle met with Mrs. Wellington Dixon on Friday evening.

On Thursday evening the Round Table Literary Club were pleasantly entertained by Mrs. H. Lee Bedell.

On Saturday Misses Janet Curry and Pearl Waite visited Fort Fairfield.

Penobscot

Penobscot, March 23.—Mrs. Ernest Currie and little son, Everett, Royal Road, York Co., are guests of Mrs. Charles Robinson.

Herbert Rouse, Corn Hill, spent a few days last week here, the guest of Clarence Besancon.

The home of Mr. and Mrs. Charles McLeod was lightened last week by the arrival of a baby girl.

Mr. and Mrs. Irvin Dunfield, Portage Vale, were guests of friends on Tuesday last.

Byron McLeod has returned after spending a week with relatives in Moncton.

The condition of Hector McKenzie who has been ill for about three weeks is reported very critical to-night.

Messrs. Currie, Robinson and McLeod unloaded a car of feed and flour yesterday. Two more cars on order have been held up in transit.

Mrs. Gordon Tait entertained a number of friends at a Thimble party last week.

It is rumored that the Lower Baptist Church will erect a new church shed this summer or if not this summer possibly another year. The past winter has convinced those who drive to church that the present accommodation although large enough is hardly comfortable for the horses.

Mr. Thomas Morion has sold his very desirable residence at the village to Charles Robinson.

Milltown

Milltown, N. B., March 24.—Mrs. Wm. Thibodeau of Manchester, N. H., is visiting her brother, Mr. H. R. Hall at his home here.

Mr. Verne Love rendered a most enjoyable solo at the Congregational Church on Sunday evening last.

Rev. Dayton McLean of Philadelphia, was a recent guest of Mr. and Mrs. F. S. Groves.

Mrs. Charles Buckley is the guest of her parents, in St. John.

Albert Bulman left last week for Lewiston, Me.

Mr. Henry Heferman was in Fredericton last week attending the meeting of the New Brunswick Federation of Labor.

Mrs. Ellen Crowley's many friends are glad to learn of her improvement in health since entering the Chipman Memorial Hospital.

Mrs. A. V. Deacon has returned from an extended visit with her son, Mr. Irving Deacon in Bathurst, and is much benefited in health.

Miss Jessie Graham is the guest of Mrs. Irving Todd at her home on Pleasant street.

Interest in the night school continues to grow and there are now quite a number of pupils. Manager Graham of the cotton mill is taking an interest in the school and is having electric lights installed in the Union Hall, where the sessions are held.

St. George

St. George, March 24.—The members of the Presbyterian Sunday School enjoyed a straw ride to the home of Mrs. John McKenzie, Mascarene, on Thursday evening, 16 inst. They were accompanied by the pastor, Rev. J. C. Mortimer.

Miss Lillian Brine, of Boston, is the guest of Mr. and Mrs. Joseph Brine at "Byron Darwin" Utopia.

Miss Lillian Fry has returned from back Bay where she spent a fortnight.

Miss Celia Weimore resumed teaching on Wednesday after a short illness.

Mr. Sutton Clark, of St. Stephen, visited his parents recently.

Mr. John O'Brien Jr. accepted a position in the Bank of Nova Scotia last week.

Miss Julia McMullin was the guest of relatives in Calais this week.

Mr. Warren Dow, who has been visiting his parents, returned to St. Stephen on Wednesday.

Miss Edna Brown, of St. John, is the guest of her parents, Mr. and Mrs. John H. Brown.

Miss Geneva Hennessey has become stenographer at the Macquasidavic Garage.

On Thursday morning Mrs. Thomas O'Hallaron, while going up the steps to her home, slipped and broke a limb just above the ankle. Dr. H. I. Taylor was immediately summoned and the broken limb was set. The patient is now improving.

Miss Louise Cowley, teacher, is ill at her home.

Miss Mildred Leonard who has been spending several weeks here with her parents, returned to St. Stephen recently.

ALBERT B. STEINER, of St. Paul, Minn., who declares he is now able to do twice the work he could before taking Tanlac and that his sister has gained sixteen pounds.

"Talking about things that help people, I have just received a letter from my sister in Waterloo, Iowa, telling me she has gained sixteen pounds in weight by taking Tanlac," said A. B. Steiner, 460 East Page St., St. Paul, Minn., recently.

"My sister was on a visit to me a short while ago, and as she was suffering from stomach trouble some one advised her to try Tanlac, which she did, and as I saw the great benefit she was getting from it I decided to try it myself. I had been troubled with my stomach for the past two years. I had a very poor appetite, and the little I did manage to eat seemed to lodge right in the pit of my stomach and sour. I would boast terribly after eating and had the worst sort of cramping pains in my stomach, and at times I had such bad attacks of heartburn I would nearly go wild. My back gave me a lot of trouble, and I had such intense pains in the small of my back I could hardly bend over. To add to my other troubles, about two months ago I began to suffer with rheumatism in my shoulder blades and arms, which got so bad I could hardly do my work and could not even put on my coat without assistance. I was so nervous I could not get any sleep and would roll and toss from one side of the bed to the other all night long, and would get up in the morning all tired out. I was so badly run down that I could so much weight I was so weak I could hardly get about at all.

Well, while I have only taken five bottles of Tanlac in all my improvement is simply remarkable. I have such a good appetite I am hungry all the time, and my stomach is in such a splendid condition I can eat anything I want without suffering the least bit from it afterward. The pains have all gone out of my back, and I never have the least sign of the rheumatism. In fact, I never have an ache or pain of any kind. I sleep as sound as a log every night and have gained in weight and strength until I can do twice as much work as I could before I began taking Tanlac. Yes, sir, I can recommend Tanlac after what it has done for me, and I know it will do the same for others. I will only give it a fair trial."

Tanlac is sold in St. John by Heas Drug Company and the leading drug stores in every town, under the personal direction of a special Tanlac representative.—Adv.

WHEN YOU SUFFER FROM RHEUMATISM

Sloan's Liniment should be kept handy for aches and pains

Why wait for a severe pain, an ache, a twinge following exposure, a sore muscle, sciatica, or lumbago to leave naturally when you should keep Sloan's Liniment handy to help curb it and keep you active and fit?

Without rubbing, for it penetrates, apply a bit today to the afflicted part. Note the gratifying, clean, prompt relief that follows. Sloan's Liniment couldn't keep its many thousands of friends the world over if it didn't make good. That's worth remembering. All drug stores—three sizes—the largest for utmost economy. 35c., 70c., \$1.40. Made in Canada.

Faint And Dizzy Spells
Weakness and Shortness of Breath.
You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak sinking, all-gone feeling, choking sensation etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.
No remedy will do so much to make the heart regain strength and vigor, as the following offers: Peas, Mrs. W. B. Belyea; 1st. Vice Pres. Mrs. H. A. Seely; 2nd. Vice Pres. Mrs. W. G. Glidden; Rec. Sec. and Treas., Mrs. B. H. Smith; Cor. Secy., Mrs. Phillip Saunders; Dor. Secy., Mrs. George Gabel; Babys Branch, Mrs. McKinnon.

Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used towards the second box of Millburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

FOR WOMEN

AMUSEMENTS

I. O. D. E. CHAPTERS SHOULD NOT NOTICE LETTER

Mrs. Gooderham Refused Lady Kingsmill's Offer to Settle by Private Arbitration of Differences.

HAD PAMPHLET PRINTED Sent Letter and Circular to All Chapters in Defiance of Rule of Order — Lady Kingsmill's Counsel Gives Out Statement.

It was unfortunate that when Mrs. A. E. Gooderham recently gave out her resignation from the I. O. D. E. executive because that body still upheld Lady Kingsmill that the latter was not here to state her present position in regard to Mrs. Gooderham's attack.

Members of the national executive were pledged not to reveal what had transpired at their meetings, though they knew that Lady Kingsmill had done her best not to have the controversy, which had become so personal, take up further valuable time of the order's members.

In view of the stand taken by the executive that they could speak it is interesting to note that both Ottawa and Montreal papers have published a statement from Lady Kingsmill's counsel.

The Montreal Star in a despatch from Ottawa says:

"Statements have recently appeared in the press of Canada regarding the differences between Lady Kingsmill and Mrs. Gooderham which led to the latter's resignation from the national executive of the Imperial Order of the Daughters of the Empire. Lady Kingsmill is at present in California, and it has been impossible to get in touch with her to obtain a statement in reference to the matters.

"Yesterday, counsel representing her in Ottawa stated that Lady Kingsmill's attitude had always been that it was not in the interests of the order that differences between herself and Mrs. Gooderham should be dealt with by the national executive. According to a resolution to the effect that the national executive should take no further part in the controversy was passed at the January meeting.

"Lady Kingsmill's counsel made the following statement yesterday: Prior to the meeting in March of the national executive, Lady Kingsmill, feeling that it was not in the best interests of the order that the matter should be further discussed by the national executive, through her counsel wrote to Mrs. Gooderham proposing that the statements of herself and Mrs. Gooderham, filed with the executive, and all documents connected with her, should be submitted to a board of arbitration, composed of persons not directly connected with the Imperial Order of the Daughters of the Empire, for the purpose of obtaining an impartial decision, the finding of the board to be accepted as final by both parties and to be forwarded to all chapters of the order. This proposal was also forwarded to the national executive.

"The national executive at its March meeting passed a resolution reaffirming the position taken in January to the effect that they would take no further part in the discussion of the differences between Lady Kingsmill and Mrs. Gooderham. Lady Kingsmill's offer to Mrs. Gooderham of an arbitration was declined by Mrs. Gooderham. Mrs. Gooderham's resignation followed the action of the national executive."

Prominent I. O. D. E. members in Toronto are voicing much regret that the former national president has insisted on making her personal controversy with Lady Kingsmill so public, states the Toronto Telegram.

"Lady Kingsmill had tried to show that Mrs. Gooderham had been too autocratic," says a well-known Toronto member, "and Mrs. Gooderham's latest action seems to us to bear this out. She has defied the order's rule that no one shall circulate the membership without first obtaining the consent of the head office. Mrs. Gooderham had had a pamphlet printed setting forth her views, and with her letter has sent this out to every chapter in the order. If Mrs. Gooderham has her way, this controversy will thus be extended to every meeting which takes place. Of

GENEVIEVE WARD AT 83 RETURNS TO THE STAGE

London, March 20.—(By Mail).—That veteran actress, Genevieve Ward, who was born in New York in 1837, is to re-appear on the London stage shortly in "Coriolanus." The wonderful old tragedienne at the age of 83 has consented to take the part of Volturna in a revival of this classic at the "Old Vic," a popular theatre in the heart of London's slumland, where a great uplift work is being done in the way of providing sound dramatic fare for the masses.

FROCKS AND FRILLS GO UNDER HAMMER

Paris, March 19.—(By Mail).—Probably the most remarkable collection of feminine finery ever seen was on view at the Hotel Drouot here recently when the wardrobe of the late Princess Lobanoff came under the hammer. Since her girlhood in the sixties of last century, the Princess had collected prodigious quantities of dresses, of lingerie, bedlizen, and the like, much of which she never used.

Among the items of the sale were evening dresses by the hundred, about 300 tea gowns, many dozens of every kind of underwear, which had never even been unfolded since delivery fifty years ago, rich brocades, heavy silks, rare laces and beautiful embroidery series—all as new and of such material as cannot now be bought at any price in the shops. A thousand to 1,200 dollars and even more was paid for bundles of Second Empire lingerie of pure linen. Five bed sheets were sold for \$500.

Waste is always wrong, always un-sound economics, always a drain on individual solvency and national wealth.

NONE KNEW SHE DYED OLD COAT

"Diamond Dyes" Make All Her Faded, Shabby Apparel Turn New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton, stockings, skirts, dresses, blouses, slippers, children's coats, feathers, draperies, coverings.

The Dyeing Book with each package tells so plainly how to dye that you can't make a mistake.

To match any material, have druggist show you "Diamond Dyes" Color Card.

LADY ASTOR STANDS UP FOR THE SHOP-GIRL

London, March 20.—(By Mail).—Lady Astor appeared as a champion of the London shopgirl at a meeting of the Early Closing Association, held to advocate shorter hours for shop employees. "All my sympathy," said England's only woman M. P., "is with the shop girl who, working long hours, handling pretty things that she would love to own, is forced to try to make them becoming to some old gargoyle. Americans and Canadians who come over here are always greatly impressed with the extreme politeness of everybody in the shops, in spite of long hours and weariness. The patience of the saleswomen is beautiful; no one could resist buying from them. Many a time I have gone into a store to buy a veil and have come out with a dress that I didn't want and which didn't fit me."

Montrealers Also Skeptical.

New York city claims to have the dirtiest streets in the north so-called temperate zone. We shall not challenge New York's word, but we doubt it.

BRITISH MOVIE FANS ARE VERY CRITICAL

And Quickly Spot Flaws in the Portrayal of English Life in American Films.

London, March 17.—(By Mail).—The popularity of American motion pictures here remains unshaken despite the best offerings of British producers. Only when the American producer attempts to portray English life does the "movie fan," an exacting critic—find fault. A flaw in depicting English customs and traditions becomes a glaring error. A recent picture showed a fox hunt. It had been photographed in the height of summer under a verticle sun. The English movie goers knew this was not the time of year for fox hunting and he objected almost as strenuously as he did to another picture showing an English family drinking ice-water at breakfast. In general, however, the English audience has only appreciation for the producer who has audaciously enough to attempt to portray sincerely the habits and customs of a foreign country.

THREE DIVORCES IN SIX YEARS

Geneva, March 17.—(By Mail).—Three divorces in six years is the record of M. and Mme. Lersner, of Zurich. The couple first married in 1914 when each was about twenty years old. Divorce followed within a year, but they met later, fell in love again and were married. Divorce followed in fourteen months. Once more they were re-married and the third divorce has just been announced. The couple, who belong to rich families, have no children.

The Swiss divorce law exacts a fee of only \$25 and does not forbid re-marriage immediately after the divorce is granted.

DID BEER SAVE BRITISH RACE FROM EXTINCTION

According to This Writer, Dr. J. W. Robertson Appears to Think it Did.

BEER CONTAINS MUCH THAT IS WHOLESOME

And Its Health-Preserving Qualities Far Outweigh All Other Considerations.

(Continued from page one.)

After the first spasm of this price had subsided, some interesting creature discovered that England was continuing to use up vast quantities of grain for making beer, and a cry of agony went up from beer drinkers of Canada:

"Why should we deprive ourselves of beer to send to England grain for British brewers to waste in making beer?"

There was logic in that cry, and it had a very disturbing effect on Anglo-Canadian relations—more disturbing than the public woe of it.

But the British people were not to be stampeded into hasty action. Instead of forthwith banning the brewing of beer they appointed a Government commission to look into the question and the Government commission was able to place before Mr. Robertson, when he arrived in England as one of the emissaries of the Canadian Government, some startling discoveries.

They were able to demonstrate that the British people were not only not wasting grain by manufacturing it into beer but were actually conserving it. A series of experiments showed that there was an appreciable amount of food in beer. Another series showed that if the grain that was made into beer had been fed to animals for meat, there would be actually less food produced for man in the meat than was provided when there was in making the grain into beer.

Therefore they went on making grain into beer—the war kind of beer—comforted in the knowledge that they were thus making the most economical use of it in the feeding of the nation.

The inquiry did not stop there. It went into the question of beer drinking generally.

Cure for Scoury.

And here I must digress a little. You know, of course, that sailors who live on salt pork and canned food develop various diseases of which scoury is the most deadly. As you know, of course, that in course of time sailors evolved a rule-of-thumb remedy for scoury. It was to scrape a raw potato and swallow the scrapings. In these raw potato shavings (not cooked, that is important) there was some medicinal agency that brought about immediate cure.

What was this miraculous agency? Nobody knew, but the fact remained. Some years ago a sailor came into an English port suffering from scoury. And the first thing he did on arrival was not to eat raw potato but to drink beer. And the scoury disappeared just as though he had eaten raw potatoes.

The scientists got to hear of the case. They made experiments. To their amazement they found that beer cured scoury every time.

What was this medicinal agency that existed alike in beer and raw potatoes?

Here we enter upon the domain of one of the most important, most beneficent discoveries in the history of the human race.

The agency that performed this miracle of healing was that vague and shadowy substance known as vitamins.

It is only within the last year or so that medical knowledge has been aware of the existence of this most wonderful of life principles, vitamins.

Let me here quote from The London Times of recent date. The Times, in an editorial in January this year, said: "Less than a dozen years ago it was believed that the work of Lobb and his successors had placed the chemistry of food on a secure foundation. The living cell required food to repair waste, to provide for growth, and to supply energy. The constituents of suitable dietary were proteins—of which white of egg is the most familiar example—fat, carbohydrates, and inorganic materials, which compose the ash when the bodies of animals or plants are burnt. But the essential diet of men and animals contains these substances in abundance.

"But it contains them in varying

course the only thing for chapters who know their constitutions is to lay such a communication on the table. For they cannot orderly take up a matter which has been brought before them in so disorderly and unconstitutional a manner.

Anyone who had truly the welfare of the order at heart might just as well send a bomb to every meeting as to unload such a controversy among women who are trying to carry on such splendid community service throughout Canada as the I. O. D. E."

Waste is always wrong, always un-sound economics, always a drain on individual solvency and national wealth.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton, stockings, skirts, dresses, blouses, slippers, children's coats, feathers, draperies, coverings.

Montrealers Also Skeptical.

New York city claims to have the dirtiest streets in the north so-called temperate zone. We shall not challenge New York's word, but we doubt it.

Four Days 'til Easter

Really a very short time to decide upon all the details of the Easter costume, isn't it?

Do you seek in your Easter apparel, distinction in line and design? Do you want the suit, coat and frock to have the irreproachable designed and made-for-you air?

If you would have all of these combined in one you have only to choose from our wonderful collection of Spring fashions. The wide range of frocks that have distinct individuality, of suits, unique and original in design; of coats, smart and swaggar cannot fail to influence the choice of your Easter wardrobe.

Captivating Suits For Easter

Many individual models. A trim and trim new suit is the first essential to the Easter wardrobe. It is as necessary in Spring as Furs are in Winter. One just cannot be suitably dressed in Spring unless there is a smart tailor-made in one's wardrobe.

Suits of exceeding style and beauty have been selected with great care for our Spring Show.

Each model individualized by some special touch of smartness, braid bound or braided trimmed, with novel or clever emphasis of seams on hips or pockets, narrow string belts or belts of leather; silk lined, and with every nicety of finish to ensure shapeliness and real style, developed in Tropicines, Poret Twills, Gabardine, Serges or Tweeds.

\$40.00 to \$150.00.

The New Dresses For Easter Show Many Novel Style Features

There are sprightly Frocks of Taffeta, graceful Gowns of Georgette and Satin, Springlike models of flowered Georgette, smart tailored dresses of Tropicine or Serge. Braid, beads, rich embroidery are effectively employed as adornment.

Some are of tailored persuasion; others are buoyant with bouffants, ruffles and sashes.

\$25.00 to \$87.50.

Blouses Were Never Lovelier Than They Are This Spring

And so many styles to choose from. The new slip-necks of silk tricotee are very smart, the longer tunic effects of Georgette are dressy enough for almost any occasion; then there are numerous waist line models, beaded, embroidered, tucked, of crepe-de-chene, nets, Georgette, silks, etc., in dainty light colors or suit shades.

\$5.00 to \$27.50.

What Your Easter Coat Will Be

That depends. For you may have a fondness for the soft Silvertone and Gabardine, or your personality may demand Serge, trim-looking Tropicine or beautiful Polo Cloth. But whatever your choice of material or design may be, it made in our "Apparel Shop" it will assure you of securing something truly stylish and quite out of the ordinary. For the greatest care has been exercised to include only the new, the smart and the becoming.

\$21.50 to \$78.50.

Not Forgetting Details

A Costume is only correct and complete if all its accessories are consistent and in harmony.

So many things to consider! Yes, the neckwear is not the least of these details. Many of the new suits demand a vestee and frills where they are most effective.

Some of the novelty vestees and collars are smart notes which Paris advances.

Stockings of almost any shade to match or go with your Easter Suit. Vellings—but did you ever see such becoming designs? At least one hat must have a veil.

Stomach Disorder

Only Six Months To Live. Read What B. B. B. Did For Him.

Mr. Hans Kehli, Magnolia, Alta. writes:—"Some years ago I became very sick from stomach disorder which the doctor told me had started from drinking bad water. I tried local doctors, but finding I got worse from day to day I went to a doctor in Edmonton. He told me that I must have an operation, and that if I didn't I couldn't live any longer than six months. I told him I had better die after six months than be cut to pieces. I did not have the operation, but returned home. No one was there to meet me at the station, because they did not know I was coming. I fell so faint I couldn't walk farther than 10 yards without resting. It took me 6 hours to walk 3 miles the distance from the station to my home.

Some weeks later I read an advertisement about your Burdock Blood Bitters. After I had used one bottle I felt much better, and after I had used three bottles I was completely cured; had I saved my life, and I cannot praise it too highly."

Burdock Blood Bitters puts the stomach into shape by promoting perfect digestion, and restoring health and strength to the system. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

BEER SAVE BRITISH RACE FROM EXTINCTION

According to This Writer, Dr. J. W. Robertson Appears to Think it Did.

BEER CONTAINS MUCH THAT IS WHOLESOME

And Its Health-Preserving Qualities Far Outweigh All Other Considerations.

(Continued from page one.) After the first spasm of this pride had subsided, some interesting creature discovered that England was continuing to use vast quantities of grain for making beer, and a cry of agony went up from beer drinkers of Canada.

There was logic in that cry, and it had a very disturbing effect on Anglo-Canadian relations—more disturbing than the public "wots of."

But the British people were not to be stampeded into hasty action. Instead of forthwith banning the brewing of beer they appointed a Government commission to look into the question and the Government minister was able to place before Mr. Robertson, who has arrived in England as one of the emissaries of the Canadian Government, some startling discoveries.

They were able to demonstrate that the British people were not only not wasting grain by manufacturing it into beer but were actually conserving it. A series of experiments showed that there was an appreciable amount of food in beer. Another series showed that if the grain that was made into beer had been fed to animals for meat, there would be actually less food produced for man in the meat than provided that there was in making the grain into beer.

Therefore they went on making grain into beer—the war kind of beer—comforted in the knowledge that they were thus making the most economical use of it in the feeding of the nation.

But the inquiry did not stop there. It went into the question of beer drinking generally.

Cure for Scourvy. And here I must digress a little. You know, of course, that sailors who live on salt pork and canned food develop various diseases of which scurvy is the most deadly.

What was this miraculous agency? Nobody knew, but the fact remained. Some years ago a sailor came into an English port suffering from scurvy. And the first thing he did on arrival was not to eat raw potatoes but to drink beer. And the scurvy disappeared just as though he had eaten raw potatoes.

The scientists got to hear of the case. They made experiments. To their amazement they found that beer cured scurvy every time.

What was this curious agency that existed alike in beer and raw potatoes? Here we enter upon the domain of one of the most marvelous, most beneficent discoveries in the history of the human race.

The agency that performed this miracle healing was that vague and shadowy substance known as vitamins.

It is only within the last year or so that medical knowledge has been aware of the existence of this most wonderful of life principles, vitamins.

Let me here quote from The London Times of recent date. The Times, in an editorial in January this year, said: "Less than a dozen years ago it was believed that there was no reason to trouble if a varied diet containing fresh fruits and vegetables, milk and butter is available. But whereas the diet consists chiefly of highly prepared and preserved foods there is grave danger, especially in the case of the young."

LATE SHIPPING INTELLIGENCE

Vessels in Port and Where They Are Located.

Dunbridge-Custom House wharf. Canadian Trooper-Long wharf, N. Drummond. Canadian Adventure-Sugar No. 1 wharf.

Arrived From Halifax. The S. S. Ponia arrived in port at 8.30 o'clock yesterday morning from Halifax and anchored in the stream.

Sailed From New York. The S. S. Caracaras arrived in port at 8.30 o'clock yesterday morning from New York.

Arrived Monday. S. S. Chaudhury, 2596, British West Indies. S. S. Ponia, 2596, British West Indies.

Arrived Yesterday. The R. M. S. P. Liner Chaudhury arrived here yesterday morning from the British West Indies with a general cargo, passengers and mails.

Expected This Week. The C. P. O. S. Liners Empress of France and Empress of Germany are expected to arrive here the latter part of the week from Liverpool and Antwerp.

Sailed Last Night. The Canadian Government Merchant steamer T. J. Drummond sailed last evening for Kingston and Havana with general cargo.

Will Go To Long Wharf. The C. G. M. M. Liner Canadian Star which has been anchored in the harbor for several days will copy the berth at Long Wharf which was vacated by the T. J. Drummond.

Sailed For This Port. The General Liner called on the 26th for this port from Glasgow, Scotland. Robert Redford Company are the agents.

During all these frightful periods in British history the mass of the British people had only the bare necessities of life. They lived, especially during the winter months, largely on cooked potatoes, with occasional salt herrings, salt cod and salt pork, and so on—a diet inimical to health.

But all that beer-drinking was more or less general among those fortunate enough to be above the actual starvation line. Tea drinking is comparatively modern in England. Beer was the national drink of the people who could afford it.

According to the scientists with whom I consulted it is now believed that for generations the meagre diet of the British people, with its predominance of cooked potatoes and salted meat and fish, was deficient in vitamins, and this lack of vitamins was the principal factor in the spread of the mysterious disease known as beriberi.

The race managed to struggle through that period unharmed in physique and stature. Was this through the agency of the vitamins which so large a proportion of the population unconsciously absorbed with their beer?

"Yes," say the scientists with whom Dr. Robertson consulted. And "Yes," says Dr. Robertson himself. Indeed, the doctor goes further, and says he agrees with the scientists who declare that it is probable that the British race was saved from extinction because at a period when they lived so largely upon food lacking in the vital life substances of vitamins, especially during certain seasons of the year, without knowing the dangers of this restricted diet, a substantial proportion of the people obtained the vitamins which they would otherwise have lacked from the beer which they drank so consistently.

Of course there is no need of beer now to save them. But it seems that there was need. Therefore if beer drinking is to perish off the earth, future generations who think their beer-drinking ancestors with pity and regret may, perhaps, in the light of scientific investigation, have the knowledge that, for all its harmful effect in many ways, beer had its sacred mission. It preserved the British race from extinction, and, having accomplished its mission, in due course passed away.

History tells of the deaths of hundreds of thousands of people in the British Isles by starvation during centuries of privation, and it tells also of mysterious plagues which swept over England, the worst of which was the "Black Death," which came again and again, and which in the year 1665
