T. R. JONES & CO., 100 King Street, St. John, N. B.

Skates. Skates. C. G. BERRYMAN'S, McCullough's Building, Market Square.

GREAT VARIETY: PRICES LOW. English Skates, American Skates, Domestic Skates.

Christmas and New Year's. Will be celebrated this year by J. & A. McMillan.

FINELY BOUND GIFT BOOKS. For their customers we have brought into this market.

Corks. Corks. 1. BALE Paper Corks. 2. BALE Small Corks.

Cognac Brandy. IN 1/2, 3/4, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

500 BUSH HEAVY BLACK OATS. FOR SALE LOW. W. A. SPENCE, 100 King Street, St. John, N. B.

The Daily Tribune.

J. L. STEWART, Editor. THURSDAY EVENING, JAN. 19.

At a dinner party given by the Warden of York County, last week, the Provincial Secretary made a speech from which it is inferred that the Government will introduce a bill at the next session making the incorporation of Counties compulsory.

Mr. Moulton was on the stand as a witness in the Beecher trial during the whole of yesterday's sessions, and his direct examination is not likely to end before the adjournment to-day. He and Mr. Fullerton, who was the inquirer, were the only important actors in the proceedings. Mr. Moulton was dressed in broadcloth that fitted him, and was consequently, as to clothing, more genteel than in the gray business suit which he wore on Wednesday. His manner was cool, deliberate, and free from the nervousness which had before bothered him. He sat easily in the elevated revolving chair, sometimes folding his arms, sometimes crossing his legs, and at all times unconcerned in his demeanor. His replies were given with distinct enunciation, and loud enough to be heard in the gallery. He chose words carefully, stopping occasionally to select a phrase, but always making sentences in good English and apparently expressive of exactly what he wanted to say. He did not need the customary amount of questioning, and he required no guidance, as he kept within the bounds of the rules of evidence so well that he was rarely interrupted by the opposing counsel. A single question was enough to bring out a whole chapter of recalled history, related with the manner of a man who understood the case in all its bearings. The few times that Mr. Everts checked him for drifting into hearsay, he stopped at once, unscrupled, and in nearly every instance readily put the disputed testimony into phrasing that could not be objected to. This legal knowledge was an asset to rapid progress and clear argument by the lawyers. Every document handed to him for identification he examined in a thorough business-like way. That he was fully conversant with the details of the case was shown by his bearing as by his readiness to be full and explicit in his testimony.

THE OTHER ACTORS. There was little of witness in the gathering yesterday. Mrs. Tilton was present with her father and Mrs. Field. She spent five minutes before the opening of the Beecher trial in reading a letter, and laughing with Mrs. Field about the contents. Although she was not a witness, she was a close observer, and she was not so close together, there was no sign of recognition. She was a close observer, and she was not so close together, there was no sign of recognition. She was a close observer, and she was not so close together, there was no sign of recognition.

THE TESTIMONY. The court room was again overcrowded, and the hallway full of clamorous applicants for admission, when at around 10 o'clock, the witness took the witness chair and his direct examination was commenced. The testimony was confined to identifying letters of Beecher, Tilton, and Mrs. Tilton, and the handwriting of both the latter. Mr. Beecher's lawyers handled themselves ably. The court room was again overcrowded, and the hallway full of clamorous applicants for admission, when at around 10 o'clock, the witness took the witness chair and his direct examination was commenced.

A SCENE AT EXAMINATION. At the close of the opening session Mrs. Beecher went over to the seats occupied by Mrs. Tilton and Mrs. Anna M. Tilton, and she sat down with Mrs. Beecher. She stood behind her, and in looking about he caught the third eye of Mrs. Tilton. The witness took the witness chair and his direct examination was commenced. The testimony was confined to identifying letters of Beecher, Tilton, and Mrs. Tilton, and the handwriting of both the latter.

THE HORRIBLE STORY OF A BOY IN MISSOURI being fastened by his schoolmates to a railroad track, where he was run over by a train, is a story which is told in a paragraph in a rural newspaper, which was introduced as a job. This paragraph was reproduced in other Missouri newspapers, so changed as to bear the appearance of a sober fact, and in its altered form has had a wide circulation in eastern journals.

Execution of Two Murderers.

New York, Jan. 15.

Lewis Jarvis and Albert Jackson were hanged this morning, in the yard of the Queen's County Jail. Last evening a colored clergyman called upon them, and after reading a chapter from the Scriptures, he prayed for some time. A little later two Quaker ladies visited the jail, and were at once admitted. They spoke long and earnestly to the doomed men. The scaffold has been used many times, the first victims dying under it being Gonsales and Palacio, who were hanged together. Then came Rogers and Stewart, the policeman, and Jack Reynolds, who learned that hanging was not entirely "played out" in New York. Jarvis was fifty years old. He had Indian blood in his veins. He claimed to be a descendant of the renowned Samosee. Although he confessed to have been concerned in the crime, he never showed any remorse. He was a highly intelligent man, and he had been a member of the Reformatory. He was a highly intelligent man, and he had been a member of the Reformatory. He was a highly intelligent man, and he had been a member of the Reformatory.

The Sessions.

New York, Jan. 15.

The adjourned meeting of the Board met at 10 o'clock this morning, and continued for about twenty minutes later. The resolution under which the meeting was called was read. On motion of Justice Milligan the Reformatory Bill was taken up section by section. The first section provides that the Sessions of each county in the Province shall have power to provide for the establishment of Reformatory and Industrial schools for the reformation of juvenile offenders, and gives the Sessions power to erect buildings and hold in fee lands for that purpose. Justice Gerow moved the adoption of the section. Justice Tapley called attention to the fact that the reformatory and industrial schools could by this section be carried on under one management. This he considered wrong, and suggested that these words should be struck out. Justice Milligan approved of the idea of united management on the ground of economy. Justice Daniel agreed with Justice Tapley that the unfortunate and criminal should be kept separate, but thought that the Reformatory should be under one management. Indeed he would have the one connected with the other so that a child convicted of a crime, and behaving himself well in the Reformatory, might leave with an Industrial School certificate. Justice Everett called attention to the fact that it was a Provincial measure, and that it would be impossible in poor districts to support two institutions. Justice McLean, as commissioner of the Alms House, had long seen the necessity for the separation of the criminal and the unfortunate. He would oppose the one management. Justice Tapley moved in amendment the alteration of the section to meet his views, and Justice Littlejohn seconded the motion. After some discussion the amendment to alter was carried. The second section provides for the issuing of debentures to an amount not exceeding \$20,000, and for the repayment of moneys borrowed, and any county desiring to establish a Reformatory shall order such a Special Session, notice thereof having been given one month before. The rates shall be assessed on the ordinary county rates, and not more than \$2,000 shall be assessed in any one year. This section was adopted without debate. Section 3rd provides that when the Reformatory is built the fact shall be reported to the Governor, who shall appoint a competent Inspector. Adopted. Section 4th, providing for the inspection, and authorizing any Judge or Justice of the Peace to sentence juvenile offenders, also passed. Section 5th, providing for a Board of Directors, of Justices of the County, was adopted. Section 6th, giving certain power to said Board was adopted. Section 7th, providing for enlargement of Reformatory buildings, was also adopted. Section 8th, providing for the appropriation of funds, and the annual reports required from the Directors, also passed. Section 9th provides that no person shall be employed in the Reformatory who may be a parent or guardian of a child who may be sent to any Industrial School by any Justice before whom he or she may be brought, if it be made to appear that such child is without a parent or guardian or means of support; or that his parent or guardian is a habitual drunkard, or in the habit of ill-treating or neglecting him, or of sending or permitting him to go out on the public streets to steal. Any child so sent to any Industrial School may be retained by the Directors until the age of sixteen, unless before he attains that age they are of opinion it may be for his benefit to apprentice or put him out to some trade, occupation or service for which he may be adapted, or unless some relation or guardian having a legal right to the custody of such child can procure the order of a Justice of the Peace, or of the Court of Sessions, for the child's discharge; and such order shall only be given on satisfactory proof on oath that the person applying is entitled to the custody of such child; and no person shall be permitted to be in the care and education of such child.

THE OTHER ACTORS. There was little of witness in the gathering yesterday. Mrs. Tilton was present with her father and Mrs. Field. Shipping News.

Halifax on the 17th inst., from St. Thomas and Bermuda, reports having experienced very heavy weather during the passage. On the night of the 15th a heavy sea struck her amidships and carried away her fore rail and shifted her bridge and telegraph. Her sides, deck, rail, rigging and bridge were soaked with ice when she entered the harbor.

On Monday, the 15th, the big ship W. D. Lawrence is now 45 days out from this port for Liverpool, having sailed on the 4th inst., and not having heard from her. Several vessels that sailed in company, and some that sailed after her, have arrived and been reported.

Liverpool Shipping.—The Liverpool, N. S., steamer, which is the following summary of the shipping of that port: Ganges, 2547 tons; 44 brigantines, 2482 tons; 63 schooners, 4568 tons; 1 steamer (gross), 47 tons; 137 vessels. Total tonnage 12072. Paid Licenses, Jan. 15, 9 a.m.—Wind North, strong, clear. Hain Yvon.—In company with many others we have had a lively interest in the investigations which Dr. Ayer has been making to discover the causes of failure of the hair, and to prepare a remedy. His researches are said to have been much more thorough and exhaustive than any ever made before. The result is now before us under the name of AYER'S HAIR VIGOR. We have given it a trial, and with full satisfaction. Our very best friends disappeared, or removed their hair, and we have a very fine crop of soft, silken hair has started on a part of the scalp which was entirely bald. (Testimonial, Abingdon, Va.)

Business was again in full this morning, the streets being only two occupants of the pavement. The first caller was John Kirk, 30, England, found drunk on Gormin street. He confessed the charge and was fined \$1.00 per diem. They also sold two shares of Stating Bank stock, R. P. Butler, Esq., being the purchaser, at \$1.50.

Reader, do you desire SOBER, HEALTHY, PLEASANT, WHITE, AND RICH, REALITY? For sale at the Drug Store. City Police Court. MEERSCHAUM.  
BY HENRY KENDRICK.

She answered that she had none at all, and continued, like a true daughter of France with money in her purse, that if he could not keep her, they, her grandfather and grandmother, would be most certainly able to keep her. It was not an English way of putting the case, but it was most certainly practical.

So golden days came for poor Meerschbaum. M. Escrot sent him to a college at Southern to learn navigation. "That science, in its rudiments, is not difficult. We have learned it three or four times ourselves, and can say with a safe conscience that we know nothing about it now. Meerschbaum, however, assimilated navigation, and Lieutenant Maury, of the United States navy, having appeared on the scene shortly before, Meerschbaum followed his theories, hanging on his words.

His examinations were passed splendidly. There was a slight difficulty about his obligations to the Royal Navy, but they were easily got over. He went into the Reserve, Ninette and he were to be married when his parents came home. They were expected every day.

The weather got dim and wild early that year. It stood at north, then at east, backing steadily against the sun. Meerschbaum, full of life, Maury, and Fitzroy, told them that a great storm was coming. Ninette and she walked across the sands to Broadstairs; the boatmen were ready for any thing there.

The great south-westerly storm of those days came on them more suddenly than they had thought for; it came on a rapidly rising barometer. From the glacial position of 27.10 the barometer went up to 28.0. At three o'clock the Captain was upon them. There came a flying, almost green-colored, cloud from the direction of Calais, and after that no one knew much more until all was over. The wind drove the sea in masses of foam toward the land, as darkness came on it was evident that all the lights in the Channel were useless on such a night as this. Their own North Foreland was invisible, and the lights even in their own castle were dim spots.

In the horrible roar and confusion one young man kept his head. Toward midnight Michael Durnford went out and tried to rally the boatmen. They were at first disinclined to go with him, for it was useless.

"I tell you," he said, "that there is a ship close to us. I have heard the voices of the people on board her."

A man came staggering through the surf, holding tight to a woman. Then a woman came, holding a baby; and then others reeling in the wash, which was now beginning to slop up with the ebb. All Kingstons were out at once, and up to their waists in water. Michael Durnford pulled a man out of the water and asked him what it was which had wrecked.

"The Aurora," the man said. "Michael Durnford. She is on her side on the reef there. He is going to stop till the reef, and his wife with him."

M. Escrot and Ninette knew nothing of what was happening. In the swirl of the storm, they once or twice held the door partly open, and peered into the wild night. The Aurora had been headed, but she wrapped up her head, because Michael always kissed her when she was separated. She had her hands and said, "Let us thank God that our boy is not at sea."
