CENTREVILLE

MR. CARTER DISCUSSES PATRIOTIC POTATOES

E. S. Carter, opposition organizer, says that Royal Commissioner W. B. Chandler "because of other engagements" would be unable to continue his work of investigation into government expenditures and therefore could not go into the inquiry in connection with the purchase of potatoes for the patriotic gift which he had asked him to take up as soon as he had finished with the remaining witnesses in the unfinished inquiries.

Mr. Carter said that the potato purchase involved a large amount of money, about \$150,000, and was undoubtedly the most important of all the investigations asked for. He had evidence to show that a large amount of money was grafted and wasted and only asked an opportunity to prove it. Going into the details of the potato purchase, Mr. Carter said:

The report of the auditor general shows that there were 40,252 barrels of potatoes purchased for the "contribution to the imperial government" and for the use of the army and the navy as a token of the loyalty of the people of the province to the Motherland.

I am using the words of the governor of the province used when he signed a special warrant authorizing his provincial secretary to spend \$75,000 for 100,000 bushels of potatoes.

"In round numbers, forty thousand bushels over run 100,000 bushels, but with potatoes selling for so low a price, 35 to 40 cents a bushel or less, it was felt that the sum of \$75,000 was ample for the purpose.

"But they did not calculate upon the greed of the buyers. Of the 40,000 barrels B. Frank Smith of Carleton county, provided nearly 32,000. He made a profit of ten cents on every barrel and if he bought the potatoes under one dollar he must have made more. He did not even have to worry about the money, for satisfactory financial arrangements were made by the government so that the funds were available when wanted. Anyone can readily see that with the farmers anxious in the face of a falling market to get rid of their potatoes how easy \$3,200 could be made.

"But while the auditor's report says that 40,252 barrels were paid for, the steamship company, carrying the potatoes to England, says they only took on board 10,310 and 49,860 bags or about 35,210 barrels, counting two bags a barrel. Where, then, did the other 5,000 go? There were rumors of potatoes being in the warehouse that were not mature and of a lot of waste but surely there were not 5,000 barrels waste.

However taking the figures of the auditor general, \$90,630.62, as the cost of the 'contribution' and the steamer's account of potatoes received as 35,210 barrels, the cost to the people of New Brunswick was \$2.58 per barrel.

The cost unfortunately did not end there. There was a further sum of \$25,887.43 spent for "patriotic potatoes." But not one bag or barrel of these crossed the ocean. Hon. Mr. Murray, the minister of agriculture, in his reply to some questions, asked in

the legislature, said that because of lack of "satisfactory transportation." I think the people will need some other explanation. There were the potatoes, some \$25,000 worth, that were hawked from door to door in the city of St. John, in many small groceries, hauled also to Lancaster hog pens and finally the balance loaded into schooners to seek a market in the West Indies. First they were loaded with all the "contingent expenses" as Hon. Mr. Murray said. That is, they were "sorted and piled" by A. C. Smith & Co. at over thirty cents a barrel. Then they were placed in expensive new barrels or bags and they were furnished with a guard of several men who remained with them day after day until they were shipped. The returns from the sales were not to be had last spring in the legislature. They may be available next session.

This will give the people some idea of how first \$90,632, then \$25,887 of their money was spent to show their "loyalty to the Motherland." This was how the political parasites were permitted to fatten upon the spontaneous and generous gift of New Brunswick.

Premier Clarke and Minister of Agriculture Murray cannot place the blame upon the former premier for this open and shameless scheme. They knew what was happening. They gave the patronage of the people's gift to their prominent supporters and the most of it to B. Frank Smith, who would soon, they knew, have to run an election in Carleton county.

An investigation would have shown if B. F. Smith was also interested in the "sorting and packing" which was done by A. C. Smith & Co. of West St. John. There were charges of \$12,072 out of the first \$90,632 for filling the barrels and bags and piling them. As for the "sorting" of potatoes that were just picked from the field that is very ridiculous. But, even sorting, the charge of \$12,000 in connection with this shipment of 35,000 barrels made every potato-shipper in the province gasp with astonishment. It was simply incredible to think such charges could have been made and paid. Yet Mr. Murray and his deputy, Mr. Daggett, must be held responsible for this wastage. They knew other firms would have done it for less than half this charge. They could have asked such shippers as W. W. Boyce of York county, McCain of Florenceville or many others and learned that such a charge was outrageous.

"Another question that they must answer is why they permitted B. F. Smith to ship some twelve or fifteen thousand barrels more than were ordered. That was why the governor had to sign a second warrant of \$75,000 to pay for the potatoes that were not ordered and of which eighteen cars were condemned by Inspector Leslie Slipp. Hon. Mr. Murray in reply to a question, said none of the condemned potatoes were sent to Britain or Belgium but what the people want to know is whether they were paid for.

As near as can be figured from the incomplete information there were nearly seventy thousand barrels of potatoes bought from the farmers, but of this amount only thirty-five thousand barrels went to great Britain and a little less than fifteen thousand barrels to Belgium. But the political buyers made a profit on every barrel and the sorters and packers, A. C. Smith & Co., were paid their enormous charges.

"According to the auditor's report they were paid more than

\$12,000 for sorting and packing the first purchase of about forty thousand barrels, and Hon. Mr. Murray said the same contingent expenses were attached to the other purchases. That would allow A. C. Smith & Co. a future bill for this work of about \$10,000. The profit of at least ten cents per barrel, would amount to \$7,000. The evidence of those who sort and pack potatoes is that the work could have been done for twenty-five per cent of what was charged. There should have been no profit for the buyers of the patriotic gift. There were more than enough agricultural officials and presidents of agricultural societies in New Brunswick who for such a purpose would have sprung to attention and given their interest and their time for nothing.

"Contrast the action of little Prince Edward Island with that of New Brunswick. The Island government donated 100,000 bushels of oats which were worth more in the market than New Brunswick's gift of potatoes. Yet a few days ago Rev. D. Gauthier, president of the Grain Association on the Island, told me with pride how the farmers had donated the gift and all that was done to aid them was furnish the bags. There wasn't a cent of profit for any politician, there wasn't a cent to pay for any official and nothing was paid for the oats.

That was true patriotism, and was not tarnished by the presence and greed of political plunderers such as gathered in New Brunswick as soon as it was known that a large sum of money was voted as a token of the loyalty of the people of this province to the Motherland.

"Unless it is the intention of the people to permit such abuse of their noblest intentions, unless they are willing that their loyal feelings and their generosity shall be used to fill the pockets of unscrupulous politicians, they should urge upon the royal commissioner, W. B. Chandler that this is not the time to abandon his work but that it is as much his duty to bring out every fact as it is Sir Charles Davidson to expose the graft in the horse purchase in Nova Scotia, so that it may no longer be possible for the people's patriotism to be made an excuse for the politician's profit.

Death of Mrs. Robt. Jas. Miller

After a brief illness of five weeks, Alma L. Corey, wife of Robert James Miller passed away at her husband's residence, Glassville, on Friday morning, August 20. For some time past she had complained of stomach trouble; but medical skill proved unavailing. During her illness she was attended by Dr. Brown, of Centreville. The funeral which took place on Sunday afternoon was the largest in the district for many years. The services in the house, at the Presbyterian church, and at the graveside were conducted by Rev. E. C. Jenkins, United Baptist pastor, Florenceville, who was assisted by Rev. James Colhoun, Glassville, and E. A. Robertson, student-missionary. Mr. Jenkins preached an impressive sermon from II Timothy, Chapter 4, verses 7-8.

The deceased lady leaves a sorrowing husband, two sons, three daughters, her aged father and mother, and several brothers and sisters to mourn her comparatively early death, having passed her forty-eighth year by only a few months.

PERTH'S NEW SCHOOL BUILDING

Pert's new school building now in course of construction will be modern in its planning and convenient in its appointments. It certainly will be a source of personal pride to every resident of the town. Subsequent to the placing of a contract for this building, a proposition for the consolidation of Andover and Perth districts was agitated but strong opposition sentiment in Perth defeated this scheme and immediately plans were consummated whereby the towns will soon possess creditable and commodious accommodation for the children of the district.

The contract for the work was awarded to Charles Hanson, a well known and successful builder and contractor. A force of masons and carpenters have been at work for some time and considerable work has already been done. The site selected for the building is a beautifully located lot in the lower part of the town. The lot, considerably over an acre in size is ideal as a play ground, level and sufficiently large for all school boy games. According to the contract plan the building is to be 56 feet by 67 feet with one story and basement. The basement will have a height of 9 feet, 5 feet 8 inches from the foundation up being concrete. Surrounding this is a well laid up distance of 3 feet 4 inches, with hollow concrete blocks. The upper portion or main building is to be of wood, with the roof finished in metal.

The basement will contain two large rooms, one to be devoted to the furnace and a store room, while in the other will be installed a complete equipment of modern and sanitary toilet appliances.

The main structure will be devoted entirely to the accommodation of instructors and pupils and will contain, in addition to the necessary entry halls and cloak rooms, four spacious and well lighted class rooms. The outside will have a clapboard finish while the finish of the interior will be in plaster and native birch. When completed this building will represent an outlay of some \$7000 over and above the purchase price of the site, which, from its location, is in itself a valuable asset to the district.

DeWare-Stokoe

One of the prettiest of home weddings took place at the home of Mrs. Emma DeWare, Waterville, on the afternoon of Wednesday, September 1, at five o'clock, when her youngest daughter, Nita Fay, was united in marriage to Myron V. Stokoe.

The wedding ceremony was performed by Rev. E. C. Jenkins in the presence of the immediate families of the bride and groom and a number of friends.

The house was prettily decorated with a profusion of cut flowers and potted plants.

The bride wore a becoming costume of ivory silk eileen with veil and Juliet cap, and carried an exquisite bouquet of cream bride's roses.

Mendelssohn's Wedding March, was played by the bride's sister Miss Emma DeWare, and during the service "The Voice That Breathed O'er Eden" was rendered.

Following the ceremony luncheon was served, the dining room being decorated in pink and white.

The groom's present to the bride was a handsome brooch with pearl settings.

Several pieces of beautiful cut glass were among the presents received.

Both bride and groom have a large circle of friends who wish them every happiness.

THE FAMILY PHYSICIAN

"Fruit-a-lives" is the Standby in This Ontario Home

SCOTLAND, Ont., Aug. 25th, 1913.

"My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money, until we happened on 'Fruit-a-lives'. We have used it in the family for about two years, and we would not use anything else as long as we can get 'Fruit-a-lives'."

J. W. HAMMOND.

"FRUIT-A-LIVES" is made from fruit juices and tonics—is mild in action—and pleasant in taste.

His Specialty.

A certain man of New York, known familiarly as "P. C.," admits that his early school record was not deserving of academic reward. But he got one medal. He grew up in Louisville and there attended a small school presided over by a lady of the old regime, a tender and kind hearted soul. Each year when the last day of school came around the scholars and their parents gathered for the award of prizes, and the gentle schoolmistress could not bear to let any child go disappointed. When commencement day came P. C.'s name also was read out for a special medal. It was awarded "For cheerfulness during the recreation hour."

One Tooth With Sense.

After a lot of picking and tapping with his instruments the dentist straightened up and addressed the patient in the chair:

"There's a large cavity in one of your molars, three small cavities in the other molars, the incisors ought to be straightened, one bicuspids needs a crown, and in the open space on the lower jaw we can't fit in a tooth that will be as good as new."

"How about my wisdom tooth, doc?" asked the patient.

"That seems to be all right."

"Well, thank heaven, I've got one tooth with enough sense to keep out of the general smashup!"—St. Louis Post-Dispatch.

Open Air Barbers in Spain.

Fingers that smell of garlic, soap that gives no ether, a razor that may have been used for cutting raw ham and a dourish that reminds one of an executioner rather than of a barber—such are the qualifications of the itinerant Spanish hairdresser. The victim—we use the term advisedly—must be a patient, long suffering man, neither the slave of time, nor of any petty feelings such as delicacy and sensitivity, as otherwise he will fare badly at the hands of his torturer, for the Spanish open air barber is a calm man, who takes everything for granted and never for a moment doubts that you are satisfied with his attentions and will pay him accordingly.—Wide World.

CHEERFULNESS.

Cheerfulness means a contented spirit; it means a pure heart; it means a kind and loving disposition, it means charity; it means a generous appreciation of others and a modest opinion of oneself. Stupid people, people who do not know how to laugh, are always pompous and self-conceited—that is, bigoted; that is, cruel; that is, ungente, uncharitable.

George Washington Outdone.

"Pop," said Little Rollo, "why are parlor ornaments called ornaments?"

"My son," replied Rollo Senior. "I cannot lie; I don't know."—Philadelphia Ledger.

Hiccoughs.

Hiccoughs are the result of a nervous contraction of one of the breathing muscles. Ordinary attacks may be relieved by anything which diverts attention and allows breathing to go on automatically.

World's Highest Capital.

The famous old city of La Paz, Bolivia, in a valley more than 12,000 feet above the sea, is the highest capital in the world, overtopping Lassa, the far famed capital of Tibet, in Asia, by several hundred feet.

BACK AFTER THIRTY YEARS

Recently the editor of the Victoria Observer enjoyed a pleasant interview with Mr. and Mrs. David Orser and Mrs. Wm. Cogswell. The party came to Perth from Fort Fairfield by auto and remained in town a short time.

Mr. Orser and wife are visiting friends in the north having made the entire journey from their home in Orono, Florida, by auto. This is Mrs. Orser's first trip north while the gentleman is making his first visit to the home he left some 33 years ago. At present the Orsers are visiting at the home of Mr. and Mrs. Wm. Cogswell, Mrs. Cogswell being a sister of Mr. Orser. At this home also is the aged father, Rev. Elijah Orser, whose work here is nearly done. Mr. Orser for many years was a successful contractor and builder in Chicago and is at present largely interested as a property holder in that city. In addition to his large Chicago holdings his attention is divided between a prosperous young Florida orange grove of some 60,000 trees and a large Michigan ranch on which among many other things he mentioned having, this season, a corn acreage of about 40 acres and upwards of 35 acres in grapes, and as one of Alton's grape juice factories is located in the vicinity a ready market for this fruit is at his door. Quite evidently this is one of many instances where one of New Brunswick's sons has made good, and not only made good but still retains health to enjoy the fruits of his industry and business acumen.

It is a far cry too look back over a stretch of 30 odd years but there are still many who will remember and be pleased to meet Mr. Orser and will undoubtedly do much to make both him and his estimable companion feel that they are not without friends in this northern land.

Constipation, Indigestion and Horrible Backaches

Searched for a Cure for Years—Advised to Try Dr. Chase's Kidney-Liver Pills and Was Cured.

Where there is poison there is pain. This is a provision of Nature to warn you against conditions that are likely to prove serious.

Constipation of the bowels is undoubtedly the greatest source of disease and suffering. By using one of Dr. Chase's Kidney-Liver Pills at bed-time as often as is necessary to keep the bowels regular, you can cure constipation and the consequent indigestion and remove the cause of backache, rheumatism and other painful diseases. "Daily movement of the bowels" is the greatest law of health. Dr. Chase's

PROF. SMITH

Kidney-Liver Pills will help you to form this habit, add to your years, and bring comfort in old age.
Professor A. T. Smith, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes:—"I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors without any results. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement, and after the fourth box I was completely cured. My digestion is good. I never feel any pain in the back. My head is clear, and I feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines on earth."
Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all drug stores or Edmundson, Bates & Co., Limited, Toronto.
