BREEZY ITEMS FROM BUSY BATH

Game is plentiful—To Montreal Hospital.

The hunting season is here at last and game, both large and small, is very plentiful. Partridge is seen flying about the lawns and perching on the window sills watching the housewife as she prepares an appetizing meal. This incident may speak well for the culinary abilities of our ladies, both old and young, but such cannot be said of the level-headedness of Mr. Partridge, for by his little business his head was lost. He made for himself a reputation, but alas! it was, proverbially speaking, at the wrong mouth.

Moose and deer are also quite plentiful. The credit for bringing down the first moose this season going to Clarence Drost. However, this is not a forerunner of the many which will be added to the grand total by local sportsmen before the close of the present season.

Dr. M. B. Cummins and John W. Bohan left last Friday for Montreal. Mr. Bohan is at present taking treatment at the Ross Memorial hospital. His many friends hope that he may soon return greatly improved in health.

George Armstrong, Perth, was a caller in town Thursday.

Mr. and Mrs. Arthur J. Drost and son Edward returned from British Columbia during the past week. Mr. Drost states that times are not as rosy along the Pacific Coast as some would like to picture it. The section in which Mr. Drost was located was a fast growing one and that the fruit growers were finding it very difficult to market the season's crop. Pears were selling at 2c lb, a large painful cost at that price about 3c.

Miss Teresa Furlong, R. N., has returned to Lewiston, Me.

Murray Hay, Woodstock, was a caller in town Thursday.

Mrs. Hamers, who for the past three weeks has been visiting her daughter, Mrs. Stanley McDonald, returned to St. John on Tuesday of this week.

Mrs. John Murphy has returned home after a pleasant visit with friends at Portland, Me. Her health has been much improved by the change.

Mr. and Mrs. McKay, Stellarton, N. S., are in town. Mr. McKay is relieving S. McDonald, manager of the Bank of Nova Scotia, who is taking a vacation.

Another meeting re the proposed hydro-electric district has been called for Friday evening at Foresters Hall, Bristol.

Mr. and Mrs. G. S. Larlee, accompanied by Mr. and Mrs. Frank Giberson, spent the week-end on a hunting trip to the Miramichi. They brought home with them a good supply of partridge.

Hogan's Houlton Harmonies gave a dance in Centerville on Thursday evening last. A good number attended from this place and all enjoyed the last dance to be put on by this popular company for the present season.

An accident occurred early Monday morning at the railway crossing at Bohan Bros. warehouse, when a Star car, driven, it is understood, at a high rate of speed failed to make the turn, striking the rails, smashing both left, front and rear wheels. Fortunately the occupants escaped injury.

REV. I. W. WILLIAMSON LEAVES FLORENCEVILLE

Rev. I. W. Williamson spent a busy Sunday Oct. 7, addressing the East Florenceville Sunday school, and conducting four church services for the last time.

On Monday evening members of all the Baptist churches tendered him a reception in the East Florenceville church school room. The Florenceville band gave a concert, and there were speeches by Messrs. Caldwell,

Boyer, Smith, McIsaac and McCain, regretting his departure, and speaking of the excellent results of his pastorate here. Refreshments were served by the ladies of the church.

On Tuesday morning Rev. Mr. Williamson left to motor to Boston, where he will conduct evangelistic services in the Clarendon street Baptist church for one month. He has not decided where he will locate permanently. For the present Mrs. Williamson and family will remain here, but have vacated the parsonage. Rev. K. M. Wallis is expected at once to take over the work.

CARLETON COUNTY VOCATIONAL SCHOOL

Courses in Agriculture and Farm Mechanics Commences November 5

The Courses in Agriculture and Farm Mechanics, at the Carleton County Vocational School, commences on Tuesday, November 5, and a large attendance is looked for. As a further inducement to those young men to whom the above course caters to attend the school, the authorities are planning to offer board and lodging facilities at a much reduced rate. A similar system is now in vogue for the young ladies attending the Home Making and Commercial Courses and, because of the reasonableness of the cost per student, this year's attendance shows a very much higher percentage to out-of-town students. However, the success of the plan at present under consideration for the young men pursuing the Course in Agriculture and Farm Mechanics will depend very largely upon the number of young men who enroll for the courses, and upon the earliness that their enrollment applications are made. To make the necessary arrangements it is imperative that those who attend to enroll make their applications immediately. If you are not familiar with the above course, a letter addressed to the proper party will secure for you, promptly, all the necessary information.

We thoroughly appreciate the fact that times are not the brightest, but we must also recognize the fact that times can never be so bright that young farmers can successfully meet and solve their daily problems without an adequate education. No other business or industry requires a more complete, more all-round education than does that of farming. Knowing this and believing this to be true, are you not going to make an effort to secure a specialized training in Agriculture and Farm Mechanics, together with an appropriate training in the essential academic subjects? Every young man whose intention it is to farm can well afford to pursue such a course at the Carleton County Vocational school. It is free. Make inquiries concerning the course. Make application for enrollment immediately. Address all communications to the Director, Vocational School, Woodstock, N. B.

THANKS FOR HOSPITAL AID

At the annual meeting of the Hospital Aid, Thursday, Oct. 4, a vote of thanks was passed to Mrs. S. S. Miller and Rev. W. P. Haigh and those who assisted them in getting up the fine concert in Hartland which netted the handsome sum of \$48 for the tiled floor in the operating room.

A vote of thanks was also given to Mr. Fred Stevens of The Observer for his generous donation and kindness in advertising—Press.

CARD OF THANKS

We wish to thank our many friends and neighbors who so kindly assisted us during the illness and death of our little boy, also for the many flowers and those who helped with the singing.

QUINIC LODGE

Quinic Lodge is situated on the south branch of the Beauséjour lake near the outlet of the lake. This is a new sporting camp owned solely by Dr. L. Dec. MacIntosh of Hartland.

The first camp warming took place from Tuesday to Thursday of last week. The guests were Dr. and Mrs. MacIntosh, Mrs. Jas. Plummer, Mr. and Mrs. Kenneth Keith, Lee Grant, Fred Grant and H. A. Sipprell.

This fine sporting camp is of a good size, well built, and well furnished. Has four double bunks, to say nothing about liberal floor space in case of emergency, for sleeping quarters.

This building is not even placed under lock and key as the Doctor wants it to be a benefit to the weary traveller in the lake neighborhood.

One request only is asked, that the person or persons who enjoy its privileges do not abuse the courtesy that the Quinic Lodge affords.

A good board boat has also been provided and anchored at the Lodge landing. Deer is fairly plentiful in this section of the country, one being shot almost upon the arrival of the party above mentioned.

VICTORIES OF BATH BALL TEAM

The long promised yet brief record of the doings of the boys of the Bath Baseball Club for the season 1923 is forthcoming and may be of interest to followers of the game throughout the county.

The following speaks volumes in itself and is one which is a credit; first to the players themselves who won their laurels by good straight clean fighting; who were not overbearing in victory and who smilingly met defeat. Secondly: To the town of Bath whose banner they so nobly bore, and thirdly to the citizens who encouraged and supported the team in all its encounters.

James played, 26.
Games won, 15.
Games lost, 6.

HALIFAX CHOCOLATES

Chocolates For Korea!

A few days ago a package of 5 lbs. of Mair's Chocolates was mailed to Korea, half way around the globe. The postage was 15c—but after all that was only a small price to pay for bringing some of the happiness of the old home to an exile.

Perhaps you too have friends afar?

Petitboure Biscuits are delicious little sandwiches that still speak with the accent they learned in the Paris from which so many good things come. There are 30 different kinds of Mair's Chocolates in the week end box alone. It's a line though only a small price to pay for bringing some of the happiness of the old home to an exile. For U.S. President?

When Henry Ford was asked by Montreal reporters if he would run for President of the United States, he said, "I am not running for or against anything", but when asked if he would accept nomination if proffered, the motor car king replied: "No one knows what they will do from one day to another." Mr. Ford is here seen in conversation with Mr. Grant Hall, vice-president of the Canadian Pacific Railway, at Windsor Station, Montreal.

RECENT WEDDINGS

BURGOIN-HEBERT

(Edmundston Observer)
A very largely attended wedding took place at the Catholic church, St. Leonards, of interest to a great many people in Edmundston. The bride

was Miss Elizabeth Burgoin of St. Leonards, who for some time past has been with the Fraser Co's staff at their office here, and the groom was Thadde Hebert who is in Plus Michaud's law office, and one of the Town Councilors. Both bride and groom are exceedingly popular here, and a great many went from Edmundston to the wedding. The bride was given away by her uncle, Laurent Parent, of St. Leonards, and Plus Michaud, M. P., uncle of the groom, acted as witness. The church was prettily decorated with flowers for the occasion. Both bride and groom were unattended. The bride, who looked very charming was beautifully gowned in a dress of pearl gray canton crepe with a black panne velvet picture hat, and ermine choker, and she carried a bouquet of Ophelia roses. Her going away dress was a suit of reindeer dovelyn trimmed with squirrel fur with hat to match. She wore an over-cape of Bolivia cloth. The presents were very numerous and handsome, amongst which was a mahogany dining room suite from friends of the bridegroom in Edmundston. After the ceremony, a luncheon was served at the home of the bride's uncle, Laurent Parent of St. Leonards. On their return from their wedding trip the happy couple will reside in Edmundston. After the luncheon they left for Montreal, Toronto and Ottawa and other Canadian Cities. The Observer wishes them long life and much happiness.

PELLETIER-SAVAGE

(Edmundston Observer)
On September 26 at the Catholic Church at Connors, Miss Annie Pelletier who was on the staff of the Fraser Companies Ltd., here, was married by the parish priest of that place to Edward Savage of Connors. The bride was given away by Cyrille Dionne of Edmundston. Bride and groom were unattended. The bride who looked very prettily was dressed in a handsome gown of blue peridot twill trimmed with gray, with a gray picture hat to match. She carried a bouquet of Ophelia roses. Her going away dress was a suit of reindeer color, with hat to match, and a mole-skin choker. A buffet luncheon was served at the home of the groom after the ceremony, and later the happy couple left by car for Glacier Lake in Maine. The presents were numerous they will reside at Connors. To this young couple starting on the road of life together The Observer wishes the best of luck, long life and much happiness.

MADAWASKA FAIR

The Madawaska County Fair was held on Tuesday and Wednesday of this week. The weather was cold but fine, and probably owing to the fact that the farmers have not finished harvesting the attendance was not as good as it should be. We are told that there was more cattle entries this year than last year, but there was a distinct falling off of vegetables and farm products.

In walking through the building the things which attracted the attention

Wonderful Tea!

Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spends." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skillful blending combines these two great tea qualities for your enjoyment.

"The Extra in Choice Tea."

of visitors most of all was the splendid home work of the women of Madawaska county. Blankets, quilts and fancy work was of a very high excellence.

The few vegetables, too, were of good quality, but they were surprisingly few. This was probably owing to the long cold summer.

The horse racing attracted some interest and the athletics put on by the boys of the school under the direction of Professor Theriault was the source of interest and amusement. We regret to learn that one of the contestants, young Griffin, broke his arm in an accident on the course.

There was one exhibit to make up a Midway. It was the Sheep Bear. The Editor bit and paid ten cents, but the only bear he saw, can't bear description, and he can't bear to think of the ten cents he spent.

We hope to publish next week a list of the principal awards. We hope that next year there will be additional interest and that the people of the County, and especially the town will take hold with enthusiasm to make it a far greater success.

Hon. Mr. Mitchell, deputy Minister of Agriculture, was present, as also were our two local members, Plus Michaud, M. P., and Hon. J. E. Michaud, M. P. P.

The comfortable house owned by Theodore Rogers was destroyed by fire Saturday evening. The down stairs furniture, windows and doors were saved. The fire is of unknown origin as the house was unattended at the time. There is some insurance.

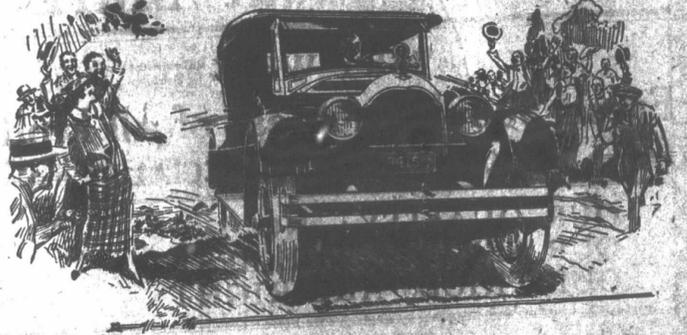

Misses Zaida Wood, Eva Erico, Ethel Bell, J. Crocker and H. Hovey, Florenceville, local school teachers, and about twenty of the older pupils enjoyed a straw drive to the Mnox Settlement Saturday morning, returning late in the evening. They tell some great gals stories but all they brought home was the bird variety.

Prof. Taylor is here this week showing a good line of moving pictures, with other attractions, in the hall of each evening.

Paige—Champion Hill-Climber of All

Wins First Place in "Free-For-All" Event at Albany Contest

AT the annual Albany, N. Y., hill-climbing contest, in the event open to all cars, Paige won first place. And mark this—Paige won against a field of America's quality cars—accepted as leading line cars. The hill is 4/5 of a mile long—covered by Paige in 1 minute and 18 2/3 seconds—the fastest time made in any class. A standard car was used, loaned by an owner—against cars specially prepared for this test.

This added proof of Paige's remarkable performance was not needed. You know that Paige out-performs other cars. Owners are proving it every day in passing other cars on hills—pulling away first in traffic—driving from 2 miles an hour in high so as fast as they care to go—always silently and smoothly. How do they do it? More power for its weight—only 11.4 pounds per cubic inch of piston displacement! That means far more power than in most cars and far more ability to perform. Yet this great power is perfectly controlled under any guidance. That's because of the gentle Paige clutch; easy, quiet gear shifting; and ball-bearing steering spindles.

Paige rides as you have always wished your

car would, for Paige rear springs are more than 5 feet long. Think of it! Comfort on any road at any speed. With snubbers front and rear, and Paige big wheels of 13 1/2 inches, can you imagine any other car nearly as comfortable? Just compare them. Paige bodies are soundly built. Body squeaks and rattles are prevented by double sets of patent leathers keeping metal from contacting metal or wood. Deeply cushioned seats and ample foot room invite rest.

Paige cars are completely equipped—no extras to buy. Think of all the accessories you must buy for other cars—see the list below—standard equipment on your Paige. Add the cost of these—\$500 at least—to the price of other fine cars, and then compare them with Paige. This extra value in Paige cars is the result of overhead costs saved on Paige by quantity production on the Paige-built Jewett. Paige is a \$4500 car selling at \$3825.

Check all this by seeing and driving the Paige. There is no obligation to buy. Just telephone or call for a demonstration whenever you like. Convenient purchase terms if desired. (39-A)

REALLY EQUIPPED!

Paige prices include following equipment for which others charge extra on top of advertised prices—Two extra coil discs, tubes, rims and covers, mounted forward and locked on spring hangers front and rear; snubbers; one-light folding luggage carrier; motorometer; Wilbur clock; gasoline gauges and clear lights on the dash; automatic windshield wiper; sun visor; rear-view mirror; transmission lock.

Rev. H. R. Bell will preach on Oct. 14 as follows: Centreville, 11 a. m. and 7 p. m.; Carvell at 3 p. m. All are cordially invited.

Wednesday's program was very spiced, opening with a Fox News reel. The feature film 'The Beach of Dreams' was a pretty story of the life of a girl in an exclusive Parisian family, who, while cruising in a pleasure yacht was wrecked and cast away on an island in the South Seas. Her life there with a low-caste sailor until rescue came, his introduction to the snobby family at home, and the final denouement. Edith Storey and Noah Berry played the parts admirably. A laughter comedy was also shown. Saturday evening 'Poor Men's Wives' was shown. This was written by the author of 'Rich Men's Wives' and was a much better story. The stage settings, properties and gowns ran from the drab to the gorgeous. Barbara LaMarr and David Butter played the part of the indigent couple while the role of their rich friends was given Betty Francisco and Richard Tucker. One of Harold Lloyd's best was also shown. He was assisted in his mirth provoking by Harry Pollard. Read the notice of coming attractions on another page.

CLIMED MARS HILL

On Saturday, September 29, a number of young people from Royalton spent a very enjoyable afternoon climbing Mars Hill Mountain, Maine. The view was magnificent and with the aid of a field glass a great many distant places were located. The trees were clothed in many beautiful colors and the steep climb gave the young folk a hearty appetite for a delightful lunch. All reported a good time and well worth the effort and energy expended. The members of the party were Misses Thelma Kelly of Pokio; Agnes Belyea, Hartland; Helen and Evelyn Crawford, Mary Owens and Vera Buchanan; Charles and Arthur Owens, Claire Crawford, Vaughn Buchanan and Karl Kierstead of Royalton.

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become creakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 92c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise wasted. The cattle embargo is now on. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

We Must Cut Production Costs

Canada is meeting with the keenest competition in the marketing of her products. To hold her own and regain her place on the world's market, she must reduce cost of production.

The only way to do this is to increase production per acre, per cow or per other unit.

But improved quality, also, is essential to meet market demands.

The quantity and the quality of the products and the cost of production in competitive countries is beyond our control.

Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canadian seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food-stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

THE STORY OF A

"BLIND BARGAIN"

Robert Sandell, a young author in desperate circumstances is overcome by a powerful stranger he seeks to rob. He wakes to consciousness in a mysterious mansion, the home of the eminent surgeon, Dr. Lamb.

Attending the doctor is a hunchback mute who observes Robert's presence with horror. Dr. Lamb orders to perform an immediate operation to save the life of Robert's invalid mother, also to give the boy unlimited resources provided that Robert deliver himself blindly for experimental purposes in humanity's behalf. At the height of a brilliant reception which Robert is attending with his fiancée, Dr. Lamb appears. The surgeon announces that on the following

morning their bargain must be fulfilled.

At dawn the hunchback mute rouses Robert and shows him as warning a mysterious underground vault in which is a complete operating room and a tunnel of cages in which are strange prisoners. Suddenly Dr. Lamb appears, enraged at the duplicity of his servant. He approaches the mute but the latter releases a cage door and the surgeon meets a horrible end in the powerful arms of an ape monster.

Finally freed from the terms of his blind bargain, Robert returns to his home to learn that his writings have met with success and that Angela awaits him for the marriage ceremony.

At Hartland Thursday, Bath on Friday and Centreville on Saturday.

UNITED FARMERS WIN SUIT

At Hampton, Kings County, before Judge Jonah and a jury, the case of the Maritime United Farmers and the Havelock United Farmers against James Dickie, was tried last week. It was an action to recover the balance remaining unpaid upon shares of stock subscribed for by the defendant under a call made in 1921.

The defence was that the defendant was not a shareholder, that no proper call was made and that the subscription was obtained by means of misrepresentation and fraud.

The jury found all the issues in favor of the plaintiff companies, and a verdict was entered against Mr. Dickie for the full amount claimed with interest.

This case is of much interest to those connected with the Maritime United Farmers and its several branch Companies.

W. P. Ones, K. C., and Mr. Rice of Petticoatic were counsel for the plaintiffs; Geo. H. V. Belyea, K. C., and Mr. Gilbert for the defendant.

GREEN-WHEELER

A very pretty wedding took place at the home of Mr. and Mrs. Cook K. Wheeler, Traceys Mills, September 12, at 4 o'clock, when their eldest daughter, Gladys Mabel, was united in marriage with Capt. Roy E. Green, Rev. R. A. Burrows of Bridgewater, Maine, performed the ceremony beneath an arch of evergreen and flowers, which made a beautiful setting.

The bride, who was given in marriage by her father, looked charming in a gown of ivory crepe-de-chene and radium lace. She also wore the conventional veil and orange blossoms and carried a shower bouquet of sweet peas and maiden hair fern. Miss A. Wheeler, sister of the bride, played the wedding march. The couple were unattended.

After the ceremony luncheon was served to about fifty guests. Many beautiful gifts were received testifying to the esteem in which the couple are held. They will reside in Traceys Mills.

DEATH OF A FOUNDLING

A year ago last winter a tiny infant was found on a doorstep of a Woodstock residence. The case created much interest at the time as the child was almost perished from the cold, being at the time of finding badly frost bitten in several parts of its body. Mr. and Mrs. John Belyea of Windsor, notably kind and tender-hearted people, hearing of the case went to Woodstock and volunteered to take and rear the infant, which they were allowed to do. That was a year and a half ago and the little one thrived and had all the warmth of real honest-to-goodness parents love bestowed upon it by Mr. and Mrs. Belyea. But a few days ago the child died and was deeply mourned by its foster-parents, who have the sympathy of the community for they loved the foundling as though it were their own flesh and blood. Rev. H. V. Bragdon conducted the funeral service.

the building was a mass of flames before the fire was discovered and it was therefore impossible to save the building or contents. How the fire originated is a complete mystery. The mill is a big loss as it was one of the best equipped in the country and cost in the vicinity of \$14,000.

It Pays to Advertise!

The remarkable success with which the Dominion Government floated its recent loan of \$172,000,000 abundantly proves two things—two things that hold true in Carleton County and throughout the Dominion. First, it proves that it DOES PAY TO ADVERTISE. It was advertising that put the loan over. Had there been no advertising the people of Canada would not yet know that a new issue of Dominion Bonds was on the market. And the advertising was done chiefly through the newspapers, The Observer being among the number of mediums used. Ads ordered by the Government and by local bond dealers to run three weeks in The Observer were cancelled after the first issue for the reason that the full allotment of bonds WAS SOLD—sold through newspaper advertising, backed up, of course, by good salesmanship. All successful advertising offers good value in the things people want to buy, and it must be backed up by good selling force when the advertising has brought buyer and seller together.

If you have goods to sell and want to get into intimate touch with the buyers, you can best do it in Carleton County by advertising in The Observer with its 2850 circulation, 90 per cent. of which is distributed in the territory embracing Woodstock north to the county line.

The other thing that the tremendously successful advertising of the Dominion Loan proves is that THE PEOPLE STILL HAVE MONEY! Surprising it is, but it is true.

The Government issued Bonds for \$172,000,000 and it was anticipated that the whole month of October would be required to dispose of them. But BEFORE the bonds were on the market sales of \$72,000,000 had been assured and before the first week of October had elapsed the issue was over-subscribed to the tune of \$200,000,000! Money in the country? You just bet there is. And buying the bonds didn't send any of it out. All the money is here in Canada yet, ready to make its useful rounds again and again.

Money in Carleton county? Local bond dealers were amazed at the flow of it when the people were offered a good thing—when they were offered a good thing by good newspaper advertising.

Mr. Merchant, there is money in Carleton county for YOU. The good people have simply got over their wild orgy of free spending; they have learned caution. Shave your prices a bit, offer the people real value in the things they want and COAX THEM OUT OF THE BLUES.

ADVERTISING IN THE OBSERVER WILL DO THE TRICK. TRY IT!

The Observer's advertising service is at YOUR service. Call or phone or write any time of any day and let us talk the matter over.

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

I listed to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. Sewing Circle Gossip.

There was some discussion at the Circle this week as to the time of day when a cup of coffee tastes best. Some one said one time and some said another, but we are all agreed that a good strong cup of LUXOR coffee was more than acceptable at any time. LUXOR seems to be growing in favor among "circle" members every day. We circle members do love our coffee.

The most expert craftsmen we can secure are employed and the enterprise needs your patronage and we will lend our best effort to satisfy every customer in quality, service and price. AROOSTOOKAN LIKES NEW BRUNSWICK

C. C. Harvey, editor of Fort Fairfield Review, always has a good word for New Brunswick. The following items from his most recent issue are pleasing and complimentary:
New Brunswick for scenery! It is surely hard to beat our sister Province in that regard. The editor and party recently had a ride around the "North Shore" as they call the northern edge of New Brunswick, along Bay Chaleur, thence to Campbellton and up the Metapedia Valley. Whether it is the St. John, the Nashwaak, the Miramichi or the Metapedia, the scenery is more than beautiful every step of the way. Coming, as this trip did, right in the height of the fall colors on the trees, the woods and hills, mountains and valleys were beautiful beyond description.
In Lakeville the other day we could

not help admiring the extremely beautiful flowers at the home of Mr. and Mrs. Carvell, who, by the way, is a sister to Mrs. Sarah McCrea, of Mars Hill, formerly of Fort Fairfield. Mrs. Carvell's success with flowers is surely noticeable.
Miss Gertrude Carr, the popular bookkeeper at Peterson's garage, leaves about November 1 for Florida, accompanied by Mr. and Mrs. W. W. Oger. They will remain during the winter. Miss Carr's place at Peterson's will be taken by Miss Daisy Johnston, who will take up her duties there October 8.
William Amies, a popular old citizen of Fort Fairfield, was one of the people we ran across the other day in Lakeville, his present home, where he owns the Lakeside Hotel. Mill, he owns the Lakeside Hotel. Mill, which seems to be a very flourishing and finely operated concern. Mr. Amies informs us that he and Mrs. Amies recently received a letter from Miss Irma Reynolds, in Shanghai, China, China, a teacher there, who was for several years a popular assis-

tant in the Fort Fairfield High school. Miss Reynolds informed them that she is coming home next year by way of the Iuzeg Canal, intending to fly from Paris to England, where she will call upon Mr. Amies' son in London. Young Mr. Amies is superintendent of one of the great power companies in that city.
Some 12 members of the Fort Fairfield Praying Band went down to Royalton Sunday, holding there three meetings, with good crowds and attention. Three made a start toward the religious life.
Mr. and Mrs. Arthur Dickinson and two sons, of Hartland, returned home Thursday after a short visit here with Mr. and Mrs. D. H. Boyd.

'A FOOL THERE WAS—'

(After Kipling)
A Fool there was and he made his prayer
(Even as you and I)
To a business housed in a building fair;
He laughed at his profits and knew no care
Nor heeded the Fire-fiend lurking there.
(Even as you and I)
Oh, the wealth we waste and the lives we waste,
And the value of buildings and land
Destroyed by the men who do not care
The men who cannot be made to care
So long as their profits stand.
A Fool there was and his wealth he spent,
(Even as you and I)
On buildings placed with the best intent,
In the very spot where the Fire-fiend went
But a fool must follow the precedent.
(Even as you and I)
Oh, the toll we lose, and the spoil we lose!
And the excellent future planned
All sacrificed by the careless wight
Who boasts to the world that his way is right
Until he suffers the Fire-fiend spite
And learns to change his stand.
The Fool was stripped to his foolish hide,
And grieving sat by the ruin's side
But it isn't or record the Fire-fiend cried
So the fool lives on though his business died.
(Even as you and I)
And if isn't the shame and it isn't the blame
That gives to the fool his brand.

It's coming to know that simple care
Would have banished the Fire-fiend to his lair
And forever have stayed his hand.

A CONTRADICTION

Editor Observer:
I wish to contradict the statement of James A. Bell published in your issue of Sept. 20, in which he states that I left his bed and board without any just cause or reason.
In the first place he did not provide any bed or board for me to leave.
In the second place I did not leave him but he left me. He brought me to my parents home and left me there after asking them to care for me during my sickness. After leaving me there he went to work for Flemming & Gibson, Ltd., near where I was staying and after holding the job for a short time he left the place without telling either his employers or myself that he was going. Since then he has furnished no support towards myself or his three children, nor has he provided any home for me to go to or asked me to go to any place that he has provided. I have never asked anyone to let me have anything whatever on his account and therefore can see no reason why he should give any such notice as appeared in the issue referred to. I do think, however, that if he has the least bit of manhood about him he will make some provision for the support of his children. I am thankful to say that I am able to earn my own living and am not asking him for anything for myself.

PRINTING

While it is true that the stamp on your letter is a guarantee of delivery, it fails to the letter itself as to where its final destination—the filing cabinet or the waste basket.

In many cases your written correspondence is your only point of personal contact with your client or your customer, and it is through poor appearance or address it fails to convey the importance of your message. It naturally is received with but scant attention. If, on the other hand, your letter has a "crackling" of quality—a clean, dignified appearance—it will command the same respect which would be accorded to you on a personal visit.

To ensure quality which you know will be faultless and therefore above comparison, specify Colonial Bond. Printers everywhere in Canada have it—better still, let us send a sample sheet.
