Austrian Government Threatens To Cancel Safe Conduct For Charles Unless Departure Is Soon—The Former Ruler Wants To Live in Native Land-Willing To Be Private Citizen If They Will Not Permit Him To Be King.

Vienna, April 4.—The Austrian cabinet has notified the Hungarian Government that unless an early hour is set for the certain departure of ex-Emperor Charles the Austrian Government will cancel his safe conduct. This notification has evoked a promise from Hungary that Charles would leave that country within 48 hours from Sunday night.

While republicans here are maintaining an attitude of great restraint and not giving voice to violent utterances or threats, nevertheless the irritation among them has been growing. In today's issue Dermorgen declared it would be hard to check a revolution in Austria if the ex-king remained on Hungarian soil much leaves. HIS NATIVE LAND

### FLAG FLIERS WIN ELECTION

London. April 4.—(Canadian Associated Press).—The district council election in Edmonton, a large industrial suburb of London, which was fought over the question whether the Union don, which was fought over the question whether the Union Jack should be flown over the town hall or Empire Day, resulted in a big victory for the flag fliers. After it was announced that the labor majority of the town council had decided not to fly the flag, ex-service men assembled on the roof of the town hall, while one of their number climbed the Union Jack to the truck. Unfortunately after performing this the Union Jack to the truck. Unfortunately after performing this feat the hero of the occasion descended with unexpected celerity and broke his leg. The incident, however, only increased interest in the contest, and after the halloting huge crowds besieged the city hall till 4 o'clock in the morning, when the result was announced.

# Developments in the street railway situation are certain before the end of the week. Of the 30 days which employees and the company have in which to reach a wage agreement before the ontario railway and municipal board gives up control of the road, four have already elapsed, with no efforts toward a settlement. The executive of the union will meet the management of the company Wednesday afternoon. This probably will be the first move toward a permanent settlement. Both company officials and the man seem confident that matters can be straightened out before the end of the month, and for that reason are not hastening negotiations. Executive of Union Will Meet Management in an Effort To Straighten Out Difficulties Before Railway Board Gives Up Operation of Road.

Basel. Switzerland. April 4 .- Two men, who hal entered into a contract with a woman to end her life, were recently hailed into criminal court here by the party of the second part for taking \$1,500 of her money for the job and failing to carry out their bargain. Robbery was charged by the plaintiff in the action, and the men were sentenced to terms in prison. The woman narro wly escaped trial for attempted self-

The woman was Fraulein Krauss, who, brooding over her spinsterhood, decided to end her life, but she could not bring herself to suicide. She found a chemist, who professed to be willing to act as executioner for a consideration, and after the two had conferred in the presence of a third person, terms were agreed upon. The woman insisted upon being beheaded, it was alleged, but the cnemist, with a show of professional pride, held that poison would be just as efficacious and more in keeping with the conventions. The third part suggested drowning as a compromise and the deal was closed.

The three started for Lake Lucerne, but the chemist, having exacted advance payment of 75 per cent of the £400 price, vanished en route and prosecution followed.

Bright sunshine and balmy breezes with just a tinge of iciness made yesterday one of the most pleasant, if not the most pleasant Sunday of the year, to date, and the citizens of London were to date, and the citizens of London were not slow in taking the opportunity to respond to the "call of the open."

Throughout the day, all the main roads centering in the city were thronged with autos, from the palatial limousine to the homely little roadster and his cousin the sidecar motorcycle, rigs of all descriptions, smart rubbertired buggies mixing indiscriminately with the less uashy but nevertheless handy buckboard, each carrying its human freight of young man and maiden, with numerous family parties which tax the full capacity of the vehicle in which they rode.

Residents Hostile Over Failure of Government To Stop Havoc.

[Special to The Advertiser.]
LEAMINGTON, April 3. — Citizens
here are indignant over the fact that this spring sandsuckers in greater num-bers than ever before are operating off Point Pelee, notwithstanding representations made to the Ontario Government against granting permission for the removal of any more sand from the southern peninsula Last spring Milton W. Fox, U. F. O., took the matter up with Premier Drury, pointing out the need for immediate action to check the operation of sand dredges, which it was asserted, was rapidly causing dangerous erosion both ata Point Pelee and Pelee Island.

It now ppears that owners of the sand dredges are operating off Point Pelee again, having ben granted licenses by the Goyernment to take out limited amount of sand and gravel. leader. Residents of the locality declare the Point is systematically being destroy d by the operation of the dredges.

### **NIGHT SESSIONS** OF LEGISLATURE ARE PLANNED

Premier Will Give Talkative Members Plenty of Time.

[Special to The Advertiser.]

TORONTO, April 3. - Despite strict

dherence to a business program in the Ontaria Legislature last week, progress was distinctly disappointing to the Government. Monday and Tuesday, with the House in committee, the legislative wheels ground with fair dispatch. Wednesday they faltered badly over Hon. Walter Rollo's labor legislation, whereas Thursday's session, when three Government measures were turned back, was almost barren of results. However, it is said the Government by the Turkish forces in the battle at has thought out a remedy. If honor-Eski Shehr, according to a dispatch able members opposing the Government must talk at extreme lengths on each and every measure, the premier, it is said, will provide ample opportunity during the coming week—opportunity to talk until 1 or 2 o'clock in the morning. Coming Up Again.

Premier Drury's new bill amending Coming Up Again.

Premier Drury's new bill amending the public injuiries act, the admissibility of which was contested by Charles McCrae, Conservative member for Suddbury, is sure to be taken up again in the House during the week A big deputation is expected down from the Kenora district to protest against the premier's bill respecting Lake of the Woods control board, and possibly that bill will be re-introduced at the end of the week. O. T. A amendments are still in the offing with a possibility of their being brought down any day.

All reports coming in go to show that the wheat gives promise of a good this year, provided the weather is favorable from now on. It seems to have come through the winter well, and the many spring rains have been a great benefit.

Many farmers, owing to the poor to-bacco outlook, are doing a let of thinking as to what is going to take the place of the Woods control board, and possibly that bill will be re-introduced at the end of the week. O. T. A amendments are still in the offing with a possibility of their being brought down any day.

### **PROFESSOR LEACOCK**

Declares False Mantle of Morality Thrown Around Question.

TORONTO, April 3. - Professo

Stephen Leacock of McGill University, Montreal, addressed a gathering under power of the Legislature in the Province of Ontario, and have contrive to throw around them a false mantle of religion and morality."

He declared that the expression of HAVANA, April 3.—Fernandez Quinones, National League candidate for governor of Havana province in the November elections, was shot and almost instantly killed last evening by most instantly killed last evening by or nearly all, keep silent. The prohibitionist has contrived the masquerade before the country as if he were of ne-cessity a good man and his opponent of necessity a bad one."

Many Are Opposed.

Professor Leacock said further:
"The truth is that a very large part of the most honest and honorable opinion of the country is opposed to prohibine the country is opposed. ion of the country is opposed to prohibition, and a very large part of the worst opinion. And the meanest elements in the community are strongly in favor of it. I think the movement is the worst national development, the most un-British agitation, that has come to us in half a century."

"Prohibition cannot last because it is based upon a lie," Professor Leacock said, "and a lie cannot endure. Prohi-

said, "and a lie cannot endure. Prohibition declares it to be a crime to drink beer, and it is not a crime. All the legislatures that ever sat cannot make it so. You can make your statutes as cruel and as sharp as you like; you may multiply your spies and informers; you may throw open wide the doors of

All morning long and in the early least, Professor Leacock said: "The afternoon the slope down the two miles of rocky mountain to Roxbury was dotted with groups of villages trudging. afternoon the slope down the two mines of rocky mountain to Roxbury was dotted with groups of villages trudging upward to the burial spot.

Back of the grave, which was blasted from solid rock, and rising high to one tip of the mountain which bears his name, was the clump of woods where Mr. Burroughs hunted his fox and observed the birds, during his youth and old age. To the right, over a little knoll, the weather-blackened house in which he was born could be seen, and near it a group of maple trees where the naturalist would sit in the springtime and watch the flow of sap.

Behind the grave a great boulder on which Burroughs played as a boy and often sat in the twilight shadows as a man of the wide outdoors, formed the slab of his resting place. Soon a bronze plaque will be imbedded in the stone to immortalize its significance.

Deven the slope a few hundred vards.

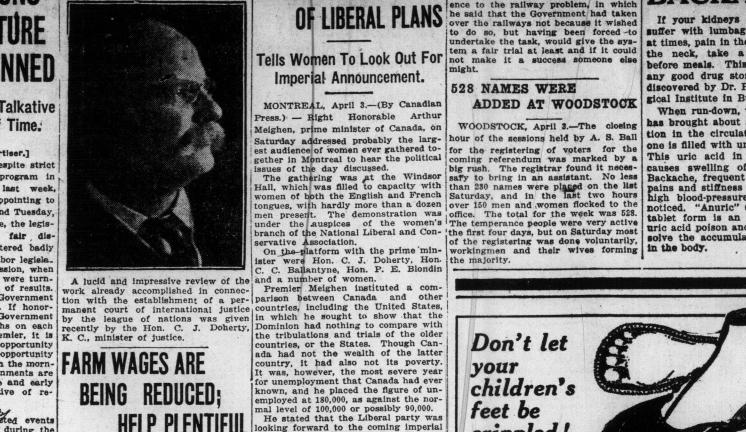

The predicts Destruction.

All he can effect is to break down the basis of law itself." He said that was what was happening, because the prohibitory law had not the backing of the individual conscience. The youth of the country would grow up with a confused sense as to obedience to the law, Professor Leacock said. "He knows and informers that are the ears and the tongue of prohibition. As between the paid informer coaxing his victim to betrayal, and the criminal out and out, fighting against the law, which do you prefer? Which is, for such good as still lingers in him, the better man? I say it straight, the criminal. This is the spectacle you are giving your young men."

Predicts Destruction,
Professor Leacook predicted the destruction of the prohibitionist, in a year, in ten years, or in a generation. He had no doubt of this. He said he did not know, or greatly care, what the result might be in the referendum vote to be taken on April 18. o be taken on April 18.

"The sharper the tyranny, the nuicker the care," he said. "This I do know: That a government and a code of law based upon a lie shall sooner or later be dashed to pieces against the impregnable power of public opin-ion."

### **Points** about a Ford you should know

WHAT does a Ford Touring Car cost? \$675 f. o. b. Ford, Ontario (starter and electric lighting \$100 extra).

Is it economical of gasoline? The owner of a 1914 Ford Touring Car, from careful records kept, claims that in driving 50,000 miles, May 8th, 1914 to June 15th, 1920, he averaged over 24 miles per

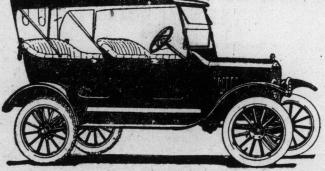

How much oil does it consume? The same owner claims over 500 miles per gallon of oil.

Is it easy to operate? The special Ford planetary transmission combines ease of operation and smooth, silent running qualities. Only one lesson is usually necessary to learn to drive a Ford Car.

Has it sufficient power? Perhaps the most distinctive single feature of the Ford is its simply constructed, easily operated and powerful engine. While its four cylinders are rated to produce twenty horsepower, the Ford has actually more power per pound of car weight than any other automobile made.

Will it pay me to buy a Ford? Yes, millions of Ford car owners have proved that it is an aid to them in business and improves their living conditions.

The Ford car, with its low cost, quality and simplicity of design is the car for all purposes.

nati Reds had a player whom they secured from the Texas League. His name was Rapp, and his nickname "Goldie." He was a third baseman. The Reds got him cheap, and after Pat Moran looked the young man over carefuly they con-cluded he was high-priced at that. Cincinnati tried to pass Rapp onto several minor league clubs and failed. Finally Pat Moran succeeded in selling Rapp to St. Paul. Mike Kelly of the St. Paul club paid Cin-cinnati \$1,000 for Rapp, and Cincinnati was highly pleased to get it.

This spring the Reds have a weak infield. A few regulars have not reported, and the recruits are far from satisfactory, with the ex-ception of one. With her present infield Cincinnati cannot hope to be a pennant contender, while the Giants look the best bet in the National League, and one of the chief rea-sons is that John J. McGraw has succeeded in patching up his infield. He completed it by securing a recruit who looks by far the best fielding third-sacker in the National League McGraw got him from St. Paul for \$15,000 cash and two players. The third-sacker's name is "Goldie" Rapp.

And now do you wonder that major league managers are ex-

rather than slide into it. He is a har man to tag. All this information abou Thorpe's baserunning is furnished by Joe Sargent. Joe should know. He tried to tag him often enough, while Thorpe played in the International League.

As long as they play baseball so long will the merry old alibi continue. There is no limit to the number of excuses many ballplayers will find to excuse some error. The best of the lot probably come from the pitchers when the opposition begins to hit. Returning to the bench the pitcher and catcher engage in an alibi-swapping contest. The pitcher has erred in judgment, but he blames it on the catcher, saying he merely pitches what the catcher signs for, and the catcher retorts that the pitcher never has to throw anything he is signed to throw if he does not want to throw it; that he always can refuse the sign by a shake of the head unless he is stiff-necked, and so the argument settles down to a question

## The Soul of

the Advertisement

Granted an arresting headline, the art of writing a retail advertisement is just the ability to say one's say intelligently, in logical order, and, above all, naturally.

No "literary gift"-no flowery language—is necessary. The best copy is the earnest, over-the-counter talk you would give to a customer.

In other words, put yourselfyour soul-into your writing.

Grammar is useful, but not indispensable. It doesn't make or break the advertisement. It is your own earnestness and conviction that makes people believe and respond to what you say.

You will find, as you devote more attention to your advertising, that it will return you dividends of pleasure as well as of profit. As time passes, customers will notice an omission and speak to you about it. This experience is not imaginary. It is a fact—as many merchants and publishers will testify.

One of the most enjoyable things you can do is to spend an hour or so a few evenings a week thinking out a well-balanced daily newspaper advertising campaign for your store and your merchandise. And, having thought it out, carry it through regardless of other people's opinions or

IN MEMORIAM.

HEBDON In memory of Pte. William
Hebdon, late of the 38rd Battalion,
who was killed in action April 4, 1917. When the shades of heaven are falling,
And I am sitting all alone,
To my heart there comes a longing
If he could only come home.
O how oft my heart does wander,
To the grave far, far away,
Where they laid my own dear son,
Just four years ago today,
b —Fondly Remembered by Mother.

police had been called they had not arrived, and Mr. Marshall carried on his lone battle.

In the cellar Steeves armed himself with a coal shovel, with which he charged Mr. Marshall, who managed to avade him. Steeves finally got out through a cellar window after kicking loose from Mr. Marshall. Here a neighbor grappled with him, but the burglar broke away and made for a fence at the rear of the house. Several men attacked him, but a rifle in the hands of one of them finally halted him, though the weapon was unloaded. The police eventually arrived in time to handcuff him.

Was Rather Tired.

Charles Crummer of Cedar Springs U. F. O. Club, under whose auspices the speaker came, acted as chairman, and in his introducing Mr. Morrison, referred to him as the greatest man of ontario for "pep." The speaker hardly showed that he merited this distinction last night perhaps, for the reason that he has been working very hard night after night giving addresses, and he showed himself to be a man of wide experience on the public platform and well versed in the line of thought he presented to the audience.

Mr. Marshall suffered some nasty scratches in the encounter. Nothina was taken from the Marshall home, Steeves evidently being interrupted before he had a chance.

Entrance was made through the siddor by means of a skeleton key. So far as can be learned this was Steeves second robbery of the evening, he having entered the home of Mrs. L. Turner and stolen four rings. These rings were found in Marshall's cellar.

Praises Government.

He held that the present, U. F. O. Government, one of the best ever, is a product of the farmers, a government that is satisfactory and progressive. under George Washington.
Goldie Russell, one of Raleigh Township's prominent farmers and public speakers, gave a short address in which he pointed out that the farmers and the townspeople were not as well acquainted as they should be. The U.F. O. stood for equal rights to all, and special privileges to none. This should satisfy all classes. In the past the farmers had zigzagged too much, zigging when they should have been zag-ging, and vice-versa. The U. F. O. had three sides, (1) the dollar side, (2) the educative side, and (3) the social side. These were all important, and of importance as they proceeded, the last

being the most important.

Scores Gas Act. The present gas act now before the Local House he scored. He had writ-ten a personal letter to Premier Drury and the Sun, pointing out that it was a rank injustice to municipalities and individuals, as it gave the minister authority to cancel any agreement between the people and the gas corpora-tions. He had stated to Premier Drury that if this act comes into operation he need not look for Kenty County to send a representative to his Government

after the next election. J. J. Morrison, the speaker of the evening, was next heard. In being introduced the chairman had said that Mr. Morrison had rejected the offer to become the leader of the Government after the last election. Mr. Morrison in opening remarks stated that this offer was no temptation to him.

Became Converted.
"I thought too much of the interests of the people to accept the premiership of this province," he remarked. "I was at one time a Tory of the Tories, and I became converted to certain ideals and principles, and it is my aim to spend my time in advovcating these. And so I am at it, and mean to stay

He pointed out that the franchise for women was first advocated by the U. F. Heaman & Son HYDRO MAKES HOUSE CLEANING

If spring house cleaning makes your home look like Belgium under the heel of the Hun-that is your fault. Years ago people used to rip up the carpets and lug them

out in the yard to beat them and weep. The modern housewife simply runs the electric vacuum sweeper over now and then and keeps her home perpetually clean and sanitary. You don't have to take up the carpets to make a clean start -the machine will do a better, cleaner and more thorough job, without disturbing a single tack.

CONVENIENT TERMS\_ONLY \$5.75 DOWN.

Special Demonstration of Laborless Cleaning. Laborless Cleaning.

EVERY DAY THIS WEEK
Hydro-Electric Power Commission experts will demonstrate
the uses of Electric Vacuum
Cleaners and Washing Machines
