## There Are Reasons

Why our Boys', Girls' and Children's Shoes are more to be desired than the Shoes that are ordinarily sold for youngsters' wear. Most dealers think that "any old thing is good enough for the children, just so it's cheap.

Our idea of Children's Shoes is that they should be made with the same careful attention to details of style, fit, finish and leathers that is given to our Men's and Women's Footwear. If you'll let us furnish the Children's

Shoes, you can rest easy about it's being well done-your children shall be shod with BETTER-LOOKING and LONGER-WEIARING SHOES, and at a LESS PRICE than you have been in the habit of getting.

#### Galveston, Texas, Sept. 10.-Six hundred to 1,000 persons killed; a city almost in ruins: the wharf front entirely gone; every ocean steamer strand-

ed; death and destruction on every hand, and a money loss that cannot yet be estimated, are the results of the appalling calamity that has befallen Galveston. The great storm has left her helpless, and her stricken people are compelled to appeal to the outside world for aid.

Late Details of the Catastrophe-Every

Ocean Steamer in the Harbor Is

Stranded and All the Wharves De-

stroyed-From 600 to 1,000 People

An accurate count of the dead is impossible, and the real number killed in the storm will probably

NEVER BE KNOWN. No one attempts to estimate the damage to business and residence property.

The fine steamer Alamo lies upon the top of the Mallory wharf, and a big cotton-laden English steamer was driven ashore at Texas City. Other vessels are aground in different parts of the bay, some hopelessly wrecked. IMMEDIATE RELIEF NEEDED.

The people of Galveston need immediate relief. A stricken city is in misfortune, and the people of the country are asked to send food, clothing and water. The waterworks are in ruins; the cisterns all blown away or filled with salt water. Ruin is everywhere. Electric light and telegraph poles are nearly all prostrated, and the streets are littered with timbers, slate, glass and every conceiv-

able character of debris. SCARCELY A HOME ESCAPED DAMAGE.

There is hardly a habitable house in The school buildings were unroofed, and badly wrecked. Fine churches are in ruins. Elevators and warehouses are unfit for use, and the electric light plant and the cotton factory have collapsed. From Tremont to P. street, and thence to the beach not the vestige of

a residence is to be seen. TEN FEET UNDER WATER. In the business section of the city the water was from three to ten feet deep in stores. Stocks of all kinds including foodstuffs are total losses. While the Post correspondent was in Galveston Saturday night, it was a common sight for him to see women and children emerging from their homes dazed and bleeding from wounds, the women sometimes wading neck deep with babies in their

CUT OFF. The city is cut off entirely from the world, so far as wire communication is concerned. In sailing to Texas City yesterday the Post correspondent used a strong glass but could see nothing of any of the bridges which had connected the island with the mainland. Where one bridge should have been a

big ocean vessel lay stranded. At Texas City the wharves were destroyed. The water front for a mile was littered with ruins. Much of the debris had been blown from Galveston. At Texas City three lives were lost. The storm commenced raging tween 9 and 10 o'clock Saturday morning, and by noon the waters from the gulf had inundated the island as far inland as Twelfth street here in Galveston. From there the waters gradually encroached farther inland, rising about 15 inches an hour. At 6 p.m. there was 56 inches of water in the lobbies of the Tremont Hotel, the

#### highest point in the city. At 9 o'clock the water on Market street was LEVEL WITH THE SEATS OF THE STREET CARS.

After the water gradually receded. the wind was cyclonic in its force. It reached a velocity of 84 miles an hour, and then the instruments in the government observatory were wrecked. As soon as laylight came, and the fury of the wind had abated, the work of rescue and searching for the dead commenced. In one room the reporter counted seven dead bodies. The Tre-

mont Hotel was made a rendezvous for

the living. 1,500 PERSONS DROWNED. Dallas, Texas, Sept. 10.-A special to the News from Houston says: Additional particulars of the storm at Galveston show that about 1,500 persons were drowned and \$10,000,000 worth of property destroyed. There is not a building in the city that was not dam-

houses on the beach were destroyed, and their attendants drowned. PATIENTS IN HOSPITALS PERISH. The Sealy Hospital was destroyed, and most of the patients drowned.

The grain elevators were destroyed,

The Ball High School and the Rosenberg School buildings were destroyed, and many persons who had taken refuge in them killed. EIGHT STEAMSHIPS STRANDED. Eight big steamships in port were all

wrecked. All three railroad bridges and the county bridge across to the mainland at Virginia Point were swept away, and the bridge tenders and their families drowned. The loss of life is simply appalling. The entire island was submerged and water was eight feet deep on Tremont avenue, probably the highest point in the city.

ESCAPED. Beaumont, Tex., Sept. 10.-The towns of Sabine Pass and Port Arthur, news from which has been anxiously awaited, passed through the terrific storm of Saturday virtually unscathed. At Sabine Pass the water reached a depth of about three feet, but only small buildings near the water front were washed away. The only dead are Guenff and Albert Deatridge, two white men, who were on the jetties when the storm came. The life-saving crew were unable

to reach them. There is considerable damage at Sabine by water rising into the streets. It will be about ten days before trains can be run through.

THE WORK OF RESCUE. Galveston, Tex., Sept. 10 .- The work of rescuing the wounded and dying from the ruins of their homes uncovered some terrible scenes. Streets filled with floating rubbish mingled with the bodies of victims of the storm, were among the sights. When the rescuers reached the city hall there were congregated fully 700 people, most of whom were more or less injured. One man reported the loss of 50 lives in the building from which he had es-

TERRIBLE DISCOVERIES. On Avenue P, by climbing over the piles of lumber which had once been residences, the rescuing party observed four bodies in one vard and seven in one room in another place, while 60 bodies were counted in the space of one block. A majority of the bodies. however, are under the ruined houses, and it will take several days' hard work to get all of them out.

ONLY EIGHT ESCAPED FROM A HOSPITAL. The report from St. Mary's Infirmary shows that only eight persons escaped from the hospital. The number of patients and nurses could not be ascertained, but the number of inmates was seldom under 100. The beach resort of Pat O'Keefe, known to every visitor to Galveston, was annihilated, not a vestige of the building remaining Mrs. O'Keefe was drowned. The Angry Waters of the Gulf Inundate the City-Hundreds If Not Thousands of Lives Lost-4,000 Buildings Wrecked -One Report Says 3,000 People Perished-Other Towns Suffer Severely-Incalculable Damage to Railways, Bridges, Crops and Property.

Telegraph and telephone wires were down along the coast, and Galvaston was cut off entirely. Communication was lost at 4:30 o'clock in the afternoon, and no trains were operated. The last report from Galveston stated that the gulf waters were encroaching rapidly on the beach, and that the flood had extended into the residence portion of the city for several blocks.

THE PATH OF THE STORM. Dallas, Texas, Sept. 9-3 p.m.-Telegraphic communication with South Texas is cut off about 100 miles north of Houston. The last wire the Western Union had to Houston went down

at 1:30 this morning. The storm center is rapidly approaching Northern Texas, and its its path, doing vast damage, and killing people in scattered localities. A cyclone has demolished a part of the town of Smithville, on the Missouri, Kansas and Texas Railway.

### 3,000 Lives Lost.

THE NEW YORK WORLD'S FIGURES.

New York, Sept. 9 .- The World tomorrow will print the following: "Austin, Texas, Sept. 9.—Information has just reached me that about 3,000 lives have been lost at Galveston, with enormous destruction of property. No information from other points. (Signed) John D. Sayers, Governor."

SABIN PASS CITY GONE. Atlanta, Ga., Sept. 9 .- A special from Beaumont today says it is reported there that the City of Sabin Pass was completely destroyed by the storm. Dallas, Texas, Sept. 9 .- The Missouri, Kansas and Texas north-bound "flyer" is reported wrecked near Sayers.

MANY TOWNS IN RUINS. Houston, Sept. 9.-Meagre reports are reaching here from the country be-tween Houston and Galveston along the line of the Santa Fe Railway. The tornado was the most destructive in the history of the state. The town of Alvin is reported to be practically demolished. Hitchcock has suffered severely from the storm, while the little town of Alta Loma is reported without a house standing. The town of Pearl has lost one-half of its buildings. L. B. Carlton, the president of the Business League, of Alvin, and a prominent marghest them. nent merchant there, reports that not a building is left standing in the town, either residence of business. Stocks of goods and house furniture are ruined, and crops are a total loss. Alvin is a town of about 1,200 inhabitants.

SEVEN KILLED. Seven persons were killed in and near the town. They are: Mrs. Prather, tilled on Santa Fe Railroad track; J. M. Johnson; Mrs. J. M. Johnson; sister of Mrs. Johnson, name not known; B. C. Lewis; John Galaspy; a boy

2,000 LIVES LOST. "Two men were picked up who floated across to the mainland, who say they estimate the loss of life up to the time they left at 2,000."

The above message is addressed to Superintendent Felion, Dallas, and comes from Mr. Vaughn, manager of the Western Union office at Houston. WORST ON RECORD.

Houston, Texas, Sept. 9.-The storm that raged along the coast of Texas last night was the most disastrous that has ever visited this section. Every town that is reached reports one or more dead, and the property damaged is so great that there is no way of computing it accurately. It is known that the railroad bridges

across the bay at Galveston are either wrecked or are likely to be destroyed with the weight of a train. MORE TOWNS WIPED OUT.

A train went down the Columbia Tap this morning as far as Chenango Junction. The town was greatly damaged, and the bodies of nine negroes were taken from the ruins of the houses. THE FURY OF THE STORM. Houston, Texas, Sept. 9-10 p.m.-The West Indian storm, which reach-A private message from San Antonia from the stricken city of Galveston states that a serious disaster occurred was received tonight. James C. Timat Corpus Christi, Rockport, and other mins, who lived in Houston, and who is the general superintendent of the National Compress Company, arrived in the city at 8 c'clock from Galveston. After remaining through the hurricane of Saturday he departed from Galveston on a schooner, and came across the bay to Morgan's Point, where he caught a train for Houston. The hurricane, Mr. Trimmins said, was the worst ever known.

4,000 HOUSES DESTROYED. The estimates made by citizens of Galveston was that 4,000 houses, most of them residences, have been destroyed, and at least 1,000 people have been drowned, killed or missing. Some business houses were also destroyed, but most of them stood, though badly damaged. The city, Mr. Trimmins avers, is a complete wreck, so far as he could see from the water front and

from the Tremont Hotel. WIND BLEW EIGHTY MILES AN

HOUR. Water was blown over the island by the hurricane, the wind blowing at the rate of 80 miles an hour straight from the gulf, and forcing the sea water before it in big waves. The gale was a steady one, the heart of it striking the city about 5 o'clock yesterday evening, and continuing without intermission until midnight last night, when it abated somewhat, although it continued to blow all night.

PROMINENT CITIZENS KILLED. One house that Mr. Timmins saw destroyed was Ritter's saloon and restaurant, at 2,019 Strand street, a principal street of the city. This three-story building was blown down, and nine men, prominent citizens, were killed. Among the dead are: Charles Kelner, sen., a cotton buyer for an English firm; Stanley C. Spencer, general manager of the Elder-Dempstear Steamship Line, and Richard pitals were destroyed.

The water extended across the island. Mr. Timmins said it was three feet deep in the rotunda of the Tremont Hotel, and was six feet deep in the market square. Along the water front ton by the News: "Relief train just the damage was very great. The roofs had been blown from all the elevators, returned. Did not get closer than six and the sheds along the wharves were miles of Virginia Point, where the either wrecked or had lost their sides

MANY VESSELS WRECKED.

Most of the small sailing craft were wrecked, and were either piled up on the wharves or floating bottom side up in the bay. There is a small steamship ashore three miles north of Pelican Island, but Mr. Timmins could not distinguish her name. She was flying a British flag. Another big vessel has been driven ashore at Virginia has been driven ashore at Virginia Point, and still another is aground at Texas City. At the south point of Houston Island an unknown ship lies in a helpless condition. The lightship that marks Galveston bar is hard and fast aground at Bolivar Point. Mr. Timmins and the men with him on the schooner rescued two sailors from the middle bay, who had been many hours in the water. These men were foreigners, and he could gain no information from them. A wreck of a foreigners, and he could gain no in-formation from them. A wreck of a vessel, which looked like a big steam tug, was observed just before the party landed. In the bay the carcasses of nearly 200 horses and mules were seen, but no human body was visible. In-land there has been much damage to the cotton crop.

HARROWING SCENES. The scenes during the storm, Mr. Timmons said, could not be described. Women and children were crowded into the Tremont Hotel, where he was seeking shelter, and all night these unfortunates were bemoaning their losses of kindred and fortune. The city of Galveston, he says, is now entirely submerged, and cut off from communication. The boats are gone, the railroads cannot be operated, and 21-ir the water is so high people cannot walk out by way of the bridge across 23-in the bay, even should the bridge be 23-in standing.

Provisions will be badly needed, as a great majority of the people lost all they had. The waterworks power house was wrecked, and a water famine is threatened, as the cisterns were all ruined by the overflow of salt water. This Mr. Timmins regards as the most serious problem to be faced now. The city is in darkness, the electric light plant having been ruined. There is no way of estimating the property damage at present.

The Santa Fe train which left here at 7:55 Saturday night, was wrecked at a point about two miles north of Alvin. Mrs. Prather, of Rosenburg, Texas, was killed, and several were in-

AT NEW ORLEANS. New Orleans, Sept. 9.—The storm which struck New Orleans Friday evening continued its fury, with heavy downpours of rain until daylight on Saturday, prostrating telegraph and telephone wires in all directions. Only two lives are known to have been lost, but almost the entire state felt the effects of the blow.

There is an unconfirmed rumor that the hurricane raging along the gulf coast played havoc with the town of Rockport, on the lower coast, and that the great club house built by E. H. R. Green near there has been blown away, with loss of life, as there were several guests in the house.

north coast of the island in July and for three days was unmolested. The explorers crected several strong huts which they planned to use as forts in case of attack.

In the afternoon of the fourth day, when the entire party was ashore, they were attacked by the savages. So sudden was the attack and so great the number of their enemies that the small party was panic-stricken. The firearms were not within easy reach, and many of these were secured by the savages before the explorers had recovered from

their confusion. Wakefield Newton, in command of the expedition, gave the order to take to the boats. But only three of the men got away. The savages barred the way to three of the four boats.

An Old-Time Persuader to Buy.

The saying "seeing it's you" doesn't sell goods any more. It was a favorite sale clincher in days gone by, even though it placed the purchaser under a compliment to the salesman, who made believe that no other person could buy at the price. He said the same thing to everybody. Times have changed. Years ago we instituted in London the one-price cash system, believing that treating all alike would be best for us and best for our customers. It has so worked out. Here you get nothing but the best value at the least possible price—and that price is cash.

There is nothing like being ready for every cocasion, and to be ready one needs to have a Black Silk Dress in the wardrobe. We believe that these prices will enable

DISTRESS IN NORTHERN LABRA: | The thorn DOR.

St. Johns, Nfld., Sept. 8.—Reports from northern Labrador reveal the existence of great distress among the fishermen, owing to the ice remaining on the coast so long. Many vessels have been crushed in the floes, losing their supplies and fishing outfits. The others are meeting with but poor suc-cess. The Labrador cod fishery is a virtual failure.

SAFE, CERTAIN, PROMPT, ECO-NOMIC.—These few adjectives apply with peculiar force to Dr. Thomas Eclectric Oil—a standard, external and in-ternal remedy, applied to the relief and cure of coughs, sore throat, hoarseness and all effects of the breathing organs, kidney troubles, excoriations, sores, lameness and physical pain.

LAWN TENNIS.

THE TOURNAMENT AT TORONTO .. Toronto, Ont., Sept. 8.-The Ontario tennis championship games still continue to draw many tennis lovers to the courts, and a number of fine games were seen yesterday, particularly that between Miss Summerhaves and Miss Blayne in the ladies' handicap. It has been found impossible to arrange for the finals in the men's handicap, men's doubles and mixed doubles today, and they will therefore go over till next week. The results of yesterday's play

were as follows: Men's handicap - T. G. McMaster (minus 15) beat O'Connor (minus 15), 7-5, 5-7, 6-4. Bertram (minus half 40) beat Taylor (scratch), 6-4, 6-1. OPENING AT TORONTO.

Woodbine Race Track, Toronto, Ont. Sept. 8.-Under favorable auspices the Hunt Club's fall meeting opened this afternoon. The meet promises to be a huge success, for there are a large number of well-seasoned horses here that are all ready to run. The weather was beautiful for racing this afternoon. The cool breeze off the water prevented the sun from scorching. The track was never better, and was unusually fast. Trackmen think some of the Woodbine records may suffer before the meeting closes providing the weather keeps up. The opening day's races were well atthat it has no equal as a worm meditended by Torontonians, and there were cine. Buy a bottle and see if it does many out-of-town visitors. In the mem- not please you.

bers' inclosure there were scores of handsomely gowned ladies. The features of this afternoon's card were the great Canadian handicap and the Grand International steeplchase, in which the best flat and jumpers started. The officials for the meeting are: Presiding judge and steward, Francis Trevelyan; assistant judge, Frank Nelson; starter, Mars Cassidy; handicap-per, Frank Nelson; clerk of the scales, D. Fraser; timers, Robert Davies, Dr. Strathy and T. B. Taylor; secretary and clerk of the course, Stewart Houston. Following are today's results:

CLOSE AT SHEEPSHEAD BAY. New York, Sept. 8.—The last day of the Coney Island Jockey Cfub's fall meeting at Sheepshead Bay attracted a big half-holiday crowd. An interesting card was offered for decision, with the annual championship stakes of \$25,000, and the Great Eastern handicap of \$7,500 the features. Both furnished stirring struggles and more than the usual amount of excitement. David Garrick, at the liberal price of 20 to 1, won the annual championship, beating the odds-on favorite, Ethelbert, a neck in a hard drive, while Douro was third only a neck away. The time, 3:56, was fast, and constitutes a new track record, the old mark of 3:58 having stood since 1882, made by Hindoo, with 108 pounds up. AT CHICAGO.

Chicago, Sept. 8 .- Mint Sauce captured the rich Harlem stakes, the feature of Harlem's card this afternoon, and for nine furlongs broke the track record of 1:531/4 by going the route in 1:521/5, and won eased up to a common canter. Florizar was the ruling fa-vorite at 9 to 5, and heavily played. Hattie June, a 200 to 1 shot in the second race, acted so badly at the post that the start was delayed 23 minutes. After a long delay they were finally sent away, and it resulted in strictly a two-horse race between Jiminez and Duelist, first and second choices: Jiminez won by half a length Weather clear, track fast.

Montreal, Sept. 9.—Shamrocks were defeated by Nationals on Saturday afternoon by 3 games to 2.

THE WORLD'S CHAMPIONSHIP. Toronto, Ont., Sept. 8 .- Seven to three in favor of the Capitals is the result of the world's champonship lacrosse match between the Capitais, of Ottawa, and the Dufferins, of Toronto, the prospective champions.

> WHEEL. RECORD-BREAKING.

Boston, Sept. 8 .- Some great recordbreaking was done in last night's twohours' riding in the Golden Vase event at the Charles River Park, the existing records for one hour and up to two hours being broken. The previous record for two hours' riding was made miles 1,470 yards. Last night Archie McEachren, the Canadian champion, went 69 miles 612 yards. The result for the four hours' riding gives the lead to Stinson, with a credit of 136 miles 17 yards. Harry Elkes, middle distance champion, rode an exhibition five miles. motor paced, in 8:09%, breaking the record for two miles of 3:161/2 by a fifth of a second.

FOOTBALL.

The opening practice of the London football club at Tecumseh Park on Friday night drew a large number of footballers together. Dick Hodges, of Toronto, has returned here to get into the game with his old associates. FISTIC.

A HARD GO.

Philadelphia, Sept. 8 .- Joe Gans, of Baltimore, and George McFadden, of New York, fought six hard rounds last night at the Pennsylvania Art Club. Gans had a shade the best of it. Although there was considerable hugging and clinching through the six rounds both men seemed to have done their best. Neither man was in the best of condition.

YACHTING.

Rochester, N.Y., Sept. 8.—Genesee, owned by James Van Voorhis, of the Rochester Yacht Club, today won the first of the series of the international yacht races for the Fisher cup, off Charlotte harbor, from the challenger, Minota, of the Royal Canadian Yacht Club, of Toronto, by the handsome margin of 7 minutes 35 seconds, official. The course today was triangular, 31/3 miles to each leg, the yachts going twice around the course, making a total of 20 miles. A large fleet of sailing craft and steam yachts accompanied the racers over the course. It was anybody's race for three-quarters of the distance.

The official time of the race was as follows: First buoy on second course— Genesee, 1:53:55; Minota, 1:55:15. Secbuoy-Genesee, 2:24:43; Minota, 2:32:11. The Genesee at the second buoy was 6 minutes and 28 seconds in lead. The official time at the finish was as follows: Genesee, 2:52:15; Minota, 2:59:41.

H. Morris' hardware store at Forest was entered by burglars Thursday night and a quantity of hardware stolen, consisting of razors, cutlery spoons, a horse clipper, and about \$10 in money taken from the cash register. Entrance was made through the back doors, by boring holes through them large enough to admit the arm of a man to remove the bolts. Tuesday afternoon, at the home of

W. F. McKenzie, Marden, his eldest daughter, Lizzie, was united in marriage to Rev. A. H. Crosby, also of Marden. Rev. R. J. M. Glassford tied the knot in the presence of about 25 relatives and friends. The young couple will spend their honeymoon in London and points west before taking up their new home in Oxford Center. At Highgate Friday, Wm. McDonald, who was engaged in loading logs, met with a rather serious accident. He was loading the logs by drawing them up into the cars with a team of horses and a rope. He had the rope stretched right across the main track as train No. 16 came along, and not having time to unhitch the horses, the engine caught the rope. This loaded the log,

tore the harness off both horses, and

cause the whiffletree to hit the man in

the face, stunning him for a time, but

doing no more serious injury. A few days ago Wm. Masters, the 8th con. of Zorra, told his young son to bring in a horse which was grazing in a field. In trying to catch the horse, which was a very vicious animal, young Masters got too close. The brute kicked out, and its hoofs struck the lad on the breast, knocking him down. His father found him lying on the ground some time later. Masters carried the lad to the house and then started after the horse himself. He drove it into a corner of the field where there is a barbed wire fence, and made a rush for its head, but again the horse kicked, striking the the lad on the breast, knocking him man on the head, and cutting a gash in it of about four inches long. In kicking the horse fell, and the sharp barbes of the wire cut into its throat, and it bled to death in a few minutes. Neither Masters nor the boy is very seriously injured.

#### TWENTY YEARS STANDING

Trouble of a Norwich Farmer Who Was Relieved by Dodd's Kidney Pills.

Norwich, Sept. 10 .- For twenty years Mr. Wilbert Woodward, of Willow Dell, has suffered with backache. He grew so bad that he was confined to his bed two days out of a week. His farm suffered for the lack of the eye of its master, and Mr. Woodward made every effort to find a cure for his trouble. He says: "I tried everything I ever heard of, but no cure. Last fall I heard about Dodd's Kidney Pills, and I bought three boxes of them from Mr. Bannon, of Norwich, and I am happy to say they have done me more good than all the other medicines put together that I got from the doctor. My wife takes Dodd's Kidney Pills also, for lame back and rheumatism, and finds them grand. I hope any persons suffering as we did will try these remedies. I would willingly pay two dollars a box rather than be without Dodd's Kidney Pills in the house."

UNEQUALED .- Mr. Thomas Brunt, Tyendinaga, Ont., writes: "I have to thank you for recommending Dr. Thomas' Eclectric Oil for bleeding piles. I was troubled with them for nearly 15 on Wednesday last by Stinson, with 67 years, and tried almost everything I could hear or think of. Some of them would give me temporary relief, but none would effect a cure. I have now been free from the distressing complaint for nearly eighteen months. hope you will continue to recommend

Dr. Radway & Co.—As an introduction I must make the following remarks: Had each one of the lawmakers of our country the virtues and power of your pills, America would soon becomes paradise. That your pills would conquer the obstinacy of my complaint is more than wonderful. The movement of my bowels is as regular as the works of a good watch. I began with four pills and decreased to two, and for a time took one two hours before dinner, and have a free movement of the bowels every morning. It is seven weeks since I have taken any of your pills, but still have regular move

any of your pills, but still have regular move-ment every morring.

Kind gentlemen, I wish further to tell you:
A poor washerwoman that suffered from a tumor and would have paid \$150 for an opera-tion. I dissuaded her from doing so. Owing to her tumor she was obliged to stay in bed, but now she has gone to Pennsylvania, cured through taking your Pills and Resolvent as you direct in your treatise on tumor. Respectfully. direct in your treatise on tumor. Respectfully,
A. WITMER. 642 E. 134th St., New York.

Messrs. Dr. Radway & Co. New York:
Gentlemen—Please send me by return mail one box of your pills, for which you will find 25 cents inclosed. Having had a box before, I would not be without them. They are something every family should have. Yours truly,
T. A. PETERS.

ONE TO THREE OF RADWAY'S PILLS. once in twenty-four hours, will secure regular evacuation from the bowels. Persons who for twenty years have not enjoyed a natural stool, have been cured by a few doses of Radway's Pills.

CHICAGO, Sept. 8.-Wheat was dull and steady today. October closing 1/3c to 4c higher. Corn closed 5c to 6c, and oats 4c improved. Provisions closed 10c to 121/2c higher. The heavy primary receipts, 1,324,000, against 1,-183,000 last year, caused some selling, but the close was firm, October %c to %c over yesterday, at 73%c. The corn strength helped to sustain the market towards the end. Local receipts were 372 cars, 24 on contract grade. Minneapolis and Duluth reported 649 cars, against 446 last week, and 916 a year ago. New York claimed 15 loads taken for export. Seaboard clearances in wheat and flour were \$37,000 bushels Yesterday's export business, as reported from New York, was 1,000,000 bushels. Estimated receipts for Monday: Wheat, 500 cars; corn. 400; oats. 460; hogs, 20,000 head.

There Is Sallow Complexion, Fullness About the Etomach and

By a careful consideration of the following symptoms you can decide for yourself if your liver is torpid or inactive. The liver is the largest organ connected with the digestive system, and as a filterer of bile from the blood is to a very large extent responsible for the health of the whole body. A sense of fullness and oppression about the stomach, a pale, sallow complexion and pain in the shoulders and

a disordered liver. Then there comes indigestion, wind on the stomach, headache, coated tongue, a bitter taste in the mouth, depression of spirits and despondency. The bowels become irregular, and constipation and looseness alternate. The bile left in the blood by an inac-

tive liver poisons the blood and causes liver spots, blotches and pimples. So great is the influence of the liver over the health of other organs that physicians have called the liver the governor or controller of the body. The prescription from which Dr. Chase's Kidney-Liver Pills are prepared was perfected by the doctor in his immense practice, and has proven the

greatest liver regulator ever discovered. It acts directly and promptly on the liver, making it active and vigorous as a filtering organ. At the same time it regulates and tones up the kidneys and bowels and sets the whole filtering and excretory system in healthy working order.

Notwithstanding the fame of Dr. Chase's Kidney-Liver Pills throughout this continent, you will never fully realize and appreciate their value until you have actually used them, and only then can you fully understand why

Visits London-Speaks Very Highly of the Canadian Educational System-Mr. H. T. Gerrans, M.A., of London,

During the last few days a leading educationist of Oxford University, England, has been investigating the methods and success of the secondary schools in the city, and has made many most favorable comments upon them. The visitor is Mr. H. T. Gerrans, M.A., Fellow and Tutor of Worcester College, Oxford, England; administrator of the Oxford local examinations: member of the university council (or cabinet); and a director of the University Press; and so he is eminently qualified to give intelligent and valuable opinions upon educational problems. For this reason it is a pleasure to find that his imcials accompanied the court, except pressions of the methods of this province indorse so fully the past policy of the Ontario educational authorities Mr. Gerrans is visiting the scholastic centers both of Canada and the United States, and carefully studying the vari-

#### MASTODON'S BONES

Discovered on a West Nissouri Farm- visiting friends in Toronto. A Nine-Foot Tusk and a Hundred Pound Leg Bone-A Scientific Mrs. Stettner, of South London. Mrs. Marvel.

of immense interest and value to scien- ist in French and German, and an extists, as well as to the general public, been appointed on the staff of Hellis one that has just been made about muth Ladies' College. twenty miles from this city, on the farm of Edward Hobbs, lot 3, con. 3, West Nissouri, near Cherry Grove. The find consists of a number of bones belonging to what was evidently a gigantic mastodon, which roamed the primeval forests of this section before the days when man first appeared on earth. Part of the bones were discovered last fall, while making excavations for a farm drain, while others have been unearthed by further search within the past week. Up to date about 50 bones have been discovered, and the search is now being pushed on with the object of discovering, if possible, the head of the mastodon. One most in-teresting and striking portion of the remains is the huge curved tusk, which measures more than nine feet from base to tip, the base being more than a foot in circumference. Opinion is divided among those who have seen it as to whether it is a tusk or a horn. It is not composed of ivory like the tusks of the elephant, but of horny substance. Another complete bone found appears to be the upper portion of the hind leg. It is over four feet open season until 1903. in length, and weighs nearly 100 pounds. Other bones found include fragments of ribs over five feet long, gigantic hip sockets, lower shanks, shoulder blades, bones of foot, etc. The soil in which the bones were found consists of a black muck, percolated by springs, which doubtless aided in preservation through the thousands of years which must have passed since their former owner found apy immediate use for them. Mr. Hobbs will have his unique find on exhibition at the Western Fair.

Arthabaska's Sheriff Wishes to Go to Parliament.

Liberal Conventions Slated-Change in the Arrangements for Sir Charles

Tupper's Visit to Guelph. LIBERAL CONVENTIONS.

The following Liberal conventions have been summoned to nominate candidates:

Sept. 12-West Peterboro, at Peterboro. Sept. 13-Muskoka and Parry Sound, at Emsdale. Sept. 14-South Simcoe, at Alliston.

Sept. 15-West York, at Weston. Sept. 18-North Renfrew, at Pembroke. Sept. 18-West Elgin, at West Lorne. IN KENT.

The Liberals of Kent will hold a conpurpose of selecting a candidate. They are well organized and unanimity prevails in the party, and they have no doubt of their ability to hold their majority of 157, which they rolled up at the last election.

DR. SPROULE. The Conservatives of East Grey will meet in convention at Markdale on Thursday next to nominate a candidate. It is understood that Dr. Sproule will again be the candidate. His majority in 1896 was 521.

THE GUELPH MEETING. The arrangements for the reception of Sir Charles Tupper and party at Guelph on Monday, 17th inst, have undergone a change from the programme originally determined upon. The party will arrive at Guelph at 10:30 a.m., instead of 3 p. m., as at first arranged,

and a procession around the city has been added to the programme. Montreal, Sept. 9.-L'Echo des Bois Francs (Conservative) announces that Mr. L. P. Toussignant, sheriff of the district of Arthabaska, has sent in his resignation to the attorney-general, and will oppose Mr. Louis Lavergne, M.P. # CITIZENS' DAY

268 Dundas Street.

Many Thousands of Visitors at the Big Fair.

Main Building Crowded With Handsome Displays.

Directors Have to Refuse Space to Intending Exhibitors.

Meeting of the Fair Board-GrandDis play of Fireworks Tonight.

Citizens' Day at the Western Fair was marked by perfect weather, and a large attendance. Crowds of London. ers wandered over the grounds, and through the buildings, and all of them observed with pride and pleasure the fact that London's exhibition, not content merely to achieve the same standard of excellence year by year, continues to improve with each succeeding season. They found everything pre-

pared for their coming. So great has been the demand for space that the officials have had to refuse numberless applications for space in the crystal palace, and the stock buildings. There is not a stall nor a pen vacant in the latter buildings. The show of horses this year surpasses any yet witnessed at the Western Fair.

The full programme of attractions was rendered in front of the grand stand this afternoon, including the grand double balloon ascension. Interesting speed events also took place. This evening will be rendered for the first time the fireworks display, commencing at 8 o'clock, introducing many startling and beautiful pieces: Illuminated balloon, throwing out monster festoon of jewels, 100 feet long, brilliant colorings, Boer balloon, double revolving sun-wheel with rainbow colorings: tourbillions: fiery column of the empire; clouds of gold and sapphire; patriotic repeating shells, three distinct bursts, red, white and blue stars; pyramid of golden showers; shells of shimmering gold; mines of jeweled cobras; patriotic wheel device, displaying the shamrock, rose and thistle, surrounded by a glory of Transvaal gold dust; Johannesburg and Kimberley shells; trocadero fountains; pots d'or; pots d'argent: pots d'aigrette: curtain of Kimberley gems; fiery jewels; silver rain; to conclude with the mammoth fireworks pictorial set device, over 100 feet in length, "An Attack of the Armored Train on the Boer Stronghold," an incident at the siege of Mafeking, and Badne-Powell's plucky stand.

The evening performance will also vention on Saturday, Sept. 22, for the include the full special attractions as given in the afternoon. DIRECTORS' MEETING.

At this morning's directors' meeting there was a large attendance, nearly every director being present. There were in attendance Col. Gartshore, W. J. Reid, T. A. Browne, J. H. Brown, W. M. Spencer, Ald. Wray, A. Bogue, Charles Trebilcock, John Kennedy, Wm. Moore, John Laidlaw, Ald. Bartlett, Col. Leys, Ald. Winnett and Ald. Winder. A question as to whether or not rib-

bons had been provided for fat cattle was answered by the secretary in the negative. Mr. Taylor reported that the main building was filled and was in the best shape it has known for a number

of years, and this despite the fact that a number of leading exhibitors were now housed in other buildings. An application to have agricultural and general purpose horses divided into separate classes was referred to a

special committee. The delegates to the municipal convention in the city this week will be extended the usual courtesies

"Who would believe you?" sneered Arthur. "You would be the one to be arrested; you disappeared, and the money vanished at the same time. Not a shadow of suspicion has rested upon me. I have lived my usual life, going and coming according to my custom, and no one has the slightest knowledge of the events of that night; while you could produce no evidence to prove your assertions, and you can imagine how they would be received."

Yesterday, at that time, this reasoning would have appeared incontestable to Louis, but now he exulted that through the zeal and tireless exertions of his loved one, the game was all in his own hands.

However, he must adopt some bold measure immediately, for Arthur had evidently arranged his own course of proceeding, and was upon the point of

"Once more I give you the opportunity to accept my proposition," Arthur

"I reject it utterly," returned Louis. The young man before him uttered an oath. He had planned to France that night, as Louis had sur-mised, to carry his spoils to a place of greater safety, and where he could avail himself of them to better advantage.

'You are as obstinate as a mule," he cried, crossly; "but the consequence be upon your own head. Your fate is sealed, and you may expect the worst upon my return. Here, I will pass these provisions in to you, and then I'll leave you again to your own medi-

He stooped and began to unpack his basket that he had brought. He took out several packages and thrust them impatiently between the fron bars, and Louis, taking them one by one, carried them to his table, and appeared to exercise considerable care

in arranging them there. All but the last one had been then disposed of. Arthur was still in a stooping pos-

ture waiting for his prisoner to come and take this; he was busily thinking, and did not look up until Louis came close up to that iron grating; then he raised his head, and found himself looking directly into the barrel of a

"How on earth— Who has been here? Nobody could get in—I can't understand!" Arthur gasped.

The consequences will rest upon your head. "You would be no better off if you should shoot me. I should lie here and rot, and you would starve," Arthur retorted, with an air of desperation.

"Your proposition sounds conclu-sive; but you are mistaken," Louis quietly replied. "Allow me to inform you that I have here the means of releasing myself, in the form of a steel file and saw, made expressly for cuteither my strength or my time to effect my own release in that way." don't believe it," said Arthur in-

creduously. With his eye still fixed on the man now in his power, and the revolver pointing directly at his head, Louis unbuttoned his coat, and with his left hand drew forth the implements of which he had spoken.

Arthur's face grew almost wild in its expression of fear and astonishment. "Heavens! who has done this? Who has been here? The doors were safely locked when I came. It is all a mystery to me," he said, in a savage tone. "Unlock the gate of this place and let

me out," commanded Louis. Arthur hesitated, even though he felt he was absolutely helpless, while he inwardly cursed himself for coming to the place unarmed; but, then, who would ever have dreamed of anything like this occurring?
"Come," reiterated Louis, in an im-

perative tone, "you may be very sure that I mean business; as you have already remarked, 'I have too much at just now to be very tendertearted towards you."

One look into his stern face and blazing eye convinced Arthur of that. And yet, in spite of all, he hated to give in, and stood irresolute. It was

"Hold!" he cried. "If I will tell you where that money is-if I throw up everything and swear to leave the country and never cross your path again, will you let me go?"

He was actually shivering, and his face twitching from nervous excitement, and nearly crushed with humiliation at thus being obliged to reverse the conditions that he had tried to make with Louis only a few minutes before.

'Four-fi-"Stop, stop-for heaven's sake! I'll unlock it!" he almost shrieked, as, looking into Louis' blazing eyes, he saw there was not so much as the snadow of relenting in them.

"Put down that revolver," he continued, in a shaking voice. "I can do nothing with the muzzle pointing at me that way. "No, I shall not put it down-I shall

cover you; you are perfectly safe if you do as I tell you; but if you make a bolt for the door, as I see you are meditating, look out for yourself, was the significant response.

Arthur groaned aloud, too plainly for his own comfort; he saw that he had no weak character to deal with, and with trembling hands and a face that was ghastly in its whiteness, he drew from one of the pockets of his coat a key of brass, which he proceeded to insert in the ponderous padlock which fastened Louis' prison, and turned it in the lock.

The sound was like the sweetest music to Louis' ear. "Remove the lock and open gate," he commanded.

Obediently the foe did as he was told, and Louis walked forth a free man once more. "Now, I will take all the keys belong-

and see how you like the life that I have been leading here the last few weeks." "Mercy!" Arthur cried in despair, and clutching frantically at the massive grating before him, "you do not mean it; you cannot be so relentless."

"But I do mean it—quick! I shall waste no time upon you." The despairing man saw that there was no reprieve. With a dejected air and a sinking heart he slunk inside the place where

# ARE SPLIT UP

Hamilton Turned Their Right Flank

And Cleared the Way for Buller's Advance-Lydenburg Occupied by the British-One of the Last Stages of

London, Sept. 9 .- The following dispatch has been received at the war office from Lord Roberts:

"Belfast, Friday, Sept. 7 .- Jan Hamilton succeeded in turning the Boers' right flank, clearing the way for Buller's advance.

"Dundonald and Brocklehurst occupied Lydenburg Thursday.

"The Boers are split up and going northward and eastward. Most of the guns and stores have been sent to Krugerspost, a small town about 20 miles north by east of Lydenburg. COMMANDANT THERON KILLED.

"Hart, who is operating southwest of Krugersdorp, reports that among the dead Boers left on the field it is believed that the body of Theron has been found."

Commandant Theron, of the Boer army, was known as a great scout. It was he who commanded the Boer patrol that burned early in August near Honigspruit, the train carrying United States Consul Stowe and flying the Stars and Stripes.

Cape Town, Sept. 9.-Sir Redvers Buller continues his advance. He crossed the Mauchberg, ten miles east of Lydenberg, and came into action with the Boers. The occupation of Lydenberg, which took place last Thursday, is regarded as marking one of the stages of the war. The Boers now talk of trecking into German territory. Lord Methuen is marching on Licht-

enburg from Mafeking. It is said papers received at Pretoria show that the Netherlands Railway Company in many ways actively assisted the Boers. It converted its workshops into arsenals and provided the Transvaal forces with horseshoes.

#### At Warm Baths.

LORD ROBERTS' REPORT. London, Sept. 9. - The following is the complete dispatch from Lord Roberts to the war office, dated Belfast, Sept. 5:

"General Paget reports that in an engagement near Warm Baths he had one killed, nine wounded, and two taken prisoners, including Surgeon Foy, who was captured while attending a wounded man. The enemy directed his fire chiefly against a kopje, which was ably defended by two chair.

Louis quickly closed the gate upon Munster Fusiliers. The enemy lost held by the Boers since the evacuation five killed, including the field cornet of Pretoria. The Boer forces are still commanding. Paget collected and sent to Pretoria between 4,000 and 5,000 head of cattle.

to Dulstroom yesterday, having encountered slight opposition. He is now moving along the Lydenburg road, and is signaling communication with Buller, whose guns he can hear, and who informs me that he has been engaged during the morning with the enemy's left flank. Hamilton is endeavoring to turn the enemy's left

"Brocklehurst's brigade of cavalry joined Hamilton's column at Barton. He reports that a train proceeding south was fired on last night near Bunk station. A few horses were shot. Previously a patrol of bushmen were fired on near the same place. One was killed and two wounded.

"Two strong columns, one under Clements, and the other under Hart, are now moving about the district near Krugersdorp and Johannesburg. A post held by 125 men of the Canadian Mounted Rifles, guarding the railway between Pan and Wondersfontein, was attacked at daylight this morning by a body of the enemy, under Commandant Treekhart, with two guns and one pom-pom.

"Col. Mahon, who was marching within a few miles of the place at the time, proceeded to the assistance of the little garrison, but they had beaten off the enemy before Mahon and his troops arrived. It was a very creditable performance. Major Saunders, who commanded, and Lieut. Moddle were both slightly wounded. Two privates were wounded and six are missing. The wounded are D. Johnston, of the 2nd Canadian Mounted Infantry; missing, Sergts. Hague and McCullock, and Ptes. Shaig, Glendening, Shaw and Dabonk, all of the Canadian Mounted Infantry.

"The party of the enemy which failed in the attempt to take Winburg hurried towards Ladybrand, which was being held by one company of the Worcester Regiment, and two small troops of the Imperial Yeomanry. The Boers surrounded the position in which the troops were entrenched, and called upon our men to surrender. On the summons being refused their guns opened fire and commenced a heavy bombardment. On the news reaching me I telegraphed the officer commanding on no account to surrender, as Gen. Kelly-Kenny had informed me that, hearing the Boers were making for Ladybrand, he had arranged to send a small column by Lieut. - Col. White to the garrison's assistance. At the same time I ordered Sir Archibald Hunter to send Bruce Hamilton's brigade by rail from Winburg and Kroonstad to Bloemfontein to be ready to assist White's small force, if required. The enemy, foiled in their object, fired 320 rounds into our position, which occupied a front of about half a mile, and kept up a heavy rifle fire at the same time.

was informed yesterday by the resident commissioner of Basutoland that a small Union Jack was still flying over the entrenchments, and this afternoon I received the joyful news that the garrison had been relieved by White, our casualties being only five

BADEN-POWELL AT CAPE TOWN. Cape Town, Sept. 10.-The object of General Baden-Powell's visit here is to consult with Governor Sir Alfred Milner regarding the organization of a military police force for the new territories annexed by Great Britain. He will probably visit England before returning to the Transvaal.

BOER TRAIN WRECKERS. Victor Toronto, Sept. 9.—Lieut.-Col. Bigger, cent.

D.A.A.G., who assumed Col. Ryerson's work in South Africa as Red Cross commissioner, had an exciting experience recently while journeying from Cape Town to Pretoria. He was on the train conveying United States Consul Stowe to Pretoria, and which

was wrecked by Boers under Commandant Theron. The colonel says that when within twenty miles of Kroonstad the train was held up by Boers. The time was

1 o'clock in the morning, while all were asleep. The Boer method was to run the engine in on a siding, throw the switch over and upset two cars, thus effectually stopping the train, then fire on every truck containing men. Col. Biggar thinks he may have owed his escape from injury to the fact of his putting out the lamp in his compartment. The Boer commander told them afterwards that his men had used the lights as targets. Several shots passed close to Col. Biggar, but he escaped uninjured. Even after discovering that the car flew the Stars and Stripes, the enemy searched it for firearms, but released the occupants, pushed the car on a siding, and then burned the rest of the train and took all the escort of troops prisoners. After the Boers had left there were

three dead and four wounded to look after. The railway behind was blown up and the telegraph wire cut, so Col. Biggar started off alone with a red light to a point three miles in their rear to signal the train following, and on his return, having found a hand-car, dispatched his own man and a gergeant to warn the garrison seven miles away. Daylight revealed unfired mines all along the track, and one directly underneath the cars; so, fortunately for the party, the whole intentions of the Boers had not been carried out. A recent cable message stated that Col. Biggar reached Pretoria safely, and later returned to Cape Town.

BRITISH PRISONERS RELEASED. Pretoria, Sept. 9.-Nine officers of the Imperial Yeomanry, who were among the British prisoners at Nooit Gedacht, hid in excavations which they had made in their tents, and when the other officers were released and sent on to Barberton, they were nowhere to be found. They subsequently escaped. When the other of-ficers were being liberated, Commandant Viljoen came among them and said: "You are free. I am sending a small escort with you to show you the road to your lines. Keep together. Do not loot farm houses. I know that I am speaking to soldiers of the Queen, and I have confidence in you. I hope that the next time we meet we shall be friends." The prisoners then started

lease the six Canadian troopers of the engagement between Pan and Wondersfontein. The Canadian prisoners referred to are: Sergt. Murray, H. Hayne, Farrier-Sergt. McCulloch, and Ptes. Straig, Glendenning, Shaw and Dapbury.

ENEMY DEMORALIZED.

London, Sept. 3.-The occupation of Lydenburg by Buller's army, with the Constipation, Sick Headache, Dizziscattering of Botha's forces east and mountain guns, under command of Capt. Llewellyn, of the British South

The only remaining objective point in Lord Roberts' campaign is Koomatispoort, which can be occupied after the railway line has been cleared eastward from Watervaal and Machadodorp. Otherwise little remains to be done, except the gradual suppression of the raids conducted by small bands of Boer guerillas and the capture of the leaders.

Kruger, Steyn and Reitz are reported to be on the railway line east of Nelspruit, with a train which can run into Portuguese teritory in the course of four or five hours. There is a Boer camp at Barberton, but there are few guns there. The entire Boer force in the Eastern Transvaal probably does not exceed 5,000, and it cannot be readily concentrated. Veterans are at a loss to understand how the Boer campaign can be prolonged beyond the end of this month, unless some unexpected reverse to British arms occurs near Pretoria or Johannesburg.

#### FALL BUSINESS

Shows a Fair Beginning in the Dominion.

Toronto, Sept. 8 .- Bradstreet's trade review: Business has been fair at Montreal this week. Fall trade is showing more activity. Some failures, with liabilities rather larger than lately experienced, will doubtless tend to make traders observe caution, but there has not been much speculative buying this season, and the prospects for fall trade all seem to have warranted such preparations for it as have been made by country trades.

The large number of visitors in the Toronto market this week continued to stimulate trade. The house sales have been large, buyers from the country having placed many sorting orders for

the fall. Unfavorable weather lately at Winnipeg has tended to check the development of fall trade. Farming operations have been interfered with. Feeling in wheat firm. There is a fair jobbing trade being done. The labor situation has been improved by the settlement of the railway men's strike.

The outlook for trade is fair. A fair amount of fall business is still being done at Hamilton. Large quantities of goods are being distributed by the wholesale firms. Travelers are still sending in good orders. Prices firm. Conditions of business in the city are satisfactory, and the prospects for trade are bright.

The wet weather in British Columbia has retarded harvest operations, and the yield of some grains will in consequence, it is feared, be reduced. The results of the salmon pack on the Fraser River have been very disappointing. The jobbing trade is fair.

At London trade is improving somewhat with the increasing deliveries of grain in the country markets. There is a good demand for fall and winter goods, and quite a good jobbing trade a being well ALLAN LINE- For Liverpool, is being done. Prices are being well

CHILDREN AT THE FAIR. Children of all ages, from the tiny tot who could barely toddle to the boy and girl who had difficulty in persuading the eagle-eyed ticket-seller that they were entitled to enter at half price, swarmed all over the fair on Saturday. With parents, with friends, with elder brother or sister, or by themselves, they came and enjoyed with an intensity of enjoyment that rarely comes to the "children of a larger growth," the many and varied aspects of Canada's favorite exhibition. They clamored for fans and cards in the main building; they gazed with longing eyes and itching fingers at the luscious fruits in the norticultural building; they invested their pennies in peanuts and taffy, or purchased with them the wild joy of a ride on the merry-go-round. They crowded the grand stand, and watched with openmouthed awe the ascent of the big balloon and the thrilling drop of its occu-pant, or the daring feats of the slackwire artist. They shrieked with laughter at the antics of the clown acrobats and the evolutions of the cake walk-Then, when all was over, they went home, wearied but so happy, to dream and talk for weeks of the wonders they witnessed at the fair.

THE ATTRACTIONS. The chief attraction of the excellent

bill provided in front of the grand stand is unquestionably the daring double balloon ascension and parachute drop, which is to be made daily by Prof. Joseph La Roux and his wife. Miss Tina La Roux. Their balloon is a monster one, containing 985 yards muslin, standing 75 feet in its filled condition, and measuring from the top of the inflated balloon to the trapeze of the parachute 147 feet. Saturday the professor and his wife successfully carried out their programme by making an ascent about 5 After rising to a height of over 2,000 feet, Miss La Roux cut loose from the balloon, and after the usual breath-taking rush of a couple of hundred feet through the air, her parachute opened, and she descended safealighting in an apple tree near the Hamilton road east of Egerton street. The professor ascended about a thousand feet higher before taking his drop. He came to earth between the Hamilton road and the river, while the balloon alighted near the intersection of Egerton street and the river. The other attractions were meritorfous and entertaining Cadieux, a slack wire artist, does some clever and novel and balancing himself on a chair on his slender support. Miss Gilbert, the cornetist, played a number of artistic selections. The cakewalkers, to the number of seven couples, gave an amusing exposition of the genuine darky cakewalk. Only half the troupe was present on Saturday, but the full complement will present this feature during the week. French, a clever ventriloquist, and "the Jays," a pair of amusing clown acrobats, supplied the balance of the programme. The Seventh Regiment Band supplied music.

# **HOW SARDINES**

Only a Small Fraction of These Fish Are Now Imported.

people are the largest consumers of are dried by means of large fans or sardines in the world," said a leading ventilators run by powerful machinwholesale dealer in such canned fish in ery. When dry, and while still upon New York recently. "Last year the the grills, the fish are cooked by plungconsumption of sardines in the United ing them into tanks containing boiling States amounted to 2,000,000 cases, or 200,000,000 cans. Of this quantity 1,400,-000 cases were the product of the state of Maine, 150,000 cases were put up in California and the remaining 450,0 cases came from France. Thirty years ago all the sardines eaten in this country were imported from France. Today nearly three quarters of the sardines sold here are put up in fifty-one packing houses in Maine. These concerns are controlled by a trust company, which employes 6,000 workmen, who can turn out 1,500,000 cases of the fish annually.

"In Maine sardines are caught off the western shore of the St. Croix ton Star. River and Passamaquoddy Bay. The fishing season commences early in May and lasts until late in the fall of the year. The fish are taken in brush weirs, resembling ordinary pound nets, into which they are led by means of large leaders and wings which terminate in a funnel shaped entrance. Their escape is prevented by the extension of these wings into the inclosure, thereby forming a triangular hook at each end of it, so that the fish, as they circle inside of the weir, are directed past the entrance. When the fish are plentiful in the nets quantities of scales appear upon the surface of the water. The nets are then lifted and their contents are dumped by the fishermen into their boats. The fish make a little squeak when taken from the water, and die almost instantly. An ordinary catch of sardines gives to each boat anywhere from 2,000 to 6,000 fish, the price of which is from \$2 to \$2 50 per 1,000, according to the quantity of fish that are being caught.

"Arriving at the packing house the

fish are carefully cleaned. This operation over, they are sorted according to size and carried into another part of ARE CANNED size and carried into another part of the establishment, where they are put in pickle.

The length of time required by this operation varies according to the size of the fish. After this the fish are washed and placed with care upon wire nets, called grills, on which they are "Next to the French, the American sent to the drying room, where they oil. After this cooking the sardine still upon the grills, are left to cool, and when cold the work of placing them in halves and quarter cans filled with olive oil, tomato and mustard sauce is begun. This work done, the cans are sealed with solder and are ready to put in cases, holding 100 tins, for the market.

"Like canned goods of every description sardines are cheaper now than they formerly were, and the American sardines are sold for less than the imported. American sardines are now exported from this country to the West Indies and South America."-Washing-
