THE QUEEN'S BIRTHDAY

### Officially Colebrated in Great Britain-Parade of the Horse Guards.

London, May 20.-The official celebration of the Queen's Birthday, which occurs on Sunday, took place today, throughout the country and the empire in general. On the parade ground of the Horse Guards there was the usual attractive ceremony of trooping the colors, and it was witnessed by a large crowd of distinguished people, including the Prince and Princess of Wales, the Duke and Duchess of York, Prince and Princess Christian of Schleswig-Holstein, the Duke of Cambridge, Prince Charles of Denmark, and the Commander-in-Chief, Lord Wolseley. Her Majesty was born May 24, 1819. It is said that an undignified squabble arose this year between Lord Wolseley and the Duke of Cambridge about the function of trooping the colors. The latter, as ex-Commander-in-Chief, and Prince of the blood royal, claimed precedence over his successor, but met with a positive, obstinate refusal, and a deadlock was avoided only by the Prince of Wales stepping in and asserting his right as heir apparent to outrank both. Wolseley made the best of a bad bargain and withdrew his claims and Cambridge had to follow

Much of the attractiveness of the trooping colors here, however, was marred by some lively rain showers. There were the usual Queen's Birthday observances at all the garrison towns and naval stations.

EMBARGO ON TOBACCO. Tampa, Fla., May 20.—Gen. Weyler's proclamation forbidding the exporta-tion of tobacco from Cuba after ten days has caused great consternation among the large manufacturers in Tampa. Some firms have enough of the new crop in Cuba to last a year, and it is in no condition to be moved, London, May 20.—The troubles be- Czar and Czarina. The procession and will not be for months. A scarcity of bonded warehouse room here has caused a large amount to be stored in Havana, and a fleet of schooners will be necessary to take it away, the regular steamers being entirely inadequate. Almost the entire Spanish population of Tampa has forwarded a vigorous protest to Madrid against the enforcement of the proclamation. The move is regarded here as one intended to throw the cigarmakers out of work, thereby cutting off revenue from the Cuban cause, as the cigarmakers have been contribut-

PROMINENT ANGLICAN CLERGY-

MAN LEAVES HIS PARTY. Kingston, May 20 .- A letter published last night, from the pen of Rev. Robt. W. Rayson, rector of All Saints' Church, of this city, giving reasons for his defection from the Conservative party in the coming election, has caused a sensation in this city. The letter begins: "To the conscientious man the transfer of his vote from one party to another must always be a very serious thing to be seriously considered, and as I feel compelled to do so in the pending election, I propose to set down the reasons which have led me to this decision, in the hope that, selves to others, they may at least arouse a spirit of inquiry and careful consideration, which must tend to a more deliberate and thoughtful use of the ballot." Mr. Rayson is opposed to Dominion Government's policy with regard to Manitoba schools, because it is no remedy at all for the ought to be investigated and a remedy applied), but because it is "an aggravation of the disease, administered in Essex, opened his camjaign, here on allopathic doses by the old method of Monday evening in St. John Baptiste punching the nose until it was swalwas too strong, or rather the moribund as well as protection were the subphysician too weak to administer his jects discussed. It will be easy at bye-elections, or, at all events, in five years, to read a similar lesson to the Liberals should they need it. But the ousting of the Conservative Government now would be a pretty strong thint of what they might expect if they also falled in honesty, and it would probably be heeded. Moreover, we have at present no reason to suppose that they will need it. In conclusion, Mr. Rayson says he has no fear of the industries under Liberal management of public affairs. He finds many of the manufacturers and wage earners are supporters of Mr. Laurier. Above all, he says it is necessary to have a corrupt Government removed and the school question judiciously settled. Sir Charles Tup-per, he says, in conclusion, does not propose to settle that question with etrict justice to all.

A GREAT DEMONSTRATION. Halifax, May 20.—Dispatches from Summerside, P. E. I., show that the reception given there last night to Mr. Louis H. Davies, Liberal leader of the Maritime Provinces, was the most magnificent Liberal demonstration ever held at Summerside, and one of the finest ever witnessed on the island. It began by a grand procession, and although the reception was tendered by the Liberals, the procession was composed of the bicycle club, the cornet band, the town council, and nearly one hundred carriages containing prominent citizens. Mr. Davies was escorted to the market hall, which will hold over one thousand persons, and which was densely packed. Here addresses. Mr. Davies dealt with all the prominent issues of the present campaign in a masterly style and with

Foster arrived here last evening from Guelph and was met at the station by the representatives of the Forest Conservative Association, Messrs. Geo. Mon-crieff and W. J. Hanna, the Conservative candidates for East and West Lambton respectively, and driven to the Franklin House, preceded by the Forest Brass Band. A public meeting was held in the curling rink last night. The chair was taken by Mr. W.J. Porte, barrister, president of the Forest Conservative Association. Among those on the platform were Messrs. Among Frank Smith, Jas. Kerr, H. M. Pous-sett, of Sarnia; W. Fitzgerald, barris-New Brunswick seats are: Charlotte, wick; J. Joyce, of Petrolea, and a large number of ladies. Mr. Hanna praised the late Hon. Alexander Mackenzie, in order that he might make Hon. He (Mr. Hanna) indorsed the men now in power. Mr. Moncrieff devoted his time chiefto a defense of his vote for the corcion of Manitoba and against a conciliatory policy and a full investigation.

Mr. Foster entered into a general defense of himself and his colleagues. A WONDERFUL FEAT. The Winnipeg Tribune says one of the hits of the evening at Joe Martin's meeting on May 15 "was the Hon. J. D. Cameron's description of the attitude of Mr. Hugh J. Macdonald since his flop. Mr. Macdonald's position reminded him of the story told by Lord Macaulay of the Indian juggler, who, after performing many astonishing and onderful feats, finally wound up by swallowing himself and leaving his audience in total darkness."

A RECEPTION TO SIR OLIVER. Montreal, May 20.-The Montreal Liberals are making arrangements to give Sir Oliver Mowat, Premier of Ontario, a reception on his arrival in Montreal towards the end of this month. Sir Oliver will address the electors of Beauharnois county on the 27th inst. at St. Stanislas. Sir Henri Joly. IN EAST HURON. Wingham, May 19.-The first gun in the East Huron campaign was fired at Bluevale last night in the interests of Dr. Macdonald, the Liberal nominee. There was a good turnout of farmers anxious to hear the questions of the day discussed. Though the Conservative candidate had been especially invited to attend the meeting, neither he nor any of his colleagues appeared. Mr. Thos. Gibson, M.P.P., was present, and spoke on the scandals that had been unearthed at Ottawa. Dr. Macdonald spoke for two hours to a most attentive audience. He went into the Manitoba school question most thoroughly, and dealt with the

Hudson Bay Railway promise, the steamship lines on the Pacific, the fast Atlantic lines and other topics. There was a time when the Liberal party would not be greeted as kindly at Bluevale as the doctor was last night, but a great change has taken place in every part of the riding.

AN INDEPENDENT OPINION. Winnipeg, May 20 .- Mr. R. H. the Maritime Provinces. Mr. Wm. Hutcheson and Mr. N. A Belcourt were nominated by the Liberals of Ottawa last night. There was the utmost unanimity, and there are the highest hopes that Ottawa will declare for the Liberals. Hon. T. McGreevy has finally de-

cided to come out as an independent candidate for Quebec West. Since his money is all gone his old-time Con-servative friends hold aloof from him. Mr. Richard Barden, fruit merchant, likely be the straight Liberal candidate. Mr. Grant, the third candidate in

Assiniboia, has retired, leaving the contest between N. F. Davin, Conservative, and McInnis, Liberal and Patron. The last named has a strong following. Mr. Robillard, one of the late mem-

bers for Ottawa, declares that the convention which turned him down, and which Sir Charles Tupper rejoices over, was a farce. It was, he says, Hon.Mr. Laurier had an enthusiastic

reception in L'Assomption yesterday. A Montreal dispatch says: "Last night's meeting to indorse the candidature of Robert Mackay, Liberal candidate for St. Antoine division, was a great success. Mr. Mackay is proving a particularly strong candidate in egard to the trade question, as he is interested so largely in many manufacturing enterprises, and his candidature is regarded as a guarantee that while there will be reform to the tariff there will be no revolution.

Armstrong, as a representative of the mayor, dwelt upon the question of sanitary improvements, and said that in order to have a perfect sanitary condition of plumbing work, it was essential to have an efficient inspector to examine the work, so that the people would be assured that it was for their interest and the health of their homes, and a general benefit to the commu-

But the other kind, that looks and smells and tastes like sarsaparilla. What is it? That's it., It's whatisit. It's a conundrum. Give it up. Ayer's Sarsaparilla, alone, is made exclusively from the imported Honduran sarsaparilla plant, the variety richest in medicinal value and healing power. Possibly, this is why one bottle of Ayer's does as much work as three bottles of any other kind. At least, that is what people say who've tried others, and then tried Ayer's. Some go farther. There's George Smith, Druggist, of Seymour, Conn., for example, who writes: "I will guarantee more benefit from one bottle of Ayer's Sarsaparilla than by using half a dozen bottles of any other kind." That's the sort of record Ayer's Sarsaparilla is living up Others imitate the remedy; they can't imitate the record—50 years of cures.

the Liberals against "slipping a cog" in any constituency. They all wanted to see Hon. Wilfrid Laurier, along with Sir Oliver Mowat, in charge of the affairs of the country at Ottawa and to that end it was the duty of every individual to help to do away with the long Conservative reign of corruption, gerrymander and unfair franchise bills. (Applause.) Mr. Glennie also spoke, expressing his pleasure at the solution of the matter, and that the candidate was a Caradoc man. He referred to Mr. Mc-Gugan's sacrifice of home and other pleasures in accepting the nomination, and thanked those present who had mentioned his name. Mr. Crozier was sure that Mr. Mc Gugan would be elected, because he rode down with him. He thanked all for voting for Mr. McGugan, who was an honest man, and he was only afraid that if he went to Ottawa he would learn other ways. (Laughter.) Mr. Kaiser was also well pleased with the result of the convention. He wished to avoid a three-cornered fight, and again expressed his pleasure at

the nomination of the ex-warden of Middlesex. Mr. Alex. Stuart, Glencoe, also spoke saying that disaster to South Middlesix had been averted, and he hoped that everyone would work together in harmony for the election of his neighbor, Mr. McGugan. They all knew of the gross wrongs perpetrated by Conservative party, and he asked all to sink any animosity in the fight for Liberal principles, even going so far

as to make sacrifices if necessary. Chief Cornellus Logan, a very inelligent Indian speaker, made a force ible address. He spoke about the re-cent quarreling at Ottawa, and warned the electors of South Middlesex not to imitate them. After speaking of the great necessity of united action, he said that if it had not been for Indian aid in the war of 1812, Canada would be divided into different countries. He asked for fair play for the Indians, and hoped that Mr. McGugan would do all in his power to remove the unfair discriminations against the red men in regard to the liquor laws.

London, Wednesday, May 20.

How He Is Viewed in Britain. The English Independent, in its last issue received has an important article on "Canadian Politics," from the pen of one of its staff, who has been on an investigating tour through the Dominion. The political morality of Ottawa, the writer says, is immeasurably below that of Westminster, and he cites the following extraordinary incident to show something of the condition of things there: "While I have been in Ottawa," he says, "I have seen the leader of the House of Commons openly act a part which in England would bring about his expulsion from any decent club. He had to read a telegram in the House of Commons from the Premier of Manitoba, regarding the now abortive conference at Winnipeg on the school question. I was in the press gallery when the telegram was read. The leader of the House read it out as though he were reading the whole. It was so accepted, until three days later, when it was telegraphed from Winnipeg that part of the telegram had been withheld. Only a couple of lines were withheld, but they were vital to the story, as they showed the spirit in which Mr. Greenway was going into the Winnipeg conference. As read in the House of Commons the telegram indicated some giving way on the part of the Manitoba Premier, whereas as written it indicated nothing of the kind, and showed that no results, from the point of view of the Dominion Government, could be expected from the Winnipeg conference. When charged with thus tricking Parliament and the country, the leader of the Government forces, in a feeble way told the House that he had omitted part of the telegram as he thought the words withheld were not of any consequence.' Canadians are humiliated to have it recorded that a man in so prominent a position as that held by Sir Charles Tupper, in dealing with a great quesand to achieve what he ought to have known could be but a temporary advantage, should so act as to bring forth this denunciatory criticism of an independent journalist. The emasculator, the trickster, can

never be trusted by honest men.

The marriage rate in England, which has been steadily declining in recent years, is again on the increase, and those timid people who feared that the 'higher education of women' was going to knock out the "stately homes" of England are beginning to pluck up courage. Returns for the last three months give an excess of births over deaths of 82,197. The British people are not the broken-down decadent race that the Canadian high tax advocates try to make out.

# The Chinese Favored.

Cotton manufactured in Canada is shipped to China, and sold 25 per cent cheaper than it is sold in Canada. The cotton lords manage this by combining and shutting up all competing factortheir product to Canadians. They have to meet British cotton in China, and so they give their cotton to the Chinese for much less money than the Canadians can buy it. # Mark the Contrast.

Let us set Sir Charles Tupper's double-faced attacks on Mr. Laurier against Sir Donald Smith's clear testimony. The high tax leader at Ottawa tried to stir up opposition to the Liberal chief by representing him as a French-speaking man and a Roman Catholic, who opposed the Manitoba School Bill because it did not go far enough. When he got to Montreal, Sir Charles changed his cry to a general charge that Mr. Laurier is a traitor to his race and religion. Could demagoguery go further. How marked the contrast between these rascally factics and Sir Donald Smith's declara-

"It remains now for the electorate to decide the question (remedial legislation) as between the parties. Speaking for myself, I consider Mr. Laurier an honorable man, who was as anxious as anybody that the school question should be settled, and who would have been only too willing to help the commissioners when they went to Winnipeg. I do not believe he wanted to make capital out of this question at all. He was sincere, as far as my conviction goes, and I have ever regarded him as a well-intentioned

wherever government exists, and men ing it. But it is one thing to provide a revenue, and quite another to restrict or prohibit trade. The necessities of the public treasury must be considered, and if a majority of the people of a country are persuaded that these can best be supplied by taxing trade, it is right and proper to provide for them in that way. A tariff for revenue is, therefore, quite a defensible policy. If, however, a tariff is framed with the object of hindering trade, without regard to revenue objects, it does violence to rights which every citizen should be free to enjoy.

Everyone should contribute to the maintenance of government, which has organized and which exists for the protection of persons of property against wrong. As members of the State, that is the duty of all citizens, irrespective of age, sex or occupation. But when a governing body steps beyond this plain rule, and imposes a tax for the special benefit of an individual or class, it does an injustice to all other members of the State, which it cannot repair or redress by and night caused at least eighteen any balancing of favors.

The money is being taken out of the pockets of those who earn it by labor or trade, and put into the pockets of those who do not. COUNCIL. The Trade Bulletin of Montreal, May 15, has a short article on the new butter season, beginning as follows: "The new butter season opened with the lowest prices ever remembered in the history of the trade, choice fresh ereamery having sold at 14 to 14 1-2 cents in this market, against 16 cents a year ago." And was it for this that we bought our own butter a year ago at 20 cents a pound and sold it for 14 cents! Surely there is some mistake -either we bought our own butter a year too soon or we are holding the elections a year too late. There's Money in Springbank This Year.

An evidence of the general belief that Springbank will be a popular resort this year is the rush of applicants for privileges in the amusement line there. The incline railway scheme has evidently fallen through, but at a meeting of the water commissioners yesterday Mr. Smith asked permission to place a merry-go-round at Springbank on May 25-the same merry-go-round that was at Queen's Park last year. He offered \$5 for the day's privilege, but was willing to make a tender for the whole season. Mr. Smith was advised to do this. Mr. John Milne also applied for permission to erect a boat house near the Springbank dam. Mr. Milne will

be asked what he will pay for it. Mr. John Dawson subscribed to his agreement with the commissioners to manage the Springbank hotel. It provides that he shall not sell liquor, that he shall arrange ice cream and refreshment parlors, and that he shall provide hot water at the hotel free to excursionists. The lower floor is to be reserved for the use of the public free of charge. Mr. Dawson pays \$250

They referred the matter to the engineer to report.

London, May 20.—Six horses ran for My eye was clear, and I picked out good balls just the same as when I was hitting safely. But no matter how hard I hit the ball, it went straight to some fielder. Then, after a spell of this sort, lasting two or three days, I would again get the ball safe, although I did not change my method

of hitting it.

"People are sometimes too ready to condemn a player for weak hitting. They look at the score in the newspaper, and seeing that such and such player has no hits, pronounce him They do not stop to think that he may have been robbed of several hard base hits by wonderful fielding, which is often the case. It is no easy thing to keep up constant safe hitting, and a player ceive a little leeway now and then."

### AN ALARMING INCREASE. The Prevalence of Female Complaints Found to Result Largely from the Kidneys.

Saginaw, Mich., May 18.—Doctors are beginning to turn their attention more exclusively to the causes for the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reany, of Ashland, Wis., who was cured of this form of trouble by the use of a kidney medicine known as Dodd's Kidney Pills, which originated in Canada, but has now become widely known and used throughout the Western States. This and other similar cases go to show that these troubles are largely due to the kid-neys, and that the above mentioned remedy is likely to have a great effect in lessening the number of vic-tims to this form of complaint.

Miss Ashkraft pleaded guilty to fight, and incidentally to make a box- throwing kisses at Mr. Fawcett. She hated Mr. Fawcett's wife, she said, and did it to make her jealous. It developed that the two families, who are next door neighbors, have been at dagger's points over trivial differences. The judge discharged the widow and fined her daughter \$5. He gave Mr. Fawcett a severe rebuke for oringing such a case into his court. Miss Ashkraft begged the judge to remit the fine, promising never to throw kisses again. He relented to the extent of suspending the fine during good behavior.

LIFE SAVED.—Mr. James Bryson Cameron states: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the st results. Acting on this advice, I procured the medi-cine, and less than a half-bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve

The oyster grows from the outside by throwing out every year rings or circles of calcareous substance, and experts can tell where the growth be-

gins and ends for the year. Mrs. Celeste Coon, Syracuse, N. Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Parmelee's Pills according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose without distressing me in the least." These pills do not cause pain or griping, and should be used when a cathartic is required.

England has had three "blood rains, one blue snow, three falls of black snow and one shower of unknown beetles," since 1428. Give Holloway's Corn Cure a trial.

It removed ten corns from one pair of feet without any pain. What it has done once it will do again. School directors in the district of Duverne, Ia., have ordered a cyclone cave dug at each of the school houses in the district.

### A Newfoundland Vessel Seized and Held by Venezuelans,

Halifax, May 20.-Chief Officer Sullivan and three sailors of the British schooner Newday, which was seized at Venezuela four weeks ago, left their vessel and came north by the British steamer Taymouth Castle. The Newday is owned by Capt. Slocumb, of Parrsboro, N. They examined the ship thoroughly, also the manifest, and compared it with the cargo landed. They did this at the captain's request and found no discrepancy anywhere, as they themselves admitted, but said that they had instructions to seize and detain the vessel and had no discretion but to carry out the orders from the central authority. The Venezuelan officers were very insolent. Capt. Baxter, who was in command of the Newday, made arrangements to leave for Halifax with his crew, but at the last hour before sailing Capt. Baxter was detained, and he still remains in Venezuela. The Newday is in charge of the customs officers.

The owner will make representa-tions of the fact to the Newfoundland Government, and a statement will be transmitted to the Imperial Govern-ment. The damages claimed amount to a very large sum.

Mr. Justice McMahon says: "The learned trial judge held that it was question of law, and withdrew from the jury the question whether more force than necessary was used in putting the prisoner out of the house, whether this force deprived the pris-oner of self-control, and whether he fired the pistol shot while in that condition. These questions should have been left to the jury."
