The report of the Clerk was then received. He reported the petition against the pavement insufficiently signed.

Messrs. Williamson, Waugh and Marshall addressed the Council. They were against a bitulithic pavement and Mr. Marshall was against any pavement for a couple of years.

Ald, McCoig thought that the matter should be dealt with right away.

G. G. Martin said that similar proceedings had been taken in regard to Park St., Victoria Ave. and St. Clair street. All knew the bold stand he had taken in regard to the pavement they wanted because they had to pay for it. The pavement would add \$1,000 to the general taxes. Ald. Westman agreed with Ald. Edmondson, but there were other matters to be considered. Mayor Mc-Keough said that there would come a time some day when the tax rate would be so high that the city would not be able to pay its share.

Ald. Scullard favored the amendment, but ne was not in favor of

It also recommended that the ranged. It also recommended that the Jun. or Commercial Class be moved to the old school building, as inspector Seath had advised in his report. He said by a little re-arrangement a very good room could be made on the ground floor. He advised the advertising at once for the new teacher to teach junior science and mathematics, one who could teach calithenes and drill preferred.

On motion of W. G. Richards, seconded by S. B. Arnold, it was decided to advertise in the Globe and Mail for such a teacher at \$750, applications to be in by August 6.

The Property committee was given power to go ahead with the renovation and remodelling of the lower floor of the old building to make it suitable for a commercial class room.

MILITIA IS ROTTEN TO CORE.

Lord Dundonald has done much to expose the rottenness of the militia department, remarks the Guelph Herald. An attack upon the system by Col. Thompson, one of the strongest Liberal supporters in the Commons, opened the eyes of those who imagined that the millions of additional expenditure incurred in connection with the force had resulted in improvement. The opposition, in its criticism of the militia estimates have made it a rule to be more or less lenient, realizing that it was in the interests of the country as a whole to have an efficient militia. But the attack upon the management of the amilitia by the late General Officer Commanding has placed the matter in a different light. In the recent debates on the Militia bill, the department has been shown to be run for the benefit of politicians and grafters. When supplies are needed public tenders are not called for. The man with the pull gets his own figures and the treasury pays the hills. In accordance with this vicious system, a contract for carpentering at the St. John Drill Hall was awarded to a grocer, J. E. Smith, Mr. Smith was down for a contract. It mattered not that he was a grocer and had not the faintest idea as to how a drill hall should be repaired, He had a political pull and that was all that the Militia Department cared for. When the Sussex armories were built, a tailor was made building inspector. Other equally glaring instances of destroying the usefulness of the Militia Department have been brought to the attention of Parliament, and more are promised in the near future. This is what Lord Dundonald saw going on about him every day and that is what he was expected to close his eyes to. Canadians will not begrudge money to help bring the militia forces up to a high standard, but it will be surprising if they are willing to tamely submit to its waste in this reckless manner,

Dundonald's Ottawa send-off will equal that of Toronto, and could be dulpicated at almost any point in Camada.-Brantford Courier.

RIPE FRUITS AS AN ABSOLUTE CURE FOR DISEASE

An Ancient Theory, Now Demonstrated to be a Fact.

Ottawa:-For years, it has been known that some traits possess unusual medicinal qualities. Fresh apple juice has a marked effect on the kidneys and excites a greater excretion of urine. Oranges are probably the most appetizing of all fruits, as well as the most grateful to the stomach. F.gs and prunes have been termed "nature's laxatives," because of their power to strengthen and invigorate the intestines and make the bowels move easily and naturally. However, there have always been three great objections to the constand use of fruit for medicinal pursuand the constant of the const poses. One is the stringy, woody fibre which forms the structure of all fruits. This is difficult to digest. Some stomachs are violently disturbed by its preesence, while it often forms insoluble masses in the bowels. Second, is the presence of fruit acids and sugar, which, while a benefit in health, will seriously affect those sufheatth, will seriously affect those sur-fering from kidney and bladder trou-bles. Third, is the minute quantity of active principle—or medicinal pro-perties—contained in fruit. Working on the theory that fruit has the power to cure disease, and taking into consideration all the dis-advantages of employing fresh fruits.

taking into consideration all the disadvantages of employing fresh fruits, an Ottawa physician began a series of experiments to find what gave fruits their medicinal value, and how these principles could be isolated and tested. After much tedious detail, the physician found that the juices contained the medicinal virtues, and that apples, oranges, prunes and figs possessed the therapeutic properties of all other fruits and in a more marked degree. Yet the successful outcome of the work rested on an accident. A hither-to unthought-of compound was unintentionally added to the fruit juices. A vital change immediately occured. The whole mass was changed—chemically and therapeutically. When the new compound was tested, the physician found therapeutically. When the new com-pound was tested, the physician found by the replacement of one atom of saccharine matter by one atom of bitter matter secured from the fruits, the action on the human system was The Dominion government sought to find excuses for the grave fault it committed in dismissing Lord Dundonald by claiming that his etiquette is bad. Rev. Principal Warner, D. D., of Alma College, St. Thomas, preached in the Park street Methodist church Sunday morning and in the Victoria avenue Method st church in the even ng. The morning subject was a d scussion of the conditions of national well-being as described in Psalm 144, verses 12, 13 and 14, with special reference to the education of our daughters as indicated in verse 12. The ideal education of the daughter develops grace and strength. The Chinese think the ideal is grace and helplessness, hence they bind the feet of the girls. The Methodist church, along with the other churches, has always taken a deep interest in the education of young women and stringth as described by the Psalmist in the text. It is found that residential schools afford especially desirable conditions, and such schools are increasing in this country, not as competitors against the provincial second. Sunday morning and in the Victoria creasing in this country, not as com-petitors against the provincial sys-tem, but as auxiliary to it. Lord Duffer n said that the danger of Am-Pinkham's Vegetable Compound.

"Dear Mas. Purkham:—I am one of the many of your grateful friends who have been cured through the use of Lydis E. Pinkham's Vegetable Compound, and who can to-day thank you for the fine health I enjoy. When I was thirty-five years old, I suffered severe backache and frequent bearing-down pains; in fact, I had womb trouble. I was very anxious to get well, and reading of the cures your Compound had made, I decided to try it. I took only six bottles, but it built me up and cured me entirely of my troubles.

"My family and relatives were maturally as gratified as I was. My mice had heart trouble and nervous prostration, and was considered incurable. She took your Vegetable Compound and it cured her in a short time. er thought if residential schools af-forded advantages sought by the greatest of the old families, residenfial schools were none too good for the daughter of the Canadian lawyer, doctor, merchant, mechanic, farmer, or any other class, and so thought all the Canadian churches, for they all had colleges of this class. In the course of the sermon it was stated much increased attention was being given to women education, not only by the churches, but by public spirited individuals. Royal Victoria Colprostration, and was considered incurable. She took your Vegetable Compound and it cured her in a short time, and she became well and strong, and her home to her great joy and her husband's delight was blessed with a baby. Dr. Warner made a very strong

br. Warner made a very strong plea for physical culture and urged the necessity for the employment of best medical expert skill for direction of training of this kind. If the tendencies to neurotic weakness were not cheeked the American race is doomed, profound physical training must come to the rescue.

The value of thorough knowledge of English was pointed out the growing necessity of every young woman whatever her station in life, having a knowledge of business science was noted, and the claims of social, artistic and religious training, for much attention in a young lady's education shown.

Dr. Warner prefaced his sermon with a reference to the Victoria College Evangelistic and Missionary Band, who are announced to conduct services in Park street church next Sunday and the week following.

Dr. Warner said they were now holding socials in St. Thomas, that they had impressed the First church in London, as it has not been moved for a score of years.

In the even ng service Rev. Mr. Cobbledick, the pastor, spoke by request on the Sacrament of Christian Baptism. A baptismal and reception service was held, in which 19 were welcomed as members of the church, twelve by letter and seven on profession of faith.

Great Interest in the Case as People Realize what will cure Diabetes will Cure any Kidney Disease. Cure any Kidney Disease.

Toronto, Ont., July 25.—(Special).—
As the people learn to realize how much the general health depends on keeping the kidneys right, and how many diseases are the direct result of bad kidney action every verified cure of a severe kidney disease is received with interest.

For that reason the case of A. W. Holman, the well known butcher of 193 1-2 Mutual street, this city, is well worthy of attention. Mr. Holman had Dabetes. Now he is a well man. Dodd's Kidney Pills cured it. Asked concerning his case, Mr. Holman said—

He is a well-to-do retired farmer and has been a consistent Methodist for some 45 years and gives with a free hand to the cause. The old couple seem happy and are strong in the faith. Asked concerning his case, Mr. Holman said—
"Yes, I had Diabetes for six years, I fried all kinds of remedies but to no use. My attention was called to Dodd's Kidney Pills by an advertisement and I began to use them. I only used six boxes when I was completely cured."

As it is conceded that what will cure Diabetes will cure any Kidney Disease it must be admitted that Dodd's Kidney Pills will cure any Kidney Disease. Men often grumple about things just to show they know how far to allow others to go with them. Minard's Liniment Cures Garget in

MOST ENJOYABLE

Splendid Concert and Dancing at Pt. Lambton Last Evening.

The 24th Regiment Band, under the direction of Watson H. Walker, reeived encomiums on all sides last night at Port Lambton for the splendid and up-to-date dance music they played. Many of the dancers were heard to say they never danced to better music in their lives.

better music in their lives.

About 200 from Chatham took in the excursion to the Port last evening, the first excursion of the season to this popular summering resort. Before the special got to the Port there was over 500 aboard.

The night was an ideal one in every respect. Many boats passed up and down the river and the Greyhound and other large boats turned their search lights on the dancing platform.

All enjoyed themselves thoroughly and never was there a more orderly, or select crowd on such an occasion. It is hoped that the band will run these excursions regularly during the remainder of the summer.

Uncle Terry

CHARLES CLARK MUNN

"My name's Page, and I'm from Boston, and a lawyer by profession," re-

Uncle Terry eyed him rather sharply.
"I wouldn't 'a' took ye fer one," he
aid. "Ye look too honest. I ain't much stuck on lawyers," he added with a chuckle. "I've had sperence with 'em. One of 'em sold me a hole in the ground onct, an' it cost me the hull e' twenty years' savin's! Ye'll 'scuse me fer bein' blunt—it's my natur."

"Oh, I don't mind," responded Albert laughingly. "But you mustn't judge us all by one rascal."

They drove on, and as they jogged up and down the sharp hills he caught sight here and there of the ocean, and alongside the road, which consisted of two ruts, a path and two grass grown ridges, he saw wild roses in endless profusion. On either hand was an interminable thicket. In the little val-leys grew masses of rank ferns and on the ridges, interspersed between the wild roses, clusters of red bunchberries. The sun was almost down when they reached the top of a long hill and he saw at its foot a small harbor connected with the ocean by a nar-row inlet and around it a dozen or more brown houses. Beyond was a tangle of rocks and, rising above them, the top of a white lighthouse. Uncle

Stood there unconscious.

Terry, who had kept up a running fire of questions all the time, halted the horse and said:

"Ye can now take yer first look at Saint's Rest, otherwise known as the Cape. We ketch some lobsters an' fish here an' hev prayer meetin's once a

Then he chirruped to the horse, and they rattled down the hill to a small store, where he left a mail pouch and then followed a winding road between the scattered houses and out to the point, where stood a neat white dwell-

ing close beside a lighthouse.

"I'll take ye into the house," said Uncle Terry as the two alighted, "an' tell the wimmin folks to put on an extra

plate, an' I'll put up the hoss."
"I'm afraid I'm putting your family to some inconvenience," responded Albert, "and as it is not dark yet I will walk out on the point. I may see the yacht and save you all trouble."

unruffled expanse of dark blue, undu-lating with the ground swells that caught the red glow of the sinking sun rocks. Albert walked on to the highest There was no sign of the Gypsy, and only one boat was visible, and that a dory rowed by a man standing upright. Over the still waters Albert could detect the measured stroke of his oars. That and the low rumble of the ground swells, breaking almost at his feet, were the only sounds. It was like a dream of solitude, far removed from the world and all its distractions. For a few moments he stood contemplating the ocean alight with the setting sun's red glow, the gray rocks at his feet and the tall white lighthouse towering

above him, and then started around the point. He had not taken ten steps when he saw the figure of a girl leaning against a rock and watching the setting sun. One elbow was resting on the rock, her face reposing in her open hand and fingers half hid in the thick masses of hair that shone in the sunlight like burnished gold. A broad sun hat lay on the rook, and the delicate profile of her face was sharply outlined against the western sky.

She had not heard Albert's steps, but stood there unconscious of his scrutiny. He noted the classic contour of her fea tures, the delicate oval of her lips and chin, and his artist eye dwelt upon and admired her rounded bosom and perfect shoulders. Had she posed for a picture she could not have chosen a better position, and was so alluring and withal so sweet and unconscious that for a moment he forgot all else, even his own rudeness in standing there and staring at her. Then he recovered himself and, turning, softly retraced his steps so as not to disturb her. Who she was he had no idea and was still wondering when he met Uncle Terry, who at once invited him into the hous "This 'ere's Mr. Page, Lissy," he said

as they entered and met a stout, elderly and gray haired woman. "I found him up the road a spell an' wantin' to Albert bowed.

'I am sorry to intrude," he said, "but I had lost my boat and all points of the compass when your husband kindly took me in charge."

Being offered a chair, Albert sat down and was left alone. He surveyed the plainly furnished sitting room, with open fireplace, a many colored rag carpet on the floor, old fashioned chairs and dozens of pictures on the walls. They caught his eye at once, mainly because of the oddity of the frames, which were evidently homemade, and then a door was opened, and Uncle Terry invited him into a lighted room where a table was set. The elderly lady was standing at one end of it and beside her a younger one, and as Albert entered he heard Uncle Terry say, "This is our gal Telly, Mr. Page," and as he bowed he saw, garbed in spotless white, the girl he had seen leaning against the rock and watching the sun

CHAPTER XX.

HE appealing yet wondering glance that Albert Page met as he bowed to the girl standas ne bowed to the girl ing beside the table that evening was one he never afterward forgot. It was only one, for after that and during the entire meal her blue eyes were kept veiled by their long lashes or modestly directed elsewhere.

"It's a charming spot down here," he remarked soon after the meal began, "and so hidden that it is a surprise. I noticed the light as we came in, but did not see the village."
"Waal, ye didn't miss anything," re-

sponded his host. "None o' the houses are much for style, an' mebbe it's lucky

they're hid behind the rocks." "I thought them quaint and comfortable," observed Albert, "but what an odd name you have for the place! Why do you call it Saint's Rest?"

"Chiefly 'cause none o' the people have any chance to become sinners, I reckon," was the answer. "It's a trifle

reckon," was the answer, "It's a trine lonesome in the winter, though."
"I suppose fishing is your principal occupation here," continued Albert, seeing that sentiment was not considerable to the continued of the continued and the continued to t ered by Uncle Terry. "Your land does not seem adapted for cultivation."

"There ain't much chance for tillin'," he replied. "The land's wuss'n whar I was brung up, down in Connecticut, an' thar we had ter round up the sheep once a week an' sharpen thar noses on the grin'stun! We manage ter raise

nough ter eat, though." When the meal was over Uncle Terry said: "It's nice an' cool out on the rocks, an' thar's some seats out thar. If ye enjoy smokin' we best go out while the wimmin are doin' the dishes."

dishes."

The moon that Frank had planned to use was nearing its full and high overhead, and as the two men sought congeniality in tobacce out on that lonesome point Albert could not curb his admiration for the scene. His offer of a cigar to his host had been accepted, and as that quaint man sat quietly enjoying an odor and flavor he was unaccustomed to Albert said: was unaccustomed to Albert said:

rocks and through a tangle of scrub-spruce and briers until I was utterly lost and believed this island an im passable wilderness. Then you came along and brought me to one of the most beautiful spots I ever saw. I should like to stay here all summer and do nothing but look at this magnificent ocean view and sketch thes

bold shores.' "Do you paint picturs too?" queried Uncle Terry, suddenly interested. "Telly's daft on doin' that, an' is at it all the time she can git." Then he added with a slight reflection of pride, "Mebbe ye noticed some o' her picturs in the sittin' room?"

"I saw a lot of pictures there," answered Albert, "but it was too dark to see them well. I should like to look at them in the morning."
"Ye'll hev plenty o' time," was the

reply, "I must pull my lobster traps fust, an' after that I'll take ye in my dory an' we'll go an' find yer boat. I guess she must be lyin' in Seal cove, the only openin' 'twixt here an' the head she'd be likely ter run into."

"And so your daughter is an artist, is she?" asked Albert, indifferent now as to where the Gypsy was or when he was likely to return to her. "Has she ever taken lessons?"

"No, it comes nat'ral to her," replied Uncle Terry; "she showed the bent o' her mind 'fore she was ten years old an' she's pestered me ever since ter git her canvas an' paints an' sich. But then, I'm willin' ter," he added in a tender tone. Telly's a good girl, an' Lissy an' me set great store by her. She's all we've got in the world." Then pointing to a small white stone just to the right of where they were, he added, "Thar's whar the other one been layin' fer mor'n twenty years."

"This one has grown to be a very beautiful girl," said Albert quietly, "and you have reason to be proud of

Uncle Terry made no reply, but seemed lost in a reverie, and Albert slowly puffed his cigar and looked out ocean and along the ever widen ing path of moonlight. He wished that this fair girl, so quaintly spoken of, were there beside him, that he might talk to her about her art. How it could be managed and what excus to give for remaining longer than the morrow he could not see. He looked toward the house, white in the moonlight, with the tall lighthouse and its eacon flash just beyond, and wondered if he should see the girl again that night. He was on the point of suggesting they go in and visit a little with the ladies when Uncle Terry said:

"I believe ye called yerself a lawye Mr. Page, an' from Boston. Do ye happen to know a lawyer thar that has got eyes like a cat an' rubs his hands as if he was washin' 'em while he's talk-

Albert gave a start. "I do. Mr. Ter His name is Frye, Nicholas Frye."

"An' as ye're a lawyer, an' one that looks to me as honest," continued Uncle Terry, "what is yer honest opinion of this Mr. Frye?"

"That is a question I would rather not answer," replied Albert, "until I know why you ask it and what your opinion of Mr. Frye is. Mine might not flatter him, and I do not believe in speaking ill of anybody unless forced to."

In the first opening of Oklahoma to settlers in 1889, the editor of this pasettlers in 1889, the editor of this pa-per was among the many seekers af-ter fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encoun-er with the severe heat, gave him a very severe diarrhosa which it seem-ed almost impossible to check, and along in June the case became so bad he expected to die. One day one of he expected to die. One day one of his neighbors brought him one small his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was relling about on the ground in great agony, and in a few minutes the dose, was repeated. The good effect of the medicine was soon roticed and within an hour the pagood effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by All Trurgists

HINTS FOR THE HOSTESS.

Entertaining the Unexpected Male Guest at Mealtime.

It often happens that a woman will have an unexpected male guest at mealtime. I have found through long expe rience that men are more easily tained than women. If the table be ordinarily neat, the meal plentiful and above all the welcome cordial the aver age man will not notice the absence of the best china nor the darn in the ta-

To insure a plentiful meal have plentiful supply of such things in the house as will keep well and can be cooked at a moment's notice. With the proper stores on hand it is an easy task to prepare a palatable soup, cook some ham and eggs and make an extra cup of coffee. If the cloth be not spotless spread a fresh napkin at the place of the guest, fill the saltcellar neatly, see that he has a dainty cup and saucer, and, believe me, he will carry away with him the memory of a pleasant repast if the hostess be at her ease and does not make him feel by her worried manner that his visit is an in-

It sometimes happens that the head of the house is an unexpected guest when he comes to share a meal which he is not in the habit of taking at home. In that case he should not be greeted with "Oh, dear, I have nothing for you to eat; we had a cold lunch today." but the wife should make quietly and cheerfully the preparations she would make if a stranger had called. The husband will appreciate her action. A little thing like this may form another link in the chain which binds him to his home.—New Idea.

MILK SHERBET.

A Delicious and Inexpensive Dessert For Any Season.

In our house milk sherbet is the most popular dessert on the hottest day of summer or the coldest day of winter. To make it you take one quart of rich milk, three lemons, three-fourths of a pint of granulated sugar and one ta-blespoonful of granulated white gela-

Put the gelatin to soak in half a cupful of the cold milk, putting the remainder of the milk to boil in a farina boiler with half the sugar. Stir When it boils add the soaked well. gelatin, remove from the fire and stir until all is thoroughly dissolved. Strain into the ice cream can; put away to cool. While it cools prepare the flavoring thus: Wash the lemons well, dry them, grate the rind of one and squeeze the juice of three in a dish, add the remaining half of the sugar, stir and mix thoroughly; stand in a cool place until needed.

Pack the tub in which the freezer is placed in the regular way with very finely broken ice and coarse salt. Pour the lemon and sugar into the prepared milk. Cover and freeze in the or dinary way, which will take from fifdinary way, which will take troin in-teen to twenty minutes. Remove the dasher, pack away and give at least one hour to ripen before using. If these directions are followed exactly the result will be most satisfactory, producing a delicious and inexpensive ssert for five or six persons.—Table

A little lemon juice added to the wa ter for mixing pastry improves the fla-

vor and helps to make it light.

If you wish a cake to be light put it into a very hot oven at first and let the oven cool after the first twenty minutes.

For every use to which brandy is or dinarily put in cooking boiled cider is just as good. Boil sweet cider till reduced to one-fourth its original vol-

quite small and the stock in which they are put allowed to simmer only, never to actually boil, if you want to

extract all the goodness. A scant half cupful of strained tomatoes placed on the pan where lamb or mutton is roasting greatly improves the flavor of the meat. The tomato of course is used in the basting.

A sublimated sort of hash which de

serves a more euphonious name is pre-pared very quickly and easily. Cold meat of any kind is put through the chopper, care being taken to eliminate gristle, etc. To this are added mashe potatoes in the proportion of one-third, half the quantity of canned tomatoes, a very small portion of grated onion and pepper and salt to taste. Cover the bottom and sides of a baking dish with cracker crumbs, put in the hash, strew more crumbs upon the top and let it bake gently for fifteen minutes. Can be used either hot or cold.

To Polish Lincleum.

Beeswax and turpentine polish for lincleum is hard to beat as far as its linolenm is hard to beat as far as its appearance is concerned, but it has one defect. It causes slipperiness, which may be very dangerous to children and old people. A polish which has no such objection is made of equal parts of linseed oil and vinegar. Apply a little to a fiannel cloth, rub it well on the linoleum and polish with a clean,

The Matchmaker.

The Matchmaker.

It is a common thing to deprecate a woman tor being what is called in common parance "a. matchmaker." but if she possesses the necessary qualifications of discretion and tact she is an almost indispensable adjunct to so-cial intercourse and may prove the greatest boos to lovers who lack time and opportunity to bring their affections to a successful issue.

ndsor, Absolutely Pure

In certain districts of England formerly when an owner parted almost entirely with other rights to a house he would reserve the right of boiling his pot on the fire. This secured to him the right of voting and, what was of more importance, the position of being a freeholder. At Taunton, for example, the voters were called "pot wallopers because they had the rights to "wallop," or boil, their pots at the fire in their freehold houses. Sometimes when a person parted with a long lease, but not with the freehold of a house, it was expressly stipulated that he keep the right to boil his pot on the

Where Hersewhips Are Prohibited. There is a notable law in force in most of the large Russian towns concerning horses that deserves special mention. Among the curious things that arrest the attention on arriving in Moscow is the entire absence of whips among drivers of cabs, carriages and all sorts of vehicles. There is a law prohibiting their use. There is not a single whip in use in Moscow. The excellent condition of the horses attests the benefit of this humane law. Noth ing can exceed the beauty of the sleek and well groomed horses used in the earriages of Moscow.

mittee appointed to deal with the matter of a grant to the city regimatter of a grant to the city regi-ment, reported against making any grant this year as the rate would be a record one. They appreciated the good work being done by the members of the regiment.

The report was signed by W. S. Marshall, A. B. McCoig and John Ed-mondson.

Ald. Piggott said that he had heard

mondson.

Ald Piggott said that he had heard that Ald. Marshall and the Mayor had compromised with the regiment for a less amount than their claim. Both the Mayor and Ald. Marshall repudiated any knowledge of such a compromise.

Ald. Scullard didn't like the tenor of the report. He thought that the report should either repudiate the claim or admit it. He didn't care for half-way measures. C. R. Atkinson might have threatened an injunction if the money were paid, but with all due deference to Mr. Atkinson, who was an old practitioner, Mr. Scullard would merely suggest that Mr. Atkinson had overlooked the fact that such a grant was legalized by the statute. The men had joined on the understanding that they should have 25 cents a day.

Add Marshall said that the Council.

wasn't justified in going into the pockets of the taxpayers to give a grant to the regiment.

Add Browst Tairfield left for Hamilton last week, where he has secured a good situation.

M. Ouellett

Ald. Piggott pointed out that the band had already given two concerts in the Park. Windsor gave her regi-ment \$1,000. He would gladly stand the brunt of any curtailment to give the regiment a grant. It would have been a bad thing for the city had they not had the soldiers to properly receive the Governor-General when

be visited Chatham.

Dr. Tye said that the Council were morally bound to make the grant. The regiment was of value to the city and the latter should show its appr ciation.
Ald. Piggott moved in amendment

A1d. Piggott moved in amendment that \$400 be granted to the regiment. Mayor McKeough suggested a com-premise with the regiment. Ald. Scullard seconded Ald. Piggott's amendment.

Ald. Scullard, Tye and Piggott stood by the regiment, while Ald. Marshall, McCoig, Westman, Edmondson and Martin voted contra. Martin voted contra.
Ald. Edmondson called attention to
the damage that was being done city
pavements by traction engines. The
matter was referred to the Board
of Western

Ald. Piggott said that a number of boulevardes had been destroyed by cattle. He asked that the matter be reported to the police commissioners.

Ald. McCoig moved that their check be returned to the Ontario Asphalt Block Co., as soon as the agreement

be returned to the Ontario Asphalt Block Co. as soon as the agreement was signed.

John A. Sissons wrote offering to accept Richard Stevenis' contract for the sewer on Amelia St., at the same price. A check for \$86 accompanied the offer hald McCoig moved that the offer be accepted and Mr. Stevens Feleased. [Ald. Piggott moved in amendment that Mr. Stevens be held to his contract and if he failed that the next lowest tender be given the job and Mr. Stevens be held responsible for the difference. Ald. Piggott objected to accepting the Sissons offer. He said it was just to the others tendering. Iald. McCoig thought, it amusing how strict the Aldermen could be in some cases. Both motion and amendment were voted on and declared lost.

Ald. McCoig moved that the council game between St. Thomas and Chatham:

Stope & Co., Trudell & Tobey, Primeau & Peltier, Dunn & Merritt, Thibodeau & Jacques, Peace & Co., G. W. Meynell, James A. King, Von Gunten Bros., J. C. Wanless, W. W. Turner, Knight & Co., P. Ald. McColg moved that the council accept the First Presbyterian Sunday School's inviltation to go on their excursion to Walpole a week from Tues-

day.—Carried.
The Aldermanic baseball team will again figure. Mayor McKeough pro-clamed the second Monday in August

Civic Holiday, as per by-law. Mayor McKsough stated that Mrs. Charles, Lansdowne avenue, had call-ed on him re 150 feet of sewer put ed on him re 150 feet of sewer put down at her own expense. Others who tapped into it should contribute.

Ald. McCoig said that the matter had been referred to the City Engineer and he would investigate it.

The tenders for replanking the bridge were referred to the Board of Works with power.

Messrs. Johnson and Cooper were heard re a grant to the first of August celebration. They were given \$25.

Mayor McKeough suggested that the aldermen put their hands in their pockets. Ald. Martin thought they would forget to pull them out; but he stopped to inquire how many votes the colored people had. It was now eleven o'clock. Ald. Scullard asked to be excused and got away. Dr. Tye had a call, Ald. McCog promised to be home early and Ald. Piggott's wife and children were waiting up for him. Dr. Tye was the only one excused and this left a bare quorum for the passing of local improvement by-laws. Andrew Thompson, Jr, has recieved instructions from J. I. BLENHEIM

Miss Edith Stevens, of Grace Hospital, Detroit, is visiting her brother, Mr. John Stevens.

The lacrosse game played here yesterday between the Blenheim and Thamesville teams, was won by the latter by three goals to two. It was an exciting game all the way through. The first quarter Thamesville put in two goals; the second quarter neither side scored, Blenheim rushed the playing; the ball being kept near the Thamesville goal. The third quarter Blenheim scored twice, the goals being shot by Burk and Shillington. The last quarter the ball travelled from end to end, Blenheim forcing the playing. Just before the whistle blew, the Thamesville boys scored their third goal. The referee, J. J. Kelly, from Brantford, was one of the best that was ever on the Blenheim grounds and at any attempt at rough play the offenders were sent off the field. After the game was over some of the spectators and followers of both teams had a mix up.

Good cigar this," remarked the editor of The Planet Junior. "Yes, 10 scents," remarked he as he gazed on the weed reflectively. "And I can smell every one of them," interjected the fellow who wasn't smoking.

N. H. Stevens (by wireless) — If I weren't having such a good time I'd come home and see that lacrosse game to-morrow. These, Scotchmen are wonderful bowlers. I believe they have been practicing on purpose, Of course we could beat them, but they have been giving us such a good time that we haven't the heart to do it.

A FINE TROPHY.

The Transvaal cup is on exhibition in the window of W. J. Bennett's cigar store. This cup may be shot for by members of the Canadian con-tingents who served in South Africa. It is a large and beautiful trophy. Although shot for in the D. R. A. at Ottawa, it is also open for competition at any of the provincial rifle meetings. Entrance tickets may be secured from any of the secretaries of the Provincial Rifle Association.

LAURUSSE

A CLOSE GAME.

Blenheim, July 25. — Thamesville took the locals into camp to-day in a closely contested game by the score of 3—2. The game was fast in spots, Blenheim suffering considerably by their mability to shoot. Thamesville's defence was a stone wall,

warding off rush after rush. Both homes were up against stiff proposi-tions and the shots were scattered. tions and the shots were scattered. The first quarter was all Thamesville, and wen the whistle blew the score stood 2—0. In the second, with Scott and Hubbel off Thamesville's defence, Blenheim woke up and put in a fast goal, doing some fine work. The third quarter was fast and abounded in close checking, neither side scoring. In the fourth Blenheim got busy and Burke landed the rubber in the test in one minute. The score stood nets in one minute. The score stood

mets in one minute. The score stood even until within two minut of time, when Thamesville, by su r combination play, landed the in the nets for the decisive taily. For Blenheim, Crookshanks, Higley and Knight were always in the game, while on the Thamesville line-up stars were difficult to pick, each man playing his position well.

Thamesville ran a special down and was accompanied by about 130 rooters, including many of the fair sex, who cheered and were in the game all the time. J. Kelly, of Brantford, referred the game. The following players were penalized: Hardy, Scott, Cameron, Hubbel, O'Keefe, Higley, Grant and Bell.

Time, 60 minutes; score, 3—2.
