DEATH CAUSED BY A FALL

Henry Brown of Toronto
Fell Thirty Feet to
His Death

FAST FREIGHT WRECKED

Toronto, Aug. 1.—Henry Brown, aged 35, fell from the top of a 30-foot ladder while working on the frame of the new producing building of the Consumers Gas Co., Eastern avenue, early yesterday afternoon. He was killed. His dislocated and two young children live at 12 Ivy avenue.

Whether proper safeguards were employed for the workmen or not is a question. Brown was painting on the skeleton of the big building. He reached out for a brace and apparently miscalculated the distance, fell forward, and his head struck an iron beam in the wall. His body turned over and the head again struck, this time on the side of a large concrete vat which covers the area of the whole building. He was almost dead when he was picked up, and expired in two minutes. Coroner McConnell was notified, but will probably not hold an inquest.

Brown was well-known and highly respected. He was organist and tenor soloist in St. Joseph's R. C. Church. He was one of the original members of "Gy" Co. 4th Highlanders. He was a Scotchman and came here ten years ago.

His Life For His Hat.
Toronto, Aug. 1.—George Pease, a conductor on the Toronto Street Railway, fell or jumped from a fast moving car on Queen street, near Spadina avenue at 3:50 o'clock yesterday afternoon and sustained injuries from which he died at 10:15 last night. Mr. Pease was 59 years of age, unmarried, and lived at 199 Spadina avenue. At the time of the accident he was off duty. He boarded the car near the centre, and started to walk along the footboard to the rear. The car was moving rapidly, and created a breeze which raised Pease's hat. He made a grab for it, released his grip on the hand rail and lost his balance and fell. He died without recovering consciousness.

FAST FREIGHT WRECK.

Engineer Broom Killed and Fireman Dixie Injured.

Montreal, Aug. 1.—A fast westbound freight on the C. P. R. ran into a siding at St. Rose Monday night and struck a number of loaded cars standing there, as the result of which James Broom, the engineer, was killed and Fireman Dixie injured. Eight cars were demolished by the force of the crash. The accident is attributed to an unplaced switch.

Drowns in the Otonabee.

Peterboro, Aug. 1.—The first drowning accident among Otonabee River drivers in six years occurred yesterday morning, when John Stanforth of Milton, 20 years of age, was drowned in the river below the waterworks dam. He fell into an eddy in the river.

Drowned At St. John.

St. John, N. B., Aug. 1.—Walter Milley, 6 years old, was drowned here last night. He was walking along the L. C. R. wharf with his grandfather, when a train passed between them. As the little lad stepped off the track he fell through a hole in the wharf and went down in 17 feet of water below. The body was recovered in half an hour later.

His Arm Torn Off.

Toronto, Aug. 1.—William Lynn, 23 years of age, while operating a trip-hammer at the plant of P. W. Ellis Co., manufacturing jewelers, 21 East Wellington street, yesterday, attempted to disentangle a rope connected with a pulley on his machine and caught his arm in a knot on the rope. The winding pulley twisted the young man's arm violently upward. He was unable to disengage the rope, and was swung over the shaft. The rope twisted and tightened, jerking with every revolution, until in a minute the arm was torn off, drawn from the body. It severed just below the shoulder, and Lynn dropped to the floor. Lynn was immediately taken to St. Michael's Hospital and operated upon. Late last night he was reported in fair condition as could be expected.

Accidental Death.

Brantford, Aug. 1.—The jury in the case of the man found on the G. T. R. track at Middleport returned a verdict of accidental death. He has been identified as David E. Sheehan of Hamilton.

BERLIN CENTENNIAL

(Special to The Planet.)

Berlin, Aug. 1.—Only two weeks remain until this busy town will be teeming with visitors from all parts of Canada and the United States with Berlin old boys and old girls who years ago left their native town and settled in different parts of this vast continent. To them and to those they bring with them Berlin will extend a welcome such as they never before received.

LICENSE INSPECTOR MASSEY GETS AFTER THE HOTEL MEN

Judge Houston has a Busy Day in the Police Court—Two Men Charged with Petty Theft—One Gets a Year in Central

Robert Wilson and Thomas Clark were the two unfortunates who faced Judge Houston in the city Police Court this morning. They were charged with stealing. Wilson pleaded guilty and Clark pleaded not guilty. Wilson, it appears, was allotted the task of assuming all the blame, partly from the fact that some of the goods were found on him when the two men were arrested. The Crown was unable to produce enough evidence to convict Clark, and so he was allowed to go on the understanding that he would get out of town before Thursday at noon. If he is in town then he will be arrested on a charge of vagrancy and sent down. Wilson was given one year in the Central prison.

The evidence went to show that Clark came here and met Wilson. The two men had a few beers, as Clark put it, and the whole thing ended in a general drunk. The two men were seen together several times in different parts of the city on the day on which the goods were stolen, and they were together when they were arrested. A pair of trousers were missing from Austin's and a couple of pairs of shoes were missing from Somerville's. The trousers were being worn by Wilson when he was arrested, and the shoes were found in an alleyway near the market square by P. C. Dezelia. Both of the prisoners were seen to go into this alleyway.

Wilson pleaded guilty to the stealing of the trousers, and said that he was drunk at the time, or he would not have taken them. The Judge did not look on this plea for mercy with the favor that the prisoner expected. One of the pairs of shoes was sold to Andrew Thomson by Wilson. The two men were arrested in Victoria Park.

Clark when sworn did not remember when he came to Chatham. He, however, claimed that he did not know anything about the stealing. He said that he did not know Wilson before he came to Chatham this time, although it is strongly suspected that these two men are the ones that have been wanted by the authorities for some time for petty thieving near the C. P. R. bridge at Pikeville, done last year. Clark is known as Buffalo Slim, and seems to be pretty well acquainted with the police. He claimed to be a cook and a painter, and until recently he lived in Detroit. The Judge thought if he was willing to go back to Detroit, the authorities should not stop him, as he is not considered a very desirable citizen.

Some time ago Wilson was sent up for 90 days from Ridgeway, for vagrancy. The Judge hoped that his experience in the Central would show him that it was about time for him to go to work, and earn his living in an honest way. His sentence was one year for each charge, making a sentence of two years, to run concurrently.

In addressing Clark the Judge said, "If you are here on Thursday—well, I don't think it is necessary for me to say anything else."

"Only let me go," said the prisoner, "and I will lose no time in getting out of Chatham. I will go back to Detroit on the first train if necessary."

The Judge thought that if he went back on the boat on Thursday, that would be soon enough, and so he gave him until Thursday to leave Chatham far behind him.

A local hotel man was charged with selling liquor after prohibited hours and pleaded guilty to the charge, and paid his fine of \$50 and costs. The costs amounted to about \$3. This is a first offense, although it is claimed by Inspector Massey, who laid the information, that seven men have been made, but they have promised that the practice will be stopped, and as a result the Inspector has been lenient. They performed the deed once too soon, and were caught in the act.

This was the License Inspector's busy day at the Police Court. A man named Burton, a porter at the Teumess House was among the unfortunate victims. He was charged with selling liquor without a bartender's license. He pleaded guilty, and offered as an excuse that he had been unsuccessful in trying to obtain a license from Mr. Massey, and the regular bartender was home to care for the one day until the other man could assume his duties again. He pleaded guilty to the offense. He was fined \$10 and costs, \$13.25 in all.

Mrs. Barbara Pierce was another of those charged. Mrs. Pierce has a license for the Teumess House, and as she is in poor health, she employs her son Tom to manage affairs. The house was pulled for selling liquor within prohibited hours. Mrs. Pierce was too ill to make her appearance in the court room, and her son was present to plead for her. A document was drawn up whereby she gave her son permission to plead guilty to the offense and it was sent to her to sign.

"It is a shame to see a woman as old as Mrs. Pierce dragged into an affair of this kind, but we can't help it," a woman 76 years of age is not in a condition to manage a hotel all by herself, and her illness, too, would make it all the harder," commented Judge Houston. She signed the paper and was fined \$50 and costs, \$53.25 in all.

GOT THE RECORD IS A CLEVER MAN

The Catholic Order of Foresters' Excursion was Attended by Largest Crowds of the Season

The excursion to Detroit yesterday, under the auspices of the Catholic Order of Foresters, broke all records for the largest excursion via the City of Chatham which has left the B. K. dock this season so far. The boat was crowded to its fullest capacity, and when Pain Court and Crowe's docks were reached, it was found impossible to take on the crowds who were waiting there, as the captain refused to take on any more. When the boat left Rankin dock the passengers on board numbered somewhere about 625. The boat's capacity is in the neighborhood of 650, and though the committee greatly regret having to disappoint so many, it could not be helped, owing to the fact that so many got on at Chatham.

The outing was a very successful one from every point of view. There was a good crowd, everyone enjoyed the outing, and the financial returns look very promising.

The committee haven't yet made their report, but it is estimated that the returns from the Foresters' committee and the Ladies' Altar Society for the day will amount to somewhere in the neighborhood of \$350 over and above expenses.

A VENERABLE GOOSE DYING

Sixty-Three Year Old Bird
Was Hatched on Clayton
Farm in Kent

RAISED BY REV. MR. KING

Toronto, July 31.—The city is about to lose one of the oldest and most unassuming attaches of its beautiful park system by the irresistible hand of death. This victim of the passage of time has been in the civic service only thirteen years, but she had completed a half-century of active duty before coming to Toronto, and is the survivor of a family which first saw the light in the Township of Raleigh, Kent County, in 1843. Since the average run of life to one of her class is said to be only from the period of her birth to the following Christmas, it will be seen that our to-be-lamented heroine is the holder of no mean record.

The subject of this biographical ante-mortem sketch is a common, white barnyard goose, which achieved fame through having escaped the butcher's axe in its youthful days. The venerable animal is now slowly passing away at the home of Mr. David Kimmings, superintendent of Island Park, where she has been maintained in comfort since 1893. Every cure has been taken to preserve her life, but she has almost reached the allotted span of human beings, and it is not expected that she will survive more than a few weeks at most.

The goose came into the possession of the city through the instrumentality of the late ex-Ald. Piper, who sent it to Mr. Kimmings with the following letter:

"Toronto, Oct. 28, 1893.

"My Dear Kimmings—I take pleasure in sending you three geese, sent me from Chatham by the Rev. Wm. King. They have been on his farm 50 years. The bill in end of box will explain.

"Yours truly,

"(Signed) 'PIPER'."

The bill referred to in the letter was a printed handbill, which was posted up by Rev. Mr. King, the original owner of the geese, to inform the citizens of the age of the geese, as they evidently were objects of curiosity at that time on account of their longevity. The following is a copy of the bill:

"2 Geese—50 years old.

"1 Gander—50 years old.

"These geese were hatched on Wm. White's farm, in the Township of Raleigh, in the year 1843. The farm and the geese were bought by the Rev. Wm. King in November, 1849, and have since remained there ever since. They continue to lay and hatch a brood of goslings every year.

"WILLIAM KING."

"Sept. 30, 1893."

The gander and the mate of the now dying goose passed away some years ago.

AN EARLY GUESS

There May be Quite a Number of Candidates for Mayor's Chair

Will George W. Cowan be in the race for the mayoralty chair when the municipal elections swing round next January?

It is a little early to start the surmising, yet George W. wears a long smile when the question is broached, but says nothing to the reporters, despite the persistent rumor that he may be out again. Mr. Cowan has only had one year in the big chair in Harrison Hall, while the usual term given is two years.

Ald. Thos. Scullard is almost a certain candidate, while 'tis said that Ald. Wm. Stone and Ald. Chas. Austin, the two members of the Aldermanic Board who have done much toward keeping things lively at the Council sessions, may both be seen in the field. Of course they all deny any aspirations when the question is put to them, but straw shows which way the wind is blowing, and the friends of each are anxious to get them out in the contest.

Mayor Marshall it is thought, will not be likely to look for another year in the office, as he has stated on various occasions that his new and ever-growing business takes up all the time he can spare.

HONORED BY THE KING

WILLIAM LYON MACKENZIE KING,
M.A., LL.B., MADE A C.M.G.

Grandson of Famous William Lyon
Mackenzie—Had a Distinguished
University Career—Has Devoted
Much Time and Study to Economic
and Labor Questions and is Now
Deputy Minister of Labor.

William Lyon Mackenzie King, M.A.,
LL.B., who has been decorated by the
King as a C. M. G.—a Companion of the
most distinguished order of St. Michael
and St. George, is one of the best-
known young men in Canada. He is a
grandson of William Lyon Mackenzie,
M.P., a famous leader in the struggle
for responsible government in this
country, and son of John King, K.C., of
Toronto. His mother is Lyon Macken-
zie's youngest daughter.

Born at Berlin, Ont., he was edu-
cated at the high school there and at
the University of Toronto, where he
graduated, after a distinguished career,
in June, 1895. He was subsequently ad-
mitted to the degrees of M.A. and
LL.B., and then took up post-graduate
courses in political economy with a
fellowship in that department at the
University of Chicago, followed by
another fellowship in the same depart-
ment at Harvard where he graduated
as M.A. and passed with honors the
examinations for the highest degree of
Ph.D.

Harvard University appointed him
from among many competitors to a

travelling fellowship in economics. He
studied abroad in England and on the
continent, and was called home to or-
ganize the Department of Labor at Ot-
tawa under Sir William Mulock, the
first Minister of that department. He
was at the same time offered a posi-
tion on the professional staff at Har-
vard, which he declined, although not
without some reluctance.

In his university work at home and
abroad Mr. King made a special study
of labor questions and problems in
which he is regarded as an expert. He
gained valuable experience in those
matters at first hand by a residence
amongst the settlement workers in
Chicago and London, England, and has
contributed the results of his ex-
perience in excellent papers which
have appeared in the home and foreign
press. His reports for the Government
of Canada on the sweating system at-
tracted wide attention, and aroused
universal sympathy for the victims of
that pernicious evil. The establishment
of the Department of Labor, of which
he is Deputy Minister, was due in a
large measure to the facts and recom-
mendations contained in this report. It
is as administrator of that department
and as editor of The Labor Gazette, its
official journal, that Mr. King has won
for himself a national reputation.

His services have been constantly
called into requisition in the settlement
of industrial disputes and conflicts be-
tween capital and labor in all parts of
Canada; he has been a peacemaker in
these differences from the Atlantic to
the Pacific. There is no doubt that it
is for these splendid public services
that he has received his well earned
decoration.

Mr. King was for a time on the
staff of The Globe and of The Mail and
Empire, and he is the author of a
memoir of his friend Henry Albert
Harper—"The Secret of Heroism"—
which has been warmly praised by the
British and Canadian press.

Mr. King was also one of the found-
ers of the Canadian Club at Ottawa,
and its second president. Referring to
his election to that office The Ottawa
Citizen said: "He is a recognized au-
thority on economics, and a finished
and scholarly speaker. He will bring to
the presidency the lustre of an ad-
vanced education, and the social qualities
of an affable, cultured gentleman." And
this compliment was fully verified.

Mr. King has just turned thirty.

He is the youngest Deputy Minister in
the service, and the youngest Com-
panion of St. Michael and St. George
on its roll of honor. He is only in the
dawn of his public career, which prom-
ises to be an eminently useful and
honorable one.

Speaking of the Baker.

"The baker," said the knowing
youth, "is the happiest man ever.
Everything he stirs up pans out well.
All he kneads is his, he has dough to
burn, and his stock is still rising. He
certainly takes the cake. He's a stir-
ring chap and does things up brown.
Though he is well bred and somewhat
of a high roller, he is not above mix-
ing with his hands. Besides, he is pious
and cheerfully ices his favors for
everybody. The baker is the origin of
wise man of the yeast."—Lippincott's
Magazine.

Modest.

"I have always held that when a
man is wrong he should admit it frank-
ly at whatever sacrifice to dignity,"
said Braggish.

"You!" exclaimed his friend. "Why,
only yesterday one of your closest ac-
quaintances told me that you had never
been known to admit that you were
wrong."

"Certainly not. But wouldn't I have
done so if I had been wrong?"

Gladly Recommends

CUTICURA REMEDIES TO ALL SUFFERERS

"I write you to say I am cured of
eczema, and can say that I owe it to
the Cuticura Remedies, and I gladly
recommend them to all suffering with
any form of eczema. For four long
months I suffered agony and an itching
and burning feeling which affected my
whole system, so as I could not sleep
nights, and I did not care to go into
public, as I would have no case. I
lost flesh and was all run down. I
tried everything I could think of and
also everything that was advertised,
but got no relief, until I was advised
by a friend to try Cuticura, which I
did, and can truthfully say I got im-
mediate relief. I would gladly recom-
mend Cuticura to any one suffering as
I did with eczema, and can verify my
statement by members and also im-
mediate friends of my family. I trust
that this testimonial may be of some
benefit to persons suffering with any
skin diseases." Chester A. Bailey,

Travelers Want the Bible.

One of the signs of the day is the re-
vival of the old-time demand for the
Bible as an adjunct to the hotel bed-
room. Ten or twelve years ago every
room in a hotel of any pretension had
a Bible on its bureau. Then it was
the practice of most hotels to in-
clude a Bible in the list of necessary
furniture. Gradually the people who
were back of the enterprise lost inter-
est and the books disappeared. It now
seems that many persons, particularly
commercial travelers, complain of miss-
ing them. Frequently they read a chap-
ter before going to bed just to drive
away the blues, but now they never
get a chance to look inside a Bible. One
Toronto hotelkeeper has realized the
need for a revival, and has given an or-
der for several dozen Bibles. "It shall
not be said that any man stopping at
my house is driven to perdition for the
want of a Bible" is the way in which
he puts it.

Woman's Trials.

The bitter trail in a woman's life is to
be childless. Who can tell how hard the
struggle may be when she is asked to
reign herself to her lonely lot? The ab-
sence of this link to bind marital life
together, the absence of this one pledge
to mutual affection is a common disap-
pointment. Many unfortunate couples
become estranged thereby. Even if they
do not drift apart, any man reading the whole
extent of their disappointment in the eyes
of such a childless couple when they rest
on the children of others. To them the
largest of family does not seem too numerous.

In many cases of barrenness or in-
fertility the obstacle to child-bearing is
easily removed by the cure of weakness on
the part of the woman. Dr. Pierce's Fa-
vorite Prescription has been the means of
restoring health and fruitfulness to many
a barren woman, to the great joy of the
household. In other, but rare cases, the
obstruction to the bearing of children has
been found to be of a surgical character,
but easily removable by painless operative
treatment at the Loyalist Hotel and Sur-
gical Institute, Buffalo, N. Y., over which
Dr. Pierce of the "Favorite Prescription" is
all cases where chil-
dren are desired and are absent, an effort
should be made to find out the real cause,
since it is generally so easily removed by
proper treatment.

In all the various weaknesses, displace-
ments, prostrations, inflammation and de-
bilitating, catarrhal drains and in all
cases of nervousness and debility, Dr.
Pierce's Favorite Prescription is the most
efficient remedy that can possibly be used.
It has its credit hundreds of thousands
of cured women to attest its value. It
remedy put up for sale through druggists,
especially for women's use. The ingredi-
ents of which the "Favorite Prescription" is
composed have received the most
positive endorsement from the leading
medical writers on *Materia Medica* of all
the several schools of practice. All the
ingredients are printed in plain English
on the wrapper enclosing the bottle, so
that any woman making use of this
famous medicine may know exactly what
she is taking. Dr. Pierce takes his pa-
tients into his full confidence, which he
can afford to do as the formula under
which the "Favorite Prescription" is

good to treat the ailing organ—the
irregular heart, rebellious stomach,
diseased kidneys. They are not to
blame. Go back to the nerves that
control them—treat the cause—use a
remedy that cures through the in-
side nerves.

THE KING'S SANATORIUM

OPENING OF THE MIDHURST
HOME FOR CONSUMPTIVES.

Sanatorium Outcome of the Gift to the
King of a Large Sum From An
Anonymous Person, Which His Ma-
jesty Resolved to Devote to This
Object—The General Plan of the
Building—What the King Hopes.

The King and Queen the other day
formally opened the King Edward
Sanatorium at Midhurst. On Nov. 3,
1903, the King laid the founda-
stone of the great building, which is
designed for the benefit of those of the
middle classes who are suffering from
consumption. The sanatorium was the
outcome of a gift of a large sum of
money to the King from an anonymous
person, and His Majesty resolved to
devote it to this object. An advisory
committee was appointed, and a site
lying 500ft. above sea level, in wood-
ed country, near Midhurst, was select-
ed.

The general plan of the building is
that of two wings, set at an obtuse
angle, thus forming a very flat V, and
connected at the apex with the
administrative block, which forms a
quadrangle at the main entrance. The
patients' rooms, facing south, and

THE KING'S SANATORIUM.

commanding a wide prospect of wood-
ed country, are ranged in two storeys.
The upper storey is set back so that
the lower terrace is open to the sky.
There are a common dining hall, cross-
white tiled, and large recreation rooms.
There is a research department, fitted
with every appliance, which will be of
great scientific service.

The sanatorium is approached by a
mile-long avenue, cut through a belt
of woods, oak and birch and pine. The
whole place is wrapped in tranquillity,
replete of the pine woods, bathed in
clear air, and a wealth of sun. There
is accommodation for a hundred
patients, and the fee is two guineas a
week for most of the rooms.

The King and Queen were received
at Midhurst station by the Duke of
Norfolk, Lord-Lieutenant of the
county; Mr. Secretan, the Sheriff; Mr.
Bartlett, the Under-Sheriff; Lord Win-
terton, chairman of the West Sussex
County Council; and Lord Methuen,
general officer commanding the dis-
trict. A troop of Sussex Yeomanry es-
corted the Royal carriage to the sanato-
rium, whose approaches were lined
by detachments of the Church Lads'
Brigades from adjacent districts. A
guard of honor, composed of the 2nd
V. B. Royal Sussex Regiment, was
drawn up.

Miss Katherine Broadbent, having
presented a bouquet to the Queen, Sir
William Broadbent, chairman of the
Advisory Committee, read an address,
part of which ran—"The class for
which special provision is to be made
includes those belonging to the various
professions who may fall victims to
phthisis and are unable to afford the
expense incident to treatment in
private sanatoria, clergymen and
other ministers of religion, medical
men, members of the teaching profes-
sion, together with clerks and others
employed in business offices, or mem-
bers of their families. By your Ma-
jesty's express desire the wealthy
classes are not to be altogether exclu-
ded from the advantages of a sanato-
rium, and 12 rooms are set apart for
their reception."

The King, speaking in a clear, loud
voice, first thanked the generous
donor who had enabled him to found
this sanatorium and the advisory
committee for their services. Con-
tinuing his Majesty said—
"It is my desire that this institution
shall afford accommodation for that
large class of persons of slender
means, in professional and other em-
ployments, for which no provision for
sickness of this kind at present exists.
It is also my wish that those persons
of larger means who can afford to pay
for treatment here should not be en-
tirely excluded from the advantages to
be derived from this institution, and I
have accordingly decided that a small
number of beds shall be reserved for
them. It has ever been my endeavor
and that of the Queen to do all within
our power to mitigate suffering and to
check the ravages of disease."

"The Queen has shown her deep in-
terest in the fight against tuberculosis
by becoming the patron of The Queen
Alexandra's Sanatorium at Davos, and
by permitting that institution to be
called by her name; and it is our ear-
nest hope that the sanatorium which is
now opened, and its research labora-
tories, equipped with every resource of
modern science, may assist to advance
the physiological knowledge of pul-
monary diseases, and that this institu-
tion may, by treating the disease in its
early stages, be the means of prolong-
ing the lives of those whose career of
honorable usefulness has been inter-
rupted by this terrible malady."

A short service of prayer was offered
by the Bishop of Chichester. His Ma-
jesty then declared the building to be
open.

A Court of Law.

A new definition of law was given
recently by a negro in court. This man,
a witness, was roaring out his testi-
mony.

"Stop!" the judge commanded.
"Don't you know you're in court?"
"Ya-a-s!" replied the negro.

"Well, don't you know what a court
is?"
"Oh-h-h, ya-a-s!" said the old fel-
low, with a bow. "Ya-a-s!" a cot is a
couch, what dey dispenses with jus-
tice!"

Doing good is, perhaps, the only
enterprise in which there is positive,
ly no element of risk.

Ensnaring Victims

Steps Should be Taken at Once to
Prevent Further Trouble.

Here in Chatham, as in other cities
and towns, dyspepsia or stomach
troubles are ensnaring victims in a
most insidious way.
Nearly every mother's son of us
and daughter, too, expects the stom-
ach to accustom itself to all manner
of ill-treatment, but the times comes
when we cannot abuse it with im-
punity. How much better it would
be to take steps at once to strength-
en the stomach and prevent further
trouble.

Use Mi-o-na now and soothe the
irritated walls of the stomach, and
strengthen the gastric follicles so
that they will pour out their daily
supply of digestive materials with
regularity. Then the headaches,
sleeplessness, specks before the eyes,
poor appetite, tired feelings and
nervousness will disappear, and you
can eat what you want at any time
you like.

Mi-o-na is a combination of reme-
dies, some of which are but little
known in this country, and is a posi-
tive guaranteed cure for all diseases
of the stomach excepting cancer.
Just one little tablet out of a 50
cent box before meals, for a few
days, and you will soon regain per-
fect health and strength, and have
no fear of indigestion or stomach
troubles.

If you cannot obtain Mi-o-na of
your druggist, it will be sent by mail,
post paid, on receipt of price. Write
us for advice on your case from a
leading stomach specialist which will
be sent free. The R. T. Booth Com-
pany, Ithaca, N. Y.

Natural Wells in Yucatan.

Since Yucatan, where the Mayas
built their strange cities, is a coral
limestone formation, it would, says a
writer in Records of the Past, have
been a barren desert but for its sub-
terranean rivers and the cenotes, or
water caverns, which give access to
them. The Mayas noted the courses
of the underground streams and built
their towns round the cenotes. Many
cenotes are now found surrounded by
ruins and give indications of the meth-
ods employed by the Mayas to reach
their cool waters. In Uxmal a cenote
about forty feet deep is inhabited by
a peculiar species of fish. At Bolan-
chen there is a cenote having five open-
ings in the rocks at the bottom of the
cavern. Ladders made by tying tree
trunks together lead down a total dis-
tance of 1,400 feet, but the perpendicu-
lar depth from the surface to the wa-
ter is not over 500 feet.

A Most Remarkable Remedy.

Has Used it for 22 Years.

DIARRHOEA, DYSENTERY, COLIC, STOMACH
CRAMPS, CHOLERA MORBUS, CHOLERA IN-

summer complaints with the greatest
success, in fact, I have found it a most
remarkable remedy."

IT IS EXPLAINED

The Cemetery Bridge Matter is Now
in the Hands of the City Coun-
cil—Mr. Jones Clear

In connection with the Cemetery
bridge matter, mention of which was
made in yesterday's Planet, the en-
gineer wishes to inform the public
that, as far as he is concerned, he
has done everything that he was in-
structed to do by the Council. It
now rests with the Council to do
what they please with the bridge.

Mr. Jones, it appears, was instructed
by the Council to prepare a re-
port on the bridge and to make an
estimate on what it would cost to
have it repaired and placed in a fit
condition for traffic. Mr. Jones has
made this investigation, but he has
never been asked for his report, and
nothing else has been done.

It was found that in order to place
the bridge in first class shape, it
would be necessary to put up almost
an entirely new structure. The
present one is completely gone, and
it is practically impossible to repair
it, and make a permanent work.

The estimates for this year have
been struck, and it was thought that
with the present high rate of tax-
ation, it would not be advisable to
enter into any more expenditure this
year than was entirely necessary.
On this account it is not very prob-
able that anything will be done this
year.

In reference to the complaints
which have been made, it is pointed
out that the same people are sel-
dom put to trouble twice, through
being unable to cross the bridge. It
is felt that the city is doing now
all they can afford to do this year,
and it is quite probable that this
expenditure will be included in next
year's estimates.

FIGHTING DISEASE

The Health Authorities are Taking

A new and commendable move has
been inaugurated by the Chatham
health department this year. Houses
in which tuberculosis exists or has

the Health Inspector at regular
periods.

This morning a Planet reporter

from one of these trips.
"Is the system of disinfecting
houses in which tuberculosis exists,
a new one?" he was asked.
"It was only inaugurated this
year," replied Mr. Mounteer. "Tuber-
culosis was not formerly believed to
be contagious, but it is not believed
to be one of the most dangerous
contagious diseases which the medical
men have to deal with."

Dr. Bruce Smith, inspector of prisons for Ontario, says he has not yet received a report about the Sunday gaol, and until the report is made he declines to discuss the possibility of changes being made in the operation of the department.

It is the intention of the department that the rules of gaols must be lived up to throughout the province.

Monday evening the firemen were called out on a test run to Piggott's mill. The alarm was sent in from box 52, at 8.01, and the brigade arrived on the scene at 8.02.25, making a record run of one minute and twenty-five seconds. The line of hose was laid and taken up to the third storey. A large crowd witnessed the run and the record made is a credit to Chatham's well-disciplined fire brigade.

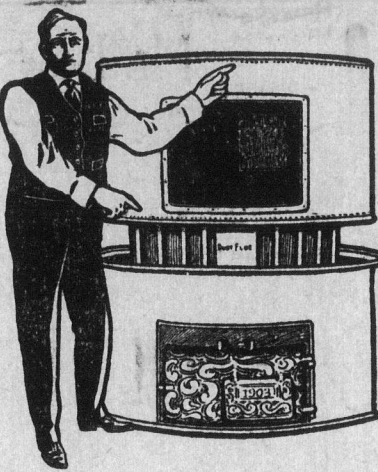

It is understood that there will be a couple more vacancies in the city Public School teaching staff when school opens in September. The Board is at present looking for competent teachers to fill the vacancies.

It is their intention, if possible, to keep up the present high standard of the teachers now engaged, but they find that this is by no means an easy proposition. One of the Central School teachers, it is understood, is resigning on account of her approaching marriage.

In a letter to a friend in this city, John W. Young, a former city editor of this journal, writes of meeting in Prince Albert, Sask., Angus McSweeney, an old Chatham boy. Mr. McSweeney now represents the Philadelphia North American at Washington, and is one of the brightest newspaper men at the capital. He made quite a name for himself last season in connection with exposing railway tariffs. His uncle is in the employ of the Government at Windsor.

Mr. McSweeney was in Prince Albert while on a trip with the newspaper men of Washington through the Northwest. He informs Mr. Young that he was born in Chatham in 1872. He left in 1876.

It's a "Hecla" Patent

And no other Furnace has it.

FUSED JOINTS are to be found only in Hecla Furnaces. In ordinary furnaces the joints between the steel and the cast iron parts are made with bolts and cement. Such joints are soon pulled apart by the unequal expansion and contraction.

In the Hecla this joint is made by fusing the two materials together at a white heat. This joint is everlasting and will never leak gas, dust or smoke.

"Hecla" Furnaces are the only ones with FUSED JOINTS—the only means of having a house free of dust, smoke and gas.

Send me a rough plan of your home, and I will send you an estimate of the cost of installing the proper "Hecla" Furnace. Also a copy of new catalogue of Hecla Furnaces. Write today "Clare's Furnace Builder", care of

When a woman suffers from depressing weaknesses, she then realizes how helpless she is. Dr. Shoop has brought relief to thousands of such women. He reaches distresses peculiar to women in two, direct, specific ways—a local treatment known by druggists everywhere as Dr. Shoop's Night Cure, and a constitutional or internal prescription called Dr. Shoop's Restorative. Dr. Shoop's Night Cure is applied locally, and at night. It works while you sleep. It reduces inflammation, it stops discharges, it heals, it soothes, it comforts, it cures.

Dr. Shoop's Restorative (tablet or liquid form) is a constitutional, nervous tonic. It brings renewed strength, lasting ambition and vigor to weak, lifeless women.

These two remedies, singly, or used together, have an irresistible, positive, helpful power. Try them a month and see.

A BAD BRUISE.

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Nerviline. For nearly fifty years it has been the standard family liniment of Canada.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it causes a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing cannot be restored. Deafness is caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Coal Lands Withdrawn From Sale.

Washington, D. C., July 31.—Secretary Hitchcock, by direction of the president, has issued an order withdrawing from entry 6,000,000 acres of public lands which are known to possess valuable coal. The coal lands withdrawn from entry are situated in New Mexico, Colorado, Utah, Wyoming, North Dakota, Montana, Oregon, and Washington.

YOU MELANCHOLY WOMEN.

Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood, which is thin and innutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment, consequently blood containing ferrozone makes flesh, muscle, nerve-strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone. Fifty cents buys a box of this good tonic—fifty chocolate coated tablets in every box—at all dealers.

THE HUMAN EAR

Its Range of Hearing and Some Sounds That Escape It—Girl Who Vies With Norse God in Hearing.

A careful observer writes: "The range of the human ear is only supposed to be some nine octaves—two octaves more than the ordinary parlor piano, which, of course, is a ridiculously small section of the actual range of sound. It is only necessary to watch a child on the grass on a summer day to become convinced that it hears many things that we do not, and numbers of insects we know make noises which are far outside the compass of the human ear. We can see certain insects possessed of certain stridulating organs going through certain motions, and we hear the sound which they produce. We can also observe the effect which that sound has on others of the same kind of insect that is within earshot. Then there are smaller insects allied to them generally, with the same organs, which we can see going through the same motions. Again, we see precisely the same effect on other insects of the same kind that happen to be near. But no human being has ever heard the noise they make nor probably could any microphone make it audible—at all events experiments have failed. The air around us must be full of noises which we do not suspect.

say, could hear the hair growing on a mouse's back. I know one little girl who, if she cannot quite do that, has, if not some octaves, at least a tone or two outside the normal range. 'What a noise the mice are making!' she will say as we walk beside a hedge now, where everything to all others of the party is as silent as one's bedroom at midnight—and that, we may be sure, if we could hear, is far from silent.

Again and again I have known her walking along a lane or across a field suddenly to stand still and listen and then to flop down on all fours, plunging her hands into a tuft of grass, from which they emerge with a struggling vole in the fingers.

"In the middle of a game of croquet she will drop her mallet and disappear into the shrubbery, to come back later with the information that 'it is only the young willow wrens,' and there is difficulty in convincing her that not her father or mother or any of the elders present, young or old, can hear the sounds which, she declares, are 'as loud as anything.' Most of us drop a tone or so for every decade we leave behind us."

SIR EDWARD CLARKE.

Chamberlain Adds Conservative Free Trade Scalp to His Belt.

With the retirement of Sir Edward Clarke from Parliament the House of Commons has lost one of its most brilliant orators and debaters, and Mr. Chamberlain has added another scalp to his collection of trophies from Conservative free trade heads. Only a few short months ago, when Sir Edward Clarke was returned for the seat of London by an overwhelming majority, he said: "I now enjoy the crowning honor of my life, than which I can never have anything better; and I can never desire to

leave my sons a better or prouder memory than that their father was trusted as the representative of the greatest constituency in the world." But he did not enjoy that crowning honor long. Before his election he had repeatedly proclaimed his unwavering position to the taxation of food in any form. He spoke as a free trader in the House. Mr. Chamberlain seemed to be reconciled to his contumacy. But not long. The Tariff Reform league declared war upon him.

In explaining his reasons for yielding to the demands of the City Conservative association that he should resign, he said: "I would have stuck to my guns if my medical advice had not told me I was committing suicide by doing so. But when to the strain of ordinary political life is added the harassing circumstances of disagreement with one's own political friends it is as well to relinquish a position which becomes a burden too grievous to be borne."

The King's Horses Arrive.

Toronto, July 31.—Word was received yesterday that the shire horses sent by the King and Lord Rothschild to the Exhibition have arrived at Quebec. There are nine of them, all shires, five from the King's farm at Sandringham, and four from Lord Rothschild's farm at Tring. They are all various shades, the finest type of shires and possess the best pedigree to be found in the shire studbook. They will reach Toronto the latter part of the week.

WEARING AWAY YOUR LUNGS?

Yes, and your strength, too. Stop coughing, and get rid of that catarrh. The one remedy is Catarrhoxone. It goes to the diseased tissues, dissolves them, and the air you breathe can't fail to reach the source of the trouble. It's bound to kill the germs, and as for healing up the sore places, nothing can surpass Catarrhoxone. If you don't get instant relief and ultimate cure, you have your money back. Your money for Catarrhoxone is guaranteed to cure catarrh in any part of the system. You run no risk—therefore use Catarrhoxone—at our expense if not satisfied.

The Influence of Music.

"Music at meals," remarked the commentator on little things of life, "usually makes the meal like swearing. In fact, I am more likely to swear than not when I go to a restaurant for dinner and am greeted by the ordinary band. And yet, curiously enough, if a hand organ begins to play outside the restaurant in which I am eating my lunch it has the opposite effect, for it invariably makes me blue. Why should this be a mystery, but it does just the same. I wonder why."

What a splendid type of tireless activity is the sun as the Psalmist describes it! "A bridegroom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unfreshened, and dreading the strain of the day's labors. The cause of this is deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. It nourishes the nerves, feeds the brain, builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation, as it contains no alcohol, whiskey, or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.

UNCLE ABRAHAM'S LEGACY

By A. A. Patrick

Copyright, 1906, by P. C. Eastment

Although in past years Silas Bragg and his family had been the sole recipients of many benefactions from Uncle Abraham, as the burden of old age began to heap itself upon him and his earning powers became proportionately less and less the aforesaid family began to ponder over the problem of getting rid of the decrepit old gentleman against the time when his feebleness should make him absolutely dependent.

Uncle Abe, as he was called, had served as a Confederate soldier in the civil war. When Lee surrendered at Appomattox he, with thousands of other soldiers, trudged back to the places they had left four years previously, but changed circumstances everywhere. The few blood relations that Uncle Abe possessed were all gone. Some had died in battle, and those who remained had moved to other parts. After looking about the village he finally made arrangements for board and lodging at the Bragg homestead and, with a small square box, the only thing he carried, domiciled himself at that place.

During the first years Uncle Abe found his environments to be congenial, and his sojourn, as already stated, proved to be exceedingly profitable to him. Silas Bragg, who, having won the confidence and gratitude of the ex-soldier, came into possession of property of considerable value.

Consequently it was a great shock to Uncle Abe when he learned that it was the purpose of the Braggs to cast him out now that they held the title to all his property. It had been his desire to live out his days at this place. He had received intimations of their designs through the increasing irritableness of Mrs. Bragg and the unkindness of other members of the household. For days and weeks afterward he moped about the little village in a weary and dejected manner. The people would gaze after him when he passed and remark that Uncle Abe was going down mighty fast.

This state of affairs continued for nearly a month, then it was noticed that the veteran seemed to have taken a new hold on life. He moved about with an agility that belied his years; he laughed and joked with a zest that was surprising, and, above all, there lurked in his eyes a mischievous twinkle and glitter that the longers at the village store had never taken note of before. However much the wonder was, no solution was ever reached by them.

The real cause of this gayety on the part of Uncle Abe lay in the fact that certain things had been happening at the Braggs'. Only a few evenings before, Mr. Silas Bragg, on arriving home in a rather tottery state, strongly admonished Mrs. Bragg because she apparently had not acted according to his instructions.

"Where's old gray coat?" he queried.

"Is he gone yet? No! Didn't I say bounce him. What'd you mean? Go! To keep him here to eat a feller out of house and home? Didn't I tell you to make it hot for 'im? I'm a house man, I am, an' I don't want to be hard on nobody, but he's done eat up the wuth of everything I got out of 'im an' I ain't goin' to have 'im no longer. Now, ye get rid of 'im; pester the life out of 'im; spill hot coffee on 'im. D'y'e hear me? I say, get rid of 'im."

Having delivered himself of these weighty remarks, Mr. Bragg settled comfortably down in a chair and dozed off into a deep slumber.

On the following morning Uncle Abe did not appear at the breakfast table as he was usually wont to do. Mr. Bragg, having eaten his breakfast, again commanded Mrs. Bragg to "make it hot for 'im," and departed. An hour passed. Still Uncle Abe did not appear.

"I'll show 'im," piped the matron in a shrill voice. "I'll learn 'im to lie abed. Martha Ann, go get that syringe an' a pan of cold water, an' give it to 'im through the keyhole." Before this order could be executed, however, a thought of such a pleasing nature entered the mind of Mrs. Bragg that it almost made her gasp for breath.

"Maybe the old coddler's dead," she ejaculated. "Run, Nancy, an' see," she called out.

Nancy, as commanded, took up a position in front of Uncle Abe's room, peering cautiously through the keyhole. What she saw made her fall over backward and scramble by the hall toward the kitchen. At sight of such action on the part of Nancy, Mrs. Bragg could hardly restrain herself from shouting. She felt certain that Uncle Abe had left this earthly sphere for other parts. This opinion was soon dispelled, for when the girl had reached the kitchen and had sufficiently recovered to make explanations she told of what she had seen in something after the following manner:

"Oh, ma! Oh, ma! He had his box open on the bed, an' it's jest plum full o' greenbacker bills!"

In a little time after this occurrence Uncle Abe came out of his room. Mrs. Bragg, considering the new light on the situation, made haste to prepare a warm and tasty meal for him. He seemed to be in excellent spirits. He ate heartily of the meal, and then pushed back his chair and made the following astounding remarks:

"Mrs. Bragg," he said, "I have just been doing a little thinking. I am getting old. At the best I can't live many years, and I don't want to be moving about. Now, I'll tell you what I am going to do. I'm going to stay with

you and Silas what few days I have left. When I'm gone there's a little square box in my room which you can have. I'm not going to tell you what's in it, but I'll say this: I think that what's in the box ought to be worth a good many thousands."

"Uncle Abe," broke in Mrs. Bragg, "you are the kindest and best man in the world. Why, you have a home here as long as you live. Whatever we have you shall share it with us. You are near and dear to us, Uncle Abe, and we don't think nothin' about whether we'll get anything or not. Why, only this morning Silas was speaking to me, sayin' we must tell you. Yes, indeed, Uncle Abe, you needn't worry about a home."

That evening when Mr. Bragg returned he looked at his wife sternly.

"Well, has old— He didn't finish."

"Sh-h-h!" interrupted Mrs. Bragg, holding up a warning hand. Then she went over and whispered in his ear.

Mr. Bragg apparently comprehended, for in a few minutes he called out:

"Nancy, go an' see if Uncle Abe needs a fire in his room. D'y'e hear me? I say, go an' see if Uncle Abe needs a fire, an' if he does build it. Martha Ann, go ask Uncle Abe what he'd like to have for supper."

After the second girl had been dispatched on an errand to Uncle Abe's room Mr. Bragg turned to his wife and said in a low tone:

"What ye want to do is to treat 'im right. Let 'im have his way 'bout anything. Give 'im everything that's good to eat—ple an' such truck as that. Don't want 'im goin' off from here yaggin' that box. Whew! How much d'y'e reckon 'in it?"

Thus the old soldier entered upon an era of unbroken peace and quiet and good living. His every whim was humored. He was petted and waited on continually. There was no length to which the Braggs would not go to put Uncle Abe at ease. They even furnished him with small sums of money, but did not wish to break a bill. Seeing that they would get all his bills in time to come they were not reluctant to humor him in this, as also they did in many other things. Indeed if anything to make preparations which, the startled Braggs, to remove himself and the square box to some other place. This would never do, of course, and after a sound raving from Silas they would again be whipped into the line of obedience and homage to the ex-soldier.

In the course of time, as was natural, Uncle Abe died, and Mr. Bragg, in a last splendid burst of generosity, gave him a fitting burial. When the sad rites were over Mr. Bragg hastened to return home.

Followed by Mrs. Bragg and Nancy Bragg and Martha Ann Bragg, he unlocked a certain room, unlocked a certain trunk and unlocked a certain box, and a cry of joy died half uttered in his throat. He got upon his feet and kicked the cat and dog into the yard, then cursed till the very walls of the building trembled. Neighbors heard the shrill voice of Mrs. Bragg and the deep curses of Silas and wondered what the trouble could be.

The box was full of Confederate bills. On top of them lay a little note, which read:

"I think I always did think—this money ought to be worth a good many thousands dollars, but it is not."

Letters From the Insane.

Among the many "crank" letters that drift from time to time into the offices of most large corporations, especially into publishing houses, are a number bearing a typewritten postscript as follows:

The law obliges us to send the inclosed letter, but we add this to let you know that the writer is an inmate of the asylum and that any attention paid to it will be at your risk.

Sometimes the "crank" epistles are mere business formulas requesting a year's subscription to the magazine and promising to pay when the first copy arrives, but others contain urgent, voluble appeals for all sorts of deceptions, of which the mildest are revolting and cartridged. The momentary whimsy represented by their letters are almost limitless in their variety. The chronology of such notes is interesting from a pathological standpoint, as usually, however regularly formed, it is shaky and disjointed or broken, betraying physical and mental breakdown.—New York Press.

A Hole In a Stone.

When primitive man pierced a hole through a stone for decorative purposes mainly the resultant was due to a great deal of trouble and expenditure of time. When he came across a stone with a hole in it he thought the perforation was due to some miraculous power, and accordingly he endowed the stone with supernatural attributes. Man's belief in the marvelous ought to diminish in exact proportion to his information. A stone may be formed of the same alloy, only one portion is crystalline, the other amorphous. While the crystalline part resists abrasion and solution the amorphous does not. If the amorphous part lie in the center of a stone which is in the water it wastes away, and so a hole is the result.

CZAR'S TROOPS IN REVOLT

Artillery Men at Sveaborg
Turn Their Guns on
The Infantry

NUMBERS WERE KILLED

Helsingfors, Finland, Aug. 1.—A serious mutiny has broken out in the great island fortress of Sveaborg which defends the sea approaches to Helsingfors. Since 10 o'clock Monday night there has been a heavy cannonade at the fortress interspersed with volleys of rifle shooting. The sound of cheering among the soldiers was also distinctly audible in Helsingfors.

Up to mid-day yesterday fierce fighting continued and over 600 men have been killed or wounded. Warships bombarded the fortress. The inhabitants of Helsingfors are in a state of panic.

Soldier's Death Cause.
The cause of the mutiny is reported to have been the death of a soldier in the battalions of sappers and miners. His comrades claimed that death was due to ill-treatment.

They rose and were joined by the artillery men. Together they outnumbered the loyal troops, who supported their officers. The infantry from the Skatudden barracks, which stands on the sea front in Helsingfors, were immediately ordered out.

Two torpedo vessels lying at anchor off the city thereupon opened with their rapid fire guns against the barracks, shooting over the heads of the people gathered upon the sea front and causing a tremendous panic.

In Hands of Mutineers.
The greatest excitement prevailed, but the Socialistic workmen and the Red Guard of Helsingfors were all highly elated over the outbreak. They threatened to take advantage of the situation and proclaim a general strike for the purpose of tying up the railroads. With the latest report the fortress at Sveaborg is completely in the hands of the mutineers.

The small island of Skatudden lies close to the city of Helsingfors, with which it is connected by a short bridge. It is given over entirely to the fortress. The Government railway from St. Petersburg enters the city and terminates upon Skatudden island.

Firing Ceases.
The exact situation at Sveaborg is not known. Firing no longer can be heard. Rumors are in circulation that the fortress now has fallen into the hands of the insurgents, but they lack confirmation. It is believed that this cessation of fighting is but a prelude to the renewal of the battle between the mutineers and the local troops.

The casualty list on both sides must be heavy, for the fighting was waged with desperation. Various rumors are heard regarding the fate of the officers who were at Sveaborg, and in the Skatudden barracks. According to one rumor, almost all the officers, and according to another, almost all the junior officers sided with the mutineers.

Condemn Officers to Death.
The marines at Skatudden are said to have convened an elective court-martial, which condemned several officers to death.

A general strike was declared here by the Socialistic workmen yesterday. All factories have been closed.

Demand Socialistic Mobilization.
St. Petersburg, Aug. 1.—This despatch has just been received direct from Helsingfors, dated July 31. A hundred revolutionists, armed and half uniformed, have just marched to the Socialistic Club. They demanded that the Socialistic Red Guard mobilize and help relieve the thousand marines who are held in Skatudden barracks.

The chiefs of the Red Guard are undecided whether to commence an armed uprising, as many of the population are out of sympathy with such a movement.

"The authorities apparently are paralyzed by the suddenness of the revolt. They were quite in ignorance as to which troops could be depended upon."

"Two officers were killed at Skatudden by marines to-day before a large crowd of civilian sympathizers."

Killed the Spy.
St. Petersburg, Aug. 1.—A machine gun was stolen Monday night from an arms factory in the Vassili Ostrov district of this city. It is suspected that the robbery was committed with the connivance of the sentinels on duty at the factory.

Secret meetings of workmen, which are being addressed by revolutionary orators, are being held here nightly. At a meeting of the employees of the Putloff Works Monday night, a spy was discovered among those present and he was killed.

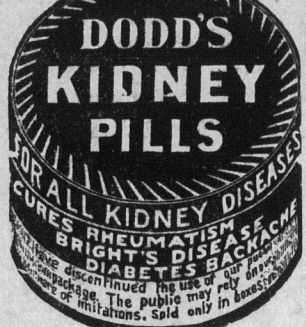

Revolutionists Hold Town.
The news from Borisovka, in Kursk province, is quite alarming, but it is not clear from the message dispatches exactly what has happened. It is only stated that Gen. Ledvinoff, who has arrived there with rapid-fire guns, posted them in a monastery on a hill overlooking the city, and sent in word that if the arms were not delivered up to him by four o'clock yesterday afternoon he would open fire, indicating that the city is in the hands of revolutionists.

Government is Dismayed.
St. Petersburg, Aug. 1.—The promises of Liberal reforms with which Premier Stolypin is deluging the semi-official papers are accepted by The Beehive yesterday as evidence of dismay in upper Government circles over the ominous but silent preparations in the Opposition camp. The paper says:

"Consternation has been produced by the fact that the Government is already beginning to understand that its easy victory was more apparent than real. It would have been less frightened had it been compelled immediately to resort to machine guns and bayonets."

New Cabinet a Fact.
The Associated Press was informed from a high source late yesterday that Premier Stolypin considers the reorganization of the Cabinet to be an accomplished fact. The negotiations are terminated and the Premier entertains no doubt of the acquiescence of the

Take The Planet! If not, try it!

Emperor with the conditions to which he has agreed.

The program contemplates putting the Liberal reforms into immediate execution with the design of pacifying the people of the country and preparing the way for next year's Douma.

An Agrarian Program.
It involves an agrarian program looking to the expropriation of land in extreme cases, but maintaining the principle of the integrity of the private property and the gradual abolition of exceptional law. It provides for the abolition of the death penalty, except in the army and navy and in places where martial law supersedes the civil administration with military authority.

NOT JUSTIFIABLE.
Ernest Lee Responsible For Shooting of J. B. LeRoi.

Huntingdon, Que., Aug. 1.—The inquest on the body of J. B. LeRoi, who was shot by Ernest A. Lee at Cazaville Hotel. After this Lee, it appears, went out on the verandah of the hotel, where he declared he would shoot any man who stood before him if they did not keep back. He then appears to have drawn the revolver and fired three times, the third bullet striking LeRoi.

The bullet entered the left breast and passed through the large artery close to the heart, and then through a part of the right lung, smashed a rib on the right side, went through the chest, and lodged beneath the skin below the right armpit. The revolver was a 33-calibre weapon, and was produced at the inquest, and three chambers were found empty.

The jury returned the following verdict: "That the said J. B. LeRoi came to his death at Cazaville as the result of a wound from a bullet fired by Ernest Lee. We consider that the shooting was not justifiable."

The coroner issued his warrant committing Lee to stand his trial at Valleyfield.

HOOT VERVILLE, M. P.
Warm Feeling Shown at a Labor Meeting in Quebec.

Quebec, Aug. 1.—With Alphonse Verville, M. P. of Maisonneuve, as their target, the representatives of the Quebec National Council of Labor have shown partly what they think of the Federation of Labor Councils, which is the provincial organization of the Dominion Trades and Labor Congress, of which Alphonse Verville, M. P., is the present president.

Accompanied by N. Arcand, organizer of the Carpenters and Joiners' Union of Montreal, Mr. Verville held a meeting Monday night to convert the labor unions of the city into one way of thinking, but he got a hot reception.

Long before the hour the meeting was to begin the place was packed with adherents of both labor bodies. L. Mersan, president of the Federation of Labor Councils in the city, attempted to preside, but the crowd accepted not his rulings. First Mr. Arcand attempted to speak, but the crowd, divided into two forces, made such an uproar that his words were not heard. When Mr. Verville arose so did songs and jeers. The presence of two policemen had no effect, and the meeting had to be adjourned.

STRIKE NOT ENDED.
London Railway Employees Claim Accessions to Ranks.

London, Aug. 1.—Magnus Sinclair, organizer for the Street Railway Employees' Union, stated yesterday that the strike was not at an end. A meeting of the men was held during the morning, with forty in attendance. It was reported that five more men had deserted the company and joined the strikers, making a total of a dozen during the last two days.

The Provincial Railway Board will be here to-day to investigate the charge that the men were dismissed solely because they belonged to the union.

CHURCHILL ON THE TRANSVAAL

Advocates Liberal Policy
Towards South African
Colony

SCENES IN THE LORDS

London, Aug. 1.—Winston Spencer Churchill, Parliamentary Secretary of the Colonial Office, yesterday outlined in the House of Commons the Government's proposal regarding the constitution to be granted to the Transvaal. The guiding principle, he said, would be not to make any difference between Britain and Boer, but to extend to both the fullest privileges of British citizenship.

Constitution of Parliament.
All males 21 years old who had resided in the Transvaal for six months would be entitled to vote.

It is the intention to give the Rand thirty-two seats, Pretoria six, Krugersdorp one, and the rest of the Transvaal thirty seats.

The members of Parliament will be elected for five years and will be paid for their services.

Elective Second House.
For the first Parliament there will be a second chamber of fifteen members nominated by the Crown. During the first session arrangements will be made for an elective second chamber.

The constitution will contain a clause abrogating the Chinese labor ordinance after a reasonable time. The recruiting of Chinese labor will cease entirely November 15.

Premature.
An animated debate followed the closing of Mr. Churchill's remarks. Alfred Lyttelton, former Colonial Secretary, said he thought the proposal premature, coming as it did only four years after the war.

Mr. Bailew declared it to be a reckless and audacious experiment. He argued that it was too near the war to expect the Dutch to forget what they had suffered, and more than human nature could grant to expect them to be loyal to Great Britain. He declared an explanation of this hurried procedure was the Government's burning desire to get rid of all its economic desires in South Africa, which its rash pledges of a general election had brought upon it.

Sir Henry Campbell-Bennet, the Premier, answered that never in the course of his parliamentary career had he listened to a more unworthy, mischievous and unpatriotic speech.

An exciting scene followed, the Unionists shouting "Shame, gag," "apologize," "withdraw," etc., but the chairman promptly called a division on the question of the Colonial Secretary's salary, which was carried by 316 to 83.

Scenes in the Lords.
While this was transpiring in the Commons, Lord Enghien, Secretary of State for the Colonies, was making a similar statement in the House of Lords. While Mr. Churchill was praising the new constitution his cousin, the Duke of Marlborough, who was Colonial Under Secretary in the late Government, was denouncing it in the Upper House.

Lord Harris asked what flag would wave over Pretoria 20 years hence.

Lord Milner declared he saw a tragedy behind the precipitancy of the Government and mourned that the future of the Transvaal was to be left to chance.

Lord Lansdowne said there was a dread in the minds of most men that the Boers would gain the upper hand in the elections, and then good-by to British supremacy.

Premier Whitney and Hon. Dr. Pyne occupied seats in the gallery of the House of Commons during the Transvaal debate.

GERMAN COMPANY WON'T PAY.
"Frisco Disaster Due to Visitation of Providence."

San Francisco, Aug. 1.—The Transatlantic Fire Insurance Co. of Hamburg, Germany, has refused to pay San Francisco insurance claims amounting \$4,000,000. The following statement was given out Monday night by the local officials of the company:

"The Transatlantic Fire Insurance Co. denies liability upon the ground that the losses arose from an overwhelming catastrophe, due to a visitation of Providence, for indemnity against the consequences of which the policy never was intended to provide and does not provide."

Immigration Figures.
London, Aug. 1.—(C. A. P.)—According to the Board of Trade figures, the immigrants to Canada to the end of June numbered 19,509 from Scotland, 77,104 from England, and 3,867 from Ireland. May was the biggest month and April next. The figures by population are: Scotland sent one of every 230; England one of every 400, and Ireland one of every 1,153. Scotland sent twice as many as England and five times as many as Ireland. Emigration from Scotland has increased 100 per cent. in three years.

Kaiser Orders Inquiry.
Berlin, Aug. 1.—Emperor William has ordered a searching investigation into the case of Major Fischer, who was attached to the headquarters staff in German Southwest Africa, and who has been arrested on the charge of receiving bribes from the firms selling war supplies. The money was given nominally as loans, and the total sum paid finally reached \$25,000. Major Fischer's salary was \$2,000 a year. There was no prospect whatever of his ever returning the loans.

Italians Acquitted.
Owen Sound, Aug. 1.—Raffaele Contini and Pietro Contini, the two Italians accused of stabbing Frank and Thomas Galvin on the evening of July 17, were tried in the Police Court yesterday and acquitted.

Heaven never helps the man who will not act.
