November 3, 1927.

Dear Mr. Ditchburn,-

Mr. J.N.Ellis called upon me the other day and we discussed the present situation of the proposed settlement with Mr. Cosens Spencer for the irrigation system on the Chilco Ranch, Stone Indian Reserve. It appears to me that we have done everything that we are called upon to do in this matter in order to obtain a reasonable settlement, and if Mr. Spencer's solicitor desires to ask for a fiat, the Department will be prepared to deal with the matter.

Yours sincerely,

Duncan Scott

Deputy Superintendent General.

Dear Mr. Ellis,-

I was pleased to receive your letter of the 2nd instant relative to your interview with Dr.Scott on the Chilco Ranch - Stone Indian Reserve matter, andd I was gratified to see that he held the same views as I do on the subject of allowing Spencer to take us into the Courts. If he does this, we, of course will have to array against him all the expert evidence we can summon.

In connection with this point, I was thinking it might be advisable, if you can spare time while you are in the East, to run down to Montreal and see Mr. Swan and Mr.Balls as to what information they can supply. Mr.Swan, I feel certain, will corroborate the statement he made to me last Spring which was to the effect that the dam at Fletcher Lake was in a very poor condition, when he visited it in 1924, and while recognizing that the Indians had no legal right in the works for that part of the system, he did some repair work to it in an endeavour to please Spencer, and that after the repairs were made, the dam was in a much better condition than it had been previously. Mr.Swan and Mr.Balls can both be found in the office of the Shawinigan Water and Power Co., Power Building, Craig St.West. I think it would be as well to provide for summoning both Swan and Balls as our witnesses, if necessary.

I do not know whether Spencer and Griffin are bluffing about wanting to go to the Courts, but if they are, their bluff can now be called, and it looks to me as if it will be somewhat expensive for the Chilco Ranch.

So far I have not heard anything from Dr.Scott, but do doubt will get a letter from him in the course of a few days.

While the weather out here has been of a fairly

good.

J.H.Ellis, Esq.,

Re Chilco Ranch - Stone I. R.

Dear Sir:

I had a long talk this afternoon with Mr. Duncan Scott, Superintendent General of Indian Affairs and showed him your correspondence to me following the interview we recently had in Vancouver with Mr. Cousins Spencer and Mr. Martin Griffin. Mr. Scott was strongly of the opinion that we had done all that we could in the matter and that it was better to have the final issue decided by a Court of competent jurisdiction rather than by an arbitration. He agreed that it was useless in view of the past history of the case to attempt to negotiate any further and that the matter had better be finally decided by a Court. He promised to write you to this effect to-day and I have no doubt you will receive his letter in due course.

He further stated that if Mr. Griffin asked for a fiat he would recommend the Government to grant it. I expect to be back in Vancouver around the 20th and presume that Mr. Griffin will not do anything in the meantime.

Yours truly,

Sir: Re - Stone I.R.-Chilco Ranch
Irrigation System.

For your information, I am enclosing copy of a letter dated October 26th from Mr.Engineer Warren showing progress made in the repairs to Indian gates and weirs of the above system.

You will note the expenditures to date in this connection consist of:

Tools and material	$ 35.74
Wages	77.75

Copy of the bill for material purchased from Mr.Cosen Spencer dated October 26th is enclosed for your information. This bill will be forwarded from this office to Mr.MacLeod for payment.

You will also note that Mr.Spencer does not feel disposed to contribute towards repairs on Big creek intake but has informed Mr.Warren he will take steps to prevent leakage through these intake gates.

Enc.

Your obedient servant,

C.E.Webb

COPY

Hanceville, B.C.,
Oct.26th.

District Chief Engineer,
Dom.W.Power & Reclamation Service,
Vancouver, B.C.

Sir:

In compliance with your instructions I made repairs to the Indian gates and weirs of the Stone-Chilco system as follows:

No.1. Found in good condition so no repairs needed.

No.2. Completely replaced.

No.3. Location changed about 25 feet and completely replaced.

No.4. Cleaned out and tempy.repairs.

No.5. Cleaned out.

These are numbered upstream from the Chilco Ranch.

The earlier two gates require rebuilding as the design is not suitable for the locality.

I have had only a few old men and boys to do the work here so did not et so much done as I expected. If possible I will come back next week and complete the job. Practically all the Indians are away on the roundup.

The cost of this work to date is:

Tools & Material	$35.74
Wages	77.75

I have, however, the tools and some of the material left over which will be used on the gates yet to be replaced, either this fall or in the spring.

I took up the matter of repairs to Big Creek Intake with Mr.Spencer. He does not feel disposed to contribute towards this work as he informed me he has not been paid for the work he has done in the past. He told me, however, that he would take steps to prevent leakage through the gates.

I expect to come up here again next week to see that everything is alright and if possible continue with the Indian gates.

It has been impossible to touch the Big Creek gate just now on account of high water and the fact that Spencer is filling up Fletcher Lake.

I am now proceeding to Canim Lake.

Your obedient servant,

(Sgd) W.C.Warren

Re--Chilco Ranch - Stone I.R.

Sir,—

I have the honour to acknowledge the receipt of your letter No. 30/16/10202, of the 21st instant and to say in reply that I fully note your remarks in regards to the matter of the conference held at Vancouver recently and further that I fully agree, especially with the clause in your letter "that it is to be regretted that full information with regards to the Indian rights on the old works was not brought to the attention of Dr. Scott or myself when the proposition of emlargement was first mooted.".

I certainly brought this matter to the attention of Mr. Balls and perhaps Mr. Steven who were at the time looking after Indian water rights in this Agency, but as the matter was discussed verbally I am not now in a position to prove this, but on looking over my files here I find that I wrote to Chief Louie Quilt on June 30th 1923 for information regarding the tools and harness the Department supplied the Indians to do the work on Menton Creek Ditch. I also wrote to Isaac Ogden on Sept. 7th, 1923 asking him for any information he might have had on the subject of an agreement between the owner of the Chilco Ranch and the Indians at the time the ditch was first constructed. Ogden failed to reply and through other sources I learned that he would not give the Indian Department any information on the subject.

The Indians' statements to me are to the effect that at various times during some seven years they constructed the ditch as much at a time as they could manage with the resources at their disposal and then at that time the then-owner of the Chilco Ranch came to them and offered to ration them if they would finish the ditch and give him a half-interest in it or in the water conveyed through it. The Indians agreed to this proposal and under the white man's guidance they dompbeted the ditch. They say this arrangement worked well as long as that white man kept possession of it and with an occasional "flurry" while Mr. Tretheway had the Chilco Ranch. The Indians claim that the previous owner recorded the water fully in his own name and sold the entire Rights when as a matter of fact they should have had at least the half of it but at that time they did now know of an Agent to appeal to.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

There is no doubt that the Indians used to get their share of the water up to the time Cosen Spencer arrived. I was fully under the impression that you were advised by the Dominion Water Power Branch Engineers of that situation. Our only right on record, however, is, or was, that on Menton Creek and to my mind it is very questionable if the Water Rights Branch would give us any rights on that from Big Creek unless we would first come to some sort of an arrangement with the owner of the Chilco Ranch as the water runs mostly through his land.

There is another point which I raised at the time and which I still maintain. When we discovered the kind of man we had to deal with in Mr. Spencer, even after we had spent a few hundred dollars on the ditch, as he had no easement over Stone Indian Reserve No.1, that until he came to our terms that no easement be given him and that he be regarded as a trespasser. As far as I know he has never obtained any rights to convey water over that reserve other than that given him in the agreement with the Department.

If Mr. Spencer wants to break the agreement I would suggest letting him do so and then notifying him that he is a trespasser on the reserve. I think he will come to see reason and light. I would strongly recommend not entering into any further deals with Mr. Spencer in any undertaking whatever in future, further than to meet any reasonable obligations under our agreement such as maintenance of the present works.

Submitted with due respect while

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

Victoria, B.C.

Dear Sir:-

Mr. Martin Griffin rang me up yesterday and informed me that Mr. Cosens Spencer had instructed him to proceed by way of action in connection with his alleged difficulties.

Mr. Griffin prefers an arbitration rather than a Court action. I am rather sceptical about an arbitration, because while I am not reflecting on the integrity of the arbitrators, I think that generally they are more compassionate than a Judge, who is trained to look at cold-blooded facts.

I enclose copy of letter received from Mr. Griffin today for your perusal and instructions.

I expect to leave for Ottawa on Thursday and will be gone approximately three weeks, so that notwithstanding Mr. Griffin's desire for haste, so far as I am concerned it will have to rest until after that date. In any event there is no reason why we should be stampeded into the matter.

Awaiting your reply,

Yours faithfully,

JNE:T

Dear Sir:-

re Chilco Ranch Water Works

Confirming conversation on the telephone we have received instructions on behalf of Mr. Spencer to file a Petition of Right in the Exchequer Court but in place of this we would be prepared to consider referring the whole dispute to the arbitration of a single arbitrator, if we can agree on one. We spoke to Mr. E.A. Cleveland, who would probably be an agreeable arbitrator to both sides, but he cannot act but he knew two others, Mr. Grote Sterling, C.E., of Kelowna, and Mr. F. W. Groves, C.E. of Kelowna, both of whom he said were qualified to act and if this suggestion is agreeable to Mr. Ditchburn our suggestion is that we mutually communicate with one of these gentlemen and see if they will act and if either of them is prepared to do so that we enter into an agreement of submission and immediately proceed with the arbitration, first at the ranch and secondly down here. There is still time to do it this year while the weather is reasonably good if we act at once and we should be glad therefore if you would get instructions on this as rapidly as possible and advise us.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

WMG.

Re:--Chilco Ranch - Stone I.R.

Dear Sir:-

I think it advisable to furnish you with a copy of the Certificate issued by Clifford Vargese, the District Engineer, dated the 16th September, 1926, to the effect that all the works on the joint irrigation scheme were satisfactory to himself as District Engineer appointed under the Water Act of British Columbia.

I think you will agree with me that this Certificate supports my contention that when once the Certificate of the District Water Engineer had been given, the works entered into under the Agreement of 1923 were completed, and that any other work to be done should be considered as new work or works of maintenance to which each party should pay their proportion of cost according to their respective rights.

Your obedient servant,

Enclosure:-

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA.

WATER RIGHTS BRANCH.

Office of District Engineer

at Kamloops,

Sept.16,1926.

Re Stone Indian Reserve--Chilco Ranch Joint Irrigation Scheme.

MEMORANDUM to Comptroller of Water Rights.

A further examination of the works constructed in pursuance of an agreement between His Majesty as represented by the Supt. General of Indian Affairs and Cosens Spencer, was made on the 13th of July last.

Paragraph 7 of the agreement provides that the work be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia, and of the party of the Second part (Cosens Spencer).

I HEREBY CERTIFY that the works are of sufficient capacity to carry the water under the respective licences; that the head-gates on the Big Creek ditch; that the headgates and diversion dam on Menton Creek; that the gates on the main ditches leading to the Indian laterals are all satisfactory to me as District Engineer appointed under the Water Act of B.C.

Re--Chilco Ranch - Stone I.R.

Dear Sir:-

I beg to acknowledge receipt of your letters of the 14th instant in reply to mine of the 11th instant in which I referred to some statements made by Mr.Cosens Spencer at a conference recently in Vancouver.

It is noted that you state that it was unfortunate you were not asked to be present at this conference in order that you would be in a position to refute such allegations.

In reply I have to say that this conference was arragned not to discuss general conditions prevailing on the Stone Indian Reserve or at the Chilco Ranch, but solely in an endeavour to arrive at an understanding as to what proportion of the cost of new works proposed by Engineers Warren and Murray each party to the Agreement of October, 1923, should bear, and it was unmeditated that any other subject would be brought up. The conference, however, ended in a deadlock and did not last more than an hour, as Mr.Griffin had been kept busy all afternoon at the Appeal Court, though he had pressed for the meeting to take place at two o'clock, when, as a matter of fact, he did not show up until five.

Our joining in with Mr.Spencer in this irrigation scheme has turned out to be a most unsatisfactory undertaking, and it is to be regretted that full information with regard to the Indian rights on the old works were not brought to the attention of Dr.Scott or myself, when the proposition of enlargement was first mooted.

In an interview which I had with Mr.Tretheway during the present year, he informed me that though the Indians had no licence to take water from Big Creek, they had been using this water ever since the old ditch was constructed, as they had joined in the construction and it was always considered they had an interest in the same. If this was the case, there was no necessity whatever for the Department to go in with Mr.Spencer on the enlargement scheme, as all it would have been necessary for us to have done would have been to have obtained a licence for the Indians to use water from Big Creek legally, which they had been using for a great many years illegally. Mr.Spencer would then have had done any enlargement to the scheme himself in order that he might carry the extra water he wished to apply for and obtained under a separate licence than that numbered 530.

WED/HM.

Sir: Re - Stone I.R.-Chilco Ranch.

Your letter of the 18th inst. which is acknowledged together with the enclosed copies of letters received by you from Mr. Indian Agent MacLeod, regarding the conduct of Indians on the Stone reserve, in so far as Mr.Cosen Spencer is concerned, do indeed throw an entirely new light on the points brought out by Mr.Spencer at the recent conference in Vancouver.

It now appears rather unfortunate that Mr.MacLeod was not available for the conference to have replied to such statements as were made by Mr.Spencer at that time. I thank you for sending me these letters.

Dear Sir:- Re-Stone I.R.-Chilco Reserve.

You will remember that during the recent conference with Mr. Cosens Spencer, he stated that the Stone Indians were not as progressive as they used to be. He attributed this to their drinking habits and to making home-brew. He also complained that Indians had interfered with the irrigation system and broken locks which he had placed on the Indian intakes.

These matters were taken up with Mr. Indian Agent MacLeod on my return to Victoria and I have received replies from him on both subjects. As these throw an entirely different light on the points brought out by Mr. Spencer, I deem it wise to furnish you with copies of the Agent's letters, which are attached hereto for your information.

WHD/KD.

Enclosures:-

Yours truly,

W. E. Ditchburn.
Indian Commissioner for B.C.

ALSO
TO DATE OF THIS LETTER

Sir,—

I have the honour to acknowledge the receipt of your letter of the 11th instant, File No. 30/16/10084, regarding complaints made by Mr. C. Spencer of the Chilco Ranch re the Indians of Stone Band drinking and not being as progressive as they were a few years ago.

This may be true and Cosen Spencer and his employees are largely to blame for this condition. If you will please refer to your own letter of April 28th, 1925 and my reply thereto of May 5th, 1925 you will see that I have grounds for my statement. I was told by Spencer's storekeeper at that time that Spencer ordered him to give cider and extracts to certain Indians after the storekeeper had refused it. Constable Ian MacRae repeatedly requested them to stop the supply of intoxicants to Indians and I and the Police had some of Spencer's employees in court for supplying intoxicants to Indians. Spencer defended them, gave them his time, employed counsel for them and paid fines for them. Is it surprising that the Indians are not so progressive as they were before a man of Spencer's type became their neighbour? I state that his influence has had a very retroactive effect upon the Indians of the Stone Band.

COMMISSIONER'S OFFICE
OCT 17 1927
VICTORIA, B. C.

I have no doubt that the Indians now do a lot of home-brewing of intoxicants alleged to have been taught them by one of Mr. Spencer's employees named Walker. I have repeatedly asked for a Dominion Constable for this Agency and owing to the size of the Agency and the nature of the work there is, for instance, far more necessity for the assistance of a good Dominion Constable in this Agency than in the two Agencies to the south of me and having policed these Agencies I know whereof I speak.

In Mr. Spencer's case, however, he is only trying to do to me what he has tried to do with all "under" government officials he has come in contact with; that is, to undermine their influence with their superior officers

The foregoing is submitted with all due respect while

I have the honour to be,
Sir,
Your obedient servant,

E. MacLeod

Re--Chilco Ranch - Stone Indian Reserve.

Sir,—

I have the honour to acknowledge the receipt of your letter of the 11th instant, File No. 33/16/ 10084 this date regarding complaints by Mr. C. Spencer of the Chilco Ranch.

I feel it is unfortunate I was not called upon to be at a conference so important which was dealing with matters concerning my Agency. Mr. Spencer's charge that the Indians of the Stone Band, or some of the, were interfering with the irrigation ditch going through their reserve No.1 may be quite true but were they not justified? Spencer had locks on the gates and would not allow them the water they required for their lands. I have no knowledge of any portion of the reserve being washed away except that part washed away some years ago by Mr. Spencer. On June 20th last I visited Stone Reserve and found the gates from the western or northwestern end of the reserve as follows: No.1 entirely closed, No.2 open one inch, No.3 open one inch, No.4 open two inches and No.5 entirely closed, all under lock, and the Indians complaining that they had to run to Mr. Spencer each time they wished to irrigate their little garden patches or their fields. I then called at Mr. Spencer's but found that he was away at the Coast. His foreman, Mr. Drake, assured me that the Indians in future would get all the water they needed. I again advised the Indians to write or wire me at any time in the future. I got no further complaints from them.

On August 6th I again visited the reserve. I saw their crops. I saw their irrigation ditch. I received no complaints. I would suggest that in the future the Indians, at the beginning or at the proper time of the irrigation season, be allotted the amount of water they are entitled to; that their gates be set at that point and not interferred with by Mr. Spencer or his employees. As long as Mr. Spencer is allowed to open and close the Indian gates at his will there will be trouble with the Indians.

Dear Sir:- Re-Stone I.R.-Chilco Ranch Irrigation System.

Referring to your letter of the 20th ultimo enclosing report from Mr. Engineer Archibald showing the necessity of some repairs being made to the gates of the intake on Big Creek to prevent leakage and flooding of land belonging to Mr. H.H. Church, I beg to recommend that you have your Engineer take this matter up with Mr. Spencer, owner of the Chilco Ranch, to see if he is agreeable to having these repairs done as a work of maintenance and pay his portion of the cost of the same, being two-thirds as against one-third for the Department of Indian Affairs. [redacted] Mr. Spencer's comment in this connection, I beg to say the work should be done at as early a date as possible to obviate any further claims coming in from Mr. Church for the flooding of his land.

August 20, 1927

Sir: Re - Stone I.R.-Chilco Ranch,
Irrigation System.

I am enclosing for your information copy of a letter dated the 11th inst. from Engineer Archibald, to which is attached copy of a letter of July 19th to Mr.Archibald from Mr.H.E.Church regarding the Big creek intake.

You will note from Mr.Archibald's letter that one of the gates is now not fitting perfectly allowing a small flow of water to go through when the gates are both shut. It would be advisable to have this gate repaired during low water this fall and you might wish to suggest to Mr.C.Spencer, the other joint owner, that these repairs be undertaken at the first favorable opportunity, either by Mr.Spencer or the engineers of this service acting on your behalf.

From the description of the repairs required in Mr.Archibald's letter I do not anticipated that the cost of same would amount to much.

Re - Stone I.R.No.1
Stone I.R.-Chilco Ranch Irrigation.

Sir:

Enclosed is copy of letter received from Mr. H.E.Church when I came down to Alexis Creek from Beaver Lake.

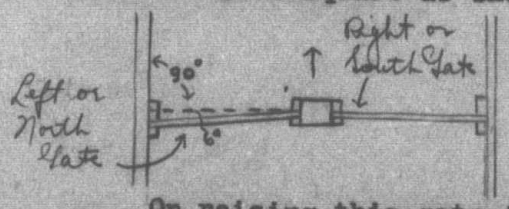

Mr. MacLeod happended to be at Anaham I.R. at the time, and he and I made a hurried trip to Big Creek to investigate conditions written of by Mr. Church.

We found the gates at the Big Creek intake closed, with a head of water on them of about 2½ feet.

A thorough examination showed, as far as we could tell, no sign of leakage at the sides and bottom of the intake culvert, nor through the right or southern gate.

The left or northern gate, however, was leaking badly both at the sides and bottom, and a volume of approximately 1/3 c.f.s. of water was flowing down the ditch.

The position of this gate is not square with the culvert wall but at an angle of about 6° from square as shown below.

On raising this gate it was found to be warped at the sides, though the bottom appeared to be straight and square.

At the present time Mr.Church stated, the flow in the ditch was doing no damage. He asked however that the leakage be stopped before freeze-up in the fall.

It was the opinion of Mr.MacLeod and myself, that later in the season when the surface level of Big Creek has fallen, the flow into the intake could be blocked by a sand bag dam, and the left hand gate be reconstructed so as to eliminate the present leakage.

Your obedient servant,

(F.R.Archibald)

Mr.Archibald,
Engineer - Dom.W. P. Branch.

Dear Mr.Archibald:

I am writing this to suggest that you should come up and look over the headgate of the Indian Department and Chilco Ranch ditch; it is now closed down tight and you could see for yourself the amount of water which is still leaking and coming down the ditch - the water in Big Creek is almost the height to which it was raised by ice last winter and in the fall of 1925-.

I wrote to the Indian Commissioner last winter and told him that the headgate had again been leaking and was informed that Mr. MacLeod would investigate, but so far have heard nothing more; I think that this is a first rate chance for you to see conditions while Big Creek is high enough for you to judge.

Yours truly

Memorandum to Mr.Warren

Re - Stone-Chilco Joint Irrigation System, Big Creek Intake.

Under date of August 11th Mr.Engineer Archibald advises that repairs are required to one of the gates on Big Creek intake.

As this is a matter of maintenance, I am requested by W.E.Ditchburn, Commissioner of Indi n Affairs, by telephone, to have this matter looked into and suggest that you consult Mr.Cosen Spencer, the other joint owner, with a view to having these repairs made immediately. The Department of Indian Affairs is prepared to pay for one-third of the cost of necessary repairs which may be carried out either by Mr. Spencer or yourself.

In connection with necessary expenses for material and labor for repairs on above system, you will kindly obtain bills in triplicate for all material required and certify same before handing to Indian Agent MacLeod for payment, as we have no funds to pay for repairs on this project.

Dear Sir:

Re: Your file 30/16/10075.

I am in receipt of your letters of the 8th and 10th instant herein.

It is quite true that your offer was $861.00, but it was suggested at the conference that the Indian Department would go $1000.00 in connection with the proposed new works. The total cost of these works was $3655.00, of which Mr. Spencer agreed to pay $2000.00, and if the Department paid $1000.00, the difference would be $655.00. My suggestion was that it might be worth while considering - in order to settle the difficulties between all concerned - the proposition of paying half of the $655.00 or $327.50. This would mean, of course, that the Department would pay $1327.50 and Spencer $2327.50, raising the Department's liberal offer of $1000.00 by $327.50.

I am in accord with what you say as to the merits of the case not justifying the Department paying more than $861.00 for the reasons set out in your very clear analysis of the situation, and I am not personally in favour of going beyond the $1000.00 mark. At the same time, I never like to entirely disregard a compromise if it can settle a prolonged dispute. There is no doubt that some of the works suggested in the joint report of Engineers Murray and Warren are for the absolute benefit of Spencer, and the Indian Department derives no advantage therefrom. Furthermore, I cannot withhold from you my own opinion that, in view of the past history of the contract and the negotiations preceding and succeeding it, it is questionable if any contract can be made finally binding. Mr. Spencer seems to be a difficult man to deal with, as he is, either intentionally or otherwise, confusing statements made by those in authority with statements made by us. He persists in trying to hang an argument on alleged statements made by persons associated in a minor capacity with the Water Branch and your Department, and he should know that, if they are in fact made, they are the personal opinion of those making them and carry no weight.

I am, as you suggested, repeating the offer to Mr. Griffin of paying $1000.00 as a maximum.

JNE/D

Yours truly,

Re:-Chilco Ranch - Stone Indian Reserve.

Dear Sir:-

I am sorry to inform you at a conference with Mr.Spencer, of the Chilco Ranch, last Friday at Vancouver, he complained that some of the Stone Indians had been interfering with and damaging the irrigation works; also, that they have allowed their diversion boxes from the main ditch to get out of repair and would not do anything to put them right, with the result that water was flooding the Reserve and he was not getting the amount he was entitled to under his licence, and this meant a very heavy loss to him. Mr.Spencer further stated that the Stone Indians are not now as progressive as they were some years ago on account of their drinking habits. He stated that they are continually making home brew and he could not get any assistance from either yourself or the Provincial constable of the district to keep the Indians in order.

The conference was held in order to endeavourto arrive at an understanding as to what would be a fair proportion of cost for each party to bear in connection with new works proposed by Engineers Murray and Warren, but I am sorry to say that the meeting terminated very unsatisfactorily. However, this is foreign to the matter above referred to, and in view of the serious nature of the complaints of Mr.Spencer, I beg to request that you will report at once to this Office as to how far any of the statements are correct, and if so, what action you took in the matter.

For your information I am attaching hereto a copy of a letter to Mr.Ellis written by Mr.Spencer's solicitors on the 30th August. That part referring to accounts not being paid is unimportant as these have been held in this office pending a settlement with Mr.Spencer as to what repairs this Department was entitled to share in the cost of and what ones Mr.Spencer should do at his own expense, for it was noted that some of the repairs charged for are for work on Fletcher Lake Dam in which this Department has no interest whatever, the Indians having no storage licence.

Enclosure:-

Your obedient servant,

WED/HM.

Barristers, Solicitors,

August 30, 1927.

Messrs. Ellis & Brown,
Barristers, etc.,
Rogers Building,
Vancouver, B.C.

Dear Sirs:-

Re Chilco Ranch.

We remind you that an interview has been suggested between us and Mr.Ditchburn with a view to deciding as to proceeding with the work recommended in the joint survey recently made, and that we have not heard from you as to what will be an appropriate time.

We feel that we cannot allow matters to stand indefinitely. We are advised by Mr.Spencer that he is not really getting the benefit which the agreement was intended to assure him in regard to Indians in particular, for example, they break the locks on the gates, block the ditches, and in fact do anything they like. Mr.Spencer appeals to Mr. McLeod and is ignored and the whole condition of affairs in the Indian territory is bad. The way it looks to us and the way we present it to you is that the agreement was intended as a protection to Mr.Spencer from Indian neglect and aggression and that the Department were undoubtedly intended to take over the actual duty of supervising the Indians and making them do the right thing whereas, on the contrary, the way it is being handled, you are simply throwing the Indians on Mr.Spencers' hands, which is not in accordance with the spirit of the agreement and in fact is unfair. Moreover Mr.Spencer cannot get cheques out of the Department for up-keep costs from time to time. These amounts are not large but if the agreement is to be carried out in the proper spirit the cheques should come back promptly because repair work is quite a different thing from anything else.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

WMG.

Sir:

Re - Stone-Chilco Joint Irrigation System.

COMMISSIONER'S OFFICE
OCT 12 1927
VICTORIA, B. C.

Acknowledgement is made of your letter of the 10th inst. to which you have attached copy of a letter of same date to Mr. Indian Agent MacLeod instructing him to submit accounts to Ottawa for payment in connection with material required for necessary repairs to Indian diversion boxes on above joint system. I would refer you to my letter of the 10th inst. wherein I advise you that instructions have been issued to Engineer Warren to submit certified accounts for both material and labour to Mr. Indian Agent MacLeod for payment.

It will be necessary to hire labour in connection with this work and it is altogether probable that no satisfactory labour may be obtained among the Indians at the present time. In that event Engineer Warren may have to bring labour in from outside. I trust these arrangements meet with your approval as I have no funds available for this work.

Your obedient servant,

C.E.Webb
District Chief Engineer

Dear Sirs- Re-Stone-Chilco Joint Irrigation
Project on Indian Reservation Lands.

It is understood that the Indian interests on the above mentioned irrigation system are out of order and trouble owes trouble at an early date. Mr. Smith is endeavouring [illegible] to make this necessary repairs to the Indian diversion bonus, but has no money on hand with which to pay for any material.

Engineer Hanson is being instructed to purchase any material necessary for these repairs and submit the accounts to your office in order that you may forward the same on to Ottawa for payment. You will, therefore, act accordingly.

WED/KD.

Yours truly;

D. M. Ditchburn,
Indian Commissioner for B. C.

E. Hanlock, Esq.;
Indian Agent,
Clinton, B. C.

VANCOUVER, B.C.

October 8, 1927

Sir:

Re - Stone-Chilco Joint Irrigation
System - Indian Diversion Boxes.

In compliance with your verbal request I am today instructing Engineer Warren to make necessary repairs to the Indian diversion boxes from the main irrigation ditch on the system above referred to, at as early a date as possible.

Mr. Warren will be able to do this work while he is in the Cariboo in connection with the Canim lake project.

At the moment I am not in a position to say what the cost of these repairs will be, but probably will not be a great deal. Will you kindly advise how this account is to be taken care of.

Your obedient servant,

C. E. Webb

October 10, 1927.

Dear Sir:-

Further to my letter of the 8th instant and in reply to yours of the 8th instant in which you suggested my Department should make an offer to Mr.Spencer to pay $1,300.00 as its share of the new works proposed by Engineers Warren and Murray as against the sum of $1,000.00 which was mentioned in the letter that I received from Ottawa on the 7th instant, I note you state that there is only a difference of $600.00 between what we have offered and what Mr.Spencer thinks we should pay.

I can hardly see where the figure of $600.00 comes in, for as a matter of fact the sum is a great deal larger. My suggested basis of payment of the costs was $861.00 for the Department and $2,794.00 for Mr.Spencer, the total being $3,655.00. Providing my Department would put up $1,000.00, this would increase our share by $139.00 and decrease Mr.Spencer's share proportionately, reducing the sum to $2,656.00. My recollection of Mr.Spencer's offer as made by Mr.Griffin was that the Department should put up $1,655.00 and Spencer $2,000.00.

On the merits of the question, I can not see any justification in my Department being called upon to pay any greater sum than the $861.00 as mentioned above, but as an offer of $1,000.00 has been tentatively made, I would be agreeable to let it stand at that and make a recommendation

J.N.Ellis, Esq.,

ARCHIVES PUBLIQUES
CANADA

recommendation on these lines to my Department. To go any further simply means that my Department would be expending considerable money on works to a greater extent than the rights which we enjoy in the same. To summarize in short: Mr. Spencer thinks we ought to bear half the cost of the temporary and permanent works on Big Creek; pay one-third of the cost of the back-flooding damage on the Meadows (which the joint report states clearly are used by Mr.Spencer); and the whole of the cost of the repairs to Fletcher Lake Dam.

Where is the justification for such a claim, keeping in view the Agreement of 1923? As stated in my letter of the 8th, sight must not be lost of the fact that the class of works which Mr.Spencer wants to-day, and recommended by the joint report of Engineers Warren and Murray, is of a far greater dimension than the old system which was used by Mr.Spencer's predecessors. Mr.Spencer, however, apparently desired, and is, ranching on a much larger scale, and requires to bring to his holdings more water from Big Creek under a new licence than had previously been the case under Licence No.830. To accomplish this, all that he considered was necessary would be to increase the size of the intake at Big Creek and enlarge the ditch from Big Creek to Fletcher Lake. As the Indians also needed water from Big Creek in addition to what they obtained from Manton Creek, verbal arrangements were made for the joint enlargement of these works at an estimated cost of $1,250.00, and Mr. Spencer refused to contribute any more than $750.00 towards the cost of the same, notwithstanding the fact that he was to get twice as much water from Big Creek as were the Indians. The Department of Indian Affairs was to spend $500.00.

Indian Affairs

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

You have a statement showing what the works actually cost, but Mr.Spencer has never paid anything more than the $750.00 provided for in the Agreement. It is quite evident that the Agreement suits him in that particular instance, but not that part of the same which specifies what works were to be constructed, and were eventually constructed, to the satisfaction of the District Provincial Water Engineer, who furnished his certificate to this effect.

This undertaking, to my mind, ended there, except for the matter of up-keep of the system, the expense for which should be borne by both parties in proportion to their respective rights. Any new works or changes from the old works, such as recommended by Engineers Warren and Murray, must be considered on the same basis, and as you are already aware my Department is agreeable to such an understanding. It would prefer, however, that Mr.Spencer should be responsible for the carrying out of the new works or changes, but as you know, he refused to consider such a proposal.

I am very much inclined to the opinion that if the land known as the Stone Indian Reserve were owned by a private citizen, a settlement in connection with the works would be made on the lines which I have suggested, but because the Government of Canada, as represented by the Superintendent General of Indian Affairs, is a party to the undertaking and the Agreement in connection therewith, I have an idea that advantage is desired to be taken of this fact and an endeavour made to force my Department to pay a greater proportion of the costs than it is legally, morally, or in any other way entitled to do.

<u>It is</u>

Indian Affairs

ARCHIVES PUBLIQUES
CANADA

It is my desire to deal perfectly fair with Mr.Spencer, and as the legal representative of my Department on water matters, I know you will fully realize the position I would place myself in were I to recommend the payment of a greater sum for our share in the proposed works than I considered my Department should be called upon to pay.

In conclusion I beg to say that still I am of the opinion that my Department's proposal to pay $1,000.00 should be put up to Mr.Griffin by yourself for his acceptance or refusal in writing. If he refuses, a written reason for such should be given. It then might be possible to have the points of difference settled by an independent arbitrator, preferably the Comptroller of Water Rights, for after all, it is merely a matter of determining the respective obligations of each party as based on the Agreement of 1923.

COMMISSIONER'S OFFICE
OCT 10 1927
VICTORIA, B. C.

Dear Sir:-

Since the meeting last evening, I have been thinking the matter over, and it has occurred to me that it might be worth while to take into consideration the question of offering to split the difference in the matter of the six hundred odd Dollars. In other words, if you are prepared to recommend to your Department the payment of roughly Sixteen Hundred Dollars towards the works suggested, it might be well to offer to assume one half of the difference.

Prolonged discussion and the subsequent litigation that ensues would cost much more, and that is my reason for suggesting this. It may be, however, that you are not disposed to recommend anything further than $1,000.00, but I thought I would bring this to your attention.

Yours faithfully,

October 8, 1927.

Dear Sir:-

Relative to the conference held in your office yesterday between Mr.Cosmos Spencer, of the Chilco Ranch, and his solicitor Martin Griffin, Esq., representing the Chilco Ranch, and yourself, C.H.Webb, Esq., District Chief Engineer of the Dominion Water Power Branch, and myself as representing the Department of Indian Affairs, to consider the merits of the recommendations of Engineer C.W.Murray, representing Mr.Spencer, and Engineer W.C.Warren, of the Dominion Water Power Branch, as to what further works should be done to put the Chilco Ranch - Stone Irrigation System in a more satisfactory condition to meet the views of Mr. Spencer, I have to say that while the conference did not terminate very satisfactorily, there was nothing put down in writing, and it is felt that this should be done in order that the matter may be properly on record.

I desire, however, in the first place to point out, as stated yesterday, that the works proposed by the Engineers abovementioned in their report of the 22nd March last was a much larger scheme than the works mentioned in the Agreement between Mr. Spencer and my Department dated 27th October, 1923, Section 3 of which reads as hereunder:-

"The enlargement and improvement of the ditches "and works heretofore constructed for the convey- "ance of the water under Record Number 530 shall "be proceeded with by the parties hereto. In "general the work to be done is at the following places.-

J.N.Ellis, Esq.,
C/o. Ellis & Brown,
Barristers, Solicitors, Etc.,
403-406 Rogers Bldg.,
Vancouver, B.C.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"places,-

"(a) Commencing at a point on Big Creek "tentatively designated "F" on Water "Rights Map No.4572 and extending for "a distance of approximately 4500 feet "along the ditch to the point of natural "drainage into Menton Creek.

"(b) From a point on Menton Creek officially "designated "A" on Water Rights Map "No.4572 and extending for a distance of "approximately four and a quarter miles "along said ditch across the said Reserve "to the Chilco Ranch."

Recommendations of Engineers Warren and Murray provided for the following:-

"1. (a) That the artificial control at Big "creek be strengthened for the present season, "the wing dam be removed and a boom substituted "at a cost of approximately $60.00.

"(b) That a permanent control and intake "as designed be constructed, if feasible in 1927, "approximate cost $1,300.00

"2. That Menton creek be enlarged to pass "maximum requirements and permanent gates of "adequate size be installed at a cost of $1,750.00 "in preference to the development of storage below "Hutch meadows.

"3. That Menton creek below Hutch meadows be "cleaned out at various points at a cost of $200.00.

"4. That cut-off ditch to Abrams lake be en- "larged at a cost of $150.00.

"5. Repairs to Fletcher Lake Dam at a cost of "$195.00.

" The total cost of all works suggested, "exclusive of Fosberry's claim, is $3655.00."

After reviewing this report this Department was quite agreeable to paying its proportion of cost of having the works undertaken and to pay its proportion of cost in connection with any of the items which could properly be considered as coming within the agreement of 1923, but it

was

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

was found that there were contained in the list some items in which the Indians had no rights whatever, and Mr. Spencer was to be the one solely benefited thereby. For instance, Item 2 deals with (a) the enlargement of Nenton Creek to Hutch Meadows, the cost of which was estimated to be $865.00, and (b) replacement of three hold-up gates, costing $885.00, or a total of $1,750.00. As these gates are for the purpose of back-flooding Mr.Spencer's meadows, this Department should not be expected to pay any of the proportion of the cost whatever.

Then again there is the matter of repairs to Fletcher Lake Dam, the estimated cost of which is put down at $198.00. As the Indian Department has no licence to store water in this Lake, and the dam is the sole property of Mr.Spencer, it is properly considered that my Department should not be called upon to keep this dam in a state of repair. While it is true that Mr.Swan, former District Chief Engineer of the Dominion Water Power Branch, in 1924 authorized some repairs to be made on this dam without cost to Mr.Spencer, this was done in view of the fact that the old dam was found to be in a leaky and faulty condition. At the same time it was fully recognized by Mr.Swan that on the merits of the 1923 Agreement, there was no legal or moral responsibility on the part of this Department to do any work on the dams. To use Mr.Swan's own words to me last Spring while in the East, he merely authorized the work to be done as his men were on the ground at the time, and in an endeavour to satisfy Mr.Spencer. Taking into consideration the respective rights of the Indians and Mr.Spencer in the irrigation system, it was decided by my Department that a

fair

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

proportion of the cost of the proposed works mentioned in the Engineers' Joint Report should be as follows:-

Estimated Cost.

		Indian Dept.	Spencer
1. Cost of construction proposed control works at Big creek and removal of crib, placing boom and strengthening of control.	$60 + 1300 = $1360.	$453.00	$907.00
2. Enlargement of Menton creek through Hutch meadows and replacement of holdup gates.	$865 + 885 = $1750.	288.00	577.00
		(Holdup Gates)	885.00
3. Cleaning out Menton creek below Hutch meadows.	$200.00	70.00	130.00
4. Cuteff ditch to Abrams lake	$150.00	50.00	100.00
5. Fletcher lake dam repairs	$195.00	- -	195.00
		$861.00	$2794.00
Total	$3655.00	$3655.00	

On the 5th August I received a letter from my Department in which it was stated that an offer be made to Mr.Spencer to undertake the carrying out of the proposed works and accept as payment the sum of $1,000.00 as the Department's share of the cost of the same. This offer was to be subject to my recommendation and the approval of the Deputy Superintendent General. This proposal, however, was flatly refused by Mr.Spencer, but nevertheless I think that the matter should again be put up to him in writing by yourself. A copy of the letter above referred to is attached hereto for your information, and I would respectfully request that you officially submit the same to Martin Griffin, representing Mr.Spencer, in order that his written reply may be given.

Sir: Re - Stone-Chilco Joint Irrigation System

Enclosed for your information is copy of a letter received from Engineer Archibald under date of the 21st inst. wherein he reports that one of the Indian diversion boxes from the main irrigation ditch requires repair. With your approval and authority I shall be pleased to have the necessary repairs carried out this fall, the expense of which should be nominal.

You will note that Mr. Archibald also intimates that the Fletcher lake dam is leaking through a hole which he presumes to have been caused by musk rats.

Attached also for your information is copy of discharge measurements taken on August 16th of Big creek above the Stone-Chilco diversion ditch and Menton creek at intake of Stone-Chilco ditch.

File No. 27984-7

Sir: Re - Stone-Chilco Joint Irrigation System

Enclosed are current meter notes of Big creek and Menton creek. Big creek intake and Fletcher lake outlet gates were closed on Aug. 16th.

For your information I wish to say that leakage at Fletcher lake dam has increased. In addition to leakage along the sides of the outlet culvert, a new leak has developed about 20 feet to the east, where there is a hole (presumably the work of musk rats) through the dam, permitting a discharge of about ¼ c.f.s.

With Mr. Spencer, I inspected one of the boxes on the main ditch where water is diverted to the Stone I.R. The construction of the lox was found to be sound though I think it should be longer with wing walls set well into the ditch banks and a deeper apron in the bed of the ditch.

At present, however, it is not functioning as a hole has been washed out at the upper end of the box and all the present flow in the ditch escaping through it.

Mr. Spencer stated his intention of calling on you shortly in Vancouver and asked me to inform you of the condition of the ditch box referred to above.

Your obedient servant,

(sgd) F. R. Archibald.

Re--Chilco Ranch.

Dear Mr.Ellis,-

I beg to acknowledge receipt of your letter of the 31st ultimo and also that of the 13th instant with regard to the above quoted subject and your suggestion that it would be advisable to have an interview with Mr.Griffin at an early date.

In reply I beg to say that I hope in a short time to be able to go to Vancouver for the purpose of endeavouring to come to a final settlement with Mr.Spencer's representative in regard to this troublesome question. I agree with you that the best thing to do would be to have an interview and that a date should be set for the same to take place shortly after the beginning of October, as I do not see that I can get away before that date.

I feel that any discussion we may have should be based on the agreement of 1924 between my Department and Mr. Spencer and consideration given to each parties respective rights to water and the works. It would be advisable that a day before this meeting, or possibly in the morning of the same day, a preliminary discussion should be held between yourself, Mr. Webb and myself in order that we may go into the merits of Mr.Spencer's claims and give consideration to the joint report of Engineers Warren and Murray in order that a determination may be arrived at as to how far each party to the agreement should be committed to carrying out the proposed suggestions in the report. We then would be in a position to inform Mr.Griffin just how far this Department is prepared to go and no further.

With regard to some small accounts which Mr. Spencer submitted and so far have not been paid by this Department, I may say that they were mostly in connection with the work on the Fletcher Lake dam in which this Department had no interest whatever. Mr.Spencer had his own engineer, Mr.Murray, do considerable work on it last year, and apparently it has been found to be faulty necessitating some repairs, and Mr.Spencer expects my Department to pay its share of the cost of this. On the other hand, an account was submitted to Mr.Spencer some time ago by myself asking him to pay one-half the cost of getting up the joint report, but he has not so far done this.

I feel that we will not get very far in our arguments if Mr.Spencer is present at the meeting which we have with Mr.Griffin, as my experience has led me to believe that he would not agree permanently to anything. I suppose

suppose, however, that if Mr.Spencer wishes to be present, we could not prevent him, but as Mr.Griffin is his legal representative, he should be in a position to know just what our legal rights are and make recommendations to Mr.Spencer that he should agree to whatever decisions will be arrived at.

Your obedient servant,

W.M.Ditchburn.

Dear Sirs:-

re Chilco Ranch

We remind you that an interview has been suggested between us and Mr. Ditchburn with a view to deciding as to proceeding with the work recommended in the joint survey recently made, and that we have not heard from you as to what will be an appropriate time.

We feel that we cannot allow matters to stand indefinitely. We are advised by Mr.Spencer that he is not really getting the benefit which the agreement was intended to assure him in regard to Indians in particular, for example, they break the locks on the gates, block the ditches, and in fact do anything they like. Mr. Spencer appeals to Mr. McLeod and is ignored and the whole condition of affairs in the Indian territory is bad. The way it looks to us and the way we present it to you is that the agreement was intended as a protection to Mr.Spencer from Indian neglect and aggression and that the Department were undoubtedly intended to take over the actual duty of supervising the Indians and making them do the right thing whereas, on the contrary, the way it is being handled, you are simply throwing the Indians on Mr.Spencers' hands, which is not in accordance with the spirit of the agreement and in fact is unfair. Moreover Mr. Spencer cannot get cheques out of the Department for up-keep costs from time to time. These amounts are not large but if the agreement is to be carried out in the proper spirit the cheques should come back promptly because repair work is quite a different thing from anything else.

Yours truly,
GRIFFIN, MONTGOMERY & SMITH,

Dear Sir:-

I beg to acknowledge receipt of your letter of the 27th instant with accompanying letter from Messrs. Griffin, Montgomery & Smith, with further reference to the Chilco Ranch-Stone Indian Reserve Irrigation System.

It is noted that Mr. Spencer is prepared to go to Vancouver and confer with you on receipt of a telegram, but that unless this Department can meet Mr. Spencer with a bona fide desire to settle the matter, his solicitors will have no other course than to bring action against the Government.

In reply I beg to say there has always been a disposition to have the troublesome question in connection with the irrigation system above referred to settled in a fair and equitable manner by this Department and it is still proposed to adopt the same attitude. If Mr. Spencer will come to Vancouver during the first or second week of October, a full discussion can take place with regard to his claims and it is hoped that a satisfactory solution will be arrived at.

It is desirable that Mr. Griffin should inform you as soon as possible just what date would be most suitable for this conference in order that I may make arrangements to be on hand.

WED/ED.

Dear Sirs:-

re Chilco Ranch Water Works

We have just received a further letter from our client in connection with the water system. He repeats the difficulties which he has been experiencing and which we have mentioned to you in previous correspondence.

It would appear to our client that the attitude of the Indian Department is that, having got rights to the water they will absolutely do nothing but are leaving our client to fend for himself and to look after the Indians.

Our client asks us to point out to you that if the works are not put in shape this year he will be a heavy loser next year and that as the time is short work must be started within a very few days or it cannot be done this Autumn before the snow comes. For example (although this is only one item), we wrote you that the Indians out-let boxes were out of repair and we are now advised that if they are not attended to at once Mr. Spencer will not be able to run water in the ditch next Spring.

Mr. Spencer is prepared to come to Vancouver and confer with you on receipt of a telegram but we are now instructed to say that unless the Department can meet us with a bona fide desire to settle the matter between us we will have no course but to bring action against the Government.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

Dear Mr. Webb:- Re-Stone L.R.--Chilco Reach.

When in Vancouver at the latter end of July I saw in Mr. Ellis' office a bound copy of your report to your Department with regard to the proportion of cost which should be borne by my Department in connection with suggested improvements to the irrigation system reported on by Engineers Murray and Vernon. In speaking to you on this matter you informed me that you had forwarded a copy of the said report to this office and I stated I had never seen it. I have now made a diligent search among the files and find that this was not received. The last report on this subject was dated 22nd of March, 1927, which is a joint one of Engineers Murray and Vernon. I would, therefore, be obliged to you if you would kindly let me have a copy of the report referred to.

WED/KD.

Yours truly,

W. E. Ditchburn.

June 27th, 1927.

Sir,

I have the honour to report that while visiting the Stone Indian Band recently the matter of their domestic water supply was investigated and I found that they now use water from irrigation ditches in the summer and from a spring about three-eighths (3/8) of a mile away from the village in the winter time.

I have made a careful examination of the spring mentioned, both on former occasions as well as at the present date, and from Indian information I learn that this spring runs well the year round. Each time I examined it I found that the spring runs at a rate of about a half second foot (½S.F.) and the water appears to be of excellent quality. The spring is on a side hill on an elevation considerably higher than the village and could be piped on a straight line to the village. It rises on the Stone I.R.No.1. It is not recorded but it could be recorded by the owner of the Chilco Ranch property which adjoins the said reserve. I would recommend that the District Engineer of the Dominion Water Power Branch be advised to instruct one of his field engineers now working in the Chilcotin, to make a report on this water and prepare the necessary steps to obtain a record on the spring for domestic purposes for the Stone Indian Band. The spring lies to the west of the village and now flows into the joint irrigation system of the Stone Band-Chilco Ranch.

I have the honour to be,
Sir,
Your obedient servant,

(E. MacLeod)

Re--Cosens Spencer.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 25th instant having reference to the desire of Mr.Martin Griffin for a conference with yourself and myself dealing with the matter of a joint report made by Engineers Murray and Warren on the Chilco Ranch-- Stone Indian Reserve Irrigation System.

In reply I beg to say that this joint report was perused very carefully by myself while I was in Ottawa, and an opinion was given as to what proportion of the cost should be borne by this Department. Mr. Webb, when submitting the report to Ottawa, did not give his opinion as to how far this Department should be committed in the matter and he was asked for his opinion.

Since my return to Victoria, Mr. Webb and I have discussed this matter very fully, and he is now preparing, I believe, a memorandum on the subject. I think this will be completed very shortly and the understanding between us was that it would be beneficial to both this Department and Mr.Spencer that a conference should take place to discuss the merits of the joint report, which I will be pleased to attend as soon as Mr.Webb is ready. It might be advisable, therefore, to get in touch with him on this point.

Your obedient servant,

W.H.Ditchburn.

Sir: Re - Stone-Chilco Irrigation System.

A short time ago I unstructed Mr.Archibald, to make an investigation into the flow in the Menton creek drainage itself. As has already been explained to you, this is a rather difficult matter in view of the fact that water is stored in Fletcher lake and allowed to pass by the Fletcher lake outlet down the natural drainage.

For your information I am enclosing copy of a letter from Mr.Archibald, dated May 30,1927, dealing with his visit to the above system to which is attached copy of a meter measurement taken at the outlet of Fletcher lake which showed a discharge of 14.2 second-feet, and a meter measurement of Menton creek intake showing a discharge of 18.2, which by subtraction shows a discharge in the Menton creek drainage itself of 4 second-feet.

This, however, may be somewhat in excess of the Menton creek flow due to the large volume of stored water passing down the stream.

There is also attached copy of meter measurement of May 29th of Big creek, taken 100 yards above Big creek intake, with discharge of 313 sec-ft in Big creek, which clearly indicates that there was ample flow at that time to satisfy all records in Big creek.

In view of the fact that there is ample water flowing at the present time I can see no reason why the Indians should not have all the water they require for irrigation purposes.

Enc.

Yours truly,

C.E.Webb
District Chief Engineer

W.E.Ditchburn, Esq.,

150 Mile House, B.C.,
30th May, 1927.

Re - Stone-Chilko Joint Irrigation System.

Sir:-

Owing to the fact that there is only a weekly mail service into the Chilcotin, your letter of May 13th was not received till the completion of the Chilko automatic gauge installation.

The information you requested was obtained on May 28th and 29th, and judging from the climatic and seasonal conditions at Fletcher Lake and Big Creek, is the same as would have been obtained two or three weeks previous. Stream measurements were obtained at Fletcher Lake outlet and above Menton Creek intake and are enclosed herewith.

To ascertain the runoff from Menton Creek watershed, even with Fletcher Lake dam enclosed, is a very difficult thing. Menton Creek proper receives the drainage from Hutch Meadows and the country surrounding them, and also from two streams, the north and south forks of Menton Creek.

The only unobstructed supply to Menton Creek is that which is conveyed by the north fork which enters the main channel some miles below the Hutch Meadows. The south fork which empties into the middle Hutch Meadow, is dammed some distance above, to flood hayland known as Kincaid Meadows; and at the lower end of each of the Hutch Meadows is a back-flooding dam which holds back the spring freshet runoff.

Thus unless Fletcher Lake dam is closed, and the back-flooding dams are opened, it is practically impossible to obtain the actual Menton Creek drainage flow.

I am advised by Mr. Spencer and his foreman, that Fletcher Lake dam was opened to its present aperture on May 6th. One gate at Big Creek was partly opened on May 9th, and the second on May 16th.

No data could be obtained as to the time of unobstructed flow of water from Fletcher Lake to the Stone I.R. Mr. Drake, Mr. Spencer's foreman, stated that after the Fletcher Lake dam was opened, it took about 9 days for the water to reach Chilko ranch. This however included the time required to flood Hutch Meadows, as the back-flooding dams were closed.

The flow in Big Creek above the intake works is extremely low for this time of year. This is evidenced by the fact that I was able to take a wading measurement of the stream about 100 yards above the intake. As requested a gauge was installed at this metering section and a bench mark set. Meter Measurement and level notes are enclosed herewith.

Indian Affairs

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. Spencer as usual was very excited over the condition of the several units of the joint irrigation system, condemning them all without exception. One statement made by his foreman, Mr. Drake, may be of interest and value, and may possibly explain in part the alleged flooding of Mr. Church's meadow by water flowing in the irrigation ditch.

Mr. Drake stated that when the flooding complaint was first made, he immediately investigated conditions at Big Creek intake. Everything there was under ice cover but he chopped a number of holes through the snow and ice in the ditch below the intake. At a point 10 yards below the gates the ditch was absolutely dry showing that there was no leakage through the gates. At a point however 21 yards below the intake he found a little running water. He stated that on further investigation in this locality, he found that an ice jam had formed in Big Creek backing the water up so high that there was seepage through the outer wall of the ditch.

At the time of my visit I inspected the whole of the diverwion ditch from Big Creek to Church's meadow. At a few points rocks and gravel had slid into the ditch causing a construction of the channel, but with these few exceptions the ditch appeared to be in excellent condition and carrying only about half its capacity.

The Indians of the Stone I.R. complain that Mr. Spencer has locked their diversion boxes and that they are not getting sufficient water for irrigation. I do not remember offhand the capacity of the system below Menton Creek intake, but at the present time it is carrying only 18 c.f.s. and very much more is available in Big Creek. Were it not for the fact that there have been numerous rains this spring I have no doubt but that the Indians would employ drastic measures to obtain more water through their diversions.

Your obedient servant,

(Sgd) F.R. Archibald
Assistant Engineer.

Dear Sir:-

Replying to your letters dated May 2nd with reference to the Stone I.R.-Chilco Ranch Joint Irrigation System and Nemette Lake, Guichon Creek, Lower Nicola I.R.No.1, I beg to advise that a letter was received from Mr.Ditchburn this morning in which he states that he does not expect to reach Victoria until about the 15th of this month. He is returning via Prince Rupert and if he reaches Vancouver on a day other than Saturday, it is his intention to stop over in Vancouver to discuss various water matters with you.

Your obedient servant,

HM. Stenographer.

Sir:

Re - Stone I.R.-Chilco Ranch
Joint Irrigation System.

Enclosed for your information are copies of the following telegrams:

Apr.29 - Mr.C.Spencer to the undersigned.
Apr.30 - Undersigned's reply to Mr.Spencer.
Apr.30 - Telegram to undersigned from Mr.Spencer.
May 2 - Reply to Mr.Spencer.

From a perusal of the attached telegrams you will note that Mr.Spencer is requesting that Engineer Warren be sent immediately to the Chilcotin to examine the existing conditions.

As this service has no authority to send an engineer to make this investigation without the authority of your department, I should be very pleased to hear from you immediately as to what you would like done in the matter.

You will note that I have requested Mr. Spencer to address any further communications in this regard to yourself as any work we do or expenditures made must, of necessity, be authorised from your department.

If an inspection is to be made it should be carried out immediately. I would, therefore, ask you to kindly give the matter your immediate attention.

Enc.

Yours truly,

C.E.Webb
District Chief Engineer

ALL MESSAGES ARE SUBJECT TO THE FOLLOWING CONDITIONS, WHICH HAVE BEEN APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA, UNDER ORDER 162, DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and the Company with which the message is filed that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of, any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cipher, or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the said Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the said Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the said Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

The said Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The said Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the said Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. The said Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the said Company shall vary the foregoing.

CLASSES OF SERVICE

TELEGRAMS

A full-rate expedited service.

NIGHT MESSAGES

Accepted up to midnight at reduced rates, to be sent during the night and delivered on the morning of the next day after their date at places where the Company's offices are open on Sundays, and on the morning of the next ensuing business day at places where the Company's offices are not open on Sundays.

DAY LETTERS

A deferred day service at rates lower than the standard telegram rates as follows: One and one-half times the ten-word day message rate for the transmission of 50 words or less, and one-fifth of the initial rate for such 50 words for each additional 10 words or less. The minimum charge for transmission over the Company's lines of any Day Letter will be 45 cents.

Day Letters shall be written in plain English, or may be written in French between offices in Canada. Code language is not permitted.

Day Letters may be forwarded by the Company as a deferred service, and the transmission and delivery of such Day Letters are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

Day Letters may be delivered by the Company by telephoning the same to the addressee and such deliveries shall be a complete discharge of the obligation of the Company to deliver.

Day Letters are received subject to the express understanding and agreement that the Company does not undertake that a Day Letter shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such Day Letter on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above.

NIGHT LETTERS

Accepted up to midnight for delivery on the morning of the next day after their date at places where the Company's offices are open on Sundays, and on the morning of the next ensuing business day at places where the Company's offices are not open on Sundays, at rates still lower than its standard night message rates as follows: The standard day rate for 10 words for the transmission of 50 words or less and one-fifth of the initial rate for such 50 words for each additional 10 words or less. The minimum charge for transmission over the Company's lines of any Night Letter will be 30 cents.

Night Letters shall be written in plain English, or may be written in French between offices in Canada. Code language is not permitted.

Night Letters may, at the option of the Company, be mailed at destination to the addressees, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such Night Letters at destination, postage prepaid.

Dear Sir:-

In connection with the getting up of the joint report of Engineer W.G.Warren, representing the Dominion Water Power Branch, and Mr. Murray, representing the Chilco Ranch, Mr. Webb, the District Chief Engineer, has informed me that an expenditure of $62.75 was created in the preparing of the necessary plans and blue prints which are included in the Report.

Copies of the accounts in this connection are attached hereto for your information.

It is felt that you should bear one-half the cost of these expenditures, and I, therefore, beg to request that you will issue a cheque made out to the Department of Indian Affairs for $31.37, and forward the same to this Office in order that the amount may be credited against the total cost of compilation of the Report.

Your obedient servant,

Enclosures-

VANCOUVER, B.C.
May 7, 1927.

Sir:-

Enclosed herewith are accounts amounting to $62.75 covering expenses incurred in connection with the preparation of the joint report on Stone-Chilco joint irrigation system.

In my opinion Mr. Spencer should bear one half of this expense and if you concur with this opinion I would be obliged if you would write Mr. Spencer asking him to forward his cheque for $31.37.

Enclos.

A suggested draft letter is enclosed for your approval.

When Mr. Spencer forwards his cheque to you I would be obliged if you would sent it to this office as the accounts enclosed have been charged to the Department of Indian Affairs through our books, and in remitting the amount to that Department distinct reference can be made to the original charges.

Yours truly,

C.E.Webb.
District Chief Engineer.

There are enclosed herewith accounts as follows:

Brown & Company, photographers,	$10.25
Dominion Blue Print Company,	52.50
	$62.75

These expenses were incurred in connection with the preparation of the joint report on Stone-Chilco joint irrigation system by your Mr. Murray and Mr. Warren of the Dominion Water Power and Reclamation Service, Vancouver.

It is presumed to be your wish to share with the Department of Indian Affairs the expense of preparing the above report and I would, therefore, be obliged if you would remit your cheque for one half the above amount, namely $31.37, at your early convenience.

Please make your cheque payable to the Department of Indian Affairs.

March 30th, 1927.

Dear Sir, Stone - Band

I beg to enclose a copy of a letter to hand re head works at Big Creek of Spencer-Indian Department joint irrigation system, from Mr.C.Bambrick of Big Creek.

I would suggest that this matter be investigated by an engineer from the Dominion Water Power and Reclamation Service before anything is done. I am writing Mr. Bambrick that the matter is being investigated and will take some little time before anything can be done. He wrote to me before as stated and I replied at the time asking for a statement of claim; this letter is the next I hear from him. It would appear that they are all after their "pound of flesh" in so far as this system is concerned and it is more than likely, although Mr. Bambrick's claim is about the last, that it is at least as justifiable.

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

Big Creek,
March 23rd, 1927.

Mr. MacLeod,
Indian Agent.

Dear Sir,

Last year I wrote you about a ditch and other works on my land, owned by Mr.Spencer and the Indian Department, for which I have never been paid.

In your reply you asked me to state what I thought it was worth.

But there was an election on just at that time and things were very unsettled, I concluded to wait until things got more settled before presenting my claim; that is why you did not hear from me sooner. Now that the Liberal Government have been returned to power and as I am one of their strong supporters, I am again presenting my claim.

As I said before this is a large deep ditch and stock are not able to jump it and I have lost several sheep and lambs in trying to do so, although I made a bridge fro them to cross on. Sometimes people coming to the head of the ditch do not shut the gate and any stock in the pasture get out and wander causing me considerable trouble finding them, besides never knowing when the same thing will occur again.

In view of all these things which I have to put up with just on account of that ditch being there in my way, I think the sum of three hundred ($300.00) dollars is a resonable estimate of the damage and inconvenience to me and hope you will agree with me. It has decreased the value of that pasture (which includes both sides of the creek) about fifty per cent to me and this pasture is the best I have. Hoping to get a cheque from the Department in the near future, I remain,

C.Bambrick

CHILCO RANCH

Hanceville P.O. CHILCOTIN, B.C.
April 2nd, 1927.

Messrs. Ellis & Brown,
Solicitors,
403-407 Rogers Buildings,
Vancouver, B. C.

Dear Sir:-

Yours favor of the 26th inst. received. - I had the ditch inspected, Feb: 12th & 13th, also Feb: 22nd. There was water in the ditch, which commenced about 25 yards from the Intake; none of the water comes from Big Creek, or through the gates, but from Springs and the usual thaws that take place through the Winter on Mr. Church's own property.

Your remarks about the first complaint, are in error, no work has been done since, and the position is exactly the same, but in the former case the Indian Department gave Mr. Church compensation without consulting me or finding out the real facts. This caused me two law actions and although I won both cases against Mr. Church, they cost me over one thousand dollars. I am only referring to this, so you will have some idea what my associations with the Indian Department have cost me so far, and at the present time can assure you the water system today is far inferior to what it was before any work was done on the system by the Indian Department.

I shall be glad to give you information at any time and can assure you we take every precaution to protect and look after the system although the Indian Department wrote me recently, that they do not intend to pay their share of up-keep as arranged in the agreement.

With kind regards,

Yours cordially,

C. SPencer

P.S.
Mr. Griffin - could give you all particulars about the "Church" cases - which I think would be of interest to you in dealing with him.

Sir: Re - Stone I.R.-Chilco Ranch Joint Irrigation System.

I am enclosing for your information copy of a letter dated May 12th from the Comptroller of Water Rights, to which is attached copy of a memorandum from Mr.Varcoe, District Engineer, Provincial Water Rights Branch, dated Kamloops, B.C., September 16, 1926.

This memorandum of Mr.Varoce's is a certificate made as a result of his examination in July, 1926, of the joint irrigation works above referred to.

You will note that Mr.Varcoe certifies that the works are of sufficient capacity to carry the water under the respective licences; that the headgates on the Big creek ditch; that the headgates and diversion dam on Menton creek; that the gates on the main ditches leading to the Indian laterals are all satisfactory to him as District Engineer appointed under the Water Act of B.C.

I will make it a point upon my next visit to Victoria to peruse memorandum from Mr. Varcoe referred to in the Comptroller's letter on the same subject.

Dear Sir:

In reply to your letter of the 7th inst., which has awaited my return to the City, I beg to enclose herewith copy of our Mr.Varcoe's certificate made as a result of his examination of the joint irrigation works constructed at the Stone Indian Reserve and Chilco Ranch.

I note your reference to a report by Mr. Varcoe on this, and would add that the Certificate enclosed is, in reality, his report. This was submitted to the Department under cover of quite a lengthy memorandum, which was a Departmental report, and is, therefore, not available for distribution. I would be glad to give you an opportunity to peruse this memorandum when next you are in the office, but you will, I am sure, readily understand that we could not officially furnish copies of it.

Yours very truly,

Re Stone Indian Reserve--
Chilco Ranch Joint Irrigation Scheme.

Memorandum: Comptroller of Water Rights.

A further examination of the works constructed in pursuance of an agreement between, His Majesty as represented by the Supt.General of Indian Affairs and Cosens Spencer, was made on the 13th of July last.

Paragraph 7 of the agreement provides that the work be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia, and of the party of the Second part (Cosens Spencer).

I HEREBY CERTIFY that the works are of sufficient capacity to carry the water under the respective licences; that the headgates on the Big Creek ditch; that the headgates and diversion dam on Menton Creek; that the gates on the main ditches leading to the Indian laterals are all satisfactory to me as District Engineer appointed under the Water Act of B.C.

CONDITIONAL WATER LICENCE.

(For an irrigation Purpose.)

WHEREAS the Board of Investigation, constituted and acting under the "Water Act," duly held an investigation respecting the water set out in the order No. 7984, duplicate of which is hereto attached, and in the said order directed the Comptroller of Water Rights to issue a Conditional licence in respect of the particular record and claim respectively set out therein, and further therein named the terms and conditions to be embodied in the said licence:

NOW, THEREFORE, I, Comptroller of Water Rights of the Province of British Columbia, in pursuance of the said order and in conformity with the "Water Act," issue this Conditional licence, and declare the rights in and to the use of the said waters held under the said record in respect of the said claim to be such as are set out in the said order; and the terms and conditions of the said order and any exhibits which are therewith incorporated are hereby incorporated herewith and form a part hereof. This licence is appurtenant to Lots 375A, 1185, 985 and 2237, Group 1, Lillooet District.

Made and entered this 2nd day of April, 1924.

DETERMINATION AND ORDER

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Rights and Claims to the Waters of certain Streams lying in .....Lillooet.....Water District, in the Neighbourhood of.....Chilcotin....., B.C.

NOW, on this .....11th.....day of.....February....., 19.24., the above-entitled matter coming on regularly for final hearing before the Board of Investigation; notice of the intention to investigate all and every the said rights and claims having been given by the Board as required by the "Water Act, 1914"; all persons having claims to water on the said streams or in the said locality having been directed to file their claims with the Board; due notice having been given of the times and places of preliminary and final hearings respectively in the above-entitled matter; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at this hearing; and the Board being now fully advised in the premises, determines with respect to the claim..... of Cosana Spencer for a re-issuance by virtue of Section 43 of the "Water Act,1914," of Water Licence No.530, issued at Clinton, B.C., and now surrendered by the said claimant for cancellation. the said claim..... being on file and numbered.....3276.....:—

1. THAT the said Water Licence No.530 was imperfectly issued in that it does not establish definitely the point at which the water may be diverted from the stream nor the courses of the ditches and flumes by which it may be carried to the land to be irrigated, nor does it permit the diversion of water from Big Creek during the irrigation season.

2. The Comptroller of Water Rights is hereby directed to issue a Conditional Licence, embodying the following terms and conditions, in substitution of the said Water Licence No.530, and thereupon to cancel the said Water Licence:-

(a) The source of the water-supply is Big Creek, a tributary of Chilcotin River.

(b) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria.

(c) The date from which the said licence shall take precedence is 29th December, 1911.

(d) The purpose for which the water is to be used is irrigation.

(e) The maximum quantity of water which may be used at the place of use when all the lands mentioned in item (g) hereof are under irrigation is, until lawfully altered, 3,360 acre feet per annum; and the maximum quantity which may be used per acre at the said place of use in any year is 3 acre feet: Provided that if any records have been issued, or if any other licences have been or may hereafter be issued, for the use of water upon the said lands, the maximum quantity allowed under this licence shall be reduced by such quantities as may from time to time be used upon the said lands under such other records or licences.

Form 571, W.R.B.—2,000-3-16.

And provided further that in such cases the Comptroller may, after the requisite hydrographic data has been accumulated for determining the particular quantity of water which may be used under this licence, require the surrender thereof for the purpose of readjustment, and may amend the same by stating therein such particular quantity so determined. The maximum quantity which may be diverted from the stream per annum is 3 acre-feet per acre of land irrigated and an additional amount for reasonable seepage and evaporation.
And provided further that there may be used in addition 5000 gallons of water per day throughout the whole year for domestic purpose as being incidental to the irrigation purpose.

(*f.*) The period of the year during which the water may be used is 1st April to 30th September.

(*g.*) The area and description of the irrigable lands to which this right may extend on completion of the works and beneficial use of the water in the way of the irrigation of the said lands are an undefined 1115 acres, comprising parts of Lots 395A, 985, 1185 and 2237, Group 1, Lillooet District.

The extent and location of the said irrigable lands are further shown in the said exhibit "A."

(*h.*) A concise description of that part of the works which are completed (if any) is given in the said exhibit "A."

(*i.*) The other terms and conditions respecting the right herein determined are:—

(1.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached and hereby made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(2.) The said construction shall ~~be commenced or resumed on or before the~~ has been commenced. ~~day of , 19~~

(3.) The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller, and shall be completed on or before the 30th day of September, 19 27

(4.) The lands described in clause (*g*) hereof shall have been properly prepared for irrigation and shall have been irrigated beneficially from the said works on or before the 30th day of September, 19 27

(*j.*) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act: Provided that the Board may extend the time for the commencement or resumption of the construction of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

February 23, 1927.

Your file 27984-7.

Dear Mr. Webb:-

I beg to acknowledge receipt of your letter of the 22nd instant with enclosure of a memorandum made by Mr. Cosens Spencer on the 22nd instant as to what he would propose for a full settlement in connection with the Stone Indian Reserve-Chilco Ranch Irrigation System.

With regard to Item No. 1--Fletcher Lake Dam, I have to say this Department has no interest in the Dam whatever as we have no licence to store water. Mr. Spencer's Storage Licence permits him to store water in Fletcher Lake from the 1st October to the 1st June, after which the joint waters from Big Creek must pass through the Lake unobstructed. This Department, therefore, can hardly be expected to incur any expenditures in connection with this storage system.

Item No. 2--Hutch Meadows. Any improvement to the Hutch Meadows from what they were originally, to be borne by the party who is benefitted thereby.

Item No. 3--Big Creek. The suggestion that control and intakes as proposed by the Engineer to be carried out is perfectly fair, if necessary, but there does not appear to be any good reason why the Department of Indian Affairs should have to bear any more than one-third of the cost, the other two-thirds being chargeable to Mr. Spencer.

Item No. 4--This refers to Mr. Spencer's desire to be given the right to shut down the Fletcher Lake Dam in order to cut hay on the Hutch Meadows. Mr. Spencer's desire might be concurred providing it would not interfere with the right of the Indians to take their water to their reserve, but no information has yet been received as to whether or not the Indians would be adversely affected.

Item No. 5--Mr. Spencer wants the Department to pay $100.00 per year towards the supervision of the water system. This might be considered providing no other means can be arrived at.

Item No. 6--Mr. Spencer suggests the Indian Department to apply for a storage licence on Fletcher Lake

and

C. E. Webb, Esq.,

ARCHIVES PUBLIQUES
CANADA

and this would be approved by him. In view of the fact that it is reported that the Indians are not using the water which they obtain under their licence I cannot see the necessity of going in for storage. The Indians have the first water right on Menton Creek, but no definite information has been supplied as to whether or not Menton Creek watershed supplies sufficient water to the Indians to carry them over until the 1st of June when the dam at Fletcher Lake must be opened to permit of the Big Creek water passing down.

Item No. 7--Mr. Spencer wishes the Indian Department to raise no objection to any transfer of appurtenancy of water held under his licence from Big Creek. On general principle no objection would be raised and Mr. Spencer's Counsel has been informed to this effect in the past, but it is deemed absolutely essential that before ready concurrence is given by this Department a full explanation should be forthcoming from Mr. Spencer as to just what is intended.

Item No. 8--The right of carrying the Indians' proportion of the water from Big Creek through the Bambrick slough and having head-works on the Bambrick property. Mr. Spencer appears to be satisfied that the matter can be adjusted for a nominal sum and he agrees to allow the Indian Department the full benefit of the rights he now holds from Mr. Bambrick. This seems fair enough although Mr. Bambrick has offered to give our Department the same rights as Mr. Spencer has for the sum of $250.00.

Mr. Spencer has made a further suggestion that upon completion of the works the whole system should be considered as one and the cost of maintenance and improvements throughout should be on the basis of one-third to the Department and one-third to himself. This is perfectly fair. Mr. Spencer has also put a note on the bottom of his letter with regard to the boxes on the Indian Reserve being fixed so as to be effective for the purpose for which they were designed, this work to be done at the expense of the Department. This also is fair.

In conclusion I beg to say the above are my opinions as the situation is at present, but no definite decision can be arrived at until the joint report of Engineers Warren and Murray have come to hand after which the same will be fully considered with the endeavour to arrive at a fair and reasonable settlement for the future working of the system.

I think a point that should not be lost sight of is that while the Indians are entitled to use a great deal more water than they are doing at present, Mr. Spencer is apparently getting all the extra water that the Indians do not use, and although the Indian diversion boxes may not be in very good shape, this, I imagine, does not establish the fact that any more water is going to their reserve than they are entitled to.

WHD/KD.

Yours truly,

W. H. Ditchburn.

February 22, 1927

Dear Sir: Re - Stone-Chilco Irrigation System.

I have to acknowledge receipt of your letter of even date which you handed to me without prejudice, in connection with proposed improvements to the above joint irrigation system.

I have been in communication today with Mr. Indian Commissioner Ditchburn who advises me that it is impossible for him to come to Vancouver during the present week. It is Mr. Ditchburn's opinion that until a report is available by the engineers (Mr.W.C.Warren and Mr.C.Murray) it is not possible to satisfactorily duscuss any proposals. I would, therefore, suggest that upon completion of the engineers' report above referred to that a conference between Mr.Ditchburn and yourself be arranged to come to some decision in the matter.

Yours truly,

C.E.Webb
District Chief Engineer

This communication is without prejudice.

Vancouver, B.C.,
February 22, 1927.

Sir: Re - Stone-Chilco Irrigation System.

In order that a full and complete settlement regarding the joint works in connection with the Stone Indian Reserve-Chilco Ranch Irrigation System may be made, I am listing hereunder my proposals to which I am agreeable, after considering the proposals of my engineer and yourself.

1. FLETCHER LAKE DAM.

This dam to be constructed at the Department of Indian Affairs own expense to the satisfaction of both engineers.

2. HUTCH MEADOWS.

Three dams to be built and the natural channel deepened as suggested by the engineers, the cost of which is to be borne one-third by the Department of Indian Affairs and two-thirds by myself.

3. BIG CREEK.

Control works and intake as proposed by the engineers to be carried out, the expense to be borne one-half by the Department of Indian Affairs and one-half by myself.

4. That I shall be given the right to shut down the Fletcher Lake dam in order to cut hay in Hutch Meadows should the improvements outlined above be not satisfactory for the cutting of hay.

5. In view of the yearly expense necessary in connection with the supervision of water throughout the system that the Indian Department agree to pay One hundred dollars ($100.00) per year towards this supervision.

6. That the Indian Department apply for storage in Fletcher Lake. If required the same will meet with my approval.

7. That the Indian Department will raise no objection to any transfer of appurtenancy of water held under licence by myself from Big Creek.

8. In connection with carrying of water through Bambrick Slough at Big Creek Intake, I will be pleased to take this matter up with Mr. Bambrick and am satisfied that the matter can be adjusted for a nominal sum and further, I will agree to allow the Indian Department the full benefit of the rights I now hold from Mr. Bambrick.

Dear Mr. Webb:-

In cleaning up my work on the desk prior to going to Ottawa I found your letter of the 28th ultimo referring to the claim of Mr. H.N. Church that the intake of Big Creek had been leaking and his land had been flooded. I note your suggestion to send a copy of Mr. Church's letter to Mr. Spencer.

I wish you would kindly take this matter up as, of course, I have not time to do so at present and would not be here to know what Mr. Spencer has to say in the matter. We then could confer on what is to be done after I return from Ottawa.

COMMISSIONER'S OFFICE
MAR 1 1927
VICTORIA, B. C.

VANCOUVER, B.C.
February 28, 1927

Sir: Re - Stone I.R.-Chilco Ranch
Irrigation System.

I have to acknowledge the receipt of your letter of the 24th inst. to which is attached copy of a letter from Mr. H.E.Church of Big Creek, dated February 16th, wherein he states that at the end of January last the ditch from Big Creek, owned by Mr. C.Spencer and the Indian Department, was running water.

I am at a loss to understand how this can be the case as when Messrs. Warren and Murray, Engineers of this Branch and Mr. Spencer respectively, were at the Big Creek intake on October 1st, 1926, there was a head of 1.45 feet of water against the gate which was closed and there was no sign of leakage through the gate and no water was running in the ditch below it, showing that at that time gate and intake works were in perfect condition and no leakage whatever occurring and I can see no reason why this situation should be altered since that time.

In view of the fact that we have no engineer in that district at the present time, it might be advisable to send a copy of Mr. Church's letter to Mr. Spencer as in all probability he has received some similar communication from Church, and ask Mr. Spencer to have the matter looked into, to see if there is any justification for Mr. Church's claim that the headgate is leaking.

If it were possible for Mr. MacLeod to make the trip it might be advisable to send the copy of the communication to him and have him take it up with Mr. Spencer first and then Mr. Church. You might think over these suggestions and act as you consider best. However, I would ask you to please advise me what action is taken in the matter.

Yours truly,

C.E.Webb

W.E. Ditchburn, Esq.,
Indian Commissioner,
Victoria, B. C.

Dear Sir:-

This is to inform you that at the end of January last, the ditch from Big Creek owned by the Indian Department and C. Spencer was running water just as it did in November, 1925, only more water.

If you will refer to your files in connection with damage paid me for that occasion you will find that in one of your letters you stated that care would be taken so that flooding did not occur again, and I shall be much obliged if you would take measures to have the headgate properly put in so that leakage cannot occur. In my opinion it is foolish to [redacted] matter in the hands of Mr. Nelson, who, last June [redacted] that he put the headgate in and that it had not leaked and could not leak; this last leakage is complete confirmation of my previous statement that the headgate had leaked and under similar pressure of water would again do do; if this last leakage had occurred earlier in the winter the damage done might have caused me a great deal of annoyance and I cannot afford to run a continual risk of flooding whenever ice conditions cause the level of Big Creek to rise a couple of feet at the ditch intake.

If your engineers cannot make a watertight job at the intake some different arrangement will have to be made to prevent flooding on any of my land (Lot 2116).

I have no wish to put the Department to any unnecessary trouble, but I should like your assurance that when weather conditions are suitable, competent measures will be taken to set this matter right.

Yours truly,

(Sgd) H. E. Church.

Stone Chilco Ranch
Irrigation System.

Dear Sir,-

I have the honour to enclose herewith copy of a letter just to hand from Mr.C. Spencer, Chilco Ranch.

In view of your letter of Dec. 22nd, giving instructions regarding Indian irrigation systems installed by our Department, and this one in particular; I cannot now give Mr. Spencer the authority he requests to do repair work to the Fletcher Lake Dam.

As suggested to you in my letter of December 31st, I feel sure this letter of mine to Chief Louie Quilt is the cause of Mr.Spencer's action at present.

I am writing C.E.Webb, Esq; Dist. Chief Engineer, D.W.P.Br. Vancouver, B.C. on this date sending him a copy of my letter to Chief Louie Quilt and also a copy of MR. Spencre's letter.

Will be pleased to await your reply before answering Mr. C.Spencer.

January, 1st, 1927.

E.Macleod, Esq;

" Indian Agent"

Clinton, B.C.

Dear Sir:-

The Dam at Fletcher Lake put in by the Department, has broken away ; The Hutch meadows are half filled with water. I have always contended that the work done there, is in no way suitable for the task it has to perform, it has only held one season out of three, and we did not have any winter weather that one year, it means no water each time this happens and thousands of dollars to this ranch.

Kindly send your authority to cover the Department's share of temporary work we are doing, to try and hold what water is left in the Lake.

Yours faithfully,

(Signed) C. Spencer.

VICTORIA, B.C.

Dear Sir,

I have the honour to acknowledge the receipt of your letter of the 22nd instant, file No.30/16/8387, regarding the Stone Indian Reserve No.1 and Chilco Ranch joint irrigation system, in which you state that the Indians, in this as well as similar cases should bear their share of the costs of maintenance.

I certainly fully agree with this and take pleasure in notifying the Indians of the Stome Band to this effect. Since Mr. Spencer or one of his employees reads most letters for the Indians and is likely to read this one, my letter will probably serve a double purpose. I will also remind them of it on my first trip in the spring as you instructed.

I would be glad to know that Mr. C. Spencer has formerly agreed or is compelled to acknowledge his obligations to take the system over according to our agreement with him.

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

Dear Chief,

Recently Mr. C. Spencer sent in an account for $35.00 for the Indians' share of the repairs recently made to the Chilco Ranch-Stone irrigation ditch.

In the future the Indians must in all cases do their share which is one third of the total cost, of any necessary repairs. The Indian Department has done well by you to spend such large sums to get this irrigation system as it is. You know this did not cost the Indians of Stone Band one cent in cash. Now that the system is complete I hereby notify you that you must do your share of the necessary repair work (one third as mentioned above) or pay the expenses incurred, as the Indian Department will pay no more bills of this nature.

Faithfully yours.

VANCOUVER, B.C.
December 23, 1926.

Sir: Re - Stone I.R.-Chilco Ranch Irrigation System.

Acknowledgement is made of your letter of the 22nd inst. regarding an account from Mr. C.Spencer of the Chilco Ranch, of which $35.00 is indicated as being chargeable to the Department of Indian Affairs in connection with some maintenance work carried out on the above system in October last. I am today writing Mr. Spencer asking him for a detailed account. Copy of my letter is enclosed. Upon receipt of a reply from Mr.Spencer I will advise you further.

Regarding the future works of maintenance it might be advisable for you to write Mr.Spencer and advise him that your Department should not be billed for any Indians' share of maintenance work required but that Mr.Spencer should call upon the chief of the Stone band to supply sufficient Indians to supply their share of the labour required, without charge. It is evident that there may be times when works of maintenance are urgently and immediately required and if Indians are not available some provision should be made whereby Mr.Spencer can have the works carried out and the Indians themselves charged with the work. This, however, would be only on rare occasions.

I note that you are writing Mr. Indian Agent MacLeod on the subject.

Enc.

Dear Mr Ditchburn:-

Herewith figures for the last three years in connection with the hay cut on the Hutch Meadows.

This year certainly appears to be very low, but it does not follow that the cause was as claimed by Spencer.

Wild meadows, even under the best conditions are apt to vary in their yield from year to year, and a good many tons can be gained or lost on rough ground by careless cutting.

Yours truly,

A.O'N.Daunt,
Indian Agent.

New Westminster, B.C.,
Dec. 10, 1926.

Report on Portion of Chilco Ranch - Stone
I. R. Irrigation System

The repairs on the above works, discussed and decided on at a meeting held at Chilco Ranch November 5, 1926, by Messrs. C.Webb, W.Warren, McLeod, C.Spencer and the writer have been completed at Big Creek and the Hutch Meadows.

On the 11th day of October I procured two competent labourers, 330 ft. of sawn lumber, 50# of nails, wire, tools, provisions for one week and proceeded, some twenty odd miles, to Hutch Meadows, by team and waggon supplied by Mr.C.Spencer.

Hutch

On inspecting the dam about the center of these meadows I found a small leak by the sluice box at the upper end of which the gate is placed. To stop this leak, I drove, to a stop, sheet piling at the upstream face of the dam and extended it well into the banks of the stream, put new battens over the joints in the sluice box, re-constructed the gate, provided space for spillways and deepened the water channel for forty feel below the dam.

At the lowest dam, on the meadows, which had been undermined and partly washed out, I found on digging test holes that the gate box had been set on gravel underlain by a strata of soft dirt. As this would not afford a suitable foundation for any works I decided it more effective and cheaper to build a new dam of a more or less temporary nature immediately above the old gate.

This new dam consists of heavy cross logs well fixed into the banks and sheet piling of 2" plank placed at a batter and well driven into solid sand and gravel a depth of 3 - 4 feet below the stream bed, extending across the stream and well into the banks and riprapped same. For a gate in the five foot opening provided, there are several planks that can be easily placed or removed at will. Any overflow is taken care of in adequate spillway.

At the uppermost dam on the Meadows there was a hole, three feet in diameter, beside the sluice box for its entire length. The box being in good condition I drove sheet piling on each side of it, from the gate opening extending well into the banks and faced same with large boulders, nailed a collar on side of sluice box and filled all space in the dam up to grade with puddled earth. Provided a new gate and dug a six foot opening through the south end of the dam, to ground level, for a spillway.

Fletcher Lake

At Fletcher Lake, owing to the extreme height of the water, there was a small quantity of water coming over the sheet piling, finding its way down the outside of the sluicebox and through a joint between the planks thereof and on through the box. This was for a distance of approximately two feet along the box from the gate. On filling this small space with earth there was no water flowing through the box.

Big Creek

At Big Creek there was a log obstruction used in conjunction with a submerged rock fill to divert the water into the ditch intake. I cut all the cables hold-

ARCHIVES PUBLIQUES
CANADA

ing the logs in order that the first freshet would clear the stream. I constructed a boom of two logs, long enough to extend from the toe of the wing-dam, to which I made it fast, to a point below the upper end of the intake crib. This was for the purpose of diverting possible drift from the intake.

As a precaution against the flow of water down the ditch arising from seepage or otherwise, I constructed a solid earth dam three feet high, across the ditch at a point about 150 feet below the gate.

To complete the above work required six days for the crew and team mentioned above.

December 22, 1926.

Dear Sir:- Re-Stone I.R.-Chilco Ranch
Irrigation System.

From time to time Mr. Cosens Spencer, of the Chilco Ranch, has been billing our Department for various amounts in connection with the maintenance work on the Stone I.R.-Chilco Ranch Irrigation System, being of course only the proportional cost of the Indians' share.

In this connection I beg to say that when once this Department has gone to considerable expense to assist in the installation of an irrigation system for any Indian band, it is expected that all work of maintenance so far as the Indians' share is concerned will be undertaken by them without cost to the Department.

When you next visit the Stone Indians, which I do not suppose will be before the Spring, I have to request that you will put this point before them very plainly. You should also see Mr. Spencer and explain the situation to him so that he will fully understand. An account has just come to hand for $35.00 being one-third of the total cost of some maintenance work done during October 11th to 16th inclusive. Mr. Spencer employed his engineer, Mr. Murray, two Chinamen and a team. He should, however, have had Indians perform labors sufficient to amount to their proportion of the total cost.

The above principle applies to all irrigation schemes which have been or may be installed by the Department. You should, therefore, give to your Indians full instructions on this point and inform them that unless they can give a guarantee that they will perform all maintenance work necessary to keep their ditches and flumes in proper state of repair, the Department will be disinclined to give any assistance in the installing of any system.

WRD/KD.

Yours truly,

W. E. Ditchburn.

December 22, 1926.

Dear Sir:- Re-Stone I.R.-Chilco Ranch
Irrigation System.

I beg to acknowledge receipt of your letter of the 17th instant enclosing copy of an account from Cosens Spencer, of the Chilco Ranch, for $35.00 being the Indians' share of expenditure in connection with some maintenance work on the Stone I.R.-Chilco Ranch Irrigation System, in October last.

In reply I beg to say that when the account is properly made out giving full details and is sent to this office I will forward the same to Ottawa for payment. I quite agree with you in the remarks you made to Mr. Spencer in your letter of the 17th in which you informed him that payments for any expenditures must be in connection with the joint works as defined by the Agreement.

In connection with works of maintenance, in future my Department should not be billed for the Indians' share and Mr. Spencer should call upon the Chief of the Band to supply sufficient Indians to perform their proportion of the labor without charge. In the case under consideration it is observed Mr. Spencer had two Chinaman working instead of Indians.

I am writing to Mr. Indian Agent MacLeod on this subject, instructing him to inform the Indians that they must be prepared in future to do their share of the maintenance of irrigation systems without any cost to my Department

Sir: Re - Stone-Chilco Irrigation System.

I am enclosing herewith copy of a letter dated November 29th from Mr.C.S. Spencer, wherein he encloses a bill covering his engineer, Mr.Murray and assistants expenditures in connection with Home improvements on the irrigation system.

Enclosed also is copy of my reply thereto of the 17th inst. to Mr.Spencer which is self-explanatory. The item for $4.65 has been taken care of by Mr.Warren.

May I request that you advise me as to the disposition of this bill from Mr. Spencer for the amount of $35.00.

Sir:

I wish to acknowledge your communication of the 29th ultimo, enclosing account for labour, presumably incurred in the interests of the Chilco Ranch-Stone I.R. joint irrigation system. The amount $35.00 I presume is one-third of the expenditure in connection with the maintenance of existing works.

This office can only recommend payment for such expenditures as are incurred on joint works as defined by the agreement. I am accordingly forwarding your account to Mr. W.E. Ditchburn, Commissioner of Indian Affairs in B.C., for consideration by the Department of Indian Affairs.

Yours very truly,

Dear Sir:-

Herewith enclose the accounts for work on the irrigation system. The one for $35.00. I got Mr. Murray to go with two Chinamen and a team, to do the work at Hutch Meadow, Fletcher Lake and Big Creek that had to be done at once, they left the ranch October 11th, and returned the night of the 16th. Mr. Warren can advise you what the work consisted of.

The Store account for $4.65 appears to be mostly personal goods, Mr. Milner can advise you, I understand from the Storekeeper, Messrs. Warren, Murray and Milner purchased about $40.00 worth of goods, did not use them, and they were returned except the items amounting to $4.65.

Faithfully yours

Nov. 19, 1926.

Dear Mr. Daunt:

I have to thank you for your letter of the 25th ultimo enclosing a letter from Norman Lee, Esq., of Hanceville, in which he stated that when he was the owner of Hutch Meadows, he barely, ever, cut over 100 tons of hay per annum.

I note that Mr. Lee states that he had heard the crop now is about 200 tons, and he could get the measurement if we want accuracy. I would be very much obliged if you would write again to Mr. Lee to get this additional information as it would be very useful to me. For your information I may say that Mr. Trethewey has informed me that the greatest amount he ever cut in one year was 164 tons, and that only obtained when the hay was cut under contract. I would very much like to know how much hay Mr. Spencer has been cutting this last two or three years without getting this information from himself.

Dear Mr. Webb: Re Chilco Ranch.

As promised I am herewith furnishing you with a typewritten copy of questions put to Mr. Trethewey by myself on the 12th of October in an endeavour to obtain first hand information with regard to the Stone Reserve-Chilco Ranch Irrigation system at the time Mr. Trethewey was owner of the said ranch. Mr. Trethewey's replies will be found after each question. You will observe that Mr. Trethewey states that the greatest amount of hay that he ever cut on the Hutch Meadows in any one year was 164 tons, and I may say that further information in this regard, which I obtained from Norman Lee who at one time owned the Hutch Meadows, goes to show that he was barely able to cut 100 tons of hay each season.

November 11, 1926.

Dear Sir:- Re-Cosens Spencer-Church Trial.

I beg to acknowledge receipt of your letter of the 10th instant enclosing a letter from Messrs. Griffen, Montgomery & Smith, solicitors for Cosens Spencer of the Chilco Ranch, in which Mr. Griffen desires that Mr. Indian Agent MacLeod and Mr. Nelson be instructed to appear at the trial to be held at the County Court, Williams Lake, about the 7th December, without being subpoenaed and to give Mr. Spencer all the assistance in their power.

In reply I beg to say that this Department does not propose to instruct any of its officials to give evidence in a case against a person with whom it has a satisfactory working agreement. We cannot, however, prevent Mr. Spencer's counsel subpoenaing both Mr. MacLeod and Mr. Nelson, but they cannot speak authoratively for this Department.

I do not know whether Mr. Church proposes calling Mr. Warren as a witness for he is not an officer of my Department. He is on the staff of the Dominion Water Power and Reclamation Service, of the Department of the Interior, and is at present I believe up at Bella Coola installing a domestic water system for the Bella Coola Indians. Perhaps Mr. Webb might give you some information on this point.

As stated in my letter of the 27th ultimo, it appears to me that Mr. Spencer's trouble with Mr. Church is entirely due to the fact that though the irrigation system was a joint one between himself and the Department of Indian Affairs, he entered into an agreement with Mr. Church on his own behalf which necessitated my Department having another agreement of a like nature to that of the Spencer-Church agreement and he now would like to have my Department assist him in his fight with Mr. Church and I cannot see that we should be put in such a position. It is felt that Mr. Spencer committed a breach of faith with this Department in making his agreements with both Mr. Church and Mr. Bambrick. The proper course for him to have pursued was for him to have notified my Department that such agreements were necessary and they would then have been made out in behalf of the joint owners of the system.

I think you should write to Mr. Griffen very plainly on this point and show him that owing to Mr. Spencer's action it has left us in such a position that it is impossible for us to meet his desire for co-operation in his legal troubles with Mr. Church.

WED/KD.

Sir:

Re - Stone-Chilco Irrigation Works.

Acknowledgement is made of your letter of the 22nd ult. wherewith you enclosed copy of an agreement between C.J.Bambrick of Big Creek P.O. and Mr. Cosen Spencer, Chilco Ranch, for right-of-way for irrigation system through Lot 2229, Lillooet District.

It is noted that the agreement is dated October 31st, 1923, and I quite agree with you that it appears strange that Mr. Spencer did not have the name of the Department of Indian Affairs included in the agreement for right-of-way as at that time the works were about completed.

It is altogether probable that Mr. Bambrick will agree to allow the Indian Department the same privilege he allowed Mr. Spencer in this matter.

It is further noted that you intend to take th e matter up with Mr. Bambrick.

Re: Your File No. 30/16/8031.

I have your letter of the 27th instant herein, with enclosures.

My disposition at the present time, is not to accede to the request, as I think that under all the circumstances there is no reason why we should change our attitude in this matter. Furthermore, there is this other consideration. It may be that in the future, Mr. Church might have a subsequent claim against us, if there is any further flooding. He appears to be friendly with us at the present time and why should we lend our moral support to the other side, especially in view of the fact that we are never considered or consulted when agreements are made, like this one and the one between Spencer and Bambrick.

Yours truly,

Dear Mr. Ditchburn:

RE: YOUR FILE No. 30/16/7999.

RE: STONE RESERVE--CHILCO RANCH.

I have your letter of the 22nd instant, which has remained unanswered because of my absence from the city.

I agree with you that Mr. Spencer has not been frank with us in the matter, and clearly, if the Agreement was one that should have been entered into, it should have been in the first instance a joint one.

I think you are quite right in writing to Mr. Bambrick asking for the same treatment for the Department as he has given Mr. Spencer. When you hear from him, we can take the matter up. I am afraid, however, he will want the Government to come through with something. However, we can discuss the matter when we hear from him.

Yours truly,

JNE/D

30/16/8031

Oct. 27, 1926.

Dear Sir:

I am attaching hereto copies of letters received from Martin Griffin, Solicitor for Cosens Spencer, asking for copies of certain papers in connection with our agreement with H. E. Church for the right-of-way of the Big Creek ditch, and a possible flooding of his land if the gate at the intake is kept open after the 15th of November each year. As we have already refused to supply such documents in the past, I hardly think we should do so in this instance. I am, however, furnishing you with copies of all documents from my files and I will leave it to your judgement as to whether it would be advisable to comply with Mr. Griffin's request. I would, however, advise a reply of some kind at once, as the case of Church vs Spencer comes up for hearing at Williams Lake on the 2nd of November.

It appears to that the whole trouble between Cosens Spencer and H. Church is due to the fact that separate agreements were made with Church instead of a joint one for both Mr. Spencer and my Department. I have no doubt but what Mr. Griffin is responsible for this, as the same thing was done with Mr. Bambrick for a right-of-way through his lot on which the intake is located, and now it will be necessary for my Department to have a like agreement and pay a sum of $250.00 in all liklihood.

So far as our agreement with Mr. Church is concerned, I think it is the same as that between Church and Spencer, I do not know what date it carries, but surmise that it was, like that with Bambrick, entered into after the works were completed. As you drew up the agreement with Church, possibly you will have a copy of the Spencer-Church agreement among your papers, and it would be interesting to know the date. I think, however, you will agree with me when I say that the irrigation system being a joint one between the Chilco Ranch and the Department of Indian Affairs, all agreements with regard to rights-of-way should have been heint ones, and separate by each party to the undertaking. As to the correspondence passing between Mr. Church and this office, you will observe a copy of the letter from Mr. Church to myself, dated 29th December, 1925, in which he claims the $75.00 on account of his being flooded, and informing me that he was also making a claim against Mr. Spencer. So far as this Department is concerned, Mr. Church's claim was investigated and it was ascertained that his land had been flooded, consequently a cheque was issued in payment of his claim.

You will also see among the papers the memorandum of Engineer Warren dated 6th of January, 1926, but I do not think it would be advisable to let him have this as he would no doubt then try to hold the Department responsible for all the damages.

Yours respectfully,

J. M.Ellis, Esq., K.C.

Dear Sir: re Church vs. Spencer

For our assistance in conducting Mr. Spencer's defence of this case would you kindly let us have copies of the following documents:

1. Copy of the agreement between the Indian Department and (Spencer) giving you the right to take water through his lot.

2. Correspondence between Church and yourself or the Water Rights Branch or Messrs. Ellis & Brown relating to the flooding and the agreement. Some of this was produced at the last trial but not all of it and we would like to get a complete file.

3. Copy of the document that Church signed when he was paid the $75.00 damages.

If we could have these in time to take with us to the trial we should be greatly obliged.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,
per WMG.

Dear Sir:-

Your letter of Feb. 4/26 No. 30/15/6556, with enclosed cheque #3857 for $75.00 received last mail. Thanks.

I have no doubt that now the vagaries of Big Creek in the winter are realised, an easy method of closing the head of ditch can be found and all leakage prevented.

Yours truly,

"H.E. Church".

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 29th ultimo in which you are claiming $75.00 for the flooding of your land on Lot 2116. It is to be regretted that the land was so flooded but apparently this was unavoidable. I have, however, recommended that your account should be paid and have forwarded a voucher to Ottawa for the amount and expect in the near future a cheque will be received which will be turned over to you.

WED/KD.

Sir:-

Re-Stone Indian Reserve-Chilco Ranch Irrigation System.

I beg to submit herewith Voucher No. 117-A for $75.00 in favor of H.E. Church, Esq., of Big Creek P.O., B.C., as damages for flooding Lot 2116 for fifteen days from 15th November last by reason of the fact that the water from Big Creek in the Stone Indian Reserve-Chilco Ranch ditch was not shut off early enough to prevent the flooding. This, however, was unavoidable owing to certain repairs that had to be done which prevented the filling of the Fletcher Lake reservoir earlier in the season. This penalty is in accordance with the Agreement made with Mr. Church on the 11th June, 1924. Under a separate agreement between Mr. Church and Mr. Cosens Spencer, the owner of Chilco Ranch, Mr. Spencer will also have to pay $75.00.

I would respectfully recommend that the account should be paid, the cheque being sent to this office so that I may turn the same over to Mr. Church and take his receipt therefor.

Attached hereto please find copies of correspondence and Agreements referring to this subject.

WED/KD.

Your obedient servant,

Enclosures:-

Copy for Mr. W.F. Ditchburn.

December 26, 1925.

Sir:- Re-Stone-Chilco Ranch Irrigation System.

In discussing with Mr. J.N. Ellis, K.C., the possible claim for damages by Mr. Church in connection with flooding on Lot 2116, Lillooet District, it was considered advisable, if the roads were still open, to have an inspection made of the existing conditions. Having this in view I communicated with Indian Agent MacLeod and upon receipt of his reply I arranged for Mr. Warren to proceed on Sunday night to make an inspection in company with Indian Agent MacLeod.

Upon receipt of Mr. Warren's report it will be possible to determine what claims Mr. Church may have and then any necessary action may be taken.

I will advise you of Mr. Warren's report on the receipt of the same.

Your obedient servant,

"C.E. Webb"

District Chief Engineer.

Sir:- Your file 30/16/6401.
Re-Chilco Ranch-Stone I.R. Investigation.

Your letter of the 5th instant is acknowledged together with attached letter from Mr. H.E. Church of Big Creek, wherein he claims an indemnity of $75.00 from the Department of Indian Affairs for damage done by flooding on Lot 211G. As stated in Mr. Church's letter Mr. Warren made an inspection of the area on December 29th in company with Indian Agent MacLeod and for your information I am enclosing copy of Mr. Warren's report to me of even date on the matter.

You will note that Mr. Warren considers the claim of Mr. Church to be reasonable. It is unfortunate, however, that greater precaution was not exercised by Mr. Cosen Spencer in seeing that the gates were completely closed when shut down on November 15th.

The suggestion that settlement be held in abeyance is possibly advisable. It will be interesting to see the results of any action Mr. Church may take against the owner of the Chilco Ranch with whom, I understand, Mr. Church holds a separate agreement regarding flooding on Lot 211G.

Arrangements will be made to test head gates during next high water season so that any adjustment required to prevent further leakage may be made.

Encl.

Your obedient servant,

"C.E. Webb"
District Chief Engineer.

Memorandum for Mr. Webb

In respect to Mr. Church's claim for damages resulting from the flooding of his meadow in Lot 2116 by leakage through the intake works of the Stone I.R.-Chilco Ranch Joint Irrigation System at Big Creek, I wish to advise you that in company with Indian Agent MacLeod I made an inspection and interviewed Mr. Church on December 29th, 1925.

At the intake works I found that leakage had occurred through the gates and not to any extent around the culvert, so far as I was able to determine from the appearance of the soil around the culvert box. The leakage through the gates was due in part to the fact that they were not completely closed and did not seem to fit closely enough at the sides. It was impossible to make a thorough investigation into all the causes of leakage due to the presence of about 18 inches of ice on the upstream side of the gates and about 6 inches of ice below the gates. There was no water in the intake channel at the time of my investigation.

I went over Mr. Church's meadow along with him and Mr. MacLeod and found considerable ice on the surface in places. Mr. Church estimated the area at fifty acres but I should judge that twenty acres would be a liberal estimate of the area flooded. However, Mr. Church does not base his claims on the area flooded but rather on the length of time water was flowing into the meadow which he places at 15 days, from the 15th of November to 1st of December, at the prescribed penalty of $5.00 per day.

It is very unusual for Big Creek to be high enough to flow through the intake works at the time of the year the flooding occurred. It is due to the early ice formation in the upper reaches of the stream which breaks loose on account of late mild weather and jams in the stream lower down. In this case the jam occurred at the intake where there is a natural control. The water was backed-up to almost normal summer level and stood two feet high on the gates. At the time the gates were installed about six weeks previous to the flooding there was no water in the intake channel to test them.

The ditch from Big Creek ceases shortly after entering Mr. Church's lot No. 2116 and for almost a mile no definite continuous channel exists through this flat meadow. It is quite evident that a small quantity of water under such conditions may cover a considerable area, and owing to the heavy frost at the time, the spreading occurred to a greater extent.

Mr. Church informed me that he had notified Mr. Spencer of the leakage when it first occurred but that no action had been taken to remedy the situation, in consequence he was making the claim for damages.

Mr. Church readily agreed to take the necessary steps to stop any leakage in future.

There is no doubt of validity of Mr. Church's claim and I think under the circumstances it is reasonable. I

would

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

would, however, recommend that settlement be held in abeyance awaiting the outcome of a possible action against Spencer by Church. Spencer has apparently neglected to take action on Church's notification. At the same time he has failed to see that the gates were properly closed and locked after making the request that the gates should be provided with locks.

I would further recommend that Mr. Nelson be notified of the necessity of testing the gates during the high water period next season and of taking the necessary precautions to see that gates are so adjusted as to prevent future leaks. I believe there are sufficient funds available for this work as well as for the Fletcher Lake spillway.

Dear Sir:-

With further reference to your letter of the 7th ultimo dealing with the matter of payment of damages to Mr. H.E. Church, of Big Creek, for flooding his land, I beg to say that I have received a letter from him dated the 29th ultimo, a copy of which is attached hereto for your information. In this communication you will observe that Mr. Church states that Mr. Warren looked over the ground on the 29th December and it is possible that if this is so, he may have put in a full report to you of what conditions are and the reasons for the flooding. If this account it to be paid by my Department, it is essential that we have a copy of Engineer Warren's report on the matter and I should be obliged if you would let me have the same.

Dec. 29/25.

W.E. Ditchburn, Esq.,
Indian Commissioner,
Victoria, B. C.

Dear Sir:-

In reference to the flooding of my pasture land (lot 2116) by water from the ditch belonging to the Indian Department and C. Spencer (Chilco Ranch).

Mr. Warren (Dominion Water Power Branch) and Mr. MacLeod (Indian Agent, Clinton) were here today and looked over the ground; Mr. Warren told me that I had better write to you and send a statement of what I claim in the matter.

The water was actually running for fifteen days after November 15, and I am willing to accept $5.00 per day for that time (total $75.00) from the Indian Department in satisfaction of my claim against them; I am asking a further payment from C. Spencer and consider that the two payments will cover the damage that has been caused me.

I should perhaps explain that the date November 15 set in the agreement as the date for shutting off the water was expressely set so that I could use the land for winter pasture, and a large portion of this pasture is now partially spoiled by the ice formed from the flooding.

Yours truly,

"H.E. Church".

MEMORANDUM OF AGREEMENT made this 11th day of June, in the Year of Our Lord, One Thousand Nine Hundred and twenty-four.

B E T W E E N:

HERBERT EDMUND CHURCH, Of Big Creek Post Office, in the District of Lillooet, in the Province of British Columbia, Farmer, hereinafter called the "PARTY OF THE FIRST PART"

OF THE FIRST PART;

-/ A N D -

HIS MAJESTY THE KING represented by the Superintendent General of Indian Affairs, hereinafter called the "PARTY OF THE SECOND PART"

OF THE SECOND PART;

WHEREAS the Party of the First Part is the Owner of Lots numbered Three Thousand, Two Hundred and Seventy-five (3275), and Two Thousand, One Hundred and Sixteen (2116) in the District of Lillooet, in the Province of British Columbia.

AND WHEREAS the Party of the Second Part has entered into an Agreement with one, Cosens Spencer, of Chilco Ranch, in the Province of British Columbia, for the joint usage of a certain irrigation ditch more particularly described in the said Agreement between the Party of the Second Part and the said Cosens Spencer.

AND WHEREAS the diversion of water from Big Creek in the Province of British Columbia, to be used jointly by the said Party of the Second Part and the said Cosens Spencer as aforesaid shall flow through or over the said Lots of the Party of the First part.

AND WHEREAS the said Cosens Spencer has by an Agreement in writing made between him and the Party hereto of the First Part, obtained permission from the Party of the First Part to carry water over the said Lots of the said Party of the First Part.

AND WHEREAS the Party hereto of the Second Part is desirous of obtaining like permission.

NOW THEREFORE THIS AGREEMENT WITNESSETH and it is hereby covenanted and agreed by and between the parties hereto as follows:-

Your file 27984-7.

Dear Sir:- Re-Right-of-Way through Lots 2116 & 3275, Chilco Ranch-Stone Indian Reserve Irrigation System.

I beg to acknowledge receipt of your letter of the 7th instant with which you forwarded a copy of letter from Mr. H.E. Church, dated the 30th ultimo, regarding alleged damage due to flooding on Lots 3275 and 2116, for which Mr. Church claims damage to the extent of $5.00 per day, it being alleged that this amount is provided for in the agreement in connection with the said Right-of-Way.

In reply I beg to say that this Right-of-Way subject was dealt with by R.G. Swan, Esq.m while he was District Chief Engineer of the Dominion Water Power Branch, and J.N.Ellis, Esq., K.C., the Department's solicitor in Vancouver, and you should have some papers in connection with it on your file. The only record I have on my file is a copy of a letter from Mr. Ellis to Mr. Swan, dated 24th July, 1924, which Mr. Ellis sent to me. A copy of this letter is attached hereto for your information.

Mr. Balls informs me that he proposes going to Vancouver at an early date and will discuss the situation with you after obtaining some information from Mr. Warren. It might, therefore, be advisable to allow the matter to remain over for a few days. In the meantime no one is being hurt as the land which alleged to have been flooded is now apparently covered with ice.

WFD/KD.

Big Creek P. O.,
B. C.,
November 30, 1925.

The District Chief Engineer,
Dominion Water Power Branch,
119 Pender St., W.,
Vancouver, B. C.

Dear Sir:-

Re-Right of way granted to Indian Department for water over Lots 3275 and 2116.

This is to inform you that water is still running through your ditch and flooding on Lot 2116. The gate was closed down just before November 15th by C. Spencer, but there is enough water leaking round or under the head gate box to cause a good deal of flooding which has now become ice on Lot 2116.

I believe that there is a clause in the agreement granting a right-of-way, by which you undertake not to allow any water from Big Creek to flood either Lot 3275 or Lot 2116 between November 15th and March 30th, under a penalty of $5.00 per day.

I presume that you acknowledge your liability under this agreement and that you will need some proof of the facts; accordingly I have asked Major E.B. Hart, M.C.,F.R.G.S., to inspect Lot 2116 and he is prepared to speak as to conditions on the day he inspected the Lot 2116 (November 27, 1925).

Kindly let me hear from you at your earliest convenience, and oblige

Yours truly,

"H.E. Church".

Dear Mr. Ditchburn:-

Re-Chilco Ranch-Stone I.R. Irrigation System.

I am today in receipt of a telegram from Ottawa in which I am advised that cheque has been mailed to cover proposed improvements to the above irrigation system.

I propose sending Mr. W.C. Warren to superintend this work and will appreciate it very much if you will write Indian Agent MacLeod requesting him to give Mr. Warren every assistance in the matter of Indian labour and equipment.

Mr. Warren will probably be leaving Vancouver during the coming week for the Chilco Ranch.

Yours very truly,

"C.F. Webb"

Acting District Chief Engineer.

Re Chilco Ranch

Dear Mr Ditchburn:-

Herewith the information re the Hutch Meadows you asked for.

This bears out what I said, that wild meadows must be flooded throughout the greater part of the summer in order to give a maximum yield. You see that in this case, the flooding by the combined ditch, has doubled the cut, so there would not appear to be any cause for complaint.

Your's sincerely,

Indian Affairs

Dear Sir:

re Church vs. Spencer

H. E. Church has brought a second action against Spencer claiming damages for the flooding of his meadow. In this action he not only claims damages under the agreement but claims damages for flooding apart from the agreement.

Our position is the same as it was before - that we did not in fact flood him and that if we did it was due to the fact that the works were not properly constructed, in which event Mr. Spencer would have to claim that the Department should indemnify him.

If the matter did not involve His Majesty the King we would apply to have the Department made a Third Party but we cannot do this and therefore we are instructed to write you that if Mr. Spencer is defeated we shall ask to be indemnified by His Majesty the King both in respect to the claim and costs.

We should be glad to give you copies of the pleadings if you want them and would be glad to have you take charge of the case through your own solicitor if you think fit, on your agreeing to indemnify Mr. Spencer. In any case we will be glad to have your assistance at the trial and that you should appoint counsel to take part in it if you think fit.

The trial is to take place at Williams Lake on the 2nd November in the County Court.

Yours truly,

Sir:

Re - Stone-Chilco Joint
Irrigation Works.

I am enclosing accounts amounting to $84.50 which were handed by Mr. C.Spencer to Engineer Warren on his recent visit to the Chilco Ranch. These accounts cover the cost of installing a temporary control works on the Big Creek intake, in the spring of 1926, in order to divert the low water flow of Big Creek into the main irrigation ditch.

These accounts appear to be quite in order, the Indian Department's share of which amounts to $28.17. This cheque should be made payable to Mr. C.Spencer.

Re-Chilco Ranch-Stone Indian Reserve
No. 1, joint irrigation system
Williams Lake Agency.

Dear Sir:-

I am herewith submitting voucher No. 50-A for $28.17 in favor of Mr. Cosens Spencer, of the Chilco Ranch, being one-third of $84.50 expended by him in the installation of temporary control works in Big Creek last Spring, necessary on account of low water conditions. This account I have received from Mr. C.E.Webb, District Chief Engineer of the Dominion Water Power Branch at Vancouver, B. C., a copy of whose letter is attached hereto. I would recommend that the account be paid.

This System is a joint one for the Indians of the Stone Indian Reserve, Williams Lake Agency, and the Chilco Ranch, the proportion of cost for installation, maintenance, etc., being one-third for the Department and two-thirds for the Chilco Ranch.

WED/KD.

Enclosure:-

Your obedient servant,

W. E. Ditchburn.
Indian Commissioner for B. C.

The Secretary,
Department of Indian Affairs,

Re-Stone Reserve--Chilco Ranch

Dear Mr. Ellis:

I am attaching hereto copy of an agreement between Charles J. Bambrick of Big Creek, district of Lillooet, and Cosens Spencer of the Chilco Ranch in connection with the occupation of a part of Lot 2229, Lillooet district for the intake and ditch of the irrigation system. This Agreement is dated 31st of October, 1923, and it appears that the grant for the right-of-way is a free one to Mr. Spencer. It is likely, therefore, that my Department will have to have an agreement with Mr. Bambrick for our share of the right-of-way.

Mr. Bambrick wrote me some time ago asking for $250.00 in settlement, and if I have to do so, I will recommend payment along these lines, but I will first write to him asking if he can accord to this Department the same treatment he has given Mr. Spencer. This agreement was apparently entered into after the enlargement of the ditch had been completed, and it seems peculiar, to say the least, that Mr. Spencer did not arrange for this occupation to be a joint one between the Department of Indian Affairs and the Chilco Ranch.

Re- Stone Reserve--Chilco Ranch

Dear Sir:

I am attaching hereto copy of an agreement between Charles J. Bambrick of Big Creek, District of Lillooet, and Cosens Spencer of the Chilco Ranch, for the right-of-way of the irrigation system through Lot 2229, Lillooet District. As this concession was given to Mr. Spencer without any monetary consideration, it is my intention to see whether Mr. Bambrick will not do the same thing for this Department, though he wrote me recently asking for $250.00. You will observe that the agreement is dated October 30th, 1923, and I think you will agree with me that it appears to be strange, to say the least, that Mr. Spencer did not have the name of the Department of Indian Affairs included in the agreement for the right-of-way, as at that time the joint works were about completed.

Sir:

Re - Stone-Chilco Irrigation System.

I am pleased to enclose herewith a set of photographs taken on July 13th, 1926, showing high water conditions at the Big Creek intake of the above irrigation system. You will note that the control works put across Big Creek by Mr. Spencer were, at that time, creating a serious hazard to the works on Big Creek.

VICTORIA, B.C. October 11, 1926.

Dear Mr. Ditchburn:-

The enclosed letters came through the mail this morning and as it deals with the Chilco Ranch matter, I thought possibly you might like to see these people while in Vancouver so I have made copies for you.

Messrs. Hawkins and Hayward have not yet brought in their tender but expect they will do so before the day is out when I will forward the original to Dr. Scott, as requested.

With kind regards, I am,

Yours sincerely,
R. Denny.
Stenographer.

Dear Sir:- Re Chilco Ranch Water System

Before we can make an application to the Crown to request them to withdraw the Crown Grant of Lot 2310 we thought it best to communicate with our client and get all the information he has on the matter and as soon as we hear from him we will write you again.

In the meantime, however, we ought to make an objection to the granting of the Crown Grant of Lot 2315 and with this in view we have prepared, and send you herewith, a joint letter to Mr. Cathcart which we have signed on behalf of Mr. Spencer. If you concur in same will you kindly sign the same on behalf of your Department and forward it to Mr. Cathcart. Should you desire to re-write it we will be glad to join you in any amendment. We enclose a copy for your file in case you desire to keep it.

Yours truly,
Griffin, Montgomery & Smith,

COPY FOR MR. DITCHBURN

Oct. 9, 1926.

Superintendent of Lands,
Victoria, B. C.

Dear Sir:

Re Application to register Lot 2315, Lillooet, in the name of Grover Hance.

The undersigned have been informed that an application to register this lot was made by Mr. Grover Hance but that the Crown Grant has not yet been issued.

This lot is situate on Menton Creek, which is part of the water system irrigating the Chilco Ranch near Hanceville and the Stone Indian Reserve, which are being irrigated jointly by His Majesty the King and Mr. Cosens Spencer, the owner of the Chilco Ranch, under an agreement made in October 1923 and Water Records granted under the Water Act.

Mr. Spencer holds storage record No. 7482, which amongst other things authorizes the storage of 160 acre feet of water in what is described in that record as the lower reservoir, the site of which is the aforesaid Lot 2315 and the adjoining lot 2310.

The undersigned will have no objection to the granting of this Crown Grant provided the right of storage in the reservoir is preserved and that the Crown Grant issued subject to it, but unless issued in this manner the undersigned have the honour to protest against the issue of the Crown Grant and request that it be not issued.

We would be glad to give any further information required.

We should perhaps add that License No. 7482 is a renewal of a previous one No. 530, granted to Mr. J. O. Tretheway, the former owner of the Chilco Ranch, on the 29th December, 1911.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

RE CHILCO RANCH - STONE INDIAN RESERVE

By appointment, W.E.Ditchburn, Indian Commissioner for British Columbia, met J.O.Trethewey, Esq., of Abbotsford, B. C. (previous Owner of Chilco Ranch) at the Belmont Hotel, Vancouver, B.C., on the 12th October, 1926, and the following Questions were put to Mr. Trethewey and the answers, as below, received from him:

1. Question: "What arrangement did you have with the Indian Department about the carriage of water from Big Creek through Stone Indian Reserve No. 1 to the Chilco Ranch?"

   Answer: "I had no arrangement with your Department. Mr. Wilson, the previous owner of the Ranch, I believe did make some arrangement on the point and I carried on. The right to do so was never questioned."

2. Question: "What work did the Indians of the Stone Indian Reserve do on the first ditch from Big Creek to Fletcher Lake?"

   Answer: "This ditch was constructed before I took over the Chilco Ranch from Mr. Wilson, and I always understood that the work was done by both Mr. Wilson and the Indians of the Stone Reserve."

3. Question: "Did the intake at Big Creek always function properly, or was there any difficulty on account of low water in Big Creek?"

   Answer: "At first the intake was not quite low enough to meet low water conditions of the Creek, so I set the intake about a foot lower and it always functioned satisfactorily after that."

4. Question: "Who owned the landsknown as the Hutch Meadows when you owned the Chilco Ranch?"

   Answer: "Norman Lee owned them first but I afterwards purchased them."

5. Question: "Did Norman Lee have the original ditch from Big Creek?"

   Answer: "Not the ditch referred to but he had an intake on Big Creek and ditch about half a mile further down the Creek than the present intake. The land which Norman Lee intended to irrigate was across the Chilcotin River, and he had a pipe flung across the river but when the water was turned into it it collapsed.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

6. Question: "What amount of hay per annum did Norman Lee cut from the Lots known as Hutch Meadows when he owned them.?"

   Answer: "I do not know for sure, though, I believe it was not nearly as much as I did after I purchased the property from him".

7. Question: "How much hay did you cut per annum from Hutch Meadows when you owned them?"

   Answer: "The largest amount in any one year was 164 tons, but quite often it was not nearly this much. The reason I got 164 tons was because I had the hay cut under contract. Had I not sold the Chilco Ranch it was my intention to lowerthe bed of Menton Creek in places, burn over and break up the land along the Creek which was all full of hillocks and holes, at my own expense, in order that I could cut a great deal more hay than was then possible. I told Mr. Spencer some little time ago that he ought to do this."

8. Question: "How long did you operate a storage dam at the place which is called the "lower storage" in your water license?"

   Answer: "Only one year because I had trouble with Mr. Lee, as I was flooding the land which Mr. Lee claimed. I therefore abandoned my "lower storage" to Mr. Lee, but it was a verbal arrangement and the British Columbia Government was not notified. This is the reason I did not have the "lower storage" surveyed and properly recorded."

9. Question: "Who put in the back flooding dams on the Hutch Meadows and what purpose were they to perform?"

   Answer: "I did. They were only temporary affairs and were used for flooding the Meadows so that the ground would be moistened sufficiently to produce hay. They were closed for a night or so and then opened up and the water allowed to continue down Menton Creek to the Indian Reserve and Chilco Ranch."

Dear Sir:-

re Chilco Ranch Water System
Your file No. 30/16/7967

We have yours of the 15th inst., and note that you joined with us in the letter which we drafted addressed to the Superintendent of Lands. We note, however, the statement that your joining in this was as an evidence of the Department's good-will towards Mr. Spencer. The writer feels sure that Mr. Spencer will appreciate the good-will but we did not present the letter to you in this light. Our understanding was that we attended on the Superintendent of Lands in the joint interests of the Indians and Mr. Spencer. It is true of course that the Indians have no storage record but they have a mutual interest with us in having no trouble with the water system and the mutual arrangement now under discussion depends to a large extent on our being able to utilize this lower reservoir.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

Dear Mr. Griffin:

Re Agreement Chilco Ranch and
Charles Bambrick.

I beg to acknowledge receipt of memorandum of Agreement made the 31st day of Oct, 1923, between Charles J. Bambrick of Big Creek in the District of Lillooet, and Cosens Spencer of the Chilco Ranch, covering Right-of-Way for irrigation works from Big Creek, over and through the [redacted] Lot no. 2229, Lillooet District.

Dear Sirs:- Attention Mr. Griffin
Re-Chilco Ranch Water System.

I beg to acknowledge receipt of your letter of the 9th instant enclosing communication addressed to the Provincial Superintendent of Lands referring to a Crown grant proposed to be issued to Mr. Grover Hance for Lot 3310, which Lot included an area which was intended for a storage reservoir by J.O. Trotheway, to whom a water licence was issued some years ago.

In reply I beg to inform you that I have attached my signature to the letter to the Superintendent of Lands as an evidence of this Department's goodwill towards Mr. Cosens Spencer, your client. I trust that the communication will result beneficially to Mr. Spencer, but I am firm to say that I am very much afraid it will not, for it is quite evident to me that Mr. Trotheway slept on whatever rights he may have had in this regard by virtue of the fact that water was not stored on the site continuously nor was the site surveyed and a description thereof filed with the Provincial Authorities.

WED/KD.

Yours respectfully.

W. E. Ditchburn.

Dear Sir:-

re Chilco Ranch Water System

Before we can make an application to the Crown to request them to withdraw the Crown Grant of Lot 2310 we thought it best to communicate with our client and get all the information he has on the matter and as soon as we hear from him we will write you again.

In the meantime, however, we ought to make an objection to the granting of the Crown Grant of Lot 2315 and with this in view we have prepared, and send you herewith, a joint letter to Mr. Cathcart which we have signed on behalf of Mr. Spencer. If you concur in same will you kindly sign the same on behalf of your Department and forward it to Mr. Cathcart. Should you desire to re-write it we will be glad to join you in any amendment. We enclose a copy for your file in case you desire to keep it.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

COPY FOR MR. DITCHBURN

October 9th 1926.

H.

Superintendent of Lands,
Victoria, B. C.

Dear Sir:-

re Application to register Lot 2315, Lillooet,
in the name of Grover Hance.

The undersigned have been informed that an application to register this lot was made by Mr. Grover Hance but that the Crown Grant has not yet been issued.

This lot is situate on Menton Creek, which is part of the water system irrigating the Chilco Ranch near Hanceville and the Stone Indian Reserve, which are being irrigated jointly by His Majesty the King and Mr. Coseng Spencer, the owner of the Chilco Ranch, under an agreement made in October 1923 and Water Records granted under the Water Act.

Mr. Spencer holds storage record No. 7482, which amongst other things authorises the storage of 160 acre feet of water in what is described in that record as the lower reservoir, the site of which is the aforesaid Lot 2315 and the adjoining lot 2310.

The undersigned will have no objection to the granting of this Crown Grant provided the right of storage in the reservoir is preserved and that the Crown Grant is issued subject to it, but unless issued in this manner the undersigned have the honour to protest against the issue of the Crown Grant and request that it be not issued.

We would be glad to give any further information required.

We should perhaps add that Licence No. 7482 is a renewal of a previous one No. 530, granted to Mr. J. C.

Sir:

I am in receipt of your letter of 7th October requesting a blueprint which was used on the 16th of September at Mr.Ellis' office. Mr. Webb is out of town and I have no way of ascertaining the particular blueprint referred to.

I called up Mr. Ellis' office several times to see if he could give me any information that would enable me to trace the correct plan, but he was busy on each occasion and was to have 'phoned me in return but has not done so. I would, therefore, suggest that you call at the office here when in Vancouver on Monday when anything we can do for you will be gladly done.

Yours very truly,

C.E.Webb

Dear Sir:

As I purpose meeting Mr. Tretheway, previous owner of the Chilco Ranch on Monday next at Abbotsford, I would like to get some information with regard to the water situation prior to the purchase of the Chilco Ranch by Cosen Spencer. I would like to have the Blue Print that we used on the 16th of September at Mr. Ellis' office. Would you kindly let me have this, if so please forward it so that I will receive it by Saturday morning.

I am leaving here on Sunday night, and will meet Mr. Indian Agent Daunt at the Vancouver Hotel about 9:30 Monday morning, and will then proceed to Abbottsford. Mr. Daunt, as you may possibly know, was the Indian Agent at Clinton when Mr. Trethoway owned the Chilco Ranch, and has some information with regard to the construction of the old ditch from Big Creek.

WED/AMC.

Dear Mr. Daunt:- Re-Chilco Ranch.

We have been having considerable trouble with Cosens Spencer, the present owner of the Chilco Ranch, about water matters. A few years ago we went into joint arrangement for the enlargement of the old Trethewey ditch from Big Creek, and Mr. Spencer makes various wild statements as to what the conditions were before he took over the ranch. Mr. Joe Trethewey, the previous owner, is, I believe, now living at Abbortsford, B.C., and I would like to get in touch with him at an early date in order that I may get some first-hand information. Do you ever see Mr. Trethewey, or do you know where he could be most conveniently met. If he drops down to New Westminster occasionally it might be best to meet him in your office with yourself present. If not, if you could make a date we could go up to Abbortsford.

Please drop me a few lines on this subject at your earliest possible convenience.

WED/KD.

Yours sincerely.

W. E. Ditchburn.

NIGHT LETTER
CANADIAN NATIONAL

ALL MESSAGES ARE SUBJECT TO THE FOLLOWING CONDITIONS, WHICH HAVE BEEN APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA, UNDER ORDER 162, DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and the Company with which the message is filed that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of, any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cipher, or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the said Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the said Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the said Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

The said Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The said Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the said Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. The said Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the said Company shall vary the foregoing.

CLASSES OF SERVICE

TELEGRAMS

A full-rate expedited service.

NIGHT MESSAGES

Accepted up to midnight at reduced rates, to be sent during the night and delivered on the morning of the next day after their date at places where the Company's offices are open on Sundays, and on the morning of the next ensuing business day at places where the Company's offices are not open on Sundays.

DAY LETTERS

A deferred day service at rates lower than the standard telegram rates as follows: One and one-half times the ten-word day message rate for the transmission of 50 words or less, and one-fifth of the initial rate for such 50 words for each additional 10 words or less. The minimum charge for transmission over the Company's lines of any Day Letter will be 45 cents.

Day Letters shall be written in plain English, or may be written in French between offices in Canada. Code language is not permitted.

Day Letters may be forwarded by the Company as a deferred service, and the transmission and delivery of such Day Letters are, in all respects subordinate to the priority of transmission and delivery of full-rate messages.

Day Letters may be delivered by the Company by telephoning the same to the addressees, and such deliveries shall be a complete discharge of the obligation of the Company to deliver.

Day Letters are received subject to the express understanding and agreement that the Company does not undertake that a Day Letter shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such Day Letter on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above

NIGHT LETTERS

Accepted up to midnight for delivery on the morning of the next day after their date at places where the Company's offices are open on Sundays, and on the morning of the next ensuing business day at places where the Company's offices are not open on Sundays, at rates still lower than its standard night message rates as follows: The standard day rate for 10 words for the transmission of 50 words or less and one-fifth of the initial rate for such 50 words for each additional 10 words or less. The minimum charge for transmission over the Company's lines of any Night Letter will be 30 cents.

Night Letters shall be written in plain English, or may be written in French between offices in Canada. Code language is not permitted.

Night Letters may, at the option of the Company, be mailed at destination to the addressees, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such Night Letters at destination, postage prepaid.

Dear Sir:- Re-Chilco-Stone I.R.

With further reference to the claim of C. Bambrick in connection with the ditch and head works, I am attaching hereto copy of letter received from Mr. Indian Agent MacLeod dated the 14th instant. I think you gave me to understand recently that Mr. Spencer had acquired all rights-of-way through Bambrick's land for the ditch and intake on Big Creek. This is a matter which I think we should have some definite understanding about when discussing the Chilco Ranch matters with Mr. Spencer to-morrow.

WFD/KD.

W. E. Ditchburn, Esq.,
Chief Commissioner of Indian Affairs,
P.O. Box 666,
Victoria, B. C.

Dear Sir:-

Re: CHILCO RANCH AND STONY INDIAN RESERVE.

I enclose you copy of letter received from Mr. Martin Griffin on Saturday last.

Mr. Webb and myself have had many conferences together in regard to this matter, and as you are aware, find it very difficult to deal with Mr. Spencer as it seems almost impossible to satisfy him or keep him pinned down to any proposition.

We feel, as you no doubt do yourself, that it would be better to settle the difficulties which have arisen by a slight expenditure, if it can be done, rather than embroil the Government in a Law Suit which, in the final analysis, would be protracted and expensive. The final decision, however, as to whether Mr. Spencer should be met along the lines suggested by him, or with modifications, must rest with you or your Department, as both Mr. Webb and myself feel that neither of us has authority to finally settle the matter.

In regard to item number 1. of Mr. Griffin's letter, in view of the fact that during the past year Mr. Spencer found it necessary to put in some temporary control works at the Big Creek intake in order that the water level of the Creek might be raised sufficiently to allow water to flow into the Big Creek intake works, should a similar low water occur during the coming year, it will be necessary to have some temporary arrangement at least, to again put water into the Big Creek intake. This, of course, is a benefit to the Indian Department as well as Mr. Spencer, but it is possible that you may consider the cost of any such temporary work should be

Indian Affairs
(B.C. Records)

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

borne on the basis of the apportionment of water, that is, one-third to the Indian Department and two-thirds to Mr. Spencer.

In regard to item number 2. It might be well to call your attention to the fact that the written Agreement makes no provision for these dams. Unfortunately from our point of view, Mr. Nelson constructed these dams in Hutch Meadow and I presume the cost of it has been paid by the Government. This rather weakens the stand we have taken from the first that we are not concerned in the Hutch Meadows. Mr. Nelson undoubtedly acted in good faith and we must face the situation that we have done the construction work there. Mr. Spencer suggests that the cost of the proposed improvements under this heading be borne at a cost of two-thirds to himself and one-third to the Department. If we are responsible at all, his proposal is fair.

In regard to item number 3. If Mr. Spencer undertakes to bear the cost of this, we are not concerned with that phase of the matter except that should the Department recognise Mr. Spencer's right to close the Fletcher Lake Reservoir temporarily each year for the purpose of enabling the hay in Hutch Meadows to be cut as set out in item number 6. of Mr. Griffin's letter, the Indian Department will be without water during the time the Fletcher Lake Reservoir is closed, and as Mr.Spencer apparently wishes to be the sole judge as to when this closing should take place, we might find ourselves entirely at his mercy for a considerable period of time. In any event our past experience with Mr. Spencer would justify us in believing that any contraversy that might arise in the future through any action of his to which we are a consenting party, would result in further and prolonged disagreement.

It is well to bear in mind, however, that at all times previous Mr. Spencer has either had or has exercised the right to shut the water off in order to enable him to cut hay on the Hutch Meadows and we might possibly protect ourselves in a future agreement by defining the time if possible, and be in no worse position than we are at the present time. Furhher, it might be advisable for us to consider storing water ourselves below the Hutch Meadows, which would protect us during the time the water is turned off.

In regard to item number 4. Mr. Webb is of the opinion that this should not be a serious matter and as far

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

as we know now the boxes are effective for the purpose for which they were designed. In any event, the change, if necessary, might well be provided for by the Indian Department.

In regard to Item number 5. Mr. Webb and myself cannot, at the present time, see any great objection to it, but possibly something may occur to your own mind in connection with this matter.

I have already dealt with item number 6.

Mr. Spencer has been in Vancouver for a few days endeavouring to get Mr. Webb and myself to consent in some definite way to his suggestions, but as stated above, we could not assume the responsibility in the matter as it is one which your Department must take into careful consideration and your own views obtained.

Mr. Griffin in his letter states the whole agreement would have to be conditional on the Provincial Government being willing to grant the sites for the two lower reservoirs above referred to. This is an additional reason why nothing definite can be arranged.

We have suggested to Mr. Griffin that, in view of the fact that you are in Victoria, it might be well for Mr. Spencer to see you, especially since the Provincial Government must be consulted.

I can only add that if Mr. Spencer does make up his mind to interview you in the matter, it might be well for you to keep in mind the fact that his suggestions are not always consistent with his actions, but I have no doubt you are well able to take care of yourself!

Yours truly,

HNE:R

Dear Sir:-

re Chilco Ranch and Stony Indian Reserve

We have yours of the 10th inst., which we have discussed with Mr. Spencer and Mr. Murray.

Mr. Spencer greatly regrets your decision to insist upon a written proposal as though he was bringing forward something new for the consideration of the Department. This is by no means the case. The matters which were discussed by Mr. Webb and Mr. Spencer have arisen out of Mr. Spencer's complaints in regard to the manner in which the Department executed the work under the agreement and they arose out of a mutual desire of Mr. Webb and Mr. Spencer to find some way out of the litigation which appeared to be the only other solution of the difficulty.

Mr. Spencer and Mr. Webb talked over the heads of a proposal which we hoped would be acceptable to the Department but since that was discussed Mr. Murray had considerable discussion with Mr. Webb last night in consequence of which we have determined to submit not the proposal which was discussed at the ranch but other suggestions based in part on this conference. The proposal is as follows:-

1. That a rock-work fill be made in Big Creek similar to the one that Mr. Spencer put in last year, with the object of finding out whether this device will send the water down the ditch. If this idea is successful it would be supplemented later on with cribb work weighted with rocks of a more permanent character.

2. The three small dams in Hutch Meadow which were put in by the Department to hold back the surface water for use during the summer are to be improved so as to properly carry out the designed object.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3., Two small reservoirs are to be made lower down on Menton Creek below the Hutch Meadow by putting in dams. It will be necessary for the Department to give its consent to this idea and to assist in obtaining the reservoir sites from the Provincial Government.

4. The boxes on the Indian Reserve will have to be fixed so as to be effective for the purpose for which they were designed.

5. Mr. Spencer may possibly decide to apply to the Water Board for permission to transfer a portion of his Chilco Ranch water to his Deer Lake lots Nos. 132, 133, 3341, 3342 and 4592 and if he does decide to do this the Department are to consent thereto and to permit the outlet to the ditch to be inserted in Menton Creek.

6. The Department to recognize Mr. Spencer's right to close the Fletcher Lake reservoir temporarily for the purpose of enabling the hay in the Hutch Meadow to be cut.

If these headings are agreeable Mr. Spencer would be prepared to pay half the cost of item No. 1. He would agree that item No. 2 should be constructed as a work of repair under the agreement at a cost of two-thirds to himself and one-third to the Department. Mr. Spencer will himself bear the cost of item No. 3 and the Department would bear the sole cost of item No. 4.

Of course this whole agreement would have to be conditional on the Provincial Government being willing to grant the sites for the two lower reservoirs above referred to.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

per W.M.G.

WMG. P.S
Mr. Spencer will remain over until Monday to consider your reply.

Sir,

Re - Stone-Chilco System,
Cosen Spencer Dispute.

I am enclosing copy of a letter dated August 14th, from Mr.C.Spencer, which was today received in this office regarding a complaint from Mr. P.H.Fosbery of Big Creek, alleging damage by flooding on his lands, from Stone-Chilco irrigation system. Attached also is a copy of my letter of even date in reply to Mr.Spencer.

If you have any further comments to make in the matter, I would suggest that you communicate with Mr.Spencer.

I may say that I phoned Mr. J.N. Ellis's office this morning and find that he is in the East and will not return for another week or ten days.

Dear Sir:

I have received a letter from Mr.P.H.V. Fosbery, of Big Creek, complaining that the water we take from Big Creek is doing him considerable damage, as this is part of the works the Indian Department undertook to do. I must ask you to look into the matter.

Thanking you,

Yours faithfully,

(Sgd) C. Spencer.

Sir:

Your letter of August 14th has today been received, wherein you advise me that you have received a letter from Mr. P.H.V.Peabery of Big Creek, complaining that the water taken from Big Creek is doing him considerable damage. I may say that some time ago a letter was received in this office from Mr.Peabery in this regard and I am arranging to have Mr. Warren look into the matter and report on the situation.

I do not know what the attitude of the Department of Indian Affairs will be regarding the situation should any further works be required to protect Mr.Peabery from damage by the irrigation system but in view of the fact that two-thirds of the water passing through the system is yours it is reasonable to assume that you will bear your proportionate share, in any improvements which may be necessary.

Mr. Warren will call on you when in the district.

Yours very truly,

C.E.Webb

Vancouver, B.C.

Dear Sirs:

I wish to state that the water taken from Big Creek by the Indian Department for the irrigation of the Stoney Reserve and also by Mr. C. Spencer for the Irrigation of the Chilco Ranch, is doing me considerable damage and rendering my property practically worthless.

The lot in question is Lot 2119, Lillooet District, situated about 2½ miles from the ditch intake, and 300 yards above the storage lake.

I request that this situation shall be put right before the 30th day of November, 1926.

The necessary work consists of a ditch 5 ft. in depth and 6 ft. wide on bottom (to allow for caving) and 325 yards in length;

I should suggest that Mr. Nelson (Govt.water foreman) who thoroughly understands the situation should be put in charge of the work.

I have forwarded a facsimile of this letter to Mr C. Spencer.

Yours truly,

(Sgd) P. Fosbery.

Dear Sirs:-

I am in receipt of yours of the 21st July with reference to the Chilco Ranch. I note your remarks on the subject and shall certainly take care that no further work is undertaken by the Department without full investigation. We must, of course, as you say await Mr. Varcoe's report as to whether all has been done that the Indian Department was supposed to do under the agreement. As soon as I have any further information upon the matter I will let you know.

Thanking you for your communication.

Yours truly.

Dear Sir:-

Re: COSEN SPENCER & CHILCO RANCH.

I enclose you copy of letter I have received today from Mr. Webb, District Chief Engineer, for your perusal and consideration.

There is no question in my mind about the Agreement. It was never contemplated that negotiations between Spencer and the Indian Department were to extend to Hutch Meadows and I think the Indian Department has done all that was incumbent upon it to do in the matter, providing Mr. Varcoe's report is favourable. If, on the other hand, he decides that under the Agreement the works are not yet completed, of course there will be an obligation on the part of the Indian Department to complete.

The question as to whether the control dam should be built, is one of policy to be decided by your Department, and I would be glad to hear from you in connection with it. Outside of this phase of the matter it seems to me we should be very careful about undertaking to do anything in the future and if, in your opinion, further negotiations are opened up with a view to doing the work referred to by Mr. Webb, we should see that everything in the past is settled between the Department and Spencer.

Awaiting your reply,

Yours truly,

DEPARTMENT OF THE INTERIOR

Vancouver, B.C.
July 20, 1926.

Sir:

Re - Cosen Spencer Dispute, Stone-Chilco Irrigation System.

Under the agreement between the Department of Indian Affairs and Mr. CosenSpencer of the Chilco Ranch, certain works were to be carried out which were to be subject to the approval of Mr. C. Varcoe, Provincial Water Rights Engineer of Kamloops, and Mr. Cosen Spencer.

In June, 1925, Mr. Clifford Varcoe, Provincial Water Rights Engineer, made an inspection of the works of the system and as a result suggested several alterations. All alterations suggested by Mr. Varcoe were carefully carried out by this Service in the fall of the same year, and Mr. Varcoe duly notified of their completion.

Mr. Varcoe has just completed an inspection of the Stone-Chilco Irrigation system on which he was accompanied by Mr. Cosen Spencer, Mr. Indian Agent MacLeod and the undersigned. I feel confident that the works as now completed will meet with Mr. Varcoe's approval.

Mr. Varcoe wishes to know if it is the intention of the Indian Department to do any further works under the agreement with Mr. Cosen Spencer.

Due to the limited snowfall of last winter, all streams throughout British Columbia have been abnormally low during the present irrigation season. This is particularly true in the dry belt of the interor and Big Creek is no exception. On account of this general low water there was not a sufficient head at the Big Creek intake to supply the amount required for the joint system during the earlier part of the year. This condition was true of all other irrigation systems from Big Creek, not being confined to the Stone-Chilco System alone.

In view of this fact, it might be advisable for the Indian Department and Mr. C.Spencer to consider the advisability of constructing control works on Big Creek, to insure a sufficient head of water to supply their records at all stages of the creek. It would seem to me that this control dam is something outside of, and apart from the agreement between the Department and Mr. Spencer, but if it is deemed advisable to have this work done, it would be desirable to see what arrangements could be made towards that end. The experience in this locality, during the present year, would indicate that something should be done, although it has nothing to do with the original agreement.

When on my recent visit to the Stone-Chilco System I had a conference with Mr. Cosen Spencer which was entirely confidential and without prejudice, in an endeavour to arrive at some amicable settlement of the situation. Mr. Spencer is insistent that the ditching of the Hutch Meadows was contemplated under the agfeement, and suggests for the consideration of Department of Indian Affairs the construction of permanent control works at Big Creek Intake and storage reservoir or reservairs below the Hutch Meadows, of sufficient capacity to permit the closing of the Big Creek Intake at a date early enough to allow the maturing and cutting of hay on Hutch Meadows.

These storage works would require to hold sufficient water to supply irrigation requirements during the period the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Big Creek Intake was closed. Mr. Spencer is prepared to investigate the storage possibilities and estimate the cost of same. The cost of the whole including control works on Big Creek and storage to be borne equally by both parties.

My understanding is that the Department of Indian Affairs does not consider the draining of the Hutch Meadows does not consider the draining of the Hutch Meadows part of their agreement with Mr. C. Spencer, and in view of this, it would not be reasonable to expect the Department of Indian Affairs to bear any part of the costs of storage works below the Hutch Meadows. On the other hand, considering this year's exceptionally low water, it might be advisable to consider the construction of some control works at the Big Creek Intake as hereinbefore suggested. May I then, suggest that this matter receive the Indian Department's consideration, and presume that you will take the matter up with Mr. Indian Commissioner Ditchburn. Upon receiving Mr. Ditchburn's biews you will no doubt communicate with Mr.Cosen Spencer.

I would also draw your attention to the fact that on my visit to the Big Creek Intake on July 13th, I found that a dangerous situation had been created by the damming of Big Creek at intake works. This dam was put in early in the spring by Mr, Spencer. At the time of my visit on July 13th there was a head of 3.2 feet at intake works and a further rise of stream may destroy or damage the existing headworks due to presence of dam. In conversation with Mr. Spencer on that date I directed his attention to this, and acquainted him with the danger of the situation he had created.

Your obedient servant,

"C . E .Webb"

I would also draw your attention to the fact that on my visit to the Big Creek Intake on July 13th, I found that a dangerous situation had been created by the damming of Big Creek at intake works. This dam was put in early in the spring by Mr. Spencer. At the time of my visit on July 13th there was a head of 3.2 feet at intake works and a further rise of stream may destroy or damage the existing headworks due to presence of dam. In conversation with Mr. Spencer on that date I directed his attention to this, and acquainted him with the danger of the situation he had created.

Your obedient servant,

C.E.Webb
District Chief Engineer.

Sir: Re - Stone-Chilco Irrigation System

On my recent visit to the above works in company with Mr. C. Varcoe, Provincial Water Rights Engineer and Mr. Indian Agent MacLeod, I found that a temporary control works has been built across Big Creek at intake to irrigation system. These works were put in by Mr. Cosens Spencer. I was given to understand that Mr. Nelson, Irrigation Specialist of your Department assisted in the construction of same.

No instructions were given to Mr. Nelson by me, nor, so far as I know, from anyone with authority on my staff, to do any work of such nature at Big Creek.

At the time of my visit there was a head of 3.2 feet of water on the Big Creek intake gate which is at least 1.2 feet more than required. Should Big Creek rise higher than it was at the time of my visit there is every possibility of a considerable portion of the intake works being destroyed due to the obstruction which has been placed across Big Creek. This fact was brought to Mr. Spencer's attention.

Your obedient servant,

C.E.Webb
District Chief Engineer.

Sir:

Re Chilco Ranch - Stone Indian Reserve.

This will acknowledge the receipt of your letters of the 6th instant in regard to above mentioned question and also with the enclosure from Mr. Indian Agent MacLeod in regard to claim for compensation from Mr. C.J.Bambrick.

Mr. Webb left this morning for the Upper Country and it is his intention to accompany Mr. Varcoe on the inspection of the Irrigation Works on Stone Indian Reserve.

I am sending copies of your letters to Mr. Webb and no doubt you will hear further from him, in regard to these questions, as soon as he returns from the inspection of the Works.

Your obedient servant,

Dear Sir:-

Re Chilco Ranch - Stone Indian Reserve.

Having reference to the abovementioned subject, I beg to say that I have received a letter from Mr. Indian Agent MacLeod informing me that Mr. G.J. Rambrick is now looking for compensation for right-of-way of the ditch through his lands, on which he also claims the head-gate and dam are located.

Agent MacLeod has stated that he has written to Mr. Rambrick asking what compensation he expects.

I was rather of the opinion that all right-of-way matters had been adjusted satisfactorily, though I do not remember Mr. Rambrick's name ever being mentioned.

I am attaching hereto a copy of Mr. Rambrick's letter to Agent MacLeod and no doubt we will hear further on the subject later on.

Enclosure:-

Dear Sir:-

Re: Your File 30/16/7311.
CHILCO RANCH STONE INDIAN RESERVE.

I have your letter of the 21st inst., in regard to the subpoena issued to Mr. McLeod in connection with the legal action of H. E. Church vs. Cosen Spencer.

I think it is very dangerous for Mr. McLeod to produce any documents in Court in which the Indian Department or any other branch of the Government is connected, in the absence of Counsel acting for the Government.

Mr. McLeod must, of course, obey the summons to attend the Court, but should take the stand that he objects to produce any correspondence affecting the rights of his principals.

I cannot see how any Agreement between the Indian Department and Spencer has any bearing on a row between Spencer and Church, and the same applies to any Agreement between the IndianDepartment and Church, as we are not a party to the suit between Spencer and Church.

Mr. McLeod cannot produce any documents he has not got in his possession and we certainly should not supply him with anything he has not got. Spencer's Counsel cannot put in as evidence copies of these without subpoenaing the persons who are in custody of the originals. The main thing is, I think, that we want to be very careful not to allow anything to go in the evidence which might prejudice our own position, especially since we have no one there to protect our rights.

I enclose copy of letter I have written to Mr. McLeod.

Dear Sir:-

Re: SPENCER vs. CHURCH.

Mr. W. E. Ditchburn, Indian Commissioner for B.C. Has written to me in regard to the subpoena served on you in connection with the above action.

It is your duty to answer the subpoena by being present in Court. I am not aware, however, that you have any original documents in your possession with regard to the matters between Spencer and the Indian Department or between Church and the Indian Department, and you cannot produce what you have not got in your possession. These documents are in the possession of other parties who should be subpoenaed for their production. You certainly have no right to produce copies of any documents when the originals are in existance, and the IndianDepartment or any other branch of the Government must be protected. You must therefore refuse to produce mere copies of something coming into your possession, not from the original owners.

I think the stand therefore for you to take is to answer the subpoena by being present in Court but to refuse to produce anything on the advice of Counsel.

You are entitled to your witness fees and your costs of getting to the place of Trial and your return.

Yours truly,

JME:R

June 21, 1926.

Dear Sir:-

Re--Chilco Ranch - Stone Indian Reserve.

I have to-day received a letter from Mr. Indian Agent MacLeod informing me that he has been subpoenaed as a witness in a legal action of H.E. Church vs. Cosens Spencer which is to be heard at Williams Lake on the 28th instant. Agent MacLeod has been requested to produce certain documents and he has asked my advice in this connection.

With regard to the agreement with Mr. Church for a right-of-way through his property for the Indians' portion of the ditch dated 11th June, 1924, which also covers the payment of damages to his land in the event of the same being flooded, I beg to point out that this only covered the obligations of this Department, as it was strictly understood that Cosens Spencer had an agreement of the same character with Mr. Church. The original documents are either with yourself or with the District Chief Engineer of the Dominion Water Powers Branch, Mr. Webb, and I do not think Mr. MacLeod will be in a position to produce them at the trial. I hardly think he has a copy. I may say, however, that I am rather inclined to the opinion that this agreement was not sent to Ottawa for the signature of the Superintendent General, but recognizing that we were partially responsible for the flooding of a portion of Mr. Church's land which took place in 1925, a cheque for $75.00 was paid on the 4th February last and acknowledged by him on the 17th February.

I do not know just how to advise Indian Agent MacLeod with regard to this matter, and I, therefore, wish you to do so as the legal adviser of this Department. It appears to me, though, that he will have to respond to the subpoena and possibly it might be just as well for him to have a copy of our agreement with Mr. Church which would clear up the point as to how far this Department was responsible for compensation in connection with the flooding of his land last year.

In the letter of Martin Griffin to myself of the 28th May, of which I forwarded to you a copy, re-

ference

ference is made to a letter of Duncan C. Scott written to Mr. Spencer and attached to the joint agreement for the construction of the Big Creek ditch and works. This had reference to the acquiring of our portion of the right-of-way of the ditch only, and I can not see that Spencer or his legal advisers can read into it anything which would make my Department responsible for anything more than compensation for the extra width required for carrying the Indian water over what it would be for Spencer's requirements. In the event of you not having a copy of this letter on your file, I am attaching hereto a copy for your information. Possibly you might feel disposed to furnish Agent MacLeod with a copy of this document also.

Dear Sir:-

Re: Spencer vs Church.

Please find herewith Witness Summons for you to attend the trial of the above action, and I should be glad if you would acknowledge its receipt.

Mr. Spencer has informed me that you would attend if summoned, and I therefore take it that you are accepting the summons enclosed. I do not know whether or not Mr. Spencer made any arrangements with you about expenses, or what expenses, if any, you desire advanced. As time is getting short and mail service is infrequent, perhaps it would be as well if you would Night-letter me what arrangements you would desire me to make.

Mr. Church's Solicitor has informed me that he will call for the production at the trial, of every document pertaining to water passing through Lot 989, and Mr. Spencer desires very particularly your correspondence relating to the settlement with Mr. Church of damages to Lot 989 through flooding.

Now that you are formally notified that your attendance as a witness is called for, would it be possible for you to let me have a list of the papers you can produce and a note of the evidence you can give so that I might line up your evidence. It would be a convenience if that was possible.

Yours truly,

RJA:MV. R.J.Avison.

Dear Sir:-

Re Chilco Ranch - Stone Indian Reserve.

I beg to acknowledge receipt of your letter of the 5th instant with enclosure of a copy of a letter written by W.Martin Griffin, representing Owen Spencer, to Clifford Varcoe, the District Engineer, at Nanaimo, of which Messrs. Ellis and Brown also received a copy.

It is evident that it is the idea of Mr. Spencer and also Mr. Griffin to lay claim to the fact that the headworks at Big Creek and the whole system were not scientifically constructed by your Branch in view of the fact that during the present abnormally dry season, Big Creek did not have the usual flow in it. I think it can be taken for granted that when the headworks were put in they were constructed at a sufficiently low level to ensure safety against any ravages that might take place during the period of high water.

It is unfortunate that Mr. Varcoe has not been able, so far, to make in inspection of the work, but apparently it is proposed to do so at an early date, and it is important that you, as District Chief Engineer of the Dominion Water Power Branch, should accompany him on his trip of inspection.

I do not know just how Mr. Varcoe will take this letter from Mr. Griffin, as it has an inclination of dictating to him what his duties are.

Your obedient servant,

W.E.Ditchburn.

July 2, 1926.

Clifford Varcoe, Esq.,
District Engineer,
Kamloops, B.C.

Dear Sir:-

re Chilco Ranch and the Department of Indian Affairs.

I had occasion to be at Williams Lake on the 28th June and had a consultation with Mr. Spencer in regard to the works executed by the Superintendent General of Indian Affairs under the agreement of the 28th October 1925 entered into between himself and Mr. Spencer.

These works have absolutely failed in their purpose this Spring as I am instructed. It appears, for example, that the intake was not low enough to reach the water in Big Creek in the month of May although there was plenty of water in the Creek, with the result that practically nothing, if anything, reached the Chilco Ranch.

It further apppears that Mr. H. E. Church of Big Creek asserts that water went under the box at the latter half of November last and ran down into his meadow, Lot 2166 and caused him $675 worth of damage. For this he sued Mr. Spencer and the case came on before Judge Calder at Williams Lake on the 28th June. Mr. Church at the trial supported this statement with his evidence. If this evidence is true then it is clear the box was not properly constructed. There was of course evidence to the contrary but the Judge's decision has not yet been given and if he should decide that the water did go under the box then clearly it was not properly constructed.

I arranged a consultation with Mr. Ellis of Ellis & Brown and Mr. Webb of the Water Rights Branch today and we discussed these matters and the question of the Hutch Meadow works and it is plain that the Indian Department and Mr.Spencer are far apart in their interpretation of the agreement and

Indian Affairs

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in their opinion of the works executed under it.

During the conversation Mr.Webb intimated that you were proposing to go up to Big Creek next week and it may be that on this visit you intend to inspect these works with a view to deciding whether they are or are not done to your satisfaction under Clause 7 of the agreement above mentioned. This agreement provides "that the work should be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia and of Mr. Spencer." If it is your intention to make an inspection with a view to a decision as to whether these works are or are not to your satisfaction, will you on your visit inform Mr. Spencer that it is your intention to make an inspection with this object in order that he, on his part, may have an opportunity to present to you his views?

There is one matter which we specially want to mention and even if we are repeating what we have said in previous letters we trust that you will not object to the repetition as it is an important matter and living so far away we are deprived of the opportunity of calling personally upon you. Our submission is that a ditch is not satisfactory even if it is well dug and even if it is dug in the proper place unless, for example, it is deep enough to reach the place where the water is and is deep enough to deliver the water at the place where it is to be used. In other words our argument is that this agreement is to be interpreted by the aim and object which the parties had - which is the delivery of water on the Reserve and on the Chilco Ranch, and the system would not be satisfactory unless it did this. Therefore no part of the system is satisfactory unless the net result of the whole thing is to deliver the water. A dam, or a gate or a flume or a box might be perfectly well constructed merely as works of carpentry or engineering but if so situated that they could not deliver the water then they would be valueless for the purpose which had to be achieved and therefore should not be to your satisfaction.

I am sending a copy of this letter to Messrs.

Dear Sir:- Re-Chilco Ranch.

I have received a letter from Messrs. Griffin, Montgomery & Smith, with further reference to the Chilco Ranch and referring particularly to your refusal to supply that firm with the information which they sought. It is noted that they have forwarded to you a copy of their communication.

Apparently they would now like to bring us into the lawsuit between Mr. Spencer and Mr. Church, but I cannot see that we should have anything to do with it at all.

Attached hereto please find copy of my letter to Messrs. Griffin, Montgomery & Smith, but as you will see I merely referred to the lack of co-operation on the part of Mr. Spencer and set forth very pertinent facts.

WED/ED.

Enclosure:-

Yours truly,

W. E. Ditchburn.
Indian Commissioner for B. C.

May 29, 1926.

Dear Sirs:- Re-Chilco Ranche.

I have your letter of the 28th instant in which you inform me that Messrs. Ellis & Brown consider it impossible to furnish you with the information you desire .

In reply I beg to say that I do not wish to make any comment on any action taken by my Department's legal advisers, but I do feel free, however, to express myself on the points you mention in the second paragraph of your communication in which you appear to think that the reply of Messrs. Ellis & Brown indicates an unfriendly attitude by my Department towards your client and you suggest that there should be close co-operation between my Department and Mr. Spencer with regard to their mutual rights in the Big Creek water scheme. In this connection I may say that when this scheme was constructed, most unfortunate for my Department before any written agreement was drawn up, we took it for granted that we would have close co-operation from Mr. Spencer with regard to the respective rights of the Indians and your client.

Our experience, however, has proved disastrously expensive, for as a matter of fact the system has cost my Department in the neighborhood of $5,000.00 as against about $750.00 on the part of Mr. Spencer and yet your client does not appear to be satisfied notwithstanding the fact that the water flowing through the Big Creek system is allotted as one-third of the flow for the Stone Indian Reserve and two-thirds for the Chilco Ranch.

WFD/KD.

Yours truly,

Messrs. Griffin, Montgomery & Smith,

H.

W. E. Ditchburn, Esq.,
Indian Commissioner for British Columbia,
P.O.Box 666,
Victoria, B. C.

Dear Sir:-

re Chilco Ranch

We received in due course yours of the 10th May referring us to Mr. Ellis in connection with certain information we wanted on behalf of Mr. Spencer and we regret to say that by a letter of 6th May Messrs. Ellis & Brown say that it is impossible for the Department of Indian Affairs to give us the information asked for and we take it that this is a refusal to give it as we do not suppose they mean that it is actually impossible.

We greatly regret this attitude taken by the Department as it indicates an unfriendly attitude and as a matter of fact close co-operation should exist between the Department and Mr. Spencer with regard to their mutual rights in the Big Creek water system.

However, in the meantime we beg to call your attention to the letter of Mr. Duncan C. Scott, the Deputy Superintendent General of Indian Affairs, written to Mr. Spencer on the 27th October, 1923, in which he makes the following statement:-

> "For your protection it is clearly understood that if any one or more of the owners of the land in or upon which any of the works are constructed claim compensation for the right to the Indians to carry water to the Reserve through or over their land such compensation shall be payable by the Department of Indian Affairs only."

We beg to advise you that in the action of Spencer vs. Church now pending in the County Court of Cariboo at Quesnel Mr. Church has filed a counterclaim for $675 for damages caused by waters from Big CReek which are said to have been allowed to run

Indian Affairs

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

through the ditch between the 15th November 1925 and 30th March 1926. On behalf of Mr. Spencer we beg to say that his view is that if this water did run down the ditch (which he denies) it was allowed to run down solely by the fault of your Department and in any case under the letter of 27th October, 1923 the Department have accepted responsibility for all such damages and if Mr. Spencer is held liable in the action he will look to the Department or to His Majesty the King to re-imburse him in any amount that he may be forced to pay together with the costs that he may have to pay and his own costs and expenses.

The trial is to take place some time in June at Quesnel but the exact date we do not know; the same could be ascertained from the Clerk of the Court. We invite the assistance of the Department in defending the action and would be glad to have them take part therein and would be glad to receive suggestions or assistance in the conduct of it. We are further instructed to say that if you wish to take over the defence of it and conduct it at the expense of the Department and indemnify Mr. Spencer from responsibility therefor we will turn over the conduct of the matter to Messrs. Ellis & Brown or whomever you may appoint to take charge of the matter. We are sending a copy of this letter to Messrs. Ellis & Brown for their information.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

XXXX Dear Mr. Spencer,

This is to acknowledge receipt of your letter of May 11th in reference to Chilco Ranch and Stone Reserve irrigation system. In reply I would say that this is to notify you that this system as far as you are concerned has always been unsatisfactory and according to the terms of our agreement you are to bear the greatest share of the upkeep, in which matter you have heretofore failed.

It is therefore desirable that you should in future comply with the terms of our agreement. You would in that case be able to rectify the nightmare in which you claim my Engineer left the system. Your engineer would also be better employed probably than surveying the irrigable land on the Stone Indian Reserve in which matter he had no jurisdiction. The accounts you mention will be viewed according to authority, all of which I respectfully submit for your consideration.

Yours cordially,

(E. MacLeod)

Re: Your number 30/16/7039.
COSEN SPENCER-CHILCO RANCH.

I have your letter of the 3rd instant herein.

You are taking absolutely the correct stand in the matter. I would not give Mr. Griffin any of the information he asks for, as I have no doubt it would be used against us in the future if it is at all possible to do so.

I think possibly the best thing for you to do (or I could do it for you if you like) is simply to write to Mr. Griffin stating that it is impossible to give him the information asked for, without assigning any reasons why. There is no use getting into correspondence with him over the matter.

Yours truly,

Dear Sir:-

Re - Mr. Cosens Spencer,
Chilco Ranch.

I am attaching hereto correspondence received from Mr. Webb, of theDominion Water Power Branch, referring to the agreement which this Department has with Mr. H.E. Church, of Big Creek, for compensation for flooding his land on Lot 2116. A copy of the Agreement in this regard is also attached for your information.

I understand that Cosen Spencer also has a n agreement with Mr. Church of a like nature which was put into effect some years prior to the one with this Department.

We paid Mr. Church $75.00 for alleged damages to his land through flooding some months ago, and receipt of this amount was acknowledged.

I do not know anything about what statements Indian Agent MacLeod or Engineer Warren may have made to Mr. Church, when they went to see him, but the money was paid because Mr. Warren reported that there had been a damage.

It is hard to know just what Mr. W.Martin Griffin is trying to get at, but it has occurred to me that he is endeavouring to relieve Mr. Spencer of any responsibility in connection with the flooding of Mr. Spencer's land, and I do not think that he should be given any information which might strengthen his hand in such a claim.

Your obedient servant,

C.E.Webb, Esq.,
Acting District Engineer,
Dominion Water Power Branch,
119 Pender Street,West,
Vancouver, B.C.

Dear Sir:

Re - Mr. Cosens Spencer

Mr. Cosens Spencer I see is having a dispute with Herbert E. Church of Big Creek in regard to water which Mr. Church claims continued running after the 15th November last from Big Creek through Church's lot No.2116, and which by flooding the said lot did harm to his hay.

An agreement exists between Mr. Spencer and Mr. Church allowing the passage of the water and providing for a penalty of $5 per day if water is allowed to run through between the 15th November and the 30th March and we believe that a similar agreement exists between your Department and Mr. Church.

Church apparently made his complaint on the 26th November last and we believe that last year Mr.McLeod and Mr.Warren, the engineers who had installed the new headgates at Big Creek, went up and saw Church and evidently he must have made a claim on the Department because they settled it by paying him $75.00. I should be very much obliged if you could, on behalf of Mr. Spencer, obtain for me the following information:

1. Copy of the contract between you (or the Indian Department) and Mr. Church.

2. Copy of the correspondence passing between Church and the Department in regard to his claim for damages.

3. Statement of Messrs. McLeod and Warren as to the conversation they had with Mr. Church when they went to see him.

4. Copy of the receipt or release or whatever document they got from Church when they paid him the $75.00.

5. Memo of any information you have from any source as to whether in fact water did go through Church's lot from Big Creek as he claims.

We have evidence that the head-gate was locked on the 10th November and was inspected on the 2nd December and found locked and was inspected again on the 19th April and found still locked.

Agreement in writing made between him and the Party hereto of the First Part, obtained permission from the Party of the First Part tocarry water over the said Lots of the said Party of the First Part.

AND WHEREAS the Party hereto of the Second Part is desirous of obtaining like permission.

NOW THEREFORE THIS AGREEMENT WITNESSETH and it is hereby covenanted and agreed by and between the Parties hereto as follows:-

1. The Party of the First Part, for himself, his heirs, executors and assigns, in consideration of the payment of One Hundred Dollars ($100.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth hereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Three Thousand, Two Hundred and Seventy-Five (3275), through siad irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Three Thousand, Two Hundred and Seventy-Five (3275) for the purpose of carrying and conveying the water as aforesaid.

2. The Party of the First Part, for himself his heirs, executors and assigns, in consideration of the payment of One Hundred and Fifty Dollars ($150.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth hereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Two Thousand, One Hundred and sixteen

(2116), through said irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Two Thousand, One Hundred and Sixteen (2116) for the purpose of carrying and conveying the water as aforesaid.

3. The Party of the First Part doth hereby for himself, his heirs, executors and assigns, grant to the Party of the Second Part, the right for himself and his agents, servants, and workmen, from time to time and so often as may be necessary, and with such horses, implements and machinery as he may think advisable to enter upon the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) for the purpose of clearing out, repairing, improving or enlarging said irrigation ditch or other works, whereby the said water may be carried or conducted, or for managing or conducting the flow of water over or through the said lots.

4. The Party of the Second Part doth hereby covenant and agree to and with the Party of the First Part, his heirs, executors and assigns, owners for the time being of the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275), and Two Thousand, One Hundred and Sixteen (2116), or either of them or any part or parts of either of them, that he, the said Party of the Second Part will not, from the 15th day of November, in any year, until the 1st day of March then following, by any act of his own, allow any water from Big Creek, to pass through or over the said lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) or either of them, unless said water is carried in ditches

or flumes and so as not to flood the said lots. And in the event of any water being so carried during the said period and flooding the said lots or either of them, he, the said Party of the Second Part will pay to the said Party of the First Part, his heirs, executors, or assigns, owners for the time being of lots numbered Three Thousand Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) or such parts thereof as may be flooded, the sum of Five Dollars ($5.00) for each day during which the water from Big Creek brought on the said lands by the said Party of the Second Part, is allowed to remain.

5. This Agreement and the covenants herein contained shall be binding upon the said parties hereto, their heirs, executors, administrators, successors and assigns, and shall be construed as a covenant running with the said lands, to wit, Lots numbered Three Thousand, Two Hundred and Seventy-five and Two Thousand, One Hundred and Sixteen (3275 and 2116), in the District of Lillooet, Province of British Columbia.

6. This Agreement shall enure to the benefit of and be binding upon the said Parties hereto, their heirs, executors, administrators, successors and assigns.

FOR MAKER (including MARRIED WOMEN)

I hereby certify that, on the 16th day of July, 1924, at Chilco Ranch Herbert Edmund Church personally known to me, appeared before me and acknowledged to me that he is the person mentioned in the annexed instrument as the maker thereof, and whose name is subscribed thereto as party, that he knows the contents thereof, and that he executed the same voluntarily, and is of the full age of twenty-one years.

In testimony whereof I have hereunto set my Hand and Seal of Office, at Chilco Ranch, in the Province of British Columbia, this 16th day of July, in the year of our Lord, one thousand nine hundred and twenty-four.

I.H. Wright J.P. for B.C.
A Notary Public in and for the Prov. of British Columbia

Dear Sir:

Re - Cosens Spencer, Chilco Ranch.

I am enclosing copy of a letter dated April 30th from Mr. W. Martin Griffin, wherein he states that Mr.C. Spencer is having a dispute with Mr. Herbert Church of Big Creek with regard to water which Mr. Church claims continued running after the 15th of November from Big Creek, doing damage to Church's hay on Lot 2116.

You will note that Mr. Griffin requests certain information regarding agreement between the Department of Indian Affairs and Church covering much the same matter.

Enclosed also is my reply of even date to Mr. W.M. Griffin wherein I advise him that matters referred to in his letter come under your jurisdiction as Commissioner of Indian Affairs for British Columbia.

May I suggest that you refer Mr. W. Martin Griffin's letter to Mr. J.H. Ellis, K.C. before replying.

Yours very truly,

(Sgd.) C.H. Webb

Sir:

Re - Mr. Cousen Spencer, Big Creek.

Acknowledgement is made of your letter of the 30th ult. from which I gather that Mr. Cousen Spencer of the Chilco Ranch is having a dispute with Mr. Herbert Church of Big Creek in regard to water which Mr. Church claims continued running after the 15th of November through Mr. Church's lot No. 2116, and which by flooding said lot damaged his hay.

It is noted that your letter contains requests for certain information and I am today referring same to Mr. W.E.Ditchburn, Commissioner of Indian Affairs, who has jurisdiction over these matters for the Department of Indian Affairs.

Yours truly,

C.E.Webb

District Chief Engineer.

Dear Sir:-

Re - Mr. Cosens Spencer.

Mr. Cosens Spencer I see is having a dispute with Herbert E. Church of Big Creek in regard to water which Mr. Church claims continued running after the 15th November last from Big Creek through Church's lot No. 2116, and which by flooding the said lot did harm to his hay.

An agreement exists between Mr. Spencer and Mr. Church allowing the passage of the water and providing for a penalty of $5 per day if water is allowed to run through between the 15th November and the 30th March and we believe that a similar agreement exists between your Department and Mr. Church.

Church apparently made his complaint on the 26th November last and we believe that last year Mr. McLeod and Mr. Warren, the engineers who had installed the new headgates at Big Creek, went up and saw Church and evidently he must have made a claim on the Department because they settled it by paying him $75.00. I should be very much obliged if you could, on behalf of Mr. Spencer, obtain for me the following information:

1. Copy of the contract between you (or the Indian Department) and Mr. Church.

2. Copy of the correspondence passing between Church and the Department in regard to his claim for damages.

3. Statement of Messrs. McLeod and Warren as to the conversation they had with Mr. Church when they went to see him.

4. Copy of the receipt or release or whatever document they got from Church when they paid him the $75.00.

5. Memo of any information you have from any source as to whether in fact water did go through Church's lot from Big Creek as he claims.

We have evidence that the head-gate was locked on the 10th November and was inspected on the 2nd December and found locked and was inspected again on the 19th April and found still locked.

If you could assist us in the above matter we would be much indebted to you.

Yours truly,

W.Martin Griffin.

Sir:-

Re-Stone Indian Reserve-Chilco Ranch Irrigation System.

I beg to submit herewith Voucher No. 117-A for $75.00 in favor of H. E. Church, Esq., of Big Creek P. O., B. C., as damages for flooding Lot 2116 for fifteen days from 15th November last by reason of the fact that the water from Big Creek in the Stone Indian Reserve-Chilco Ranch ditch was not shut off early enough to prevent the flooding. This, however, was unavoidable owing to certain repairs that had to be done which prevented the filling of the Fletcher Lake reservoir earlier in the season. This penalty is in accordance with the Agreement made with Mr. Church on the 11th June, 1924. Under a separate Agreement between Mr. Church and Mr. Cosens Spencer, the owner of Chilco Ranch, Mr. Spencer will also have to pay $75.00.

I would respectfully recommend that the account should be paid, the cheque being sent to this office so that I may turn the same over to Mr. Church and take his receipt therefor.

Attached hereto please find copies of correspondence and Agreements referring to this subject.

WED/KD.

Dear Sir:-

RE: STONE CHILCO RANCH IRRIGATION SYSTEM.

I am in receipt of your letter of the 7th instant, enclosing copy of Mr. Warren's Memorandum.

A few days ago I received a letter from Mr. Church stating he was claiming $75.00. It seems to me that, under the circumstances, it would be advisable to pay this amount and be done with him.

Yours truly,
(Sgd) J. N. Ellis.

Vancouver, B. C.,
January 6, [illegible].

Memorandum for Mr. Webb

In respect to Mr. Church's claim for damages resulting from the flooding of his meadow in Lot 2116 by leakage through the intake works of the Stone I.R.-Chilco Ranch Joint irrigation system at Big Creek, I wish to advise you that in company with Indian Agent MacLeod I made an inspection and interviewed Mr. Church on December 29th, 1925.

At the intake works I found that leakage had occurred through the gates and not to any extent around the culvert, so far as I was able to determine from the appearance of the soil around the culvert box. The leakage through the gates was due in part to the fact that they were not completely closed and did not seem to fit closely enough at the sides. It was impossible to make a thorough investigation into all the causes of leakage due to the presence of about 18 inches of ice on the upstream side of the gates and about 6 inches of ice below the gates. There was no water in the intake channel at the time of my investigation.

I went over Mr. Church's meadow along with him and Mr. MacLeod and found considerable ice on the surface in places. Mr. Church estimated the area at fifty acres but I should judge that twenty acres would be a liberal estimate of the area flooded. However, Mr. Church does not base his claim on the area flooded but rather on the length of time water was flowing into the meadow which he places at 15 days, from the 15th of November to 1st of December, at the prescribed penalty of $5.00 per day.

It is very unusual for Big Creek to be high enough to flow through the intake works at the time of the year the flooding occurred. It is due to the early ice formation in the upper reaches of the stream which breaks loose on account of late mild weather and jams in the stream lower down. In this case the jam occurred at the intake where there is a natural control. The water was backed-up to almost normal summer level and stood two feet high on the gates. At the time the gates were installed about six weeks previous to the flooding there was no water in the intake channel to test them.

The ditch from Big Creek ceases shortly after entering Mr. Church's lot No. 2116 and for almost a mile no definite continuous channel exists through this flat meadow. It is quite evident that a small quantity of water under such conditions may cover a considerable area, and owing to the heavy frost at the time, the spreading occurred to a greater extent.

Mr. Church informed me that he had notified Mr. Spencer of the leakage when it first occurred but that no action had been taken to remedy the situation, in consequence he was making the claim for damages.

Mr. Church readily agreed to take the necessary steps to stop any leakage in future.

There is no doubt of validity of Mr. Church's claim and I think under the circumstances it is reasonable. I

would

Indian Affairs

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

would, however, recommend that settlement be held in abeyance awaiting the outcome of a possible action against Spencer by Church. Spencer has apparently neglected to take action on Church's notification. At the same time he has failed to see that the gates were properly closed and locked, after making the request that the gates be provided with locks.

I would further recommend that Mr. Nelson be notified of the necessity of testing the gates during the high water period next season and of taking the necessary precautions to see that gates are so adjusted as to prevent future leaks. I believe there are sufficient funds available for this work as well as for the Fletcher Lake Spillway.

BIG CREEK, B. C.

Dec. 29/25.

W. E. Ditchburn, Esq.,
Indian Commissioner,
Victoria, B. C.

Dear Sir:-

In reference to the flooding of my pasture land (lot 2116) by water from the ditch belonging to the Indian Department and C. Spencer (Chilco Ranch).

Mr. Warren (Dominion Water Power Branch) and Mr. MacLeod (Indian Agent, Clinton) were here today and looked over the ground; Mr. Warren told me that I had better write to you and send a statement of what I claim in the matter.

The water was actually running for fifteen days after November 15, and I am willing to accept $5.00 per day for that time (total $75.00) from the Indian Department in satisfaction of my claim against them; I am asking a further payment from C. Spencer and consider that the two payments will cover the damage that has been caused me.

I should perhaps explain that the date November 15 set in the agreement as the date for shutting off the water was expressly set so that I could use the land for winter pasture, and a large portion of this pasture is now partially spoiled by the ice formed from the flooding.

Yours truly,

(Sgd) H. E. Church.

Big Creek P. O.,
B. C.
November 30, 1925.

The District Chief Engineer,
Dominion Water Power Branch,
119 Pender Street, West,
Vancouver, B. C.

Re-Right of way granted to Indian Department for water over Lots 3275 and 2116.

Dear Sir:-

This is to inform you that water is still running through your ditch and flooding on Lot 2116. The gate was closed down just before November 15th by C. Spencer, but there is enough water leaking round or under the head gate box to cause a good deal of flooding which has now become ice on Lot 2116.

I believe that there is a clause in the agreement granting a right-of-way, by which you undertake not to allow any water from Big Creek to flood either Lot 3275 or Lot 2116 between November 15th and March 30th, under a penalty of $5.00 per day.

I presume that you acknowledge your liability under this agreement and that you will need some proof of the facts; accordingly I have asked Major F.B. Hart, M.C.F.R.C.S., to inspect Lot 2116 and he is prepared to speak as to conditions on the day he inspected the Lot 2116 (November 27, 1925).

Kindly let me hear from you at your earliest convenience, and oblige

Yours truly,

(Sgd) H. E. Church.

MEMORANDUM OF AGREEMENT made this 11th day of June, in the year of Our Lord, One Thousand, Nine Hundred and twenty-four.

B E T W E E N:

HERBERT EDMUND CHURCH, of Big Creek Post Office, in the District of Lillooet, in the Province of British Columbia, Farmer, hereinafter called the 'PARTY OF THE FIRST PART'

OF THE FIRST PART:

- A N D -

HIS MAJESTY THE KING represented by the Superintendent General of Indian Affairs, hereinafter called the 'PARTY OF THE SECOND PART'

OF THE SECOND PART:

WHEREAS the Party of the First Part is the Owner of Lots numbered Three Thousand, Two Hundred and Seventy-five (3275), and Two Thousand, One Hundred and Sixteen (2116) in the District of Lillooet, in the Province of British Columbia.

AND WHEREAS the Party of the Second Part has entered into an Agreement with one, Cosens Spencer, of [illegible] Ranch, in the Province of British Columbia, for the joint usage of a certain irrigation ditch more particularly described in the said Agreement between the Party of the Second Part and the said Cosens Spencer.

AND WHEREAS the diversion of water from Big Creek in the Province of British Columbia, to be used jointly by the said Party of the Second Part and the said Cosens Spencer as aforesaid shall flow through or over the said Lots of the Party of the First Part.

AND WHEREAS the said Cosens Spencer has by an Agreement in writing made between him and the Party hereto of the First Part, obtained permission from the Party of the First Part to carry water over the said Lots of the said Party of the First Part.

AND WHEREAS the Party hereto of the Second Part is desirous of obtaining like permission.

NOW THEREFORE THIS AGREEMENT WITNESSETH and it is hereby covenanted and agreed by and between the Parties hereto as follows:-

1. The Party of the First Part, for himself, his heirs, executors and assigns, in consideration of the payment

of One Hundred Dollars ($100.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth hereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Three Thousand, Two Hundred and Seventy-Five (3275), through said irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Three Thousand, Two Hundred and Seventy-Five (3275) for the purpose of carrying and conveying the water as aforesaid.

2. The Party of the First Part, for himself his heirs, executors and assigns, in consideration of the payment of One Hundred and Fifty Dollars ($150.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth hereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Two Thousand, One Hundred and sixteen (2116), through said irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Two Thousand, One Hundred and Sixteen (2116) for the purpose of carrying and conveying the water as aforesaid.

3. The Party of the First Part doth hereby for himself, his heirs, executors and assigns, grant to the Party of the Second Part, the right for himself and his agents, servants, and workmen, from time to time and so often as may be necessary, and with such horses, implements and machinery as he may think advisable to enter upon the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) for the purpose of clearing out, repairing, improving or enlarging said irrigation ditch or other works, whereby the said water may be carried or conducted, or for managing or conducting the flow of water over or through the said lots.

4. The Party of the Second Part doth hereby covenant and agree to and with the Party of the First Part, his heirs, executors and assigns, owners for the time being of the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275), and Two Thousand, One Hundred and Sixteen (2116), or either of them or any part or parts of either of them, that he, the said Party of the Second Part will not, from the 15th day of November, in any year, until the 1st day of March then following, by any act of his own, allow any water from Big Creek, to pass through or over the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) or either of them, unless said water is carried in ditches

or flumes and so as not to flood the said Lots. And in the event of any water being so carried during the said period and flooding the said lots or either of them, he, the said Party of the Second Part will pay to the said Party of the First Part, his heirs, executors, or assigns, owners for the time being of lots numbered Three Thousand Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) or such parts thereof as may be flooded, the sum of Five Dollars ($5.00) for each day during which the water from Big Creek brought on the said lands by the said Party of the Second Part, is allowed to remain.

5. This Agreement and the covenants herein contained shall be binding upon the said parties hereto, their heirs, executors, administrators, successors and assigns, and shall be construed as a covenant running with the said lands, to wit, Lots numbered Three Thousand, Two Hundred and Seventy-five and Two Thousand, One Hundred and Sixteen (3275 and 2116), in the District of Lillooet, Province of British Columbia.

6. This Agreement shall enure to the benefit of and be binding upon the said Parties hereto, their heirs, executors, administrators, successors and assigns.

FOR MAKER (including MARRIED WOMEN)

I hereby certify that, on the 16th day of July, 1924, at Chilco Ranch Herbert Edmund Church personally known to me, appeared before me and acknowledged to me that he is the person mentioned in the annexed instrument as the maker thereof, and whose name is subscribed thereto as party, that he knows the contents thereof, and that he executed the same voluntarily, and is of the full age of twenty-one years.

In testimony whereof I have hereunto set my Hand and Seal of Office, at Chilco Ranch, in the Province of British Columbia, this 16th day of [illegible], in the year of Our Lord, one thousand nine hundred and twenty-four.

I.H. Wright J.P. for B.C.
A Notary Public in and for the Prov. of British Columbia.
A Commissioner for taking affidavits within British Columbia.

IN WITNESS WHEREOF the Parties hereto have hereunto set their hands and seals the day and year first above written.

SIGNED, SEALED AND DELIVERED in the presence of C. Spencer. } H. E. Church.

Dear Sir:-

Re: STONE CHILCO RANCH IRRIGATION SYSTEM

I am in receipt of your letter of the 7th instant, enclosing copy of Mr. Warren's Memorandum.

A few days ago I received a letter from Mr. Church stating he was claiming $75.00. It seems to me that, under the circumstances, it would be advisable to pay this amount and be done with him.

Yours truly,

J.N.Ellis

Dear Mr. Ditchburn:-

Re Chilco Ranch-Stone I. R. Irrigation System.

I am to-day in receipt of a telegram from Ottawa in which I am advised that cheque has been mailed to cover proposed improvements to the above irrigation system.

I propose sending Mr. W. C. Warren to superintend this work and will appreciate it very much if you will write Indian Agent McLeod requesting him to give Mr. Warren every assistance in the matter of Indian labour and equipment.

Mr. Warren will probably be leaving Vancouver during the coming week for the Chilco Ranch.

Yours very truly,

C. E. Webb
Acting District Chief Engineer.

Sir: Your File No.30/16/6401.

Re-Chilco Ranch-Stone I.R.Investigation.

Your letter of the 5th inst. is acknowledged together with attached letter from Mr.H.E. Chuch or Big Creek, wherein he claims an indemnity of $75.00 from the Department of Indian Affairs for damage done by flooding on Lot 2116. As stated in Mr. Church's letter Mr. Warren made an inspection of the area on December 29th in company with Indian Agent MacLeod and for your information I am enclosing copy of Mr. Warren's report to me of even date on the matter.

You will note that Mr.Warren considers the claim of Mr.Church to be reasonable. It is unfortunate, however, that greater precaution was not exercised by Mr.Cosen Spencer in seeing that the gates were completely closed when shut down on November 15th.

The suggestion that settlement be hald in abeyance is possibly advisable. It will be interesting to see the results of any action Mr.Church may take against the owner of the Chilco Ranch with whom, I understand, Mr.Church holds a separate agreement regarding flooding on Lot 2116.

Arrangements will be made to test head gates during next high water season so that any adjustment required to prevent further leakage may be made.

Encl.

Your obedient servant,

C.E.Webb
District Chief Engineer.

Memorandum to Mr. Webb

In respect to Mr. Church's claim for damages resulting from the flooding of his meadow in Lot 2116 by leakage through the intake works of the Stone I.R.-Chilco Ranch Joint Irrigation System at Big Creek, I wish to advise you that in company with Indian Agent MacLeod I made an inspection and interviewed Mr. Church on December 29th, 1925.

At the intake works I found that leakage had occurred through the gates and not to any extent around the culvert, so far as I was able to determine from the appearance of the soil around the culvert box. The leakage through the gates was due in part to the fact that they were not completely closed and did not seem to fit closely enough at the sides. It was impossible to make a thorough investigation into all the causes of leakage due to the presence of about 18 inches of ice on the upstream side of the gates and about 6 inches of ice below the gates. There was no water in the intake channel at the time of my investigation.

I went over Mr. Church's meadow along with him and Mr. MacLeod and found considerable ice on the surface in places. Mr. Church estimated the area at fifty acres but I should judge that twenty acres would be a liberal estimate of the area flooded. However, Mr. Church does not base his claim on the area flooded but rather on the length of time water was flowing into the meadow which he places at 15 days, from the 15th of November to 1st of December, at the prescribed penalty of $5.00 per day.

It is very unusual for Big Creek to be high enough to flow through the intake works at the time of year the flooding occurred. It is due to the early ice formation in the upper reaches of the stream which breaks loose on account of late mild weather and jams in the stream lower down. In this case the jam occurred at the intake where there is a natural control. The water was backed-up to almost normal summer level and stood two feet high on the gates. At the time the gates were installed about six weeks previous to the flooding there was no water in the intake channel to test them.

The ditch from Big Creek ceases shortly after entering Mr. Church's lot No.2116 and for almost a mile no definite continuous channel exists through this flat meadow. It is quite evident that a small quantity of water under such conditions may cover a considerable area, and owing to the heavy frost at the time, the spreading occurred to a greater extent.

Mr. Church informed me that he had notified Mr. Spencer of the leakage when it first occurred but that no action had been taken to remedy the

Indian Affairs

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

situation, in consequence he was making the claim for damages.

Mr. Church readily agreed to take the necessary steps to stop any leakage in future.

There is no doubt of validity of Mr. Church's claim and I think under the circumstances it is reasonable. I would however, recommend that settlement be held in abeyance awaiting the outcome of a possible action against Spencer by Church. Spencer has apparently neglected to take action on Church's notification. At the same time he has failed to see that the gates were properly closed and locked, after making the request that the gates be provided with locks.

I would further recommend that Mr.Nelsen be notified of the necessity of testing the gates during the high water period next season and of taking the necessary precautions to see that gates are so adjusted as to prevent future leaks. I believe there are sufficient funds available for this work as well as for the Fletcher Lake Spillway.

Sir:

Re - Stone-Chilco Ranch Irrigation System.

In duscussing with Mr. J.N.Ellis, K.C. the possible claim for damages by Mr.Church in connection with flooding on Lot No.2116, Lillooet District, it was considered advisable,if the roads were still open, to have an inspection made of the existing conditions. Having this in view I communicated with Indian Agent MacLeod and upon receipt of his reply I arranged for Mr.Warren to proceed on Sunday night to make an inspection in company with Indian Agent MacLeod.

Upon receipt of Mr.Warren's report it will be possible to determine what claims Mr. Church may have and then any necessary action may be taken.

I will advise you of Mr.Warren's report on the receipt of same.

Your obedient servant,

C.E.Webb

Dear Sir:-

With further reference to your letter of the 7th ultimo dealing with the matter of payment of damages to Mr. H. E. Church, of Big Creek, for flooding his land, I beg to say that I have received a letter from him dated the 29th ultimo, a copy of which is attached hereto for your information. In this communication you will observe that Mr. Church states that Mr. Warren looked over the ground on the 29th December and it is possible that if this is so, he may have put in a full report to you of what conditions are and the reasons for the flooding. If this account is to be paid by my Department, it is essential that we have a copy of Engineer Warren's report on the matter and I should be obliged if you would let me have the same.

Dear Sir:-

In reference to the flooding of my pasture land (lot 2116) by water from the ditch belonging to the Indian Department and C. Spencer (Chilco Ranch).

Mr. Warren (Dominion Water Power Branch) and Mr. MacLeod (Indian Agent), Clinton, were here today and looked over the ground; Mr. Warren told me that I had better write to you and send a statement of what I claim in the matter.

The water was actually running for fifteen days after Nov. 15, and I am willing to accept $5.00 per day for that time (total $75.00) from the Indian Department in satisfaction of my claim against them; I am asking a further payment from C. Spencer and consider that the two payments will cover the damage that has been caused me.

I should perhaps explain that the date Nov. 15 set in the agreement as the date for shutting off the water was expressly set so that I could use the land for winter pasture, and a large portion of this pasture is now partially spoiled by the ice formed from the flooding.

Yours truly,

(Sgd) H. E. Church.

Agreement in writing made between him and the Party hereto of the First Part, obtained permission from the Party of the First Part to carry water over the said Lots of the said Party of the First Part.

AND WHEREAS the Party hereto of the Second Part is desirous of obtaining like permission.

NOW THEREFORE THIS AGREEMENT WITNESSETH and it is hereby covenanted and agreed by and between the Parties hereto as follows:-

1. The Party of the First Part, for himself, his heirs, executors and assigns, in consideration of the payment of One Hundred Dollars ($100.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth bereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Three Thousand, Two Hundred and Seventy-Five (3275), through said irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Three Thousand, Two Hundred and Seventy-Five (3275) for the purpose of carrying and conveying the water as aforesaid.

2. The Party of the First Part, for himself his heirs, executors and assigns, in consideration of the payment of One Hundred and Fifty Dollars ($150.00) paid by the Party of the Second Part to the Party of the First Part (the receipt whereof is hereby acknowledged) and in consideration of the premises and covenants herein, doth hereby give and grant to the Party of the Second Part, the right and privilege of carrying water from the said Big Creek, through and over the said Lot numbered Two Thousand, One Hundred and sixteen

(2116), through said irrigation ditch in such manner as he the said Party of the Second Part shall from time to time see fit, subject however to this Agreement, and doth grant and convey to the said Party of the Second Part an easement over said Lot Two Thousand, One Hundred and Sixteen (2116) for the purpose of carrying and conveying the water as aforesaid.

3. The Party of the First Part doth hereby for himself, his heirs, executors and assigns, grant to the Party of the Second Part, the right for himself and his agents, servants, and workmen, from time to time and so often as may be necessary, and with such horses, implements and machinery as he may think advisable to enter upon the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) for the purpose of clearing out, repairing, improving or enlarging said irrigation ditch or other works, whereby the said water may be carried or conducted, or for managing or conducting the flow of water over or through the said lots.

4. The Party of the Second Part doth hereby covenant and agree to and with the Party of the First Part, his heirs, executors and assigns, owners for the time being of the said Lots numbered Three Thousand, Two Hundred and Seventy-five (3275), and Two Thousand, One Hundred and Sixteen (2116), or either of them or any part or parts of either of them, that he, the said Party of the Second Part will not, from the 15th day of November, in any year, until the 1st day of March then following, by any act of his own, allow amy water from Big Creek, to pass through or over the said lots numbered Three Thousand, Two Hundred and Seventy-five (3275) and Two Thousand, One Hundred and Sixteen (2116) or either of them, unless said water is carried in ditches

Your file 27984-7.

Re-Right-of-Way through Lots 3275 & 2116, Chilco Ranch-Stone Indian Reserve Irrigation System.

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 7th instant with which you forwarded a copy of letter from Mr. H.F. Church, dated the 30th ultimo, regarding alleged damage due to flooding on Lots 3275 and 2116, for which Mr. Church claims damage to the extent of $5.00 per day, it being alleged that this amount is provided for in the agreement in connection with the said Right-of-Way.

In reply I beg to say that this Right-of-Way subject was dealt with by R.G. Swan, Esq., while he was District Chief Engineer of the Dominion Water Power Branch, and J.N. Ellis, Esq., K.C., the Department's solicitor in Vancouver, and you should have some papers in connection with it on your file. The only record I have on my file is a copy of a letter from Mr. Ellis to Mr. Swan, dated 24th July 1924, which Mr. Ellis sent to me. A copy of this letter is attached hereto for your information.

Mr. Balls informs me that he proposes going to Vancouver at an early date and will discuss the situation with you after obtaining some information from Mr. Warren. It might, therefore, be advisable to allow the matter to remain over for a few days. In the meantime no one is being hurt as the land which is alleged to have been flooded is now apparently covered with ice.

WED/KD.

Enclosure:-

Yours truly,

W. E. Ditchburn,

405-407 Rogers Building,

Vancouver, B. C.,
July 26th, 1924.

R.G. Swann, Esq.,
Dominion Water Power Branch,
119 Pender Street, W.,
Vancouver, B. C.

Dear Sir:-

In connection with the Agreement between Herbert Edmund Church and the Indian Department, we beg to state as follows:-

Lot 3275 is registered in the name of Mr. Church subject first to a mortgage in favour of the Land Settlement Board to secure the re-payment of $3500.00 with interest at six and a half per cent, and second, to a charge by way of easement to carry water across the said Lot, in favour of Cosens Spencer.

The position of this charge is that Mr. Spencer is registered subsequent to the Mortgage and therefore in case of default in payment of the mortgage, the Land Settlement Board could close both Church and Spencer out.

We approached the Land Settlement Board and endeavoured to effect an arrangement with the Board by which our Agreement could be registered prior to the mortgage, but the Land Settlement Board refused to do this, so that the situation is, that if we now register our Agreement, we are in the same position as Mr. Spencer, and in case of foreclosure, could be shut out of the land.

Lot 2116 is, at the present time being registered. The Crown Grant of this property is in the hands of Kelly Douglas & Company, Limited, who have been instructed by Mr. Church to register this Crown grant. Kelly Douglas & Company, Limited, will then take a mortgage back from Mr. Church in their favour.

We are informed by Messrs. Griffin, Montgomery & Smith, who are acting for Kelly Douglas & Company, Limited, in this registration, that they have registered the easement from Church to Spencer so that the title would stand in the name of Church, subject to the easement and in favour of Spencer, and subject to the mortgage in favour of Kelly Douglas & Company, Limited. In other words, Mr. Spencer has succeeded in getting the easement on Lot 2116 registered in priority to the mortgage, so that a foreclosure of the mortgage in favour of Kelly Douglas & Company, Limited, will not effect the easement in favour of Spencer over this particular Lot.

We are endeavouring to get Messrs. Kelly Douglas & Company, Limited, to allow us to register our easement in priority to their mortgage. Mr. MacWilliams, of this Company, seems reculant to do this, but we have pointed out to him that in as much as Mr. Spencer's easement is already registered, they will not suffer any hardship by allowing us priority.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

However, if they refuse to grant us this concession, our position would be that we would have to register subject to their mortgage, and could be closed out on a foreclosure.

In as much as Mr. Spencer has already registered his easement, it would be a difficult matter for anyone to prevent our water flowing through the ditch which is now owned in common. At the same time, it would be better if we could get our agreements registered. The situation is, at the present time, as above stated.

Yours truly,

Ellis & Brown,

COMMISSIONER'S OFFICE
DEC 8 1925
VICTORIA, B. C.

VANCOUVER, B.C.
DEcember 7, 1925.

Sir:

Re - Right of Way through Lots 3275 & 2116, Chilco Ranch-Stone Indian Reserve Irrigation System.

Enclosed you will find copy of letter dated November 30th from H.E.Church, regarding alleged damage due to flooding from irrigation ditch of above system.

Upon referring to my files upon this subject I can find no copy of signed agreement covering easement through Lots 3275 and 2116.

May I suggest that you discuss the matter referred to in Mr. Church's letter with Messrs.Balls and Warren and advise me of your views.

Should you have copy of agreement referred to, will you kindly forward a copy to me.

I will await word from you before replying to Mr. Church.

Your obedient servant,

C.E.Webb
District Chief Engineer.

November 30, 1925.

The District Chief Engineer,
Dominion Water Power Branch,
119 Pender Street West,
Vancouver, B.C.

Re - Right of Way granted to Indian Department for water over Lots 3275 and 2116.

Dear Sir:

This is to inform you that water is still running through your ditch and flooding on Lot 2116. The gate was closed down just before November 15th by C.Spencer, but there is enough water leaking round or under the head gate box to cause a good deal of flooding which has now become ice on Lot 2116.

I believe that there is a clause in the agreement granting a right-of-way, by which you undertake not to allow any water from Big Creek to flood either Lot 3275 or Lot 2116 between November 15th and March 30th, under a penalty of $5.00 per day.

I presume that you acknowledge your liability under this agreement and that you will need some proof of the facts; accordingly I have asked Major E.B.Hart, M.C. F.R.G.S. to inspect Lot 2116 and he is prepared to speak as to conditions on the day he inspected the Lot 2116 (November 27, 1925).

Kindly let me hear from you at your earliest convenience, and oblige

Yours truly,

(Sgd) H.E.Church.

Your File 25160-2.

November 3, 1925.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 17th ultimo attached to which was a notice issued by the Lands Settlement Board of the Province of British Columbia to Herbert Edmund Church, Esq., Big Creek, B.C. of its intention to foreclose on a mortgage which it held against the said H.E. Church on certain lands in the Lillooet District.

In reply I beg to say that the only interest this Department has in the matter is in connection with the payment for a right-of-way through the lands mentioned for the irrigation ditch for the Stone Indian Reserve, Williams Lake Agency.

Last year on learning that the Soldier Settlement Board held a heavy mortgage against the land and that Herbert Edmund Church was not legally in a position to dispose of a portion of it, a cheque in payment for the right-of-way was tendered to the Chairman of the Land Settlement Board by R.G. Swan, Esq., Chief Engineer of the Dominion Water Power Branch, but was refused on the grounds that the Board, at that time, was not in a position to deal with it, and so nothing further was done.

Should the Board foreclose on Mr. Church, as is intimated, it is likely that the Department may be called upon to make payment for the right-of-way to the Board, though if the land reverts again to the Crown, no charge will be made. The Chairman of the Board will inform me later as to what disposition has been made of the land.

Your obedient servant,

Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa.

NOTICE OF SALE.

The Land Settlement Board of the Province of British Columbia, HEREBY GIVES YOU NOTICE that it demands payment of the sum of Three Thousand, seven hundred and sixty-five and 55/100 Dollars ($3,765.55) and interest thereon at the rate of Six and one-half per centum (6½%) per annum from the First day of October, A.D., 1925, due to the said Board upon a certain Indenture of Mortgage made by you to the said Board, dated the Nineteenth day of September, A.D. 1917, and registered in the Land Registry Office at the City of Kamloops on the Sixteenth day of October, A.D., 1917, as Number 5860E, for securing the payment of thirty-five hundred Dollars ($3,500.00) and interest thereon as therein mentioned on the following lands, namely:-

ALL AND SINGULAR those certain parcels or tracts of land and premises, situate, lying and being in Lillooet District, in the Province of British Columbia, and which may be more particularly described as Lots One Thousand One Hundred and thirty-two (1132) and Three Thousand Two Hundred and seventy-five (3275). Group One (1), in said Lillooet District, containing by admeasurement Four Hundred and fifty-four (454) acres, more or less.

AND TAKE NOTICE that unless payment of the said Mortgage money and interest, costs and expenses be made to the said Board within One (1) calendar months from the time of your being served herewith, the said Board will proceed, with or without any consent or concurrence on your part, and without any further notice to you, to enter into possession of the said lands, and to receive and take the rents and profits thereof; and whether in or out of possession thereof, to make any lease or leases thereof as the said Board shall see fit; and to sell and absolutely dispose of the said lands either by auction or public tender, or partly by auction or partly by public tender, as the said Board may deem proper, and either for cash or upon such terms of credit as the said Board may think proper, and to convey and assure the said lands when sold, unto the purchaser thereof, as the said Board shall direct or appoint.

DATED at Victoria, B.C., this Fifth day of October, A.D. 1925.

Sir:

Re - Cosens Spencer Dispute
Chilco Ranch - Stone I.R.No.1
Irrigation Scheme.

I am enclosing for your information copy of a statement from Mr.J.H.A.Steven of my staff, dated July 20th, regarding his connection with the construction of the above mentioned irrigation scheme.

Appended to Mr.Steven's statement I am attaching copies of correspondence mentioned therein as follows:

1. Copy of letter from Mr. M. Balls to Mr.R.G.Swan dated 16th Feb. 1924, enclosing Mr.Steven's letter of Feb.16 1924.
2. Copy of letter from Mr.J.H.A.Steven to Mr.R.G.Swan, dated 16th February 1924, re work done on Stone I.R.No.1.
3. Copy of letter from Mr.J.H.A.Steven to Mr.M.Balls dated Aug.24,1923, re water rights and proposed agreement Stone I.R.No.1.
4. Copy of telegram from Mr.J.H.A.Steven to Mr.R.G.Swan, dated September 11, 1923 re amount to be paid by Mr. Spencer.
5. Copy of agreement between His Majesty and Cosens Spencer dated October 27, 1923 containing clause 11 mentioned by Mr.Steven on page 5 of his report to Mr.C.E.Webb, dated July 20, 1926.
6. Copy of diary of Mr.J.H.A.Steven for October 10, 1923, relating to Stone I.R.No.1.
7. Copy of letter from Mr.J.H.A.Steven to Mr.R.G.Swan dated April 9, 1924 re inspection of works Stone I.R.No.1.
8. Copy of letter from Mr.J.H.A.Steven to Mr.R.G.Swan, dated May 9, 1924 reporting on works and repairs to works Stone I.R.No.1.
9. Copy of letter of instructions from Mr. J.H.A.Steven to Mr.G.B.W.Nelson dated May 15, 1924, re Stone I.R.No.1.

Vancouver, B.C.,
July 20, 1926.

Sir:

Re - Stone Indian Reserve No.1,
Williams Lake Agency.

In compliance with your instructions I beg to submit herewith a summary covering the negotiations entered into with Mr. C. Spencer, and the work done on the joint Stone Indian Reserve-Chilco Ranch irrigation system, during the period in which I was connected with the work.

On the 16th August, 1923, I accompanied Indian Agent MacLeod to the Stone I.R.No.1, to investigate the possibility of improving conditions on the reserve by provision of better irrigation facilities. Mr. MacLeod showed me over the reserve, pointing out that the irrigation supply for the reserve land was conveyed in a flume from Menton (Brigham) Creek, which also carries the supply for the Chilco Ranch from the [illegible] re-diverted from Menton Creek at the [illegible] what I then considered to be the [illegible]

[illegible]

[illegible]

RECEIVED
[illegible]

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the ultimate irrigation requirements of the Reserve and he informed us that he also contemplated an enlargement of the system and in fact had his arrangements made for Chinese labor to commence on the ditch enlargements on his own Ranch.

On the occasion of this first meeting with Mr. Spencer, I was not in a position to go into any details as I had not been over the entire system, and the desirability of the Department and the Spencer jointly undertaking the enlargement of works according to their respective irrigation requirements, was mentioned more as a probability than a possibility, as my experience and observation of other projects inclined me to look for an individual system for Indian Reserves free from joint agreements and their attendant responsibilities.

From the 17th to 21st of August, I was engaged in making a preliminary estimate of cost of the enlargement of the existing works, from the Big Creek intake to the point where the ditch left the Indian Reserve and in looking for an alternative location whereby the Indians could obtain an irrigation supply of their own.

It was obvious to me that, providing satisfactory arrangements could be made with Mr. Spencer, the most economical way of providing the necessary water for the Reserve, would be to obtain permission to increase the capacity of the existing works to make provision for ourselves. With this in view I approached Chief Louis of the Stone Reserve in order to find out how the Indians were disposed towards undertaking any labor in this connection, and at first he flatly refused to participate at all, claiming that the Indians had built the Big Creek intake, excavated the three-quarter mile diversion ditch from Big Creek and in addition had originally built the existing works from Menton Creek.

After pointing out to him that we had no right to Big Creek water until we got a record, he agreed to leave the matter entirely in the hands of his Agent and myself and proposed that he would do whatever we considered right, but would require assistance in the way of rations, which was usual on other projects.

The attitude that Mr. Spencer adopted on my broaching the subject of enlargement of works was, that, he owned the irrigation system from the Big Creek Intake to the last lateral on his lower Ranch, - right-of-way, flumes, ditches and all, and that as far as he was legally concerned, the Indians could only get water at all on account of the priority of their Menton Creek record; but that he of course would not let them suffer and would see that they got what he considered right.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Knowing that we had no claim on Big Creek water, and that irrespective of whether or not the Indians had participated in the works from Big Creek, in the absence of a written agreement and a water record, we were in a poor position to raise the point at all. I suggested that since he contemplated enlargement of the system, that additional enlargement to cover the joint requirements would be a great deal cheaper than two separate enlargements and that I was in possession of sufficient data to make a preliminary estimate of about $1500.00 to cover the cost of enlargement of works for the conveyance of his record of 14 c.f.s. on Big Creek and an additional 7 c.f.s. to be applied for to cover the ultimate requirements of the reserve.

This estimate, based on a ration basis of $1.00 per man per day is on your file, detailed in my letter of 16th February, 1924. A covering letter from Mr. Balls to Mr. Swan, concurs with my report, after having gone thoroughly into the details thereof and the conditions governing same.

I told Mr. Spencer that I estimated $1500.00 would enlarge the present works to convey our joint requirements, and since he was anxious to get as much of the proposed work under way as possible before frost conditions set in, I considered it better to accompany him to Vancouver to discuss the matter with Mr. Swan and Mr. Balls, than to open correspondence in regard to it.

The original proposal I suggested to Mr. Spencer was that the cost of the work should be borne in ratio to our irrigation requirements, i.e. Spencer to pay $1000.00 and the Indian Department to pay $500.00. In the event of the work costing less, the Indian Department still to pay $500.00 and any saving under the remaining $1000.00 was to be returned to Spencer. That is to say, as I put it in his lawyers office, if the work cost $1250.00 Spencer was to pay only $750.00 (See my letter on file August 24th, 1923).

I arrived in Vancouver on the 23rd of August and proceeded to Victoria with the intention of placing the matter before Mr. Balls, to whom I was directly responsible for my field operations. I found that Mr. Balls was on leave and I laid the proposal before Mr. Ditchburn, who, without going into any details, realized that an opportunity presented itself for the Department of Indian Affairs to avail itself of an economical scheme to bring over 500 acres of additional land on Stone Indian Reserve under irrigation. Consequently he arranged that I lay the scheme before Mr. Duncan Scott, then visiting at Victoria, and he consented to an appropriation of $500.00 to be obtained at once through the regular channels.

On returning to Vancouver I reported the action I had taken to Mr. Swan, and that I had seen Mr. Scott and Mr. Ditchburn. I discussed the pro-

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ject with him from an engineering standpoint and informed him that I was to meet Mr. Spencer at his lawyer's office for the purpose of informing him whether or not the project would be approved and to make the necessary arrangements with him in regard to the agreement.

At my meeting with Mr. Spencer he wished me to give his legal representative, Mr. Martin Griffin, sufficient information to enable him to prepare a draft agreement between the two parties. I suggested, however, that the draft agreement be prepared by the Department and submitted to Mr. Spencer, my reason for so doing being that Mr. Balls had already dealt with parallel cases and was familiar with the legal requirements pertaining thereto, while I was not. This arrangement was satisfactory to all concerned, and I wrote to Mr. Balls on the 24th August, giving him sufficient data to prepare a draft agreement.

I proceeded to Kamloops with Mr. Swan, told him what I had done, and he in turn wrote to Ottawa from Kamloops requesting that the necessary appropriation be obtained as soon as possible in order that the commencement of the proposed work should not be unnecessarily delayed.

By the end of August I was back on the Reserve engaged in the staking out of the work in preparation for construction, and on the 7th September I received a wire from Mr. Swan stating that Spencer's legal representatives had claimed that Spencer's absolute limit towards the scheme would be $750.00 and also that he demanded full control of the works after they were put in. I interviewed Mr. Spencer, who stated that the additional $250.00 would not stop him, and that we might go ahead and figure on the original $1000.00 to which effect I wired Mr. Swan. The "control of works" however was a different problem. Since his return from Vancouver, Mr. Spencer had been going through old correspondence between Mr. Tretheway and the Water Rights Branch relative to the Indians having broken down weirs in the ditch, and on that account had deemed that "control of works" was his only safeguard. From my point of view I could not see where if he controlled the works we would be any better off than we then were, and told him so. He then claimed that if he did not have control of the works, and had not expected to have control in the first place he would never have entered into the agreement, while I maintained equally strongly that if I thought for a moment that he would have control of the completed works, I would do my best to stop the scheme just where it stood. It was then decided that his lawyer should attend a meeting at Williams Lake, when Mr. Varcoe, Mr. Balls, Mr. MacLeod, Mr. Spencer and myself would be present.

I went ahead with work on other Reserves until the appointed meeting in Williams Lake on the 17th day of September.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

After discussing the situation from the beginning to the time of the meeting a draft agreement was drawn up which apparently was satisfactory to those concerned, excepting Mr. MacLeod and myself, and the point I could not satisfy myself on was the "control of works", changed in the new draft to "management of works".

The draft agreement is on record, and clause 11, did not appeal to me, as it stood it's meaning to me was that Spencer controlled the works above the Manton Creek Intake, from the Manton Creek intake the works were in joint control of Spencer and the Indian Agent as far as the western boundary of the Indian Reserve, with appeal to the District Engineer etc. (See agreement). I may have been wrong, and may still be wrong, but what I can not understand is that as soon as the normal flow of Manton Creek goes dry, the Indians depend on Big Creek water and Spencer controls it, subject to appeal etc. and while appeals are in progress the crops would be burning up. I raised the point, but being a junior member of the staff, I was politely told to concern myself with the staking out of work and leave the drafting of the agreement alone. I discussed the point with Indian Agent MacLeod who felt as I did in this regard, but his attitude was that it was up to our Branch to carry out the necessary arrangements to the satisfaction of his Department. I make mention of this occurance not out of malice but for a reason hereinafter shown.

On the 24th of September work was started on the Stone I.R.joint system. My instructions were to start Nelson with the Indian labor on the Big Creek system, which on account of its higher altitude would first be affected by frost conditions. These instructions were carried out and arrangements made to supplement the available labor from the Stone Reserve with labor from the Anaham Reserve in order to expedite progress. I stayed with Nelson on the work for two days giving him instructions in writing, and field sketches of what was required, there having been no opportunity for me to prepare plans of proposed works etc. as I had a party in the field and other important investigations urgently awaiting completion.

Returning on the 9th October I inspected the work and not being satisfied with the progress made during my absence, I impressed on Nelson the need for economical and speedy completion of the work on hand (see my diary of October 10, 1923) and as soon after this inspection as circumstances would permit I returned to Vancouver with my party to supervise the installation of domestic water supply systems at Churchhouse and Metlakatla, according to instructions received from Mr. Swan on the completion of a similar project at Sliammon in August, that I was to return in October to look after these systems, that being the time when the Indian labor was to be available.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It was early in February of 1924 before I had an opportunity of again taking up Indian Reserve irrigation work and on my reporting to Victoria to carry on office work in connection therewith I was surprised to find that the Stone I.R. project was not completed and that my estimate was already exceeded.

I suggested that Nelson be sent for and Mr. Ditchburn instructed him to report to Victoria.

The result of the interview with Nelson is on record in my letter of the 16th of February to Mr. Swan, and covering letter of same date from Mr. Balls. I consider that the work done was far from economically performed and the extra work on back flooding dams in the Hutch Meadows is something for which I accept no responsibility.

In regard to the Hutch Meadows, Mr. Spencer claims that I promised him in the first instance, when the project was under consideration, that the Department would renew his back flooding dams and furthermore that I would make provision to drain his meadows. This is not the case. In the first place I realize my lack of authority to promise anything other than a recommendation to the Department regarding anything.

His foreman, Smith, was sent to the upper portion of the system in the capacity of a guide, to show me over the ground, Big Creek intake, Fletcher Lake, the Hutch Meadows etc. and gave me a very intelligent idea as to the operation of the existing system. He pointed out the back flooding dams on the Hutch Meadows and their need of repair but never at any time did it occur to me that he entertained any idea of the Indian Department doing the repairs as part of an irrigation system, the gates were solely for Spencer's benefit and use and in no way detrimental to the contemplated project. The occasion on which Spencer's foreman accompanied me over the system was before Spencer and I came down to Vancouver, and the only drainage work which I contemplated under the proposed scheme was the piece immediately north of Fletcher Lake, on the low meadow swamp, where, as pointed out by Smith, water released from Fletcher Lake former a pondage before finally reaching a stage where it flowed on into the natural defined creek bed and thence to the Menton Creek Intake. Again, I was interested only in the conveyance of the water, inasmuch as I wished to accelerate the flow from Fletcher Lake to the intake, without losing the time which was wasted in letting the meadow above referred to take its full seepage before releasing the water for irrigation purposes.

I pointed out to Spencer that the draining of this portion of swamp would materially benefit his hay cutting operations by drying up the ground so that he could put his mowers on it. It is a point in favor of my argument that on the 18th August, when I staked out the ditch, we were working in water to

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

our waists at the proposed ditch line and obviously no hay had been cut there for years, if at all, as until the excavation of the ditch referred to was completed, there was no possible means of draining off the water. Mr. Spencer has produced an affidavit from his foreman Smith to the effect that I promised to put in "three water gates", the wording of the affidavit cleverly reads that my promise was that "there should be installed in Hutch Meadows on Menton or Brigham Creek, three permanent water gates." In fact, what I did recommend were control gates at three points on the system, namely, Big Creek, Fletcher Lake outlet and Menton Creek intake.

Again, I would point out that while now, probably, Mr. Spencer might not sign an agreement with the Department in regard to this irrigation scheme without first wishing the reclamation of the Hutch Meadows also considered, with construction of the necessary flooding dams incidental thereto, he, at the time of investigation and until after the agreement was executed, had no idea of including this item in the proposed system. The fact that it was clearly an afterthought should be fairly obvious from the omission from the agreement any mention whatsoever of the construction of works which he now claims to have believed to form a part of the project.

The construction of works on the Hutch Meadows other than the excavation of the portion of ditch included in my original estimate, was done without my knowledge or instructions by Nelson, acting under pressure from Spencer, whose conception of the Department's contract in relation to the work, differed from mine, on this and other portions of the work, and invariable to the greater advantage of the owner of the Chilco Ranch.

While on the subject of flooding lands, may I take up the question of the flooding of land in the proximity of Abraham's Lake, belonging to Mr. Fosbury.

The additional water contemplated from Big Creek would naturally raise the level of Abraham's Lake to the detriment of hay cutting on Fosbury's Meadow, the simple method of lowering the outlet of the lake and deepening of the outlet channel for which I made an allowance of $172 on a ration basis (equal to $600.00 on a labor basis) on my estimate, was provided for. Had this work been performed instead of other work not contemplated in the estimate, no trouble would have been encountered with Mr. Fosbury, whose requests to me were always intelligent and reasonable. I am not in a position to say what work was actually done, not having been on the ground during this part of the construction, but I do not hesitate to state that I gave Mr. Fosbury every assurance that provision would be

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

made in the estimates to protect his interests.

The flooding of the Church meadows is a matter of record. Knowing that Spencer had an agreement with Church in regard to his property, and the existing system having been in operation for many years prior to my investigation, I contemplated no further claim from Church, nor was any mention made of it by him until he saw an opportunity for an application for compensation offer itself, when on mentioning to Spencer that his meadows would be flooded to a greater extent than before, Spencer informed him that the extra water was on Indian Department record and nothing to do with him.

My contention was that the additional water brought down under the enlarged project flooded the same area only to a greater depth, and since an additional depth of a few inches did not appear to me to affect conditions, I advised that a legal settlement with Church would be more in the Department's interests than an accession to his claim. An agreement was obviously a necessity, but I considered a normal payment of $1.00 to bind it quite sufficient and advocated this action in Mr. Swan's presence in the office of Mr. Ellis, council for the Indian Department. The final settlement with Church however, has now been satisfactorily executed.

On insistent demands by Spencer that the new project be ready for the opening of his irrigation season on the first of April, 1924, I was on the ground on that date to find ice and snow conditions preventing even an inspection of the work performed the previous fall under Nelson's supervision.

I would respectfully refer you to my letter of the 9th April, 1924 in this regard.

As soon as the spring freshet came along in April, the works put in by Nelson at Menton Creek intake broke down and Mr. MacLeod and I in response to frantic wiring and telephoning from Spencer went up to the Reserve and performed the work necessary to replace the defective construction. It was necessary for Mr. MacLeod to stay right on the job to keep the Indians, who, claiming to have done enough work under Nelson's authority, were very loathe to do any more, and especially ten hours a day with Mr. MacLeod and myself to see that they did it.

The condition in which I found the works and the repairs undertaken are on record in my letter of the 9th May, 1924.

On instructions from Mr. Swan, who at Spencer's request inspected the works on the 14th May, 1924, the repairs as executed were considered to be sufficient to ensure the 1924 irrigation requirements. Mr. Nelson was left on the ground for the summer, with instructions as on your file, dated 15th May, 1924.

Mr. Swan was satisfied with the general layout, agreeing with me that the works as constructed at Manton Creek intake were absurd in the first instance, but that with the repairs effected recently that they would be all right for that season but could not be considered permanent, and again that the Fletcher Lake outlet box had to be renewed as originally proposed in my estimate, Nelson having entirely overlooked it's renewal during construction, and having used the lumber ordered for it on Spencer's flooding gates on the Hatch Meadows.

Since no work could be done during the irrigation period, and with Nelson on the ground, I took up my other duties leaving the system with the Manton Creek Intake and Fletcher Lake outlet to be attended to when the irrigation season was over.

I visited the Reserve on June 26th to inspect the Indian weir boxes at their lateral ditches and to see that Nelson was carrying out and not exceeding his instructions.

Again on the 27th July I was called to the Stone I.R. to settle a matter detailed in my letter of 1st August, where Spencer, by using an Indian lateral ditch as a spillway for his own lower system had flooded and washed away Indian Reserve land. On this occasion I prepared at Mr. Swan's request an estimate of cost of completion of the works namely:

1. The replacement of the Manton Creek Intake as originally designed, and
2. Replacement of the Fletcher Creek Intake. (Which had not been replaced at all)

This was necessary as the Indians, having had numerous disagreements with Spencer, were not disposed to do any further work, unless rationed as before. Nelson had figured that his persuasive powers with the Indians during the summer would induce them to do this work at no cost to the Department.

My estimate and covering letter are on your file under date of 11th August, 1924.

I was instructed on the 18th August to undertake the supervision of the necessary repairs on completion of that season's irrigation, but arrangements were altered and Mr. Archibald was sent out from the Vancouver office to do this work. I gave Mr. Archibald what information and detail I had on file in regard to carrying out the work as agreed upon with Mr. Swan, and since that time I have not been engaged on the project.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In conclusion, I wish to assure you that I have avoided evasion of any feature of the progress of the project in so far as I am concerned. Certain personal elements have entered into it in so far as Spencer and myself are concerned, which have no bearing on the carrying out of the work. My efforts have been to the best of my ability directed in the interests of our Branch of the Department of Indian Affairs, and Mr. Spencer's attitude to me personally has not had any effect whatsoever excepting to cause me to exercise unusual caution in my dealings with him.

Your obedient servant,

James A. M. Stewart

C.E.Webb, Esq.,

DOMINION WATER POWER BRANCH

P.O. Box 666,
Victoria, B.C., February 16, 1924.

Sir:-

In accordance with your instructions I have gone carefully into the costs of enlarging and improving works from Big and Menton Creeks to Stone I.R.No. 1 and the Chilco Ranch with both Mr. Steven and Mr. Nelson. The items on which Mr. Steven based his original estimate have been examined also all the various details of accounts rendered and actual costs.

Original Estimate:-

Both Mr. Steven and Mr. Nelson are agreed that the estimated quantities of material to be moved are in excess of quantities actually handled and that liberal provision was made for the construction of headworks, flumes, etc.

The excavation for the most part was free shovelling, with practically no grubbing on sections of new ditch. Under the circumstances I think a ration allowance of 20 cents per cubic yard on dry excavation and 40 cents per cubic yard on the class of wet excavation encountered may be considered fair.

Actual Cost:-

After making deductions for value of work which is a direct charge against the Chilco Ranch and for overcharges in the accounts as rendered the resultant cost would appear to justify the original estimate. With regard to unauthorised work on dams, etc., for back-flooding meadows, I do not think that any responsibility should rest on Mr. Steven as Mr. Nelson admits that he received specific instructions regarding work to be undertaken and that this particular work was done outside of those instructions.

The fact that the Indians performed less actual work per man day than would reasonably be figured on for the purposes of estimating, is responsible for the increased cost of work contemplated under the agreement.

After going over the whole situation with Messrs. Steven and Nelson, I concur with the report as submitted by Mr. Steven.

DOMINION WATER POWER BRANCH

P.O. Box 666,
Victoria, B.C., February 16, 1924.

Sir:

Stone I. R. No. 1
Williams Lake Agency.

With reference to the enlargement of the joint ditch to serve the irrigation requirements of Stone I.R. No.1 and land on the Chilco Ranch as set out in the memorandum of agreement dated 27th October, 1923, I beg to report that I requested Commissioner W. E. Ditchburn to send for Mr. C.B.W. Nelson, Irrigation Specialist for the Department of Indian Affairs, in order that I might go into the accounts sent in through him for materials, tools and rations used in this work, amounting to $2,419.96.

Having gone into these accounts with Mr.Nelson I beg to submit the following report:-

Original Estimate:-

My original estimate of the cost of this work was based as follows:-

Erection of rock filled crib at Intake from Big Creek:-

100 man days @ $1.00 per day	$100.00	
25 horse days @ $1.00 per day	25.00	$ 125.00
Intake box at Big Creek (including Gate):		
10 man days @ $1.00 per day	$ 10.00	
600 F.B.M. lumber @ $30.00 per M	18.00	
Nails	2.00	30.00
Enlargement of existing ditch from Big Ck. to Manton Ck. watershed:-		
4,000 lin. ft. ditch, cross sectional area 3 sq. ft.--500 cu.yd. material @ 20¢	$100.00	
Crib work--8 man days @ $1.00 per day	8.00	108.00
Repairs to control box at outlet of Fletcher Lake:-		
10 man days @ $1.00 per day	$ 10.00	
180 F.B.M. lumber @ $30.00 per M	5.60	
Nails	.40	14.00
Carried Forward		$ 277.00

R.G.Swan, Esq.,
District Chief Engineer,
Dominion Water Power Branch,
119 Pender Street, West,
Vancouver, B.C.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Brought Forward.....	$ 277.00
Excavation, deepening channel between Fletcher & Abraham's Lake:-	
1300 lin.ft. ditch cross sectional area, average--8 sq.ft. 1300 x 8 ÷ 27 ---430 cu.yds. @ 40¢.....	172.00
Excavation (wet)--new ditch through Hutch Meadows:-	
1500 lin.ft. ditch--average cross section 10 sq. ft. 1500 x 10 ÷ 27---556 cu.yds @ 40¢.....	222.40
Excavation--enlargement of existing ditch from Menton Creek to East boundary of I.R. No.2:-	
22,400 lin.ft. ditch enlargement average cross sectional area 2.5 sq.ft. --22,400 x 2.5 ÷ 27---2074 cu.yds.@ 20¢.....	414.80
Flume units on ditch through Indian Reserve (including intake):-	
900 lin.ft. of flume @ 50¢.....	400.00
	$ 1,486.20

This estimate of cost was based on free labour and a ration allowance of $1.00 per man per day, and the quantities for earth excavation, estimated from measurement at typical ditch sections throughout the system, are liberal and in excess of the actual material excavated. The prices used would at current labour rates, represent 70¢ per cubic yard for ordinary ditch excavation in good material and $1.40 per cubic yard for wet excavation. The cost of this work was to be borne by the parties to the agreement, according to my understanding with Mr. Cosens Spencer, in the proportion of $1,000.00 in cash to be put up by him and the balance of $500.00 and free labour to be provided by the Department of Indian Affairs.

Mr. Spencer's share of the cost according to the signed agreement is not to exceed $750.00. On the 7th of September, after consultation with Mr. Spencer's legal representative, Mr. Martin Griffin, you wired me to the effect that $750.00 was claimed to be Mr. Spencer's limit, and after again ascertaining from Mr. Spencer that he would be willing to put up $1,000.00 I wired you to that effect. Why the sum of $750.00 is still set as his share of the cost I am not in a position to say, as the ratio of $750.00 to $500.00 is not in proportion to the records or to the irrigable areas involved.

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Cost of Construction:-

The accounts submitted by Mr.Nelson are made up as follows and amount to $2,419.96, $933.76 over my original estimate:-

Rations	$ 1,461.67	
Tools and materials	398.38	
Lumber	503.91	
Hay	56.00	$2,419.96

With Spencer's share set at $750.00 it would appear that the Department of Indian Affairs would br responsible for the balance of $1,669.96, that is to say, $1,169.96 over and above the $500.00 appropriation granted at the time of my interview with Dr. Scott in Victoria on 23rd August, 1 23. Having gone over each item in detail with Mr.Nelson I beg to report that I do not consider that the accounts as rendered are chargeable against this work and will deal with the various accounts individually:-

Rations:-

Spencer's account for rations	$ 1,423.25
Norman Lee's account for rations	38.51
	$ 1,461.76

I make no effort to justify this heavy expenditure for the rationing of the Indian labour employed on this work. I attach a memorandum from Mr. Nelson stating that these goods were received and consumed on the work, and as Engineer in charge of the work I have no alternative but to accept the responsibility. In addition to the rations from Spencer and Lee, Nelson informs me that these were supplemented by Indians who provided their own vegetables and several deer.

I would suggest, however, that the account for beef be reduced from $410.00 to $307.50. The rate of four cents per pound (live weight) seems to me to be excessive. As Nelson points out the Indians slaughtered, dressed and took away the beef at no expense to the Chilco Ranch. While not in a position to make an authorative statement, I understand that three-and-a-half cents was paid at Williams Lake for prime beef and would conclude that three cents would be a very fair price to charge for what beef was consumed on the work.

The total live weight of beef consumed was 10,250 pounds, equal to about 5,600 pounds dressed or 2.7 pounds per man per day (exclusive of deer meat provided by the Indians). Sugar consumption was 0.85 pounds per man per day, and flour 1.35 pounds per man per day. With the account for meat reduced to $307.50, and applying the total man days against the total cost of rations, the cost per man per day works out at 67 cents, which is considerably below the ration allowance on which my estimate was based. This would at first sight appear to justify the accounts for rations as rendered. It is pointed out, however, that the number of man days, where Indians are concerned, does not necessarily mean that the same amount of time would be spent in doing the work by white

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

labour. This can best be illustrated by comparing the time consumed by the Indians on excavation work with the time that white labour would take to do similar work.

Exclusive of time spent in the erection of cribs, flumes, boxes, etc., 1,535 man days are chargeable to excavation work. The total quantity moved was 3,560 cubic yards or 2.32 cubic yards per man per day. In handling similar material by white labour 8 cubic yards per man per day would be regarded as a minimum. In other words, instead of 1,535 man days, this particular work might have been accomplished by white labour in 445 man days. The cost of rations therefore instead of being applied against man days in this case should be considered in relation to the actual work accomplished. If this is done it will be apparent that instead of a ration cost of 67 cents per day the actual cost of rations amounts to $2.31 per labour day.

Having turned over the work to Nelson at its commencement and having no opportunity to inspect progress during construction, I regret that I am not in a position to justify the expenditure for rations. It will be impossible to arrive at an estimate of cost of work on a ration basis on future work without the assurance that the Indians will perform a full day's work for a day's rations.

Tools:-

The accounts rendered for tools and equipment amounting to $398.35 and O.I'd by Nelson are made as a direct charge against the Department of Indian Affairs.

Mr. Nelson informs me that tools, etc., to the value of $257.15 were turned in to Spencer by him on completion of the work, although he obtained no receipt.

I consider that roughly 25% allowance for depreciation and interest on the cost of these articles is all that should be chargeable against this particular work. This would represent an item of say $67.15 as against $257.15--a reduction of $190.00.

Should Mr. Spencer wish to retain these tools, I would recommend that 25% of their value as per his account should be allowed as a charge against this work. These tools were turned in to him at his own request and as I am not aware of any other work having been authorised on Indian reserves in that vicinity, I can see no reason why the Department should purchase them outright for their own use.

Hay:-

I consider that the account for hay as rendered is justified.

Lumber:-

The account for lumber purchased from Mr. Spencer as rendered is obviously not chargeable to the joint works:-

Making liberal allowances for waste, etc., from Nelson's own figures, the actual amount of lumber in place on the joint works is only 9165 F.B.M. as compared with 16797 F.B.M. charged on Spencer's account. (Bill of lumber in place is attached hereto).

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The difference of 7652 F.B.M. at $30.00 per M. amounts to $229.96.

Apparently Nelson did not check the delivery of lumber supplied on the work, but even so, we should not be charged with any lumber over what is actually in place in flumes and headgates.

Considerable lumber was put into the construction of flooding dams at three points on the Menton Creek watershed, namely, the Hutch Meadows, the Bambrick Meadows and at a point between the two. This work was not included in my estimate as it benefits Spencer only. These dams are put in to back-flood hayland and the benefits derived from their construction are in Spencer's interest and of no advantage to the joint scheme. The cost of their construction in labour and materials constitutes a charge against the Chilco Ranch interests and have nothing to do with the joint project agreed upon. No mention of this work is made in the agreement and I issued no instructions for this work to be undertaken.

From Nelson's information the labour employed on the construction of these dams and excavation in connection therewith amounts to 6 days work for 37 men.

222 man days @ $2.50 per day (current rate for Indian labour).....$ 555.00

The total cost of this extra work would be

222 man days @ $2.50.....	$555.00
Lumber--Balance of lumber charged by Spencer, not in place in joint works, 7652 F.B.M. @ $30.00.....	229.96
160 lbs. nails @ 11¢ per pound.....	17.60
	$801.56

Summary:-

These deductions from the original accounts are recommended for your consideration, and I respectfully suggest that they be brought to Mr. Spencer's notice before payment of his accounts is recommended:

Extra work on flooding dams.....	$ 810.56
Tools & equipment (value, less 25% depreciation) held by Spencer.....	190.00
Beef--reduction in price from 4¢ to 3¢ per lb.	102.50
	$1,094.06

This reduction from the accounts as rendered ($2,419.96) leaves the cost of the work at $1,325.90, and after application of Spencer's share of $750.00, leaves $575.90 to be paid by the Department, or $75.90 over our original appropriation.

Completed Work:-

I beg to report that my instructions in regard to fluming portions of the ditch through the Indian Reserve, where I considered the gradient was too steep for open ditch, have not been carried out, and that I still consider this work to be necessary.

The weirs at the points of diversion from the main ditch on the Indian reserve have still to be placed and adjusted, in accordance with the agreement. This work should be undertaken before the irrigation season commences.

Your obedient servant,

(Sgd) James H.A.Steven

DOMINION WATER POWER BRANCH

Vancouver, B.C.,
August 24th, 1923.

Sir:

Williams Lake Agency
Stone I.R.No.1

With reference to the above reserve, I beg to refer you to your report on Williams Lake Agency No.5, Pages 24 and 25 and accompanying plan No. 14, also Provincial pre-emptors map No. 57.- Chilcotin sheet.

At the present time we hold prior records on Menton (otherwise known as Brigham) Creek, amounting to 300 inches - only one of these for 100 inches being a provincial record, and the water supply for the above reserve is obtained from 4 laterals from the joint Trethewny-Stone ditch.

To the best of my knowledge no written agreement exists between Trethewny and the Indian Department.- I will endeavor to find out from Ogden at Lac La Hache if agreement was ever drawn up and will subsequently notify you of the result.

The situation as it now stands is briefly this.-

Trethewny diverted water through 4500 lin. ft. of ditch from Big Creek into the Menton Creek watershed and holds a record for 35 c.f.s. on Big Creek,- storage rights on Fletcher Lake and a subsequent record on Menton Creek for lot 187 for 843 ac. ft. C.L.2395.

Menton Creek has not sufficient flow to fill even the Indian record of 100 inches, and with 155 acres partly irrigated and 610 acres of additional irrigable land on the reserve, there is naturally contention between the Indians and the Trethewny interests as to the amount of water which the Indians are entitled to have.

The Trethewny interests have been bought by C. Spencer who now owns the Chilco Ranch and range, some 89,000 acres in all. - He intends to increase the capacity of his ditches &c. in order to irrigate to a greater extent than his predecessor and I have been negotiating with him to allow the Indian Department to come in on his system on a joint ditch with a signed agreement between the two parties, and after going over the matter thoroughly with Mr. Spencer and his lawyer, Mr. Martin Griffin of Griffin, Montgomery & Smith, Molsons Bank Chambers, Vancouver, Mr. Spencer has signified his approval and is willing to co-operate with the Department on the repairs and enlargements and future maintenance of the entire system from Big Creek, and will be

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

willing to put up cash as his share of the cost of repairs to the extent of $750.00.

It will be necessary for us to take out a record on Big Creek to cover the remaining acreage on the reserve.- We now hold 100 in. record on Menton, i.e. sufficient to irrigate 222 acres (theoretically).- the remaining acreage 543 acres would require a record on Big Creek of 1629 ac.ft.- as compared to Spencers record of 14 c.f.s. or 3533 ac. ft.

Storage rights on Fletcher Lake are not necessary in our case as the supply from Big Creek is more than adequate.

The Indians claim to have worked on the Tretheway ditch, and apparently no financial remuneration has been given the Department for right of way through the reserve - but on the other hand we have no record on Big Creek, our Menton creek record is inadequate for more than 20 or 30 acres, and Spencer has paid out in addition to the cost of works, some $3500. in order to ensure that his water supply will be free from interference. This cost is in the purchase of meadow lands along the Menton Creek watershed which if not in his possession would be flooded by the owners irrespective of priority of record to the detriment of successful operation of control of the irrigation for his land on the Chilcoten river.

It would seem fair that the repairs at present contemplated should be borne by the Department as we would thereby be assured of a water supply for every acre of irrigable land on the reserve at the cost of making enlargements to provide for ourselves, but Spencer has agreed that he will put up $750. in cash, we put up $500.00 (already authorised by Mr.Scott) and the Indians to do the labor (to which they are agreeable)- In the event of his $1250. being insufficient Spencer will raise his share to $1000. which will then be in proportion to our records.

Would it be possible for you to arrange for a draft agreement between Mr. Cosen Spencer and the Department on a basis of 1/3 to 2/3 interest in the joint ditch in Spencers favor. Work to be undertaken by the Indians and the cost of materials, tools &c. rations as previously outlined. You will be in a position to confirm what records he now holds and what you consider we should have and submit same to Mr. Martin Griffin for approval and signature.

I could post our notices on the ground, if you send them to me c/o Indian Agent at Clinton.

Your obedient servant,

Assistant Engineer

MEMORANDUM OF AGREEMENT made this twenty-seventh day of October in the year of our Lord one thousand nine hundred and twenty-three.

BETWEEN:

HIS MAJESTY, THE KING REPRESENTED BY THE SUPERINTENDENT GENERAL OF INDIAN AFFAIRS,

OF THE FIRST PART:

A N D:

COSMOS SPENCER of Chilco Ranch, Hanceville, British Columbia,

OF THE SECOND PART:

W H E R E A S the Party of the Second Part is the owner of the Chilco Ranch containing the various lots set out in the Schedule hereto and holds (amongst other Records or Licenses) the following License issued under the Water Act of British Columbia, that is to say,- License Number 530 dated the 29th day of December, 1911, for fourteen cubic feet of water per second out of Big Creek for irrigation purposes on Lots 375-A, 988, 1185 and 2237, Lillooet District, together with rights of storage in Fletcher Lake and in a lower reservoir on Menton or Brigham Creek.

A N D W H E R E A S the Party of the First Part holds a Provincial Water Record issued under the Water Act of British Columbia dated the 27th day of November, A.D. 1890, for one hundred inches of water from Menton or Brigham Creek for use on the Stone Indian Reserve No.1 on the Chilcotin River.

A N D W H E R E A S the Party of the Second Part holds a Conditional Water License issued under the Water Act

of British Columbia, No. 2385 dated the 26th day of March, A.D. 1917, and taking effect from the 15th day of May, A.D. 1891, for 545 acre feet of water from Menton or Brigham Creek for irrigation purposes on Lot 187, Cariboo District.

AND WHEREAS the Party of the First Part desires on behalf of the Indians to obtain a License to use water from Big Creek for use on the said Reserve and proposes to apply in the name of the Indian Agent at Clinton for a water license under the Water Act of British Columbia for not more than one thousand six hundred and twenty-nine acre feet (1,629) of water from Big Creek to be used for the benefit of the Indians on said reserve in irrigating the irrigable lands in said Reserve.

AND WHEREAS the existing works consist generally of the following:-

(a) A ditch constructed (so far as now appears) about the year 1889 from a point on Menton Creek across said Indian Reserve and terminating on the Chilco Ranch.

(b) Intake on Big Creek and the various ditches and works constructed under said Record No.530 whereby the water is conducted from the intake to the channel of Menton Creek.

AND WHEREAS the Party of the First Part desires to use the existing works in conveying to the Reserve the water to be granted under the License which the Party of the First Part proposes to apply for as aforesaid and both parties desire to enlarge and improve the existing works.

NOW THEREFORE THIS INDENTURE WITNESSETH that it is hereby agreed by and between the parties hereto as follows:-

1.- The party of the First Part will apply under the Water Act of British Columbia for a License to divert water from Big Creek for the benefit of the Indians on said Reserve to be used for irrigation purposes in irrigating the irrigable lands on said Reserve and the Party of the Second Part will not oppose the granting of said License. Not more than 1,629 acre feet of water are to be applied for in respect of said Stone Indian Reserve No.1.

2.- For the purposes of this Agreement the water to be diverted under the aforesaid Licenses numbered 530 and 2385, and said License of 27th November, 1890, and said License for one thousand six hundred and twenty-nine (1,629) acre feet of water (to be applied for) are to be deemed pooled and the waters mingled for the joint benefit of the Indians and the Party of the Second Part pursuant to this Agreement.

3.- The enlargement and improvement of the ditches and works heretofore constructed for the conveyance of the water under Record Number 530 shall be proceeded with by the parties hereto. In general the work to be done is at the following places:-

(a) Commencing at a point on Big Creek tentatively designated "B" on Water Rights Map No.4572 and extending for a distance of approximately 4500 feet along the ditch to the point of natural drainage into Menton Creek.

(b) From a point on Menton Creek officially designated "A" on Water Rights Map No.4570 and extending for a distance of approximately four and a quarter miles along said ditch across the said Reserve to the Chilco Ranch.

4.- The Party of the First Part will provide all the labour required to the enlargement of the said ditches and other work and will provide the sum of $500.00 (Five Hundred Dollars) towards the cost of the tools and materials and the food of the Indians during the progress of the work.

ARCHIVES PUBLIQUES
CANADA

5.- The Party of the Second Part will provide the balance of the cost of necessary tools and materials and food for the Indians during the progress of the work but in no event more than Seven Hundred and Fifty Dollars ($750.00).

6.- The payments to be made under Clauses 3 and 4 are as follows:- The Party of the First Part shall provide the first Two hundred and Fifty dollars ($250.00); the Party of the Second Part the next Two Hundred and Fifty Dollars ($250.00); the Party of the First Part the next Two Hundred and Fifty Dollars ($250.00) and the Party of the Second Part will then provide the balance of Five Hundred Dollars ($500.00). Before payments are asked from the Party of the Second Part customary vouchers showing the expenditure of previous sums are to be submitted to him.

7.- The Party of the First part covenants with the Party of the Second Part that the works to be executed shall be such as will deliver all the water called for under the various Records and Licenses aforesaid. The work is to be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia and of the Party of the Second Part and as expeditiously as possible.

8.- Proper head gates with necessary and convenient measuring devices are to be installed in the ditch on said Reserve at points to be selected by the Party of the First Part but not more than five diversion points are to be installed or used without the written consent of the Party of the Second Part.

9.- Notwithstanding the granting of said hereinbefore mentioned License for one thousand six hundred and twenty-nine (1,629) acre feet of water for the use of the Indians, they shall not be entitled to receive more water than is required for the amount of irrigable land actually under

ARCHIVES PUBLIQUES
CANADA

cultivation by them at the rate of three acre feet per acre or at any greater number of acre feet per acre to which the duty of water in said locality may be increased hereafter from time to time by competent authority.

10.- The Party of the Second Part shall be at liberty to apply to be appointed Water Bailiff under the Water Act of British Columbia for Big Creek and Menton Creek or alternatively for the locality within which the aforesaid works and the said Chilco Ranch and said Reserve are contained. The Party of the First Part will support said application and do everything in its power to assist the Party of the Second Part in obtaining the keeping said appointment.

11.- The management of all works above the outlet on Menton Creek (designated "A" on Water Rights Map No.4578) shall continue with the Party of the Second Part and his heirs, executors and assigns, owners for the time being of the Chilco Ranch. The management of the ditch from and including said Intake "A" to the Western boundary of the Indian Reserve shall continue with the Party of the Second Part so long as he remains the owner of said Chilco Ranch. The management of the ditch and works in the Reserve shall be vested jointly in the Party of the Second Part and the Indian Agent for the time being. The Party of the First Part shall exercise all powers and authorities vested in him to prevent interference by the Indians with the ditches and works. In the event of there arising any disagreement between the Party of the Second Part and the Indian Agent as to the dates or times for the opening or closing of gates or the periods of irrigation or any other question of management the difference shall be referred to the District Engineer of the District appointed under the Water Act of British Columbia from whose decision an appeal shall lie to the Comptroller of Water Rights of British Columbia and from him to the Minister of Lands of

British Columbia whose decision shall be final and the Parties hereto agree to be bound thereby.

12.- The said ditches and works, as altered and improved by the Parties hereto pursuant to this Agreement shall be kept in repair by the Parties hereto and the Party of the First Part shall contribute one third of the cost of upkeep and the Party of the Second Part two thirds. The work to be done shall be mutually agreed upon from time to time. Should there be a disagreement between the parties hereto as to the nature or extent of the works of upkeep necessary to be done the question of what should be done shall be submitted to the District Engineer aforesaid from whose decision an appeal shall lie to the Comptroller of Water Rights and from him to the Minister of Lands of British Columbia whose decision shall be final, and the parties hereto agree to be bound thereby. If either party declines to join in the work of repair when same has been determined in the manner aforesaid the other may proceed with the same and the share of the party in default shall be recovered from him by the other party by action as a debt due to the party executing the work. In the event of an action having to be brought against His Majesty, the King, hereunder a Fiat to allow of the institution of the action shall not be refused or delayed.

13.- In the event of any break in the ditches or any unforeseen event occurring whereby damage will or may occur to the lands in the Reserve or to the lands of the Party of the Second Part and should the circumstances be such or appear to be such as to make it unsafe to delay action to enable a decision to be reached by mutual agreement or by reference to the Engineer as to the works to be done to prevent or reduce damage either party hereto shall be at liberty to cause temporary work to be done to prevent or reduce the damage or risk and the proper cost of such work shall be deemed a work

of repair within clause 12 hereof and the share of the other party shall be recoverable from him in the manner indicated in said paragraph. Should there be a disagreement between the parties hereto as to whether the works were necessary or as to whether the amount claimed for the cost thereof is reasonable the question shall be settled by the District Engineer or Comptroller or Minister of Lands in the manner indicated in said Clause 12.

14.- It is believed that under License No.530 and the License which the Indian Agent proposes to apply for as aforesaid and with the aid of said works as proposed to be enlarged and improved there will be plent of water to irrigate all the irrigable lands of the Parties hereto which can be served by the said works but for greater caution and to provide for a possible shortage of water it is agreed that if and so often as and so long as the amount of water available in the said ditches, as altered, falls to a point where it will irrigate not more than seven hundred (700) acres of land it shall be divided between the Parties hereto in the proportions of one-quarter to the Party of the First Part and three-quarters to the party of the Second Part.

15.- In the event of the Party of the Second Part selling or otherwise disposing of the lands to which said Water License No.530 is appurtenant the Party of the Second Part will cause to be inserted in every document dealing with such sale or disposition words to the effect that the said sale or disposition is subject to this Agreement.

16.- This agreement shall enure to the benefit of and be binding upon the Party of the Second Part his heirs, executors, administrators and assigns and on the successors

DOMINION WATER POWER BRANCH

c/o Indian Agent,
Clinton, B.C.,
9th April, 1924.

Sir: Stone Indian Reserve #1.
Williams Lake Agency.

With reference to my letter to you of 30th ulto. relative to the above reserve, I beg to report that I left Williams Lake on March 31st. and visited the Stone reserve, and returned to Clinton by P.G.E. on Monday, 7th inst.

I inspected the lower section of the joint ditch, that is, from the Eastern Boundary of the reserve to the Intake from Menton Creek, and although there is still too much snow and ice in the ditch and flumes to make a thorough inspection, it is evident that the ditch enlargement and flume erection has been carried out in a very satisfactory manner.

The figures obtained from Mr. Nelson in regard to the lumber actually in place in the flumes and intakes differ very considerably from what has actually been put in, and the total F.B.M. 9165 as stated in my report of 16th Feb. will be exceeded by several thousand feet when the final measurements are made. It will be several weeks yet before snow conditions will permit these measurements to be made, but I could see that in the Menton Creek intake alone there is over 1500 F.B.M. more than has been allowed according to Nelson's information.

The Big Creek, or upper system through the Hutch meadows is still covered with over two feet of snow and ice and I could not measure up or inspect this section of the system; I expect that it will be at least three weeks before I can obtain any information in regard to this section.

In regard to that section of the lower ditch which was intended to be flumed, and for which we would require an additional appropriation, I made a thorough examination of the bottom of this portion of ditch, and find that water action has cut down to a regular boulder creek bed, and that considerable work has been done in rip-rapping the sides of the cutting to prevent further erosion. It is my opinion that the work done on this section, (of which I had no knowledge, Mr. Nelson merely reporting that he did not consider fluming to be necessary), will obviate the necessity of fluming, and that the ditch will now function satisfactorily, without danger of washing out. The new foreman of the Chilko Ranch concurs with me in this opinion, and I consider it safe to turn in the Big Creek water into the joint ditch just as it stands, and providing my opinion is justified and the ditch functions properly during this season, then should the

Indian Affairs

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the/
necessity of fluming arise at some future time, it would come under the heading of maintenance as outlined in the existing agreement between the Department and Spencer.

The only remaining work now to be undertaken by the department of Indian Affairs,as I see it, consists of completing the battening of a flume unit near the Menton Creek intake. This work was not completed owing to there being no battens on hand at Spencers mill at the time the flume was under construction. The chief of the Stone Reserve has been shown what is necessary, and holds himself in readiness to complete this work as soon as he receives instructions.

The material required for this work consists of

1200 lin.ft.½" x 4" battens--- 400 f.b.m.
(1" x 4" allowed in F.B.M.)
400 f.b.m. @ $30.00 per m.--- $12.00

Not having the necessary authority for this additional expenditure, I have not placed the order with Spencer, as I considered that as the amount was so small, perhaps you would rather have this item pass through my expense a/c instead of applying for an additional appropriation in the regular channels.

There is 1400 F.B.M. in 2" x 10" and 2" x 4" on hand, not in place, delivered on the Indian Reserve, which will be available in the reconstruction of the Indian weirs from the joint ditch. These weirs will have to be put in under supervision as soon as weather conditions will permit, as the old weirs have been damaged through our enlargement operations last fall.

Sufficient nails are on hand to complete the work contemplated.

The Indians do not expect to commence irrigation before May 15th and there is nothing but the battening of the flume unit already referred to which will affect the flow of water to the Chilko Ranch, when the irrigation season commences.

I met Mr.Spencer at Williams Lake on Sunday last, and explained the situation to him along the lines of this letter, and he raised no objection to abandoning the idea of fluming the section of ditch contemplated at the meetings held in Vancouver and Victoria.

I shall be glad to have your instructions in regard to this matter at your convenience, in order that I may give the Chief of the Stone Reserve instructions to proceed with the completion of the battening of the flumes at Menton Creek.

Your obedient Servant,

(sgd) James H.A.Steven

2021

DOMINION WATER POWER BRANCH

c/o Indian Agent MacLeod,
Clinton, B.C.,
May 9th, 1924.

Sir:

Stone Indian Reserve No.1

In accordance with your instructions, telegraphed to me on the 29th ult. I beg to report having investigated the cause of the trouble at the headworks of the joint ditch from Menton Creek, and having carried out the repairs necessary to ensure an adequate water supply during the coming season. Mr. MacLeod and th undersigned left this point on the 30th ult. and after a hard trip, due to the condition of tje roads, arrived at the Chilko ranch on the morning of the 2nd inst.

Works as constructed.

In order that you may more readily understand the cause of the non-effectiveness of the headworks in question, I have prepared and attach herewith, a sketch plan of the layout as constructed by Mr.Nelson, showing the extent of the repairs undertaken at this time, to which I shall make reference in this report.

The primary cause of the failure of the headworks lies in the contracted entry at point "A" being inadequate to carry the freshet water of Menton Creek into the system with the six foot Cippoletti weir crest set too high, and backing the water to the intake, even with the sluice gates wide open. The pressure exerted against the wing wall across the old water course was too great for the flimsy structure erected, and at least half of the flow of the creek found its way under the wing wall into the old creek bed. It is presumed that frost conditions at the time of construction prevented Mr. Nelson from carrying this wall down to foundation and bracing it against the stream, as it certainly looked like an unfinished job.

No spillway accomodation to take care of surplus freshet water had been provided.

The flume section from the intake to the stilling box was badly strained and had been temporarily braced under Mr.Spencer's instructions, prior to my arrival.

Gate No. 2 was not only superfluous but dangerous, as its accidental closing would have washed out the entire headworks, since Gate No. 1 could not carry one third of the water to be handled by the improved system.

The stilling box as constructed, is three times as large as is necessary, and its construction and the excavation for its foundations must have entailed a great deal of useless labor and material.

The flume unit from the stilling box is laid in a section of excellent ditch and its erection was superfluous and not contemplated.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Below the headworks, some 800 feet from the end of the flume from the stilling box, a section of flume some 300 feet in length, was put in on my instructions on account of a weak lower bank on the original ditch; instead of laying this flume down onto the original ditch bottom, the flume had been raised on sills and stringers to such an extent that an adverse grade of fourteen inches in forty feet secured at the upper end of the flume section in order to get back to the ditch level above it. This condition naturally blocked the water above the flume to such an extent that the ditch would not carry more than from four to five c.f.s.

Throughout the ditch at many points the enlargement of the ditch to the dimensions given in my instructions to Mr. Nelson had not been carried out, probably due to the ground being frozen - although Mr. Nelson has not informed me of having left any work uncompleted.

These defects in the construction and the uncompleted ditch enlargement were not apparent to me at the time of my visit in April on account of snow and ice conditions prevalent at that time.

My instructions to Mr.Nelson in regard to Menton Creek headworks were to construct a simple wye intake, the entire flow of the creek to enter the system over a four foot weir, one branch of the wye, fitted with a gate to carry the requisite amount of water into the ditch and the other branch to carry surplus water also regulated by a gate, back into the natural water course. These were to be six feet in width and four feet high in regard to the wye branches and the stem was to be eight feet in width and on an entry grade of six per cent with entry walls from the weir. These instructions were in writing and why he went outside of them and constructed elaborate and expensive headworks, which were entirely faulty in both design and construction, is a matter for which he must be held personally responsible.

Repairs undertaken.

Prior to my arrival Mr. Spencer had undertaken with the assistance of Indian labor, sufficient repairs to prevent the headworks being entirely washed out. The cost of this work in rations for the Indians employed and a charge of $10.00 for one man and team amounts to $22.40, as per bill in triplicate enclosed for collection.
This work was in my opinion justified and could not have been postponed until my arrival.

Considerable difficulty was experienced in getting the Indian labor to go to work on the necessary repairs. They were anxious to get their land under cultivation to derive benefit from their labour of last season, and expressed a disinclination to undertake any more work in connection with the system, especially as they had pointed out to Mr. Nelson during the construction of the Menton Creek headworks that they did not feel called upon to undertake work above what the engineer had told them was necessary (this also applied to the flooding dams at the Hutch meadows).

I feel sure that had Indian Agent MacLeod not been present that it would have been almost impossible to get them to turn out, as they finally did, and a promise of $5.00 worth of feed per man for the job.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

With twenty Indians working Saturday, Sunday and Monday, - May 3rd, 4th and 5th, the repairs to the head-works as shown on the accompanying sketch were carried out, and will, in my opinion be sufficient with maintenance to ensure an adequate supply of water during this season.

The 300 foot flume section already referred to has been lowered and the weaker band of the ditch above it has been raised two feet over a distance of 600 lin.ft.

Throughout the ditch length to the Eastern boundary of the reserve the lower bank has been raised with sods and earth wherever necessary, this constituted one and a half days work. These repairs, however, cannot be made permanent until the water is turned off in the fall, and are only intended to ensure this seasons's supply. At points where the banks have been raised it will be necessary to deepen and enlarge the ditch as originally intended. In regard to the Kenton Creek head-works it will be necessary either to carry out on a more permanent scale the temporary repairs already effected or preferably to install the works as originally instructed, taking out and utilising the material from the present structure.

Damages.

In regard to Mr. Spencer's threatened damage suit, it is my opinion that this action was intended by him to accelerate action on our part to undertake the work in question. Mr. MacLeod and myself are in a position from actual observation of conditions to block any such action on his part, as his land has not suffered in any way from lack of water, and in fact he has not even prepared the land to receive water.

He was actually getting enough water for 800 acres. of land on our arrival, as all Indian intakes were closed, and his upper land was in many places flooded. I insisted upon his shewing Mr. MacLeod and myself the conditions on which he based his claim, and the land which he shewed us as being dried out, was not even seeded or marked for the application of water, and in any case moisture was evident anywhere an inch or so below the ground surface, as must be the case where the snow has barely gone off the land.

I have cut a spillway in the stilling box at eleven inches above the present weir cost, which now is reduced to a length of 5'3", this represents 15.49 c.f.s. = 3067 acre feet, i.e. enough for 1200 acres of land, and since the Indians will not have more than 200 acres of land ready for irrigation this season, there will be ample water for Spencer's land. The gate at Fletcher Lake was opened up on the day we left the reserve, and trouble should now be expected.

Cost of Repairs.

I have Mr. Spencer's account for $100.00 for food supplies to the Indians during the repairs undertaken by me, and this amount plus $11.25 for sacks and $12.90 for tools., totaling $124.15, represents the cost of the work.

I am returning these to Spencer, however, on account of his charge of 25¢ per sack, which is too high for the class of sacks supplied, for the most part old potatoe sacks, and also for details of the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

food supplied and prices.

I will forward the adjusted accounts to you on receipt, for collection.

I may point out that on my previous visit having taken all the shovels I could collect at the Stone Reserve to Clinton Indian Reserve No. 2, for work there, I asked Mr. Spencer to lend me the six shovels which appear on this bill. He, however, would not do so and I was forced to buy them. I have left them with the Chief of the reserve for future use on the ditch maintenance.

Upper Works.

Having left the Clinton Indians at work without supervision, and it being important for Indian Agent MacLeod to return to his duties at Clinton, on the report of Spencer's employee, who states that the upper works are satisfactory, I did not take the time to ride over and inspect the upper at this time, but returned direct to Clinton.

It is my intention to return to the Chilcotin as soon as I get my monthly reports and office woork to date, and take Mr. Nelson with me. I will personally see to the putting in of the Indian weirs, (lumber is now on hand) and complete the spillway at the intake, which I could not finish on account of frozen earth fr m the excavation for the stilling box, and will then leave Nelson to instruct the Indians in the economical application of water to their land, instructing him in writing to incur no expense to the Department in material or food for the Indians while so engaged, providing this meets with your approval.

I understand from Col. Pragnell, who was here yesterday, that on completion of the work on which he was engaged under Mr. Tredcroft's supervision, that Col. Pragnell instructed Nelson to proceedto Pemynoos Reserve to put in a box there, I could not find out from Inspector Pragnell what kind of a box this is or what it was for, but as long as the Branch is held responsible for Nelson's work I beg to request that he be instructed to refrain from putting in anything in the way of irrigation structore unless on your authority.

Col. Pragnell is to have Nelson report to me on Monday and I will probably leave here for the Chilco Ranch on Tuesday or Wednesday of next week.

I wish to acknowledge the assistance of Indian Agent MacLeod who ably assisted on the work in handling the Indian labor and the repairs to the ditch and intake.

I cannot yet say whether I will be able, without further expense to the Department, to persuade the Indians to put the headworks and ditch in such shape as would be considered permanent work, but will endeavor to do so if possible. From Mr. Spencer's viewpoint I don't think that he intends to be satisfied with anything short of concrete at the intake, and in an unguarded moment, expressed his satisfaction at the astuteness of his lawyer in embodying that clause in the agreement which reads to the effect that "The works shall be carried out to the satisfaction of the party of the second part." I do not contemplate any difficulty, however, in this respect

Chilcotin, B.C.,
May 15, 1924.

Sir:

Stone Indian Reserve No. 1.

With reference to the above reserve, certain work will have to be carried out in repairs to the joint system from Big Creek later in the season,- this work will be detailed in time to commence immediately the irrigation season is ended,- probably about the 31st of August.

At the present time the following works may be carried out under your supervision by Indian labor, on the distinct understanding that no expense is to be incurred to the Department either in rations or materials.

The spillway at the Benton Creek intake is to be increased in width to at least eleven feet and set at an elevation of thirteen inches above the present weir crest elevation,- an apron to carry water away from the stilling box foundations is to be providedat the spillway.

Every alternate slat at the grating in the stilling box is to be removed to prevent an accumulation of debris from backing the water towards the intake.

The maintenance of the joint ditch from Benton Creek Intake to the Eastern Boundary of the Indian Reserve is to be undertaken by the Indians under your supervision.

I understand that your duties for some considerable time will consist in the instruction of the Stone Reserve Indians in the economical application of water to their land, which will give you an opportunity of attending to the duties outlined above.

Under our agreement with Spencer, we are allowed only five outlets from the main ditch,- Kindly have intake boxes installed at five points, the location of which you can decide on after consultation with the Indians concerned,- These boxes are to be of the type now in use, installed as instructed, in a manner which will permit of correct measurement of water.

Your obedient servant,

(sgd) James H.A.Steven,

Assistant Engineer.

DOMINION WATER POWER BRANCH

c/o Indian Agent,
Clinton, B.C.,
1st August, 1924.

Sir:

File No.27984.
Stone Indian Reserve No.1

I beg to report having visited the above Reserve on Sunday, 27th July for the purpose of inspecting the installation of the five offtake boxes to the Indian lateral ditches from the joint Stone I.R.-Spencer ditch.

This work has been carried out, and in addition, Mr. Nelson has installed a four foot Cippoletti Weir in the main ditch at a point immediately below the lowest Indian offtake box,presumably for the purpose of checking the flow into Spencer's own ditch. Mr. Spencer billed us with a small amount of lumber in this connection, which he now agrees to pay himself since the installation of the weir is for his benefit alone and was arranged for and installed between Nelson and himself.

Mr. Spencer informs me that he intends to visit Vancouver in the near future and will put up to you a proposition in regard to a ditch around his meadows on the Menton Creek watershed, since I informed him that I had no authority to deal with anything outside of the agreement. Apparently the flooding dams on which he was so insistent are now found to be unnecessary as natural conditions due to the extra water from Big Creek are sufficient to irrigate his hay land. In the meantime the water is shut off at Fletcher Lake to permit his meadows to dry and no water is available either at the Indian Reserve or on his own land. The reserve land is not suffering to any extent owing to the natural precipitation. I am reporting this fact only as a matter of record.

Mr. Nelson reported to me that Spencer had on more than one occasion this season used the lowest Indian offtake box as a spillway when his own ditch was filled to a point where it threatened washouts on his own system, thereby causing minor damage to land on the Indian Reserve. I have asked Mr. Nelson to report the matter in writing, and in the meantime have examined the land in question.

Whether with a view of having the right to continue this practice or not, instead of providing himself with a spillway on his own land, I cannot say, but Mr.Spencer informed me that the offtake in question was not on the Indian Reserve but on his land.He stated that he had employed Rupert Haggen, B.C.L.S. of Williams Lake who had established this fact by survey.

A.W.Phillip's location of this offtake (vide Report No.5 Williams Lake Agency,Plan #14) shows it to be within the reserve boundary, and in any case approximately half a mile intervenes between the reserve and the nearest of Spencer's lots east of the reserve. I have not made any survey to check A.W.Phillips location and have asked Mr. Spencer to take the matter up with you direct. Should you consider this matter important enough, I will be glad to re-locate this point, but in any case as I see it, it would not be permissible for Mr.Spencer to use one

Chilcotin, B.C.,
May 15, 1924.

Sir:

Stone Indian Reserve No. 1.

With reference to the above reserve, certain work will have to be carried out in repairs to the joint system from Big Creek later in the season,- this work will be detailed in time to commence immediately the irrigation season is ended,- probably about the 31st of August.

At the present time the following works may be carried out under your supervision by Indian labor, on the distinct understanding that no expense is to be incurred to the Department either in rations or materials.

The spillway at the Benton Creek intake is to be increased in width to at least eleven feet and set at an elevation of thirteen inches above the present weir crest elevation,- an apron to carry water away from the stilling box foundations is to be providedat the spillway.

Every alternate slat at the grating in the stilling box is to be removed to prevent an accumulation of debris from backing the water towards the intake.

The maintenance of the joint ditch from Benton Creek Intake to the Eastern Boundary of the Indian Reserve is to be undertaken by the Indians under your supervision.

I understand that your duties for some considerable time will consist in the instruction of the Stone Reserve Indians in the economical application of water to their land, which will give you an opportunity of attending to the duties outlined above.

Under our agreement with Spencer, we are allowed only five outlets from the main ditch.- Kindly have intake boxes installed at five points, the location of which you can decide on after consultation with the Indians concerned.- These boxes are to be of the type now in use, installed as instructed, in a manner which will permit of correct measurement of water.

of the recognized Indian offtakes as a spillway, to the detriment of Indian land for the protection of his own. We would certainly hear from Mr.Spencer were the position reversed.

In regard to the work to be done this fall, I may say that from conversation with the Stone Indians, I do not think that they feel disposed to do any work unless assisted in the matter of rations. Their view point is that they have already done enough work on the ditch to ensure them water for every acre of land on the reserve, and their case is rather strengthened by the water being cut off about the Middle of July in order to permit Spencer to cut his meadows. This particular season is not the point, but there are seasons when a recurrance would work a hardship on the Indians, especially with regard to alfalfa crops.

This report is respectfully submitted for your information when Mr.Spencer's proposal is brought to your notice.

c/o Indian Agent MacLeod,
Clinton, B.C.,
August 11, 1924.

Sir:

File No. 27904.
Stone I.R.No.1.

With reference to your letter of the 5th inst. with regard to the work to be undertaken this fall in the matter of repairs to the joint ditch to serve the above reserve, I beg to advise you that in the event of it being necessary to ration the Indians during the period that they will be engaged in the carrying out of the necessary repairs, I consider that approximately Two hundred dollars will be required.

The work necessary, as far as I can see it, in relation to our agreement would consist of rebuilding the Menton Creek headworks according to the original intention, that is to say, a simple wye intake, with the water entering the system over a 6' Cippoletti Weir. One leg of the wye would serve as an intake to the system and the other would act as a spillway back into the original channel. The lumber now in place in the large stilling box &c. would be utilized in the new construction, and my estimate for this work only includes nails and labor.

It will be necessary for us to replace the box at the outlet of Fletcher lake according to the design submitted to Spencer during your visit to the reserve, and approved of by himself at that time. You no doubt recollect that the box in question had not been enlarged or repaired by Nelson last fall, and is not considered to be satisfactory.

Apart from the above work, I do not see that the Department should be expected to undertake any further work. Spencer still claims that the ditch from Menton creek intake to the eastern boundary of the Reserve is not large enough, but in view of the fact that during your visit and on many occasions since that time, the ditch has actually carried in excess of the combined records of Spencer and the Indians, I consider that no further work is necessary in this connection, apart from maintenance.

I attach herewith, details of the estimated cost of work, and would recommend that one of your engineers be present during the construction, to guard against the over-rationing of the Indians, and to see that the work is carried out according to specifications. I can arrange the other work on hand in order to be available to supervise the work.

Your obedient servant,

(Sgd) James H.A.Steven
Assistant Engineer.

Estimate of cost of repairs to the Joint Stone Indian Reserve - Spencer ditch from Big Creek.

1) Replacement of the existing headworks at Menton creek with simple wye intake and 6' Cippoletti weir.

Lumber.- Lumber now in place in the existing headworks to be utilized in the new works.

Nails.- 100# 4" & 6" nails. --- $ 7.50

Labor.- Estimated that 12 men working 6 days will take down the present works and rebuild them according to the original design.

72 man days @ $1.50 per day. 108.00
6 team days @ 1.00 " " 6.00 121.50

2) Complete replacement of outlet box from Fletcher Lake, with 6 ft. outlet box fitted with stop logs instead of gate.

Lumber.- 500 (474) f.b.m. @ 30.00 per m. 15.00

Nails .- 50# 4" & 6" nails --- 3.75

Labor.- Estimated that four men working six days, including their time getting to the job and returning, &c. will put this box in place.

24 man days @ 1.50 per day. 36.00
Hauling lumber.
2 man days @ 1.50 per day 3.00
6 team days @ 1.00 per day. 6.00 63.75

Total 185.25

Contingencies 14.75

Estimated Cost ... $200.00

Note.

The above estimate gives due consideration to the fact that the Indians of the Stone Reserve are not disposed to work on the necessary repairs and will probably do so only under pressure on the part of the Indian Agent.

Your File 27984-1.

Dear Sir:-

Re - Chilco Ranch-Stone I.R.System.

I beg to acknowledge receipt of your letter of the 22nd instant with accompanying correspondence referring to the application filed by Philip Palmer to lease land in the vicinity of Marshes Lake on the Stone-Chilco irrigation system.

In reply to your desire for any correspondence which I may have on this subject, I am hereto attaching

(1) Memo. from M. Ballis, Senior Assistant Engineer, dated November 27, 1925.

(2) Protest filed by myself on the 28th November with H. Cathcart, Superintendent of Lands, Provincial Government.

(3) Acknowledgment by Mr. Cathcart, Superintendent of Lands, dated the 1st December.

I understand from Mr. Ballis that his Memo. to me was the result of a conversation he had with yourself bearing on this matter.

MEMO.

Sir:- Re Stone I.R. No.1.

With reference to the application of Phillip Alfred Farmer for permission to lease certain land bordering on Rushes Lake near Big Creek, I would suggest that the following protest be filed with the Lands Department:-

In the British Columbia Gazette of November 19th, Page 3504, under Land Leases, notice is given that Phillip Alfred Farmer proposes to apply for permission to lease certain lands bordering on Rushes Lake near Big Creek.

The Department of Indian Affairs is the holder of Conditional Water Licence No. 7730, which authorizes the diversion of 1629 acre feet of water from Big Creek. This water is carried by ditch to Rushes Lake thence to Duck Lake, thence to Fletcher Lake, thence through the natural channel of Manton Creek to the point of re-diversion to Stone Indian Reserve No. 1. As Rushes Lake, therefore, forms part of the irrigation system authorized under Conditional License No. 7730, I object to the granting of the above mentioned application unless the proposed lease is made subject to this licence.

Your obedient servant,

Re - Chilco Ranch-Stone I.R.System.

I am enclosing copy of a letter of February 15th, from Mr. C.Spencer, wherein is enclosed a notice by Phillip Alfred Farmer, Applicant, for permission to lease certain described lands in the vicinity of Rushes Lake on the Stone-Chilco Irrigation System.

You will note that Mr. Spencer suggests that a protest be filed with the Provincial Lands Department should this application interfere with the Stone-Chilco Irrigation System.

Attached also is copy of my letter of even date to Mr.Spencer in which he is advised that a protest has already been filed by yourself in this matter.

Will you kindly advise me of any further correspondence which you may have had with the Department regarding the protest to Mr. Farmer's application.

COPY FOR MR.W.E.DITCHBURN

November 9, 1925.

Sir:

In view of the unsatisfactory operation of the Stone-Chilco irrigation system during the early part of last season it has been found necessary to advise that you should be on the ground at the spring break-up so that you will be in a position to see that the operation is carried on in a proper manner.

I am advising you now as it is quite possible that these instructions may be overlooked in the rush of early spring work. You may, therefore, consider this your authority if no further advice is given. You will not, however, allow any other work to inferfere with the carrying out of these instructions.

Your obedient servant,

C.E.Webb
District Chief Engineer.

Re-Chilco Ranch-Stone Indian Reserve
Irrigation System.

Dear Sir:-

I beg to inform you that Engineer W. C. Warren, of the Dominion Water Power Branch, is now in your district to superintend the completion of works recommended by the District Water Engineer of the Provincial Water Rights Branch, and I have to request that you will give Mr. Warren every assistance in the matter of obtaining Indian labour and equipment for this work in order that it may be completed before the frost comes on.

WND/KD.

Yours truly,

W. E. Ditchburn.

Dear Sir:-

With further reference to the matter of the completion of works on the Stone Indian Reserve-Chilco Ranch irrigation system to meet the approval of the District Engineer of the Provincial Water Rights Branch, I beg to say that I have received a reply to my telegram of the 8th instant which I quoted you in my letter above referred to. This reply reads as hereunder and I would, therefore, recommend that you should wire to Engineer Warren, immediately, to have the work undertaken at once:-

CONDITIONS

Approved by Board of Railway Commissioners for Canada, under Order 162, dated March 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

C.E.Webb, Esq.,
Acting District Engineer,
Dominion Water Power Branch,
119 Pender St.West,
Vancouver, B.C.

Dear Sir:-

Re Cosens Spencer.

Following our recent conversation with you we wrote at once to Mr. Spencer for his instructions in regard to the work you propose to undertake and he says that he has no intention whatever to be unreasonable and that when the works are properly done he will be willing to express his satisfaction. He points out, however, that whether the work mentioned in yours of the 7th August will or will not make a proper system is a matter of opinion; that his understanding is that the present works done by the Department were done under the advice of the Departmental engineers and yet they did not turn out to be satisfactory. His letter does not say so in terms but we understand him to mean that "the proof of the pudding is in the eating" and that when the works do turn out to be satisfactory then he will be willing to concede it.

With special reference to the work to be done at the Outlet at Fletcher Lake and the possible lowering of the lake level: Mr. Spencer points out that at present the water level in the Lake is two feet below its normal and that there is at the present time about three feet of water at the dam which is holding it back: This, he says, is a small earthen embankment with a flume about five feet long in which there is a gate. He considers that there ought to be no difficulty in putting in proper permanent works and gate without further lowering the level of the lake. To lower the level of the Lake below where it now is would be very serious in his opinion. The water in Big Creek is now below the intake and no water can now be diverted into the Lake whereas it should undoubtedly be filled immediately.

With regard to the headgate and intake works at Big Creek; Mr. Spencer points out that the only dam at the present is one which was put in to divert debris from the intake. He thinks that this dam has diverted water from the intake as well so that water only goes into the intake when Big Creek is at freshet height.

Mr. Spencer presses it upon you that this matter ought to be attended to immediately.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH

Sir,-

Re Stone I.R. - Chilco Irrigation System.

I am in receipt of a letter dated 28th instant, from your Miss Milne, enclosing copy of letter addressed to yourself from Mr. McGinnis for the Assistant Deputy and Secretary dated August 21st, wherein you are advised that the Department of Indian Affairs did not wish the improvements on the above irrigation system to be carried out before there is a definite understanding that the owner of Chilco Ranch will make no further claim upon the Indians or the Department.

As we are now ready to go ahead with the proposed improvements as sanctioned by Mr. Varcoe I would suggest that you take the matter up immediately with Mr.Spencer, so that the improvements contemplated may be carried out with the least possible delay, in view of the already lateness in the season.

Yours very truly,

C.E. Webb
Acting District Chief Engineer.

Ottawa, Aug. 21, 1925.

Sir,-

Replying to your letter of the 15th instant with regard to the completion of a joint irrigation system on the Chilco Ranch, Stony Indian Reserve, I beg to inform you that after considering the extensive report lately submitted by the Acting District Chief Engineer through the office of the Dominion Water Power Branch at Ottawa The Department has consented to grant a final amount of $750. in order that this question may be permanently and definitely settled.

Before proceeding with this additional work it should be understood that the ~~same~~ is to make no further claim upon the Indians or the Department in connection with this irrigation system, and I would ask you to advise Mr. Webb accordingly, as it is not the intention of the Department to expend further amounts on this scheme.

Your obedient servant,

E. R. L. MacInnes.

August 13th, 1925

Dear Sir:-

I beg to inform you that I have received a letter from Mr. C.E. Webb, Acting District Chief Engineer of the Dominion Water Power Branch, Vancouver, asking that $750.00 be provided for the completion of works on the Chilco Ranch-Stone Indian Reserve irrigation system which which are required to meet with the approval of the District Water Rights Engineer of the Provincial Government. I may say that $159.20 has already been expended in the construction of a wing boom at the Big Creek intake to meet an unexpected situation owing to the rapid drop of the waters in Big Creek.

I beg to respectfully request that this money be furnished Mr. Webb in order that the work may be undertaken at as early a date as possible and completed before the frost sets in in the Chilcotin country.

WED/KD.

Your obedient servant,

W. E. Ditchburn.
Indian Commissioner for B. C.

COMMISSIONER'S OFFICE
AUG 11 1925
VICTORIA, B. C.

Sir,

Re Chilco Ranch - Stone Indian Reserve
Irrigation System.

During the latter part of the past week I wrote to Mr. Johnston, submitting Mr. Balls' estimate of the cost of proposed improvements to the Chilco Ranch - Stone Indian Reserve irrigation system, which are required to meet with the approval of Mr. Varcoe, district water rights engineer.

This estimate amounts to $750.00, and includes an item of $159.20, which has already been expended in the construction of a wing boom at the Big Creek intake.

I presume that Mr. Balls has already discusses these proposed improvements with you and that they meet with your approval. If this is so, I would suggest that you immediately write your Department recommending immediate action in the matter, because if this work is to be undertaken this year it is essential that the funds be provided at once, so that the work may be satisfactorily completed before the frost sets in, in the Chilcotin district.

I might add that on August 7th a letter was addressed to Messrs. Griffin, Montgomery & Smith, solicitors, for Mr. Cosens Spencer, advising them of our proposals.

Yours faithfully,

C.E. Webb
Acting District Chief Engineer.

Victoria,B.C.

Dear Sirs: Attention Mr.W.E.Ditchburn.

We have your letter of September 9th with reference to our Invoice Number 825583 of the 26th ultimo for $9.23.

In checking up this matter we find that a mistake was made on the original order for Waders, which was sent to Mr.C.E.Webb of the Dominion Water Power ~~Plant~~ Branch. In the first instance we sent knee waders instead of wading pants and the knee waders were returned to us and the second invoice was for the wading pants which were sent in replacement.

Through an error this invoice was not accompanied by a Credit Note to cancel. This has now been attended to and we are enclosing our Credit Note No.6130 to cancel this charge. We hope that you find this satisfactory and we apologize for our error in this regard.

Yours truly,

MARSHALL-WELLS B.C. LIMITED.

September 9, 1925.

Dear Sirs:-

I have to acknowledge receipt of invoice No. 828583 of the 26th ultimo for $9.25 for 1 pair of waist waders, 1 inc 11, $9.00, and postage and insurance 25¢, making a total of $9.25. The invoice states that the waist waders were shipped to "G.B.V. Nelson, Chilco Ranch, Hanceville, B.C."

In connection with this I beg to say that on the 7th August there was ordered from your Firm by Mr. C.E. Webb, of the Dominion Water Powers Branch, 1 pair wading trousers No. 11, and 1 carpenter's tool box, metal lined, $6.50. The invoice, No.804619, for these goods amounting to $15.50, was forwarded to this Office some time ago and a voucher properly made out and forwarded to Ottawa, and in due course a cheque for this amount will be received by your firm.

I would like to know from you at your earliest possible convenience, therefore, who placed the order for the second pair of waders charged for in Invoice 828583. Your early reply in this matter will oblige.

Your obedient servant,

W.E. Ditchburn,
Indian Commissioner for B.C.

DOMINION WATER POWER AND RECLAMATION SERVICE

VANCOUVER, B.C. August 5, 1925

Sir:

With reference to a request recently received from Mr. Balls I have placed an order with Messrs. Marshall-Wells, Ltd. to ship to G.B.W.Nelson, c/o C. Spencer, Chilco Ranch, Hanceville, B.C., prepaid, one pair of wading trousers size 11.

I have not been able to procure the box which Mr. Nelson requires but as soon as one can be obtained it will be forwarded to him.

Messrs. Marshall-Wells, Ltd. have been instructed to charge the wading trousers to the Department of Indian Affairs and to send the bill to you.

Yours truly,

COMMISSIONER'S OFFICE
AUG 7 1925

August 10th, 1925.

Sir:-

I have the honor herewith to submit Voucher No. 55-A for $15.60 in favor of Messrs. Marshall-Wells B.C., Ltd., Vancouver, B. C., for the furnishing of one pair wading trousers and one metal lined carpenters tool box to Mr. G.B.W. Nelson, Irrigation Specialist. Mr. Nelson applied to Mr. Webb, of the Dominion Water Power Branch for these articles and the matter was referred to this office and I, therefore, considered that the same were necessary for the Irrigation Specialist in the performance of his duties. I authorized the purchase and requested that the account should be sent to this office. I beg to recommend that the same should be paid.

WED/KD.

Enclosure:-

Your obedient servant,

W. E. Ditchburn.

Duplicate

Sir,-

I am pleased to acknowledge receipt of your letter of the 9th instant, regarding Stone Indian Reserve and Chilco Ranch irrigation system, and your remarks have been carefully noted.

Regarding the dam at the outlet of Fletcher Lake, it is my understanding that when Mr. Swan visited this dam last summer he undertook to make certain improvements to the outlet in view of the fact that the old sluiceway was broken down. This work at the dam was realized at the time to be aside from the agreement of October 27, 1923, but I take it that Mr. Swan recognized that improved outlet works would be necessary in order to safely carry the additional water required under licences for Chilco Ranch, and Stone Indian Reserve.

Mr. Balls is at present in Vancouver, and after conference with him a reply will be addressed to Messrs. Griffin, Montgomery & Smith's letter of June 5th, copy of which will be forwarded to you for your information.

I am in full accord with the last paragraph in your letter, and in this regard would draw your attention to conditions existing at the present time in the Cariboo which to my mind will need careful attention. I would refer to the Dog Creek Indian Reserve No.2, and Canim Lake I.R.No.1.

At both these reserves investigations have been made into the possible improvement of irrigation conditions, but no reports have yet been submitted in either case to Ottawa, nor any recommendations in the matter made. I am given to understand from Mr. Balls that the Indians of Canim Lake I.R.No.1 are at the present time excavating ditch along the survey made by Mr.Steven last year and also that the Indians of Dog Creek have cut and hauled logs to the mill, to be sawn into lumber for their proposed project. This, to my mind, is an entirely erroneous

procedure

W.E. Ditchburn, Esq.,
Indian Commissioner for British Columbia,

procedure, as the water rights on neither project are settled, nor storage rights, if any are required, obtained. I can assure you that this Department cannot in any way take the responsibility for works being undertaken by the Indians before authprization for works or improvements are received from the Indian Department at Ottawa.

If this Branch is to carry out irrigation projects for the Indians it is essential that no works of any nature be started before proposals are approved by the Indian Department and authorization for commencement of work issued from this office.

Yours very truly,

C.E. Webb
Acting District Chief Engineer.

Your File 27984-7.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 8th instant enclosing letter of June 5th from Messrs. Griffin, Montgomery and Smith, solicitors, for Cosens Spencer, of the Chilco Ranch, setting forth certain complaints with regard to the irrigation system not functioning properly.

In reply I beg to say with regard to the complaint about the dam at the outlet of Fletcher Lake, that I can not see that this Department is in any way responsible for the condition alleged, as there is nothing in the Agreement of 27th October, 1923, referring to the dam, which I understand, was constructed by Mr. Spencer's predecessor, was in place, and functioning satisfactorily when the works meditated under the Agreement above-referred-to were arranged for, and have been so functioning apparently up to March 1925. The works specified in the agreement were

(1) Enlargement of the old ditch from Big Creek to Fletcher Lake, and

(2) A ditch from a specified point on Kenton Creek across the Stone Indian Reserve to the Chilco Ranch.

So far as putting in place measuring devices on the ditch through the Reserve as specified in the Agreement, these of course, should be attended to, and I presume that Mr. Balls has seen to this matter while he and Engineer Archibald were in that district. Pending this work being done, it would hardly seem right for the Indians to block up the ditch to prevent any water passing on through the ditch to the Chilco Ranch, unless they can not otherwise obtain the amount of water from Kenton Creek which they are entitled to under their first record.

Agent MacLeod wrote me a few days ago on this matter and enclosed a copy of a letter from Mr. Spencer dated the 29th ultimo in which he stated that on account of the Fletcher Lake dam breaking last winter, he could not get water to irrigate his ranch. He at the same time stated that the outlet boxes on the Reserve were not satisfactory and the Indians were barricading the ditch with lumber in order to get water. Attached hereto is a copy of the letter referred to which, to my mind, does not appear to be very consistent in view of the fact that the claim put forth by Messrs. Griffin, Montgomery and Smith is that the meadow below the dam is covered with water two feet deep.

This

C.E. Webb, Esq.,
Acting District Chief Engineer,

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

This water, as you know, is carried from the Bambrick Meadows through the special cutting made on the instruction of Engineer Steven to the Hutch Meadows and thence by way of Menton Creek to the Reserve and on to the Chilco Ranch. It is difficult, therefore, to see just how Mr. Spencer is short of water at the Chilco Ranch, if there is so much water on the meadows just below Fletcher Lake that it has destroyed his hay crop. Surely any barricade put in the ditch by the Indians would not have this effect, for beside the Menton Creek water passing down this Creek and through the ditch, there is also some of the Big Creek water which apparently gets away from the Fletcher Lake through Mr. Spencer's own dam being faulty.

Agent MacLeod has, however, instructed the Indians that they must not barricade the Creek.

As apparently Engineer Balls will be in Vancouver to-morrow, I think you have pursued the proper course by not replying to Messrs. Griffin, Montgomery and Smith until his return, as you will then have the opportunity of him giving you a full and satisfactory explanation of the situation. I am inclined to the opinion that he will bear out the contention I have made in this letter.

In conclusion I may say that it was a sorry day for this Department that negotiations were ever entered into with Mr. Spencer in regard to this irrigation scheme, but it is a clear indication for our future experience that it is most inadvisable to undertake any works until a full agreement has been entered into by all parties meditating joint works.

Your obedient servant,

WED/hf.

E. MacLeod, Esq.,
Clinton, B.C.

Dear Sir,

On account of the Fletcher Lake dam outlet breaking this winter, we cannot get enough water to irrigate this Ranch, which means only half a crop of hay, and disposing of my cattle or purchasing hay, which is almost impossible to do.

To make matters worse, I find the boxes (outlet) on the reserve are not satisfactory, and the Indians barricade the ditch with lumber in order to get water.

Yours faithfully,

(Sgd.) C. Spencer.

Dear Sir,

Re Stone Indian Reserve - Chilco Ranch,
Irrigation System.

I am enclosing herewith copy of letter dated June 5th, from Griffin, Montgomery & Smith, solicitors for Mister Cosens Spencer, in which are outlined certain complaints regarding functioning of the above joint irrigation system. My reply thereto dated 6th instant is also enclosed.

I have delayed replying further to Messrs. Griffin, Montgomery & Smith until the return of Mr. Balls on Wednesday next from that district.

The complaints outlined in attached letter have practically all been brought up in some form or other at a previous time. The last paragraph, however, refers to outlet points and measuring devices along the system. Mr. Balls will be in a position to advise me in this regard. I would suggest, however, that no interferance by the Indians be allowed to the proper distribution of the water.

I will be pleased to hear from you in reply any comments you may have on this letter.

Your obedient servant,

enclo.

Vancouver, B.C.

Dear Sir:-

Re Chilco Ranch Water System.

We have had instructions from Mr. Spencer to write you in reference to the recent visit of Messrs. Archibald and Nelson. Our understanding is that they went up primarily to look at the wing dam protecting the intake dam at the Big Creek intake but that nothing was actually done by them as Mr. Spencer's Manager had already done temporary work by filling in the rock work into the cribbing. What we wish now to emphasize is that a rock filled dam which washes out at high water is not and cannot be a safe and permanet structure and that it could not possibly be the duty or responsibility of our client to watch this dam and send his own men from time to time to fill it in for the protection of himself and the Indians. If experience now shows that the dam was built in a wrong shape another one ought to be put in and the matter put right.

We believe, however, that Messrs. Archibald and Nelson also went down and looked at the outlet dam at the lower end of Fletcher Lake. This is a most unsatisfactory work and is in no sense safe or permanent. It broke in March last and flooded the meadow below to the depth of two feet. The effect of this will be that Mr. Spencer will not be able this year to cut probably more than half the quantity of hay which otherwise he would have been able to get. In the result, the supply of hay at the Chilco Ranch will be short for the winter. Mr. Spencer may be able to supplement this by purchasing hay but he may not and if he does not then he will have to sell a great many of his cattle at the wrong season of the year and at a great loss. You will concede that this is a very serious matter and that the responsibility must rest entirely with the Indian Department and the construction of a permanent and proper dam should immddately be put in hand.

While they were there either Mr. Archibald or Mr. Nelson invited Mr. Stoddart (Mr. Spencer's foreman or manager) to sign a document in the following language:-

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"Re - Fletcher Lake Outlet Dam.

In respect to the work done on this structure by the Department of Indian Affairs, the dam and sluiceway are functioning efficiently at the present time, and it is my opinion that, provided it withstands the present year's operations, and develops no weakness previous to the time when irrigation water is turned in from Big Creek next spring (April 1926), it will be an efficient structure for as many years as the timber work in the structure lasts."

We would ask you to kindly request the members of your Department to present documents to Mr. Spencer personally when they have to be signed.

Mr.Spencer further writes that the outlet points and measuring devices on the Reserve have not been properly installed and are not working, in consequence of which the Indians are in the habit of blocking the ditch with trees and wood in order to get the water they want. This is apparently an old and troublesome question which Mr. Spencer did not know about until after he bought the Chilco Ranch but it appears that there have been difficulties for years between the Indians and the former owners of this ranch, owing to the Indians interfering with the ditch. The agreement distinctly provides that "proper head gates and measuring devices are to be installed but not more than five in all without Mr. Spencer's consent thereto, and the management of this ditch on the Reserve is vested jointly in Mr. Spencer and the Indian Agent and further that the Superintendent General shall exercise all powers and authorities vested in him to prevent interference by the Indians with the ditches and works." This matter is much more serious than would appear on the face of it and we are now instructed to call upon the Indian Department to implement this promise by them and to exercise immediately and vigorously all the powers they have to prevent this interference with the ditches and works.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH

Dear Chief,

I am in receipt of a letter from C. Spencer, Chilco Ranch, complaining that your people are barricading up the irrigation ditch and interferring with the water rights. This practice will not be allowed as it is against our agreement and regulations.

Please advise your people accordingly.

Yours faithfully,

Emack

April 6th, 1925.

Sir:- Re Stone Indian Reserve, Chilco Ranch Irrigation System.

I enclose herewith for your information copy of letter dated March 25th, from Mr. C. Spencer and my reply thereto, of April 4th.

You will note from Mr. Spencer's letter that he states that the gate and sluice at Fletcher Lake broke away about March 1st. He did not write about the matter until the 25th of March. You will note from my letter that Mr. Archibald is going to Fletcher Lake to investigate the situation.

I do not think that any damage whatever has been done and it is altogether probable that very little work will be required to repair this dam. However, the report in full will cover the situation.

Your obedient servant,

C.E.Webb.

CHILCOTIN, B.C.,
Hanceville P.O., March 25th, 1925.

C. E. Webb, Esq.,
District Enginner,
119 Pender St.W.,
Vancouver, B.C.

Dear Sir:- Re Fletcher Lake Dam and Outlet.

The gate and sluice at Fletcher Lake put in by your Mr.Archibald, broke away about March 1st, and flooded our Hutch Meadows the whole length of same, with about two feet of water, fortunately the cattle had eaten most of the hay there, but it ruined a lot of feed, when we rustle cattle in the spring. Have put in the holes, both at the sides and underneath a number of sacks of manure, which has checked the flow somewhat, but it is most important that permanent work be done at once, as the present structure will be of no use to regulate the flow of water, when the lake rises.

The work done by your department at this point could hardly be called permanent work and is not satisfactory to me under the agreement, as it is a danger point, there being a big volume of water to hold back. I cannot undertake any responsibility for the system until this place is made quite safe and permanent. As the matter is urgent will you wire me what you intend to do about it, upon receipt of this letter. You will quite understand the urgency of this matter.

Thanking you in anticipation.

Cordially,

(signed) C.Spencer.

March 14, 1925.

Messrs. Griffin, Montgomery & Smith,
Barristers, etc.,
543 Hastings St. West,
Vancouver, B. C.

Gentlemen:

Your letter of February 11th, addressed to H. Balls, Assistant Engineer, Dominion Water Power Branch, re Chilco Ranch 6238/11, has been handed to us for reply.

We have carefully gone over all the correspondence and the agreement and have consulted Messrs. Balls and Webb and feel that we have the facts pretty well in hand.

Dealing then with the two points raised in your letter under headings "A" and "B", we beg to point out to you that the works to be done under the agreement of October 23rd have all been completed, and as to parcel "A" thereof, certificate of Mr. Varese, Government Engineer, that same have been done to his satisfaction, obtained. Mr. Varese also states in his report that Mr. Spencer has also approved.

With regard to the works covered under heading "B" of the agreement (not of your letter), the Government Engineer requested certain additional work to be done, which has now been done and we expect to have his certificate in hand at any time. Consequently, our position is that, as far as the Department of Indian Affairs is concerned, we have performed and carried out the terms of the agreement. We have not overlooked the fact that the agreement provides that this work shall be done to the satisfaction of the District Engineer and the Party of the Second Part. We note that in your original draft you provided that this work was to be done to the satisfaction of the Party of the Second Part. To this, of course, the Department would not agree, and made it to the satisfaction of the Engineer and your client, and we take it that it will not be controverted that your client cannot arbitrarily refuse to say that he is satisfied, or that his arbitrary refusal to express satisfaction will in any way prevent it being found as a fact that the work has been completed. "Satisfaction" in said clause means the satisfaction of a reasonable man or the reasonable satisfaction of a prudent man looking after in an honourable way his own interest.

With regard to paragraph "B" of your letter, this matter, of course, has nothing to do with the contract

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

at all. The ditch and the gate through the natural obstruction between the properties were not contemplated and could not in our judgment in any reasonable construction be held to be contemplated by the parties in the making of the agreement. If you will read the description in feet and look at the location of the parcels "A" and "B" mentioned in the agreement, it is abundantly clear that this cannot in any way come under the terms of the said agreement. If, as a matter of fact, the construction of this ditch or the said gate has injured Spencer you undoubtedly would have a right of action independently of the agreement. Our opinion is that these works have not injured but rather improved Mr. Spencer's position. This, of course, is a matter of fact and would have to be passed upon by a judge after hearing the evidence. We are convinced, from discussing it with the engineers, that no injury has occurred and that the only effect of the construction of the said works has been that water comes unto Mr. Spencer's property a little earlier and is away from same earlier, thereby conferring a benefit.

To sum the whole situation up under both heads, the matters mentioned in your letter are questions of fact in both cases. We believe we have fully performed the conditions of the contract and incidentally we might say that we are convinced that there never was any promise of fluming, and that the matter was not discussed prior to the execution of the agreement, but with Mr. Swan after the agreement had been executed, and secondly, that the works constructed outside of the agreement are an advantage to Mr. Spencer and our clients have in no way injured him.

Yours truly,

ELLIS & BROWN,

VICTORIA, B. C.

Sir,-

Re Chilco Ranch
Stone Indian Reserve Irrigation System.

With further reference to my letter of the 3rd instant, with which was enclosed report on Survey of Estimate of Costs of Irrigation Ditch around Hutch Meadows in the above irrigation system, prepared by Mr. Archibald, dated Vancouver, B.C., February 1925, I am enclosing Estimates of Costs of the work based on current rate of labour in that locality.

This estimate at current rates, you will note, totals $13,600, which is considerably in excess of the estimate based on Indians rationed at $1.50 per day. However, should the work be undertaken at all it will, in all probability, be necessary to carry it through, using the current rate of wages, and any discussion as to cost, should be based on this estimate of $13,600, because it is only on work which the Indians alone are interested that it is possible to get them to work for the rationing wage of $1.50 per day.

STOR I. R. CHILCO RANCH IRRIGA ON SYSTEM
Estimate of Costs of Irrigation Ditch around Hutch Meadows
Using Current Rates for Labour.

March 10,1925.

Estimates of Costs -

The estimation of costs for these proposed works is very greatly influenced by their geographical location. They are situated many miles from the nearest centre of labour supply in a country which is very sparsely populated. White labour is practically unavailable, so that Indian labour must be depended on.

At current rates for Indian labour, it is estimated that excavation estimates should be made at the rate of 50¢ per cu. yd. and flume erection at the rate of $1.20 per lineal foot. Haulage estimates are based on a rate of $5.00 per team day.

Intake Dam below Fletcher Lake.

Excavation and Fill	
600 cu. yds. @ $0.50 per cu. yd.	$300.00
Lumber for spillway and flume	
As per Bill of Material on Plan No. 2.	
1600 F.B.M. @ $35.00 per thousand	56.00
Iron ware	
As per Bill of Material on Plan No. 2.	
50 lbs. @ $0.08 per lb.	4.00
Hauling to site from Chilco Ranch, 15 miles	
Average load 1,000 F.B.M.	
1600 F.B.M. @$5.00 per 1,000 F.B.M.	8.00

Intake Dam at Stilling Pond - Sta. 35.

Excavation and Fill	
400 cu.yds. @$0.50 per cu.yd.	200.00
Lumber for spillway	
As per Bill of Material on Plan No.3.	
500 F.B.M. @ $35.00 per thousand	17.50
Iron ware	
As per Bill of Material on Plan No. 3.	
25 lbs. @ $0.08 per lb.	2.00
Hauling	
500 F.B.M. @ $5.00 per 1,000 F.B.M.	2.50

Dear Sir:-

Re: Your File No.27984-7.
CHILCO RANCH & STONE INDIAN RESERVE IRRIGATION SYSTEM.

I have for acknowledgment, your letter of March 4th, and in reply to same would state, that reference to the Agreement between His Majesty and Cosens Spencer reveals the following:-

As to Clause 3, of the said Agreement,

"3. The enlargement and improve-
"ment of the ditches and works heretofore
"constructed for the conveyance of the
"water under Record Number 530. shall be
"proceeded with by the parties hereto.
"In general the work to be done is at the
"following places, -

(a) Commencing at a point on Big
"Creek tentatively designated "B" on Water
"Rights Map No.4572 and extending for a
"distance of approximately 4500 feet along
"the ditch to the point of natural drainage
"into Menton Creek.

(b) From a point on Menton Creek
"officially designated "A" on Water Rights
"Map No.4578 and extending for a distance
"of approximately four and a quarter miles
"along said ditch across the said Reserve
"to the Chilco Ranch"

"4. The Party of the First Part
"will provide all the labour required in
"the enlargement of the said ditches and
"other work and will provide the sum of
"Five Hundred Dollars ($500.00) towards
"the cost of tools and materials and the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"food of the Indians during the progress
"of the work."

"5. The Party of the Second Part will
"provide the balance of the cost of
"necessary tools and materials and food
"for the Indians during the progress of
"the work but in no event more than Seven
"Hundred and Fifty Dollars ($750.00)

Clause 6. provides for the manner in which the above respective sums shall be advanced.

Clause 7. which is the only clause which gives us any difficulty, reads as follows:-

"7. The Party of the First Part covenants
"with the Party of the Second Part that the
"works to be executed shall be such as will
"deliver all the water called for under the
"various Records and Licenses aforesaid.
"The work is to be done to the satisfaction
"of theDistrict Engineer appointed under the
"Water Act of British Columbia and of the
"Party of the Second Part and as expedit-
"iously as possible.

You will note that by Clause 4., His Majesty undertakes to provide all the labour and will provide $500.00 towards the cost of tools, materials and food, but there are no conditions limiting to $500.00 and no more, as in the case of Mr. Spencer.

In Clause 7. the King covenants that the works to be executed shall be such as will deliver all the water called for under the various Records and Licenses.

It would seem, therefore, that there is an obligation to do this work in a manner satisfactory to take care of all the water needed as aforesaid.

Of course, if the works are ones done to the satisfaction of Mr. Varcoe and Mr. Spencer, and

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

C. E. Webb, Esq., March 5,1925.

Certificates to that effect are obtained, nothing further would be required.

With regard to the fluming, there is no express mention of fluming in the Agreement, and Mr.Swann's verbal agreement would not,of course, be binding, and anyhow, I should think you would be clearly safe under Mr. Varcoe's certificate as to the works mentioned under heading (a), and if you get a certificate from him as to the works under (b) and Mr. Spencer does not agree, it would then be a matter for some competent party to decide whether or not the works had been done according to the intent and tenor of the Agreement.

It would not appear to me that the arbitration clauses refer to construction, but that same are restricted to management and dates, etc.,

Clauses 11, 12 and 13 do not appear to me to provide for reference to arbitration as to the sufficiency of the work to be done under Clauses 3, 4, 5, 6 and 7.

With regard to (b) of the letter from Griffin, Montgomery & Smith, if, as you state, this work is entirely outside of the agreement, then any rights Mr. Spencer may have for damages would have to be settled by a Court in the ordinary way, on proof that the works were responsible for the damage. If you are right,in your contention that these works are a benefit rather than a damage, of course Spencer could not succeed in any action.

On the whole matter I think that, if a certificate is obtained from Mr. Varcoe as to the works referred to in Clause sub-B of clause 3 of the Agreement, your position would be very strong, and it would be difficult for Mr. Spencer to get any Court to say that the Agreement had not been sufficiently performed.

This, of course, leaves any question of damage which he may have, by reason of the matters referred to in Clause B. of Griffin, Montgomery & Smith's letter, to be determined entirely outside of this Agreement.

Yours truly,

H:R

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 5th instant enclosing copy of the report of Engineer F. R. Archibald in connection with the statement of a Mr. Fosbery that the Stone Indian Reserve-Chilco Ranch irrigation system is causing him damage by flooding his hay meadow.

In speaking to Assistant Engineer Steven to-day on the subject he pointed out to me that the alleged flooding of the land took place prior to the time that Mr. Fosbery took the same up under the Land Settlement Board. However, it will be just as well to have the case thoroughly investigated during the coming season. I am inclined to think that Mr. Fosbery figures on getting some compensation from the Department and Mr. Spencer in view of the fact that Mr. Church obtained something of this character. Mr. Spencer absolutely refuses, I believe, to recognize any claim on the part of Mr. Fosbery which would appear to be inconsistent with the stand he has taken in regard to the flooding of his own land.

I enclose herewith copy of memorandum dated February 25th, from Mr. Archibald, in which he outlines a possible claim by a Mr. P.H.V. Fosbery, who holds, through the Land Settlement Board, Lots 2119, 2126 and 3227, in the Lillooet District, also Lot 2128, Lillooet District, on which the Board has now taken additional security.

From a sketch map recently supplied me by the Provincial Water Rights Branch I am of the opinion that water for the joint irrigation scheme passes through Lot 2119. I have not the location of the other lots and would suggest that you look into the matter and see if the diverted water from Big Creek passes through any of them.

So far as I know, up to the present time, Mr. Fosbery has made no claim against the joint irrigation system.

Yours truly,

enclo.

C.E. Webb
Actg. District Chief Engineer.

Feb. 25, 1925

Sir,-

Memorandum - Mr. Webb.

On the eve of departure from Chilco Ranch after the completion of the Hutch Meadows survey, I met a Mr. Fosbery, who holds property on the upper Menton Creek watershed, under the provisions of the Soldiers Settlement Act. A sketch plan showing the approximate location of this property is attached to this memorandum.

As shown in the sketch, water diverted from Big Creek for use in the Stone I.R. - Chilco Ranch irrigation system, flows through a meadow on Mr. Fosbery's property.

Mr. Fosbery informed me that old drainage ditches existed previous to the construction of the Stone I.R. - Chilco Ranch irrigation district. These are indicated by red lines. One ditch lies across the southern end of the meadow, another from this transverse ditch to a small lake situated in the centre of the meadow, and a third from the northern end of the lake through a low ridge to lower ground.

Mr. Fosbery stated that under conditions existing previous to the diversion of water from Big Creek, the above mentioned drainage ditches had operated satisfactorily in carrying off the surface water from the meadow, but that they were not of sufficient capacity to carry off the augmented supply, and in consequence when the Big Creek intake was open he would be unable to cut hay for winter feed as had been the practice for years past.

To overcome the flooding of his meadow by the Big Creek irrigation flow he suggested that the old drainage ditches mentioned above should be increased in size, and intimated that he thought this should be considered as a part of the Stone I.R.-Chilco Ranch, irrigation system, and the expense of the work should be borne by the joint owners of that system.

In all probability Mr. Fosbery is aware of the fact that Mr. H.E. Church, the owner of L.2116 & L.3275, has received some compensation for right-of-way and easement over these lots and possibly his remarks to me were prompted by this knowledge.

Your obedient servant,

J. Archibald

Sir,-

Re Chilco Ranch-Stone Indian Reserve.
Joint Irrigation Project.

I had a talk with Mr.Ellis this morning re the functioning of the above irrigation system and it was agreed that it would be most advisable for the three of us to get together and have a discussion on the situation which now exists.

Mr. Archibald has practically completed his report on the "Cost of Irrigation Ditch Around the Hutch Meadows". This will also be available for our consideration.

Please let me know if it is convenient for you to come to Vancouver in the near future in this regard.

Yours very truly,

C.E. Webb.

Land Settlement Bd. refused to deal with as above

Dear Sir:-

In connection with the Agreement between Herbert Edmund Church and the Indian Department, we beg to state as follows:-

Lot 3275 is registered in the name of Mr. Church, subject first to a mortgage in favour of the Land Settlement Board to secure the re-payment of $3500.00 with interest at six and a half per cent, and second, to a charge by way of easement to carry water across the said Lot, in favour of Cosens Spencer.

The position of this charge is that Mr. Spencer is registered subsequent to the Mortgage and therefore in case of default in payment of the mortgage, the Land Settlement Board could close both Church and Spencer out.

We approached the Land Settlement Board and endeavoured to effect an arrangement with the Board by which our Agreement could be registered prior to the mortgage, but the Land Settlement Board refused to do this, so that the situation is, that if we now register our Agreement, we are in the same position as Mr. Spencer, and in case of foreclosure, could be shut out of the land.

Lot 2116 is, at the present time being registered, The Crown Grant of this property is in the hands of Kelly Douglas & Company, Limited, who have been instructed by Mr. Church to register this Crown grant. Kelly Douglas & Company, Limited, will then take a mortgage back from Mr. Church in their favour.

We are informed by Messrs. Griffin, Montgomery & Smith, who are acting for Kelly Douglas & Company, Limited, in this registration, that they have registered the easement from Church to Spencer so that the title would stand in the name of Church, subject to the easement and in favour of Spencer, and subject to the mortgage in favour of Kelly

R.G. Swann, Esq. July 26th, 1924.

Douglas & Company, Limited. In other words, Mr. Spencer has succeeded in getting the easement on Lot 2116 registered in priority to the mortgage, so that foreclosure of the mortgage in favour of Kelly Douglas & Company, Limited, will not affect the easement in favour of Spencer over this particular lot.

We are endeavouring to get Messrs. Kelly Douglas & Company, Limited, to allow us to register our easement in priority to their mortgage. Mr. MacWilliams of this Company, seems reluctant to do this, but we have pointed out to him that in as much as Mr. Spencer's easement is already registered, they will not suffer any hardship by allowing us priority.

However, if they refuse to grant us this concession, our position would be that we would have to register subject to their mortgage, and could be closed out on a foreclosure.

In as much as Mr. Spencer has already registered his easement, it would be a difficult matter for anyone to prevent our water flowing through the ditch which is now owned in common. At the same time, it would be better if we could get our agreements registered. The situation is, at the present time, as above stated.

Yours truly,

ELLIS & BROWN,

Dear Mr. Ditchburn,

Replying to your letter of the 13th instant. Mr. Archibald returned several days ago from the Stone Indian Reserve, where he completed the several improvements which he had to do in connection with the joint irrigation system between the Chilco Ranch and the Stone Indian Reserve.

Mr. Archibald also made a survey of the Hutch Meadows with regard to the flooding of Mr. Cosens Spencer's hay lands in that area.

An urgent investigation has just come up which will require Mr. Archibald's attention for the next few weeks and hence his report on the Hutch Meadow matter will be delayed for some little time. However, as soon as the report is completed I will be pleased to forward a copy in full to you.

Mr. Archibald yesterday sent a personal communication to Mr. Cosens Spencer in which he advised him of the fact that it would probably be the first of the year before the report in question would be prepared.

Yours very truly,

C.E. Webb.

November 13, 1924.

Dear Mr. Webb,-

I understand Engineer Archibald has returned from the Chilcotin District after superintending certain work to be done on the joint irrigation system between the Chilco Ranch and the Stone Indian Reserve and was also to report on Mr. Spencer's claim with regard to the flooding of his hay lands.

I would be greatly obliged if you will let me have a copy of Engineer Archibald's report on this matter together with any blue-prints dealing with the flooding question so that I will be in a position to intelligently understand the subject, should Mr. Spencer call at Victoria to demand any compensation.

Youre very truly,

WED/HM.

W.E. Ditchburn,
Indian Commissioner for B.C.

October 22, 1924.

R.G. Swan, Esq.,
District Chief Engineer,
Dominion Water Power Branch,
VANCOUVER, B.C.

Sir,-

RE--Joint irrigation system from Big and Menton Creeks for Stone Indian Reserve and Chilco Ranch.

I met Mr. Cosens Spencer at Vancouver on the 5th ultimo by arrangement, to hear his complaints against the Department of Indian Affairs, particularly with regard to the draining of the "Hutch Meadow".

According to Mr. Spencer, it is now impossible to cut hay on the "Hutch meadow" without shutting off the water completely at the outlet of Fletcher Lake. The result is that, within seven days after shutting off the water, the lower part of the system is entirely dry and no water is available for irrigation on the Stone Reserve or Chilco Ranch.

As it was insisted that something be done to drain the Hutch meadow so as to permit hay-cutting operations and at the same time to provide an adequate supply of water for irrigation purposes on the reserve and ranch, I agreed to investigate conditions on the ground and, if possible, to arrange for the District Water Rights Engineer to accompany me and submit a separate report to the Comptroller of Water Rights.

Knowing that you had personally inspected the entire system in connection with former complaints, I concluded that the proper and shortest way to settle any contentious

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

questions regarding work to be done under the agreement would be to refer such questions to the District Water Rights Engineer, as provided in the agreement.

Arrangements were accordingly made and I proceeded to the Chilco Ranch in company with Mr. C. Varcoe, District Water Rights Engineer, and Mr. R. MacLeod, Indian Agent, arriving there on the evening of the 21st ultimo. On the following day an inspection was made of all work done in connection with the enlargement and improvement of the system to convey water from Big and Menton Creeks to Stone Reserve and the Chilco Ranch. The "Bambrick" and "Hutch" meadows were also inspected and Mr. Spencer's complaints with regard to the functioning of the system in relation to these meadows were investigated.

As there is little to add to what is already on file in regard to work done under the agreement, I will refer briefly to the different units and pass on to the principal matter of complaint.

(1) HEADWORKS AT BIG CREEK.

These works have successfully withstood the action of high water with the exception of the rock-filled log-crib wing dam above the intake. A deep hole has been scoured under the end of this crib and the rock-filling (in the end section) has been washed away. With this exception the headworks are in excellent shape and have functioned satisfactorily under severe high water tests.

(2) ENLARGEMENT OF DITCH FROM BIG CREEK TO FLETCHER LAKE.

This section of the system is in splendid condition. The carrying capacity of the ditch is in excess of requirements and upkeep should be very light. Both Mr. Spencer and the District Water Rights Engineer have expressed satisfaction with all work done on the system above Fletcher Lake.

(3) DAM AT OUTLET OF FLETCHER LAKE.

Owing to leakage through this dam and consequent danger of wash-out, the sluice-box has been closed and backfilled with earth on the lake side, rendering the sluice-gate inoperative. As Mr. Spencer found it necessary in any event to shut off the water completely at this point, in order to permit the cutting of hay on the meadows below, it cannot be claimed that the failure of this dam (built by

the

(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the former owner of the Chilco Ranch) to function properly in any way interfered with the irrigation supply. Although improvements at this point are not covered by the agreement necessary repairs will be undertaken and completed this Fall in accordance with your instructions and your understanding with Mr. Spencer.

(4) JOINT WORKS FROM MENTON CREEK.

It is understood by all concerned that certain repairs and improvements are necessary before this portion of the system can be considered satisfactory. Notwithstanding this, however, the system carried an ample supply of water last season, over and above the maximum requirements of both the Stone Reserve and the Chilco Ranch.

Repairs and improvements referred to in (3) and (4) are to be undertaken this Fall in the order of their importance so that if any work has to be left over until next season, the irrigation supply will not be affected.

"BAMBRICK" AND "HUTCH" MEADOWS.

These wild hay meadows lie below Fletcher Lake in the watershed of Menton Creek, and extend from a point about one-quarter mile from the lake outlet for a distance of approximately two miles along the bottom of the valley.

The Bambrick, or upper meadow, is principally marsh land and is separated from the Hutch meadow by a low ridge which formerly held back snow water and drainage from Fletcher Lake, rendering the land practically valueless for haying purposes.

Under most favourable conditions it is only possible to cut hay around the edge of the marsh, and this is apparently the first season for some years that any crop has been obtained at all.

In order to cut hay on the Hutch or lower meadow it has always been necessary to shut off the water at the outlet of Fletcher Lake to permit the land to drain and the patches of hay to ripen. Owing to seepage from the Bambrick meadow it took threeweeks to drain this land, after which time there was little or no water available for irrigation at the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the Chilco Ranch.

Since the irrigation requirements of the Stone Reserve have now to be considered in addition to those of the Chilco Ranch, Engineer Steven caused a channel to be excavated through the low ridge between the two meadows so that irrigation water, which is required as early in the Spring as obtainable, would not be held back on the Bambrick Meadow. The effect of his action is that the channel now serves the dual purpose of facilitating irrigation early in the Spring, (for which it was strictly intended) and draining the Hutch Meadows later in the season in a few days instead of three weeks as formerly.

The point to be emphasized is that notwithstanding the increased volume of water carried through the system, conditions on the meadows in question are, in my opinion, better now than they ever were formerly.

It is true that the conditions, of which Mr. Spencer complains, actually exist, but it is equally true that such conditions existed long before the Department entered into the joint scheme of enlarging and improving the system, as specified in the agreement. When questioned as to the responsibility of the Department in the matter, Mr. Spencer claimed that Mr. Steven had given him the assurance that the increased flow of water through the system would scour out and deepen the channel through the meadows sufficiently to carry the maximum irrigation requirements from Big Creek and at the same time drain the meadow. After inspecting the ground I considered that any such assurance, if given at all, was nothing short of absurd.

I later questioned Mr. Steven in this regard and he denied having given Mr. Spencer the assurance claimed and stated that he had referred to "scouring in connection with the deepening of the channel between a small lake and Fletcher Lake on the upper portion of the system which had

nothing

(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

nothing whatever to do with the Hutch Meadow.

From the foregoing it is apparent that there has been a misunderstanding on the part of Mr. Spencer as to the nature and extent of work to be done on the system.

The work contemplated by the Department and which is generally described in the agreement was for the conveyance of water from Big Creek to the point of natural drainage into Menton Creek, from which point it would flow naturally to the point of re-diversion near the mouth of Menton Creek. The object was to obtain an increased supply of water for irrigation of lands on Stone Reserve and Chilco Ranch. In recommending the scheme to the Department no consideration was given to the question of improving conditions on the Hutch Meadows, presumably because the question was never raised and because Mr. Spencer alone was interested. That Mr. Spencer did not contemplate any work being done in connection with draining of meadow lands is borne out by the agreement itself which was drafted by his legal adviser.

This agreement sets out the application and various licences under which the water is to be diverted, but no mention is made of Mr. Spencer's flooding rights or the meadow lands to which these rights are appurtenant.

Full benefit can not be derived from this irrigation system so long as Mr. Spencer cuts off the supply in mid-season to allow hay meadows to drain. The only solution of the problem, in my opinion, is to straighten and deepen the channel through the meadow so that it will carry the maximum irrigation requirements. Back flooding could be effected by check-dams where necessary.

In order to determine the liability for cost of this work the following points are submitted for consideration:-

(1) Although Mr. Spencer may be at liberty to cut off the irrigation supply for the Chilco Ranch at will, he is not authorized

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

authorised by licence or otherwise to cut off the irrigation supply from Big Creek for the Stone Indian Reserve.

(2) Assuming that Mr. Spencer cuts off his own supply as in the past and only the required irrigation supply for the Reserve is allowed to pass through the Hutch Meadow it is doubtful if the present channel will carry the water without flooding adjacent land.

(3) Should flooding occur and loss of crop result, Mr. Spencer would undoubtedly lay a claim for damages against the Department.

If, upon survey, the effect of flooding is confirmed, it would appear that the Department must either accept conditions as they exist, or arrange with Mr. Spencer to share the cost of work necessary to remedy these conditions.

Your obedient servant,

M. Balls,
Assistant Engineer.

M.

September 10th, 1924.

Dear Mr. Balls:-

I received your telegram of the 9th instant referring to Mr. Varese accompanying you to the Chilco Ranch. Both Mr. Cleveland and Mr. Pope are out of town but Chief Engineer Davis is acting Comptroller and I to-day had an interview with him and he has promised to instruct Mr. Varese to go with you. I know you will not let Mr. Spencer put anything more over on us as these works have cost a pretty penny already.

Re the Crosina matter, I wrote to Mr. Alexander suggesting that an early decision be given and am to-day in receipt of a letter from him stating that the Board will sit in Victoria at 10 o'clock a.m., on October 1st to have a final hearing and have so advised Mr. Crosina. In view of this I think it is important that you should be on hand on the date mentioned.

WED/KD.

Yours sincerely,

W. E. Ditchburn.
Indian Commissioner for B. C.

September 10th, 1924.

Dear Sir:-

Having reference to joint works which were constructed under an agreement between Mr. Cosens Spencer of the Chilco Ranch and the Department of Indian Affairs for the Indians of the Stone Indian Reserve I beg to inform you that outside of a small amount of work which is to be completed this fall, Mr. Spencer is now claiming that it is impossible to cut hay on the Hutch Meadows without completely shutting off the dam at Fletcher Lake and he states that when this is done after seven days no water is available for irrigation on his land several miles below. I may say that Brigham or Manton Creek flows through these meadows and has always done so.

Mr. Spencer now wishes that this Department should enlarge the creek-bed sufficient to prevent any flooding or in other words put the meadows in a condition in which they never were before.

Last week Mr. Engineer Balls had a conference with Mr. Spencer in Vancouver and it was agreed that he should go to the Chilco Ranch to investigate the complaint and that your District Engineer Mr. Varcoe should accompany him as an independent authority to determine whether the Indian Department was in any way responsible for the condition alleged by Mr. Spencer and if so to what extent. Engineer Balls left for the Okanagan country on Monday afternoon and met Mr. Varcoe in Kamloops and endeavoured to arrange for the two of them to go to the Chilco Ranch about the 16th instant. I am to-day in receipt of a telegram from Engineer Balls in which he states that while Mr. Varcoe is quite willing to go he does not feel that he can do this without instructions from the Comptroller.

As the above referred to agreement provides for the District Engineer being called upon to settle all disputes as regards these joint works I would respectfully ask that you instruct Mr. Varcoe to proceed to Chilco Ranch with Engineer Balls about the 16th instant in order that this dispute may be settled once and for all.

WED/KB.

Yours very respectfully,

W. E. Ditchburn,
Indian Commissioner for B. C.

A.E. Cleveland, Esq.,
Comptroller of Water Rights,
Parliament Buildings,
Victoria, B. C.

% Indian Agent MacLeod,
Clinton, B.C.
May 12th, 1924.

Dear Mr. Ditchburn,

Upon my return from the Chilcotin I am in receipt of your letter of the 2nd inst. and have postponed answering it until I had the report on the repairs to the Stone Indian Reserve irrigation system completed. A copy of this report has been forwarded to Mr. Balls requesting him to let you know from my report how the Department stands in regard to ~~ditches~~ damages threatened by Mr. Spencer.

It is unfortunate that the headworks installed under Mr. Nelsons supervision last fall failed to function properly when the water was turned into this system, a matter of two weeks ago, this is apparently a duplication of the case as regards back flooding dams at the Hutch Meadows, in short a disregard of instructions.

In regard to the Clinton ditch, after persuasion on the part of Indian Agent MacLeod and the undersigned, approximately fifty per cent of the working strength of this reserve have turned out to work on the ditch form Kelly Creek, this would represent about seven men and one team, who have now been working since the 23rd of April, and completed approximately one-half mile of ditch.

The rations of these Indians is under close supervision on the part of the Indian Agent MacLeod, and there is no reason to expect that the original estimate of $2400.00 is likely to be exceeded.

My other activities to date will be covered in my progress report to Mr. Balls within the next few days.

With kindest regards to Mrs. Ditchburn and yourself.

Your sincerely,

James H. H. Blenus.
Assistant Engineer.

Personal.

May 2nd, 1924.

Dear Steve:-

As we have'nt heard anything from you for some time I thought I would like a line giving some idea as to how you are getting along. Is the Clinton ditch well under way now and how are the Indians performing the work under Mr. Nelson? With the Indian Agent so close at hand I think this scheme should be put through with little trouble.

Did you get the new fluming in Spencer's ditch in time to let the water down from Big Creek? I heard something about Spencer claiming he could not get the water on to his land and had to send a gang up to the head works to see what was the matter but no particulars were given.

Please drop me a note at your earliest convenience giving information.

Yours sincerely,

W. E. Ditchburn.

Sir,

Stone Indian Reserve No. 1.

I enclose herewith for your information copy of my report to Mr. Swan in connection with repairs found necessary in connection with the ditch to the above reserve, which is self-explanatory.

I have a letter from Mr. Ditchburn dated May the 2nd in which he makes inquiries in connection with Spencer's claim for damages on account of the failure of the headworks from Menton Creek. I would be glad if you will show Mr. Ditchburn your copy of my report in order to relieve his mind as far as Spencer's claim for damages is concerned.

I will write you in regard to the Clinton Indian Reserve within the next few days, progress there has necessarily been slow on account of the Indian labor situation, which cannot be avoided. Up to the present time our maximum strength has been seven men and one team, offset by an approximate length of one-half mile of complete ditch. Detailed progress report will furnish you with fuller particulars.

Your obedient servant,

(Sgd) James H. A. Steven,
Assistant Engineer.

Stone Indian Reserve No. 1.

In accordance with your instructions, telegraphed to me on the 29th ult. I beg to report having investigated the cause of the trouble at the headworks of the joint ditch from Menton Creek, and having carried out the repairs necessary to ensure an adequate water supply during the coming season. Mr. MacLeod and the under signed left this point on the 30th ult. and after a hard trip, due to the condition of the roads, arrived at the Chilko ranch on the morning of the 2nd inst.

Works as constructed.

In order that you may more readily understand the cause of the non-effectiveness of the headworks in question, I have prepared and attach herewith, a sketch plan of the layout as constructed by Mr. Nelson, showing the extent of the repairs undertaken at this time, to which I shall make reference in this report.

The primary cause of the failure of the headworks lies in the contracted entry at point "A" being inadequate to carry the freshet water of Menton Creek into the system with the six foot Cippoletti weir crest set too high, and backing the water to the intake, even with the sluce gates wide open. The pressure exerted against the wing wall across the old water course was too great for the flimsy structure erected, and at least half of the flow of the creek found its way under the wing wall into the old creek bed. It is presumed that frost conditions at the time of construction prevented Mr. Nelson from carrying this wall down to foundation and bracing it against the stream, as it certainly looked like an unfinished job.

No spill way accommodation to take care of surplus freshet water had been provided.

The flume section from the intake to the stilling box was badly strained and had been temporarily braced under Mr. Spencer's instructions, prior to my arrival.

Gate No. 2 was not only superfluous but dangerous, as its accidental closing would have washed out the entire headworks, since Gate No. 1 could not carry one third of the water to be handled by the improved system.

The stilling box as constructed, is three times as large as is necessary, and its construction and the excavation for its foundations must have entailed a great deal of useless labor and material.

The flume unit from the stilling box is laid in a section of excellent ditch and its erection was superfluous and not contemplated.

Indian Affairs

File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Below the headworks, some 800 feet from the end of the flume from the stilling box, a section of flume some 300 feet in length, was put in on my instructions on account of a weak lower bank on the original ditch; instead of laying this flume down onto the original ditch bottom, the flume had been raised on sills and stringers to such an extent that an adverse grade of fourteen inches in forty feet occurred at the upper end of the flume section in order to get back to the ditch level above it. This condition naturally blocked the water above the flume to such an extent that the ditch would not carry more than from four to five C.F.S.

Throughout the ditch at many points the enlargement of the ditch to the dimensions given in my instructions to Mr. Nelson has not been carried out, probably due to the ground being frozen - although Mr. Nelson has not informed me of having left any work uncompleted.

These defects in the construction and the uncompleted ditch enlargement were not apparent to at the time of my visit in April on account of snow and ice conditions prevalent at that time.

My instructions to Mr. Nelson in regard to Menton Creek headworks were to construct a simple wye intake, the entire flow of the creek to enter the system over a four foot weir, one branch of the wye, fitted with a gate to carry the requisite amount of water into the ditch and the other branch to carry surplus water also regulated by a gate, back into the natural water course. These were to be six feet in width and four feet high in regard to the wye branches and the stem was to be eight feet in width and on an entry grade of six per cent with entry walls from the weir. These instructions were in writing and why he went outside of them and constructed elaborate and expensive headworks, which were entirely faultry in both design and construction, is a matter for which he must be held personally responsible.

Repairs undertaken

Prior to my arrival Mr. Spencer had undertaken with the assistance of Indian labor, sufficient repairs to prevent the headworks being entirely washed out. The cost of this work in rations for the Indians employed and a charge of $10.00 for one man and team amounts to $22.40, as per bill in triplicate enclosed for collection.
This work was in my opinion justified and could not have been postponed until my arrival.

Considerable difficulty was experienced in getting the Indian labor to go to work on the necessary repairs. They were anxious to get their land under cultivation to derive benefit from their labor of last season, and expressed a disinclination to undertake any more work in connection with the system, especially as they had pointed out to Mr. Nelson during the construction of the Menton Creek headworks that they did not feel called upon to undertake work above what the engineer had told them was necessary, (this also applied to the flooding dams at the Hutch meadows).

I feel sure that had Indian Agent MacLeod not been present that it would have been almost impossible to get them to turn out, as they finally did, and a promise of $5.00 worth of food per man for the job.

With twenty Indians working Saturday, Sunday, and Monday,- May 3rd, 4th and 5th the repairs to the headworks as shown on the accompanying sketch were carried out, and will, in my opinion, be

Indian Affairs

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

sufficient with maintainence to ensure an adequate supply of water during this season.

The 300 foot flume section already referred to has been lowered and the weaker bank of the ditch above it has been raised two feet over a distance of 600 lin. ft.

Throughout the ditch length to the Eastern boundary of the reserve the lower bank has been raised with sods and earth wherever necessary, this constituted one and a half days work. These repairs, however, cannot be made permanent until the water is turned off in the fall, and are only intended to ensure this season's supply. At points where the banks have been raised it will be necessary to deepen and enlarge the ditch as originally intended. In regard to the Menton Creek headworks it will be necessary either to carry out on a more permanent scale the temporary repairs already effected, or preferably to install the works as originally instructed, as taking out and utilizing the material from the present structure.

Damages.

In regard to Mr. Spencer's threatened damage suit, it is my opinion that this action was intended by him to accelerate action on our part to undertake the work in question. Mr. MacLeod and myself are in a position from actual observation of conditions to block any such action on his part, as his land has not suffered in any way from lack of water, and in fact he has not even prepared the land to receive water.

He was actually getting enough water for 800 acres of land on our arrival, as all Indian entakes were closed, and his upper land was in many places flooded. I insisted upon his showing Mr. MacLeod and myself the conditions on which he based his claim, and the land which he showed us as being dried out, was not even seeded or marked for the application of water, and in any case moisture was evident anywhere an inch or so below the ground surface, as must be the case where the snow has barely gone off the land.

I have cut a spillway in the stilling box at eleven inches above the present weir crest, which now is reduced to a length of 5' 3", this represents 15.49 C.F.S. = 3667 acre feet, i.e. enough for 1200 acres of land, and since the Indians will not have more than 200 acres of land ready for irrigation this season, there will be amply water for Spencer's land. The Gate at Fletcher Lake was opened up on the day we left the reserve, and trouble should now (not?) be expected.

Cost of Repairs.

I have Mr. Spencer's account for $100.00 for food supplies to the Indians during the repairs undertaken by me, and this amount plus $11.25 for sacks and $12.90 for tools, totalling $124.15, represents the cost of the work.

I am returning these to Spencer, however, on account of his charge of 25¢ per sack, which is too high for the class of sacks supplied, for the most part old potato sacks, and also for details of the food supplied and prices.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I will forward the adjusted accounts to you on receipt, for collection.

I may point out that on my previous visit having taken all the shovels I could collect at the Stone Reserve to Clinton Indian Reserve No. 2, for work there, I asked Mr. Spencer to lend me the six shovels which appear on this bill. He, however, would not do so and I was forced to buy them. I have left them with the Chief of the reserve for future use on the ditch maintenance.

Upper Works.

Having left the Clinton Indians at work without supervision, and it being important for Indian Agent MacLeod to return to his duties at Clinton, on the report of Spencer's employee, who states that the upper works are satisfactory, I did not take the time to ride over and inspect the upper at this time, but returned direct to Clinton.

It is my intention to return to the Chilcotin as soon as I get my monthly reports and office work to date, and take Mr. Nelson with me. I will personally see to the putting in of the Indian weirs, (lumber is now on hand) and complete the skillway at the intake, which I could not finish on account of frozen earth from the excavation for the stilling box, and I will then leave Nelson to instruct the Indians in the economical application of water to their land, instructing him in writing to incur no expense to the Department in material or food for the Indians while so engaged, providing this meets with your approval.

I understand from Col. Pragnell, who was here yesterday, that on completion of the work on which he was engaged under Mr. Tredcroft's supervision, that Col. Pragnell instructed Nelson to proceed to Pemynoos Reserve to put in a box there, I could not find out from Inspector Pragnell what kind of a box this is or what it was for, but as long as the Branch is held responsible for Nelson's work I beg to request that he be instructed to refrain from putting in anything in the way of irrigation structions unless on your authority.

Col. Pragnell is to have Nelson report to me on Monday and I will probably leave here for the Chilko Ranch on Tuesday or Wednesday of next week.

I wish to acknowledge the assistance of Indian Agent MacLeod who ably assisted on the work in handling the Indian labor and the repairs to the ditch and intake.

I cannot yet say whether I will be able, without further expense to the Department, to persuade the Indians to put the headworks and ditch in such shape as would be considered permanent work, but will endeavor to do so if possible. From Mr. Spencer's viewpoint I don't think that he intends to be satisfied with anything short of concrete at the intake, and in an unguarded moment, expressed his satisfaction at the astuteness of his lawyer in embodying that clause in the agreement which reads to the effect that "The works shall be carried out to the satisfaction of the party of the second part." I do not comtemplate any difficulty, however, in this respect from Mr. Varcoe's decision, once we have the works put in shape to our own satisfaction. On my return to the Chilcotin I will measure up the lumber in place etc., and report on the upper works and flooding dams.

Your obedient servant,

(Sgd) James H. A. Steven,
Assistant Engineer.

LETTER, AND IN YOUR REPLY QUOTE
FILE NO. 27984

Vancouver, B.C.
May 20th, 1924.

Dear Mr. Ditchburn,-

I arrived back in Vancouver to-day and knowing the keen interest you have taken in the Chilco Ranch-Stone Reserve scheme, I hasten to let you know the results of my visit.

As arranged during our conversation of last Monday morning, I wired Tredcroft to bring Nelson with him to Ashcroft, where I met them on Tuesday. Indian Agent McLeod, having heard of my intended visit from Colonel Pragnell also met me with Steven, who took Nelson and myself into the Chilcoten.

In going over the system, I found the intake works at Big creek to be very substantial and exceedingly well built. The ditch from Big creek to the lakes, forming the headwaters of Menton creek, has been cleaned out and enlarged and is of sufficient capacity to more than take care of the requirements of both Spencer and the Indians.

At the outlet of Fletcher lake, the box conveying the water through the earth fill dam will have to be replaced; this should cost at the outside not more than $50.00. Mr. Spencer wired Griffin, Montgomery and Smith to the effect that the work at this outlet was not properly done and was most dangerous. As a matter of fact, no work whatsoever has been done at this point and as there is only a head of about two feet on the dam, I do not see that there is much danger.

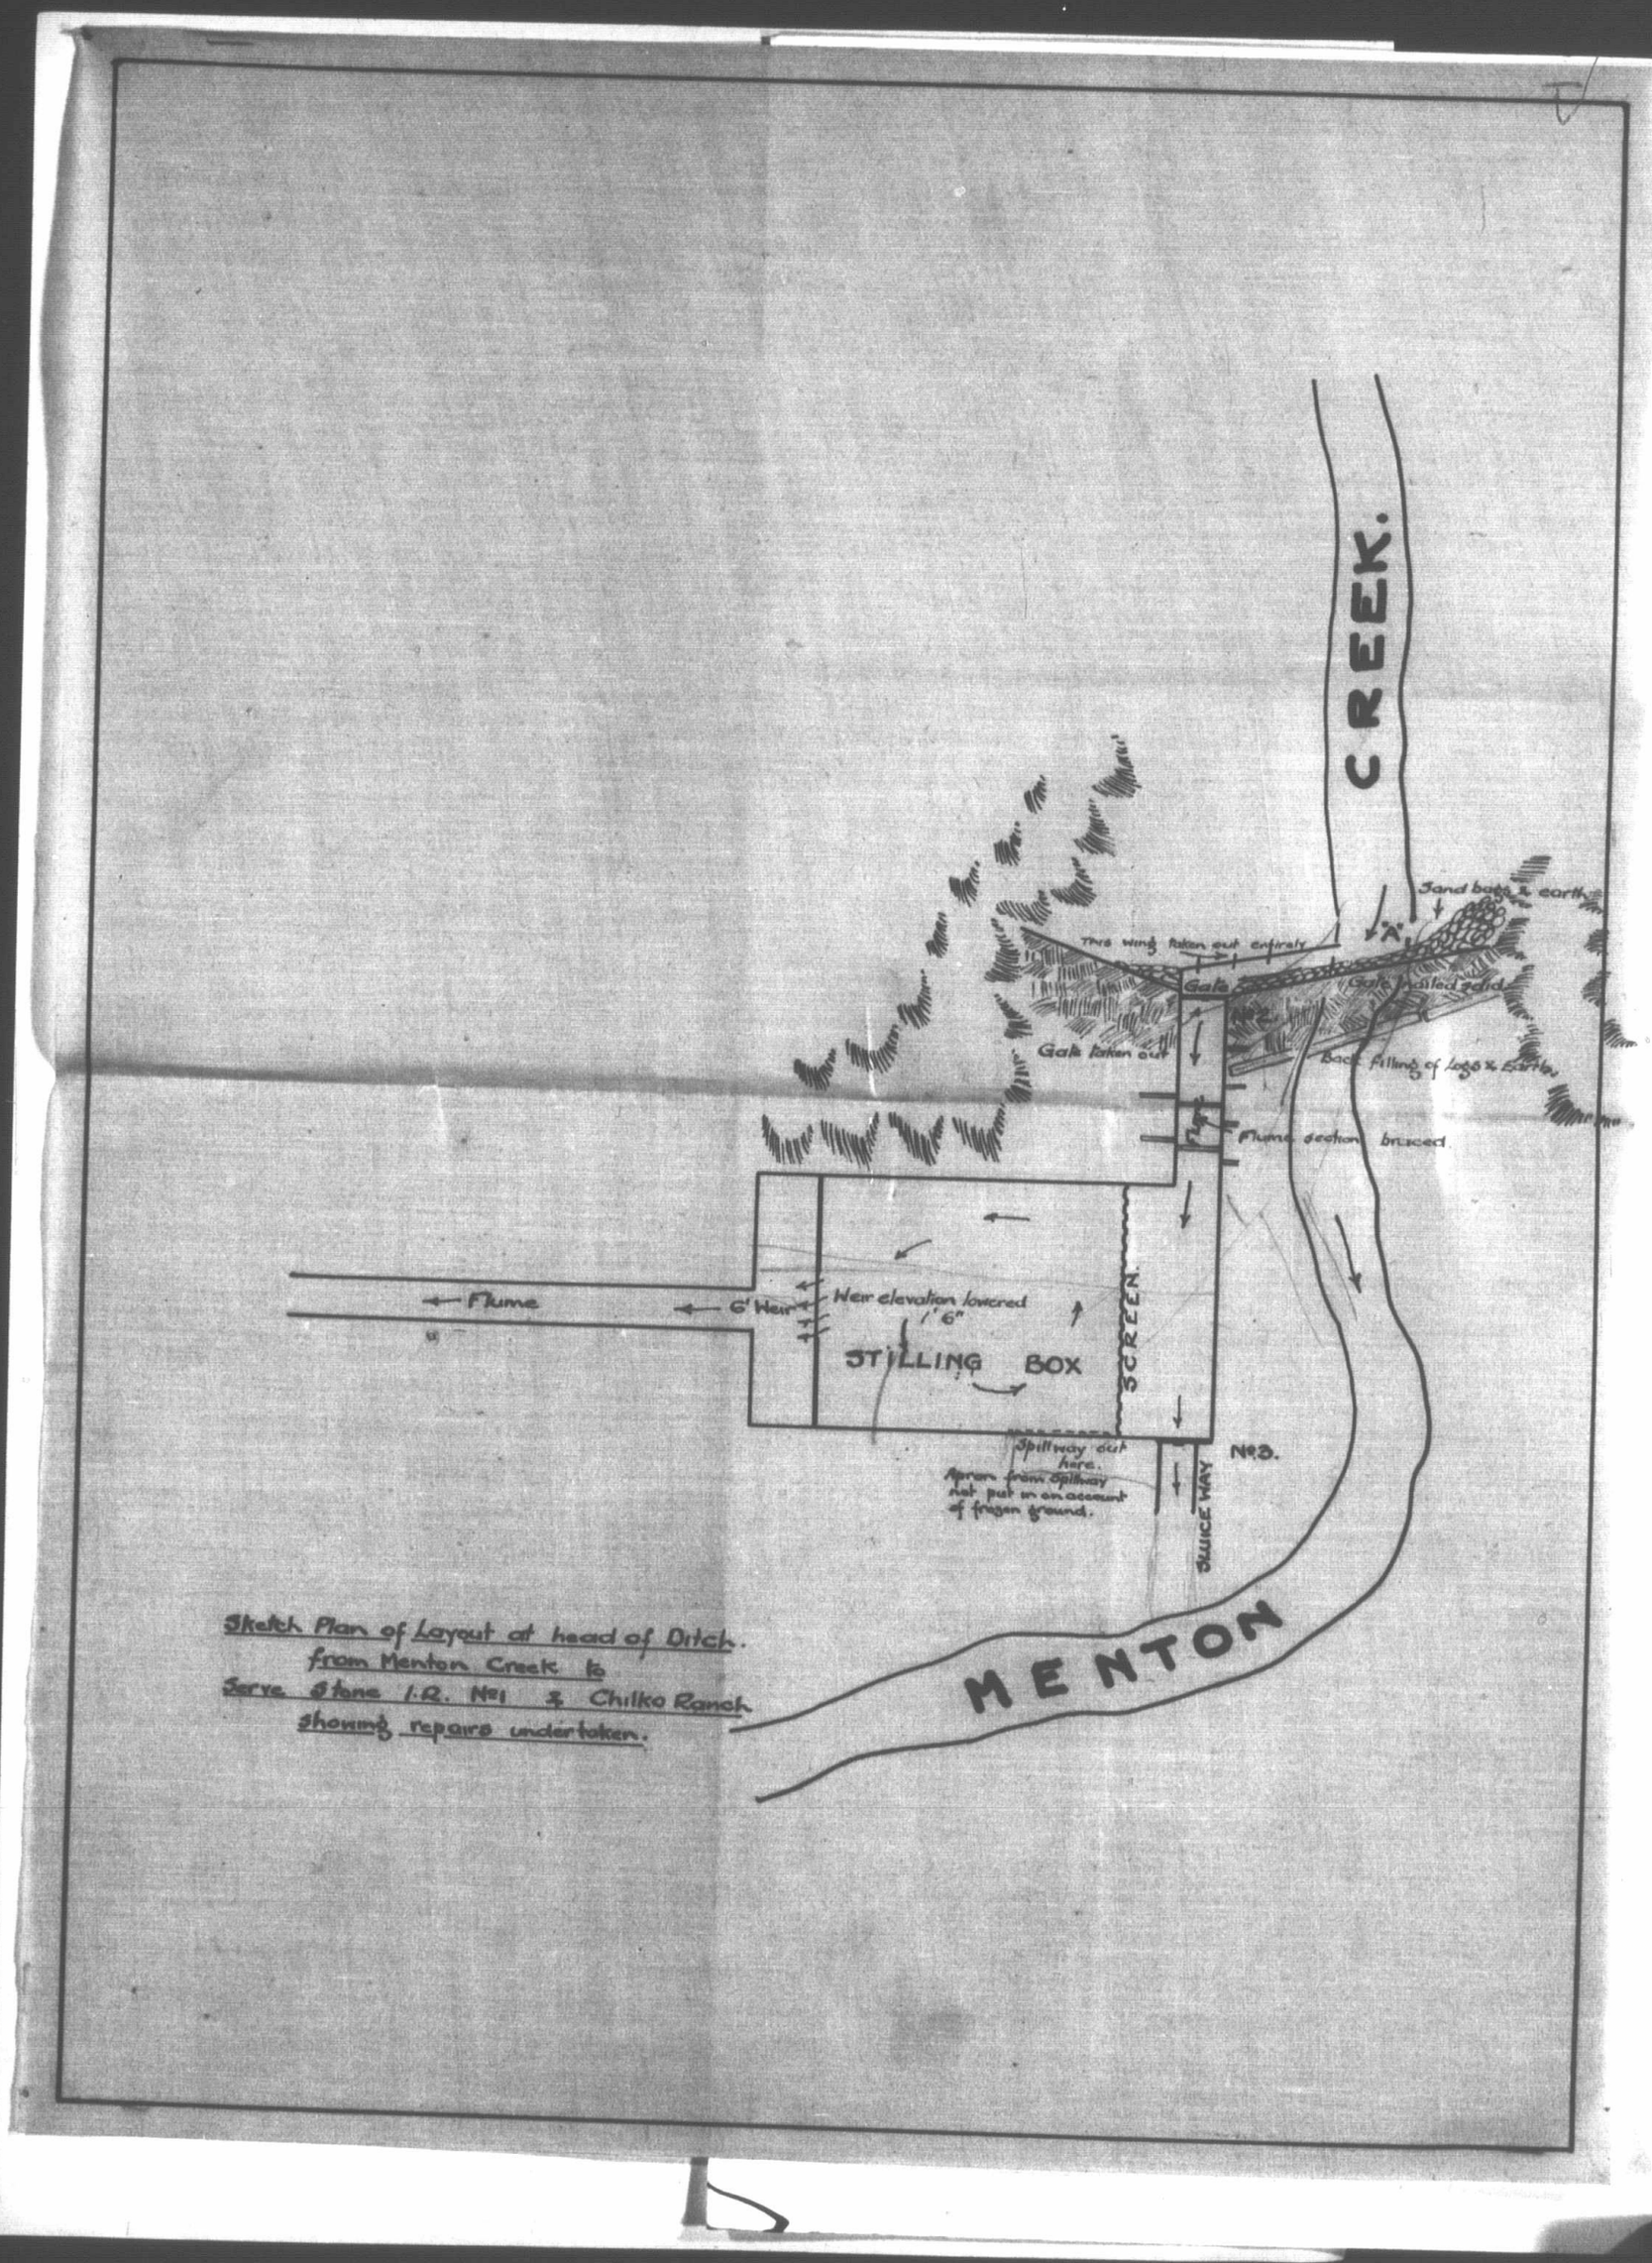

I must admit that I was a bit upset at the headworks as installed at Menton creek. Mr. Steven advises me that his instructions to Mr. Nelson in this regard were to construct a simple Y intake, the entire flow of the creek to enter the system over a weir with one branch of the Y fitted with a gate to carry the requisite amount of water into the ditch and the other branch to carry the surplus water, also regulated by a gate, back into the natural water course.

In order that you may more readily understand the cause of the non-effectiveness of the installation, I have had prepared and attached herewith, a sketch plan of the layout as constructed by Mr. Nelson.

The pressure inserted against the wing wall of the old water course was too great for the structure erected and at least half the flow of the creek found its way under the wing wall under the old creek bed. The stilling boxes, as constructed, were three times as large as necessary and its construction and excavation for its foundation must have entailed a great deal of useless labor and material.

Prior to our arrival, Mr. Spencer had undertaken, with the assistance of Indian labor, sufficient repairs to prevent the head works being washed out. The cost of this work and rations for the Indians employed and a charge of $10.00 for team hire amounts to $22.40.

The works, as constructed, at this point will have to be entirely replaced. No material however will be required, as there is sufficient in the works as constructed to provide for the new intake and 1 branches. The labor should not cost more than $100.

From the intake works to the boundary between the Reserve and Spencer's ranch, the ditch is in an excellent state of repair and only one or two places require a small amount of strengthening.

I called on Mr. Church with regard to right-of-way across his meadows and he is agreeable to granting the Department this privilege for the sum of $250.00, $100 for the privilege of crossing the upper meadow and $150. for the lower.

I have asked Mr. Nelson to endeavour to get the Indians to carry out, free of charge, the works which are still to be completed.

I spoke to Mr. Nelson with regard to reporting to you monthly and he has assured me that he will do this. Mr. Nelson requested me to ask you to forward him a cheque as he is out of funds and the Ottawa office advised him that, in future, he would receive advances from you.

For you information, I enclose herewith a copy of Mr. Steven's instructions to Mr. Nelson, which I trust will meet with your approval.

Yours very truly,

Encls.

Chilco Ranch,
Chilcotin, B.C. 15th May, 1924.

Sir,-

Stone Indian Reserve No.1

With reference to the above reserve, certain work will have to be carried out in repairs to the joint system from Big Creek later in the season,- this work will be detailed in time to commence immediately the irrigation season is ended,- probably about the 31st of August.

At the present time the following works may be carried out under your supervision by Indian labor, on the distinct understanding that no expense is to be incurred to the Department either in rations or materials.

The spillway at the Menton Creek intake is to be increased in width to at least eleven feet and set at an elevation of thirteen inches above the present weir crest elevation,- an apron to carry water away from the stilling box foundations is to be provided at the spillway.

Every alternate slat at the grating in the stilling box is to be removed to prevent an accumulation of debris from backing the water towards the intake.

The maintenance of the joint ditch from Menton Creek intake to the Eastern boundary of the Indian Reserve is to be undertaken by the Indians under your supervision.

I understand that your duties for some considerable time will consist in the instruction of the Stone Reserve Indians in the economical application of water to their land, which will give you an opportunity of attending to the duties outlined above.

Under our agreement with Spencer, we are allowed only five outlets from the main ditch,- Kindly have intake boxes installed at five points, the location of which you can decide on after consultation with the Indians concerned,- These boxes are to be of the type now in use, installed as instructed, in a manner which will permit of correct measurement of water.

Your obedient servant,

(Sgd) James H.A. Steven,

Assistant Engineer.

Your File 27984.

May 21st, 1924.

Dear Mr. Swan:-

I beg to acknowledge the receipt of your letter of the 20th instant reporting on the condition of the joint works of the Chilco Ranch and Stone Indian Reserve No. 1, which I have read very carefully. I may say that on the evening of Wednesday, the 14th, in Vancouver I met Assistant Engineer Balls for a short time prior to his taking the train for Kamloops and he let me have his copy of Assistant Engineer Steven's report to you written on the 9th. This, together with your letter and the sketch (which did not accompany Mr. Balls' copy) made the situation quite clear to me and went to show that the ineffectiveness of a part of the works was only another illustration of Mr. Nelsons not only not carrying out the instructions of the engineer who had laid out the works but went so far as to put in works according to his own notion, which, as results have gone to show were both faulty and exceedingly extravagant in cost.

The case was bad enough on account of the excessive cost of the scheme without this last trouble occurring. Nevertheless I am of the opinion that my Department having gone into the joint scheme in good faith must provide sufficient money to put it in a satisfactorily completed condition, or in other words have to pay for the dereliction of duty on the part of its "Irrigation Specialist".

I feel therefore and I think you will agree with me that it will be in the best interests of both our departments that Mr. Nelson should as soon as he gets through at the Stone reserve have nothing further to do with the engineering features of these main irrigation schemes, as his past conduct goes to show that he either will not or is incapable of carrying out instructions given him by those in whose hands these engineering problems are placed. Indeed it might appear doubtful if he would do any better in some other sphere of action though possibly he might perform some useful work along the lines laid down in my recent letter to Dr. Scott, a copy of which, I believe, you have been supplied with.

For the time being we will see how he gets on at the Chilco Ranch ditch and Stone Indian Reserve in showing the Indians how to make the most beneficial use of the water which they will obtain from the joint works. However I will be in Vancouver Tuesday, the 27th, and will call

R. G. Swan, Esq.,

CANADA

call on you in the afternoon of that day and we can go further into the question of Mr. Nelson's future. I think that the instructions given him by Assistant Engineer Steven should hold him down for the time being.

Regarding Mr. Nelson's request for money I may say that when in Vancouver on Tuesday, the 13th of May, I received a telegram which he had sent from Kamloops on the 12th stating that he was out of funds and I wired to Ottawa that day requesting that one hundred and fifty dollars ($150.00) be wired to him at Kamloops and also wired to Mr. Nelson what I was doing. Apparently it was on this date that he met you in Ashcroft as the Telegraph Company notified me that my message could not be delivered to him as he was either at Clinton or in the Chilcotin Country. There is no doubt but what the Department wired to the Bank of Montreal in Kamloops to transfer one hundred and fifty dollars ($150.00) to Mr. Nelson and it has been laying there waiting for him to call for it. I have today written to Mr. Nelson giving him this information.

WED/KD.

Yours sincerely,

With reference to the application of E. MacLeod, Indian Agent, for a licence to take water out of Big Creek, Chilcotin, I have to point out that application for right of way for ditches and reservoirs on Crown Lands should be made.

Further, it would appear that the intake on Big Creek and the first mile or so of ditch are on private lands. Have rights of way for these works been secured?

Yours very truly,
E. A. Cleveland.

Dear Sir:- Re--Your File 050690.

I am in receipt of your letter of the 14th instant regarding the application of R. MacLeod, Indian Agent for a licence to take water out of Big Creek for irrigation purpose on Stone Indian Reserve No. 1.

In this connection I beg to advise you that applications for right-of-way for works situated on Crown Lands will be filed with the Comptroller of Water Rights today.

Rights-of-way over private lands affected have not yet been secured but negotiations with owners are now in progress and a satisfactory settlement in due course is anticipated.

FILE NO.....

DOMINION WATER POWER BRANCH

VANCOUVER, B.C.

March 25th, 1924.

Sir,-

Re Joint irrigation system from Big Creek to Stone I.R. No. 1 and the "Chilco Ranch"

- - - - - - - - - - - - - - - - -

The above system was constructed under an agreement entered into by the Superintendent General of Indian Affairs and Cosens Spencer, Esq., owner of the Chilco Ranch.

Under this agreement the Department of Indian Affairs undertook to do certain work outlined therein, to supply free labour and a cash contribution of $500.00. Cosens Spencer undertook to bear the remaining cost up to but not to exceed $750.00.

When the proposal was first brought to the attention of the Superintendent General and Mr. W.E. Ditchburn, Indian Commissioner, the cost of works contemplated was estimated at $1500.00 on a labour-ration basis, and it was understood that of this sum Mr. Spencer would contribute up to $1000.00.

After the work was started and before the agreement was executed Mr. Spencer reduced his contribution to $750.00 and there being no alternative but to proceed, the agreement was executed on these terms.

It has now developed that the cost of work to date, in connection with this project amounts to $2420.00 or $920.00 in excess of the original estimate. The excess cost is accounted for as follows:-

(1) Three dams were built by Mr. Nelson, outside of the agreement, and outside of any instructions given by this Branch or its officers.
These dams were constructed in the valley of Manton Creek for the purpose of back-flooding hay meadows, owned by Mr. Spencer, and from which he alone derives benefit.
The value of this extra work is estimated at roughly $700.00 (based on Indian labour at $2.50 per day and materials at cost) which amount has been considered a direct charge against Mr. Spencer.

(2) The accounts for food supplies as O'Kd. by Mr. Nelson show conclusively that much more food was consumed than could reasonably be included in an estimate. It is probable that much of the food charged to the work was consumed by Indian families and "casuals", as the various food items, applied to man-days, shows an unusually heavy consumption.

For

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

For instance, the total live weight of beef consumed was 10,250 pounds which is equal to about 5,600 pounds dressed, or an average of nearly three pounds of beef per man per day (exclusive of a liberal quantity of deer meat provided by the Indians). Sugar consumption was 0.85 pounds per man per day, and flour 1.35 pounds per man per day. In addition to these items liberal quantities of other stores were consumed and the accounts are consequently heavy.

(3) The amount of work actually performed by the Indians was below that which could reasonably be used as a basis for an estimate. This is evident from the following illustration: Exclusive of time spent in the erection of cribs, flumes, boxes, etc. 1535 man-days were spent on excavation work. The total quantity of material moved, based on a typical section of ditch enlargement, and applied to the entire length of ditch enlarged, was 3560 cubic yards or 2.32 cubic yards per man per day. In handling similar material by white labour, 8 cubic yards per man per day would be regarded as a minimum. In other words, instead of 1535 man days by Indian labour this particular work might have been accomplished in 445 man days by white labour.

With regard to the dams described in paragraph (1) above, Mr. Spencer claims that these dams, according to his understanding, were to form part of the project under the agreement. This claim was not entertained for the reason that the works in question are not mentioned in the agreement nor is there any reference to the licence under which these works were authorized to be constructed.

After considerable discussion on this point, Mr. Spencer and the writer arranged to meet Mr. Pitchburn at Victoria to arrive at a basis of settlement of all accounts, which would be satisfactory to both parties. At this meeting Mr. Spencer pointed out that, by excavating a channel through one of his meadows, the meadow would be drained and the ground would be useless without a check-dam for the purpose of back-flooding. Under the original conditions he claimed that the meadow flooded naturally, and during certain seasons he was enabled to cut hay. For this reason he thought it was the duty of the Department to at least restore the original conditions and to do so would necessitate the construction of a dam. The remaining two dams which have been constructed, he agreed to pay for, at a valuation to be based on the expense of a fourth dam which he will construct by hired labour at his own expense.

It was agreed by Mr. Pitchburn and the writer that the Department should bear the cost of the dam to restore the original conditions on the meadow referred to, and that Mr. Spencer's proposal concerning the cost of the two remaining dams should be accepted.

Mr. Spencer states that the work done so far is eminently satisfactory, and that major parts of the system have been more substantially built than he had anticipated.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 98978-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Following is an outline of the total cost and of funds required to complete the undertaking:

Accounts as rendered.....	$ 2419.96
Uncompleted flumes.....	450.00
Construction costs.....	$ 2869.96

After deducting Mr. Spencer's share amounting to $750.00 and the value of two dams, estimated at $150.00, the construction cost to be borne by the Department will be approximately $1970.00.

Compensation for Right-of-Way over, and damages to private lands are estimated as follows:-

Lot 3275 & 2116	(H.E. & Miss Church) claimed..	$450.00
Lot 2229	(Bambrick) estimated...	50.00
Lot 2117	(Crown) rental neglible.....	
		$500.00

The total cost to the Department of construction plus Right-of-Way is thus estimated at $2470.00 and as $500.00 has already been expended, I would recommend that the remainder of $1970.00 be made available as soon as possible in order to settle outstanding accounts and complete the project.

It should be borne in mind that the expenditure incurred on behalf of the Department of Indian Affairs, although greater than at first anticipated, is amply justified by benefits to be derived. The Department now has an irrigation system capable of delivering an assured supply of water to meet the maximum irrigation requirements of the Stone Indian Reserve at a capital cost of approximately $2.90 per acre, and tools on hand to the value of $257.00.

Your obedient servant

H. G. Swan

INDIAN COMMISSIONER FOR B.C.

8th February, 1924.

Dear Sir:-

I beg to inform you that Engineer Steven has just returned from the North and it is desired that all matters in connection with the irrigation works for the Stone Indians be cleared up as soon as possible. I have therefore to request that you will come to Victoria without delay and bring with you all the data you have on this matter in the way of statements of labour performed and the dates of commencement and completion of work.

My office is now located at 1225-1226 Government Street.

WED/W. Yours sincerely,

W. E. Ditchburn.
Indian Commissioner for B. C.

WATER ACT, 1914.

At a meeting of the Board of Investigation, held in the Board Room here on the 11th instant, the claim of the Department of Indian Affairs to water rights for the Stone Indian Reserve under the Water Record of 27th November, 1890, was heard.

The Board proposes to order the issue of a conditional licence in substitution of the said record, containing the following particulars:

Reserve: - Stone I.R.No.1

Source: - Menton or Brigham Creek

Quantity: -

Irrigation: 672 ac.ft. per annum for 224 acres at 3 ac.ft. per acre.

Domestic: 10,000 gallons a day.

Priority: - 27th November, 1890

Date by which works are to be completed and all irrigable land irrigated: 1st November, 1930.

Dated at Victoria, B.C., this 12th day of February, 1924.

RE: COWENS CREEK

Dear Sir,

Referring to the writer's recent conversation with Mr. Alexander, and to our correspondence with you, we now beg to write as follows:-

1. As to the hearing on the 11th February, in connection with the claim of the Department of Indian Affairs for 100 inches of water out at Brigham Creek, we withdraw our objections to this record, as the mutual rights and obligations of our client and the Department of Indian Affairs are now settled and determined by the agreement of the 27th October 1923, which has been executed by both parties.

2. As to our client's application to be permitted to divert water from Big Creek under license no. 530 during the summer, it is understood that this application will be granted without the necessity of our personal attendance, and we are accordingly relying on this matter going through as arranged.

We are sending a copy of this letter to Mr. Ditchburn.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

RE: COSENS SPENCER

Dear Sir,

We acknowledge receipt of your letter of the 25th January, enclosing copy of agreement between the Department of Indian Affairs and our client, which has been executed by the Deputy Superintendent General of Indian Affairs, also a letter addressed to our client, and signed by the same official.

As suggested at the writer's interview with you on Saturday morning, we have no doubt that all objections which have been raised by our client as to the granting of certain records to the Indians will now be dropped. The writer, however, would prefer to leave the formal confirmation of this to Mr. Griffin, who will be back in Vancouver on the 10th February.

Yours truly,

GRIFFIN, MONTGOMERY & SMITH,

C O P Y

Ottawa, July 25th, 1916.

Sir:-

I beg to acknowledge your letter of the 17th instant on behalf of your client, Joseph O. Trethewey, who alleges that he has suffered damages to his crops to the entent of twelve thousand dollars which loss is due to the fact that the Indians of the Stone Reserve have opened ditches at various points, taking water to which your client acquired rights under the Water Commission of the Province and which loss he now calls upon the Government to pay, as compensation cannot be obtained from the Indians as they are under this Department.

In reply I beg to say that it appears to the Department that your client should take the matter up with the Water Commission and if it is found that the Indians have appropriated the property which belongs to some one eles it does not appear why they should not be amenable to prosecution the same as any other individual.

The Government is in no sense responsible for this claim for damages and it accordingly cannot be entertained.

A copy of your letter is being sent to the Indian Agent with instructions to warn the Indians that if they appropriate the property which belongs to some one else, they are liable to prosecution.

Your obedient servant,

Asst. Deputy & Secretary.

366711

Lac la Hache,

Aug. 15, 1916

Sir:

I have the honour to acknowledge the receipt of your letter of the 25th ultimo No. 366,711 and in reply beg to state that Mr. Davis, one of the Water Commissioner of Victoria and myself visited Mr. Trethewey and the Indians of the Stone Reserve and they do not appear to have much trouble between them. Mr. Trethewey has a very good crop of hay if not as good as in previous years, I think much better, also the grain crop is good. I am sure Mr. Davis will agree with me that Mr. Trethewey's crops have not suffered from want of water. We also noticed that when we arrived there his ditch was nearly full of water. Mr. Davis put in one box in the ditch for measurement of water. I might mention that the season for hay crops has not been good, the spring and summer being very cold, and any one with plenty of water have not a good crop on this side of the Fraser river. I am surprised to see that Messrs. Harris Bull and Mason claim damages to the amount of $12,000 which is ridiculous. In previous years the Indians Stone reserve have been using water as they have this year, and I think from their small ditches, that they too no more than one hundred inches. Mr. Trethewey has broken up about three hundred acres of new land and naturally wants much more water, therefore trying to do the poor Indians out of their rights. Big Creek where Mr. Trethewey takes some of his water has about ten thousand inches of water and by Mr. Trethewey enlarging his ditch should have all the water he would require.

I have the honour to be
Sir,
Your obedient servant,

Isaac Ogden,

CONDITIONS

Approved by Board of Railway Commissioners for Canada, under Order 162, dated March 30, 1916

It is agreed between the sender of the message on the face of this form and this Company that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

MEMORANDUM OF AGREEMENT made this twenty-seventh day of October- in the year of our Lord one thousand nine hundred and twenty-three.

BETWEEN:

HIS MAJESTY, THE KING REPRESENTED BY THE SUPERINTENDENT GENERAL OF INDIAN AFFAIRS,

OF THE FIRST PART:

AND:

COSENS SPENCER of Chilco Ranch, Hanceville, British Columbia,

OF THE SECOND PART:

WHEREAS The Party of the Second Part is the owner of the Chilco Ranch containing the various lots set out in the Schedule hereto and holds (amongst other Records or Licenses) the following License issued under the Water Act of British Columbia, that is to say,- License Number 530 dated the 29th day of December, 1911, for fourteen cubic feet of water per second out of Big Creek for irrigation purposes on Lots 375-A, 988, 1185 and 2237, Lillooet District, together with rights of storage in Fletcher Lake and in a lower reservoir on Menton or Brigham Creek.

AND WHEREAS the Party of the First Part holds a Provincial Water Record issued under the Water Act of British Columbia dated the 27th day of November, A.D. 1890, for one hundred inches of water from Menton or Brigham Creek for use on the Stone Indian Reserve No. 1 on the Chilcotin River.

AND WHEREAS the Party of the Second Part holds a Conditional Water License issued under the Water Act

of British Columbia, No. 2385 dated the 26th day of March, A.D. 1917, and taking effect from the 13th day of May, A.D. 1891, for 543 acre feet of water from Menton or Brigham Creek for irrigation purposes on Lot 187, Cariboo District.

AND WHEREAS the Party of the First Part desires on behalf of the Indians to obtain a License to use water from Big Creek for use on the said Reserve and proposes to apply in the name of the Indian Agent at Clinton for a water license under the Water Act of British Columbia for not more than one thousand six hundred and twenty-nine acre feet (1,629) of water from Big Creek to be used for the benefit of the Indians on said reserve in irrigating the irrigable lands in said Reserve.

AND WHEREAS the existing works consist generally of the following:-

(a) A ditch constructed (as far as now appears) about the year 1888 from a point on Menton Creek across said Indian Reserve and terminating on the Chilco Ranch.

(b) Intake on Big Creek and the various ditches and works constructed under said Record No. 830 whereby the water is conducted from the intake to the channel of Menton Creek.

AND WHEREAS the Party of the First Part desires to use the existing works in conveying to the Reserve the water to be granted under the License which the Party of the First Part proposes to apply for as aforesaid and both parties desire to enlarge and improve the existing works.

NOW THEREFORE THIS INDENTURE WITNESSETH that it is hereby agreed by and between the parties hereto as

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

follows:-

1- The party of the First Part will apply under the Water Act of British Columbia for a License to divert water from Big Creek for the benefit of the Indians on said Reserve to be used for irrigation purposes in irrigating the irrigable lands on said Reserve and the Party of the Second Part will not oppose the granting of said license. Not more than 1,629 acre feet of water are to be applied for in respect of said Stone Indian Reserve No. 1

2- For the purposes of this Agreement the water to be diverted under the aforesaid Licenses numbered 830 and 2385, and said License of 27th November, 1899, and said License for one thousand six hundred and twenty-nine (1,629) acre feet of water (to be applied for) are to be deemed pooled and the waters mingled for the joint benefit of the Indians and the Party of the Second Part pursuant to this Agreement.

3- The enlargement and improvement of the ditches and works heretofore constructed for the conveyance of the water under Record Number 830 shall be proceeded with by the parties hereto. In general the work to be done is at the following places:-

(a) Commencing at a point on Big Creek tentatively designated "B" on Water Rights Map No. 4572 and extending for a distance of approximately 4500 feet along the ditch to the point of natural drainage into Menton Creek.

(b) From a point on Menton Creek officially designated "A" on Water Rights Map No. 4572 and extending for a distance of approximately four and a quarter miles along said ditch across the said Reserve to the Chilco Ranch.

4- The Party of the First Part will provide all the labour required in the enlargement of the said ditches and other work and will provide the sum of $500.00 (Five Hundred Dollars) towards the cost of the tools and materials and the food of the Indians during the progress of the work.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

5- The Party of the Second Part will provide the balance of the cost of necessary tools and materials and feed for the Indians during the progress of the work but in no event more than Seven Hundred and Fifty Dollars ($750.00).

6- The payments to be made under Clauses 3 and 4 are as follows:- The Party of the First Part shall provide the first Two Hundred and Fifty Dollars ($250.00); the Party of the Second Part the next Two Hundred and Fifty Dollars ($250.00); the Party of the First Part the next Two Hundred and Fifty Dollars ($250.00) and the Party of the Second Part will then provide the balance of Five Hundred Dollars ($500.00). Before payments are asked from the Party of the Second Part customary vouchers showing the expenditure of previous sums are to be submitted to him.

7- The Party of the First part covenants with the Party of the Second Part that the works to be executed shall be such as will deliver all the water called for under the various Records and Licenses aforesaid. The work is to be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia and of the Party of the Second Part and as expeditiously as possible.

8- Proper head gates with necessary and convenient measuring devices are to be installed in the ditch on said Reserve at points to be selected by the Party of the First Part but not more than five diversion points are to be installed or used without the written consent of the Party of the Second Part.

9- Notwithstanding the granting of said hereinbefore mentioned License for one thousand six hundred and twenty-nine (1,629) acre feet of water for the use of the Indians, they shall not be entitled to receive more water than is required for the amount of irrigable land actually under

Indian Affairs

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

cultivation by them at the rate of three acre feet per acre or at any greater number of acre feet per acre to which the duty of water in said locality may be increased hereafter from time to time by competent authority.

10- The Party of the Second Part shall be at liberty to apply to be appointed Water Bailiff under the Water Act of British Columbia for Big Creek and Menton Creek or alternatively for the locality within which the aforesaid works and the said Chilco Ranch and said Reserve are contained. The Party of the First Part will support said application and do everything in its power to assist the Party of the Second Part in obtaining and keeping said appointment.

11- The management of all works above the outlet on Menton Creek (designated "A" on Water Rights Map No. 4578) shall continue with the Party of the Second Part and his heirs, executors and assigns, owners for the time being of the Chilco Ranch. The management of the ditch from and including said Intake "A" to the Western boundary of the Indian Reserve shall continue with the Party of the Second Part so long as he remains the owner of said Chilco Ranch. The management of the ditch and works in the Reserve shall be vested jointly in the Party of the Second Part and the Indian Agent for the time being. The Party of the First Part shall exercise all powers and authorities vested in him to prevent interference by the Indians with the ditches and works. In the event of there arising any disagreement between the Party of the Second Part and the Indian Agent as to the dates or times for the opening or closing of gates or the periods of irrigation or any other question of management the difference shall be referred to the District Engineer of the District appointed under the Water Act of British Columbia from whose decision an appeal shall lie to the Comptroller of Water Rights of British Columbia and from him to the Minister of Lands of

Indian Affairs

ARCHIVES PUBLIQUES
CANADA

British Columbia whose decision shall be final and the parties hereto agree to be bound thereby.

12- The said ditches and works, as altered and improved by the Parties hereto pursuant to this Agreement shall be kept in repair by the Parties hereto and the Party of the First Part shall contribute one-third of the cost of upkeep and the Party of the Second Part two-thirds. The work to be done shall be mutually agreed upon from time to time. Should there be a disagreement between the parties hereto as to the nature or extent of the works of upkeep necessary to be done the question of what should be done shall be submitted to the District Engineer aforesaid from whose decision an appeal shall lie to the Comptroller of Water Rights and from him to the Minister of Lands of British Columbia whose decision shall be final, and the parties hereto agree to be bound thereby. If either party declines to join in the work of repair when same has been determined in the manner aforesaid the other may proceed with the same and the share of the party in default shall be recovered from him by the other party by action as a debt due to the party executing the work. In the event of an action having to be brought against His Majesty, the King, hereunder a Fiat to allow of the institution of the action shall not be refused or delayed.

13- In the event of any break in the ditches or any unforseen event occurring whereby damage will or may occur to the lands in the Reserve or to the lands of the Party of the Second Part and should the circumstances be such or appear to be such as to make it unsafe to delay action to enable a decision to be reached by mutual agreement or by reference to the Engineer as to the works to be done to prevent or reduce damage either party hereto shall be at liberty to cause temporary work to be done to prevent or reduce the damage or risk and the proper cost of such work shall be deemed a work

ARCHIVES PUBLIQUES
CANADA

of repair within Clause 12 hereof and the share of the other party shall be recoverable from him in the manner indicated in said paragraph. Should there be a disagreement between the parties hereto as to whether the works were necessary or as to whether the amount claimed for the cost thereof is reasonable the question shall be settled by the District Engineer or Comptroller or Minister of Lands in the manner indicated in said Clause 12.

14- It is believed that under License No. 530 and the License which the Indian Agent proposes to apply for as aforesaid and with the aid of said works as proposed to be enlarged and improved there will be plenty of water to irrigate all the irrigable lands of the Parties hereto which can be served by the said works but for greater caution and to provide for a possible shortage of water it is agreed that if and so often as and so long as the amount of water available in the said ditches, as altered, falls to a point where it will irrigate not more than seven hundred (700) acres of land it shall be divided between the Parties hereto in the proportions of one-quarter to the Party of the First Part and three-quarters to the Party of the Second Part.

15- In the event of the Party of the Second Part selling or otherwise disposing of the lands to which said Water License No. 530 is appurtenant the Party of the Second Part will cause to be inserted in every document dealing with such sale or disposition words to the effect that the said sale or disposition is subject to this Agreement.

16- This Agreement shall enure to the benefit of and be binding upon the Party of the Second Part his heirs, executors, administrators and assigns and on the successors

BOARD OF INVESTIGATION UNDER WATER ACT

VICTORIA, B.C.

WATER ACT, 1914.

IN THE MATTER of Water Licence No.530, for the diversion and storage of water out of Big Creek, a tributary of Chilcotin River, to be used for the irrigation of Lots 375A, 985, 1185 and 2237, Group 1, Lillooet District.

. . . . . .

TAKE NOTICE that Cosens Spencer, the holder of the above licence, has applied to the Board of Investigation for the revision and readjustment thereof so as to permit of water being diverted from Big Creek between the first of May and the first of October in every year in addition to the period now limited by the said licence, namely, the first of October to the first of May.

A meeting of the Board of Investigation will be held in the Board Room, Parliament Buildings, Victoria, B.C., on Monday, the 21st day of January, 1924, at the hour of 10 A.M. to hear the said application and all objections thereto that may be then on file.

Dear Sir:-

Please refer to File 17-20-1.

I suggest that the Board proceed with the adjourned hearing of your claim to the water record on Brigham or Menton Creek for the Stone Indian Reserve on the 21st instant directly after the hearing of Mr. Spencer's application for the revision of his water licence on Big Creek.

If this will suit you I will send out the necessary notices.

Yours very truly,
E. A. Cleveland.

xx 666,

3rd December,1923.

Dear Sir:-

I am herewith submitting for your signature an Agreement between the Department and Cosens Spencer, owner of the Chilco Ranch, governing the construction and maintenance of a joint ditch from Big Creek to Menton Creek and the enlargement of the present ditch from Menton Creek to Stone Indian Reserve No. 1, Williams Lake Agency. You will remember that when you were here on 23rd August last Assistant Engineer Steven, of the Water Power Branch of the Department of the Interior, came to Victoria from the Williams Lake Agency and outlined the scheme to you and you gave your concurrence, it being shown by Mr. Steven that it was greatly to the interest of the Indians that the Department should co-operate with Mr. Spencer in order that sufficient water could be obtained for irrigating the Reserve in question, otherwise Mr. Spencer would go ahead with the work himself but the ditch, of course, would only be built sufficient for his own requirements. I would therefore beg to recommend that the Agreement in triplicate should be signed and returned to me at your earliest convenience.

I would also recommend the signing of the letter accompanying the Agreement. The only clause in it which affects the Department is the first one referring as it does to compensating owners of land through which the joint ditch runs. So far as the Chilco Ranch is concerned the owners were settled with years ago but the solicitor of the Company seems to anticipate that further compensation will be asked owing to the ditch being enlarged to carry the additional water the Indians will obtain. So far as I can learn it is extremely doubtful if further compensation will be requested but if so it would only be right that this should be met by the Department. The amount, however, will be very trivial.

I wrote the Secretary on the 16th of October asking if there was any information at Ottawa with regard to an Agreement between the Stone Indians and the Trethaway Ranch whereby the old Indian ditch was enlarged during 1918 for the use of both parties. It is through this ditch on the reserve that the water for the Chilco Ranch will pass. Mr. Spencer having bought out the old Trethaway interest. I have, however, received no reply from Ottawa with regard to the alleged agreement. Mr. Indian Agent Deane informed me last spring that such an agreement had been made and permission was obtained from the Indians and the Department but all the papers in the old Indian Office at Lac La Hache were destroyed at the time of the fire.

WED/W.

Yours respectfully,

Enclosures:-

W.E.Ditchburn.
Chief Inspector of Indian Agencies.

13th November, 1923.

Dear Sir:- Re: CHILCO RANCH AGREEMENT.

I beg to acknowledge the receipt of your letter of the 10th instant accompanying three copies of the above-referred to Agreement and the supplementary letter. It is noted that only one of the three copies of the Agreement bear the signature of Cosens Spencer. As three copies bearing the signatures of the contracting parties are necessary--one for the Department of Indian Affairs, one for Mr. Spencer and one for the Comptroller of Water Rights--I have returned the two unsigned copies to Mr. Spencer for his signature. This method has been pursued owing to your desire to have the matter expedited. It was, of course, the duty of Mr. Spencer's counsel to advise his client to attach his signature to the documents in triplicate.

As soon as the two other copies have been received from the owner of the Chilco Ranch the three will be forwarded to Ottawa for the signature of the Superintendent-General, after which one copy will be returned to Mr. Spencer, one forwarded to the Comptroller of Water Rights and one kept on record by this Department.

WED/W.

Yours sincerely,

W. M. Ditchburn.
Chief Inspector of Indian Agencies.

Dear Sir:-

Re: CHILCO RANCH AGREEMENT.

I enclose you three copies of the agreement between Mr. Spencer and the Superintendent General, to be forwarded to Ottawa for signature. One copy is signed by Mr. Spencer. Mr. Griffin desires one copy back.

I also enclose you letter to Mr. Spencer, also to be signed by the Superintendent-General. The clauses in this letter were left out of the agreement and Mr. Griffin desires the letter signed. The matter has been taken up with Mr. Swan and we have agreed to the terms of the letter.

I would be glad if you would expedite this matter as quickly as possible. It might be well to keep a copy of the letter in your files. If you desire any further information, you might consult Mr. Balls, who can no doubt enlighten you.

Yours truly,

Dear Sir:-

Re Stone Indian Reserve No. 1.

In connection with the agreement between the Superintendent General of Indian Affairs and yourself dated 7 Oct. 1923, which regulates the supply of water from Big Creek to your ranch and to the aforesaid Reserve the following additional stipulations were agreed to but not included in the agreement, and are as set out below, -

(a) For your protection it is clearly understood that if any one or more of the owners of the land in or upon which any of the works are constructed claim compensation for the right to the Indians to carry water to the Reserve through or over their land such compensation shall be payable by the Department of Indian Affairs only.

(b) In the event of you applying to the Comptroller of Water Rights or the Board of Investigation for the purpose of having your Licenses No. 530 and 2385 made appurtenant to other parts of the Chilco Ranch in addition to those named in the Licenses the Department of Indian Affairs will not oppose the application.

MEMORANDUM OF AGREEMENT made this twenty-seventh day of October in the year of our Lord one thousand nine hundred and twenty-three.

BETWEEN:

HIS MAJESTY, THE KING REPRESENTED BY THE SUPERINTENDENT GENERAL OF INDIAN AFFAIRS,

OF THE FIRST PART;

AND:

COSENS SPENCER of Chilco Ranch, Hanceville, British Columbia,

OF THE SECOND PART;

WHEREAS the Party of the Second Part is the owner of the Chilco Ranch containing the various lots set out in the Schedule hereto and holds (amongst other Records of Licenses) the following License issued under the Water Act of British Columbia, that is to say,- License Number 530 dated the 29th day of December, 1911, for fourteen cubic feet of water per second out of Big Creek for irrigation purposes on Lots 375-A, 988, 1286 and 2237, Lillooet District, together with rights of storage in Fletcher Lake and in a lower reservoir on Henton or Brigham Creek.

AND WHEREAS the Party of the First Part holds a Provincial Water Record issued under the Water Act of British Columbia dated the 27th day of November, A.D. 1890, for one hundred inches of water from Henton or Brigham Creek for use on the Stone Indian Reserve No.1 on the Chilcoten River.

AND WHEREAS the Party of the Second Part holds a Conditional Water License issued under the Water Act of

Indian Affairs
(B.C. Records)

British Columbia, No.2305 dated the 26th day of March, A.D. 1917, and taking effect from the 13th day of May, A.D. 1891, for 545 acre feet of water from Hunton or Brigham Creek for irrigation purposes on Lot 167, Cariboo District.

AND WHEREAS the Party of the First Part desires on behalf of the Indians to obtain a License to use water from Big Creek for use on the said Reserve and proposes to apply in the name of the Indian Agent at Clinton for a water license under the Water Act of British Columbia for not more than One Thousand Six Hundred and Twenty-nine acre feet (1,629) of water from Big Creek to be used for the benefit of the Indians on said reserve in irrigating the irrigable lands in said Reserve.

AND WHEREAS the existing works consist generally of the following:-

(a) A ditch constructed (so far as now appears) about the year 1888 from a point on Hunton Creek across said Indian Reserve and terminating on the Chilco Ranch.

(b) Intake on Big Creek and the various ditches and works constructed under said Record No.530 whereby the water is conducted from the intake to the channel of Hunton Creek.

AND WHEREAS the Party of the First Part desires to use the existing works in conveying to the Reserve the water to be granted under the License which the Party of the First Part proposes to apply for as aforesaid and both parties desire to enlarge and improve the existing works.

NOW THEREFORE THIS INDENTURE WITNESSETH that it is hereby agreed by and between the parties hereto as follows:-

1. The Party of the First Part will apply under the

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006

Water Act of British Columbia for a License to divert water from Big Creek for the benefit of the Indians on said Reserve to be used for irrigation purposes in irrigating the irrigable lands on said Reserve and the Party of the Second Part will not oppose the granting of said license. Not more than 1,629 acre feet of water are to be applied for in respect of said Stone Indian Reserve No. 1.

2- For the purposes of this Agreement the water to be diverted under the aforesaid Licenses numbered 530 and 2305, and said License of 27th November, 1890, and said License for one thousand six hundred and twenty-nine (1,629) acre feet of water (to be applied for) are to be deemed pooled and the waters mingled for the joint benefit of the Indians and the Party of the Second Part pursuant to this Agreement.

3- The enlargement and improvement of the ditches and works heretofore constructed for the conveyance of the water under Record Number 530 shall be proceeded with by the parties hereto. In general the work to be done is at the following places:-

(a) Commencing at a point on Big Creek tentatively designated "B" on Water Rights Map No.4572 and extending for a distance of approximately 4500 feet along the ditch to the point of natural drainage into Menton Creek.

(b) From a point on Menton Creek officially designated "A" on Water Rights Map No.4570 and extending for a distance of approximately four and a quarter miles along said ditch across the said Reserve to the Chilco Ranch.

4- The Party of the First Part will provide all the labour required in the enlargement of the said ditches and other work and will provide the sum of Five Hundred Dollars ($500.00) towards the cost of tools and materials and the food of the Indians during the progress of the work.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/8-7-13-1

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

5- The Party of the Second Part will provide the balance of the cost of necessary tools and materials and food for the Indians during the progress of the work but in no event more than Seven Hundred and Fifty Dollars ($750.00).

6- The payments to be made under clauses 3 and 4 are as follows:- The Party of the First Part shall provide the first Two Hundred and Fifty Dollars ($250.00); the Party of the Second Part the next Two Hundred and Fifty Dollars ($250.00); the Party of the First Part the next Two Hundred and Fifty Dollars ($250.00) and the Party of the Second Part will then provide the balance of Five Hundred Dollars ($500.00). Before payments are asked from Party of the Second Part customary vouchers showing the expenditure of previous sums are to be submitted to him.

7- The Party of the First Part covenants with the Party of the Second Part that the works to be executed shall be such as will deliver all the water called for under the various Records and Licenses aforesaid. The work is to be done to the satisfaction of the District Engineer appointed under the Water Act of British Columbia and of the Party of the Second Part and as expeditiously as possible.

8- Proper head gates with necessary and convenient measuring devices are to be installed in the ditch on said Reserve at points to be selected by the Party of the First Part but not more than five diversion points are to be installed or used without the written consent of the Party of the Second Part.

9- Notwithstanding the granting of said hereinbefore mentioned license for one thousand six hundred and twenty-nine (1,629) acre feet of water for the use of the Indians, they shall not be entitled to receive more water than is required for the amount of irrigable land actually under cultivation by them at

ARCHIVES PUBLIQUES
CANADA

the rate of three acre feet per acre or at any greater number of acre feet per acre to which the duty of water in said locality may be increased hereafter from time to time by competent authority.

10- The Party of the Second Part shall be at liberty to apply to be appointed Water Bailiff under the Water Act of British Columbia for Big Creek and Menton Creek or alternatively for the locality within which the aforesaid works and the said Chilco Ranch and said Reserve are contained. The Party of the First Part will support said application and do everything in its power to assist the Party of the Second Part in obtaining and keeping said appointment.

11- The management of all works above the outlet on Menton Creek (designated "A" on Water Rights Map No.4578) shall continue with the Party of the Second Part and his heirs, executors and assigns, owners for the time being of the Chilco Ranch. The management of the ditch from and including said Intake "A" to the Western boundary of the Indian Reserve shall continue with the Party of the Second Part so long as he remains the owner of said Chilco Ranch. The management of the ditch and works in the Reserve shall be vested jointly in the Party of the Second Part and the Indian Agent for the time being. The Party of the First Part shall exercise all powers and authorities vested in him to prevent interference by the Indians with the ditches and works. In the event of there arising any disagreement between the Party of the Second Part and the Indian Agent as to the dates or times for the opening or closing of gates or the periods of irrigation or any other question of management the difference shall be referred to the District Engineer of the District appointed under the Water Act of British Columbia from whose decision an appeal shall lie to the Comptroller of Water Rights of British Columbia and from him

to the Minister of Lands of British Columbia whose devision shall be final and the parties hereto agree to be bound thereby.

12- The said ditches and works, as altered and improved by the Parties hereto pursuant to this Agreement shall be kept in repair by the Parties hereto and the Party of the First Part shall contribute one-third of the cost of upkeep and the Party of the Second Part two-thirds. The work to be done shall be mutually agreed upon from time to time. Should there be a disagreement between the parties hereto as to the nature or extent of the worksof upkeep necessary to be done the question of what should be done shall be submitted to the District Engineer aforesaid from whom decision an appeal shall lie to the Comptroller of Water Rights and from him to the Minister of Lands of British Columbia whose decision shall be final, and the parties hereto agree to be bound thereby. If either party declines to join in the work of repair when same has been determined in the manner aforesaid the other may proceed with the same and the share of the party in default shall be recovered from him by the other party by action as a debt due to the party executing the work. In the event of an action having to be brought against His Majesty, the King, hereunder a Fiat to allow of the institution of the action shall not be refused or delayed.

13- In the event of any break in the ditches or any unforeseen event occurring whereby damage will or may occur to the lands in the Reserve or to the lands of the Party of the Second Part and should the circumstances be such or appear to be such as to make it unsafe to delay action to enable a decision to be reached by mutual agreement or by reference to the Engineer as to the works to be done to prevent or reduce damage either party hereto shall be at liberty to cause temporary work to be done to prevent or reduce the damage or risk and the

proper cost of such work shall be deemed a work of repair within Clause 12 hereof and the share of the other party shall be recoverable from him in the manner indicated in said paragraph. Should there be a disagreement between the parties hereto as to whether the works were necessary or as to whether the amount claimed for the cost thereof is reasonable the question shall be settled by the District Engineer or Comptroller or Minister of Lands in the manner indicated in said Clause 12.

14- It is believed that under License No.530 and the License which the Indian Agent proposes to apply for as aforesaid and with the aid of said works as proposed to be enlarged and improved there will be plenty of water to irrigate all the irrigable lands of the Parties hereto which can be served by the said works but for greater caution and to provide for a possible shortage of water it is agreed that if and so often as and so long as the amount of water available in the said ditches, as altered, falls to a point where it will irrigate not more than seven hundred (700) acres of land it shall be divided between the Parties hereto in the proportions of one-quarter to the Party of the First Part and three-quarters to the Party of the Second Part.

15- In the event of the Party of the Second Part selling or otherwise disposing of the lands to which said Water License No.530 is appurtenant the Party of the Second Part will cause to be inserted in every document dealing with such sale or disposition words to the effect that the said sale or disposition is subject to this Agreement.

16- This Agreement shall enure to the benefit of and be binding upon the Party of the Second Part his heirs, executors, administrators and assigns and on the successors in office of

Dear Sir:-

I have to-day received from J. N. Ellis, Esq., of Vancouver, my Department's solicitor, three copies of the agreement for the construction and maintenance of a joint ditch from Big Creek to Menton Creek and the enlargement of the ditch from Menton Creek to Stone Indian Reserve No. 1, Williams Lake Agency, only one copy of which bears your signature. As one copy of this agreement duly signed by the contracting parties must be retained by yourself, one by the Department of Indian Affairs and one supplied to the Comptroller of Water Rights, I am herewith returning to you the two unsigned copies in order that you may attach your signature thereto to be witnessed by H. R. Hance as was done in the first case. If you will be kind enough to give this matter your early attention and return the two copies to this office I will have them forwarded to the Superintendent General of Indian Affairs with my recommendation that he should sign the same. As Mr. Ellis has asked that I expedite this matter I am therefore sending the two unsigned copies direct to you which, while saving considerable time, will incidentally cut down legal fees.

I am, Sir,

WED/W. Yours very respectfully,

Enclosures:-

W. E. Ditchburn.
Chief Inspector of Indian Agencies.

xxx 666,
5th November, 1923.

Dear Sir:- Your No. 1-4.

I beg to acknowledge the receipt of your letter of the 29th ultimo, referring to protest filed by Mr. Martin Griffin on behalf of Cousens Spencer, of the Chilco Ranch, against our application for 1629 acre feet of water from Big Creek.

In reply I beg to say that it is difficult to understand the reason for this objection in view of the fact that the agreement between the Department and Mr. Spencer is based on our application for the water, otherwise there would be no need for the agreement. This objection is, of course, being dealt with by an answer to the Board of Investigation.

The agreement has been approved by the Board and, I believe, has been submitted to Mr. Spencer for his signature. As soon as this is forwarded to this office I will send it on to Ottawa for the signature of the Superintendent General.

In your copy of the objection you have made Clauses 5 and 6 to read the same, but I may inform you that the word "irrigable" in No. 6 should be "irrigated." Please therefore make this correction in your copy.

WHD/W.

Yours sincerely,

W. H. Ditchburn.
Chief Inspector of Indian Agencies.

31st October, 1923.

Dear Sir:-

I have your letter of the 23rd instant, enclosing two copies of the proposed agreement between the Department and Cosens Spencer, of the Chilco Ranch, for the construction, use and maintenance of a joint ditch from Big Creek to Manton Creek and the enlargement of the ditch from Manton Creek to Stone Indian Reserve No. 1, Williams Lake Agency.

It is noted that Mr. Griffin, solicitor for Mr. Spencer, has sent one copy to the Board of Investigation for final approval and four copies to Mr. Spencer for his signature. It would appear to me that the sending of copies to Mr. Spencer for his signature is somewhat premature, for if the Board do not approve of the agreement as at present gotten up, other copies will have to be drawn up in the amended form and again signed by the owner of the Chilco Ranch. Providing the Board do not request any changes three copies of the agreement which Mr. Spencer signs will have to be sent to this office so that the signature of the Superintendent General may be attached.

I understand that this agreement was amended from its original form owing to certain suggestions made by Mr. Cleveland, the Water Comptroller, and it is therefore likely that the Board will not ask for any further changes and while some of the terms of the agreement are somewhat drastic it is, nevertheless, in the interest of the Indians that it should be signed by the Department.

As soon as the copies are received bearing Mr. Spencer's signature I will have them forwarded to Ottawa for the signature of the Superintendent General. I am herewith returning one of the copies you forwarded to me and am retaining the other as it will be of use for my files.

WED/V.

Yours sincerely,

Enclosure:-

INDIAN AGENT'S OFFICE

Williams Lake Agency

Clinton, B.C.,

IN YOUR REPLY REFER TO
No. 1-4
ALSO
TO DATE OF THIS LETTER

October 29th, 1923

Sir,—

Please find herewith copy of protest against our application for water for irrigation purposes for the Stone Indian Reserve, this Agency.

Mr. C. Spencer has an unsigned agreement with us on a joint scheme on this system. We have sixty Indians working there at present and the works which cost several thousand dollars in Indian labour besides some financial assistance from the Department will soon be completed.

This matter requires the immediate attention of the Water Power Branch. I suggest suspending further Indian work until C. Spencer withdraws his objections in writing to the Water Comptroller and signs the agreement with us.

Mr. Church of Big Creek, through whose land part of the joint ditch goes, claims that it is necessary for our Department to enter into an agreement with him before we shall have a right to convey water through the joint ditch. This should also have immediate attention. C. Spencer, or the owners of the Chilco Ranch, already have this privilege by a former agreement.

I am given to understand by the officers of the Water Power Branch that they look after all these matters and it would appear that this is so considering that they handle our Department's funds, purchases, etc.

I regret to say that very little work has been accomplished this season in this agency as far as irrigation projects are concerned.

SOUTH WESTERN DIVISION OCT 31 1923 VICTORIA, B.C.

COPY

TO THE COMPTROLLER OF WATER RIGHTS,
THE PARLIAMENT BUILDINGS,
VICTORIA, B.C.

Re application of E. MacLeod, Indian Agent at Clinton, B.C. for a license to take 1,629 acre feet of water out of Big Creek, which drains into the Chilcotin River about sixteen miles east of Hanceville, for use for irrigation and domestic purposes on the Stone Indian Reserve No. 1.

The undersigned, Cosens Spencer of the Chilco Ranch, near Hanceville, British Columbia, hereby objects to the granting of the said license on the ground that the rights of the undersigned will be injuriously affected by the issue of such license. The grounds of objection are,-

1: That the amount of water applied for is not reasonably necessary for the domestic and irrigation purposes of Indians on said Reserve.

2: That provisions of this Act relating to the acquisition of licenses have not been complied with.

3: The Comptroller has not made a general report in writing to the Minister of Lands stating the facts in relation to the application and the amount of compensation to be paid to any owners affected.

4: The Minister of Lands has not fixed the amount of such compensation or the terms or conditions under which the license may be issued.

5: The Indians have already a record for a sufficient quantity of water for all the irrigable lands in the Reserve.

6: The Indians have already a record for a sufficent quantity of water for all the irrigable lands in the Reserve. (irrigated)

7: The said license if granted will interfere with the use by the undersigned of the works heretofore constructed by him and now in use for the carriage of water from said Beg Creek to Lots 375,985,1185 and 2237, Lillooet District under Record No. 530.

Dated this 23rd day of October, A.D. 1923.

Dear Sir:-

We enclose two copies of Agreement between the Indian Department and Cosens Spencer, in regard to the joint usage of the ditch im con-- nection with the Chilco Ranch and Stone Indian Reserve number one.

This Agreement has caused a considerable number of attendances upon Mr. Griffin, Soliciter for Mr. Spencer, and is the final result of many com- promises, etc.,

We wish you would look over it, and if satisfactory to you, it should be approved by the Indian Department. Mr. Balls, who is familiar with all the transactions, will no doubt assist you should you wish any further information.

Mr. Griffin has sent a copy for the appreval of the Water Board, and has sent four copies

Dear Sir:-

Have you any knowledge of an agreement between the Indians of the Stone Reserve, Williams Lake Agency, and the Trethewey Ranch whereby a joint irrigation ditch was constructed during 1916 for the use of both parties. The water to be conducted was from Big Creek to Brigham or Benton Creek. Agent Dumont informs me that there was some agreement of this nature ratified by the Department during Agent Ogden's time, but all papers were lost when the Agency office at Lac La Hache was burned. If you have a copy of this document I would be pleased to have it.

E. M. PAYNE, Supt., Winnipeg, Man.

APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162.
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding $200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addressee, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

DAY LETTERS are received subject to the express understanding and agreement that the Company does not undertake that a DAY LETTER shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such DAY LETTER on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above.

Dear Sir:-

Referring to your recent enquiry with regard to the use of the irrigation ditch through Stone Indian Reserve No. 1 through which water is carried to Lot 157, I beg to say that I wrote to Mr. Indian Agent Daunt at New Westminster (formerly of the Williams Lake Agency) in the matter, and a reply has been received from him. Below will be found an excerpt from his letter.

"I may say, however, that I investigated the matter myself, and the Indians informed me that the original diversion from Big Creek to Fletcher Lake was made by themselves. From Fletcher Lake the water was carried down the channel of Brigham Creek to the point of diversion on the Reserve, on which it was distributed by a small ditch. Subsequently, additional water was diverted from Big Creek into the storage site on Fletcher Lake by the owners of the Trethaway Ranch. This water was also carried down the channel of Brigham Creek, and permission was obtained from the Indians and the Department to enlarge the Indian ditch across the Reserve to carry the amount of water covered by the ranch record, and the ditch continued, to serve the irrigation purposes on the Trethaway Ranch."

"A record was taken out for the Indians entitling them to 100 inches of water from this joint ditch, and four boxes installed at different points on the Reserve, the aggregate of which totals this 100 inches."

"One thing is certain, however, that no trespass exists in the Trethaway ditch line."

Yours truly,

W. E. Ditchburn.
Chief Inspector of Indian Agencies.

IN YOUR REPLY REFER TO
No. 1-1
ALSO
TO DATE OF THIS LETTER

Your File No.30/690/R.

April 6th, 1923.

30 Williams Lake.

Sir,—

In reply to your letter of the 5th inst., with reference to the Trethaway ditch across a portion of the Stone Indian Reserve No. 1.

I beg to inform you that there is nothing actually on file in this connection in the Williams Lake Agency, as any records the Agency happened to possess before I took charge were destroyed in a fire at Lac La Hache.

I may say, however, that I investigated the matter myself, and the Indians informed me that the original diversion from Big Creek to Fletcher Lake was made by themselves. From Fletcher Lake the water was carried down the channel of Brigham Creek to the point of diversion on the Reserve, on which it was distributed by a small ditch. Subsequently, additional water was diverted from Big Creek into the storage site on Fletcher Lake by the owners of the Trethaway Ranch. This water was also carried down the channel of Brigham Creek, and permission was obtained from the Indians and the Department to enlarge the Indian ditch across the Reserve to carry the amount of water covered by the ranch record, and the ditch continued, to serve the irrigation purposes on the Trethaway Ranch.

A record was taken out for the Indians entitling them to 100 inches of water from this joint ditch, and four boxes installed at different points on the Reserve, the aggregate of which totals this 100 inches.

To the best of my recollection, Mr. E. Davis of the Water Controller's office, Victoria, was the Engineer who carried this through, and I would refer you to him for further information on the subject.

One thing is certain, however, that no trespass exists in the Trethaway ditch line.

Yours sincerely,

A.O'N. Daunt.

April 5th, 1923.

Dear Mr. Daunt:-

Can you give me any information as to what arrangement was made whereby J. Trethaway, the owner of Lot 187 used a portion of Stoma Indian Reserve No. 1 for an irrigation ditch to convey water to the above-mentioned Lot, as this reserve was set aside in 1887 and Trethaway obtained a license for 584 acre feet in 1891?

Mr. S. M. Logan, 417 Crown Building, Vancouver, is now the owner of Lot 187 and he called upon me today asking me what the status of the situation was, but I could not give him any more information than to tell him that unless some agreement was made between the Department and Mr. Trethaway, technically the ditch was on the reserve in trespass.

Kindly let me hear from you at your earliest convenience.

Yours truly,

WED/D.

W. E. Ditchburn,
Chief Inspector of Indian Agencies.

V

Sir:

I thank you for your letter of the 3rd instant, your file 23/5419, and note that the proposed compensation meets with the approval of your Department.

The delay in submitting this application was due to the lack of some necessary information from the District Engineer's office, but in future we will endeavour to see that the applications are made in good time.

Yours obediently,

P. Philip

Deputy Minister and
Public Works Engineer.

23/5416.

July 3, 1925.

Dear Sir:-

On the 26th May P. Philip, Esq., Deputy Minister and Public Works Engineer, in the Government of British Columbia, made application for 2.15 acres of land from the Alexandria Indian Reserve, Williams Lake Agency, for public purposes, and placed a value on the same of $25.00 per acre.

As is customary in cases of this kind, Mr. Philip sent me a copy of his letter in order that I might take up the question of valuation with the Indian Agent, and I accordingly wrote to Mr. Indian Agent MacLeod, at Clinton, to see if he considered $25.00 an acre a fair price to pay for the land. I am now in receipt of a letter from him to the effect that he considers that this is a fair price and that the Indians are perfectly satisfied that the road should be constructed which is a diversion from the old road, and will be of considerable benefit to them.

I would, therefore, recommend that the necessary Order-in-Council be passed granting the British Columbia Public Works Department the right to expropriate the said 2.15 acres of land in the Alexandria Reserve.

WHD/HM.

Your obedient servant,

W.E. Ditchburn,
Indian Commissioner for B.C.

The Secretary,
Department of Indian Affairs,
OTTAWA.

23/5419. July 3, 1925.

Your File 3245.

Dear Sir:-

Cariboo District,
Alexandria Indian Reserve.

Having reference to your letter to the Secretary of the Department dated the 26th May in which you made application for 2.15 acres of land from Alexandria Reserve for public purposes, and offered to pay at the rate of $25.00 per acre, I beg to say that I am now in receipt of a letter from Mr. Indian Agent MacLeod in which he states that both he and the Indians are perfectly satisfied with the rate of value which you placed on the land. I have written to Ottawa informing my Department to this effect and have recommended that the necessary order-in-council should be passed in connection with this matter.

Indian Agent MacLeod informs me that this diversion took place last Fall, though you did not make any mention of this fact in your letter of the 26th of May. I think, therefore, for the future, it is desirable that no entry should be made on an Indian Reserve until at least you have made application for the area required.

Your obedient servant,

WHD/HM.

W.H.Ditchburn,
Indian Commissioner for B.C.

P. Philip, Esq.,
Deputy Minister and Public Works Engineer.

COMMISSIONER'S OFFICE
JUL 3 1925
VICTORIA, B.C.

1-3-10

Dear Sir,

In reply to your letter No. 23/5177 dated May 29th, 1925 I beg to report that in company with Foreman Forsythe of the Department of Public Works, Quesnel, I examined the road diversion on Alexandria No.3 reserve, this Agency. I found that the diversion was completed last fall according to the sketch plan which you sent me and which I now return herewith.

The old road passed through nearly two miles of the reserve, coming down a very steep hill on the north end, passing through a flat portion of the reserve and the Indian village, thence up a steep hill through to the south of the reserve and thence to the Fraser River, MacAllister Ferry. The new diversion cuts off these two hills and leaves the Indians the right of closing up the old road north of the village, providing the Public Works agree to abandon the road. The southern end from the village has to be kept open as one settler lives between the Indians and the river and in common with the Indians must use this piece of the old road to the new portion.

W.E.Ditchburn, Esq.,
Indian Commissioner for B.C.,
P.O.Box 666,
Victoria, B.C.

Indian Affairs
(B.C. Records)
RG 10, Vol. 11006
File 989/31-4-1-3

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The land used for the road diversion is principally side-hill and apart from the timber value on the land, compensation should not be considered; the rate of $25.00 per acre for the right-of-way, including the timber, should be considered a fair valuation. The Indians are satisfied with the diversion.

I beg to advise that the Department of Public Works be advised that roads through Indian Reserves in this Agency be not constructed in future without the permission of the Department, as the method adopted in constructing this road without permission appears to me to be creating a dangerous precedent. I am, however, of the opinion that the present District Engineer would not do as his predecessor has done in this case.

I have the honour to be,
Sir,

Your obedient servant,

(E. MacLeod)
Indian Agent

Dear Sir,

I beg to acknowledge receipt of your letter No. 23/5177 of May 29th with enclosure. I have just returned from Quesnel and Alexandria, having been away for a week. Correspondence has piled up considerably and by the time I get things straightened out again I shall have to proceed to the Assizes at Prince George or possibly Prince Rupert. Upon my return I shall go into this matter fully.

From casual observation I am of the opinion that the land over which the right-of-way is desired is mainly cultivated land. I will report to you as soon as possible.

I have the honour to be,
Sir,

Your ~~obedient~~ servant,

E. MacLeod

Your file 5245.

Dear Sir:- Re-Cariboo District
Alexandria Indian Reserve.

I beg to acknowledge the receipt of your letter of the 26th instant attached to which was your application to my Department at Ottawa to expropriate 2.15 acres of land on Alexandria Indian Reserve No. 5. While you do not give the number of this Reserve in your letter, I observe that the District Engineer designates that it is No. 5, which is correct and I would, therefore, suggest that in all future correspondence dealing with reserves you should give the proper number of the same.

I have written to Mr. Indian Agent MacLeod, at Clinton, to ascertain as to whether the proposed compensation of $25.00 per acre is satisfactory, but I am inclined to think that it will be and as soon as I hear from him I will report to my superior officers at Ottawa.

WED/KD.

Yours very truly,

25/8177.

May 29th, 1925.

Dear Sir:-

I have to inform you that the Public Works Department of the Government of British Columbia are making application for the conveyance of 2.15 acres of land on Alexandria Reserve No. 2 for public road purposes and have offered to pay at the rate of $25.00 per acre, this being the valuation placed on the land by the District Engineer at the 150 Mile House.

I am attaching hereto plan showing the location of the proposed road to connect with the old road through this reserve and I beg to request that you will give me your views as to the compensation proposed. It is also desirable that you should see the Indians to ascertain from them as to whether or not this will be satisfactory.

I may say, however, in connection with public roads through Indian Reserves it is felt that the Indians should be prepared to accept only a very nominal value for the unimproved lands but where the same goes through improved lands, fair compensation should be demanded. As these roads are, no doubt, of considerable benefit to the Indians, in some cases the Indians have been known to give a free right-of-way and possibly you may be able to get the Alexandria Indians to look on this matter in the same light.

Please report to me at your earliest possible convenience as it will be necessary for me to communicate with the Department on the subject. When reporting please return the sketch.

WHD/ED.

Yours truly,

Dear Sir:-

When we were at the Dragon Lake Reserve about the 8th of June, you spoke about the sum of $20.00 being owing by the Provincial Government for what is known as the Cook Road.

I have received a cheque from the Provincial Government in payment for this which I am herewith forwarding to you in order that you may send it to Ottawa with proper explanation as you have dealt with this matter already and I have nothing on my files about it.

Upon taking up this matter with the Provincial Public Works Department, they furnished me with a copy of a letter from District Engineer H.S.Jones, of the 150 Mile House, which I am herewith attaching for your information together with blue print.

Please acknowledge receipt of this cheque.

Your obedient servant,

COMMISSIONER'S OFFICE
JUL 15 1926
VICTORIA, B. C.

Sir:

Further to my communication of the 10th instant, and our conversation in connection therewith, I beg to enclose copy of a letter from District Engineer Jones of the 26th May, together with blue print.

I may add that the previous payment referred to in District Engineer's letter, is a matter of $20.00, which was paid on October 9th, 1924 for 1600' x 30' wide of right of way. A man named Gook is mentioned in connection therewith.

Yours obediently,

P. Phillips

Deputy Minister and
Public Works Engineer.

Quesnel-Little Lake Road.

Sir:

I beg to enclose herewith, plan showing part of the Quesnel-Little Lake Road, which passes through Dragon Lake Indian Reserve No. 3.

The portion outlined in green which passes right through the Reserve, has already been paid for. The Indian Department are now asking payment for that portion along the North boundary, marked in red, area of which is 1.29 acres valued at $20.00.

May authority be granted to pay this amount, please.

Yours obediently,

"E.S.Jones"

District Engineer.

Dear Sir,

I have to acknowledge receipt of your letter of the 1st instant referring to lease upon Dog Creek No.5 and Wycott Flats Indian Reserves. As previously stated, upon receipt of marked cheque for these leases I shall have pleasure in forwarding same to my Department and advising them re drawing out a lease in your favour for five years.

I wish also to remark for your attention that I have had other inquiries for these leases and since it is now about one year since our first inquiries from you regarding these properties, it will be desirable to have the business concluded at once, or consider other offers.

Yours truly,

Your file 1-8.

Dear Sir:-

In going through some accumulated correspondence I find your letter of the 15th July, dealing with the question of leasing Wycott's Flat Reserve to Mr. Armes, and a desire of the Indians for information as to whether they can get the money in a lump sum at the end of five years to buy a sawmill to replace the one burnt down.

In reply I beg to say that possibly it is well that you might understand the difference between Capital and Interest Accounts of the various bands which you will find in the Auditor-General's report. A Capital Account is made up of monies received from the sale of lands, timber or any other natural resource of a reserve. You will observe under Section 89 of the Indian Act, that 50% of such monies may be distributed among the Indians in cash, the remaining 50% being retained in the trust fund and can only be spent on something of a general benefit, such as improvement to the reserve in which all the Indians are interested. This is to take the place of the land, timber or other resource sold.

The Interest Account is made up of interest on the Capital Account and monies from leases, rentals, etc. This money can all be distributed in cash among the Indians or spent for them in ways other than would be the case of money held in trust for them under the Capital Account.

You will see, therefore, that any lease money paid for the land on Wycott's Flat reserve can be spent by the Indians on a sawmill and it would not be necessary for them to wait five years as, of course, you will understand that all rentals must be paid in advance, therefore, when you are assured that Mr. Armes has paid five years rental to the Department in advance, there would be no objection to the Indians petitioning the Department to be allowed to spend this money on the sawmill to replace the one burned down last spring.

WED/KD.

Yours truly,

E. MacLeod, Esq.,

JUL 15 1925
VICTORIA, B. C.

July 13th, 1925

Sir,—

In reply to your letter of March 19th No. 47/4731, I beg to report that I was delayed in getting his matter settled owing to circumstances over which I had no control.

On the 10th instant I held a meeting of the Alkali Lake Band, or rather, as many of them as one is ever able to get together (18 of the principal men). The Chief was not present. On opening with them the question of leasing Wycott Flats, I was at once informed that the Chief left word that he was opposed to leasing unless he got the cash to distribute among the people as he saw fit. I explained to the meeting that the Department would not consider the matter at all, and if they would not lease the land allowing me to deposit the money for same in the Indian Department Bank, Ottawa, I was not going to do anything further. I pointed out to them, however, that some years ago the Chief was in the habit of renting that Flat for $200.00 and asked them how many knew what became of the money. Apparently no one knew, but really this was one of the deciding factors. They will not consider a surrender, and in fact pointed out to me that if I was not positively sure they would get the land back at the end of the five year lease, they would not lease it at all. They also wish to know if they can get the money in a lump sum at the end of the five years to buy a saw-mill to replace the one burned down last spring?

Having explained to them that I would place these matters before you as Indian Commissioner for B.C., and everything in connection with the matter of the lease, a resolution was then passed requesting the Department to lease Wycott Flats for a period of five years for the sum of $275.00 per annum.

Trusting the above meets with your approval,

I have the honour to be,
Sir,

Dear Sir:-

Referring to your proposal to lease Canoe Creek Reserve No. 4 (Dog Creek) and Alkali Lake Reserve No. 6 (Wycott's Flat), I beg to say that I have just received a letter from Mr. Indian Agent MacLeod to the effect that he has learned there is a possibility of your relinquishing your interest in the Dog Creek Ranch and therefore suggests that the matter be left over until this point is settled.

The Canoe Creek Indians have given their consent to the lease on the terms outlined by me some time ago to you, but the Agent has held off dealing with the Alkali Lake Band pending hearing something definite with regard to your intention.

I would therefore be obliged if you will write me on this subject.

Your obedient servant,

Your File 1-1-3.

Dear Sir:-

Replying to your letter of the 20th instant relative to the application of Mr. Harold Armes to lease Canoe Creek Reserve No. 4 (Dog Creek) and Alkali Lake Reserve No. 6 (Wycott's Flat), I beg to say that Mr.Armes, Sr. informed me some time ago that he wished to lease both Reserves on the terms outlined in my letter to you of the 19th of March.

The reason for my writing you on the 18th instant was due to the fact that Mr. Armes had telephoned me from Vancouver to see if the leases were going through, as he was anxious to get on the land. This would indicate that he intended to continue his interest in the Dog Creek Ranch. I am, however, dropping him a few lines to ascertain his intention in this regard.

Referring to your suggestion with regard to advertising for lessees for these Reserves, I beg to say that I do not think that it would be expedient to do this as it would appear to be making public the fact that the Indians do not make any use of these Reserves themselves, and therefore private leasing would be more preferable providing the terms are right. The rental agreed upon by Mr. Armes is considered equal to, if not more than, the per acre amount demanded by the Government of British Columbia for grazing lands, and this should be satisfactory to the Indians.

So far as Wycotts Flat is concerned, I may say that the Royal Commission on Indian Affairs recommended the cutting-off of this Reserve altogether and I had great difficulty in getting the Provincial Government to consent to allow it to remain for the Indians' use. You will, therefore, see that after my efforts in this direction it would appear somewhat inconsistent if any advertisement should be published calling for lessees of the Reserve.

WED/HM.

May 20th, 1925.

Sir,—

I beg to acknowledge receipt of your letter of the 18th instant, No. 47/5115 re the leasing of Dog Creek No.4 and Alkali Lake No.6 Indian Reserves to Mr. Armes.

I had a meeting with the Canoe Creek Band at which it was decided to lease on the terms suggested by yourself. The Indians of this Band signified that they were willing to rent to Mr. Armes or to any other applicant.

Up to the present time I have not been able to make an appointment with the Alkali Lake Band to discuss this matter, but I hope to do so in a very short time.

I had a private conversation with Mr. Alex Ogston, Barrister and Solicitor of Ashcroft, yesterday. Mr. Ogston is looking after the interests of the owners of Dog Creek Ranch and he informed me that within the next thirty days he would let me know if Mr. Armes would have any interest in Dog Creek Ranch or not, and owing to this unsettled state, I do not think we should rush the lease to Mr. Armes. When this point is clear I have no further objections.

However, I would like to ask if you would consider advertizing the lease of these reserves for five years, after I have had the meeting with the Alkali Lake Band? I think we might possibly get a better deal.

Trusting this meets with your approval,

I have the honour to be,
Sir,

47/4730.

March 19, 1925.

Your File 13160/2.

Dear Sir:

You wrote me on the 23rd of January stating that Mr. Harold Armes, of Vancouver, was desirous of renting Dog Creek Reserve No. 4, of the Canoe Creek Band, and Wycott's Flat Reserve No. 6, of the Alkali Lake Band, Williams Lake Indian Agency, shown by copy of letter written to you by Mr. Indian Agent MacLeod. The amount offered by Mr. Armes for this concession was $300 and Mr. Indian Agent MacLeod recommended that the terms be accepted and that the money be divided by giving $100 to the Canoe Creek Band and $200 to the Alkali Lake Band.

In view of the fact that Dog Creek Reserve No. 4 comprises 450 acres and Wycott's Flat Reserve is 1230 acres, it would appear to me that the division of the total amount, as recommended by the Agent, would not be a fair one to the Alkali Lake Band.

I have come to the conclusion that the best thing to be done would be to take the Dog Lake Reserve as a basis and endeavour to obtain proportionally more for the Wycott's Flat Reserve. On an acreage basis $100 for the Dog Creek Reserve would work out at 22¢ an acre, which, I may say, would be a fair per acre rental for the class of land under consideration. For Alkali Lake Reserve it would work out at $270.60.

Very luckily, Mr. Armes, Sr., of Vancouver, called at this office some little time ago to discuss water matters and I took up with him the question of his son's application to lease these two Reserves and informed him I did not consider the amount tendered was sufficient, but that I would be inclined to recommend that a lease be given to his son, if he would pay $375 per annum, providing the Indians were agreeable to have the Department lease the land for them. On leaving my office Mr. Armes stated he would communicate with his son and would let me hear from him later. While in Vancouver very recently, I called on Mr. Armes and he informed me they would be quite agreeable to pay the amount I requested, $375. This would provide for payment to the Canoe Creek Indians of $100 per annum and

The Secretary,
Department of Indian Affairs,

to the Alkali Lake Band #278.

Providing that Agent MacLeod finds that the Indians are agreeable, I would recommend a lease should be granted to Mr. Harold Armes for a period of five years.

I am writing to the Agent on the subject, and no doubt you will hear from him in the near future.

Your obedient servant,

W.E.Ditchburn,
Indian Commissioner for B.C.

47/4731.

March 19, 1925.

Dear Sir:-

You wrote to the Department early in December last enclosing a copy of a letter from Mr. Harold Armes, of Vancouver, desiring to lease Dog Creek Reserve No. 4, of the Canoe Creek Band, and Wycott's Flat Reserve No. 6, of the Alkali Lake Band. The amount of rental proposed to be paid by Mr. Armes was $300 per annum, and you recommended that he be given a five-year lease, providing that he should fence the Reserve in to your satisfaction. You also proposed that the money should be divided by giving $100 to the Canoe Creek Band and $200 to the Alkali Lake Band.

In view of the fact that Dog Creek Reserve No. 4 comprises only 450 acres and Wycott's Flat Reserve comprises 1,230 acres, this proportion would not be a fair one. While $100 per annum may be considered to be a fair price for the Dog Creek Reserve worked out on an acreage basis which would be 22¢ per acre, it is quite apparent that a somewhat larger rental should be obtained for the Wycott's Flat Reserve.

Mr. Armes called at this Office some time ago to discuss water matters and I took up the question of his son's application to lease these two reserves and stated that I considered the Alkali Lake Indians should receive a proportionally larger sum than you had proposed in your division of the rentals. I informed him that if he was prepared to pay $375 per annum, I would be prepared to recommend that the lease should be granted, and he asked me to leave the matter over for a short time until he had communicated with his son. Last week I called upon him in Vancouver and he informed me that they would be quite agreeable to pay $375 per annum for the lease of the two reserves. Providing a lease is issued, this would, therefore, allow of a distribution of $100 to the Canoe Creek Band and $275 per annum to the Alkali Lake Band.

In your communication to the Department you did not make any mention of the fact as to whether or not the Indians are desirous of having these two reserves leased for them by the Department, and this fact should be ascertained by you at as early a date as possible, and if they are willing their consent should be embodied in a resolution, because it may not be necessary to take a surrender in this case.

E. MacLeod, Esq.,
Indian Agent,
CLINTON, B.C.

In

Indian Affairs
(B.C. Records)

File 989/32-3-6

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In dealing with the question of fencing in the two reserves as mentioned in your letter of the 8th, I may say that it was apparently not Mr. Armes' intention to fence the reserves in by themselves, but to fence the property for three miles on the East side which would prevent any other cattle than his own obtaining access to the Reserves. You might take up with Mr. Armes this point and see if the fencing which he has in view meets with your ideas.

If the two Indian Bands referred to pass resolutions asking the Department to lease the lands, you should forward the same to Ottawa.

Your obedient servant,

W.E.Ditchburn,
Indian Commissioner for B.C.

Mr Armes to Caller and I think that if he could get
a long lease at the rate of $2.00 per acre for all the land I should
like to see him get the lease for that. He is to write me

His address is 701 Dorman Building

(Copy)

INDIAN OFFICE,

Williams Lake Agency,
at Clinton, B. C.,
December 5th, 1924.

Sir,-

Please find attached copy of letter which is self-explanatory.

The reserves referred to are Dog Creek No. 4 of the Canoe Creek Band and Alkali Lake No. 6. These reserves are on the lower branches of the Fraser River and we cannot irrigate them without incurring large expense which present conditions do not warrant.

The Dog Creek No. 4 would be credited with $100.00 to the Canoe Creek Band, and the Wycott Flats or Alkali Lake No. 6 $200.00 to the Alkali Lake Band.

I would recommend that we accept the offer of Mr. Armes for five years and that the Department draw out a lease to be signed by him and embodying therein that the reserves must be fenced to the satisfaction of the Agent. I may state that the Indians derive no benefit from these reserves at present.

I have the honour to be, Sir,

Your obedient Servant,

E. MacLeod

Indian Agent.

501

Dear Sir:- RE INDIAN DANDS COMMISSION

I beg herewith to make application for the stenographic work (if any) in connection with the above proposed commission, should I be successful in my application work to be done under the B.C. tariff.

I may say that I reported the Hospital Inquiry at Vancouver for Mr R.W.Hannington, and the South Vancouver Inquiry (Municipal) for Mr. M.J.Crehan, to either of whom you may refer as to my ability; (the latter commission closing March 30th 1913), or to Mr. R.L.Reid, K.C. (Bowser Reid & Wallbridge) and Mr. W.U.Runnalls, Inspector of Trust Companies with offices at Victoria,it being through the latter gentleman that I obtained your name, with his permission to refer to you him in connection with the matter.

Trusting that my application may have your favorable consideration, I am.

Yours truly,

Kate L. Rick

501

VICTORIA May 1 1913

My Dear Chairman

Pursuant to our pleasant interview of this morning I do place before you this formal application for the position of Official Reporter to your Commission.

I have the honor to be specially recommended by the Hon D. Young who had the pleasure of meeting you already.

Your Secretary, with whom I have not communicated, will be amiable enough to endorse this application, I am sure.

The Chief Justice of the Supreme Court also would testify to my competency.

The Provincial Secretary would convoke me by wire for your first sitting. Meantime I have the honor to be — Yours obediently

Donald Cameron

To the Honorable Justice McMore
President Commission
Indian Reserves

Honourable E. L. Wetmore, 501
Chairman, Royal Commission on
Indian Lands.

Sir:

I have the honour to offer my services as Official Stenographer of the Royal Commission on Indian Lands.

I have had many years experience in the stenographic reporting of proceedings of Royal Commissions and Government Enquiries and in Court and Newspaper reporting in England, the United States, and, during the last fourteen years in this Province.

For the Dominion Government I reported the recent "Sechelt", and "Iroquois" Enquiries.

For the Provincial Government, during various administrations, I have reported or been Secretary to several Commissions and Enquiries and have done much Assize work.

I am well known to the Hon. Martin Burrell, M.P., Mr. Barnard, M.P., and Mr. Taylor, M.P., as also to Mr. D. H. MacDowell, a member of your Commission; also to the Provincial Premier, Attorney-General and the Ministers of Lands and Works and their Deputies; for all of whom I have been at some time engaged--for the Attorney-General's Department in reporting Assize work during the present week.

As Assize reporter and in connection with Journalistic work I have visited many parts of the Province and personally know many of the officials and public men.

I have no written testimonials, but, in addition to the officials already mentioned, can refer to the following: The Hon. Chief Justice MacDonald; the Hon. Mr Justice Martin; the Hon. Mr. Justice Irving; the Hon. Mr Justice Morrison; Registrars of the Supreme and County Courts and various members of the local Bar; Mr. George Jay, Police Magistrate, Victoria; the present and past City Solicitors; the present and past Mayors

The Chairman and Members
of the
Royal Commission on Indian Lands Matters,
Victoria, B. C.

502

Gentlemen:

Referring to the honour you are kind enough to do me in suggesting my appointment to the Assistant Secretaryship of the Commission, I find that I shall be able to secure release from present connections and accept if we can meet in the matter of remuneration. Having in view all the advantageous features of the connection I am prepared to take up the work on a salary arrangement of ten dollars ($10.00) per diem and expenses while afield, and to give my best attention to all the duties involved. This I trust may be regarded as a proposal commending itself to the Commission.

I have the honour to be,

Sirs,

Your obedient servant

Dear Miss Pick:-

The Hon. Mr Shaw has put before the Royal Commission your application of the 24th March last as Stenographer. The Commission finds that it would be impossible under the circumstances to employ the services of a young lady on account of the travelling which it will have to do. Consequently the Commission regrets that it cannot entertain your application.

Yours very truly,

Secretary.

VICTORIA, B. C.

July 9th 1913

Messrs
The Chairman and Members
of the
Royal Commission on Indian Affairs,
Victoria, B. C.

502

Gentlemen:

When -- on or about the 20th May last -- I addressed a letter to your honourable body in which I offered my services in the capacity of Assistant Secretary to the Commission at a salary of $10 per day and legitimate expenses, I was fully of opinion that the duties of the position you were good enough to offer me would not so fully occupy my time as to entirely debar me from giving any attention to my established business interests. This I now find to be the case if I am to continue to perform my duties to the Commission thoroughly and efficiently, as I hope always to do while the Commission honours me by retaining my services. As a consequence my June income fell considerably below average prior to acceptance of my present engagement and below fixed charges against such income. Under these circumstances I would most respectfully ask the Commission to favourably consider a request that my salary allowance be increased from $10 to $15 per diem, the latter amount being sufficient to cover possible losses in other directions and, I believe with all respect, a fairer equivalent for the work for the Commission

Dear Mr McDowall. Apropos of our short talk in Oak Bay Tea about a month ago, and my visit there from in Victoria the following week, may remark, that you are doubtless aware that during the past 35 years I have made many Indian R. Surveys for the Ottawa authorities. Hon Edgar Dewdney was Indian Commissioner at Regina & C. I may tell you I have been asked some pointed questions about Indian R. matters in Northern B.C. by Inspector Dieltom who I know well. I have also talked informally about the work of the Commission Every member of this except perhaps Mr White of Nova Scotia, whom I do not know

Dear Mr.Brownlee,

Replying to your letter of Saturday July 19th, which I received this morning, I beg to say that I showed it to the different members of the Commission,who all expressed most friendly feelings towards you,and willingness to do what possibly may lie in their power when the time comes.

At the present moment,however, there is no work that the Commission can give to a surveyor,except the preparation of some Maps of the Agencies, which is being done by Mr.Ashdown Green, who has been with the Commission since the beginning,doing this work.

Your letter,however, will be borne in mind in case anything should arise in which the Commission can take advantage of your services.

Yours very truly,

W. H. Price Esqe.,
Honorary Secretary,
Victoria Conservative Assn.,
Victoria.

Sir:

By direction of the Royal Commission on Indian Affairs for British Columbia, I have the honour to acknowledge the receipt of your letters to Mr Commissioner Shaw and Mr Commissioner Meodowall, re recommendation by your Executive of Mr P. J. Sinnott for the position of stenographer to the Commission heretofore filled by Mr W. J. M. Welfor. I am directed to advise you that it is not the intention of the Commission to fill at present the vacated position on the staff.

I have the honour to be,

Sir,

Your obedient servant

Secretary

Mr. A. G. Sargison,
City.

My Dear Sargison:

Re. P. J. Sinnott.

Following our conversation of this forenoon, I am very pleased to have the opportunity of saying a word in Mr. Sinnott's favor. When Mayor of the city in 1912 I selected Sinnott from a number of applicants for the position of Mayor's secretary, and had him with me several months. I found him in every way highly satisfactory, well educated, steady, industrious, of thorough integrity and unquestioned ability. In a word, I know of no recommendation which I could give him which could possibly be too strong. He is a clever stenographer and good typewriter, being accurate and quick.

Being much pleased to be able to write you this line of recommendation, I am,

Yours truly,

J. L. Beckwith

J. H. Bergeron, Esq.,
Secretary Indian Commission,
Belmont Block,
City.

Dear Sir;-

I take the liberty of addressing you in connection with the application of Mr. Sinnot as Stenographer to the Indian Commission and I do so in simple justice to that young man.

Mr. Gibbons has complained to Mr. Price that Mr. Sinnot has been in the habit of writing to English Papers, condeming the Conservative Party in Victoria.

This accusation is entirely incorrect, as the letters which no doubt are those which appear in the Manchester Guardian, are written and signed by John Sinnot of Vancouver, who sometimes writes for the Vancouver Province. If the question of any fitness to secure work on the Indian Commission is to be judged by what he has written against the Local Conservative Party no one is more titled to be objected to than Mr. Gibbons, himself and apart from what is general knowledge and my own experience I do not hesitate to mention the Hon. R. F. Green M.P., who has more than once expressed his opinion on this subject. Ex-Mayor Beckwith (who was the Conservative Candidate against the Hon. Wm. Templeman ten years ago) than whom, there is no better Conservative in Canada, is well acquainted with Mr. Sinnot, and speaks most highly of that young man's integrity and capability, I may explain that personally Mr. Sinnot has no claim upon me and it is only in the desire to see fairplay that I have taken the liberty of writing you, particularly as my name has been associated with Mr. Sinnot's application for employment on your Commission.

Yours most respectfully,

A. G. Sargison

P. S. Since writing the above I just received the enclosed letter from Mr. Beckwith - AGS

Victoria, B.C. 18th. April 1914

The Secretary.,
Royal Commission on Indian Affairs,
Building.

Sir:-

In connection with the stenographic work of the Commission during the coming season afield, I beg to suggest that in the joint interests of economy and the expeditious completion of transcript it would be advisable that, insofar as possible, the extension of shorthand notes should be made immediately on the completion of meetings with the Indians. This course, you will remember, was pursued by Stenographer Telfer in the Queen Charlotte and Bella Coola Agencies, with a result that the evidence in each case was ready for the Commission within a day or so after the return to Victoria. Adoption of the practice suggested would, of course, entail almost continuous evening work on the part of the stenographer, but would assure a material time-saving and also the salary and expenses of a second stenographer.

I am prepared to undertake all the stenographic reporting in connection with the field work of the present season, transcribing as suggested, day by day, but inasmuch as adoption of this plan will necessarily involve practically double work, I would suggest that an increase of salary to $150.00 might fairly be allowed and a material money as well as time saving to the Commission still be assured.

In the event of this suggestion being favourably considered by the Commission, I desire to assure the Board that every endeavour will be put forth by me to give entire satisfaction to the Commission in efficient work.

I have the honour to be,

Sir,

Your obedient servant

McGREGOR YOUNG, K.C. JOHN A. McEVOY.

Toronto, May 3rd. 1913.

The Honourable E. L. Wetmore,
Victoria B.C.,

Dear Sir;-

I have been retained by the Dominion Government as counsel before the Commission to deal with Indian Reserve in British Columbia with instructions to give such assistance to the Commission in any of its inquiries as it may desire. Since my appointment in the beginning of the week I have been in Ottawa and doing my best to make some advance in the great mass of accumulated material at the Department and I propose to spend as much of next week at the same work as my other engagements will permit. The time spent in going through this material will, I believe, be useful to the Commission and assist in expediting its early proceedings.

The Dominion Commissioners are extremely anxious to get to work at the earliest moment and they have arranged to leave Ottawa on Thursday of next week to arrive in Victoria about the 17th. My present intention is to leave on, say, Tuesday week the 13th and to go straight through to Victoria to be available for the week commencing the 19th.

CONTINENTAL LIFE BUILDING,
TORONTO.
McGREGOR YOUNG, K.C. JOHN A. McEVOY.

Honourable E.L.Wetmore.

What I am venturing to trouble you with, however, is rather a personal matter to myself. You will understand that it is difficult for a lawyer to provide for so long an absence from his business upon short notice. While I think it is important that I should be present at the first sittings it has occurred to me that a few days might elapse after the arrival of the gentlemen from Ottawa in getting Commissioners together and in informal conference. Every day I can obtain at this end is precious to me, and if this letter should reach you on or before Saturday the 10th I would be very much obliged if you would have the goodness to send me a telegram letting me know the date when you think I should be at Victoria. From this time forward I shall be either at Toronto or Ottawa but a message to my office will reach me at once.

There are some forty odd applications for right of way and similar matters touching reserves that under the agreement are standing to be dealt with by the Commission. I presume these will be taken up first and I will have the material in order to submit them to the Commission when I arrive.

Believe me sir,

Yours very truly,

McGregor Young

THE CANADIAN PACIFIC RAILWAY CO.'S TELEGRAPH

TRANSMITS AND DELIVERS THE WITHIN NIGHT LETTERGRAM SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

The Company will receive, not later than midnight, NIGHT LETTERGRAMS, written in plain English, to be transmitted only for delivery not earlier than the morning of the next ensuing business day, at rates as follows: The standard day rate for a ten-word day message shall be charged for the transmission of a NIGHT LETTERGRAM containing fifty words or less, and one-fifth of the standard day rate for a ten-word day message shall be charged for each additional ten words or less in such NIGHT LETTERGRAM.

To guard against mistakes or delays, the sender of a NIGHT LETTERGRAM should order it REPEATED, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated NIGHT LETTERGRAM rate is charged in addition. Unless otherwise indicated on the face of this blank, THIS IS AN UNREPEATED NIGHT LETTERGRAM AND IS PAID FOR, OR AGREED TO BE PAID FOR, AS SUCH, in consideration whereof it is agreed between the sender of the NIGHT LETTERGRAM and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any UNREPEATED NIGHT LETTERGRAM, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED NIGHT LETTERGRAM, beyond fifty times the sum received for sending the same, UNLESS SPECIALLY VALUED AND INSURED; nor in any case for delays arising from unavoidable interruption in the working of its lines; nor for errors in obscure Night Lettergrams.

2. In any event the Company shall not be liable for damages for any mistakes or delays in the transmission or delivery, or for the non-delivery of this NIGHT LETTERGRAM, whether caused by the negligence of its servants or otherwise, beyond the sum of FIFTY DOLLARS, at which amount, at most, this NIGHT LETTERGRAM is hereby valued, unless a greater value is stated in writing at the time the NIGHT LETTERGRAM is offered to the Company for transmission and the additional rate is paid, or agreed to be paid, for special insurance.

3. Correctness in the transmission of NIGHT LETTERGRAMS to any point on the lines of the Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for REPEATED NIGHT LETTERGRAMS, viz: one per cent. for any distance not exceeding 1,000 miles and two per cent. for any greater distance.

4. This Company is hereby made the agent of the sender, without liability, to forward this NIGHT LETTERGRAM over the lines of any other company when necessary to reach its destination.

5. NIGHT LETTERGRAMS will be delivered free within one-half mile of the Company's office in towns of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the Company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.

6. No responsibility attaches to this Company concerning NIGHT LETTERGRAMS until the same are accepted at one of its transmitting offices, and if such a NIGHT LETTERGRAM is sent to such office by one of the Company's messengers, the latter acts for that purpose as the agent of the sender.

7. The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within thirty days after the NIGHT LETTERGRAM is filed with the Company for transmission.

In further consideration of the reduced rate for this special "NIGHT LETTERGRAM" service, the following special terms are hereby agreed to:

A. NIGHT LETTERGRAMS may, at the option of the Telegraph Company be mailed at destination to the addressee and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such NIGHT LETTERGRAM at destination, postage prepaid.

B. NIGHT LETTERGRAMS shall be written in plain English. Cipher or code language is not permitted.

8. The above terms and conditions shall be binding upon the receiver as well as the sender of this NIGHT LETTERGRAM.

9. No employee of the Company is authorized to vary the foregoing.

This is an UNREPEATED NIGHT LETTERGRAM and is transmitted and delivered by request of the sender under the conditions named above. Errors can be guarded against only by repeating the NIGHT LETTERGRAM back to the sending station for comparison.

INDIAN COMMISSION EN ROUTE TO COAST

Sittings Will Open at Victoria to Hear Evidence on Monday

SEVERAL QUESTIONS UP FOR ADJUSTMENT

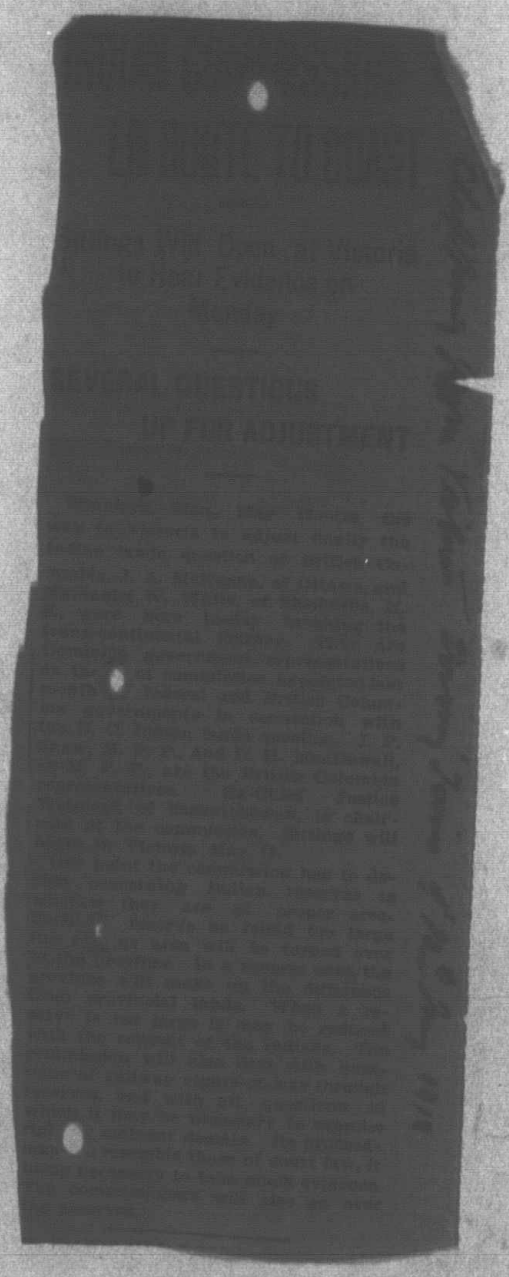

Winnipeg, Man., May 12.—On the way to Victoria to adjust finally the Indian lands question of British Columbia, J. A. McKenna, of Ottawa, and Nathaniel W. White, of Sheiburne, N. S., were here to-day breaking the trans-continental journey. They are Dominion government representatives on the joint commission appointed last month by federal and British Columbia governments in connection with the B. C. Indian lands question. J. P. Shaw, M. P. P., and D. H. MacDowall, ex-M. P. P., are the British Columbia representatives. Ex-Chief Justice Wetmore, of Saskatchewan, is chairman of the commission. Sittings will begin in Victoria May 19.

One point the commission has to decide concerning Indian reserves is whether they are of proper area. Should a reserve be found too large the surplus area will be turned over to the province. In a reverse case, the province will make up the difference from provincial lands. When a reserve is too large it may be reduced with the consent of the Indians. The commission will also deal with questions of railway rights-of-way through reserves, and with all questions in which it may be necessary to exercise right of eminent domain. Its proceedings will resemble those of court law, it being necessary to take much evidence. The commissioners will also go over the reserves.

PRIME MINISTER

PROVINCE OF BRITISH COLUMBIA

VICTORIA

25th.July 1913.

Hon. E.L.Wetmore,
Chairman,
Royal Commission on Indian Affairs,
Belmont House,
Victoria, B.C.

Dear Sir:-

Having had the opportunity of perusing the notes of Mr. McGregor Young's argument before the Commission on July 11th. when the Cowichan Agency was under consideration, I deem it necessary to acquaint you with the views of the Provincial Government in regard to the position held by that gentleman.

The tenor of Mr. Young's remarks would indicate that he has been retained exclusively for the Indians and not as general counsel to the Commission.

The Provincial Government has every confidence in the good judgment and fairness of yourself and your fellow Commissioners and feels quite satisfied to leave the inquiry in the hands of the Commissioners, confident that their deliberations will be held in the best interests of all concerned.

Yours very truly,

Indian Affairs

The Honourable E. L. Wetmore, L.L.D.
Chairman, Royal Commission on Indian Affairs,
on board Steamer "Queen City",
Bella Bella.

Dear Mr.Chairman;-

I take advantage of the fact that we can still reach you at Bella Bella to express to you how lonesome our offices are without you and the members of the Commission - Still we are struggling along, McArthur and myself to keep the office in the same place where you left it.

Things are very quiet down here. There are minister's galore - Messrs Foster, Rogers and Hazen are to be dined tonight by the Board of Trade and the citizens of Victoria, but the one whom we are all looking forward to as the "expected Messiah" has not arrived yet - He will be here probably at the commencement of next week, and I am prepared in every way, shape and form to do with him the special work which the members of the Commission have charged me with.

NIGHT LETTER

ALL NIGHT LETTER MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS WHICH ARE HEREBY AGREED TO

The Canadian Pacific Railway Co.'s Telegraph will receive not later than midnight **NIGHT LETTERS**, to be transmitted only for delivery on the following morning, at rates still lower than standard night message rates, as follows: the standard day rate for ten words shall be charged for the transmission of fifty words or less, and one-fifth of such standard day rate for ten words shall be charged for each additional ten words or less. The minimum charge for any **NIGHT LETTER** will be twenty-five cents for fifty words or less.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

In further consideration of the reduced rate for this special **"NIGHT LETTER"** service, the following special terms are hereby agreed to:

A. **NIGHT LETTERS** may at the option of the Telegraph Company be mailed at destination to the addressee and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such **NIGHT LETTERS** at destination, postage prepaid.

B. **NIGHT LETTERS** shall be written in plain English or French. Code language is not permitted.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

HEDLEY. B. C.

Dear Sir,

Your telegram of 7th instant from Penticton was received this morning, and I have today issued cheque No. 861, for the sum of $500.00, as requested by the Chairman.

There is nothing new here. I hope that you have received the letters which we have sent from day to day to the members of the Commission and yourself.

Hoping you are all well and enjoying your trip, and with kindest regards to the members of the Commission,

I remain,

Sincerely yours,

J. G. H. Bergeron.
Secretary.

To the Hon. Secretary Royal Indian Commission

Dear Sir:

As chairman of a committee appointed by the Hedley Golf Club to lay before your Honourable Commission a matter concerning the club I would ask that you ascertain the covenience of the Commission and advise me as to the time and place that the matter might be laid before them.

I would also ask that any members of the Commission who may feel disposed to do so will accompany the committee of the Golf Club to the links at any time that may be convenient and view the course personally, that they may the better understand the situation.

Should there be any golfers among the members of the Commission the committee will be pleased to arrange games for their diversion, during their stay in Hedley.

I have the honour to be;

Sir,

Your obedient servant

Dear Mr Bergeron;

Your letter duly received with enclosure of cheque and plans as stated. Thanks for same.

Everything running smoothly on the road, but cold and somewhat disagreeable traveling. I understand that we have about 11 miles through the snow on a bad mountain road during our 70 mile drive from Princeton to Merritt tomorrow. It looks as though we should have plenty of warming up exercise with the shovels.

Best regards from everyone in the party

Yours sincerely

A Gibbons

Dear Mr Bergeron:

I have the honour to acknowledge yours of the 15th instant accompanying map and blueprint of the Lytton Agency. We are leaving in the morning for Kamloops and will there block out future work in that district, probably following reserves along the line of railway. All well except Dr McKenna who unfortunately is confined to his room with a bad cold and may possibly have to return to Victoria.

Sincerely yours

THE CANADIAN PACIFIC RAILWAY CO.'S TELEGRAPH

TRANSMITS AND DELIVERS THE WITHIN NIGHT LETTERGRAM SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

The Company will receive, not later than midnight, NIGHT LETTERGRAMS, written in plain English, to be transmitted only for delivery not earlier than the morning of the next ensuing business day, at rates as follows: The standard day rate for a ten-word day message shall be charged for the transmission of a NIGHT LETTERGRAM containing fifty words or less, and one-fifth of the standard day rate for a ten-word day message shall be charged for each additional ten words or less in such NIGHT LETTERGRAM.

To guard against mistakes or delays, the sender of a NIGHT LETTERGRAM should order it REPEATED, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated NIGHT LETTERGRAM rate is charged in addition. Unless otherwise indicated on the face of this blank, THIS IS AN UNREPEATED NIGHT LETTERGRAM AND IS PAID FOR, OR AGREED TO BE PAID FOR, AS SUCH, in consideration whereof it is agreed between the sender of the NIGHT LETTERGRAM and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any UNREPEATED NIGHT LETTERGRAM, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED NIGHT LETTERGRAM, beyond fifty times the sum received for sending the same, UNLESS SPECIALLY VALUED AND INSURED; nor in any case for delays arising from unavoidable interruption in the working of its lines; nor for errors in obscure Night Lettergrams.

2. In any event the Company shall not be liable for damages for any mistakes or delays in the transmission or delivery, or for the non-delivery of this NIGHT LETTERGRAM, whether caused by the negligence of its servants or otherwise, beyond the sum of FIFTY DOLLARS, at which amount, at most, this NIGHT LETTERGRAM is hereby valued, unless a greater value is stated in writing at the time the NIGHT LETTERGRAM is offered to the Company for transmission and the additional rate is paid, or agreed to be paid, for special insurance.

3. Correctness in the transmission of NIGHT LETTERGRAMS to any point on the lines of the Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for REPEATED NIGHT LETTERGRAMS, viz: one per cent. for any distance not exceeding 1,000 miles and two per cent. for any greater distance.

4. This Company is hereby made the agent of the sender, without liability, to forward this NIGHT LETTERGRAM over the lines of any other company when necessary to reach its destination.

5. NIGHT LETTERGRAMS will be delivered free within one-half mile of the Company's office in town of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the Company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.

6. No responsibility attaches to this Company concerning NIGHT LETTERGRAMS until the same are accepted at one of its transmitting offices, and if such a NIGHT LETTERGRAM is sent to such office by one of the Company's messengers, the latter acts for that purpose as the agent of the sender.

7. This Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within thirty days after the NIGHT LETTERGRAM is filed with the Company for transmission.

In further consideration of the reduced rate for this special "NIGHT LETTERGRAM" service, the following special terms are hereby agreed to:

A. NIGHT LETTERGRAMS may at the option of the Telegraph Company be mailed at destination to the addressee and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such NIGHT LETTERGRAM at destination, postage prepaid.

B. NIGHT LETTERGRAMS shall be written in plain English. Cipher or code language is not permitted.

8. The above terms and conditions shall be binding upon the receiver as well as the sender of this NIGHT LETTERGRAM.

9. No employee of the Company is authorised to vary the foregoing.

This is an UNREPEATED NIGHT LETTERGRAM and is transmitted and delivered by request of the sender under the conditions named above. Errors can be guarded against only by repeating the NIGHT LETTERGRAM back to the sending station for comparison.

Dear Mr. Gibbons:

I only received this morning yours of the 13th. of May, and I found out by enquiry at the Post Office that I could not catch you at Nesquiot, so we are addressing your letters to the first address you gave me, that is to say, Kyuquot. I sent you a big letter this morning which I hope you have received.

Please tell Mr. White that I have received his commission from the Department of the Secretary of State and I am keeping it here as I do not suppose that he needs it.

I do not expect to go to Alert Bay, but if you persist in having voucher forms I will address them to you as soon as I have envelopes which I have asked for. If there is anything else which you want please let me know.

I wonder if Mr. Shaw has received the telegram which I addressed to him on Saturday. Hoping you are all well and with kind regards to everyone.

Yours truly,

Secretary.

PLEASE REFER TO FILE NO._____

VICTORIA, B.C. May 27th. 1914.

C. H. Gibbons, Esq.,
Steamer "Tees",
Alert Bay, B. C.

Dear Mr. Gibbons,

Just received your telegram and have notified all interested parties of such.

I am mailing you a good many letters, four for Mr. White; two for Doctor McKenna; one for Mr. Macdowall; eight for Mr. Shaw; four for Mr. Carmichael; two for yourself and three for Mr. Ditchburn. Hope you will receive them all right. They are all readdressed to Alert Bay according to your telegram.

I enclose now, a letter from McLean, and also a plan mentioned in that letter concerning right of way of Pacific Great Eastern Railway.

I see by your telegram that you are going quicker than you expected and if I understand well, you are about a week ahead of time. Keep me posted by wireless, where to send your mail as we cannot follow your schedule time.

All your families are well. I have just telephoned to Mrs. Gibbons, and she is very well and they are all glad

ARCHIVES PUBLIQUES
CANADA

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

J. G. H. Bergeron, Esq., K.C.B.C.L.
Secretary, Royal Indian Commission,
Victoria, B. C.

Dear Mr Bergeron:

By direction of the Commission, I have the honour to inform you that according to arrangements now made we shall reach Victoria one day earlier than anticipated; namely on the 24th. instant instead of the 25th.

All goes well, except that the roads up in this part of the country, owing to the recent heavy rains, makes travel by autos very miserable.

Your obedient servant,

James A. McKenna

Manager,

Tzouhalem Hotel,

Duncan, B. C.

Dear Sir:

Referring again to mine to you of the 21st instant:

We shall arrive by motor Monday and should like to have a special lunch served at 1.30. The party will be remaining with you until Wednesday morning, May 28, after breakfast, when departure is made for Nanaimo.

Returning, we shall be your guests for dinner on Wednesday, June 4, remaining that night and for breakfast on the 5th, when we leave for Cowichan Lake. Should like to have a light lunch made up to take with us then.

Again we shall be with you for lunch on Friday, June 6.

Kindly make arrangements accordingly, doing all you can to make the visit to Duncan of the party comfortable and pleasant, and oblige,

Yours very truly

Victoria

Dear Sir

Many thanks for yours, in reference to rooms I am afraid I could not reserve 10 rooms as house is full every night, I could put some of party up in house - if others would be content to go in tents - which are good, floored & comfortable - I should of like to much to put you all in house, but travel is large this season, please take one room out other of satisfactory & they wife & self will do every thing we can to make you comfortable

Yours very truly

A. H. Lomas

It might so happen that I can put you all up in house

Canadian Pacific Railway Company's Telegraph

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

NIGHT LETTER

ALL NIGHT LETTER MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS WHICH ARE HEREBY AGREED TO

The Canadian Pacific Railway Co.'s Telegraph will receive not later than midnight **NIGHT LETTERS**, to be transmitted only for delivery on the following morning, at rates still lower than standard night message rates, as follows: the standard day rate for ten words shall be charged for the transmission of fifty words or less, and one-fifth of such standard day rate for ten words shall be charged for each additional ten words or less. The minimum charge for any **NIGHT LETTER** will be twenty-five cents for fifty words or less.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

In further consideration of the reduced rate for this special "NIGHT LETTER" service, the following special terms are hereby agreed to:

A. **NIGHT LETTERS** may at the option of the Telegraph Company be mailed at destination to the addressee and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such **NIGHT LETTERS** at destination, postage prepaid.

B. **NIGHT LETTERS** shall be written in plain English or French. Code language is not permitted.

No employee of the Company is authorized to vary the foregoing.

JAS. KENT, Manager Telegraphs.

A. Johnston Esq.,
Deputy Minister of Marine and Fisheries,
OTTAWA.

Royal Commission on Indian Affairs having arranged to visit the various reserves of Bella Coola Indian Agency, will require a suitable steamer for such visitations. Commission is informed that there is in Victoria now one of Department's vessels which will fulfill the requirements, viz., steamer Quadra, which has been recently overhauled for transportation of the Minister to Prince Rupert. Quadra will return to Victoria early in August and Commission's Bella Coola itinerary will be entered upon about thirteenth August. Commission is anxious to know quickly as possible whether Quadra or some other of Department's vessels equally suitable for Commission's requirements can be placed at Commission's disposal. Kindly advise immediately.

SUGGESTED ITINERARY: BELLA COOLA AGENCY

Trip to be made by special steamer:

Victoria (or Vancouver) to Rivers Inlet — 2 days

Rivers Inlet (Gweekano) Three reserves, all on Rivers Inlet (summer and winter villages) Large meeting with Indians at principal village, should not require more than 1½ days. No official demand for new lands — 2 days

Rivers Inlet to Bella Coola — 1 day

Bella Coola (headquarters of this Agency under Agent J.F. Fougner, on No. 1 Reserve) These Indians have also a small village on No. 3 Reserve (Telecmy). Four reserves belong to this tribe. About three days will be required at the Indian Office, as the matter of land allotments will have to be taken up. See schedule of lands applied for — 5 days

Bella Coola to Kimsquit (Land applications to obtain consideration) — 1 day

Kimsquit: Two reserves about 8 miles apart — 1½ days

Kimsquit to Bella Bella — 1 day

Bella Bella: Twelve reserves; principal village at Bella Bella, where are about 300 Indians. All reserves can be inspected from steamer. Special fishing privileges asked for — 3 days

Bella Bella to Kitasoo (China Hat) — ½ day

Kitasoo: Two reserves; land applications to be considered. See schedule and McKenna letter — 2 days

Kitasoo to Kitimaat — 2 days

Kitimaat: Eight reserves and applications pending for Nos. 9 and 10. Principal business will be with respect to these applications — 4 days

Kitimaat to Kitlope — 1 day

Kitlope: Three reserves; Indians desire to change the site of their chief village to Crab River on land now covered by timber lease — 2 days

Indian Affairs
(B.C. Records)
RG 10, Vol. 11019
File 504

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Kitlope to Kitkahta (Hartley Bay) 1 day

Kitkahta: Four reserves; about 100 Indians 3 days

Note: (If it is desired to visit the Ulkatcho Reserve, 150 miles inland from Bella Coola, a special expedition must be arranged. The trip can only be made with horses over rough, mountainous country. Reserve consists of 4,000 acres, very rough and hilly, and Indians would abandon this location altogether or surrender a portion if they could be given better land elsewhere. There are about 50 Indians in this tribe, whose characteristics and pursuits are essentially dissimilar from those of the Coast tribes. There are about six Ulkatcho families domiciled off the reserve, between Bella Coola and Ulkatcho on wild Crown land)

Kitkahta to Kithkahtla 1 day

Kithkahtla: Nineteen reserves; about 200 Indians. Special fishing privileges sought. Land question here is general rather than particular. Meetings and observations should be completed in 6 days

Return to Victoria

ADDRESS OFFICIAL COMMUNICATIONS
TO THE SECRETARY

VICTORIA, B. C.
June 30, 1913

The Honourable
The Chairman and Members of the
Royal Commission on Indian Affairs

Gentlemen:

I have the honour to present for your consideration a suggested itinerary for the Bella Coola Agency in its entirety, to cover which would require approximately seven weeks. All meeting places and points for observation and inspection are on deep tidal water and the entire tour would be made on special steamer.

With respect to Ulkatcho: It does not seem feasible (or perhaps essential) to visit this reserve, and arrangements might be made for the Agent to present all particulars as to this reserve and have the principal Indians of the tribe at the Bella Coola meeting, where their application could be considered.

The suggestion that a preliminary visit be paid to the coastal section of the Naas, Port Simpson, Prince Rupert and the Queen Charlottes does not to me appear practicable inasmuch as it would involve unduly long unbroken absence from Victoria.

If this proposed itinerary commends itself, it could be covered from August 10, the return to Victoria occurring in the first week of October.

In the majority of the Bella Coola villages power is sought by the Indians to elect councils for the government of their domestic affairs.

Awaiting your further instructions herein,

I have the honour to be,

Gentlemen,

Your obedient servant,

CHG/AM

C. H. Gibbons
Assistant Secretary

COMMITTEE REPORT

Victoria, July 9th, 1913

To The Chairmen and Members,
Royal Commission on Indian Affairs for B.C.

Gentlemen:

We your Committee appointed to consider and report upon the proposed itinerary for the Bella Coola Agency and arrangements for same, beg leave to report:

"That the itinerary of the Bella Coola Agency as suggested in attached draft be approved, and that the Secretary be instructed to make necessary arrangements for transportation, the trip to be begun on August 12th proximo, or so soon thereafter as a suitable steamer is available".

July 16th 1915

Ivan Fougner Esq.,
Indian Agent,
Bella Coola, B.C.

Dear Sir:

It has been decided by the Royal Commission on Indian Affairs to leave Victoria by special steamer inaugurating the tour of the Bella Coola Agency, on Thursday, the 14th August, and I am directed in advising you of this to request that you will notify the various bands of Indians interested so that they may be gathered (with all statistics as to population, acreages, allotments, etc., etc.) at the several points of visitation by the dates set out in the attached itinerary. I might suggest that, if possible, you get your people mustered at all places to be visited well ahead of the scheduled dates, as it is quite possible that less time may be required at some places than has been allowed in the itinerary, and it is naturally desired to economize time and complete this long itinerary as expeditiously as may be possible without prejudice to the important interests requiring consideration. Thus if we could get through Bella Coola in four days instead of the five allowed at your suggestion, we could make Kimsquit on the Sunday and pick up one whole day, etc., etc. I should be obliged if, in acknowledging this as quickly as possible, you would advise me if any time in your opinion is over-allowed, or if time economies could be secured by any alternative arrangement of the itinerary dates.

Very truly yours

J. G. H. BERGERON,
Secretary

INDIAN AGENT'S OFFICE,

Bella Coola B.C.

IN YOUR REPLY REFER TO
No. 62/C
ALSO
TO DATE OF THIS LETTER.

July 21, 1913.

Sir,—

504

Referring to your letter of I6th instant, I have the honor to say that I shall comply with your request in the way of giving notice to Indians etc.

The rough itinerary is made out, assuming that the commissioners desire to visit all the reserves whether large or small, inhabited or uninhabited.

If I were to express an opinion , I should say it would not be necessary to visit every reserve; information may be obtained from surveyor's fieldnotes etc. The time required would then be from one to two days for each band; thus, if desired, the time proposed may be shortened.

At Bella Coola is the most valuable reserve in the agency. As this reserve may be required as a terminus of a railroad before long, it might be advisable to spend more time here than at other places. Here representatives of the Ulkatcho Indians from the Interior may also meet the commissioners.

Your obedient servant,

Iver Tougner.

Indian Agent.

The Assistant Post Master.,

Victoria, B. C.

Dear Sir:-

I am enclosing herewith copy of the rough itinerary covering the visitations to be made by the Commission to various reserves in the Bella Coola district.

I should be very greatly obliged to you if you would look over same and let me have a memorandum showing the last dates at which letters should be posted in Victoria in order to safely connect with the Commission at the various points to be visited.

Thanking you in anticipation,

I have the honour to be,

Sir,

Your obedient servant,

Assistant Secretary.

Post Office,

VICTORIA:B:C:

July 31st 1913

Sir:

With reference to your letter of the 24th instant, regarding the attached, the Superintendent Railway Mail Service advises me as follows:

"The Steamer Venture leaving Vancouver on the 14th "prox at 11 pm will be the last connection for Rivers Inlet.

"The same boat on the 21st prox will be the last to "connect at Kimsquit.

"The Chehlohsin leaving Vancouver on Saturday the "30th prox will be the last to connect with Bella Bella.

"Mail steamers do not call at Kitasoo or Kitlope, "and owing to the uncertainty of service to Kitamaat, I "would suggest that the Commission have their mail for- "warded in mails for Hartley Bay from the time of their "leaving Bella Bella until the arrival of the Chehlohsin "leaving Vancouver on the 13th September, while at Kitkatla, "(not a port of call for our mail steamers) they should have "mail forwarded to Claxton after departure from Hartley Bay "on the 20th September until the arrival of the Camosun at "Claxton leaving here on the 23rd Sept at 9 pm. Mails leav- "ing Vancouver on the steamer Prince Rupert om the 25th "September will reach Prince Rupert on the 27th idem".

Letters should be posted here twenty-four hours before departure of these Steamers from Vancouver, in order to ensure despatch;

Bella Coola B.C.

August 1, 1913.

Royal Commission on Indian Affairs
AUG - 7 1913
For the Province of B.C.

Sir:

Since writing my last letter dealing with your proposed tour through the Bella Coola Agency, I have thought it will be necessary that surveyor Ashdown H. Green goes with the Commission to locate corner-posts and boundary lines of the reserves.

The reserves were surveyed so long ago that the lines ~~lines~~ have now entirely grown over, and I am sure the posts, in many cases can not be found.

Mr. Green is the only man I know, who has the required knowledge, and corner-posts etc. of reserves ought to be renewed.

Your obedient servant,

Thos Fougner. Indian Agent.

Dear Sir,

re Tallio Indian Reserve No 3, of the Bella Coola band.

On the 22nd October 1915, Mr Ivor Fougner, Indian Agent at Bella Coola wrote us with reference to the above (File 128/D) more particularly to our running the North and South boundaries of the above, when we were on the ground engaged upon some adjoining work.

He referred us to the Royal Commission of Indian Affairs, as being the body from whom we would be able to obtain a copy of the Field Notes of the above.

As our Mr Geoffrey K. Burnett will be going to the ground at the end of this month, to take up this work, we shall be obliged if you will arrange for a copy of the Field Notes in question, to be furnished to us.

Yours faithfully,

Burnett & McGugan

Bella Coola B.C.

August 6,19 5.

C.H.Gibbons Esq.,

Secretary,Royal Commission on Indian Affairs,

Victoria, B.C.

Sir: Re.Ulkatcho Band and Interests Thereof.

In compliance with the request contained in your letter dated Fort Fraser, June 7th. 1915,I have completed a three weeks' journey to Ulkatcho and vicinity in company with Mr.J.R.Morrison of Bella Coola, a man who has lived several years in the district visited, and is better acquainted with men and things there, than perhaps any other white man. Of the results of the journey, I have the honor to submit the following report:

As to the present Ulkatcho Reserve,containg 4385 acres, I can confirm the statements made before the Commissioners at Fort Fraser by Chief John and other Ulkatcho Indians. The reserve is situated on the interior plateau at an altitude of about 3500 ft.; it is crossed by the 53rd. parallel N.Lat. The surface is generally gravelly, and covered with small jack pine; as large stretches of this have been burnt, it presents a most dreary and desolate appearance to the traveller who passes through it on the trail to Ootsa Lake. With the exception of two small meadows, only the south-eastern corner has any value to the Indians, and this mainly a sentimental one, as it contains their church and burial ground; here is also their village. I have not been able to meet the Ulkatchos collectively; but individually and through their chief Squinas they have expressed a desire to give back to the Crown nearly all of their

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

present reserve, that they may obtain land where hay can be cut for their horses and cattle. They seem to be desirous of removing their village to the vicinity of Kahoose's place on the Dean river near Lot 394.

Squinas, chief of the Ulkatcho band has wife and six children, 29 horses, nine cows, two mowing machines, one rake, one wagon, and two sleigs. He has for fourteen years lived on the N.E. quarter of Lot 404, south of Anaham Lake; here he has house, stables, corrals and fences etc. The S.E. quarter of the same lot contains Indian graves.

Kahpoose has wife and two children, I29 horses, with mower, rake, wagon, sleigh, etc. His houses stables etc. are on Lot 253(40 ac.) north of Abuntlet Lake. This lot together with the adjoining lot No. 24(269 acres) are held as Crown Grants by Mr.B.Brynildsen of Bella Coola. The understanding is that he holds the lands in trust for Kahpoose, and will give them up to him when he is compensated for his outlay to the Government.

Upon the request of Kahpoose I staked 320 acres immediately south of Lot 24: 40 chains north and south, and 80 chains east and west, making with Lot 24, one sqare mile.

Kahoose has wife and eight children, about 60 horses, I5 head of cattle, with mower, rake, sleigh etc. He lives on Lot 394, N.E. quarter. Here he has house, stables, corrals etc. and has built miles of fences along the Dean or Salmon river. Location marked on map, X5.

Captain Harry has a wife, but no children; his brother Alexis has wife and three children. They have 15 horse, one cow, one mowing machine, one rake and one sleigh, and live on the N.E. quarter of Lot No. 2129, south-west of Qualcho Lake, where they have built a house and stable. This location is marked X4.

The other Ulkatcho Indians, who number with these already mentioned about 90, have their homes at Ulkatcho.

The place marked X2 on the map, consists o of three small meadows, all fenced by the Indians, and situated about six miles north-east of the Ulkatcho town. Here I staked 320 acres- 80 chains east and west, and 40 chains north and south.

The location marked X3 is found about six miles east of Ulkatcho. This is surveyed and consists of the eastern half of Lot 945.

Having considered with painstaking care, what to me appears a problem difficult to solve happily, at this day, after so much land has been alienated from the Crown, I most respectfully beg to recommend that the

Indian Affairs
(B.C. Records)
RG 10, Vol. 11019
File 504

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

following parcels of land be reserved for the Ulkatcho Indians:

1. The N.E. quatter of Lot 404, south of Anaham Lake, occupied by chief Squinas; also the S.E. quarter of the same lot, containing Indian graves.

2. 320 acres south of and adjoining Lot 24- 80 chains east nad west, 40 chains north and south, near the place occupied by Indian Kahpoose north of Abuntlet Lake. Land staked by me July 15, 1915.

3. The north-east (N.E.) quarter and the North-west(N.W.) quarter of Lot 2129, occupied by Indians, Captain Harry and his brother Alexis. This land is south-west of Qualcho Lake.

4. 320 acres - 80 chains east and west- 40 chains north and south, about six miles north-east of Ulkatcho; this contains three fenced-in meadows and is marked on the map X2. It is not surveyed, and was staked by me July20, 1915

5. The eastern half(320 acres) of Lot 945; this is marked X3, and is found on the sleigh-road to Kluskus Lake, about six miles east of Ulkatc cho.

6. I addition to these locations, the Ulkatcho Indians, through chief Squinas ask for land on the Dean or Salmon river, near Kahooses place Lot 394, marked on the map X 5, and X7. They express a desire to remove hither with their village. Lands particularly wanted are Lots: 312,392,394, and 395. Most of these lots have been fenced by Indian Kahoose.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Indians would then relinquish the equivilant number of acres of their old reserve, and of this only retain a small area at the south-east corner, to include the present town-site and grave-yard.

In conclusion I beg to say that no promises of any new lands have been made by me to the Indians. I have listened to their statements and requests, personally examined the lands, as far as circumstances allowed, and told them that I would do my best in their behalf; but that the the final decision rested with the Commission.

The Ulkatcho Indians including Kapoose and his brother Kahoose have, in my opinion, made themselves worthy of special consideration by the Commission, on account of the public spirit they have amnifested in the way of building and keeping up trails. The only access to this great, wild, lone land, where the Stick Indians live, is by trails, almost entirely built by Indians. It is no exageration to say that hundreds of miles of trails and many miles of ~~sleigh~~ sleigh-roads with bridges owe their existence and maintenance to the activity of these Indians.

Your obedient servant,

Indian Agent.

Marked blue-print returned herewith.

Bella Coola B.C.

July 31, 1913.

Royal Commission on Indian Affairs
AUG - 4 1913
For the Province of B. C.

504

Sir:

Referring to your telegram of yesterday's date, I have the honor to say:

The Bella Coola Agency is in area about equal to Scotland. Here are 1500 Indians, somewhat evenly distrbuted in 10 bands with 44 reserves. Each band has a village on the principal reserve where the members can be assembled. All the reserves are accessible by boat except the one at Ulkatcho, which is 150 miles inland. The Bella Bellas have 12, and the Kitkatlas 18 reserves, mostly fishing stations. It will take time to visit them all.

It is difficult, or impossible for me to fix an exact itinerary, as I have no definite idea of the limits of the proposed investigation; the speed etc. of the boat will also be a factor of which I have no knowledge.

I have notified the Indians, as far north as China Hat (Kitasoo) of the approximate date of arrival; definite information may be given later. It is not likely that the Indians go far away when they know that the Commission is coming.

The Bella Coola Indians* are now home from the sockeye fishing; cohoe salmon fishing will commence about two weeks or so. However, they fish near the village, and invariably come home every Saturday and Sunday.

As previously stated I do not see how the proposed itinerary can be shortened in any material way if all the reserves are to be visited and examined.

* Indians of the Bella Coola band.

Ask to Mark Lines & Copy & file

Bella Coola B.C.

Jan. 3rd, 1914.

Sir:

I have the honor to report that a slight error occurs in the Schedule of Indian Reserves, Supplement to Annual Report for the Year ended March 31st. 1913.

On page 59 a reserve named Koqui is given to the Lakelse band; this is a Kokyet reserve and the word Lakelse should be struck out.

I may say in this connection that there is no distinct tribe or band known as Kokyet; the members of this former band live with the Bella Bellas and thus form a part of this band.

I send a copy of this letter to the Secretary, Royal Commission on Indian Affairs for the Province of British Columbia.

Your obedient servant,

Wm Fougner, Indian Agent.

Bella Coola B.C.

Royal Commission on Indian Affairs
JAN - 6 1914
For the Province of B. C.

Jan. 3, 1914.

Sir:

With reference to your letter of 19th ultimo, I have the honor to report that all the reserves in the Bella Coola Agency as given in the Schedule of Indian Reserves are accessible by water only, with the exception of the Ulkatcho reserve.

This reserve may be reached by way of Ashcroft; from here leads a waggon or motor road to Tatla Lake, which is 40 miles west of Redstone Indian reserve; from Tatla Lake leads a pack trail to Anaham Lake, a distance of 60 miles; from here to Ulkatcho is a distance of 50 miles by pack trail.

The Ulkatcho reserve may also be reached from Bella Coola by taking the Bella Coola waggon road a distance of 24 miles, then a packtrail of 60 miles; this route is open from July 1st to Nov. 1st;

O 8

or the Bella Coola waggon road may be followed 35 miles; then a pack trail of 100 miles to Ulkatcho. This route is generally passable all the year.

To avoid as much as possible being bothered by mosquitoes and flies, it would be advisable to visit the Interior plateau of which the Ulkatcho reserve forms a part, in August or September.

Your obedient servant,

Jos Fougner, Indian Agent,

Secretary, Royal Commission on Indian Affairs, for the Province of British Columbia

Sir;-

By ditection of the Royal Commission, I am enclosing herewith a sample page from the memorandum furnished by one of the other Northern Agents for the information of the Commission, in connection with the desired statement re Facilities of Access possessed by the several reserves under his jurisdiction. The Commission requests that you adopt a similar style in the preparation of the memorandum in this connection which you now have in hand with respect to the Reserves in the Bella Coola Agency, noting, insofar as possible, not only the Facilities of Access, but also soil conditions, suitability of land for specific purposes, whether occupied by the Indians or not, proportion and character of timber, &c, &c.

As the tabulation of the information obtained by the Commission with respect to Indian Reserves throughout the Province is now well advanced, I shall be glad to receive your statement at the earliest possible date.

I have the honour to be,

Sir,

Your obedient servant,

Secretary.

Royal Commission on Indian Affairs
FEB 25 1914
For the Province of B.C.

Bella Coola B.C.

Feb. 18, 1914.

J.G.H.Bergeron Esq.,

Sec., Royal Commission on Indian Affairs,

Victoria, B.C.

Sir:

As requested by the Royal Commission on Indian Affairs, I have the honor to enclose herewith detailed information of the various Reserves in the Bella Coola Agency.

I commence with the O-We-ka-nos of River's Inlet, and treat the various bands as they follow each other up the coast. The Reserves of each band are numbered and treated in the order in which they occur in the Schedule of Indian Reserves for 1913.

Hoping that this supplies the desired information,

I have the honor to be,

Sir,

Your obedient servant,

Jean Fouquet.

Indian Agent.

Royal Commission on Indian Affairs
FEB 25 1914
For the Province of B.C.

Bella Coola Agency, B.C.

Owekano Reserves numbered as per Schedule of Reserves, 1913.

I. Katit
I628 Ac.

This Reserve is situated at the head of River's Inlet, and can be reached by a few minutes walk from the steamboat wharf.

It contains the winter village, Katit with a population of I08.

The land is heavily wooded with spruce, hemlock and cedar, except a strip along the river, which is covered with small brush; small patches are used for gardens. The greater portion is unsuited for agricultural purposes, and the climate is very humid.

2. Kiltala
I2I Ac.

This uninhabited Reserve can be reached by an hours canoeing from the Kildala cannery wharf. The greater portion of the land is swampy and mountainous, and covered by a heavy growth of timber, spruce, hemlock and older; a portion along the river might be cultivated.

3. Cookmi
II.75 Ac.

is a rocky piece of ground on an island at the mouth of River's Inlet. It can be reached by steamer, distance from Vancouver about 250 miles. It is a fishing station, and has no permanent inhabitants.

Bella Coola Agency.

Reserves of the Bella Coola Band. Numbers as per Schedule of of Reserves 1913.

I. Bella Coola
3363 Ac.

At the head of North Bentinck Arm, distance from Vancouver 300 miles; it can be reached by a short walk or drive from the steamboat wharf. Here is the permanent village with apopulation of 202 inhabitants.

The land is fertile and cultivated to some extent; the timber, fir, spruce and cedar is valuable; about one third of the area is mountainous.

This is the most valuable Reserve in the Agency.

2. Nooseck
13 Ac.

This uninhabited Reserve has a good location on North Bentinck Arm, about 10 miles from Bella Coola; it can be reached by steamer. The land is somewhat sandy, and mostly covered with timber.

3. Talleo
500 Ac.

Located on South Bentinck Arm , a distance of 20 miles from Bella Coola; it can be reached by steamer. The permanent population is 15 who cultivate part of the reserve. The land is sandy but suited for agricultural purposes; it is mostly covered by heavy timber, spruce, fir, cedar and hemlock.

The Talleo people are nearly related to the Bella Coolas, but likes to be looked upon as a seperate band.

4. Kwatlena
131 Ac.

The name is pronunced Kwatna; it is an uninhabited Reserve used for trapping and fishing purposes; the distance from Bella Coola is 40 miles. It can be reached by steamer with the exception of a short distance up the Kwatna river where a boat (small) must be used. The land is mostly covered by valuable timber, fir cedar and spruce.

Kimsquit Band.

I. Kimsquit
502 Ac.

This Reserve at the head of Dean's Channel can be reached by steamer. It contains some good land along the Salmon river; but most of the land is gravelly an and covered by forests of no great value; small patches are cultivated.

Here is the permanent village of the Kimsquit Indians, containing 40 inhabitants.

2. Chats-cah
428.00 Ac.

A Reserve, a short distance from NO. I; a steamer can come within a mile of it. Part of the land is rocky; the rest is good, but it is much cut up by the Chats-cah river, and its branches.

It is a fishing camp with no permanent inhabitants.

Kitasoo Band(China Hat)

I. Kitasoo
812.00

This Reserve is situated on Swindle Island, Klemtoo Passage, about 45 miles north-west of Bella Bella; steamboats pass by the place.

The land is wooded, rocky, or swampy and is thus ill suited for agricultural purposes; the climate is very humid.

The people of the village here are 115 in number, and popularly known as the China Hat Indians; this name is obtained from the peculiar shape of a near-by mountain.

2. Canoona
542.00 Ac.

is on the steamboat channel 25 miles from the village on reserve NO.1. It has no permanent habitation; but is used for fishing and hunting purposes.

Though there is some good land along the Canoona river, the reserve as a whole is rocky and covered with scrub timber.

Kitlope Band.

I. We-kel-lals.
215.00 Ac.

This Reserve is situated a few miles up the Kitlope river at the head of Gardner canal. It can be reached by steamer except the four miles up the river where rowboat or canoe must be used.

It contains much good land not heavily wooded; the land is however much cut up by the river and part of it is subject to overflow.

It has no permanent inhabitants, but is used as a fishing camp during the oolachan season.

2. Kitlope
112.00 Ac.

This uninhabited Reserve is at the head of Gardner canal, and can be reached by steamer. Part of it is rocky and swampy, but it has some good grass land consisting of tide-flats. It is a hunting and fishing camp.

3. Kemano
25.50 Ac.

This Reserve on Gardner canal can be reached by steamer. It consists of a peninsula, partly overflowed at extreme high tides; the land is of little value; the distance from the other two reserves is about 20 miles.

Here is the permanent village of the Kitlope Indians, who number 75 persons.

I. Kitimat
467.00 Ac.

This Reserve is ½ mile up the Klaklalisha river, the mouth of which can be reached by steamer. It is at the head of Kitimat Arm on the Douglas Channel.
The land is good, but mostly heavily wooded with cedar, cottonwood, willow and alder; small patches are cultivated. It has no permanent inhabitants.

2. Kitimat
386.00 Ac.

A Reserve at the head of Douglas Channel 3 miles from reserve NO. I; it can be reached by steamer.
Most of the land consists of a plateau, and is covered with hemlock trees; the soil is light; small patches cultivated.
Here is the village of the Kitimats with a population of 265.

3. Wawelths
41.50

An uninhabited Reserve one mile south of reserve No. 2; it can be reached by steamer.
The land is gravelly and covered with small timber. This is a fishing station.

4. Tah-la
12.50 Ac.

An uninhabited Reserve at the head of Kildala Arm; it can be reached by steamer. The land is mountainous in part, and covered by small timber; a fishing station.

5. Tsingueise
92.00 Ac.

A piece of land on Minette Bay at the head of Kitimat Arm; it can be reached by steamer.
The land is good and in part covered by forest trees. It has no permanent inhabitants, and has not yet been surveyed.

6. Bish
180.00 Ac.

A piece of land on Bish Creek, Kitimat Arm about 9 miles from reserve No. 2; it can be reached by steamer.
The land , which has not yet been surveyed is partley mountainous, and covered by forest trees.
It is a hunting and fishing station w with no permanent inhabitants.

Ulkatcho Band.

I. Ulkatcho Reserve.
4,385 Ac.

This Reserve may be reached by way of Ashcroft; from here leads a wagon or motor road to Tatla lake, which is 40 miles west of Redstone Indian Reserve. From Tatla lake leads a pack trail to Anaham lake, a distance of 60 miles; from here to Ulkatcho is a distance of 50 miles by pack trail.

The reserve may also be reached by way of Bella Coola by waggon road for a distance of 35 miles, then a pack trail of about 100 miles.

The Ulkatcho Reserve is on a plateau at an altitude of over 3000 ft. It contains the permanent village of the band, numbering about 94, counting the members who live outside the reserve.

With the exception of two or three small meadows the land is covered with small timber, principally jack pine, partly burnt and dry.

The Reserve is not suited to the needs of the Indians who keep horses, and at present have to secure hay and pasture for their animals outside the boundaries of the reserve.

Bella Coola B.C. March 24th 1914.

Royal Commission on Indian Affairs
APR 2 1914
For the Province of B. C.

Sir:

With reference to your letter of I6 instant, I have the honor to state that the assumption of the Commissioners, as to the " Kokyet" band having its population included as part of the Bella Bella band, is correct.

To judge by the Schedule of Indian Reserves there evidently at one time existed a band of this name; they do now live at Bella Bella, and do in no sense here constitute an "imporium in imperio."

Your obedient servant,

Ivor Tongner,

Indian Agent.

Iver Fougner Esq.,
Indian Agent,
Bella Coola, B.C.

Sir:

By direction of the Royal Commission on Indian Affairs for the Province of B.C., I have the honour to request that you prepare and forward to me at your earliest convenience a statement giving the fair valuation of each of the several reserves in your Agency, having due regard for its potentialities, situation, etc.

I have the honour to be,
Sir,
Your obedient servant

Secretary.

Bella Coola B. C.
April 8, 1914

Sir:

With reference to your letter of 27th. ultimo, I have the honor to enclose herewith statement of valuation of Reserves in the Bella Coola Agency, as requested; a separate statement of values of buildings and fences is subjoined.

The Commissioners will readily comprehend that, for want of a proper criterion, it would be difficult to place a fair and intelligent valuation upon outlying reserves, even though a person had intimate knowledge of conditions of soil etc.

Though accuracy in valuation can not be claimed, I have tried to come as near to it as possible under the circumstances; and have, in no case closed my eyes and made a wild guess. The figures do not correspond to those of last year's bluebook; as a rule they are higher. I think, however, they are more correct, and will form a basis for future reports.

I have the honor to be,
Sir,
Your obedient servant,

Ivor Tourgner.

Indian Agent.

ADDRESS OFFICIAL COMMUNICATIONS TO THE SECRETARY

VICTORIA, B. C. 26th. June 1914

Mr Indian Agent Fougner on being re-examined at the Board Room on the afternoon of June 26th. regarding the valuation of the Bella Coola I.R., said, that he might put the value of that Reserve as high as $100. per acre, but in his judgment, it would waver between $75. and $100. per acre.

ADDRESS REPLY TO THE SECRETARY DEPT. OF INDIAN AFFAIRS, OTTAWA.

DEPARTMENT OF INDIAN AFFAIRS CANADA.

618

Ottawa, July 4, 1913.

Sir,

I beg to inform you that Mr. J. W. McFarlane, Road Superintendent, has made application through the Indian Agent, Mr. Iver Fougner, Bella Coola, for the right of way for a highway across the Bella Coola Indian Reserve. This being a right of way required for a public purpose by the Province the matter requires to be dealt with by the commission. The matter is therefore submitted for its action.

Part of the correspondence regarding this matter is now with the commission; the remainder has been sent you by registered mail.

Your obedient servant,

Assistant Deputy and Secretary.

The Secretary,
Royal Commission on Indian Affairs,
Victoria, B.C.

July 9th 1913

No. 386711

J. D. McLean Esq.,
Secretary,
Department of Indian Affairs,
OTTAWA, CANADA.

Sir:

The Royal Commission on Indian Affairs for the Province of British Columbia having this day had under consideration papers in connection with a road on the Bella Coola I. R. from the Townsite, and the recommendation of the Indian Agent that a grant of $500.00 be made therefor, it was ordered:

That the Commission has no authority in the matter and that the File (No. 386711) be returned to the Secretary of the Department of Indian Affairs, Ottawa, together with a copy of this Minute.

The Commission having had before it papers in respect to certain improvements to a road through the Bella Coola I. R. and connecting with a Provincial public road, it was ordered:

That inasmuch as this appears to be simply a question of a money expenditure for a road improvement, it does not come within the scope of the Commission, and that the File (No. 386711) be returned to the Secretary of the Department of Indian Affairs, Ottawa, together with a copy of this Minute.

The Commission having had before it papers relating to the construction of a footbridge on the same Reserve, as it apears from a letter from the Secretary of the Department of Indian Affairs to the Agent of the Department at Bella Coola, dated the 1st February, 1912, that permission was granted for the abutting of same on the Reserve, there does not appear to be anything in

connection therewith for the Commission to deal with, and it was therefore ordered:

That the File (No. 386711) be returned to the Secretary of the Department of Indian Affairs, Ottawa, together with a copy of this Minute.

I am therefore returning to you herewith File No. 386711 referred to in the above mentioned Orders.

I have the honour to be,

Sir,

Your obedient servant

Secretary

Road Superintendent,
Bella Coola, B. C.

Sir:

By direction of the Chairman of the Commission I beg to direct your attention to the fact that on the 23rd August ultimo, we returned to you from Bella Bella for amendment and completion plans delivered by you to the Commission during its sitting at Bella Coola with respect to application for a portion of the No. 1 Indian Reserve of the Bella Coola Tribe for public highway purposes. We requested that this plan be forwarded to the Commission at Prince Rupert, but neither found it there nor here upon our return to this city. As the Commission cannot dispose of this matter until this plan is received, I shall be obliged if you will cause it to be forwarded to this office without delay.

I have the honour to be,
Sir,
Your obedient servant

Secretary.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

Oct 1st 1913, 191

Dear Sir:-

In reply to your lettergram of the 29th ulto, I wired you as follows:-

" No recollection of having received missing plans here. All mail for Commission and Members received after you left Prince Rupert for Queen Charlotte Islands was forwarded to Victoria. "

With reference to the plans posted by the Road Superintendent at Bella Coola, I do not think there would be any difficulty in tracing up if the Post Office Inspector at Victoria is furnished with full particulars as to the posting of same, whether posted at the Post Office at Bella Coola or handed to some one aboard a steamer that happened to be going direct from Bella Coola to Prince Rupert. As all mail received after you left was promptly returned to Victoria, I would suggest that you communicate with Mr Fletsher, Post Office Inspecter there, as there is no direct mail service between Prince Rupert and Bella Coola, and matter from the latter office for Prince Rupert is despatched to Vancouver.

Yours very sincerely

The Deputy Minister of Public Works,

V i c t o r i a , B. C.

Sir:

I have the honour, by direction, to refer to to the application of your Department dated the 29th July, 1913, for right-of-way through Bella Coola I. R. No. 1 for a certain Provincial public road, which application has also been referred to the Commission by the Department of Indian Affairs, and to request that the Commission be informed at the earliest convenient date whether it is the desire of the Department to proceed with or to withdraw this application. Consideration of this application would appear to have halted with the loss of an amended plan in transit from the local Road Superintendent during August or September, 1913. If it is the wish of the Department to further prosecute the application, the Commission will require to be supplied with amended copy of the plan of the route of road and contemplated work.

I have the honour to be,
Sir,
Your obedient servant

Secretary.

Skeena District,
Road - Bella Coola Reserve.

Sir:-

Referring to your communication of the 17th instant, I am sending you under separate cover two blueprints showing right of way through the Bella Coola Indian Reserve No. 1.

The road which we made application for is one built two years ago from Bella Coola to the new bridge erected at Claytons, but since we have nothing on file to show authority it seems to the undersigned that all the roads shown on the blueprint should be included. At the same time we have no desire to stir up matters in Ottawa - as they invariably ask for compensation. The roads in question have been used for years and we have no complaint from any of the Indians interested.

Yours obediently,

J. E. Griffith

J. B. Griffith, Esq.,
Deputy Minister and Public Works Engineer,
Department of Public Wor,s,
Victoria, B. C.

Sir:

I have the honour, by direction, to acknowledge the receipt of your letter of the 20th instant (Your File No. 1402) with accompanying blueprints showing rights-of-way of roads through Bella Coola Indian Reserve No. 1.

This letter refers to the application filed by you on the 29th July, 1913, for the allowance of right-of-way for a new road connecting the townsite of Bella Coola with the Provincial Bridge, Claytons; and traversing Bella Coola Indian Reserve No. 1, which application was also referred to the Commission by the Department of Indian Affairs on the 4th July, 1913, upon application in the same behalf being made to that Department by Road Superintendent J. W. McFarlane, through Indian Agent, Mr. Ivor Fougner.

The Commission is desirous of disposing of this application and requests that you have prepared, duly certified, and forwarded to the Commission a plan showing the right-of-way referred to in the application, upon receipt of which, action will be taken.

In transferring this certified plan of required right-of-way, the Commission will be pleased to be advised by you as to whether the road covered by the application is a new road or a diversion of an established road, and, if the latter, whether any portion of the old road, and if so what extent, reverts to the Indian Reserve traversed.

I have the honour to be,
Sir,
Your obedient servant,

Secretary.

PUBLIC WORKS DEPARTMENT
(OFFICE OF DEPUTY MINISTER AND PUBLIC WORKS ENGINEER)

VICTORIA Jan. 25th, 1916.

Skeena District,
Road - Bella Coola Reserve.

Sir:-

Referring to your communication of the 21st instant, I am returning under separate cover two certified blueprints showing location of a road through the Bella Coola Indian Reserve from Bella Coola Townsite in a southerly direction to the Bella Coola Bridge at Claytons, and thence in an easterly direction along the south bank of the Bella Coola River to the junction of main road.

The road in question has been in use for some years. The dotted lines show proposed changes which would straighten alignment. If this is done at some future date the old road will revert back to the Indians. As it is all practically through wild land it should not make much difference to them.

Yours obediently,

Deputy Minister & Public Works Engineer.

C. H. Gibbons, Esq.,
Secretary,
Royal Commission on Indian Affairs,

Sir: Re. Public Road through Bella Coola
I. R. No. 1, Skeena District :

I have the honour, by direction, to acknowledge the receipt of your letter of the 25th instant, (Your File No.1402) with accompanying certified blue prints showing the location of a public road through Bella Coola Indian Reserve from Bella Coola townsite in a southerly direction to the Bella Coola Bridge at Clayton's, and thence in a generally easterly direction along the south bank of the Bella Coola river to junction with the main road.

I am, by concurrent mail, returning to you the plans in question, it appearing from your letter hereby acknowledged that no action by the Commission herein is at present called for.

I have the honour to be,

Sir,

Your obedient servant,

Secretary.

Nov 24th 1915.

To The Chairman
Royal Land Commission.
Victoria. B. C.

Mr. Chairman, Sir,

Some 4 years ago a camp which I erected below the present Glowell Camp at a point marked X on enclosed map was pulled down by a Japanese who is said to own the land.

You will notice by the map that this land does not show as Indian Reservation.

I wish to say that for a great number of years past we have had our Camp on this sight & for generations have likewise fished in this river.

A survey was made by Mr. O'Reilly in 1882 & this point & river were then out in the Reservation & rightly too, but in 1891 or 1892 another survey was made & the line moved to the present position.

I would ask you to kindly look into this matter, during the present sitting and

Indian Affairs
(B.C. Records)
RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2

if possible have the boundries placed in the original positions.

The land around here is worthless itself + our family camping ground is the only part of the land that is any good at all + only good because of the river. This fact alone will prove to you that our original camping site could not possibly have been where the map now marks the Reservation.

The fishing liscence is held by the Lowe Inlet Cannery + where this Cannery owns fishing liscences, on rivers where the original Indian Camps are situated they employ such native to fish for them in that river + buy his catch.

I have asked the Cannery to let me fish + to buy from me as we have been on this river for hundreds of years but they refuse on the grounds that the Japs have the land + river.

It is for this reason that I wish you to look into the matter. In consequence of the reservation posts having been altered the river + land adjoining it

ARCHIVES PUBLIQUES
CANADA

are not Indian reservation + the fact that we were the origional owners of that camping ground counts for naught + I am prevented from making a living by fishing in this streams.

Sir I would again ask you to look into this matter which is so vitally important from our family standpoint, affecting as it does our livehood.

May I ask you to answer this at your convenience + in the meantime I wish to thank you in anticipation of the consideration which I am sure you will give this letter.

Yours very Respectfully.

53. Copla / Griffin

At Fort Fraser, B.C.,
June 7th,
1915:

Iver Pougner Esq.,
Indian Agent,
Bella Coola, B.C.

Sir: Re. Ulkatchu Tribe and Interests Thereof

By direction of the Royal Commission on Indian Affairs for British Columbia, I beg to again refer to our letter to you of some few weeks ago in which you were advised of the intention of the Commissioners to visit Ulkatchu upon the conclusion of present visitations in the Stuart Lake Agency and were requested to join the Commissioners at Ulkatchu during the first week of July in connection with the remaining field work of the Commissioners in your Agency.

I have now to advise you that the Commissioners were met here today by the Second Chief and a number of the members of the Ulkatchu Band, who spoke allegedly for all members of that Band with the exceptions of Kapoose and Kahoose and their respective families. These Indians presented certain applications for additional Reserve lands and were duly examined in respect thereto, as well as in respect to the population, present holdings, avocations and conditions generally obtaining in and with respect to the Ulkatchu Band. The applications above referred to may be generally described as hereunder, the several locations being also roughly indicated upon a blueprint which is transmitted to you under separate cover by concurrent post:

1. Meadowland approximately five (5) miles from the Ulkatchu tribal village, in the locality of Tsayagois Lake; marked on blueprint "X2".

2. Meadowland along an unnamed stream flowing into Naliput or Mud Lake, generally lying in the direction of the Kluskus Trail; marked "X3".

3. Meadowland at a point approximately fourteen (14) miles west of the Ulkatchu Reserve, on an unnamed creek flowing into Qualcho Lake from the southwest; marked "X4".

4. General farming land apparently on the north-

Indian Affairs
(B.C. Records)
RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ern half of Lot 392; marked "X7".

Having taken the evidence of Second Chief John and other Ulkatchu Indians above referred to, the Commissioners have decided that, having in view the long and costly trip otherwise involved, it is now unnecessary and inexpedient for them to personally visit these Indians as originally intended, at their Reserve.

The Commission therefore requests that you proceed at once to Ulkatchu, consult with the Indians there, and in their company stake as required by law the several parcels of land for which application has now been made in behalf of the Ulkatchu Band, as meadow and cultivable reserves, using in each case your judgment as to the quantity of land sufficient to meet the reasonable requirements of the Indians. It is imperative, I may point out, that this work be completed as expeditiously as possible, inasmuch as the Commission is desirous of completing its work during the present season. After you have staked these lands now applied for and prepared sufficient descriptions thereof to satisfy the requirements of the Lands Department, the Commission will require your attendance in Victoria for further examination relative to all of the several lands applications filed in behalf of Indian tribes or bands of the Bella Coola Agency.

The Indians here present today, speaking for the Band, expressed themselves as satisfied that, the lands now applied for being secured for their use and benefit, these would fully meet the reasonable land requirements of the Ulkatchu Band. They also stated upon oath that, these desired additional reserves being secured, the Band would have no further use for the northern portion of the Ulkatchu Reserve as at present defined and established, such northern portion being indicated upon the blueprint hereinbefore referred to and marked "X8". This portion of the Reserve (upon the desired new reserves being established) it was further stated in evidence, the Ulkatchu Indians would be prepared to relinquish, all being prepared to acquiesce in such relinquishment.

For your information I may say that upon the blueprint which is sent you today

"X" indicates approximately the present location

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of the Indian village upon the existent Ulkatchu Reserve, in the southeastern corner of the said Reserve;

"X2" indicates a meadow applied for, upon which hay is cut by certain members of the Band;

"X3" ditto;

"X4" ditto;

"X5" indicates Lot 394, apparently a parcel of land already reserved from alienation and a portion of which appears to constitute the holding of the Indian Mahoose;

"X6" indicates a parcel of land already reserved from alienation and which appears to constitute the holding of the Indian Kapoose -- this bearing the reference No. 61694.
15

"X7" indicates the north half of Lot 392, apparently vacant and available Crown land which these Indians desire to have constituted an additional reserve for the use and benefit of the Band; and

"X8" indicates the northern portion of the established Ulkatchu Reserve which the Indians express themselves as willing to relinquish and surrender in lieu of the additions to their reserves herein proposed, such northern portion of the established Ulkatchu Reserve being declared by the Indian witnesses to be absolutely useless to them.

If, in addition to the lands herein applied for as additional reserves of the Ulkatchu Band, any Indian graves be found by you outside of the Reserve, the Commission would ask that you also stake and adequate describe a sufficient small reserve in each and every instance. The area of each of the proposed reserves for which application is now made you will define with judgment and discretion, having regard to the reasonable requirements of the applicant Indians in respect thereto. In staking the land which are the subjects of present applications,

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

it would be well if you would (and the Commission would ask that this be done) locate and describe same in such fractional parts of Sections as 160, 320, 480 or 640 acres -- if in any case the allotment of an entire Section be adjudged by you to be necessary and advisable. You will of course use discretion in the avoidance of any extravagance which might possibly enter into the Indian application, the desire of the Commission being to provide for the necessary and reasonable requirements of the applicant Indians.

Kindly return to the Commission with your Report hereon, the blueprint which is now sent you, having previously indicated thereupon the boundaries of the several locations covered by the applications, in order that the same may be reserved from alienation by the Provincial Lands Department pending final action by the Commission herein; and also so that, in the event of it being found necessary to have preliminary surveys made, the surveyor may find his work facilitated and simplified by your preliminary action.

I have the honour to request that the matters herein dealt with obtain your immediate and most careful attention.

I have the honour to be,
Sir,
Your obedient servant

Secretary.

Bella Coola B.C.

IN YOUR REPLY REFER TO
No. 38-D.
ALSO
TO DATE OF THIS LETTER.

June 25, 1915. 191

Sir,—

I have the honor to acknowledge the receipt of your letter, dated Fort Fraser, June 7(together with a blue-print sent under separate cover) in which is stated that the Commissioners have had a meeting with some of the natives, and decided not to visit Ulkatcho; but request me to go there to stake sufficient land for the Indians, and afterwards report in person at Victoria, upon this and other matters pertaining to the Bella Coola Agency.

In reply I beg to say that I shall comply with your request, and proceed to Ulkatcho, to do the best I can, as soon as other pressing duties of the office will permit, and suitable arrangements for the trip can be made. I trust, it will be possible for me to appear in Victoria during the month of August.

Many Indians from Ulkatcho and Kluskus Lake, together with Kahoose are now at Bella Coola. I saw some of them at the office yesterday; and they expressed their deep disappointment at the decision of the Commissioners not to visit their country, as this anticipated meeting with the " hyas tyees" had now been prominent and uppermost in their minds for a long,long time.

Your obedient servant, Jno Fougner.

Indian Agent.

NIGHT LETTER

ALL NIGHT LETTER MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS WHICH ARE HEREBY AGREED TO

The Great North Western Telegraph Compan will receive not later than midnight **NIGHT LETTERS,** to be transmitted only for delivery o the morning of the next ensuing business day, at rates still lower than its standard night message rates, as follows: the standard day rate for ten words shall be charged for the transmission of fifty words or less, and one-fifth of such standard day rate for ten words shall be charged for each additional ten words or less. The minimum charge for any **NIGHT LETTER** will be twenty-five cents for fifty words or less.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transm ission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

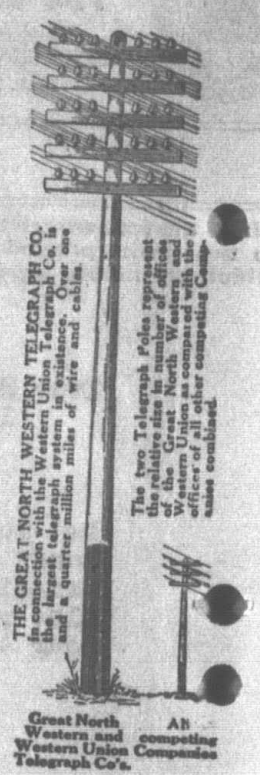

In further consideration of the reduced rate for this special **"NIGHT LETTER"** service, the following special terms are hereby agreed to:

A. **NIGHT LETTERS** may at the option of the Telegraph Company be mailed at destination to the addresses and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such **NIGHT LETTERS** at destination, postage prepaid.

B. **NIGHT LETTERS** shall be written in plain English. Code language is not permitted.

No employee of the Company is authorized to vary the foregoing

Z. A. LASH, President. **GEO. D. PERRY, General Manager.**

THE GREAT NORTH WESTERN TELEGRAPH CO. in connection with the Western Union Telegraph Co. is the largest telegraph system in existence. Over one and a quarter million miles of wire and cables

Bella Coola B.C.

August 6, 1915.

C.H.Gibbons Esq.,

Secretary, Royal Commission on Indian Affairs,

Victoria, B.C.

Sir: Re. Ulkatcho Band and Interests Thereof.

In compliance with the request contained in your letter dated Fort Fraser, June 7th. 1915, I have completed a three weeks' journey to Ulkatcho and vicinity in company with Mr. J.R.Morrison of Bella Coola, a man who has lived several years in the district visited, and is better acquainted with men and things there, than perhaps any other white man. Of the results of the journey, I have the honor to submit the following report:

As to the present Ulkatcho Reserve, containing 4385 acres, I can confirm the statements made before the Commissioners at Fort Fraser by Chief John and other Ulkatcho Indians. The reserve is situated on the interior plateau at an altitude of about 3500 ft.; it is crossed by the 53rd. parallel N.Lat. The surface is generally gravelly, and covered with small jack pine; as large stretches of this have been burnt, it presents a most dreary and desolate appearance to the traveller who passes through it on the trail to Cotsa Lake. With the exception of two small meadows, only the south-eastern corner has any value to the Indians, and this mainly a sentimental one, as it contains their church and burial ground; here is also their village. I have not been able to meet the Ulkatchos collectively; but individually, and through their chief Squinas, they have expressed a desire to give back to the Crown nearly all of their

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

present reserve, that they may obtain land where hay can be cut for their horses and cattle. They seem to be desirous of removing their village to the vicinity of Kahoose's place on the Dean river near Lot 394.

Squinas, chief of the Ulkatcho band has wife and six children, 29 horses, nine cows, two mowing machines, one rake, one wagon, and two sleigs. He has for fourteen years lived on the N.E. quarter of Lot 404, south of Anaham Lake; here he has house, stables, corrals and fences etc. The S.E. quarter of the same lot contains Indian graves.

Kahpoose has wife and two children, I29 horses, with mower, rake, wagon, sleigh, etc. His houses stables etc. are on Lot 253(40 ac.) north of Abuntlet Lake. This lot together with the adjoining lot No. 24(269 acres) are held as Crown Grants by Mr.B.Brynildsen of Bella Coola. The understanding is that he holds the lands in trust for Kahpoose, and will give them up to him when he is compensated for his outlay to the Government.

Upon the request of Kahpoose I staked 320 acres immediately south of Lot 24: 40 chains north and south, and 80 chains east and west, making with Lot 24, one sqare mile.

Kahoose has wife and eight children, about 60 horses, I5 head of cattle, with mower, rake, sleigh etc. He lives on Lot 394, N.E. quarter. Here he has house, stables, corrals etc. and has built miles of fences along the Dean or Salmon river. Location marked on map, X5.

Captain Harry has a wife, but no children; his brother Alexis has wife and three children. They have I5 horse, one cow, one mowing machine, one rake and one sleigh, and live on the N.E. quarter of Lot No. 2I29, south-west of Qualcho Lake, where they have built a house and stable. This location is marked X4.

The other Ulkatcho Indians, who number with these already mentioned about 90, have their homes at Ulkatcho.

The place marked X2 on the map, consists o of three small meadows, all fenced by the Indians, and situated about six miles north-east of the Ulkatcho town. Here I staked 320 acres- 80 chains east and west, and 40 chains north and south.

The location marked X3 is foumd about six miles east of Ulkatcho. This is surveyed and consists of the eastern half of Lot 945.

Having considered with painstaking care, what to me appears a problem difficult to solve happily, at this day, after so much land has been alienated from the Crown, I most respectfully beg to recommend that the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

following parcels of land be reserved for the Ulkatcho Indians:

1. The N.E. quatter of Lot 404, south of Anaham Lake, occupied by chief Squinas; also the S.E. quarter of the same lot, containing Indian graves.

2. 320 acres south of and adjoining Lot 24. 80 chains east nad west, 40 chains north and south, near the place occupied by Indian Kahpoose north of Abuntlet Lake. Land staked by me July I5, I9I5.

3. The north-east (N.E.) quarter and the North-west(N.W.) quarter of Lot 2I29, occupied by Indians, Captain Harry and his brother Alexis. This land is south-west of Qualcho Lake.

4. 320 acres - 80 chains east and west- 40 chains north and south, about six miles north-east of Ulkatcho; this contains three fenced-in meadows and is marked on the map X2. It is not surveyed, and was staked by me July20, I9I5.

5. The eastern half(320 acres) of Lot 945; this is marked X3, and is found on the sleigh-road to Kluskus Lake, about six miles east of Ulkatcho.

6. In addition to these locations, the Ulkatcho Indians, through chief Squinas ask for land on the Dean or Salmon river, near Kahooses place, Lot 394, marked on the map X 5, and X7. They express a desire to remove hither with their village. Lands particularly wanted are Lots: 3I2,392,394, and 395. Most of these lots have been fenced by Indian Kahoose.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Indians would then relinquish the equivilant number of acres of their old reserve, and of this only retain a small area at the south-east corner, to include the present town-site and grave-yard.

In conclusion I beg to say that no promises of any new lands have been made by me to the Indians, I have listened to their statements and requests, personally examined the lands, as far as circumstances allowed, and told them that I would do my best in their behalf; but that the the final decision rested with the Commission.

The Ulkatcho Indians including Kapoose and his brother Kahoose have, in my opinion, made themselves worthy of special consideration by the Commission, on account of the public spirit they have manifested in the way of building and keeping up trails. The only access to this great, wild, lone land, where the Stick Indians live, is by trails, almost entirely built by Indians. It is no exageration to say that hundreds of miles of trails, and many miles of ~~bridges~~ sleigh-roads with bridges owe their existence and maintenance to the activity of these Indians.

Your obedient servant,

Ian Tougher,

Indian Agent.

Bella Coola B.C.

August 27,1915.

Dear Mr.Gibbons,

Referring to your letter of II instant, I must say it was very kind of you to mention my recent work in the interior country in the manner you did, and I thank you for it.

Since I became Indian Agent I have met so much that has a tendency to depress one's spirits, that a word of encouragement looks to me like an oasis to the weary traveller in the desert. In saying this I do not forget that this feeling, in the main, may be due to my own weakness and vanity. However, for the past I have few regrets, and for the future many hopes.

I intend to take the pictures asked for, with me when I come down to Victoria. I was so disappointed with the small photoes that I was very much in doubt whether it was well to send any copies to the Commission; therefor the order for more came as a surprise.

Yours very truly,

Iver Tougner,

Iver Fougner Esq.,

Indian Agent,

Bella Coola, B.C.

Sir:

I have the honour, by direction of the Commission to advise you that the Indian Kapoose of the Ulkatchu Tribe or Band this day visited the Commission and discussed therewith matters in connection with land purchased in his behalf by Mr Bryndlsen of Bella Coola, stating that he (Kapoose) is prepared to pay Mr Bryndlsen the survey charges on such land, also the fees for Crown Grant and interest on expenditures by Mr Bryndlsen in his behalf. Mr Bryndlsen, he stated, has never asked for such a settlement. The Commission has advised Kapoose to see you in this matter, with a view to securing a settlement.

I have the honour to be,

Sir,

Your obedient servant

Secretary.

Sir,—

No.504 Re. Kahpose and Brynildsen

Referring to your letter of 3rd. instant, I have the honor to state that, upon his return from Victoria, I had a conversation with Kahpose about his land arrangement with Mr.Brynildsen. He asked me if the Government would not pay Mr. Brynildsen's claims, to which I replied that I did not think so.

I also communicated with Mr. Brynildsen, and stated that the Commission was desirous of getting this matter settled as soon as possible. I beg to enclose his reply herewith. From this letter it would appear that Mr.Brynildsen, who is a merchant, also expects the Indian to pay his store bill, before the matter can be settled.

Kahpose is reputed to be well off, his riches consisting in furs and horses. He has promised to call again at the office, regarding this case, before he returns to the interior.

Your obedient servant,

John Fougner,

Indian Agent.

August 10/15.

Iver Fougner, Esq.,
Indian Agent,
Bella Coola,B.C.

Dear Sir:

I have your letter in regard to Antoine Capose, Lots 253& 24, R.3, held by me in trust for him.

The understanding is that as soon as Antoine Capose pays me all his accounts due me together with the recording, price of land, surveying, taxes, interests etc. that I shall give him the deeds.

I called on the Commission on Indian Affairs, sitting at Bella Coola last year and furnished to the Commission through their Solicitor Mr.McGregor Young,K.C. a staement setting out that, as soon as Antoine Capose was ready to settle all accounts with me that the Deed to the above referred lots would be granted at once.

On August 9th/15 I had a talk with Capose about this land and other matters, and he told me that he had no money, and I suggested to him that he makes a loan from his brother Kwahouse, who, I learned from Antoine Capose, wants to buy the land.

Again upon receipt of your letter of August 10/15 I had a talk with Mr.Capose, and told him again that I was anxious to have my money, and that as soon as he could pay that he could have the title, and he again told me that he had no money now, but would see what he could do next year, as he has some big deals in horses and furs that he expects to put through.

Indian Affairs
(B.C. Records)

ADDRESS REPLY TO THE SECRETARY, DEPT. OF INDIAN AFFAIRS, OTTAWA.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, 19th July 1915.

Sir,-

I beg to enclose for your information copy of a petition received from certain Indians from the town of Bella Bella, requesting additional lands. We have asked the Indian Agent to report with regard to this letter and he states that the Royal Commission visited Bella Bella in August 1913 but that he did not think this matter had been taken into consideration at that time. He says that Mr, Strom, with a large family, lives on the land under a pre-emption record and that when he visited the place about the 14th June that Mr. Strom said he would compensate the Indians for some lumber that had been in the Indian shack.

He further states that the Bella Bella Indians have 18 reserves with a total area of 3372 acres and they have hardly two acres under cultivation, but in justice to them it must not be forgotten that only small patches of this are suitable for cultivation.

It is desired that your Commission take whatever action appears necessary in dealing with this application.

Your obedient servant,

F. D. W. Scott

Bella Bella B.C.
May 28th /15

Dear Sir,-

We wishcto ask about a piece of land mear our town of Bella Bella, that was an old Indian Village belonging to the Humchit family. When the reserves up here was surveyed our old people asked that this piece ofcland be included as a reserve but the Surveyor told them if they put a house on it and made garden it would be just the same as a reserve. Since that time we have been using that place as gardens and cleaning it up built a house and fences and have been planting out potatoes, berries etc there About 2 years ago a man name Fred Strom came and took that place, pulled down the house and took possession of the land he said that he got if from the Government. Now will you kindly let us know about this land as we were under the impression that it was our land. We have no place to make out gardens and some of us have large familys to keep; sometimes we have let that land lay idle for a year or so in order to let the land get in shape for better crops as we supposed that it was best for the land and perhaps that was one of the years that it was taken.

Kindly let us hear about this and it will oblige us very much we are Indians and wards of the Government and we feel that we should have the use of this land.

PLEASE REFER TO FILE NO. 504C

July 26th, 1915.

The Chairman and Members,
Royal Commission on Indian Affairs,
Victoria, B. C.

Gentlemen:

Re. Letter of the Secretary, Department of Indian Affairs, dated 19th July, 1915, (File No. 385767) and accompanying petition of Indians of Bella Bella for additional lands:

Your Committee begs to report that in the evidence offered by Indians during the meeting of the Commission with the Bella Bella Indians, no reference was made to the parcel of land referred to, which land is now held under Pre-emption Record by one Fred Strom.

Your Committee finds, by the records of the British Columbia Department of Lands, that the Pre-emption Record of Strom is in good standing, and the lands covered thereby are therefore not available for the applicant Indians; and would recommend that the Secretary of the Department of Indian Affairs be advised accordingly.

Bella Bella B.C.

May 28th

Dear Sir,-

I am an Indian and live on the Bella Bella Indian Reserve. I have a large family. This reserve is on Campbell Island. There is a River on Yeo Island near this place that my grandfather, my father and their families has been going to catch the salmon for food. I would ask that you please give me permission to continue getting my fish there for food for my family and wish to put up a small house there on the Beach for smoking the salmon. I ask this permission for fear that some white man may go and take the land and may refuse to let me come and get fish for food.

Please answer

and oblige Chas Windsor

The place is called Salmon River, Yeo Island, Bullock Channel.

INDIAN AGENTS OFFICE

504C

July 7th, 1915.

Iver Fougner, Esq.,
Indian Agent,
Bella Coola, B. C.

Sir:

By direction and referring to our letter of the 21st ultimo re application of Charles Windsor, also to ours to you of the 15th May last, will you kindly advise whether or not Yeo Island, referred to in the Windsor application is the second of the two small islands referred to by the Technical Officer of the Commission in his report and in the concluding paragraph of ours to you of the 15th May.

I have the honour to be,
Sir,
Your obedient servant,

Secretary.

Rivers Inlet B.C.
July 21st 1915

Iver Tougner Esq.
Indian Agent
Bella Coola B.C.

Dear Sir

As per your instructions I have inspected the River on Goo Island, Bullock Channel. I was accompanied by Chas Hindsor, the Indian who is applying for fishing rights of same It is known locally by whites & Indians alike as Quashenstee River. It is situated on the East side of the Island, about 6 miles from the Steamboat Route to the North & about 12 miles from Bella Bella Indian Village.

The land is worthless for agriculture purposes & there is very little timber on it. It has evidently been used for a great many years by the Indians & the rotted remains of what was evidently a house are to be seen there now.

Chas Hindsor, has recently cleared the brush off the land again in readiness to build a smoke house if his application is granted.

The fishing rights of this River are at present held by the Nanaimo Fisheries of Nanaimo, & Chas Hindsor with some other Bella Bella Indians has this year caught about 1000 sockeyes there.

The Indians say this is a good river for Dog Salmon. This is the favourite fish of the Indians, but is not much used for canning purposes.

Goo Island, was, I believe, some years ago staked as timber limits, as I have no Provincial Blue Print I am unable to say if it is still held as such. The distances in connection with this report have been taken from Admiralty Chart No — Cape Caution to Port Simpson.

Yours Faithfully
Charles Tucker
Dom' Constable.

INDIAN AGENT'S OFFICE,

Bella Coola B.C.

IN YOUR REPLY REFER TO
No. 67-D.
ALSO
TO DATE OF THIS LETTER.

July 28, 1915. 191

Sir,—

Referring to your letter of 7 instant, I have the honor to state that the island mentioned in your letter of May 15, and called Yeo island, re Charles Winsor's application, can not possibly be the second of the two small islands referred to by the Technical Officer of the Commission in his report and in the concluding paragraph of your letter to me of May 15.

I requested constable Tucker to investigate Charles Winsor's application, and I beg to enclose his report upon the subject herewith.

Your obedient servant,

Ivor Tougner, Indian Agent.

November 13, 1914.

Sir:

I have the honor to report that on November 10th. last, some of the Bella Bella Indians complained to me that a certain person named Charles Lacey had built a store on their Reserve close to the village.

I went with them to the place, and island at most stages of the tide, known to the Province as Lot 1105, Range 3. Here he had built a shack, and stocked it with trinkets, such as cards, beads, ribbons etc. to sell to Indians.

Since returning to the office, I have looked up the plan of the Reserve, copy of which is enclosed herewith. The apparent location of the lot is indicated by an arrow. There seem to be conclusive evidence that this is a part of the Bella Bella Indian Reserve NO. 1.

Your obedient servant,

Sgd. Iver Fougner,

Indian Agent.

Copy.

Bella Coola B.C.
December 22, 1914.

Sir:

I have the honor to enclose herewith a plan of the Bella Bella Indian Reserve NO. I, together with copy of a self-explanatory letter sent to the Government Agent at Vancouver.

A reply has now arrived in which the Goverment Agent states as follows: "It is evident from the plan and field-notes that this island is not a portion of the Indian Reserve."

As the plan shows, along the northern shores of the reserve are three islands. Indians and others have informed me that at low tide a person can walk dry-shod from these to the Indian village. I have personally examined the place on two occasions, and to judge from the plan of the reserve and general conditions, these islands are meant to be a part of the Reserve. The southern one is the parcel in question.

A copy of this letter with enclosures is sent to the Royal Commission on Indian Affairs, now sitting at Victoria, B.C.

Your obedient servant,

Jno Longmer.

Indian Agent.

Sir:

By direction of the Royal Commission on Indian Affairs for British Columbia, I have the honour to enclose herewith copy of letters and rough sketch plan forwarded to the Commission on the 22nd December last by Mr Iver Fougner, Agent of the Department of Indian Affairs for the Bella Coola District, with respect to a dispute as to certain land contiguous to the main Bella Bella I.R. No. 1.

When proceeding from Bella Coola to the Kwawkewlth Agency for the purpose of making necessary surveys, the Commission would be glad if you could make it possible to do so, if you would visit the locus and report to the Commission as to whether or not the parcel of land claimed by the Indians according to Agent Fougner's letter is or is not a portion of the Indian Reserve. In this you will of course be guided by the official Plan of Survey and Minutes of Decision in respect thereto.

I have the honour to be,
Sir,
Your obedient servant

Secretary.

May 14, 1915.

Sir:-

I have the honor to inform you that, in obedience to the instructions contained in your letter of the 7th ultimo, I visited the three islands, contiguous to the Saltspring village, which were in dispute, and found by the sketches and appended plans that they do not form part of the reserve.

The southern island, known as Lot 1105 on the Provincial map, is 202 acres in area, by Mr. Charles Lacey, dated 12th December, 1913; it contains 2,87 acres. Mr. Lacey has built a temporary shack on the place but I am informed that he has never lived there and only occasionally visits it for the purpose of cutting fish for the Indians. The island is rocky with some trees upon it; I believe there is no water, and except for the position for a trading post it is of no value. Its former name Cherry and I do not think that any burials have ever taken place there for the Indians have only recently moved to their present village and their burial grounds are on two islands that have never been surveyed.

I am informed that the majority of the Indians are in favor of Mr. Lacey's occupation of the place; on the other hand it is pointed out that he is not residing on it, and that it is impossible for him to make a living there by legitimate trade.

The middle island contains a quarter of an acre and an application to purchase was made by Mr. Philip T. Taylor, on the 20th May, 1914, No. 37734. It has been surveyed as Lot 1104. It is also rocky and timbered.

The northern island contains about 1-1/4 acres and I would suggest that it be reserved for the Indians as they have

CANADA

their boats and launches between it and the Reserve. It also is rocky and wooded.

The Indian burial ground at present in use is on Pole Island about two miles northeast of Bella Bella. It contains about two acres and is not so rocky as most of the islands in the locality.

Another ancient burial ground is about one mile east of the town in front of the East Bella Bella cannery. It is merely a reef of rocks but little above H.W.M. and is about one acre in extent.

Both of these islands I would suggest might be given the Indians.

Enclosed I send a sketch showing the islands in question.

I have the honor to be

Iver Fougner, Esq.,
Indian Agent,
Bella Coola, B. C.

Sir:

By direction of the Royal Commission on Indian Affairs for the Province of British Columbia, and again referring to your letter of the 22nd December, 1914, (Your File No. 565/C) re. land occupied by one Charles Lacey contiguous to Bella Bella I. R. No. 1: I have the honour to advise you that after special investigation by the Technical Officer of the Commission, Mr. Ashdown H. Green, B. C. L. S., and reference to the Official Plans of Survey and Minutes of Decision, the Commission can come to no other conclusion than that the southern Island, known as Lot 1105 on the Provincial map and containing 1.87 acres, is not a part of Bella Bella I. R. No. 1 and is occupied with legal right by Lacey, under A. P. No. 37283, dated December 12th, 1913.

I am further to inform you that, acting upon the recommendation of its Technical Officer in such behalf, the Commission is specifying for reservation by the Government of British Columbia, pending final action upon a proposal that this be adddd to Bella Bella I. R. No. 1, Pole Island, about two miles northeast of Bella Bella and containing an area of approximately two acres and one small Island about one mile east of the town, in front of the east Bella Bella Cannery and containing approximately one acre, both of said islands being ancient burial grounds.

I have the honour to be,
Sir,
Your obedient servant,

R. A. Renwick, Esq.,
Deputy Minister of Lands,
Victoria, B. C.

Sir:

By direction of the Royal Commission on Indian Affairs for the Province of British Columbia, I have the honour to advise you that the Commission has, under the provisions of Section 8 of the Agreement referred to in the Commission, specified the following as lands which should be reserved for the Indians of the Bella Bella Tribe, pending final action upon an application in such behalf, viz:

Pole Island, situate about two miles northeast of Bella Bella I. R. No. 1 and containing an area of approximately two acres; and

A small unnamed Island about one mile east of Bella Bella, in front of the east Bella Bella Cannery, containing an area of approximately one acre.

Both of these small Islands are ancient burial grounds the latter being merely a reef of rocks but little above the high water mark.

Will you kindly note the specifications herein contained and advise the Commission of such action by your Department at your earliest possible convenience.

I have the honour to be,
Sir,

COPY.

Bella Coola B.C.
June 3rd 1913.

Dear Sir:-

Frequent trips to the Interior of northern British Columbia has given me a thorough knowledge of the country and the requirements of the Ulgatcho Indians.

The Ulgatcho reserve is undoubtedly the most worthless tract of land in ~~the~~ northern B.C., and with the exception of three small meadows, the largest being about forty acres in extent, it is absolutely worthless from any point of view.

The Ulgatcho Indians up to the present have been able to earn a livelyhood trapping, and as there are no white settlers in the country, they have had ample pasture and land for their stock, having the run of all the meadows between Ulgatcho and Anaham Lake, a distance of forty miles.

With the advent of a railroad, trapping will be a thing of the past and every available foot of land will be settled. What will become of the Ulgatcho Indians?

About four miles in an easterly direction from Anaham Lake, Vancouver Land District, District of Coast , Range is a tract of land about three thousand acres meadow, eminently suited to stock raising; and as the Ulgatcho Indian is a stockman and not an agriculturist, this, in my opinion, is the ideal spot for the Ulgatcho Reserve.

The country is watered by numbroue streams and game is plentiful.

In my opinion the Indian Department would do

Indian Affairs
(B.C. Records)

well to look into this matter, before the country is purchased by speculators.

I am

Yours respectfully,

(Signed) Percy Gadsden.

Indian Agents Office,

Bella Coola B.C.

June 3rd, 191

No. 26/C.

Sir,

I have the hbnour to enclose copy of a letter received from Percy Gadsden of Bella Coola; it is self-explanatory.

Indians and others have often told me that the Ulkatcho Indian Reserve, containing 4340 acres is of but little value to the Indians, and I have reported upon it to the Department. It was once a good trapping country and was largely chosen for sentimental reasons; here was their ancient village, their forefathers buried etc. On my visit to the village on this reserve in October, 1911, snow fell and I could not make a thorough investigation.

It is reasonable to expect that the Indians would give up at least the greater part of this reserve, in order to obtain meadow land in the locality suggested in the letter enclosed. The writer of this letter is personally known to me, and has a reputation for reliability.

Your obedient servant,

Sgd. Iver Fougner,

Indian Agent,

ROYAL COMMISSION ON INDIAN AFFAIRS.

Memorandum as to standing and title of additional lands requested by the following tribes:

BELLA COOLA AGENCY:

1. Kemsquit Tribe:

(a) Scow-quilts (See evidence p. 53). This is mentioned in Mr. Greene's schedule submitted to the Province in August, 1912.

Eighty acres are clear at this point and of the surrounding lands a piece to the north and a small piece to the south are vacant. The impression of the Department of Indian Affairs and the Department of Lands that this is the same ground as Elko No. 6 of Bella Bella Tribe, is not correct.

2. Kitimaat:

(a) It seems reasonably clear that four of the applications by this tribe, set out in Mr. Greene's schedule and submitted to the Commission, cover the four Reserves of the same acreage respectively defined January 17th, 1910, by Commissioner Vowell, but not yet approved by the Provincial Government, namely: Tsiugueise (No. 5), Bish (No. 6), Kitisoo (No. 7) and Kildala Arm (No. 8) in the amended schedule. These lands are vacant and are marked as Indian Reserves on the Departmental map of which a blue print was produced at the meeting.

(b) Wahquash: It is stated in the evidence, page 116, that this is marked in blue on the blue print, and that the Indians want the land to the south at the place where the

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

totem pole is. This blue print is not available today and the land could accordingly not be located. This area located on the Kitimat River on the A.G. agency plans by the Surveyor.

(c) Henderson's Ranch: This is Lot 6022, which is marked on the records as vacant Crown land, containing 77.6 acres. (See evidence pages 114-115). The officials know the circumstances of Henderson's occupation and death and have recently reserved the land for Government purposes. It is, therefore, open for allotment.

(d) Bishop's Cove: (Evidence pages 114, 115 and 116) one-half acre wanted.

This land is surveyed as Lot 1913, R. 4, and appears to be covered by renewable timber license No. 6731 P. only.

(e) Note: Kildala Arm new Reserve No. 8 (supra) as marked by Mr. Robinson on the Bella Coola Agency map in pencil, appears to cover both sides of the river. The Reserve itself as defined, may not cover the river, although very close to it. The land on both sides of the river at the mouth is vacant Crown land.

3. Kitlope:

(a) Crab River. There is a special plan at the Department, No. 28, T. 2, Coast Range 4, of Lot 50, containing 627 acres, which covers both sides of Crab River and both beaches, and apparently all the available ground for village site. This lot is covered by a twenty-one year timber lease, dated January, 1907, to the Bella Coola Development Company. Subject to this the required land is available.

4. Kitasoo: (China Hat)

It is noted in the evidence, at page 82 that, as the

Indian Affairs
(B.C. Records)
RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Indians present were unable to locate the several lands contained in Mr. Greene's schedule (being a number of fishing stations on Princess Royal Island) it was arranged that Mr. Tyson and Mr. Fougner would take the plans and make the proper enquiries from the Indians, with a view to locating these several places for the further information of the Commission. The plans were accordingly handed to Mr. Tyson for this purpose.

5. Ulkatcho:

Some of the lands applied for were identified by Mr. Morrison (evidence page 41, et sec.) and located on the blue print put in as an Exhibit. The standing of the lots in question on the books of the Department has been ascertained to be as follows:

Lot 394 reserved from alienation.

Lot 401 " " "

Lot 547 reserved for pre-emption only.

Lot 253, Crown granted to A. Hamer March 27, 1911.

Note: (Lots 355 and 356 adjoining this lot are reserved for pre-emption and the land adjoining it on the west is Crown land.)

Lot 25 Crown granted to John Clayton July 2,1907. Of the adjoining lands to this lot, Lots 348, 354 and 357 are all reserved for pre-emption and are now vacant Crown lands.

Lot 350 Crown Granted to A. Davies, June 26, 1911.

Note: (This adjoins Lot 25 (supra)

Lot 24, Crown granted to B. Brynildson, February 15th, 1912.

Indian Affairs

Note: There is vacant Crown land to the south of this lot as well as Lots 355 and 356 (supra).

QUEEN CHARLOTTE AGENCY:

1. Masset Tribe:

Note: The greater part of the information contained in the Exhibits was available to the Department of Lands, when a letter, hereto attadhed, from the Deputy Minister to McGregor Young, dated August 14th, 1913 in regard to the applications in this Agency, was written.

The statements as to standing of the lands in question appear to be correct.

2. Skidegate Tribe:

Note: The same remark applies to this tribe except that the land at Cumshewa Inlet, mentioned in Mr. Deasy's evidence, on which there is an old Indian village and a Methodist Church, appears to be in the following position: These lands are part of a small lot 175, containing 27 acres. The surveyor hasbeen requested on August 4th last to eliminate the Indian settlement from the Lot, which is covered by Pre-emption Record No. 1618, to Frank Dix, The Indian settlement will accordingly be open.

Victoria, B. C.

For the Province of B. C.

Sept. 27th, 1913 191

The Secretary,

The Royal Commission on Indian Affairs,

Victoria, B. C.

Dear Sir:-

At the direction of the Chairman, I have attended at the offices of the Provincial Department of Lands, with the evidence and exhibits of the Bella Coola Agency and the exhibits of the Queen Charlotte Agency and, by the courtesy of the officials there, have obtained the information in regard to the standing and title of lands for which application has been made by the specified tribes in these Agencies, contained in the Memorandum hereto attached.

Yours very truly,

M. Bruce Ower

A. W. Tyson Esq.,

Inspector of Indian Agencies,

VANCOUVER. B. C.

Dear Sir,

You and Mr.Fougner were instructed by the Commission to make proper enquiries from the Indians with a view to locating several places applied for by the Kitasoo Indians to be added to their reserves.

Have these enquiries been made, if so, please advise us as to the result,immediately, as we are going over our work in the Bella Coola Agency,with a view of dealing with the several reserves.

We would like an answer forthwith, as we leave on Wednesday for the Okanagan.

Yours truly,

CHAIRMAN.

A. M. Tyson,Esq.,
Inspector of Indian Agencies,
VANCOUVER. B.C.

Dear Sir,

Yours of the 29th instant respecting the getting of information with respect to locations asked for by the Indians at Kitasoo to be added to their reserves,is duly received.

I am instructed to state that the Commissioners desire you to attend to this matter. If you deem it necessary you are at liberty to take Mr.Fougner with you. While the Commissioners are inclined to think that it is not necessary,they leave this matter to your discretion. They assume that it would be your intention to take a steamer usually plying on the route to Bella Bella,and from there take a launch. Possibly you may secure a steamer touching at China Hat, if so,that would be preferable as you might secure your launch there.

The Commissioners leave here tomorrow for the Okanagan and Kamloops districts,and it will be near the first of November before they return. It will be sufficient if the desired information reaches them here,ready for them on their return.

You will mark the locations and the names of the places

Septr.30th.1913.

The Honourable W. R. Ross.

Minister of Lands.

Victoria. B.C.

Dear Sir,

The Royal Commission on Indian Reserves had occasion to visit the reserves set apart for the Kitlope Indians in the Bella Coola Agency.

These Indians have only three reserves. No 1 at Wethellas 215 acres. No 2. Kitlope 112 acres, and No. 3 at Kemano, 25½ acres.

Reserve No.1 is situated some little distance up the Kitlope River. Reserve No.2 is near the mouth of that river. These two reserves are only used by the Indians for fishing purposes and for the purpose of drying their salmon, and for hunting and trapping. Kemano is the place on which their village is situated.

It appeared to the Commissioners that the situation is not a very desirable one, because it was established before them, that the Gardner Canal on which it is situated freezes over for a considerable distance below the village in the winter time and therefore makes it difficult for the Indians to get out of the village.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Neither reserves No.1 or 2 appear to be desirable for the same reason. In addition to which No.1 is situated on a very swift running river which in flood would make it very undesirable as a place of residence.

These Indians are desirous of obtaining a location for a residence at the mout of Crab river, and the Commissioner think that their request is not unreasonable, and if possible, it ought to be complied with. The difficulty is that Crab river appears to be covered by a Timber Limit. It occurred to the Commissioners, however, that your Government might see its way clear to make such an arrangement as to enable the small piece of flat land at the mouth of Crab river to be converted into an additional Reserve.

The Commissioners hope that your Government will be able to see its way clear to accomplish this purpose. We therefore present a request that you do this if it is at all possible.

This land according to a plan in your Department is No. 28 T 2 Coast Range 4 of Lot 50 containing 627 acres.

The Commission are of opinion that if 200 acres could be set aside at the mouth of Crab river, extending on either side of the river, that would serve the purpose.

Indian Affairs
(B.C. Records)

RG 10, Vol. 11019
File 504C

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

On one side of the river they already have a building for drying fish, and on the other side of the river, there is an Indian graveyard.

Yours faithfully,

Chairman.

Victoria, B.C.

Sir,

Referring to the lands which the Commission has recommended for reservation for Indian purposes, I beg to inform you that the following advice has been received from the Provincial Department of Lands as to the standing of the lands in question, from which it would seem that in several cases the areas specified for reservation are already covered by prior rights in the shape of applications to purchase, coal licences, and otherwise:--

"The parcels of land numbered 1, 2, 3, 4, 5, 6, 8, 9, 11, 12 and 13, on Aristazable, Princess Royal, Swindle and Price's Islands, are apparently vacant and have been noted on the plans of this Department.

Tsingueise, consisting of 92 acres: the land is apparently vacant and has been noted on the plans of this Department.

Bish, consisting of 180 acres: the land is apparently vacant and has been noted on the plans of this Department.

Kitiss, consisting of 10 acres: it would appear that this parcel of land lies within the boundaries of Lot No.310, Range 4, Coast District, which Lot was Crown Granted to W.F.Vaughan, October 12th, 1904.

The eastern portion of Lot No. 6061, Range 5, Coast District, consisting of 55 acres, is apparently vacant and the same has been noted on the Records of this Department.

Kildala Arm, of Undefined acreage; a tract of land at the mouth of the Kildala River; and 80 acres of land marked "Indian Reserve" and shown as extending on either side of the Skow-quiltz River at the head of Skow-quiltz Bay: from the information given the Lands Department is unable to locate these three parcels, and suggest that the Commission note on the plan enclosed, the respective locations, and return same to the Department.

10 acres of land on Cub Island: apparently covered by Lot #988, G.C.I.D., same covered by an Application to purchase in the name of James Watt, but not yet Crown Granted.

100 acres of land at Susk: apparently covered by expired Coal Licences Nos. 7968 and 7992.

29 acres of land at Sauchten: apparently covered by Lot #174, G.C.I.D., which Lot was reserved from any alienation under date of July 4th, 1912.

200 acres of land on North Island, in four locations, viz: One location on Egeria Bay, apparently vacant; one location at Cohoe Point, apparently covered by Coal Licence No. 8239, in good standing. The other two locations on the North and West Coast of the Island are apparently vacant.

7¾ acres of land lying between Nadu River and Massett Inlet at their junction: apparently covered by Lot #752, which is covered by a Coal Lease in good standing.

100 acres of land at Tiahn: apparently covered by Coal Licence No. 8396, which is in good standing.

I have the honour to be,

Sir,

Your obedient servant,

H. Ellis

Provincial Secretary.

Kildala Arm, of Undefined acreage; a tract of land at the mouth of the Kildala River; and 80 acres of land marked "Indian Reserve" and shown as extending on either side of the Skow-quiltz River at the head of Skow-quiltz Bay: from the information given the Lands Department is unable to locate these three parcels, and suggest that the Commission note on the plan enclosed, the respective locations, and return same to the Department.

10 acres of land on Cub Island: apparently covered by Lot #988, G.C.I.D., same covered by an Application to purchase in the name of James Watt, but not yet Crown Granted.

100 acres of land at Suak: apparently covered by expired Coal Licences Nos. 7968 and 7992.

29 acres of land at Sauchten: apparently covered by Lot #174, G.C.I.D., which Lot was reserved from any alienation under date of July 4th, 1912.

200 acres of land on North Island, in four locations, viz: One location on Egeria Bay, apparently vacant; one location at Cohoe Point, apparently covered by Coal Licence No. 8239, in good standing. The other two locations on the North and West Coast of the Island are apparently vacant.

7½ acres of land lying between Nadu River and Massett Inlet at their junction: apparently covered by Lot #752, which is covered by a Coal Lease in good standing.

100 acres of land at Tiahn: apparently covered by Coal Licence No. 8396, which is in good standing.

I have the honour to be,

Sir,

Your obedient servant,

H. Eyons

Provincial Secretary.

Copy

Victoria, B. C. December 18th. 1913

The Secretary.,

Royal Commission on Indian Affairs,

P.O.Box 755, Victoria, B.C.

Sir;-

Referring to the lands which the Commission has recommended for reservation for Indian purposes, I beg to inform you that the following advice has been received from the Provincial Department of Lands as to the standing of the lands in question, from which it would seem that in several cases the areas specified for reservation are already covered by prior rights in the shape of applications to purchase, coal licences,and otherwise;-

"The parcels of land numbered 1, 2, 3, 4, 5, 6, 8, 9, 11, 12 and 13,on Aristazable, Princess Royal, Swindle and Price's Islands, are apparently vacant and have been noted on the plans of this Department.

Tsibgueise, consisting of 92 acres; the land is apparently vacant and has been noted on the plans of this Department.

Bish, consisting of 180 acres; the land is apparently vacant and has been noted on the plans of this Department.

Kitise, consisting of 10 acres; it would appear that this parcel of land lies within the boundaries of Lot No.310,Range 4, Coast District, which Lot was Crown Granted to W.F.Vaughan, October 12th. 1904.

The eastern portion of Lot No.6061, Range 5, Coast District, consisting of 55 acres, is apparently vacant and the same has been noted on the records of this Department.

Kildala Arm, of Undefined acreage; a tract of land at the mouth of the Kildala River; and 80 acres of land marked "Indian "Reserve" and shown as extending on either side of the Skowquiltz River at the head of Skow-quiltz Bay; from the information given the Lands Department is unable to locate these three parcels, and siggest that the Commission note on the plan enclosed, the respective locations,and return same to the Department.

10 acres of land on Cub Island; apparently covered by Lot No.988, Q.C.I.D., same covered by an application to purchase in the name of James Watt, but not yet Crown Granted.

100 acres of Land at Susk; apparently covered by expired Coal Licences Nos. 7968 and 7992.

29 acres of land at Sauchten; apparently covered by Lot No.174, Q.C.I.D., which Lot was reserved from any alienation under date of July 4th. 1912.

200 acres of land on North Island, in four locations, viz; One

location on Egeria Bay, apparently vacant; one location at Cohoe Point, apparently covered by Coal Licence No. 8239, in good standing. The other two locations on the North and West Coast of the Island are apparently vacant.

7-3/4 acres of land lying between Nadu River and Massett Inlet at their junction; apparently covered by Lot No.752, which is covered by a Coal Lease in good standing.

100 acres of land at Tiahn; apparently covered by Coal Licence No. 8396, which is in good standing.

For the Province of B. C.

Bella Coola B.C.

Jan. 12, 1914.

Sir:

With reference to your communication of 6th. inst. enclosing map and copy of a letter from the Provincial Secretary, I have the honor to state that, in my opinion, the marked paragraph of the Provincial Secretary's letter deals with two parcels of land and not with three. No misunderstanding would have occurred if following wording had been used: A tract of land of undefined acreage, situated at the mouth of the Kildala River on the Kildala Arm.

I can not locate this piece of land with accuracy at present; but it is my intention to visit Kitimat in a week or two; and I shall then, no doubt, be able to comply with your request.

Skow-quilts, or as I think it should be spelled Show-iltz can not be located on the blueprint enclosed, as it does not cover the territory; hence I beg to enclose a sketch showing its location on Dean's Channel between Bella Coola and Kimsquit.

Skow-quilts.

Your obedient servant,

Iver Tougner, Indian Agent.

Bella Coola B.C.

Feb. 10, 1914.

Royal Commission on Indian Affairs
FEB 16 1914
For the Province of B. C.

Sir:

With reference to your letter of 6th. ultimo, I have the honor to write further that I have been to Kitimat and inquired as to the proposed reserves.

It appears that I was mistaken in the opinion expressed in my letter of Jan. 12th. that, Kildala Arm; and a tract of land at the mouth of the Kildala River, referred to the same piece of land.

Kildala Arm is, no doubt, marked on the blueprint enclosed, as R.I. No. 8, and is situated at the entrance o of Kildala Arm, the Indian name id Kwost.

Kildala River is used as oolachan fishing ground, a narrow strip of land on both sides of the Kildala River, marked by me on the blueprint. Unless the Commission has decided as to the acreage, I would suggest 80 acres. Owing to extremely stormy weather I could not make a personal examination of the ground.

I beg to return the blueprint with copy of the letter to the Secretary of the Commission.

Your obedient servant,

Indian Agent.

May 15th, 1915

The Honourable

The Minister of Lands,

Victoria, B. C.

Sir:

By direction of the Royal Commission on Indian Affairs for the Province of British Columbia, and again referring to ours to you of the 30th September, 1913, and your reply thereto of the 3rd October, 1913 (Your File 61694) re application in behalf of the Indians of the Kitlope Tribe, of the Bella Coola Agency, for land for a village site at the mouth of Crab River, lying within the boundaries of Lot No. 50, Range 4, Coast District, I have the honour to advise you that, after careful reconsideration of all material in respect to this particular application, the Commission is strengthened in its opinion that, if it is in any way possible so to do, land should be obtained for these Indians in the locality in question, for the purposes set forth in connection with this application.

In view of the present exceedingly small per capita acreage of the Kitlope Tribe (4.64 ac.) and of other circumstances, the case would appear to be so exceptional and unusual that the Government of British Columbia might feel

Indian Affairs

disposed to enter into negotiations with the lessees of the land applied for (reported to be the Bella Coola Development Company). with a view to their relinquishing a reasonably sufficient area for the purposes of the Indian village.

The Commission would be glad to have your views in respect hereto.

I have the honour to be.

Sir.

Status of lands applied for in behalf of the Ulkatcho Band

Capoose made at Board Room Tuesday, Aug. 3rd. 1915.

(1) Commencing at the S.W. corner of Lot 398, Range 3, thence West to Abuntlet lake, thence following the river and lake and the southern boundary of Lot 24 (which is Crown Granted) to the place of commencement, and containing 250 acres more or less. According to records of Department this is VACANT.

(2) Land marked Lot 351, and containing 320 acres more or less, according to records of Department is Vacant, and contains 320 acres more or less.

(3) South fractional half of Lot 356. Records of Department shew that this land is apparently vacant.

(4) South fractional south half of Lot 355 - From records of Department this is all vacant, and contains 240 acres more or less.

(5) Lot 353 - From Department's records this is apparently vacant.

(6) Cahoose occupies Lot 394, and his house is on the N.E. portion of Lot 394. The S.W. 1/4 of this Section is marked 61694-13 and contains 640 acres more or less. According to records of the Department this appears to be vacant.

(7) Status of Lot 392 - Application to purchase in the name of J.W. Gunn, Sept. 10th. 1910 in good standing.

(8) South half of Lot 312 containing 160 acres more or less - application to purchase in the name of Geo. Munro, March 7th. 1911 in good standing.

(9) 160 acres east of Lot 312 and north of LOt 311 - From records of Department this appears to be vacant.

(10) Lot 311 - application to purchase in the name of C.H. Blanchard, September 10th. 1910 in good standing.

(11) N.E. 1/4 of the Section unnumbered lying north of Lot 392 and containing 160 acres more or less. From records in the Dep't this piece of land appears to be vacant.

P.S. Application was also made in addition to the above, for three Sections, but Mr Commissioner Shaw found that the land desired appeared to be Crown Granted - hence disallowed.

J. D. Arthur

Ivor Fougner, Esq.,
Indian Agent,
Bella Coola, B. C.

Sir:

On the occasion of your examination here on the 10th ultimo you were instructed to transmit to the Commission at the earliest convenient date the formal applications of Indians Bolton and Williams of Kitimat, for pre-emptions. As the Commission is desirous of closing up lands matters in connection with the Bella Coola Agency as soon as possible please give immediate attention to the forwarding of these applications.

I have the honour to be,
Sir,
Your obedient servant,

Secretary.

Sir:

With further reference to your telegram of 15 ultimo, I have the honor to state that I have now received a letter from Hartley Bay, in which I am informed that the band has had a general meeting, at which it was decided that they would not ask the Commission for any additional land.

The letter states further that the Indians are not satisfied with the terms of the Dominion Orders-in- Council of June 20,1914, and June 19, 1915.

Sec. Royal Commission on Indian Affairs,

Victoria, B.C.

Sir:

Referring to your last telegram of 17 instant, I have the honor to say that I was not aware that the Hartley Bay Indians declined to make applications for additional lands, until I received a letter from C.A.G.Robinson, dated Hartley Bay, Jan. 18/ 16. and from which I beg to quote as follows:

" I were in receipt of a letter from you which you've written to me while you were in Vancouver last month in which you advised us to write to the Royal Commission Victoria B.C. for more lands etc. etc. In reply I beg to say that in our General Meeting last, we, as a whole agreed to have nothing to do with the Royal Commission owing to the fact that we've found they did not do or say what is fair with the Indians as they ought to, at the last interview of our lawyer with them at Victoria.it was reported they stated that the Indians are entirely content with the terms of the Dominion Orders in Council of the 20th June 1914 and of the 19th June 1915, this was not true at all, these Orders in Council were not satisfactory with the Indians, so you see they could not be trusted to do something with the Indians, however we do thank you for writing to us in regard to the matter."

Yours faithfully,

(Sgd) C.A.G.Robinson

Sir: Re. Additional Land Requirements of Indians of Kitkahta or Hartley Bay Tribe :

I have the honour, by direction, to request that you locate and report to the Commission, with adequate descriptions in each case and marking same distinctively upon map or blueprint to accompany your report, four tracts or parcels of land each of five (5) acres, more or less, for fishing station purposes, the same being vacant and available Crown land, i. e., not conflicting with any existing Pre-emption Record, Purchase or Application to Purchase, Timber or Pulp Lease.

You are also requested to select and report six hundred and forty (640) acres, more or less, either in one block or in two half-sections, for timber supply purposes, the land being, if possible, chosen so that the same may be of agricultural utility in the event of and upon the timber being removed therefrom. In this case, also kindly furnish adequate description, marking location upon blueprint, and taking care that the same does not conflict with any land at present alienated from the Crown by Pre-emption, Sale or Timber concession.

I have the honour to be,

Kitkatla. B.C.

To The Royal Commissioners on Indian Affairs
Belmont House. Rooms.
Victoria, B.C.

Dear Sirs:-

I am writing you, to ask your assistance in regards Reserve 15 Tsimpsian. Kitkatla. B.C. Bella Coola Agency. containing 39.5 ac. On behalf of the said tribe I would ask for an increse of this reserve so as to include both shores of this river. (Plan accompaning this shows present reserve and dotted line the additional reserve asked for.) In asking this request, we are doing so for our own protection. we are using these places for fishing and hunting purposes. and if we leave one shore vacant we ~~shall~~ might lose it to other people and thus would lose our only source of livlihood.

I did not upon your visit here, know you had power to deal with and have only lately found out. and I am asking your aid in this matter. In doing this, I will say you will have done good work towards the hardships with which the people of Kitkatla have to put up with.

Hoping that you will assist us.

I remain
On behalf of this village and people
Yours very sincerely
Joshua Sebassa.
Chief.

Dear Mr. Green:

I have the honour to transmit herewith a rough sketch transmitted to the Commission by Chief Joshua Sebass of the Kitkatla Tribe, Bella Coola Agency. This sketch refers to a new application by the Kitkatla Tribe for an enlargement, or additional Lands for fishing station purposes in the vicinity of Tsimlairon Indian Reserve No. 15. This rough sketch shows the present reserve, and in dotted lines the additions asked for. Will you kindly ascertain if the lands applied for are vacant and available for disposition by this Commission and also prepare sketch plan in duplicate of the desired additions, in the event of the same being unalienated.

I have the honour to be,
Sir,
Your obedient servant,

The Secretary
Royal Commission
on Indian Affairs
Victoria B.C.

Hartley Bay. B.C.
Thursday March 2nd /16

Dear Sir

When the "Royal Commission" visited Hartley Bay in Sept 1913, the Hartley Bay tribe of Indians refused point blank to make any application whatever for additional reserves, for they had confused the work of the "Commission" with that of the Indian Land Question.

At last they have been brought to see matters in a different light, and under instructions from Mr Haugan Indian Agent. Bella Coola I have called the tribe together and asked them to state their requirements.

The enclosed map shows location of the area asked for.

The Hartley Bay Tribe of Kit-kah-ta Indians respectfully ask your kind consideration of this their application for the following lands.

1st That the whole of Gill Island be set aside as a timber reserve for their use.
to provide them their necessary firewood and also Pile for wharf repair.

R. A. Renwick Esq.,
Deputy Minister of Lands,
Victoria, B.C.

Sir:

I have the honour, by direction, in connection with Bella Coola Agency Additional Lands Application No. 43, which is an application of the Kitimaat Tribe for a fishing station at Tsoohlm or Che-quash, on Eagle Bay, three (3) miles S. of Kildala Arm, on S.E. L. No. 5587F, to advise you that, although the land applied for is covered by T.L., the Commission has decided, having regard for the necessary and reasonable requirements of the applic t Indians and in view of the fact that their per capita acreage is exceedingly low, viz. 4.5 acres, to allow five (5) acres on this application, subject to survey and to the rights of the timber licensee. This is a special case in which it seems possible ti meet the necessities of the applicant Indians only by such a course as is proposed in the Minute of Resolution. The Commission would be glad if you would give special consideration hereto and endeavour to meet the expressed wish of the Commission in this allowance.

I have the honour to be,
Sir,

Maal Reserve
No 3

NUMBER 2 MARKED ON BLUE PRINT

This valley through which the River Yalla meanders is the only agricultural land in or around the whole neighborhood.

There is already a small piece reserved of .7½. acres. This might be increased -- or the tide flats at the mouth of the river might be set apart, say 160 acres more or less - so as to give some grass land, should theu ever keep cattle.

The river itself every four years has a large run of Cohoe Salmon - which means Fall food for the Natives.

I have travelled over this valley ob foot, and wondered why the Whites passed it by. -- It seems that every four or five years that the snow remains late in May, leaving the ground too cold to crop that year.--- But as this might happen once in five years, it remains the only likely place should the Royal Commission of Indian Affairs desire to lay off agricultural land for these Natives.

Large Gander Island-- situated in Queen Charlotte Sound -- is brought to your notice as a suitable camp, for the benefit of Hartley Bay, China-Hat and Kitamaat Indians. + Kitlaps

Should their usual supplies fail, they would be compelled to use seals as food -- also halibut banks are close by -- the ground would do in part for gardens--- fresh water--- safe anchorage for thier boats. Each tribe should have camping rights.

This is onlt suggested by me as the Indians seem to let the future look out for itself.

R. A. Renwick Esq.,
Deputy Minister of Lands,
Victoria, B. C.

Sir:

Referring to the correspondence, interviews and conference had by Mr Commissioner McKenna with you this afternoon, with regard to certain applications for additional Reserve lands filed by or in behalf of Indians of the Bella Coola Agency, I have the honour, by direction, to submit for favourable consideration in view of the special representations which have been made thereanent, the following:

(1) Re. Item No. 10, being an application in behalf of Indians of the Kitasoo or China Hat Tribe, for five (5) acres at StJoe or StJose, on Lot No. 62, Princess Royal Island, at the mouth of Bloomfield Lake, that your Department acquiesce in the constitution of one (1) acre in the location described as a Reserve upon the expiry of Pulp Lease covering said Lot No. 62 or at such time prior thereto as the consent thereto of the lessees may be obtained;

(2) Re. Item No. 45, being an application in behalf of Indians of the Kitimaat Tribe, for land on Eagle Bay, three (3) miles South of Kildala Arm and contained within S.T.L. No. 5587P, that your Department acquiesce in the constitution of five (5) acres, more or less, in the location described as a Reserve upon the expiry of Timber Licence covering the said land or at such time prior thereto as the consent thereto of the licencees may be obtained;

(3) Re. Item No. 47, being an application in behalf of Indians of the Kitlope Tribe, for two hundred (200) acres, more or less, at the mouth of Crab River, Gardiner Inlet, extending on each side of Crab River, in Lot

Refer to File No. 61694

Victoria 29th April 1916

Sir:-

I have the honour to acknowledge the receipt of your letter under date of April 26th. File 504 C. in which you make the request that the Government shall consent to the establishment of three small reserves for the benefit of the Indians in the Bella Coola Agency within the limits of certain pulp leases upon the termination of said leases or at an earlier date in the event of the Indian Commission securing the consent of the lessee to the creation of the reserves in question.

In reply I beg to advise that the Hon. the Minister of Lands is prepared to comply with the request of the Commission in this matter, and to establish the reserve desired upon the expiration of the existing pulp leases or so soon as the consent of the lessee may be obtained to the creation of the said reserves.

I have the honour to be,
Sir,
Your obedient servant,

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA.

DEPARTMENT OF LANDS,

VICTORIA, May, 11th, 1916.

Sir:-

I beg to return herewith list of additional lands applied for in the Bella Coola Indian Agency. You will note from the draughtsman's report that Items Nos. 1, 3, 4, 5, 6, 8, and 9 are apparently clear. Such being the case same will be available for the purpose required, if upon survey no valid reasons arise to the contrary.

Item No. 10 covering Lot # 62, Range 5, Coast District, is held under pulp lease issued for a period of 30 years from the 4th of September, 1914.

Item No. 11, apparently clear and available subject to survey.

Item No. 15, covered by Timber Licence #36881, now known as #107542, on which fees were paid up to the 12th of November, 1914. Not allowed (?)

Item No. 23, covers Lot # 302, Range 5, Coast District, which in turn is covered by Timber Licence #43918, now 106932, on which the fees were paid up to the 6th of May, 1915. Do.

Item No. 27, apparently clear and available, if on survey no valid reasons arise to the contrary.

G. H. Gibbens, Esq.,
Secretary,
Royal Commission on Indian Affairs,
Victoria.

504C:

May 18th, 1916.

R. A. Renwick, Esq.,
Deputy Minister of Lands,
Victoria, B. C.

Sir: Re Additional Lands Applications Bella Coola Agency. Item No. 75:

This Application filed through the Department of Indian Affairs at the instance of Indian Charles Windsor, is for a certain parcel of land on the East side of Yeo Island, Bullock Channel, at the mouth of Quathinstoo or Salmon River, Six (6) miles from the steamer route to the North and Twelve (12) miles from Bella Bella, distances and locations being taken from the Admiralty Chart Cape Caution to Port Simpson. The Commission finds that the applicant Indian, Charles Windsor, is a particularly industrious and progressive member of his tribe; that he has for many years used the fishing station covered by this Application and that the land applied for is contained in Lot No. 134½ Range Three (3), Coast Land District, under lease to the Swanson Bay Wood Pulp and Lumber Mills, Limited, for a period of Twenty One (21) years from 1905.

As the Commission feels that it would be an injustice to deprive the applicant Indian in this instance of his fishing station and has, therefore, allowed the Application with the condition attaching as in the case of the similarly situated land covered by Item No. 10 of the same Agency, i.e., allowed subject to the expiry of the Timber Lease in question or to the consent of the lessees being obtained prior to the expiry to such lease.

Kindly confirm this conditional allowance as satisfactory to your Department and greatly oblige.

I have the honour to be,
Sir,
Your obedient servant,

Secretary.

(P)

I

We come before you today as representatives of the Bella Coola Band of Indians, we do not come before you as new settlers but as the original inhabitants of this Valley. Our ancestors have occupied this country from time immemorial and we their children claim that the title to these lands is invested in us and has never been extinguished, either by conquest or treaty.

We would like to lay before your notice the fact that only a short time ago we had many towns up the Valley & also on the sea water that are now taken up & held by white people, our hunting grounds are all took from us. It is very hard for us to get any logs, because the land that did belong to us is held by whites.

We never asked the Govt to set aside Land for a reserve, and to give up our rights or title to our other land. our Fathers never expected that all their other settlements or towns would be taken from them. nor did they ask that they should have any land set apart from what was ours as a reserve.

When the first white men came to Bellabella they did not ask our Fathers about their lands did not ask if we would sell or give up our lands, but they just settled on them, the first notice we had was when the reserve was surveyed. when they came & built houses round about the reserve & they told us

II

that they had bought the land off the Govt. we did not know before then that the Govt had taken our land without our consent. & we have waited a long time to have this trouble settled. In fact not only have we waited but we have spent our hard Earned money in trying to get our rights therefor we are glad that you are here today to hear our trouble for it
All always has been the policy of the British Govt to treat the Native Tribes with justice for Lord Dufferin said in 1876. Before we took an acre of land we always made a treaty with the Lords who owned the land such treaty has never been made with us. King George the 3rd also said that before any land were taken from any of the Indians that first they ought to be treated with for them
we with other Indians tried & saw our friends before for R. Dale Bride. But he has refused & helps us therefor we ask that the question of the Title & our land be entrusted & Court for settlement.
we feel that we can leave our case in your hands & that you will do the best you can for us, When you leave us You will take with You our hearts deepest gratitude if you can help us.

Copy of Application

China Hat. B.C.
Sept 2nd. 1912.

The Honorable.
Mr. Mc. Kennan
Indian Land Commissioner

Sir:-

We the undersigned representatives of the Band of Indians. of China Hat. do hereby submit to the Dominion Government. as is the wish of the people of China Hat.
We beg and Pray that Dominion Government should Reserve for the People of China Hat. all the unoccupied land on Princess Royal Island. as the said Island is our hunting grounds. and also holds all our Salmon fishing Streams;
We also wish the Government to give us full rights of the reserved Portion of the Island when reserved, the Island has always been handed down to us for generations. The following is our fishing streams which is on the Island

Re pre-emption

Some Indians wish to rise in the scale of Civilization - They wish to be allowed to pre-empt say from 20 to 40 acres - and so build up a home and finally becoming Citizens - thus solve the Indian problem

Regard for the Law

During the last thirty years (30) only one criminal case has developed in this Village - Even then full restitution was made the man serving four years in the penitentiary - Small drunks and an occasionally dop fight are not counted as Criminal Offences -

Re Logging

Most of the Kitamaats are loggers - Hand loggers

They can only log along the beach where the tree would fall into or partly into the water
And then it will take from a five men to jack it into the water

A hand loggers licence calls for $25.00 each man also 50¢ per M is to be paid to Government for stumpage — Also 1.00 per M is paid for towing logs to mill — Therefore the Indians Petament ask the Commission to request the provincial Govt to relax the hand log laws in so far as the Indians are concerned — and suggest a $25.00 licence for each Company of men to be allowed to pick out logs along the beach on any open Government Land —

Re Fur Trapping

1 The Indians are glad to hear that all white men. have to have licences - Whilst they the Orignal inhabitants are free —

2nd The wish the "Provincial Government" to be requested to legalise their trapping - So that no one upset their traps — or trap over ground where their traps are already Set - —— If there is a law protecting them - They would like it to be sent them at an early date ——

3rd They wish Beaver not to be protected above the 53 parallel of latitude (as far as regards Indians) The Indians farm their beaver and do not kill them right out - one Beaver ground will last forever with Indians trapping — The whites who come up kill to the last one - it is not to their interest to take only a few - and let the rest breed ——

4th The Indians wish poison to be prohibited in a fur bearing Country — As when White men lay poison for Wolves - mink and marten in that neighborhood become extinct ——

(i.e. the Carrier Indians)

Statement Re Jap Fishermen.

The Cannery Bosses want Jap fishermen only if they told the truth would exclude most all Whitemen - Also would exclude the Indian but at present the Canners are compelled to have Indian women as fillers - therefore put up with Indian fishermen

Un-attached Licences

No Indian has been granted one to our knowledge - The Kitamaats want a share in the number that are given out - And also request that one licence cover their home waters - as well as where the Cannery is situated

Hartley Bay B.C. Aug. /13

Mr Wetmore, Chairman.
Indian Commissioner.

Unfortunaty we are not able to be all at Home here in Hartley Bay in time to meet you as our work is not yet done at the Canneries, so, we decided to leave this note for you in case you visit our Village during our absence; Therefore, we hereby make the following statement in writing, which we trust you will consider same carefully the same as if we had a talk with you personally.

We shall not consider or accept any Offer from any one until our claim is settled by Justice. Our prayer is that our Title for our lands and unsurrendered lands be made clearer, recognized and acknowledged to us by both the Dominion and Provincial Governments, That is the vital point of our request or claim.

We have no new request or new thing to state before you, but the same old claim demanding our Title be settled by Justice.

Signed Head Chief Ambrose Robinson

DEPARTMENT OF LANDS.

Refer to File No. 61694

VICTORIA, 12th Nov. 1913

Sir;-

I have to return herewith your blue print referred to this Department for report, and to state that, with the exception of Nos 7 and 10, Indian Improvements marked thereon as Nos 1 to 13 are apparently clear.

No. 7 is covered by Timber Licence No. 43914 surveyed as Lot 336, Range 3, Coast District, and No. 10 is held under Pulp Lease surveyed as Lot 62, Range 3, Coast District.

I have the honour to be,

Sir,

Your obedient servant,

Enc.

Deputy Minister of Lands.

Dear Mr Shaw:

In connection with the forthcoming activities of the Royal Commission on Indian Lands, we should be glad to be favored with instructions to supply either yourself or the Commission with such cuttings from the Provincial press as deal with the work of this Commission, criticise its actions, or in any way concern it. We are similarly serving the Royal Commissions on Labor and on Agriculture, on Coal Supply, etc., as well as a large number of the Federal as well as Provincial ministers, departments, and members -- public affairs being somewhat specialised in this office. The fee for such service is at the established Eastern scale of $5 per hundred cuttings, and these are sent out every few days so that the gist of all press comment is delivered absolutely fresh. I should thank you for an early reply intimating that you regard this proposal as favorable.

Very truly yours

Dear Mr Cross,

In the hurry of the departure on the business of the Royal Commission on Indian Affairs, for Comox and the North, I was unable to arrange for the painting on the office doors, in the rooms we have engaged from you, viz:- Nos 518, 519, and 520, Belmont Building, and shall be very much obliged to you, if you will have this done for us.

On the larger room, which will be used as a Board Room, we wish to have painted:-

ROYAL COMMISSION ON INDIAN AFFAIRS

BOARD ROOM

PRIVATE

on the room in which you are placing the vault:-

ROYAL COMMISSION ON INDIAN AFFAIRS

SECRETARY'S OFFICE.

J.G.H.BERGERON. SOLICITOR & SECRETARY,

and on the door of the smaller room

ROYAL COMMISSION ON INDIAN AFFAIRS.

CHAIRMAN.

PRIVATE.

The Commissioners do not wish to go to any extravagance, and with this

proviso, we leave the matter of the selection of type and so on, in your hands, as we know your taste is good, please however do not have those wretched enamel letters. Will you also have on the Secretary's office door a place for drop letters, and a box placed on the inside of the door to receive same.

Will you also have placed in the Board Room, which can be reached from the middle of the round table in the Board Room, by a long cord silk cord, which will communicate with the Secretary's Room.

I hope I am not giving you too much trouble but I know your good nature and I rely on you to do your best, which I am sure will be appreciated by the Commission.

Yours sincerely

P.S. I think the bell-rope should be arranged in such a way that there can be two separate calls into the Secretary's room, which could be distinguished there when they are sounded . I should also like y u to arrange for a bell to be placed in the Chairman's room, to communicate with the Secretary room, in the same way as that from the Board Room .

The Commission would also be pleased if you would kindly arrange to have green baize doors between the Secretary's Room and the Board Room and also between the Secretary's Room and the Chairman's Room,

We should esteem it a favour also if you would kindly request Messrs Weiler Bros to put in five more chairs, the same as those already ordered from them for the Board Room

This Indenture

made the thirtieth day of June Nineteen hundred and thirteen

BETWEEN:

THE BELMONT BUILDINGS, LIMITED, having its registered office at Victoria, Province of British Columbia, and hereinafter called "the Landlords" of the One Part, and The Royal Commission on Indian Affairs hereinafter called "the Tenant" of the Other Part:

WITNESSETH as follows:—

1. The Landlords hereby demise unto the tenant ALL those premises composed of Room No 511, 518, 519, and 520. on the fifth Floor of the Building situate at the corners of Government, Humboldt and Gordon Streets in the City of Victoria, British Columbia, TO HOLD to the tenant from the first day of July 1913, for the term of One or more years PAYING THEREFOR unto the Landlords the monthly rent of One hundred and thirtyfive ($135.00) without deduction in advance on the First day of each and every month during the said demise, at the office of Cross & Co., the duly appointed Agents for the time being or at such other place in the City of Victoria as the Landlords may designate. The first of such monthly payments to be made on the first day of July next.

2. The Tenant for himself and his assigns covenants with the Landlords as follows:—

(1) To pay the reserved rent at the times and in manner aforesaid.

(2) To pay to the Landlords all charges in respect of water, gas, power or electric light used on the demised premises as indicated by meter over and above the amount thereof to be supplied free of charge by the Landlords as hereinafter mentioned.

(3) To keep the interior and the floors, windows and Landlords' fixtures and fittings of and in the demised premises in good and tenantable repair and condition (reasonable wear and tear and damage by fire excepted) and in the like condition (except as aforesaid) to deliver up the same at the termination of the tenancy.

(4) To do, suffer or permit no act or neglect which may in any manner directly or indirectly cause injury to the said premises or to said building, or to any fixture or appurtenance thereof or which may be or become a nuisance or interfere with the comfort of any of the occupants of said building or which may in the opinion of the Landlords or their Agents render the said building or any part thereof less desirable or injure the reputation thereof as a high class business block.

(5) Not to exhibit signs of any nature on walls or windows which may not be approved of by the Landlords.

(6) Not to obstruct any light or borrowed light.

(7) Not to drive nails into the walls or in any way deface or mar the demised premises, or to cut, alter or injure any part of the said building or its appurtenances.

(8) Not to permit any sale by auction on the demised premises without the written consent of the Landlords.

(9) Not to make any alterations, additions or repairs in said premises without the written consent of the Landlords.

(10) Not to use or occupy or permit to be used or occupied the demised premises for any other purpose than

(11) To permit the Landlords and their Agents or nominees, with or without workmen or others, at all reasonable times to enter on and inspect the demised premises or to execute repairs or alterations to or in any part of said building and also at all reasonable times to permit the janitor or other employees of the Landlords to enter the said premises for the purpose of cleaning the same.

(12) Not to do or permit anything to be done whereby any policy of insurance on the demised premises may become void or voidable or whereby the premium thereon may be increased.

(13) To use due precaution against stoppage of waste pipes in the plumbing; not to hold the Landlords or their Agents liable for any damage to furniture, goods or effects by reason of leakage from roof, bursting or overflow from any drains or pipes or any damage caused by water, earthquake, fire, tempest, gas, electricity, temporary stoppage of any elevator, or of electric light or power supply, or any damage or personal injuries caused to the tenant or guests, or to any person whatsoever by any defect in said demised premises or in said building or any part thereof, or any lift, apparatus, plant or thing used in connection therewith, or hereafter occurring, or by reason of any supply of natural light being cut off by the construction of any other building.

(14) Not to assign or underlet the demised premises or any part thereof without the written consent of the Landlords.

(15) Not to use electric light on the demised premises at a greater rate than one candle power to every five square feet of floor space of the demised premises, and not to use any electric current for

Indian Affairs

ARCHIVES PUBLIQUES
CANADA

lighting or motive purposes, or any artificial lighting or motive power on the demised premises except such as shall be supplied by the Landlords by meter from the mains laid by or on behalf of the Landlords.

(16) To observe and strictly conform to the general regulations which the Landlords may from time to time make, governing all floors in the said building, a copy of which as intended to be in force for the present is contained in the Schedule hereto.

(17) To yield up the demised premises with the fixtures and additions thereto at the determination of the tenancy in good and tenantable repair and condition in accordance with the covenants and stipulations hereinbefore contained.

(18) Any notice or demand which the Landlords may desire to give or make upon the tenant shall be deemed to have been duly given or made if given or made in writing purporting to be signed by or on behalf of the Landlords, and left at the demised premises or given or mailed to the tenant under prepaid registered cover addressed to the address (last known by the Landlords) of the tenant.

3. THE LANDLORDS HEREBY COVENANT WITH THE TENANT as follows:—

(1) That subject as aforesaid the Tenant shall peaceably hold and enjoy the demised premises during the said term without any interruption by the Landlords or any person rightfully claiming under or in trust for them.

(2) To light the public halls, spaces and passages in the said building, to heat the said demised premises and to furnish light and water for the Tenant's use and janitor service for the purpose of cleaning the said demised premises; PROVIDED ALWAYS, that the supply of electric light for the said demised premises free of charge shall be limited to not exceeding one candle power to every five square feet of floor space of said premises, and that the Tenant shall pay for all artificial light supplied beyond that extent at the rates generally charged therefor in Victoria aforesaid.

(3) To provide one or more lifts in the said building for use by passengers between the hours of 7 a.m. and 8 p.m. every day, unless prevented by accident or strikes or by reason of any apparatus becoming out of order.

(4) To supply the Tenant with electricity for motive power to be used in running such machines on the demised premises as the Landlords may approve of in writing. Such electricity to be paid for by the Tenant at the rates generally charged therefor in Victoria aforesaid, PROVIDED, that any such approval may be withdrawn for cause, and shall not be deemed to waive any of the Tenant's covenants.

(5) Provided that any discontinuance in the supply of any such heating, lighting or power by any accident or by any cause beyond the control of the Landlords, or not occasioned during the inspection, repair or alteration of any part of the plant relating to the same, shall not be deemed a breach of the Landlords' covenants.

4. PROVIDED ALWAYS, and it is expressly agreed as follows:—

(1) If the rent hereby reserved or any part thereof shall be unpaid for fourteen days after becoming payable (whether formally demanded or not) or if any covenant or stipulation on the Tenant's part herein contained shall not be performed or observed, or if the Tenant or other the person or persons in whom for the time being the term hereby granted shall be vested shall become insolvent, or assign for the benefit of creditors, or have execution issued, or a receiving or winding up order made against him or them, then and in any such case it shall be lawful for the Landlords at any time thereafter and (notwithstanding any previous forbearance) to re-enter upon the demised premises or any part thereof in the name of the whole and thereupon this demise shall absolutely determine, but without prejudice to any rights of the Landlords in respect of any breach of the Tenant's covenants herein contained.

(2) Provided that the observance and performance by the Tenant of the several covenants and stipulations herein contained on the part of the Tenant shall be a condition precedent to the observance and performance of the Landlords' covenants.

5. The expression "Landlords" shall mean and include the said Landlords and their successors or assigns and the expression "Tenant" shall mean and include the said Tenant and the executors, administrators and assigns of the said Tenant and all words depending thereon or relating thereto shall also be read and construed as in the plural instead of in the singular number if there is more than one tenant named, and in such case the covenants herein shall be deemed to bind the tenants, their executors, administrators and assigns, severally as well as jointly.

IN WITNESS WHEREOF the Common Seal of the Landlord has been affixed hereto and the Tenant has set his hand and seal the day and year first above written:

The Common Seal of the BELMONT BUILDINGS, LIMITED, was hereunto affixed in the presence of:

.....A. S. Innes.....Director

.....C. C. Bone.....Secretary

SIGNED SEALED AND DELIVERED by the said E. L. Belmont in the presence of: Commissioner for E. L. Belmont 45 Chancery and J. G. H. Bergeron 45 Sunday in B. Columbia

E. L. Belmont

J. G. H. Bergeron

Solicitor.

THE SCHEDULE HERETO

RULES AND REGULATIONS

1. The Tenants, their employees, servants, agents, or patrons shall not loiter in the entrances or corridors, nor in any way obstruct the sidewalks, entry passages, halls, stairways, elevators, and shall use the same only as passageways and means of passage to and from their respective offices.

2. The sash doors, sashes, windows, glass doors, lights and skylights that reflect or admit light into the halls or other places of the building, shall not be covered or obstructed without leave. The water-closets and urinals shall not be used for any purposes other than those for which they are constructed, and no rubbish, newspapers or other substance of any kind shall be thrown into them. Waste and excessive or unusual use of water or electricity shall not be allowed. Tenants shall not mark, drive nails, screw or drill into, paint, nor in any way deface the walls, ceilings, partitions, floors, wood, stone or iron work. The expense of any breakage, stoppage or damage resulting from a violation of this rule shall be borne by the Tenant who has caused such breakage, stoppage or damage, or by whose servants, agents or employees same was caused.

3. No sign, notice, advertisement, picture, or other inscription of any kind shall be put in or on any part of the building, nor on the transoms or partitions, except on the glass of the doors and windows of the space herein leased, nor shall any sign, notice, advertisement, picture or other inscription, legend or device whatsoever, illuminated by electricity, gas, or otherwise, be installed or maintained in or about the building except with the written consent of the Landlords and then only by the painter authorized or employed by the Landlords, and of such size, form and color as may be first prescribed in writing by the Landlords.

4. No electric or other wires or pipes for any purpose shall be brought into the demised premises unless the written permission of the Landlords specifying the manner in which same may be brought in, shall have first been obtained.

5. Tenants shall not do anything in the premises, nor bring nor keep anything therein, which will in any way increase or tend to increase the risk of fire or the rate of fire insurance or to obstruct or to interfere with the rights of other tenants, or in any way to injure or to annoy them, or which shall conflict with the regulations of the Fire Department or the fire laws, or with any insurance policy on the building or any part thereof, or with any rules or ordinances established by the Board of Health; or contrary to the Statute, or to the City Ordinances or regulations; and they shall not use any machinery therein which may cause any noise or jar, or tremor to the floors or walls or which by its weight might injure the floors of the building.

6. No articles deemed exta hazardous on account of fire and no explosives shall be brought into the demised premises or into the said building.

7. The Landlords shall prescribe the weight, size and position of all safes used in the building, and such safes shall in all cases stand on wood of such size as shall be designated by the Landlords. All damage done to the building by putting in or taking out, or maintaining a safe, shall be repaired at the expense of the Tenant, such removal of safe to be done at such time as Landlords may designate, so as not to interfere with the business operations of the building.

8. Tenants shall not employ any person or persons other than the janitor of the Landlords for the purpose of cleaning the leased premises. The Landlords shall be in no wise responsible to any Tenant for any loss of property from the leased premises, however incurring, or for any damage to the effects of any Tenant by the janitor or any of his employees, or by any other person. Steam heat from the 1st October to April 1st, and janitor's service in the offices will be furnished to the Tenants free of charge, and the Landlords shall not be liable to the Tenants for any interruption to the electric current or lights or steam heat.

9. The Landlords shall have the right to enter the leased premises at all reasonable hours to examine the same or to make such repairs or alterations as shall be deemed necessary for the safety or preservation of the building or for the purpose of cleaning or keeping in order the fixtures of said building, and, also, at any time during the last three months of any tenancy to exhibit the premises to be let, and to put upon them the usual notice, "TO LET."

10. Tenants, their clerks, servants, or agents, shall not throw substances of any kind out of the windows or doors, nor down the passages or skylights of the buildings, nor sit nor place anything on the window sills, or place any obstruction whatever in corridors, nor bring into nor keep within the building any animal.

11. All freight must be moved into, within and out of the building under the supervision of the Landlords at such times as specified by the Landlords so as not to interfere with the business operation of said building, but the Landlords will not be responsible for the loss of or damage to such freight from any cause.

12. The requirements of Tenants will be attended to upon application at the office of the agents of the building. Employees shall not perform any work nor do anything outside of their regular duties unless under special instructions from the office.

13. No food shall be cooked or prepared in the leased premises or in the halls, corridors or stairways of said building.

14. The Landlords will not be responsible to any Tenant for the non-observance or violation of the Rules and Regulations by any other Tenant.

15. All awnings or shades desired by Tenants over and outside of the windows shall be erected at expense of Tenants, and must be of uniform shape, color, material and make as may be prescribed by the Landlords and put up under the direction of the Landlords.

16. No beds or bedsteads shall be brought or placed in said leased premises, nor shall the premises in any case be used as lodgings.

17. The Landlords reserve the right to make such other and further rules and regulations as in their judgment may from time to time be necessary for the safety and cleanliness of, and for the preservation of good order in the building.

Dear Sir,

We beg to offer you in lieu of Rooms No.521 - 523, Room 511. The regular price of No.511 is $40 per month, but on account of the Dominion & Provincial Governments having taken so much space in the building we are prepared to accept $35.00 per month for same.

Kindly advise us if this will be satisfactory.

Yours truly

Dear Mr.Shakespeare,

The Commission has a Post Office Box (No.755),and we have very often found letters and papers therein which are not addressed to any member of the Commission No doubt this has been done by an oversight,but as it has happened very often, I should be very much obliged if you would kindly give instructions that nothing but letters and papers addressed to members of the Commissioneare placed in box 755.

The most frequent occurwence is that letters addressed to The Indian Office,or the Indian Agent are placed in the Commission's box. The Indian Office has a separate box, No 775.

Your kind attention will oblige.

Yours very truly,

SECRETARY.

Dear Sir, Belmont Buildings, Limited

Replying to your favor of the 3rd.inst. re blind cords The blinds are part of the furnishings of the office and were not supposed to have been supplied by us. On account of the difficulty in apportioning the cost to each office we decided to make no charge for same. When the blinds were put in cords were affixed to all of them and as you have been using them for ~~the~~ 6 months without mentioning any difficulty in this respect it is quite impossible for us to call upon the contractors now. I am sorry therefore that we cannot do anything in the matter.

Yours truly,
Belmont Buildings, Limited
J. Dearn
Asst. Secretary.

21st.February 1914

Messrs Weiler Bros.,

City.

Sirs:

We have received and herewith return your a/c for making 2 Map Racks, the price charged, namely $25. in addition to amount for Rollers already paid, being, in my opinion, excessive. Neither in material nor labour should the total, with a fair margin of firm profit exceed $15. I would be prepared to pass voucher for that amount, but would regard it as a maximum charge for the service.

Taking up this matter with your Mr.Boyce this morning, he has requested me to refer the matter to you with an assurance that a satisfactory adjustment would be made.

Yours very truly,

Secretary.

Attention of Mr. Fowler.

Enclosures.

Mr. J.G.H. Bergeron, Secretary,
Royal Commission on Indian Affairs,
Room #517
Belmont House,
Victoria, B. C.

Dear Sir,

Your letter of the 21st inst. received enclosing Invoices for 2 Map Racks, same being returned on account of charge being, in your opinion, excessive.

In reply we beg to state that we have again taken the matter up and find that the price charged is very moderate, and consistent with this class of work.

The Racks in question are pieces that are not made for Stock in large quantities and had to be constructed specially for the purpose, also they had to be put up firmly on a concrete wall which of course takes considerable time.

We trust this explanation will be entirely satisfactory and beg to remain,

Yours truly,
WEILER BROS., LIMITED.

Gentlemen,

Referring to your telephone call of this morning regarding Protectograph Check Writer.

We do not anticipate that you will find any difficulty in the adjustment of the handle and check table if you follow instructions as enclosed with machine.

At present we do not have a representative in your city but in the near future one of our men will be there when he will call on you and see that every satisfaction is given you.

Should you be unable to adjust the parts we trust the slight delay will not inconvenience you.

We are,

Yours truly,

Sept. September 1914

Mr. J. G. H. Bergeron,
Secretary,
Royal Commission on Indian Affairs,
Belmont House,
Victoria, B. C.

Dear Sir,

Referring to your favor of September 1st. regarding Protectograph Check Writer we regret to note it is not giving satisfaction.

As you do not state in what way the work of the machine is unsatisfactory we are unable to give any suggestion that would set it right. It may be a slight turn of a screw is all that is necessary and if you will let us have a sample of the work done we will be only too pleased to advise you or see the matter attended to as soon as possible.

Recently we advised you that our representative would call and see that the machine gave every satisfaction and we regret very much that we have been unable up to the presentto implement that promise.

The present conditions have completely disorganised our connections, resulting in a withdrawal of all our field forces temporarily from here to Winnipeg.

We expect, however, we will be able to have a man visit Victoria in the near future but untill our Mr. Holland, who is presently in the East, returns, we cannot make a definite promise.

We have no doubt the trouble will be quite easily adjusted as every machine is thoroughly inspected before leaving the factory.

Trusting, that under the present conditions, you will appreciate our difficulty.

W. G.

We are, Yours very truly,

Messrs The Vancouver Daily "Province"

Vancouver, B.C.

Dear Sirs;

I wish you would kindly see that we receive our paper a little more regularly than we have done in the past. During the month of September we received the paper on an average of twice a week, and sometimes not even that.

Trusting you will give this matter your attention.

Yours very truly.

Secretary.

Sirs:

Referring to your letter of the 2nd ultimo:

We have been as yet unable to ascertain what is the matter with the protectograph and would very greatly appreciate if you could have an expert in such matters examine and set the difficulty aright as promised in one of the latter paragraphs of your letter.

Trusting that you will do so at the very earliest date, I am,

Yours truly,

Secretary.

Mr. J. G. H. Bergeron, Sec.,

Royal Commission on Indian Affairs in B. C.,

517 Belmont House,

Victoria, B. C.

Dear Sir:-

Replying to your favor of October 8th.

We regret that you did not comply with our request of September 2nd that you furnish us sample of the work done by your Check Writer.

The Writer has recently returned to the office and regrets to advise that owing to present conditions we have been compelled to withdraw all our forces temporarily, and for that reason have not been able to send a man to Victoria.

Kindly send us sample of the work done by your Check Writer for we are anxious to have it working properly as soon as possible.

We would also ask you to return to us the Protectograph Model "H" loaned to you several months ago as we are disposing of the Model "H" stock in bulk in the very near future.

Trusting you will comply promptly to the above requests, and thanking you for the order, we are,

Very truly yours,

The R. E. Holland Co.,

Sirs:

By direction of the Royal Commission on Indian Affairs for the Province of British Columbia, I have the honour to acknowledge the receipt of your letter of the 9th instant and to advise you that until our own Protectograph is in proper working order it will not be convenient for us to return your Protectograph Model H. as requested, it being the only one available for service.

With reference to your request for sample of work done by our Protectograph, I have to say that it has not been sent for the self-evident reason that it will not do work. That is our grievance and complaint, as we have distinctly indicated, the cheque herewith being an exhibit in support thereof.

I Have the honour to be,
Sir,
Your obedient servant,

Mr. J. G. H. Bergeron, Sec.,
Royal Commission on Indian Affairs,
Belmont House,
Victoria, B. C.

Dear Sir:-

Replying to your favor of October 24th/. Would say that your machine rached us late in the day of October 23rd., we are shipping you new machine #285245 to take its place, and would ask you to return without delay, the Model "H" which you have on loan. We are very anxious to receive the Model "H" as we are holding up shipment to G. W. Todd & Co., of returned machines, pending its arrival.

It would seem that the trouble with your original Check Writer was that a piece of its mechanism had evidently worked a little loose in shipping it, and the attempt to run it in this condition injured it very badly.

Trusting that the above arrangement will meet with your approval, we remain,

Very truly yours,

The R. E. Holland Co.,

THE VANCOUVER DAILY PROVINCE

OCT 27 1914
For the Province of B. C.

Vancouver, B. C.

October, 26, 1914

Mr . G. H. Bergeron,

Post Office Box 755,

Victoria, B. C.

Dear Sir :--

We cannot understand why the Daily Province comes irregularly. We are placing the complaint in the hands of the Post Office Inspector at Vancouver B. C. and hope to have a better result this time. Part of the trouble is probably due to the fact that the C. P. Rly. have taken off their afternoon boat and it is now necessary for us to send our papers by the midnight boat which makes them late arriving in Victoria. B. C. There is no reason why your paper could not be placed in your box early in the morning of the day after of publication.

Yours truly,

THE DAILY PROVINCE.

Dear Sirs:

Re. charge of $2.45 appearing on your account against the Commission as "arrears", pursuant to the explanation furnished by you in our 'phone conversation I have taken the matter up with Miss Peddle and Mr McArthur.

The latter states that the charge of $1.05 is correct, and I enclose his cheque herewith in settlement.

Miss Peddle states that she has not used the long distance 'phone since July or August last, and paid for such service, the amount received from her having been transmitted to you with my letter of the 14th Aug. last.

If Miss Peddle is in error through forgetfulness please let me have a letter giving me precise information as to the service which may refresh her memory.

Very truly yours

Assistant Secretary

December 5th, 1914

Local Manager.

B. C. Telephone Co.,

Victoria, B. C.

Dear Sir:

I beg to return herewith your memorandum of account just received. During the past two or three months you have included an item of 1.40 as "arrears", although it has been repeatedly repudiated and explanations gone into. Your contention was that this was a charge for a conversation in June by Miss Peddle, although for several months thereafter it was not brought forward, and meanwhile Miss Peddle ceased to have any work in this office. Miss Peddle asserts that she owes nothing, and the matter being taken up with your officials last month the item was struck out and a bill rendered for $15.00 in full, which was paid. It is exceedingly vexatious to see this item for which there is no justification constantly appearing on our bills. Please see that bill is rendered as it should be, for $7.50 for December service and cheque will issue.
