WOULD GET WORSE LICK

Some of the Liberal members Ottawa are talking of forcing den to go to the country on Naval issue.
This they could do of course the same way that Borden forced Wilfrid Laurier and his associates to take their dose with reciprocity.

THE FEELING OF THE VAST

of Canadians is that an offer three Dreadnoughts for the Navy, is the fulfilment of an obligation far too long ignored.
The Laurier proposal is to the three, but to have them constructed in Canada, and manned by Canadians; two utter impossibilities for very many years.

THE COUNTRY HAS IT ON

the authority of Mr. Borden, that he privately given reasons why at once of three Dreadnoughts would be most acceptable, and one will doubt his word.
Mr. Guthrie and others of nature should try and wake up facts.

CANADA'S BILLION DOLLAR YEAR

During the first year of the Conservative Government, Canada has enjoyed unparalleled prosperity and is entering upon the new with every prospect of another breaking period. Trade for the time in the country's history will year pass the billion dollar mark.

Mary's Little Lamb Was Not a Myth

NEW YORK, Jan. 9.—Mary's little lamb was not a myth. John Roulstone, a young poet, who was studying for the church, happened to visit the school that morning. He wrote the immortal verses that there really was a Mary who had a little lamb who went to school.
The life story of the lamb, says Mrs. Owens, was brief though glorious. It was born in April, and the historic procession wended its way to school in the early summer of 1814.

Music and Drama

Joe Marks Coming
Commencing Monday, January 13, the ever-popular Joe Marks and his company of advanced repertoire and vaudeville players, headed by the Marks Bros, clever actress, Miss Grace Marks, and supported by one of the best and well-balanced companies ever seen, will be here. On Monday night, Mr. Marks will present at the Opera House the greatest of all pastoral dramas, in four acts, "Thorns and Orange Blossoms." The play so far this season has easily proven to be the master bill of the Marks Bros. Company. The story of the play is one of the most interesting and moral plots ever told, a story of a plain girl, who, one day in her travels, meets a young artist. To her he makes love, making her believe that he is a poor man, and entering his living by painting. After their marriage she learns of her mistake and finds she has become the wife of one of the richest lords of England, and not the plain artist.

John Roulstone, a young poet, who was studying for the church, happened to visit the school that morning. He wrote the immortal verses that there really was a Mary who had a little lamb who went to school.
The life story of the lamb, says Mrs. Owens, was brief though glorious. It was born in April, and the historic procession wended its way to school in the early summer of 1814.

but Lord Randolph Rivers of England. The company has with them the people's popular comedian, Mr. Ed Mills, and in his very funny Irish part of Patrick Brannigan, proves to be a laugh every second. The play has been a big success for several seasons, because it's chock full of fun, brimming over with good humor and a story that grips the attention. There is entertainment galore in "Thorns and Orange Blossoms," with its music and scenes and situations of thrilling excitement and touches of pathos, all so true that it seems like a page torn from nature's book. Send the children. Popular prices prevail.

Mr. and Mrs. A. Bixel and Mrs. Bert Inglis left for Toronto this morning.

PILES
Do not suffer another day with itching, bleeding or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 50c a box; all dealers, or I. H. Watson, Bates & Co., Limited, Toronto. Sample box free if you mention this ad. and enclose 5c stamp to pay postage.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh), that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

EAST OAKLAND.

(From our own correspondent.)
Mr. John Ryan, assisted by Mr. F. O'Riley, killed some fine pigs on Tuesday.
Miss Mable Cunningham entertained a number of young ladies last week.
Mr. Percy Martin lost his infant daughter on Thursday. Internment took place Saturday. Many friends will extend sincere sympathy.

You Needn't keep on feeling distressed after eating, nor belching nor experiencing nausea, between meals. Hood's Sarsaparilla cures dyspepsia—it strengthens the stomach and other digestive organs for the proper performance of their functions. Take Hood's.

A WONDERFUL CURE.

Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarrhoxone." You inhale its soothing balsams and out goes the cold—sniffles are cured—headache is cured—symptoms of grippe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhoxone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. Safe even for children. 25c. and \$1.00 sizes at all dealers.

"My nerves were very bad, and I control my arms and legs," writes Mrs. Robert Bustard, Maxwell, N.B. "Dr. Chase's Nerve Food cured me of what I believe was the early stage of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

Laurence Munro & William Mead, Architects, Hamilton, Ont.

The Schubert Choir, 235 voices, under the baton of Mr. Henri K. Jordan, will excel all previous efforts successful as they have been, in their seventh annual concert. Cole-ridge-Taylor's beautiful setting of Longfellow's poem, "Hiawatha's Wedding Feast," is the work selected. Opera House, Feb. 4th.

MR. GROUCH.
He got up with a grouch, and he scolded his wife.
He told her that she was the bane of his life.
He scolded the children and cursed them around.
His voice had a harsh and a blood-chilling sound.
He scolded the cook, because she'd slept late.
And he scolded about everything that he ate.
He scolded the driver upon the front seat.
And he scolded and spluttered, concerning the heat.
He scolded policemen at crossings because they held up their hands and compelled him to pause.
He scolded because of the puncture they got.
By the snow on his face you'd have known he was hot.
He scolded the newboy that got in his way.
And he scolded because it said, "Warmer today."
He scolded the clerks and looked horribly cross.
When he entered the office in which he was housed.
He scolded because there was dust on his chair.
And because there were smears in the office boy's hair.
The stenog. came in after his work was begun.
He had called for her twice; she went in on the run.
Did he scold when she, trembling, began to explain.
That she was at a crossing had halted her train?
Did he sneer at the girl as he'd sneered at his wife?
Did he show his impatience? You bet your sweet life!
P.S.—Perhaps we should say, lest you think him a brute.
The stenog. was not youthful, nor was she a beauty.
—Chicago Record-Herald.

Quite Another Thing.
"What makes you so sleepy today, old man?"
"I was up at 4 this morning."
"Come off! You never got up at 4 in your life."
"I didn't say I got up. I said I was up."
—Boston Transcript.

Big Hearted.
"You," sighed the rejected lover, "will find your name written in imperishable characters on my heart, could you but look."
"So?" murmured the fair young thing who was aware of the fact that the swain had been playing Romeo at the seaside for something like twenty years. "So? Then you must have a heart like a local directory by this time."
—Tit-Bits.

A Good Cure.
"Wh-wow-wh-wh-what did-do y-you do for y-your a-a-stuttering, old man-man?" asked one confirmed stammerer the other day of another.
"W-w-wow-well," said the second, "I-I've fur-found out-considerable ruh-ruh-relief fur-fur-from kuk-keeping m-m-m-m-m-m-m-m-m-m-m-mouth sh-sh-shut."
—Harper's Weekly.

Then it Rained.
Miss Plutus—But, Captain Hawleigh, would you love me when I grow old and ugly?
The Captain (gallantly)—You may grow older, my dear Miss Plutus, but you can never grow uglier.
And as he went home he wondered why she had rejected him.—San Francisco Chronicle.

Incurable.
"Mrs. Codgers is dreadfully afraid of emboupoint," remarked Mrs. Gadsley.
"Is that so?" chirped Mrs. Woppler.
"My favorite awt had it, and the poor thing just wasted away!"—Birmingham Age-Herald.

The Reason Why.
"Nonsense! There was plenty of room for you to pass with the cart without knocking the gate off!"
"But yer see, sorr, the room was on the wrong side of the cart."
—Tatler.

His Tints.
"When I last saw him Jabbs was green with envy, yellow with jealousy, white with fear and red with rage."
"What a highly colored life his must be!"—Baltimore American.

Paradoxical Temperature.
"There is one thing which is oddly contradictory about an engine."
"What is that?"
"When it gets cooled, then it becomes hot."
—Boston Herald.

A Soporific Talker.
"Is Hurkaway as dull as they say he is?"
"Every bit. Why, my foot went to sleep while he was talking last night."
—Farm Magazine.

A Winner.
"Was your garden a success, this year?"
"Yes. My neighbor's chickens won blue ribbons at the poultry show."
—Brooklyn Life.

One Cough

A cough, just a little cough. It may not amount to much. Or, it may amount to everything! Some keep coughing until the lung tissues are seriously injured. Others stop their cough with Ayer's Cherry Pectoral. If he says, "Take it," then take it. Sold for seventy years. How long have you known it?

CITY NEWS

Winds shifting to southerly, fair and cold today. Friday a little higher temperature with light snow falls.

Temperature Temperature for the last 24 hours. Highest, 21, lowest 10. For the same date last year, highest 28, lowest 2 below zero.

Postponed The concert scheduled for last night at the Mohawk Institute, had to be postponed on account of the disagreeable weather.

For City Auditor Mr. Fred R. Harrington of this city has applied to the city council for the position of city auditor for the year of 1913.

City Patients During the month of December five city patients were treated at the Brantford General Hospital at a cost of \$34.70.

Nuptial Note The marriage took place yesterday morning at St. Mary's Church of Miss Elizabeth Durkin to Mr. Reginald John Moore, the ceremony being performed by the Rev. Father Padden.

W. O. W. Dr. Chapin, Past Commander, will install the officers elect of Camp Brantford, No. 12, Woodmen of the World, in their lodge room to-morrow night, at the conclusion of which, a light lunch will be served.

At Rest. The funeral of the late John F. Stead took place from his late residence, 322 St. Pauls Ave. yesterday afternoon to Mt. Hope cemetery. Rev. Mr. Miller conducted the services at the house and at the grave.

Curlers Have Ice. The local followers of the "Besom and Stane" had their first practice at the "roarin'" game last night, the ice in Agricultural park being in perfect condition. To-morrow night the annual President vs. Vice-President match will be played.

Band Practice. At the Armouries last night the Bugle Band, under the instruction of Bugle Major Jas. Meller, held a very successful practice. The Band was never in better shape and right up to strength.

Euchre. Mr. and Mrs. J. E. Waller, Pearl St., entertained the members of the Twentieth-Century Euchre Club yesterday evening. A farewell send-off was given to Miss U. Clohecy of Hamilton, who has been spending a vacation in the city.

Drummers Here. The office management of the Brantford Roofing Co. were busy today with their travellers and agents, who are in the city for business purposes, and to attend the Directors' complimentary banquet at the Kerby House to-night.

Fine Show. The company of "The Gamblers" arrived in town last evening. The principals attending the performance of "The Butterfly on the Wheel," "The Gamblers" which is the play at the Grand Opera House to-night is one of Klein's greatest successes, holding the audience intensely interested from the first act to the final. Manager Johnson is to be congratulated upon bringing two such strong plays to Brantford.

Trinity Men Organize. A very enthusiastic meeting was held in Trinity church school room on Tuesday evening when a men's association was organized. The officers are as follows: President, Rev. Mr. Latimer; vice-president, Mr. L. E. Kingerley; second vice-president, Mr. Crumpling; secretary-treasurer, Mr. H. Wm. Kingerley; executive, Messrs. Bailey, Sage, Morrison, Brazil, Smith and Tucker. This marks an important step in Trinity's history, as the men expect to have a rector for their parish in the near future.

For Holmedale Park The Board of Water Commissioners and the Parks Board met in joint session at the city hall yesterday afternoon for the purpose of discussing matters pertaining to the creation of a public park on the waterworks land in the Holmedale. Those present were Messrs. John Fair, A. G. Montgomery and Mayor Hartman, representing the water commissioners, and Messrs. George H. Matthews, Frank Cookshutt, Wm. Glover, E. L. Cook, Franklin Grobbel and J. J. Hawkins. After discussion at some length the question of establishing a playground in the Holmedale, the members decided to pay a visit to the locality on Friday afternoon at two o'clock for the purpose of deciding on a proper location. The members of both boards were unanimously in favor of laying out a public drive around the proposed park and planting suitable trees.

Shriners. On Tuesday evening next the local Shriners will hold a social gathering at the Belmont Hotel. The evening will be spent in music, games, etc.

Drawing Class. The Mechanical Drawing Class will hold their first class of instruction for this year in the Y. M. C. A. this evening. Mr. R. Wedlake, the instructor, looks for a good attendance this evening.

Curling Notes. Rinks chosen by the President and Vice-President, will play a match to-morrow night, the losers to provide an oyster supper. A general meeting of the Curling Club will be held after the match to elect skips for the Tankard contests. Two rinks of Colts will go to Paris on Monday to compete in the Colts Bouspiel.

THE NEW WATERLOO RINK ON ALFRED STREET. Will be open on Friday, Jan. 10, 1913, when a game of hockey between Paris and Brantford will be played. Admission 25 cents, children 15. Skating after game free. We would suggest that everyone have the change—we do not mind making the change, but it keeps your neighbor waiting. We will try and make everybody welcome.

H. BEARDSALL Manager.

NOSTRILS AND HEAD STOPPED UP FROM COLD OR CATARRH? TRY ELY'S CREAM BALM

Instantly Clears Air Passages; You Breathe Freely, Nasty Discharge Stops, Head Colds and Dull Headache Vanish.
Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now. Get the small bottle of 'Ely's Cream Balm' at any drug store. This sweet fragrant-balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake to-night struggling for breath, with head stuffed, nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.
Put your faith—just once—in 'Ely's Cream Balm' and your cold or catarrh will surely disappear.

THE GIRL THAT IS PALE. She is in danger, her system is run down, weak—she needs nourishment, needs richer blood. More than all else she needs Ferrozone, needs it because it brings back the nerve energy which rapid growth and study have exhausted. The old time vigor, happy spirits and new strength, return with Ferrozone. The delicate maid is energized, strengthened and rebuilt. Isn't it worth while using Ferrozone when it surely does so much. At all dealers in 50c boxes.

THE SPIRIT OF WINTER. The Spirit of Winter is with us, making its presence known in many different ways—sometimes by cheery sunshine and glistening snows, and sometimes by driving winds and blinding storms. To many people it seems to take a delight in making bad things worse, for rheumatism twists harder, twinges sharper, catarrh becomes more annoying, and the many symptoms of scrofula are developed and aggravated. There is not much poetry in this, but there is truth, and it is a wonder that more people don't get rid of these ailments. The medicine that cures them—Hood's Sarsaparilla—is easily obtained, and there is abundant proof that its cures are radical and permanent.

"Hiawatha's Wedding Feast" will be rendered by the Schubert choir on Feb. 4th. The music is extremely bright and pleasing. The Boston Festival Orchestral Club will play the orchestral parts. Soloist, Mr. Redferne Hollneshed.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Wm. D. Little*

The Newman Watch can always be depended upon. It will stand the hardest of hard work and will keep up to the very smallest fraction of a second in time. We sell the Newman Watch and urge you to come in and talk watches with us. No man, woman or child ought to be without a watch—without a Newman watch.

IT PREVENTS SORE THROAT.

No simpler way to kill a cold and attack on sore throat than by applying Nerviline—put it in freely, and then put on a Nerviline Porous Plaster on the chest. These remedies hunt out pain, destroy every trace of congestion, cure the cold and tendency to bronchitis. Thousands find Nerviline inestimably the best remedy for pains, aches, bruises, neuralgia, sciatica, colds and winter ills. Not only is it penetrating and powerful, but it is safe and economical. All dealers sell Poison's Nerviline. Large bottles for 25c, the plasters same price. Beware of substitutes.

The Inward Effects of humors are worse than the outward. They en-Sarsaparilla eradicates all humors, cures all their inward and outward effects. It is the great alterative and tonic, whose merit has been everywhere established.

CHRISTMAS IN CANADA.

Many National Customs Entered Into Our Holiday.

Canada and Canadians are not behind the other, Christian nations of the world in the observance of the Christmas season, as this holiday has shown.

From coast to coast, the members of all classes combine to set aside this day of the year as a general holiday and feast. Even the descendants of the dour Scottish settlers, whose forefathers forbade the observance of Christmas as being Popish, have forgotten the ban that was formerly laid on this and other Christian festivals, and join with the fellow-countrymen of Irish, English and French descent to make merry during the season of Noel.

In Quebec the religious side of the festival is thrown into the greater prominence and at mid-night on Christmas eve crowds may be seen entering into every church when proceed the strains of the special music that always forms a part of the midnight Mass with which the day is ushered in. This duty performed though no resident of the great Dominion knows better how to celebrate Christmas than the Quebecker. Whoever has experienced the joys of a Quebec Christmas will remember it for years.

The day has become one when the family is re-united, when the sons and daughters who have left the old home to fare forth into the world and make a home for themselves once more gather round the family hearth, bringing with them the gifts for the old folks, the daughters bearing some article of their own manufacture, a shawl or pillow for mother, a pair of slippers or house jacket for dad.

Canadians have not lost the art of preparing the feast for Christmas. The English custom of making a festival by a banquet has survived in the more hurried life of this country. However humble the home or however pretentious the occasion, the dinner is a sacrosanct institution without which the observance of the festival would be a poor maimed thing. Even in homes where the absence of children makes the provision of good things to eat a thing of small interest, the provision of the Christmas feast is a matter on which to spend care and thought.

But in the homes which are filled with happy children, then the preparation of the traditional dainties fill the heart of the house-mother with anxious forethought and preparation to build a nation.

The reward that they bring! After the cloth is cleared, the more solid of the good things having been disposed of, the Christmas tree is robed of its glittering ornaments and the distribution of the gifts takes place, and the happy laughter of children shows a home where the birth of the Christ child is being celebrated in the proper spirit as the festival of the children.

A Strenuous Voyage. Dr. Alfred Thompson, member of Parliament for Yukon, recently traveled a foot over the ice-bowling Yukon river from the ice-bound steamer Vidette.

In order to escape the long, weary winter journey of the Overland Trail the doctor embarked on a steamer that was making a desperate effort to reach winter quarters at Whitehorse at the head of navigation.

After battling against running ice for a week, Captain Barrington, a noted northern navigator, who was in charge of the boat was obliged to give up an attempt was made to run with the ice to Dawson, but a huge jam forming below cut off their escape and they were obliged to seek the best shelter available from the merciless pounding of the ice.

The doctor and other passengers had to find their way back to Dawson, traveling at times on the rough ice and in places where the river had not closed making detours of miles over mountains and through woods, the precipitous cliff banks of the river making it impossible to follow the shore.

After a few days' rest at Dawson, a fresh start was made for the House of Commons, this time with the Overland stage, for a drive of three hundred and fifty miles to the railway, beginning a journey of over four thousand miles to represent his constituents in the Parliament of Canada.

Dad's Status. A Toronto newspaper man is still chuckling over a joke at his expense, the unconscious joker being his five-year-old son, whose unexpected remarks are the alternate delight and dismay of the fond parents.

The youngster was watching with interest a cash carrier in a store, in which a little box traveled to and fro on wire, the motive force being a spring released by a pull on a handle.

"Dad," asked the child, "if you were a storekeeper you could pull that handle and make the little street car run on the wire, couldn't you?"

"Dad," gave a ready affirmative. "But when you're only the husband of a lady, you can't pull it, can you?" pursued the inexorable questioner.

And daddy is still wondering why he should have been assigned to the Mr. Humphrey Ward class.

Knitting In Bed. Knitting in bed is an excellent antidote for tired nerves.

D. J. WILKES, Licensed Auctioneer for Brant county. Farm Stock and implements a specialty. Office 73 Darling street. Residence one mile south and half mile east of Cainsville.

THEY SEE PROFIT.

Newfoundlanders Interested In Canada's Hudson Bay Route.

Down in Newfoundland, where the business people are ever alert to the possibilities of new industrial ventures in far north waters, steps are already being taken to secure a substantial share of the steamship traffic that will follow the opening of the Hudson Bay railroad. The powerful steel sealing ships that have been built within the past few years will be promptly utilized by their owners or by charterers for this service as soon as the railroad to Fort Churchill or Fort Nelson is completed.

The new sealing fleet in Newfoundland is one of the most remarkable in the world. Until six years ago wooden ships were employed entirely for sealing and whaling, as the hulls could be built of solid wood many inches thick and the bows planked with balks to a thickness of two or three feet and then shod with iron bands as a further security in ramming the ice. In 1906, however, the idea was devised of constructing steel ships of special design and so buttressed internally as to give practically the same strength as the wooden vessels. The latter were mostly crafts making not more than five to seven knots in speed, and the largest only 700 tons burden, so that except for this work they could not be profitably employed and had to remain tied up at the wharves in St. John's for ten months of the year.

Whatever the period for which Hudson Bay is navigable, the fact remains that in the opening there every year and again in the fall, about the closing time, flow ice and bergs will be met on the way, swept south by the Labrador current on its way from the Greenland fastnesses. To navigate successfully such ice-laden waters will be a task for which there are no men in the world so fit as Newfoundlanders, who have been expert at it for generations, and it is probable that the completion of the proposed northern route will mean a great deal to the seafarers of the island colony. Not alone do they venture their ships into the midst of the ice mass, but they will themselves rove miles over the crystal plains off in the North Atlantic day after day in quest of the seals which they hunt from these steamers. Ship owners, therefore, who intend utilizing these waters in the near future, will find in Newfoundland a splendid supply of the best material for the crewing of the ships that will be engaged.

The decision of the Canadian Government to construct the new railway has naturally directed much attention to the possibility of the successful navigation of that region for commercial purposes. The general impression elsewhere appears to be that the feasibility of the route is substantially terminated, but in Newfoundland, where practical problems arising out of the navigation of ice-encumbered waters are a matter of every-day study, the situation is regarded by no means so favorably, and there is much doubt expressed by Newfoundland shipmasters and experienced ice-voagers as to whether it will be found commercially feasible.

M. P. Keeps "Chicks." There are some decidedly interesting points in the career of Aid. W. F. Garland of Ottawa, who has just been elected by acclamation to represent Carleton County in the Commons.

Born in Bell's Corners, Carleton, thirty-seven years ago, his earliest days were spent chiefly at a tollgate there, of which his father was keeper. Probably his first step in the race from a tollgate to the Commons was when he began to teach school at Harbord, Ont. But that apparently was not quite to his taste and he next became an employe of a big lumber firm. Once more he changed his occupation for he became a drug apprentice. In to this he threw all his energy, with the result that he graduated at the Ontario College of Pharmacy in 1901. He went forward rapidly now, and became manager of one of Ottawa's most pretentious drug stores. Finally he purchased this business, of which to-day he is still proprietor.

Last January he won a keen fight handsly when he was elected elderman for Victoria ward. Two Conservative conventions in Carleton he contested, in opposition to the late Edward Kidd, M.P., and he gave the late member his hardest contest a year ago.

Raising chickens is the hobby of this new Commons member. He is a prominent exhibitor at many poultry shows, and is a consistent prize-winner.—Toronto Star Weekly.

Toronto's Dark Side. The whole south end of the city is congested. A visit was made recently to eighteen families and fourteen of these were living in basements, with no more light than a coal cellar window affords. These people are not earning enough to secure decent habitation. The price of living has advanced by leaps and bounds, so that, with the wages earned, only a bare existence is possible.

"Imagine—and it is a true picture—a family with five children living in one room, the children having only dry bread and cheese, no bed clothing, no boots or shoes fit to wear." "Or imagine again, within 200 yards of the church, a child dying for the lack of nourishment, and the parents unable to afford even the necessary amount of milk."—Rector's letter in December Monthly Calendar of St. George's Church, Toronto.

From Half Way Across. By a new agreement effected between the Canadian Marconi Co. and the Newfoundland Government it will be possible to receive radiograms at Cape Race direct from vessels when half way across the Atlantic, as an enlargement of the station there will be carried out.

A Fine Bequest. A Toronto woman who died leaving estate valued at \$500 bequeathed to her husband the sum of \$750, to be paid in instalments of five cents per week.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

MEN WHO CAN BARK.

They Can Easily Secure Jobs as Dog Revealers in Paris.

Can you bark like a dog? If so—and many people can—you have only to go to France to make reasonably sure of a fairly comfortable living, for you can approach the proper authorities in Paris and get yourself enrolled as an official "dog revealer."

As a harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from becoming thin, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden sage and sulphur, combined with other valuable remedies for dry, harsh, faded hair, dandruff, itching scalp and falling hair. After a few applications of this simple harmless remedy your hair will gradually be restored to its natural color. It is then his duty to stand outside his house on his beat and bark as naturally and as vigorously as he can for as long as five minutes if necessary. By the end of that time the authorities calculate, if there is a dog inside that house he will respond by barking also. The "dog revealer" thereupon writes the number of the house in his official notebook, and the tax collector calls the next day. For this the man who barks receives \$0 a month.—Pearson's Weekly.

THE NEXT OLYMPIC GAMES.

Germany Already Planning to Outdo the World in 1916. Germany expects to outdo the world in the Olympic games in 1916. It will have a stadium almost as big as that of Athens, where the first revival was held in 1896, and the field proper is likely to be twice the size of that at Stockholm.

The place has been picked, and the next Olympic games will be held at Grunewald, a suburb of Berlin, about ten kilometers from the center of the city. The place is perhaps not the most accessible in the world, but the beauty of location will make up for many other shortcomings. The most noticeable feature in which it will differ from the stadium at Shepherd's Bush, London, is that the swimming tank will not be inside the stadium tracks, but in the line of the enclosing building. This is intended to give the stadium a more unbroken appearance. The inside track of the two that encircle the German stadium is for running and will be 400 meters (437 yards) long. The outer one is for cycle races and will be 606.25 meters (729 yards) in length.

About twenty small bedrooms will be provided for the use of those who do their training either so early in the morning or so late at night that they not wish to have to make the journey from or to the city. The stadium will seat about 18,000, and there will also be standing room for 12,000. The seats will be open to the sky.—St. Louis Republic.

Eiffel Time Signals in Switzerland. The time signals sent from the Eiffel tower are received not only in France but also in Switzerland, where a number of receiving posts are being set up for the purpose. This is especially true in the watchmaking district, where the time signals are useful. The steeple of the Payerne church serves for a post which M. Blankhart has installed, and he uses wires eighty-five feet long stretched from the top of the spire to four points below. He is able to receive the signals from Paris at a distance of 270 miles with a very simple wireless apparatus.—Scientific American.

Australia's Military Hatband. All Australia's soldiers no matter to what branch of the service they are attached, will wear a similar uniform. The color of the hatband will form the sole distinction. For example, the light horse will have a white hatband; artillery, scarlet; infantry, green; engineers, dark blue; signallers, royal purple; intelligence, light blue; army service, blue and white; medical, chocolate; veterinary, maroon, and the automobile, brown.—London Globe.

A New White Rose. Samuel McCreedy, a Portland (Ireland) horticulturist, has perfected a new white rose of wonderful quality and proportions after ten years of close application. Recently at the autumn show of the National Rose society in Westminster one of the judges described the production as "the greatest white rose that has ever been raised." Experts at the show conceded that it surpassed the famous "Frau Karl Druski."

Carroll—Yes, I came down to the big game so I jumped in here for a "kiss and a cup of tea," as they say. Cora—Aww! glad you did, but the tea isn't quite ready yet.—Jack-o'-Lantern.

"'Tis almost time for russet time To make a hit, And every bard is working hard To tell a lie."—Washington Herald.

He—My father weighed only four pounds at his birth. She—Good gracious! And did he live?—Boston Transcript.

Johnny in his restless roving Found a pot of liquid gold. John, the music strip loving, Thought the glue was slow too. No longer now is roving; He is stuck upon the glue.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Cure and get relief.

THE FIRST GRAY HAIR SIGN OF AGE.

EASY WAY TO PRESERVE NATURAL COLOR OF THE HAIR AND MAKE IT GROW.

A harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from becoming thin, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden sage and sulphur, combined with other valuable remedies for dry, harsh, faded hair, dandruff, itching scalp and falling hair. After a few applications of this simple harmless remedy your hair will gradually be restored to its natural color. It is then his duty to stand outside his house on his beat and bark as naturally and as vigorously as he can for as long as five minutes if necessary. By the end of that time the authorities calculate, if there is a dog inside that house he will respond by barking also. The "dog revealer" thereupon writes the number of the house in his official notebook, and the tax collector calls the next day. For this the man who barks receives \$0 a month.—Pearson's Weekly.

THIS WEEK'S ADVICE is to order soon. These chilly days are finding work for us. Before long somebody will have to do some waiting. Then there will be a rush in earnest. So those who have promised themselves an overcoat will be ahead by ordering ahead here. Skilful tailoring for careful dressers. Harwood.

J. M. YOUNG & COMPANY Agents for New Idea Patterns Use Either Phone 351

Write Ideas For Moving Picture Plays YOU CAN WRITE PHOTO PLAYS AND EARN \$25.00 OR MORE WEEKLY WE WILL SHOW YOU HOW! If you have ideas—if you can THINK—We will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted. The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios or written ideas. Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities. We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP. REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success. We are selling photoplays written by people who "never before wrote a line for Publication." Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure. You Will Earn \$100 Monthly for Spare Time Work FREE Send your name and address at once for free copy of our illustrated book, "MOVING PICTURE PLAYWRITING" Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean for you and your future. NATIONAL AUTHORS' INSTITUTE 1543 Broadway NEW YORK CITY

LAUGHTER LINES

THE GIRL WHO SMILES.
The wind was east, and the chimney smoked, and the old brown house seemed dreary, and for nobody smiled and nobody joked.

The young folks grumbled, the old folks croaked, they had come home chilled and weary.

Then opened the door, and a girl came in, Oh, she was home—very, her nose was pug; and her cheek was thin,

There wasn't a dimple from brow to chin, but her smile was bright and cheery.

She spoke not a word of the cold or damp, nor yet of the gloom about her. But she mended the fire, and lighted the lamp,

And she put on the place a different stamp from that it had without her.

Her dress, which was something in a sober brown, and with dampness nearly dripping.

She changed for a bright warm crimson gown, and she looked so gay when she came down,

They forgot the air was nipping, and the old place, and smoky from base to rafters, and gloom departed from every face.

As they felt the charm of her mirthful grace, and the cheer of her happy laughter.

Oh, give me the girl who will smile and sing, and make all glad together!

To be plain or fair is a lesser thing, but a kind, unselfish heart can bring good cheer in the darkest weather.

—Mary A. Gillette, in The Port Hope Evening Guide.

FOR THE HOUSEWIFE

To boil a ham without much fuel place it in a boiler, cover with cold water and allow it to boil one hour. Then cover up all crevices to keep in the steam and leave it for about 12 hours. The ham will be thoroughly cooked, and if the hour's boiling is done in the afternoon it will be ready for use next morning.

Peasant fashions will be the spring's keynote, according to modes now sweeping Paris, in which is seen the fashion of the peasants—the gay colors of Bulgaria, Roumania, Servia, the characteristic short coat reaching just below the shoulders, the colored embroidery and wooden beads, the short sleeves—all generally peasant, but translated by Paris into beautiful clothes for every woman.

Pretty flowered crepe hats to match or correspond with the latest gowns, the new beret in straw and white chapeau with colored crowns, are seen among the new spring hats on view in New York for wear at the southern resorts.

Don't fail to buy a supply of vegetables now when they are cheap. A little care will keep them fresh all winter.

Don't fail to remember that in keeping kitchen utensils clean this includes the dish cloth. A dish cloth soon becomes a germ carrier.

Don't forget that all matings should be wiped off with a cloth wrung out of lukewarm salt water.

Don't fail to drain coffee from the grounds, and to scald the pot after each meal.

Don't fail to keep the kitchen sink perfectly clean. Germs take delight in an unclean sink.

Don't neglect your canned fruit after the furnace is started. Look it over for any signs of fermentation, and then be sure it is in a cool, dark place.

Japanese Health Rules

The following rules for the general guidance of the people in health matters in health matters have been printed and widely distributed by the Japanese government:

First—Spend as much time out of doors as possible. Bask much in the sun and take plenty of exercise. Take care that your respiration is always deep and regular.

Second—As regards meals, eat meat only once a day and let the diet be eggs, cereals and vegetables, fruits and fresh cows milk. Take the last named as much as possible.

He joined the Royal Marine Light Infantry in 1847 and later served in the Crimean war. He resigned on account of failing health and went to South Africa in 1870, where he resided until his death.

Miss Grace Macgowan of New York, is the guest of Mr. and Mrs. Frank Leeming, who entertain in her honor, Friday afternoon, following the Women's Musical Club concert.

Mr. and Mrs. Carmody spent New Year's in Toronto.

Mr. and Mrs. John Norrie spent New Year's at the latter's home in Beamsville.

Miss Kate Hanley has returned to Loretta Convent, Hamilton, after having spent her vacation at her home.

Mr. and Mrs. Chas. Wilson spent New Year's at the home of the latter's sister, Mrs. Jerome of Hamilton.

Mr. Lew Smith spent New Year's at the home of his brother, Mr. H. Smith, Aylmer.

Mr. Norrie of Lookout, Sask., Miss Jerome, of Hamilton, and Mr. and Mrs. Brooks, of Jerseyville, were week-end guests at the home of Mr. Chas. Wilson.

Mr. Chrysler and Mr. Hartley, of the Faculty of Education, Toronto, spent Tuesday and Wednesday at Brant school.

Miss Annie Smith is visiting at the home of her brother, Mr. E. H. Smith of Aylmer.

Mr. A. Henning of Ker Robert, Sask., visited Mrs. Wilson one day last week.

Mr. John Weldon, of Hamilton, was the guest of Mr. Dawdy over Sunday.

Mr. Stanley Clark of Victoria College, returned to Toronto on Monday after having spent the vacation under the parental roof.

Miss Annie Hawley and Mrs. Dutton spent New Year's at the home of Mrs. Wheeler, of Brantford.

Dr. and Mrs. Morrow, of Hamilton, spent New Year's at the parsonage.

The teachers, Miss Neelands, of Forest, Miss Phelan, of Brantford, and Miss Ferguson, of Auburn, have returned, and in spite of the inclement weather, a good attendance at school is reported.

Miss Laura Dennis has returned, after having spent a couple of weeks at Petrolia.

(From our own correspondent.)
Rev. Mr. Hackett of Kelvin Circuit, is starting revival services at our church.

Rev. Creighton has returned from his holiday visit with his relatives at Toronto. He will assist in the revival services here.

Mr. W. F. Marshall of Sarnia and Mr. and Mrs. Geo. Weir, Paris, spent a few days with their parents, Mr. and Mrs. J. W. Marshall, last week.

Mrs. Wm. Bonny spent New Year's Day with her sister, at Drumbo.

Mr. and Mrs. Chas. Rathour and children spent Sunday with her parents, Mr. and Mrs. Geo. Clement.

Mr. Norman Sharp of Brantford, is spending a few days at his home here.

Mr. and Mrs. Brooks, north of Brantford, spent Xmas with her parents, Mr. and Mrs. S. Radford.

Mrs. Geo. Bawtinham has returned from Grand Rapids, Mich., to her home with her husband, Mr. William Brown, came home with her to spend a few weeks with relatives here.

Mrs. F. T. Cox of Brantford was visiting with her son, Mr. Bert Cox and her daughter Mrs. W. Ryder.

Miss Margaret Marshall returned to Sarnia last Monday, where she will spend the remainder of the winter at Business College.

(From our own correspondent.)
Owing to the very stormy night, there was a very slim turnout to hear Rev. Mr. Neil, on Sunday.

The Christmas tree in connection with the Methodist church Sunday school, was a grand success. Rev. Mr. Neil was unable to get there, on account of the marriage of Miss Garney, and Rev. Mr. Harrison took his place as chairman and filled the office very agreeably. The program was all that could be desired.

The holidays and elections being over, everybody has settled down to business again. Everyone is satisfied with the prospects of the New Year.

Quite a number of weddings has taken place during the holidays. A number more is anticipated.

Miss Hazel Aulsebrook is improving nicely after her operation last week.

Mrs. Warboy is visiting friends at Burgessville.

The Misses Campbell's have returned to their home at Fenlan Falls after visiting their sister, Mrs. John Aulsebrook.

Born, to Mr. and Mrs. W. Stephenson, a son, Congratulations. Mr. and Mrs.

ARE YOU SICK?

If So, We Can Locate Your Disease or Affliction Without Any Information From You. FREE AT OFFICE

A new method of ascertaining and adjusting the physical cause of disease. There are comparatively few people who are perfectly well. The Chiropractic Spine Adjusters have discovered the cause of disease, and their wonderful adjustments restore ninety per cent. of those afflicted.

NO DRUGS—NO KNIFE

D. A. HARRISON, D. C. I., W.
ELLEN E. HARRISON, D. C. L. W.
DOCTORS OF CHIROPRACTIC

Graduates of Robbins' Chiropractic Institute Limited. Members of the Universal Chiropractors Association and members of the Ontario Association of Chiropractors.

OFFICE: 202 Wellington St., Brantford, Ont.

Office Hours—2 to 4 p.m. and 6 to 7:30 p.m.
Mornings and Sundays by appointment.

If This Announcement

Convinces those who have become discouraged through failure to regain health that Chiropractic is at least worth a trial, it has served its mission—Consolation and Examination free.

Definition.

What is Chiropractic? Chiropractic (Kai-ro-prak-tic) is a word coined from two Greek words, Chiro and Praxi (in combination). Chiro-practic which means hand doing or hand practice, one who adjusts by hand any subluxated articulations of the human skeleton frame, especially the 33 bones of the spinal column for the purpose of restoring the normal flow of currents through nerves that were formerly hindered by impingement caused by the subluxation of the bones.

All movements whether normal or abnormal, or in the body are but the personifications of mental equivalents—mental functions guided by Innate Intelligence, creating physical expression.

Diseases are caused by a lack of current of Innate Mental impulses. This is produced by a constricting force placed around nerves by vertebral displacements brought about by muscular contraction or concussion of forces.

Health is restored by completing the mental and physical circuit, the method of which is unique and original and does not in any way inconvenience or prohibit the patient from the ordinary duties of life.

A New Science—The Curative Powers Are Within the Body Itself.

The Chiropractic method is a new science of adjusting the cause of disease without drugs, based on a correct knowledge of anatomy, and especially the nervous system. With this knowledge of the cause of disease and our unique method of adjusting the cause, we have learned beyond question, that the curative powers are within the body itself, and that the cure of disease depends wholly upon the body—upon the Chiropractic method of bringing the functional organism into harmony allowing the Innate mental impulses to flow unobstructed to all parts of the body.

Chiropractic Not Osteopathy.

One of the most frequent questions that a Chiropractor is called upon to answer is this: "What is the difference between Chiropractic and Osteopathy?" The difference is as great as the distance between the poles. Chiropractic does not treat effects. Chiropractors do not manipulate the muscles in any way. They adjust subluxated vertebrae into proper alignment, and it takes but a fraction of a second to do it. The whole object is accomplished when the nerve force is turned on. The Osteopath will spend one half hour to two hours in treating their patients, and then only relaxing the muscles. There is as much difference between Osteopathy and Chiropractic as there is between Chiropractic and the practice of medicine. The Chiropractor confines his work to the Spinal Column ONLY, as that is the only place the nerve can be impinged or where affections can exist.

Quizzes and Answers for Chiropractors.

Do you use electric belts or batteries? No.

Do you use medicine or drugs? No.

Do you practice surgery? No.

Do you practice obstetrics? No.

Do you use rub, slap or use massage? No.

Do you use a stretching machine? No.

Do you hypnotize or mesmerize your subjects? No.

Can you treat me at a distance? We would no more fix you at a distance than your jeweler could fix your watch at the same distance.

Do you have to have faith? No. We adjust six months old babies.

Is there anything in your cure like Christian Science, Faith Cure, Mind Cure, Metaphysics, Suggestive Therapeutics, Mental Science, Osteopathy? No.

Do you cure disease? No. We adjust the cause and nature does the healing. We remove the dams or obstructions that are restricting the life current.

CHIROPRACTIC (Spinal Adjustments).

Remove the Cause of Disease Without Medicine or Knife.

Chiropractor means one who adjusts with the hands. Chiropractic (Spinal Adjustments) is founded on the simple scientific principle that all functions of the body are governed by the nerves; that these nerves all radiate from the spinal column through openings between the vertebrae.

Neuralgia, Asthma, Female Diseases, and the various Diseases of the Stomach, Liver and Kidneys.

As all the motor and sensory powers are transmitted through nerves, it is plain to be seen that the nerves should be free from all abnormal pressure. Strange, but true, all the nerves of the body may be freed by adjusting the spinal vertebrae with the hands.

Removing the Cause. Chiropractors have remarkable success in removing the cause of Appendicitis, Deafness, Asthma, Rheumatism, Lumbago, Lamé Back, Constipation, Piles, Female Diseases, Stomach and Kidney Trouble, Nervous Prostration and Pneumonia.

NO LOCAL EXAMINATIONS used, as they are unnecessary.

Lady Patients. In no line of disease do we have better success than in the ailments which afflict womanhood. Benefits are promptly shown without the annoyance which they are subjected to under the drug treatment. The proper nerve supply being restored, the normal functions are quickly re-established.

Why Am I All Stirred Up After Taking Spinal Adjustments? Disease is a perversion of the normal law. To get well requires the time that is necessary to rebuild these abnormal tissues. To accomplish this means that all diseases must retrace their steps. Sometimes this process seems uncalculated for, but it is all for the best: it is then that you should grip tightly and remain by your chiropractor, and in a few days you will generally see good results.

Motherhood Made Easy. Motherhood should not be as painful and dangerous as it is, if in nature had its own way it would not be so, but it is in a great majority of cases, there are some of the nerves impinged through which nature controls the organs of generation and in that way makes them inactive. This would not be so if all nerves were freed to work in harmony. This has been proved by great many ladies who have taken Chiropractic spinal adjustments.

People Are Sleepless. When anything new in the light of a radical departure from what people have been educated to believe is brought before them, it is human nature to be skeptical. The man who invented the telegraph, the man who discovered the circulation of the blood were at first looked upon as lunatics or fakirs. But nothing can down truth. Many other great discoveries which at first met only with scorn, have been recognized as blessings of scores of years.

The science of Chiropractic but a few years ago was unknown. To-day it is known only in communities where it has long existed, and its marvellous results in the banishment of disease. People must believe the evidence of their senses. If a person comes to a Chiropractor with a disease which doctors have failed to cure, and that person is completely restored to health, he must believe he is not dealing with a long term sick; the Chiropractor tells him why he is sick, and proves that he is correct by giving the patient adjustments that allow nature to restore him to health.

Chiropractic gives nature a chance to make you well.

CHIROPRACTIC.

Is Based on These Two Principles:

1. Sub-Luxation (partial displacement) of Bones causes Pressure on Nerves.

2. PRESSURE ON NERVES causes disease.

The cause of disease has been and is yet mysterious to the great mass of humanity, but the mystery has been solved by the Chiropractor (spine adjuster).

My business is to adjust the cause, to RELEASE THE PRESSURE on the nerves and to restore normal action, therefore normal functions and perfect health. I do not rub, massage, knead, manipulate or treat disease.

I ADJUST CAUSE. My philosophy of taking off the pressure has the more rational claim upon all sufferers. I give a logical reason for the cause of disease.

Acute Cases. Acute cases are often relieved in one or two adjustments. In cases of long standing, the vertebrae have their forms changed by long continued pressure and time is required to get them back to normal position and to restore the freedom of nerves. That this can be done has been proven beyond the shadow of a doubt in 90 per cent. of the cases adjusted.

Marvelous results follow our system of Spinal Adjustments, and we stand ready to give you abundant testimony of persons who have been restored to permanent health by our Spinal Adjustments. If you have any of the following ailments stop taking drugs. Go to a competent Chiropractor and have him take off the pressure, and health will be the result: Appendicitis, hysteria, blood diseases, heart troubles, insomnia, Bright's Disease, kidney diseases, childbed fever, lumbago, constipation, Locomotor Ataxia, consumption, (1st stages), liver diseases, bladder trouble, indigestion, bowel trouble, Lung Trouble, Diabetes, Meningitis, Pleurisy, Gripe, Rheumatism, Sciatica, Spinal Diseases, Stomach Trouble, St. Vitus Dance, Shortness of Breath, Tumors.

If your ailment is not mentioned, do not become discouraged; my space is limited.

I make it possible for nature to restore health WITHOUT drugs or knife.

This means YOUR DISEASE. With Interrupted Nerve Force Health Is Impossible.

Without nerve force the blood cannot circulate properly. The lack of circulation means strangulation, and strangulation causes many diseases, such as dropsy, tumors, running sores and various so-called skin diseases.

Chiropractic—Nature's Method. Frees the circulation, thereby permitting the refuse to be thrown out of the body through the natural channels.

Pressure upon Nerves causes such diseases as Paralysis, Rheumatism,

GRAND VALLEY RAILWAY, Cars leave for Paris at 7:05 a.m. and every hour thereafter till 10:05 p.m. On Sunday the first car leaves at 8:05 a.m. and then every hour. Cars leave for Galt at 7:05 a.m., 9:05 a.m., 11:05 a.m., 1:05 p.m., 3:05 p.m., 5:05 p.m., 7:05 p.m., and 9:05 p.m., Sunday included.

FIDDED FOR A FARM. How a Young Danish Sailor Became a Canadian. How little the present generation realize, as they enjoy the fruits of the labor of the brave old pioneers, what strange bits of history are connected with the homes in which they dwell, and the fertile fields that were once unbroken forests.

Many valuable things in this old world have, figuratively speaking, been bought for a song, but surely truth outstrips fiction in a case where 200 acres of fertile land in Upper Canada were the reward tendered, accepted, and given for a few tunes on the fiddle.

The above strange chapter in the history of Upper Canada is narrated by Mr. F. Elliott, who obtained his facts from Rev. Peter Cober, at present residing in New Gormley, and who is a descendant of the hero of the tale.

Sometimes about the year 1790 a young man named Holms left Copenhagen, Denmark, to seek his fortune, sailing the high seas. In time he found him one of the best of his kind, that day lying between Liverpool and New York.

The life of a sailor in those days was a hard rough experience. Indeed, coarse food, rough habits, and long weary voyages made it anything but a "Grand Sweet Song," and our hero was getting heartily sick of the whole business, and resolved to try to escape at the earliest opportunity.

One night, when it was Holms' turn on the night watch, he resolved to put into execution a premeditated plan that was daring, in his estimation. Climbing to the top mast he fastened a long rope reaching from there to the upper deck. Grasping it firmly with both hands, he swung his body like a pendulum back and forth with ever-increasing momentum to and from the direction of the dock.

At last the supreme moment arrived, and as the rope sprung, his extraordinary length landward, he let go and fell in an unconscious condition on shore. How long he remained in that condition he never knew, but as soon as he regained consciousness he struck for liberty.

Leaving the town behind he got into the sparsely settled country, where in the shelter of the forests he spent his first few days, and traveled on. On what Holms subsisted on these marches to the interior of New York State is not on record. Feeling more safe now from his pursuers he applied for shelter at farm houses, and after the manner of pioneer days, was hospitably received.

One evening a social party gathered at the hotel where he lodged, and have a country dance. Unfortunately while they had a fiddle, there was no fiddler. In some way they elicited the information from the young Dane that he was a violinist, but he had refused to play. Finally a man in the crowd said, "If you play for us to-night I will give you a deed for 200 acres of land in Upper Canada."

Of course he accepted it, and the fiddle was well supplied. After the deed was transferred, Holms in course of time resolved to tramp to Canada and view his new possession. He took it to Lot 30, Con. 3, Markham, near Richmond Hill.

It was covered with solid pine and hardwood brush, and the sturdy Dane cut out a few acres, and began to settle himself. With determined vigor he succeeded, and the log house which he built was taken down about ten years ago. The Holms moved many years ago to the vicinity of Waterloo, to a new settlement, where many of the third generation still reside. Rev. P. Cober was a grandson of Mr. Holms on his mother's side.

A Younger Politician. William Folger Nickle, who received the honorary appointment of mover of the address in reply to the Speech from the Throne in the Commons, belongs to the younger body of the younger politicians who came in at the last general election. He belongs to the legal profession, and has already made his mark among his fellows in the lower chamber. Nickle is a Kingston native, and first saw the light of day forty-three years ago in the old garrison city. He is one of the many band of Whittier men who graduated from Queen's Park to Parliament Hill in 1911, in fact Nickle resigned a seat at Toronto to carry the anti-reciprocity banner. He had one chance to win his spurs last session, and did not allow the opportunity to slip. He successfully manoeuvred the Queen's University bill through, and in spite of some opposition during the debate with the conservatism of his "fresh" legislation, Nickle is one of the young men born for politics. He should go far.

It Was Safe. Parliament re-assembled under the shadow of the "Arctic" system, a epidemic which recently swept Ottawa and which the health authorities ascribed to the drinking water supplied to the people of the capital. Many members spent a couple of days in the hospital, and some of them were equipped with a personal, home-prepared dispensary of drugs and antidotes. All expressed one opinion: On the second day of the session, Mr. James Douglas, the Liberal whip for Alberta, sent a page for a glass of water.

"Johnnie," he questioned anxiously, when the 2nd returned, "is this Ottawa water?" "Yes, sir," promptly replied the boy, "but it's been fertilized."

Good Roads Lugged. Throughout the year, not one of the dozen counties in Ontario which considered the good roads agreement with the Government, entered into the scheme. Under this the Ontario Government contributes about one-third of the cost of the road improvements. Counties throughout Ontario had hoped that when the Dominion Good Roads bill passed the Senate, good roads could be constructed in Ontario and the Dominion Government paying half the cost. When the bill was thrown out they lost interest.

Electric Restorer for Men. Anything injurious to the health of men, such as overwork, worry, and all the things that go to make up a man's life, will be destroyed and restored by the use of the Electric Restorer for Men.

"Chick" O'Connor, who played first base for the Quincy, Illinois team last season, was ordained in Holy Name Cathedral, Chicago, re-

cently, and is now the Rev. Father Edward O'Connor.

Howard Fahey, the Dartmouth player signed by the Philadelphia Athletics when the college season closed last June, has been turned over to the Los Angeles club of the Pacific Coast League.

Bill Dahlen will not be new to Augusta. Bad William went there with the Boston Nationals under Josephus Kelley and Francois Bowerman. It's a pretty good town at that, and, aside from Macon, has the only grass outfield in the south, and a very fine infield.

The Brantford Curling Club will open the season to-morrow night (Friday) by a game between rinks chosen by the President and Vice-President. At the close of the game refreshments will be served at the rink. Previous to the game a general meeting of the Club will be held for transaction of routine business. Appointment of skips to the tankard games and other matters that may come up.

They Helped Her Husband and Cured Her Own Rheumatism, Dropsy and Gravel of Thirteen Years' Standing.

CANDO, Sask., Jan. 6—(Special)—"I would not be without Dodd's Kidney Pills in the house," exclaims Mrs. John C. MacKenzie, of this place. And those who have heard Mrs. MacKenzie's story do not wonder that she is so emphatic.

"I was a victim for about twelve or thirteen years of Bladder and Kidney Trouble," Mrs. MacKenzie says. "It grew into Rheumatism, Dropsy and Gravel. Doctors attended me but they did not do me any good."

"My husband had used Dodd's Kidney Pills with good results so I decided to give them a trial. Before I had finished the first box I was greatly benefited."

Dodd's Kidney Pills benefit and cure permanently all who suffer from any form of Kidney Disease. They cure the kidneys and cured kidneys strain the poison that causes the diseases out of the blood. That's why Dodd's Kidney Pills never fail to cure rheumatism, Dropsy and Gravel.

NEWPORT.
(From our own correspondent)
Mr. W. Cook delivered a splendid sermon on Sunday night which was very much appreciated.

Rev. Mr. Keefer, of St. George will take charge of the service next Sunday night.

Rev. Daniel Wilson of Minnesota, is the guest of his sister, Mrs. James Bailey.

Mr. and Mrs. A. Hunt of Brantford spent over Sunday with Mr. and Mrs. Mellican.

Mr. and Mrs. Will J. Muir and son and Miss Ruby Slaght of Brantford, spent the week-end with Miss E. Charlton.

Mrs. Otto Eitel of Courtland is visiting her parents, Mr. and Mrs. Bilger.

Mr. Harold Fisher of Gull Lake, Sask. spent a few days this week visiting his uncles, Mr. Henry and Mr. Thomas Phillips.

Mr. Greenwood and son Chester of Echo Place, spent Tuesday with Mr. H. Phillips.

Mr. and Mrs. Will Wheeler, River Road, entertained a number of their relatives at dinner on New Year's day.

Mr. and Mrs. James Black and daughters, spent New Year's with Mr. and Mrs. T. Hargreaves.

The Misses Alice and Corrie Emmott, spent a few days at Lynden.

MAGIC OF WIRELESS.

To Bring "Blind Lighthouses" in Touch With the Outer World.

There was a time when the keepers of lonely lighthouse stations were greatly to be pitied and when some went insane from solitude. Soon these men will be in touch with the affairs of the world and learn the news as quickly as the man who reads the latest editions of the newspapers.

For it has been proposed that in some of the lighthouses along our coasts a wireless equipment should be installed and supplement the work now done by the beacon light. The advisability of doing this is being carefully considered by government experts, and tests are being made with these "blind lighthouses," as they are called.

This plan seems very reasonable. Today these great land beacons throw out a flash of light, or a beam of light, so that a vessel can recognize a particular lighthouse miles at sea. In very clear weather the most powerful of these lights are visible upward of forty miles, most of them, however, having a much shorter range.

A warning by wireless may, of course, be thrown hundreds of miles, telling a vessel many hours in advance that she is approaching a dangerous coast. Nor is this all, for in the experiments now being carried on these wireless signals do more than warn ships at sea of the perils of the shore—they can enable a ship to calculate its exact position, even should it be in the midst of the thickest fog or most blinding storm. The wireless or blind lighthouses flash their position, and the master of a ship receiving messages from two or more such points on shore can determine his own position by a simple process of triangulation.

Such an extension of the wonderful system of wireless communication makes us realize that we have probably only begun to enjoy the benefits that this great discovery is destined to confer on humanity.—Francis A. Collins in St. Nicholas.

FEAR OF WAR.
Fearful Financial Burden It Places Upon the Great Nations.

War debt began with the nineteenth century. Not until the establishment of constitutional government had nations any credit in the world of finance. The bond of a king was notoriously had security.

Since 1800 the war debts of the nations have grown by leaps and bounds. That of Europe as a whole amounts to more than \$26,000,000,000 and interest at the rate of \$1,150,000,000 per year.

All these "land-crawlers of ciphers" represent sums which have never been paid, so long as the present system of national armament goes on.

At the present rate of expenditure the four countries of Germany, France, Great Britain and the United States will spend in the next forty years, the life of one generation, for the support of armies and navies an amount sufficient to build 20,000,000 country and village houses at an average cost of \$2,500 each.

With father, mother and four children in each of these houses they would furnish homes for 120,000,000 of people, which is more than the total present population of these four countries living in villages and the open country.

Thus the fear of war is consuming the homes of the rural and village population of these great nations in a single generation.—Albany Times-Union.

THE CEMENT GUN.
There is a cement gun which is used to apply a mortar covering to structural steel work. A mixture of dry sand and cement is shot from a nozzle by compressed air. A second hose delivers to the same nozzle a supply of water under pressure, and the mixture of sand, cement and water is shot out with a velocity of about 250 feet per second.

The nozzle is arranged to produce a thorough wetting of the material to be covered. The concrete surface to be covered is covered with the grains rebound until the fine cement mortar, which adheres immediately, has formed a plastic base in which the coarse particles become embedded. A covering of any required thickness is then rapidly built up. One of these guns has been used on the Panama Canal in covering the sides of the Culbert cut with cement to prevent the unstable earth from sliding into the canal.—Harper's.

ROYALTY AND THE OPERA.
The Berlin opera cost the Kaiser 1,000,000 marks a year. He bears the loss without indulging in any agonized wails. The Austrian emperor is not far behind Kaiser Wilhelm, for he gives more than \$150,000 a year to help out the opera, besides \$100,000 for the playhouse, and the emperor's contribution for the opera house in Munich is 250,000 marks; in Dresden, 450,000. Even the grand duke of Hesse uncompromisingly pays 210,000 marks annually to keep the theatrical and operatic performances at Darmstadt at a high level.

A QUEEN'S TELEPHONE.
The queen of Spain possesses what is said to be the most remarkable telephone in the world. It is of solid silver with a gold transmitter and is supported by four bronze figures, among which a boy leaning against a Spanish coat of arms is conversing by telephone—a golden wire—with an English girl in close proximity to a British lion.

Above the mouthpiece are two goddesses. This work of art stands on her majesty's writing table and connects with the royal nursery only.

TO CURE A COLD IN ONE DAY.
Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box, 25c.

Are the Fly and Mosquito Dangerous?

The fly, with spangly feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles—capable of warding off these disease germs. Dr. Pierce's Golden Medical Discovery is a blood medicine and alternative made entirely without alcohol, a pure glyceric extract of bloodroot, ginseng seed, Oregon grape root, quercin root, mandrake and stone root, which has enjoyed a good reputation for over forty years. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes Mr. MICHAEL MAQUET, of National Military Home, Kansas. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back so I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets are for liver ills.

Sure-Grip Rubbers

—Rubbers that grip the ice and prevent one from falling. Don't take any chances—it may cost you a broken limb, thus necessitating an absence from your work and a doctor's bill. Get a pair of Sure-Grip Rubbers from us and be safe and well.

Slush-proof Shoes

NOW is the time you shop men need waterproof footwear. Never were we better prepared to meet that need than right now. Come in and have a look at our largest stock of Farm and Foundry Shoes—the largest in Brant County.

Narrow Escape to be

(Courier Leased Wire).

ST. JOHN'S, Nfld., Jan. 10.—Capt. Burke and the eight members of the crew of the Fishing Schooner Evelyn were hauled to safety on the steep cliffs at Isle Aux Bois. The schooner, which had been driven ashore, was wrecked on the ledges off shore.

The wreck of the Evelyn had left her crew helpless as their boats had been carried away. Hope of reaching shore safely was slight until a boat manned by three Amherst fishermen put out from shore and reached the Evelyn's side.

When the transfer of the schooner's crew from the wrecked vessel to the small boat had been accomplished.
