**THE HERALD.**  
FREDERICTON, JULY 2, 1892.  
LION—A POLICY.

The elimination of the Merchants bank because its manager closed out his account and "ran him in" for not retiring his notes when they came due, has published a pamphlet in which he says the local opposition must find a policy. If some one would only pay the funny fellow's debts and get him out of the custody of the govt., so that he would not stick his ball if he went too far, we would advise him to start out in the wake of the vessel that took Dr. Stockton to England. If he could sail out into the middle of the Atlantic and find the place where the leader of the opposition leaned over the rail of the tossing majestic, and donated the contents of a sour stomach, and a soothing bibe to the fishes of the sea, he might find a cleverer policy.

**THE TRADE CONGRESS AND SIR CHARLES TUPPER.**  
The trade congress has been in session in London during the week. Sir Charles Tupper was present, and undertook to take charge of the meeting and force his views upon the delegates, but met with a decisive rebuff which seems to have made him very angry. Sir John Lubbock had made a motion favoring a free trade union of Great Britain and the colonies, to which Sir Charles moved an amendment favoring differential duties for the colonies as against other nations. The amendment was strongly opposed by the English delegates, who held Sir Charles's idea up to ridicule. The sentiment of a mother country in regard to matters of trade and commerce, was no doubt adequately expressed by Sir Thomas Farrar, when in showing the impracticable nature of Sir Charles Tupper's scheme, he said: "Should Great Britain forego fifty million of American trade in order to secure a problematical eleven millions from Canada?" Sir Charles' amendment was lost by a vote of seventy-eight to thirty-four. There is but a small grain of comfort here for those Canadian protectionists who wave the old flag at election time, and howl about the liberal policy of the disunion against the mother country.

**THE BRITISH ELECTIONS.**  
The British parliament has been dissolved and the two great political parties are waging the fight of the century for supremacy. There is practically but one issue in the contest, and that is home rule, pure and simple. Every other interest has been subordinated, and every other question, great or small, has been for the time cast in the shadow and the people have been asked to go to the polls and say by their ballots whether Ireland is to have home rule or not. Indeed, so determined is Mr. Gladstone that this question shall be settled one way or the other before his life's work is ended, that he has resigned his ultimatum to the electors in which he virtually stakes the destiny of his party on the decision of the people in regard to this burning question of the hour. In order that his opponents may not be able to say, during the progress of the campaign, as they have said, not without good reasons in the past, that his scheme of home rule is indefinite and immature, he has published an outline of his home rule scheme, and on its merits he has decided to stand or fall. No matter what one's personal convictions on the subject may be, there is something supremely grand in the sight of the greatest English statesman of his day, fighting the last great battle of his life for the cause which he considers just and right, and staking his own chances for success as well as that of the great party he leads on the result.

**THE REPORT OF THE FARMER DELEGATE.**  
After a long delay the government has brought down the report of Mr. McQueen, the Scottish farmer delegate who visited the maritime provinces a year ago. Mr. McQueen was instructed to report upon the agricultural prospects of the maritime provinces, and their desirability as a field for emigrants from the mother country. It will be remembered that the government delayed bringing down the report, and it was then stated that its unfavorable and adverse criticism upon the trade policy of the government was the real cause of the delay. The following extract from the report speaks for itself.

"Farming has for a number of years (but more clearly since the McKinley bill came into operation) been on the downgrade and in a very depressed state. Nearly all the young people are leaving the old folks on their farms and going to the States; the land consequently is badly farmed and getting run down. Houses and buildings in many instances are falling out of repair. Any number of farms can be purchased at very low figures, often for less than the houses and buildings on them cost. A large number of farms are heavily mortgaged. The output of coal is increasing very slowly and the iron industry is not developing as it ought to do. The census returns issued some months ago showed that the increase of population in the maritime provinces during the last ten years was small, not at all commensurate with the natural increase of population and the number of immigrants coming into the provinces.

"The question naturally arises: What is the cause of this depression, and can I recommend brother farmers, laborers or artisans to emigrate to the maritime provinces?"  
"In answer to the first question, from my own observation, and from all I could hear and learn, it is from the want of better trade relations with the United States, the natural market for their surplus produce. Some may say, 'You have nothing to do with this question, it is out of your province and touching on politics.' But I hold that it is so closely associated with our mission and the object of our report that we are bound to bring it forward."

"In answer to the second question, as to recommending emigrants to go to the maritime provinces, until there is unrestricted reciprocity with the United States so that the farmers shall have a better market and be able to command higher prices for their produce, I must decidedly say, No. I went to the provinces unbiased and unprejudiced and have endeavored to give an honest and just report."

**THE BAPTIST ASSOCIATION.**  
Considerable Important Work Done—Reports Submitted.

The N. B. Baptist association held a session on Saturday afternoon and after reading of minutes adjourned, giving place to the N. B. minister's immunity association. The board of management brought in its report which was adopted. Officers were elected as follows: Rev. W. E. McIntyre, president; Havelock Coy, secretary; A. H. P. Randolph, treasurer, and a board of directors. After other routine business was transacted, the meeting adjourned.

The evening session was opened by prayer by Rev. S. McCook Black, of the Messenger and Visitor. Report on home missionaries was then read as follows:  
Some sixty-two fields have been assisted in maintaining ministerial labor during the convention year, many of those for the whole year, others for part of the year. The reports received show 620 added to the churches by baptism, 138 by letter. Three churches have been organized on the continent where we had no place before. In the case of one of these churches five stations have been opened up so that an entirely new field has been organized. The expenditure for the year will probably be about \$10,000. At the present time we need about \$3,000 to bring us out clear of debt.

The following fields in the N. B. west section have been supplied and assisted all the year: Nashua, Cardigan, Rockland, Florenceville, Aberdeen, Andover, Tobique and St. Francis. Repeated attempts were made to settle men on the Canterbury and Queensbury fields, but without success till a few weeks ago, when a young man was sent to the Queensbury field whom it is hoped will remain with them a year; and the Canterbury group is filled by an efficient student supply. A young man has lately been sent to the Wakefield, Simonds, Avondale and Bloomfield churches in the expectation of having those churches worked as a group. The New Jerusalem and Wingham churches are at present cared for by a worthy young man in connection with Greenhill Hill church. Brother Young, general missionary, has spent considerable time during the year in labor among the weak churches of the association.

An attempt has been made by the secretary of home missions to group Grand Lake 1 and 2 and Bangs churches under the pastoral care of one man, but without success. An attempt at the same time was made by our secretary to group the little church at Wiggins Cove with Mill Cove, but without success.

Your committee would suggest that the association recommend to the churches present that grouping where considered expedient by the secretary and request them to be willing at least to give it a fair trial, as it has been found to work so well in many instances.

We think upon the whole may be regarded as the best year in the history of our work. The relatively introduced to employ but few men for short missions is working well and the general home missionaries sent over fields that ever before.

Signed on behalf of committee, M. P. King, J. W. A. Young.  
The secretary of the home mission board, speaking on the work of that institution, said that the work of home missions is that of preaching the gospel to the poor of our own land. As this is the work, it should be the work of the denomination inasmuch as Christ gave evidence of his Messiahship, that to the poor the gospel is preached. Further, the law of Christ requires that they who are strong ought to bear the burdens of the weak. The different churches of the three provinces constitute a family of about 200 members or groups of churches. About one third of this number are dependent or need the help of the denomination. This help they may receive through the Home Mission Board. To render the help they need the board should have \$1,000 per year, whereas it has only \$800.

The work has been blessed, and during the last twelve years upwards of 6,000 have been added to the churches through the efforts of the missionaries, supported in whole or part by the Board. Thirty-five churches have been organized by the efforts of these missions during the time named.

The year now drawing to a close has been a very prosperous one, over 730 have been brought into the churches. All the missions fields of the association are at present supplied by laborers, and our hope is that most, not all, will remain on the fields for some time.

All departments of our work are dependent on the home mission work. If the denomination is to become strong to carry on the foreign mission work, it must push on the home mission work. As we can make our weak churches strong and multiply the number of the churches we become strong in every department of our work.  
J. W. S. Young, general home secretary for the Maritime provinces, followed.

Monday morning's session opened with prayer by the Rev. W. J. Stewart. Revs. B. H. Thomas and T. Todd were elected members of the N. B. educational society. Rev. Dr. Day submitted report of committee on temperance.

The Rev. S. D. Irvine then introduced the following resolution: Resolved, that the Western Baptist Association of N. B. express its opinion that the proposed system of giving Dominion Government grants to various denominations on a per capita basis for mission work among the North-West Indians is unwise and unsound as an economic principle and should not be carried into effect. Holding as we do the principle of entire separation of Church from State, we hereby urge upon the notice of the Dominion Government the danger of aiding Christian bodies into a jealous conflict over their respective rights and claims for mission schools. This resolution was received, discussed and adopted unanimously.

**CANTERBURY STATION.**

June 28.—The ice cream social given by the members of the Episcopal church here on Saturday, 11th June, was a great success. A very large crowd attended and enjoyed themselves. The managing committee, R. Scott and E. London, spared no pains to make it a success. The social was held on the beautiful grounds adjoining the rectory. The tables were set in the open air. These were under the management of Mrs. R. H. Scott and Mrs. John Glew who must have been pleased at the complimentary remarks made in regard to the appearance of the tables. A handstand was erected near by and excellent music was furnished by the Woodstock cornet band orchestra led by prof. Barry. One of the principal attractions for the large crowd that attended, was the fine line of sports which were arranged for the afternoon. Prizes were given in all the contests and were won by the following: 150 yards foot race, Wallace Smith; 100 yards, Adam McPherson; 100 yards foot race, boys, Barney Grant; thirty yards race (girls under twelve years) Miss May Grant; high jump, Fraser Yeness; three standing jumps, James Morrisey. We wish to thank the ladies of the other denominations who very materially assisted us both in cooking and in attending the social; and also the gentlemen in St. John and St. Stephen for the many handsome presents.

The Kickapoo Indian medicine company have been here for the past two weeks advertising the Indian remedies. Their concerts were well attended and a large quantity of medicine sold. A number of valuable prizes were given away. That for the best essay on the Indian tribes of the west, their habits and customs, was taken by Miss May Grant.

John A. Lawson has returned from the west where he has a good situation at a good salary. Everyone is pleased to see Jack.

The road machine, which was purchased by the government to be used in the parish of Canterbury and North Lake and which was regarded by some as only capable of working on sandy ground, and by some was said to only spoil the roads, has been in operation for a few days in this parish, and has demonstrated to those most opposed to it, that the machine is a success and that a large amount of road can be made much cheaper than by the old method. Every one who has seen the machine in operation, or has traveled over the well turfed stretches of road which have been built in such a short time, are much pleased with it and are only sorry that it had not been in operation here for a few years. The machine is in charge of J. W. Dickinson, a competent man and good worker.

**YORK MILLS.**  
June 24.—There was quite a large number of friends gathered Wednesday at the residence of George Brown to witness the marriage of his eldest daughter Annie to James Patterson of Tweedside. The ceremony was performed by the Rev. A. A. McLean. Over seventy guests were invited. A few of whom were prevented from coming by the rain. An abundance of good things were provided for the occasion.

The bride received quite a number of presents.  
A public examination was held in the school house. The pupils were examined in the different branches as high as Grade V and acquitted themselves with credit both to themselves and their teacher. There was quite a number of visitors present. The afternoon closed with recitations and compositions by the members of the 5th class. A farewell letter to the teacher was read by Maggie Kelly, as follows:

Dear Friends,  
It appears that the task of writing a farewell letter to the teacher has been allotted to me. In behalf of the children (my schoolmates) I must say we are all very sorry that she thinks of leaving us. We have been very patient with us when we were inattentive or unable to study, and although I know we have often annoyed her with our impatience and our carelessness, she has always been kind to us during the time she has been with us. We know that she has worked for our good and has not wearied in well-doing. She desires me to thank the people of York Mills for their kindness to her during the three terms she has been with us and hopes that the friendships formed may long remain unbroken. Dear schoolmates I bid you farewell for a short time but in our pleasant occupation let us not forget the kind counsels of our teacher. Dear teacher we bid you farewell and may you be happy and successful. In whatever path you may choose, is the sincere wish of your scholars,  
Maggie M. Kelly.

Miss Thomas has resigned her position as teacher at York Mills. She has been painstaking and diligent throughout, and the parents as well as the children are sorry to lose her.  
The York Wollen Mills are closed for the present.

**FREDERICTON JUNCTION.**  
June 28.—A very sad accident occurred Saturday afternoon. Havelock Dinsmore while attempting to cross the track at the Junction, was struck by the gravel train and carried several yards. He received some severe injuries, but under the skillful treatment of Dr. A. J. Murray, he is recovering slowly.

David Mullin, who lives a few miles from Fredericton Junction, while attempting to get on his horse's back the other morning, was seized by the horse who threw him up in the air, and seized him the second time by the arm. He was found in an unconscious state. Help was summoned at once and a few days after his arm had to be taken off at the elbow. It was a very sad accident, and as the horse is inclined to be cross at different times, we think that something should be done with it at once.

Willie Alexander and wife, of Woodstock, spent Sunday with us.  
The teachers of our school are working very hard now preparing for the grading examination. The examination in the advanced department commenced on Monday. Judging from the tired looks that the young ladies have at night, we think that they are studying very hard. We wish them every success.

The public examination was held on Friday, 22d. A large number of visitors were present. The questions were answered promptly and correctly and we are safe in saying that the efforts of S. D. Alexander during the last year have not been in vain.  
The pupils on Sunday was occupied by Rev. Gideon Swim, of Carleton county.

**EEL RIVER LAKE.**  
June 28.—The school at Eel River Lake is taught this term by Ella M. McMullin who is well liked by all her scholars. William Mackey has just put in a crew peeling bark.  
Mr. Anderson, M.P.P., has made a visit through from Canterbury to Forest City and has started the road machine which is doing good work. The inhabitants feel very proud of the government and think the machine will be a great benefit in the next election.  
The crops are looking quite favorable after the fine rain we had, which was needed very much.

**AROUND THE WORLD.**

**The Week's Events in Brief—The Cream of our Exchanges.**  
Potato bugs are reported to be swarming in all sections of Prince Edward Island.  
The electric railway in Yarmouth is expected to be ready for traffic by the 15th July.  
Articles against Prince Bismarck in the North German Gazette have caused a great sensation at Berlin.  
The Joggins railroad and coal company has signed a contract with the I. C. R. for 60,000 tons of coal.  
I. E. Stewart, at St. Marys, Ont. aged ninety-two, on Thursday, while walking in his barnyard, was attacked, killed and partially eaten by hogs.

Hon. Edward Blake sailed Sunday for Queenstown. The home rulers of the ancient capital will see the future member for Longford a good send-off.  
The state department is informed that yellow fever prevails in Honduras, and that the steamer Dorian has sailed for New York without a bill of health.

Mrs. Humphreys, wife of the Vicar of Waverley, was yesterday sentenced to three months imprisonment at hard labor for brutal treatment of a servant in her employ.  
The Post's Paris correspondent says the encyclical will propose the canonization of Christopher Columbus, on the grounds that his discovery of America was a divine inspiration.

The Executive of the Scottish Home Rule Association are dissatisfied with the vagueness of Mr. Gladstone's utterances regarding the establishment of Home Rule in Scotland.  
Bishop Courtney administered the rite of confirmation in St. James' church to John, Sunday morning, to twenty-six persons. Quite a number were confirmed at St. John's church, Wolfville.

The royal commission on prohibition is now completely organized and regularly working, daily sessions being held in Sir Joseph H. Dixon's office. The meetings are not yet open to the press.  
A despatch from Colmes Mills says that three negroes who confessed to having assaulted two white women near Spurgus, last Friday, were shot to death the same day by fifty masked men while being taken to jail.

While Mr. Gladstone was driving on Saturday to address a meeting at Chester, a woman threw a piece of hard gingerbread which struck Mr. Gladstone on the nose, bruising that member and causing it to bleed slightly.  
The Duke of York was formally commissioned commander of the cruiser Melampus on Friday. The Prince of Wales and other members of the Royal family bade him farewell on board the ship before he started on a two months' cruise.

It now appears that Cream, now up in London charged with poisoning, is held by Dr. Thomas Neil Cream of the McGill medical class of 1876, amongst whom were Arthur Stars of Carleton, N. S., and a great number of Quebec and Ontario graduates.  
Monday evening an Italian merchant named Joseph Cornelli, aged seventy-five, worth \$70,000, left home at Montreal to take a walk on this morning his coat, hat and umbrella were found on the wharf. It is certain that he has committed suicide.

The quantity of lumber hung up at the Aroostook falls is about twenty-five millions. It will require a great rise in the river to break it, the recent rains have done little or nothing to raise the water up in the northern part of Maine and New Brunswick. Part of it came out on Thursday.  
The second annual exhibition of the Montreal Exposition company will be held from the 15th to 23rd September. The grounds have been enlarged and extensive alterations and improvements have been made. Increased facilities provided. Reduced rates on railway and steamboat lines.

While Harry Simonson, son of James Simonson, of Jacksonville, and two men were swinging a boom in Collins' mill pond at Boundary Line Wednesday afternoon, the boat upset and threw them into the pond. The others swam ashore, but Simonson who could not swim, sank. It is thought he took a cramp.  
Telegrams received in London from Mozambique and Zanzibar report the death of Capt. Stairs. The despatch from Mozambique says: "The Katanga expedition has arrived at the mouth of Zambesi. Capt. Stairs, who was in command, died of his wounds on the 25th. The expedition will shortly sail for Rooyana."

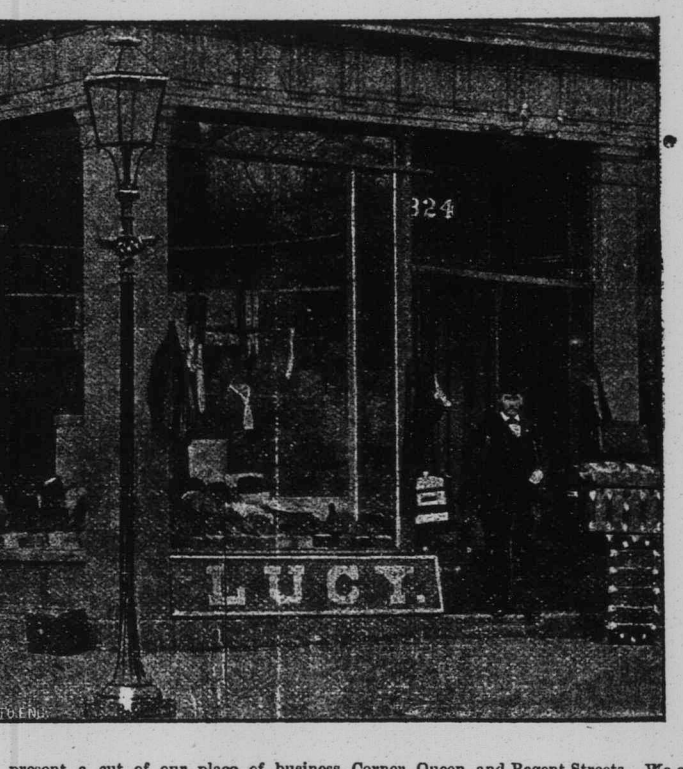

An attachment for \$100,000 was filed Wednesday with the registrar of deeds by the deputy sheriff for Lippman Toplitz of New York against the B. O. Benard Manufacturing Co., Westboro, Mass., manufacturer of aeroplanes. This is the action to recover \$80,000 said to have been advanced defendant to conduct the business.  
A few days ago Mr. David Brown of Carleton, roadmaster on the C. P. R., was thrown from a train which collided with a cow near Hoyt and had his collar bone fractured. The cow was instantly killed and two cars went off the track. Mr. Brown was standing on one of the cars and was thrown quite a distance. Dr. White of Carleton is attending him.

The semi-annual meeting of the Sanbury county council took place Tuesday, Warden Geo. A. Perley called the board to order. The only absentee was Councillor Grass of Lincoln. The secretary-treasurer rendered a bill of \$13 expenses incurred in removing the safe from the office of the late secretary-treasurer to Oranocote, which was on division passed. Little else was done and the council dissolved.  
An English detective has arrived at Quebec and is engaged looking up Cream and Monday afternoon. Cyr has two horses harnessed, each of which weighed over 1,200 pounds brought and attached by straps to either arm. Cyr folded his arms and stood with one horse on either side of him pulling in opposite directions so as to get his arms extended from his body. The animals were then whipped up each in his different direction. Though they strained themselves under the lashings of the whips Cyr kept his arms folded. The horses could not extend them. On one occasion one of the horses, a large grey, the stronger of the two, drew both Cyr and the other horse after it, but did not make the strong man lose his grip.

Louis Cyr, Canada's strong man gave a remarkable exhibition of strength in Hull, Alexander during the afternoon. Cyr has two horses harnessed, each of which weighed over 1,200 pounds brought and attached by straps to either arm. Cyr folded his arms and stood with one horse on either side of him pulling in opposite directions so as to get his arms extended from his body. The animals were then whipped up each in his different direction. Though they strained themselves under the lashings of the whips Cyr kept his arms folded. The horses could not extend them. On one occasion one of the horses, a large grey, the stronger of the two, drew both Cyr and the other horse after it, but did not make the strong man lose his grip.

The Dominion parliament on Tuesday now completes a grant for the whole road from this city to Woodstock. This is also proof, if any is required, that the road will go.

NEW ADVERTISEMENTS.

THIRD PAGE.

LOCAL NEWS.

PROSECUTOR.—The dominion parliament will prorogue next week.

COUNCIL MEETING.—York County Council meets on Tuesday, the 5th of July.

ACROSS COUNTRY.—Geo. J. Collier, of Keswick, has gone to the Pacific slope, via the C. P. R.

AS HEIR.—Dr. McLean is receiving the congratulations of his friends on the birth of an heir, born on the 30th inst.

K. O. P.—August 3rd, has been named by the Knights of Pythias as their picnic day and preparations are going on.

REVENUE AGENT.—The Florenceville is again on the route between this city and Woodstock. The water is at a good pitch.

METHODS.—Rev. W. W. Lodge will succeed Rev. Mr. Chapman at Canterbury and Rev. Mr. LePage to Kingsclear.

TO CELEBRATE.—Chief Engineer Lipsett with 25 members of the fire department left on Tuesday for Charlotte to take part in the Friday's celebration there.

SHORT CROPS.—There are no candidates for students at law or attorneys from this city. The candidates for barristers are O. Crockett and Geo. L. Wilson.

SERIOUSLY ILL.—Mr. Arthur Limerick will continue seriously ill. He was taken sick on Friday last. It was intended to perform an operation but the patient was not considered able to stand it.

PLEASANT OUTING.—Joe Wheeler took two boat loads of visitors to the Kingsclear yesterday. On the return they stopped at John Campbell's and lunched, spending a pleasant afternoon.

THEIR TWENTY-SIXTH.—F. B. Colman and wife celebrated the twenty-sixth anniversary of their wedding life at the Barker, Tuesday. Both are popular, and their hosts of friends wish them many anniversaries.

BAD WOUND.—Aamos Shields, of St. Marys, received a very severe blow from a pick-axe in the hands of a fellow laborer at Welsford, Monday afternoon. The axe was driven through one of his feet inflicting an ugly wound.

FREE EXHIBITION.—On Monday next from 2 to 3.30 o'clock, p. m., and from 8 to 9.30, p. m., Mrs. Haviland, of the W. C. T. U., will give an exhibition of cooking on a gas stove at Kitchen & Shea's. Everyone come.

BOOKS HIS NECK.—Young Harlowed of Maryville when out near Killarney driving on Thursday met with quite an accident. In going down a hill the horse, which belonged to Allen White, tripped and fell, breaking his neck. It was worth \$120.

BOOKS HIS LEG.—Dr. Murray of Fredericton Junction, was called to Gaspeauxville to attend a man named Gallagher, who had been hurt on the gravel train. A large rock had rolled over him breaking his leg below the knee. He is getting better.

OUR ATTRACTIONS.—Another St. John merchant has been attracted to this city and will take up his residence here. T. W. Bell, wholesale liquor and tea merchant, has rented the Ketchum property below town and will move in about the 12th July.

THE KAZOO BAND.—The best musical combination seen on the streets for some time appeared yesterday in the kazoo band. They paraded the streets with kazoo, kettle drums, and a drum major, and elicited much applause. Delong, the drum major, is a daisy with the baton.

BANK BEAVERS.—John A. Morrison is driving his shingle mill to its full capacity. He has a large crew of men, styling themselves "bank beavers," pulling away some hundreds of thousands of cedar on the bank for the coming winter's sawing. Just at present below town is a lively, bustling place.

THE ASSOCIATIONAL SERMON.—Rev. Mr. Nobles of the Gibson church occupied the pulpit of the Baptist church this city on Sunday morning last and preached the associational sermon. He took for his text, Matthew 13th, 31 and 32. The sermon was attentively listened to and showed much thought and study.

REBUILDING.—Messrs. Hale and Murchie, not in the least daunted by the fire, have put a crew of forty-five men to work rebuilding their mill. It occupies the site of the old one and will be 147 by 40 feet, containing gang and rotary and all the necessary small saws. The boilers are being repaired. The frame is about up, all but the rafters, and the work of putting in the machinery will be rushed so that a good fall's work may be done.

ONE WATERMELON.—The boys are having fun at the Douglas boom over the work of one of their number who has taken up the study of botany backwards. On the island he found some leaves just appearing above ground and thought he had found watermelons. He took them to the camp and planted them, besides planting several at his home at Nashwaakville. Now the Douglas camp and Mr. T's home are covered with wild hop vines and the watermelons have dissolved.

TO THE PEOPLE.—An item respecting the temperance hall at Durham bridge, inadvertently appeared in THE HERALD some time since that was unjust to the people of that place and their hall. The item in question was supposed to have been the work of our regular correspondent at that place, but such is not the case. We would say that we have correspondents in each village who send us the news and that we cannot receive material from any others except in the form of letters or important subjects.

CLOSE CALL.—Havelock Denmore, at one time a telegraph operator at Gibson, and now employed at the McAdam offices at the C. P. R., met with a serious accident on Saturday evening last. He was crossing the track at Fredericton Junction when he was struck by an engine. With ready presence of mind he grasped the cow-catcher and held on till the engine was stopped. He could not speak for some time, and it was thought that he was killed. Dr. Murray visited him and found him not dangerously injured.

AS YOU ARE.—The lawsuit between Burton and Hart, arising out of the Burton-Edwards law case is carefully watched by many. Another decision was reached on Friday. Some time since Burton applied to H. B. Rainsford, clerk of the peace for York, for his discharge. It was refused. On the same evidence he applied to Judge Stevens, who granted the order discharging him. Then Mr. Hart, by counsel, applied to the supreme court for certiorari to reverse the order of Judge Stevens, which was granted, thus leaving the case as it was a year since, before H. B. Rainsford.

ON THE MOVE.—Miss Besie Everett has returned from her musical studies at Boston. C. A. Sampson of the School Board visited St. John during the week. Rev. Wm. Ross of Prince William was in town on Monday. Hon. R. Bellamy was giving his friends a call here. Chief Supt. Inch and several of the city teachers attended the institute at St. John. Hon. Jas. Mitchell arrived on Wednesday. Lieut. Rendell of the S. A. is in town. G. A. Hughes, J. H. Hawthorne and A. G. Blair Jr., spent Sunday at Woodstock. John Rutherford, postmaster of Tweedside, John E. Moore, merchant of Pokokick, and Peter Woods, crown land surveyor, Messrs Sutton were in town on Thursday. Sheriff Holden of Oromocto visited us on Thursday.

DOMINION DAY.

How it was Celebrated in Fredericton.

THE BICYCLE AND HORSE RACES AT THE PARK.

Dominion day as it comes around, year after year, finds Fredericton always ready with a celebration, small it may be but of the best quality.

This season of the year finds the celestial at its best; the gardens and lawns are in full foliage, the streets have been cleaned and repaved, most of the house painting has been done and the best appearance of the town may be seen on Dominion day.

From early morning till noon the various roads from the country were thronged with vehicles. It is a feature of the day.

American Civilization.

that few go foot. The highway bridge was crowded and the opening of the draw for but a few minutes caused quite a commotion. All the chief business houses had closed their shutters and the proprietors with their wives and families took advantage of the day to lie away to some shady retreat among the hills or the valleys of our favored province or stand at home to help out the sports at pine park and the association grounds.

Base Ball.

Pine park, which under its new lessee has become a very popular resort, was the scene of a game which drew a large crowd to the park about ten o'clock. Here the Lone Stars and Fredericton met to contest for victory at base ball. The teams were as follows:

FRANCISONS. LOSE STARS. Coyte, c Phillips p Hohen, p Pollock, 1st b McLeod, 1st b Winters, 2nd b O'Connor, 3rd b Donahoe, s s Baxter, 1 f Phair, 1 f Jardine, r f Finnamore, r f

The Lone Stars appeared to be too heavy in metal for their opponents, Phillips' play being something his adversaries were not used to. The Frederictons, with their superior work, worked hard, but it was a losing battle from the start. The score stood 13 to 3 in favor of the Lone Stars.

The Bicycle Races.

Before the noon hour had struck the trotting park began to gather a crowd. A shower came on, that threatened to spoil the sport, but it held up by one o'clock, and on the stroke of two the bicyclists entered the gate.

The first race called was that for pneumatic tired bicycles. Crowe, Shute and Lemont being the entries. Frank Riesen acted as starter and the boys took a standing start. Lemont got the send off, but Shute downed him and led Crowe to the finish in the rear. Entering the home stretch Crowe put on the power and came in first with a good lead in 1:32. The heat was a fine one and much enjoyed.

Then the cushion tires came on with Craig, Hatt, Jennings and Parlee in the saddle. Hatt got the start, but Craig passed after a hard struggle and won in 1:45, with little to spare. Hatt, with the others who had made a good fight well in the rear.

Then the "wee fellows" took their turn, Percy Gunn, B. Tabor and D. Tibbitts being the entries. This was a good race from the start and though Gunn and Tabor were far smaller than their rival, they paddled along pretty briskly. A foul threw Percy out of the saddle and Tibbitts came in a winner with fifty yards lead over Tabor. Time, 2:23.

The second heat for the pneumatic, which was then called, resulted as the first, Crowe proving to have more leg power than his opponents.

In the second heat for the cushion tires Jennings and Parlee retired leaving the contest between Craig and Hatt, the former winning in 1:40 with little to spare.

The Horse Races.

The first race called brought a good field as follows: Prince A., Junction Boy, Black Bird, and Sir Barnum. Prince A. with Bobby Adams in the sulky had it all to himself and won the race from each heat.

John Wiley, Clayton,..... 3 3 4  
Dr. Brown, Black Bird,..... 4 3 4  
Mrs. Brown, Sir Barnum,..... 4 3 4  
Time: 1:28, 1:28, 1:21

The second race was between Claymo, Snowball and Tam O'Shanter. Tam O'Shanter is a four year old owned by J. A. Edwards and driven by Stockford. Snowball is a fine chestnut owned by F. B. Edgewood and driven by Mr. Fie-welling. Claymo had LaForest on the cart.

The race was between the geldings and some of the quarters were the prettiest contested events ever seen on this track. After three heats had been trotted Tam O'Shanter was drawn and Claymo and Snowball finished.

THE SUMMARY.

F. B. Edgewood, Snowball,..... 1 2 2 1  
J. A. Edwards, Tam O'Shanter,..... 2 1 1 1  
John Wiley, Clayton,..... 3 3 4 3  
Dr. Brown, Black Bird,..... 4 3 4 3  
Mrs. Brown, Sir Barnum,..... 4 3 4 3  
Time: 1:28, 1:28, 1:21

Parlee's pacer Sagwa and Fie-welling's Dred then came to the scratch, but the little grey although holding the invisible Sagwa hand for first eight, was out of it when Hugh opened up like a man when he had to.

The races were the best held here since the opening of the track. Everything was satisfactory and a large crowd attended, Nashwaak village and Marysville being out in full force. The judges were as follows: D. F. George, M. Tennant, F. P. Thompson starter; H. McKee, timer.

IT'S A TERROR.

Such is the Name Given it by All.

TO THE EDITOR OF THE HERALD.

Sir, I wish to call the attention of all your readers to the piece of road in the parish of Ludlow, on the north side of the Miramichi, a few miles below Boiestown. That it is a terror is allowed by all. It is not possible for anything but sheep or cats, a wagon cannot pass over it. There are some twenty families on the road and it has been a highway for fifty years. Of course, your county people do not know what bad roads are, just let them come over here and try this one. True most of the roads in this parish are fairly good, but this Ludlow road is a howler in earnest. Our own members do not get up river far enough to attend to it, and York members have no right to interfere, so between the two we are passed over. The government should grant about one hundred and twenty-five dollars on this piece of road, which would make it passable for some years and, if they do so will receive the thanks of a large body of the people of the parish who have call at some portion of the year to use the road. Hoping this may reach the eyes and ears of those who have power to help us out, I remain, Sir, your obedient servant, Ludlow, June 30th, 1892.

Pass it Along.

I asked her what paper she preferred, And warmly kissed her cheek, Then pressed her for her heart's reply: "Say darling can't you speak?"

She moved a little nearer then, And answered: "Lovely Sir, The one that all that reads, is most 'The Wayland Register!'"

Just kiss her on the other cheek, See what she thinks of that, Then press her for her answer, And she'll say, the Democrat!

Are good till you get a better, First papers read, like stories told, Are good till you get a better, Just kiss that girl upon the lips, And she will give you News-Letter!

Ask her, while that lovely maiden, You on your boom press, She will without hesitation, Tell you 'tis the Free Press!

While these journals she peruses, Still she plans to get sight, Of that Queen of weekly papers, The Fredericton Herald—her delight.

AT ST. MARY'S

The Examinations at that School, Thursday.

Special exercises were carried on in each room, taking up the work of the course, after which pupils and visitors went to Principal Dobson's room where a very choice program of reading, recitations, dialogues and vocal music was carried out. The rooms were tastefully decorated with greenery and handsome natural flowers.

The trustees saw fit not to provide prizes for the different grades, as a result of the examinations the following pupils head their classes: In Miss Miles room: Bert Lusk and Eddie Logan. In Miss Peters room: Ashley Johnson and May Niles. In Miss Hohen's room; Alice Robinson and Hellen Brewer. In Mr. Dobson's room; Alice Brewer and Agnes Johnson.

This school has been very successfully conducted the past term under Mr. Dobson's supervision. At the recent examination at Normal school for admission to the High school seven from this school passed, viz: Agnes Johnson, Agnes Mackenzie, Pherson, Peter Hughes, Fannie Hohen, Janie Titus and Robt. Bolan.

JUNE WEDDINGS.

The Crop a Large One in Town and Country.

On the 22nd inst., at the residence of Geo. Brown, York Mills, James Patterson of Tweedside and Miss Sarah A. Brown were united in marriage by Rev. J. A. McLean.

Frank Thompson, son of the late Alex. Thompson of Nashwaakville, now of St. Louis, and Miss Lulu Hume, daughter of George Hume of this city, were married at Nelson, N. B., on Wednesday, 18th inst.

Robert Stevenson and Miss Lee Ashfield, of Tay Creek, were married at the residence of the bride's father on Wednesday evening last by the Rev. Mr. J. A. McLean. There were over a hundred invited guests and numerous costly presents.

At Woodstock on the 19th, John McDonald of Nashwaak and Miss Julia Lyons of Montserrat, Me., were married by Rev. C. P. Phillips, and on the same day by the same, John Patterson of Canterbury and Miss Mary Moir of Woodstock.

At the residence of the Rev. S. D. Irvine, assisted by the Rev. A. C. Shaw, Geo. W. Bird of Birdton, and Miss Sarah J. Elliott of Hainesville were married. The contracting parties are general favorites and had the best wishes of all.

CROSSED THE RIVER.

We Will Meet Them on the Other Shore.

Mr. Margaret I. wife of Robert Stevens of Blenville, York county, died at that place on Tuesday, the 21st inst., of paralysis, at the age of fifty-four years. Deceased leaves a large family and a wide circle of sorrowing friends.

High Alexander, the little two year old boy of Hugh and Eliza A. Dougherty died on Monday last. He was a bright little fellow and his loss is deplored.

Mrs. Austen, wife of Rev. J. A. Austen of Upper Sheffield, died on Wednesday, the 22nd. She was a daughter of Mr. S. White of Belleville, Ontario; a bride of but a few months.

Mrs. David Haynes of Scotch Settlement, died at Victoria hospital on the night of the 20th. She had come to the hospital to undergo an operation for tumor. Deceased was very much respected in her native parish and deep sympathy is expressed for the sorrowing husband.

Carrying the Honors.

Public examination took place at the High school on Saturday. W. E. Rowley, son of councillor A. Rowley of Marysville, won the governor-general's gold medal for the highest standing in English. He also takes the mathematical prize. Miss A. Tibbitts wins the Douglas silver medal. Arthur Sheehy made the highest standing in the second class. In the first class Mr. VanWart and Miss Sterling made the highest figures.

Going-Going-Gone.

Jiminy is getting away, he also predicts dissolution of the local house and advises for more compositors; putting this and that together it appears that he is hard up to speak. And Mr. Ray will not come to his rescue. If he can make the objection believe that an election is impending they may put up some money for him and his hands may remain a little longer; if he cannot wait he must get out of Marysville, make sure he has his things in advance. He is rapidly going.

Knights.

Fredericton lodge, K. of P., has elected the following officers for the year: A. J. Fowle, C. C. Geo. Adams, V. O. Mr. Waterman, P. Walter Fisher, K. of R. and S. C. H. Thomas, M. of E. Bedford Phillips, M. of P. A. E. Massie, M. at A.

HISTORICAL.—Charles H. McCluskey of Gibson has been at Oromocto and moved a large house and barn for Robert Hughes, a distance of about 400 feet up a grade of 14 inches to the foot, and placed the house on a cellar wall. Mr. McCluskey was visited by crowd-spectators, who expressed themselves highly satisfied with his mode of removal. He works fast and does his work well with his improved tallow shovels and trestle, which prevents all racking of the building, cracking of plaster. Mr. McCluskey is known all over the province as a mover of buildings and as a wrecker on the river and coast.

FANCY SALE.—The woman's aid society of the F. C. Baptist church of mouth of Kenwick purpose holding a fancy sale, strawberry festival and concert on the afternoon and evening of Wednesday, July 6th. As no pains are being spared to make it a success a good time may be expected by all who attend.

TO SETTLE THE CLAIM.—A committee of the executive council, consisting of Messrs. Tweedie, Mitchell, and Ryan will meet a committee of the steamboat company at Woodstock on Monday evening next to settle the alleged claim for damages arising out of the location of the Woodstock bridge.

Scott Act Reminders.

Last Saturday was common motion day in the supreme court, and amongst the motions made, were several for rules to bring up convictions made for violation of the Scott act before the court. No matter how dull business is before the court, these Scott act appeals, like the poor, we have always with us. Amongst the convictions sought to be set aside was one from Westmorland, where the defendant was a licensed venditor under the act, and the only sale proved against him was one made under the protection of a certificate of a physician ordering a patient a bottle of gin, or to use the vernacular a "square face". The judges were in a reminiscent mood, and the prescription in question recalled to Mr. Justice Tuck's mind as he said, the case of a Fredericton physician who wrote a prescription for three gallons of brandy, which was duly presented to the licensed vendor, the suffering patient remarking to the druggist "that he had no idea he was so bad until he read the doctor's prescription. Before that portion of the act which permits the sale of liquor for medicinal purposes as for bona fide use in some art trade or manufacturing. Mr. Justice Palmer rendered another mistake, nine times in ten, people become so fond of the existing order of things that they resist any change—I mean in regard to trees. Usually when trees are planted they are planted too thickly to remain and are eventually crowded to the destruction of their greatest beauty. Trees in a city are in a great measure like a crop of any thing else, they need thinning out or they do each other injury. A tree should have room enough to show its individuality in form and beauty. Therefore, a judicious general thinning out is much needed. Perhaps there is no better person than road master McKay to superintend the work, being a practical man and one of good judgment.

Therefore, I ask that many old, crooked, high, board fences be removed to make room for a few posts and rails, which will mark the line, or even keep in cattle. A judicious thinning of trees would brighten many homes and be a means of admitting the sun shine to gardens and yards which are now unproductive and unwholesome. Fredericton, June, 23.

Seasonable Notes at Random.

From the old Gardener.

Patience is a virtue that adorns the horticulturalist as well as the agriculturalist; without it he never succeeds. There are many ills that befall the gardener that never can be overcome save by patience. Patient industry will have its perfect work in the garden or farm as in all other spheres of life. It may take time to do this, even years, but it is sure to come.

"Will it ever cease raining?" all are now asking. "Yes, be patient." In another section, all are asking, "Will it ever rain?" "Yes, be patient." "Can I ever subdue the weeds?" "Certainly, by patient industry." "Can I ever kill the insects that are killing my industry?" "Certainly, by patient industry, and don't acknowledge yourself in warfare inferior to a worm." "Will my plants ever bloom, or my tree ever fruit?" "Yes, certainly, if you do your part, although it may take time, even years."

Scott Act Reminders.

Another gentleman called to mind a story relating to the sale of brandy to Indians. An Indian on one of the western reserves appeared out of breath before the agent, and asked for three gallons of whisky, giving as a reason for the demand that one of the babes had been bitten by a snake. Being asked by the agent if he did not think three gallons a rather large dose he replied, "Ugh—snake very big."

Maryville Notes.

Miss Lizzie Moore left on Thursday for Charlotte for a visit to her friends.

The band gave their weekly open-air concert Wednesday evening.

Work on the C. of E. hall here is progressing rapidly and it will soon be completed.

The scenery en route is the most magnificent to be found in the seven states through which the road passes. Beautiful mountains, rivers, valleys, lakes and plains follow each other in rapid succession to delight the tourist, who will also find interest in the agricultural, mining, lumbering, industrial and other interests associated with the development of the great Northwest.

The crowding glory of the trip through the Northwest, however, is the visit to Yellowstone Park, the land of hot springs, geysers and gorgeous canyons, and to Alaska with its endless ocean channels, snow-capped peaks, Indian villages and giant glaciers. If you wish to investigate the suggestion, further send to Charles S. Fee, General Passenger Agent, N. P. R. St. Paul, Minn., for copies of the handsome illustrated "Wonderland" book, Yellowstone Park and Alaska folders.

One Minute Cure for Toothache.

Toothache, the most common and one of the most painful affections, is instantly cured by the application of Polson's Nerveine. Polson's Nerveine is a combination of powerful anodynes, and it strikes at once to the nerves, soothing them and affording in one minute total relief from pain. Mother's try it for your children's toothache. Polson's Nerveine is sold in 10 and 25 cent bottles by all druggists.

And Now It's the C. E. R.

The suggestion call that roamed the government pastures till it got trenched and was suddenly weaned now attacks the Canada Eastern Railway.

The "Gleaner" of the 27th inst., had a halcyon article on the mismanagement of the Canada Eastern Railway. It is interesting to see the paternal anxiety this paper manifests in the interests of this road. Of course, we would not for a moment assume that this is the case with all newspapers, but that he had been looking for something to complain of, and has not been able to find it.

Carrying the Honors.

Public examination took place at the High school on Saturday. W. E. Rowley, son of councillor A. Rowley of Marysville, won the governor-general's gold medal for the highest standing in English. He also takes the mathematical prize. Miss A. Tibbitts wins the Douglas silver medal. Arthur Sheehy made the highest standing in the second class. BERYL BRENTANO

THE SAPPHIRE OF THE SOUTH.

CHAPTER XXXIII.

A SCENE.

Only the pathetic piping of the lonely
bird made answer.
Like the promontory thrill that creeps
through forest leaves, before the coming

He paused, and she covered her face
with her hands.
"Beryl, you are the only woman I ever
loved. You came suddenly into my life

"You will not? I swear you shall;
else I shall hope, believe, know beyond
all doubt, that during these years, I have
not been the only sufferer; and that loyal

The little garden was growing dusky,
the gilded mist waving its spectral
banners over the thundering cataract,

Pressing her fingers tenderly, Mr. Dunbar
reached her hand.
"When your interview is ended, come
to me yonder at the side gate, where I

"How much are you willing to tell me?"
"Only that I must start at once on a
long, lonely journey to a desolate retreat,

"Do you suppose I shall allow you to
travel there without me? Do you imagine
I shall ever lose sight of you till

"No—no! You forget, ah!—you forget,
I have worn the penitential home-
sickness, and the brand of the convict sears

"Impossible! To-night a train will
take me to Buffalo, where I can catch the
express going west. There are reasons

"Give me the reasons. Give me your
reasons."
"His arm tightened around her.

"Then you will not leave me. I will
endure no more mysteries."
"Mr. Dunbar, I wear the uniform of a
cellmate of Grey Sisters; and the
