

The HURON SIGNAL

DEVOTED TO COUNTY NEWS AND GENERAL INTELLIGENCE

GODERICH, ONT., FRIDAY, MAY 6, 1887.

FOURTIETH YEAR. WHOLE NUMBER 2097.

MCGILLICUDDY BROS. PUBLISHERS. \$1.50 A YEAR IN ADVANCE.

THE HURON SIGNAL

Published every Friday Morning, by Mc GILLICUDDY BROS., at their Office, North of GODERICH, ONTARIO, FRIDAY, MAY 6th, 1887.

It is not about time Mr Porter arranged with the Minister of Public Works for the erection of the public buildings in Goderich?

The men who wanted fair play for Dr Kane and Hill Smith are now swearing that William O'Brien must not be heard. That's what they call "British fair play."

MR LAURIER is moving to effect the repeal of the Franchise Act, on the ground that it is unfair and expensive. If Sir Charles Tupper means anything by his professions of a desire to economize, he cannot apply the knife to a more vicious excrescence than this.

CHARLES RYKERT has been chosen chairman of the public accounts committee of the House of Commons. An examination of the private accounts of Louis Sands would lead to the belief that the member for Lincoln is an expert in financial matters.

It is now claimed that the Government left Curran's Home Rule resolution an open question. They did so because their experience of last year proved that they could not close it. Sir John and Robert Porter, however, did all they could against it, but equal rights to all men in every portion of the British Empire is a principle that can no longer be trampled under foot with impunity.

No better evidence is wanted that the Government was party to returning officer Dunn's crime than their action in the vote on the question in the House. Every man of the 109 who voted against Mr Skinner's motion voted to compound a felony and endorse a theft. Robert Porter, of Simcoe, the accidental member for West Huron, voted in favor of the theft.

CONSIDERABLE time has passed since Mr Coulter, the member for Haldimand who was counted out by Judge Upper, publicly stated that the judge was drunk when he committed the act. The Tories at that time said that Mr Coulter would be brought before the courts for making the statement, but up to the time of writing the threatened punishment has not fallen upon him. One thing is certain, Judge Upper has been lowered in the estimation of every right thinking man in Canada, whether he was drunk or sober when he committed the crime.

Dunlop.

AN OCTOGENARIAN.—Eighty summers and winters have not dampened the ardor in that genial son of Erin, P. O'Meara. He can still answer the violin in good style in a "matt Irish jig," ring a number of good songs, with a delightful brogue, and tell thrilling anecdotes of days gone by in a most graphic manner. After a week's visit here he has returned to his home near Benmillar.

TOUCH HIM GIN YE DAUR.—From last week's item copied from the Stratford Beacon, one would think Stratford had a host of champion quill pitchers, but notwithstanding the boasting of the architect, the Dunlop people will stick by the architect. The Stratfordites may not be willing to see him cook-of-the-walk, but whether they are or not, we can tell the Beacon our architect 'fears nae foe,' and when he returns from the classic city in the fall we expect to see at his belt the scalps of all the noted quillers of the thriving city of Bardaville.

Edmester.

A Knight has erected a new wood house for Wellington Oliver. This is the first building of the season.

Joe Rose has added a sulky plough to his farm improvements. Jack will not be so tired after his day's work now. He will be able to go for a walk in the evenings.

Saratoga is losing its population once more. Mr and Mrs H. Feagan have removed to Goderich, they will sail to Algoma after navigation opens, where they intend to make their future home.

G. E. Wilson is back again to Saratoga. George looks hale and hearty, he has engaged with his brother Henry as gardener.

Joe Smith is the early bird this season. He finished seeding the 25th ult, and has got a bag of potatoes planted. Who is ahead of him!

The Bloomington correspondent must be sick or perhaps his pen is worn out. If that be true we hope he will get a new one that we may hear from him again.

TORONTO LETTER.

Musings on Various Matters in the Queen City.

A Backward Glance—Real Estate Boom—The Fire System—Young Liberal Conservatives—Old Acquaintances—City Schools—A Model Sunday School, and a Veteran Superintendent.

TORONTO, May 3d, 1887. At the time of writing genuine May weather has arrived. The season is a week or two backward, but now the warm weather is likely to come with a rush. The boats have been running a couple of weeks, but there is as yet but little traffic on the lake.

Building operations will be lively this season if the carpenters' strike does not interfere. Real estate has been booming during the past five years, and although some are pessimistic enough to shake the head suggestively and say "Remember Winnipeg," yet the consensus of opinion among business men is that real estate in Toronto has not yet been run above its value and that no panic need be feared in that quarter, with tumbling values and crushed fortunes as the result.

The fire system of Toronto is still kept up to the highest standard. It is a sight to see the engines and hook and ladder carts get out when there is an alarm of fire. The horses move at the sound of the alarm with the precision of clockwork, and are harnessed by an automatic process, and go tearing along the streets towards the scene of the fire much more quickly than I can describe it. Some day I may describe the mode more fully.

I dropped into the Young Liberal club rooms the other evening, and heard the boys debate. They have some rattling speakers among them, and there is a candor, a vigor of address and independence of thought and a courageousness of utterance exhibited by the speakers that make the proceedings interesting as well as instructive. The club will close its regular meetings for discussion for the season by a banquet to be held in the Walker House in about four weeks' time.

By the way, the Young Conservatives have rooms in the same building, and meet the same evening. It will surely shock the feelings of my friend Mr F. W. Johnston to learn that the Y. L. C. A. will hold a convention soon. Those who remember his allusion to the "Prodiyal Sons" at the meeting in the skating rink, will see that a change has come over the spirit of the Conservatives so far as conventions of their young men are concerned.

D. O. Cameron, formerly a law student in Goderich, now practicing as a barrister in partnership with F. McPhillips, also a former resident of Goderich, read a paper at the Young Liberal club meeting on Monday evening on "The Mineral Resources of Canada." The paper was learned and practical one, and has attracted already the attention of some who are desirous of putting Mr Cameron's knowledge of our mineral deposits to a rather more practical account. McPhillips & Cameron are working up a nice little practice as lawyers, and as both gentlemen have many personal friends in Goderich, perhaps this little paragraph may not be without interest. And this reminds me that there are dozens of former Goderich folk residing here. I will look up the names and doings of some for a future letter.

One cannot keep his eyes shut while on the streets, and, therefore, I cannot help seeing the belles of Toronto. I mean the Toronto girls. Brunettes prevail, and one sees two pair of dark eyes to one of blue or even of grey. And yet I have noticed that the majority of the ladies of the "old families" are blondes. There are the facts, make what you like out of them. And that reminds me that the foolish habit of bleaching the hair is very prevalent here. But as the girls cannot bleach their eyebrows, things don't always match.

It may not be considered orthodox for a newspaper correspondent to write about a Sunday School, but as I have never troubled myself about observing the articles, acknowledging the confessions of faith, or submitting to church discipline generally, as such, I will also exercise the same liberty in writing, and give your readers the benefit of my observations on matters, persons and things, even if I may at times go out of

the rut of "orthodox" newspaper correspondence.

"No pent up Utica contracts our powers. But the whole broad universe is ours."

I paid a visit to the Northern Congregational Sunday school on Sunday afternoon. I received a warm welcome from Mr H. J. Clarke, (of the firm of Copp, Clarke & Co.) who is regarded as one of the best superintendents in the city. There are larger Sunday schools in Toronto, but few, if any, have a better staff of teachers, or leave more pleasing memories with those who have attended, either as teachers or scholars. The greatest drawback to this school is that the premises are rather small, and the intermediate classes are consequently crowded together. Mr Clarke has been superintendent of this Sunday school for twenty-seven consecutive years, a length of service that can be equalled by only two other superintendents of the city, Mr Kerr, of St. James Presbyterian S. S., and the superintendent of the Richmond Street Methodist S. S. The Northern Congregational S. S. uses the colored illustrations for the lessons which have become so popular, and the main room of the school is adorned with banners bearing scripture mottoes—one for each year. Mr Clarke is apt and thorough in handling the lesson in the desk review, and is not of the order of superintendents who don't care to try anything new in matter or method. The library is conducted on a rather novel plan—at least so it appeared to me—but it is a good idea. The pupils of the school are divided into two classes, seniors and juniors, and a catalogue is printed for each division. A copy of the catalogue is given to each boy and girl desiring books, when the scholar goes over the list, striking out all the books not desired. The catalogue is then handed to the librarian, who writes the name of the scholar on the catalogue, and places the latter in the cabinet with the books of the school. As each of the remaining books is given out to the reader, the title is struck off the catalogue, and so there is no difficulty in the librarian seeing what books have not been read, and he can easily make a choice of a book that the scholar is willing to receive, as all the books not desired, together with the books already read, are marked off the catalogue. My hint is worth something to those engaged in library work in connection with Sunday schools. In the Northern Congregational S. S., books, papers, quaternities, lesson leaves, etc., are not given out until the close of the school.

May 4.

I witnessed the procession last night in honor of Lord Lansdowne. An immense concourse assembled to witness the proceedings, but the welcome was of a negative rather than of a positive character. There was little or no decoration of a public or private sort, the cheers were few and weak, and compared with the ovation tendered Lord Dufferin fifteen years ago, the proceedings were lame. The file and drum bands were out in full force, followed by Young Britons and small boys carrying torches, and there were a number of private carriages in line, as well as the vehicles carrying the city officials; yet, considering the crowd of onlookers, there was a listlessness and a lack of enthusiasm that showed that the Governor-General has not yet touched the popular heart. The fine evening, so clear and summer-like, and Toronto's love for display, brought together an immense concourse, but it was not nearly as enthusiastic as that which greeted Hanlan a few years ago when his aquatic honors were fresh.

There is some talk here of preventing William O'Brien from speaking in Toronto on the question of the Lansdowne evictions. I am inclined to think there will be lively times on that occasion, but as I believe in freedom of speech, I will be there to hear Mr O'Brien.

Leoburn.

Mr McWilliams, a student of Knox College, Montreal, preached here last Sunday. We understand he will be engaged for three months by Knox church, Goderich.

Dr. Wm. H. Aborn, after a pleasant visit among old friends, has gone to Zurich to see—but a little bird whispers, "Hush!"

(Left over from last week.)

The Rev. Mr Black, who has been assisting Rev. Dr. Urs for the past three months, bade goodbye to the congregation in a few well chosen remarks. During his brief stay he had visited among many of the homes of those who attend the church, his genial manner winning friends. He performed one wedding service while with them.

THE THREE BY-LAWS.

Mass Meeting in Victoria Opera House.

The Speeches on the Occasion—The Questions Looked at from every Standpoint—Facts and Figures for the Electors—Unanimous Expression in Favor of the Scheme.

Quite a number of the ratepayers turned out Wednesday evening to hear the waterworks, electric light, and agricultural park by-laws discussed. Shortly after eight o'clock the mayor took the chair, and explained the object of the meeting. Three by-laws would shortly be submitted to the ratepayers, and he and the council believed it to be in the interest of the town that a meeting should be had where the different schemes would be discussed. He believed that good water was absolutely required in Goderich, and the other schemes although not in the list of necessities would, beyond question, prove to be in the public interest. The present time was a critical one in the history of the town, and he hoped that every intelligent voter would prove that he had the interest of the town at heart by voting for all three by-laws. He would not enter at greater length upon the questions, but would call upon other gentlemen who had come to the meeting prepared to address the electors.

Councillor Butler was the first speaker and was warmly received. He began by stating that there was a great difficulty in taking up the subject owing to the extent of it, but thought it would not be out of place to go back to the inception of the scheme. He then gave a history of the agitation for public improvements, with which the ratepayers were familiar. The council had time and again been berated for not attempting to lift the town out of the slough, and now that the council had taken definite action he hoped the people would back them up with their votes. The council had done its duty, and it was the duty of the people, and if the people desired the public improvements they should vote for them a week from Thursday. The council had done its work, and the matter now rested with the voters. A committee had been appointed to investigate the various schemes for waterworks, samples of water had been analyzed, and found to be impure, an artesian well had been sunk and the water obtained therefrom had been analyzed by Mr Rice, a competent analyst, and found to be satisfactory; but even if that were the case, the water would not be pure for domestic and other purposes. Nothing supply of good water would not prove to be the least inducement. The present tanks and engine for fire protection had cost some \$10,000 or \$12,000, and would soon have to be replaced. Even if they were replaced, they had to be continually kept in repair, and as a replacement could not always be relied upon. If we want good water we would have to pay for it, for it was a well-known fact that everything could be bought but salvation (laughter), and there were some who made strenuous efforts to buy their way out of the water supply. Nothing do nothing without a price. The supply of good water would not prove to be the least inducement. The present tanks and engine for fire protection had cost some \$10,000 or \$12,000, and would soon have to be replaced. Even if they were replaced, they had to be continually kept in repair, and as a replacement could not always be relied upon. Nothing do nothing without a price. The supply of good water would not prove to be the least inducement. The present tanks and engine for fire protection had cost some \$10,000 or \$12,000, and would soon have to be replaced. Even if they were replaced, they had to be continually kept in repair, and as a replacement could not always be relied upon. If we want good water we would have to pay for it, for it was a well-known fact that everything could be bought but salvation (laughter), and there were some who made strenuous efforts to buy their way out of the water supply. COMMUNICATIONS.

We do not hold ourselves responsible for the opinions of our Correspondents. Contributors to this department must confine themselves to public questions, and be brief.

The Shade Tree Question.

To the Editor of the Signal. I was very glad to see in looking over your local columns, that you had called the attention of the Council to a much neglected subject, and a much needed reform in the matter of the town adopting a systematic method of shade tree planting, which ought to commend itself to everybody. Let any one who takes the least interest in the question take a walk around the town, and view the different streets, and see how many there are which are almost bare of trees of any description whatever, streets which one would imagine would be filled up by private enterprise. Goderich is famed for its beautiful, wide streets and there is hardly a single one, but what might be converted into a beautiful avenue by the aid of shade trees. What would Euclid avenue in Cleveland be, were it not for its beautiful shade trees? and if a beginning had never been made on that magnificent street by planting trees it never would have become the charming place that it is. And the same is true of every other avenue in this town. Supposing Elgin street had been planted seven or eight years ago, with elm trees from one end to the other, what a lovely avenue it would be today; and it could have been done then just as easily as now, and now, just as easily as ten years hence. The experiment has been tried on East and West street and the square with splendid results. What earthly reason is there that it should stop there? It is almost a sin that a town like Goderich, with so many natural advantages, and which could so easily be beautified by hundreds of shade trees, should be so miserably neglected by a system of tree planting, is left to the mercy of those only who are willing to plant trees in front of their properties. Where one does this, ten neglect to do so, the consequences being that there is an indiscriminate planting of trees all over town, but no streets except two or three, where there is any attempt at regularity. It is very strange that one hundred dollars can be blown up in the air every lot of July in fireworks for the sake of a few moments pleasure, when the same amount of money invested by the town in a judicious planting of shade trees would confer benefits beyond comparison. Suppose the experiment of buying shade trees was established, instead of voting grants of money for trivial celebration purposes it ought to commend itself to the intelligence of every reasonable man. It is said by granting money for celebration a crowd is sure to come to town, but for how long, only one day. By devoting money for permanently beautifying the town instead, people will be more and more induced to stay with us all summer; and what cheaper way of doing it than by planting trees? Let us display a little common sense, and when we get the trees all planted, we will never want to go back to the fire works! I could respectfully ask every councillor to wake up to the importance of this matter, and vote a special grant every year for this purpose. It is not money thrown away, but money invested in good security, by the benefits which will be derived. Hoping to see the question raised at the next meeting of the council and discussed intelligently. I remain, Yours truly, TOWNSMAN.

How to Spend.

Look most to your spending. No matter what comes in, if more goes out you will be poor. The art is not in making money, but in keeping it. Little expenses, like mice in a barn, when they are not noticed, grow and multiply until they have got so bad, that straw by straw they drop the rain comes into the chamber. A barrel is soon empty if the tap leaks but a drop a minute. In clothes choose suitable and lasting stuff, and not tawdry fineries. To be warm in the winter, never mind the looks. A fool may make money, but it needs a wise man to spend it. Remember, it is easier to build two chimneys than to keep one going. If you give all to the back and board, there is nothing left for the saving's bank. Fare hard and work hard while you are young, and you will have a chance to rest when you get old.

Mineral Poisons.

Nothing but pure extracts from plants and roots are used in preparing Mc-Gregor's Lung Compound, the modern and now popular remedy for Colds, Coughs, Bronchitis, Croup, Asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances are avoided which renders it safe for children or adults. Sold at 50c at \$1 per bottle at G Rhynas' drug store.

Attesting Success.

It is the duty of every person who has used Boeck's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. There does not relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

Sheppardton.

George Neibergall, Dunlop's enterprising merchant, has purchased the farm of N. Morrish, for \$6,000, we are informed. Joseph Horton and family removed to Goderich last week.

Health Hints.

It is not what a man eats but what he digests that builds up and keeps up his strength. Food rich in all the elements of nutrition may be taken into the stomach, but if that organ is incapable of assimilating it and passing it on prepared for the next process, it will not nourish and strengthen the eater. In the spring the stomachs of a great many people seem to go on a "strike." There is little appetite, little relish for food, and yet the demands for strength to labor are increased as the season advances. Resort in many such cases is had to tonics, stimulants, blood-purifiers and nostrums of various sorts, in the hope of betterment, sometimes with apparently good results. These results, however, are often like those attained by applying the lash to a horse whose load is to heavy for him. Under the spur of the whip he may rally his forces and start up and keep up for a time, but the whip has not given him any strength and the spasmodic effort has increased his exhaustion.

Loebilla.

E. Blake, of Goderich, has become a resident here. Mrs. F. Horton and Miss Edith Horton visited friends at Holmesville and Brucefield, last week. H. Railton sowed the first grain for this year.

A Matter of Fact.

One of the few preparations that seldom disappoints on trial, is that old standard throat and lung medicine, Hayward's Pectoral Balsam, for coughs, colds, bronchitis, asthma, sore throat and other diseases of the air passages.

Dunlop.

Thos. Nelson who resided here for the winter has gone to Peterboro. Miss Ann Stirling, of Garfield, left here for her home, after a pleasant visit of five weeks in our pushing bough.

The spring show at Brucefield last week was attended by many of our burghers. One engineer went too, but on a more interesting business than inspecting the show.

Grain was sown here on the 24th, six days later than in 1886.

DON'T LEAN ON THE CARE.—This should be remembered by those who look into the nest show case lately placed on the counter of our village store.

White smoke in a steady vapour ascending to the skies last Friday morning, heralded by the king of a steamboat whistle, invention of P. K. Dean, who will be engineer for the season, announced to all creation for a distance of 36900 ft, that the Dunlop saw-mill had started up work for '87. J. Clark, B. Gibbs, J. Shackleton, with the foreman as head sawer, are on the staff of workmen. W. Neibergall foreman, J. Rielly yard boss, and J. Jardine teamster. Mr Neibergall is a good pushing man of business, and always runs a good trade in the lumber business, shipping out a part of the empire, since he succeeded the late owner in 1882.

A Humble Item.

"My wife has been a sufferer from liver complaint for many years. I am glad to be able to testify to the benefit received from Burdock Blood Bitters, as well as in the case of my little boy, who had glandular swellings." J. S. Miller, 77 Victoria Ave. North, Hamilton, Ont. B.R.B. regulates the entire glandular system.

How to Spend.

Look most to your spending. No matter what comes in, if more goes out you will be poor. The art is not in making money, but in keeping it. The Cross-Eyed Clerk.

During the late Christmas holidays a large firm in R— employed as an assistant clerk a young man who was exceedingly cross-eyed. The special duty assigned to him was to act as watchman, and prevent the peculation of all sorts of small fancy articles that were lying about the counters for exhibition at that time. One day a half grown boy came into the store, and after looking all around, pricing first one thing and then another, among which were some very nice socks, he finally started to go out of the door. At this moment the new clerk touched him lightly on the shoulder, and inviting him to come to the back of the store, said to him, politely, "Oblige me by giving me at once the socks that you have in your back pocket."

"How do you know I have any socks in my back pocket?" demanded the boy, in a bold tone. "I saw you put them there," said the clerk, very gently. The boy looked up into the young man's face in utter amazement. "Are you looking at me now?" he asked, earnestly. "Do you see me this very minute?" he asked, still more earnestly. "Of course I do," replied the clerk. "Good Lord, mister!" cried the boy, with a blanching face; "here's your socks." And with a bound he was out the back door, over the fence, and away, having learned a lesson concerning all-seeing eyes which it is to hoped he will never forget. — Lucy Underwood McCann, in Harper's Magazine for May.

The Last Year, 1886.

After the above year is ended there need be no person suffering from Rheumatism, Neuralgia, Toothache, Headache, Lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by G Rhynas' druggist.

Ladies Only.

The complexion is only rendered unattractive by Pimples, Liver Spots and Yellowness. These it is well known are caused from an inactive liver and bad blood. Dr Chase's Liver Cure purifies the blood and whole system. See Recipe Book for toilet recipes, hints and suggestions on how to preserve the complexion. Sold by all druggist.

The Best Fountain Pen in the World.

The "Wirt" fountain pen is the best thing yet invented in the way of a self-feeding pen. It has a gold nib, and shaves just as a dipping pen does, and never fails. It is a writing wonder. A sample can be seen at this office. Every lawyer, doctor, clerk, school-teacher and business man should have one. Thos. McGillicuddy is the local agent.

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or sores of any description, should use Mc-Gregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by Mc-Gregor & Parke. Price 25c. Sold at G. Rhynas' Drug Store.

Barnum has the greatest show on earth; but his chances in heaven are no better than those of other circus people. "This way, gentlemen, to the American dwarf, to be seen only through a hundredfold magnifying glass; totally invisible to the naked eye."

A Reward—Of one dozen "TEABERRY" to any one sending the best four rhyme on "TEABERRY," the remarkable little gem for the Teeth and Eat. Ask your druggist or address

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep. I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure. — G. Stovall, M. D., Carrollton, Miss. Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases. — M. A. Kus, M. D., South Paris, Me. I was attacked, last winter, with a severe Cold, which, from exposure, grew worse and finally settled on my lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, "for I would not live a month." After taking various remedies without relief, I was finally

Cured By Using

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption. — S. F. Henderson, Salisbury, Penn. For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief. — Edward E. Curtis, Rutland, Vt. Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured. — Ernest Colton, Loganport, Ind. Ayer's Cherry Pectoral, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25c; six bottles, \$1.

"Here Trouble May be Expected"

If you do not heed the warnings of nature and at once pay attention to the maintenance of your health. How often we see a person put off from day to day the purchase of a medicine which if procured at the outbreak of a disease would have remedied it almost immediately. Now if Johnston's Tonic Liver Pills had been taken when the first uneasiness made its appearance the illness would have been "nipped in the bud." Johnston's Tonic Liver Pills are decidedly the best medicine on the market for general tonic and invigorating properties. Price 25c. per bottle. Bitters 50 cents and \$1 per bottle, sold by Goede the druggist, Albion block, sole agent.

Mc-Gregor's Speedy Cure.

When we say Mc-Gregor's Speedy Cure is the only perfect cure for Dyspepsia, Liver Complaints, Indigestion and Impure Blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give Mc-Gregor's Speedy Cure a trial and be convinced. It is sold in 50c and \$1 bottles at G Rhynas' drug store.

Health Hints.

It is not what a man eats but what he digests that builds up and keeps up his strength. Food rich in all the elements of nutrition may be taken into the stomach, but if that organ is incapable of assimilating it and passing it on prepared for the next process, it will not nourish and strengthen the eater. In the spring the stomachs of a great many people seem to go on a "strike." There is little appetite, little relish for food, and yet the demands for strength to labor are increased as the season advances. Resort in many such cases is had to tonics, stimulants, blood-purifiers and nostrums of various sorts, in the hope of betterment, sometimes with apparently good results. These results, however, are often like those attained by applying the lash to a horse whose load is to heavy for him. Under the spur of the whip he may rally his forces and start up and keep up for a time, but the whip has not given him any strength and the spasmodic effort has increased his exhaustion.

Loebilla.

E. Blake, of Goderich, has become a resident here. Mrs. F. Horton and Miss Edith Horton visited friends at Holmesville and Brucefield, last week. H. Railton sowed the first grain for this year.

A Matter of Fact.

One of the few preparations that seldom disappoints on trial, is that old standard throat and lung medicine, Hayward's Pectoral Balsam, for coughs, colds, bronchitis, asthma, sore throat and other diseases of the air passages.

Dunlop.

Thos. Nelson who resided here for the winter has gone to Peterboro. Miss Ann Stirling, of Garfield, left here for her home, after a pleasant visit of five weeks in our pushing bough.

The spring show at Brucefield last week was attended by many of our burghers. One engineer went too, but on a more interesting business than inspecting the show.

Grain was sown here on the 24th, six days later than in 1886.

DON'T LEAN ON THE CARE.—This should be remembered by those who look into the nest show case lately placed on the counter of our village store.

White smoke in a steady vapour ascending to the skies last Friday morning, heralded by the king of a steamboat whistle, invention of P. K. Dean, who will be engineer for the season, announced to all creation for a distance of 36900 ft, that the Dunlop saw-mill had started up work for '87. J. Clark, B. Gibbs, J. Shackleton, with the foreman as head sawer, are on the staff of workmen. W. Neibergall foreman, J. Rielly yard boss, and J. Jardine teamster. Mr Neibergall is a good pushing man of business, and always runs a good trade in the lumber business, shipping out a part of the empire, since he succeeded the late owner in 1882.

A Humble Item.

"My wife has been a sufferer from liver complaint for many years. I am glad to be able to testify to the benefit received from Burdock Blood Bitters, as well as in the case of my little boy, who had glandular swellings." J. S. Miller, 77 Victoria Ave. North, Hamilton, Ont. B.R.B. regulates the entire glandular system.

How to Spend.

Look most to your spending. No matter what comes in, if more goes out you will be poor. The art is not in making money, but in keeping it. Little expenses, like mice in a barn, when they are not noticed, grow and multiply until they have got so bad, that straw by straw they drop the rain comes into the chamber. A barrel is soon empty if the tap leaks but a drop a minute. In clothes choose suitable and lasting stuff, and not tawdry fineries. To be warm in the winter, never mind the looks. A fool may make money, but it needs a wise man to spend it. Remember, it is easier to build two chimneys than to keep one going. If you give all to the back and board, there is nothing left for the saving's bank. Fare hard and work hard while you are young, and you will have a chance to rest when you get old.

Mineral Poisons.

Nothing but pure extracts from plants and roots are used in preparing Mc-Gregor's Lung Compound, the modern and now popular remedy for Colds, Coughs, Bronchitis, Croup, Asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances are avoided which renders it safe for children or adults. Sold at 50c at \$1 per bottle at G Rhynas' drug store.

Attesting Success.

It is the duty of every person who has used Boeck's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. There does not relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

TOWN TOPICS.

Business Meeting.—There will be a meeting of the business committee on Monday evening. School Term Day.—Friday of this week, being the first Friday in May, will be Arbor Day in connection with the public schools. Held (Court).—P. Holt, barrister, acted as judge at the Clinton division court Friday last, and filled the position very acceptably.

Dr. M. Nicholson, the West street dentist, makes the preservation of the natural teeth a specialty. Gas administered from 9 a. m. to 4 p. m. for the painless extraction of teeth. Returned Home.—Troy W. Savage returned to Buffalo Saturday last, on the noon train. His was a sad home-coming. He took with him his two little children, but left in the Colborne R. C. cemetery the remains of his young wife. He and his children have the sympathy of many friends in Goderich and vicinity.

Y. W. C. T. U.—A meeting will be held in Knox church lecture room on Friday afternoon at 7 o'clock. For the purpose of forming a Young Women's Christian Temperance Union in Goderich. The objects of the society will be to take up Band of Hope work in connection with regular temperance, and other matters of importance to the spiritual growth and development of Sabbath school children will also be undertaken. Every woman having the good cause at heart is invited.

Jail Delivery.—During the past week several deliveries from jail have been made. To introduce the magazine, price is \$1 per annum, which includes membership of the association, a copy of its annual report, and a share in the annual distribution of plants, in addition to the magazine, and may begin with any month. To introduce the magazine, the editor offers to send it for eight months from May, to new subscribers, for 50c. Address L. Weirton, Sec. Fruit Growers Association of Ontario, Grimsby, Ont.

Confirmation Services.—On Sunday morning his Lordship the Bishop of Huron held confirmation services at St. George's church, on which occasion the following candidates were admitted to full membership in the church. Lizzie Cattle, Fannie Weatherald, Lucy Cattle, Eva Cattle, Mary Nicholson, Mrs. Elwood, Alice Goldthorpe, Mrs. and Mrs. J. O. Goldthorpe, Rita Kathleen Ball, Maria Grant, Maud Ruiton, Frances Williams, Mary Stuart, Mary Wilson, Ada Nitzel, Mary Beck, Louisa Hopper, Rosina Fritzler, Fred Nafel, Henry Nafel, Harry Vidian, George Weatherald, Levi Card, Robt. Ellis, Geo. Ellis. The church was crowded by a large congregation. The pastor read the prayers, the bishop the lesson. His Lordship also addressed the candidates on the spirit in which confirmation should be sought, and the duties imposed by its acceptance. At the conclusion of the Bishop's address, the impressive ceremony of laying on of hands proceeded with the choir singing the usual morning service exceedingly well. In the evening the church was again crowded by a large congregation, on which occasion the Bishop preached an eloquent and forcible sermon from 2d Samuel xiv: 28-32; "The barley field."

At Bireh View it was not a gathering of all and short under the leadership of Alex. McLeod, as on a neat new barn, weiler of Bonmillier, builder, a Captain, Miss Mabel Havel of her grandparents, Donald, of Dunlop, East W. East Wawanosh, crippled by a kick received the other Geo. Gaining our Children's Confidence.
Few mothers really think what a grave
error they are committing in repelling
the confidence of their little ones. The
time may come, all too soon, when the
children who are thus repelled, will re-
fuse to have confidence in mamma, who
she would give all she holds dear in the
world to gain it. Children must have
somebody to talk to and confide in, and
if mother does not have time to listen to
them, it is any more than natural that
they will seek a confident elsewhere!
And who knows what wrong and harm-
ful counsel and advice that person may
give your boy or girl? You may say,
perhaps, that your boy or girl never
care to confide in you; they always pre-
ferred outside confidants. If so, moth-
ers, whose fault is it? A mother is her
child's natural confidant, just as much as
she is her child's natural protector.
And if her child turns from her to seek
counsel from others, then in nine cases
out of ten, the mother must have woefully
failed in her duty.

Wise The Clock.
The best clock needs regulating and
winding when the main spring runs
down. So, too, when the human machi-
nery gives out, it needs regulating and
the main-spring (pure blood) needs ton-
ing. Burdock Blood Bitters will regu-
late and tone all broken down conditions
of the system. In purchasing B. B. B.
beware of counterfeits.

A Toboggan Cap.
I didn't come to tell about the slide,
but how to make a toboggan cap. They
are prettier made of double zephyr
worsted although it is not uncommon
to use the cheaper wool. If made
of the latter one and a half skeins are
sufficient. Use a pair of slender wooden,
rubber or ivory needles. Cast on eighty-
one stitches and knit back and forth
(garter stitch) until the width measures
four and a half fingers. Then bind it
off, sew ends together neatly and draw
up the opening at the top. Cover the
drawn part with large, full pompons
(three or five according to taste), made
by winding needles of the doubled
wool over double rings of pasteboard,
then cut the rings themselves and re-
move them. With a pair of sharp
scissors shave the balls until they are as
smooth as velvet. The prettiest cap I
have seen required six ounces of double
zephyr, and ninety stitches were cast on
the needles instead of eighty one. Of
course, the size of the head is to be con-
sidered.

Ayer's Cathartic Pills are the best that
can be employed to correct irregulari-
ties of the stomach and bowels. Gentle,
yet thorough, in their action, they
cure constipation, stimulate the appetite
and digestive organs, and strengthen the
system.

They were at the circus: "Have you
ever seen Mile. La Rue's great feat?"
"No," she replied. "Is she a Chicagoan
or a St. Louis woman?"

A Fair Offer.
For many years the proprietors of
Hagyard's Yellow Oil have offered to re-
fund the money to all purchasers of that
medicine where it failed to give relief in
case of pain or painful affections, such
as rheumatism, neuralgia, sore throat,
'deafness, burns, bruises, sprains, stiff
joints and cords, and internal or ex-
ternal inflammation.

In A Bad Condition.
"I was so bad with dyspepsia that I
could not take food of any kind without
distress, and could not take a drink of
water for a month at a time. I have
been a great sufferer from liver complaint
and dyspepsia for many years," says
Mrs. Nelson W. Whitehead, of Nixon,
Ont., whom two bottles of Burdock
Blood Bitters cured.

Maternal Instinct. Mamma (to Lucy
who has stumbled and smashed her
doll's head)—"Don't cry, my dear; it can't
be helped. Lucy—Oh, mamma dear,
you don't know how I feel; you've never
lost a child.

While out skating last winter, G. Var-
coe, of Brandon, Man., got his feet badly
frozen. He rubbed them with snow,
and then applied Hagyard's Yellow Oil,
which speedily cured them, and saved
him from being a cripple.

For Baldness.
If the hair begins to come out, cut it
short at once. The object of this is to
lessen the weight of the hair, which is
the immediate cause of its falling out,
the weakened roots not being strong
enough to support the weight of long
hair.
Every morning, shampoo the scalp
with a soft brush and cold water, and
rub until red with ends of the fingers.
If there is dandruff, comb by tri-weekly
shampooing with castile soap or white
of egg, applying afterward a mixture of
equal parts of castor oil and alcohol.

CAMPBELL'S
TONIC
ELIXIR
This agreeable yet potent prepara-
tion is especially adapted for the relief
and cure of that class of disorders
attendant upon a list or protracted state
of the system, and usually accompanied
by Pallor, Weakness and Palpitation
of the Heart. Prompt results will
follow its use in cases of Sudden Ex-
haustion arising from Loss of Blood,
Acute or Chronic Diseases, and in the
weakness that invariably accompanies
the recovery from Wasting Fevers. No
remedy will give more speedy relief in
Dyspepsia or Indigestion, its action on
the stomach being that of a gentle and
harmless tonic, exciting the organs of
digestion to action, and thus afford-
ing immediate and permanent relief. The
carminative properties of the different
aromatics which it contains, render it
especially useful in Flatulent Dyspepsia.
It is a valuable remedy for Atonic
Dyspepsia, which is apt to occur in
persons of a gouty character.
For Impoverished Blood, Loss of
Appetite, Despondency, and in all cases
where an effective and certain stimu-
lant is required, the Elixir will be
found invaluable.
In Fevers of a Malarial Type, and
the various evil results following expo-
sure to the cold or wet weather, it will
prove a valuable restorative, as the
combination of Cinchona Calisaya and
Serpentaria are universally recognized
as specifics for the above-named disor-
ders.

DAVIS & LAWRENCE CO. (Limited)
SOLE AGENTS,
MONTREAL, P. Q.

PERRY DAVIS'
PAIN-KILLER
IS RECOMMENDED BY
Physicians, Ministers, Missionaries,
Managers of Factories, Workshops,
Plantations, Nurses in Hospitals,
—in short, everybody everywhere
who has ever given it a trial.
TAKEN INTERNALLY MIXED WITH A
WARM GLASS OF HOT MILK AND
SUGAR, IT WILL BE FOUND
A SURE REMEDY
CURE FOR
SUDDEN COLDS, CHILLS, CON-
GESTION OR STOPPAGE OF
CIRCULATION, CRAMPS,
PAINS IN THE STOMACH, SUM-
MER AND BOWEL COMPLAINTS,
SORE THROAT, &c.
APPLIED EXTERNALLY,
EXPERIENCE HAS PROVEN IT THE MOST
EFFECTIVE AND BEST REMEDY FOR
PAIN IN REMOVING THE PAIN
ARISING FROM
SPRAINS, BRUISES, RHEUMA-
TISM, NEURALGIA, SWELLED
FACE, TOOTHACHE,
BURNS, FROST BITES, &c., &c.
Beware of Imitations.

CAMPBELL'S
CATHARTIC
COMPOUND
is effective in small
doses, acts without
gripping, does not oc-
casion nausea, and
will not create irri-
tation and congestion
as do many of the
usual cathartics ad-
ministered in the
form of Pills, &c.
Ladies and Chil-
dren having the most sensitive
stomachs take this medicine without trou-
ble or complaint.
CAMPBELL'S CATHARTIC COMPOUND
is especially adapted for the cure of
LIVER COMPLAINTS AND BILIOUS DIS-
ORDERS.
FOR ACID STOMACH AND LOSS OF AP-
PETITE.
FOR SICK HEADACHE AND DYSPEPSIA.
FOR CONSTIPATION OR COXTIVENESS.
FOR ALL COMPLAINTS ARISING FROM A
DISORDERED STATE OF THE STOM-
ACH.
This medicine being in liquid form,
the dose can be easily regulated to
meet the requirements of different per-
sons, thus making it equally well
adapted to the use of the little child as
to the adult. Put up in three ounce
bottles, and sold by all dealers in
family medicines.
Price Retail, 25 Cents.

CAMPBELL'S
TONIC
ELIXIR
This agreeable
yet potent pre-
paration is espe-
cially adapted for
the relief and
cure of that class
of disorders
attendant upon a
low or weakened
state of the sys-
tem, and usually ac-
companied by Pallor,
Weakness and Pal-
pitation of the Heart.
Prompt results will
follow its use in cases
of Sudden Exhaustion
arising from Loss of
Blood, Acute or Chronic
Diseases, and in the
weakness that invari-
ably accompanies the
recovery from Wasting
Fever. No remedy
will give more speedy
relief in Dyspepsia
or Indigestion. For Im-
poverished Blood, Loss
of Appetite, Despon-
dency, and in all cases
where an effective and
certain stimulant is
required, the ELIXIR
will be found inval-
uable.

WHAT'S UP? Things That Are Happening Around Us.

The End of the Mouscating Season—Away Back in the Sweet Long Ago—Laying Municipal Questions on the Shelf.

—Well, thank goodness and the persistence of my faithful spouse, the spring housecleaning for 1887 is a thing of the past, and nothing remains but the dim recollection of a hideous nightmare, a few hammer-hit fingers, and a cold in the head of yours truly—the latter contracted while eating my frugal meal in a standing position on a damp floor.

—But there's one thing that rejoices my old heart, and that is that beautiful, happy, joyous spring-time is fast blossoming into gladsome summer-time. And the mornings and evenings are lengthening, and the cadences of the thrilling-throated birds break in upon the morning slumbers and arouse us all with their artzic feeling; and in many a home is heard the sound,

"Awake my soul, and with the sun / Thy daily stage of duty run; / Shake off dull sloth and early rise / To pay thy morning sacrifice."

Yes, there's exhilaration in the early morning, inspiration in the rising sun, harmony in the song of the wildbird, melody in the whistle of the farmer's boy, as he trudges to his labor shortly after sun-up, a sweet breaking of rest in the crowing of chanticleer, the lowing of the kine, the cackling from the barnyard, the whinnying of the two-year-old—yes, there's good in everything at this season of the year.

And, as I rise with the lark, and breathe in the fresh, balmy air of spring, I forget my grey hairs and rheumatics, and, taking off my spectacles, take a long, long look backward, to the time, when, down where the waters of the Atlantic beat against and are beaten back by its rock-bound eastern coast, I first endeavored to think out the problem of life, drawing inspiration from the dawn of morn and consolation from the close of eve.

Today, with this hair straggling back from my temples, and relaxed thumbs and sinews, with a knowledge of the fact that the journey is no longer up hill, but that the sun has reached beyond the meridian of life and is causing the shadows to lengthen around me, I yet take pleasure in the glory of the summer morn, and rejoices in the calm of summer's eve.

What though brightest hopes have not always been realized? what though that which appeared to be luscious fruit while on the tree turned to ashes when in the hand? what though in times past I have been perplexed with business cares and political differences? what though the friend of yesterday is the opponent of today, and changes have been made by the hand of Time and the Reaper in the circle of those around whom my heart-strings twined?—is there not after a pleasure on a bright morning in taking a retrospect and returning thanks that I have still the power of Enjoyment in the present, and Hope in the time to come?

And that is why I can forget my aches and pains, and cares and sorrows, and, as in the long ago, join in the lightsome carol: "How beautiful the morning, when summer days are come, / And we can rise betimes and hear the wildbird's happy song."

—But there, now! I'll haven't gone to work and grided clean off into dream-land, instead of talking to the neighbors like a Dutch uncle on the water-works question, and the race-course business. So I'll have to wipe the glasses with the old red bandana, and settle down to the hard pan, and the question of municipal taxation, instead of meandering through the graveyard of the past, with its tombstones sacred to the memory of this one and that one—with its green grasses, daisies, and forget-me-nots. Yes, I guess I'll buckle down to hard and fast lines of thought, and lay down a few pointers for the guidance of the intelligent electors in the matter of the town bylaws, for, as I have frequently remarked before, years from now when a new generation springs up, and we, the old heads, have been placed on the retired list, who knows but our actions of today may be the determining acts for weal or woe, in the prospects of our town.

You see, there isn't any of us knows it all, although when we were younger we all thought we were loaded for heavy game. Now, to my mind, and looking back upon a chequered career, and years fraught with interesting experiences, I am of opinion that at the present crisis in the history of the town but one course is open to us. I recollect once when I lived in a town that had settled down to—But there! What's the use of bringing up more reminiscences at the heel of the hunt? I'll have a chance to sit on the back stool and talk to the neighbors on the bylaw questions between button-holing will do more in getting votes than an expansive article on the situation would do now, and I guess I'll let my moralizing keep for the present.

AXX.

MECHANICS INSTITUTE.

Annual Meeting—Election of Officers—Annual Report.

At the annual meeting of the members of the Mechanics Institute held in the rooms Monday evening, the following members of the board were elected: President, Thos. Weatherald, vice-president, W. H. Murney, 2nd vice-president, Ed. Sherman, treasurer, A. J. Moore, secretary, Geo. Stevens, directors—T. C. Nafel, W. F. Foot, C. A. Humber, J. A. Reid, and F. H. Spence.

On motion the retiring president, S. Malcomson was elected honorary member.

The following is the ANNUAL REPORT.

To the Members of the Goderich Mechanics Institute: In submitting this, the annual report for the year ending April 30th, 1887, your directors have much pleasure in announcing a fairly prosperous condition of affairs, but regret to state that though, compared with past years, the attendance in the reading room shows no falling off, but on the contrary an increase, yet considering the number of attractive and instructive newspapers and periodicals provided free for the public use, there is not that general appreciation so great a boon as might reasonably be expected. To the mechanic the Institute presents something more than a name, affording as it does the perusal of such excellent and practical periodicals (and these remember absolutely free) as the "Scientific American" and its "Supplement," "The Canadian Magazine of Science and the Industrial Arts," "The Popular Science Monthly" and "Hill's National Builder."

During the past year the Institute has suffered loss in the death of the late librarian, Mr. Walker, who was an efficient painstaking and courteous official. The vacant position is now filled by Mr. Hugh Hamilton, who may daily, (save Sundays) be seen at his post.

In connection with the Institute have been maintained during the past twelve months in the following subjects: Book-keeping, Phonography, Drawing and Music. Your directors are of opinion that such classes do a good work, and have a beneficial effect in instructing and refining the public mind.

Your directors have pleasure in tendering the thanks of the Institute to the Town Council for their customary liberal donation of \$100.00, which gift, under existing circumstances, is requisite and necessary for the maintenance of the vital spirit in this Institute, and in its free reading room; moreover your directors have every confidence in stating that the sinews of war thus furnished have been most profitably expended in providing wholesome and elevating literature for young and old, rich and poor alike.

Attention is drawn to the condition of the plastering in the room. It is recommended that steps should be taken immediately to put this otherwise cheerful apartment in thorough repair.

The Librarian's Report presented herewith shows the number of volumes at present in the library, their description and circulation, and an account of the various newspapers and periodicals on the shelves.

The treasurer's report shows the receipts and expenditures for the year and the number of members in good standing. By a little canvassing this latter might be much extended and the standing of the Institute thereby much enhanced.

Your directors beg leave to tender the hearty thanks of the Institute to the proprietors of our local press and other benevolent persons who during the past year have materially assisted in the good work by donations, and other kind encouragement.

DISPOSALS.

Chas. Robertson, son of John Robertson of this place, met with a very painful accident on a load of hay one day last week. While driving up the hill just before coming to his father's gate, the load went over, and in the fall Charles broke his arm. He had medical attendance at once, and is now in a fair way of recovery.

John Cheser took the first prize with his colt at Wingham spring fair. This speaks well for Bluevals, and we may look out for some fine stock round here shortly.

Quite a rage has set in again for Manitoba. Thomas Jackson, Chas. Jackson, and John Bowman, of Morris, left the beginning of this week. Jno. Collic, the son of our worthy station master, left with the crowd but had not made up his mind where he was going.

Mr. Robert King has raised what promises to be a splendid building for machinery, beside the Freester's hall. This street is beginning to be noted for fine buildings.

Mr. Sellers is greatly improving his place, besides a new washhouse lately added, he is at present engaged in building a stone foundation under his house, which will greatly improve it both with respect to comfort and appearance.

Brandford is vigorously enforcing the law against leaving horses and vehicles for a protracted time on the public streets.

The new immigrant building being erected in Quebec City will be finished on July 1st. It is 420 feet long, and two stories high.

The General Hospital ambulance of Montreal was called out last year, and in April 30, 287 times, as against 136 times in the previous year.

Within six feet of the grave of Lindley Murray is one inscribed "He done what he could." Murray's grammatical marble has twisted half round trying to turn its back on this.

Never speak unkind to a child. A child's feelings are very sensitive and an unkind word rankles in memory and may cause it to drop a banana in your path.

The Harrison Tribune says that during the past two weeks four of our hotel keepers have been fined for violation of the Scott Act. We understand that some of them purpose closing up.

For Sale or to Let.

HOUSES TO RENT—HAT COB—GHEE house, corner of Albert and Newgate streets, containing 10 rooms with pantry, hard and soft water, &c.; there are also on the premises, good lawn, and a number of bearing fruit trees. Also, a comfortable dwelling house on St. Patrick street, containing 10 rooms, with a large garden, and a well, &c. For particulars apply to JOHN BIECKEN-RIDGE, Newgate-st. 206-21.
