LA GRIPPE RAVAGES

The trouble sweeping over Canada is an epidemic. Weakened and Broken Constitutions Left Behind—How to Regain New Health and Strength.

La grippe is one of the most dangerous diseases that annually sweeps over Canada. It starts with a sneeze—a slight cold—and ends with a complication of troubles. It lays the strong man on his back; it tortures him with fever and chills, with headaches and dizziness, with depression, with loss of appetite and often with the occasional convulsion. You can avoid a gripper entirely by keeping the use of Dr. Williams' Pink Pills. The trouble takes as its victims those whose blood is in a poor condition; and its after-effects are more dangerous and more lasting than the trouble itself. For the after-effects of a gripper are a gripper entirely by keeping the use of Dr. Williams' Pink Pills. The trouble takes as its victims those whose blood is in a poor condition; and its after-effects are more dangerous and more lasting than the trouble itself.

TARIFF MEASURE BEFORE CONGR.

BY MAJORITY OF FIVE AND MEANS COMMITTEE REPORT FAVORABLE.

Washington, Feb. 12.—The complete bill of the Senate taken by the New York Tribune yesterday afternoon showed that the measure came in with the favorable majority of the nineteen members that committee had urged as "a measure in the interest of the great mass of people of the country."

The seven members of the committee who opposed the bill at the committee's final session yesterday were given permission to minority report next week. Senator Gurnea, of West Virginia, asked for special consideration that statement next week while the House agreed to the bill.

The agricultural interests, interested in the lumbering industry from whom the primary benefits against the measure are handed at great length. The opinion is expressed that the fish catching industry in Gloucester will not be materially injured by the restriction of Canadian catch in the fish packing industry.

As to wheat, the final beneficiary of bread is placed in the interests of the wheat raisers. The wheat crop, which cannot help the farmer.

THURSDAY, FEBRUARY 16, 1911. ELECTRONEERING BY INSULT. It is hinted that the reciprocity arrangement may have a reflex effect on the fiscal question in England.

Under the heading, "The Policy of 1891 should be the policy of 1911," the Montreal Gazette reproduces a manifesto issued by Sir John Macdonald twenty years ago, on the subject of "unrestricted reciprocity."

SEPARATING BUSINESS FROM SENTIMENT. It is stated that because Canada is making a reciprocity agreement with the United States, despite their three-repeated verdict to the contrary, the British people are directed as turning swiftly and surely in the direction of a protection tariff, and that under that tariff Canadian products would be admitted to their markets under lower rates than those charged on products from foreign countries.

Who says the Empire is in danger? That unless we build battleships and enforce conscription we perish? Have we not Colonel Sam Hughes still with us? And in the points of willingness to fight, and of endurance in the fight, is not the Colonel a match for anything that walks or floats or flies? Of his skill it is not for a layman.

Sedentary habits, lack of outdoor exercise, insufficient ventilation of food, constipation, a torpid liver, or various ailments, may be the result of a weak stomach. Chamberlain's Stomach and Liver Tablets will cure you.

to judge, but no expert of outstanding repute has yet thrown discredit upon the Empire's position. The Colonel has been taken at that score, for the Colonel has not been back about putting himself where the experts might see him perform.

Canada, too, will have cause for gratitude if the British tariff people are forced to proclaim their cause as a democracy unrestrained by constitutional guarantees? Will it be Portugal, where revolution has recently convulsed the country and expropriated the priests? Will it be Spain, where the present Government is at war with the monarch? Will it be in Rome itself? Our fellow citizens have only to look about them to see that there is no nation so tolerant as the flag of Britain and no charter of liberty in the world like that of the British Empire.

merits. There is room for belief that the British protectionists would have prospered better had they taken an open stand and called for the adoption of a tariff purely and simply to benefit the British industry and to increase the revenue of the exchequer, treating the preference to the British Dominions as an incidental possibility.

These are things which will give French Canada pause. If the issue ever comes squarely before us, as to which road we shall take at the parting of the ways? Today, our "separated brethren" lie at ease in one of the most sheltered nooks in the world. Where else will they find themselves so secure?

Provinces—have any doubt as to what would happen them in the event of union with the American Republic? They should bear the idea with which opponents of their school systems stare, when they contemplate the probability of annexation.

EASTERN PACKERS OBJECT TO TARIFF

DEPUTATION FROM ONTARIO AND QUEBEC WENT UPON CABINET MINISTERS.

Ottawa, Feb. 13.—A deputation of meat packers of Ontario and Quebec waited upon Sir Wilfrid Laurier and Messrs. Fielding and Paterson today to protest against the reciprocity agreement insofar as it affects the meat packing industry.

Mr. Flavell presented the case for the meat packers. He said that their market was in Canada and that Great Britain and the United States were the price of hogs in Canada exceeded the price paid in the United States. Under the reciprocity agreement, the trade of Western Provinces would be lost to Ontario and Quebec.

Under the agreement, the minimum price of hogs would be determined by Buffalo and not certain seasons of the year the price paid by the American packers would be too low for the Canadian packers to pay and they would have to shut down. This would stop export to Britain because British trade must be regularly maintained.

In reply to the Premier, he said the substance of the position was that under reciprocity, hog raising and packing would cease to be an industry in Canada. Consideration was promised.

THE REPUBLICANS OPPOSE THE BILL

BUT THE DEMOCRATS WILL SUPPORT TARIFF AGREEMENT ALMOST UNANIMOUSLY. Washington, Feb. 13.—The McCall bill carrying into effect the Canadian reciprocity agreement reached the floor of the House today and probably will be passed by that body before adjournment tomorrow night. Even the opponents of the measure admitted today there was no hope of stopping it in the House.

A test vote came today soon after the House was called to order by Speaker Cannon. Mr. McCall moved the immediate consideration of his bill. This was objected to. When the voting began, however, it soon became apparent that with comparatively few exceptions, the lines were being drawn between those favoring and those opposing the trade agreement. As finally corrected, the vote to take up the bill was 197 to 129.

Few Democrats Oppose. The Democratic vote was divided 134 for immediate consideration and 19 against. The Democratic leaders say that there will be but six or seven votes against the passage of the bill from their side. No time was set for a vote today, but tomorrow Mr. McCall will endeavor to secure an agreement to end the general debate at five o'clock and to begin the reading of the bill for the amendments, the House to remain in session until the measure is passed.

NATIONAL GRANGE TO PUT UP A BILL

The United States Farmers Organization Says That The New Agreement Will Discourage Them—Will Fight in Congress. New York, Feb. 10.—The cry of the National Grange, a resolution claiming members 1,000,000 farmers in thirty has been started to defeat the action by Congress which would adopt a reciprocity treaty. The committee of the Grange at a meeting at New York City adopted a resolution protesting against the enactment of the bill, called for by the Grange to exert pressure upon congressmen from their various states to vote against the measure. It is believed to go to Washington to oppose the measure.

The committee issued the following statement: "The undersigned, representing principal organizations of farmers in the United States, earnestly against the enactment of the bill, called for by the Grange to exert pressure upon congressmen from their various states to vote against the measure. It is believed to go to Washington to oppose the measure."

STAFF SERGT. ENSOR NEW CHIEF OF POLICE

Well-Known Officer of the R.N.W.M.P. Has Been Selected as a Successor to Chief Lancy—Will Take Charge of the Force Next Week.

(From Tuesday's Daily.) Staff-Sergt. Ensor, of the R.N.W.M.P., was yesterday appointed chief of police for Edmonton, in succession to Chief Lancy. The appointment was made at the commissioners' meeting and had previously been decided upon consequently there was little discussion.

The new chief is of Irish birth and has seen six years of service in the Mounted Police. Although but a young man, he has been advanced to the position of staff-sergeant and for some time has been performing the duties of a sergeant.

FIVE HOMELESS BARRIERS

THE CITY WILL FIGHT C.N.R. BILL AT OTTAWA

There is no life like clean, wholesome life in a home. A child who grows up in a happy home life is better equipped for life than a child who grows up in a home where there is no love, no sympathy, no affection...

Chief Lancy's resignation came up and it was moved by Commissioner Hutchins, seconded by Commissioner Bouillon, that the resignation be accepted.

TRULY, SOME PETITION—THIS PICTURE GIVES SOME IDEA OF THE LENGTH OF THE PETITION SIGNED BY SIXTY-THOUSAND MONTREAL WORKINGMEN IN FAVOR OF THE EARLY BUILDING OF THE GEORGIAN BAY CANAL.

It is quite probable that Sergt. Ensor will give Chief Lancy, whose resignation will take effect as soon as it can be arranged, in order that he may enter upon the duties of chief license inspector at once.

At the hearing of the case last November, the defendant produced a colorable imitation of the plaintiff's trade mark, or design, or device, or name, or other identifying mark, which was so similar to the plaintiff's mark as to be calculated to deceive the public.

TWO BANKS MUST PAY MONEY INTO COURT

An Order Issued on Saturday by Mr. Justice Beck—The Money Will Bear Interest at 3-1/2 Per Cent Until Suit Ends.

An order for the payment into court of all the A. & G. W. bond money which is now deposited in the Dominion bank and the Union bank, was made by Mr. Justice Beck in the Supreme court chambers on Saturday in the fight of the Province to secure the money held by banks.

Mr. Justice Beck said that to his mind the banks should be left out of the action altogether and the money paid into court as a fund for which the Province is to be responsible.

NINE MANAGERS HAVE ORGANIZED

The Alberta Mine Managers' association is the culmination of several months' work on the part of several prominent men in the mining industry in this district, and is in line with similar organizations in Canada, as well as in Great Britain, United States and other countries.

THE CITY WITHDRAWS ITS CASE UNDER THE NEW MARKET BY-LAW

City Solicitor Explains Withdrawal of Charge Against George Middleton for Infringing the By-Law in Offering Produce for Sale Without Having First Weighed it—Will Not Submit to Regulations Imposed—Another Case Will Result.

The case against George Middleton, the farmer who refused to weigh his city scales on First street on Tuesday last, was withdrawn by the city solicitor on Saturday. No reasons were given at the time, but it is understood that as far as the by-law is concerned it failed to cover the case.

The scales are no longer city scales, as they have now passed into the possession of private individuals. There is no reason why we should use their scales any more than any other private scales, particularly when we are not exposing our goods for sale.

TO INTRODUCE VETO BILL NEXT MONDAY

Premier Asquith Makes Announcement in House of Commons—Government Proposing a List of 500 New Peers to be Appointed in the Event of Opposition by Lords.

London, Feb. 13.—Premier Asquith announced in the House of Commons today that he would introduce the government's veto bill next Monday. As evidence of the measure through the House of Commons, the Premier said in a speech at Edinburgh this afternoon that he was busy just now compiling a list of men who would accept peerages with the object of passing the veto bill in the Upper Chamber in the event of the Conservatives proving recalcitrant.

WAS TOWED INTO HALIFAX

Steamer Rappahannock Rescued by the Friedrick.

Halifax, N.S., Feb. 10.—For a second time last night the steamer Rappahannock, from London for Halifax, was helplessly drifting on the Nova Scotia coast with her tall shaft broke. Day after day passed and no vessel sighted her. The accident happened eight miles southeast of Halifax last Sunday morning. The Rappahannock began to drift in the direction of Sable Island. To prevent stranding on the sands of the island and to impede the drifting a sharp lookout was kept. No one got sight of her, however, till yesterday morning, when the German steamer Friedrick, from Sholefax, for Savannah, came along, made out the disabled steamship and offered assistance.

THE RICH MAN'S BURIAL

"Most Millionaire's Wives Now Says Carnegie"

New York, Feb. 15.—(Dorset) A man simply because he is a millionaire, was a bit of an advice when Andrew Carnegie, to a group of working girls on a magazine which the street boys were getting in and out of their hands dropped by the others. They had no food for themselves for two days before this place. The courier reports that within 15 miles of this place he came across evidence of a party to the death between a pack of wolves and a bear. The bear had been shot in his winter on the bank of the river and was getting in and out of his hole and on the ice. From the hole of blood stains and the tracks it was seen that the bear had put up a good fight before killed.
