STYLISH SPRING MILLINERY

New Millinery That Is Fascinating

Charming blossoms in the shape of new styles in Women's Hats unfold day after day in the Millinery showrooms, and they're appropriated by appreciative admirers almost as soon as they appear.

But brains are fertile, and fingers are nimble in our workrooms and the woman who comes today to seek her spring hat will be able to choose from a display that leaves nothing to be desired in variety and charm.

Hats for the Horse Show

Those who anticipate sharing the social pleasures of "Horse Show Week" will find here a collection of elaborate dress hats that will lend to their costumes character and individuality. Parisian, London and New York masterpieces, with modifications and translations of the Paris ideas done by our own designers. The collection of stunning effects is very generous indeed and practically every taste and individuality can be quickly suited.

ELABORATE & CORRECT STYLES in WOMEN'S WEAR

With the approaching "Horse Show" and its attendant social activities comes practically the first real need of a well stocked spring wardrobe. The unseasonable cold weather has probably influenced many of you to defer making your selections until now, and there may be some doubt in your mind as to the possibility of securing suitable apparel at such a short notice; but have no misgivings, our spring stocks were chosen with full knowledge and forethought of this fashionable event, and the resources of our ready-to-wear section will prove fully equal to all demands. From every important center of designing and making have come distinctive styles in women's outer apparel. Exquisite evening gowns, handsome imported Evening Wraps, superb Waists, bewitching Street Coats and Tailored Costumes. A wonderful variety of charming and out of the ordinary garments await your inspection and approval, and in no instance will you find prices exorbitant.

New Post Office Ready

As previously announced, a sub post office is now a part of this store's equipment. It is conveniently located on the main floor, near elevator, and all the ordinary business of mailing office can be transacted here. Money orders sent or cashed, letters registered, etc., etc. We hope you will show your appreciation of our efforts to improve the store service by making free use of this new sub-station. Also a branch office of the C. P. R. Telegraph Company for the receiving and despatching of telegrams and cables.

THE ENGAGEMENT RING

The engagement ring is a polite method of informing the general public that the wearer is about to commit matrimony with the aid of orange blossoms and a betrothed bachelor. It is worn on the third finger of the left hand so that everybody can see it and sympathize with the groom-elect. When a young man offers his hand and heart to some girl who stands in a recess of the front porch, bathed in the moonlight, and a bluish tint cost \$4 a half ounce, and is accepted before he can work up to his persuasion, the first thing he does is to invest in an engagement ring that causes father to

wake up at night and perspire heavily.

It is becoming the custom nowadays for a young man who yearns to get married on \$9 a week to buy a \$250 engagement ring on the installment plan, and then exchange it after marriage for a lame cow and a fireless cooker. This is a hasty and imprudent method of furnishing the home which pleases everybody but the bride who has to put up with a band ring earned by collecting tobacco tags. The diamond is usually chosen in buying an engagement ring because it does not fade or peel and can be used over and over again. Some men never think of offering marriage to anybody without having a 14-carat diamond ring in their vest pocket, ready for immediate use. It frequently happens that a woman will accept a diamond ring and the betrothal kiss with a satisfied frown and strength of arm, and then send the ring back

next day with a note stating that she can't wear a ring who breaks circles into his soup. It is a bitter experience for a proud, high-spirited man to invest heavily in an engagement ring and then have it tried back seven or eight times by jaded post-beds before he finds a soul-mate who doesn't object to aliburns.

The engagement ring is a source of amusement to adult friends of the bride-elect who have never been proposed to with any particular fervor or enthusiasm, and who recall seeing the ring in a department store window last Christmas, marked down to \$14.99. The marked superiority of the Department's sentimental methods, the adaptations of automatic machinery in every process, imparts to "Baldie" the a delicious flavor and strength that makes it very economical to use.

SUFFERING HUMANITY

Humanity is not suffering. It is pretty well, thank you! The gloom that pervades certain philosophies, the thick chill that affects certain types of religion, the dull cheerlessness that hovers over the pages of certain novelists who profess to be "realists" and to tell us the bitter truth, the leaders pessimism of all those sophisticated writers who pride themselves upon having "found humanity out," all are no more than mental and moral stomach-aches. They are trifles, as insignificant and the zzzzoes are true. But they no more

represent humanity than the hospital represents the life of the city.

At almost any given-time the number of people enjoying themselves weighs heavily the number of those in sorrow. Children are playing, young men and matris are sowing, old women are taking tea, and old men are smoking their pipes. Dionysius of Tarsus was a fool, and Julianus Aegyptius was wise, for Dionysius' epistle was: "I, Dionysius of Tarsus, is here at last, having never married, and I would that my father had not." While Julianus sang: "All the ways of life are pleasant in the marketplace are goodly companionships, and at home graces are hidden. Marriages make a suited house, and the unmarried life is never anxious; the child is a bulwark to his father, the childless are far from fear, wealth

knows the gift of valiance, white hair of wisdom; therefore take courage, live, and beget a family."

Grey Outlines Pelley London, April 3.—Sir Edward Gray's speech on Persia in the house of commons has at last made his policy perfectly intelligible. He is determined to keep out of Southern Persia. The Central India, where are to be withdrawn from Shiraz. Financial help is to be given the government. If this fails, Sir Edward admits, another course will have to be adopted. In other words, a force for the occupation of the south will have to be despatched from India. The foreign secretary appreciates the Russian precedent in the north, but he gave his sanction to that precedent when he agreed to the expulsion of Masgud Shutes.

Henceforth all my time shall be given to the pumpkin vine; I shall grow the state-of-squash, cultivate the cabbage head, and when evening comes I'll wash feet and hands and go to bed." Then when winter comes along, and the wrestling game is on, all the best men and strong all the prodigies of brain tell how dextr they could break all the vertebrae of Gotch; they could show he is a fake in three minutes by the watch. Then the farmer waxes wroth, and he sternly says, says he: "I'll go wrestling just once more and make all

THURSDAY, APRIL 3, 1913.

LIBERAL RALLY TONIGHT

The Albertan believes that all the citizens should attend political meetings. It frequently advises its readers to hear Conservative speakers. And they take the advice and attend the meetings. It believes that the same courtesy should be shown to Liberal speakers. Let us be fair and hear all sides of the question. Premier Sifton has been in power for three strenuous years. He has been subjected to the systematic attacks of the most vicious kind from the corporation press. He is in Calgary to speak for himself tonight. It is the duty of friends and opponents to hear him.

A VICIOUS ATTACK

Rev. S. Bacon Hillocks in his address last night repeated the cruel untruth once circulated by the arch-enemies of the government, to the effect that Premier Sifton was interested in coal properties in the Crow's Nest Pass, which were being opened up by the guarantee of the bonds by the Alberta legislature. When such a statement was made in the house Mr. Sifton described it as a cold-blooded lie and the members of the opposition admitted it. Premier Sifton was not present last night and Rev. Mr. Hill, as repeated the vile and vicious slander. The Albertan cannot believe that Rev. Mr. Hillocks would willfully misrepresent an opponent in such a dastardly manner. Of course, he should not trifle with the reputation of public men without knowing the truth of his statements. But he is somewhat new at the political game and so is deserving of some consideration. If he persists in repeating the foul and vicious untruth, the people of Calgary will get some idea of his sense of fair play and truthfulness. As all the properties in the Pass have been opened up for ten years, the statement of Rev. Mr. Hillocks is as ridiculous and silly as it is untruthful.

A PARTY WITHOUT A POLICY

The opposition party is one without a policy. The Albertan has made this statement before and proposes to make it again until the party produces its platform in black and white and shows that the party is behind it. Some newspapers insist that the party has a platform. But let them produce it. That will settle the whole thing. The Albertan will gladly give them space to show what they have, what they have advocated and what they stand for. One Conservative paper says that the party had a meeting last February and drafted out a platform at that time. Another paper declares that the meeting was one year ago last February but neither gives any details of the platform. If the Conservatives are still behind the platform adopted at that time, we shall be very glad to hear about it. They have done nothing whatever in the house to advance a single plank in it. For instance, if we are not mistaken they said something, in very remote days, about prohibition, but though the leader of the opposition would accept the vote of the temperance people, he has not let the word pass his lips within the provincial legislature. Besides that, his newspaper champion in Calgary comes out to champion the cause of Charlie Bell, who had for good reasons been deprived of his license of the King George hotel. Mr. Michener seems to be prepared to accept the support of either party. But it is hardly likely that he will get the support of either. But let them come along with the policy, the record, the platform or the promises of the party. We are anxious to see them.

HEAD OF THE OPPOSITION

R. B. Bennett, the solicitor of the Royal bank in the A. & G. W. case, the direct emissary of Robert Rogers, the western exponent of the narrow market government, who is the elevator monopoly itself and representative of practically all the monopolies which are distressing western Canada,

Editorial Notes

Rev. S. Bacon Hillocks, in his address in North Calgary, is speaking of the wrong-doings of his opponents. But not one of his opponents in this election, either in legislature or city council through any wrong-doing, which cannot be said of the candidates supporting his own party in this election. It is Rev. Mr. Hillocks' desire to furnish him with the same. Nothing is sacred to the opposition candidates, and now they are dragging the university question into the

arrived in the city yesterday to take part in the contest and attempt to defeat the Sifton government.

Mr. Bennett begins by announcing the issue in the coming contest. Usually the people determine the issue for themselves, but the solicitor for the Royal bank, the elevator monopoly and the direct emissary from Mr. Rogers, has decided to call the issue himself. He says that it is to be the A. & G. W.

Mr. Bennett is the elevator monopoly, as we just said. At a previous meeting in Calgary he spoke about "my elevators." And "my elevators" are paying from 15 to 19 cents a bushel for oats which is much less than the cost of production. Is it surprising that Mr. Bennett is anxious to get the people to consider something except the price of oats and the elevator question?

The Sifton government is attempting to break down the elevator combine. Mr. Bennett announces that the people are not to consider that at all. Elevator combines and the breaking down of them, must not be considered. Mr. Bennett has come to Alberta to make a demonstration to induce the people to think of something besides the price of oats and the elevator monopoly.

If Mr. Bennett and his forces should succeed in defeating the government, they would deal the most vital blow to the campaign for wider markets that has ever been dealt in this western country. Would there be much chance of elevator competition with R. B. Bennett, the elevator monopoly himself, on the job dictating the policy of the government?

The presence of Mr. Bennett should arouse the people to the real meaning of the campaign upon which they are engaged. The defeat of the government means a victory to the narrow market people, to the 15 cents a bushel oats advocates, to all the corporations with which Mr. Bennett is identified, most of which are working directly against the interests of the farmers.

SPEAKING OF CATECHISMS

Now that there is a sudden revival of interest in the shorter catechism, Mr. Michener setting the style, The Albertan takes the opportunity of asking a few questions of the opposition leader himself.

Have you a policy? If so, what is it? Did your party support the Farmers' Elevator bill?

Did your party support the government's Farm Implement bill?

In your campaign in 1909 did you support the Rutherford-railway policy? Did that include the A. & G. W. legislation?

Did you not write a letter to the ex-premier announcing independent support of his government in 1909, on the strength of which he did not campaign in your riding?

Did you not on the very first opportunity accept the leadership of the opposition, making independent support of the Rutherford government impossible?

Did you support the Boyle-Riley resolution in the house favoring the cancellation of the agreement with the A. & G. W., the building of the road by the province and the spending of the balance of the A. & G. W. money, for roads and bridges? Do you not know that that solution contains the very same principle which led to the rejection of the legislation of the Sifton administration by the privy council?

Did you not continue to favor such a solution of the A. & G. W. difficulty until R. B. Bennett became solicitor for the Royal bank, when you then favored a payment of a large sum of money to some person, name unknown for "fixing" the case?

Did you or any member of your party ever object to any money vote passed by the provincial legislature? If so, which one?

Did you or any member of your party ever object to any expenditure of money at all by the province? If so, which vote?

You are reported as saying that the direct legislation passed by the government does not go far enough. Will you tell us wherein it is less liberal than the direct legislation of Oregon, South Dakota, Montana or similar legislation of any other states in the Union?

Did you as leader of the Conservatives of Alberta ever urge upon Premier Borden the desirability of him fulfilling his promise to hand over the natural resources to the province?

Did you or any member of your party in the recent legislature introduce any legislation, resolution, acts or bills which would in any way benefit the electors of Calgary or any other riding in Alberta? If so, what are they?

Your supporters speak in a most abusive and insulting manner of your opponents and so far have been unrebuked by you. Do you know that one of your candidates, campaigning in a neighboring riding, was forced to resign from the Calgary city council for irregularities in that council? Do you approve of that sort of candidate?

Mr. Michener, or some of his supporters, might answer these questions because they are of particular interest in this contest.

its neighbor, San Francisco, in 1904. That time, had 75,000 people and was all scratched out of shape trying to maintain metropolitan life. Two days after the earthquake it had 200,000 people. Unfortunately the census didn't come along in time to register the people's population in the census records, but in 1910 Oakland still had 150,000 people and was growing fast.

It is extremely difficult to persuade any Oaklander to say a harsh word about earthquakes. Oakland is situated on the rambling extensive bay of San Francisco and was originally founded by people who wanted some relief from the climate of the other side. Oakland was founded by the coast hills for wind break and claims to have a climate 178 per cent better than San Francisco. This, however, is not conceded across the bay. The debate between the relative merits of Oakland and San Francisco climaxes has now been in progress for half a century and shows no sign of settlement.

Oakland is a city of great life and vitality. It is filled with residence streets. It is filled with

people who have the science of living pleasantly down to an extremely fine point and it claims to have many more covered porches and Portlands. Its people are a hardy sea-faring race who have traveled the six century miles by ferry to San Francisco night and morning so often that they only smile when they cross the English channel.

FINANCIER PASSES ON FEATURES OF THE NEW BANK ACT

H. C. McLeod, Former General Manager of Bank of Nova Scotia, Comes All the Way From Italy to Accommodate the Committee

PRaises SOME PROVISIONS AND CRITICIZES OTHERS

Has Good Word to Say for Canadian System of Banking; Says Profits Are Not Excessive; Urges Greater Protection for the Depositors

OTTAWA, April 2.—The banking and commerce commission, when consideration of the new bank act was taken up today heard the evidence of H. C. McLeod, ex-general manager of the Bank of Nova Scotia and generally recognized as one of the monetary experts. Mr. McLeod came all the way from Italy in response to a cablegram from Ottawa in order that he might have the benefit of his ripe experience. He made a carefully prepared statement, covering the various features of the act, praising some of its provisions, criticizing others, suggesting new features, and dealing in a general way with the Canadian banking system.

He praised Canadian banking machinery, contending that banking-profession in Canada are not excessive, urging greater protection for the depositors, defending foreign loans, advocating a rigid and thorough external inspection of the general management of each bank, and was of the opinion that the amalgamation of the banks could only be made possible by act of parliament.

In addition to the number of other important suggestions and observations. He said, in part: Rapid Expansion a Problem.

"I am not in accord with the prevailing idea of banking profits being excessive, an idea voiced by the press as well as by the suggestions before the committee. One of the difficulties that confront Canada pertains to the procurement of sufficient banking capacity to keep pace with the expansion of the trade and development of the country. That difficulty would not exist if banking held out the prospect of good profits.

"The machinery of the Canadian banking system is excellent, but in many individual cases it has been used without skill, or recklessly used. From the outset the financial authorities have failed to exercise effective control over the banks. We are told the government is afraid to assume any responsibility, but it is not so in other countries.

"Among the provisions that should be introduced for the protection of depositors there ought to be included a most rigid inspection of the general management of each bank. A less efficient inspector, or one where the smaller banks are inspected and the larger ones, through influence, go free, would be a mockery of the depositors' rights. The system proposed in the bank act is an acknowledgment that external inspection is necessary, but only by the utmost activity in the development of finance can this plan be made effective. No stipulation is made as to proper qualifications required of the auditors and it is open to any man to have his balance sheet audited by auditors that are nothing more than 'dummies' of the general manager.

"External inspection will clear away false accounting and have a salutary influence, but there were causes of failure that it may not obviate. It may not save a bank from over-expansion of loans, nor prevent the inevitable consequences of running without sufficient cash reserves and liquid resources. The banks should be required to keep a fixed cash reserve of one per cent. Some ten years ago I advocated ten percent of a bank's liabilities to the public; I now advocate fifteen percent, as present conditions show the need of a larger reserve. There should be a provision that, in case the percentage is impaired

of the large banks?" asked Mr. Turiff. "The branch managers of the large banks are supervised by experts at the head offices," said the witness. "In time each local manager is educated to head office ideals."

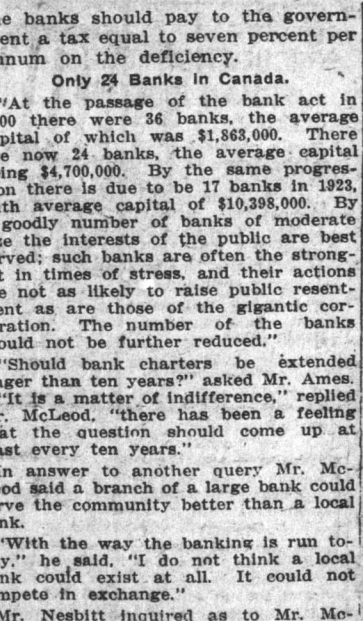

"There are many cases where they don't," said Mr. Turiff. "Yes, we all know that." "Would you limit bank capital?" asked J. H. Sinclair. "The idea is well worth consideration." "Would you limit deposits in any bank?"

"The tendency would be to reduce the interest on the deposits." To Mr. Macdonald, Mr. McLeod said the capital should be limited and the reserves increased. If this did not work out to the advantage of circulation some other way would have to be found. To Mr. Turiff the witness said Canada would be better with 40 or 50 banks and a capital not above five millions. He would keep the extra profits as a protection to depositors.

Mr. Emmerson inquired if subsidiary institutions such as trust companies. "The allied institutions, I think, are a menace to the country," Mr. McLeod said. The examination of Mr. McLeod will be continued on Thursday.

Paduach Under Water Paduach, Ky., April 2.—All the lower sections of the city are under water to a depth of two feet and 250 refugees are at a camp and board in the higher western part of the city. The water here at midnight was 13 1/2 feet and the river was rising at the rate of an inch an hour. A stage of 265 feet is expected late today, which would shut down the lightning plant and a stage of 26 feet, predicted, would leave less than five blocks of the city out of water.

AUGUSTUS THOMAS—Who is said to be sure of an important appointment in the United States diplomatic service, President Wilson is known to be greatly attracted by Mr. Thomas' personality and brilliant work. Mr. Thomas' announcement that he wished to go to Paris as the representative of this country has been well received in Washington.

Ohio Reaches High Mark Evansville, Ind., April 2.—The Ohio has passed the 57-foot mark, the highest ever recorded here with one exception. Backwater has invaded more homes in Oakdale. There has been little loss so far.

Many people were taken from flooded houses and burns in lower Hoge county today near the mouth of the Wabash. On the Illinois side of the Wabash Indiana side. Near Carroll and Maunle families caught by the high water have been without food for three or four days. The towns themselves are flooded and unable to give aid.

At the mouth of the Wabash yesterday the water rose a foot, twenty miles up the river the rise was four inches. From Maunle, Illinois, up the river is falling slowly.

At Carroll, Illinois, the Wabash and the Little Wabash are one stream for more than 35 miles across and there is hardly a dry spot in Point township, at the confluence of the Wabash with the Ohio.

Uplandtown, Ky., on the Ohio, just above the mouth of the Wabash, is 10 to 20 feet deep in the water and the water is running into the second stories of the business houses. The water is six inches above the 1884 mark now and the last inhabitants have left the stricken town. A woman's body was found in the river there yesterday. It is believed she was a victim of one of the towns of the Great Miami.

A family row involving the seizure of baggage, followed by a free-for-all fight between Mrs. Mike Heroduck, William Bodark and W. Handabrook, terminated in police court yesterday. Bodark is charged with the chief offender and was fined \$1 and costs.

Marlborough's Big Farm

London, April 2.—The Duke of Marlborough's declared intention of putting a thousand acres of Blenheim park under the plough to the production of wheat caused Mr. Outwater to notify the Right Honorable Walter Runciman, president of the board of agriculture, of a question as to what extent other park lands in England are capable of similar treatment.

COBALT CONSIDERS BRITAIN'S TREATY WITH JAPAN

Premier Borden Explains Relations of Island Kingdom and Canada, and Asks for the Ratification of Mother Country's Treaty With Japan

TELLS OF EFFORTS TO RESTRICT IMMIGRATION

Says the Japanese Government Will Maintain the Limitation and Control of Immigration of Laborers from Japanese Empire to Canada

OTTAWA, April 2.—Premier Borden, in moving the second reading of an act respecting a certain treaty of commerce and navigation between his majesty the king and his majesty the emperor of Japan, entered into an explanation of the reasons why the government has decided to give adherence to the treaty with Great Britain and Japan, April 3, 1911.

Mr. Borden then sketched the development which has taken place since the signing of the treaty with Japan in 1911. He stated that the treaty was entered into by Japan with Great Britain and the United States. There was in the treaty with the United States a provision in regard to immigration which did not appear in the treaty with Great Britain.

There were some additions to the present treaty. It is provided that in the case of the death of a subject of Great Britain in Japan or vice versa the estate shall be administered by the consul of the country at which the deceased is a subject.

Mr. Borden concluded with a tribute to the Japanese people, who had made a development greater than in any other part of the world. He said the treaty would continue for eight years.

SEGEWICK IS SOLID FOR THE LIBERAL CANDIDATE

Hon. Chas. Stewart Addresses Large and Enthusiastic Gathering at Viking; Makes Clear Exploitation of Good Work of Sifton Government

NEW IMPLEMENT BILL WILL PROTECT FARMER

And the Reliable Firms Will be Glad to do Business in Province; Says This Act Alone Has Demonstrated Attitude of Government to Farmers

WINSK, Alta., April 2.—That the majority of Hon. Chas. Stewart and the Liberal party at the election on April 17 will be the greatest in the history of the constituency of Segewick, was the confident prediction of the Liberals at a meeting held at the Viking tonight.

The northern portion of the constituency is solidly Liberal, and while the record of the Sifton administration in the enactment of farmers' legislation has aroused widespread enthusiasm among the settlers, it will be adherence even from the meagre Conservative ranks.

The farm machinery bill has been welcomed as providing relief from the impositions of unscrupulous dealers. The farmers largely benefited by the study sons of the north, who have faced the rigors of pioneer days, are supporters of the whole program of progressiveness of the party, and they will support Stewart, almost to a man.

SENATOR DAVIS ASKS FOR REPORTS ON GRAZING LAND

Ottawa, April 2.—In the upper house today Senator Davis moved for the production of the reports on land areas in Saskatchewan and Alberta not suitable for tillage, but adapted to grazing. He stated there were considerable areas of that sort in the west which were not being made use of because there were no provisions by which they could be obtained by those who would make use of them. He advised a careful examination of the west for such areas and that they be put up for leasing on long enough terms to warrant stock men making use of them.

Senator Power called attention to the mischievous delay which has occurred in dealing with the retirement of the members of the public service and will ask why it is that no legislation upon the subject is to be introduced during the current session.

The supply bill was put through all stages after Senator Power had inquired if it contained anything for inter-colonial terminals at Halifax and Senator Choquette had asked if it provided for the purchase of paddocks. At 5:30 Sir Charles Fitzpatrick, deputy of his royal highness, the governor general, came to the senate chamber and gave assent to the interim supply bill and a number of other acts.

TOMMY BURNS OUTFOUGHT ART. PELKEY IN SIX ROUNDS

Former Champion of the World Came Back in Earnest Last Night; Pelkey Was Big and Took a Lot of Punishment, But Was Not Fast Enough

TOMMY BURNS last night satisfied himself and pugilistic followers in general, that he was far from being through as a boxer when he got the better of a six round no decision affair with Art Pelkey, the conqueror of Jesse Willard, in the Burns Arena, before the largest crowd that has ever witnessed a boxing bout in the city of Calgary. Had the battle lasted 10 or 12 rounds there is no doubt but that Burns would have caused Pelkey a great deal of distress, if not knocking him out.

Pelkey is big and a good target for Burns, and Burns hit the target and hit it hard. Pelkey was no dud and had a straight left which he constantly used to worry the former champion. Only on one occasion did Pelkey show that he had anything behind his left. It was in the fourth round when he uncorked a left hook which sent Burns down with a thud but Tommy was up before Referee Bob McDonald had time to start counting.

Tommy did practically all the real leading and chased his giant opponent about the ring. Pelkey kept jabbing with his left but showed no inclination to mix.

In the second round Burns swung a heavy left to Pelkey's jaw which sent the big fellow to the mat for the count of seven. It was a terrific punch and dazed Pelkey. It looked as though Burns would follow up and finish him but he failed to do so and Pelkey regained his poise before the gong sounded.

In the fourth, Pelkey got set and put his weight behind the left which he used as a feeler throughout.

In the fifth Tommy took advantage of the wide opening which Pelkey left and crossed him with a right to the jaw which floored him for the count of three. He no more than got up when Burns followed up with a similar blow which sent Pelkey to his knees.

The last round was rather tame. Pelkey entered a minute later, and was also given a big reception.

Both men jockeyed around for the start and after about fifteen seconds sent a feeler to Burns' face with his left. Burns sent a heavy right swing to Pelkey's stomach and followed up by missing the right and left. After a clinch Burns poked a straight left to Pelkey's face and a right hook to his jaw, and then landed a pair of body blows.

The men went into a clinch and after three or four seconds Pelkey jabbed with his left. He landed two or three left jabs and then stood off. Pelkey showed no inclination to mix. Burns jabbed with his left and Pelkey covered. Burns landed right and left swing to the body, Pelkey's left hand and a heavy right swing; the men went into a clinch.

Third Round.
Pelkey jabbed with his left and Burns swung right and left to the stomach. Burns poked a stiff left to Pelkey's face. Pelkey swung the side of the head with his left. Burns jabbed for the body and landed a heavy right swing. Pelkey continued to pepper Burns' face with left jabs. Burns tried to swing the right but missed. Pelkey made a wild swing over Burns' head. Burns poked a right to Pelkey's face and a left to his body just before the bell. Burns' round.

Fourth Round.
Pelkey jabbed with his left and Burns swung right and left to the stomach. Burns poked a stiff left to Pelkey's face. Pelkey swung the side of the head with his left. Burns jabbed for the body and landed a heavy right swing. Pelkey continued to pepper Burns' face with left jabs. Burns tried to swing the right but missed. Pelkey made a wild swing over Burns' head. Burns poked a right to Pelkey's face and a left to his body just before the bell. Burns' round.

Fifth Round.
Burns went in with a left hook which landed on the point of Pelkey's jaw. Pelkey jabbed with his left to Burns' face. Burns swung a wild left which missed Pelkey's face several inches. Burns missed another swing but then poked left to jaw. Then Tommy crossed his right and left to Pelkey's face. Burns jabbed with his left and Burns swung left and right to body. Pelkey's right hand was used to catch Burns' left. Tommy danced up to Pelkey and then swung wild left. Burns' round.

Sixth Round.
Both men appeared about for an opening and Pelkey again shot out his left but Tommy saw it and landed heavily with both right and left. Burns missed with a right hook and Pelkey got his left to Burns' face. Burns swung with left to jaw which shook Pelkey's head and he went into a clinch. On breaking Pelkey put it again and Burns swung left and right to body. Pelkey's right hand was used to catch Burns' left. Tommy danced up to Pelkey and then swung wild left. Burns' round.

HOT AFTER TITLE NOW

The Prediction of O'Rourke.
(By W. A. Phelan.)
Joe Walcott, black man and fighter par excellence, had ways that were all his own in the ring. Most of these ways were highly prejudicial to the peace and ambitions of the other fighters and a few of them concerned only Joe himself, without any bearing on the fight or the opposing foe.

One of Joe's habits was that of incessantly yawning between rounds. He would go yawning to his corner, stretch lazily back, and receive absolutely no seconding in the shape of towel, water or massage. Tom O'Rourke, his manager, would ever and anon whisper directions and suggestions in the thick black ear, but even Tom never offered Walcott any assistance unless he was cut and bleeding. Walcott liked to have things that way, and the negro's cool disregard of his second's aid frequently worried the enemy into a premature explosion. And while he thus defied all the precedents of the game, Walcott would yawn and yawn. Yawn until you could see down to his diaphragm; yawn until his monstrous mouth seemed like a red cavern set with snow white stilettes—and keep on yawning till the gong chanced once more.

Tom O'Rourke tried to discourage this habit of yawning. He told Joseph that it was not etiquette to reveal what he had had for dinner, and that no gentlemanly boxer would thus expose his map until it looked like the front of a lively stable. Mr. Walcott only grinned—and kept on yawning. It had become a habit with him and a habit that he could not give up.

One night Walcott was battling Tommy West, a rough and ready fighter. At the end of the first round he yawned terrifically. O'Rourke raised a warning finger. "Honest to Pete, Joe, if you don't stop that yawning a bit, you'll fly into that cave some evening."

Walcott sneered. "Marse Tom," said he, "deber' only two kinds of birds dat ever fly into dis hyar tunnel. In times of prosperity, de noble birds dey call de chicken wings his way into dis face; in times of poverty, de national emblem called de cock chop is given welcome. No oaths, an' neber will be, Marse Tom."

"Nevertheless," hissed O'Rourke, "you will please remember that I never told you anything that didn't come true. Remember now, remember."

During the sixth round, something wrenched, clawing, clutching, brushed the face of a boy in a gallery. It bumped into the face of the next boy in the row and then clawed his hair. The kid, with a smart, grabbed the creature, and found himself holding a bat—a tiny, half-bird, frightened little animal, that had somehow taken a rash trip from its attic home. The kid looked at the bat and then leaned over the rail. At this very moment, Joe Walcott, who had just reached his corner, opened his mouth in a tremendous yawn. The kid flung the bat straight down upon him, and the animal landed squarely in the open cavity.

Walcott gave a strangled howl, spat out the bat, and stared at it with bulging, wide-open eyes. The bell rang; Joe advanced in a dazed way to the center, and before he could get his wits together, West had given him the beating of a lifetime. It was a draw after a terrific struggle. As Walcott climbed from the ring after the final round, he spoke to O'Rourke in an awe-stricken fashion.

"Marse Tom," said he, "yo tele de trufe. Eberyting yo' evah said come true—but Ah never expected yo' had poweh to forecast de birds of de all and deir landin' in de features ob dis niggar!"

Jeff Malone went to point instead of the hot and started off with bulging, wide-open eyes. Twelve Feet of Water
Evansville, Ind., April 2.—Shawnee-Down, Illinois, is 12 feet deep in water and the levee is awash in places. An expected further rise of two or three feet would see the entire levee under water. The levee, on the lower side was cut so that the water entering was back water and comparatively little damage was done by the wash.

As soon as the water in the levee had equalled the stage of the Ohio out side, the militia permitted the telephone lines to be strung across the river, and the citizens committee, consisting largely of business men, to enter. A patrol of the flooded town is being made by boat and the business men are guarding their stocks put out of reach of the highest water before the town was cleared by the militia Monday. The phone exchange was built taking floods into account and the girls in the exchange are above any possible water. They kept flooded houses, the militia permitting certain tobacco to get certain results—we have put in "Flor de Claro". This blend is our own—thought out—tested out—proved out—by ourselves. It's a blend you can get only in "Flor de Claro"—a blend to please the popular taste—every man's cigar.

A \$36 Bicycle for \$3.00

We are forming a Bicycle Club, limited to 75 members. Each member pays \$3.00 per week for 12 weeks. Every week a drawing is held and the fortunate member receives his bicycle without further payment. So that one member gets his bicycle for \$3.00 the first week. Another for \$6.00 the second week, a third for \$9.00 the third week, and so on for the 12 weeks. On completing the 12 payments all who have not already drawn a bicycle will receive theirs, having paid in \$36.00, the cash price of the wheel. A member may complete his payments at any time and take his bicycle.

The bicycle is the "Red M." made especially for us. It is equipped with coaster brake, steel mud guards, roller chain, rubber pedals, 3-spring saddle, pump and tool kit. This bicycle is guaranteed for one year. In addition to this we equip each bicycle with a dollar "Dreadnought" ball-bearing siren, making a \$36.00 bicycle.

Get our pamphlet giving full particulars. Come in and join the club at once, as it starts with the first 75 members secured.

Monty and Unholz Get a Draw
Saskatoon, April 2.—Mickey McIntyre, of Saskatoon and Rudy Unholz, the "Fighting Boss" fought a fifteen-round draw here tonight. The boys licked steam and it was a tame affair. Mickey was the aggressor, while Unholz kept covered up a great deal, and did the bulk of the work. Unholz is a very hard man to hit and played a foxy game.

John Breckenridge, who was obliged to undergo an operation recently, was reported yesterday to be out of danger and improving rapidly.

The death occurred yesterday afternoon of Reginald Lampont Sharratt, age 25 years, of 218 1/2 Eighth Avenue, East Calgary. Funeral services will be held Friday afternoon in A. M. Shaver's chapel at 2:30 o'clock. Interment will be made in the Union cemetery.

Uncolored Truths About the Provincial Telephone System

(Continued from page one)

COST COMPARED WITH MANITOBA SYSTEM

Now let us consider the cost. I have made a careful comparison of the telephone system of Alberta with that of Manitoba. Both are provincial systems and erected at the same time. I shall use some figures, but urge my readers to wade through them because they are worth while. I quote from a blue book published by the Dominion government, "Telephone Statistics of the Dominion of Canada," and from the "Report of the Department of Railways and Telegraphs of the Province of Alberta," both are official.

The comparison is hardly fair to Alberta for three reasons: (1) Alberta is a less thickly settled country than Manitoba, and has a much larger non-profitable area, making a total of 1,601,750 for 3,869 patients, or 607 hospital days. The cost of the bill sent to the city is \$2,184. The amount seems unnecessary large. However, it seems doubtful there are so many thousands of citizens, who are actually unable to pay their hospital bills.

Dr. Lincoln has advised that the city apply for legislation enabling hospital patients owning land in the city, as soon as the bill is passed, to be treated as if they were. Some steps will be taken along this line.

GREAT DIFFERENCE IN COST OF CONSTRUCTION

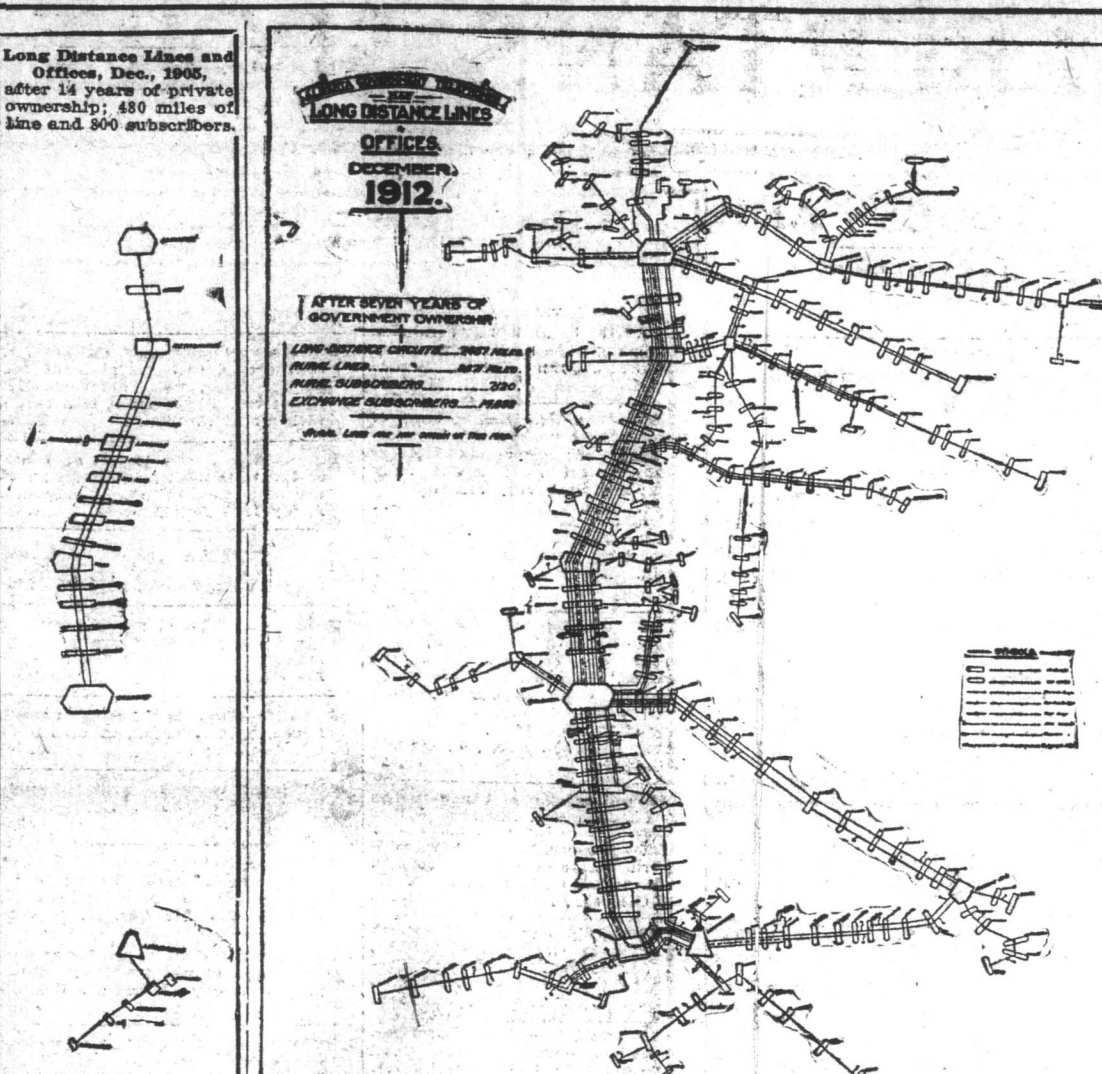

With these facts in mind let us examine the two systems. The total cost of the Alberta system is \$5,588,848. It has 21,813 telephones. The cost of the Alberta system is a little less than that of Manitoba. The telephone system of the province of Manitoba cost \$9,785,722. It has 39,777 telephones. The Manitoba system cost \$237 per telephone. Under the circumstances that look very favorable to Alberta. Despite greater difficulties in construction by the price for material and sparsely settled country the cost of construction is ten percent less.

ALBERTA SUBSCRIBERS PAY LESS FOR PHONES

A comparison of the cost to the subscriber shows that Alberta telephone users pay much less in Alberta than in Manitoba. The revenue in Manitoba per telephone last year was \$31.20. The revenue in Alberta per telephone last year was \$35.80. The comparison should be stronger in Alberta. A telephone system is not like a printing plant or a sidewalk. When wires become broken or an instrument is faulty, they are taken out and replaced by good ones and the expense comes out of the maintenance.

ALBERTA SHOWS VERY SATISFACTORY SURPLUS

No criticism has been offered, as far as we can find out, of the maintenance or of the operation of the company. The opposition has made complaint in the house. Mr. Tweedie makes that in addition to the revenue covering operation, maintenance and interest, it should allow for depreciation and sinking fund. There is no need of that. The province of Manitoba does not even include interest on the investment.

Now let us discuss the cost of operation. The cost of running the system, to the province of Alberta, despite the large areas and long stretches was \$12.20 per telephone. The cost of running the system in Manitoba was \$12.20 per telephone. The cost of running the system in Alberta was \$12.20 per telephone. The cost of running the system in Manitoba was \$12.20 per telephone.

It is a straight question of policy. Shall the government raise the rates and meet the necessary item of expenditure or shall it keep on as at present and keep the present rates? If Alberta had the Manitoba rates last year it would have had a surplus of \$155,000. If the cost of operation in Alberta had been as great last year as the province of Manitoba, we would have a deficit of \$71,000.

This comparison shows that the telephone system has been conducted in an admirable manner. The first act taken by the Alberta government was to reduce the deficit to the consumer. Once again the price was reduced. Despite the fact that the obstacles are numerous, the province wide and more difficult to string telephones, that population is scarce, that the cost of labor and material is higher, a comparison between Alberta and Manitoba, shows that the Alberta system is administered with the maximum of efficiency and at the minimum of cost.

Liberal government is surprising even the most optimistic workers. Among them is Mr. Smith, who is being elected by an immense majority. No Conservative has been elected in the field, but notices have been posted calling for all who are opposed to the Liberal government to attend a meeting in Calgary tomorrow. There is no organization, it is said, and it is doubtful if any opposition will be put up. The Liberal party is the only party in the riding, and all were for the popular and able Mr. Smith. He has been elected by a large majority.

The first convention of the newly constituted district of Acadia was held in the town of Acadia. The Liberal candidate, Mr. McNeil, is one of the best known farmers in the district, and it is stated, will easily carry the Liberal standard to victory. In Edmonton, the election of Mr. Cross and Hon. A. G. McNeil is assured. Mr. Stoney Plain, John McPherson, the sitting member, has been re-nominated unanimously. Everywhere the most unanimous feeling is apparent in the Liberal ranks and from every constituency have taken place and the campaign is being carried on with the Liberal party will be returned on the 17th inst., by a bigger majority than ever.

Gas Engine Versus Power Generated by Water. The opposition had submitted no policy to the people. The best that was done was a series of questions put to the people, which meant nothing. There is nothing specific in Mr. Michener's statements, and only generalities about good government.

OUTSIDE INSPECTION NECESSARY FOR ALL CANADIAN BANKS

Strong Statement Before the Banking Committee by Bank Act Made by H. C. McLeod, Well-known Banking Expert

MORE BANKS NEEDED FOR BUSINESS IN CANADA

The Government Should Pay Much Closer Attention to Banking Institutions, Declares Mr. McLeod to Banking Committee

OTTAWA, April 2.—The banking and commerce committee, when considering the new bank act was taken up by Mr. H. C. McLeod, well-known banking expert, who made a carefully-prepared statement covering the various features of the bill, and pointing out the need for outside inspection of the banks.

He pointed out that the bill provides for the appointment of a committee to investigate the banks, and that the committee should have the power to call for information from the banks, and to report to the government.

Mr. McLeod said that the bill is a good one, but that it is necessary to have outside inspection of the banks, and that the government should pay more attention to the banking institutions.

He said that the bill is a good one, but that it is necessary to have outside inspection of the banks, and that the government should pay more attention to the banking institutions.

PROVINCES PREFERABLE TO STATES, SAYS PREMIER OF W. AUSTRALIA

Winipeg, April 2.—Speaking at a
 Canadian Club luncheon today, Hon.
 J. H. Cameron, premier of West Aus-
 tralia, said that it would be a bet-
 ter day for Australia when they had pro-
 vided the best of states and a govern-
 ment similar to the Canadian gov-
 ernment, and it was only a question of
 time until a system similar to that in
 Canada would be put in Australia.

Western Australia, he said, had been
 able to order the protection of the pro-
 tection of the Union Jack, although
 even in Australia, as in other parts of
 the empire, there were those who did
 not fully appreciate what the protec-
 tion afforded by the Union Jack meant
 to their country.

CALGARY IN BRIEF

Fifteen days' imprisonment was the sentence given Geo. Shatred, a vagrant, yesterday morning by Magistrate Sanderson.

James Gallagher and E. D. Benson were each fined \$1 and costs in police court yesterday for violation of the traffic law. The defendants consented to city planning to be held in Chicago, May 6, 6 and 7, next, Calgary will be represented by J. Davidson.

Dr. Spaulke has removed his surgery from Wallace Block to 194-195, new F. Barnes Block, Second street, east and Eighth Avenue.

A minor blaze occurred in a rubbish heap adjoining St. Mary's school, but was extinguished by the fire department before serious damage was done.

The C.P.R. has returned to the city from a visit to Winnipeg yesterday, and will resume its duties within a few days.

Mr. W. R. Stanwell, editor of the Mount Angel magazine of Los Angeles, spent yesterday in the city and secured the Crow's Nest Pass in the evening.

A special meeting of the trades and labor council has been called for Friday, April 4, at 8 o'clock. It will probably be held in the large hall of the labor temple.

Costs and costs each were the fines imposed upon Hung Chong and A. Tardy in yesterday morning's police court. They were found guilty of violating the sanitary bylaw.

R. A. Hamilton, C. E., arrived in the city yesterday. He is in charge of the construction of the new electric line from Lagan station to the C.P.R. hotel last summer.

A. Y. Blain, recently appointed master in chambers, and formerly inspector of hotels, spent yesterday in the city, and dealt with several applications.

Companies A and C of the 133rd regiment are contemplating an enjoyable time this evening when they will have dinner at the Sheraton hotel, and after dinner will witness the show at the Sherman Grand theatre.

W. R. Balch, of the G.T.P. construction crew at Irrigation, was in the city Monday when he slipped beneath a car wheel. The victim was brought to the Holy Cross hospital and is doing as well as may be expected.

Stanley G. H. Nightingale left last evening on train to take up his duties with the Craven, Sask., branch of the Quebec Bank. Mr. Nightingale has been connected with the local branch of this bank in Calgary.

After this afternoon's lecture there will remain but one more of the series now being given by Dean Braithwaite of the Calgary University. The subject of this afternoon's address will take place at 4 p.m., will be "Jonah."

Magistrate Sanderson, after listening to a long and wearisome string of evidence yesterday morning, sentenced the case of Philip Goldmann, who was charged with the theft of \$350 by his late partner, B. Gallaway.

E. I. Richardson, manager of the home shop, has arranged with the Boy Scouts for several of their number to act as messengers during the big show. There are 250 reserve seats and the local branch of the Scouts will be particularly drilled for the occasion.

H. I. Mattie, general agent and traffic manager of the W. G. Barnes' Wild animal circus, was in the city yesterday making arrangements for the W. G. Barnes' circus which will exhibit in Calgary Monday and Tuesday, May 28 and 29.

The Dominion hotel, Ninth avenue west, one of Calgary's popular hostels for many years, was sold yesterday to A. D. Dunlop, of Calgary, for \$20,000. The property was sold to Mr. Dunlop by the late W. G. Barnes, who was in the city yesterday.

Many Calgarians were under the impression that yesterday was civil census day. This was not the case, as we know from heavy frosts during the past month it was decided to postpone the census until about the middle of the present month, the exact date to be named later.

W. B. Scott, accused of an attack upon a young woman under 18 years of age, was arraigned before Magistrate Sanderson yesterday and chose a speedy trial before the magistrate. The case is in a local hospital and the case was remanded until the 11th inst. to give evidence.

The following are military orders for the Sixth Calgary troop of Boy Scouts: Tonight, Thursday, meet at north side of Louisa bridge for promoting fire drills at 8 o'clock; Saturday, April 5, meeting at Louisa bridge at 3 o'clock; Monday, Tuesday, April 7, swimming classes at Y.M.C.A. at 7:45 p.m. Full uniforms must be worn.

The sum of \$1,000 is demanded of the H. W. McNeill Co. by John Hruschak, as compensation for the death of his brother Thomas, who was killed at the company's mine at Camrose. The suit is being tried before His Honor Judge Cameron, under the workman's compensation act. The action is being brought on behalf of the victim's parents.

E. J. McGovern, a teamster in the employ of Plunkett & Savage, suffered the fracture of both kneecaps when thrown from his horse yesterday. McGovern's horse stumbled, and in retaining a tight grip upon the reins the driver was pulled from the wagon, slighting his knees. The victim is in the Holy Cross hospital where he is attended by Dr. Richardson.

Licence Inspector Manary received notice Tuesday of the death of Capt. W. F. C. Gordon-Cumming, youngest son of the late Sir Alexander Penrose Gordon-Cumming. Capt. Gordon-Cumming was an old-time Calgarian, having owned the Brown ranch near here twenty years ago. He was in London at the time of his death.

Leonard Trainor, Daniel Bugtie and Geo. Penn, all Italians, were arrested Monday by a C.P.R. detective for stealing a ride on a freight train from Edmonton on the previous night. They were brought before Inspector Durfee Tuesday at the barracks and the two first named were sentenced to 14 days, this because he was found to be carrying concealed weapons. A revolver fully loaded was discovered in his blankets.

The yearly statement of the customs department which has just been made out is convincing evidence of Calgary's rapid growth and industrial expansion during the last year. For the year 1911-1912 the returns were \$1,322,945.59 and for the year 1912-1913 the returns were \$2,801,186.37. This is equivalent to an increase of nearly 55 percent, which is admitted to be a phenomenal increase in custom house statistics of this city.

Would Save Crystal Palace

London, April 2.—The lord mayor of London is making a final attempt to save the Crystal Palace and the grounds which surround it, from destruction. From this purchase he has addressed a letter to the city corporation and 27 other public bodies urging their co-operation with him in this behalf.

The amount required for the purchase of the Crystal Palace and its grounds is £250,000. A fund will be opened at the Mansion House for the purpose of raising this sum. If the corporation desired, the mayor declares that he would have the famous palace pulled down and its 200 acres built over would be a loss to the nation, in view of the enormous and ever increasing population, which makes the preservation of open spaces, great and small, a matter of vital necessity.

**PROVINCES PREFERABLE TO
 STATES, SAYS PREMIER
 OF W. AUSTRALIA**

Winnipeg, April 2.—Speaking at a
 Canadian convention today, Hon.
 John Sadden, premier of West Aus-
 tralia, said that it would be a better
 thing for the Dominion to have the
 provinces instead of states and a central
 government similar to the Canadian
 system. This change was based upon the
 fact, and it was only a question of
 time until it was adopted in Canada,
 where it was found in Australia.

Western Australia, he said, had been
 able to make progress under the pro-
 tection of the Union Jack, although
 when in Australia, in other parts of
 the empire, there were those who did
 not fully appreciate what the protec-
 tion afforded by the Union Jack meant
 to their country.
