BY WAY OF VARIETY. Crimbeak (as her husband comes at night) "What does the clock do?" "Nothing, madam, nothing. It's enough to say nothing." "Yonkers, can't your daughter dance?" "In the houses. The lady addressed around at the tall, amine girl leaning at the wall. "Not unless she's somewhat frigidly replied. "You were playing in the West a fortnight ago, were you?" "Yes, we were playing in the West a fortnight ago, were you?" "Yes, we were playing in the West a fortnight ago, were you?"

The Vancouver Colonist.

THIRTY-NINTH YEAR. VICTORIA BRITISH COLUMBIA THURSDAY FEBRUARY 11 1897. VOLUME XXXIX. NO. 17

THE FRENCH VIEW

OF Sir Michael Hicks-Beach's Challenge—A Hanoteau's Temperate Speech to the Deputies.

Paris, Feb. 8.—There was a big attendance in the chamber of deputies today in expectation of hearing an exciting debate on the Egyptian question, as M. Hanoteau, the well-known anti-British deputy from Castellane, had announced his intention of interpellating the government upon the action it intended to take in view of the defendant utterances of Sir Michael Hicks-Beach in the British house of commons on Friday last. M. de L'Orléans to-day asked for a statement from the government on the references of Sir Michael Hicks-Beach to France and England. The diplomatic gallery was full and among those who listened to a long speech of M. de L'Orléans on the situation, was Sir Edward J. Hanoteau, the British ambassador.

The minister for foreign affairs, M. Hanoteau, replying said he was unwilling to engage in polemics between the two parliaments which may be the cause of regrettable misunderstandings. But the utterances of Sir Michael Hicks-Beach did not tend towards a solution of pending international questions, or the Great Britain had accepted the proposition of defence in polemic between the two parliaments. The case (that of the Egyptian debt) to advance the funds necessary to defray the expenses of the Anglo-Egyptian expedition to Dongola. Why then should the endeavor to discredit its jurisdiction which, Mr. Hanoteau stated, was approved by all Europe? The Sudan expedition gravely concerned the future of Egyptian finances, and France as one of the trustees of Egypt had the right to ask that this side of the question be carefully examined. Many times had Egypt sunk enormous sums in expeditions into the Sudan, and it was the result of these efforts to conquer the Sudan and Abyssinia, which had compelled Europeans to intervene. The French government had therefore felt it its duty to send an expedition which was embarking in an enterprise which might again lead to a financial deficit.

THE TARIFF COMMISSION.

WINNIPEG, Feb. 8.—(Special)—Hon. Messrs. Fielding and Patterson opened a sitting of the tariff commission this morning. Various deputations waited upon them and asked lower duties on fruit, gasoline, dairy appliances, and many articles used by farmers. The Northwest delegation said that no market could be opened up with British Columbia, on account of the high freight rates, and all urged a reduction. F. W. Thompson, manager of the Ogilvie Milling Co., urged that the duties on flour and wheat be maintained. The commission concludes its sessions to-day.

The Nor'West publishes a statement that the question has been finally settled, and that Archbishop Langensin and Premier Greenway have agreed on the terms. That Mr. Prendergast is to be taken in the Manitoba cabinet as Minister of Education is part of the story. Your correspondent has just seen Mr. Greenway, who denies the whole statement, and says that no recent negotiations re the school question have taken place.

HEART PAIN.

Dr. Agnew's Cure for the Heart Defies the Most Intense Pains—No Matter How Evident the Trouble, it Masters Disease in Half an Hour, and in the Case of John Crow Five Bottles Cured Heart Disease of Ten Years' Standing—Here's His Testimony Unqualified—John Crow, son of Mr. George Crow, farmer, near the village of "On the Hill," was alarmingly afflicted with palpitation and enlargement of the heart for nearly ten years. I doctored with best physicians and tried numerous remedies with very little benefit. I was advised to try Dr. Agnew's Cure for the heart. I tried it, and I determined to give it a fair trial. I had taken about five bottles, and felt to-day that I am as well as ever I was. I am completely cured.

Winnipeg, Feb. 8.—Word has been received here from North Ontario to-day that McLean, the Conservative candidate, has a clear majority. The official declaration has not yet been made, but will be followed by a recount in any case.

WATCHING BUTLER.

SAN FRANCISCO, Feb. 8.—Newer was a criminal more closely watched than Butler, alias Ash, the Australian murderer, to prevent the possibility of his committing suicide. A trusty man is on guard near Butler's cell to prevent visitors handing him in anything with which he might attempt suicide by self-destruction. U.S. Marshal Selwyn, in whose custody the murderer is, will not permit Butler to be further impeded by the presence of a trusty, as there has been too much of this in the past.

On Saturday Mrs. Eliza Wynn, who identified the prisoner as Richard Ashe, said she had formerly kept a lodging house in Sydney, N. S. W., and that at intervals Ashe lodged at her home. She said that one night Ashe brought to her the steward declared that he had been drugged and robbed of his discharge papers and 27s. Ashe had disappeared, and she again until she saw him today in jail at the city prison.

DEEDS OF A HERO.

ROSLAND, Feb. 8.—(Special)—By an act of heroism Jim Hemsworth saved the lives of two miners working in the Young America 100-foot shaft on Sunday. They had filled the iron bucket with ore and it was within twenty feet of the surface when Hemsworth turning the crank when it broke at the elbow and knocked him down. The logs failed to hold the load and the bucket was rapidly descending on the heads of the unconscious miners when Hemsworth threw himself on the reel and blocked the machinery by thrusting his arm in the wheels. It was horribly lacerated and amputation may be necessary, but the miners in the shaft were saved. Hemsworth blocked the wheels and released Hemsworth's arm in a few moments. When asked if he was much hurt, he replied: "I don't know how long I saved the boys."

A BATTLE ROYAL.

NEW YORK, Feb. 8.—A Washington dispatch to the Journal says: "The publication of the new Dingley tariff rates has resulted in protests pouring in from all sections of the country to the ways and means committee, and to the tariff commission, and to the Senate. A dispatch to the Daily News from Berlin says that the Berliner Tageblatt announces that while in Berlin Count Mummichoff, German minister of agriculture, declared that his chief aim would be to preserve the European peace. He would regard it as a matter of the greatest importance that Russia become involved in war with any other country, either alone or in conjunction with other nations. Count Mummichoff, it is asserted, said that Russia was ever obliged to declare war he would resign the same day."

EDISON'S LATEST.

NEW YORK, Feb. 9.—Thomas A. Edison is about to give to the world another discovery, as wonderful in its way as the fluoroscope, by means of which he will put the X-rays to practical use in revealing the bony structure of the body. Tungstate of calcium not being sufficiently sensitive to transform the strong light discovered by Roentgen to a light that would so illuminate the interior of the human body as to render its delicate tissues visible, in other words, to make it transparent, Mr. Edison set himself to find a crystal that would possess the requisite quality. He has discovered one. It is probable that when he perfects his new discovery the slightest displacement of the crystal will be revealed to the doctor's staff.

THE "STATE OF GEORGIA."

ST. JOHN'S, Nfld., Feb. 8.—The cruise of the Nimrod in search of the State of Georgia was a failure. The Nimrod steamed around the northern edge of the ice field, which extended 170 miles off the coast, and went as far north as possible. Speculation has been indulged in over the sighting of an unknown steamer, reported from the ice off Perryville. Many persons believe this unknown steamer is the missing State of Georgia.

TROUBLES IN CRETE.

Assistance Asked For the Persecuted Christians—Strike in Russian Cotton Mills.

Timothy Healy Consults the Pope—More Rioting in Hamburg—The Cearina.

LONDON, Feb. 8.—A dispatch to the Times from Crete, reviewing the recent troubles in Crete, says that but for the presence of foreign warships the loss of the most important towns of Crete would have been a serious matter. A comparison of the two surveys shows that at Forty Mile Creek the 141st meridian is defined by the American survey at only a distance of six feet from Mr. Ogilvie's line. At another point where there are neither mines nor population there was a difference of 800 feet, but in this case the United States gave Canada credit for 200 yards more territory than Mr. Ogilvie did. Taken throughout the difference between the Canadian and American surveys is so small that there can be very little difficulty in arranging an agreement.

The Premier to-night received word of the death at Paspargas, from typhoid fever, of Mr. Paul, Liberal M.P. for Doncaster. The deceased was a son of the late Lord Paul, and was well known by his British origin and was well liked by both parties.

NOTES FROM OTTAWA.

OTTAWA, Feb. 9.—The stock raisers of Alberta, who have a monopoly of supplying cattle food to Roseland, have protested to the government against the new international quarantine regulations. A meeting of the cabinet will be held this week to consider the proposal regarding the Crow's Nest Pass railway. Several propositions are before the government, and it is likely that one of them will be adopted in a few days.

THE ALASKA BOUNDARY.

Idea of Friction Between Canada and the United States Ridiculed.

Mail Accommodations for South Kootenay—What Will Sifton Do With Smart?

OTTAWA, Feb. 8.—Government officials ridicule the idea of friction over the Alaska boundary matter. A comparison of the two surveys shows that at Forty Mile Creek the 141st meridian is defined by the American survey at only a distance of six feet from Mr. Ogilvie's line. At another point where there are neither mines nor population there was a difference of 800 feet, but in this case the United States gave Canada credit for 200 yards more territory than Mr. Ogilvie did.

OTTAWA, Feb. 9.—John Brown, probably the oldest Orangeman in Canada, died at Carp village, near here, last week. He was 89 years old, and had been a member of the order for seventy-seven years.

OTTAWA, Feb. 9.—The Premier to-night received word of the death at Paspargas, from typhoid fever, of Mr. Paul, Liberal M.P. for Doncaster. The deceased was a son of the late Lord Paul, and was well known by his British origin and was well liked by both parties.

ARBITRATION TREATY.

WASHINGTON, Feb. 9.—The Anglo-American arbitration treaty was under consideration by the senate from 1 o'clock to 5:30 yesterday. The entire proceedings in executive session, and behind closed doors. The first half of the session was spent in debating a motion introduced by Senator Hill to consider the treaty in open session, and the most interesting part of the proceedings was based upon this motion.

BISMARCK'S OPINION.

What the Iron Chancellor Thinks of the Principle of International Arbitration.

NEW YORK, Feb. 9.—The World, under a London date, has a long interview with Prince Bismarck by a correspondent called by appointment with Count Zant-zau, a son-in-law of the prince, who enjoys the closest and most confidential relations with the great chancellor. The World requested an expression of opinion from Prince Bismarck on international arbitration; whether, in the great diplomat's view, it is especially desired by the world, in its academic or theoretic sense; whether such a treaty, if ratified, would be likely to bear the strain of a grave international rupture—in short, whether serious difficulties between the nations might not in future be settled by arbitration instead of war.

A CHANCE TO ADVERTISE OUR MINES.

The California press association is to visit the people of this city to score a point. California is a state where there is a great deal of accumulated wealth.

What we have in mind is that the visiting newspaper men should be given an object lesson as to the richness and extent of our places and our mines.

A QUESTION DISPOSED OF.

It is quite evident that there will be no reciprocity treaty with the United States this year. We do not know that this is wholly a matter of regret.

Each particular mine is described in detail, as to the manner of working, the money expended, the machinery in use, and every other particular which can be learned by patient search and investigation.

This is but one of the means employed by the British Columbia bureau to bring about the development of the mineral resources of that province.

BY WAY OF VARIETY.

Oh, my dear madam, let this thought console you for your husband's death; Remember that other and better bereaved widows have gone the same way.

THE RETAIL MARKETS.

"I don't think you may look for cheap prices until the new produce comes in." The produce merchant in the produce business is not much to be relied upon.

The second volume of the draft revision of the statutes has been printed. The Chief Justice in his report lays special stress upon the Companies' Act.

THE DEPARTMENT OF MINES.

The Seattle Post-Intelligencer is very greatly impressed with the value of our provincial department of something similar in connection with the Federal cabinet.

THE DEPARTMENT OF MINES.

The Post-Intelligencer has recently received three bulletins published under the direction of the British Columbia bureau of mines.

The Seattle paper complains very strongly of the manner in which mining interests are neglected by the government of the United States.

The president of the council announced yesterday that it is the intention of the government to ask the house to make the taking out of miners' licenses optional with employees in mines.

BY WAY OF VARIETY.

Oh, my dear madam, let this thought console you for your husband's death; Remember that other and better bereaved widows have gone the same way.

The Massey-Harris Bicycle. THE WHEEL WITH THE SILVER RIBBON NAME PLATE. ONLY ONE GRADE, and that the HIGHEST. ONLY ONE PRICE, \$85.00.

BOYS' 2-PIECE SUITS. Half Price. B. WILLIAMS & CO. Hatters and Clothiers, 97 Johnson Street.

Granby Rubbers. It is no wonder that rubbers, which are not the same shape as the boot, should be uncomfortable. They are honestly made of pure rubber, thin, light, elastic, durable, extra thick at ball and heel.

LEGISLATIVE NOTES. A published interview credits Mr. Semlin with being motion paper. He has a grievance, or thinks he has, and he makes no secret of it.

CONSUMPTION CURED. An old physician, retired from practice, having had placed in his hands by an eminent curative of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested his wonderful cure for relieving human suffering.

ONLY EXPORT TRADE. The Central Lumber Co., which controls mills in the states of California, Oregon, Washington, and the province of British Columbia, is defaulting, but out of its loss arises, rather will probably arise, another trust embracing one or more large territories, differing only from the old concern in that it will confine itself to export trade.

CASTORIA For Infants and Children. Sold by Dean & Hiscocks and Hall & Co.

NELSON & NORTH

Salmon River Country V More attention Than Ever Before. Splendid Samples of Ore British Canadian Gold Co's Properties

Some very pretty sample were received yesterday from district by the British-Columbia Fields Company; also sample Galena Farm (Slocan) ore.

Several English and Canadian companies are also interested in doubling its capacity and running in a branch line from City, connecting with the main line.

It is no wonder that rubbers, which are not the same shape as the boot, should be uncomfortable. They are honestly made of pure rubber, thin, light, elastic, durable, extra thick at ball and heel.

There are a few little differences in legislative routine between the practice of our provincial assembly and that of some of the others. For example, the public accounts were distributed with any former message from the Lieutenant-Governor.

Some pressure is being brought to bear upon the Dominion government to extend the Intercolonial Railway from Lewis to Montreal. The Grand Trunk connection between the two points, and the Canadian Pacific has its line to Quebec where connection is made with the Intercolonial by ferry.

To-Day Diamond Dyes Make Home Dyeing Easy. Fifteen years ago the work of home dyeing was just in its infancy.

Chatting at the Strand yesterday on the desirability of British Columbia ore being smelted in the province instead of being exported in the raw state.

DEBATE ON THE SPEECH

Provincial Legislature Gets Down to Work and Discusses the Government Policy.

Both Sides of One Accord as to Sending Relief to Famined Stricken India.

The provincial legislature got down to work yesterday, the debate on the reply to the speech from the throne taking up the whole afternoon, and not being finished by 6 o'clock it was adjourned till to-day.

THE CITY. The Delaware Mining Co.'s stock is now quoted at 12 1/2 cents per share.

On Friday Henry Wm. Christian Meyer, bar, died at Banff, where he had gone to his health some time ago.

OSPREY'S GREAT ILLUSTRATED WEEKLY. The Graphic, a list of contained several articles of special interest.

HEARD IN THE HOTELS. "I don't think there will be the slightest opposition to the incorporation of Roseland," said Col. R. Scott.

Talking about the report that some American mine owners in the United States were giving preference to their own countrymen as against Canadians.

A well known American mining man who shared Col. Scott's views as to the unlikelihood of Americans making objection to the incorporation of Roseland.

"I don't want a vote in Canada," said Mr. Blewett. "Canadians have a vote in the States and consequently Americans would not think of asking that privilege here."

Twelve Hard Work Fifteen Years Ago. Fifteen years ago the work of home dyeing was just in its infancy.

A DERELICT SLOOP.

An Unknown and Submerged Vessel Passed by the "Tees" in Sechart Channel.

Schooner "E. B. Marwin" Loses All Her Canoes and Boats in a Gale.

A water-logged sloop in Sechart channel was passed by the steamer Tees yesterday morning. The Tees went some distance out of her course to discover evidence of the submerged vessel's identity, but this she could not even then learned.

THE SPEECH. The paragraph in the speech which will attract most attention is that referring to aid to transportation facilities.

THE GOVERNMENT WILL BE ASKED TO include in its appropriations this year the sum of \$3,000,000 for the opening of a trail from Hazelton, on the Skeena, to Germanen creek, a branch of the Omineca...

OUR CLAIMS ON THE DOMINION. In the year ending June 30, 1896, East and West Kootenay contributed to the provincial revenue the sum of \$82,000.

more customers for them. It is time to begin a campaign for the development of the Northwest Coast and the interior tributary to it.

SPEAKING of the proposed Crow's Nest Pass railway, the Toronto Globe says "its consideration naturally arises out of any discussion of mining in British Columbia."

The facts above set out prove two points taken in the first of this series of articles; namely, that the development of British Columbia means the prosperity of Canada, and that as a financial proposition it will pay the government of Canada to grant material aid to the opening of the country by highways of transportation.

THE house shared with Premier Turner in regretting the impracticability of holding the session in the new buildings; but it is satisfactory to know that before long the present structure of the legislature will be formally dedicated.

Mr. Semlin is very economical of the time of the people. At least he was very anxious to get to work to-day and not to wait until to-morrow.

Mr. Helmecken is evidently loaded for something. He wants to know, by the way, if the visitor to the circulation office, Mr. Spence, had a little ruling ready which delayed the honorable gentleman's battery for a day or two.

THE fifth monthly "A" class medal competition of the Victoria Golf Club, which the committee decided was contested for on their links at Oak Bay on Saturday resulting as heretofore, it has been decided that the "B" class competition, which was to have been played on that day, has been arranged for Saturday next, the 18th inst.

THE Rosland Miner protests against any legislation for the incorporation of that town until the people immediately interested have had an opportunity to discuss its provisions. This seems reasonable.

WHAT the people want is a revision of the statutes; amendment of the Municipality Act; better municipal law; protection of the honest settler; so that when he "takes up" a piece of land he will know that he has a valid title; a measure looking to the regulation of the coal mines; and also an amendment to certain acts which will give municipalities, cities and towns the right which is right—of choosing their own officials. The man who opposes the above proposition nor government next year will be a very private individual.

REdistribution may be considered as a subject of no immediate practical concern. The opposition will not waste time by discussing a question, the details of which, before it will come up for consideration, will be entirely different from those now existing.

"Darling," said she, "do you love me as much as ever?" "Oh, I do," said he, "but I have not been very much satisfied heretofore. That ought to have satisfied her, but she had to ask: "Why?" "Because," said she, "I only gave him 5 cents." "Push," said the Second Spiritualist—Medium—Twinlike.

OTAWA, Feb. 8.—(Special)—Archbishop Langevin left for Winnipeg today. The report from Winnipeg is that he had succumbed to Hon. Mr. Laurier's sunny ways and given his assent to the school settlement in the north.

OTAWA, Feb. 8.—An almost pious appeal to the Pope from Hon. Mr. Tarte is published in today's papers. He prays the Holy Father to apply a remedy to the existing evils.

SESSIONAL NOTES. The time-honored form of opening the legislature is sometimes a target for newspaper wit, but after all has been said the ceremony is worth retaining.
